

## O game 631

Chapter 631 - Battle of the Sky!

Grevlon snorted coldly.

"Snow Emperor, this time, don't even think about escaping."

As soon as he finished speaking.

Grevlon instantly unleashed his domain, charging towards Lin Tianhao.

His Nether Soul Domain was extremely powerful. As long as he could envelop Lin Tianhao within his domain, dealing with Lin Tianhao would become much easier.

Grevlon knew this, and Lin Tianhao knew it as well.

Therefore.

Lin Tianhao wouldn't give Grevlon the chance to get close to him.

He added all the free attribute points from this Holy Land Master settlement and the free attribute points he had previously obtained from farming the Goblin Kingdom to his movement speed.

Lin Tianhao's movement speed successfully broke through the 120 mark.

Coupled with Lin Tianhao's 50% movement speed bonus in the air, even Grevlon found it difficult to catch up with Lin Tianhao for a while.

"Escape? Where can you escape to?!"

Grevlon snorted coldly. With a wave of his hand, array disks flew out from his hand and landed in various places around them.

Lin Tianhao knew that Grevlon wanted to use the power of the grand array to seal off his movement space.

But how could Lin Tianhao let him have his way?

He immediately soared into the sky, flying towards the high altitude.

He could walk through the void, and in the Heaven's Punishment state, the attack distance was unlimited.

As long as his eyes could see it, his feathered arrow would definitely reach it.

Grevlon's expression was sinister. He naturally knew the special nature of Lin Tianhao's feathered arrows.

Most importantly.

In this high altitude, Village Chief Wang found it difficult to help him fight, which naturally put him at a disadvantage.

"Soul Temptation: Heart Demon Curse!"

Grevlon made hand seals, actually using a curse on Lin Tianhao again.

Lin Tianhao's expression turned grim, and the purification jade pendant on his chest began to heat up.

Even the purification jade pendant was struggling to withstand the curse-type skill of a level 10,000 Demon King.

Especially since.

The current purification jade pendant was already damaged. The fact that it could withstand the curse without directly cracking was enough to show the power of the purification jade pendant.

But this was not a long-term solution after all.

The purification jade pendant had reached its limit. If it were destroyed, Lin Tianhao would really feel like crying.

During this period, Lin Tianhao had killed many experts and had obtained some equipment evolution scrolls sporadically.

Originally, Lin Tianhao wanted to wait and see if there would be a need to use the equipment evolution scrolls in the future.

But in this situation, he didn't have much choice.

He directly used all the equipment evolution scrolls he had on him on the purification jade pendant.

"Ding, you used an equipment evolution scroll on the purification jade pendant. The purification jade pendant is being purified..."

"Ding, unfortunately, the evolution failed."

"Ding, you used an equipment evolution scroll on the purification jade pendant. Your equipment purification jade pendant is being purified..."

"Ding, unfortunately, the evolution failed."

...

The stats of the purification jade pendant were already very high, so five consecutive attempts failed.

But Lin Tianhao was still not discouraged and used the sixth equipment evolution scroll. This time, it finally succeeded.

"Ding, congratulations, the purification jade pendant has successfully evolved."

While using the equipment evolution scrolls, Lin Tianhao was still constantly flying into the high altitude, increasing the distance between him and Grevlon.

The demons that had already been killed could not respawn like the Goblin King instance dungeon.

That is to say.

The demons of the Xitu Empire would be killed less and less, until they were completely wiped out.

Lin Tianhao used thirty equipment evolution scrolls in a row.

He only succeeded three times in total.

This success rate was a bit too low.

This was also why he had previously paused using equipment evolution scrolls on the purification jade pendant.

"Snow Emperor, you are too arrogant. You actually dare to be distracted during battle."

Grevlon was a little annoyed. He raised his palm, and black energy surged in the sky. A demonic hand slapped down towards Lin Tianhao.

Lin Tianhao's expression changed drastically, because the moment this hand appeared, only Return remained usable among all his unique skills.

This was a lock-on skill.

Forcing his movement skills into silence.

"Bang—"

The demonic hand slapped Lin Tianhao, and Lin Tianhao's health plummeted.

-190 million!!

The attack of this demonic hand was terrifyingly powerful!!

You must know.

Lin Tianhao had transferred 90% of the damage to the Sea God Poseidon.

Yet even so, he actually still suffered nearly 200 million damage.

That is to say.

The damage that Grevlon's attack should have originally dealt was as high as 1.9 billion!!

Terrifyingly powerful!!

At this stage, apart from Fatty and Lin Tianhao, probably no one else could withstand this level of attack.

Perhaps Lin Qingqing could barely withstand it.

She increased her health by one million per day, and her current health should be around 240 million.

Originally, the increase in Lin Qingqing's health was even faster than Lin Tianhao's.

But now that Lin Tianhao's talent had reached four stars, coupled with the various amplification effects on his body.

Just the Book of Life and Death alone could increase Lin Tianhao's health by about 800,000 per day.

If you also count Lin Tianhao's basic attacks adding health, as long as Lin Tianhao was willing.

Increasing his health by tens of millions a day was not a problem at all.

Because before, in the Goblin Kingdom, Lin Tianhao stacked more than 1.2 million health points each time he cleared it.

That was without counting the amplification.

If you count the amplification, Lin Tianhao could actually increase his health by as much as 2.8 million each time he cleared the Goblin Kingdom.

Clearing it four times a day was not a big problem, which meant he could stack more than 11 million a day.

Plus the stacking from the Book of Life and Death.

Lin Tianhao could increase his health by more than 12 million a day.

Of course.

These were just ideal conditions.

Lin Tianhao still needed to continue changing classes, still needed to comprehend the Dao, and still needed to do some necessary tasks. It was not so easy to wholeheartedly stack health.

The battle continued.

Grevlon's attacks on Lin Tianhao became more and more fierce, and Lin Tianhao's health continued to decline further.

If it weren't for the damage transfer, Lin Tianhao didn't know how many times he would have died.

These consecutive collisions in the air also attracted the attention of many adventurers below.

"Look, someone is fighting in the sky!!"

"They're flying too high, right? The two people look like ants, but one of them has really flashy attacks."

"I wonder who they are. To start a great war above the sky, that's too cool, right? I wonder when I'll be able to be like them, standing at the peak of the sky, looking down on all living things."

"Having dreams is good, but having fantasies is your fault."

...

Many adventurers were discussing, and some powerful demons of the Xitu Empire also noticed this scene.

"This Snow Emperor is more difficult to deal with than we imagined. It seems necessary to step in and help Grevlon."

Chapter 632 - To the Dragon Cave!

Someone strode forward, his body covered in white scales, dressed in white, and holding a blue long sword.

With one step, he had already arrived above the void.

"Snow Emperor, the number one adventurer, I also want to try, how many swords can you take from me."

Lin Tianhao, who was dealing with Grey Vorontert, suddenly changed his expression. He was already struggling to deal with Grey Vorontert alone.

Lin Tianhao, who was in the nine-colored heaven and earth, felt his body being constantly torn apart.

-17.25 million!!

Critical hit!!

-34.5 million!!

...

One after another damage numbers appeared above Lin Tianhao's head.

The power of this sword is terrifying.

Lin Tianhao used the Creation Jade Disc to record the sword dao laws contained in this sword of the white-clothed demon.

Preparing for him to comprehend the sword dao later.

The white-clothed demon looked at Lin Tianhao, slightly surprised.

"Your resistance and damage reduction are so high, no wonder Vorontert has not been able to take you down."

Their damage is very, very high, but the damage reduction and resistance that Lin Tianhao has shown are indeed a bit too high.

"However, Vorontert is not the main attacker, let me, the king of attack, try it out, how many swords can you withstand from me."

When the words fell.

The white-clothed demon raised the long sword in his hand, lightning flashed on the long sword, and a majestic force of thunder swept towards all directions.

Lin Tianhao's eyes narrowed slightly, he actually felt a bit of threat.

A king who specializes in attack, it is possible for a sword to deal 10 billion damage.

Even if it is rumored.

At this stage, the power of high-level powerhouses will be suppressed to a certain extent, just like gods.

Especially when attacking adventurers, this suppression will be more obvious.

But the king is still the king, even if suppressed, not just anyone can take advantage of.

"Sword Raises Royal Court!"

The white-clothed demon struck down with his sword, sword energy swept across all directions, and a sword energy royal court pressed down from the front, instantly pressing down on Lin Tianhao's head.

