

## O game 621

Chapter 621 - Attack Ice and Fire Los Island!

The fatty looked serious and said solemnly: "Brother Hao, what should we do? It seems that conquering the Xitu Empire will be very difficult."

Lin Tianhao pondered for a moment. Within the Xitu Empire, gods are unable to intervene.

This was bad news!

After all, Lin Tianhao had many gods at his disposal at this stage. Allowing gods to participate in battle would maximize his efficiency.

However.

Obviously not possible.

Therefore.

The current Xitu Empire would be a place for Lin Tianhao to hone himself.

Lin Tianhao even suspected that the Source God of Dao had deliberately set up this situation.

The purpose was to prevent him from using gods and to force him to achieve victory through his own combat methods.

"Fatty, don't overthink it. We'll deal with whatever comes our way."

"Didn't I kill Village Chief Wang this time? When he revives, I'll kill him again."

The monkey spread his hands, "Brother Hao, killing Village Chief Wang doesn't help much. We can all see that to break the situation, we can only kill the Demon King, Grevolongte."

"He won't revive. As long as he dies, Village Chief Wang won't be a threat, at least you won't have to fear him."

Lin Tianhao nodded. It was undeniable that the monkey's judgment was correct.

Due to Village Chief Wang's size, Lin Tianhao could attack him from a distance as long as he made a move.

The combination of Fiery Eyes and Heavenly Punishment could only be described as outrageous.

However, Lin Tianhao still felt that it would be even better if he had Eyes of a Thousand Miles.

If he had Eyes of a Thousand Miles and combined them with Heavenly Punishment, who could stop him?

But for now, he could only think about it.

There were definitely more than just Grevolongte and Village Chief Wang sitting in the Xitu Empire dungeon.

There were likely other experts as well.

Conquering the Xitu Empire required long-term planning.

As for the method.

Lin Tianhao already had ideas in mind.

His weakness was the domain. Since he had this weakness, he would make up for it.

The only way for Lin Tianhao to possess his own domain in a short period of time was to start with the Sword Dao.

Lin Tianhao now had the Supreme Sword Heart and Sword Dao Seed, plus the Jade Butterfly of Creation and the Fairy Picture. It was by no means difficult for Lin Tianhao to take another step and comprehend the Sword Dao Domain.

However.

Even if Lin Tianhao comprehended the Sword Dao Domain, it would be the most basic level, making it difficult to break Lin Tianhao's current stalemate.

Therefore.

What Lin Tianhao wanted was not just to have a domain, but to have a group of teammates with domains, or... undead servants.

Teammates were out of the question.

At this stage, most players had not even started comprehending the Dao, and those who had started had low levels of comprehension.

As for comprehending the domain.

Among the billions of players worldwide, Lin Tianhao wouldn't say there weren't any, but the number was definitely very, very small.

Currently, looking at the vast Vast Continent, there were no domain experts worth Lin Tianhao's action to kill.

After all, apart from the Xitu Empire, the current Vast Continent was under Lin Tianhao's control.

To kill relatively strong domain experts, two places were Lin Tianhao's first choice.

One was the Scarlet Flower Sand Palace!

Regardless of the reason, it was an undeniable fact that the Scarlet Flower Sand Palace had defected to the Joyful God Society.

Therefore.

The Scarlet Flower Sand Palace must be eradicated.

Secondly.

It was Icefire Los Island.

When Lin Tianhao had just taken charge of the Mortal Palace, the people of Icefire Los Island had caused no shortage of trouble.

Now that Lin Tianhao had risen, it wouldn't be a problem to settle accounts after the autumn, right?!

Regardless of whether it was the Scarlet Flower Sand Palace or Icefire Los Island.

As long as Lin Tianhao could pacify one, coupled with Xiudeli Baiyun, there wouldn't be many who could compete with him in the Xitu Empire.

After all, after entering the Xitu Empire, he could also hunt down the experts of the Xitu Empire to expand his undead army.

No sooner said than done.

Lin Tianhao only pondered slightly before locking onto his target between Icefire Los Island and the Scarlet Flower Sand Palace.

Icefire Los Island!

One was because Icefire Los Island was at sea, and the Sea Imprisoning Death Maiden could help in battle.

The second reason was because the Scarlet Flower Sand Palace was backed by the Joyful God Society.

It wouldn't be easy to take down the Scarlet Flower Sand Palace in a short period of time.

Therefore.

Attacking Icefire Los Island was the wisest decision.

With a decision made, Lin Tianhao directly issued tasks to Fatty and Monkey, asking them to follow him to attack Icefire Los Island.

Although with their strength, they would likely just be spectators in front of the Holy Land, as long as they contributed, they could get some free attribute points as a reward.

If they could kill some fifth or sixth-level professionals, they would get even more rewards.

After all, they were his brothers, and it wouldn't be a problem to give them some preferential treatment.

Although Lin Tianhao was still on the task of helping the Moon Wheel Empire reclaim islands, the more this task progressed, the fewer free attribute points would be issued.

After all, reclamation was easy in the early stages, but later on, not to mention reclamation, it would be a problem to even find islands that needed to be reclaimed.

Plus, due to Lin Tianhao being trapped in the Heaven and Earth Imprisonment Formation, he hadn't issued any new tasks this month.

If he didn't come up with some bounty tasks, he would have a large reward budget stuck in his hands this month.

Using the Kunlun Mirror, Lin Tianhao directly arrived outside Icefire Los Island.

Some time ago, Lin Tianhao had asked Poseidon, the Sea God, and the Sea Imprisoning Death Maiden to harass Icefire Los Island.

Now that Lin Tianhao had descended here again, it was no longer just for harassment.

"Attack!!"

Lin Tianhao didn't hide anything.

Summoning Xiudeli Baiyun, he directly charged in.

Because they had been harassed recently, two gods had awakened from their slumber on Icefire Los Island to deal with this harassment.

"Here they come again!"

On Icefire Los Island.

A god whose whole body was wrapped in flames suddenly opened his eyes.

He had already noticed when the Moteng Ghost Ship approached Icefire Los Island.

Not far from him, there was also a red-robed god.

The red-robed god stood up directly, his gaze cold.

"Hmph, a Moteng Ghost Ship has repeatedly harassed our Icefire Los Island. Even if our Icefire Los Island is weak in the Holy Land, it is not something that a small Moteng Ghost Ship can bully."

With that said.

The two gods soared into the sky and rushed towards the Moteng Ghost Ship.

"Two gods right off the bat?"

The corners of Lin Tianhao's mouth rose, and a faint smile appeared on his face.

"Good."

"Poseidon, God of the Undead, go!"

Poseidon, the Sea God, and the God of the Undead did not hesitate and directly attacked.

"Xiudeli Baiyun?!"

"Poseidon, the Sea God?!"

"And... the God of the Undead!!"

The red-robed god looked at the suddenly appearing undead god with a face full of astonishment.

After a brief moment of astonishment, the red-robed god's expression became extremely sinister.

"I was wondering why this Moteng Ghost Ship would come to harass our Icefire Los Island for no reason. I didn't expect it to be the Snow Emperor's doing!!"

Chapter 622 - Hidden entries in the Investiture of the Gods!

Lin Tianhao smiled slightly and walked out of the Demon Nightmare Ghost Ship.

"If your gods don't interfere, I can leave a spark of life for Icefire Los Island."

Lin Tianhao's tone was calm, Icefire Los Island was already the weakest among the major holy lands.

With Lin Tianhao's current strength, it would be far from difficult to level Icefire Los Island.

The red-robed god sneered and said:

"Snow Emperor, I am a god, not some mere cat or dog. You say this as if you are pitying me."

"I want to tell you, gods do not need your pity!!"

As soon as the words fell.

The red-robed god immediately charged towards Lin Tianhao.

Lin Tianhao's expression was indifferent, he had fully expected the red-robed god to attack.

It was unlikely that a god would yield just because of his few words.

Moreover.

Lin Tianhao was not talking about sealing them away, but about leaving them a spark of life.

“You want to enslave the experts of our Icefire Los Island to help you attack the Xitu Empire?”

“Snow Emperor, you are going too far!!”

As the red-robed god's voice fell, thunderclouds had already begun to gather in the sky.

Obviously.

With this attack.

