

## O game 671

Chapter 671 - Xuanzhong black gold, ceramic jar!

Inside the Burial Sea Tomb.

Still in the front of the circular tomb chamber.

After dealing with the Bloodfly Ape Demon, Lin Tianhao tried using undead to scout the way.

The result was that ninety-nine undead in a row all died.

Among them were several undead with domains, and they all died.

This was a bit of a headache.

No wonder the Bloodfly Ape Demon was so strong, yet still stumbled in this tomb passage.

"Glasses, are the tombs you usually explore this difficult?" Monkey couldn't help but ask.

He had always thought his strength was quite good, but whether it was the arrow rain just now, or this tomb passage with flying steel cones, both made him feel daunted.

Glasses looked serious and said:

"What are you thinking? Most ancient tombs aren't that difficult. The difficulty of this Burial Sea Tomb, among all the ancient tombs I've been in, can at least rank in the top three."

Lin Tianhao observed the tomb passage in front of him, its width only one and a half meters, making it difficult to maneuver after entering.

The steel cones flew out not only from the left and right tomb walls, but also from the top and bottom.

The speed of the steel cones was too fast, there was no time to react before being pierced through the body.

That's right.

The steel needles didn't directly deal damage, but forcibly pierced through the body, nailing people to the wall.

"Actually, we still have a way to get through," Lin Qingqing suddenly said, her expression serious.

"This tomb passage isn't as long as we imagine. If people are nailed to death on both sides and above and below, we can step on their corpses to get through."

"However, we need to be fast, the characteristic of undead is that they are monsters, they will disappear after death."

Lin Tianhao nodded. This idea was a bit cruel, but it seemed there was no better way at the moment.

"Then let's go."

Lin Tianhao had the undead pave the way, and the few of them slowly advanced through the gap formed by the undead.

"Puchi... Puchi Puchi——"

One undead after another was pierced through the body by steel cones.

Lin Tianhao looked serious and continued to summon undead to pave the way.

Finally.

After sacrificing more than a thousand undead, Lin Tianhao and the others finally passed through the tomb passage smoothly.

In front of this tomb passage, a strange ancient tree appeared.

The ancient tree was dark gold all over, only one person tall, its shape somewhat like coral, and it didn't seem to have anything special about it.

Lin Tianhao moved closer and said with some surprise: "This ancient tree seems to be made of profound heavy black gold."

Profound heavy black gold is a main material used to forge high-grade weapons.

It is said that in the hands of a skilled weapon refiner, profound heavy black gold can be used to create diamond-grade weapons.

Don't think that Lin Tianhao gets equipment easily, and that others also get it easily.

To put it bluntly.

The levels of ordinary players are now basically above level 200.

But players who own a set of level 200, gold-grade equipment, definitely account for less than ten percent.

Even less than five percent.

This is still because Lin Tianhao promoted the progress of the Twilight of the Gods, allowing many people to come into contact with things they couldn't access in their previous lives ahead of time.

This coral tree, all made of profound heavy black gold, with such a weight of profound heavy black gold.

Creating a whole set of diamond-grade equipment would still have some left over.

The key is.

This thing is now placed here like an ornamental tree.

As soon as he said this, he received a system notification.

"Ding, you have been cursed by the God of Alchemy, you will be continuously killed ten times before you can leave the Burial Sea Tomb."

Fatty was stunned when he saw this prompt.

"What is this?"

Glasses spread his hands helplessly and said:

"You've been cursed."

Fatty opened his mouth and said:

"Die ten times, does that mean I can't revive and go out?"

Glasses nodded, "Congratulations, you're right."

Monkey laughed from the side:

"That's great, if there's any danger later, let Fatty take the lead."

Lin Tianhao didn't respond to their words, his gaze fell on Glasses.

"Can't anything here be taken?" Lin Tianhao asked.

Glasses shook his head and said seriously:

"Not really, most things can't be taken, if you take them, you will be cursed."

Lin Tianhao grinned and said:

"This kind of curse power should only be able to be applied once, at least the curse power on each item can only be used once."

"In other words, as long as I go and take this profound heavy black gold now, I'll be fine."

While speaking, Lin Tianhao summoned an undead.

Although he had a guess, the task of testing was still left to the undead.

"As expected!!"

When Lin Tianhao's undead touched the coral tree, it was not cursed.

Lin Tianhao stepped forward himself, grabbed the coral tree, and put it into his backpack.

The movements were smooth and flowing, done in one go.

He still wasn't cursed, which meant that his guess was correct.

The things in this Burial Sea Tomb can only curse the first person who touches it.

As for the reason.

The curse itself is an extremely powerful and strange force.

The stronger the power, the more difficult it is to unleash.

What's more, this is being applied to other items, releasing the power of the curse through other items.

This is very complicated.

At least.

Even if the main body releasing the curse is powerful enough, it is still very difficult to apply two or even more layers to the same item.

Because the power of the curse is very difficult to control.

Applying two layers of curses at the same time may result in the collision of the power of the two curses, causing instability between each other, leading to a power clash.

Even if these two layers of curses can be stabilized on one item.

The most likely outcome is that a person will trigger these two layers of curses at the same time.

Finally.

Even if such multiple curses are really created and can be triggered separately.

The practicality is still relatively average.

In other words.

This thing is thankless.

Therefore.

Lin Tianhao had reason to believe that most of these items only had one layer of curse.

Just then.

Monkey's gaze fell on the corner of the tomb chamber, where there was a ceramic jar.

"This is a good thing," Glasses walked over quickly.

"As long as you break this ceramic jar, you can get the items inside."

"Based on my previous experience, this ceramic jar will at least produce something like an equipment evolution scroll."

Lin Tianhao wasn't too surprised. He hadn't obtained many ceramic jars in his previous life, but he had seen many people open jars.

The rewards weren't actually that outrageous.

Because ceramic jars also have different grades.

The reason why Glasses thought ceramic jars were very good was because his ceramic jars were basically obtained from ancient tombs, and their grades were relatively high.

Therefore.

The things he could open were naturally better.

Chapter 672 - Chongxuan ancient ring!

"Who's going to open it?" Fatty asked.

As he spoke, he rubbed his hands together, clearly eager to try.

"You just got cursed, and you want to open another one?" Monkey teased from the side.

Fatty instantly deflated. He couldn't handle another curse package.

"This jar shouldn't be cursed," Glasses analyzed.

"Hehe, then let the world's number one lucky star, your Fatty, open this jar."

Monkey couldn't help but roll his eyes at Fatty, saying:

"Fatty, can you have a little self-awareness? When it comes to luck, who here can compare to Qingqing?"

"Come on, Qingqing, you open this jar."

Glasses also said seriously:

"Opening jars really depends on luck. I also think it's more appropriate for Qingqing to open this jar."

Fatty took a step back, "Alright, although I don't want to admit it, in terms of luck, I am indeed a little inferior to Qingqing."

Lin Tianhao waved his hand, "Qingqing, you open it."

Lin Qingqing didn't stand on ceremony. She walked to the front of the ceramic jar, picked it up, and smashed it heavily on the ground.

"Bang—"

The ceramic jar shattered, and a ball of blue light enveloped a ring, which floated in mid-air.

Lin Qingqing picked up the ring and checked its attributes.

"This equipment seems to fit Brother Fatty's attributes very well!"

Saying that.

Lin Qingqing sent the ring's attribute page to the group chat.

Ancient Ring of Heavy Mystery: Special.

Wearing Requirement: None.

Effect 1: Health +5%.

Effect 2: Armor +5%.

Effect 3: Magic Resistance +5%.

Durability: 100.

This ring has three effects. If you look at the values alone, they are not too high.

But the strength of this ring lies in the fact that it increases three attributes by a percentage.

In the early stages, equipment that increases fixed values is powerful.

But in the later stages of the game, this kind of equipment that increases by percentage is really awesome.

Fatty's dual resistance and health are the highest among them, so this piece of equipment's increase is also huge for Fatty.

"Then this ring goes to Fatty," Lin Tianhao said.

Fatty's face was full of smiles, "Hehe. Then I, Fatty, won't be polite."

... ..

Qionghuang Island, Dragon Cave!

Mo Leixuanbu, the Third Hall Master of the Thunder Serpent Hall, had already led his men into the Dragon Cave.

But as soon as they entered the Dragon Cave, they were dumbfounded by what they saw.

Because they didn't appear in the so-called checkpoint, but at the end of a road.

