Chapter 611 - Team up and meet the talkative Xiao Xiaojian again!

Lin Tianhao frowned slightly, not wanting to pay attention, and walked straight towards the Xitu Empire.

"Hey, kid, am I talking to you? How dare you ignore me?!"

The berserker wielding dual swords rebuked Lin Tianhao, looking as if he was about to attack Lin Tianhao directly.

In fact.

He was indeed doing just that.

While speaking, he leaped into the air.

The dual swords in his hands slashed down towards Lin Tianhao's head.

Lin Tianhao narrowed his eyes, feeling a bit annoyed.

This guy really hadn't died before!

Lin Tianhao didn't even bother to draw his bow and arrow.

He directly used the skill he had just obtained, Arrow from the Heart!!

An arrow instantly appeared, killing the guy in the blink of an eye.

Many people around were watching with a lively attitude, originally thinking that Lin Tianhao would suffer.

Archer.

Level 100.

Facing a level 325 warrior, with bad luck, the archer would be instantly killed by an arrow.

But the result surprised them.

They didn't even see Lin Tianhao make a move, and the level 325 berserker was killed.

Just then.

Someone waved a staff, and a resurrection spell landed on the berserker killed by Lin Tianhao.

The berserker was directly resurrected.

This scene surprised many people present.

Although resurrection spells were not as scarce as they were two months ago, they were still skills that most priests could not master.

After the berserker was resurrected, he pointed at Lin Tianhao and roared:

"Who is helping this kid? How dare you attack me, Arrogant Invincible? You really don't want to live."

Obviously.

Arrogant Invincible didn't think that Lin Tianhao had attacked and killed him.

After all, he didn't see Lin Tianhao draw his bow and arrow.

Furthermore.

Lin Tianhao was only level 100, how could he possibly kill his level 325 berserker in seconds?

Was that scientific?

It wasn't scientific!!

Level 100, unless he possessed a god-level talent with infinitely stacking attributes.

Otherwise.

As soon as the name was written.

Arrogant Invincible died again.

Resurrection spell??

Was it amazing?

Once written in the Book of Life and Death, you can resurrect however you want!!

After Arrogant Invincible was killed again, Lin Tianhao had already entered the Xitu Empire.

"Ding, the front is a national dungeon, with extremely high difficulty, cannot be entered alone, please complete a team of at least four people."

Lin Tianhao was stunned.

This dungeon had this requirement.

Generally, dungeons can be entered alone, and a few dungeons only require two people.

This time, it actually required a team of four to enter.

Lin Tianhao immediately sent a message to Fatty.

"Fatty, are you going to the Xitu Empire? I need a team."

Lin Tianhao directly stated his request.

"We are on our way, Monkey and I are together, how many do you need to enter?"

"Four, I'll call Qingqing."

After speaking.

Lin Tianhao sent a message to Lin Qingqing again.

Wanting to ask Lin Qingqing to come over.

"Brother, it might not work now, I'm doing a special task here and can't leave."

Lin Tianhao hesitated and was depressed, and threw the question to Fatty again.

"Fatty, find one, and send me a location, I'll come and pick you up."

"Okay."

After receiving the location sent by Fatty, Lin Tianhao took a step.

The next moment, he arrived near Fatty and the others.

Mainly because they were near a main city.

And Lin Tianhao had run through the maps of the major main cities of the Vast Continent with his clones.

Therefore, it was very convenient to go to the main city now.

After reuniting with Fatty, Fatty couldn't help but say:

"Brother Hao, you've been getting more and more fierce recently, even the Vast Limitless Palace was overturned by you."

Fatty was very emotional, "In this life, I might only be able to compare my health points with you, Brother Hao."

Lin Tianhao waved his hand, "Your dual resistance is also beyond my reach."

After speaking.

Lin Tianhao looked at Monkey.

"Monkey, how are your attributes now?"

The Holy Land Genius Rookie Competition had been over for almost two months, and with the growth rate of Monkey and the others, they should be quite good now.

Especially the bounty missions continuously released by Lin Tianhao, which allowed Monkey to obtain a large number of free attribute points.

Coupled with his talent, his attributes must be good.

"Is there another one?" Lin Tianhao asked.

Since returning from rebirth, Lin Tianhao didn't feel like he had done much, and eight months had passed.

Five years.

It seemed very long, but in reality, when you really lived through it like this, this time was really fast.

"Little Sword, she's also in this city, so I called her too."

Hearing it was Little Sword, Lin Tianhao couldn't help but hold his forehead, for no other reason.

Little Sword was a super invincible chatterbox.

But they were all people from their Mortal Palace, so Lin Tianhao didn't bother to care so much.

"Okay, you guys wait for Little Sword to come over, I'll take care of something, and I'll be back in a few minutes."

After speaking.

Lin Tianhao took a step and disappeared again.

North Sea!

Lin Tianhao descended here again.

Since he had promised to help the Moon Wheel Empire reclaim the wasteland, he would not go back on his word.

Bei Nuo Qingji was a little surprised to see Lin Tianhao return.

She originally thought that Lin Tianhao would no longer care about them after learning that the Vast Limitless Palace and the Vast Empire were sealed.

After all, without the Vast Limitless Palace, the Xitu Empire had become a dungeon again.

Even if their Moon Wheel Empire wanted to resist, it would only be powerless rage, with no way to do anything.

"Lord Snow Emperor."

Bei Nuo Qingji said respectfully.

Although Lin Tianhao had returned, she still couldn't believe that Lin Tianhao would spend time continuing to lead them to reclaim the wasteland.

Lin Tianhao didn't know what Bei Nuo Qingji was thinking.

He waved his hand, and three gods appeared in front of Bei Nuo Qingji.

"I promised to help you reclaim the wasteland, and I will not go back on my word. These are three gods, and we will reclaim the wasteland according to the original plan."

"The Seven Sons of the North Sea have been hidden, and I'm afraid there are powerful forces behind it. I can't spare myself for the time being, so let's reclaim other islands first."

Bei Nuo Qingji nodded, she had actually deduced some things.

Therefore.

She even wanted to stay away from the sea area where the Seven Sons of the North Sea were located.

After all, their current strength could not withstand too much tossing.

After a simple explanation, Lin Tianhao sacrificed the Kunlun Mirror and returned to Fatty and the others.

At this time, Little Sword had already joined Fatty and the others.

Seeing Lin Tianhao, Little Sword was as excited as ever.

"Snow Emperor Boss, you are too strong, that's the Vast Limitless Palace, the number one holy land in the Vast Continent."

"I can't even imagine that you actually beat the Vast Limitless Palace to the point of being sealed, terrifying!!"

"Snow Emperor Boss, are you planning for the four of us to directly clear the Xitu Empire this time you're taking us to brush the Xitu Empire?"

Chapter 612 - Giant blood demon!

As expected!!

A chatterbox is a chatterbox; they had only just met.

That mouth was like a machine gun, constantly firing away.

"Little Sword, would you like to team up with us?" Lin Tianhao asked.

Little Sword nodded without hesitation, saying:

"Want, want, want, of course I want to. Looking at the entire Twilight of the Gods, besides 苟到Wangu, I can't think of anyone who wouldn't want to team up with you."

"Although my talent also requires killing monsters to stack, if Snow Emperor, the big shot, wants to team up with me, I'd agree even if there were no monsters to kill."

Lin Tianhao's expression was serious as he said:

"If you want to team up with us, starting from now, don't talk."

Little Sword opened her mouth, seemingly wanting to say something.

But thinking about what Lin Tianhao had just said, she ultimately swallowed the words that had reached her lips.

"Let's go."

Seeing that Little Sword had stopped talking, a satisfied smile finally appeared on Lin Tianhao's face.

Talking is fine.

But being a chatterbox is not good!!

Especially having a chatterbox next to you during battle, it's really a headache.

Upon reaching the border of the Xitu Empire, Lin Tianhao pulled them into the team.

"Little Sword, you can talk, but try to keep it to a minimum," Lin Tianhao said.

Little Sword pouted with some grievance, "Snow Emperor, the big shot, dislikes chatterboxes."

Lin Tianhao: "..."

"It's not entirely that, it's mainly that I don't want to be disturbed when farming monsters."

He was really afraid that if he said he disliked it, Little Sword's young heart would be traumatized.

Hearing Lin Tianhao's words, Little Sword became excited again.

"So, does that mean I can talk as much as I want when we're not farming monsters?"

