

O game 541

Chapter 541 - Fatty returns, teamwork!

This was also thanks to Fatty's Guardian Shield, although it appeared to be pierced instantly.

In reality, it still blocked some of Shudeli Haohong's attack power, otherwise Shudeli Haohong's attack would likely have taken away 50% of Lin Tianhao's health.

Lin Tianhao took a hit and didn't even have time to react.

Shudeli Haohong's second attack had already slammed down towards him.

As the master of a sacred ground, and still the master of a top sacred ground like the Boundless Palace.

Shudeli Haohong's attack speed had already exceeded one hundred, so he could deal high damage in just a few breaths.

However.

Shudeli Haohong's attack actually missed.

Invincible Etherealization!!

Yes.

Lin Tianhao had Invincible Etherealization cast on him. This was Glasses' skill, but Lin Tianhao also knew for the first time that this Invincible Etherealization could actually be used on others to protect them.

Shudeli Haohong's attack missed, and before he could raise his hand again, a curse mark appeared above his head.

The person who cast this was still Glasses. His Weakening Curse Mark could weaken Shudeli Haohong's attributes by a percentage, creating a chance for Lin Tianhao to breathe.

Seeing these people from his Mortal Palace appear, Lin Tianhao immediately retreated. The Heavenly Punishment state was not lifted, and the feather arrows were still being fired continuously.

The gods from other sacred grounds who had come to support Lin Tianhao before were all watching coldly, without offering to help Lin Tianhao out of his predicament.

Perhaps they also wanted to see how far Lin Tianhao could go.

After all, in their hearts, the Mortal Palace could not be destroyed, and the Mountain Sea Empire could not be destroyed, but the best outcome was still that the strength of the Mortal Palace would be weakened.

Ideally,

the Mortal Palace would need to rely on these sacred grounds to survive.

This way, if these sacred grounds wanted to revive, they could negotiate with the Mortal Palace.

The current situation.

was what these Eastern sacred grounds wanted to see.

Therefore.

they did not help Lin Tianhao, but were watching the show.

If Lin Tianhao was really suppressed and sealed, perhaps they would step in to stop it, but not now.

Although Shudeli Haohong was weakened by the curse mark, he was still an incomparably powerful existence to Lin Tianhao.

Although Invincible Etherealization was powerful, it could only last for a short second.

It could urgently save Lin Tianhao, but it was difficult to turn the tide.

But in this one second, Monkey had already rushed up.

His movement speed and attack speed were both above Lin Tianhao's, and the totem pole in his hand directly smashed onto Shudeli Haohong's domain.

But non-domain-level power was difficult to affect the domain.

Monkey's output ability was already quite good, and the totem pole in his hand was even more special.

But it only caused a slight ripple in Shudeli Haohong's domain.

That was all!

This showed how huge the gap between them was.

To pose a threat to the domain, usually only a domain could do it.

Outside of the domain, divine power could also work, or even law-level power.

The Immortal Slaughtering Sword Formation contained some power of law.

Although Lin Tianhao had the power of Asking Heart Without Dust, it was still too difficult to contend with the domain.

Fatty also rushed up at this time. As soon as he came, he used Lawful Heaven and Earth + Savage Collision, preparing to buy Lin Tianhao a chance to output.

"A mantis trying to stop a chariot, overestimating yourself!!"

Shudeli Haohong snorted coldly, and with a palm strike, the power of the domain surged out and sent Fatty flying.

Due to the addition of dual resistance, Fatty's health only dropped by twenty percent.

His health bar decreased much less than Lin Tianhao's, which also showed Fatty's advantage as a shield warrior.

Of course.

Only Fatty could compare with Lin Tianhao.

Fatty slapped his palm on the shield, and the shield in his hand was actually shattered into pieces.

These shattered pieces of shield cut through the sky and flew towards Shudeli Haohong's domain.

The domain that Monkey's totem pole could not shake was actually broken open by Fatty's shattered shields.

"Now is the time."

Su Li summoned his natal summoned beast without hesitation.

A silly and cute orange cat.

The orange cat opened its bloody mouth, and countless blood-colored tentacles flew out from the orange cat's mouth.

Passing through the opening that Fatty broke, they attacked Shudeli Haohong.

But the opening that was broken was restored in just a breath.

The power of the domain instantly tore the blood-colored tentacles apart.

A shrill scream came from the orange cat's mouth, and Su Li immediately took back the orange cat and summoned the Flame Wyvern.

It was just.

even the Flame Wyvern with hundreds of millions of health could not break through Shudeli Haohong's domain with its attacks.

"I'll do it."

Glasses said lightly, and a dark red steel needle appeared in his hand.

He held the steel needle and patted it towards Shudeli Haohong's domain.

Shudeli Haohong's domain was like ice cubes encountering red-hot steel, quickly melting away.

However.

this level was not enough at all.

Dreamfrost, Little Sword and others also took action one after another, but in front of Shudeli Haohong's domain, they were all so insignificant.

The gap between the two sides was too big and too obvious.

Without the Immortal Slaughtering Sword Formation.

Without the help of the gods.

Now facing Shudeli Haohong, Lin Tianhao clearly realized how terrifying the combat power of an existence above Nine Revolutions was.

Before, Lin Tianhao had the protection of the god's domain, and he had never personally experienced the power of the domain.

Now Lin Tianhao could be said to have felt the horror of the domain relatively shocked.

The power outside the domain had little effect on the domain.

Even Fatty and Glasses, who were outstanding and had extraordinary opportunities, could only barely break a little bit of the domain.

This may be because Shudeli Haohong, as the master of the sacred ground, had a domain power that was naturally stronger than other people's domain power.

It may also be that the strength of the few people was indeed not a big threat in front of the domain powerhouse.

But others could do nothing about Shudeli Haohong's domain.

Lin Tianhao was a little different.

Because his normal attacks in the Heavenly Punishment state could not be blocked.

Even Shudeli Haohong's domain could not block Lin Tianhao's feather arrows.

Shudeli Haohong also realized this problem.

Therefore, what he wanted to do now was to do everything possible to solve Lin Tianhao.

Lin Tianhao could feel Shudeli Haohong's killing intent.

Originally, he was going to use 原地复活 to delay for a while.

But now Fatty, Monkey, and Glasses had already taken action. If he died, in the three seconds of 原地复活.

Shudeli Haohong would definitely kill them all.

For Shudeli Haohong, three seconds was really enough.

Therefore.

Lin Tianhao did not dare to hesitate, and turned on the Invincible Golden Body the moment he saw Shudeli Haohong kill him.

Chapter 542 - Finally back to the mortal palace!

Although the Invincible Golden Body was also stalling for time, Lin Tianhao's arrows were still being fired, as long as he could stall for time.

With the damage from the arrows and the Book of Life and Death, it was really possible to defeat Xiudeli Haohong.

It's just that.

The number of arrows needed to be greater.

Although a hit was guaranteed in the Heavenly Punishment state, attack speed was ultimately a weakness.

Lin Tianhao couldn't even shoot three arrows per second now, so he could only stall as much as possible.

The longer the time he stalled, the more arrows Lin Tianhao shot, and the greater his chances of winning.

At the same time.

Lin Tianhao also wanted to see if there would be a turning point in today's situation.

The ambitious Taoist priest watching the battle hesitated for a moment, but still said:

"Master..."

He didn't finish his words, but the little Taoist priest already understood the ambitious Taoist priest's thoughts.

The little Taoist priest glanced at the ambitious Taoist priest and said:

"You want Master to take action? But have you ever thought that if we act now, the revival of our One Thought Temple will face great resistance."

The ambitious Taoist priest opened his mouth, cupped his hands, and said respectfully:

"Master, this disciple believes that judging whether to take action based on interests alone is not a reliable cooperative relationship."

"Just like how we fell apart in the past, even among the same race and same camp, there is mutual suspicion, which is ultimately difficult to sustain for long."

The little Taoist priest looked up and laughed, "Hahaha, what you said is very good, in that case, then Master will take action."

As soon as he finished speaking.

Xiudeli Haohong frowned slightly, and pushed out with both palms, barely blocking the tiger.

Then, he retreated, distanced himself from the tiger, and looked up at the little Taoist priest.

"Senior One Thought, taking action now is not a good thing for your One Thought Temple."

The One Thought God smiled slightly, "My disciple said that cooperation based solely on interests is not reliable."

"I also think that interests will eventually collapse. To make the relationship reliable, we must break free from the constraints of interests."

The One Thought God's words made Xiudeli Haohong thoughtful.

Just at this moment.