The red-robed god had already used his full strength.

“Today, I must tell you that some gods are not afraid of death!!”

“Others want to preserve their godhood and wait for resurrection after endless years, but I don't even want my godhood!!”

Lin Tianhao also felt a crisis sweeping over him, he wanted to recall Xiudeli Baiyun.

But it was already too late.

“Boom—”

The red-robed god's body exploded instantly, this was not only an explosion of his own power, but also an explosion of his godhood.

Gods.

As long as the godhood still exists, even if they are killed, there is a possibility of resurrection after endless years.

Just like the Ice and Snow Goddess, she was once killed by the previous Master of the Mortal Palace.

But in that instance, she had already given birth to a remnant soul again.

As long as there is enough time, it is not impossible for her to be reborn and return.

Therefore.

Many gods are unwilling to detonate their godhood even if they are killed.

Because after detonating the godhood, it is really completely over, and there will never be a chance to resurrect again.

The power of a god detonating their godhood is enormous.

Even though Xiudeli Baiyun had already deployed her domain and the blood-colored light shield to resist, she was still blown away.

Although she was not directly killed, Xiudeli Baiyun's soul body visibly faded a lot.

This directly damaged Xiudeli Baiyun's soul origin, and it will be very, very difficult to recover.

The originally powerful Xiudeli Baiyun's strength has now plummeted.

Not only Xiudeli Baiyun, but the Demon Nightmare Ghost Ship on the sea surface was already somewhat dilapidated.

Under this explosion, there were hundreds and thousands of large and small holes.

At this time, the Demon Nightmare Ghost Ship was swaying on the sea surface, and it seemed that it might be destroyed here at any time.

“Ding, congratulations, you have killed the Wrath Red God, a server-wide announcement is about to be made, do you want to hide your name?”

“No!”

“Server-wide announcement, congratulations to player Snow Emperor for successfully killing the Wrath Red God, hereby announce, hoping that all players will continue to work hard!!”

.....

The voice of the server-wide announcement sounded continuously, and many players were used to it, after all, compared to Lin Tianhao's previous server-wide announcement of killing twelve gods in a row.

Now Lin Tianhao's server-wide announcement of killing a god seems a bit insignificant.

Only a few people would still sigh: Cheater, inhuman!!

However.

The players didn't care too much, but many holy lands were already dumbfounded.

Because the Wrath Red God is from Icefire Los Island, this is not a secret.

Lin Tianhao's killing of the Wrath Red God is enough to show that Lin Tianhao is taking action against Icefire Los Island.

Paying the piper!!

This was the first thought that arose in the minds of many gods.

After all, Icefire Los Island had bullied Lin Tianhao and the Mortal Palace a lot before.

Lin Tianhao didn't know what the outside world's reaction was.

He is now directly dumbfounded.

"Is there a bug?"

Lin Tianhao was full of question marks, because he discovered a very serious problem.

That is, he cannot send the Wrath Red God to the God Conferring List.

Just when he felt the Wrath Red God preparing to self-destruct, Lin Tianhao also took action.

It was to wait for the Wrath Red God to self-destruct and die, so that he could send the Wrath Red God to the God Conferring List.

But now the Wrath Red God has self-destructed and died.

The killer judged by Twilight of the Gods is indeed him.

But why can't he send the Wrath Red God to the God Conferring List.

If it were other games, Lin Tianhao's first reaction would definitely be that there was a bug.

But this is Twilight of the Gods!!

How could this kind of bug appear!!

This is a bit too outrageous.

Immediately afterwards.

Lin Tianhao realized that it might be a hidden term.

Some equipment and skills will have some hidden terms.

For example, if a skill is raised to a few stars, there will be changes.

For example, learning certain two skills at the same time will form a combo skill, etc.

These things are generally not expressed in the terms, and this problem can only be discovered after practice.

Does this God Conferring List also have hidden terms?

And the hidden term is that gods who self-detonate their godhood cannot be on the God Conferring List?

If so, then this will become a huge BUG!!

Or rather, it is a huge drawback!!

It is still the game stage now, when gods die, godhoods usually do not drop.

But if it is after the Great Cataclysm, if gods fall, godhoods will drop.

After the Great Cataclysm, people who become gods through godhood will appear one after another.

There are many ways to become a god, and becoming a god through godhood is the simplest.

As long as you get a godhood and continuously fuse and absorb the power of the godhood, you can become a god in a logical way.

But.

Becoming a god through godhood also has a big drawback, that is, it is basically impossible to surpass the original owner of the godhood.

Achievement is limited!!

However, for most people, being able to become a god is already amazing, so why would they care about the achievement limit?

Therefore.

After the Great Cataclysm, because godhoods will drop when gods die, most gods will choose to self-destruct if they find that they are about to die.

Gods are theoretically immortal, and the situation of being about to die almost 100% occurs in battle.

Since they are already going to die, not self-destructing their godhood is someone else's trophy.

Therefore.

Gods will almost always choose to self-destruct.

In other words.

After the Great Cataclysm arrives, it will become extremely difficult for Lin Tianhao's God Conferring List to enslave gods.

Therefore.

If you want to maximize the benefits of the God Conferring List, you need to send gods to all the empty seats on the God Conferring List before the Great Cataclysm arrives!!

Chapter 623 - The gods return to fight against powerful enemies together!

Pulling back his thoughts.

Lin Tianhao's gaze landed on the remaining god of Icefire Los Island.

The self-destruction of the Crimson Wrath God severely injured Xiudeli Baiyun and the Devil Vine Ghost Ship, and he was directly blasted back to the resurrection point.

Although Fatty and Monkey were on the Devil Vine Ghost Ship, the aftermath still directly sent them back to the spring.

"What about you? Do you also want to imitate the Crimson Wrath God?"

Lin Tianhao's voice carried a hint of coldness, and the killing intent on his body became even stronger.

"Snow Emperor, I won't self-destruct. We Icefire Los Island choose to seal ourselves."

Lin Tianhao frowned slightly when he heard the Flame God say that they were going to seal themselves.

This choice of sealing was somewhat unsolvable.

Unless he really wanted to take action directly, at the cost of attracting strong people from the God Realm.

Just as Lin Tianhao was thinking about what to do, a calm voice came.

"Senior Candle Flame, Senior Crimson Wrath chose to self-destruct to deter the Snow Emperor, which has already made his attitude clear. We Icefire Los Island will not seal ourselves."

The person who came out was none other than Losi Jingkong.

"Snow Emperor, I know what you're thinking, and the other holy lands also know what you're thinking."

"If you want to move against us, we Icefire Los Island will fight you to the death, and in the end, only the Joyful God Society and the demons will reap the benefits."

Lin Tianhao looked at Losi Jingkong coldly and said calmly:

"If you think that way, then you're wrong. It's not difficult for me to deal with you."

Losi Jingkong shook his head and smiled:

"Is that so?"

"I don't think so. You have the God Conferring List, and you can reap the benefits after the collision of gods."

"But do you know why Senior Crimson Wrath chose to self-destruct as soon as he arrived?"

"Because she said that any rules are traceable. At the god level, to be able to ascend to the God Conferring List after death, there must be some kind of original power still present to be resurrected."

"Especially since their gods are already at the peak of a certain stage, even if someone can create gods, it is difficult to create two identical gods."

"Unless their origins are the same, and what is the original power of the gods? The godhead!"

At this point.

Losi Jingkong changed the subject and continued, "So, Senior Crimson Wrath chose to self-destruct her own godhead to test whether your God Conferring List is unlimited."

Lin Tianhao's eyes narrowed slightly. He didn't speak, but Losi Jingkong stared at Lin Tianhao intently.

After a few seconds.

A triumphant smile appeared on Losi Jingkong's face.

"As expected!!"

"If there were a Crimson Wrath God on your God Conferring List, then with your temperament, you would have already summoned Senior Crimson Wrath."

"But you didn't do that, and the answer seems to be clear."

Lin Tianhao didn't say a word. If Olufordland was still there, he could have Olufordland simulate a Crimson Wrath God.

But Olufordland is now in slumber, and it is unrealistic to ask him to take action.

Lin Tianhao took a deep breath and said with a smile: "But you may be disappointed."

"I can't summon the Crimson Wrath God now, because the gods who ascend to the God Conferring List need a recovery period."