"Snow Emperor, the big shot, speaking of which, are there many rewards for killing gods?"

"Continuously killing twelve gods, do you know how shocked I was when I heard those server-wide announcements?"

"It's only because I'm mentally strong, otherwise..."

Little Sword's words came to an abrupt halt.

Because a demon appeared in front of them.

Obviously.

She cared a lot about what Lin Tianhao had said.

Lin Tianhao said he didn't want to be disturbed when farming monsters, so she stopped talking in a timely manner.

Lin Tianhao's gaze also fell on this demon.

The demon was humanoid, about two meters four or five in height.

Its entire body looked as if it had been skinned, a bloody mess.

What immediately caught Lin Tianhao's attention was that this demon actually had a large mouth on its stomach.

The large mouth was slightly open and closing, revealing rows of sharp teeth inside.

That's right.

It wasn't just two rows, but many rows of teeth.

Giant Blood Demon (Black Iron): Level 175.

Health Points: 2532219 / 2532219.

Attack Power: 32510.

Skills: Giant Head Ram, Blood Coagulation, Berserk, Unyielding...

Lin Tianhao merely glanced at it indifferently and lost interest.

Although demons were difficult to deal with, this level of demon was too weak for him.

Not to mention Lin Tianhao, even for Monkey, Fatty, and the others, this demon was too weak.

Although there was still a certain gap compared to archers like Lin Tianhao, she didn't need to fight in close combat.

Sword energy pierced the sky and landed on the Giant Blood Demon.

- 417521!!

An impressive damage number appeared.

Among the adventurers at this stage, Little Sword's damage value was already considered very good.

Apart from those high-level players with excellent equipment bonuses, few people could deal such high damage.

The Giant Blood Demon, after being attacked, roared at Little Sword and charged up without hesitation.

Little Sword didn't panic at all.

Her own combat talent was already extremely outstanding. Seeing the Giant Blood Demon charging up, Little Sword actually used her reach advantage to kite it.

The Giant Blood Demon's health points weren't high, and Little Sword didn't even need to use her other methods before it was killed.

"Awesome!"

Little Sword was very satisfied with this battle result.

"Snow Emperor, the big shot, my combat power is not bad, right? A Black Iron-level Giant Blood Demon is nothing more than this!"

Lin Tianhao smiled and didn't refute.

To know Little Sword's specific combat power, he would have to find a stronger opponent for Little Sword.

Soon.

Lin Tianhao and the others encountered demons again.

A total of seven.

All seven were Giant Blood Demons, with health points similar to the Giant Blood Demon that Little Sword had killed before.

Little Sword still took action. Even fighting three at once, Little Sword was still more than capable.

She even easily resolved these three Giant Blood Demons without releasing any skills.

Monkey couldn't sit still anymore, and he grinned and said:

"Brother Hao, let me do it. You also know that these Black Iron-level demons also reward free attribute points."

"If they're all killed by Little Sword, how am I supposed to improve?"

Little Sword couldn't help but glare at Monkey.

"Brother Monkey, you're already so powerful, what's the harm in letting me have some free attribute points?"

Lin Tianhao nodded, "Alright, then Monkey, you'll be the one killing the demons from now on."

It was unrealistic to expect Little Sword to go all out against ordinary demons.

It was better to let Monkey kill them first and accumulate some free attribute points.

What's more.

Killing demons here could grant double free attribute points.

The next time they encountered demons again.

Lin Tianhao realized the terror of a well-rounded warrior.

Monkey's movement speed was ridiculously fast. Due to being both a mage and a warrior, Monkey's damage was also quite high.

Demons like the Giant Blood Demon didn't even have a chance to resist in front of Monkey.

Little Sword couldn't help but complain:

"Brother Monkey, your speed is too ridiculous, right? I didn't even see how you made your move."

Hearing this.

Monkey wasn't complacent, but said very calmly:

"This is nothing. My goal is to surpass the speed of light."

Monkey was very satisfied with his current achievements.

For the next two hours, Monkey was fighting with the momentum of killing anyone who stood in his way.

"Ding, you have reached level one hundred and fifteen, free attribute points + 5."

"Ding, you have reached level one hundred and sixteen, free attribute points + 5."

...

Because Lin Tianhao had already completed his third class advancement, his level cap had been raised from level one hundred to level two hundred.

Therefore, his level was now starting to increase.

It was all thanks to Monkey killing the demons.

If he had farmed monsters himself.

He would already be at level two hundred by now.

"That's about enough, I'll pick up the pace," Lin Tianhao said with a smile.

Chapter 613 - Kant Dungeon, Hundred Touches of Demons!

"Monkey, you can grind your free attribute points usually, this here, let me handle it!"

Lin Tianhao took out his longbow and began to draw it.

His attack speed wasn't as good as Monkey's, but his movement speed, enhanced by the Blackheart Dragon's 50% increase in air movement speed, barely allowed him to keep up with Monkey.

However, Lin Tianhao's damage output was far superior to Monkey's.

Moreover,

after killing creatures, Lin Tianhao could enslave their souls, turning them into his undead servants to aid him in battle.

With Lin Tianhao taking action, the demons were as fragile as paper, offering no resistance.

... ..

Boundless Desert!

Inside the Scarlet Flower Sand Palace.

Goriel·Chaolu sat in the main seat, with the Scarlet Flower Demigod below him.

"Lord Chaolu, although the Xitu Empire has transformed into a demon realm, it's only a matter of time before it's taken down. We need to plan ahead."

Upon hearing this,

Goriel·Chaolu frowned, "It's unwise to clash head-on with the Snow Emperor, who is currently at the height of his power."

The Scarlet Flower Demigod pondered for a moment and said:

"Lord Chaolu, there's no other way. If we truly allow the Snow Emperor to fully revive the Mountain and Sea Empire, his strength will inevitably surge again."

"When that happens, it will be very difficult for us to deal with him."

Goriel·Chaolu shook his head and smiled: "After the Snow Emperor defeated the Vast Infinity Palace, I never considered continuing to fight him head-on."

"Next, listen to my instructions. The Snow Emperor is not a concern."

... ..

Ancient Mountain City!!

This was a main city near the Xitu Empire.

At this moment, in the resurrection altar of Ancient Mountain City,

Invincible Aotian had just been resurrected when his health bar was emptied again.

His original level of 325 had dropped to 198.

After leveling up, the resurrection time would become longer and longer.

This led to Invincible Aotian only losing over a hundred levels in over two hours.

"Ahhh, how could this happen? That person is the Snow Emperor?! How is the Snow Emperor only level 100?!"

Invincible Aotian's intestines were turning green with regret.

How could he, backed by the Aotian Guild, bully a level 100 trash archer?

But who could tell him why that archer was the Snow Emperor?

"I've always told you not to cause trouble, but you never listen. Now that you've provoked the Snow Emperor, you can wait to drop back to level one."

A burly berserker strode over.

Hearing this,

Aotian Zongling glanced at Invincible Aotian, looking at him with an idiot's gaze, and said:

"The Snow Emperor is slapping the face of our Aotian Guild, what can I do? Slap back?"

Invincible Aotian opened his mouth, but ultimately didn't say those words.

There was no way.

Lin Tianhao could even take down the Vast Infinity Palace, it was too difficult for their Aotian Guild to contend with him.

"Let's leave it at that for now."

Aotian Zongling waved his hand, "A big shot like the Snow Emperor is unlikely to keep targeting you."

"I estimate he won't lock onto you after a while."

Aotian Zongling's prediction was reasonable, because Lin Tianhao had already changed his name back to Goriel·Chaolu.

Invincible Aotian was just a minor friction, letting him drop a few levels was enough.

There was no need to keep targeting him.

Moreover, because players had resurrection time, the Book of Life and Death couldn't help Lin Tianhao stack health during the resurrection time.

Instead, it would affect Lin Tianhao's efficiency in stacking health.

Inside the Xitu Empire!

As a national dungeon,

the number of adventurers entering the Xitu Empire had now exceeded ten million.

However, because the Xitu Empire's border was very long, and Lin Tianhao and his team were among the first to enter the Xitu Empire, they basically hadn't encountered any teams along the way.

Under Lin Tianhao's leadership,

they had already arrived before a main city of the Xitu Empire.

Kant Dungeon!

A relatively large city in the Xitu Empire near the border.

After the demonization,

the city map remained the same, but the people of the Xitu Empire had transformed into demons, possessing stronger combat power.

"Siege?"

Little Sword's eyes lit up. The previous encounters had all been with weaklings.