In front of the road was a void. As long as they walked forward, they would be swallowed by the void.

"What... what's going on?"

A master of the Thunder Serpent Hall opened his mouth in disbelief.

Mo Leixuanbu raised his eyes to look at the top of the void space. There was a platform above.

"This should be the passage to the second level. The void in front should be the obstacle."

Hearing this.

The other masters of the Thunder Serpent Hall felt incredible.

"How could this be?"

"Could it be that we're so unlucky that we came here as soon as we entered?" The masters of the Thunder Serpent Hall looked at each other.

Mo Leixuanbu shook his head, "Not necessarily. If we go back, we should be able to go to other checkpoints."

Saying that.

Mo Leixuanbu and others turned around, but the result was disappointing.

Because the rear was also a void.

"Third Hall Master, there's no road behind either," someone said.

Mo Leixuanbu's fist clenched instantly, and an unbelievable expression appeared in his eyes.

"How is that possible!!"

Their Thunder Serpent Hall still had some understanding of the Dragon Cave on Qionghuang Island.

There was only one possibility for this situation to occur.

That is, the first level of this Dragon Cave has been cleared by someone!!

"Third Hall Master, what's wrong?"

Mo Leixuanbu said solemnly:

"The first level has been cleared by someone!!"

Although he didn't want to admit it, this was the truth.

"How could this be?!"

"Even if Emperor Xue has some skills, he shouldn't be so outrageous. The guardian of the first level of this Dragon Cave was once a God King powerhouse."

"How can Emperor Xue be so capable that he can clear the first level of this Dragon Cave!!"

Mo Leixuanbu really couldn't understand. They had planned so much, but when they came here, they still gained nothing.

"Then Third Hall Master, do we want to go to the second level?"

A master of the Thunder Serpent Hall asked softly.

Mo Leixuanbu glanced at the person who had just spoken and said coldly:

"Go to the second level? Do you think I don't want to go? Look at the void in front, can you go up?"

Hearing this.

The master of the Thunder Serpent Hall who had just spoken stopped talking.

Mo Leixuanbu gritted his teeth and finally ordered:

"Check the surroundings and collect as many clues as possible, then go back and make plans."

Mo Leixuanbu really felt angry. Now he finally understood.

Why Emperor Xue arranged for a god to guard this Dragon Cave, but only fought with them for a while and didn't really attack.

It turned out that all the good things in this Dragon Cave had been taken away by Emperor Xue.

... ..

Lin Tianhao had anticipated what happened in the Dragon Cave.

But now was not the time to deal with the Thunder Serpent Hall.

On both sides of the tomb chamber where the ceramic jar was just opened, there were two side chambers.

At this time, Lin Tianhao and others had already arrived in the side chamber on the right.

As soon as he came in, Lin Tianhao saw a row of golden armor.

A full twelve sets of golden armor.

"Damn, they're all sets, and the quality is gold, and the level is as high as level 1000."

A level 1000 gold-quality set is still very valuable.

For most players, it's not difficult to get two or three pieces of gold equipment.

But.

It is difficult for anyone to get a whole set of gold equipment.

Of course.

That's for other players. For Lin Tianhao, it's a bit commonplace.

However.

Mosquito legs are also meat.

Lin Tianhao asked the undead to trigger the curse on it, and then collected all these gold sets.

He can't use these gold sets now, but he can give them to others.

Next.

Several people came to the side chamber on the left, and the result was the same.

Twelve sets of level 1000 gold equipment.

The value is so-so, just use it to fill the inventory.

This time their harvest was too ordinary. If Lin Qingqing hadn't opened an Ancient Ring of Heavy Mystery from the jar, their harvest would have been a bit unsightly.

After checking the tomb chamber, Lin Tianhao and others continued to move forward.

Fatty volunteered to walk in front. He needed to die ten times to leave this Burial Sea Tomb.

If he doesn't die a few times now, it will be difficult to leave this Burial Sea Tomb later.

This time forward, what appeared in front was no longer a simple tomb passage, but a stone cave.

The stone cave is irregular all around, and it seems to be a natural cave.

"Was this dug into a cave when the ancient tomb was built?" Fatty joked.

Chapter 673 - White-haired monkey!

Glasses laughed from the side:

"It should be, not just this Burial Sea Tomb, but most large ancient tombs have this kind of situation to some extent."

"During the construction of ancient tombs, they might dig rock caves, or even dried-up underground river channels, and so on."

"Before, I explored an ancient tomb where I followed an underground river channel for several hours before connecting to the latter half of the tomb."

Fatty widened his eyes and said:

"Then these people who built the ancient tombs were really cutting corners."

While speaking.

Fatty had already taken the lead and walked in.

This stone cave was very spacious.

Its length and width both exceeded five meters, and in some places, it even exceeded eight meters.

"What's that? Why does it smell so bad here?"

Lin Qingqing frowned. She looked around and leaned closer to the stone cave's rock wall to smell it.

"This stench seems to be coming from inside the rock wall."

"It's the smell of corpses."

Glasses walked over with a serious expression.

"The Burial Sea Tomb has existed for a very long time. Even if there are corpses, they should have turned into withered bones long ago."

He stood beside Lin Qingqing and sniffed, "It is indeed the smell of corpses. Fatty, smash it open and take a look."

With a muffled sound, cracks appeared on the rock wall.

Strands of dark red blood seeped out from these cracks.

Fatty then struck several more times, each time using more power.

Finally.

After smashing it seven or eight times, the rock wall was broken open.

When a gap was broken in the rock wall, a bloody hand drooped out from the gap, startling Fatty, who was closest to it.

"Damn it, could there really be something dirty in this ancient tomb!"

Glasses shook his head, "If it's really something dirty, then it'll be easier to deal with. I'll use the Grave Robber Seal to smash their souls to pieces."

"This seems to be a corpse," Lin Qingqing said.

Upon seeing this, Fatty couldn't help but kick the bloody hand before continuing to smash the rock wall.

After the rock wall was smashed open, the corpse wrapped in blood fell out from inside the rock wall.

"This corpse doesn't seem to have been dead for very long..."

Monkey said.

But as soon as his words came out, he was stunned.

Not only was Monkey stunned, but everyone else present was also stunned.

Because when the corpse wrapped in blood revealed its somewhat pale face, everyone recognized his identity.

"Monkey, this corpse is you!!"

Fatty, with his thick nerves, shouted out loud in the first instance.

That's right.

This corpse, whether in terms of body shape or appearance, was exactly the same as Monkey.

Especially.

His face was exactly the same as Monkey's.

"What's going on?!"

Glasses' expression instantly became serious. He looked warily at Monkey, his gaze sweeping back and forth between Monkey and the newly emerged corpse.

Fatty said from the side:

"Glasses, what kind of look is that? You don't think that bloody Monkey on the ground is the real Monkey, do you?"

Lin Qingqing smiled and said:

"It shouldn't be. We can be resurrected after death, how could there be such a corpse?"

Glasses said with a serious expression, "In this ancient tomb, anything can happen."

Lin Tianhao stepped forward and patted Glasses on the shoulder.

"Don't worry, this bloody Monkey is a fake Monkey."

"It should be some guy trying to make us suspicious."

Glasses breathed a sigh of relief after hearing Lin Tianhao's words.

He might doubt what others said, but he would listen to what Lin Tianhao said.

However, Glasses' level of caution still surprised Lin Tianhao somewhat.

Glasses actually sent a message in their small group.

"Report numbers. If everyone is nearby, then report numbers one by one. I'll go first."

"1."

Lin Qingqing, Fatty, and the others all felt that Glasses was being a bit too cautious.

But they still followed Glasses' instructions and started reporting numbers.

Lin Qingqing: "2."

Fatty: "3."

Lin Tianhao: "4."

After Lin Tianhao sent "4", there was a pause of a full five seconds, but Monkey's "5" still hadn't appeared.

Everyone was waiting, but Monkey's "5" was late to appear.

"No way, could it be that the one next to us isn't really Monkey?"

Fatty finally couldn't help but speak in the group.

"Kill him," Glasses said decisively.

"Regardless of whether he's Monkey or not, kill him. If he is, he'll return to the resurrection point, if not, then we'll get rid of this unknown guy."

Lin Tianhao had to admit.

Glasses didn't explore this tomb in vain. He was truly cautious and decisive in his actions.

"Don't, don't, don't, I was just joking."