"After the Crimson Wrath God self-destructed her godhead and ascended to the God Conferring List, the recovery period will be even longer."

Hearing this.

Losi Jingkong laughed loudly, very triumphantly.

"Hahaha, Snow Emperor, you're anxious!!"

"If Senior Crimson Wrath really made it onto the God Conferring List, would you still explain it this way?"

"With your personality, you wouldn't explain so much. The more you explain, the more guilty you are."

Lin Tianhao still looked calm and composed. Having lived two lives, Lin Tianhao was already able to control his expression more skillfully.

At least.

He could lie calmly.

"Alright, whether you believe it or not is none of my business. If you really think that self-destruction won't get you on the God Conferring List, then I welcome all the gods of your Icefire Los Island to self-destruct."

Losi Jingkong and the others were experimenting, which meant that their understanding of the God Conferring List was also insufficient.

This was just their guess.

"Okay, I believe Senior Crimson Wrath's judgment."

A cold light flashed in Losi Jingkong's eyes, and a stern killing intent erupted from his body.

"Senior Candle Flame, take action!!"

The Candle Flame God frowned. Was he supposed to self-destruct and give away a kill?

To be honest.

The Candle Flame God was unwilling.

After all, being able to grow into a god, it would be a pity to self-destruct and die now.

"Losi Jingkong, seal the holy land. If we fight the Snow Emperor, other forces will definitely reap the benefits."

"If our Icefire Los Island loses its foundation, other forces will not let us Icefire Los Island go."

Losi Jingkong's expression froze, and there was a hint of anger on his face.

"Candle Flame God, I know that it is unfair to you to ask you to self-destruct."

"But now is an era of great contention. If we seal ourselves now, when we recover in the future, where will we be able to find a place to live in this world?"

At this point.

Losi Jingkong looked at Lin Tianhao, sighed faintly, and said:

"Snow Emperor, I know you've come to settle the score. I, Losi Jingkong, will take responsibility for my actions. Kill me alone and let Icefire Los Island go, how about that?"

After speaking.

Losi Jingkong took a step forward, with a posture of resigning himself to death.

Lin Tianhao shook his head. Killing one Losi Jingkong was not enough.

Nine Revolutions expert.

He needed to kill at least ten.

Especially since.

Just now, the Crimson Wrath God self-destructed, and Xiudeli Baiyun was severely injured, his strength sharply reduced.

If he didn't make up for it on Icefire Los Island, then he would be at a great loss.

"Snow Emperor, don't push us too far. Our Icefire Los Island is weaker than other holy lands, but we have never lacked the determination to risk our lives to protect the holy land."

Losi Jingkong rebuked loudly. She formed hand seals and chanted.

"I, the island master of Icefire Los Island, Losi Jingkong, in the name of the island master of Icefire Los Island, awaken the gods of Icefire Los Island!!"

"May all the gods return to their positions and fight the strong enemy together!!"

Along with the fall of Losi Jingkong's voice, the entire Icefire Los Island and some of the surrounding islands.

Pillars of light soared into the sky. This was the revival of the sleeping gods.

The spiritual energy of heaven and earth frantically converged towards the direction of these pillars of light.

Powerful auras locked onto Lin Tianhao's position.

"Wrathful Wave God, receive the order and return to your position!!"

"Desert Wind God, receive the order and return to your position!!"

"Sea Rune God, receive the order and return to your position!!"

... ..

Figures gathered and landed behind Losi Jingkong.

Lin Tianhao glanced over.

Including the Candle Flame God, there were a total of nine gods gathered here.

Compared to other holy lands, Icefire Los Island was indeed weaker.

But in terms of the number of gods, there was not much difference.

Nine gods, with magnificent momentum!!

Chapter 624 - Testing each other, Los Jingkong's plot!

"Snow Emperor, Senior Nu Hong heavily injured Xiudeli Baiyun and the Demon Vine Ghost Ship. Next up are the gods under your command."

"If you dare to fight, you can try! !!"

Los Angeles Ikui's eyes were resolute, obviously, she had already made the decision to fight desperately.

At this moment.

Lin Tianhao was put on the fire.

A dilemma! !!

Advance, the gods self-destruct, and the gods in his hands are not easy to deal with.

Retreat, then other holy places will follow the example of Binghuo Los Angeles Island, so how will he do it in the future?

Could it be that he really wants to be a man with his tail between his legs?

Obviously!

Lin Tianhao didn't want to do that.

If it's difficult to get off the tiger, then kill the tiger and justify its name!

"Are you betting on your family fortune? I, the Snow Emperor, have never been afraid of betting on my family fortune! !!"

Lin Tianhao raised his hand and summoned nine gods as well.

Los Angeles Ikui's expression was extremely serious, she knew that Lin Tianhao would not easily back down.

So.

This battle is a must, and she is also prepared to let the gods under her command self-destruct.

But to be honest.

I'm just preparing to self-destruct three or four gods.

As for more, she didn't think about it, and it's impossible! !!

Although the real heritage of the Holy Land lies in the powerhouses in the God Realm.

But if there are no gods in this realm, then wouldn't any force be able to manipulate their Binghuo Los Angeles Island in the future.

"God of the Undead, go and try the self-destruction power of the gods of Binghuo Los Angeles Island! !!"

Los Angeles Ikui was really a little panicked.

What if... ..

What if what Lin Tianhao said was true, even if the godhead self-destructed, it would still be sent to the Conferred God List, then everything would be in vain.

It would be a joke for him to fight Lin Tianhao with the gods of Binghuo Los Angeles Island.

"Snow Emperor, let's take a step back. It was me who attacked you in the first place. Now I'll give you my life and let go of our Binghuo Los Angeles Island."

"I can guarantee to you in the name of the island owner of Binghuo Los Angeles Island that the gods of our Binghuo Los Angeles Island will not step out of Binghuo Los Angeles Island for the next three years."

Obviously.

Los Angeles Ikui was still a little panicked.

If you really fight to the death.

She was afraid that the foundation of Binghuo Los Angeles Island would be emptied, and in the end, Lin Tianhao would be the one to benefit.

Lin Tianhao narrowed his eyes slightly, "I said, not enough, ten Rank 9, and I will agree!"

Hearing this.

Los Angeles Ikui was a little annoyed and scolded:

"Snow Emperor, I am the master of the Holy Land, is it not enough to exchange my own life for the peace of our Holy Land? !"

"Ten Rank 9? Absolutely impossible! !!"

Lin Tianhao's expression was indifferent, "Then should you be sealed?"

"Or... ...Be killed and enslaved by me! !!"

Lin Tianhao's attitude was resolute.

He could see that Los Angeles Ikui didn't want Binghuo Los Angeles Island to be sealed.

So.

Lin Tianhao directly used the matter of Dust Sealing to see where Los Angeles Ikui's bottom line was.

Los Angeles Ikui was not a fool either. After hearing Lin Tianhao's words, she already knew that Lin Tianhao wanted to use the matter of Dust Sealing to control her.

The Great Struggle is coming, and she really doesn't want Binghuo Los Angeles Island to be sealed.

"Three Rank 9, let's all take a step back."

Los Angeles Ikui knew that Lin Tianhao was trying to control her, but she had to negotiate with Lin Tianhao.

Lin Tianhao knew that there was hope, and continued, "Since we are all taking a step back, three is too few, six! !!"

Los Angeles Ikui wanted to say something, but Lin Tianhao interrupted her directly.

"This is my bottom line. If you don't agree, then fight! !!"

Lin Tianhao's eyes were filled with killing intent.

As long as Los Angeles Ikui dared to refuse, he didn't mind letting the God of the Undead take action and teach them a lesson first.

"Okay, I'll do as you say, six is six! !!"

Seeing Los Angeles Ikui agree, several gods behind her frowned.

The Candlelight God said in a deep voice: "Los Angeles Ikui, you don't need to work so hard. If it really doesn't work, then seal it."

Los Angeles Ikui shook her head, "You don't understand, our Binghuo Los Angeles Island used to be at the bottom of the Holy Land."

"Now is an opportunity, we must seize this opportunity."

The Great Struggle is coming, as long as they control this opportunity well, their Binghuo Los Angeles Island may reach a higher level.