In addition to Lin Tianhao's actions, no one could stop them.

"Worth a try."

Lin Tianhao drew his bow and nocked an arrow, firing it into the air.

The arrow pierced through the sky and hit the city gate of Kant Dungeon.

As if sensing Lin Tianhao's provocation, the city gate opened, and thousands of demons rushed out.

There were all kinds of demons, different people had different desires.

Therefore, the demons they transformed into were different.

But most demons were of those few types.

For example, those with excessive greed would transform into Behemoth Blood Demons, those with excessive lust would transform into Bone Blood Demons, and those with strong desires for slaughter would transform into Blood Blade Demons.

These were the basic forms of ordinary people's demonization.

In addition to these basic forms, there were also some relatively special forms.

But that didn't matter.

Most of these demons were below level 500.

Their ranks varied, but most were Elite and Black Iron, with very few Bronze ranks.

Occasionally, a Silver rank would appear, which could be considered a leader.

But even so,

under Lin Tianhao's arrows, they were still destined to be instantly killed.

"It's you, it's you... It's because of you that our entire Xitu Empire has been demonized."

At this moment, a muffled and turbid voice came.

The voice came from nowhere, as if whispering in Lin Tianhao's ear, yet also as if it was very, very far away from Lin Tianhao.

"Playing tricks!"

Lin Tianhao activated his Fiery Eyes, and a humanoid demon over ten meters tall appeared before him.

From his back, blood-colored tentacles spread out.

At the end of the tentacles was a suction cup the size of a human head.

Inside the suction cup were rows of sharp teeth.

The structure was somewhat similar to the abdomen of a Behemoth Blood Demon.

Centipede Wraith Demon (Gold): Level 999.

Health: 1.4 billion / 1.4 billion.

Attack Power: 519689.

Skills: Invisibility, Grudge Penetration, Soul Strike, Blood Tentacle Seed, Super Armor, Berserk...

Lin Tianhao only glanced at it and lost interest.

He originally thought a more powerful guy would come out.

But he didn't expect it to be this.

Gold rank.

It could be considered the highest rank demon Lin Tianhao had encountered along the way.

One point four billion health, it would take less than a second to kill.

But just as Lin Tianhao was about to strike, Little Sword screamed.

"Ah--"

"What's going on? On my back, how can tentacles grow on my back?"

Looking back.

Sure enough.

A blood-colored tentacle had actually grown on Little Sword's back.

The tentacle looked similar to the Centipede Wraith Demon, but much smaller.

At the same time,

Little Sword's vitality was also being quickly drained away.

"Shoo shoo shoo--"

Lin Tianhao acted without hesitation, and the arrows instantly pierced through the Centipede Wraith Demon's body, ending its life.

Chapter 614 - The whispers came again!

After the Hundred-Tentacle Grudge Demon was killed, the tentacles behind Little Sword did not disappear.

On the contrary.

A second tentacle extended from Little Sword's back.

"Ah--"

"It hurts so much, I feel like my body is being torn apart."

Monkey's reaction speed was also fast enough, arriving behind Little Sword in the blink of an eye.

The iron rod in his hand came down, severing one of the tentacles.

But as soon as the blood-colored tentacle was cut off, new blood-colored tentacles grew out again.

Lin Tianhao narrowed his eyes slightly.

This should be the effect of that Blood Tentacle Seed of the Hundred-Tentacle Blood Demon.

They say that demons are strange and terrifying, and a Gold-grade demon's skill is already so difficult to deal with.

Thirty blood-colored tentacles appeared one after another, before gradually withering and falling off Little Sword's body.

Little Sword was completely exhausted, and sat down on the ground with a thud.

“Mommy, what is this thing? It hurts even more than a broadsword chopping down on my head.”

Lin Tianhao didn't pay attention to Little Sword.

Demons were still pouring out of Canter City in a steady stream.

He didn't hesitate at all, and directly activated Three Heads Six Arms.

Feather arrows surged out like a tide, quickly killing these low-level and low-grade demons with high damage.

When Lin Tianhao's gaze converged, he saw a giant over fifty meters tall.

His appearance was almost the same as the Hundred-Tentacle Grudge Demon, only bigger.

Thousand-Tentacle Grudge Demon (Platinum): Level 999.

Health Points: 17.1 billion / 17.1 billion.

Attack Power: 2,632,596.

Skills: Stealth, Grudge Penetration, Soul Strike, Blood Tentacle Seed, Body of the Tyrant, Berserk...

Lin Tianhao was a little surprised, this was actually another powerful demon.

Little Sword was directly dumbfounded when she saw the suddenly appearing Thousand-Tentacle Grudge Demon.

She didn't hesitate to hide behind Fatty.

“Fat Bro, protect me, this guy is too terrifying.”

Fatty grinned, “No problem.”

Before his voice even faded, he was stabbed in the back by a sword.

-1.

A forced damage appeared, and Fatty's health didn't drop much.

There was a reason for this.

His current armor and various damage reductions were already quite terrifying.

To make him lose health, unless the penetration was very high, or the attributes were extremely strong.

“Little Sword, how dare you stab me in the back, naughty!”

Fatty didn't think Little Sword did it on purpose.

After all, Little Sword knew his attributes, how could she be so foolish as to attack him?

However.

Immediately afterwards, Little Sword launched a series of attacks on him.

This made Fatty instantly realize that something was wrong.

He turned to look.

He saw that Little Sword had already changed drastically.

Her face was ferocious, her eyes bloodshot, and her eyes were filled with resentment and hatred.

Not only that.

Ten blood-colored tentacles simultaneously appeared behind Little Sword.

“Shoosh shoosh shoosh—”

These blood-colored tentacles turned into streamers and attacked Fatty.

Fatty had just wanted to resist, but his body couldn't help but twitch.

In the next instant.

Blood-colored tentacles also appeared on his back.

It wasn't just him.

Monkey was not spared either.

Lin Tianhao saw all of this.

Demons are troublesome because of these things.

They can hit you when you may not even know what is happening.

“Shoosh shoosh shoosh—”

Lin Tianhao fired feather arrows frantically, he wanted to kill this Thousand-Tentacle Grudge Demon.

Only by killing him could the current situation be alleviated.

But the Platinum-grade Thousand-Tentacle Grudge Demon was not so easy to kill.

It manipulated its tentacles, condensing a shield of light in front of itself.

Then, more tentacles slapped towards Lin Tianhao.

Lin Tianhao was not afraid, and directly activated Heavenly Punishment state.

Feather arrows were guaranteed to hit, and with his current 12.15 Heavenly Punishment attack speed, it was not difficult to kill the Thousand-Tentacle Grudge Demon.

As for the Thousand-Tentacle Grudge Demon's tentacles, Lin Tianhao could withstand them, two million attack power did not pose a threat to Lin Tianhao.

However, Lin Tianhao was still positioning and pulling, if he got used to directly withstanding skills and taking damage, it was very likely to affect his operation later.

He could withstand it when facing the weak, but what about when facing the strong?

Therefore.

Lin Tianhao had to maintain a high-intensity battle at all times.

Under Heavenly Punishment.

The Thousand-Tentacle Grudge Demon's blocking methods were useless, and it was quickly killed by Lin Tianhao.

After killing the Thousand-Tentacle Grudge Demon, Lin Tianhao continued to block the demons pouring out of the city.

Because of the Slaughter Origin, Lin Tianhao would permanently increase one point of attack power for every five demons he killed on average.

Slaughter Proving Dao required killing creatures whose level was not lower than his own.

Now Lin Tianhao had reached level two hundred.

In a main city, even if it was demonized, most of them were not level two hundred.

Therefore.

Lin Tianhao could not stack attack power by killing every demon.

Of course.

The Asura Divine Sword could.

Only creatures killed by the Asura Divine Sword could stack attack power.

In Lin Tianhao's current situation, if he used the Asura Divine Sword to kill, the monster killing efficiency would be too low.

However.

It was just that the efficiency was lower now.

But if Lin Tianhao's attainments in swordsmanship were further improved.

Then using the Asura Divine Sword as the main combat weapon was not impossible.

After the Thousand-Tentacle Grudge Demon died, Lin Tianhao cut off the tentacles on Little Sword, Fatty, and Monkey.

The three of them finally recovered.

Little Sword said with some lingering fear:

"This tentacle monster is too terrifying, I've already been so careful, but I still got hit."

"The most important thing is, I didn't even realize how I got hit."