Seeing that Glasses said he was going to kill him, Monkey finally couldn't hold back.

If he didn't speak up again, Glasses would probably really send him back to the resurrection point.

"Monkey, are you itching for a beating? You're still pretending at this time?" Fatty scolded.

"Just kidding, just kidding, but what's the deal with this corpse? An illusion?" Monkey asked.

Lin Tianhao walked over.

Under his Fiery Eyes, this was indeed Monkey, the real Monkey!!

A living, white-haired monkey.

As for why it wanted to transform into Monkey's appearance and play dead, Lin Tianhao wasn't clear yet.

But its methods had already been seen through by Lin Tianhao.

It was the smell.

When they smelled that stench just now, they had already been deceived.

"Whoosh whoosh whoosh—"

Lin Tianhao directly attacked the white-haired monkey.

If it liked to pretend, then it should leave its life behind.

Seeing that Lin Tianhao had seen through it, the white-haired monkey stopped pretending and ran away in a puff of smoke.

Of course.

In the eyes of Fatty and Lin Qingqing, it was Monkey covered in blood who stood up and ran away.

This white-haired monkey was really fast, disappearing from Lin Tianhao's sight in a puff of smoke.

"What kind of monster was that just now?" Lin Qingqing asked.

"Monkey," Lin Tianhao said.

Monkey pointed at himself, "No, why is it me again?"

Lin Tianhao smiled helplessly and said, "It's the real Monkey, a white-haired monkey."

"Let's go."

Lin Tianhao summoned a undead to walk in front.

Upon seeing this, Glasses quickly said:

"Brother Hao, don't let the undead scout the way. I've encountered several ancient tombs that are very cunning."

"In some places, only the people walking in front can enter, while the people walking behind can't."

At this point.

Glasses' gaze fell on Fatty, and he smiled:

"Fatty, you should scout the way. If the situation I mentioned really occurs, you can at least help us figure out the situation ahead."

Fatty didn't say much, taking the initiative to walk in front.

The appearance of the white-haired monkey in this stone cave had made everyone more careful.

After walking for more than ten minutes, a fork in the road appeared ahead.

At the moment the fork appeared, a faint smell of corpses wafted over.

"It's that stench again," Lin Qingqing was very sensitive and smelled the smell of corpses in the first instance.

"It's that white-haired monkey again. Can you determine the direction of the stench?" Glasses asked.

Chapter 674 - Abyss iron chain, white ape hidden treasure!

Lin Qing raised her hand and pointed to the cave on the right, "The smell is coming from this side."

"Should we avoid it?" Monkey asked.

Fatty immediately retorted:

"Avoid it? Why avoid it? Let's just go head-on and kill it."

Saying that.

Fatty took the lead and walked towards the cave on the right.

"If you take two more steps, you will die!"

Lin Tianhao said lightly, stopping Fatty, who was about to step into the cave on the right.

"This is not a cave, but a dead end."

This white-haired monkey has some brains and knows that Lin Tianhao and the others may have guessed that it uses smell to create illusions.

Therefore.

It chose to create illusions for them on this dead end. As long as they step over, they will fall into the abyss.

That's right.

This road looks like a normal stone cave, but under Lin Tianhao's Fiery Eyes of Truth, there is no road ahead, but an abyss with no end in sight.

And that white-haired monkey was hanging upside down on the rock wall, its dark green eyes staring at Lin Tianhao.

Obviously.

It realized that Lin Tianhao had seen through its illusionary tricks before.

"Swish swish swish——"

Lin Tianhao shot again.

This time, he directly activated the Heavenly Punishment state, and shot both Feather Arrows and Arrows from the Heart at the same time.

He had only one purpose.

To kill this white-haired monkey.

When the white-haired monkey saw the flying Feather Arrows, its figure turned into an afterimage again, and disappeared in the blink of an eye.

But this time.

Lin Tianhao's Feather Arrows followed closely behind.

And Lin Tianhao didn't chase after it. In just that instant, he had already shot ten Feather Arrows.

If that white-haired monkey didn't have other powerful means, it probably wouldn't survive.

After the white-haired monkey left, the cave on the right returned to its original appearance.

A dead end!

Because the distance was relatively far, and the mist was swirling around, Lin Tianhao couldn't see the whole picture.

But just the things that were revealed sporadically made Lin Tianhao feel deeply surprised.

Because those chains were as thick as millstones and extended to the bottom of the abyss.

Although he couldn't see clearly, Lin Tianhao could still vaguely see that those chains seemed to be... made of Mysterious Heavy Black Gold.

You must know.

Lin Tianhao's coral tree, which was more than one person tall, could be regarded as a treasure.

Those chains were abnormally thick and stretched for an unknown length.

Putting aside everything else.

Just the value of these chains themselves was unbelievable.

But such huge chains were certainly not for viewing.

What is its use?

Lin Tianhao didn't know yet, but if he continued to explore further, he might be able to see the whole picture.

"This Burial Sea Tomb seems to be quite extraordinary?" Lin Tianhao said slowly.

Glasses walked to Lin Tianhao's side and said seriously:

"According to some fragmented information I have learned about the Burial Sea Tomb, this Burial Sea Tomb is also called the Ancient Tomb of Ascension."

"Many powerful people who failed to break through to the God Realm have been here. It is said that there is an opportunity to become a god in this Burial Sea Tomb."

Lin Tianhao nodded lightly, "Let's continue walking."

If he could gain something in this Burial Sea Tomb, the progress of the second layer of the Dragon Cave could also be advanced.

The group continued to move forward.

Fatty was still exploring the road ahead.

After walking a few steps, Lin Tianhao found that his experience points had increased by a notch.

"That white-haired monkey is dead."

Lin Tianhao glanced at the kill log. The white-haired monkey didn't withstand Lin Tianhao's ten Feather Arrows.

"Awesome!"

Monkey couldn't help but give a thumbs up, "Brother Hao, your Feather Arrows are really ridiculously strong. It's okay that the power is great, but they can actually track and lock onto the head."

"You are not bad either."

"Monkey, you have to seize the opportunity to develop now and strengthen yourself as much as possible, because the further you go, the more difficult it will be to obtain free attribute points."

Monkey spread his hands with some distress and said:

"Brother Hao, I have also discovered this problem. I have obtained a lot of free attribute points."

"But compared to what Brother Hao distributes to me, the gap is still too obvious."

"Most of the others are rewards of twenty or fifty, and there are very few tasks that reward hundreds of free attribute points."

"As for bosses, only first kills will reward free attribute points. At other times, it is too difficult to obtain free attribute points."

Lin Tianhao nodded. Is this still difficult?

If it was after the Great Cataclysm, it would be really difficult to become stronger at that time.

Especially.

If you are not careful, you may fall completely.

During the conversation between the group, they had already walked hundreds of meters along the cave.

At this time, Fatty stopped.

Because some dry bones appeared in front of him.

These dry bones include those of humans, beasts, and sea monsters.

"Could these all be experts who came here to seek the opportunity to become gods?" Fatty said.

Glasses shook his head, "I don't know, let's go first."

The group continued to move forward, and the stench of corpses came again.

Everyone instantly became vigilant. Lin Qingqing saw a white-haired monkey in the pile of dry bones at a glance.

It was lying in the pile of dry bones at this time, seemingly dead.

"Could it be another illusion?" Fatty asked.

"No."

Lin Tianhao shook his head and walked to the corpse of the white-haired monkey.

"Look, this is a bit interesting."

Lin Tianhao opened the belly of the white-haired monkey, and there was actually a stitched wound on the belly of the white-haired monkey.

The wound was twenty centimeters long, and I don't know how it was left, let alone who left it.

"Why does this scene look so familiar?" Monkey said with a strange expression.

Lin Qingqing rolled her eyes, "Brother Monkey, you don't want to talk about Zhang Wuji, do you?"

"Just kidding, but it is indeed quite similar." Monkey said.

"There is indeed something inside."

Lin Tianhao looked serious and pinched the wound on the white-haired monkey.

Then he took out a short sword and cut open the stitched wound of the white-haired monkey.

After cutting open the wound, a package wrapped in animal skin appeared inside.

"I'll go, it really is!!"

Fatty and Monkey were both shocked. Originally, Monkey was just saying it casually, but there really was something in the wound of this white-haired monkey.

The most important thing is.

This thing is also wrapped in animal skin.

"It's completely out of the ordinary. I seriously suspect that the person who designed this Burial Sea Tomb is a martial arts fan."

