

O game 55

Chapter 55: Everyone has their own ulterior motives, and one sword kills!

This was just a scene unfolding here.

Merely within a breath.

Hundreds of Nightwalkers simultaneously revealed themselves, charging towards the Shattered Star Well.

They were almost frenzied, unafraid of death.

And their movements were swift, their strength considerable.

In the blink of an eye, they had already approached the Shattered Star Well.

Leona saw this.

A cold glint flashed in her eyes.

"Presumptuous! How dare you make a move in the royal palace!"

As her voice fell.

She took a step forward, and frost instantly spread out.

The Nightwalkers at the very front were instantly frozen into ice sculptures.

Then the ice sculptures shattered, and several Nightwalkers died on the spot.

Qing Fuyun was not to be outdone, and a scepter appeared in her hand.

She waved the scepter in her hand, muttering obscure and difficult-to-understand incantations.

Immediately following that.

The bodies of those Nightwalkers who charged forward actually exploded continuously.

In the instant of the explosion.

It was not a bloody mess, but rather turned into ice blocks.

The palace guards also reacted at this time, quickly gathering and forming a resistance.

Just at this moment.

A lithe woman among the Nightwalkers transformed into an afterimage and emerged!

"Whoosh!"

A flying knife with a green glow flew out from her hand, obviously poisoned.

The flying knife split into nine in the air, and then nine into eighty-one. The palace guards who rushed out were not killed immediately after being hit, but turned into stone statues.

Qing Fuyun was shocked.

Her body instantly exploded, turning into snowflakes and drifting into the distance.

After a moment, her appearance was condensed again.

However, cold sweat had already appeared on her forehead.

If her movements had been slower just now, she might have been petrified.

The female assassin's attack missed, but Leona's attack had already arrived.

A huge ice magic array appeared above the female assassin's head, and countless ice cones fell.

The female assassin wanted to run, but her legs had already begun to freeze.

"Bang!"

The female assassin slapped the ground with her palm, shattering the ice, and at the same time turned into an afterimage, rushing towards Leona.

Leona's expression changed slightly.

These mages were most afraid of this kind of high-output assassin.

Especially since there was no one in front of her to protect her now.

Just like the situation just now.

The female assassin instantly appeared behind her, and the poisoned dagger stabbed towards her.

"Ding!"

A crisp sound.

The dagger stabbed into an ice shield.

Huge cracks instantly appeared on the ice shield, and then it shattered with a bang.

After the ice shield shattered, Leona had already disappeared.

After the female assassin forced Leona back, she did not pursue, but turned into an afterimage and rushed towards the Shattered Star Well.

Her purpose was not to kill people, but to break the seal of the Shattered Star Well.

"Stop her!"

Leona shouted loudly.

Qing Fuyun in the distance raised her scepter, preparing to attack.

But as if thinking of something, she paused her raised hand.

Greylorn Linssen's reaction before proved that Leona must have used some method to harm Greylorn Linssen.

If she blocked these Nightwalkers and Leona really killed Greylorn Linssen, it would be a good thing for the Star Kingdom.

But for her, Qing Fuyun, it was not a good thing.

After a brief hesitation, Qing Fuyun deliberately slowed down the pace, putting on a posture that she was chanting a big move.

Leona couldn't care about anything else at this time.

She was very clear about the pros and cons here.

Therefore.

She must stop this female assassin!

A pair of ice wings appeared behind her, turning into an afterimage and rushing towards the female assassin.

However, she had only rushed out a few steps when a pitch-black tentacle instantly wrapped around her.

"Dark magic!"

Leona was extremely annoyed, and the ice element around her instantly exploded, breaking free from the shackles of the dark tentacles.

But the female assassin had already arrived in front of the two white-robed old men.

The dagger broke through the air.

The two white-robed old men had calm expressions. When the dagger was less than a foot away from them, the dagger suddenly stopped.

Immediately following that.

The female assassin's body suddenly knelt down.

A formation appeared above her head, and she only felt as if a mountain was pressing down on her body, unable to move.

She had just been suppressed.

Another person rushed out from the Nightwalkers. He was shrouded in a cloud of black mist, his figure erratic, rushing towards the Shattered Star Well.

Leona roared angrily.

"Frost: Call of the Ice Maiden!"

She raised her hands above her head at the same time, and ice and snow instantly floated between heaven and earth.

Wherever the ice and snow passed, all the Nightwalkers were frozen.

Even the black shadow with an erratic figure was frozen.

"Second Sister, make a move!"

Leona urged.

She froze this black shadow, creating an opportunity for Qing Fuyun to unleash her big move.

Qing Fuyun's face couldn't help but look a little ugly. She didn't expect Leona to be so crazy that she would actually consume her source power.

But now, if she didn't make a move, it would be too fake.

"Boom!"

An ice and snow vortex appeared at the female assassin's feet, devouring the female assassin.

Leona's face sank.

The female assassin had already been suppressed by the two formation masters.

Attacking the black shadow now was the most correct choice.

But she no longer had the opportunity to think at this time.

Because the black shadow had already broken through the ice and rushed towards the Shattered Star Well.

Leona was no longer able to continue connecting attacks at this time.

The two formation masters also did not expect Qing Fuyun to attack the female assassin. At this distance, there was no time to form a powerful formation to suppress the black shadow.

Leona clenched her fists. She knew that there were still experts from the Star Kingdom in the dark, but they didn't come out, so naturally they could choose not to take action.

When the time came, they could shirk responsibility by saying they weren't there.

After all, there were quite a few people who had the same thoughts as Qing Fuyun.

Before Leona returned, the factions of the Star Kingdom were basically quite clear.

If Leona rose to power.

Then these people would have to consider the issue of taking sides again.

Therefore.

The best way was not to let Leona rise to power. In this way, the situation in the Star Kingdom would not undergo major changes.

Leona narrowed her eyes slightly, and a cold glint flashed in her eyes.

She had already guessed it.

"Is it time to use my trump card?"

An extremely powerful force in Leona's dantian began to recover.

As long as no one took action at the last moment, then even if she exposed her trump card, she had to stop the black shadow.

"Presumptuous!!"

Just at this moment.

An angry shout came, and then a female general holding an ice sword and wearing ice armor descended from the sky.

The moment she landed, cold air spread out in all directions.

Ordinary Nightwalkers were affected by the cold air and were directly frozen, then exploded, turning into ice blocks.

When the black shadow saw the person who came.

It was even more like a mouse seeing a cat, fleeing frantically.

However.

The female general swung the ice sword in her hand, and a cold ice sword energy split the black shadow into two, turning it into two ice sculptures.

Then the female general pointed out with her sword, and the two ice sculptures exploded at the same time.

After doing all this, the female general's gaze swept over Leona and Qing Fuyun.

"All you know is to fight for power and profit all day long. Look at what your strength has become?!"