Lin Tianhao's expression was serious, and he said: "The real experts in Canter City haven't come out yet, everyone be steady."

Lin Tianhao's words were not alarmist.

Ordinary main cities would have Domain experts starting at Seventh Revolution.

For larger main cities like Canter City, it was possible that there were even Eighth or Ninth Revolution experts sitting in town.

Although this Thousand-Tentacle Grudge Demon had some tricks, its level was only nine hundred and ninety-nine after all, and it was still a bit lacking compared to real Domain experts.

Fatty and Monkey both had high health and considerable combat power.

They were also handling the demons pouring out of the city with ease.

But Little Sword was different.

She was completely being chased and beaten by the demons.

Her health made it impossible for her to make mistakes easily, otherwise she would most likely die here.

Fortunately, Lin Tianhao was here, which could help her relieve a lot of pressure.

Just then, that familiar voice sounded again.

“It's you, it's you... it's because of you that our Xitu Empire was completely demonized.”

Hearing this voice, Little Sword couldn't help but shrink her neck.

Because the previous two times this voice appeared, she was the one who suffered losses.

Chapter 615 - Changing shapes and positions!

Lin Tianhao's face darkened. If this thing appeared once or twice, it could be called a coincidence.

But now it had appeared a third time!

Moreover.

Lin Tianhao could already foresee that the third appearance would be the Myriad Tentacle Wraith Demon.

Sure enough.

It was exactly as Lin Tianhao had predicted.

The guy who appeared again was the Myriad Tentacle Wraith Demon.

The attributes of demons were higher than other monsters of the same level.

The attributes of this Myriad Tentacle Wraith Demon were even more terrifying.

Myriad Tentacle Wraith Demon (Diamond): Level 999.

Health Points: 185.1 billion / 185.1 billion.

Attack Power: 13,652,996.

Skills: Invisibility, Wraith Penetration, Soul Strike, Blood Tentacle Seed, Unyielding, Berserk...

Little Sword couldn't help swallowing a few times when she saw the huge Myriad Tentacle Wraith Demon.

This guy.

Just one look at it was terrifying.

Especially since they had suffered losses at the hands of the Thousand Tentacle Wraith Demon before.

Now, seeing this giant monster over 150 meters tall, with countless blood-colored tentacles swaying slightly in the air.

Just seeing this scene gave people a strong sense of oppression.

With 185.1 billion health points, even Lin Tianhao's output ability would have a hard time killing it in a short period.

Suddenly.

Lin Tianhao felt something dangerous approaching him.

He didn't hesitate to summon the Asura Divine Sword.

Those seeds that were originally difficult to capture with the naked eye were also exposed under the impact of the protective divine light.

The reason why tentacles appeared on Little Sword and the others before was because of these blood-colored seeds.

However.

This time, the Myriad Tentacle Wraith Demon wanted to plant seeds on Lin Tianhao.

“Shoo, shoo, shoo——”

While blocking these seeds, Lin Tianhao's feather arrows were also frantically firing.

“Die, all must die, all must die!!”

The Myriad Tentacle Wraith Demon let out an angry roar, yelling at Lin Tianhao repeatedly.

In an instant.

Cracks appeared on the ground beneath Lin Tianhao's feet, and countless tentacles instantly 缠绕上 Lin Tianhao's legs.

Lin Tianhao slashed out with the Asura Divine Sword in his hand, cutting off all these tentacles.

Lin Tianhao's Sword Dao had already reached the level of law, and the power of a single sword was not to be underestimated.

But the Myriad Tentacle Wraith Demon's attack was not over, and the tentacles behind him were also whipping towards Lin Tianhao frantically.

With an attack power of over 13 million, the damage dealt to Lin Tianhao was not low.

-1.23 million!!

-1.23 million!!

.....

While taking damage, Lin Tianhao was also quickly recovering health.

With his Bloodthirst Necklace and the upgraded Hand of Heavenly Punishment, one arrow could restore 5% of his health.

In addition to damage transfer, the damage the Myriad Tentacle Wraith Demon dealt to Lin Tianhao was not as fast as Lin Tianhao's health regeneration.

But Lin Tianhao's attacks on the Myriad Tentacle Wraith Demon might not be able to withstand it.

-480 million!!

Critical Hit!!

-780 million!!

.....

Damage numbers appeared one after another.

Even though Lin Tianhao had activated Heavenly Punishment for guaranteed hits, his attack speed had decreased.

But Lin Tianhao's current Heavenly Punishment attack speed was as high as 12.15. Under the Three Heads Six Arms state, he could fire thirty-six arrows per second.

This was because Lin Tianhao was holding back the Arrow Follows the Heart skill.

If he added Arrow Follows the Heart, Lin Tianhao could fire as many as forty-eight feather arrows per second.

Even with thirty-six arrows, Lin Tianhao could deal over 20 billion damage per second.

This was because the Myriad Tentacle Wraith Demon had a bit of critical hit reduction ability, otherwise, with Lin Tianhao's output ability.

His DPS would easily break 30 billion.

But even a DPS of 20 billion was quite terrifying.

The Myriad Tentacle Wraith Demon's attack also came with life steal, but Fatty's own grievous wounds effect was also quite impressive.

As for the Myriad Tentacle Wraith Demon attacking Fatty, there was even less of a chance.

Fatty's dual resistances were so strong that although the Myriad Tentacle Wraith Demon could break through his defense, compared to Fatty's nearly 4 billion health points, that little damage was not worth mentioning.

The battle came quickly and ended just as quickly.

With Lin Tianhao's high output ability, the Myriad Tentacle Wraith Demon had already fallen in less than thirty seconds.

The Myriad Tentacle Wraith Demon was nothing more than this!!

Next, countless demons poured out of the main city.

The first to not be able to withstand it was Little Sword.

Her health points were too low.

Even with the one million health point increase from the Pan Peach, her health points were still too low compared to Lin Tianhao and the others.

Little Sword fell first.

Lin Tianhao could actually save her.

Because he had a recovery skill given by the Sea God called Azure Sea Tide, which could restore 100,000 + 2% of Lin Tianhao's maximum health to his team in one go.

To be precise.

100,000 + 2% was when this skill was at one star.

Now this skill had reached two stars.

And the effect had increased from 100,000 + 2% to 1 million + 3%.

As long as Lin Tianhao was willing, he could instantly restore Little Sword's health bar to full.

But based on the current situation, even if Lin Tianhao helped her restore her health to full, she wouldn't be able to last long.

Instead of that, it would be better to let her return to the city first.

Although Lin Tianhao's Azure Sea Tide had been upgraded, the cooldown time had not been shortened.

The battle continued.

These ordinary demons posed no threat to Lin Tianhao and the others.

Monkey's mobility was too strong, coupled with his high attack speed and life steal, ordinary demons had no way to deal with him.

Especially.

Monkey's relatively unremarkable health and dual resistances were very powerful among these ordinary demons.

It seemed that they also realized the strength of Lin Tianhao and the others, and the demon army began to retreat like a tide.

Before long.

All the demon army had retreated back into Canter City.

Monkey was very fast, and he was becoming more and more brave, so he did not retreat at all and directly attacked into Canter City.

Lin Tianhao wanted to stop him, but before he could speak, he stopped himself.

Monkey had always been impulsive, and this time he was obviously too impulsive.

He was fast enough to follow in, but what about Fatty?

Fighting like this was obviously disjointed.

Lin Tianhao simply didn't care, after all, he would soon realize the problem if he was disjointed now.

And the price to pay was only losing one level.

But if the Great Cataclysm came and he was disjointed again, he might lose his life.

It might even kill their entire team.

However.

Just as Monkey entered the city, at the moment the city gate closed.

His body turned into an afterimage, and he retreated at an extremely fast speed.

This was... Shape Shift, Misplaced Exchange.

In short.

It was to leave a shadow in a certain position, and the main body rushed out to fight.

For a certain period of time, this skill could be triggered again, so as to return to the original position through Shape Shift, Misplaced Exchange.

Monkey's Shape Shift was obviously more brilliant, at least, Lin Tianhao didn't notice the shadow he left behind.

Chapter 616 - Old acquaintance: Village Chief Wang!

It wasn't that Lin Tianhao's Fiery Eyes of Truth were ineffective, but rather because Lin Tianhao had been engaged in intense combat, so he hadn't focused his attention on the monkey.

However, the instant the monkey returned using Shadow Shift, a vine suddenly spread out from the direction of the city gate.