Xiudeli Baiyun also distanced herself from Muyunli Sayuan.

Muyunli Sayuan returned to Lin Tianhao's side, protecting Lin Tianhao's safety.

Xiudeli Baiyun sighed, "Snow Emperor, things have come to this, continuing to fight will only benefit others."

"In today's battle, both your Mortal Palace and our Boundless Limitless Palace have suffered heavy losses."

Having said this.

Xiudeli Baiyun continued: "Why don't we just stop here, how about it?"

Obviously.

Xiudeli Baiyun was also very clear in her heart that with the people from One Thought Temple taking action, they no longer had many chances.

In order to prevent Lin Tianhao from snowballing with the God Conferring List, their four holy lands had lost a full twenty gods.

Although this was not all of their Boundless Limitless Palace's trump cards, if they continued to fight, their Boundless Limitless Palace would really be destroyed.

Lin Tianhao was silent. He knew that today's situation had reached its limit.

The determination of the gods of the four holy lands was somewhat unexpected to Lin Tianhao.

The fourteen gods of the four holy lands had all used powers above the Twilight of the Gods in order to prevent him from snowballing.

This time, the gods around Lin Tianhao were only the last enslaved Muyunli Sayuan.

The other gods had all fallen into slumber, and his foundation could be said to have been completely destroyed this time.

Continuing to fight would only exhaust his trump cards.

As soon as Xiudeli Baiyun finished speaking.

The One Thought God seemed to be worried that Lin Tianhao would make some excessive demands.

He immediately said:

"Snow Emperor, stop here, continuing to fight is not a good thing for any of you."

Lin Tianhao already had an answer in his heart, so he made a decision after only a slight hesitation.

"Okay, let today's matter end here."

Lin Tianhao waved his hand and unfolded the Kunlun Mirror again.

After the Kunlun Mirror was unfolded, Lin Tianhao took the people from the Mortal Palace away.

This time, no one from the Boundless Limitless Palace stopped Lin Tianhao.

To be precise.

They now couldn't wait for Lin Tianhao to leave.

This time, they even felt that it was a very foolish thing to try to keep Lin Tianhao.

After all, the foundation that Lin Tianhao had shown this time had already exceeded their imagination.

No, that's not right.

It shouldn't be said to be foundation, but more should be said to be courage.

Lin Tianhao dared to let the gods under his command fight to the death, which was something that many other forces did not dare to do.

If it weren't for their decisive action, sacrificing all the gods in the field, today's outcome would have been even worse.

Mortal Palace.

Lin Tianhao brought the people from the Mortal Palace back. Although Lin Tianhao's harvest was great this time, the losses were equally enormous.

Originally, the gods around Lin Tianhao were still relatively abundant, but he didn't expect that this time, only one was left.

It was still the one that had just been enslaved, otherwise Lin Tianhao would not have a single usable god in his hands now.

As for the harvest.

In addition to the rewards obtained from the Holy Land Genius Rookie Competition, the number of gods who died this time was five.

Three were from the four holy lands, and two were gods from the Alate Star System.

His Godslayer Mark successfully obtained the abilities of five gods.

The first was Muyunli Safeng's ability.

Infinite Tracking: You can track what you want to track by releasing your own power. The stronger you are, the wider the range you can track.

This ability is for tracking, and it doesn't seem to greatly improve direct combat power.

It's just that.

Lin Tianhao thought for a moment, could his infinite tracking allow him to see opponents from super long distances?

Because in the Heavenly Punishment state, he could lock on with the arrows in the Heavenly Punishment state.

Thinking like this.

Lin Tianhao directly locked on and investigated the emperor of the Mountain and Sea Empire.

In just a few breaths.

Lin Tianhao found the emperor of the Mountain and Sea Empire.

"It really works."

A satisfied smile appeared on Lin Tianhao's face.

Infinite Tracking could cooperate with his Heavenly Punishment, greatly increasing his combat power.

Although Lin Tianhao's Heavenly Punishment was powerful before, it didn't have a long-range locking method.

This greatly reduced the effect of his Heavenly Punishment.

It's just that.

This infinite tracking is not as perverted as imagined.

Currently, infinite tracking can only last for one second.

As Lin Tianhao's strength increases, the duration of infinite tracking can also be increased.

Besides Muyunli Safeng, there was also Muyunli Sayuan.

Lin Tianhao checked the ability obtained from Muyunli Sayuan.

Star River Eye: You actively release it, consuming 100,000 mana, and in the next five seconds, anyone who sees your eyes will see an endless star sea.

Lin Tianhao's eyes narrowed slightly. This skill was actually a group control skill.

The effect of the Star River Eye seemed to have a similar effect to the Blue Star River Formation, except that it required setting up the formation, while this one was directly released, but required seeing his eyes.

Chapter 543 - Seven abilities!

Although this skill seems a bit lackluster, since in battle, you can just avoid looking at the opponent's eyes, right?

But only Lin Tianhao knew how perverted this Galaxy Eye was.

Because during battle, most people judge the opponent's attack rhythm and possible next moves by looking at their eyes.

Moreover.

Eyes are something people unconsciously look at.

Especially during battle, most people will subconsciously look at the opponent's eyes.

Especially when caught off guard, the success rate of this tactic can be greatly improved.

In any case, this is a rare crowd control skill.

Next is the boost Lin Tianhao received from the three gods of the Four Great Sacred Grounds who were killed.

Not only that.

But also the two gods, Yuan Feng and Yuan Huo, who were killed before.

That's a total of five gods.

Yuan Feng God: [Wind Barrier: Releases a wall of wind in one direction, blocking all attacks coming from that direction within two seconds. Note: Divine-level attacks cannot be blocked.]

Lin Tianhao's eyes lit up. This is another excellent life-saving skill.

Because this Source Burn comes from a god, and the burn damage is only one-thousandth.

Even if others are extremely lucky and really possess this method, the percentage won't be very high.

At least.

This one-thousandth percentage has a negligible impact on Lin Tianhao.

Yuan Shui God: [Water Clone: You can use water elements to create a clone that has 50% of your attributes. It can exist for a long time until its health bar is emptied, then it will disappear.]

Lin Tianhao was a little surprised. This Water Clone seems to have the same effect as One Qi Manifests Three Pure Ones.

But it's not exactly the same.

The sub-occupation proficiency gained by One Qi Manifests Three Pure Ones can be fed back to Lin Tianhao.

And this Water Clone is stronger than One Qi Manifests Three Pure Ones in that it can fight, but weaker in that it doesn't have all of Lin Tianhao's characteristics.

That's the biggest difference.

However, the Water Clone is also very good. Lin Tianhao can use the Water Clone to explore the map.

One Qi Manifests Three Pure Ones is too dangerous to explore the map. They can't fight, and they might die if they're not careful.

That's why Lin Tianhao chose to have them create Life Orbs.

While increasing sub-occupation proficiency, it can also enhance the player's attributes.

The 100,000 health points increased by the Life Orb are not worth mentioning for Lin Tianhao, Fatty, and others.

But for most ordinary players, even those level 100 or 200 ordinary players, having 500,000 health points is considered good.

That's only possible for warrior-type professions. If it's a squishy profession, having 100,000 or 200,000 health points is good.

Therefore.

The effect of the Life Orb is unquestionable.

Next is the fourth god.

Ghost Grass God: [Absolute Weakness: When you release it on a target unit, it will reduce the target unit's attack speed and movement speed by 50%. This effect is absolute and cannot be resisted even by gods, but the effect on gods is only 20%.]

Lin Tianhao's eyes lit up. This effect is good.

But he remembered that Glasses seemed to have a similar skill as well.

During the national war of the Starry Kingdom, he hadn't added Glasses as a friend yet, so Glasses used that skill on him.

It's just that Glasses' skill is obviously different from his skill.

Because Glasses' skill is a curse, but Lin Tianhao's is not.

There's only one last Godslayer Mark skill left, and Lin Tianhao doesn't have much hope for it.

Although the skills he's stripped this time are not bad, they are somewhat ordinary compared to divine methods.

But this is also within Lin Tianhao's expectations.

After all, the few gods who were killed first this time were relatively weak.

It's very difficult to obtain some powerful skills from these relatively weak gods.

Blood Moon God: [Under the Blood Moon: Under the moon, your damage will be amplified. The amplification varies according to the phases of the moon, with a maximum amplification of 100%.]

Lin Tianhao narrowed his eyes slightly. This skill is still a passive skill, and it looks pretty good.

But that's about it.

The Godslayer Mark has obtained five major effects from the five gods.

All of them have increased Lin Tianhao's strength.

