

O game 59

Chapter 59: Too much damage is also a kind of sadness!

Black Whirlwind trembled upon hearing this and knelt down with a thud.

“Sir, you must protect me! Everything I did was to help you!”

The person in the room waved his hand, “What’s the situation with that adventurer? How could they force you to abandon your armor and flee?”

“Sir, it’s that red-named player. His attack speed and damage are terrifying. His attacks also splash out lightning, killing a large area with one arrow.”

Hearing this, the person in the room’s eyes became even more sinister.

“It’s him, daring to disrupt our plans while carrying such a high red name value.”

Black Whirlwind hurriedly said, “Exactly! That kid is too arrogant and must be taught a lesson.”

“I will ask the Queen to issue an edict, ordering the captain of the guards to capture him and imprison him for half a month. We’ll deal with him after the battle for the throne is over.”

“Sir is wise! I shall take my leave.”

This place was next to a lake, a small lake with dark black water, giving people a sense of directly connecting to the Nine Netherworlds.

Lin Tianhao glanced over and saw chunks of blood-colored stones scattered around the lake.

These were not stones, but Bloodback Xuan Tortoises sleeping.

Bloodback Xuan Tortoise (Common): 45.

Health Points: 6850 / 6850.

Attack: 518.

Skills: Bloodthirsty Xuan Armor, Waterball Technique.

The common monsters in Twilight of the Gods were as weak as ever.

Even though it was a level 45 tank-type monster, its attributes were still quite poor.

This common Bloodback Xuan Tortoise was still killed with one arrow by Lin Tianhao, and even killed a dozen at once due to the lightning's jumping effect.

The reason Lin Tianhao chose to be here was naturally to target the Elite and Black Iron Bloodback Xuan Tortoises.

With Lin Tianhao's hunting speed, he killed the Elite Bloodback Xuan Tortoise in less than fifteen minutes.

Bloodback Xuan Tortoise (Elite): 45.

Health Points: 51375 / 51375.

Attack: 928.

Skills: Bloodthirsty Xuan Armor, Waterball Technique, Water Arrow Technique, Magic Water Shield.

With over 50,000 health points, it could withstand more of Lin Tianhao's basic attacks.

With Lin Tianhao's current damage, the Bloodback Xuan Tortoise could withstand five attacks if he deliberately avoided attacking vital points.

The reason it was five attacks was because the Bloodback Xuan Tortoise had a strong passive health regeneration and the Bloodthirsty Xuan Armor passive skill.

Bloodthirsty Xuan Armor: After taking damage, it can absorb some damage to heal itself.

Swoosh!

Swoosh!

... ..

Lin Tianhao's attack speed had already broken 8.0, and with the bonus from the Breeze Set, his basic attacks could increase attack speed and movement speed. As long as he stacked it up, his attack speed could easily break 10.0.

Even the Elite Bloodback Xuan Tortoise couldn't withstand a second in front of Lin Tianhao before collapsing.

This was why Lin Tianhao didn't care about not being able to level up.

As long as his attributes increased, leveling up would be extremely easy for him.

"Ding, because you have killed a large number of Bloodback Xuan Tortoises, you have incurred the wrath of the Blood-Eyed Dragon Tortoise, and it has sent a large number of Blood-Eyed Xuan Tortoises to hunt you down."

Lin Tianhao raised his eyebrows, "Finally here!"

Blood-Eyed Xuan Tortoise, a Black Iron boss.

However, in the level 45 monster area, Black Iron bosses were just cannon fodder, unlike in the novice village, where they were directly the kings of certain wild monsters.

One after another, Blood-Eyed Xuan Tortoises with blood-red eyes crawled out of the lake.

Blood-Eyed Xuan Tortoise (Black Iron): 45.

Health Points: 1284375 / 1284375.

Attack: 5680.

Skills: Bloodthirsty Xuan Armor, Chain Waterball, Chain Water Arrow, Blood Poison Technique, Water Dragon Technique, Water Column Impact, Frenzy, Super Armor.

Black Iron bosses below level 50 rarely break a million health points, except in dungeons and secret realms.

Lin Tianhao raised his hand.

Feathered arrows pierced through the air.

- 14298.

The damage was very high.

However, because of Bloodthirsty Xuan Armor, numbers restoring health appeared above the Blood-Eyed Xuan Tortoise's head.

+ 2859.

+ 500.

One was the health regeneration from Bloodthirsty Xuan Armor, and the other was the health regeneration from the basic passive.

Lin Tianhao didn't care. The longer the Blood-Eyed Xuan Tortoise lasted, the more beneficial it would be for him.

Ten arrows per second, dealing over 100,000 damage per second.

The Blood-Eyed Xuan Tortoise was killed in just under twelve seconds.

"Ding, you have completed the first kill of the Blood-Eyed Xuan Tortoise. A server-wide announcement will be made. Do you want to hide your name?"

"No."

"Server-wide announcement, congratulations to player Snow Emperor for completing the first kill of the Blood-Eyed Xuan Tortoise. This announcement is hereby made, hoping that all players will continue to work hard."

"Server-wide announcement, congratulations to player Snow Emperor for completing the first kill of the Blood-Eyed Xuan Tortoise. This announcement is hereby made, hoping that all players will continue to work hard."

... ..

The server-wide announcement echoed throughout the Starfall Kingdom, making some perceptive players realize the problem.

“Send people to Blackwater Lake to take a look. I suspect that Snow Emperor is the one who killed Grelo Linssen.”

Dream Chaser Yanxue’s eyes were sharp. After the demon king Grelo Fultron issued the reward, she sent more than a dozen assassins to find this wanted player.

Because of the demon king’s mark, they could confirm the identity of the player as long as they got close to him.

Not only Dream Chaser Yanxue, but also some other clubs suspected Lin Tianhao.

After all, besides Snow Emperor, they couldn’t think of anyone else who could kill the son of a demon king at this stage.

Of course, there was also that red-named player.

However, some people had already speculated that the red-named player was Snow Emperor!

After killing the first Blood-Eyed Xuan Tortoise, Lin Tianhao began to attack the second Blood-Eyed Xuan Tortoise.

As cannon fodder, the Blood-Eyed Xuan Tortoises in Blackwater Lake always respawned five at a time.

Five Blood-Eyed Xuan Tortoises only took a minute.

“Boring.”

Lin Tianhao sighed. Five Blood-Eyed Xuan Tortoises added less than 2,000 health points for him.

“It seems that I can only farm this dragon tortoise and use this dragon tortoise to stack health points.”

Lin Tianhao sat aside to clean up the spoils, while also thinking about where else he could go to stack health points.

The answer was no.

Before job advancement, he couldn't go to monster areas above level 50. Within level 50, this was the best spot.

Currently, the best thing for him to do was to farm the Blackwater Lake Bloodback Xuan Tortoise dungeon first.

After having a dungeon, the health of the wild monsters in the Hell difficulty dungeon would be much higher than those in the wild, and all of them would be strengthened versions.

Not only that.

Lin Tianhao was also waiting.

Waiting for Leona's arrival.

He killed Grelo Linssen, shouldn't Leona send him the reward?

Just then.

Lin Tianhao noticed a team approaching him.

“The Royal Guard!”

Lin Tianhao raised his eyebrows. Judging by their footsteps, they were coming for him.

After they got closer, a smile couldn't help but appear on Lin Tianhao's lips.

A total of twenty-one members of the Royal Guard, twenty of whom were level 50 Bronze Guards, and the captain was even a level 50 Silver Guard.