This vine instantly wrapped around the monkey's body.

Immediately after.

The vine dragged the monkey back rapidly, and Lin Tianhao wanted to stop it, but it was already too late.

In the blink of an eye, the monkey had already been pulled back by the vine.

Lin Tianhao's eyes narrowed slightly; the aura on this vine was somewhat familiar.

He seemed to have come into contact with this vine somewhere.

It was just that Lin Tianhao couldn't remember exactly where for the moment.

"Snow Emperor, I said that one day, we would meet again, and when we meet again, I will trample you under my feet."

A somewhat familiar voice entered Lin Tianhao's mind.

That's right.

The voice rang directly in Lin Tianhao's mind.

"This voice... Village Chief Wang!!"

Lin Tianhao's pupils suddenly contracted.

Village Chief Wang, from the beginner village, Lin Tianhao had some interactions with him.

After arriving in the Starry Kingdom, Village Chief Wang even became a difficult problem for Lin Tianhao to deal with for a period of time.

Because Village Chief Wang was a wild monster, he could not be completely killed and enjoyed the resurrection mechanism.

Not only that.

Village Chief Wang also enjoyed leveling up.

In addition, the king of the Starry Kingdom at that time supported Village Chief Wang, and Lin Tianhao had no way to deal with Village Chief Wang at that time.

Later, the Starry Kingdom's power declined, and Village Chief Wang gradually disappeared.

Originally, Lin Tianhao thought that he would not have much interaction with Village Chief Wang in the future.

After all, Village Chief Wang couldn't possibly keep up with his growth speed.

At the beginning, Lin Tianhao killed his son Greylorinson, and he even offered a reward for himself.

At that time, Lin Tianhao was prepared to find a chance in the future to send Grevorton to reunite with his son.

It was just that he was busy with his own affairs later and did not get any news about Grevorton.

This led to Lin Tianhao not going to find Grevorton.

Now, in Village Chief Wang's mouth, Lin Tianhao heard the name of Grevorton again.

"Grevorton?"

"Where is he?" Lin Tianhao asked.

He had not forgotten his idea of sending Grevorton to reunite with his son.

Now that he encountered it.

He didn't mind taking him and Village Chief Wang away together.

Village Chief Wang snorted coldly, "You are not allowed to know about Lord Grevorton."

As soon as the words fell.

The earth began to crack, and a behemoth slowly emerged from the ground.

That was a big tree.

A huge tree that blotted out the sky and covered the sun.

Lin Tianhao turned on his Fiery Eyes of Truth and looked over.

This sky-covering tree demon was similar to the Nine-Headed Serpent Cypress in the beginner village before.

His whole body was covered with vines, and the tops of those vines were human heads.

The expressions on the human heads were either ferocious or terrified.

Just one glance made people feel chills.

Village Chief Wang (Special Diamond): Level 2395.

Health Points: 100.01 billion / 100.01 billion.

Attack Power: 120 million.

Skills: Withered Wood Spring, Infinite Crowd Control, Soul Devouring Technique, Soul Swallowing Technique, Nether Soul Curse Seal, Berserk, Overlord Body...

Lin Tianhao took a deep breath.

Health points exceeded 100 billion!!

Without calculating Prisoner Sea Death Maiden and NPCs, this was the strongest wild monster Lin Tianhao had ever seen, without a doubt.

Health points exceeded 100 billion, terrifying!

Moreover.

Village Chief Wang's label was also relatively special.

Special Diamond.

Not King-level, but this attribute was already comparable to ordinary King-level.

Lin Tianhao raised his eyes and looked over; at this time, the monkey was entangled by the vines.

No matter how he struggled, he could not break free from Village Chief Wang's vines.

Not only that.

The vines were absorbing the monkey's soul power; the monkey, who was still struggling frantically, became listless after his soul power was swallowed.

Village Chief Wang did not kill the monkey; after the monkey became listless, he stopped attacking the monkey.

"Snow Emperor, come on, throw yourself into the embrace of this tree god."

Village Chief Wang showed a ferocious smile to Lin Tianhao.

"After enduring humiliation for so long, I finally found this opportunity."

"Hahaha, what? Do you still want to summon a god to fight me?"

"In this copy, the rules do not allow gods to appear."

"So, obediently become my nourishment!"

As Village Chief Wang's voice fell, dozens of vines wrapped towards Lin Tianhao at the same time.

Lin Tianhao pulled his attack speed to the maximum, and feather arrows poured out.

But his feather arrows were knocked away by his vines before they even touched Village Chief Wang.

Looking at the vines sweeping towards him, Lin Tianhao immediately retreated.

At the same time.

Lin Tianhao activated Heavenly Punishment again.

In the Heavenly Punishment state, Lin Tianhao's feather arrows were bound to hit.

- 1.3 billion!!

- 1.3 billion!!

...

One after another huge damage numbers appeared, but the damage appeared quickly, and Village Chief Wang recovered quickly.

Fortunately, Lin Tianhao fired thirty-six arrows per second, otherwise, it would not be as fast as Village Chief Wang's recovery speed.

In addition to this.

Village Chief Wang also had a skill of Withered Wood Spring.

In other words.

To kill Village Chief Wang, he could only rely on the cycle of death and reincarnation.

"Shield of Protection!!"

When Fatty saw the vines wrapping around Lin Tianhao, he slammed the heavy shield in his hand.

A huge shield of protection appeared in front of Lin Tianhao, blocking Village Chief Wang's vines.

Lin Tianhao no longer hid his clumsiness; the Book of Life and Death locked his head, and the arrow followed his heart and burst out directly.

In addition to the Three Heads and Six Arms.

Lin Tianhao could now fire forty-eight arrows per second.

With 1.3 billion damage per arrow, the second damage was as high as 62.4 billion!!

But Village Chief Wang's blood recovery speed was too fast, and he could not be killed in a short time.

Fatty's shield of protection was only blocked for less than a second before it was broken.

But Fatty did not back down.

"Brother Hao, I'll go up, you output."

Fatty's eyes were burning, and Village Chief Wang's output was very high.

Even Fatty's health bar could not withstand it at all.

"Don't worry."

Lin Tianhao's eyes narrowed slightly; between raising his hand, the undead army appeared.

Lin Tianhao had killed a lot of creatures in the past month.

Just here, the number of demons he killed was already very large.

Especially the Ten Thousand Tentacle Grudge Demon; although its strength was far inferior to Village Chief Wang, it was still no problem to simply drag Village Chief Wang down for a while.

"Snow Emperor, you are really difficult to deal with, but how can such crooked melons and cracked dates be able to stop me!!"

Chapter 617 - Demon Lord Greyfrund!

The words fell.

Village Chief Wang manipulated the vines to lash out at the Myriad Tentacle Abomination.

Each strike removed over 110 million health points from the Myriad Tentacle Abomination.

With so many tentacles, the Myriad Tentacle Abomination was killed in just a second.

"Xue Di, don't resist fruitlessly, your life belongs to me!"

Village Chief Wang was very pleased with himself.

He felt confident in his powerful strength.

“In this instance, you are no longer the lofty master of the Holy Land.”

“Without the help of the gods, you are just an ant, not worth mentioning!”

Faced with Village Chief Wang's mockery, Lin Tianhao remained unmoved, still outputting damage methodically.

“What? Trying to replicate the situation of defeating Xiudeli Baiyun, using your low-probability instant kill skill to kill me?”

“It's a pity, I'm not a fool like Xiudeli Baiyun.”

At this point.

Village Chief Wang's face instantly became extremely ferocious.

He roared.

“Nether Soul Domain!!”

A massive domain unfolded from Village Chief Wang, and this domain instantly enveloped Lin Tianhao.

Lin Tianhao's eyes narrowed slightly, and he directly activated Berserk and Frostwing.

He brought his movement speed to the extreme.

Lin Tianhao's Godslayer Mark obtained a Son of the Sky skill from the Blue Bear God.

This allowed Lin Tianhao to freely walk and run in the air.

Therefore, even without activating Frostwing, Lin Tianhao could still fly.

However, he still chose to activate Frostwing.

Village Chief Wang's deep voice came.

He knew that Lin Tianhao could enslave souls by killing living beings.

Not long ago, Lin Tianhao had killed Xiudeli Baiyun, so he could naturally summon Xiudeli Baiyun's undead to fight.

However.

Currently speaking.

Xiudeli Baiyun was his trump card.

Or rather.

Summoning Xiudeli Baiyun would be a bit of a dimensionality reduction attack.