Lin Tianhao didn't think about this question. He directly opened the animal skin package, and the things in the animal skin package appeared in front of everyone.

Chapter 675 - The golden book of inheritance, the Great River and Earth Flame!

Within the beast hide wrapping, there was a page of golden scripture and a palm-sized booklet.

Inheritance Golden Scripture: Special.

Usage Requirement: Dragon Country Citizen.

Effect: You will obtain one-tenth of the cultivation of a Chosen One from the Third Era of God Creation.

Durability: 100.

Note: This cultivation is divided into three parts: experience points, free attribute points, and comprehension of the Dao. The inheritance process will take twenty-four hours.

Lin Tianhao was stunned. Inheritance Golden Scripture!!

He had never even heard of this thing in his previous life.

Something left behind by a Chosen One from the Third Era of God Creation, this is interesting!

The others also saw the attribute description of the Inheritance Golden Scripture, and they were all quite surprised.

"The Era of God Creation refers to the ancient Primordial Era, followed by the Era of Immortals and Gods, then the Cthulhu Era, and finally, the current All-People God Creation Era."

Lin Qingqing seemed to have also understood some information, and she slowly spoke.

"This Inheritance Golden Scripture shows that it is a product of the Third Era of God Creation, and its usage requirement is not a certain country from the Twilight of the Gods, but a country from the real world."

"These rumors about the Twilight of the Gods are becoming more and more true."

Because of the Arete Star System, many people have already speculated about the significance of the existence of the Twilight of the Gods.

Especially since.

The country has not implemented particularly strict control in this regard, which has led to more and more people knowing some secrets of the Twilight of the Gods.

Lin Tianhao opened the booklet in his hand.

The first page of the booklet contained a person's information.

"My name is Ye Kunxu, from the Jiangnan region of Dragon Country. By chance, I encountered a so-called supernatural event and accidentally became a Chosen One, arriving in this bizarre and fantastical world."

"At first, I was confused and excited. I yearned for this feeling of monster-slaying and leveling up, but the further I went, the more I realized that this was the Era of God Creation."

"Unfortunately, although my talent reached the Holy Grade, my development was not smooth, and becoming a god was a distant dream. The Third Era of God Creation is also coming to an end."

"I had no choice but to come to this Burial Sea Tomb to seek an opportunity to become a god, but in the end, I still failed and was trapped in the Burial Sea Tomb, unable to find a way out."

"Since there is no way out, I might as well dissipate all my cultivation and make a contribution to future generations. I hope that future generations of my Dragon Country can inherit my legacy, become gods and be crowned kings, and appreciate the scenery that I have never experienced."

"Final warning: There are also monsters among the Chosen Ones. Be careful, be careful, be careful!!!!"

After reading the contents of the booklet, Lin Tianhao frowned.

From the contents of this booklet, it can be seen that the Third Era of God Creation was also conducted in the form of a game.

The difference was.

They did not enter the game using so-called game pods or game helmets.

Instead, they were chosen to enter this world as Chosen Ones and begin their struggle to become gods.

"Ye Kunxu..."

Lin Tianhao became somewhat interested, and perhaps he could consider investigating this person.

Because the Cthulhu Era is not too far from their current time node, perhaps there might be some clues.

However.

With only a name, it would still be relatively difficult for Lin Tianhao to find him on his own.

With this in mind.

Lin Tianhao edited a message and sent it to Berserker Blades.

Ye Kunxu, a person from Jiangnan, from the Cthulhu Myth Era.

Because they were in the Burial Sea Tomb, the message could not be sent out, so they had to wait until Lin Tianhao left the Burial Sea Tomb before the message could be transmitted.

"Monkey, you can have this golden scripture."

Lin Tianhao gave the Inheritance Golden Scripture to Monkey, as free attribute points and comprehension of the Dao were what Monkey desperately needed.

The others had no objections.

"Let's go, the harvest this time is not small."

Lin Tianhao and the others passed through the snow-white bones and continued forward.

Yet, in this interlayer between the abyss and the ocean, there was actually an underground river. This indeed made Lin Tianhao feel incredible.

"This is simply the work of gods."

Fatty exclaimed.

"Sometimes I can't even tell what kind of existence the Twilight of the Gods is."

Glasses looked at the underground river in front of him, but his expression became unusually serious.

"There are so many withered bones here. They may have been blocked by this underground river."

Hearing this, Fatty became somewhat eager to try. He grinned and said:

"Hehe, if you say that, then I have to try it first to see if there are mermaids in this underground river, that could make so many heroes bend their backs."

It must be admitted.

Fatty's nerves were really thick.

If other people encountered this situation, they would feel that this place was dangerous and should not be easily attempted.

But Fatty's thinking was not the same as ordinary people.

He jumped straight down.

Then, white smoke began to sizzle from the water of the underground river.

After a while.

The white smoke disappeared.

A skeleton was washed up by the waves.

Fatty's death was without suspense.

The only thing worth mentioning was that he still stirred up a wave before dying.

After half a minute.

The skeleton disappeared.

Fatty reappeared next to Lin Tianhao and the others.

"Damn it, this is really outrageous!!"

Lin Qingqing smiled from the side:

"So, the curse you triggered before was not a bad thing. If it weren't for that curse, you should have already been resurrected on Qionghuang Island."

Glasses was very calm and said:

"Fatty, what did you feel after you went into the water just now?"

"Feelings?"

Fatty said without thinking, "It's like being in a frying pan. This underground river looks ordinary, but as soon as you touch it, your body instantly feels like it's being deep-fried."

Lin Tianhao walked to the riverbank, but there was no heat wave from hot oil being transmitted.

Lin Tianhao stretched out a finger and touched the river water.

Sure enough.

A burning sensation was transmitted from his finger to all parts of his body.

"Interesting."

A smile appeared on Lin Tianhao's face.

"This is not water, but fire!!"

Hearing this.

Monkey and the others were somewhat surprised.

No matter how they looked at it, this was an underground river, and what was flowing was water.

Lin Tianhao was able to detect that this was fire because of the blessing he had previously obtained from Taishang Laojun, Divine Flame Nine Refinements, which could absorb special flames to increase proficiency.

Although Lin Tianhao was burned just now, he also triggered the Divine Flame Nine Refinements.

Great River Earth Flame: Special.

Usage Requirement: Fire-type cultivator.

Effect: Has extremely high temperature and can quickly melt flesh and blood.

Durability: Indestructible.

This river is actually all Great River Earth Flame.

Or rather.

Is the Great River Earth Flame itself like this?

But none of this matters anymore.

Lin Tianhao's Divine Flame Nine Refinements had only previously obtained the Ice Spirit Ancient Flame in the Ancient Dynasty Secret Realm, increasing the proficiency of the Divine Flame Nine Refinements by five points, but it was still five points away from rising a star.

Chapter 676 - It's just eight turns, why are you pretending to be so high and mighty!

Now, encountering this Great River Earth Flame is a danger to others, but for Lin Tianhao, it is an opportunity.

"Brother, is there a way to deal with it? If not, I'll just fly you guys over." Lin Qingqing could fly, so naturally she wasn't afraid of these.

Glasses shook his head and said:

"This place has trapped so many experts to death. It shouldn't be possible to fly over."

"咻 — —"

A feathered arrow pierced through the air, flying towards the opposite bank.

The one who made the move was naturally Lin Tianhao.

The simplest way to test whether one could fly over the Great River Earth Flame was with a feathered arrow.

When Lin Tianhao's feathered arrow sliced through the sky, the moment it reached the airspace above the Great River Earth Flame, the feathered arrow directly sank into the Great River Earth Flame.

"Glasses' prediction is correct." Lin Tianhao said.

Everyone's expressions became serious. Lin Qingqing said:

“Brother, why don't I give it a try? The Dragon Cave also prohibits flying.” Lin Qingqing said.

Lin Tianhao shook his head and said:

“No need, let me try!”

As soon as he finished speaking.

The Great River Earth Flame was being drawn away by Lin Tianhao at a speed visible to the naked eye.

Fatty's eyes widened. Although he had guessed that Lin Tianhao would have some tricks, he never dreamed that Lin Tianhao's methods would be so overbearing.

Glasses opened his mouth, wanting to say something, but in the end, he didn't say a word.

“Too perverted, I really don't know what can trouble you, Brother Hao.” Monkey said in shock.

Lin Tianhao didn't speak, constantly absorbing the Great River Earth Flame.