"Los Angeles Ikui, why are you doing this? Why not join forces with our Chihua Sand Palace? The Snow Emperor is not to be feared!"

Just then.

A familiar voice came.

The person who spoke was none other than the Palace Master of Chihua Sand Palace: Chihua Demigod!  
!!

Seeing Chihua Demigod, Los Angeles Ikui frowned.

"Thank you for the kindness of Chihua Demigod. If it were before, I might have accepted your kindness, but now, I refuse."

Los Angeles Ikui looked at Chihua Demigod with some disgust.

"The Le God Society is unpredictable. If you cooperate with them, it's better to let the Holy Land be sealed."

After saying that.

Los Angeles Ikui's eyes swept over the gods behind her.

"You must remember that if one day, the Le God Society plots against the Vast Continent and persecutes our realm, even if we cooperate with the Snow Emperor, we must stop the Le God Society."

Los Angeles Ikui said forcefully, and these words made Chihua Demigod's face turn green and purple.

"Los Angeles Ikui, you have changed! !!!" Chihua Demigod said angrily.

Los Angeles Ikui shook her head and said: "It's not that I have changed, but that you have changed."

"What we pursued in the beginning was just a country on the Vast Continent."

"What about now? What are you trying to plot by cooperating with the Le God Society?"

Chihua Demigod snorted coldly and scolded:

"I originally wanted to pull you out of the fire pit, but you are so ungrateful! !!!"

"Do you think that if you die, Binghuo Los Angeles Island will be spared? What wishful thinking!"

Chihua Demigod's voice fell, and she turned around and left.

"Come as you want, leave as you want, do you think I am air?"

Lin Tianhao said indifferently, and Xiudeli Baiyun took a step forward, blocking Chihua Demigod's path.

Although Xiudeli Baiyun has now suffered heavy damage, it is not difficult to deal with a Chihua Demigod.

"Snow Emperor, starting a war with the Le God Society now is not a wise choice."

Lin Tianhao glanced at Los Angeles Ikui and smiled:

"Los Angeles Ikui, if you help me kill Chihua Demigod, I can spare you!"

Although Los Angeles Ikui said just now that she would help deal with the Le God Society in the future.

Anyone can say that, but what will happen in the end is unknown.

Los Angeles Ikui didn't hesitate at all and directly said to the Candlelight God:

"Stop Chihua Demigod."

Chihua Demigod sneered, "Los Angeles Ikui, you are really good, but the last time the Snow Emperor was trapped in the Heaven and Earth Imprisonment Formation, how could I possibly come here so rashly."

"What you see now is just a clone of mine. Kill it if you kill it. I don't care."

Lin Tianhao shook his head, "But when you came, you were already prepared to attack. There are three gods by your side, right? !"

Chapter 625 - Rootless flower seeds!

Before the words could even finish.

The God of the Undead, Poseidon the Sea God, and the seven gods behind Lin Tianhao simultaneously attacked, surrounding the three gods hidden not far away!!

The Red Flower Demigod was originally calm and collected, but seeing Lin Tianhao so easily discover the three gods in hiding still shocked her.

As for how Lin Tianhao discovered them, it was all thanks to the God of the Undead.

The God of the Undead has an extraordinary perception of living beings.

Gods are also living beings.

Therefore.

The God of the Undead can clearly sense the positions of living beings around him.

The Red Flower Demigod's eyes narrowed slightly, and her gaze towards Lin Tianhao carried a hint of coldness.

"Snow Emperor, think carefully before you act. Going against the God of Music Society, are you qualified right now!"

Lin Tianhao was somewhat angered and rebuked:

"Back then, the Boundless Void Palace also liked to talk to me in this tone, but what happened in the end?"

"They were sealed away!"

The Red Flower Demigod knew that trying to get Lin Tianhao to stop was unrealistic.

She turned her gaze to Los Inokong.

"Los Inokong, are you really willing to be the Snow Emperor's lackey?"

"Now is the chance. If you and I join forces, plus the God of Music Society, we will definitely be able to severely injure the Snow Emperor."

Los Inokong shook his head, "I think I should join forces with the Snow Emperor."

"You, and the three gods you brought, will all be accounted for here."

As soon as he spoke.

The nine gods behind Los Inokong also rushed out, following the gods under Lin Tianhao's command, surrounding the three gods brought by the Red Flower Demigod.

A total of eighteen gods surrounded three gods.

Even if these three gods were to fully erupt, they still couldn't do anything against these eighteen gods.

After all, in a six-on-one situation, they only need to stall for some time, and the opponent will be severely injured by the lightning punishment.

As for these three gods, if they are unwilling to fully erupt, then they are simply courting death.

"Los Inokong, you madman, one day, you will regret your decision."

After resolving this clone of the Red Flower Demigod, the battle on the gods' side had already begun.

Eighteen against three, with no chance of winning.

In the end, all three gods from the Red Flower Sand Palace fully erupted.

The Candlelight God of Icefire Los Island also fully erupted, cooperating with the other seventeen gods and Lin Tianhao, successfully killing these three gods.

Moreover.

The people from Icefire Los Island were still actively giving away the kills, allowing Lin Tianhao to kill all three gods.

"Ding, you killed the Shanon God, a server-wide announcement is about to be made, do you want to hide your name?"

"Ding, you killed the Shahong God, a server-wide announcement is about to be made, do you want to hide your name?"

.....

"No."

"Server-wide announcement, congratulations to player Snow Emperor for successfully killing the Shanon God, hereby announced, hoping that the majority of players will continue to work hard!!"

"Server-wide announcement, congratulations to player Snow Emperor for successfully killing the Shahong God, hereby announced, hoping that the majority of players will continue to work hard!!"

.....

All three gods were killed by Lin Tianhao, and they were directly sent to the God Ranking List by Lin Tianhao.

This time, Lin Tianhao didn't pay any price at all.

It was the Candlelight God of Icefire Los Island who fully erupted.

"Snow Emperor....."

Los Inokong wanted to say something but hesitated.

Lin Tianhao knew what she wanted to say, this time she had helped a lot.

"This time, the Candlelight God will fall into slumber because of this. As long as you can unswervingly deal with the creatures of the Aleit Star System in the future, our grievances will end here, and even, I can support you."

Lin Tianhao wasn't joking, he really thought so in his heart.

The Aleit Star System has a deep foundation and is relatively united.

Even if he is powerful, it is difficult to say that he can contend against the entire Aleit Star System by his own strength.

Unless he can grow to the level of the Origin God of the Dao.

But is that possible?

To be honest, it's unlikely.

Don't say five years.

Give Lin Tianhao another fifty years, five hundred years, and he still won't be able to reach the level of the Origin God of the Dao.

The higher the realm, the more difficult it becomes to improve.

"Thank you."

Los Inokong showed Lin Tianhao a grateful smile.

In this era of great contention, if their Icefire Los Island can have a place, then the future is promising.

Lin Tianhao killed three gods in this wave.

Including the Angry Red God, that's four!

Although the Angry Red God's self-destruction of his godhead caused Lin Tianhao to fail to send him to the God Ranking List.

However, the Godslayer Mark still obtained one of the Angry Red God's skills.

In other words.

Lin Tianhao not only added three more gods to the God Ranking List this time, but also increased by four god skills.

Opening the Godslayer Mark, Lin Tianhao checked the four god skills he had just obtained.

No. 28, Angry Red God (Anger Infection): Releases an invisible wave. People who come into contact with the wave will involuntarily become angry and do some impulsive things.

Lin Tianhao was a little speechless. This skill is not very good.

How much help can making others angry give him?

No. 29, Shahong God (Quicksand Substitute): Releases a substitute that is exactly the same as oneself, and the main body can freely move to any place within a radius of fifty meters.

If you are in the desert. The range of free movement of the main body is increased by a thousand times.

This skill... seems to be pretty good.

A substitute skill gave Lin Tianhao a few more life-saving methods.

No. 30, Shanon God (Rootless Flower Seed): Releases on a target unit, and three flowers will grow on the target unit after being hit.

The three flowers will devour the life force and soul force of the released person until the target unit dies before stopping.

Lin Tianhao's eyes lit up. This skill was much stronger than he imagined.

At least.

Judging from the current situation, this skill is very terrifying.

It's just that I don't know what the form of existence of this flower is, and how high the damage value is.

