

O game 531

Chapter 531 - Take the first step!

A cold glint flashed in Nibs' eyes, and his six arms simultaneously clasped together.

In the next instant.

A buzzing sound emanated from all nine scimitars, extremely terrifying.

Lin Tianhao's eyes narrowed slightly, he could see that this was sword intent.

To be precise, it had already reached the level of 'asking the heart without self'.

With sword intent infused into the scimitars, the power of the scimitars was greatly enhanced.

Based on the methods Fatty had displayed so far, it would be difficult to contend with it.

Fatty also noticed this, and he kept retreating, seemingly truly unable to withstand it, only by constantly retreating could he preserve his health.

Nibs pressed his advantage, controlling the nine scimitars to continuously slash at Fatty.

Finally.

Fatty retreated to the edge of the arena, his body staggering, almost falling off the arena.

Many people in the audience couldn't help but complain when they saw this scene.

"Is this the shield warrior who previously won three in a row? He's nothing more than this."

"It's not that this shield warrior is weak, but that the opponent is too strong. Didn't you notice that this scimitar warrior just cut off 4.1 million health from the shield warrior with one strike?"

"Indeed, the fact that this shield warrior could withstand one strike from this scimitar warrior and still have so much health proves his terror."

... ..

On the high platform.

The demigod Xitu finally revealed a satisfied smile on his face.

"Snow Emperor, although your shield warrior is strong, he's still a bit lacking when facing true damage."

Lin Tianhao smiled noncommittally and said, "This is only the first round, and besides, the first round hasn't even been decided yet, what's the rush."

On the arena.

Fatty had already been forced to the edge of the arena, the scimitars breaking through Fatty's defenses, slashing at Fatty one after another, causing huge damage to Fatty.

In just a few seconds, Fatty's health had dropped by one-third.

This rate of decline could already be described as terrifying.

Ten times true damage, and also able to ignore damage reflection, this Nibs' restraint on Fatty was too strong.

It is estimated that only someone like the Netherworld Artificer with a forced immobilization skill could defeat him.

It would be very, very difficult for others to confront him head-on.

Sword intent + Severing Blade Technique + Ten times true damage + Ten times damage reduction!!

With this set of combos, Lin Tianhao felt that even if Lin Qingqing went up, it would be useless.

If they really had to deal with him, it would only be during the third match, the two-on-two.

Let Fatty and Jinghong Mengshuang go on stage together.

Use Jinghong Mengshuang's characteristic of being invincible when not moving to deal with Nibs.

And Fatty's responsibility would be to ensure that Jinghong Mengshuang was not hit by control skills.

As long as Jinghong Mengshuang didn't move, she would be invincible.

On the arena.

The battle seemed to be without suspense.

Fatty's health bar was dropping so fast that the battle would end within ten seconds.

No one thought Fatty had any power to resist.

After all, if he really had the power to resist, he wouldn't have been dragged to this point.

However.

Lin Tianhao knew Fatty well.

He would never be forced to the edge of the arena just because he was helpless.

Even staggering and almost falling off the arena.

He was acting.

Deliberately showing weakness to the enemy.

It's just that Lin Tianhao rarely teamed up with Fatty, and didn't know much about some of Fatty's methods.

What was certain was.

Fatty's actions must have a deeper meaning.

But it seemed that Lin Tianhao had guessed wrong.

Fatty's health bar dropped to half, one-third.

One-fifth!!

He still didn't make a move.

As if... ...

He was really helpless.

"Snow Emperor, it seems that your team member is already helpless and is just making a final struggle."

Lin Tianhao didn't say anything.

To be honest.

Lin Tianhao also didn't understand.

He originally thought that Fatty was tricking Nibs to the edge of the arena, preparing to find an opportunity to knock Nibs off the arena, thereby ending the battle.

But now Fatty's health bar was almost bottoming out, and he still hadn't made a move, just making some insignificant resistance.

This looked.

As if it really was a trapped beast fighting.

Even Lin Tianhao was starting to doubt his own guess, let alone others.

Others weren't doubting, they were directly certain.

Fatty was just a trapped beast fighting, and his health bar would be cleared by Nibs next.

But just when Fatty's health bar was only at 10%, his health bar actually started to recover rapidly.

"Withered Wood Revives?"

Lin Tianhao was also a little surprised, because he himself had this skill, which was a good skill for a health tank.

It's just that this skill required too many skill books to upgrade later on.

Even Lin Tianhao at this moment was finding it difficult to upgrade.

Fatty's sudden and large-scale health recovery surprised everyone present.

Nibs, who originally thought the battle was about to end, was even more shocked beyond measure.

But what happened next shocked him even more.

Fatty's figure disappeared.

In the next instant, he had already arrived in front of him.

Fatty grabbed Nibs' wrist with one hand.

It could be seen that the place Fatty grabbed was petrifying at a speed visible to the naked eye.

And Fatty was also dragging Nibs towards the edge of the arena.

Fatty himself was already at the edge of the arena, so the distance wasn't that far.

Nibs was horrified.

He knew what Fatty wanted to do.

To be precise.

Everyone present knew what Fatty wanted to do.

"Overlord Body!"

"Purification!"

Nibs frantically released control-removing skills, but they were all useless.

To be precise, it wasn't that they were useless, but that Overlord Body could only make the petrification recede, and couldn't instantly remove the petrification.

And because Fatty was still holding Nibs' wrist, the petrification receded a little, and then spread back again.

Knowing that he couldn't break free, Nibs began to frantically attack Fatty.

Trying to kill Fatty before Fatty threw him off the arena.

But Fatty, under the blessing of Withered Wood Revives, had his health restored by 50%.

At this distance.

Nibs was not enough to kill Fatty.

The result was without complaint.

Nibs was thrown off the arena by Fatty.

Lin Tianhao couldn't help but admire.

Fatty was really too calm.

His petrification skill was not as strong as the Netherworld Artificer's Soul-Suppressing Nail control.

Even if Nibs reacted fast enough and teleported away when Fatty approached him.

Fatty would have no chance at all.

So Fatty was waiting.

When Withered Wood Revives was triggered, Nibs, who didn't know this skill, would definitely be shocked for a moment.

As long as Nibs' emotions fluctuated greatly, Fatty would have a chance to take advantage of it.

Fatty was lucky, he seized this fleeting opportunity.

Or rather, this was the opportunity he created himself.

In the first round, Fatty successfully helped the Fan Palace take the lead by using his cleverness.

Tutu Lu Hongqiong couldn't help but smile and said, "Demigod Xitu, it seems you were a little too happy too early."

Chapter 532 - The powerful Su Li!

Hito, the demigod, looked somewhat gloomy, naturally seeing through the situation.

In this round, as long as Nibs was careful and cautious, he would almost certainly win.

Unfortunately.

Nibs gave Fatty the opportunity.

"Best of five, this is only the first round. Relying on petty cleverness, you can win one round, but you can't win three," said the demigod Chihua.

Lin Tianhao didn't respond.

Because he originally felt that this competition might be dragged into a life-and-death situation.

After all, based on the abilities Nibs had shown, among his current team members, it seemed that none could defeat him in a one-on-one fight.

However, Fatty's victory in the first round greatly reduced their pressure.

If all went well.

They might be able to end this Holy Land's New Talent Competition in the fourth round.

Not only Hito, the demigod, looked displeased, but also Xiudeli Haohong.

He had a bet with Lin Tianhao.

Moreover, Lin Tianhao had killed two of their gods and taken benefits from them.

Under such circumstances.

He naturally extremely disliked Lin Tianhao winning.

"Demigod Hito, your hope is very high, but if you fight so carelessly, no matter how high your hope is, you might still be defeated," Xiudeli Haohong reminded blandly.

Demigod Hito nodded, "It's okay, relying on petty cleverness to win one round is already commendable. Wanting to win more is just a pipe dream, isn't it?"

Tutulu Hongqiong laughed from the side, "Hahaha, Demigod Hito, don't speak so soon, be careful of getting slapped in the face immediately."

Demigod Hito smiled somewhat unhappily, "There's no need for Mountain Lord Hongqiong to worry about this. I have my own sense of propriety when I speak."

After all, as others saw it, the main reason for Nibs' defeat in the previous match was carelessness and unfamiliarity with Fatty's skills.