But compared to Lin Tianhao's losses this time, this level of increase is still not worth mentioning.

He used a lot of his trump cards this time, especially the God Conferring Board, which is completely exposed. It will be more difficult to enslave gods in the future.

But it's not all bad news.

The God of the Undead fell first, and Lin Tianhao later killed the two gods of the Mu Yun Li family, which was considered to have helped the God of the Undead recover some health.

Just as Lin Tianhao was checking the rewards.

Ouyang Wenlong walked over quickly and bowed respectfully to Lin Tianhao.

"Hall Master, people from the Daoist One Thought Temple and the Buddhist Dragon Suppressing Treasure Temple have come. They want to see you."

Lin Tianhao frowned slightly. This time, One Thought God also contributed to being able to retreat completely.

As for the Dragon Suppressing Treasure Temple, Lin Tianhao only knew that Putuo Tianlong was in the Dragon Suppressing Treasure Temple and had the opportunity to inherit the Dragon Suppressing Treasure Temple and become the new Holy Land Master of the Dragon Suppressing Treasure Temple.

To be honest.

Lin Tianhao had the idea of supporting other Holy Lands, especially letting adventurers become Holy Land Masters.

This has extraordinary effects for the advent of the Great Cataclysm in the future.

"Okay, I'll go see them."

Lin Tianhao guessed the purpose of their trip.

It is estimated that not only his Mortal Palace, but also the other major Holy Lands on the vast continent have guests visiting.

Especially the Four Great Holy Lands that fought with Lin Tianhao.

This time, the Four Great Holy Lands lost a total of twenty-two gods.

Among them, six gods were killed by Lin Tianhao, plus the two of the Mu Yun Li family, that's twenty-four.

Several gods under Lin Tianhao's command also fell.

This is probably a major event in the vast continent after the Divine War, where the fall of the gods is rare in a hundred years.

With the emergence of such a rare opportunity, there will inevitably be some people with ulterior motives preparing to come out and reap the benefits.

Chapter 544 - God of Killing!

Reception hall.

Currently, there are five people here.

They are the One Thought God and the Wild Ambition Daoist from the One Thought Temple.

The Withered Grievance God and Potala Heavenly Dragon from the Zhenlong Precious Temple, and Shangguan Hongxun, who is currently receiving them.

The Withered Grievance God looked at the One Thought God with a smile and said:

"Amitabha, Daoist One Thought is really fast. This humble monk was also preparing to rush to support the Snow Emperor today, but you took the lead."

Hearing these words.

The One Thought God smiled noncommittally, these words were somewhat hypocritical.

If the Zhenlong Precious Temple had the intention to take action, it probably wouldn't be slower than the One Thought Temple.

"Daoist Withered Grievance is joking, I just happened to pass by and saw the Snow Emperor in distress, how could I not help?"

Lin Tianhao walked over and happened to hear their conversation, but he pretended not to hear it at all and walked out.

"What virtues and abilities does our Mortal Palace have that it can allow both the Daoist and Buddhist schools to visit at the same time? It really makes our Mortal Palace shine."

They are all old foxes, and since they want to be polite, Lin Tianhao doesn't mind being polite with them.

The One Thought God and the Withered Grievance God looked at each other, both stood up, but did not bow.

As gods, being able to stand up to greet him is already giving Lin Tianhao enough face.

After all, no matter how many trump cards Lin Tianhao has, he is ultimately not a god.

More importantly.

Lin Tianhao doesn't even have god-level power now, the difference is too great.

Lin Tianhao didn't care that they didn't bow.

"I won't say much polite words, and you two don't need to beat around the bush with me, if you have anything to say, you can say it directly."

The One Thought God and the Withered Grievance God smiled at each other and said:

"Our goals are actually the same, the Holy Land needs to be revived, then it needs to have its own territory."

Lin Tianhao looked at them with a surprised expression, "Do you want me to divide the territory of our Mountain and Sea Empire to you?"

Hearing this.

The One Thought God shook his head, "Snow Emperor, speaking of which, the entire Vast Continent belongs to the Mountain and Sea Empire, and it was divided up in the past due to some reasons, whether forced or not."

"Yes."

Lin Tianhao nodded, "Since the seniors know, then they should also know how difficult it is for me to completely revive the Mountain and Sea Empire now."

"Just the Moon Wheel Empire alone is already dragging me down like this, if it is divided up again, what will our Mountain and Sea Empire look like?"

The Withered Grievance God waved his hand and said with a smile:

"Snow Emperor, you misunderstood, our Daoist and Buddhist schools actually also have a competitive relationship, but this time we came to you together because we sensed that something bad is about to happen."

"So."

"We need to be revived and come into the world. We are different from other Holy Lands. We are willing to advance and retreat with you, respect the Mortal Palace, and will not establish our own country, but will only develop the Holy Land normally."

"Furthermore, we can promise that in times of crisis for the Mountain and Sea Empire, we will definitely share weal and woe."

Lin Tianhao was a little surprised, although this promise is not completely a relationship of affiliation, it can also be considered as just establishing a force in the Mountain and Sea Empire.

To be honest.

Their attitude was something that Lin Tianhao did not expect. Originally, Lin Tianhao thought that he had suffered heavy losses in the Vast and Boundless Palace this time.

The people from the One Thought Temple and the Zhenlong Precious Temple came this time to force a palace coup.

But he didn't expect the conditions they offered to be something he couldn't refuse.

If the Twilight of the Gods was just a simple game, then from a perspective of interests, even if the two major forces made such a request, he could refuse.

But four and a half years later, the Great Tribulation is about to descend. If he gives up the two Holy Lands of his camp for his own little bit of interest, that is not a wise move.

The revival of the two Holy Lands is willing to advance and retreat with him, this is definitely not a bad thing.

"I still have a question, does the Zhenlong Precious Temple really want to give the position of Holy Land Lord to Potala Heavenly Dragon."

"Hahaha, the Mortal Palace can choose an adventurer to be the Holy Land Lord, can't our Zhenlong Precious Temple do the same?"

"Or is it that you, Snow Emperor, have some grudges with him, so you don't want him to become the heir of our Zhenlong Precious Temple."

"Don't say that."

Lin Tianhao waved his hand, "If I had a grudge with him, I would have sent him back to the spring long ago."

Potala Heavenly Dragon smiled helplessly, he was really worried that if Lin Tianhao said something, he would really have no place to cry.

"What about you? You even brought the Wild Ambition Daoist to such an important discussion, could it be that you also intend to cultivate him into the next Holy Land Lord?"

Hearing this.

The One Thought God smiled slightly, "Snow Emperor, we can't give an accurate answer to this, after all, the choice of the Holy Land Lord is too important, you understand."

"However, the Wild Ambition Daoist is indeed extremely talented, and we do have the idea of cultivating him a bit."

At this point.

The One Thought God waved his hand and said with a smile: "Alright, Snow Emperor, let's talk about serious business."

Lin Tianhao pondered for a moment, "Next, I will send troops to the Moon Wheel Empire to take at least half of the land of the Moon Wheel Empire, I want you to take action to fight against the high-end combat power of the Moon Wheel Empire."

"Then the territory taken from the Moon Wheel Empire will be divided between you two, how about that?"

The One Thought God and the Withered Grievance God looked at each other, and then both nodded with a smile.

"No problem, we agree."

Seeing that they both nodded in agreement, a smile appeared on Lin Tianhao's face.

"Okay, then you wait for my news, when it's time to take action, I will contact Potala Heavenly Dragon and the Wild Ambition Daoist."

The One Thought God nodded and said with a smile: "Okay, then we will wait for your news, Snow Emperor."

"Okay."

Lin Tianhao nodded with a smile, and then prepared to send them away.

But at this moment, a somewhat low voice came from outside.

"Snow Emperor, you and the Xitu Empire are dividing our Moon Wheel Empire with just a few words, isn't that taking our Moon Wheel Empire too lightly."

As the voice fell, a gloomy aura permeated.

Immediately afterwards, a man with a 狰狰 face walked in.

His eyes were dark red, with a sense of oppression that was indescribable.

The strength of this sense of oppression was even stronger than the oppression that the God in full condition brought to Lin Tianhao in the beginning.

Lin Tianhao's hands trembled slightly, because he saw endless mountains of corpses and seas of blood from this person.

This person.

No, it should be said that this God.

"Who are you?"

Lin Tianhao asked in a deep voice.

The foundation of the major Holy Lands is indeed not to be underestimated. Under such circumstances, the Moon Wheel Demon Palace actually still has such a trump card.

"You... You are the God of Slaughter!!!"

