

## O game 561

Chapter 561 - The conditions offered by Lin Tianhao!

Lin Tianhao's voice was not loud, but it instantly made Yue Lunkexuan's face darken to the extreme.

He knew Lin Tianhao's plan.

What 'escorting' really meant was just finding an excuse to throw him overseas.

As for Lin Tianhao.

Going to sea wouldn't be a problem.

Many places overseas haven't been developed yet, and while dangerous, the opportunities are also significant.

In fact, Lin Tianhao had considered going overseas to develop earlier.

Because in his previous life, some people had obtained foreign race inheritances, ancestral god relics, and all sorts of good things overseas.

As for the Godslayer Academy.

Team battles are good, but for the time being, they aren't suitable for Lin Tianhao.

If he misses out, he can wait for new teammates.

Therefore.

If his previous guess came true, and the God of Slaughter revived and unleashed endless slaughter on him.

Then all the efforts he had made before would be in vain.

Not only that.

Lin Tianhao also needed to figure out how to break the endless slaughter.

Otherwise, the God of Slaughter would definitely be a formidable enemy.

A formidable enemy who could completely destroy him.

God King Realm, terrifying!

This was also the reason for Lin Tianhao's sudden idea to go to sea.

Because helping the Moon Wheel Empire people go to sea would not only avoid the resurrection of the God of Slaughter.

But also possibly find ancestral god relics, foreign race inheritances, and the like.

If he was incredibly lucky, he might really find a way to break the endless slaughter overseas.

The group of rebels looked at each other in dismay after hearing Lin Tianhao's words.

And Lin Tianhao's next words made them even more excited.

"Not only that, but I will also help you establish a regime, and establish trade with you, you can communicate with our Mountain Sea Empire in the future, and conduct free trade."

"That way, for you, it's just changing a place to live, and other changes are not significant."

Lin Tianhao's words made many people tempted.

They had to risk their lives to fight because they knew that going overseas also meant risking their lives.

Since they were all going to fight, then why not fight on the land where they lived.

But the current situation was somewhat different.

Because Lin Tianhao said that he would help them develop overseas with the Moon Wheel Demon Palace, and also said that he would help them establish a regime and establish trade.

For them, this perfectly solved their troubles.

The elderly general pondered for a while and said to Lin Tianhao.

"Snow Emperor, what you said is really tempting to us, but we need to discuss it."

Lin Tianhao nodded with a smile, "No problem, you can discuss it."

The elderly general entered the army and discussed with the other generals of the Ten Cities of Zhenbei.

Yue Lunkexuan's expression was uncertain when he saw this scene.

But at this moment.

Lin Tianhao's voice rang in his ears.

"Yue Lunkexuan, does your Moon Wheel Demon Palace still have a God King, named the God of Slaughter, in the corpse mountain and sea of blood not far away?"

Lin Tianhao's voice was not loud, but it made Yue Lunkexuan's heart tremble.

Immediately after.

Lin Tianhao continued:

"The God of Slaughter's natal soul skill is Endless Slaughter, using it on people can make them fall into endless death until they truly die, right?"

Lin Tianhao's voice was very calm, but the sense of oppression in his words made Yue Lunkexuan feel suppressed.

He squeezed out a smile with difficulty.

"Palace Master, you're joking, how could our Moon Wheel Demon Palace have a God King, that's just a rumor."

"Our Moon Wheel Demon Palace only has Slaughter Angels, no other Gods of Slaughter."

Lin Tianhao smiled noncommittally, "I took the liberty of saying I'd take you to help them develop, do you have any objections?"

Yue Lunkexuan shook his head repeatedly, "No objection."

He knew.

Lin Tianhao had already seen through his plan, just because he was still useful.

In addition, Lin Tianhao didn't have any solid evidence, and killing him might cause a lot of unnecessary trouble.

But Yue Lunkexuan was very clear that those unnecessary troubles would not become his amulet.

If Lin Tianhao really wanted to kill him, he wouldn't care so much.

After all.

What else would a man who could provoke a war of gods in the Boundless Promise Palace not dare to do?

"The One Thought Temple and the Zhenlong Treasure Temple have already sent people to the Underworld Profound Holy Land, I believe the Underworld Profound Holy Land will soon be able to clear you."

"Yes, yes, yes."

Yue Lunkexuan nodded repeatedly, "This subordinate really didn't cooperate with the Underworld Profound Holy Land."

When saying this.

Yue Lunkexuan wanted to curse in his heart.

Who the hell said the Snow Emperor was a butcher?

Is this a butcher?

Looking at Lin Tianhao's past.

Whether facing the Star Kingdom, or the Vast Sea Kingdom, or the Land of Chaos, including the recent battle of the gods in the Boundless Promise Palace.

He was the type to act at the slightest disagreement, when could he be so easy to talk to?

It was precisely because of Lin Tianhao's past style of doing things that they had this blood sacrifice plan.

Lin Tianhao actually thought too simply.

The resurrection of a God King was extremely difficult.

Lin Tianhao thought that killing a few million might resurrect him.

But Yue Lunkexuan knew that it was absolutely impossible.

A few million domain experts were almost enough.

If it was an ordinary army, it would start at 100 million.

Ordinary people, starting at one billion.

The key was that this was not a complete resurrection, only to the point where he could use Endless Slaughter.

Looking at the entire Vast Continent, who would be best to use Endless Slaughter on?

Without a doubt.

Snow Emperor!!

So they planned this game.

Inviting the Snow Emperor into the game, using the Snow Emperor's hand to slaughter everything.

At that time, not to mention one billion, even ten billion, Lin Tianhao might slaughter.

But now Lin Tianhao's approach has completely ruined their plan.

Of course.

Saying that the plan has failed.

It's not entirely true either.

Because many of the things the Slaughter Angel said to Lin Tianhao before were true.

Their Moon Wheel Demon Palace had no way out, and could only rely on the power of other holy lands to survive.

This other holy land could be the Underworld Profound Holy Land, but the Underworld Profound Holy Land was clearly not qualified.

Therefore.

In this plan of the Moon Wheel Demon Palace, there was also a second plan.

That was, if Lin Tianhao didn't fall into the trap and the God of Slaughter failed to resurrect.

Then they would really join the Mortal Palace and rely on the power of the Mortal Palace to survive.

Looking at it now.

It was unlikely to resurrect the God of Slaughter.

Since that was the case.

Then they could only join the Mortal Palace.

While Yue Lunkexuan was thinking about this, the generals of the Ten Cities of Zhenbei had already discussed the results.

"Snow Emperor, we agree to your plan, but we need to sign a contract, I hope you can understand."

Chapter 562 - The Shitu Empire's army is invading!

Lin Tianhao nodded with a smile, "Of course, there's no problem with that."

Immediately.

Lin Tianhao signed contracts with the generals of the Ten Cities of Northern Suppression, according to the conditions he had stated before.

The Ten Cities of Northern Suppression were the main force of this resistance.

In addition to the failure of Moon Wheel Ke Xuan's plan to revive the God of Slaughter.

Now, both the One Thought Temple and the Treasure Temple of Dragon Suppression have arrived at the Mystical Profound Holy Land.

The structure of the Moon Wheel Empire has completely changed, and as long as there is no interference from major forces.

The Mountain Sea Empire will completely cover the Moon Wheel Empire, and the land area will increase significantly.

Not only that.

After subduing the Moon Wheel Empire, Lin Tianhao's super-god-level hidden class, Heavenly Punishment Archer, can start the class transfer mode.

Now, in the Twilight of the Gods, the high-level ones have exceeded level 500.

Although Lin Tianhao's combat power is good, he still cannot change the essence of his level 50.

Moreover.

Super-god-level hidden classes are likely to gain some special methods every time they change classes.

Similar to the first class transfer of the Heavenly Punishment Archer, Lin Tianhao obtained the headshot skill Heavenly Punishment, which is guaranteed to hit.

What benefits will he get from this second class transfer?

Besides.

Taking down the Moon Wheel Empire and completely reviving the Mountain Sea Empire can be regarded as taking a significant step.

Seeing Lin Tianhao complete the contract, the soldiers of the Ten Cities of Northern Suppression showed long-lost smiles on their faces.

No one wants to sacrifice in vain. It is not a bad thing to have a good home.

After signing the contract.

Lin Tianhao directly launched a national reward.

"National reward: The Moon Wheel Empire has many uninhabited islands overseas. For the relocation of the people of the Moon Wheel Empire, a national reward is specially issued to clear the wild monsters on the overseas islands of the Moon Wheel Empire. Each uninhabited island cleared will receive a generous reward."

.....

Lin Tianhao, as the master of the Holy Land, has many free attribute points.

This time of wasteland reclamation, it is possible to distribute some of his free attribute points.

He also expects free attribute points to increase his attack speed and then bless the Heavenly Punishment attack speed.

After the last rank +1, Lin Tianhao's attack speed broke through ninety.

After Lin Tianhao issued the reward, another national reward resounded in the sky.

The publisher of this reward is none other than.