It would be difficult for Fatty to beat him again in this second match.

As for the other contestants, he didn't believe there was anyone stronger than Fatty in the Mortal Palace.

However.

The Mortal Palace really sent out a new contestant in this match, one who hadn't appeared in any previous matches.

Suli!!

Lin Tianhao was also somewhat surprised that they had changed players for this match.

Perhaps Fatty also knew that it would be difficult for him to replicate the victory of the previous match, so he chose to replace himself with Suli.

Lin Tianhao could understand Fatty's decision, but it would also be difficult to win by replacing him with Suli now.

It would also prematurely expose a trump card.

Unless.

They felt that Suli had a certain probability of winning this match, otherwise, in Lin Tianhao's view, they were foolish.

However, Suli had already taken the stage, so there was no use in saying anything else.

Regarding Suli.

Lin Tianhao still had some expectations.

After all, Suli had said before that with her there, she wouldn't let this match be lost.

From this, it was easy to see that Suli should have some trump cards of her own.

As for what her trump cards were, it would be known after this match was over.

The battle between the two sides began. With a wave of her hand, Suli summoned four Earth Treants.

Seeing this scene, Lin Tianhao knew what Suli wanted to do.

The Earth Treants have a lot of control, at least among the wild monsters, they belong to the kind with a very complete control chain.

Especially.

The Earth Treants possess the Earth Cage, a terrain-locking skill, which, in other words, is a control skill that can block Super Armor.

Super Armor can break free from control, but it cannot pass through walls.

The Earth Cage is a wall used to block the opponent.

Sure enough.

Four Earth Treants simultaneously released the Earth Cage, surrounding Nibs from all directions.

Immediately afterward.

Suli summoned four Iceflame Birds. Iceflame Birds are a type of flying magic monster that can attack opponents from a distance.

The most important thing is that Iceflame Birds are flying wild monsters that can fly into the air and consume Nibs from a distance.

Just as Lin Tianhao had expected.

Four Iceflame Birds flew into the air to consume him from a distance, not giving Nibs any chance.

Nibs raised the curved blade in his hand, preparing to shatter the Earth Cage.

But how could Suli agree so easily? One by one, vines wrapped around him, entangling Nibs.

Nibs immediately released Super Armor, broke free from the vine entanglement, and slashed the Earth Cage with one blade.

The huge damage brought by ten times true damage instantly tore apart the first Earth Cage.

Four million and one hundred thousand points of true damage, truly terrifying.

Then came the second, the third, the fourth!

Nibs also knew that time could not be dragged on, so he used Blade Splitting Technique from the start.

Nine throwing knives flew out, constantly tearing apart the cage.

But at this moment, an seemingly harmless orange cat appeared behind Nibs.

The orange cat opened its bloody mouth, and a huge black hole actually rose from under Nibs' feet.

This huge black hole carried a force that was irresistible, locking Nibs in the black hole.

Another powerful control skill that ignores Super Armor.

Lin Tianhao also didn't expect that Suli's summoned beast would actually have this kind of skill.

Seeing this scene.

Demigod Hito's expression instantly darkened.

Because after Suli's black hole control skill came out, the ending was already very obvious.

Tutulu Hongqiong laughed loudly, "Hahaha, Demigod Hito, was I right? The slap in the face came so quickly."

Hearing these words.

Demigod Hito, whose face was already very ugly, was now even more like he had eaten shit, his face turning green and purple.

Besides Demigod Hito.

Xiudeli Haohong's face was also very ugly.

He glanced at Lin Tianhao and said with a fake smile, "Snow Emperor, I really didn't see that your Mortal Palace is full of hidden dragons and crouching tigers."

Lin Tianhao showed a faint smile on his face and said:

"You are overpraising us. We don't have hidden dragons and crouching tigers, it's just that you self-righteously think that the shield warrior from the beginning was our strongest team member."

With that.

Lin Tianhao's gaze fell on Demigod Hito again, and he said with a smile:

"Demigod Hito, don't forget our bet."

Hearing Lin Tianhao mention the bet, Demigod Hito was about to cry.

She originally thought that she had a surefire win, but the result was like this.

There was no accident in this second round either. After Suli locked Nibs with the black hole, the Iceflame Birds made up for the output.

Even if the opponent had ten times damage reduction, they would still be forcibly drowned in a large amount of damage.

With Nibs' fall, it also declared that the Mortal Palace had won two consecutive matches, taking the match point.

In the next three matches, as long as the Mortal Palace wins one more match, this battle will already be decided.

The result of the Holy Land New Talent Competition seemed to be self-evident.

Lin Tianhao's eyes fell on Demigod Hito.

"Demigod Hito, do you still want to continue fighting? Everyone is very busy, why don't you just admit defeat?"

Chapter 533 - Ancient Dragon Barracks!

The Hito demigod wore a cold expression, hesitating, as if unsure whether to concede defeat.

In her view, they had no hope in the next round for the Hito Temple.

To risk the upcoming battle would not only offer no chance of victory, but also expose the trump cards of their elite members.

This was because competitions similar to the Holy Land Prodigy Rookie Tournament were not one-time events.

The holy lands of the vast continent would continuously revive, and this was merely the easiest one.

It was just a pity.

This time, they had encountered Lin Tianhao's Mortal Palace, and they were already doomed to failure.

Since defeat was inevitable, it was better to conceal some tricks to seek future fame in new competitions.

Furthermore.

Lin Tianhao had previously mentioned poaching.

The Hitu demigod couldn't fathom Lin Tianhao's personality. What if Lin Tianhao really poached?

Although her previous words were strong, she herself knew that they were all adventurers, and Lin Tianhao would be more amiable towards adventurers.

Just as the Hitu demigod was about to concede.

Xiudeli Haohong coughed twice.

"Hitu demigod, I think you are not completely without a chance."

"Xuedi deliberately wants you to admit defeat. Perhaps he has already exhausted his trump cards. As long as you can break through his elite members, the road ahead will be smooth."

Xiudeli Haohong's words carried significant weight.

This made the Hitu demigod hesitate.

Just as she had thought in her heart.

This Holy Land Prodigy Rookie Tournament was the easiest opportunity for her Hitu Temple to win the championship.

Because more and more revived holy lands would emerge, and the competition between them would become increasingly fierce.

In that situation.

It was questionable whether her Hitu Temple could even reach the top four, let alone compete for first place.

But at this moment.

Tutu Lu Hongqiong couldn't help but sneer.

"Grand Palace Master Haohong, have some shame, okay? Everyone can see that the Mortal Palace has no chance of losing."

"You want the Hitu Temple to continue fighting just to force out more trump cards from the Mortal Palace."

"At the same time, it can also expose some of the Hitu Temple's prodigies, allowing you to gather intelligence for targeted action in the next competition."

Tutu Lu Hongqiong's words made sense.

This made the Hitu demigod even more hesitant.

To concede or to fight?

This result displeased Xiudeli Haohong greatly. He glared coldly at the Hitu demigod, wishing he could devour her alive.

The Hitu demigod smiled indifferently.

Her gaze fell on Lin Tianhao, and she said with a smile:

"Xuedi, congratulations to you. According to the bet, I will fulfill all your requests. I wish us a pleasant cooperation."

Hearing the Hitu demigod mention cooperation again, Xiudeli Haohong's expression darkened slightly.

"Hitu demigod, dealing with a tiger for its skin requires caution."

"Think about the fate of those who have cooperated with Xuedi before."

The Hitu demigod didn't care and said calmly:

"Grand Palace Master Haohong, cooperation requires integrity. On this point, I trust Xuedi."

The Hitu demigod wasn't joking.

Because during the previous negotiations with Lin Tianhao, Lin Tianhao had bargained.

He even used the championship of this Holy Land Prodigy Rookie Tournament as a bet.

This indicated that he was trustworthy, otherwise, there would have been no need to waste so much breath.

The grand finale finally came to an end, and Lin Tianhao's team emerged victorious.

Rays of light poured down from the sky, enveloping Lin Tianhao and the eight participating members of the Mortal Palace.

Lin Tianhao knew that they were receiving the rewards of the Twilight of the Gods.

Participating members received 10,000 free attribute points and a Blessing of the Gods.

For the monkey, this ratio was equivalent to gaining 500,000 free attribute points.