Lin Tianhao's pupils suddenly shrank, these kings' methods are a bit too unreasonable.

Because this time he discovered that all his displacement skills except for Return had turned gray and could not be used.

Lin Tianhao still has the invincible golden body to use, but he is not in a hurry to use it.

"Boom--"

The huge power fell, Lin Tianhao's face changed drastically, and his expression became extremely serious.

-1.35 billion!!

With this sword, Lin Tianhao's health dropped a lot.

If it weren't for damage transfer, this sword would have been enough to kill him.

Lin Tianhao took a deep breath, in today's battle, he has no chance of winning.

Sure enough.

The white-clothed demon raised the long sword in his hand and said indifferently:

"Ten Thousand Swords Pierce the Heart!!"

The flying sword in his hand turned into countless streamers, piercing through Lin Tianhao's chest.

Dry Wood Revives Spring triggered!!

But this time, before Lin Tianhao's Dry Wood Revives Spring could restore his health, it was quickly emptied again.

Lin Tianhao used Return to leave the battlefield.

Facing a real powerhouse, he is still too weak.

Especially.

He has already been targeted by the powerhouses of the Xitu Empire. To capture the Xitu Empire, he still needs to plan carefully.

After returning to the Fan Palace.

Lin Tianhao began to ponder how he should snowball next.

The white-clothed demon's sword was too terrifying.

Lin Tianhao's biggest gain from this trip was that the Creation Jade Disc recorded the white-clothed demon's sword dao.

Next, Lin Tianhao only needs to spend some time to make great improvements in the sword dao.

However, the several confrontations with the Xitu Empire also made Lin Tianhao realize a very serious problem.

Without using the power of the gods, he is still too weak compared to these real kings.

If it weren't for the two heaven-defying skills of damage transfer and Heavenly Punishment state.

Lin Tianhao would not even have the capital to confront them.

Next.

If he wants to capture the Xitu Empire, he must have more obvious improvements.

At least.

In terms of health, even if his health is increased by another 100 million, or even 1 billion, it will be difficult to influence the outcome of his battle with the white-clothed demon or Grey Vorontert.

If you want to have obvious improvements, one is to further change jobs.

Finding new Heavenly Punishment equipment, carrying out the fourth change, or even the fifth change, this should be the fastest.

Besides this.

There is also enlightenment.

But Lin Tianhao's warrior profession has not yet been transferred. Even if the sword dao is improved, he has sword dao in vain, and there is no corresponding profession to support it.

Lin Tianhao is still difficult to contend with the white-clothed demon.

Since these are not possible, then there is still one last choice!

Dragon Cave!!

Before, Berserker Blade had approached Lin Tianhao, wanting Lin Tianhao to help them explore the Dragon Cave together.

Originally, Lin Tianhao was planning to consider going to the Dragon Cave after passing the Xitu Empire.

But now it seems that it will be extremely difficult for him to pass the Xitu Empire.

Therefore.

Lin Tianhao can only go to explore the Dragon Cave first.

Looking at the vast Boundless Palace, you will know that if Lin Tianhao can obtain some treasures in the Dragon Cave, the improvement to Lin Tianhao will definitely not be small.

After figuring out these things, Lin Tianhao directly contacted Berserker Blade.

"Blade, do you have any arrangements? I am going to explore the Dragon Cave with you."

Berserker Blade was very happy when he heard that Lin Tianhao actually agreed to explore the Dragon Cave.

"Okay, I will arrange manpower to explore the Dragon Cave with you."

"I will send you the location of the Dragon Cave."

"Okay."

Lin Tianhao received the location sent by Berserker Blade and rushed over directly.

The location of this Dragon Cave surprised Lin Tianhao a bit.

Because this Dragon Cave is exactly the Land of Chaos from the beginning.

Returning to the Land of Chaos again, revisiting the old place, everything has changed.

Because of the revival of the Mountain and Sea Empire, many buildings in the Land of Chaos have changed greatly.

Arriving at the location sent by Berserker Blade, Lin Tianhao found that there were sentries here.

When Lin Tianhao approached here, a huge Bloodthirsty Gorilla jumped out and roared at Lin Tianhao.

Bloodthirsty Gorilla King (Gold): Level 295.

Health: 1.05 billion!!

Attack: 414312.

Skills: Meteor Heavy Punch, Bursting Roar, Bloodthirsty Frenzy, Rage, Super Armor...

Lin Tianhao narrowed his eyes slightly, the attributes of this Bloodthirsty Gorilla King are good, at least Lin Tianhao cannot kill it with one arrow.

It takes two arrows in the case of a critical hit, and if it is not a critical hit, it takes four arrows.

The health of the level 295 gold boss is already good.

"This place has been reserved, leave immediately if you don't want to die."

A slightly arrogant voice sounded.

Then I saw a person sitting on the shoulders of a stone man, walking out of the woods.

Lin Tianhao glanced at the other party, Immortal from the North Sea, this is not a familiar name.

However, Lin Tianhao didn't care about these, and said straight to the point:

"I am the Snow Emperor."

Chapter 633 - Enter the Dragon Cave: Super God-level Special!

Bei Hai You Xianren's attitude didn't change much upon hearing this.

"You are the Snow Emperor, the number one adventurer."

"Blade has explained, come in."

As he spoke.

The Bloodthirsty Ape King made way, and Bei Hai You Xianren continued:

"I've also been inside this Dragon Cave, and it's difficult to crack with conventional methods."

At this point.

Bei Hai You Xianren lowered his voice and said:

"That Su Li, what is she to you? Rumor has it that Su Li's rise is all because of you."

Lin Tianhao was stunned for a moment, then said: "She is a member of our Fan Palace."

"Do you like her?"

Bei Hai You Xianren suddenly asked.

"You're the one who likes her, aren't you?" Lin Tianhao couldn't help but say.

Bei Hai You Xianren grinned, "I just think that an excellent female summoner like Su Li should be paired with a male summoner like you."

"Wise men don't fall in love. I suggest you seal your heart with cement and sever your love ties. Only then can you achieve the pinnacle."

Lin Tianhao looked at Bei Hai You Xianren with a serious face.

"I've seen your summons. They're very powerful and have good potential. They shouldn't be delayed by love and relationships."

Bei Hai You Xianren's forehead was covered with black lines, "Saying so much, it seems you really like Su Li."

Lin Tianhao: ? ? ?

"Didn't I say? Wise men don't fall in love. You can think of my feelings for Su Li as your Guild Leader's feelings for you."

Bei Hai You Xianren looked around and whispered:

"How do you know our Guild Leader likes me?!"

"He even told you about this? No wonder some people in the guild have been saying that the Guild Leader might have a change of heart recently."

Lin Tianhao: ? ? ?

This is a bit too much information.

He had never heard of Kuangzhan Daofeng having this kind of hobby in his previous life.

"Stop, let's not continue this topic. I have no romantic feelings for Su Li. If you're interested, you can try to pursue her."

Bei Hai You Xianren showed a satisfied smile on his face.

Lin Tianhao, however, retracted his thoughts and asked with a smile:

"You've been inside the Dragon Cave, what's it like inside?"

Bei Hai You Xianren's expression suddenly became serious when he heard Lin Tianhao mention the Dragon Cave.

"I don't know if all Dragon Caves are like this, but in the place we came into contact with, once you enter, no matter how powerful you are in the game, you will become an ordinary person."

Lin Tianhao was a little surprised, "Since breaking through the Dragon Cave has nothing to do with strength, why did Daofeng invite me here?"

Bei Hai You Xianren looked around and lowered his voice and said:

"Indeed, it's because of this that Daofeng had a dispute with the people above."

"The attitude of the higher-ups towards you has always been unclear. They have only made it clear that they cannot be enemies with you and can cooperate."

"But more than that, it's not clear."

Lin Tianhao frowned slightly. He wasn't too surprised by this result.

He actually already had the capital to renegotiate with the Dragon Kingdom's higher-ups.

But Lin Tianhao was very clear that now was not the time.

"Is everyone here? I'm going to go into the Dragon Cave and take a look first."

Lin Tianhao didn't want to waste too much time and directly stated his intentions.

"No problem."

Bei Hai You Xianren led Lin Tianhao through layers of checkpoints. Inside, Lin Tianhao saw three people.

Lin Tianhao knew the leader, the captain of the special forces team, Captain Long!