The One Thought God's eyes widened, looking at the blood-eyed man with disbelief.

"You are really the God of Slaughter, weren't you completely sealed? How can you still break the seal and come out!!!"

Chapter 545 - Bone charm god!

The God of Slaughter did not answer the question of the One Thought God, his gaze fell on Lin Tianhao.

"Emperor Xue, today, I am here on behalf of the Moon Wheel Demon Palace, and also on behalf of the 23 billion people of the Moon Wheel Empire."

Lin Tianhao narrowed his eyes slightly. Wasn't it rumored that this God of Slaughter was bloodthirsty?

Looking at him like this, it seems that he wants to help the Moon Wheel Empire.

"What do you want to say?" Lin Tianhao asked.

"The people of the Moon Wheel Empire can withdraw from the Vast Sea Continent, allowing the Mountain and Sea Empire to be revived. Not only that, the Moon Wheel Demon Palace can become an appendage of your Mortal Palace."

Lin Tianhao was a little surprised. What he said made him feel a little unbelievable.

Especially since.

This time, even with the heavy losses of their Mortal Palace, the other party didn't think about fighting to the death, and even prepared to take the initiative to give up the Moon Wheel Empire.

"Why?" Lin Tianhao asked.

The main reason was that today's situation was too unexpected for them.

The God of Slaughter pondered for a while, and continued:

"Because our Moon Wheel Demon Palace has no way out. Even if the Mortal Palace doesn't take action, given the current situation of our Moon Wheel Demon Palace, it is inevitable that we will be destroyed."

"Rather than waiting for death, it is better to seek a glimmer of hope."

Lin Tianhao smiled and said: "Why do you think I can help you here?"

"You should know that our Mortal Palace has also suffered heavy losses this time. If other major forces attack our Mortal Palace again, the pressure on our Mortal Palace will be enormous."

Hearing Lin Tianhao's words, the God of Slaughter's gaze fell on the One Thought God and the Withered Grievance God.

"No, your Mortal Palace has simultaneously defeated the foundations of the four Holy Lands this time. Especially since the fact that you possess the God Conferring List has spread throughout the world, no one will dare to attack your Mortal Palace unless absolutely necessary."

Lin Tianhao remained silent, not in a hurry to answer.

The God of Slaughter continued: "Moreover, the One Thought Temple and the Dragon Suppressing Precious Temple are both willing to help you. You are the last facade of the Eastern Holy Lands. If you fall, it will be even more difficult for them to revive."

"Therefore."

"Those Eastern Holy Lands are unwilling to see you fall."

With that said.

The God of Slaughter changed the subject and continued:

"I think this is also why the One Thought God and the Withered Grievance God are willing to revive in the form of semi-vassals at this time, because they don't want to see your Mortal Palace fall."

Lin Tianhao nodded with a smile.

"What you analyzed today is all very reasonable, but if that's all, I still can't believe what you said."

The God of Slaughter was not surprised, he didn't even say he would use his identity as a god as a guarantee.

Because he knew that such a guarantee was meaningless.

"I came here today because I have made a decision. To gain your trust, the only way is to ascend the list with my own body!!"

The God of Slaughter's voice was not loud, but it made the One Thought God and the Withered Grievance God dumbfounded, both of them were extremely shocked.

"God of Slaughter, what do you mean? Could it be that you want to take the initiative to ascend the God Conferring List?"

The God of Slaughter nodded very seriously, "That's right, that's what I'm thinking."

"Emperor Xue, I am the God of Slaughter, in my peak state, I am already a half-step God King, and I have proven the Dao with slaughter. Without a God King, I can kill anyone I encounter!"

"This way, the major Holy Lands will be even more afraid of you and will not easily become your enemy."

To be honest.

Lin Tianhao was completely dumbfounded.

The God of Slaughter's operation really made Lin Tianhao unable to understand.

"You, a dignified god, and still a bloodthirsty god, would actually do this for the sake of your country's people. It really surprises me."

The God of Slaughter seemed to have expected Lin Tianhao to say this.

He took a step forward, his figure transforming into a nine-winged angel.

"Others respectfully call me the God of Slaughter, but I am actually not the God of Slaughter, but the Slaughter Angel."

"The real God of Slaughter is already above the God King, how can I compare to him."

"We angels generally do not actively initiate disputes, we love peace and even more, we love our people."

Lin Tianhao did know that most angels loved peace, and they could make many sacrifices for peace.

Of course.

There are no absolutes in the world.

There are also some angels who hope to provoke wars.

And the Slaughter Angel, in Lin Tianhao's opinion, should be the one who wants to provoke wars.

But it was something Lin Tianhao never dreamed of that he would actually love peace.

"Emperor Xue, I know you are cooperating with the Xitu God Temple, but if you cooperate with them, you can only get half of the Moon Wheel Empire, and you will also be nurturing a tiger to cause trouble."

"But if you cooperate with us, you can gain more."

What the God of Slaughter said was indeed very moving.

But along the way, Lin Tianhao has experienced too much.

Therefore.

He still subconsciously suspected that there was something wrong with it.

But it didn't seem to matter anymore.

As long as the God of Slaughter is really willing to ascend the God Conferring List, he will not suffer any losses anyway.

With this in mind.

Lin Tianhao's gaze fell on the God of Slaughter.

"I can agree to cooperate, but you need to ascend the God Conferring List first!"

A smile appeared on the God of Slaughter's face, "No problem, let's do it."

Lin Tianhao sacrificed the Underworld Longbow, and just as he was about to make a move, a terrifying power swept over.

"Emperor Xue, you have already agreed to cooperate with our Xitu God Temple, now you are going back on your word, isn't that a bit inappropriate."

Along with the sound falling.

A delicate-looking woman walked over.

Her eyes were captivating, causing those who met her gaze to involuntarily immerse themselves in it, and even arouse some of humanity's most primitive desires.

Moreover.

It was difficult to control.

"Goddess Bone Charm, long time no see."

Before Lin Tianhao could open his mouth, the Withered Grievance God spoke with a smile.

The Withered Grievance God's back carried some special power, helping Lin Tianhao suppress the desires in his heart.

"Butting in!"

Goddess Bone Charm snorted coldly, "Withered Grievance God, your Dragon Suppressing Precious Temple did so many dirty things back then, and now you want to whitewash and revive with a pat on the butt, it's really a bit shameless."

Hearing this, the Withered Grievance God's face showed a bit of anger.

"Goddess Bone Charm, stop spouting nonsense here, our Dragon Suppressing Precious Temple did do some unconscionable things, but it's not as serious as you said."

"Moreover, looking at the entire Twilight of the Gods, who hasn't done something unconscionable? Is the foundation of your Xitu God Temple very clean?"

Goddess Bone Charm waved her hand, "Alright, Withered Grievance God, I'm not here to argue with you this time."

With that said.

Goddess Bone Charm's gaze fell on Lin Tianhao.

"Emperor Xue, cooperation, then you should look like you are cooperating, you can't forget our cooperation just because others give you some benefits!"

Chapter 546 - Born from killing, to protect the peace!

Lin Tianhao grinned and said, "Bone Charm God, you can't just say things like that. Our cooperation has always been in the negotiation stage. Now you're stepping in, isn't that a bit inappropriate?"

Bone Charm God sneered, "It seems Xiudeli Haohong was right to remind me that you, Snow Emperor, are truly a treacherous villain."

With that said.

Bone Charm God's gaze fell on the Angel of Slaughter.

"Angel of Slaughter, do you see? That's what Snow Emperor is like. Are you sure you still want to follow him?"

The God of Slaughter frowned slightly, "Bone Charm God, there's no need for you to sow discord."

Bone Charm God smiled noncommittally, "This isn't me sowing discord. I'm just stating the truth."

"If you can't even bear to hear the truth, you can cooperate with Snow Emperor and see what your end will be."

"Moreover, don't you want peace? What Snow Emperor is about to do has absolutely nothing to do with peace."

"Today it's the Moon Wheel Empire, tomorrow it will be our Xitu Empire, and after that, the Vast Empire."

"If you want peace, there's only a glimmer of hope if you completely eliminate Snow Emperor."

A cold glint flashed in Lin Tianhao's eyes.

This Bone Charm God was courting death.

However.

The God of Slaughter responded before Lin Tianhao could.

"Didn't Snow Emperor say that you only had a verbal agreement and hadn't formally confirmed cooperation?"

Bone Charm God was somewhat annoyed, "Angel of Slaughter, are you stupid? How can you speak for someone like Snow Emperor?"

He never placed himself on a moral high ground.