In addition to this.

The talent of the best team member would also receive a high-level evolution.

The best player of this Holy Land was most likely Fatty.

After all, Fatty had achieved a one-versus-three victory in the first match and then secured the first win in the grand finale, making his record quite impressive.

A smile appeared on Lin Tianhao's face. This victory would bring him many benefits.

"Ding, congratulations, master of the Mortal Palace. Your team has won first place in this Holy Land Prodigy Rookie Tournament. You have obtained the artifact: Ancient Dragon Barracks, Grade +1."

Lin Tianhao was also curious about how much this "Grade +1" could improve him.

He felt that his attributes had been greatly enhanced, an enhancement that normal stacking of health points couldn't provide.

Lin Tianhao immediately checked his attributes.

When he saw his attributes, he was stunned.

Because his attributes were so magnificent that he was trembling with excitement.

His health points directly broke through 1.8 billion.

Attack speed increased from 60 to 80, and other attributes also received significant boosts.

In addition to the significant attribute enhancements, all of Lin Tianhao's skills were upgraded by one star.

Of course, skills that couldn't be upgraded were excluded.

This enhancement gave Lin Tianhao a sense of invincibility and the desire to challenge the heavens.

It was this sense of exhilaration that made Lin Tianhao feel like he was really taking off.

After checking his attributes, Lin Tianhao began to examine the Ancient Dragon Barracks he had just obtained.

Barracks were not unusual, as most territories had them.

Simply put.

Barracks were places where soldiers could be summoned to help in battle.

The higher the level of the barracks, the stronger the soldiers that could be recruited.

Ancient Dragon Barracks: Divine Grade.

Effect: Can be built on one's territory. After completion, ancient dragons can be recruited from within.

Recruitment Requirements: Dragon Breath Ancient Crystal + 10.

Durability: Indestructible.

Ancient Dragon: Pseudo-God Grade.

Health Points: 995.8 billion.

Attack: 450 million.

Skills: Ancient Dragon Domain, Ancient Dragon Roar, Ancient Dragon Breath, Resurrection, Spatial Teleportation, World-Destroying Calamity, Dragon Breath Art, Whispers of the Ancient Dragon, Tyrant Dragon Ray...

Lin Tianhao felt it was a pity that they weren't divine-level troops.

But that was normal.

If there were truly divine-level troops, they shouldn't be just divine grade.

After all, barracks allowed for mass recruitment.

If a divine-grade barracks could mass recruit divine-level troops, that would be too abnormal.

Putting away the Ancient Dragon Barracks, Lin Tianhao's gaze fell on Fatty and the others below.

Each of them wore excited expressions, especially the monkey, whose return on investment should be the greatest this time.

Of course.

This was because Fatty's high-level talent evolution reward hadn't yet been received; otherwise, he should be able to obtain even more rewards.

Chapter 534 - Palace Master Haohong turned hostile!

Finally.

After everyone's rewards were distributed.

A beam of light descended from the sky, landing on Fatty.

As Lin Tianhao had expected, Fatty received the title of Best Team Member this time.

Advanced evolution of talent. Lin Tianhao also wanted to know what kind of improvement Fatty's talent would gain after completing the advanced evolution.

When the light dissipated.

Lin Tianhao immediately sent a message to Fatty.

"Fatty, what changes occurred after your talent's advanced evolution?"

Fatty was very excited and replied to Lin Tianhao somewhat incoherently:

"The star rating limit has been increased by two stars. Not only that, but now that I'm bound to you guys by a contract, I can not only gain your health, armor, and magic resistance, but also your attack power."

As expected!

Advanced evolution is indeed extraordinary. Fatty's limit has been greatly increased all at once.

"Congratulations, congratulations."

Lin Tianhao's blessings were heartfelt. Fatty's weakness was his lack of damage output, and now he can even share attack power.

One can imagine how perverted Fatty will become.

This also made Lin Tianhao look forward to using the Talent Evolution Flower to evolve his own talent.

If his talent evolves, what kind of changes will occur?

However, Lin Tianhao still knew.

Using the Talent Evolution Flower to evolve a talent should only be a basic evolution, not an advanced evolution.

The improvement is probably not comparable to Fatty's.

Before evolving his talent.

Lin Tianhao's gaze fell on Xiudeli Haohong.

He had bet with Xiudeli Haohong using a divine artifact.

Now that Lin Tianhao has won the championship of the finals, Xiudeli Haohong should naturally fulfill his promise.

Xiudeli Haohong snorted coldly, and without dragging his feet, directly threw the divine artifact key to Lin Tianhao.

Effect 1: Can be used to open the Ancient God Mystic Realm.

Effect 2: Luck +10.

Effect 3: Protective Divine Light.

Durability: 100.

This divine artifact...

No wonder Xiudeli Haohong was willing to take it out. With this little effect, it really insults the grade of a divine artifact.

However.

This Ancient God Mystic Realm still made Lin Tianhao very curious.

A mystic realm that requires a divine artifact to open, how many unknown good things are inside?

Of course.

For now, he can only think about it, after all, he doesn't even know where the Ancient God Mystic Realm is.

"Demigod Xitu, I need to go back to the Mortal Palace first. I am still very willing to cooperate."

After saying this.

Lin Tianhao walked towards Fatty and the others.

The finals are over, and he needs to take Fatty and the others away.

Lin Tianhao needed to carefully count all the gains from this time, plus the previous gains.

"Brother Hao, no, Godfather, this reward is so awesome. I want to see who dares to resist my attacks in the future."

Fatty gesticulated excitedly.

His only weakness was that his damage was not high. Most of his methods were defensive, and the main method of dealing damage was counter-damage.

When encountering a pervert like Nibus who deals ten times true damage and ignores counter-damage, he is really not an opponent.

He was able to win this time entirely because he used his cunning.

Monkey was also excited. He was equivalent to instantly gaining 500,000 free attribute points, plus a Blessing of the Gods.

This improvement is very huge.

10,000 free attribute points, directly turned into 50,000 under the blessing of the talent.

Then adding one point is equivalent to adding one free attribute point to all ten basic attributes.

This time, the improvement will be very huge.

Of course.

The biggest beneficiary should still be Fatty, or rather, Lin Tianhao himself.

After all, Lin Tianhao obtained two divine artifacts this time alone.

Although his talent was not improved, the attribute and skill improvements brought by Grade +1 can already be described as terrifying.

Health exceeding 1.8 billion, which also means that Lin Tianhao's Book of Life and Death can deal more than 18 million damage per second.

This kind of perverted improvement can definitely be described as terrifying.

Most importantly.

Lin Tianhao's all attributes have been improved, which is not simple.

In addition to the improvement of attack speed and movement speed, which are very useful to Lin Tianhao.

His magic resistance has also been greatly improved.

Because of the City God Temple, Lin Tianhao's magic resistance attribute was already very strong.

Now that his grade has been improved, the attributes have directly soared.

Just at this moment, Fatty couldn't help but scream.

"Wow, wow, wow, Brother Hao, Brother Hao, no, Godfather, dear Dad, you are my dear Dad, what's the situation with your health, magic resistance, and armor?"

Obviously.

Fatty discovered that his health had skyrocketed, which is why he was so excited.

His health has now directly broken through the 2 billion mark, crushing all players in Twilight of the Gods.

Lin Tianhao smiled slightly, "Calm down."

Fatty's body began to tremble with excitement. The benefits he gained this time were really too great.

"I'll take you back to the Mortal Palace first, and then you can rest."

Saying that.

Lin Tianhao opened the Kunlun Mirror, preparing to take Lin Qingqing and the others away.

At this moment.

A low voice sounded.

"Snow Emperor, you can leave, but these team members of yours will probably have to stay."

The speaker was none other than.

Xiudeli Haohong.

At the same time as he spoke, the great formation of the Vast Expanse Palace rose up.

"Snow Emperor, you killed the gods of our Vast Expanse Palace, and kidnapped my second brother. In the end, we can't let you leave like this."

At this point.

Xiudeli Haohong changed his tone, "This also includes you, Demigod Xitu. Don't think I don't know your little thoughts."

"You want to destroy the Moon Wheel Empire together with the Snow Emperor, use a large amount of slaughter to quickly restore the God of Slaughter to full state, so as to use the power and appeal of the God of Slaughter to rule the entire Vast Expanse Continent."