It is Moon Wheel Ke Xuan, the Palace Master of the Moon Wheel Magic Palace.

Obviously.

The Moon Wheel Magic Palace is already compromising with Lin Tianhao. Issuing the same national reward is to speed up the overseas wasteland reclamation.

The two Holy Land Masters simultaneously issuing rewards made the players of the Mountain Sea Empire and the original Moon Wheel Empire very excited.

Because they can get huge rewards from this kind of reward task.

Especially.

It is very convenient for those large guilds.

Reclaiming islands.

It is not something that ordinary casual teams can do.

Even a small island with a diameter of several kilometers may require a team of hundreds of people to reclaim it.

And normally, a small island with a diameter of several kilometers, in a good environment, can accommodate tens of thousands of people.

To reclaim islands that can accommodate 23 billion people of the Moon Wheel Empire, it is necessary to develop some large islands.

It is similar to the Nether Island in the Nether Sea, where a single Fortland City can accommodate tens of millions of people.

The entire Nether Island can accommodate one or two hundred million people without any problem.

It's just.

Lin Tianhao's imagination is beautiful, but the reality will not be so smooth.

Just when Lin Tianhao persuaded the Ten Cities of Northern Suppression and settled the Mystical Profound Holy Land.

Under the cover of night.

Torches appeared, illuminating the border of the Moon Wheel Empire.

This sudden change made the soldiers of the Ten Cities of Northern Suppression look over.

"That side... is the Xitu Empire. So many torches, their army is here!!"

The old general's face changed drastically, "They don't want us to withdraw. If we withdraw, their Xitu Empire and the Vast Empire will directly face the Mountain Sea Empire."

Lin Tianhao knew that the visitors were not friendly.

As the torches got closer and closer, Lin Tianhao couldn't help but gasp.

The army scale exceeds three million!!

Have all the armies that can be mobilized on the border between the Xitu Empire and the Moon Wheel Empire come?

"You don't have to be afraid. If the Snow Emperor wants to fight, then fight. If the Mountain Sea Empire's army comes, our Xitu Empire will definitely support it."

A woman's deep voice came.

"Our Xitu Empire is willing to advance and retreat with the Moon Wheel Empire!!"

They are here to support the Moon Wheel Empire!

To be precise.

They are here to support the rebel army of the Ten Cities of Northern Suppression.

Lin Tianhao's eyes narrowed slightly, and he stepped out.

"I have reached an agreement with them. This battle is over!"

The female general of the Xitu Empire sneered, "Snow Emperor, you say it's over, and it's over? Isn't that too disrespectful to our Xitu Empire?"

"We agreed to cooperate with our Xitu Empire to attack the Moon Wheel Empire, but now you want to swallow it alone. Is it possible for our Xitu Empire to agree?"

Lin Tianhao could see it.

This Xitu Empire doesn't really want to support the Ten Cities of Northern Suppression. They are purely here to cause trouble.

"Bringing so many troops here, it seems that you are ready to fight to the end," Lin Tianhao said.

The female general nodded with a smile, "That's right, some things always have to be fought for. If we give way to everything, then we might as well all go to the island to survive."

Lin Tianhao looked serious.

He knew very well that a war must not break out here.

If the God of Slaughter is revived here, that is a consequence he cannot bear.

The Xitu Empire's army is coming at this time... Could it be that they also know about the existence of the God of Slaughter.

Gathering the army here today is to make him ride a tiger and find it hard to get off!

Even this game is to kill him here before it will end!

"Alright."

"Snow Emperor, I don't want to say much to you. I heard that you are wild and want to fight to the death at the slightest disagreement."

"Since that's the case."

"Then let's fight!!"

The female general looked at Lin Tianhao with a playful look, as if she was sure to win him over.

Lin Tianhao clenched his fists tightly. Today, he is really being roasted on the fire.

Because the female general guessed right.

He dare not fight!

Returning from rebirth, he still has many things to do.

If the God of Slaughter revives now, he will be in eternal doom.

But if he retreats today, this will become his weakness.

Lin Tianhao took a deep breath. He did not expect that one day he would be forced to such a point.

Just when Lin Tianhao was thinking about countermeasures, a calm voice sounded.

"The Xitu Empire really doesn't take the lives of its soldiers seriously. In order to deal with the Snow Emperor, it doesn't hesitate to use the lives of its soldiers to help the Moon Wheel Magic Palace revive the God King!"

As the voice came.

A woman with enchanting clothes walked over.

The female general frowned slightly when she heard the woman's words.

"Where did this villain come from, daring to slander our Xitu Empire!!"

Chapter 563 - Millions of soldiers and hundreds of millions of civilians were sacrificed to revive the God

The enchanting woman smiled and said, "A mere merchant, not worth mentioning."

"Hmph, a mere peddler dares to spout nonsense here!" the female general coldly snorted.

Her voice had barely faded when a reprimanding voice echoed.

"Don't be rude!!"

Hearing this voice, the female general immediately dismounted and bowed respectfully in the direction from which the voice came.

A woman emerged from the direction of the voice.

This woman was none other than the Demigod Xitu!!

Demigod Xitu stepped forward and said, "Chang Shuiyang, is your Di Que Merchant Guild going to help the Snow Emperor?"

"I remember that your Di Que Merchant Guild doesn't interfere in the disputes of the Vast Continent, only wanting to do business and make money, right?"

Hearing this, Chang Shuiyang sighed, "Demigod Xitu, a chaotic world is coming. It's no longer possible to remain an observer like before."

"Why is your Di Que Merchant Guild choosing to side with the Snow Emperor? The Snow Emperor is already in a certain-death situation today. Do you understand that?" Demigod Xitu asked.

Chang Shuiyang shook his head and said:

"I don't think so. Haven't you heard the saying, 'Born from death'?"

"Even if the God of Slaughter, a dignified God-King, truly revives, will he listen to you and attack the Snow Emperor?"

Demigod Xitu's expression turned slightly cold, "The Snow Emperor holds the God Sealing Board and wants to destroy the Moon Wheel Empire, disrupting the balance of the Vast Continent."

"If he revives, he will definitely deal with the Snow Emperor."

Chang Shuiyang smiled slightly, "So, you admit that you want to sacrifice soldiers to help the God of Slaughter revive?!"

Demigod Xitu's expression changed abruptly. She realized that she had been tricked.

Sure enough.

Slight unrest appeared in the Xitu Empire's army.

As soldiers, they could fight and kill on the battlefield, and sacrificing their lives for it was nothing.

But if they were to be used as sacrifices to revive a god, they couldn't do it.

Moreover,

This god was from another country.

"Silence!!"

The female general shouted, "Don't be influenced! If the Moon Wheel Empire is swallowed by the Mountain and Sea Empire, who will be next?"

"If we don't resist now, our fate might be even worse than the Moon Wheel Empire's!"

The soldiers then stopped rioting.

Demigod Xitu looked at Chang Shuiyang coldly.

"Chang Shuiyang, if this is all you've got, you can step aside."

Chang Shuiyang shook his head and smiled:

"I wasn't deliberately trying to trick you. What I just said was the truth. As a God-King, will the God of Slaughter listen to you?"

"Whether he listens or not is not important. We are here to stop the Snow Emperor, not for the revival of the God of Slaughter," Demigod Xitu said.

Chang Shuiyang smiled contemptuously, "Whatever, don't you want to know why I'm helping the Snow Emperor? Because the revival of the God of Slaughter is a great thing for the Snow Emperor."

"By taking control of a God-King powerhouse in full condition first, the Snow Emperor will be able to gain an advantage in this fourth God Creation Era."

Demigod Xitu snorted coldly, "Absurd. The God of Slaughter is so powerful. You actually think the Snow Emperor can send the God of Slaughter to the God Sealing Board?"

"Why not?"

Chang Shuiyang's gaze fell on Moon Wheel Ke Xuan.

"Regarding the little secret of the God of Slaughter, others may not know, but Moon Wheel Ke Xuan, you should know."

"If the God of Slaughter revives, the first thing he will do is definitely not to deal with the Snow Emperor."

Moon Wheel Ke Xuan's expression changed slightly, and he asked in a deep voice, "How would you know?!"

"I'm not good at fighting, but my family still has a lot of wealth, so it's not difficult to collect some information."

At this point,

Chang Shuiyang changed the subject and continued:

"But to revive a God-King to full condition, your Moon Wheel Empire's 23 billion people must sacrifice at least 20 billion here."

Moon Wheel Ke Xuan's expression sank, and he didn't say anything.

Because he knew that Chang Shuiyang was right.

Seeing that Moon Wheel Ke Xuan didn't speak, Chang Shuiyang continued:

"The Snow Emperor has already seen through your trick. You have no reason to slaughter so many people."

"The only choice for the God of Slaughter to return to full condition is to actively ascend the God Sealing Board."

"Therefore."

"The revival of the God of Slaughter is not only not a troublesome thing for the Snow Emperor, but will instead become the first God-King on the Snow Emperor's God Sealing Board!!"

