

O game 62

Chapter 62 A peak collision across thirty levels!

Although Lin Tianhao had the Purification Jade Pendant, he was still suspended in mid-air after being launched by the nineteen bronze guards.

“Silver Moon: Exploding Dragon Pierces the Heart!”

The Silver Commander's figure sank, and his whole body began to gather strength.

A ball of light also gathered on his spear.

“Swish!”

The Silver Commander transformed into a stream of light, arriving in front of Lin Tianhao in an instant.

Lin Tianhao, in mid-air, used all his strength to spin his body in a circle, avoiding his weak points.

“Bang, bang, bang!”

Three consecutive explosions occurred, and three pieces of Lin Tianhao's Hydra Suit were blown apart by this spear.

Level 10 bronze equipment was still not enough against a level 50 silver boss's ultimate move.

-156695!

A huge damage number emerged from above Lin Tianhao's head.

Adding the health points knocked off by the nineteen bronze guards, Lin Tianhao's current health was less than half.

“Fire Spear Nine-Strike Combo!”

The Silver Commander frantically stabbed Lin Tianhao with the spear in his hand, wanting to take advantage of this launch control to kill Lin Tianhao in one go.

Lin Tianhao saw the Silver Commander's intention, how could he let the Silver Commander have his way?

When the eleventh bronze guard wanted to launch him, he smashed the Hydra Shield in his hand, using the recoil force to exert force on his waist, completing a backflip.

He quickly switched his main weapon to the Nine Union Longbow and fired five arrows simultaneously.

After landing, Lin Tianhao immediately opened the distance, but the Silver Commander's Fire Spear Nine-Strike Combo had already arrived.

He switched his main weapon again, blocking it in front of him.

-51982.

-52350.

-51956.

.....

“Bang!”

Before Lin Tianhao could block all of the Fire Spear Nine-Strike Combo, the shield in his hand shattered.

Withered Tree Springs to Life was triggered.

Lin Tianhao's health quickly recovered to forty percent, raising it to half health.

At the same time.

Lin Tianhao took out the Nine Union Longbow again, firing five arrows simultaneously like crazy.

In less than a second.

His health was raised to full value again.

The Silver Commander was a little annoyed, Lin Tianhao's damage and health recovery were too terrifying.

But how would he know.

Lin Tianhao also breathed a sigh of relief.

If it wasn't for Withered Tree Springs to Life.

He would never have been able to withstand the last few attacks of the Fire Spear Nine-Strike Combo.

Moreover.

It was also thanks to his quick reaction speed that he immediately attacked to leech health, otherwise, he would have already died under the Fire Spear Nine-Strike Combo.

“You guys retreat, don't give him a chance to leech health.”

The Silver Commander saw the problem.

These people under him were really more of a hindrance than a help in front of Lin Tianhao, completely becoming Lin Tianhao's tools for leeching health.

The nineteen bronze guards immediately retreated, giving up the arena, letting Lin Tianhao and the Silver Commander have a 1v1 real battle.

Lin Tianhao narrowed his eyes slightly.

Without those bronze guards to leech health from, and with the Withered Tree Springs to Life and Invincible Golden Body skills still on cooldown, he would be very passive if he faced the Silver Commander head-on.

“Your subordinates can run, but these Blood-Backed Black Tortoises won't.”

Lin Tianhao pulled away to the side.

He knew that the Silver Commander could knock away his feather arrows, so even attacking would be ineffective.

It was better to pull the distance and attack these Blood-Backed Black Tortoises, letting the effects of the Book of Life and Death consume the Silver Commander's health bar.

The Silver Commander saw Lin Tianhao's intention, and his eyes became even more sinister.

“I'd like to see how much these Blood-Backed Black Tortoises can help you recover.”

As soon as he finished speaking.

A cold light flashed in the Silver Commander's eyes, and he charged towards Lin Tianhao again.

Lin Tianhao fought and retreated, each attack from the Silver Commander could knock off tens of thousands of his health points.

Ultimate moves could even knock off hundreds of thousands of his health points.

But Lin Tianhao fired five arrows simultaneously to attack these Blood-Backed Black Tortoises, restoring his health to full value.

After finishing off the ordinary Blood-Backed Black Tortoises, he attacked the elite-level ones, and after finishing off the elite-level ones, he attacked the black iron-level Blood-Eyed Black Tortoises.