Demigod Xitu's expression instantly darkened.

"Haohong, you can't say this kind of thing indiscriminately. I did think about attacking the Moon Wheel Empire, but that was to prepare for the revival of another holy land."

"Alright!"

Xiudeli Haohong snorted coldly, "It's okay to deceive others with your words, but wanting to deceive me is a bit too naive."

Hearing this.

Demigod Xitu did not argue any further, but said in a cold voice:

"Palace Master Haohong, are you really prepared to tear your face apart? Have you not thought about how much trouble this will cause?"

Xiudeli Haohong smiled coldly.

"I don't plan to think about so much now."

"I originally thought that the Mortal Palace was only strong because of the Snow Emperor, but I didn't expect that the Mortal Palace was actually strong because of so many others."

"This time they have won the championship of this finals again, and their strength will inevitably rise to another level, so we can't let them leave."

Lin Tianhao's eyes narrowed slightly, "Palace Master Haohong, from the looks of it, you think I haven't killed enough gods before."

Chapter 535 - The vast and boundless formation!

Hearing this.

Shudeli Honghong's expression was gloomy. Lin Tianhao had killed two gods in a row, causing heavy losses to their Vast Expanse Palace.

If the Xitu Temple had won today, perhaps their Vast Expanse Palace could have gritted their teeth and swallowed this bitter pill.

But now.

Since Fan Temple won the championship, they couldn't let Lin Tianhao and his people leave.

"Snow Empress, you probably don't know how powerful our Vast Expanse Palace's Vast Expanse Formation is. Vast and boundless, no matter how strong you are, even with gods by your side, you are destined to be trapped in this Vast Expanse Formation."

Tutu Lu Hongqiong coldly glanced at Shudeli Honghong.

"Honghong, isn't this a bit too much!!"

Shudeli Honghong said angrily:

"Too much?"

"Compared to what the Snow Empress has done, we are not being excessive at all."

"Today, I will completely overthrow the Snow Empress, overthrow Fan Temple, and overthrow the Shanhai Empire."

"Pass down my order, the army will attack the Shanhai Empire. Moon Wheel Ke Clan, according to the agreement, we must all go all out and hold nothing back."

Moon Wheel Ke Clan also stepped forward at this time.

"As long as you are trapped in the Vast Expanse Formation, our four major forces - I, the Vast Expanse Empire, Icefire Los Island, and the West Pole Temple - will launch a fierce attack on your Shanhai Empire."

"To be precise."

"Our army was already in action the moment the finals ended."

Lin Tianhao laughed in anger, "Good, good, very good indeed. Honghong, do you really think your Vast Expanse Formation can trap me?"

Shudeli Honghong sneered, "It doesn't matter, if the Vast Expanse Formation can't trap you, there is still a Blue Star River Formation waiting for you."

Lin Tianhao's eyes narrowed, and an unnamed fire rose in his heart again.

Because this Blue Star River Formation is not a product of the Milky Way world, but a formation from the Alete Star System.

The other party actually said they would use the Blue Star River Formation, which means that there are also experts from the Alete Star System here.

Moreover, not just ordinary experts.

But... gods!!

Because the Blue Star River Formation requires a god to preside over it.

"Go!"

Lin Tianhao opened the Kunlun Mirror, trying to take Fatty and the others away.

But the Vast Expanse Formation had already been activated, and a huge array pattern descended from the sky, falling towards Lin Tianhao.

Lin Tianhao's eyes narrowed slightly, and he immediately had Poseidon, the Sea God, meet it.

Poseidon, the Sea God, used vast divine power to block the array pattern.

However.

This array pattern was only the beginning.

More and more array patterns fell, and the Kunlun Mirror also began to tremble violently.

Lin Tianhao knew.

Because the surrounding rules had changed, the Kunlun Mirror was contending with the rules of the Vast Expanse Formation.

The foundation of a holy land, Lin Tianhao didn't think his God-given Kunlun Mirror could withstand it.

If the Kunlun Mirror was destroyed here, it would be a greater loss than gain.

Thinking like this.

Lin Tianhao could only put away the Kunlun Mirror and actively enter the formation!

Because to break the formation, you must first enter the formation.

Moreover.

This was no longer a choice he could make.

Even if Poseidon, the Sea God, risked his life, he might not be able to protect Lin Tianhao from entering the formation.

The array pattern enveloped Lin Tianhao, Fatty, Monkey, and the others from Fan Temple.

In the next instant.

Lin Tianhao appeared in a desert.

It was boundless here.

No matter which direction you looked, it was an endless desert, with no sign of life.

Lin Tianhao knew.

He had entered the formation.

Vast and boundless, without limit.

Here, the rules had been changed. No matter which direction Lin Tianhao walked, he would inevitably see an endless desert.

As for attacks?

Useless!

Surrounding him was only sand and more sand.

But nothing is absolute.

Lin Tianhao stepped into the Seven Treasures Exquisite Pagoda, and then had Poseidon, the Sea God, guard the outside.

And used divine power to shield others from spying on the Seven Treasures Exquisite Pagoda.

Because Lin Tianhao was going to do something very important, and he couldn't let the people from the Vast Expanse Palace know.

At least not yet.

After entering the Seven Treasures Exquisite Pagoda, Lin Tianhao directly summoned the two gods, Yuan Huo and Yuan Feng.

Yuan Huo and Yuan Feng had been enslaved by Lin Tianhao for some time.

Although they were extremely unwilling, they could only respectfully salute Lin Tianhao.

"Greetings, Lord."

Lin Tianhao waved his hand, "I am currently in the Vast Expanse Formation, do you know the method to break the formation?"

Hearing this.

The Yuan Huo God and the Yuan Feng God exchanged a glance, both seeming hesitant to speak.

But the binding force of the God Conferment List was extraordinary.

They only hesitated for a moment, and then the Yuan Feng God spoke:

"The Vast Expanse Formation is boundless. Fundamentally speaking, as long as the person controlling the formation doesn't let the Lord leave, the Lord will be trapped here forever."

"But nothing is absolute. The Vast Expanse Formation can't possibly be truly boundless."

Lin Tianhao nodded, "I know all of this. I'm asking you if you have a way to break the formation."

The Yuan Huo God nodded, "Of course there is a way to break the formation. The Vast Expanse seems limitless, but in reality, the starting point is the ending point. The so-called infinity is just being blinded by a leaf."

"Just spin in place. Rotate counterclockwise one hundred and eight times, then rotate clockwise seventy-two times, and finally rotate counterclockwise thirty-six times, and you will be able to break out of the formation."

Lin Tianhao was stunned when he heard this method of breaking the formation.

Because this method of breaking the formation was too simple.

Originally, Lin Tianhao thought that he would have to use some means to break the formation, but he never expected it to be so simple.

While Lin Tianhao was questioning the two gods, Yuan Feng and Yuan Huo.

In the Vast Expanse Palace.

Many of the adventurers who came to watch this time had left, each of them in high spirits.

After all, the Vast Expanse Continent was about to be in chaos, which meant that they could accept many high-rewarding missions.

Wasn't that the case when the Star Kingdom erupted into a national war before? They had all received rewards to varying degrees.

On the high platform.

The Xitu Demigod did not resist. She knew that under the Vast Expanse Formation, even if she resisted, it would be useless.

The other masters of the major holy lands had left one after another, especially the West Pole Demigod, Moon Wheel Ke Clan, Los Jingkong, and others. They had all gone to mobilize their troops.

This was a great opportunity to attack the Shanhai Empire.

For a time, the Vast Expanse Continent was turbulent, and a great war was about to break out!

Chapter 536 - The Blue Galaxy Array!

However, not everyone left.

Besides the Hitu demigod, who was forced to stay.

Tutu Lu Hongqiong also did not leave.

Xiudeli Honghong glanced at Tutu Lu Hongqiong and chuckled:

"Mountain Lord Hongqiong, do you see? Our Boundless Limitless Palace's position in the Boundless Continent is unshakable."

"If the Snow Emperor wants to provoke our authority, he will only be suppressed."

Having said that.

Xiudeli Honghong changed the topic and continued:

"It's the same for you. If you want to provoke the authority of our Boundless Limitless Palace, I can guarantee that your Tutu Lu Holy Mountain will be completely suppressed like the Van Temple."