The proficiency of his Divine Flame Nine Refinements was also rapidly increasing at this time.

“Ding, congratulations, your Divine Flame Nine Refinements has been upgraded to two stars.”

Divine Flame Nine Refinements: 2 stars.

Effect 1: Your speed of refining pills and equipment is increased by 100%.

Effect 2: Your proficiency increase speed as an alchemist and blacksmith is increased by 20%.

Proficiency: 1 / 100.

(Note: This proficiency needs to be increased by collecting special flames.)

Reaching two stars, the speed increase of Divine Flame Nine Refinements increased from 50% to 100%.

The proficiency increase increased from 10% to 20%.

This increase is not bad.

Moreover.

The Great River Earth Flame was still increasing Lin Tianhao's Divine Flame Nine Refinements proficiency.

In the end.

The proficiency of Divine Flame Nine Refinements stopped at 19 / 100.

A Great River Earth Flame increased Lin Tianhao's proficiency by twenty-four points, nearly five times that of the Ice Spirit Ancient Flame he obtained before!

This allowed Lin Tianhao to see the power of this thing.

Lin Tianhao's One Qi Transforming into Three Purities had been refining equipment for the past few months.

Although the Life Orb was far inferior to the蟠桃, it was still quite good for ordinary players because it didn't take up an equipment slot and could increase 100,000 health points.

At least.

Lin Tianhao could equip some people in the military with Life Orbs.

When the Great Cataclysm descends in the future, top experts are important, but the army is equally important.

Speaking of which.

Although Lin Tianhao didn't refine equipment himself, relying on his three clones, his blacksmithing level was not low at this time, already reaching the terrifying Silver rank.

Don't think that the Silver rank is bad. It has only been eight months since the game started, and there are very few people who can forge Bronze-level equipment.

Except for those who have special opportunities, or those who have good blacksmithing talents, it is really difficult for others to compare with Lin Tianhao.

It's just.

A Silver-level blacksmith is not low at this stage, but the help it provides to Lin Tianhao is minimal.

Returning to his thoughts.

Lin Tianhao's gaze fell on the river channel in front of him.

After the Great River Earth Flame was subdued by Lin Tianhao, the river channel below appeared in Lin Tianhao's line of sight.

When this river channel appeared, Lin Tianhao understood why so many people had died here.

Because the front was also a dead end, and the road to continue forward was in this river channel.

Therefore.

To continue exploring the opportunity to become a god, one must pass through this Great River Earth Flame.

Or, like Lin Tianhao, directly take the Great River Earth Flame.

“Didn’t any of the people who came here to seek opportunities have someone who could control flames?”

Lin Tianhao felt a little strange.

After all, looking at the white bones here, there were quite a few experts who came here. There shouldn't be none who could control flames, right?

Lin Tianhao didn't have an answer to this question for the time being, but it wasn't important anymore.

What was important was that a new stone door had appeared below the river channel.

The stone door was carved with some strange runes, seemingly to isolate the Great River Earth Flame.

Or perhaps to prevent people from behind from entering it.

“What is this?”

Lin Qingqing picked up a wooden box in a corner of the river channel.

“After being in this flame for so long, this wooden box is actually unscathed, it’s too strange.”

Although they hadn't opened the wooden box yet, everyone could guess that this wooden box could withstand the attack of the Great River Earth Flame, so it must be something extraordinary.

“Open it and take a look.”

Fatty was like a curious baby, not worried about triggering anything bad at all.

Lin Qingqing slowly opened the wooden box.

In the next instant.

Blue smoke swirled in the wooden box, and a phantom floated out of the wooden box.

“I’m out, finally out. I didn’t expect that I, Thunder Flame True Monarch, would have a day to see the light again.”

Seeing a phantom actually come out of the wooden box, everyone was slightly startled.

Thunder Flame True Monarch?

The name sounds quite domineering, but under Lin Tianhao’s Fiery Eyes, this guy was just an eight-revolution soul body.

This kind of True Monarch is generally the title of a god.

This guy is trying to bluff people.

“Why are you in this wooden box?” Lin Qingqing asked.

Thunder Flame True Monarch seemed to be recalling, and slowly said:

“This monarch was a ninth-grade True God of the previous era. When I was attacking the God King realm and was extremely weak, I was harmed by villains, and my remnant soul was hidden in this World Wood Box.”

“Little girl, you released me. To thank you, kneel down and become my disciple now, and I can pass on the Thunder Flame Divine Art to you and help you become a god!”

Thunder Flame True Monarch’s remarks were quite plausible.

But as soon as he finished speaking, Lin Tianhao said from the side.

“Eight-revolution is eight-revolution, why are you pretending to be a big-tailed wolf.”

Thunder Flame True Monarch was stunned for a moment, and he looked at Lin Tianhao in some surprise.

“Young man, I only have a wisp of remnant soul left now, so I am showing this eight-revolution fatigue.”

“When I return to my peak, I will easily step into the God King realm.”

“Alright!”

Lin Tianhao interrupted Thunder Flame True Monarch’s words and said coldly:

“Speak properly, or I will send you on your way now.”

Having said that.

Lin Tianhao changed the topic and asked:

“What’s your name? Why are you in this wooden box?”

“I really...”

Thunder Flame True Monarch still wanted to argue, but Lin Tianhao had already raised the feathered arrow in his hand.

Chapter 677 - Gui Ye Wuqing from the last era of god-making!

“Ahem, I am Feng Zhengcu, the chosen one of the Third God-Creation Era,” Feng Zhengcu said with a dry laugh.

“Because I cultivated methods related to fire, I was overconfident and went down the river when I first encountered this Great River Earth Flame, resulting in the destruction of my physical body. Fortunately, I had this wooden box of the Thunder Flame True Lord, which preserved this wisp of my remnant soul.”

Lin Tianhao nodded and smiled, “I’m very curious, why do you say you are the chosen one of the Third God-Creation Era? Do you think we are not people of the Third God-Creation Era?”

Feng Zhengcu shook his head and said, “Because we swarmed here in the beginning because the Third God-Creation Era was about to end. If we cannot become gods, our memories will be erased, and we will become NPCs who can never improve.”

Upon hearing this.

Everyone present was shocked.

Including Lin Tianhao, he had always felt that both the Vast Continent and the Divine Continent should be different spaces opened up by the Source God of Dao.

But now Feng Zhengcu's words really shocked Lin Tianhao.

In other words.

The NPCs he is currently in contact with are all people from other God-Creation Eras.

Although the information Feng Zhengcu said was shocking, Lin Tianhao didn't completely believe it.

He had never heard of this news in his previous life, and secondly, there was the matter he had just raised.

Why wasn't Feng Zhengcu's own memory erased?

There are hundreds of thousands of remnant souls in this Twilight of the Gods.

If none of them had their memories erased, that would be a bit unreasonable.

"I think it should be this wooden box."

"Didn't I mention the Thunder Flame True Lord before? He is not a person from our world. This wooden box was left by him."

"Oh?"

Lin Tianhao took the wooden box from Lin Qingqing's hand, and the attributes of the wooden box appeared before Lin Tianhao's eyes.

Mysterious Wooden Box: Unknown.

Introduction: A wooden box from an unknown space-time, possessing unknown power. Please be careful when using it.

Wear Resistance: Unknown.

Seeing the attribute introduction of the wooden box, Lin Tianhao then believed Feng Zhengcu's words.

"By the way, what about this Great River Earth Flame?"

Feng Zhengcu looked at his feet in surprise, "Could it be that in this Fourth God-Creation Era, this Great River Earth Flame is no longer here."

Lin Tianhao smiled slightly, "It's not that it's not here, but that I've already taken it."

Upon hearing this.

Feng Zhengcu immediately denied it, saying:

"That's impossible. My talent is a Saint-level talent related to fire control, and I have also received the blessings of two fire-type gods and the inheritance of the Thunder Flame True Lord."

"Among all the flames in the world, there is none that I cannot subdue. But in this Burial Sea Tomb, I am still suppressed to the point where I cannot subdue this Great River Earth Flame."

Listening to Feng Zhengcu's words, Lin Tianhao was slightly surprised.

If that's the case, what is the reason?

Could it be because his Divine Flame Nine Refinements are too powerful?

“No matter what you say, the fact is that I really subdued this Great River Earth Flame.”

Lin Tianhao raised his hand, and the Great River Earth Flame appeared in his palm.