Chang Shuiyang's words instantly made the atmosphere in the field subtle.

Demigod Xitu's expression was uncertain.

He had been observing Chang Shuiyang and also observing Moon Wheel Ke Xuan's reaction.

It seemed...

Everything Chang Shuiyang said was true.

If the Snow Emperor obtained a God-King in full condition, the consequences would be unimaginable.

The situation of the entire Vast Continent would be completely out of control, becoming Lin Tianhao's domain.

Originally, today was a dead end for Lin Tianhao.

But now, the dead end had been broken.

Moreover.

It had instantly turned the tables, putting her in a difficult position.

"Hahaha."

Just then.

A loud laugh came.

"Chang Shuiyang, you are indeed a businessman. With a few words, you want to dissuade Demigod Xitu without bloodshed. It's really not simple."

Along with the sound, Xiudeli Haohong stepped out.

His eyes were like swords, making people shudder.

Lin Tianhao frowned slightly. He also felt that Chang Shuiyang had helped him break the situation.

But now, Xiudeli Haohong's appearance had once again brought changes to the situation.

"The God of Slaughter is a God-King. He knows what is important and urgent."

"How about I make a bet with you that after the God of Slaughter revives, he will use endless slaughter against the Snow Emperor!"

In an instant.

The atmosphere became tense.

"A bet?"

Chang Shuiyang still had a calm and breezy look.

"You don't seem to have the capital to bet with me. Not to mention anything else, even if everyone here falls, it's not enough for the God of Slaughter to revive."

Xiudeli Haohong smiled slightly, "It's not enough, so our Vast Empire has also dispatched three million soldiers."

"To intercept the Snow Emperor, how can we, the Vast Infinity Palace, be missing?!"

At this point.

Xiudeli Haohong's gaze fell on Moon Wheel Ke Xuan.

"Moon Wheel Ke Xuan, it's time for you to make a decision. I know that behind your Moon Wheel Magic Palace, there is also a powerful holy land supporting you."

"The time is ripe. It's time to act."

After thinking for a while, Moon Wheel Ke Xuan immediately crushed the communication talisman.

"Second brother, mobilize the army to meet the Xitu Empire and the Vast Empire."

Hearing this.

A satisfied smile appeared on Xiudeli Haohong's face.

The Moon Wheel Empire did not retreat, but instead chose to start a war, which meant that the Moon Wheel Empire had agreed to cooperate.

A three-nation war, at the cost of the lives of tens of millions of soldiers and hundreds of millions of people, to revive the God of Slaughter!!

"Moon Wheel Ke Xuan, you have made a wise decision. If the Snow Emperor falls, the Vast Continent will still be ours!"

Chapter 564 - The Moon Sect, Yuelun Kexuan, pays homage to the Palace Master!

Yue Lun Ke Xuan shook his head upon hearing this.

"We mobilized our armies, but not to come here."

The demigod Xitu's eyes narrowed slightly as he asked, "Then where do you intend to go?"

"This is the border between our two nations. You mobilized your armies; surely you're not going to attack the Vastsea Empire, are you?"

Since Yue Lun Ke Xuan said they weren't here for this, it had nothing to do with their Xitu Empire.

"You guessed it. The armies of our Moon Wheel Empire should already be invading the Vastsea Empire by now."

"When we detected Xiudeli Haohong dispatching his armies, the armies of our Moon Wheel Empire were already prepared to attack the Vastsea Empire."

Xiudeli Haohong's expression changed slightly, "Yue Lun Ke Xuan, are you mad? What's with this sudden urge to attack our Vastsea Empire?"

"You've done so much; aren't you trying to revive the God of Slaughter and then deal with the Snow Empress?"

"Now we and the Xitu Empire are joining forces, bringing millions of soldiers to help you, and this is how you repay us?"

Yue Lun Ke Xuan smiled contemptuously and said:

“Xiudeli Haohong, how could such a fool like you become the Palace Master of the Limitless Vastsea Palace? I can only say that you were born too well. Otherwise, you wouldn't deserve to be the master of a sacred ground!”

Being reprimanded in front of so many people, Xiudeli Haohong was furious.

“Yue Lun Ke Xuan, you're courting death!!”

“I'm courting death? Can you even beat me?” Yue Lun Ke Xuan retorted.

Facing Yue Lun Ke Xuan, who was close to the King level, Xiudeli Haohong was truly no match.

“If he can't beat you, isn't there still me?”

Xiudeli Baiyun stepped forward and said, “Yue Lun Ke Xuan, I'm curious, who gave you the courage to even think of sending troops against us?”

“The foundation of your Limitless Vastsea Palace is not as great as before. Why can't I send troops against you?”

Xiudeli Baiyun's face darkened as she questioned:

“Have you not thought about dealing with the Snow Empress? Then why did you do so much in the beginning?”

From the very beginning.

Everyone thought that the Moon Wheel Empire was setting up a trap to lure the Snow Empress into it.

Then revive the God of Slaughter to completely solve the big problem of the Snow Empress.

But now that the God of Slaughter is about to be revived, the other party has stopped and instead sent troops to the Vastsea Empire.

This behavior is too strange!

“You don't still think that I want to revive the God of Slaughter and then deal with the Snow Empress, do you?”

Yue Lun Ke Xuan sneered:

“It's utterly laughable!”

“If I wanted to revive the God of Slaughter, why would I need to be so complicated? I could just find the demigod Xitu to put on a show and have the demigod Xitu attack the Ten Northern Cities.”

“I could have staged a war myself. Why would I need the Snow Empress to come in person?”

Xiudeli Baiyun seemed thoughtful and instantly understood something.

“You deliberately made us think that you were reviving the God of Slaughter, and then lured us to bring our armies over.”

“The purpose was to leave our Vastsea Empire's borders empty, so you could take advantage of the situation and attack our Vastsea Empire.”

Although Xiudeli Baiyun thought of this, she was still very puzzled in her heart.

“But I'm still very curious, why would you do this? Could it be that you have been working for the Snow Empress from the beginning?”

“That shouldn't be. Your Moon Wheel Empire has a more powerful sacred ground supporting it behind the scenes, but that sacred ground will definitely not be the Pantheon.”

Lin Tianhao was also very surprised at this time.

Originally, today's situation would have been very troublesome for him to deal with.

But it seemed that he was not the enemy of the world.

The Di Que Chamber of Commerce was clearly helping him, and this Moon Wheel Demon Palace didn't seem to want to deal with him either.

He couldn't understand this situation at all.

Because no matter which angle you looked at it from, the Moon Wheel Demon Palace should have been on the opposite side of him.

Including just before this, Lin Tianhao had always thought that Yue Lun Ke Xuan wanted to revive the God of Slaughter.

But now it seemed that Yue Lun Ke Xuan's target was not him.

But.

What was Yue Lun Ke Xuan doing attacking the Vastsea Empire?

What's more.

There were still millions of troops from the Xitu Empire and the Vastsea Empire here.

After tearing off the mask.

The Vastsea Empire and the Xitu Empire could directly attack the Moon Wheel Empire.

From a certain point of view, this was a house-swapping action.

And in the end, the Moon Wheel Empire would completely offend the Xitu Empire and the Vastsea Empire.

No matter which angle you looked at it from, Yue Lun Ke Xuan's actions were courting death.

The only thing that could be explained was that the sacred ground supporting the Moon Wheel Demon Palace was very strong, very ambitious, and wanted to defeat the Vastsea Empire in one fell swoop.

This situation.

Was somewhat beyond Lin Tianhao's imagination.

In the field.

The atmosphere became more and more tense.

Yue Lun Ke Xuan looked at Xiudeli Baiyun with a smile.

"I know you have many doubts in your heart, but after today, the Limitless Vastsea Palace is destined to be expelled."

Yue Lun Ke Xuan said very definitely, making Xiudeli Baiyun feel somewhat uneasy.

The demigod Xitu was also frowning.

Obviously.

She was also confused by Yue Lun Ke Xuan's operation.

At this moment.

A sound transmission talisman flew over and entered Xiudeli Haohong's brow.

Xiudeli Haohong's expression changed drastically, and he looked at Yue Lun Ke Xuan in disbelief.

“The Tutulu Sacred Mountain is supporting you behind the scenes!!”

Yue Lun Ke Xuan chuckled, “It seems that Lord Hong Qiong has already begun to attack your Vastsea Empire.”

“In addition to the surprise attack by our Moon Wheel Empire's elite troops, I don't know how long your Vastsea Empire can last.”

Xiudeli Haohong's expression was solemn.

If it was just the Moon Wheel Empire, he would not be afraid at all.

But now that the army of the Tutulu Empire had also arrived, their situation would be very bad.

“Yue Lun Ke Xuan, you are too crazy. If our Vastsea Empire falls, can you still stop the Snow Empress, can you stop the Pantheon?!!”

Yue Lun Ke Xuan smiled slightly and said:

“Who told you that we were going to oppose the Snow Empress?”

“Everything we do is for the complete revival of the Mountains and Seas Empire.”