Hearing this.

Tutu Lu Hongqiong said with a sullen face: "Honghong, you are a bit shameless, using the Boundless Limitless Grand Formation to deal with us."

"You can't say that."

Xiudeli Honghong shook his head, "Mountain Lord Hongqiong, I always feel that our enemies should be the same, that is the Van Temple, it used to be, and it still is."

"If we join forces, many problems can be solved easily."

Tutu Lu Hongqiong sneered, "Join forces? Haven't you heard that two tigers cannot share a mountain?"

"If I help you today, you might destroy me tomorrow."

Xiudeli Honghong shook his head, "Mountain Lord Hongqiong, you are overseas, and I am in the Boundless Continent. Our Boundless Limitless Palace doesn't have such great ambitions."

Hearing this.

Tutu Lu Hongqiong just laughed, "Not so ambitious? Then why are you cooperating with the people from the Music God Society?"

"Don't tell me you don't know they are scraps from the Alete Star System."

Xiudeli Honghong was silent. After a while, he said:

"You're thinking too simply. We do have cooperation with the Music God Society, but it's just for mutual benefit."

"How can it sound from your mouth as if our Boundless Limitless Palace has betrayed the Milky Way World."

Tutu Lu Hongqiong waved his hand, "Whether you have betrayed or not, only you know in your hearts."

"Also, I want to leave now, will you let me or not."

Xiudeli Honghong smiled, "Mountain Lord Hongqiong, I'm afraid you'll have to be wronged. Everyone knows that you have a good relationship with the previous Temple Lord of the Van Temple. If you leave and dispatch troops to support the Mountain Sea Empire, it will be a bit troublesome."

"So... I can only trouble you to watch the show here and see how I solve the trouble of the Snow Emperor."

Xiudeli Honghong had just finished speaking.

The next moment.

His expression changed drastically.

Because a gap was torn open in the Boundless Limitless Grand Formation.

Immediately afterwards.

He saw Lin Tianhao walking out of the torn gap. In the light, Lin Tianhao was like an immortal descending to the mortal world, sacred and inviolable.

It's just.

Xiudeli Honghong was dumbfounded at this time.

Because the method to break the Boundless Limitless Grand Formation, besides the palace lords of the past, only the core gods of the Boundless Limitless Palace know.

But Lin Tianhao actually completed the formation breaking in such a short period of time, which is really incredible.

"You... how did you do it?"

Otherwise, how could he explain Lin Tianhao's breaking out of the formation.

"Could it be Second Brother..."

Just as he had this idea, Xiudeli Honghong denied it again.

Because he felt that the probability of Xiudeli Hongtu's betrayal was very small.

After all, only he, the palace lord, and the core gods of the Boundless Limitless Palace knew the method to break the Boundless Limitless Grand Formation.

Even if Xiudeli Hongtu betrayed for some unknown reason, he shouldn't know the method to break the Boundless Limitless Grand Formation.

But no matter how unwilling Xiudeli Honghong was to believe it, the scene in front of him forced him to accept it.

Xiudeli Honghong's eyes looked in one direction. In that direction, there was a bald man covered in tattoos.

The bald man understood what Xiudeli Honghong meant. He raised his hand, and immediately two people flew out from different directions.

The momentum of the three people rose, and they were all gods.

"Snow Emperor, the Boundless Limitless Grand Formation can't trap you, then let's see how our Blue Star River Grand Formation is."

As soon as the voice fell.

A grand formation rose up.

Lin Tianhao took a deep breath. He knew that he might have been deceived by Xiudeli Hongtu.

What Xiudeli Hongtu said was that their cooperation with the Music God Society was because the people from the Music God Society could help them find the Dragon Cave.

Now it seems that it is not that simple.

A holy land, unless absolutely necessary, will never allow people from other major forces to set up formations in their headquarters.

This approach is extremely dangerous.

If the other party has malicious intentions and uses the formation to cause trouble, it will be a devastating blow to a holy land.

As for the cooperation between the Music God Society and the Boundless Limitless Palace, which is specifically to deal with him, Lin Tianhao does not believe it.

Moreover.

Even if they really have such a purpose, they would not risk doing so without absolute trust.

Since the Boundless Limitless Palace agreed to let the people from the Music God Society set up a large formation here.

This shows that the Boundless Limitless Palace extremely trusts the Music God Society.

Such trust cannot be established through cooperation with a Dragon Cave.

There must be some ulterior secret between the Boundless Limitless Palace and the Music God Society.

It's just that these are no longer things that Lin Tianhao can think about now.

The Blue Star River Grand Formation has already fallen.

Lin Tianhao knew that once this pre-arranged grand formation was activated, he would have no way out.

But this situation is not enough to make Lin Tianhao afraid.

Because he knows the method to break the Blue Star River Grand Formation.

The Blue Star River Grand Formation is different from the Boundless Limitless Grand Formation. The Boundless Limitless Grand Formation is to protect the Boundless Limitless Palace and will not be used easily unless absolutely necessary.

The Blue Star River Grand Formation was a commonly used grand formation by the Alete Star System against the Milky Way Star System.

In the fourth year of the Great Cataclysm, someone figured out a way to break the Blue Star River Grand Formation.

The Blue Star River Grand Formation enveloped Lin Tianhao, and Lin Tianhao appeared in a starry sky.

This method is actually similar to the effect of the Boundless Limitless Grand Formation.

What's even more difficult is that this is in interstellar space, and he is on a miniature planet the size of a basketball court.

In theory, this is his range of activity.

Even if he has flying skills, he cannot fly to other planets.

Or rather.

Most flying skills do not support him flying that far.

But the formation ultimately has a way to break it.

Just as the Yuan Fire God said, no matter how powerful the formation is, it is impossible to really create an endless formation.

The so-called endless is just a blink of an eye.

And the method to break this formation is to divide the miniature planet that he descended on into nine equal parts.

Breaking the formation is more troublesome than breaking the Boundless Limitless Grand Formation, but this is not difficult for Lin Tianhao.

He directly asked the Sea God Poseidon to take action, and in an instant, he could divide the planet the size of a basketball court into nine parts.

Chapter 537 - The gods are coming!

Lin Tianhao's current strength still makes it somewhat difficult to evenly divide the planet beneath his feet into nine parts.

Therefore, he let the Sea God Poseidon take action, which would ensure greater stability.

Once the planet beneath their feet was evenly divided into nine parts by the Sea God Poseidon, the surrounding planets began to crumble.

The Blue Star River Formation was thus broken.

After the Blue Star River Formation was broken, Lin Tianhao reappeared in front of Xiudeli Haohong.

Two great formations, easily broken!

Xiudeli Haohong was dumbfounded.

The others in the Alete Star System were also dumbfounded.

They had great confidence in the Blue Star River Formation, but after it descended on Lin Tianhao, it turned out to be so vulnerable.

"You... how did you do it?!"

Xiudeli Haohong had personally experienced the Blue Star River Formation and knew its power.

But now, this Blue Star River Formation was so easily broken.

This was truly unbelievable.

"Boundless Wuji Palace, Leshen Society..."

Lin Tianhao's gaze swept over them, and his killing intent continued to rise.

"Since you want to fight, then let's fight to the fullest today."

As soon as he finished speaking.

Ten gods appeared behind Lin Tianhao.

Of course.

Some of them were simulated by Olufderan.

The only real gods were Olufderan, the newly revived God of the Undead, the Sea God Poseidon, and the Blackheart Dragon who had lost his eyes.

The Silver-Eyed Octopus and the Dark Night Spirit God Moilai were currently in slumber, four gods displaying the power of ten gods.

Besides deterrence.

Lin Tianhao really had the idea of fighting to the death today.

Because if they really fought, he might not necessarily suffer a loss.

On the contrary, he might even make a bloody profit from it.

Even if they used power beyond the limits of Twilight of the Gods, their strength could not be compared with that of true gods.

If a god in full condition took action, under good circumstances, one god in full condition could replace three gods before the thunder tribulation arrived.

If that were the case, he might really be able to turn the tables in this war.

Xiudeli Haohong's expression instantly became extremely gloomy when he saw the ten gods summoned by Lin Tianhao.