The person on his left was tall and thin, holding a short sword, and his name was: True Sword Inheritor.

The person on the right was named God's Hammer, a little short and fat, also a warrior, but the weapon in his hand was a heavy hammer.

"Hello, Snow Emperor, I'm Captain Long. I'm very happy to be able to cooperate with you."

Captain Long was quite enthusiastic and took the initiative to greet Lin Tianhao.

"After we enter the Dragon Cave, the scenes we encounter each time, the situations we face, are completely different."

"The only thing that's the same is that after we go in, the attribute panel will turn gray, and all skills and equipment cannot be used, not even artifacts."

"In other words, as long as we go in, we will all become ordinary people."

Lin Tianhao nodded and smiled: "Well, I know everything. Saying more is not as good as going in yourself."

"Okay."

Under the leadership of Captain Long, Lin Tianhao, Bei Hai You Xianren, True Sword Inheritor, and God's Hammer, a group of five people, passed through the tree hole in front and came to an open tree house.

There were five doors in front of the study, and Captain Long said:

"The five doors will not open at the same time. Only one door will open each time, and even if we enter the same door, we still cannot encounter the same scene."

Lin Tianhao nodded and didn't say anything.

Captain Long stepped forward and turned a pillar in the middle of the tree house.

As the pillar turned, a door opened.

Behind the door was extreme darkness. Even standing at the door, you couldn't see anything inside.

"Let's go."

Captain Long took the lead and stepped into it, and Lin Tianhao followed closely behind.

The moment he passed through the door, Lin Tianhao felt a clear change in the surrounding space.

After he passed through this extreme darkness, he appeared in front of a dilapidated village.

Captain Long and Bei Hai You Xianren both appeared there.

The few people looked at each other, and Captain Long said seriously:

"We haven't been to this place before. Next, we all have to explore again."

Listening to Captain Long's words, Lin Tianhao subconsciously prepared to call out his attribute panel.

It was okay if he didn't check, but once he checked, Lin Tianhao couldn't help but be startled.

Because his attribute panel was somewhat different from what Captain Long and the others said.

Indeed, many parts of his attribute panel had turned gray.

But not all of them.

His talent was still lit, and his Super God-level Hidden Profession was still lit.

The skills attached to his Super God-level Hidden Profession were also lit.

Captain Long had said before that artifacts could not be used here.

So Lin Tianhao tried to use the Asura God Sword again.

He failed.

This shows that artifacts cannot be used here indeed.

And Lin Tianhao's talent and hidden profession are both Super God-level.

This should be the reason why they didn't turn gray.

The rule of this Dragon Cave is to suppress existences at the God-level and below. The Super God-level is not included.

Not only that.

Lin Tianhao also discovered an exception, that is, his Fiery Eyes of Truth seemed to be able to continue to be used.

The Fiery Eyes of Truth can be considered a skill, or it can be considered a part of his body. It is estimated that it is because of the latter that the Fiery Eyes of Truth can continue to be used.

Suddenly.

Lin Tianhao thought of something.

Doesn't this mean that in this place, the only one who currently possesses peak combat power is him!

Weapons cannot be used here, but Lin Tianhao is not afraid. He has the heaven-defying skill Arrow Follows the Heart.

Just ask, who else!

"Snow Emperor, we can't use our original weapons here, but we can use the materials inside to make weapons."

Captain Long said seriously:

"Although we can't use skills and equipment, the monsters and some of the mechanisms inside are not particularly powerful."

"Preparing weapons in advance is entirely possible to fight."

Chapter 634 - Big head doll!

Lin Tianhao looked around. Ahead was a desolate village, and it was obviously impossible to temporarily craft a bow and arrow.

However, finding a random wooden stick wouldn't be a problem.

Although wooden sticks didn't have attribute bonuses, Lin Tianhao had the passive effect of the Hand of Heavenly Punishment.

“Let's go.”

Dragon Team selected a wooden stick as thick as an arm and took the lead.

Lin Tianhao and the others followed behind. At this moment, the sound of da da da footsteps came from the front of the village.

Along with the sound of footsteps, a big-headed doll appeared in their sight.

This big-headed doll had a head as big as a washbasin, and its body was thin and small, making it look extremely disproportionate overall.

He didn't seem to see Lin Tianhao and the others at all, swaggering towards them.

Dragon Team was on high alert, and the wooden stick in his hand instantly chopped down.

The big-headed doll's body actually shifted horizontally in place, avoiding this blow.

Dragon Team's practical experience was quite rich. When the stick missed, he swung it backhand in a sweeping motion towards the big-headed doll.

Lin Tianhao wasn't in a hurry to attack. He also wanted to see how much this Dragon Cave monster was capable of.

The big-headed doll jumped up and landed steadily on the wooden stick in Dragon Team's hand.

No matter how Dragon Team waved the wooden stick, the big-headed doll's feet seemed to be glued to the wooden stick, unaffected in the slightest.

Suddenly.

A strange smile appeared on the big-headed doll's face.

Immediately afterwards.

His body turned into a stream of light, and in the blink of an eye, he had already rushed to Dragon Team's side.

Dragon Team's expression changed slightly. He abandoned the wooden stick in his hand, retracted his palm into a fist, and punched out.

The moment the fist came into contact with the big-headed doll, it was easily avoided by the big-headed doll.

The big-headed doll jumped up and landed on Dragon Team's head.

Dragon Team, who had rich combat experience, was only being played with in the hands of this big-headed doll.

“Looking for death!”

The True Sword Successor pointed the wooden stick in his hand towards the big-headed doll's brow.

The big-headed doll directly reached out and grabbed the True Sword Successor's wooden stick, and then with a crack, he broke the wooden stick in the True Sword Successor's hand.

“Damn it, he's just playing with us.”

Immortal Beihai was very annoyed. The big-headed doll's strength was far above theirs.

But he hadn't attacked them all along, purely playing an old man teasing a naughty child!

Lin Tianhao narrowed his eyes, and the wooden stick in his hand swung out, hitting the big-headed doll.

The big-headed doll seemed to sense something, and a hint of surprise appeared in his always calm eyes.

He flashed back, but Lin Tianhao continued to attack.

The wooden stick in Lin Tianhao's hand was wielded with great force.

The big-headed doll's movement was exquisite, always able to cleverly avoid Lin Tianhao's wooden stick.

"He seems to be very afraid of the wooden stick in Snow Emperor's hand."

Immortal Beihai keenly noticed something different.

Dragon Team also discovered this problem.

"Snow Emperor, is there anything special about your wooden stick?"

Lin Tianhao smiled slightly, "Maybe he'll die if he touches my wooden stick!"

Dragon Team and the others were a little surprised. The True Sword Successor's wooden stick was easily broken just now.

What was so special about Lin Tianhao's wooden stick that it could kill this big-headed doll.

“No fun.”

Even during this time of fighting the big-headed doll, Lin Tianhao felt that his understanding of movement had become more profound.

However, it was not easy to improve movement through such battles.

Therefore.

Lin Tianhao was preparing for a quick battle.

“咻——”

An arrow suddenly flew out, and not to mention the big-headed doll, even Dragon Team and the others were dumbfounded.

After all, Lin Tianhao didn't have a bow or crossbow in his hand, so how was this arrow shot out?

The big-headed doll immediately used his movement to prepare to avoid Lin Tianhao's arrow.

But how could he possibly avoid it?

Lin Tianhao knew that his movement was remarkable, so he activated the Heavenly Punishment state for the arrow.

Sure enough.

When the arrow approached him, the big-headed doll shifted to the left.

Under normal circumstances, he would be able to avoid Lin Tianhao's arrow.

But the result was going to disappoint him.

Because the arrow actually shifted with him.

A clear look of surprise appeared in the big-headed doll's eyes.

Looking at the arrow close at hand, he quickly retreated. During the retreat, his body actually split into two.

Lin Tianhao's arrow hit one of the clones, tearing it apart.

The remaining big-headed doll showed surprise on his face when he saw that his clone was killed by Lin Tianhao's arrow.

In the next instant.

He rushed towards Lin Tianhao.

His movement speed was not slow, but under Lin Tianhao's Fiery Eyes, his movement speed seemed a little too slow.

The main thing was.

Lin Tianhao had been facing high-level powerhouses starting at Nine Revolutions during this time.

Although this big-headed doll was a bit strange, in terms of the attributes he was currently displaying, there was still a gap compared to those Seven or Eight Revolutions existences.