If the damage value is not too high, then he can completely use this thing to farm health points.

Because this skill will not disappear until it completely devours the soul force and life force of the target unit.

Thinking like this.

Lin Tianhao summoned an undead, a level 1,500 undead servant.

The level is not high or low, just right.

"Rootless Flower Seed!!"

Lin Tianhao released the skill without hesitation.

The next moment.

Three flowers appeared on this undead.

Immediately afterwards.

A huge damage number appeared.

- 5 million!!

This damage number looks fixed, and it has no connection with Lin Tianhao's health points or attack power.

Fixed damage value, then this damage value is not high.

At least.

If he releases this skill on Poseidon the Sea God, this amount of health loss will not have any impact on Poseidon the Sea God.

Chapter 626 - Berserker Blade's Request: Dragon Cave!

However.

Lin Tianhao isn't quite sure about the extent to which this rootless seed of flower devours soul power.

In this experiment, Lin Tianhao discovered that he could actively cancel this skill.

Since that's the case.

Then he can completely use it on the gods to test how much soul power this skill devours.

If it's not much, he can completely find a weak god to farm health points.

After all, the number of gods Lin Tianhao currently possesses allows him to sacrifice one.

As long as it can improve his strength, even sacrificing a god is acceptable.

If the other party is standing on the earth, even if they use hidden means, they can still be seen.

Lin Tianhao took a deep breath, unable to suppress his excitement.

Indeed!

Surprises always come unexpectedly.

Although Lin Tianhao has Fiery Golden Eyes, they are not clairvoyant after all. He can see far, but it is difficult to reach a hundred miles.

Especially since.

His Fiery Golden Eyes are a downgraded version, and there is still some gap compared to the real Fiery Golden Eyes.

Now that he has this Earth Connection Heaven Eye skill, Lin Tianhao, when he activates the Heavenly Punishment state, really has a stance of killing anyone who stands in his way, and destroying anyone who opposes him.

Especially since.

The Fiery Golden Eyes can also cooperate with this Earth Connection Heaven Eye.

Because the Earth Connection Heaven Eye cannot see hidden target units.

If the other party hides themselves in flight, Lin Tianhao will not be able to see them.

However, the Fiery Golden Eyes can just see through these various hidden means.

This skill is nothing much in the hands of others, but in Lin Tianhao's hands, it is directly an explosive skill.

After checking these skills, Lin Tianhao is preparing to enter the Xitu Empire again.

Originally, Lin Tianhao wanted to use the high-level undead army to help conquer the Xitu Empire.

But now that he has the Earth Connection Heaven Eye skill, they don't need to do that at all.

Directly use the Earth Connection Heaven Eye and Fiery Golden Eyes to target those high-level demons from a distance [by name].

In this way, he can still quickly accumulate a batch of high-level undead army.

Acting on his thoughts.

Lin Tianhao sent a message to Berserker Blade.

"Blade, does your guild have anyone who needs to level up? I want to find a few teammates to enter the Xitu Empire."

Berserker Blade was very excited after seeing this message.

Because the higher the player's level, the greater the difficulty of leveling up.

Especially after level four or five hundred, it's not enough to level up normally in a day.

If you are greedy for success and rashly advance, and are accidentally killed, then losing a level will take a lot of time to level up again.

"Yes, yes, yes, I will arrange for someone to go over right away. Where shall we meet?"

"Border of the Xitu Empire, send the location, I will come directly."

"Okay."

Berserker Blade immediately organized his subordinates to go over.

This time, he specially selected three level 500 professionals to team up with Lin Tianhao.

After level 500, leveling up is really difficult.

Except for a few god-level talents, or people with special opportunities, it can really make other people autistic to level up.

Berserker Blade quickly sent the location to Lin Tianhao.

Lin Tianhao also saw the three people that Berserker Blade asked him to team up with this time.

All three of them are assassins, and one of them is someone Lin Tianhao knows.

Shadow Kill!!

Shadow Kill smiled awkwardly when he saw Lin Tianhao.

"Snow Emperor."

Lin Tianhao nodded with a smile. Although he had a small conflict with Shadow Kill in the novice village.

But it doesn't matter.

Moreover, Berserker Blade also told Lin Tianhao later that Shadow Kill helped him solve the organization that offered a reward for him abroad.

So.

Lin Tianhao didn't take that matter too seriously.

"Let's team up!"

Lin Tianhao sent them a team invitation.

"After you go in, try not to die. Of course, if I die, you can come out."

Hearing this.

Berserker Blade was a little surprised, "Snow Emperor, is this dungeon very difficult for you to fight?"

"It's not a matter of difficulty, it's that it's difficult for me to clear it in a short time."

"Didn't someone see me fighting with Village Chief Wang and Demon King Grefolongte before? Those two are just vanguards of this Xitu Empire."

Hearing this.

Berserker Blade was shocked, "I thought Demon King Grefolongte was already the ultimate boss of the Xitu Empire."

"If that's the case, we can't clear the Xitu Empire with conventional methods at all."

Lin Tianhao nodded heavily, "That's right, it is very, very difficult to clear a national dungeon like the Xitu Empire. At least with my current strength, the chance of clearing the Xitu Empire is slim."

Lin Tianhao still has a certain understanding of his current strength.

If he hadn't obtained the Earth Connection Heaven Eye skill this time, Lin Tianhao would not only have a slim chance of clearing this dungeon.

But there is absolutely no chance.

It is very difficult for Lin Tianhao to crack the combination of Village Chief Wang and Grefolongte.

"Snow Emperor, I know you have always wanted to completely revive the Mountain and Sea Empire. If you need any help, you can ask us."

At this point.

Berserker Blade changed the subject and said:

"It's a bit presumptuous, but I still want to ask Snow Emperor to help us with a favor after solving the Xitu Empire's affairs."

"What favor?" Lin Tianhao became a little interested.

"We found a dragon cave, but we don't currently have the strength to explore the dragon cave."

"Our team has entered thirteen times before and after, and all of them have died without encountering a single wild monster."

Lin Tianhao narrowed his eyes slightly. The name of the dragon cave is like thunder.

The reason why the Vast Infinity Palace can become the first holy land of the Vast Continent is largely because the Vast Infinity Palace once obtained a dragon cave.

The things in a dragon cave can create an absolute holy land, which shows its significance.

Berserker Blade paused for a moment, then continued:

"We can give Snow Emperor priority to the benefits of the dragon cave."

Lin Tianhao smiled and nodded, and said:

"No problem, I really want to explore the dragon cave too."

"This time, I'm just trying to attack the Xitu Empire again. If I don't see a chance to clear it, I can go to the dragon cave with you first."

"Okay."

After a simple communication with Berserker Blade, Lin Tianhao took Shadow Kill and the others into the Xitu Empire.

After coming in.

"You are free to act, don't worry about me."

Lin Tianhao said, and went straight to the nearby main city.

He wants to hunt down those masters above the seventh rank in the main city.

Now night is falling.

The skill Lin Tianhao obtained from the Dark Night Spirit God Moy Lai can double his attributes at night.

This greatly improves Lin Tianhao's combat power.

Chapter 627 - Horrible Archer!

This doubling of attributes at night doesn't apply to everything.

When he activates the Heavenly Punishment state, the Heavenly Punishment attack speed doesn't double.

This shows that even divine skills are not absolute.

The Heavenly Punishment attack speed surpasses ordinary divine abilities, so it's normal that divine skills can't be doubled.

After all.

Even gods can't avoid being hit in his Heavenly Punishment state.

Although the Heavenly Punishment attack speed didn't increase, Lin Tianhao's health and attack power genuinely doubled.

This doubling of these two attributes means that Lin Tianhao's output will be greatly increased.

With the Earth Connection Heaven Eye and Fiery Eyes, Lin Tianhao quickly locked onto a person in the main city ahead.

This person is an eighth-tier professional, with a platinum rank.

Not bad strength.

Lin Tianhao activated the Heavenly Punishment state and Three Heads Six Arms.

Coupled with Arrow Follows the Heart, forty-eight arrows per second.

Plus Lin Tianhao's current output ability.

This eighth-tier platinum-level demon couldn't withstand even a second before being killed by Lin Tianhao.