He didn't even think he was a good person.

He just wanted to have enough strength to change his destiny.

In his previous life.

After the Great Cataclysm descended.

Lin Tianhao had seen too many terrifying things.

So now Lin Tianhao had to find every possible way to become stronger.

Only by possessing sufficient strength could he advance further under the baptism of the Great Cataclysm.

"Bone Charm God, now that you're here today, don't leave."

Lin Tianhao summoned Mu Yunli · Sanyuan.

The only god on his God Conferring List who could fight was Mu Yunli · Sanyuan. If he could kill the Bone Charm God and send her to the God Conferring List.

Not only would he have one more god, but he could also awaken the God of the Undead.

Perhaps he wouldn't be able to fully recover, but he could recover to at least seventy or eighty percent.

Bone Charm God narrowed her eyes slightly, "Snow Emperor, although we only have a verbal agreement, your actions today will bring a disaster to your Mortal Palace."

Lin Tianhao smiled indifferently and said, "If I, Snow Emperor, were afraid, I wouldn't have reached this point today."

"Moreover, after the action against the Moon Wheel Empire ends, I was planning to attack your Xitu Empire anyway."

The Xitu Empire wanted to divide the Moon Wheel Empire with him, which meant that the Xitu Empire had its own ambitions.

Therefore.

The most ideal approach was to obliterate the Xitu Empire before it grew stronger.

Bone Charm God turned into a shadow, preparing to negotiate. Now everyone knew that Lin Tianhao possessed the God Conferring List.

Therefore.

The gods of other holy lands would never give Lin Tianhao a one-for-one opportunity unless absolutely necessary.

Especially.

Bone Charm God had already considered a way out before coming here.

Therefore, it was as difficult as ascending to heaven for Mu Yunli · Sanyuan to keep her.

But Lin Tianhao had a trump card, which would affect even the gods.

"Sky Patrol Divine Skill: Return of the Void!"

This skill could pull the opponent back to his side. This was the power of the laws of the void.

Although Lin Tianhao had not mastered the laws of the void, he had directly engraved and learned this skill after all.

Relying on this skill, he could still achieve results.

"What kind of monster are you?!"

Bone Charm God's face was filled with disbelief. She didn't expect that even though she had made preparations, she could still be kept here.

"Charm Bone, shatter!"

Bone Charm God was ruthless enough. Knowing that if she was kept by Lin Tianhao, she would become a member of Lin Tianhao's God Conferring List.

Therefore, she directly detonated her charm bone, using the huge explosive energy to escape.

Lin Tianhao couldn't help but feel a little regret.

This was the Mortal Palace, and he had a chance to keep the Bone Charm God.

Lin Tianhao's gaze fell on the Angel of Slaughter.

"You still have a chance to regret it now," Lin Tianhao said.

The Angel of Slaughter smiled and said, "Do you know why I chose to join you instead of other holy lands?"

"Why?" Lin Tianhao asked.

The God of Slaughter said very seriously:

"Because I saw my shadow in you. I can feel that you, like me, were born from slaughter, but you have a peace that you want to protect."

Lin Tianhao smiled.

In all this time, the Angel of Slaughter was the first person to understand him.

The Angel of Slaughter was absolutely right.

Lin Tianhao's efforts now were all for the Chinese people to have stronger power when the Great Cataclysm descended.

He could also have enough power to protect one side.

In his previous life.

Many people had seen endless slaughter, and after seeing rivers of blood and mountains of corpses, they became numb, desperate, and some even went crazy.

But what Lin Tianhao saw in his previous life was more of a deep sense of powerlessness.

He hoped that he had the power, the power to make some changes.

Instead of watching his country be stained red with blood and turn black.

He didn't want to see his country become a mass grave piled with corpses.

He didn't want to see his relatives and brothers leave him one by one.

Therefore.

He had to become stronger.

Born from slaughter, to protect one side of peace.

Just like the group of lovely people in China today.

They were not in the spotlight, they didn't have high incomes, and most people didn't even know their names.

But they had been working hard for the peace of this country.

Lin Tianhao was not a great man, but to the best of his ability, he hoped that his country would become stronger.

Even if it would bring some infamy, so what?

Lin Tianhao looked at the Angel of Slaughter with a smile on his face.

Immediately, he raised the Netherworld Longbow, and feathered arrows poured out.

With the existence of burning origin, and considering that this was just a wisp of the Angel of Slaughter's remnant soul, it was not difficult to kill.

"Ding, you have killed the Angel of Slaughter. A server-wide announcement is about to be made. Do you want to hide your name?"

"No!"

"Server-wide announcement, congratulations to player Snow Emperor for successfully killing the Angel of Slaughter. This is a special announcement, hoping that all players will continue to work hard!!"

.....

Along with the fall of the Angel of Slaughter, the God of the Undead awakened, and the guild created by Lin Tianhao also reached nine stars!

Chapter 547 - The coming storm!

These continuous kills of gods elevated the guild from seven stars to nine stars.

And after Lin Tianhao killed the God of Slaughter, he completely shocked the powerhouses of the major holy lands.

Because the matter of Lin Tianhao possessing the Fengshen List is now well known in the major holy lands.

Under such circumstances.

The major holy lands, as well as those gods, will be on guard and will not easily give Lin Tianhao another chance.

However.

Even under such circumstances, Lin Tianhao still killed the Angel of Slaughter, which made many people feel incredible.

Vast and Boundless Palace.

Xiudeli Haohong angrily slammed his palm on the table.

"What's going on? The fact that Xue Di possesses the Fengshen List is already well known, so why would the Angel of Slaughter still offer his head?"

Xiudeli Baiyun sighed, "It was expected, but I didn't expect the Angel of Slaughter to be so decisive."

"Why?"

"Now that our four major holy lands have suffered heavy losses, Ke Fan Hall has also suffered considerable losses. Under such circumstances, the Moon Wheel Demon Palace doesn't necessarily have to choose Xue Di."

"There is no need for the Angel of Slaughter to send himself up!!"

Xiudeli Baiyun glanced at Xiudeli Haohong and said coldly:

"It wouldn't hurt to use your brain more. Now the Moon Wheel Demon Palace is the target of public criticism. Even if Ke Fan Hall doesn't take action, those holy lands that want to revive will want to destroy the Moon Wheel Demon Palace and revive by stepping on the Moon Wheel Empire."

"Therefore, the Moon Wheel Demon Palace must take countermeasures, and it must be fast, otherwise it will be too late."

Xiudeli Baiyun's words also served as a wake-up call for Xiudeli Haohong.

What he saw was that the four major holy lands had already suffered heavy losses.

But he ignored the other holy lands that had not yet revived.

Especially.

Of the four major holy lands that suffered heavy losses this time, only the Moon Wheel Demon Palace and the Vast and Boundless Palace are in the Vast Continent.

The other two, the Western Extremity Temple and Binghuo Los Island, are both outside the Vast Continent.

Generally speaking, if a holy land wants to revive, it will not easily choose outside the Vast Continent.

And the remaining ones that suffered heavy losses are the Moon Wheel Demon Palace, the Vast and Boundless Palace, and Ke Fan Hall.

But Ke Fan Hall has the Fengshen List and represents the Eastern forces. Unless they are tired of living, they will not easily try to attack Ke Fan Hall.

As for their own Vast and Boundless Palace.

Although they also suffered heavy losses last time, the foundation of their Vast and Boundless Palace is still much higher than that of the Moon Wheel Empire.

Even if those holy lands that are preparing to revive really want to take action, it is impossible for them to attack their Vast and Boundless Palace.

Any holy land that wants to revive may want to cut a piece of meat from them.

Moreover.

After this battle of the gods in their Vast and Boundless Palace, those holy lands that are preparing to revive must have already begun to act.

The Moon Wheel Demon Palace has no more choices, they must make a decision.

And now, the full-server announcement they heard basically represents the decision of the Moon Wheel Demon Palace.

The decision of the Moon Wheel Demon Palace is definitely adding insult to injury for the Vast and Boundless Palace.

But it's not all bad news.

The Moon Wheel Demon Palace surrendering to Ke Fan Hall, other forces that want to revive will inevitably interfere.

This game is still continuing, and who can laugh last is still unknown.

Not only the Vast and Boundless Palace.

Other holy lands also realized what Lin Tianhao's killing of the Angel of Slaughter meant.

This decision of the Moon Wheel Demon Palace undoubtedly directly changed the pattern of the entire Vast Continent.

Undoubtedly, the one most affected by this game is the Xitu Temple.