Under Lin Tianhao's Fiery Eyes, the big-headed doll's movement speed naturally seemed a bit too slow.

The arrow comes from the heart!

Lin Tianhao directly pulled his attack speed to the maximum, twelve arrows per second, enveloping the big-headed doll in the blink of an eye.

The big-headed doll's eyes narrowed slightly, and his figure turned into an afterimage, trying to dodge Lin Tianhao's arrows through his exquisite movement.

But in the Heavenly Punishment state, even gods could not avoid Lin Tianhao's arrows, let alone this little big-headed doll.

Seeing Lin Tianhao's twelve arrows per second, Dragon Team and the others were dumbfounded.

Not because Lin Tianhao's attack speed was so fast.

On the contrary.

The elite members of their team now basically had attack speeds exceeding ten.

Some people with extraordinary talents had even broken through thirty.

“Didn't you say that skills cannot be used in the Dragon Cave?” Immortal Beihai looked at Dragon Team.

Dragon Team spread his hands and said helplessly: “Don't look at me, I don't know what's going on?”

“Is this the Snow Emperor? He should have some kind of power that surpasses the suppression here.” True Sword Successor said solemnly.

Hearing this.

Everyone present was shocked. Immortal Beihai couldn't help but say:

“In this Dragon Cave, even artifacts cannot be used, and god-level hidden professions still cannot function.”

“If Snow Emperor's power is still above this, then what is it?”

“The legendary Saint power? Or Super God level?”

Dragon Team said in a deep voice:

“Is there any difference? Isn't Saint power beyond the God level?”

Lin Tianhao didn't care about their thoughts. At this time, the big-headed doll's body was constantly splitting into clones.

As he split more and more clones, his body became more and more blurred.

It seemed that as long as they continued to attack, the big-headed doll would completely disappear.

However.

What no one present expected was that when the big-headed doll's body stopped splitting, it actually began to expand.

Chapter 635 - Harvest: Treasures in the village!

After expanding and growing larger, the big-headed doll's face became even more (zhengning - hideous), and its body also changed from a solid to a ethereal form.

“Ethereal form?”

The Dragon Team leader's expression instantly became extremely unsightly.

The True Sword inheritor gritted his teeth and said:

“It's like this again, every time there's this kind of inescapable dead end.”

“Ethereal state, conventional attacks can't even touch it, how are we supposed to fight this?”

Immortal Beihai frowned and said in a deep voice: “We can't say that, the ethereal form isn't invincible, perhaps Snow Emperor has a way.”

The Dragon Team's gazes all fell on Lin Tianhao.

Facing the ethereal form.

They didn't have a better plan, they could only place their hopes on Lin Tianhao.

Lin Tianhao smiled slightly, this ethereal form was useless to him.

In his Heavenly Punishment state, his arrows were guaranteed to hit.

Even gods couldn't be immune, let alone this mere ethereal form.

“Shoosh, shoosh, shoosh—”

The feathered arrows continuously pierced through the air, and the big-headed doll's ethereal form was still hit by Lin Tianhao's arrows.

“As expected, Snow Emperor, you can always believe in him!!”

The True Sword inheritor couldn't help but sigh, “I wonder when we'll have Snow Emperor's strength.”

God's Hammer shook his head and said helplessly: “Snow Emperor's myth is hard to replicate, his strength and foundation mean that it's impossible for someone like him to be born again in the future.”

After the ethereal big-headed doll was killed by Lin Tianhao, a scroll dropped from its body.

Lin Tianhao stepped forward to pick up the scroll, instantly obtaining the big-headed doll's information.

Ghost Child Summoning Scroll: God-level item.

Usage requirement: Snow Emperor only.

Effect: Summons a ghost child to help you fight.

Note: This item is a one-time use item, the summoned ghost child's existence time is unlimited, death occurs upon being killed.

Durability: Indestructible.

Lin Tianhao's eyes narrowed slightly.

The grade evaluation of this Ghost Child Summoning Scroll was actually God-level, which surprised Lin Tianhao somewhat.

If this ghost child was a god-level expert, then it was too weak.

Average speed, average attack, taking damage would split into clones to resist, and there was also a skill similar to invulnerable etherealization.

Combining these, it was just a strange and difficult boss, not that powerful at all.

“Only I can use this, it's mine, no objections, right?”

Lin Tianhao waved the Ghost Child Summoning Scroll in his hand.

“No problem.”

The Dragon Team didn't say much, and followed Lin Tianhao into the village.

Lin Tianhao had been keeping his Fiery Eyes of Truth open the whole time, so his vision was even sharper.

Not far in, Lin Tianhao couldn't help but let out a light exclamation.

“Equipment Evolution Scrolls?”

Lin Tianhao found two Equipment Evolution Scrolls at the entrance of a dilapidated thatched hut.

Just as he picked up these two Equipment Evolution Scrolls, Lin Tianhao was stunned.

Because in this thatched hut, scattered haphazardly, like trash, was a large pile of Equipment Evolution Scrolls.

Just roughly calculating, Lin Tianhao came to a terrifying number.

There were no less than one hundred Equipment Evolution Scrolls in this room!!

You must know.

In the early stages of the game, Lin Tianhao had to rack his brains to get an Equipment Evolution Scroll.

But he never expected.

Here, Equipment Evolution Scrolls were discarded here like cabbages.

The Dragon Team also gathered around, they all had stunned expressions at this time.

“No wonder they say the wealth in the Dragon Cave is unimaginable, just this thatched hut has so many Equipment Evolution Scrolls, what about other places?”

Lin Tianhao's gaze fell on the Dragon Team and asked:

“How do we split this?”

The Dragon Team pondered slightly, “Half and half, this is my maximum authority.”

Lin Tianhao nodded, “No problem.”

There were more than one hundred Equipment Evolution Scrolls here, dividing it in half was a considerable gain for him.

Especially since.

This was just one thatched hut in this dilapidated village, not all of them.

Immortal Beihai obviously realized this too, he immediately ran to the thatched hut next door.

He pushed the door, the originally dilapidated door should have collapsed directly.

But he pushed hard, and the door didn't even move.

“Is it possible that the door opens outwards.”

The True Sword inheritor walked over and pulled open the door of the thatched hut.

The moment the door was pulled open, a scene that stunned them appeared.

A large amount of gold coins poured out from the doorway, directly submerging most of the True Sword inheritor's body.

A house full of gold coins.

This amount is immeasurable.

However.

After seeing clearly that it was gold coins, the few people were only briefly surprised.

After all, as far as gold coins were concerned, they were not lacking.

Before the Twilight of the Gods, they might still lack gold coins.

But now, with the unremitting efforts of the gold farming teams, gold coins have become just numbers.

They could do most of the things that gold coins could do.

At this time.

Lin Tianhao and the Dragon Team had already finished dividing the Equipment Evolution Scrolls.

Sixty-eight Equipment Evolution Scrolls per person, this gain was very good for both of them.

Next, the gold coins were divided more casually, after all, this thing was not lacking for either Lin Tianhao or the official representative of the Dragon Team.

Next.

Lin Tianhao and the others continued to explore the remaining thatched huts.

As a result, they didn't encounter any danger.

After the gold coins, they also obtained some equipment and skill books.

There were also some Yellow-rank hidden class transfer scrolls.

That's right.

Some!!

Even the transfer scrolls for hidden classes appeared in piles.

I have to say.

The Dragon Cave really is a treasure trove.

“Snow Emperor, these Yellow-rank hidden class transfer scrolls shouldn't be of any help to you, why not give them to us.”

“If there is something that can help you more later, we can also give it to you.”

The Dragon Team took the initiative to make their request.

After all, although Yellow-rank hidden classes can't create true top experts.

But if they can be transferred in batches, they can still form a strong team.

“No problem.”

Lin Tianhao's cooperation with the authorities has always been good, and the authorities have given him a lot of help.

Now, giving up some of the benefits he doesn't need may exchange for more wealth in the future, he has no reason to refuse.

“Check carefully again, see if there are any good things in this village that we haven't discovered.”

The Dragon Team gave an order.

The least valuable thing in this village may be the house of gold coins.

As for the others, releasing them could make the players break their heads to get them.

“There shouldn't be any.”

Lin Tianhao said, he had the Fiery Eyes of Truth, seeing everything in detail.

If there were good things, it was unlikely that they could escape his Fiery Eyes of Truth.

