

O game 58

Chapter 58 The bounty of the demon lord Greyfrund!

Royal Palace, Well of Shattered Stars!

Leona's face lit up with excitement as she heard the all-server announcement resounding throughout the Starfall Kingdom.

It's done!!

Hall of Mental Cultivation.

King Abel raised his eyes to the direction of the Well of Shattered Stars, a faint smile appearing on his face.

"Leona, you've been gone for so long, and you come back to give me such a big surprise."

Listening Rain Hall!

Qing Fuyun's face grew increasingly unsightly. "Mother, Greylore Linsen is dead."

"I heard."

Feo Dingyu took a deep breath, "Next, you should stay in my Listening Rain Hall and not run around."

"But... the throne, aren't we competing for it?"

"Not competing?"

"No, the throne can only be yours!!"

Feo Dingyu glared at Qing Fuyun, somewhat disappointed. "Think before you act."

"Di Xuejian is already at the height of her power. This time, Leona killed Greylore Linsen and will also be valued. Now, the most important thing for you to do is to lower your presence and let them fight to the death."

Qing Fuyun's eyes lit up. "Mother is wise."

.....

Deep within the Ice and Snow Great Forest.

Inside a magnificent palace.

A earth-shattering roar echoed through the clouds.

"Who is it? Who dares to kill my son? I will tear you to pieces!!"

A burst of demonic energy soared into the sky, forming a huge mark above the firmament.

The mark continuously solidified, shrunk, and formed a black rune mark.

"Bloodline resonance, tracking the murderer across thousands of miles!!"

The demonic rune instantly shot out.

.....

After killing the Demon King's son, Lin Tianhao silently opened his attribute page to check his current attributes.

Lin Tianhao sensed something and looked towards the sky.

He saw a mark exuding demonic energy flying rapidly from the distance above the sky.

Upon seeing this.

An extremely strong premonition arose in Lin Tianhao's heart.

Without the slightest hesitation, he put all the equipment he was wearing into the guild warehouse.

In case he was instantly killed by this sudden mark, he wouldn't drop any equipment.

Whoosh!

A sound of air being torn apart came, and the rune rushed into Lin Tianhao's body in the blink of an eye.

"Ding, you have been marked by Demon King Grevault."

Lin Tianhao's pupils suddenly constricted, damn it!

Sure enough.

A magnificent voice resounded throughout the entire Starfall Kingdom.

"National Announcement, Demon King Grevault has put a bounty on the marked adventurer. May all players bravely kill the marked adventurer!"

"National Announcement, Demon King Grevault has put a bounty on the marked adventurer. May all players bravely kill the marked adventurer!"

.....

Lin Tianhao's face was somewhat unsightly, another nationwide bounty mission!

However, at this moment, a cold glint flashed in Lin Tianhao's eyes.

In the main city, he was cautious.

But outside the main city, if these people dared to cause him trouble, then sorry.

He would just send them back to the spring to take a bath!

With his current attributes, unless those few people with god-level talents had all awakened their talents, otherwise, in the wild, who could do anything to him?!

"Demon King Grevault, is it? After I leave the Starfall Kingdom, I will definitely come and play with you."

"I was just worrying about who to find to farm health points from. You came at just the right time!"

A cold glint flashed in Lin Tianhao's eyes.

Withdrawing his thoughts, he took out a jade bottle.

This was a corpse qi collecting bottle he had obtained in the novice village. The introduction at the time was that as long as he collected enough corpse qi, he could trigger a special mission.

"Ding, congratulations, you have successfully collected enough corpse qi, triggering a special mission: Footprints of the Snow Corpse."

"Mission Requirement: Before the second job change, find the hidden dungeon: Footprints of the Snow Corpse, and clear the dungeon. The higher the difficulty of the first clear, the richer the rewards. If you clear the Hell difficulty, there is a chance to trigger subsequent missions."

"Mission Penalty: None."

"Mission Reward: Unknown."

Lin Tianhao frowned slightly, because he had never even heard of this dungeon.

No impression at all!

There was only one answer.

That was, this dungeon had not been found in his previous life.

This was not surprising.

The hidden dungeons and hidden missions of the Twilight of the Gods all had specific triggering conditions.

It was entirely possible that it had not been triggered.

Leaving aside the mission for now, the most important thing for Lin Tianhao to do now was to change jobs.

If he couldn't change jobs, he wouldn't be able to continue leveling up.

Regarding the god-level hidden classes for archers, Lin Tianhao knew of four, but he only knew the strategies for two of them.

After all, not everyone would post the strategies for obtaining hidden classes.

However, Lin Tianhao knew that one of the god-level hidden classes for archers was in Sky Star City, the capital of the Starfall Kingdom.

With Lin Tianhao's current red name value, the city guards would not let him enter the city, and he would not be able to trigger the job change mission for that god-level hidden class.

As for the other one, it was not in the Starfall Kingdom, and he couldn't go there for the time being.

Killing the Demon King's son, Greylor Linsen, reduced Lin Tianhao's red name value by 20,000.

But he still had more than 900,000 red name value.

"Since there is no way to break the situation for the time being, then I will stack health points first."

Lin Tianhao had a good mentality, his talent was the key.

As long as he stacked up his health points, even if he was only level 20, he would still be able to sweep everything.

In the Starfall Kingdom, most ordinary monsters couldn't withstand Lin Tianhao's attacks.

However, there was one place with very good monsters.

Level 45 Bloodback Xuan Turtles.

They had thick health bars and came with a health regeneration passive, perfect for farming health points.

And Lin Tianhao also knew how to open the Bloodback Xuan Turtle dungeon. As long as he opened the dungeon and farmed the Hell difficulty Bloodback Xuan Turtles, stacking health points would be even easier.

With a plan, Lin Tianhao headed towards the Bloodback Xuan Turtle's spawn point.

Sky Star City.

In an inconspicuous small courtyard.

Black Whirlwind, the leader of Black Wind Stronghold, stood cautiously in the small courtyard, speaking carefully towards the direction of the room:

"Lord, that adventurer is really too powerful, I..."

"Pa!"

The door opened, and the person in the room slapped Black Whirlwind across the face from a distance.

"Stop making excuses for yourself. If the matter of you forging standardized weapons reaches the King's ears, no one can protect you!"