He could leech health and continuously stack health points.

As long as Lin Tianhao dragged it out, the Silver Commander would continue to lose health.

Losing more than 10,000 health points per second, even if the Silver Commander had a certain passive health recovery ability, it still seemed like a drop in the bucket at this time.

“Shameless brat, have the guts to fight me head-on!!”

After Lin Tianhao solved the last Blood-Eyed Black Tortoise, the corners of his mouth turned up slightly.

“Alright, you want a head-on battle, then I will fulfill your wish.”

As soon as he finished speaking.

Lin Tianhao unleashed the String-Twisting Arrow Technique.

In addition to its powerful impact, the String-Twisting Arrow Technique also had a crucial ability, which was to turn and attack the opponent in an arc.

Even the Silver Commander wouldn't dare say that he could block all of the turning arrows.

But if it was just like this, it wouldn't be enough to alleviate Lin Tianhao's urgent needs.

After unleashing the String-Twisting Arrow Technique, Lin Tianhao immediately connected with Five Arrows Simultaneously.

The targets of these Five Arrows Simultaneously were all the Silver Commander alone.

And the targets were the Silver Commander's limbs and head.

The scattered attacks, coupled with the connected String-Twisting Arrow Technique, made this level 50 Silver Commander a little overwhelmed.

“Raging Fire Spear Technique.”

The Silver Commander charged again, and the spear collided with Lin Tianhao's body.

“Berserk!”

Lin Tianhao narrowed his eyes slightly.

He wanted to end the battle quickly.

-85925.

-85699.

.....

High damage appeared, and Lin Tianhao only felt his scalp tingle.

In the Berserk state, two attacks knocked off 170,000 health points.

Lin Tianhao unleashed the String-Twisting Arrow Technique, and the powerful impact shook the Silver Commander back. He then pulled the distance again, fighting and retreating.

To win, he had to stall.

“Overlord Body!”

The Silver Commander roared again, directly activating Overlord Body, negating the knockback effect of Lin Tianhao's String-Twisting Arrow Technique.

Lin Tianhao immediately took eight bottles of potions of different colors, raising all his attributes by a notch.

Lin Tianhao also used the equipment dropped by the level 20 Green Poison Spider King to replace the Hydra equipment that had been blown apart.

Being able to increase one attribute was one attribute.

Continuously kiting.

The Silver Commander's attack landed again.

Lin Tianhao was still using Five Arrows Simultaneously. The damage to the Breezy Set affected Lin Tianhao's attack speed.

Now, Lin Tianhao's attack speed had fallen to 5.63.

With such an attack speed, even with Five Arrows Simultaneously, coupled with the leeching from the Nine Union Longbow and Bloodthirsty Necklace, as well as the leeching bonus from the potions.

The amount of health that could be recovered per second could still be maintained at over 200,000.

But facing the berserk Silver Commander, Lin Tianhao could only barely parry.

However.

Lin Tianhao was not flustered at all.

The Silver Commander had already lost his mind, and his thinking ability had declined.

While he wanted to kill Lin Tianhao, he ignored a very serious problem.

That was, the speed at which his health bar was decreasing was very terrifying!

He was attacking with all his might, without defending.

Lin Tianhao could deal as much as 120,000 damage per second.

Adding the damage from the Book of Life and Death, Lin Tianhao could knock off more than 130,000 of the Silver Commander's health points per second.

After pulling all the way here, the Silver Commander had now lost more than a million health points.

As a level 50 silver boss, although his health bar was as high as more than 8 million, he couldn't withstand Lin Tianhao's terrifying output.

If he couldn't kill Lin Tianhao in the Berserk state, then what awaited him would inevitably be destruction!

“Silver Moon: Raging Flame Cloud-Piercing Strike!”

The Silver Commander leaped up, flames burning around him.

He was going to fight desperately.

If Lin Tianhao could withstand this strike, his Berserk state would end. Similarly, it would also mean the end of today's battle.

But the ultimate move in the Berserk state, coupled with the 30-level difference, it was definitely not a problem to kill Lin Tianhao's 400,000+ health points in an instant.

Unless... Lin Tianhao could weaken this attack, or... trigger a Cycle of Death, killing him instantly!
