

## O game 60

Chapter 60: Someone from the palace, the Silver Commander!

Generally speaking, these palace guards would not easily leave the palace.

There's always something fishy when things are out of the ordinary.

Lin Tianhao walked straight up to them.

In his heart, he was thinking: Could these guys be here to make trouble for me?

If that's the case, then that would be really great.

I'm just worried about not having powerful wild monsters to stack my health!

The reason he had such a guess was because of the letter Lin Tianhao had found in Black Wind Fort, which told him that Black Wind Fort was working for a big shot in the Starry Kingdom.

Now that the palace guards have arrived, they are probably here because of the Black Wind Fort's affairs.

"Sinner, you have done many evil deeds, harming the people. I am here under orders to arrest you. Surrender and you will be spared from physical suffering!"

As expected!

The words of the guard captain confirmed Lin Tianhao's guess.

"Arrest me under orders? Under whose orders?"

Lin Tianhao retorted.

"There's no need for you to know that."

The guard captain snorted coldly, "Surrendering now is your best choice."

"Surrender?"

Lin Tianhao smiled playfully, "You can try to attack, as long as you dare to attack, I dare to kill you all."

The guard captain's brow furrowed, and the spear in his hand instantly shot out, stabbing directly at Lin Tianhao's throat.

Lin Tianhao sidestepped, allowing the spear to stab into his shoulder.

-54982!

A huge damage number appeared above Lin Tianhao's head.

As a level 50 silver guard, and the captain of the palace guards.

His output can be considered high even among silver-level bosses.

"Ding, you have been maliciously attacked and can counterattack normally."

The corners of Lin Tianhao's mouth rose, this was what he wanted.

"咻!"

Lin Tianhao quickly retreated, and at the same time, the feather arrow in his hand was released.

"Everyone, attack together."

This guard captain did not underestimate the enemy. Before coming out, the Queen had ordered him.

This mission is only allowed to succeed, not to fail.

Moreover.

As palace guards.

Their greatest strength is not individual combat, but coordinated operations.

Twenty bronze guards surrounded Lin Tianhao.

Lin Tianhao immediately launched five arrows at once, while pulling back with all his strength.

His movement speed of over fourteen was not inferior to these bronze guards.

"Trapping Dragon Spears!"

The silver captain gave an order, and the guards immediately threw out the spears in their hands.

Lin Tianhao immediately moved, but he found that these spears were not attacking him, but blocking his path of retreat.

At the same time, he turned around and launched five arrows at once.

"Daring to jump into the air in front of me, you're courting death."

A cold light flashed in the silver captain's eyes, his figure flashed, and he actually came to Lin Tianhao's feet, stabbing at Lin Tianhao with the spear in his hand.

The spear with a flashing cold light struck, and Lin Tianhao did a three hundred and sixty degree reversal in the air, and the spear pierced past his armor.

After Lin Tianhao landed, the feather arrow was released again.

The silver captain knocked away Lin Tianhao's feather arrow with a spear, and the spear struck again.

There was a phantom of a roaring tiger on the spear.

Lin Tianhao secretly cried out that something was wrong. While launching five arrows at once, he added all the one hundred free attribute points he had accumulated to his movement speed.

After the movement speed broke through ten points, one free attribute point could only increase the movement speed by 0.05, but one hundred free attribute points still provided Lin Tianhao with five points of movement speed.

With a movement speed of over nineteen, Lin Tianhao dodged, but he still didn't completely escape the attack range of the tiger phantom.

-87958!!

Another huge damage number appeared.

Just a slight graze would cause a huge drop in health.

But at this time, the set effect of Lin Tianhao's Breeze Set had already been stacked, the movement speed broke through twenty, and the attack speed broke through ten.

He could use attacks to steal life.

The one percent maximum health value of the Bloodthirsty Necklace, and the five percent life steal effect of the Nine Union Longbow.

These bonuses for Lin Tianhao were not low.

After Lin Tianhao's movement speed broke through twenty, he was finally able to kite these bronze guards.

It's just that the silver captain rushed up again.

He turned into an afterimage and passed through Lin Tianhao's body.

-125820!!

A huge damage number appeared above Lin Tianhao's head.

Lin Tianhao gasped, but the movements in his hands did not stop.

Ten times five arrows at once per second.

Each time five arrows at once recovered over 20,000 health points, and 200,000 health points could be recovered in one second.

Therefore.

Although the silver captain's damage was very high, Lin Tianhao was still able to absorb it.

"Locking Dragon Claws."

The silver captain gave another order, and the bronze guards immediately changed the weapons in their hands, turning them into flying claws with iron chains.

They waved their flying claws, ready to go.

The spear in the silver captain's hand hummed, and he rushed up again.

When approaching Lin Tianhao, he flashed extremely fast and came behind Lin Tianhao.

Lin Tianhao immediately rolled to the side, although his reaction speed was already very fast.

But the silver captain's reaction speed was even faster, his rolling action had already come out, but he was still picked up by the silver captain's spear.

At the moment when the silver captain picked up Lin Tianhao, the flying claws flew quickly towards Lin Tianhao.

Lin Tianhao's expression changed slightly, taking advantage of the gap when he was picked up to strike, if it was a normal situation, he would almost have no way to avoid it.

But he had the Purification Jade Pendant.

It also had 80% immunity to attacks such as knock-ups.

Therefore, he only paused slightly in the air before falling down.

Those flying claws naturally missed.

After Lin Tianhao landed, the silver captain was obviously stunned for a moment.

Lin Tianhao also seized this fleeting opportunity to pull away as much distance as possible.

After the silver captain reacted, he jumped up and pointed with the spear in his hand.

In an instant.

A spear light arrived in an instant.

Lin Tianhao dodged the moment the silver captain made his move.

But the speed of this spear light was too fast, and he was still hit by the spear light.

"Bang!"

With a soft sound.

The shoulder pad on Lin Tianhao's left shoulder shattered instantly.

The wear resistance reached its limit, and it was scrapped!

Lin Tianhao's face sank.

This Breeze Set had a very high compatibility with him, but now one piece was scrapped just like that.

"咻咻咻!!"

Feather arrows kept piercing through the air.

Lin Tianhao thought of using the Book of Life and Death at this moment.

But he gave up.

He wanted to use them to brush his health, and if he used the Book of Life and Death, he would waste this excellent opportunity.

Moreover.

Such high-intensity battles can also hone Lin Tianhao's combat skills.

Now he makes a mistake, and at worst he goes back to the resurrection altar.

But if it is after the Great Cataclysm comes, a mistake could be irreversible.

"Binding Dragon Rope!"

The silver captain shouted again, and the bronze guards switched weapons in their hands again.
