

## O game 61

Chapter 61 A difficult battle triggers the cycle of death!

The Dragon Binding Cord was a series of iron chains, each covered with sharp barbs.

They pulled the chains open, preparing to encircle Lin Tianhao.

Once the barbed chains were wrapped around Lin Tianhao, he would have no chance of escaping.

"Shoosh, shoosh, shoosh!!"

Lin Tianhao continued to pull and fire arrows like crazy.

He couldn't allow himself to be surrounded, or today's situation would truly be difficult.

Under Lin Tianhao's continuous output, four Bronze Guards had already entered a state of critical health.

They immediately changed positions, engaging in a rotation to wear him down.

Lin Tianhao didn't care.

The longer they held out, the more health he could stack.

It was just that the Silver Commander posed a significant threat to him.

The Silver Commander charged over again, and as he approached Lin Tianhao, his figure split into three, attacking Lin Tianhao from three different directions.

"Clone Technique!"

Lin Tianhao frowned slightly and immediately pulled away to the side.

But the Silver Commander had a displacement skill, and after approaching Lin Tianhao, the spear in his hand also locked onto Lin Tianhao, and the three clones instantly stabbed Lin Tianhao in the chest.

-57681.

-57002.

-57568.

Three huge damage numbers appeared.

Immediately following was a "bang," and the armor on his chest shattered.

The Qingfeng Set, the second piece was destroyed!

Lin Tianhao's expression became even more gloomy; the Silver Commander's damage was indeed terrifying.

As the arrow left his hand, Lin Tianhao stepped on the spear and performed a backflip to create distance.

At the same time, he fired five arrows simultaneously in the air again.

Since his arrows couldn't hit the Silver Commander, Lin Tianhao simply gave up attacking the Silver Commander.

All five arrows were aimed at the Bronze Guards.

Relying on the blessing of the life steal potion, Lin Tianhao's health bar recovered quickly.

But the Silver Commander was not in a hurry; although Lin Tianhao's damage was high, they, as palace guards, still had some good things on hand.

"Silver Moon Sweep!"

The Silver Commander's three clones rushed up, launching a sweeping attack, and the powerful impact swept Lin Tianhao away.

While knocking off more than 100,000 health points from Lin Tianhao again, it also destroyed another piece of Lin Tianhao's equipment.

Level 10 bronze equipment was simply too poor in the hands of the Silver Commander.

With fewer than ten pieces of the Qingfeng Set, the set effect no longer existed.

Not only that.

Each piece of the Qingfeng Set increased attack speed, and now with the loss of three pieces, Lin Tianhao's attack speed was also reduced by 1.2.

This loss of attack speed had a very large impact on Lin Tianhao.

The passive attack speed stacked by the set effect was reduced by 3.0, and the equipment bonus was reduced by 1.2, Lin Tianhao's attack speed plummeted by 4.2.

"As expected."

A playful smile appeared on the Silver Commander's face, "I'd like to see how you fight next."

Lin Tianhao's expression darkened.

He originally didn't plan to use the Book of Life and Death.

But in this situation, if he didn't use it, he really risked falling.

Lin Tianhao flashed to create distance, and at the same time wrote the Silver Commander's name on the Book of Life and Death.

.....

One damage number after another came out of the Silver Commander's head, startling the Silver Commander.

"How did you do it?!"

The Silver Commander was both surprised and angry. His health was very high, but this locked-head damage of more than 10,000 per second still made his scalp tingle.

Lin Tianhao did not explain, but continued to output like crazy.

The Silver Commander shouted angrily, and his figure leaped up, "Silver Moon: Beacon Fire Burns the Plains!"

As soon as the words fell, the Silver Commander was wrapped in flames.

Then, it turned into a stream of light, rushing straight towards Lin Tianhao.

"Invincible Golden Body!"

This was definitely the Silver Commander's ultimate move, and Lin Tianhao was not sure if he could withstand the Silver Commander's ultimate move.

Using the Invincible Golden Body was the safest approach.

0.5 seconds of invincibility time.

As long as he timed the moment of the attack, he could completely avoid the Silver Commander's ultimate move damage.

"Boom!"

Lin Tianhao was safe and sound.

The Silver Commander originally thought that if Lin Tianhao wasn't dead, he would definitely be at critical health.

But when he saw that Lin Tianhao hadn't lost any health, he was dumbfounded.

"How... how is that possible?!"

Lin Tianhao also did not speak. It was very foolish to speak during battle.

So unless necessary, Lin Tianhao did not like to speak.

Arrows pierced through the air.

Whoosh!

A Bronze Guard fell.

Lin Tianhao's eyes lit up. It was not his damage that cleared the opponent's health bar.

But triggered the Samsara of Death.

The 0.5% chance of instant kill was triggered at this time.

"Ding, you have killed the Bronze Guard, completed the first kill of the Bronze Guard, and a server-wide announcement will be made. Do you want to hide your name?"

"Hide."

"Server-wide announcement, congratulations to player Hidden Nickname for completing the first kill of the Bronze Guard, hereby announced, hoping that the majority of players will continue to work hard."

"Server-wide announcement, congratulations to player Hidden Nickname for completing the first kill of the Bronze Guard, hereby announced, hoping that the majority of players will continue to work hard."

.....

The server-wide announcement rang out, but Lin Tianhao did not stop attacking, but quickly adjusted his attack target.

The Silver Commander was shocked to see his men being instantly killed.

"Give up capturing, everyone, attack the head!!"

Hearing this.

Lin Tianhao's expression changed drastically.

The level 50 Bronze Guards definitely had head-locking skills.

Lin Tianhao did not dare to be negligent and immediately switched his equipment to the Nine-Headed Serpent Set.

This was a set that he repeatedly brushed from the Nine-Headed Serpent Cypress, belonging to a set of tank-type equipment.

It could increase Lin Tianhao's health and resistance.

It was possible that it would all be destroyed.

But Lin Tianhao could not care so much now. After switching his equipment, he immediately retreated and walked A.

Firing five arrows simultaneously consumed a lot of mental power.

But Lin Tianhao did not dare to stop.

"Spear Charge."

As the Silver Commander gave an order, the movement speed of all the Bronze Guards obviously increased by a notch.

If it was under the blessing of the Qingfeng Set, he would still be able to pull away.

But now that he switched to the Nine-Headed Serpent Set, it was a fool's dream for him to pull away.

But Lin Tianhao could not care so much and continuously took three bottles of potions, preparing for a desperate battle.

"Charge!"

The nineteen Bronze Guards instantly charged towards Lin Tianhao.

"Golden Light Talisman!"

Lin Tianhao used the Golden Light Talisman at this critical moment.

This was also something he obtained in the Novice Village.

Moreover, to be on the safe side.

At this final juncture, he put away the Bloodthirsty Necklace, Nine-Combination Longbow, and other equipment, leaving only the complete Nine-Headed Serpent Set.

No other reason.

He was worried that if he was instantly killed, it would not matter if the Nine-Headed Serpent Set was destroyed.

But if the Nine-Combination Longbow and the Bloodthirsty Necklace were destroyed, he would really regret it.

.....

One damage number after another appeared.

The protection of the Golden Light Talisman, coupled with the protection of the potion and the Nine-Headed Serpent Set, reduced a lot of damage for Lin Tianhao.

The nineteen Bronze Guards only knocked off a little over 100,000 health points from Lin Tianhao.

But before Lin Tianhao could resist, these guards continued to connect with knock-ups.

That's right, not releasing knock-ups at the same time, but connecting releases, maximizing the control chain!