Having said that.

Yue Lun Ke Xuan bowed to Lin Tianhao.

“Pantheon, Moon Faction, Yue Lun Ke Xuan, greetings, Palace Master.”

“You are from the Pantheon?”

To be honest.

Lin Tianhao was also confused. He had never thought that Yue Lun Ke Xuan was actually from their Pantheon.

Yue Lun Ke Xuan nodded and said seriously:

“That's right, Palace Master. Back then, on the Divine Realm Battlefield, our Eastern Gods were defeated, and a group of Eastern Gods had no choice but to go to the Divine Realm Battlefield to support them.”

“With the departure of the Eastern Gods, a group of Western forces began to suppress the Mountains and Seas Empire. The Old Palace Master angrily took action and beheaded the Ice and Snow Goddess.”

"The Western Gods used this as an excuse to attack the Pantheon. Helplessly, the Old Palace Master could only choose to seal and retreat."

"However, before the seal, the Old Palace Master left behind the four factions of Heaven, Earth, Sun, and Moon, and asked us to secretly accumulate strength, seek opportunities, and lead the Pantheon to revival!!"

Lin Tianhao finally understood something.

"You are from the Moon Faction. Could it be that the Tutulu Sacred Mountain is the Sun Faction?" Lin Tianhao asked.

Chapter 565 - Lin Tianhao's speculation, a play within a play!

Yue Lun Ke Xuan shook his head, "No, Tulu Holy Mountain belongs to the Earth Division."

Lin Tianhao facepalmed.

"You two Divisions have already become Holy Lands, what about the other two Divisions? Don't tell me it's the Xitu Temple and the Boundless Limitless Palace."

"If that's the case, then what's the point of fighting? We can just return."

Xiudeli Haohong's face darkened, and he roared: "Keep dreaming!!"

Having said that.

Xiudeli Haohong's gaze fell on Yue Lun Ke Xuan again.

"You Yue Lun Demon Palace has so many Western gods, how can you still be a member of the Moon Division!!"

Xiudeli Haohong was really a little angered.

Yue Lun Ke Xuan smiled slightly and said: "Our Master of the Mortal Hall is a disciple of a Western god. The Yue Lun Demon Palace can have today's achievements entirely thanks to that Western god."

"Are you talking about the God of Slaughter!!"

Xiudeli Haohong stared at Yue Lun Ke Xuan, and an extremely bad premonition surged into his heart.

Yue Lun Ke Xuan nodded with a smile, "Congratulations, you guessed it right."

Yue Lun Ke Xuan changed the subject and continued:

"In the last battle of the gods of the Boundless Limitless Palace, on the surface, our Yue Lun Demon Palace's foundation was emptied."

"But in reality, it was just to get rid of the gods who supported the West. This is also why we took the initiative to send the Killing Angel to the God Conferring List."

Xiudeli Haohong clenched his fists and roared: "What a good plan."

"I never thought that the God of Slaughter, a powerful God-King from the West, would actually help your Mortal Hall."

Yue Lun Ke Xuan looked at Lin Tianhao and bowed.

"Lord Palace Master, I and Tulu Holy Mountain have been biding our time, and now we have finally found an opportunity."

"Now, as long as Lord Palace Master dispatches the army of the Mountain and Sea Empire, then recovering the lost territory will be just around the corner."

Lin Tianhao closed his eyes gently and did not respond.

Past life and present life.

Various scenes appeared in his mind.

In his previous life, Lin Tianhao had never heard of the so-called Sun, Moon, Sky, and Earth Divisions of the Mortal Hall.

Furthermore.

The Yue Lun Demon Palace relying on the God of Slaughter can barely explain why they were able to develop into a Holy Land.

But what about Tulu Holy Mountain?

Tulu Holy Mountain is a powerful Holy Land comparable to the Boundless Limitless Palace.

Lin Tianhao really couldn't believe it.

That Tulu Holy Mountain is also a Division branched out from the Mortal Hall.

Of course.

If it were only this.

Lin Tianhao still couldn't be sure if there was a problem.

After all, he has been in charge of the Mortal Hall for so long, and he has not yet come into contact with the Mortal Hall's own gods.

If the Mortal Hall's own gods all went to Tulu Holy Mountain and propped up Tulu Holy Mountain, then there doesn't seem to be a problem.

But Lin Tianhao considered the things that the Yue Lun Demon Palace and Tulu Holy Mountain did in his past and present lives.

To be honest.

There is almost no opportunity to see any signs that the Yue Lun Demon Palace and Tulu Holy Mountain are related to the Mortal Hall.

If these two Holy Lands were really Divisions branched out from the Mortal Hall.

Then the Mortal Hall would definitely have revived in his previous life.

After all, it would be by no means difficult for the two Holy Lands to join forces to revive the Mortal Hall.

So... ...

Lin Tianhao had reason to suspect.

That the so-called Moon Division that Yue Lun Ke Xuan spoke of had a problem.

After all, if there really were the four Divisions of Heaven, Earth, Sun, and Moon, how could Shangguan Hongxun, Ouyang Wenlong, and the others not know?

If there really were these four Divisions, why didn't the previous Master of the Mortal Hall tell him in advance?

Therefore!

Lin Tianhao seriously suspected that these four Divisions were just fabricated by Yue Lun Ke Xuan.

After all.

Before this, no one knew about these four Divisions.

As for Yue Lun Ke Xuan's motive for lying, it was also very clear.

It is almost impossible for the Tulu Empire and the Yue Lun Empire to swallow the Xitu Empire and the Boundless Empire.

Therefore.

They need the Mountain and Sea Empire behind Lin Tianhao to take action together.

After they join forces to solve the Boundless Empire and the Xitu Empire, Yue Lun Ke Xuan will then let the God of Slaughter use endless slaughter on him.

He will be trapped by endless slaughter, and then he will join forces with the Tulu Empire to destroy the Mountain and Sea Empire.

Then the entire Boundless Continent will belong to the Yue Lun Empire and the Tulu Empire.

To be precise.

It will belong to the Tulu Empire.

Because Xiudeli Haohong said before.

That it is Tulu Holy Mountain that supports the Yue Lun Demon Palace behind the scenes.

This shows that the Yue Lun Demon Palace is a dog of Tulu Holy Mountain.

In his previous life, Lin Tianhao knew that Tulu Holy Mountain had always been unwilling to stay overseas.

Their foundation is comparable to the Boundless Limitless Palace, and they have been trying to set foot on the Boundless Continent and establish their own empire.

It's just because the Boundless Limitless Palace has been forming gangs and factions on the Boundless Continent, preventing them from having the opportunity to set foot on the Boundless Continent.

This life.

Tulu Holy Mountain wants to use him as a springboard to control the Boundless Continent.

This is not impossible either.

"Lord Palace Master, this opportunity must not be missed!"

Seeing that Lin Tianhao was unmoved, Yue Lun Ke Xuan couldn't help but urge him.

Lin Tianhao pondered for a while and opened his eyes.

"I like to do things in a down-to-earth manner. Otherwise, let's continue to talk about the Yue Lun Empire withdrawing from the Boundless Continent today."

Lin Tianhao's voice was calm, but it made Yue Lun Ke Xuan a little confused.

"Lord Palace Master."

"We have been planning for so long, just to allow the Mountain and Sea Empire to completely revive. How can you retreat at this time?"

Seeing Yue Lun Ke Xuan like this.

Chang Shuiyang stepped forward.

"Yue Lun Ke Xuan, I know you are anxious, but don't be anxious."

"You are very smart, wanting to drag Xue Di into the game and work hard for the Tulu Empire to unify the Boundless Continent, right?"

A trace of panic flashed in Yue Lun Ke Xuan's eyes, "Chang Shuiyang, stop slandering me here."

"Our Yue Lun family itself was separated from the Mortal Hall, and everything we do is for the sake of the Mortal Hall."

Hearing this.

Chang Shuiyang chuckled, "Yue Lun Ke Xuan, you are bullying Xue Di for being an adventurer and not understanding the Mortal Hall, fabricating the four Divisions of Heaven, Earth, Sun, and Moon."

"The purpose is to get the Mountain and Sea Empire to help you deal with the Boundless Empire and the Xitu Empire."

"After taking down the Boundless Empire and the Xitu Empire, you will use endless slaughter on Xue Di."

"It's a pity that you underestimated Xue Di too much, and you also underestimated the intelligence capabilities of our Di Que Merchant Guild too much."

Yue Lun Ke Xuan's expression was gloomy.

He knelt down to Lin Tianhao with a thud.

"Lord Palace Master."

"Yue Lun Ke Xuan is loyal to Lord Palace Master, and there is not a single lie in what he said. I hope Lord Palace Master will investigate!"

Lin Tianhao smiled and personally helped Yue Lun Ke Xuan up.

"Yue Lun Ke Xuan, there is no need to be so polite. I have my own plans. Let the people of the Yue Lun Empire evacuate first."