The Moon Wheel Demon Palace surrendering to Lin Tianhao, and the Vast and Boundless Palace will not easily be passive, so who else can they move?

The answer is already obvious, and that is the Xitu Temple.

Of course.

This is just a guess, and no one can say for sure where it will eventually go.

But in terms of the current situation, the Xitu Temple is the most disadvantaged.

But often, judging the situation cannot only look at the present.

The Xitu Temple previously wanted to cooperate with Lin Tianhao to plot against the Moon Wheel Empire.

This was a plan that had been prepared even before the battle of the gods in the Vast and Boundless Palace.

This shows that the Xitu Temple also has some trump cards that Lin Tianhao doesn't know about.

In addition, there is also the existence of the Le Shen Society.

This has led to the current situation in the Vast Continent becoming even more confusing.

But for now, Lin Tianhao still wants to check the power he obtained from killing the Angel of Slaughter.

Angel of Slaughter: [Slaughter Proves Dao: After you kill a creature whose level is not lower than your own, you can permanently increase your own attack power by one point.]

Lin Tianhao's eyes lit up. This Slaughter Proves Dao is a bit awesome.

It is directly equivalent to an ordinary god-level talent.

Lin Tianhao's current output ability is already terrifying.

Now this damage is added to Lin Tianhao, which will make him even more terrifying.

After all, Lin Tianhao has double true damage, and attack power is placed on Lin Tianhao, and the rate of return is also extremely good.

Now Lin Tianhao's damage is enough, and all that's missing is armor.

Because of the City God Temple, Lin Tianhao's magic resistance also leads most players at this stage.

After all, Lin Tianhao is backed by the Mountain and Sea Empire, and the magic resistance value that the City God Temple can increase for Lin Tianhao is quite good.

Retracting his thoughts.

Lin Tianhao called Ouyang Wenlong and Shangguan Hongxun over.

"Greetings, Hall Master."

Ouyang Wenlong and Shangguan Hongxun are extremely respectful to Lin Tianhao.

After all, the things Lin Tianhao has done recently have brought too much glory to their Ke Fan Hall, fighting against the four major holy lands with his own strength.

This is not something everyone can do.

"I wonder what instructions the Hall Master has?" Ouyang Wenlong asked respectfully.

Lin Tianhao looked serious.

"This time, the Moon Wheel Demon Palace has surrendered to us, and the Angel of Slaughter has even sacrificed himself. For our Ke Fan Hall, it is a very good improvement."

Ouyang Wenlong respectfully bowed, "This is all thanks to the Hall Master."

Lin Tianhao waved his hand. He didn't care much about such flattery.

"What I want to say is that taking over the Moon Wheel Empire will probably not be easy, especially the 23 billion people of the Moon Wheel Empire. It may not be possible for the Moon Wheel Demon Palace to make them evacuate with just one sentence."

Ouyang Wenlong nodded, "That's right, I'm also a little worried about this, especially since the Moon Wheel Demon Palace's move will make many holy lands that are preparing to revive stir."

"It also concerns the whereabouts of 23 billion people. If we don't agree, there may be troubles."

Lin Tianhao looked serious. He also thought of what Ouyang Wenlong thought of.

Whether it is the holy land that has been revived or the holy land that has not been revived, they may all come to intervene this time.

The key is.

This time, they are likely not to come out and confront Lin Tianhao head-on.

More is to use these 23 billion people to cause trouble.

If these 23 billion people really want to rise up and resist, the result will be very terrifying.

"What you said is exactly what I am worried about. Therefore, this time I want you and Shangguan Hongxun to go in person, and the Nine-Tailed Immortal Fox will protect you secretly."

"The Nine-Tailed Immortal Fox will notify me of all changes as soon as possible."

Chapter 548 - The Moon Wheel Demon Palace's plan!

This time, the Moon Wheel Demon Palace took the initiative to surrender, and with the God of Slaughter on the list, it was a great relief for Lin Tianhao.

It's just that...

There will probably be a lot of unexpected troubles in taking over the Moon Wheel Empire.

Otherwise, Lin Tianhao wouldn't have let the Nine-Tailed Celestial Fox go with him.

After a little thought.

Lin Tianhao also let Mu Yunli · Sanyuan go with him.

After all, the people who are likely to cause trouble are most likely from the Joyful God Society.

Before letting Mu Yunli · Sanyuan go, Lin Tianhao still had some things to ask Mu Yunli · Sanyuan.

"Sanyuan, how is your Joyful God Society developing now?" Lin Tianhao went straight to the point.

In addition, the reward mission of the Twilight of the Gods, this allowed the Joyful God Society to be exposed to the world in advance.

If someone makes trouble in the Moon Wheel Empire this time, it may not be a bad thing for Lin Tianhao.

Because of the reason for proving the Dao through slaughter, if someone really makes trouble, he doesn't mind a massacre.

It's just that...

Those 23 billion were all former citizens of the Slaughter Angel. Unless it is absolutely necessary, Lin Tianhao will not prove the Dao with slaughter.

Moon Wheel Empire.

Moon Wheel Ke Cu, the master of the Moon Wheel Demon Palace, took the lead in ordering the disbandment of the Moon Wheel Empire and the dismissal of the 23 billion people of the Moon Wheel Empire.

As soon as this order came out, it shocked the world!!

Even those people in the Holy Land who had expected it were very surprised.

The Moon Wheel Demon Palace's move was too crazy, dismissing 23 billion people as soon as they said so, without leaving any room for maneuver.

Especially the two Holy Lands hidden in the Moon Wheel Empire, they were even more anxious at this time.

Ming Xuan Holy Land!

One of the two major Holy Lands hidden in the Moon Wheel Empire.

At this time.

Inside the palace of the Ming Xuan Holy Land.

A man immersed in a blood pool suddenly opened his eyes.

A monstrous blood energy surged, completely enveloping the entire palace.

"Moon Wheel Ke Xuan, you still dare to come here, aren't you afraid that I will tear you to pieces?"

As the voice fell.

A man shrouded in a black robe appeared in the palace.

He smiled slightly and said, "Lord Gu Xue, don't be angry. Our Moon Wheel Demon Palace's move is a choice with no way out."

"Hmph, no way out? You still have many choices, but you chose to rely on the Mortal Palace and stand on the opposite side of us."

"Your brother, Moon Wheel Ke Cu, is now organizing the people to retreat. This is not leaving us a way out."

Hearing this.

Moon Wheel Ke Xuan shook his head and said with a serious expression:

"No, we are actively pushing ourselves to the forefront, the purpose is to turn the tables on Emperor Xue."

The eyes of the Ancient Blood God narrowed, and he looked at Moon Wheel Ke Xuan coldly, and said:

"The Slaughter Angel of your Moon Wheel Demon Palace has taken the initiative to be on the God Sealing List. Are you telling me that this is to turn the tables on Emperor Xue?"

"Is there any credibility in saying such a thing from your mouth?"

Moon Wheel Ke Xuan looked serious and said seriously: "Lord Gu Xue, I am not joking."

"Emperor Xue is naturally suspicious. Judging from our investigation of his past events, if there is not enough sincerity, he will definitely suspect our intentions."

"Therefore, we must send a god to the God Sealing List."

Lord Gu Xue snorted coldly, "Are the gods of your Moon Wheel Demon Palace all dead? You actually sent the Slaughter Angel to the God Sealing List. Do you know what this means?"

"Lord Gu Xue also said that the one sent to the God Sealing List is the Slaughter Angel, not the God of Slaughter."

Hearing this.

The Ancient Blood God stood up directly from the blood pool, looking at Moon Wheel Ke Xuan with an incredulous expression.

"Moon Wheel Ke Xuan, what do you mean by this?"

"What I mean is that the real master of our Moon Wheel Demon Palace is the God of Slaughter, not the Slaughter Angel."

"The Slaughter Angel is just a pawn in this plan. Everything is just to gain the trust of Emperor Xue."

The eyes of the Ancient Blood God narrowed slightly, and he asked in a deep voice: "Then what is your real purpose?"

Hearing this.

A faint smile appeared on Moon Wheel Ke Xuan's face, and he said:

"Using our Moon Wheel Empire's 23 billion people as bait, taking slaughter as the foundation, to help the God of Slaughter take another step forward and ascend to the realm of the God King!"

"Open the Slaughter God Dao and completely suppress Emperor Xue."

The Ancient Blood God was extremely shocked. He looked at Moon Wheel Ke Xuan in disbelief.

"Are you guys really ruthless? Those are the people of your Moon Wheel Empire, and it is not an easy task to kill 23 billion people."