People need to grow, they need to constantly experience some high-intensity battles.

During this time, although Lin Tianhao was constantly confronting the Holy Land, he had not experienced many truly high-intensity battles.

Moreover, there were still eight months until the Holy Land Master Tournament.

At that time, he would personally take the stage to compete with those Holy Land Masters.

At that time, he would not be able to rely on external forces.

Of course.

That's not absolute either.

The Undead God's undead enslavement was too perverted.

If he wanted to win, he could completely enslave a few relatively powerful undead, and then summon them on the arena, wouldn't victory be easy?

However, even if he really wanted to do that, Lin Tianhao would definitely try his best to improve his combat power.

Village Chief Wang's current form was very powerful.

But his drawbacks were also obvious, that was, his size was too big.

Lin Tianhao had no attack distance limit in the Heavenly Punishment state.

As long as Lin Tianhao's eyes or divine sense could see it, in the Heavenly Punishment state, his feathered arrows could hit it.

Even if the enemy was thousands of miles away, they would still be hit.

Village Chief Wang was so big now, even if Lin Tianhao opened the distance, he could still see Village Chief Wang.

With movement speed maxed out, Lin Tianhao tried his best to distance himself from Village Chief Wang.

“Absolute Weakness!”

Village Chief Wang's main body was a treant, but his movement speed was not slow.

Lin Tianhao used Absolute Weakness to slow down the treant, and while opening the distance, the feathered arrows in his hand were still pouring out.

“Nether Soul Curse!”

Seemingly knowing that Lin Tianhao was about to escape his attack range, Village Chief Wang did not dare to be negligent and attacked again.

A cloud of grayish-white mist flew towards Lin Tianhao at high speed.

At the moment of approaching, Lin Tianhao released the skill without hesitation.

“Wall of Wind!!”

Wall of Wind was a skill obtained from the Wind God through the Godslayer Mark, which could block all attacks from one direction.

Although the duration was only two seconds, it was still very powerful.

After releasing the Wall of Wind, Lin Tianhao successfully distanced himself from Village Chief Wang.

A large number of feathered arrows were pouring out towards Village Chief Wang.

“Xue Di, you are as troublesome as ever, but I said, you cannot leave here alive, you will definitely stay here.”

Lin Tianhao's eyes narrowed slightly, Village Chief Wang alone could not have such confidence.

So.

There must be other people here.

Who could it be?

The answer seemed to be obvious.

Demon King Grevlot!

Sure enough.

Village Chief Wang said:

“Lord Grevlot, Xue Di is too troublesome, let's attack together and suppress Xue Di!”

A deep voice exploded from the ground.

“I was originally planning to wait until you summoned the undead of Xiudeli Baiyun before I attacked.”

“Now that you don't summon it, there's no way, I can only personally suppress you.”

As the voice fell.

A figure stepped out.

His whole body was covered in dark red armor plates, his eyes were grayish-white, and the moment Lin Tianhao looked at his eyes, he actually had the illusion that his soul was about to rush out of his body.

Grevlot (King Rank): Level 10099.

Health Points: ???

Attack Power: ???

Skills: ???

Lin Tianhao's eyes narrowed slightly, Grevlot's level and rank were a bit terrifying.

“Xue Di, you killed my son back then, today we will settle both old and new scores.”

Grevlot raised his hand, and a crescent-shaped long knife appeared in his hand, and his aura suddenly rose.

Lin Tianhao's expression was solemn, he just glanced at Fatty's direction.

His movement speed was too slow.

At least compared to Village Chief Wang, his movement speed was too slow.

His current situation was the same as Monkey's, he was entangled by Village Chief Wang's vines, his soul power was being devoured by Village Chief Wang, and his whole person became listless.

In other words.

In today's battle, Lin Tianhao had to fight alone.

Moreover.

He could not lose.

Because looking at Village Chief Wang's current attitude, he had not thought about directly killing Monkey and Fatty.

He was planning to trap Monkey and Fatty.

If he lost this battle today, Monkey and Fatty would suffer.

Lin Tianhao took a deep breath.

Trying to make himself calmer.

The more dangerous the situation, the more calm he had to be.

If the trump card of Xiudeli Baiyun was used well, he still had a high probability of reversing the situation.

But if it was not used well, it might make Village Chief Wang stronger.

Because Village Chief Wang could devour souls to become stronger.

The strength of Xiudeli Baiyun's soul power was so strong that it would not be an exaggeration to say that she was the number one person below the gods in the vast continent.

Village Chief Wang had said before that he wanted him to summon Xiudeli Baiyun, it was estimated that he had long been eyeing Xiudeli Baiyun, this sweet pastry.

If he lost today.

And Village Chief Wang devoured Xiudeli Baiyun, then the result of this battle would not be too good.

But in the current situation, if Lin Tianhao did not summon Xiudeli Baiyun, he would have even less chance of winning.

Chapter 618 - Big and eye-catching!

"Xue Di, how about trying my blade!"

Greyflon's curved blade had just been raised when, in the next instant, it was already in front of Lin Tianhao.

The curved blade, shimmering with a cold light, slashed down at Lin Tianhao's head.

Lin Tianhao frowned, his body instinctively shifting to the side, the Asura Sword falling into his hand, blocking the curved blade.

"Clang--"

The enormous force made Lin Tianhao's arm go numb.

Greyflon's strength was too great.

The attack missed.

Greyflon did not stop attacking, the curved blade in his hand turning into afterimages, dozens of slashes coming down on Lin Tianhao in the space of a few breaths.

"Clang clang clang--"

Lin Tianhao's attack speed was also not slow, waving the Asura Sword to continuously defend.

But such passive defense was not a long-term solution.

Because Greyflon hadn't even exerted his full strength yet, he hadn't used a single skill, divine power, or domain, and he had already suppressed him.

"Demon Slayer Hand!"

The moment Greyflon's curved blade fell, he also released a skill.

A giant demon claw rose from beneath Lin Tianhao's feet, grabbing at Lin Tianhao.

Lin Tianhao did not panic, he had already deactivated the Heavenly Punishment state, and his attack speed was fast enough.

While blocking Greyflon head-on with the Asura Sword, his other two heads and four arms directly maxed out his attack speed.

A large number of feather arrows poured out, and in an instant, this demon claw had already been shattered by Lin Tianhao.

Any form of attack can be offset by the same, or similar, form of power.

Lin Tianhao was now using his own damage to offset the demon claw.

"Space Blink!"

Lin Tianhao immediately created distance, while also thinking about countermeasures.

Village Chief Wang kept forcing him to summon Schuderi · Bai Yun, and as the saying goes, something abnormal must be a demon.

If he summoned Schuderi · Bai Yun, and she ended up being absorbed by Village Chief Wang, then the loss would outweigh the gain.

Moreover.

Village Chief Wang can be resurrected, if Schuderi · Bai Yun is devoured by Village Chief Wang, then Village Chief Wang will be a big trouble in the future.

Nine-Headed Serpent Vine...

Lin Tianhao muttered to himself, he had encountered it before, the head of the Nine-Headed Serpent Vine was its weakness.

If he thought about it that way, could this also be Village Chief Wang's weakness?

It's just that now he's fighting two enemies alone, so it's not possible to put it into practice.

"I saw a super boss here from a long distance away, how could I possibly miss out?"

A man's voice came, followed by the appearance of array patterns under Village Chief Wang's feet.

An array quickly condensed.

When this array formed, ice cones rained down from the sky, landing on Village Chief Wang.

-85261!!

-85261!!

.....

As a range attack array for array masters, a single ice cone can deal more than 80,000 damage, which is quite remarkable.

Especially since.

The target he's attacking is a level 2000+, Diamond grade Village Chief Wang.

If it were an ordinary player, whether they could even break through the defense would be a question.

Lin Tianhao looked back, he had some impression of the newcomer's nickname.

I Really Have 20cm!

Lin Tianhao remembered that in his previous life, this guy named [I Really Have 20cm] only showed his face in the early stages, and then faded into obscurity, disappearing without a trace.

This life is indeed the same.

In his previous life, [I Really Have 20cm] was still on the level榜, but later this guy had no name.

But the damage dealt by his array just now is definitely not that of an ordinary person.

Or rather.

He should have been an ordinary person in his previous life, otherwise Lin Tianhao wouldn't have heard about him in the ten years of his previous life.

"Where did this little brat come from, I think you're tired of living!!"