A trace of annoyance flashed in Yue Lun Ke Xuan's eyes, "But Lord Palace Master, we have been planning for so long, and now we are only one step away from being able to subdue the Boundless Continent."

"If we miss this opportunity, I'm afraid it will be impossible for us to find such a good opportunity again."

Lin Tianhao was still calm and indifferent, and said nonchalantly:

"The Tulu Empire, plus the Yue Lun Empire, plus our Mountain and Sea Empire, it's the same whether we attack the Boundless Empire today or tomorrow."

"The top priority is to let the people go to sea!"

Chapter 566 - Falling out, Chang Shuiyang's rebellion!

Yue Lunkexuan heard this and wanted to say something, but Lin Tianhao raised his hand to interrupt him.

"I've made up my mind, let's leave it at that for now."

With that said,

Lin Tianhao's gaze fell on Xiudeli Haohong and the others.

"Today's situation isn't good for anyone. I have only one request: don't interfere with the affairs of the Moon Wheel Empire."

"If you interfere again, I don't mind taking the risk to eliminate you first."

Xiudeli Haohong clenched his fists, a surge of anger rising in his heart.

But he couldn't lash out.

Because his country was being attacked by the Tūtūru Empire and the Moon Wheel Empire.

No matter how unwilling they were to accept Lin Tianhao's suggestion, they had to.

However, Xiudeli Baiyun didn't want to retreat just like that. Her gaze was deep as she stared intently at Lin Tianhao.

After a moment,

her gaze shifted to Yue Lunkexuan.

“Yue Lunkexuan, you need to think this through carefully.”

“If we leave today, your Moon Wheel Empire will cease to exist.”

“If you act now and revive the God of Slaughter, there’s still a chance.”

Clearly,

Xiudeli Baiyun also felt that Yue Lunkexuan was deliberately setting up a trap.

The goal was to devour the vast continent.

And then use endless slaughter to kick Xue Di out of the game. No matter how you looked at it, it was a perfect plan.

As for what Chang Shuiyang said about the revived God of Slaughter voluntarily entering the God Conferment List,

in Xiudeli Baiyun’s view, that was pure nonsense.

Xiudeli Haohong took over the conversation and continued, saying:

“Yue Lunkexuan, if we resolve Xue Di today, the Mountain and Sea Empire will belong to the Tūtūru Sacred Mountain. Neither I nor the Xitu Empire will interfere. What do you say?”

A cold glint flashed in Lin Tianhao’s eyes.

This Vast and Boundless Palace...

was truly willing to sacrifice so much to deal with him.

He wanted to see what kind of decision Yue Lunkexuan would make.

If Yue Lunkexuan really wanted to revive the God of Slaughter, then he could only choose to go to the Godslayer Academy.

After learning the means to resist endless slaughter at the Godslayer Academy, he would come back.

As for the improvement of his strength, with the Book of Life and Death locking in infinite increase in health, Lin Tianhao wouldn't say that he couldn't become stronger just because he was hiding in the Godslayer Academy.

Yue Lunkexuan's gaze swept across everyone present.

His eyes were deep, as if he was thinking.

The arena fell into a brief silence.

Yue Lunkexuan's next choice would be crucial.

"It seems that all of you think that I'm colluding with the Tūtūru Sacred Mountain, and that the goal is to swallow the vast continent."

"But I have to tell you... you guessed right."

As soon as he finished speaking,

Yue Lunkexuan turned to face Lin Tianhao.

“Xue Di, you’re too smart, and too cautious.”

“Our Moon Wheel Empire set up this plan to lure you in, but in the end, we still failed.”

Hearing Yue Lunkexuan’s words,

smiles appeared on the faces of Xiudeli Haohong and the others.

Lin Tianhao’s brow furrowed.

He guessed right!!

But at the same time, he would completely lose control of this situation!

If the God of Slaughter revived, he could only cower in the Godslayer Academy.

As for what Chang Shuiyang said about the God of Slaughter voluntarily entering the God Conferment List,

regardless of whether it was true or false,

Lin Tianhao couldn’t afford to gamble.

Because if he lost the gamble, he might die.

The God of Slaughter’s Heavenly Dao Soul Skill was simply too restrictive for him.

“Hahaha, good, very good, very good.”

Xiudeli Haohong laughed loudly, “Army, listen...”

Before he could finish speaking,

a god landed beside him.

The one who attacked was none other than Muyunli Sayuan.

Now that things had reached this point, Lin Tianhao still had to fight for it somewhat.

Xiudeli Baiyun reacted very quickly, instantly standing in front of Xiudeli Haohong.

With Xiudeli Haohong’s strength, he wasn’t enough to contend with a god.

But Xiudeli Baiyun was different. She was even stronger than Yue Lunkexuan by a few points. It wouldn’t be a big problem for her to restrain a god who was restricted by the Twilight of the Gods.

Lin Tianhao frowned, not panicking.

He activated Three Heads and Six Arms, turned on Heavenly Punishment, and directly locked onto Xiudeli Baiyun.

Xiudeli Baiyun was only barely restraining Muyunli Sayuan.

Lin Tianhao used the locked-on state of Heavenly Punishment, and Xiudeli Baiyun could only withstand Lin Tianhao’s damage head-on.

Yue Lunkexuan’s expression changed slightly, and he immediately rushed up.

He sacrificed three flying knives, slashing towards Lin Tianhao.

Lin Tianhao didn't panic at all, letting the Killing Angel unleash its domain.

Protecting himself with a god's domain, he could output damage without taking any damage.

The biggest problem was that his attack speed was too slow. When facing Xiudeli Baiyun, his output relied too much on the Reincarnation of Death.

But with the difference in levels, the probability of triggering Reincarnation of Death was too small.

As for relying on raw damage to kill Xiudeli Baiyun, that was even more difficult.

Xiudeli Baiyun, at the level of a King-level Pseudo-God, had such a high health bar that even with Lin Tianhao's damage, he couldn't kill her in a short amount of time.

"Bei Nuo Qingji, lead the people out to sea, or you will all die!!"

Lin Tianhao said loudly. Although this situation was very unfavorable for him, he wouldn't easily admit defeat.

Bei Nuo Qingji also knew about the calculations of the various parties. If they didn't leave, they would inevitably become sacrifices for the revival of the God of Slaughter.

"Kill them!"

The Xitu Demigod saw that Bei Nuo Qingji was about to retreat and immediately ordered an attack.

The army mobilized,

killing towards the army of the Ten Cities of the North.

With this battle launched, there was no turning back.

“Are you really prepared to be sacrifices for the revival of the God of Slaughter?”

Chang Shuiyang’s thick voice resounded above the high sky.

“To deal with one Xue Di, you have to kill tens of millions of soldiers. Are you willing?!”

Chang Shuiyang’s voice carried a peculiar persuasiveness, seemingly able to make people more willing to believe her words.

Whether it was the Xitu Empire or the Vast Empire, some of them had heard the calculations of Xiudeli Haohong and the others.

In this battle, they were the sacrifices!!

“Your country treats you like this, don’t you feel disheartened?”

Chang Shuiyang’s voice continued to ring out. Her words made the soldiers charging into battle hesitate.

To deal with one Xue Di,

they had to kill tens of millions of soldiers. Most of them couldn’t accept it.

Finally,

in the army of the Xitu Empire, a general shouted loudly:

“I won’t fight anymore. I can sacrifice myself for the survival of the country, and I can sacrifice myself for the honor and disgrace of the country.”

“But just to deal with an adventurer, we have to let tens of millions of our soldiers be buried here. I’m not willing!!”

This general had some appeal.

With his opening, more and more soldiers stopped charging into battle.

The Xitu Demigod’s expression instantly darkened upon seeing this.

“What are you doing?!”

“Did I order you to stop?!”

The Xitu Demigod was very angry. In front of the people of the major holy lands of the vast continent, her soldiers actually weren’t listening to her orders.

This was too embarrassing!!

Chapter 567 - The final game!

The soldiers of the Xitu Empire looked at each other, and even the army of the Vast Empire began to hesitate.

They had all spoken directly just now, so the soldiers in the front row, especially the leading generals, had heard it.

Millions of troops.

To be sacrificed to the God of Slaughter.

At this moment.

No matter how much they love their country, they will hesitate.

"I know you think it's not worth it, but the Snow Emperor is too terrifying. If it weren't for that, why would we sacrifice you?!"

Xiudeli Haohong saw that the army was not moving, and he knew that he had to say something.

"Reviving the God of Slaughter is the only way to deal with the Snow Emperor."

"The battle of the gods in the Vast Boundless Palace not long ago, I believe you have all heard of it."

"That kind of humiliation is enough once!!"

"Moreover!!"

"If the Snow Emperor is not resolved today, our Vast Empire and Xitu Empire will be wiped out one by one by the Snow Emperor."

"You are not sacrificing yourselves; you are protecting your country!!"

"Eliminate the Snow Emperor, protect the country!!"

"Eliminate the Snow Emperor, protect the country!!"

Accompanied by Xiudeli Haohong shouting this slogan, the originally wavering army's eyes also began to firm up.