“Since that's the case, then we'll continue to move forward.”

In front of the village, there were three dark paths, each path ending in absolute darkness.

Even if Lin Tianhao used his Fiery Eyes of Truth to look, he couldn't see through the darkness.

Chapter 636 - Free withered fruit!

"How to choose?"

Lin Tianhao's gaze fell on Team Long.

Team Long heard this and a helpless expression appeared on his face, "Snow Emperor, we didn't even pass the first round before."

"We don't know anything about what's behind."

Lin Tianhao nodded, "Based on the situation in this first level, the structure of the Dragon Cave should be layers of guardians. Defeat the guardians to obtain the treasures of the land they guard."

Having said that.

Lin Tianhao changed the subject and continued:

"Of course, all of the above are just my personal guesses."

Team Long nodded, "Actually, I have this kind of guess too."

"Let's go."

Lin Tianhao chose the middle path and walked towards the end of the darkness.

When Lin Tianhao passed through the darkness, he appeared in a desolate valley.

There were many withered trees in the valley, the ground was gray, the sky was gray, and the trees were gray.

Everything here seemed to be gray.

As soon as Lin Tianhao set foot here, his hand couldn't help but be placed on his chest.

"My heart is beating so fast."

Immortal Beihai spoke of the change that came over him.

Lin Tianhao's heart rate suddenly increased too much.

"Dong dong dong — —"

The heartbeat became more and more rapid, as if it was about to jump out of his chest.

Lin Tianhao pressed his chest hard.

Hammer of the Gods even half-knelt on the ground, his body trembling uncomfortably.

Lin Tianhao looked around, trying to find the source of their palpitations.

Suddenly.

Lin Tianhao's heartbeat began to gradually ease and return to normal.

No!

It's not that his heartbeat returned to normal.

Immortal Beihai's veins bulged, cold sweat dripped from his forehead, and he was arched on the ground, shaking uncontrollably.

Lin Tianhao knew that they couldn't last too long.

Immediately rushed into the valley.

There must be something affecting them. As long as they find it and destroy it, they can break through this level.

Team Long saw Lin Tianhao rushing out, covering his chest and complaining:

"What a pervert!"

"Cheat!"

"Fortunately, he is from our Dragon Kingdom."

Several people looked at Lin Tianhao's back, each with their own feelings.

Their hearts were beating so fast that they were about to die, but Lin Tianhao was rushing around as if nothing had happened.

"Found it!!"

Lin Tianhao's eyes fell on a strange tree.

If it weren't for his Fiery Eyes of Truth, he wouldn't be able to see through this thing.

"Whoosh — —"

The feather arrow pierced through the air, and this dead tree was hit by Lin Tianhao's feather arrow.

Immediately afterwards.

This tree actually rose from the ground and turned into a treant, and began to flee frantically.

Lin Tianhao snorted coldly, and directly went all out, the feather arrows constantly piercing through the air, and under the lock of Heaven's Punishment, accurately hit the treant.

"Whoosh whoosh whoosh — —"

Seven arrows in a row, this treant was finally killed by Lin Tianhao.

When the treant was killed, the heartbeat finally returned to normal.

This treant.

Should be the guardian of this level.

Merely.

When Lin Tianhao solved the treant, only Team Long and Immortal Beihai came over.

Immortal Beihai cupped his hands, "It's still you, Snow Emperor. Without you, we would probably be wiped out again."

"Where are they?" Although Lin Tianhao had already guessed it, he still asked.

Team Long smiled bitterly, "Their hearts may not be very good. Before you solved the treant, they had already hung back to the city."

Lin Tianhao spread his hands helplessly and said:

"I tried my best."

Team Long nodded and said seriously:

"Let's look around first. If the guess is correct, there should be good things here too."

"I found it. I want this thing."

"What is it?" Team Long asked subconsciously.

Lin Tianhao picked up a dry stick from the ground.

This stick is only the size of a ping pong ball, black and dull, and just looking at the appearance, it doesn't seem like much.

But Lin Tianhao knew that this thing was very awesome.

Free Wilted Fruit (Special): Medicinal material.

Usage requirements: None.

Effect: Grants one hundred free attribute points upon use.

Note: Each person can use up to one hundred Free Wilted Fruits.

Durability: 100.

Team Long was dumbfounded after seeing the attributes of the Free Wilted Fruit.

Because there are Free Wilted Fruits all over the place here, if not a thousand, there are also eight hundred.

"Snow Emperor, this Free Wilted Fruit is also of great help to us, can you give us some."

Lin Tianhao pondered for a while, and finally said:

"Collect them first, and then see how to distribute them after determining how many there are."

While speaking.

Lin Tianhao walked towards the treant that was killed before.

Before, killing the Big Head Doll dropped things.

Now killing this treant, there is no reason not to drop things.

Sure enough.

Lin Tianhao saw a scroll in the pile of dead wood.

Heart Tree Summoning Scroll: God-level item.

Usage requirements: Snow Emperor only.

Effect: Summons the Heart Tree to help you fight.

Note: This item is a one-time use item. There is no limit to the existence time of the summoned Heart Tree. It dies when killed.

Durability: Indestructible.

Lin Tianhao was a little surprised. It was another summoning scroll, and its rank was God-level again.

No wonder the number of gods in the Vast Infinity Palace is more than other holy lands.

It turns out that in the Dragon Cave, in addition to obtaining other treasures, the biggest gain should be this summoning scroll.

Although Lin Tianhao hasn't used it yet, he can also judge it.

The existence summoned by this summoning scroll is likely to be a god.

After putting away the summoning scroll, Lin Tianhao began to pick up the Free Wilted Fruits.

Fifteen minutes later.

The three of them finally finished picking up the Free Wilted Fruits, and the number of Free Wilted Fruits was also calculated.

"A total of one thousand two hundred and thirty-six Free Wilted Fruits, Snow Emperor, let's split it in half, how about you take thirty-six more?"

Lin Tianhao frowned slightly and said in a deep voice: "I want eight hundred."

To be honest.

Although he is willing to cooperate with the official, not all of the official's subordinates are good people.

These Free Wilted Fruits are definitely going to be used by top players.

To be honest, Lin Tianhao doesn't trust all of the top players under the official.

But it's different with his subordinates.

Whether it's Gou Dao Wangu, or Fatty, Monkey, Glasses, or even Jian Wushuang, Little Jian and others.

Lin Tianhao has a certain degree of trust.

At least.

Lin Tianhao knows their past lives and knows that they can be trusted.

Therefore.

Lin Tianhao wanted all the Free Wilted Fruits, but after all, this Dragon Cave was discovered by the official.

If he wanted all of them, it would be a bit of a rip-off.

Team Long pondered, he didn't answer immediately.

Obviously.

Lin Tianhao's request still made him unable to make a decision.

"Snow Emperor, I'll give you seven hundred first. This has exceeded my authority. I need to communicate with the higher-ups about the remaining one hundred. Wait for me a few minutes."

The words fell.

Team Long's character turned gray.

Lin Tianhao knew that he couldn't directly contact game friends here.

Team Long went offline to communicate with the higher-ups.

Chapter 637 - The earth is retreating, the world is within reach!

In the Northern Sea, an immortal smiled at Lin Tianhao and said:

"Snow Emperor, don't take it to heart. We have rules and regulations, and many things must be done according to them."

Lin Tianhao returned a smile and said:

"Giving it to me is better than giving it to you. Not everyone within your organization is suitable for using these Fruits of Untethered Power."

"That's possible. They might not do anything after using them."

This wasn't unheard of in his previous life.

There were even traitors who defected to the Alright Star System.

This is also why Lin Tianhao was unwilling to give away too many Fruits of Untethered Power.

After about twenty minutes, Dragon Team finally came back online.

It was obvious.

This time, his going offline to ask for instructions from higher-ups didn't go very smoothly.

Before Lin Tianhao could ask, the immortal from the Northern Sea spoke up first.

"The higher-ups agreed and have also relaxed the restrictions."

Dragon Team looked at Lin Tianhao very seriously and said earnestly:

"Snow Emperor, the importance the higher-ups place on you is somewhat beyond my imagination."

"Although many people opposed it, and some even suggested forcibly recruiting you, they were all suppressed by that person."

Lin Tianhao couldn't help but be a little surprised.

However, he didn't think too much about it.

His obtaining benefits would only bring advantages, not disadvantages, to Blue Star and Dragon Country.