Lin Tianhao's purpose is not only him, but also the other seventh-tier and above demons in the main city where this demon is located.

At this time.

Lin Tianhao's perverted attributes and damage ability are reflected.

These demons, under Lin Tianhao's long-range Heavenly Punishment headlocks, didn't even have a chance to resist before being killed.

Sufficiently high damage, sufficiently long distance, and absolute hit.

The combination of these three factors created the current Lin Tianhao.

Terrifying archer!

They were killed by Lin Tianhao before they even saw him.

At this time.

The three Shadow Assassins, who were hunting demons in ordinary villages on the periphery, suddenly received a system notification.

Then.

They saw Lin Tianhao's kill log.

Nine seventh-tier, two eighth-tier.

The key is that this was completed in one minute.

"This... Is this the Snow Emperor boss?"

One of the assassins muttered to himself, already shocked speechless by this scene.

No other reason.

This scene is really too shocking.

"Brother Shadow Assassin, I heard that you even tried to kill the Snow Emperor boss in the novice village. Commendable courage."

Another assassin couldn't help but give Shadow Assassin a thumbs up, but the meaning in these words was more mockery.

Shadow Assassin heard this.

His face instantly fell, and he said unhappily.

"Dare to mention that matter again, and I'll stab you."

The three were obviously very familiar with each other, and the assassin who spoke at the beginning said with a smile:

"Hehe, Burst Kill, you can't say that about Brother Shadow Assassin. Brother Shadow Assassin is clearly a stepping stone on the road to fame for the Snow Emperor boss."

"Hahaha—"

The two laughed in unison.

"It seems you really want to try the power of the dagger in my hand."

The kill notification came again.

This time, Lin Tianhao killed three eighth-tier and eleven seventh-tier.

Such a large span of kills made the levels of Shadow Assassin and the three Burst Kills skyrocket.

Another place in the Xitu Empire.

Berserker Blade is also leading his team to kill demons.

After all, this copy is now double the reward, and they naturally don't want to miss it.

After solving the few demons in front of them, one of the team members said with some envy:

"Shadow Assassin and the others are so cool. With the Snow Emperor boss taking them to level up, I estimate they will level up at least fifty levels today."

"Fifty levels is a bit exaggerated, right? The Snow Emperor boss is powerful, but Shadow Assassin and the others are all above level 500, and the experience points required to level up are extremely huge."

"I also think that they can level up thirty levels each today, which I think is pretty good. Envy."

... ..

Berserker Blade glanced at the few people and chuckled:

"You can say this, I can only say that you know nothing about the strength of the Snow Emperor boss!!"

"According to my estimation, Shadow Assassin and the others will level up at least two hundred levels today, or even higher!"

Hearing this.

Several members of Berserker Blade's team were a little dumbfounded.

"So... So outrageous?"

"President, look, look at whether Shadow Assassin and the others have leveled up now?"

Berserker Blade opened the friend list without haste, and said at the same time:

"Don't be so anxious. It's only been ten minutes since entering the dungeon. Even if you level up, it's not a big deal..."

Berserker Blade originally wanted to say that they would only level up one or two levels.

But when he really saw the levels of Berserker Blade and the others, he was stunned!!

Shadow Assassin's level is 595.

The levels of the other two also exceeded level 590.

"President, how is it? Did they level up two levels, or three levels?"

Ten minutes, leveling up two levels is already terrifying.

Three levels, this is already the limit they can imagine.

"Cough cough!!"

"Is this all you got?"

Berserker Blade coughed twice, pretending to be calm.

He is the president of the Berserker Guild and cannot appear too shocked, otherwise his subordinates will think that he has never seen the world.

"It's more than I expected. Each person has leveled up almost ninety levels."

There was a brief silence in the field.

After a while.

A team member asked:

"President, did you just say nine levels?"

He didn't dare to really say ninety levels.

After all, ten minutes, ninety levels, this... Is this possible?

"The president seemed to say ninety levels just now. Am I hallucinating?!"

"Ten minutes, ninety levels? Impossible, absolutely impossible, it should be nine levels!!"

... ..

They really couldn't believe that this was true.

Although there will be a server-wide announcement when Lin Tianhao kills seventh-tier and eighth-tier demons.

But killing a black iron boss will also have a server-wide announcement, so it is not easy to judge the target of Lin Tianhao's kill based on the server-wide announcement alone.

"Open up the pattern. What I said is ninety levels. In ten minutes, the Snow Emperor boss took Shadow Assassin and the others to level up ninety levels!!"

Berserker Blade has tried his best to keep himself calm.

But the slight twitching of the corners of his mouth can still be seen that he also thinks this thing is very outrageous.

He couldn't even imagine what was going on!!

Why is it so outrageous!!

Ten minutes, just ten minutes!!

Even if a group of high-level bosses stood in front of them and let them fight, they couldn't level up so many levels in ten minutes.

Snow Emperor, terrifying as such!!

Lin Tianhao didn't care so much.

He used the Kunlun Mirror to constantly switch the main city.

When Lin Tianhao killed the high-level demons in the three main cities and was preparing to go to the fourth main city, a breath locked him.

At the same time that this breath locked him, Lin Tianhao also locked the opponent.

Grevut Longte!!

As he thought, as long as he appeared in the Xitu Empire, Grevut Longte would stare at him.

But now Lin Tianhao's background is not enough to compete with Grevut Longte.

He sacrificed the Kunlun Mirror, directly penetrated the entire Xitu Empire, and distanced himself from Grevut Longte.

Then, continue to lock the heads of the high-level demons in those main cities!

Chapter 628 - Goblin Kingdom!

Although the Demon King Greivous locked onto Lin Tianhao,

Lin Tianhao directly traversed the entire Hito Empire, making it difficult even for the Demon King Greivous to arrive in time.

Moreover, as long as Greivous approached within a hundred miles of Lin Tianhao, Lin Tianhao would be able to sense his presence.

Next.

He wouldn't engage Greivous in a direct confrontation, only targeting the high-level demons in the major main cities.

"Damn it, utterly detestable!!"

Greivous was furious, his aura rising layer by layer, becoming somewhat manic.

"Spare no cost, keep Xue Di here for me!!"

Just at this moment.

A mark descended from the sky.

"Ding, Greivous has cast a tracking curse on you. For the next twenty-four hours, you will constantly expose your location."

Lin Tianhao's lips curled up. Was he already getting impatient?

He really was somewhat useless.

Lin Tianhao directly exited the Hito Empire.

Twenty-four hours?

Then he would wait and come back after twenty-four hours.

Although such curse methods were powerful, they couldn't be cast continuously.

Lin Tianhao hadn't considered clearing this national dungeon of the Hito Empire in just three to five days.

One day wasn't unacceptable for Lin Tianhao.

After coming out.

Lin Tianhao searched for a level 500 dungeon.

Goblin Kingdom!!

This dungeon wasn't very difficult for Lin Tianhao. The reason he chose it was because the dungeon had a large number of goblins.

What he wanted was quantity!!

The more goblins there were, the more life he would gain from his basic attacks.

One day was too short to comprehend the Dao, but it was very good for farming monsters and stacking health.

The Goblin Kingdom dungeon hadn't been opened yet. It required a single person to hunt more than 50,000 goblins for the dungeon to open.

In his previous life, a player with a god-level talent saw that the goblins respawned quickly, so he stacked attributes here, accidentally triggering the opening of this dungeon.

Now that Lin Tianhao had to kill 50,000 goblins, the most time-consuming part might be waiting for them to respawn.

In this area, tens of thousands of goblins could respawn at once.

Lin Tianhao's attack speed and damage, even without triggering area-of-effect damage skills like Heavenly Fire Meteor and Lightning Leap,

Could still easily handle them.

Two hours later, Lin Tianhao finally killed 50,000 goblins.

"Ding, due to your large-scale killing of goblins, the sealed Goblin Kingdom has been revived."

"Ding, you have opened the Goblin Kingdom dungeon, reward: free attribute points +100, Goblin Butcher title +1, a server-wide announcement will be made, do you want to hide your name?"

"No."

"Server-wide announcement, congratulations to player Xue Di for successfully opening the Goblin Kingdom dungeon, special announcement, hoping that all players will actively clear the Goblin Kingdom."

... ..