"Even if you sacrifice today, you are heroes of our Vast Empire, and we will give your families good enough treatment."

"Fight for the Vast Empire!!"

"Fight for the peace of the Vast Continent!!"

These slogans were shouted so loudly.

The army became more and more excited, as if they really felt that they were heroes.

"Kill the Snow Emperor, protect the country!!"

"Charge!!"

The army charged again.

Lin Tianhao sighed faintly. He knew that he could not reverse this situation today.

Chang Shuiyang's expression was a little dignified. He seemed to be thinking about how to break the situation.

"Snow Emperor, things have come to this point, there is no way."

"No."

Lin Tianhao shook his head.

"Today's situation is indeed very tricky, but it is not completely impossible to solve."

As soon as he finished speaking.

Lin Tianhao directly issued a server-wide bounty.

"Server-wide bounty, all adventurers, the Moon Wheel Empire's North Ku City opens a national war, anyone who kills an enemy will be heavily rewarded!!"

If it is a battle between NPCs, then he has no way, and the slaughter value will soon be stacked up.

However, because adventurers can be resurrected infinitely, they cannot provide slaughter value after death.

At the same time.

Lin Tianhao took a step and returned to the palace of the Shanhai Empire.

After coming back.

Lin Tianhao found the emperor of the Shanhai Empire as soon as possible.

"Time is urgent, to make a long story short, immediately send troops to attack the Moon Wheel Empire. We have already torn our faces with the Moon Wheel Empire."

The emperor of the Shanhai Empire was a little surprised. After all, the Moon Wheel Empire had already surrendered before, and this change came too suddenly.

However, in the eyes of the emperor of the Shanhai Empire, such a change was normal.

"Okay."

The emperor of the Shanhai Empire responded, but Lin Tianhao had already left.

In this situation, he must go to the front line to preside over the overall situation.

Front line.

Lin Tianhao had just appeared when he saw that a melee had already begun here.

"Chang Shuiyang, since you have decided to help me, this time, let's fight together, how about it?"

Lin Tianhao said lightly.

Chang Shuiyang smiled bitterly, but still nodded.

"Snow Emperor, our Di Que Merchant Guild has never done anything with such a big risk."

"But usually, risks coexist with opportunities. This time, our Di Que Merchant Guild will also take a gamble!"

Having said that.

Chang Shuiyang flew into the air and said loudly:

"Soldiers of the Vast Empire and Xitu Empire below, listen up, I am the leader of the Di Que Merchant Guild, in charge of more than 30% of the wealth of the Vast Continent."

"If you dare to take action again, I, Chang Shuiyang, will definitely use all the wealth of the Di Que Merchant Guild to offer a reward for your family members."

"I guarantee that more than half of your family members will die, especially those of the generals!!"

Lin Tianhao supported his forehead. Chang Shuiyang's trick was a bit insidious.

Xiudeli Haohong's face changed drastically when he heard Chang Shuiyang's words.

"Soldiers, with our Vast Boundless Palace here, we will not allow your family members to suffer any harm."

Chang Shuiyang looked at Xiudeli Haohong coldly, "Really? What if I take out thirty pseudo-artifacts to offer as a reward?"

As soon as he finished speaking.

Chang Shuiyang directly took out thirty pseudo-artifacts.

"Our Di Que Merchant Guild doesn't have much else, but money and resources are countless."

The soldiers of the Vast Empire and Xitu Empire were dumbfounded.

"Chang Shuiyang, there is a saying that disaster does not extend to family members. Are you going too far by doing this?"

Xiudeli Haohong couldn't help roaring.

"Am I going too far?!"

Chang Shuiyang laughed, "Saying I'm going too far, don't you look at what you are doing."

"Sacrificing the lives of thousands of soldiers just to revive the god of another country, is this what your dignified Vast Boundless Palace should do?!"

"You are unjust, and I am unrighteous. We are all the same."

Lin Tianhao wanted to laugh a little. Chang Shuiyang's move was indeed a bit rogue.

Is it amazing to have money?

It's really amazing to have money!!

At least.

At this time, the people of the two empires, Xitu Empire and Vast Empire, were a little cowardly.

Xiudeli Haohong knew that when Chang Shuiyang took out thirty pseudo-artifacts, they had no choice.

"Soldiers, we cannot retreat. Protecting the country always requires someone to sacrifice."

"Your sacrifice today is for the future of our country!!"

Chang Shuiyang roared:

"Future my ass, does your Vast Empire still have a future?"

"After today, even if the Snow Emperor is sanctioned by endless slaughter, under the reward of our Di Que Merchant Guild, how will your Vast Empire cope?"

"The Tutulu Empire has also entered the arena. Without the Snow Emperor, they will still not allow the Vast Continent to be peaceful."

"Don't forget, the Taoist and Buddhist sects have holy lands taking action. You made their revival abortive. Will they let you have a good time?"

"Xiudeli Haohong, I hope you can understand that even if you kill the Snow Emperor today, the troubles of the Vast Empire will still not be resolved."

Chang Shuiyang knew that it would still be difficult to stop Xiudeli Haohong and the others by simply persuading these soldiers.

But what if Xiudeli Haohong himself was shaken?

Sure enough.

Chang Shuiyang's words shook Xiudeli Haohong.

The Tutulu Empire has been dormant for so long, and finally revealed their ambition.

After solving the Snow Emperor, their Vast Empire will be targeted by all parties.

The Tutulu Empire and the Moon Wheel Empire have already revealed their alliance.

With their weakened national strength, can they still compete with the Tutulu Empire?

The answer is obvious, no!

Chapter 568 - Kill Yuelun Kexuan!

Xiudeli Haohong was conflicted. If they didn't retreat today, the destruction of their Vast Empire would be inevitable.

But if they retreated...

Leaving Xue Di, and waiting for Xue Di to grow again, their Vast Empire would still face difficulties in the future.

But before Xiudeli Haohong could react, Xiudeli Baiyun had already answered.

"Okay, let's end things here today. We'll withdraw our troops."

Xiudeli Baiyun was very decisive. She thought even more clearly.

Before, Tutulu Hongqiong was still feigning civility with the Mortal Palace.

But now that they had completely torn off their masks, Tutulu Sacred Mountain and the Mortal Palace were already enemies.

Even if they didn't resolve Xue Di today, Xue Di would still have the big trouble of Tutulu Sacred Mountain.

Moreover,

reaching Xiudeli Baiyun's level, she knew very well that it was very, very difficult to further improve her strength.

Xue Di couldn't break the endless slaughter of the God of Slaughter today, and even if given a few more years, he most likely wouldn't be able to break it either.

It was because she had thought clearly about these things that Xiudeli Baiyun chose to withdraw her troops decisively.

Lin Tianhao breathed a slight sigh of relief.

Chang Shuiyang was ruthless enough in his actions. This time, he was betting the future of the Di Que Merchant Guild to help him.

As the saying goes, a friend in need is a friend indeed. Being able to do this, there seemed to be nothing to doubt about the Di Que Merchant Guild.

However,

Lin Tianhao was also very surprised.

What charm did he have that made the Di Que Merchant Guild treat him like this?

Demigod Xitu saw that the Vast Empire's army had already retreated, so there was no point in her staying here, and she could only choose to leave.

After they had all left, Lin Tianhao's gaze fell on the generals of the Ten Towns of the North, such as Beinuo Qingji.

"What about you? Will you continue to follow the Moon Wheel Empire, or will you go to sea!"

The aging general pondered for a while, and finally said in a deep voice:

"Go to sea!!"

There was nothing left in the Moon Wheel Empire that was worth their nostalgia.

The God of Slaughter was a time bomb.

If they didn't go to sea today, the Moon Wheel Empire, or other forces, would use them, the Ten Towns of the North, when they wanted to revive the God of Slaughter.

"Okay, the promises I made to you before are still valid, and I will help those in the Moon Wheel Empire who are willing to go to sea with you to find a way to survive overseas."

The aging general, as well as the generals such as Beinu Qingji, bowed to Lin Tianhao.

"Thank you, Lord Xue Di!!"

After doing these things,

At this point,

Moon Wheel Kexuan changed the subject and continued:

"Moreover, even if our plan fails, our Moon Wheel Magic Palace has Tutulu Sacred Mountain as our backing, so what can you do to me?"

"At this juncture, do you dare to start another War of the Gods?"

Lin Tianhao frowned, "Don't forget, I still have the Di Que Merchant Guild to help me, as well as the One Thought Temple, and the Zhenlong Treasure Temple."

"Heh heh."

Moon Wheel Kexuan sneered, "The Di Que Merchant Guild is crazy, willing to help you with everything, but the One Thought Temple and the Zhenlong Treasure Temple will never start a War of the Gods for you."

"Because of the changes in the God Domain, their foundations are not as good as ours, so how could they fight us at the cost of their family fortunes for you?"

Lin Tianhao waved his hand, "Forget it, I still have to thank you for sending me the Slaughter Angel."

Moon Wheel Kexuan's face sank, somewhat annoyed.