“This... how is this possible?”

“Do you have a God-level fire control talent, or do you have a Saint-blessed fire control method?”

Feng Zhengcu was very shocked, because he felt that.

In the area of fire control, he was already at the ceiling level.

But why was Lin Tianhao able to do what he couldn't?

“If you put it that way, my fire control method is indeed blessed by a Saint.”

Upon hearing this.

Feng Zhengcu was even more surprised.

“Who exactly are you? Saints never easily bestow blessings. In our Third God-Creation Era, there were only a handful of people who received Saint blessings.”

Fatty grinned beside him and said, “In our Fourth God-Creation Era, chosen ones like our Bro Hao don't need to be counted on one's fingers, he is the only one.”

“We have a saying: there are two types of players, one is Xue Di, and the other is other players.”

Feng Zhengcu didn't question it upon hearing this.

“In our Third God-Creation Era, there was also such a person.”

“Oh? Who?” Lin Tianhao asked.

Does every era have a super awesome existence?

Just like Pangu大神 of the Chaos Era and Hongjun老祖 of the Primordial Era.

“I don't know her real name, I only know the name she gave herself... Gui Ye Wuqing!”

When the words 【Gui Ye Wuqing】 came out of Feng Zhengcu's mouth, everyone present was stunned.

The gazes of Monkey, Glasses, Fatty, and others all fell on Lin Qingqing.

Even Lin Qingqing herself was dumbfounded.

“Is it a coincidence?” Fatty asked.

A storm surged in Lin Tianhao's heart.

Coincidence?

He didn't believe it.

He had encountered three Gui Ye Wuqings. Under the rules of the Twilight of the Gods, it shouldn't be possible for people with exactly the same game nicknames to appear.

But Lin Qingqing appeared, and there were three of them.

If that was all.

Lin Tianhao could barely accept it.

But the talents of the three of them were quite heaven-defying.

And the voices of the three of them were exactly the same.

This was worth pondering.

Now Feng Zhengcu actually said that Gui Ye Wuqing also appeared in the Third God-Creation Era.

And she was equally talented, which made Lin Tianhao think more.

“How much do you know about that Gui Ye Wuqing?” Lin Tianhao asked.

Feng Zhengcu shook his head and smiled bitterly, saying:

“Although my talent is okay, it's still a world of difference compared to that Gui Ye大佬.”

“I only know that she is female and simultaneously possesses three professions: mage, warrior, and mechanic.”

“By the way, her speed of comprehension is very fast, so fast that people think she's cheating.”

Listening to these words from Feng Zhengcu, Lin Tianhao and Lin Qingqing didn't speak.

Their faces became extremely solemn.

Mage, warrior, mechanic...

Isn't that the professions of the three Gui Ye Wuqings in this era?

Lin Qingqing and the others also knew about the other two Gui Ye Wuqings.

Extraordinary talent, extremely fast comprehension, plus these three professions... ..

Even if they didn't want to think too much, they had to think in that direction.

The Gui Ye Wuqing of the previous God-Creation Era and the three Gui Ye Wuqings of this God-Creation Era must have some kind of connection!!

In addition, the author's coding speed is indeed not fast, and he is also a full-time dad, so the update is not strong.

But I have already discussed it with my mother-in-law, and she will come over next month to help me take care of the baby, and I will also have more time to code, and I will update as much as possible at that time.

Thank you readers for your support along the way, the little author thanks you!

Chapter 678 - From the Chosen One to an NPC!

“Are you here at the Burial Sea Tomb now, does this mean the Fourth God-Making Era is also coming to an end?”

“But you’re all below seventh rank, even if you obtain opportunities in this Burial Sea Tomb, you most likely won’t be able to become gods.”

Feng Zhengcu noticed the strangeness in Lin Tianhao and the others' expressions, but he tactfully didn't ask.

Because his remnant soul was extremely weak, and although Lin Tianhao and the others weren't high level, they didn't look like good people.

“The Fourth God-Making Era has only passed for less than a year,” Lin Tianhao said.

“Speaking of which, how long was your last God-Making Era?”

Feng Zhengcu didn't hide anything, and said bluntly:

“Ten years.”

Lin Tianhao and the others exchanged glances, “Then you were still lucky.”

The Great Cataclysm will descend in five years, in other words.

Lin Tianhao and the others only have five years to develop properly.

Five years later, the Great Cataclysm will descend.

They will face the attack of the Arreat Star System, and at that time, human lives will become the least valuable thing.

“Based on past experience, each God-Making Era, the time is getting shorter, and the overall strength is getting weaker,” Feng Zhengcu said.

Lin Tianhao also knew this.

The three thousand Godfiends of the Chaos Era were all at the Saint level.

In the later Immortal God Era, Saints were few and far between.

And in the later Cthulhu Era, there was no concept of Saints anymore.

Although the Cthulhu Era also had some powerful and unpredictable rules.

But discerning people could feel that the gods of the Cthulhu Era, not to mention comparing them to the Saints of the previous era, even the powerful Immortal Gods could easily beat them.

“How much do you know about this Burial Sea Tomb?” Lin Tianhao continued to ask.

Feng Zhengcu opened his mouth, preparing to say something, when a mysterious force descended upon him.

In the next instant.

His eyes became dazed, and then, from dazed, they became manic.

Immediately after.

Feng Zhengcu seemed to have become a different person, coldly saying to Lin Tianhao and the others:

“This is not a place you can come to, leave now, and you may live.”

Feng Zhengcu's change came too suddenly.

Not only that.

Under Lin Tianhao's Fiery Eyes, Feng Zhengcu's attributes also underwent earth-shattering changes.

Just now, Feng Zhengcu was eighth rank, now he has become a Firecu Remnant Spirit.

Firecu Remnant Spirit (Grandmaster): Ninth Rank.

Health Points: ???

Attack: ???

Skills: ???

Eighth rank promoted to ninth rank, and even the name has changed.

Even the grade has been upgraded from the previous eighth rank Platinum grade to the current ninth rank Grandmaster grade.

Outrageous!

Too outrageous!!

It was that mysterious force that changed Feng Zhengcu.

Who made the move?

To be able to instantly raise an eighth rank Platinum grade remnant soul to a ninth rank Grandmaster grade.

This span is too big!!

But with only a slight thought, Lin Tianhao already had the answer.

It's the rules!

Or rather.

It's the Source of Dao God!!

When Feng Zhengcu had just come out of the Thunderflame Wood Box, he was still a Chosen One of the Third God-Making Era, retaining the memories of the previous God-Making Era.

“Talking nonsense?”

Firecu Remnant Spirit sneered, “You ignorant fool, how dare you be disrespectful to this venerable one.”

With that said.

Firecu Remnant Spirit raised his palm, a flame flickering with lightning appeared in his palm.

“Thunderflame Heartburn!!”

Fatty was also not afraid at all, and immediately released a skill to block.

But it was useless.

One after another, extremely terrifying damage numbers popped out from above Fatty's head.

- 120 million!!

- 120 million!!

.....

You must know.

Fatty's dual resistance is very good, and he can still be hit with such high damage, this Firecu Remnant Spirit is really terrifying.

Fortunately, Fatty now has enough health points, so it won't be too affected.

"A little interesting?!"

Firecu Remnant Spirit saw Fatty's extraordinary nature, "Such high health points, but I don't know if you can withstand it if I use Flame Burst Technique?"

As soon as he finished speaking.

"Boom—"

With a loud noise.

Fatty's chest instantly exploded, and a terrifying heatwave swept in all directions.

Monkey was affected by the heatwave and died on the spot.

Glasses reacted quite well, using Invincible Etherealization to avoid the shockwave of the explosion.

Lin Qingqing used the power of the law to condense an ice shield in front of her.

But she was still knocked off more than 200 million health points!!

And this is only the damage caused by the shockwave that spilled out from this explosion.

And Fatty, who was at the center of the explosion, directly had a terrifying damage number of 11.9 billion floating above his head.

But even so.

Fatty's health points only dropped by one-third.

Firecu Remnant Spirit was a little surprised to see that Fatty was not dead.

"No wonder you dare to break into the Burial Sea Tomb, so you have some tricks."

Lin Tianhao frowned and sighed:

"Alas, what a pity, I am honored to be able to meet a Chosen One from the previous era."

“But since you’ve become like this, I can only end you.”

As soon as he finished speaking.

Lin Tianhao directly activated Three Heads and Six Arms, plus Arrow Follows the Heart.