Lin Tianhao raised his eyebrows. The rewards for opening the dungeon were somewhat lackluster for him.

Goblin Butcher: Title.

Effect 1: Your damage to goblins is increased by 5%.

Effect 2: You have a certain deterrent effect against goblins below Black Iron rank. It has the opposite effect on Black Iron and above, they will treat you as the primary attack target.

Title progress: 51395 / 100000.

It could only be said.

That it was only for show.

This Goblin Butcher title was of little help to Lin Tianhao.

Unless.

He would encounter some Goblin God later.

Otherwise, this damage increase was insignificant to Lin Tianhao.

After the dungeon opened.

Lin Tianhao directly entered the Goblin Kingdom.

The difficulty was also selected directly to Hell difficulty without any suspense.

"Ding, friendly reminder, Hell difficulty is too high, it is not recommended to enter alone, confirm entry?"

"Confirm!"

This reminder was for other players, it had nothing to do with him, Xue Di.

After entering the Goblin Kingdom, Lin Tianhao immediately saw many goblins wandering in front of him.

Not far away was a goblin village.

This dungeon was truly a small kingdom.

There were villages, towns, main cities, and even a goblin king.

Lin Tianhao glanced over.

Waste Goblin (Elite): Level 312.

Health: 1105231 / 1105231.

Attack: 19251.

Skills: Swift Steps, Waste Charge, Waste Chop, Fury Blade, Knock Up.

Possessing five skills, with a million health.

This wasn't even a boss, just an elite-level Waste Goblin.

Within Lin Tianhao's sight, there were already over a hundred such Waste Goblins.

Besides the Waste Goblins, there were also some Black Iron-level goblin mini-bosses here.

Dart Goblin (Black Iron): Level 398.

Health: 10.99 million / 10.99 million.

Attack: 122531.

Skills: Rapid Darts, Explosive Dart, Bloodthirsty Dart, Nine Ring Break, Super Armor, Berserk... ...

The Black Iron-level Dart Goblin had over ten million health and was a ranged attack type.

If a regular group encountered it, it would be troublesome.

But this was useless to Lin Tianhao. With a wave of his hand, a feathered arrow pierced through the air.

- 10.99 million!!

- 1105231!!

... ..

Lin Tianhao's feathered arrows hit these goblins, instantly killing them.

The Lightning Leap triggered, instantly killing a string of them.

Sweeping all the way, the goblins in these villages posed no threat to Lin Tianhao at all.

Even if they were already besieging Lin Tianhao in an organized manner, such resistance was meaningless in the face of absolute output.

After solving the goblins in this village, Lin Tianhao released a Water Clone, letting the Water Clone be responsible for looting corpses and searching for equipment, materials, etc.

Generally, in this kind of kingdom-like dungeon, there might be some equipment and materials in the villages and towns.

For example, blacksmith shops, herbal medicine shops, etc. in the villages and towns might be able to find a lot of equipment and materials.

With the help of the Water Clone, Lin Tianhao saved a lot of time looting corpses.

After solving this village, Lin Tianhao continued to move forward.

The Goblin Kingdom was called a kingdom, but it was still different from kingdoms like the Star Kingdom.

There were thirty-six villages and towns, three main cities, including their royal capital.

In terms of level.

Except for a few high-rank goblins whose levels exceeded level 500, the other goblins were basically below level 500.

If the strength was strong enough, this Goblin Kingdom had a speedrun strategy.

That was to directly attack the Goblin Royal Capital.

If the Goblin Royal Capital discovered danger, it would summon goblins from other places to come to the rescue.

Lin Tianhao was just simply warming up by attacking this goblin village.

Next, he could directly head to the Goblin Royal Capital.

Lin Tianhao rushed at full speed, and arrived at the Goblin Royal Capital in less than an hour.

Outside the city gate of the Goblin Royal Capital, a lot of goblin soldiers had gathered.

This was the difference between a dungeon and a real kingdom.

They were more for combat, not just simply living.

"Whoosh—"

Lin Tianhao broke through the air with an arrow, accurately targeting a goblin soldier.

Chapter 629 - Soul swap!

Lightning Leap triggered.

The six-star Lightning Leap directly killed over a hundred soldiers nearby.

This arrow alone stacked over five hundred life points for Lin Tianhao.

The Hand of Heavenly Punishment can stack four points, and the Lightning Leap skill effect can stack four life points for each target unit hit.

Therefore,

with this one arrow, Lin Tianhao stacked over five hundred life points.

The Goblin King City has over one hundred thousand goblins, and this dungeon used to be cleared by hundred-man or even thousand-man groups.

However,

Lin Tianhao doesn't need that many people to help.

The number of monsters in the Goblin Kingdom dungeon is already considered very high.

But under Lin Tianhao's devastating offensive, it's still not enough.

"Adventurer, you have successfully angered this king! This king will tear you to pieces!"

An angry voice came, followed by a goblin as fat as a meatball being carried out of the palace by a dozen strong goblins.

Lin Tianhao was in the air at this time, looking down at this meatball king, its attributes also appeared in Lin Tianhao's sight.

Goblin King (Diamond): Level 605.

Health Points: 100.9 billion / 100.9 billion!

Attack: 980 million!

Skills: Space Squeeze, Flesh Exchange, Flesh Growth, Soul Swap, Fatal Reflection, Super Armor, Berserk...

Lin Tianhao's eyes narrowed slightly, as expected of Hell difficulty.

Under normal circumstances, a level 600 Diamond-level boss would never have such high health and attack power.

But because of the Hell difficulty dungeon, the Goblin King's attributes have been greatly improved.

"Whoosh—"

Lin Tianhao shot an arrow, and the feathered arrow hit the Goblin King.

Critical Hit!!

-710 million!!

-310 million!!

-310 million!!

...

One damage number after another appeared above the Goblin King's head.

The Goblin King was a little surprised, "Ignoring reflection damage? You do have some tricks."

At this point.

The Goblin King changed the subject and said with a smile:

"I don't like being looked down upon, so come down!"

Lin Tianhao's expression changed drastically, and a mysterious and terrifying power descended upon him.

In the next instant.

He actually felt his soul being drawn out of his body.

"Not good!!"

Lin Tianhao unified his thoughts, guarding his spiritual platform, trying to protect his soul from being sucked away.

But he ultimately failed.

His soul completed an exchange with the Goblin King's soul.

The moment the exchange was completed, Lin Tianhao felt a sense of suffocation.

At the same time, he felt that even turning around was very difficult.

His soul had now entered the Goblin King's meatball body.

And the Goblin King had entered his body.

"Kill!!"

The Goblin King controlled Lin Tianhao's body to land on the ground, letting the goblin army attack Lin Tianhao frantically.

Lin Tianhao has Heavy Armor Reflection, but the proportion of Heavy Armor Reflection is too low.

The four-five hundred level goblins basically have some lifesteal abilities.

Compared to the Heavy Armor Reflection's little reflection effect, it's useless to them.

The only thing worth mentioning is the Bloodthirsty Dragon Armor. Now Lin Tianhao's Bloodthirsty Dragon Armor has reached ten stars, the maximum star level, and can recover 50% of the damage taken.

Before, when Lin Tianhao fought against those Holy Land experts, their grievous injury attributes were relatively high, so the effect of this Bloodthirsty Dragon Armor was not very obvious.

But now, facing these four-five hundred level goblins, their grievous injury attributes are not so high, and the effect of the Bloodthirsty Dragon Armor is relatively obvious.

Now he should be affected by the Soul Swap skill, his soul having swapped with the Goblin King.

Since it's a skill, there must be a time limit, otherwise this skill would be too perverted.

Even if this is a skill on a Hell difficulty Diamond-level boss, it still wouldn't be too outrageous.

Accurately speaking.

Soul Swap is already very outrageous. If it could be controlled for a long time, it would be even more terrifying.

Suddenly.

Lin Tianhao thought of something. Although he is now in the Goblin King's body, it's not like he can't use all his skills.

For example... Arrow Follows the Heart!!

The Arrow Follows the Heart skill is obviously not related to the heart, but to the origin of the soul.

Since his soul origin is there, he can use Arrow Follows the Heart.

Sure enough.

Lin Tianhao tried to activate Arrow Follows the Heart and succeeded, feathered arrows pouring out.

