Chapter 64: The Dream Chasing Guild is wiped out!

The assassin was shocked.

He saw me?

Impossible!

They were fifty meters apart, and he was in stealth mode. How could he be discovered?

Lin Tianhao couldn't help but find it amusing that the other party was standing still, pretending to be dead.

If it weren't for the slight movements in his body, he would have thought this kid had logged off in the wild.

"咻!"

This assassin player, like him, had hidden his nickname, so he couldn't tell which guild he was from.

"Snow Empress, you have quite the nerve."

Just then, a cold voice came, and then Dream Chaser Yanxue was seen walking over with her elite team of a hundred members.

Lin Tianhao raised his eyebrows. He felt somewhat offended.

Yes, offended.

Not because a guild was looking for trouble, nor because Dream Chaser Yanxue was the one looking for trouble.

But... bringing over just over a hundred people.

What does that mean?

Are you looking down on me so much?

The elite team members behind Dream Chaser Yanxue were all quite good, generally level fourteen or fifteen, and well-equipped.

Some of them even had complete sets of equipment.

"You're here for the Demon King Greivorton's bounty, right?"

"But I suggest you don't do anything stupid, otherwise it will only cause your Dream Chasers Guild to lose levels."

Hearing this, a mage beside Dream Chaser Yanxue was very displeased.

"Hmph, you're about to die, yet you're still talking big."

As soon as he finished speaking, he waved his staff, and a fireball smashed into Lin Tianhao.

-98.

Lin Tianhao now had Hydra equipment and had also collected some equipment dropped by the Green Poison Spider King. His resistance was not comparable to what it was at level one.

"Ding, you have been maliciously attacked and can counterattack normally."

Lin Tianhao raised his hand and shot an arrow.

"咻!"

A shield warrior immediately stepped up in front of the mage, using his shield to block Lin Tianhao's arrow.

-15429.

A huge damage number appeared, and Lin Tianhao was a little surprised that his arrow had not killed the level fifteen shield warrior.

Shield warriors, before job advancement, even if they added all their points to health, would only reach 1,500 health at level fifteen. In other words, this shield warrior was relying on other external factors to provide himself with over 14,000 health.

The shield warrior was also taken aback.

He had completed a hidden quest in the novice village and obtained a special skill, Savage Growth.

His health would receive an extra 10% bonus, and each level up would increase his health by 100 points.

In addition to his set of level fifteen tank equipment, it gave him nearly 16,000 health.

But Lin Tianhao's arrow almost instantly killed him.

Dream Chaser Yanxue's face darkened, but she didn't care too much.

"Go all out, connect the controls, and control him to death!!"

They had over a hundred players.

If each player controlled Lin Tianhao for 0.5 seconds, that would be over fifty seconds of control time.

With such a long control time, even if Lin Tianhao had high health, they could control him to death.

The battle was about to break out.

The first to attack were not the combat classes, but the priests!

The priest player waved his staff, and a beam of silence fell.

If hit, it would cause a brief silence, preventing the release of skills.

As for the silence time, it was related to the star rating of the skill, as well as the resilience and special equipment of the person being silenced, which could解除or加持the silence.

However...

Such an attack was too slow for Lin Tianhao. He only needed to move slightly to avoid the silence beam.

As Lin Tianhao moved, a warrior had already released Savage Charge towards him.

A warrior's usual combo.

Savage Charge + Taunt + Vulnerable Strike.

But...

咻!

One arrow.

The warrior who was charging halfway fell to the ground.

"Ranged support."

Dream Chaser Yanxue ordered, and at the same time, she waved her golden staff, and six goblins holding wolf tooth clubs walked out.

Six level ten Black Iron bosses, with over 100,000 health each.

Using them to fight monsters at this stage was definitely strong.

But using them to deal with Lin Tianhao was like a joke.

The ranged classes' control skills began to fly towards Lin Tianhao.

At the same time, the six Black Iron bosses charged forward, with the warrior players following behind.

There was nothing wrong with this approach.

The ranged classes provided cover, and the Black Iron bosses tanked the damage and covered the warrior classes.

But the premise was...

Their skills had to be able to hit Lin Tianhao, and the Black Iron bosses had to be able to withstand Lin Tianhao's attacks.

Next.

Lin Tianhao showed Dream Chaser Yanxue what it meant to dance on the tip of a knife.

So many ranged skills from their elite team, yet not a single one hit Lin Tianhao. They were all dodged by Lin Tianhao's movements.

"咻咻咻!"

Five arrows were fired simultaneously.

Lin Tianhao's arrows constantly pierced through the air. In less than two seconds, all six Black Iron bosses fell.

Lightning Jump and staggered attacks allowed Lin Tianhao's attacks to be maximized.

Effective attacks.

This was something that most players at this stage had not realized, and it was easy to deal some ineffective damage.

For example, if Lin Tianhao did not use staggered attacks, then he would need at least two seconds to kill these six Black Iron bosses.

But now, it was shortened by nearly 0.5 seconds.

Don't underestimate this 0.5 seconds.

With Lin Tianhao's current attack speed, he could launch two more normal attacks.

Converted into five arrows fired simultaneously.

He could deal over 100,000 more damage.

And it was precisely this 0.5 seconds that allowed Lin Tianhao to eliminate all the warrior players behind the six Black Iron bosses.

The high output and the damage from Lightning Jump were terrifying.

"Withdraw!"

Dream Chaser Yanxue was dumbfounded.

She had thought that Lin Tianhao might be very strong, but she never dreamed that Lin Tianhao would be this strong.

"Thinking of running away now? Isn't it a little too late?"

At this stage, Lin Tianhao's movement speed was definitely unmatched among players.

Therefore, Lin Tianhao only needed to continue kiting, and the people from the Dream Chasers Guild began to fall quickly.

The ranged classes in the back row couldn't withstand Lin Tianhao's one arrow, and they couldn't even withstand the damage from Lin Tianhao's Lightning Jump.

In just a few seconds, all the people from the Dream Chasers Guild fell.

Blackwind City.

Resurrection Altar.

"Holy crap, what did I see? The Dream Chasers Guild is resurrecting in batches."

"Looking at their levels, they are all elite team members of the Dream Chasers Guild. What heinous things have they done to be wiped out as an elite team?"

"Look, it's Dream Chaser Yanxue. She has also been resurrected. Did they go to conquer a level twenty-five boss?"

...

Many players noticed the Dream Chasers Guild members resurrecting in batches.

In the distance, spies from other guilds immediately reported the information.

"Guild leader, it's about the same as we predicted. Snow Emperor is very strong. Dream Chaser Yanxue and the others were all sent back to the resurrection altar."