The Great Cataclysm hadn't yet arrived, so this wasn't very apparent.

But once the Great Cataclysm descended, his existence would bring much stability to Dragon Country.

There were still fifty-two months left, which seemed like a lot of time.

But Lin Tianhao knew that this time was not much at all.

If he didn't develop properly, it would still be difficult to reverse the situation in the future.

Especially after meeting the God of the Source of Dao, the pressure in Lin Tianhao's heart became even greater.

He successfully obtained eight hundred Fruits of Untethered Power.

Lin Tianhao had already calculated how to distribute them.

First of all, he would definitely take one hundred for himself.

Although the Holy Land Master could issue missions to receive rewards.

There weren't national missions every month.

For example, last month.

Lin Tianhao was trapped in the Heaven and Earth Imprisonment Formation, and the final feedback only gave him a little over ten thousand free attribute points.

Secondly.

Lin Qingqing, Monkey, Fatty, and Glasses, Lin Tianhao would definitely give them some.

This would leave three hundred Fruits of Untethered Power.

Goudao Wangu, Little Sword, Jian Wushuang, Su Li, and others, Lin Tianhao planned to give each of them fifty Fruits of Untethered Power.

This way, they would all be able to improve to a certain extent without being too outrageous.

With these ten thousand free attribute points, Monkey's strength would be able to improve quite a bit.

After all, among Lin Tianhao's subordinates, Monkey had the greatest return on free attribute points.

"Continue."

Lin Tianhao looked ahead. In front of him were still three different paths.

Although the Fruits of Untethered Power here were helpful to him, they weren't particularly significant.

After all, Lin Tianhao's purpose in this trip was to find enough treasures from the Dragon Cave to help him clear the Xitu Empire.

Now, the team still had Dragon Team and the immortal from the Northern Sea. Neither of them influenced Lin Tianhao's decisions, but simply followed him silently.

Lin Tianhao still chose the middle path directly, as before.

In terms of difficulty, Lin Tianhao didn't feel much difference between the first two levels.

As for the benefits.

One level had equipment evolution scrolls, Yellow-tier hidden class transfer scrolls, etc., and the other level had Fruits of Untethered Power.

Comparing the benefits of these rewards, it seemed to be implied.

This also showed that it wasn't necessarily that each level was more difficult than the previous one.

It was just because the rewards were different and the guardians were different.

However, in terms of the current rewards, they definitely hadn't touched the real benefits of the Dragon Cave.

Following the road forward, it was still endless darkness, making it impossible to see what was ahead.

Finally.

After walking for about twenty minutes, the front suddenly opened up, and a temple appeared in Lin Tianhao's line of sight.

Similar to the previous scenes, this temple was dilapidated, and even the temple's plaque was no longer visible.

Only a "Wind" character could be vaguely seen.

This temple was related to wind.

This time.

Stepping into this place didn't present any danger.

The three looked at each other and walked towards the temple ahead together.

One step, two steps, three steps...

This temple, which was close at hand, seemed to be thousands of miles away, making it impossible for them to reach it.

"This is... an illusion?"

The immortal from the Northern Sea keenly noticed that they had been walking for so long and should have reached the temple long ago.

But the temple was still so far away from them.

Dragon Team looked around. He picked up a stone and threw it towards the temple in front.

The stone formed a parabola in the air, accurately hitting the wall of the temple in front, and then bounced back.

Lin Tianhao raised his eyebrows. The stone could touch the temple, which meant that the temple was real.

"Swish!"

Lin Tianhao shot an arrow, which cut through the air and hit the temple wall in front.

The moment the arrow hit, Lin Tianhao moved.

He maximized his movement speed and rushed towards the temple.

But even with his frantic running, he still couldn't get close to the temple, and the distance between them was still so far.

"It's the ground."

The immortal from the Northern Sea looked at the ground under his feet. "If I'm not mistaken, as long as we move, the ground will move backward like a treadmill."

"The faster we move, the faster the ground will move backward, making us keep running in place and unable to get close to the temple."

The immortal from the Northern Sea's statement made some sense.

Because both the arrow and the stone could reach the temple, and the difference between them and the arrow and stone was that one flew over and the other didn't.

"Snow Emperor, what's your attack speed?" Dragon Team suddenly asked.

Lin Tianhao's eyes narrowed. When Dragon Team asked this, he guessed what Dragon Team wanted to do.

"You want to step on the arrows to move forward?!" Lin Tianhao asked.

Dragon Team nodded. "Yes, I want to try stepping on the arrows to move forward."

Arrows fly in the air, and if the timing is grasped skillfully enough, it may be possible to step on the arrows and fly forward.

It's just.

Even the arrow speed of ordinary archers makes this kind of operation difficult to succeed.

Not to mention Lin Tianhao.

Lin Tianhao's arrow speed is faster than that of ordinary archers, making it naturally more difficult to step on the arrows to move forward.

"Alright, I will continuously shoot arrows, and you grasp the timing."

"Also, be careful. There should be no team protection mechanism here. If you are hit by my arrow, you will probably die."

Few adventurers can withstand the power of Lin Tianhao's arrow now.

Dragon Team nodded heavily and said, "We always have to try, otherwise how can we get through?"

Chapter 638 - Exit and re-enter, and the bug remains!

Lin Tianhao didn't say anything more, activating Arrow Follows the Heart, and feather arrows continuously pierced through the air.

To ensure the success rate of the Dragon Team's arrow-stepping, he released Heavenly Punishment, allowing his feather arrows to form a line.

The Dragon Team saw this scene, and smiles couldn't help but appear on their faces.

His original confidence wasn't high, but with the current situation, his confidence could be said to have increased dramatically.

Seizing the opportunity.

The Dragon Team leaped up, landing on the feather arrows in the blink of an eye, then stepped on the feather arrows and ran towards the temple.

It was about what they expected.

But they overlooked one point, which was that Lin Tianhao, as the archer, would be affected under his feet.

If the ground under Lin Tianhao's feet regressed, the rhythm and frequency of the feather arrows would undergo tremendous changes.

Stepping on arrows was already extremely difficult, and when the feather arrows underfoot deviated, failure would be instantaneous.

“咻——”

The rhythm of the feather arrows was disrupted, and the Dragon Team was caught off guard and hit by Lin Tianhao's feather arrow.

The result was without any suspense, the Dragon Team was instantly killed on the spot.

Immortal Beihai smiled helplessly, "I knew this would be the result."

"The risk factor of stepping on arrows is very high in itself, and with the added external forces here, it is almost impossible to pass."

Lin Tianhao supported his forehead, he looked around, if this ground regression was unlimited, then in the case of not being able to fly, they would not be able to reach the temple at all.

"Is it possible that we can reach the temple by walking backwards?"

Immortal Beihai suddenly said.

This idea was novel, but if it really was the ground regressing, whether walking backwards or forwards, they would not be able to reach the temple.

Sure enough.

Immortal Beihai tried walking backwards, but it was useless, he was still very far from the temple.

"Why don't we try walking at different speeds in the same direction? If the ground is regressing, it will definitely show."

Lin Tianhao knew what Immortal Beihai was thinking, he had actually tried it before.

When the feather arrows were released and the Dragon Team was standing still, he rushed towards the temple.

But the result was futile, they couldn't get close to the temple at all.

Immortal Beihai wanted to try, and Lin Tianhao cooperated with him to try it.

The result was without suspense, they still couldn't get close to the temple.

“Is it possible for us to go back?”

Immortal Beihai looked behind him, behind him was still endless darkness.

Lin Tianhao didn't speak, and walked directly towards the darkness.

Passing through the darkness, in front, Lin Tianhao and Immortal Beihai saw the temple again.

Indeed.

It was not possible to go back and choose again.

Was there no way to crack this level?

Yes!

At least the arrow-stepping that the Dragon Team tried before had a certain feasibility.

“Snow Emperor, if you can't crack it, you can only give up and quit, but quitting will force you to drop one level.”

Lin Tianhao nodded, he also carefully observed here.

Currently, apart from flying over, Lin Tianhao hadn't found any other better way to crack it.

“The Dragon Team’s lightness skill isn’t the most outstanding, this time we can arrange for a teammate with better lightness skill to come over.”

“But generally, the scenes encountered when re-entering the Dragon Cave will also change.”

“Let’s quit first.”

Lin Tianhao directly chose to quit the Dragon Cave.