Lin Tianhao's Lightning Leap trigger probability is relatively high, so relying only on Arrow Follows the Heart, Lin Tianhao can still deal high area damage.

The surrounding goblins began to attack Lin Tianhao frantically. Lin Tianhao's magic resistance is very high, and his armor is not low either.

In addition to the Bloodthirsty Dragon Armor and damage transfer, the damage he himself will take is not as high as imagined.

Now Lin Tianhao is using Arrow Follows the Heart to attack those who will attack him.

"Go!!"

The Goblin King was a little annoyed when he saw that Lin Tianhao could still deal considerable damage after swapping souls with him.

He immediately controlled Lin Tianhao's body to create distance.

Lin Tianhao wanted to chase, but with this meatball-like body, not to mention chasing, even taking two steps was very difficult.

This Goblin King is too cunning.

It's a pity!

He is destined to fail.

Because Lin Tianhao's guess was correct, Soul Swap has a time limit.

Of course.

Lin Tianhao can withstand the end of this skill, thanks to the Withering Tree Rejuvenation and damage transfer.

Although the soul was swapped.

Lin Tianhao's body's own passive skills can be triggered.

Lin Tianhao's Withering Tree Rejuvenation has not reached the maximum star level, but it is still as high as six stars.

The six-star Withering Tree Rejuvenation can restore 60% of Lin Tianhao's maximum health in a short time.

After Withering Tree Rejuvenation was triggered, Lin Tianhao lost another 30% of his health before the Soul Swap ended.

The moment the Soul Swap ended, Lin Tianhao immediately activated Super Armor and soared into the sky.

The reason for activating Super Armor is because these goblins are not stupid either. The moment the Soul Swap ended, they gave him a series of control skills.

Chapter 630 - First access to the Goblin Kingdom!

Fortunately, Lin Tianhao reacted quickly enough to activate his Invincibility skill and run away.

Lin Tianhao now understood why the Goblin King's size was so impressive; it was all for that Soul Swap skill.

After swapping souls with him, they wanted to use his body's high attack power and health to fight? No way!!

Even taking two steps would be difficult.

However, this Soul Swap could only be used on one person. In the past, the Goblin Kingdom dungeon was often cleared by groups of hundreds or even thousands of players.

One Soul Swap wouldn't significantly affect the overall situation.

Therefore,

in his previous life, the Goblin King wasn't a particularly famous boss.

Next,

Lin Tianhao began to attack frantically.

The Bloodthirsty Necklace + the evolved Hand of Heavenly Punishment allowed Lin Tianhao's health to quickly recover to full.

"Damn it, damn it! You've killed so many of our warriors! Die!!"

The Goblin King roared at Lin Tianhao, trembling as he raised his hand and shouted:

"Spatial Compression!!"

Lin Tianhao clearly felt the surrounding space compressing toward him, slowing his movements.

Later, he was completely unable to move.

-18.52 million!!

Without damage transfer, the damage would have been as high as 180 million.

Fortunately, Lin Tianhao was in the air, so even though he was controlled, he wasn't focused on by other goblins, and the health loss was still within an acceptable range.

After withstanding the first round of damage, Lin Tianhao once again maximized his attack speed, and arrows rained down on the Goblin King.

The arrows turned into streaks of light, constantly depleting the opponent's health.

The Goblin King's skill range was already very long, but not all skills had such a long range.

Therefore,

Lin Tianhao once again increased the distance and activated Heavenly Punishment state.

As long as the distance was far enough, even the Goblin King's skills couldn't be released.

And Lin Tianhao's Heavenly Punishment only needed to be able to see the opponent.

Although the attack speed would be greatly reduced in the Heavenly Punishment state, the key was that Lin Tianhao wouldn't be attacked.

"Ahhh, you scoundrel! Come down here if you have the guts! This king will fight you to the death!"

The Goblin King was furious, and he couldn't help but be angry.

Lin Tianhao was in a position he couldn't reach at all.

The Goblin King could only rage impotently below, constantly hit by Lin Tianhao's arrows, his health decreasing at a visible rate.

"Ding, congratulations, you have completed the first kill of the Goblin King. A server-wide announcement will be made soon. Do you want to hide your name?"

"No."

"Server-wide announcement: Congratulations to player Xue Di for completing the first kill of the Goblin King. This is a special announcement, hoping that all players will continue to work hard."

... ..

Lin Tianhao remained unmoved. After the Goblin King's death, the remaining goblins were just a rabble.

Under Lin Tianhao's storm of arrows, a large number of goblins were killed.

Six hours later... ..

Lin Tianhao finally eliminated all the goblins in the Goblin Kingdom and completed the first clear of the Goblin Kingdom.

"Ding, congratulations, you have completed the first clear of the Goblin Kingdom, reward: free attribute points +500, Enlightenment points +1. A server-wide announcement will be made soon. Do you want to hide your name?"

"No."

"Server-wide announcement: Congratulations to player for completing the first clear of the Goblin Kingdom. This is a special announcement, hoping that all players will continue to work hard."

... ..

After Lin Tianhao completed the first clear, the dungeon began to calculate the rewards.

"Ding, you have obtained free attribute points +10000."

"Ding, you have obtained skill books +10911."

"Ding, you have obtained equipment 175961 pieces."

"Ding, you have obtained gold coins +19523180."

... ..

The reward calculation after clearing this kind of large dungeon was truly extraordinary.

Especially since this was Lin Tianhao's first clear, and the difficulty was Hell level, the rewards were even more generous.

After casually glancing at the rewards he obtained this time, there was no suspense; they were basically all things he couldn't use.

Moreover,

he also dropped the Goblin King's very interesting skill: Soul Swap.

Although this skill was very interesting, it didn't seem to be of much help to Lin Tianhao.

The biggest gain this time was that his health was increased by more than 1.2 million, and he also got 10,000 free attribute points.

As for the others,

they were of limited help to Lin Tianhao.

When withered trees bloom in spring reaches six stars, it needs one million skill books to advance further. Lin Tianhao obtained ten thousand skill books this time, which was a drop in the bucket.

The only thing worth mentioning was the free attribute points, as many as ten thousand!!

Lin Tianhao didn't release many tasks last month. It was questionable whether this Sacred Ground settlement would even yield ten thousand.

Lin Tianhao exited the dungeon and re-entered it. He still chose Hell difficulty.

With the experience from the first time, Lin Tianhao's clearing speed increased a lot.

Originally, it took nearly seven hours, but this time it only took five hours to clear the Hell-level Goblin Kingdom.

However,

the rewards for clearing the dungeon this time were reduced by half.

This was still because Lin Tianhao broke the dungeon record; otherwise, the rewards wouldn't have been reduced by half, but by two-thirds, or even more!

However, what Lin Tianhao was pursuing now was no longer those rewards.

His main purpose in farming the Goblin Kingdom was to stack health.

Because the number of monsters was the same, the health Lin Tianhao stacked by farming monsters was also the same.

This time,

it still increased Lin Tianhao's health by more than 1.2 million.

Next,

Lin Tianhao cleared the Hell-level Goblin Kingdom twice in a row, and stacked nearly 2.5 million health again.

Today,

Lin Tianhao stacked a total of about five million health in this Goblin Kingdom!!

This speed of stacking health could be considered extremely terrifying.

Looking at the time, it was almost twenty-four hours, and the curse mark on his body was about to disappear.

After the curse mark disappeared, Lin Tianhao once again found someone to team up with and enter the Xitu Empire.

Since they wanted to fight a war of attrition, what did Lin Tianhao have to fear!!

After entering the Xitu Empire, Lin Tianhao was still the same as before, hunting high-level demons everywhere to strengthen his undead army.

"Xue Di, you're really a rogue. If you can't beat us, you just go around hitting and running. Is that fun?"

Grevort once again found Lin Tianhao.

Lin Tianhao glanced at Grevort and said with a smile:

"You say I'm running away? Wasn't it you who ran away last time?"

"When it comes to fighting, who am I afraid of?"

As soon as he finished speaking,

Lin Tianhao directly started attacking.

Because he had been hunting high-level demons of the Xitu Empire before, Lin Tianhao's Three Heads and Six Arms and Heavenly Punishment were both activated.

Now, upon seeing Grevort, he activated the crazy attack mode.