Their Boundless Wuji Palace had only lost two gods before, and they originally thought that trapping Lin Tianhao would be enough.

But the current situation was already somewhat beyond their control.

Just at this moment.

Blackheart Dragon stepped forward and said, "Muyunli Safeng, long time no see."

Muyunli Safeng's expression froze, and he looked at Blackheart Dragon in disbelief.

"Guli Mu Blackheart Dragon!!"

At this point.

Muyunli Safeng couldn't help but sneer.

"So that's how it is, I thought there would be a tough battle today, but I didn't expect it to be all our own people."

Saying that.

Muyunli Safeng looked at Xiudeli Haotu again and said with a smile:

"Haotu, this is also a god from our Alete Star System, named Guli Mu Blackheart Dragon."

"It seems that the Master of the Mortal Palace has already defected to our Alete Star System, it's all a misunderstanding."

Hearing this.

Xiudeli Haotu also showed a smile after a brief moment of astonishment.

"Hahaha, so that's how it is, Xue Di, you yourself have defected to the Alete Star System, how can you have the face to talk about us."

Tutu Lu Hongqiong, who was beside Xiudeli Haohong, was directly dumbfounded.

"Xue Di, what exactly is going on? How could you defect to the Alete Star System?!"

Lin Tianhao shook his head, "Who told you that I defected to the Alete Star System?"

At this point.

Lin Tianhao changed the subject and pointed at Muyunli Safeng.

"Blackheart Dragon, the god from your Alete Star System will be dealt with by you."

Blackheart Dragon respectfully saluted, "Yes, Master!"

Seeing this scene.

Muyunli Safeng's expression changed drastically, and he roared:

"Blackheart Dragon, what do you want to do? Have you forgotten our mission to come to the Milky Way World?"

Hearing this.

Blackheart Dragon sighed, "Safeng, some things are not as simple as you think, after you die, you may be able to understand my situation."

A cold light flashed in Lin Tianhao's eyes!

This Blackheart Dragon was subtly hinting at the other party.

Although this approach did not violate his orders, it made Lin Tianhao very unhappy.

Muyunli Safeng was thoughtful, but before he could find an answer, Lin Tianhao's voice sounded again.

"Do it."

Blackheart Dragon could not disobey Lin Tianhao's orders, so he had to take action.

And under Lin Tianhao's orders, he went all out as soon as he made a move.

Above the sky.

Thunderclouds rolled and gathered, electric arcs jumped in the thunderclouds, thunder dragons roared, and the power was terrifying.

Seeing that Blackheart Dragon used the power beyond the rules allowed by the Twilight of the Gods as soon as he came, Muyunli Safeng couldn't help but curse:

"Blackheart Dragon, you lunatic, you are so ruthless to your own people!!"

After roaring, Muyunli Safeng had to operate the power beyond the limit of the rules, just like Blackheart Dragon, and kill towards the other party.

Blackheart Dragon and Muyunli Safeng collided together.

For a time, the fight was inextricably difficult.

It was not that Blackheart Dragon was not strong, but because Muyunli Safeng came from the Alete Star System and was a god in full condition.

The collision between gods in full condition was so powerful that all the gods in the Boundless Wuji Palace began to tremble.

"Xue Di is a lunatic, who TM fights like him!!"

The demigod Xitu's expression was a little dignified. She had learned about Lin Tianhao before, but she didn't expect that Lin Tianhao's level of madness in doing things was even more terrifying than she thought.

After Blackheart Dragon and Muyunli Safeng fought fiercely.

Lin Tianhao turned his gaze to Xiudeli Haohong again.

"What about you? Are you ready to let which god go to die?"

Xiudeli Haohong's expression was solemn, Lin Tianhao's move was too crazy.

Just at this time.

The god Jin Xuan stepped out.

"Alas, Xue Di, you really surprised me too much, your power has made me feel terrified."

The god Jin Xuan stepped on the void and walked slowly, his aura constantly rising.

"I never thought that the new master of the Mortal Palace would be so powerful."

"But things have come to this point, we have no way out, since you want to fight to the death, then our Boundless Wuji Palace will accompany you to the end."

Above the sky, flaming roses continued to bloom, and a mysterious, unknowable god walked out of the flaming roses.

"I originally thought I could wait until the day the seal was broken, but I didn't expect that I would have to start fighting desperately now."

At this point.

The Rose God changed the subject and continued:

"Since this is the case, then our Western Extremity Temple can only fight to the death."

"And us."

Several more powerful auras rose up, "We were able to suppress the Mortal Palace in the first place, and now we can naturally suppress the Mortal Palace again."

Chapter 538 - It's a fight to the death, there's no retreat!

Lin Tianhao raised his eyes to look, only to see divine light flashing above the firmament, with gods emerging from the light one after another.

"Moon Wheel Demon Palace, Icefire Los Island, with ten great gods, request to battle the gods of the Mortal Palace!!"

Waves of terrifying pressure descended, making it difficult for even powerhouses like Hudley Haohong, Tutulu Hongqiong, and Xitu demigod to withstand.

"Domain, open!"

The three masters of the Holy Land simultaneously unleashed their domains, solely because the descending divine might was too unbearable.

Only by opening their domains could they lessen the impact of the divine might.

“With the gods descending, the vast and boundless continent is likely to change today.”

Tutulu Hongqiong muttered to himself.

Even as the master of Tutulu Holy Mountain, it was the first time he had witnessed a gathering of gods.

Western Extremity Divine Palace, Icefire Los Island, Moon Wheel Demon Palace, Boundless Limitless Palace.

The gods of the four great Holy Lands gathered here, with twenty gods unleashing their power, a terrifying sight.

This formidable divine might even affected the cities within a hundred miles.

The NPCs and adventurers in those cities were finding it difficult to move under the oppressive divine might.

“What exactly is going on? Why is such terrifying divine might descending?”

Boundless Empire Imperial Capital!

Countless people raised their heads to look in the direction of Boundless Limitless Palace.

“Today is the end of the Holy Land’s New Talent Competition. People who came out said that the Snow Emperor is at odds with the Boundless Limitless Palace.”

“Snow Emperor?”

“Has he grown to this extent? He can actually attract such a descent of divine might.”

“This should be the gods of Boundless Limitless Palace. It’s a pity we can’t get in. How awesome would it be to witness this battle.”

“Stop dreaming. Even if you could get in, you wouldn’t be able to lift your heads under this divine might.”

... ..

The divine might alone caused endless discussions.

At this moment.

Inside the Boundless Limitless Palace.

The gods of the four great Holy Lands had already descended, all looking at Lin Tianhao with cold eyes.

Lin Tianhao was not afraid at all. Even if he was outnumbered, he would fight to the death today.

After all, he had the God Sealing List. If he could kill these gods, he could enslave new gods.

Theoretically, he had a chance to win this battle.

“Come on, Snow Emperor. We were able to suppress your Mortal Palace once before, and today, we will suppress your Mortal Palace a second time.”

Lin Tianhao smiled noncommittally, “Is that so? Twenty gods from the four great Holy Lands, I wonder how many will be left after today.”

With that said.

Lin Tianhao raised his hand, preparing to order an attack.

But at this moment, another wave of divine might descended from the sky.

“Boundless Limitless Palace, you are going too far.”

As the voice fell, a small Taoist priest walked over.

Beside this small Taoist priest was a young Taoist priest.

The Gold Xuanshen’s expression turned slightly grim, “What? Are you hidden Holy Lands also going to interfere?”

Hearing this.

The small Taoist priest smiled, “This is not interfering. With the arrival of the fourth God-Making Era, our Eastern Kingdom cannot slumber again.”

“Hahaha, you are not qualified to say that.”

The Gold Xuanshen looked up and laughed, “Even with more help, the current situation of the Mortal Palace is hopeless.”

“If he’s not enough, what about adding us?”

A rough voice came, followed by a burly god with red iron chains wrapped around his body striding forward.

Beside him were several other gods.

They all exuded extremely terrifying auras, making it difficult for people to breathe.

Seeing the appearance of these gods, the Gold Xuanshen finally felt the pressure.

“You have competitive relationships with each other. I didn’t expect you to be able to unite today.”

Hearing these words.

The iron chain strongman looked up and laughed, “Hahaha, Gold Xuanshen, there are many things you didn’t expect. Today, we can go all out and let the Snow Emperor clean up the mess in the end.”