"We paid the price of a god, but we didn't gain your trust. How sad, how sad!!"

"Stop talking nonsense, the people from Tutulu Sacred Mountain should still be on their way. Before they come, it's time for you to go."

As soon as the words fell,

Lin Tianhao sacrificed the Seven Treasures Exquisite Pagoda.

Muyunli Sayuan took action to suppress and help Lin Tianhao take Moon Wheel Kexuan into the Seven Treasures Exquisite Pagoda.

Lin Tianhao activated Heavenly Punishment and went all out.

In the Seven Treasures Exquisite Pagoda, coupled with the siege of the God of the Undead, Muyunli Sayuan, and the Slaughter Angel.

Even if they didn't use power that exceeded the limit of the Twilight of the Gods rules, they could still suppress Moon Wheel Kexuan.

After all, no matter how powerful Moon Wheel Kexuan was, he was not a god after all.

Coupled with the high damage of Lin Tianhao's Heavenly Punishment lock, Moon Wheel Kexuan finally fell in anger and unwillingness.

Even after he died,

Lin Tianhao didn't let him go, but enslaved his undead.

Although the enslaved undead couldn't compare to his full state, with Moon Wheel Kexuan's strength, the undead state could still fight demigod powerhouses with ease.

"Global Announcement, congratulations to player Xue Di for successfully killing Moon Wheel Kexuan, hereby announced, hoping that the majority of players will continue to work hard!!"

.....

When the global announcement of Lin Tianhao's killing of Moon Wheel Kexuan resounded in the sky above Twilight of the Gods.

The heads of the major holy lands were not too surprised. This was also something they expected.

Not long after Lin Tianhao resolved Moon Wheel Kexuan.

Tutulu Hongqiong arrived with his people.

Tutulu Hongqiong had released goodwill to Lin Tianhao back then.

But now it seems.

One can only say that it's hard to know a person's heart just by looking at their face.

"Hongqiong, I've disappointed you," Lin Tianhao said.

Tutulu Hongqiong's face was somewhat gloomy.

He had planned for so long, and finally waited for this once-in-a-lifetime opportunity.

But in the end, it failed!

In order to completely gain Lin Tianhao's trust, he even gave Lin Tianhao a god.

But who knew.

Lin Tianhao still didn't fully trust the Moon Wheel Magic Palace.

"Moon Wheel Kexuan is already dead, what about you? Do you want to fight?" Lin Tianhao asked.

Tutulu Hongqiong shook his head, "No need, after such a disturbance, the Moon Wheel Empire is already an empty shell, there is no need to fight."

"You want to sit on the mountain and watch the tigers fight again?" Lin Tianhao asked.

Since Tutulu Hongqiong was preparing to withdraw, it was likely that he would withdraw from the Vast Empire and return to his own territory.

And the struggle in the Vast Continent was not over yet, and he would definitely attack the Xitu Empire and the Vast Empire later.

"Now that things have reached this point, would you still tolerate me sitting on the mountain and watching the tigers fight?"

Tutulu Hongqiong asked with a smile.

"But even if you can't tolerate it, it doesn't matter anymore. I bet you don't have the ability to start another War of the Gods."

"I'm leaving, disappointed."

Although Tutulu Hongqiong's plan failed this time.

But their Tutulu Sacred Mountain did not suffer any substantial losses.

They even made a small profit by attacking several main cities of the Vast Empire by surprise.

Watching Tutulu Hongqiong leave, Lin Tianhao connected the previous bounty and asked the adventurers who came to participate in the national war to turn around and attack the Moon Wheel Empire.

Now that the Moon Wheel Empire's army was demoralized, it was already difficult to resist the double attack of the Mountain and Sea Empire and the adventurers.

Moreover.

After this plan failed.

The Moon Wheel Magic Palace had already returned to the Tutulu Empire with Tutulu Hongqiong.

Without a holy land in charge, coupled with the instigation of the Ten Towns of the North.

The Moon Wheel Empire's resistance was even more insignificant.

Chapter 569 - Get ready to go to sea!

In just half a month, the entire territory of the Moon Wheel Empire was occupied by the Mountain Sea Empire!

The Mountain Sea Empire began to further recover!!

"Ding, congratulations, you have further revived the Mountain Sea Empire, reward Mountain Sea Treasure Map +1, Mountain Sea Empire Luck +10, Personal Luck +20, Free Attribute Points +100000."

Lin Tianhao's eyes lit up, this reward was really good.

He hadn't looked at the Mountain Sea Map yet, but the other things were of great use to Lin Tianhao.

After getting these free attribute points, Lin Tianhao slammed them all on his attack speed.

Then he converted the attack speed into Heavenly Punishment attack speed.

Of course.

Lin Tianhao didn't convert the original ninety attack speed, leaving some basic attack speed, which was still very useful for large-scale battles.

With 100,000 free attribute points smashed on attack speed, the converted Heavenly Punishment attack speed increased Lin Tianhao's Heavenly Punishment attack speed from 3.11 to 4.86.

This improvement was still very huge.

Next, Lin Tianhao needed to fulfill his previous promise and help the ten cities of Zhenbei and the people of the Moon Wheel Empire who were willing to go overseas to develop.

Before going overseas to develop.

Lin Tianhao still needed to improve his strength.

First of all, he had enough Flowers of Talent Evolution, which he could use to evolve his Hand of Heavenly Punishment.

Besides that.

Now that the Moon Wheel Empire's territory had been completely revived as the Mountain Sea Empire, he could look for Shui Ruyan to perform his second job change.

Taking out ten Flowers of Talent Evolution, Lin Tianhao took a deep breath.

He was also looking forward to what his Hand of Heavenly Punishment would evolve into if it evolved.

"Evolve Hand of Heavenly Punishment."

"Ding, your talent Hand of Heavenly Punishment has begun to evolve, current progress 1%..."

Lin Tianhao looked at the progress bar and estimated that it would take several hours for the progress bar to fill up.

During this time.

He could go find Shui Ruyan.

This girl always appeared and disappeared unpredictably, and Lin Tianhao didn't know what she was doing all day long.

This time, he had taken down the entire territory of the Moon Wheel Empire, she should show her face, right!

"Snow Emperor."

Speak of the devil.

Shui Ruyan walked over, her face filled with a smile.

"You are faster than I imagined. I originally thought that you would take a year or two no matter what."

Lin Tianhao smiled and said, "I want to change jobs. I can't wait a year or two."

"I knew you were going to change jobs, so I came."

Shui Ruyan said with a smile: "For a Heavenly Punishment Archer to change jobs, you need to find the Heavenly Punishment Set. Each piece of Heavenly Punishment Set equipment can allow you to perform a job change."

Lin Tianhao: ???

"So, in fact, whether I come to find you or not, it won't be easy for you to change jobs."

Lin Tianhao frowned, Heavenly Punishment Set?

"Where should I go to find it?" Lin Tianhao asked.

He had no clue about this thing.

Shui Ruyan spread her hands, "If I knew, I would already be a pseudo-god."

"It may be in an inconspicuous shop, it may be in a secret realm, or it may be on an overseas isolated island, or even in an underwater cave."

"It is also possible in the extraterritorial land, or even other continents."

Lin Tianhao: ???

Heavenly Punishment Set!

No clue, nowhere to start.

"Okay, I know."

Although there was nowhere to start, Lin Tianhao had no choice.

He couldn't give up on changing jobs, let alone that he was already on the pirate ship, and it was almost impossible to get off.

"However, I heard that the Vast Expanse Limitless Palace has a piece of Heavenly Punishment Set equipment, but it is not known whether it is true or false."

Lin Tianhao's eyes lit up, it was better to have a direction than to have no direction.

Thinking like this.

Lin Tianhao stepped out and came to the Earth Deficiency Merchant Guild.

Last time, Chang Shuiyang helped him like that, and Lin Tianhao had already promised that their Earth Deficiency Merchant Guild would revive in the Mountain Sea Empire.

Chang Shuiyang couldn't help but smile when he saw Lin Tianhao's arrival:

"Snow Emperor, you should be very busy these two days, why do you still have time to come to us?"

Lin Tianhao smiled helplessly, "Do you know about Heavenly Punishment equipment?"

Chang Shuiyang was slightly startled and shook his head, "I really haven't heard of this."

Lin Tianhao wasn't too surprised, "If you have any clues about Heavenly Punishment equipment, contact me."

"Okay."

After explaining the matter here, Lin Tianhao came to Beiku City in the Moon Wheel Empire.

The ten cities of Zhenbei and the other people of the Moon Wheel Empire who wanted to leave the city needed a lot of ships.

In the past half month.

Lin Tianhao was annexing the Moon Wheel Empire.

And the ten cities of Zhenbei were seizing the time to build ships, preparing to go to sea.

Lin Tianhao came to Beiku City and saw that several huge seagoing ships and a large number of half-finished small ships had already been built here.

Not only here.

Coastal cities of the Moon Wheel Empire were also building seagoing ships in full swing, preparing for the upcoming voyage.