Forty-eight arrows per second, damage directly maximized.

Firecu Remnant Spirit saw the feather arrows pouring down from Lin Tianhao, but he was not flustered at all.

To be precise.

When Lin Tianhao had just released Three Heads and Six Arms, he had already appeared behind Lin Tianhao.

A palm wrapped in flames instantly grabbed towards Lin Tianhao's neck.

“Space Flicker!”

Lin Tianhao didn't try to resist this attack head-on.

Although Lin Tianhao could completely withstand this damage with damage transfer, he didn't need to.

However.

The moment Lin Tianhao's Space Flicker landed, he found that Firecu Remnant Spirit had landed almost at the same time as him.

Moreover.

His feather arrows hit Firecu Remnant Spirit, and the damage value also made Lin Tianhao a little dumbfounded.

- 4.45 billion!!

+ 3.56 billion!!

.....

After taking damage, Firecu Remnant Spirit instantly recovered eighty percent of the damage taken.

This effect is somewhat similar to Lin Tianhao's Bloodthirsty Dragon Armor, but it is obvious that Firecu Remnant Spirit's skill is more perverted and terrifying than Bloodthirsty Dragon Armor.

At the same time that Lin Tianhao's feather arrows hit Firecu Remnant Spirit, Firecu Remnant Spirit's flame palm was about to grab Lin Tianhao's nape.

“Quicksand Substitute!”

Lin Tianhao used the skill he had taken from the Sand Rainbow God with the Godslayer Mark.

“Boom—”

The flame palm slapped Lin Tianhao's substitute, turning Lin Tianhao's substitute to ashes.

After Lin Tianhao opened the distance, he prepared to strike again.

But Firecu Remnant Spirit's body directly split into seven flames, flying towards Lin Tianhao from seven different directions.

Lin Tianhao was shocked, this Firecu Remnant Spirit is really extraordinary.

But since he wants to fight close combat, Lin Tianhao is not afraid at all.

The weapon in his hand instantly switched to Asura God Sword + God Beating Whip + Carving Knife!

Chapter 679 - Lin Tianhao VS the remaining spirit of the fire cluster!

Three different weapons, yet all of them are the pinnacle of Lin Tianhao's close-quarters arsenal.

Seven balls of flame had already approached Lin Tianhao.

In close combat, Lin Tianhao abandoned his Heavenly Punishment form. With an attack speed exceeding 120, coupled with his three heads and six arms, he should have been able to defend against these seven balls of flame without any blind spots.

However, these seven balls of flame divided again, transforming into forty-nine flames.

Moreover, these flames flew extremely fast, attacking Lin Tianhao at an unbelievably rapid pace.

-190 million!!

-190 million!!

.....

Even with damage transfer in effect, Lin Tianhao still suffered tremendous damage from these flames.

"Ding, you have been burned by flames and will now suffer continuous health loss."

-50,000!!

-50,000!!

.....

With the existence of the Purification Jade Pendant and damage transfer, this burning damage was relatively ordinary for Lin Tianhao.

"Surging Battle Intent!"

Lin Tianhao shouted softly. This was a skill stripped from the Mo Dao God by the Godslayer Mark.

It could enhance one's own battle will and dispel negative effects on the body.

Not only that.

It could also enhance one's own combat power by 10%.

This skill.

Was perfect to use now.

"Bang bang bang——"

Lin Tianhao constantly collided with these flames.

It was still somewhat difficult to parry.

In this Sea Burial Tomb, the power of the gods could not be used. This duel made Lin Tianhao realize.

That passing through the Hito Empire would probably not be so easy.

This Ninth-Rank Grandmaster level expert had already put him in such a difficult situation without even using his domain.

The only good news was.

That after Lin Tianhao's Hand of Heavenly Punishment evolved, bloodsucking was no longer a problem.

It would not be so easy for this Fire Cluster Remnant Soul to kill him either.

"Such strong recovery?"

The Fire Cluster Remnant Soul was somewhat surprised, "Then I'll try my move."

Lines of lava patterns appeared under Lin Tianhao's feet.

These lava patterns quickly climbed up Lin Tianhao's body.

In the next moment.

This grievous injury effect was already very terrifying.

"Absolute Weakness!"

Lin Tianhao released another skill.

This was a skill obtained from the Ghost Grass God by the Godslayer Mark.

It could reduce the target's attack speed and movement speed by fifty percent. It would also have an effect on gods, so it was a very good skill.

After Lin Tianhao used Absolute Weakness, the Fire Cluster Remnant Soul's offensive was finally not so fierce.

"Young man, you can be proud of yourself for forcing me to this point."

"Thunderflame Domain, open!"

The Fire Cluster Remnant Soul let out a low roar and directly unfolded his domain.

Flames flickering with lightning formed a huge domain, instantly enveloping Lin Tianhao and the others.

Glasses snorted coldly and formed a hand seal.

A curse seal appeared above the Fire Cluster Remnant Soul's head.

The Fire Cluster Remnant Soul's domain, which had already been unfolded, actually retracted.

"Even a domain can be silenced?!"

Lin Tianhao couldn't help but be a little surprised, but he didn't think too much about it, seizing this fleeting opportunity.

He once again switched his weapon to a longbow.

Forty-eight arrows per second, dealing as much damage as possible.

"Brother Hao, use this thing."

Glasses threw Lin Tianhao a bottle of potion.

Grievous Injury Potion: Item.

Usage Requirements: None.

Effect: After use, your attacks can deal 50% Grievous Injury effect, lasting for one minute.

Durability: 100.

Note: This Grievous Injury effect cannot be stacked with other Grievous Injury effects.

Grievous Injury Potion.

Lin Tianhao had also obtained it in the Footprints of the Snow Corpse dungeon.

It was just that he had used them up one after another later on.

Now that he had obtained the Grievous Injury Potion again, Lin Tianhao did not hesitate and used it directly.

After use.

The Fire Cluster Remnant Soul's recovery effect plummeted.

Although his health was very high, the damage of Lin Tianhao's arrows was also very impressive.

Even without calculating critical hits, an arrow could deal 4.5 billion damage.

This included double damage from the double Grievous Injury, 20% from the Galaxy War God title, 10% from the guild, and 40% enhanced by Bai Tu.

Without calculating critical hits, Lin Tianhao's damage amplification was as high as 2.7 times.

Adding the 10% amplification from the current Surging Battle Intent.

That was a 2.8 times damage amplification!!

In addition to this.

There was also the blessing of one-thousandth of the maximum health value of the Source Burning.

According to Lin Tianhao's calculations.

The maximum health value of this Fire Cluster Remnant Soul should be over 900 billion +.

Among the Ninth-Rank Grandmaster level BOSSes, it was not high, and it could even be said to be very, very low. It might also be because he had only transformed into a BOSS, so his attributes were not at their peak state.

If it weren't for the fact that the Fire Cluster Remnant Soul's own health recovery ability was really outrageous, he would have already been killed by Lin Tianhao.

After Lin Tianhao used the Grievous Injury Potion, the feathered arrows began to pour out.

The Fire Cluster Remnant Soul was temporarily silenced, but with his tenacity and level suppression.

Glasses' Silence Curse only lasted for 0.3 seconds!

This could already be considered the Glasses' skill powerful.

Otherwise, with such a large level suppression and grade suppression.

I'm afraid that even 0.1 seconds would not be silenced, and even the skill effect might not come out.

"Thunderflame Paralysis!"

The Fire Cluster Remnant Soul struck again.

Lin Tianhao retreated, but the space here was narrow, and the Fire Cluster Remnant Soul was a locking skill, so there was no way to pull away.

"Overlord Body!"

Lin Tianhao's reaction speed was already very fast, but his body was still shivering from the thunderflame electricity.

Obviously.

This was a high-grade skill that ignored the Overlord Body.

Fatty stepped forward, ready to help.

Lin Qingqing shook her head and said:

"Brother should want to hone his fighting skills. Haven't you noticed that he hasn't used his undead army?"

After hearing Lin Qingqing's words.

Fatty then reacted.

If Lin Tianhao wanted a quick battle, he could completely summon the undead army.

Lin Qingqing was right.

But Lin Tianhao was now dumbfounded.

Because he found that this Thunderflame Paralysis was an infinite control.

Because this thunderflame belonged to a special flame, as long as this thunderflame was still on his body, he would be paralyzed all the time.