The iron chain strongman was not wrong. If the gods fought each other and fell, or went into slumber.

Then on the vast continent, with no gods around, how many people could stop Lin Tianhao’s footsteps?

The Gold Xuanshen was also very clear about this. Therefore, they had gathered twenty gods from the four great Holy Lands this time to completely suppress and seal Lin Tianhao.

But now that the other Holy Lands of the Eastern Ancient Kingdom had appeared to interfere, it had become very difficult for them to seal the Snow Emperor.

“Forget it, it seems that fate is so. How about we call it quits today?”

The Gold Xuanshen finally gave up. If they really fought, it would inevitably be a lose-lose situation.

It was really unacceptable to risk their lives at the current time node.

The small Taoist priest and the iron chain god looked at each other, and both nodded slightly.

Obviously.

They also didn't want to fight to the death right now.

"Okay, in that case, let the Snow Emperor leave."

"No problem."

The Gold Xuanshen waved his hand, and the gods of the four great Holy Lands opened a path, allowing Lin Tianhao and the others to leave.

Just when everyone thought that the matter was about to end.

Lin Tianhao spoke up.

"Leave?"

"When did I say I was going to leave?"

Lin Tianhao's eyes became firm, and he looked at the other party with a burning gaze:

"I said before, some of the twenty gods are bound to die."

Hearing this, the iron chain god immediately persuaded:

"Snow Emperor, in today's situation, it's good to be able to retreat completely. There's no need to really fight to the death."

“Moreover, even with our help, the current situation is still unfavorable to you.”

“Thank you for your kindness, seniors. I am grateful for your coming to help me out.”

“But today, there must be a conclusion, otherwise such troubles will not be few.”

As Lin Tianhao’s voice fell.

The God of the Undead, Olufdelan, and the Sea God Poseidon directly used powers outside the Twilight of the Gods rules.

For a time.

Above the firmament, lightning flashed and thunder rumbled.

Lin Tianhao knew that there was no retreat in this battle, and he would not hesitate to expose some of his trump cards.

Therefore.

Lin Tianhao summoned the Wind God and the Fire God.

They were both gods in full state at this time, and their direct attacks caused the world to shake.

Lin Tianhao himself also activated the Heavenly Punishment, and feathered arrows flew out of his hands continuously.

At the same time.

Lin Tianhao also rewrote the name of Muyunli Safeng in the Book of Life and Death.

Because just now, Muyunli Safeng and Blackheart Dragon had suffered thunder punishment and become extremely weak.

Therefore.

Lin Tianhao wanted to use the power of the Book of Life and Death and the lock of his own Heavenly Punishment to end Muyunli Safeng's life.

But there were still two gods in the Muyunli family. After they discovered that Lin Tianhao was attacking Muyunli Safeng, they also rushed towards Lin Tianhao without hesitation, trying to block Lin Tianhao's attack.

Chapter 539 - Xiudeli Baiyun!

But under the state of Heavenly Punishment, as long as Lin Tianhao saw the opponent, a normal attack was guaranteed to hit, even if a god tried to block it, it would be futile!

Now, Lin Tianhao's attack speed in the Heavenly Punishment state isn't fast, but because of the +1 rank.

This has caused Lin Tianhao's normal attack damage to reach an extremely terrifying level.

- 100,840,000!

This damage number appeared above Mu Yunli · Safeng's head.

This directly stunned the other two gods of the Mu Yunli family.

What kind of godly damage is this?

A normal attack, hundreds of millions of damage.

Is this the damage a level 50 adventurer should have?

Mu Yunli · Safeng, who had already been reduced to critical health by the Thunder Punishment, faced Lin Tianhao's head-locking attack with such high damage, and had no chance of survival.

One of the gods knew the situation was critical, but couldn't block Lin Tianhao's feather arrows, making him very anxious.

If Lin Tianhao's feather arrows hit Mu Yunli · Safeng a few more times, then Mu Yunli · Safeng would definitely die.

After a slight hesitation.

He still used power beyond what the Twilight of the Gods rules allowed.

He felt that.

Even a god-level powerhouse who bursts out with all his strength still can't block Lin Tianhao's feather arrows.

When the eighth feather arrow hit Mu Yunli · Safeng, Mu Yunli · Safeng finally fell.

After solving Mu Yunli · Safeng, Lin Tianhao's situation was not optimistic.

Because he was now facing the siege of two great gods of the Mu Yunli family.

One of them even used god-level power.

Without any suspense, Lin Tianhao was instantly killed!

But it didn't matter!

Resurrect on the spot!

Lin Tianhao's level dropped by one, but he could resurrect on the spot and continue fighting.

Moreover.

Because most of Lin Tianhao's equipment was relatively special.

Even if he lost a level, it wouldn't affect Lin Tianhao's ability to wear weapons normally.

Just like that.

Lin Tianhao was forcibly killed five times in a row!

While Lin Tianhao was being killed five times in a row, on the front battlefield, three gods from the Four Great Holy Lands had fallen, and three other gods had suffered Thunder Punishment, and were on the verge of death.

And the price was that all the gods under Lin Tianhao's command, except for the Sea God Poseidon, were all blasted into critical health by the Thunder Punishment and entered a state of slumber.

Lin Tianhao took them back into the God Confinement List as soon as possible, which was considered protecting them from being wiped out.

On the high platform.

The demigod Xitu's hands were trembling slightly, the tragic nature of this battle far exceeded their imagination.

Lin Tianhao didn't care at all.

Because the god of the Mu Yunli family who used god-level power also suffered a Thunder Punishment attack and became critically injured.

Lin Tianhao did not hesitate to sacrifice the Immortal Slaughtering Sword Formation, barely resisting the last god of the Mu Yunli family, while using Heavenly Punishment to lock onto the god who was blasted into critical health by the Thunder Punishment.

"Kill Xue Di!"

The god Jin Xuan roared through gritted teeth, there was no retreat in this battle. The Four Great Holy Lands had already suffered three deaths and three slumbers, leaving twelve gods.

Especially.

The god Jin Xuan also saw the dead gods Yuan Feng and Yuan Huo.

This made him realize the special nature of Lin Tianhao!

In this battle, Lin Tianhao must die.

Then seal Lin Tianhao.

Otherwise, the situation in the vast continent in the future will completely be out of control.

After the Sea God Poseidon, Ouluofdelan, the God of the Undead, Blackheart Dragon and other gods fell.

Four more gods in full condition appeared on Lin Tianhao's God Confinement List.

Mu Yunli · Safeng, and the three gods of the Four Great Holy Lands who were just killed.

Moreover.

Under Lin Tianhao's head-locking attack, the second god of the Mu Yunli family was also about to be killed by Lin Tianhao.

The remaining god of the Mu Yunli family was extremely angry when he saw this scene.

"Xue Di, when our Alete star system army arrives, we will tear you into pieces!"

Lin Tianhao's emotions didn't change at all towards these threats.

He raised his hand and summoned the four gods who had just been collected on the God Confinement List.

These four gods who had just been enslaved by Lin Tianhao were still a little confused, but facing Lin Tianhao's orders, they couldn't refuse and had to execute them.

"Sure enough, sure enough..."

The god Jin Xuan muttered to himself, "You can enslave the killed gods, no wonder you can gather so many gods around you."

"Gods, we have no retreat today. If Xue Di is not defeated, we will be in danger!"

As soon as the words fell.

The god Jin Xuan took the lead in using god-level power.

The remaining thirteen gods looked at each other, they also knew that this battle had no capital to retreat.

If they don't go all out, and Lin Tianhao exchanges one for one, they will definitely lose later.

Fourteen gods broke out completely, plus one god from the Mu Yunli family, a total of fifteen gods who broke out completely.

It was as difficult as climbing to the sky for the four gods summoned by Lin Tianhao to kill any one of them.

But Lin Tianhao still took this opportunity to kill another god of the Mu Yunli family.

When he wanted to kill the three sleeping gods of the Four Great Holy Lands, he found that they were gone.

Someone took the three sleeping gods away, not giving Lin Tianhao a chance.

"Domain: Turbulent World!"

A soft voice came, and then, Lin Tianhao was shrouded in an extremely terrifying force.