Moon Wheel Ke Xuan nodded, "It is indeed not easy, so we still need your Ming Xuan Holy Land to help us and provoke incidents from it."

"I have arranged several generals and several business tycoons. They will take the lead in rebelling and opposing our Moon Wheel Demon Palace's decision."

"Our Moon Wheel Demon Palace will take action to suppress them, and Emperor Xue will also help us suppress them together."

"In addition, other forces will inevitably come to intervene, and there will inevitably be widespread suffering and constant slaughter."

After listening to Moon Wheel Ke Xuan's plan, the Ancient Blood God couldn't help but exclaim:

"You guys are really ruthless."

"As the saying goes, no poison, no husband, and a small amount is not a gentleman. Under the baptism of this fourth era of god creation, if we want to seize the opportunity, we must take extraordinary measures."

"And Emperor Xue is the biggest obstacle for us to obtain the opportunity."

"No, strictly speaking, Emperor Xue has become the biggest obstacle to our survival. If we don't get rid of him, our Moon Wheel Demon Palace will not have a good end."

The Ancient Blood God frowned slightly and asked:

"Which forces are participating in this plan? Or rather... which Holy Lands?"

"There is also a Holy Land whose foundation is no less than that of the Vast Expanse Infinite Palace. This plan is also led by them."

"In order to ensure the smooth progress of the plan, a semi-God King powerhouse from that Holy Land took action to seal part of the Slaughter Angel's memory."

The Ancient Blood God was shocked. He knew some powerful Holy Lands, but he didn't expect that a Holy Land of this level would participate in it.

"Your calculations are all beneficial to our Ming Xuan Holy Land without any harm. I have no reason to refuse to help."

"However, if our Ming Xuan Holy Land wants to be born, your Moon Wheel Demon Palace must fully support it."

Moon Wheel Ke Xuan nodded without even thinking and said:

"No problem, as long as Emperor Xue is resolved, our Moon Wheel Demon Palace will fully support your birth."

After receiving Moon Wheel Ke Xuan's promise, a satisfied smile appeared on the Ancient Blood God's face.

"Okay, in that case, our Ming Xuan Holy Land will also fully cooperate with your plan this time."

At this point.

The Ancient Blood God hesitated slightly and still asked:

"I am very curious, which Holy Land's foundation is no less than that of the Vast Expanse Infinite Palace?"

Moon Wheel Ke Xuan smiled helplessly, "I don't know either, because this is our lord directly contacting their semi-God King."

Chapter 549 - The Moon Empire is in turmoil!

"The God of Slaughter personally contacted you, and you don't even know?" The Ancient Blood God was very surprised.

"Yes, I only know there's such a thing, but I really don't know which holy land it is."

Yue Lun Ke Xuan was a little helpless. He was considered high-ranking in the Yue Lun Demon Palace, but he only knew a little about this matter.

“The secrecy is so good, it seems you guys are really prepared to kill the Snow Emperor this time.”

Yue Lun Ke Xuan cupped his hands, “Whether we can completely eliminate the Snow Emperor’s trouble depends on Lord Ancient Blood.”

“The Snow Emperor holds the God Conferring List, and with the support of Eastern forces such as Taoism and Buddhism, it will be really difficult to deal with him without taking special measures.”

“Okay, this time, we won’t leave any way out for the Snow Emperor.”

... ..

Fan Hall.

Lin Tianhao was making a choice at this time.

Because he had just received a message from Gu Yuange of the God Slaying Academy, the last person in the team had been assembled, and he could go back to the God Slaying Academy for the next round of study.

Team battle!

This is not a weakness for Lin Tianhao.

Because in his previous life, he was just a small fry, and the power of the team was crucial to surviving five years under the Great Cataclysm.

However, training at the God Slaying Academy should be different from the team battles he had encountered before.

In all likelihood, it is stronger.

Only.

Now the situation in the vast continent is changing rapidly, and now is the critical moment to take over the Moon Wheel Empire.

If he goes to the God Slaying Academy at this juncture, and something goes wrong here, it will be really difficult to deal with without him.

There is no doubt about the usefulness of God Slaying level team battles, but Lin Tianhao can still distinguish the priorities.

The Moon Wheel Empire is related to whether he can continue to change his job to become a Heavenly Punishment Archer.

Compared with God Slaying level team combat skills, Lin Tianhao felt that the subsequent job change of the Heavenly Punishment Archer was more important.

After all the arrangements were made.

Lin Tianhao began to comprehend the Dao.

He wants to improve the power of his Dao.

Now his basic output ability is no less than those top powerhouses.

However, due to the lack of the power of the Dao, there is still a relatively obvious gap between him and those real top powerhouses.

Especially.

In this battle of the gods, his Zhuxian Sword Formation was destroyed, and he would be even weaker when facing those top powerhouses in the future.

In the blink of an eye.

Three days passed.

As Lin Tianhao expected, something went wrong.

The three border generals of the Moon Wheel Empire took the lead in resisting, and gathered an army of one million in one breath.

In addition to the response of a large number of Moon Wheel Empire people, in a very short period of time, it has developed to a population of tens of millions.

They began to attack the Moon Wheel Empire's demobilization team, and the two sides have had relatively fierce conflicts.

When the conflict broke out, Lin Tianhao was not surprised. This was something he expected.

It only took a short time to gather an army of one million and tens of millions of people.

This speed still made Lin Tianhao feel a little unbelievable.

Although this number is a drop in the bucket compared to the 23 billion people of the Moon Wheel Empire.

But you can't simply look at such appearances.

The border generals themselves can mobilize the army, and it is still barely acceptable to be able to mobilize an army of one million through their own influence.

But in such a short period of time, gathering tens of millions of people.

It was still gathered under the eyes of the Moon Wheel Empire, which is very problematic.

Only.

Lin Tianhao didn't think too much.

Because from a normal person's point of view, it is obvious that someone is fueling the flames behind the scenes.

And the person who is fueling the flames is likely to be those holy lands that want to revive in the Moon Wheel Empire.

After the three border generals took the lead in rebelling, Mu Yunli · Sa Yuan took Shangguan Hongxun and Ouyang Wenlong to take action and solve the three border generals.

But the matter did not end because of the fall of the three border generals, but more and more people began to take advantage of this to create momentum.

“The Moon Wheel Demon Palace is completely useless. In order to please the Fan Hall, it actually killed three border generals who guarded the territory!!”

“The Moon Wheel Demon Palace is insane. For its own benefit, it abandoned 23 billion people. What reason do we have to follow such a leader?”

“Let’s rebel, we would rather die than surrender. We don’t want to be the sacrifices of the Moon Wheel Demon Palace to please the Fan Hall.”

“Let us stand up and resist together, overthrow the Moon Wheel Demon Palace, and overthrow the Fan Hall. As long as we 23 billion people are united, we will be invincible.”

... ..

Shangguan Hongxun's suppression methods were not only useless, but instead stirred up a thousand waves, becoming the fuse that ignited the resistance of the 23 billion people of the Moon Wheel Empire.

In fact, discerning people can see it.

Whether there is this fuse or not, this dynamite barrel of 23 billion people of the Moon Wheel Empire will inevitably be detonated.

After all, other holy lands will not easily let Lin Tianhao take over the Moon Wheel Empire.

Therefore.

They will inevitably fuel the flames behind the scenes, provoking the hatred of these 23 billion people towards the Moon Wheel Demon Palace and the Fan Hall.

Lin Tianhao had a panoramic view of the changes in the Moon Wheel Empire.

He was also thinking about how to break the situation.

But now it seems that there is no good way.

23 billion people are rampaging in the Moon Wheel Empire, constantly resisting.

The Moon Wheel Empire gathered a large army and bloodily suppressed many people.

But such behavior not only did not suppress the people of the Moon Wheel Empire, but instead made their resistance more intense.

Lin Tianhao raised his hand, and the Angel of Slaughter appeared in front of him.

“Angel of Slaughter, you also know the situation of the Moon Wheel Empire. Do you have any good ways to deal with it?” Lin Tianhao asked.

“Kill one to warn a hundred, bloody suppression.”

The Angel of Slaughter said very seriously: “Now we have no way out, only bloody suppression, otherwise it will be as difficult as climbing to the sky to let them withdraw from the vast continent.”

Bloody suppression!

This is what the Moon Wheel Demon Palace is doing.

After all, at this stage, if they don't suppress, the 23 billion people will continue to cause trouble.

“Although the Moon Wheel Empire looks chaotic now, a careful analysis can reveal that they are mainly divided into two forces, and it is not to say that all 23 billion people of our Moon Wheel Empire have participated in it.”

