

O game 67

Chapter 67 The fight for the throne is all about scheming!

Space Teleportation Scroll (Special): Single-use item.

Effect: After use, randomly teleports to another location. The teleportation may be interrupted by space-type attacks.

In layman's terms, it's a random teleportation scroll.

As for this reward, how should I put it?

If you say it's bad, it doesn't seem that bad.

But to link it with killing the Demon King's son, Grelolin Sen...

To be honest, Lin Tianhao felt it wasn't enough.

"That's all?" Lin Tianhao asked.

"I helped you kill Grelolin Sen this time, but this little reward of yours, isn't it a bit unreasonable?"

Leona rolled her eyes. "You still haven't told me what Klinfis Bird wanted from you?"

"Didn't I say? Give me the reward and I'll tell you. Stop dawdling, hurry up."

Leona took out a light blue crystal from her bosom.

"This is the ultimate reward this time."

Lin Tianhao took the crystal and couldn't help but light up.

Tears of the Goddess of Life: Special.

Equipping Requirement: None.

Effect 1: Your maximum health is increased by 20%.

Effect 2: You recover 10,000 health per second.

Durability: 100.

(Note: Cannot be stolen or dropped.)

Lin Tianhao's eyes lit up.

He had originally planned to give the Eternal Scroll to the Bloodthirsty Necklace.

But now he hesitated.

The Tears of the Goddess of Life seemed pretty good too.

Although the Tears of the Goddess of Life had the characteristic of not being stolen or dropped.

It lacked a very important characteristic.

That was, it couldn't be destroyed!

Increasing maximum health by twenty percent, and one percent lifesteal, which was stronger?

Lin Tianhao obviously valued the former more.

What's more, there was also a health recovery of 10,000 per second.

"Now can you tell me what Klinfis Bird wanted from you?" Leona asked.

Lin Tianhao grinned, "Didn't I say?"

"What did you say?" Leona didn't react.

But the next moment.

Her beautiful eyes widened.

She asked incredulously, "You mean Klinfis Bird knows you helped me kill Grelolin Sen?"

Lin Tianhao grinned and said, "No, she just hopes that I'm the one who helped you. She came to me because she wanted me to frame you in front of the king."

Hearing this.

Leona said uncertainly, "You promised to support me, so you didn't agree to her?"

Lin Tianhao shook his head, "I agreed."

Leona's expression changed drastically, and a chill instantly spread out from her body, freezing the surrounding vegetation.

"Have you forgotten what you promised me? You want to help Klinfis Bird and also trick me out of rewards!!"

"Hold on, am I tricking you?"

Lin Tianhao said righteously, "I helped you kill Grelolin Sen, that's a fact. Isn't it right for me to take the reward?"

"You!!"

Leona gritted her teeth in anger, "I'm going to kill you, wherever you go, I'll kill you!!"

"Cough cough."

Lin Tianhao coughed lightly, "Don't be so excited, I promised Klinfis Bird, but I'm helping you."

"Helping me?"

Leona sneered, "If Father and those nobles know that you, this heinous person, helped me, what will they think of me? The good hand of killing Grelolin Sen will be ruined."

"No, it's precisely because I need to frame you that I can save you."

Lin Tianhao's expression became serious.

"You, Qingfuyun, Tixuejian, who do you think has the greatest chance of becoming the new king?"

"I don't know." Leona said coldly, "But this time I killed Grelolin Sen, my chances of becoming the new king will definitely increase significantly."

Lin Tianhao shook his head, "No, you're wrong."

"You not only haven't improved, but have already become the target of public criticism."

"In the Starry Kingdom, you have no foundation. Killing Grelolin Sen will only push you to the forefront."

"Next, Qingfuyun and Tixuejian will definitely design to deal with you. Who do you think can handle it?"

Leona said angrily, "But that's not your reason to frame me."

"Tixuejian has a deep foundation, Qingfuyun has Queen Fio Dingyu behind her, what about you? Just killing a Grelolin Sen, what ability do you have to fight them?"

Leona bit her lip, "Since you know this, why did you help me kill Grelolin Sen?"

"To let the nobles see your ability and give you a chance to develop in secret."

Lin Tianhao had experienced too much in his previous life. He knew very well that in the battle for the throne, even the slightest mistake could lead to eternal doom.

"What do you mean?"

"Killing Grelolin Sen, showing ability, I frame you, at most it's an offset of merits and demerits to the outside world, but the nobles will see your ability to kill Grelolin Sen."

"Just coming back, what you need is not how much merit you have, but to show ability, and it's showing ability without threatening the other two princesses."

"With ability, you can win over the nobles in the dark."

Leona's emotions gradually calmed down after hearing what Lin Tianhao said.

Because she suddenly realized.

What Lin Tianhao said seemed very reasonable.

"Then what? What's your plan?" Leona asked.

"Assist Qingfuyun, defeat Tixuejian!"

Lin Tianhao's eyes were sharp. If the Queen's matter was exposed, Qingfuyun could not become the new king.

As long as Tixuejian falls, then Leona has a great chance of becoming the new king.

"Then what? How do we deal with Qingfuyun, who is supported by the Queen?"

"As long as Tixuejian falls, I will be able to bring down the Queen," Lin Tianhao said.

Leona was a little surprised. She didn't know why Lin Tianhao had so much confidence.

But she still chose to believe in Lin Tianhao.

"Okay, this time you frame me, how do you need me to cooperate?"

"Pretend to be ignorant and strongly refute."

At this point.

"As for the rest, leave it to me."

"But what if they ask me how I killed Grelolin Sen?" Leona suddenly realized the most important question.

"When it comes to that point, you just need to say no comment."

Leona took a deep breath. She was somewhat unwilling.

After all, killing Grelolin Sen was a great achievement.

But in the end, she still compromised.

"Okay, I'll act well."

After saying this, Leona bid farewell and left.

... ..

Royal Palace, Listening Rain Hall.

After Klinfis Bird came back, she found Queen Fio Dingyu as soon as possible.

"Queen, Xue Di has agreed to help us frame Leona."

Fio Dingyu nodded in satisfaction, "He's quite sensible."

"It's just... .."

"Just what?" Fio Dingyu asked.

Klinfis Bird said seriously, "Xue Di knows that you have dealings with the Underworld race."

Hearing this, Fio Dingyu's expression changed drastically...