Lin Tianhao entered Beiku City and found the generals of the ten cities of Zhenbei.

Bei Nuo Qingji took the initiative to come up to connect with Lin Tianhao.

"Lord Snow Emperor, we have currently built fifteen super-ships that can accommodate millions of people."

"In addition, the entire coastal city has built more than a thousand large ships that can accommodate more than 100,000 people."

"Plus our previous ship reserves, we can let 200 million people go to sea at the same time."

Lin Tianhao nodded, "Very good, since this is the case, then I will lead the team and go to sea to develop together, to be your vanguard."

Overseas development.

This was an opportunity for Lin Tianhao.

Compared to the resources of the Vast Expanse Continent that had already been distributed almost, the overseas resources were obviously richer.

Moreover.

It hadn't been developed yet.

"That would be great. The migration of more than 20 billion people is not an easy task."

"According to the plan, I plan to divide the development team into three teams, two of which will be equipped with a god, led by the god to large overseas islands, and the third will be led by me personally."

"Strive to develop enough super-large islands in the shortest time for you to establish a base, and then spread out from the base to establish your own new regime."

Bei Nuo Qingji was very satisfied after listening to Lin Tianhao's deployment.

"Lord Snow Emperor, the ships for the development team are currently sufficient, when will we set off?"

"Now!"

Lin Tianhao didn't like to waste time, he also hoped that this overseas development could get something that could greatly improve his combat effectiveness.

It would be best to find Heavenly Punishment equipment, or find a way to deal with Endless Slaughter.

These two things were indispensable to Lin Tianhao.

One was what he had to do to upgrade and change jobs, and the other was the biggest obstacle on his growth path.

Everything was ready, and Lin Tianhao could prepare to go to sea.

He had the Kunlun Mirror, so he didn't worry about anyone stealing his home when he went to sea to develop.

What's more, so many things had happened recently, plus the existence of the Earth Deficiency Merchant Guild, One Thought Temple, and Zhenlong Treasure Temple, other forces would have to weigh whether they had the strength to steal his home.

Chapter 570 - The Hand of Punishment evolves!

When Bei Nuo Qingji heard Lin Tianhao say that they could set sail now, she was overjoyed, and an excited smile appeared on her face.

"Okay, I will now discuss and gather experts to set sail and explore."

While Bei Nuo Qingji went to gather experts, a prompt sounded in Lin Tianhao's mind.

"Ding, respected Lord of the Mortal Palace, the Holy Land Hegemony Competition will begin in one year. At that time, the Lords of the Holy Lands will personally compete, and those who rank high will receive generous rewards."

Lin Tianhao frowned slightly, not too surprised.

However, he was not very optimistic about the Holy Land Hegemony Competition in a year.

His current strength is indeed very strong, very, very strong.

But that is only among adventurers.

Without the Immortal Slaughtering Sword Formation, in a one-on-one situation, he might not be a match for fifth or sixth rank experts with higher grades.

Without a domain, this is Lin Tianhao's weakness.

Moreover, as an archer, one-on-one combat is not his strength.

He can fight against ninth rank experts, even demigods.

This is because he has the protection of a god's domain, preventing opponents from harming him, leaving them only able to passively take a beating.

And the Lords of the Holy Lands are basically the best among demigods.

Even...

Lin Tianhao even suspected that they would bring out their trump card experts.

For example, Xiudeli Baiyun of the Vast Infinity Palace, who is a powerful figure capable of easily destroying his Immortal Slaughtering Sword Formation.

"There is still one year, I'm not completely without a chance."

Lin Tianhao thought to himself.

The reward from the last Holy Land Genius Rookie Competition, just a grade +1, allowed Lin Tianhao to take off.

The rewards for the Holy Land Hegemony Competition will probably only be better.

Regaining his thoughts.

Lin Tianhao took out the Mountains and Seas Map that he had previously received as a reward.

Mountains and Seas Hidden Map: Artifact.

Equipping Requirement: None.

Effect 1: Luck +10.

Effect 2: Evasion +10%.

Effect 3: Actively activate to suppress all beast-type creatures below the god level. The weaker the strength, the greater the suppression.

Effect 4: The Mountains and Seas Map contains a small world that can accommodate hundreds of billions of creatures.

Durability: Indestructible.

And it adds ten percent in one go.

The evasion attribute is different from other attributes, and it has a great impact on combat balance.

A very, very big impact!!

Because in the Twilight of the Gods, evasion can not only evade ordinary attacks, but even skills.

If someone could have 100% evasion, then theoretically that person would be invincible.

Because any attack would not be able to cause damage to them.

Therefore...

There are very, very few equipment with evasion attribute bonuses.

Even if there really is an evasion attribute bonus, most of them are one percent, or even zero point one percent.

Because too high evasion attributes have too much impact on the balance of the Twilight of the Gods.

Even if this Mountains and Seas Map is an artifact, Lin Tianhao still finds it a bit unbelievable.

"Ding, congratulations, your talent, Hand of Heavenly Punishment, has successfully evolved."

Lin Tianhao's eyes lit up, and he immediately chose to check his evolved Hand of Heavenly Punishment.

Hand of Heavenly Punishment (Super God Level): 4 stars

Effect 1: Each normal attack deals 4% of the user's maximum health as true damage.

Effect 2: Each normal attack permanently increases health by 4 points.

Effect 3: Each normal attack restores 4% of the user's maximum health.

Proficiency: 15159 / 1 billion.

Lin Tianhao frowned slightly. The evolved Hand of Heavenly Punishment has one more effect.

It's just that this extra effect doesn't seem to be of much help to him.

Lin Tianhao's own life steal ability is already very high, and adding this four percent normal attack recovery seems average.

At least...

Compared to the effect that Lin Tianhao expected from the evolution of a Super God-level talent, it is somewhat unsatisfactory.

But all in all, this effect is not weak.

Lin Tianhao now has 1.8 billion+ health, and one normal attack can restore more than 60 million health.

It would not be easy to achieve this by relying on normal life steal equipment.

Regaining his thoughts.

Lin Tianhao led Bei Nuo Qingji and others to the beach.

Not only were there people from the Ten Cities of the North, but also some other experts from the Moon Wheel Empire.

Bei Nuo Qingji bowed to Lin Tianhao.

"Lord Snow Emperor, this exploration of the sea depends entirely on you."

Lin Tianhao waved his hand and smiled: "You can't say that. This time, we will work together to create a future."

After speaking.

Lin Tianhao summoned the Slaughter Angel and Mu Yunli Sayuan.

"These two are both gods. They will each lead a team to explore the east and west sides of the sea."

"I will personally lead the team in the middle area."

After simply deploying these, everyone boarded the ship and began their journey to explore the sea.

The Moon Wheel Empire had developed some of the islands along its coastline, but only those close to the land.

Few people had been to the more distant islands.

After Lin Tianhao boarded the ship, Bei Nuo Qingji brought a bald old man with a white beard to Lin Tianhao.

"Lord Snow Emperor."

"This is Mi Lai Fulong. He has lived in this sea area for many years and knows a lot about the undeveloped sea areas."

Lin Tianhao nodded with a smile. It's best to have a guide.

Lin Tianhao looked at Mi Lai Fulong and smiled:

"Old sir, this time at sea, we will have to rely on you a lot."

Mi Lai Fulong nodded slightly, "Lord Snow Emperor, I know that you are a powerful figure in the Vast Continent."

"But it's different at sea. The sea will eat people. Some places, even gods can't get out of once they enter."

Lin Tianhao's eyes narrowed slightly. He had also heard rumors about the sea.

Entering the sea from the Moon Wheel Empire, in the Vast Continent, can be considered the North Sea.

I just don't know how dangerous this North Sea really is.

"That's natural. I have always been in awe of the unknown."

Hearing Lin Tianhao's words, Mi Lai Fulong breathed a sigh of relief, "That's the best."

Lord Emperor, let me tell you about the situation in the North Sea first."

"Starting from the mainland, within a hundred nautical miles, it is called the Inner Sea. It used to belong to the Moon Wheel Empire, and now it belongs to your Mountains and Seas Empire."

"Going out of the Inner Sea, we call it the Northern Wilderness Sea Area. The Northern Wilderness Sea Area is over a million nautical miles deep, and there are seven super islands in it."

"Those of us who make a living at sea call them the Seven Sons of the North Sea."

Lin Tianhao nodded lightly, "Then the key area for our exploration this time is the Seven Sons of the North Sea."

"Also, how big are these Seven Sons of the North Sea combined?"

Mi Lai Fulong pondered slightly, and finally said seriously: "About two-thirds the size of the Moon Wheel Empire."

Lin Tianhao's eyes lit up, "That's great."

This time, when exploring the sea...

Lin Tianhao was still worried that it would be difficult to explore enough islands for the Moon Wheel Empire to relocate.

Now it seems that as long as these seven islands are conquered, it will be enough.

"Then pass on the order, our three teams will focus on conquering the Seven Sons of the North Sea."