The Dragon Team, Berserker Blade, and others were already waiting at the entrance of the Dragon Cave.

Seeing Lin Tianhao and Immortal Beihai come out, the Dragon Team immediately asked:

“You didn’t get through either?”

Immortal Beihai nodded, and said helplessly:

“I didn’t find a way to crack it, instead of wasting time there, it’s better to re-enter the Dragon Cave.”

Each time they entered the Dragon Cave, the scenes were different, they could completely use this method to re-enter the Dragon Cave and avoid the temple just now.

The Dragon Team pulled Immortal Beihai, Divine Hammer, True Sword Successor, and Lin Tianhao back into the team.

A group of five people stepped into the Dragon Cave again.

Sure enough.

When Lin Tianhao and the others stepped into the Dragon Cave again, the scene changed.

What came into view was a stone room, and many patterns were carved on the walls of the stone room.

Immortal Beihai took a look and was attracted by the patterns on the murals.

“The murals actually depict the scene of our human race being slaves and serving the dragon race.”

Lin Tianhao also looked over.

The first stone carving was a group of little people kneeling to a real dragon.

Lin Tianhao just frowned slightly and didn't care too much about these.

What he was more concerned about was, who was the gatekeeper here, and what kind of benefits could he get.

Looking around the stone room, there was nothing else besides this.

In front of the stone room was a stone path, and the stone path led to endless darkness.

Although the scene had changed, this endless darkness was still so familiar.

The few people looked at each other and didn't speak, but Divine Hammer had already taken the lead and walked in front.

Was there danger in this unknown darkness?

Someone always needed to investigate it.

Divine Hammer took the initiative to test the darkness.

When the few people passed through the darkness, a magnificent palace appeared in front of them.

“This seems to be an underground palace.”

Immortal Beihai looked around vigilantly, and he took a step.

The next moment.

The stone slab under his feet actually sank with a “pa da” sound.

“Damn, I stepped on a trap again.”

Immortal Beihai looked at the Dragon Team.

Obviously.

They had stepped on traps before and knew how terrifying the traps here were.

The Dragon Team flashed in front of Lin Tianhao, “Protect Snow Emperor.”

As soon as his voice fell.

A steel needle flew out of the stone wall and flew towards Immortal Beihai.

Immortal Beihai leaned back, barely avoiding the steel needle.

But he had just avoided this steel needle, and three more steel needles flew towards Immortal Beihai from different directions.

Seeing this.

Immortal Beihai smiled helplessly, “You guys take care of yourselves.”

After the words fell.

Immortal Beihai was hit by a steel needle and disappeared on the spot.

After he disappeared, the stone slab he was stepping on rebounded.

Immediately afterwards.

A large number of steel needles flew from all directions.

Lin Tianhao directly pulled his attack speed to the maximum, and continuously fired feather arrows with Arrow Follows the Heart.

“Bang bang bang —”

The steel needles collided with Lin Tianhao's feather arrows and canceled each other out.

But the number of Lin Tianhao's feather arrows was ultimately difficult to compare with these steel needles.

Divine Hammer and True Sword Successor fell first.

Followed by the Dragon Team.

After the Dragon Team fell, Lin Tianhao leaned against a stone pillar, using feather arrows to protect himself as much as possible.

After supporting for several breaths.

Just when Lin Tianhao thought he couldn't hold on any longer, the steel needles stopped.

This time.

It was a narrow escape.

Lin Tianhao looked around, if these steel needles were the "gatekeeper", wouldn't that mean there should be good things here?

However.

Lin Tianhao was disappointed.

He turned on his Fiery Eyes and looked around, but there was nothing!

Chapter 639 - Heaven and Earth Unity Pill!

Suddenly.

Lin Tianhao noticed the area where the immortal had triggered the mechanism in the North Sea.

Ahead, there was a statue of a monster.

This monster had a pointed beak and a flat head, horns and scales, four limbs, and a long tail.

Just by looking at its appearance, Lin Tianhao couldn't determine what this monster was.

However, Lin Tianhao's Fiery Eyes of Truth sensed something different within this pointed-beaked, flat-headed stone statue.

He couldn't be sure.

“咻——”

Lin Tianhao's feathered arrow pierced the air. He would know if there was a problem with the stone statue by testing it.

“嘭——”

As the feathered arrow hit the stone statue, the pointed-beaked, flat-headed stone statue began to shatter, revealing a pointed-beaked, flat-headed monster.

Just like before.

Lin Tianhao couldn't see the monster's attributes or abilities. Everything seemed unknown.

But based on his previous experience, he just needed to kill this pointed-beaked, flat-headed monster.

“咻咻咻——”

Lin Tianhao activated his Heavenly Punishment state, and feathered arrows continuously pierced the air.

The reason he activated his Heavenly Punishment state was that the two monsters Lin Tianhao had encountered before had extremely good agility and could dodge his feathered arrows.

Instead of wasting time, it was better to directly use Heavenly Punishment to lock onto their heads.

The pointed-beaked, flat-headed monster let out a shriek.

In the next instant.

Lin Tianhao's vision blurred.

This...

Was this guy's ability blindness?

Lin Tianhao's Heavenly Punishment state relied heavily on his eyes. If he was blinded, he wouldn't be able to see his opponent, and his feathered arrows naturally wouldn't be able to hit.

Lin Tianhao fully activated his Fiery Eyes of Truth, and the blindness effect improved slightly.

His vision was still a bit blurry, but he could barely lock onto the pointed-beaked, flat-headed monster.

“咻咻咻——”

Feathered arrows continued to pierce the air, and the pointed-beaked, flat-headed monster continuously shot steel needles from its body, trying to block Lin Tianhao's feathered arrows.

But it failed.

The steel needles passed through Lin Tianhao's feathered arrows and flew towards the stone wall.

Lin Tianhao moved horizontally, avoiding these steel needles.

It was during this effort.

Lin Tianhao's continuous feathered arrows completed the termination of this pointed-beaked, flat-headed monster.

After killing the pointed-beaked, flat-headed monster, Lin Tianhao's vision gradually returned.

It could only be said.

The head lock in the Heavenly Punishment state was too abnormal.

If it were anyone else, facing blindness and a large area of steel needles, it would be difficult to not die.

After solving the pointed-beaked, flat-headed monster, it dropped a scroll, just like the Big Head Baby and the others before.

Poor Hedgehog Summoning Scroll: God-Tier Item.

Usage Requirement: Snow Empress Only.

Just like the Heart Tree and Ghost Doll before, it also summoned the monster he had just killed.

All three monsters were God-Tier.

But the power they displayed was not as strong as a god.

It could even be said that they were much weaker than gods.

This should be related to the fact that all creatures entering here are greatly suppressed.

Otherwise, if others came in and became ordinary people, and then had to face real gods, wouldn't that be a waste?

But the people who built the Dragon Cave probably couldn't imagine that there was an exception here!

That was Lin Tianhao!

Lin Tianhao's Heavenly Punishment and profession were both Super God-Tier, which meant that the power of the rules here could not suppress his Super God-Tier talent and profession.

If not.

Lin Tianhao would have been just another ordinary person in this Dragon Cave, not worth mentioning.

Returning to his thoughts.

Lin Tianhao began to investigate what might exist here.

Originally, a jade box appeared below the Poor Hedgehog statue.

Lin Tianhao picked up the jade box. Inside the jade box were three pills.

Heaven and Earth Harmony Pill: God-Tier.

Usage Requirement: None.

Effect: Allows severely injured gods to quickly recover to full health. A small number of soul injuries cannot be recovered in a short time.

Durability: 100.

Lin Tianhao was stunned for a moment. Although there were only three of these pills, their effect was a bit too strong.

They could allow gods to recover quickly in a short time.

Did that mean that gods severely injured by Heavenly Punishment could also recover quickly?

Just thinking about it.

Lin Tianhao was a little excited.

He now had many gods on the God Sealing List, but more than half of them were gods severely injured by Heavenly Punishment and unable to recover in a short time.

But now there were only four years left until the Great Cataclysm. With the gods' autonomous recovery speed.

Not to mention four years, even forty years or four hundred years, they might not be able to recover.

With these three Heaven and Earth Harmony Pills, Lin Tianhao could quickly recover the three gods under his command who had been severely injured by Heavenly Punishment, and his foundation would be stronger.

The difficulty of this Poor Hedgehog seemed to be not much more difficult than the Heart Tree before, but this reward was a bit beyond Lin Tianhao's expectations.