Village Chief Wang snorted coldly, and dozens more vines wrapped out.

"Evil creature, cease your arrogance!!"

I Really Have 20cm shouted in a low voice, his hands forming seals at the same time, a Flame Array appearing in front of him.

The flames on this Flame Array were extremely hot.

Even though Lin Tianhao was still some distance away from the Flame Array, he could still feel the rolling heat waves.

"Nether Soul Domain, open!!"

Seeing that Lin Tianhao couldn't defeat him after a long time, Greyflon immediately unfolded his domain.

His domain was exactly the same as Village Chief Wang's domain, and Lin Tianhao didn't believe that there was no connection between them.

In this Nether Soul Domain, Lin Tianhao could clearly feel his soul power being drawn away.

Continuing to fight would put him at a great disadvantage.

"Ten Thousand Swords Return to Origin!!"

Just at this moment.

Another voice came.

In the void, countless flying swords flew towards this side, constantly bombarding the Nether Soul Domain.

"I didn't expect that there would be a day when I would actually fight alongside Xue Di."

A white-robed swordsman walked over unhurriedly, this was also someone Lin Tianhao had seen.

Back then, Jin Delan and others attacked Youyan Town, wanting to destroy Lin Tianhao's mission.

Lin Tianhao was blocked by someone and spent some time getting there.

At that time, it was this white-robed swordsman who took action and helped Lin Tianhao.

He didn't expect that this battle of his would actually attract so many experts.

To be precise.

It wasn't him who attracted these experts.

But Village Chief Wang's sky-covering body.

Not to mention the nearby players, even those tens of miles away could still see Village Chief Wang's body.

Anyone who was confident in their own strength would want to come and take a look when they saw the appearance of such a super boss.

The white-robed swordsman's flying swords contained a fierce sword intent.

Although it hasn't reached the level of the Law of the Sword, it's already very close.

Among a group of adventurers, there shouldn't be anyone who can compete with Lin Tianhao in Enlightenment.

After all, the Creation Jade Plate is too abnormal.

In addition, Lin Tianhao also has the Fairy Maiden Picture, Asking Heart Enlightenment, and a series of equipment and skills that help increase the speed of Enlightenment.

It's too difficult for ordinary players to surpass Lin Tianhao in Enlightenment.

This white-robed swordsman's current achievement in swordsmanship is already close to the Law.

This is already very awesome among players.

But compared to Lin Tianhao, it's still a bit lacking.

"The Sword Control Technique is not bad, but unfortunately, with such power, it's impossible to break through my domain."

Greyflon was very proud, he was very confident that the white-robed swordsman's flying swords could not break through his domain.

"If flying swords can't break through, then I wonder if my Qingxiao Sword can break through your domain!"

As soon as the words fell.

The white-robed swordsman's aura suddenly rose, and the Qingxiao Sword in his hand shimmered with a cold light.

In the next instant.

The white-robed swordsman gathered all his sword intent on this one sword.

"Sword Arise: Ten Directions Hell!!!"

Lin Tianhao was slightly surprised, this Ten Directions Hell was an extremely powerful sword art.

Chapter 619 - Return: Back to the battlefield!

Lin Tianhao knew this because the Ten Directions Hell was Jian Wushuang's signature divine ability in his previous life.

Even after Jian Wushuang possessed his own Sword Dao Domain, he still frequently used this divine ability.

The only question was:

To what extent had the white-robed swordsman cultivated this Sword Dao divine ability?

The improvement of a divine ability sometimes isn't as simple as just grinding for proficiency.

Lin Tianhao's lips curled up, and he used Origin Replication.

Lin Tianhao possessed a Sword Dao Seed, had the Shura Divine Sword in his hand, and now he had also obtained the Supreme Sword Heart.

With just a little effort, Lin Tianhao's achievements in Sword Dao would not be low.

The white-robed swordsman unleashed a sword strike.

Ten streams of sword energy slashed towards Gray Voron.

However.

When these sharp sword energies came into contact with Gray Voron's Underworld Soul Domain, they were all blocked.

The white-robed swordsman was slightly stunned, "So powerful."

Gray Voron sneered, "Boy, if your sword strike were to hit the domain of some trash seventh-rank professional, perhaps it could barely break through their domain."

"But your opponent is me, Demon King Gray Voron! Your attack is not worth mentioning!!"

Demon King Gray Voron indeed had the capital to be arrogant, after all, at this stage.

In a one-on-one situation, no adventurer could contend with him.

Lin Tianhao was the same.

In fact, when the white-robed swordsman unleashed the Ten Directions Hell, Lin Tianhao knew it was hopeless.

Because the Ten Directions Hell unleashed by Jian Wushuang in his previous life would truly manifest the phantoms of hell.

Ten directions, ten different hell phantoms.

That was the true form of the Ten Directions Hell, and in terms of power, if Jian Wushuang from his previous life were to use it.

Without relying on the power of the domain, just relying on the Ten Directions Hell alone, he could break through Gray Voron's Underworld Soul Domain.

Lin Tianhao, who was currently in the domain, did not dare to be negligent in the slightest, pushing his speed to the extreme, preparing to escape from Gray Voron's domain.

But how could Gray Voron easily allow Lin Tianhao to escape his domain?

Waves of energy swept towards Lin Tianhao, pulling Lin Tianhao back to his side.

Within the domain.

Lin Tianhao's soul power was constantly being devoured.

After the soul power weakened, Lin Tianhao's spirit began to decline, and if this continued, he might end up like Monkey and the others.

Moreover.

At this time, Gray Voron could clearly use the power of the domain to kill him.

But he didn't do that.

Lin Tianhao knew that Gray Voron and Village Chief Wang wanted to completely trap him, not giving him a chance to revive.

"Originally, I just wanted to join in the fun, but I didn't expect that it was the Snow Emperor leading the team, so I definitely have to take action."

As soon as he finished speaking.

A huge fist smashed down, heavily hitting the Underworld Soul Domain.

"Come, let us have a good fight!"

This person was a fighter, he was strong, his whole body was muscles, and he looked full of power.

But his attack, not to mention breaking the Underworld Soul Domain, couldn't even shake it by a fraction.

"Is this the Snow Emperor's opponent? As expected, terrifying beyond compare!!"

The fighter's expression was a bit solemn, "Since I can't help, then I'll leave first."

"Leave my ass, it's rare to encounter such a strong opponent, let's go together."

A female fighter appeared, their names were also very similar.

The male fighter was 【Bear Da Loves Bear Er】 .

The female fighter was I am 【I am Bald Qiang】 .

After I am Bald Qiang came, she forcibly dragged Bear Da Loves Bear Er up.

"Ninefold Force: Meteor Fist!"

Bear Da Loves Bear Er and I am Bald Qiang used the exact same skill.

No...

This seemed to be a divine ability.

At this stage, many high-level players had obtained one or two divine abilities.

This was not surprising.

But although divine abilities were powerful, it was still unrealistic to want to break through Gray Voron's Underworld Soul Domain.

"Invincible Golden Body!!"

Within the domain.

Lin Tianhao couldn't hold on any longer and directly activated the Invincible Golden Body.

After activating the Invincible Golden Body, Lin Tianhao once again pushed his speed to the extreme, wanting to escape Gray Voron's Underworld Soul Domain in the shortest amount of time.

But he failed this time as well.

The Invincible Golden Body had now been upgraded to four stars by Lin Tianhao.

The first three stars were upgraded by Lin Tianhao himself by increasing other proficiencies.

The fourth star was upgraded after Lin Tianhao obtained the grade +1.

A four-star Invincible Golden Body could last for two seconds.

Two seconds of invincibility, if used well, was still very powerful.

But the gap between him and Gray Voron was too great.

Gray Voron followed Lin Tianhao almost like a shadow, not giving Lin Tianhao a chance to escape his domain.

"Snow Emperor, don't put up a futile resistance, you can't be my opponent."

Gray Voron sneered repeatedly, with two seconds of invincibility, Lin Tianhao couldn't escape, but he still used Arrow from the Heart, firing twelve feathered arrows.

The reason why only Arrow from the Heart was attacking was because Gray Voron had been using his domain to suppress Lin Tianhao, not giving Lin Tianhao a chance to attack.

At this time.

One could once again see the power of Arrow from the Heart.

As long as the mind could still move, one could keep attacking.

"Gray Voron, aren't you just trying to trap me? I'm going to tell you, trapping me, you're not good enough!!"

As soon as the voice fell.

Lin Tianhao used the Return skill.