“Instead, there are forces behind the scenes promoting the people's resistance. According to my speculation, these two forces should be two hidden holy lands in the Moon Wheel Empire.”

Lin Tianhao couldn't help asking when he heard this.

“Which two?”

“Mingxuan Holy Land and Di Que Chamber of Commerce.”

Lin Tianhao's eyes lit up, “Di Que Chamber of Commerce is in your Moon Wheel Empire?”

Lin Tianhao didn't have much impression of Mingxuan Holy Land, but Lin Tianhao was very impressed with this Di Que Chamber of Commerce.

Just because this Di Que Chamber of Commerce controls the vast continent and many commercial entities around the vast continent behind the scenes.

The wealth and resources are extremely terrifying. This is after the Great Cataclysm that the Di Que Chamber of Commerce gradually surfaced.

Chapter 550 - Just because my name is Xue Di!

If Lin Tianhao had to choose the force he most wanted to recruit, it would undoubtedly be the Earth Deficiency Merchant Guild.

“Lord, do you know about the Earth Deficiency Merchant Guild?” Killing Angel asked, somewhat surprised.

Although the Earth Deficiency Merchant Guild's business spans the entire Vast Expanse Continent,

they are very mysterious and low-key. If it weren't for the fact that the Earth Deficiency Merchant Guild was located in their Moon Wheel Empire, he probably wouldn't even know of its existence.

“I've heard of them.”

Lin Tianhao didn't offer much explanation.

Only,

Lin Tianhao felt that the Earth Deficiency Merchant Guild was unlikely to participate.

After all, according to Lin Tianhao's understanding of the Earth Deficiency Merchant Guild from his previous life, they didn't care about reputation, nor did they care whether their own sacred ground emerged into the world.

The only two words they cared about were: making money!

“Do you know where the headquarters of the Earth Deficiency Merchant Guild is located?”

Lin Tianhao asked directly.

“Moon Wheel Empire, Earth Deficiency Dragon Cave!”

Lin Tianhao's eyes narrowed slightly, it seemed that the rumors from his previous life were correct.

This Earth Deficiency Merchant Guild was similar to the Vast Expanse Limitless Palace.

They both discovered a dragon cave, obtained treasures from within, and then developed step by step.

Only,

the Earth Deficiency Merchant Guild chose a completely different development path from the Vast Expanse Limitless Palace.

This led to the creation of two completely different sacred grounds.

However, none of that mattered anymore.

Now that Lin Tianhao had made contact with the Earth Deficiency Merchant Guild ahead of time, it was natural for him to pay them a visit.

“Alright, let's start breaking the deadlock in the Moon Wheel Empire with the Earth Deficiency Merchant Guild.”

As soon as he finished speaking,

Lin Tianhao summoned the Kunlun Mirror, took a step, and in the next moment, he arrived at the Moon Wheel Empire.

Under the guidance of Killing Angel, Lin Tianhao successfully found the Earth Deficiency Dragon Cave.

After easily passing through the illusionary formation in front, two people appeared and stopped Lin Tianhao.

Xu Changdu (Diamond): Eighth Rank.

Health Points: ???

Attack Power: ???

Skills: ???

Xu Changfeng (Diamond): Eighth Rank.

Health Points: ???

Attack Power: ???

Skills: ???

The two men had the same rank and job advancement level.

“Private property, no entry for idlers!”

Xu Changdu raised the spear in his hand, the cold light of the spear aimed at Lin Tianhao's neck.

It seemed that as long as Lin Tianhao dared to take another step forward, he would not hesitate to pierce Lin Tianhao's neck.

Lin Tianhao's expression was indifferent, and he said calmly, “Snow Emperor, Hall Master of the Mortal Palace, seeks an audience with Guild Master Chang of the Earth Deficiency Merchant Guild.”

Upon hearing these words,

Xu Changdu and Xu Changfeng exchanged glances, both revealing surprise in their eyes.

Their Earth Deficiency Merchant Guild had always been low-key.

Very few people knew about their Earth Deficiency Merchant Guild.

Even fewer knew their Guild Master's surname, and in theory, no outsiders knew their Guild Master's identity except for the people within their Earth Deficiency Merchant Guild.

However, Lin Tianhao directly stated their Guild Master's surname, which inevitably made them take him seriously.

In addition to that,

the name Snow Emperor had recently resounded throughout the entire Vast Expanse Continent.

He had provoked the War of the Gods and ultimately retreated unscathed.

Even their Earth Deficiency Merchant Guild had to take him seriously.

“Snow Hall Master, please wait a moment while I go and report,” Xu Changdu said.

Lin Tianhao nodded lightly, “Thank you for your trouble.”

Xu Changdu retreated and entered the Earth Deficiency Dragon Cave.

Lin Tianhao didn't have to wait too long, about ten minutes later, Xu Changdu came back.

He respectfully saluted Lin Tianhao, “Snow Hall Master, our Guild Master invites you in.”

Lin Tianhao smiled slightly and entered the Earth Deficiency Dragon Cave under the guidance of Xu Changdu.

The Earth Deficiency Dragon Cave was said to be a dragon cave, but it wasn't a cave at all. Instead, it was a landscape of pavilions, terraces, and artificial mountains and flowing water, somewhat like a paradise.

It was just that these things were concealed by the illusionary formation outside, and these things couldn't be seen from the outside at all.

Under the guidance of Xu Changdu, Lin Tianhao arrived at the entrance of a quaint courtyard.

“Snow Hall Master, please come in, our Guild Master is inside.”

Lin Tianhao stepped into the courtyard, and saw a woman with a sexy and hot figure brewing tea in the courtyard.

Chang Shuiyang (Grandmaster): Demigod.

Health Points: ???

Attack Power: ???

Skills: ???

Lin Tianhao cupped his hands at Chang Shuiyang, "Greetings, Guild Master Chang."

Chang Shuiyang waved her hand and asked directly:

"Snow Emperor."

"As the saying goes, one doesn't visit a temple without a reason. What brings you here?"

Lin Tianhao didn't intend to beat around the bush, so he said directly:

"I'm here for the Moon Wheel Empire. I believe Guild Master Chang already knows what has recently happened in the Moon Wheel Empire."

Hearing this,

Chang Shuiyang frowned and asked:

“What? Snow Emperor, do you think that the Earth Deficiency Merchant Guild is behind the development of the Moon Wheel Empire to this point?”

“Or... do you want us, the Earth Deficiency Merchant Guild, to help?”

Lin Tianhao smiled and nodded, “It's easier to talk to smart people.”

“I don't think the Earth Deficiency Merchant Guild is behind the scenes, but I need the Earth Deficiency Merchant Guild to help in this situation.”

Chang Shuiyang shook her head and said, “Snow Emperor, you think too highly of our Earth Deficiency Merchant Guild. We are just a group of businessmen and don't want to participate in these disputes.”

Lin Tianhao smiled slightly and said:

“Guild Master Chang, why bother deceiving yourself?”

“Now is the Fourth God-Making Era, and with the resources that your Earth Deficiency Merchant Guild possesses, you will be targeted sooner or later.”

Chang Shuiyang was about to say something, but Lin Tianhao raised his hand to interrupt her.

“I know what Guild Master Chang wants to say, but you have to know that the Vast Expanse Continent is already full of hidden dragons and crouching tigers, what about the entire Divine Continent?”

“Your Earth Deficiency Merchant Guild already possesses wealth that doesn't match your strength. If you continue to acquire wealth at your current rate, how many sacred grounds will want to divide you up in the future?”

Lin Tianhao spoke very bluntly, but it made Chang Shuiyang silent.

After a while, she said:

“Snow Emperor, since you've said so much, I'd like to hear, what benefits can I get from helping you?”

“Our Mortal Palace will become the master of the entire Vast Expanse Continent in the future, and it will definitely be completely revived...”

Before Lin Tianhao could finish speaking, Chang Shuiyang interrupted him.

“Snow Emperor, forgive me for speaking frankly, but an actively surrendering Moon Wheel Empire has already given you a headache. Completely reviving the Mountain and Sea Empire is a bit of a pipe dream.”

“Moreover, to talk about things that haven't happened yet, isn't this bargaining chip a bit too fake?”

Lin Tianhao smiled and said:

“Guild Master Chang, you are a businessman, you should know that if our Mountain and Sea Empire is completely revived, you will lose the opportunity to negotiate with me.”

Chang Shuiyang nodded with a smile, “You're right, but why should I believe that you can completely revive the Mountain and Sea Empire?”

“Because my name is Snow Emperor!”