At least.

For Lin Tianhao, these Heaven and Earth Harmony Pills were better than the Free Withered Fruit.

Lin Tianhao looked ahead. The front of the palace split, and three stone doors appeared.

Just like before, it was another multiple-choice question.

Lin Tianhao was still the same as before, walking directly towards the middle road.

Taking a step forward.

Lin Tianhao passed through the stone door. The end of the stone door was still endless darkness, and Lin Tianhao was already used to it.

But what Lin Tianhao didn't expect was that he walked for several minutes and still hadn't passed through the darkness.

According to his previous experience, he should have already passed through the darkness by now.

“嘭——”

At this moment, Lin Tianhao was kicked in the butt, and he staggered, almost falling to the ground.

“Gatekeeper?”

Lin Tianhao's eyes narrowed slightly. This level was absolute darkness, and even his Fiery Eyes of Truth couldn't penetrate the darkness.

If he couldn't see anything, he couldn't use the head lock of his Heavenly Punishment state.

“嘭——”

Another fierce punch landed on Lin Tianhao's left face.

The powerful force made Lin Tianhao dizzy and almost fainted.

Lin Tianhao's eyes narrowed. It likes to sneak attack?

Then let you try a rain of feathered arrows!!

Lin Tianhao used the Arrow Follows the Heart. Although he still couldn't lock onto the target, he could still attack any target Lin Tianhao wanted to attack without discrimination.

Feathered arrows poured out like raindrops.

Although most of Lin Tianhao's attack speed had been converted into Heavenly Punishment attack speed.

His basic attack speed was still as high as ninety!!

Ninety arrows per second could completely attack any direction around Lin Tianhao without discrimination.

Sure enough.

After Lin Tianhao attacked indiscriminately like this, he was no longer attacked.

He didn't know if these feathered arrows had hit, either.

He kept moving in the darkness, and the feathered arrows kept firing.

As long as Lin Tianhao had enough feathered arrows, the guy in the darkness couldn't withstand it.

Just like the steel needles before, even if the Dragon Team had some means, they were useless under the steel needles and were killed indiscriminately.

Just as Lin Tianhao continued to move, the surrounding darkness faded, and he could see the surrounding situation clearly.

Chapter 640 - Madam Jiuhua!

When Lin Tianhao was able to see the surrounding darkness, he saw a corpse lying in a corner.

Lin Tianhao walked over and looked at the corpse, which had human limbs.

However.

It had no facial features.

No eyes, nose, or mouth; at first glance, it looked like a faceless monster.

Beside this faceless monster was a scroll.

Like the scroll Lin Tianhao had obtained before, it was a summoning scroll.

Faceless Puppet Summoning Scroll: God-tier item.

Usage requirement: Limited to the Snow Emperor.

Effect: Summons a Faceless Puppet to help in battle.

Note: This item is a one-time use item. The summoned Faceless Puppet has no time limit and dies when killed.

Durability: Indestructible.

This guy is called the Faceless Puppet; his ability should be related to sealing the five senses.

But if it really seals the five senses, he should have felt suffocated just now.

Could it be that his ability has been weakened?

It seems that this is the only explanation.

After all, this is a god-tier existence; if it only makes people invisible, this ability doesn't seem very strong.

Retracting his thoughts.

Lin Tianhao looked around. He had already discovered the guardian of this level, so next was to find the treasure of this level.

This was still a palace, with a layout similar to the previous palace.

Lin Tianhao walked to the center, where the Poor Hedgehog had been before.

This time.

Lin Tianhao saw a gray-white stone lotus in the middle.

Lin Tianhao raised his hand and turned the stone lotus.

As the stone lotus turned, the ground split open, revealing a passage.

The end of the passage was endless darkness, and it was impossible to see what was at the end of the darkness.

This was somewhat different from the previous situation.

Because before, the treasure was always found near where the guardian was killed.

But this time, he didn't find it; instead, he had to go to other places through the passage.

Had he not found the treasure of this level, or was the reward of this level below?

According to the previous situation.

There were usually three paths to the next level.

But here, there was only this one passage.

Therefore.

The treasure was likely below this passage.

Lin Tianhao walked towards the passage.

The further he went, the more Lin Tianhao was sure there was a problem.

Because he felt like he was walking in place.

Looking back.

Lin Tianhao could still see the candlelight from the entrance.

Because he felt that he was really trapped here.

Thinking of this.

Lin Tianhao immediately walked back, but it was still useless.

He could see the exit with flickering candlelight in front of him, but no matter how fast or slow Lin Tianhao walked, he could never reach that exit.

Indeed.

He was trapped in this endless loop again.

Lin Tianhao shot an arrow, and the arrow passed through the exit smoothly and flew out.

He could go out by flying in the air, but he couldn't go out by walking on the ground.

Lin Tianhao took a deep breath. The situation here was more troublesome than he had imagined.

Turning around.

Lin Tianhao shot another arrow into the darkness.

The arrow cut through the air, and a muffled sound came in less than three seconds.

This indicated that the end was not far ahead.

But because of the darkness, Lin Tianhao couldn't see what was ahead.

This was very embarrassing. He had clearly defeated a guardian, but besides a scroll, he hadn't gotten anything.

Now he was in a dilemma. Should he just force his way out and leave the Dragon Cave?

But that would mean he had defeated the guardian for nothing.

Based on the current situation, Lin Tianhao could deduce two possibilities.

First, the reward treasure was in the upper dungeon, but he just hadn't found it yet.

Second, not all levels were small levels; there were also some larger levels.

These larger levels had more than one guardian.

Besides that.

Lin Tianhao hadn't thought of any other reasons for the time being.

Regardless of the reason, Lin Tianhao was now in a dilemma.

Give up directly?

There seemed to be no better option, and continuing to ponder would be a waste of time.

This time in the Dragon Cave, he had obtained two god-tier summoning scrolls and three Heaven and Earth Harmony Pills.

In terms of gains, it was already quite remarkable.

Thinking like this.

Lin Tianhao chose to exit directly.

The moment he exited the Dragon Cave, his level dropped again.

Outside.

Dragon Team, Beihai Youxian was already waiting.

Seeing Lin Tianhao come out, Berserk Blade took a step forward and said:

"Snow Emperor, our other team just used some special methods to get a reward."

Hearing this.

Lin Tianhao subconsciously asked:

"Go directly to get the reward without defeating the guardian."

Berserk Blade nodded, "Yes, without defeating the guardian."

"Mainly, most of what we encountered before were mechanisms, and guardians were relatively rare."

"Later, it may be because you came and killed a few guardians, so the efficiency of us encountering guardians has increased now."

Dragon Team took a step forward and asked in a low voice:

"Snow Emperor, how was the harvest this time?"

They had died to get out, but Lin Tianhao had only come out after such a long time.

This indicated that Lin Tianhao had withstood that round of attacks and may have even obtained benefits.

Although they had died.

But they were cooperating to clear the level.

In other words.

Lin Tianhao's harvest this time should be shared with them.

Regarding this.

Lin Tianhao didn't hide anything and directly took out the two scrolls and three Heaven and Earth Harmony Pills he had obtained this time.

"This is my harvest this time. Only I can use the scrolls, and the three Heaven and Earth Harmony Pills are for god-level powerhouses."

"You should know that I have had several god-level battles during this time, so this thing is very helpful to me."

Hearing this.

Dragon Team wanted to say something, but was interrupted by Berserk Blade.

"We can't use this thing for the time being, it's okay to give it all to Snow Emperor."

As soon as he finished speaking, an unpleasant woman's voice came.

"That's not right, is it? This thing can heal the wounds of gods and is an excellent product for us to win over gods."

"Especially since some of us have contact with gods."

Lin Tianhao raised his eyes and looked over, and saw that the speaker was a female summoner.

Although the ID above her head was hidden, Lin Tianhao's Fiery Eyes still saw her name at a glance.

Madam Jiuhua!!

Lin Tianhao felt that he had some impression of this name, but he couldn't remember who it was.

He only knew that she seemed to be a high-level official in the previous life.

"Snow Emperor, we let some of the Free Withered Fruits to you before, you should be content, you should give us two of the three Heaven and Earth Harmony Pills."

Lin Tianhao narrowed his eyes, and before she could speak, this Madam Jiuhua continued.

"I just watched the video of Dragon Team and the others inside. It was Dragon Team who stood in front of you that you survived."