In the next moment.

Lin Tianhao escaped Gray Voron's domain and returned to the Mortal Palace.

After coming back.

Lin Tianhao sacrificed the Kunlun Mirror, took a step, and directly came to the border of the Xitu Empire.

"I am the Snow Emperor, who wants to team up?"

Lin Tianhao knew that time was tight and didn't want to waste time.

He randomly pulled a few people into the team.

After the team was formed, Lin Tianhao directly entered the dungeon.

After that.

Lin Tianhao used the Kunlun Mirror again to come outside of Kant City.

At this time, the battle was still continuing here.

In the short time since Lin Tianhao left, more people had joined the battle.

The people who joined the battle this time were from the Shura Guild.

Their elite team, led by Shura Emperor, launched a crazy attack on Village Chief Wang.

Lin Tianhao's lips curled up, and he stayed in a relatively distant place.

In this place, he activated his Fiery Eyes, barely able to see Village Chief Wang's tall figure.

If one had to say the distance, it was two hundred miles away!!

At this distance, as long as he controlled the timing, he could completely use the Kunlun Mirror to constantly adjust his position.

Although the Xitu Empire had become a dungeon, it still did not affect the use of the Kunlun Mirror.

The reason why Lin Tianhao could not directly enter the Xitu Empire from the Mortal Palace was still because of the limitation of the number of team members.

After staying at this safe distance, Lin Tianhao activated Heavenly Punishment, directly maxing out his attack speed.

Forty-eight arrows per second, two hundred miles away, by the time the first batch of feathered arrows hit Village Chief Wang, at least a minute had passed.

Chapter 620 - The padlock two hundred miles away!

Even calculating at the lowest rate of sixty seconds, by the time Lin Tianhao's first batch of arrows hit Village Chief Wang, Lin Tianhao had already shot out over two thousand eight hundred and eighty arrows.

With luck, these two thousand eight hundred and eighty arrows might trigger the Cycle of Death.

Moreover.

Even if the Cycle of Death isn't triggered, these two thousand plus arrows can still trigger 'Rejuvenation' on Village Chief Wang.

This would greatly reduce the pressure on Lin Tianhao when dealing with Village Chief Wang.

Putting aside other things, he definitely had to kill Village Chief Wang and rescue Monkey and Fatty.

However.

He still had to thank Village Chief Wang for his massive size; otherwise, not to mention two hundred miles away, even ten miles away, it wouldn't be easy for Lin Tianhao to attack a target unit with arrows.

“Swish, swish, swish—”

Arrows constantly pierced through the air.

Lin Tianhao wasn't flustered; he had three chances to return in a day.

Even if he didn't kill Village Chief Wang this time, he could return once more.

Calculating the time, Lin Tianhao stopped at fifty-five seconds.

It wasn't that he was being soft-hearted and wanted to let Village Chief Wang go.

It would be less likely for Grefu Longte to find him.

However.

This time was much smoother than Lin Tianhao had expected.

When about one thousand nine hundred arrows hit, the Cycle of Death was triggered.

Village Chief Wang was directly taken away by Lin Tianhao.

“Ding, because you have not yet changed your job class, you cannot continue to gain experience points. Please change your job class as soon as possible.”

“Ding, you have killed Village Chief Wang, reward: Free Attribute Points +1000.”

Lin Tianhao's eyes lit up.

He was actually rewarded with a thousand free attribute points.

Because Village Chief Wang had been killed by Lin Tianhao before, this wasn't a first kill.

But directly giving a reward of a thousand free attribute points still surprised Lin Tianhao somewhat.

After all.

He hadn't even looted the corpse yet.

Kanter Dungeon!

The players who were originally fighting fiercely were dumbfounded.

Even Demon King Grefu Longte was dumbfounded.

Where's my Village Chief Wang?

Where's my Village Chief Wang who was so big?

How could he just fall like that?

Grefu Longte really wanted to shout: How can we play with cheats like this!!

As for the group of players, they were all like they had seen a ghost.

"I've long heard that Snow Emperor is ridiculously strong, and now that I've seen it, he's indeed excessively strong."

"Our set of attacks just now couldn't even break Village Chief Wang's domain, but Snow Emperor killed him so casually."

"Don't just stand there, there's still a big guy here."

.....

A group of players began to besiege Grefu Longte.

Grefu Longte had now lost his playful attitude.

He directly and fully activated his domain, sweeping across the area.

As a powerful Demon King, although these players were all very strong, in his hands, they were like chickens and dogs, and were quickly killed.

“Run away!!”

Seeing that the situation was bad, everyone ran away directly.

Grefu Longte didn't chase after the fleeing people.

He directly landed beside the listless Fatty and Monkey.

“You two are both Snow Emperor's teammates. I believe Snow Emperor will definitely appear if you are in my hands.”

Lin Tianhao knew.

Village Chief Wang would have a resurrection time.

But this resurrection definitely wouldn't be particularly long.

Therefore.

He didn't have much time.

“Shudeli Baiyun!!”

Lin Tianhao directly summoned Shudeli Baiyun.

When Village Chief Wang was around, he was worried that Shudeli Baiyun would be devoured by Village Chief Wang.

But now that Village Chief Wang had entered resurrection, Lin Tianhao directly used this trump card, Shudeli Baiyun.

The worst outcome would be that Shudeli Baiyun was devoured by Demon King Grefu Longte.

But Demon King Grefu Longte wouldn't resurrect. Even if he devoured Shudeli Baiyun, he wouldn't be a long-term trouble for Lin Tianhao.

As long as he found an opportunity to kill Grefu Longte once, the problem could be easily solved.

With a step.

Lin Tianhao brought Shudeli Baiyun and appeared in front of Grefu Longte.

“Snow Emperor, I really underestimated you. Your methods are truly endless.”

Grefu Longte looked at Lin Tianhao with a gloomy face.

Just now when Lin Tianhao killed Village Chief Wang, he had already tried to help Village Chief Wang.

He even prepared to lock onto Lin Tianhao's position.

But before he could find Lin Tianhao's location, Village Chief Wang had already been killed.

“I have many methods, there are many things you don't know.”

Lin Tianhao smiled slightly and gave Shudeli Baiyun an order.

Shudeli Baiyun instantly unfolded his domain and rushed towards Grefu Longte.

Grefu Longte snorted coldly, "Snow Emperor, you're ruthless. We will meet again."

As he spoke.

Grefu Longte's figure turned into spots of light and slowly disappeared.

When he saw Lin Tianhao directly summon Shudeli Baiyun, he knew that he had no chance in this game today.

Even without considering Lin Tianhao's existence.

In a one-on-one fight, he was no match for Shudeli Baiyun.

Therefore.

Grefu Longte chose to run away directly.

If the Xitu Empire sub-copy wasn't cleared, it would be impossible for Lin Tianhao to completely revive the Shanhai Empire.

As long as Lin Tianhao still wanted to revive the Shanhai Empire, he would definitely find a way to conquer this place.

Therefore.

He could completely wait for Village Chief Wang to resurrect, and then join forces with Village Chief Wang to attack Lin Tianhao.

Lin Tianhao frowned.

This Grefu Longte chose to run away when he saw Shudeli Baiyun.

Could it be that his previous guess was wrong?

Or perhaps the guess was correct, but Grefu Longte wanted to send Shudeli Baiyun to Village Chief Wang to devour.

After all, from the perspective of maximizing benefits, letting the resurrectable Village Chief Wang devour Shudeli Baiyun would obviously have the greatest return.

Retracting his thoughts.

Lin Tianhao stepped forward and came to Fatty and Monkey's side.

Without being continuously devoured of their soul power, both of them began to recover.

This was the benefit before the Great Cataclysm arrived.

If it was after the Great Cataclysm, to recover from this kind of devoured soul power, they would only be able to find some drugs or natural treasures that could restore soul power to recover.

However, this kind of autonomous recovery was very slow. Lin Tianhao directly took them away from the Xitu Empire and went to the nearby resurrection altar.

In the resurrection altar, Fatty and Monkey were both recovering quickly.

“Brother Hao, is that Village Chief Wang? That Village Chief Wang from the novice village? He's too terrifying now!!”

Monkey was still a little scared, after all, he never dreamed that Village Chief Wang would become so terrifying.

Lin Tianhao smiled helplessly and said:

“To be honest, when I saw Village Chief Wang, I was also taken aback. How weak he was in the Star Kingdom back then, but now he has reached such a height.”
