

O game 63

Chapter 63 Kill the Silver Commander Valxun!

But these are two choices.

The latter is clearly unreliable.

In this critical moment, betting on that 0.5% chance of instant kill.

I looked at the proficiency of Death Cycle.

Only seven more proficiency points are needed to upgrade a star, and there are Bloodback Xuan Turtles resurrected nearby.

Using my 5.63 attack speed to kill seven Bloodback Xuan Turtles, and then after Death Cycle is upgraded, attack the Silver Leader?

It seems feasible.

But Lin Tianhao knew very well that this was too much of a gamble.

Therefore, he chose the third method.

Run!

Simply running away is definitely not an option.

Lin Tianhao jumped into the Blackwater Lake.

The Blackwater Lake is bottomless, Lin Tianhao put away his equipment and dived with all his strength.

At this moment.

The Silver Leader had already completed the ultimate move's charge, and the attack rushed towards Lin Tianhao.

"Boom!!"

The spear touched the water surface, immediately setting off a splash of water tens of meters high, and the spear was still rushing towards Lin Tianhao at an alarming speed.

Lin Tianhao switched to a shield and blocked the Silver Leader's attack.

-349580.

An extremely terrifying damage number floated above Lin Tianhao's head.

Lin Tianhao breathed a sigh of relief.

If he wasn't instantly killed, then he still had a chance.

He frantically swam towards the shore.

His first reaction after landing on the shore was to attack the Bloodback Xuan Turtle.

Recovering health while upgrading Death Cycle to two stars.

Death Cycle: 2 stars.

Effect: Your attacks have a one percent chance to instantly kill the enemy unit.

Cooldown: None.

Consumption: None.

Proficiency: 3/10000 (Note: This proficiency is obtained by killing monsters, NPCs, and adventurers whose level is not lower than your own. Each kill grants one proficiency point.)

Lin Tianhao had just killed ten Bloodback Xuan Turtles in one go, so there was still some overflow of proficiency.

But he didn't have time to think so much now, because the Silver Leader followed closely behind.

He burst out of the water, with flames on his spear, and stabbed straight at Lin Tianhao's face.

Lin Tianhao turned around and fired five arrows at the same time, continuing to kite.

Having lost his berserk state, the Silver Leader's threat to Lin Tianhao was negligible.

Lin Tianhao could completely recover the damage he dealt with blood-sucking.

But as a Silver-level boss, and the Royal Guard Commander of the Star Kingdom, how could he not see this?

Especially after taking a trip to the Blackwater Lake, he calmed down a lot.

"Come on, activate Berserk Physique and attack with all your strength."

The nineteen Bronze Guards all rushed up.

Berserk Physique fully activated, they charged frantically towards Lin Tianhao.

Lin Tianhao only felt his scalp tingle, immediately retreated, and fired five arrows at the same time.

Because...

The Silver Leader is dead.

"Ding, you have killed the Silver Leader Valen, a server-wide announcement is about to be made, do you want to hide your name?"

"Hide."

"Server-wide announcement, congratulations to player Hidden Nickname for completing the first kill of Silver Leader Valen, hereby announced, hoping that the majority of players will continue to work hard."

"Server-wide announcement, congratulations to player Hidden Nickname for completing the first kill of Silver Leader Valen, hereby announced, hoping that the majority of players will continue to work hard."

...

After Death Cycle was upgraded, this instant kill probability was triggered so quickly.

With the death of the Silver Leader, the remaining Bronze Guards were somewhat insignificant.

Even if they activated Berserk and Physique at the same time, Lin Tianhao was not afraid at all.

Because of the death of the Silver Leader, they were a little flustered, and their attacks were not as orderly as before.

The control connection was also somewhat lacking, and the result of this could only be that Lin Tianhao would break them one by one.

When the last Bronze Guard fell, a satisfied smile appeared on Lin Tianhao's face.

Finally, it was time to loot the corpse.

While Lin Tianhao was looting the corpse.

Star Kingdom, Royal Palace, Listening Rain Hall.

Queen Fio Dingyu's face sank, "How could Valen have died?"

"At this stage, none of those adventurers should be able to kill him."

Earlier, when she heard the server-wide announcement of the Bronze Guards being killed, she felt that there was a problem.

Now that even the Silver Leader Valen was dead, it made her realize the seriousness of the problem.

"Could it be that red-named adventurer?"

Behind Fio Dingyu, the old woman holding the Skull Scepter said gloomily.

Fio Dingyu shook her head, "With Valen's strength, that adventurer could never be a match."

"But since the power of the gods descended, only the adventurer's kill will have a server-wide announcement. If it's not him, then who could it be?"

"Don't forget, god envoys have already appeared among the adventurers. Those sleeping gods may want to control our Star Kingdom again."

Hearing this, the hunchbacked old woman looked a little ugly, "Currently, only traces of the god envoy's activities have been discovered, and their identity cannot be determined."

"But this red-named adventurer can almost be confirmed to be Xue Di. He is not a god envoy, yet he is so powerful. Is it possible to win him over to our camp?"

"It's not impossible, but I don't know if he will know that I was the one who sent people to capture him this time. If he knows, it might be more difficult."

"Your Majesty, you can rest assured about this. I didn't give your decree to Valen, just in case something went wrong. Xue Di won't know anything."

The hunchbacked old woman smiled gloomily: "As for winning him over, I can go and contact him."

"Well, go ahead. The benefits can be appropriately higher. Now that the battle for the throne is imminent, we really need a master like him."

...

Wilderness.

Lin Tianhao is now counting the rewards.

Level 50 equipment, level 50 skill books, and some potions and materials.

For him, they are negligible.

He couldn't use the weapons and skills of the spear warrior.

The only good thing was that by killing them, Lin Tianhao gained another 45,000 guild achievement points.

It takes 10 million guild achievement points to upgrade a five-star guild to a six-star guild, and these achievement points are still a drop in the bucket.

After putting away the things they dropped, Lin Tianhao prepared to continue farming monsters.

But suddenly.

His eyes looked towards the rear.

About fifty meters away from him, there was an assassin.

He was in stealth mode, but Lin Tianhao had the Immaculate Eye, so he could clearly see his position.

"President, confirmed, the red-named players wanted by the Demon King Grey Fuvronte are the same person."

"Not surprisingly, he is Xue Di. He is still farming Bloodback Xuan Turtles, the damage is very high, and it is not easy to deal with."

"Got it." Zhu Meng Yanxue responded calmly, "Wait for me, I will bring people over immediately."

"I must get the reward from the Demon King Grey Lorensen."

...

Lin Tianhao noticed the assassin.

But he didn't care.

Many guilds have dedicated exploration assassins who go out to explore the distribution of monsters in various areas all day long, whether there are special mechanisms, etc.

As for upgrading?

They only need to let high-level players take them to play for two hours every few days in a 9-1 experience distribution method.

Their levels are usually lower than ordinary players, but it is basically enough just to explore the map.

Lin Tianhao farmed monsters, and the assassin player watched from a distance, neither approaching nor leaving.

Just after Lin Tianhao had farmed two rounds of Blood Eye Xuan Turtles, he finally couldn't stand it anymore, and his eyes fell on the assassin player.

"What? Are you waiting for your guild members to come over?"