The control reduction effect of the Purification Jade Pendant could not be reflected at this time.

While paralyzed, most of Lin Tianhao's skills could not be used.

If he wasn't careful, he could be controlled to death.

Suddenly.

Lin Tianhao noticed a special skill.

Godly Flame Nine Refinements!!

Could it be...

Lin Tianhao had a bold and crazy idea in his mind.

If his guess was correct, would the Fire Cluster Remnant Soul be angered to death here.

"Godly Flame Nine Refinements!"

Lin Tianhao activated Godly Flame Nine Refinements without hesitation!

When Godly Flame Nine Refinements was fully activated by Lin Tianhao, the thunderflame attached to his body was actually absorbed by Godly Flame Nine Refinements.

The proficiency of Godly Flame Nine Refinements also increased rapidly at this time.

"What's going on?!"

The Fire Cluster Remnant Soul, who was controlling the thunderflame, widened his eyes and looked like he had seen a ghost.

"You can actually forcibly absorb the flames I control!!"

The Fire Cluster Remnant Soul discovered this problem, and he immediately wanted to take back the thunderflame.

But it was too late.

Godly Flame Nine Refinements was like a ravenous woman, frantically absorbing the thunderflame...

Chapter 680 - Stone clone, surrounding the area!

“Damn it!!”

The remnant soul of the Fire Cluster cursed angrily.

“Thunderflame Domain!”

He unfolded his domain again.

Only.

This time, the flames in his domain were not thunderflames, but pale blue flames.

Lin Tianhao knew that his current strength was not enough to contend with the domain, so while retreating, he shot out as many feather arrows as possible.

“Bloodfly Ape Demon!”

Lin Tianhao summoned the undead Bloodfly Ape Demon.

Even in its prime, the Bloodfly Ape Demon was not as powerful as the remnant soul of the Fire Cluster.

Moreover, it was now in an undead state.

The undead controlled by Lin Tianhao only had about 70% of their combat power from when they were alive, making the gap with the remnant soul of the Fire Cluster even larger.

When the Bloodfly Ape Demon’s domain collided with the remnant soul of the Fire Cluster’s domain, cracks immediately appeared.

But Lin Tianhao had more than just them as powerful undead under his command.

Immediately, Lin Tianhao summoned more than a dozen Rank Nine undead.

These undead only needed to delay Lin Tianhao for a little time.

“Hmph, you want to delay time and then use your locked-on feather arrows to kill me, a good idea indeed.”

“It’s a pity that you met me, this little trick is not enough to deal with me!”

As soon as he finished speaking.

The remnant soul of the Fire Cluster made hand seals, and his figure actually turned into a stone statue.

Most importantly.

As a stone statue, the remnant soul of the Fire Cluster was still releasing its domain.

“Not good!”

Lin Tianhao realized something, his eyes narrowed, and he fully activated the Earth-Connecting Heavenly Eye.

“I am here!”

The voice of the remnant soul of the Fire Cluster came from above Lin Tianhao’s head, and then a ball of flame rushed over.

Before the flame even hit Lin Tianhao, the terrifying high temperature caused Lin Tianhao to lose health.

“Ding, you are being burned by high temperature, and will continuously lose health.”

-50,000!!

-50,000!!

... ..

“Wall of Wind!”

Lin Tianhao did not hesitate and immediately released the skill Wall of Wind.

When this ball of flame collided with the Wall of Wind, it exploded violently.

The moment the flame exploded, Lin Tianhao felt a large hand grab the back of his neck.

“Flame Dragon Burst!!”

Critical hit!

-5.9 billion!!

Lin Tianhao had faced Rank Nine Grandmasters before, but he had relied on the power of the gods to defeat them.

Only now, facing a Rank Nine Grandmaster expert head-on like today, did Lin Tianhao realize how insufficient his current strength was.

The huge explosive shockwave blasted Lin Tianhao away.

But Lin Tianhao had just flown into the air when the remnant soul of the Fire Cluster grabbed Lin Tianhao's left ankle.

"Bursting Eighteen Falls!"

Lin Tianhao felt like he was being swung around in circles in the air by the remnant soul of the Fire Cluster.

"Bang, bang, bang——"

Each circle, Lin Tianhao's three heads would have close contact with the ground.

The ground was also unable to bear the heavy impact and was smashed into ravines by Lin Tianhao's three heads.

Fatty swallowed when he saw this scene, "Should we take action?"

Lin Qingqing said helplessly:

"It seems that brother is not as strong as we imagined."

-990 million!

-1.01 billion!!

Critical hit!!

-2 billion!!

... ..

Lin Tianhao was now experiencing what it was like to be unilaterally and brutally abused.

Lin Qingqing rushed up with her long sword.

An attack containing laws slammed into the domain of the remnant soul of the Fire Cluster.

This powerful attack only caused the domain of the remnant soul of the Fire Cluster to shake slightly.

The difference.

Was too great!

The power of the remnant soul of the Fire Cluster was indeed somewhat difficult for Lin Tianhao to contend with.

The key was.

Lin Tianhao's Star Moon Purification and Overlord Body skills could not remove the control effects brought by the Bursting Eighteen Falls.

To be precise.

This kind of strong control did not come from the Bursting Eighteen Falls, but from the flames attached to the palm of the Fire Cluster's remnant soul.

That flame did not belong to a skill, nor did it belong to a divine power.

But the power of rules!!

The control removal of Overlord Body and Star Moon Purification was only at the skill level after all.

The Immovable Mysterious Spirit copied from Lin Qingqing also had control removal effects, but that was to remove soul control.

Of course.

Lin Tianhao also tried to use the Immovable Mysterious Spirit, but still could not get rid of the control of the remnant soul of the Fire Cluster.

“Blazing Impact Ring!”

While attacking Lin Tianhao, the remnant soul of the Fire Cluster noticed Lin Qingqing and the others preparing to rush to his aid.

A blazing fire ring larger than the Repelling Fire Ring appeared.

And rushed out towards the surroundings at an extremely fast speed.

“Shield of Protection!”

Fatty’s reaction speed was already very fast.

Five heavy shields stood in front of him and Lin Qingqing.

But these five heavy shields could not completely block the power of the Blazing Impact Ring, and they were all shattered in the blink of an eye.

“Bang, bang——”

Two consecutive sounds, Lin Qingqing was directly killed in seconds.

Fatty had enough health, but he also lost more than 8 billion health in one fell swoop.

“Damn it, what kind of monster is this!”

Fatty’s dual resistance was not bad, and he still suffered such powerful damage.

It was Glasses who not only was not killed, but even miraculously appeared behind the remnant soul of the Fire Cluster.

“Soul Devouring Hand!”

Glasses’s palm actually passed through the body of the remnant soul of the Fire Cluster, directly grabbing the Fire Cluster’s soul.

Moreover.

Glasses’s palm was still devouring the Fire Cluster’s soul at an alarming rate.

“Looking for death!!”

The remnant soul of the Fire Cluster shouted angrily, turned around and slapped Glasses on the forehead, sending Glasses back to the fountain.

Lin Tianhao also seized this fleeting opportunity, immediately opened the distance, and began to attack frantically.

At the same time.

Lin Tianhao also summoned more Rank Nine undead, and each undead unfolded its domain, colliding with the remnant soul of the Fire Cluster.

It was a pity that Xuedeli Baiyun stayed in the Dragon Cave, and the time that Yuelun Kexuan was enslaved for exceeded a month and had already dissipated.

This led to the fact that Lin Tianhao's current undead underlings were not particularly strong, otherwise this embarrassing situation would not have occurred now.

Rank Nine Diamond level, and even Rank Nine Star Glory level, were somewhat insufficient in front of the remnant soul of the Fire Cluster.

Then.

A scene that made Lin Tianhao somewhat autistic appeared.

The remnant soul of the Fire Cluster actually differentiated into two more stone statue clones.

Like the first stone statue clone, these two stone statue clones were actually releasing domains.

The space here was not large to begin with, and with three stone statue clones and three powerful domains unfolded, they occupied one-third of the space here!

Most importantly.

This Fire Cluster's remnant soul surrounded Lin Tianhao with three stone statue clones.

On three sides of Lin Tianhao were stone statue clones that had unfolded their domains.

And in front.

Was the remnant soul of the Fire Cluster with a wicked smile.

Those undead could not break through the domain of the remnant soul of the Fire Cluster at all.

In other words.

Lin Tianhao now had no one who could help him.