He wanted to resist, and the Immortal Slaughtering Sword Formation shot without hesitation.

But in this domain, he couldn't even break through.

At this time, he was in a domain.

The ground around the domain was undulating, and it was very difficult for him to stand firm.

And in front of Lin Tianhao, a woman in white appeared, she was wearing a veil, and her appearance could not be seen clearly.

With just one glance, Lin Tianhao could judge that the other party was not a god.

She didn't have divine power on her body, at most she was a master of the pseudo-god realm.

"Who are you?"

Lin Tianhao asked with a frown.

"Vast Infinity Palace, Xiudeli · Baiyun."

A very ordinary name, but Lin Tianhao could feel her power.

"I think, there should be no gods around you!"

Xiudeli · Baiyun had a faint smile on her face, "It has been a long time since anyone has forced our Vast Infinity Palace to such a point."

Saying that.

Xiudeli · Baiyun raised her hand and slapped Lin Tianhao.

Lin Tianhao did not hesitate to urge the Immortal Slaughtering Sword Formation, and four flying swords cut through the sky and slashed towards Xiudeli · Baiyun.

Xiudeli · Baiyun just smiled slightly, and a white jade long sword appeared in her hand.

Next.

An incredible scene for Lin Tianhao appeared.

His four flying swords were actually torn to pieces in an instant.

The foundation of the Immortal Slaughtering Sword Formation is these four flying swords. Now that these four flying swords are shattered, it also means that his Immortal Slaughtering Sword Formation is also useless!!

Chapter 540 - In desperate situation!

An existence below the God-level actually shattered his Immortal Execution Sword Formation with a single sword strike! How terrifying!!

Lin Tianhao had never heard of this Xiudeli Baiyun of the Boundless Supreme Palace in his previous life, but judging from her strength, although she is not a god, she is powerful to an unbelievable extent.

"Snow Emperor, if this is your limit, then I can only say that your legend will end here."

Xiudeli Baiyun walked over unhurriedly, exuding an aura of extraordinary power that made her seem invincible.

"You are not a god, yet you are so powerful, which is really beyond my expectations."

Lin Tianhao's expression was solemn. Originally, he thought that even if he couldn't win today, he would be able to retreat safely.

But now it seems.

He still thought things too simply.

The foundation of the Boundless Supreme Palace is not just gods, they also have other strong individuals!

His Fiery Eyes of Truth could not see through this Xiudeli Baiyun, but he could be sure that the other party was not a god, but possessed strength infinitely close to, or even not weaker than, a god.

Although the Twilight of the Gods has restrictions, it is not a restriction on combat power.

Rather, it is when the level of power breaks through the shackles of mortals and reaches the God-level that thunder punishment will descend.

This Xiudeli Baiyun destroyed the Immortal Execution Sword Formation, which is not something a demigod can do, and even the power of a pseudo-god would find it difficult to achieve this.

Lin Tianhao knew.

This is the power that only King-level or higher-ranked existences can possess.

In the Twilight of the Gods, rank is extremely important.

The difference of one rank means that the attributes are fundamentally different.

Looking at the increase in Lin Tianhao's rank + 1 this time, you can see some clues.

The conventional cultivation progress is nine revolutions, and after nine revolutions, one begins to impact the God realm.

It's just that the God realm is not achieved overnight, there are two steps in between.

These are the demigod realm and the pseudo-god realm respectively.

Of course.

This is the level on paper.

Similar to the so-called level 50, level 100 and other levels.

However, players have talents, equipment, skills and other factors that influence them, and a level 50 player may be able to defeat a level 500, or even a level 5000 expert.

The same is true for NPCs.

And these factors will be reflected in the relatively intuitive rank.

Boundless Continent.

The ranks of most top powerhouses are Star Radiance and Grandmaster.

But Grandmaster is not the end of the rank.

Above Grandmaster, there are King, Emperor, and Sovereign ranks.

According to the information Lin Tianhao learned in his previous life.

Once an NPC or wild monster enters the King level, their strength will become extremely terrifying.

He was severely injured by thunder punishment and killed by Lin Tianhao.

Facing Xiudeli Baiyun, Lin Tianhao seemed to have only one choice: to invite the second god of the Muyun Li family.

"Come out!!"

Lin Tianhao gave an order.

Muyun Li Sanyuan walked out of the God Conferring List, he stood in front of Xiudeli Baiyun.

Xiudeli Baiyun frowned. She said with a smile:

"This is the god you just enslaved. I think he should be your last trump card."

Lin Tianhao smiled noncommittally, "Whether it is my last trump card or not, wouldn't you know if you try?"

Xiudeli Baiyun was actually right, this was his last trump card now.

But Lin Tianhao couldn't admit it. At this time, he absolutely couldn't back down in terms of momentum, otherwise all his previous efforts would be in vain.

"It doesn't matter anymore, let him take action."

Lin Tianhao nodded, "That's exactly what I want."

As soon as the words fell.

Lin Tianhao waved his hand, "Go, kill her!"

Having confronted the Boundless Supreme Palace to this point, he had no way out.

Muyun Li Sanyuan raised the long spear in his hand and charged towards Xiudeli Baiyun.

He did not trigger thunder punishment, because Xiudeli Baiyun was not yet a god.

Muyun Li Sanyuan and Xiudeli Baiyun collided together.

Lin Tianhao also successfully escaped from Xiudeli Baiyun's domain.

After escaping, Lin Tianhao immediately put the four gods, including Muyun Li Safeng, who were severely injured by thunder punishment, into the God Conferring List.

As for those gods of the four holy lands, they had disappeared without a trace, leaving no trace behind.

As for Xiudeli Baiyun, she was fighting evenly with Muyun Li Sanyuan.

This fully demonstrated Xiudeli Baiyun's power, and at the same time pushed Lin Tianhao into a dead end.

Today's battle.

It is true that the four holy lands suffered heavy losses, but the premise is that he needs to leave here safely.

Having lost the Immortal Execution Sword Formation, he is still a little short in the face of high-end combat power.

Xiudeli Hongqiong saw that Lin Tianhao was alone and rushed towards Lin Tianhao without hesitation.

He had already seen that Lin Tianhao probably had no trump cards left.

Without the help of gods, Xiudeli Hongqiong was confident of killing Lin Tianhao.

Lin Tianhao's eyes narrowed slightly.

In Xiudeli Hongqiong's hands, even if he wanted to run away, it would become very difficult.

Thinking like this.

Lin Tianhao immediately rewrote the name on the Book of Life and Death as Xiudeli Hongqiong.

Since there was no way out, he could only fight Xiudeli Hongqiong.

In the past, when Lin Tianhao faced the Nine Revolutions, he had the Immortal Execution Sword Formation.

Facing above the Nine Revolutions, Lin Tianhao could rely on the help of gods.

But now.

There are no gods around him, only himself to fight.

The lock of the Book of Life and Death is a very good means of attack.

Especially after Lin Tianhao's health increased, the damage of his Book of Life and Death lock was also extremely terrifying.

It's just.

Xiudeli Hongqiong is, after all, the Palace Master of the Boundless Supreme Palace, and the damage from the Book of Life and Death is not enough to kill him.

"Heavenly Punishment!"

Lin Tianhao's feathered arrow pierced through the air and swept towards the opponent.

Xiudeli Hongqiong also discovered that his domain could not block Lin Tianhao's feathered arrow.

Therefore, he directly gave up blocking and directly attacked Lin Tianhao.

Lin Tianhao did not resist, and even did not release the Invincible Golden Body.

Because Lin Tianhao knew that this was not the time yet.

But at this moment.

A heavy shield fell from the sky and stood in front of Lin Tianhao.

"Brother Hao, we are here."

The person who came was none other than Fatty, Monkey and others who had been taken into the Boundless Supreme Formation before.

After Lin Tianhao broke the Boundless Supreme Formation, he sent them a message. It is estimated that they saw Lin Tianhao's message, which is why they broke out of the formation.

It's just.

His huge shield of protection could not even withstand Xiudeli Hongqiong's palm, and directly shattered Fatty's shield of protection.

Moreover, Xiudeli Hongqiong's power had not weakened, and he continued to slap towards Lin Tianhao.

"Boom!"

Lin Tianhao's health bar plummeted by 30%, and he was almost taken away.
