

## O game 681

Chapter 681 - The immortal true body exerts its power and kills the remaining spirit of the fire cluster!

As for Fatty.

He was just a toy in front of the Firecluster Remnant Soul. With the Firecluster Remnant Soul's output ability, it wouldn't even take a second to kill Fatty if it really wanted to.

Lin Tianhao sighed helplessly, "Is this the suppressive force of a Rank Nine Grandmaster? Now, I want to kill you more and more."

The Firecluster Remnant Soul chuckled, "If you want to kill me, you don't seem to be good enough yet."

Lin Tianhao's eyes narrowed slightly, "How would I know I can't kill you without trying?"

Lin Tianhao no longer had a way out.

But he still had one chance!

"Time Stop!"

The only Divine-Demonic Blessing Lin Tianhao had obtained so far!

It could stop time for one second around him!

One second wasn't much, but if he controlled it well, it was still possible to turn the tide of battle.

The instant Lin Tianhao released Time Stop, his mana was instantly emptied.

With his strength, in this Sea Burial Tomb that already had a certain suppressive effect, to use Time Stop on a Rank Nine Grandmaster powerhouse, the consumption was truly terrifying.

However, Lin Tianhao couldn't care about that much anymore. He had to seize this fleeting second to deal as much damage as possible.

It was just a pity that the Firecluster Remnant Soul was currently in a Domain state.

Lin Tianhao's normal attacks couldn't break through the Firecluster Remnant Soul's Domain at all.

Therefore.

Lin Tianhao maximized his attack speed and could only fire forty-eight arrows.

With the blessing of Severe Injury, he could take away over a hundred billion of the Firecluster Remnant Soul's health.

But if that was all.

He still couldn't kill the Firecluster Remnant Soul.

The only thing he could do was use this one second to restore his health to full.

One second later.

The Firecluster Remnant Soul broke free from Time Stop, and a look of astonishment appeared on his face.

"How could I suddenly lose a hundred billion health points?!"

"And you... how did you suddenly recover to full health?!"

Time Stop was different from ordinary control. During the Time Stop phase, the person in Time Stop couldn't perceive what was happening.

Lin Tianhao didn't intend to explain. His feather arrows were still being fired continuously.

"Fire Serpent Entanglement!"

While the Firecluster Remnant Soul rushed towards Lin Tianhao, he released a skill at Lin Tianhao.

Lin Tianhao soared into the air, but still couldn't avoid the Firecluster Remnant Soul's Fire Serpent Entanglement.

Hit by the Fire Serpent Entanglement, Lin Tianhao was controlled again.

Fortunately, the priority of this Fire Serpent Entanglement control wasn't that high.

Because of the existence of the Purification Jade Pendant, Lin Tianhao had already broken free in less than half a second.

But at this time, the Firecluster Remnant Soul's palm had already landed on Lin Tianhao's forehead.

Especially since.

He slapped down with both hands.

Lin Tianhao activated the Three Heads Six Arms state at this time.

Therefore.

Lin Tianhao had two heads simultaneously struck by the Firecluster Remnant Soul.

Critical hit!

-6.1 billion!!

-6 billion!!

.....

Two terrifying damage numbers appeared.

The effect of Lin Tianhao's Bloodthirsty Dragon Armor couldn't support Lin Tianhao's health bar.

-2 billion!!

-2.1 billion!!

.....

In addition to the attack from the Firecluster Remnant Soul's hands, the Firecluster Remnant Soul's Domain was also frantically attacking Lin Tianhao.

The health that had just been restored to full had now plummeted by half again, which was truly terrifying.

"Undying True Body!"

Lin Tianhao knew.

There would be a series of controls next. If he wanted to survive, he could only use the Undying True Body to delay time.

Because under Lin Tianhao's observation, the duration of the Firecluster Remnant Soul's stone statue clone would definitely not be too long.

The first stone statue clone he released was already somewhat illusory, and it looked like it would soon collapse.

If he could hold on until the Firecluster Remnant Soul's stone statue clone collapsed.

Then he would still have a chance to turn the tide of the battle today.

The Undying True Body could prevent Lin Tianhao from being killed in the next three minutes.

This was an invincible skill, but also not.

Because this skill had a drawback, which was that it couldn't prevent health loss.

In other words.

He would still lose health.

It would just lock in the last drop of health.

This was a life-saving skill. Generally speaking, it was used to fight back desperately when health was low.

Three minutes was still a long time.

If used well, the effect was still very good.

Sure enough.

As Lin Tianhao expected.

Next, the Firecluster Remnant Soul carried out a series of control outputs on him.

If he hadn't released the Undying True Body in advance, Lin Tianhao would probably have hung up and returned.

"Undying Defense?"

The Firecluster Remnant Soul frowned, his expression serious.

Apart from a few bloodline races that possessed this skill, most of them came from gods.

"Even if you have Undying Defense, how long can your Undying Defense last?"

Lin Tianhao smiled, "How long can your control chain last?"

"In my Domain, I can infinitely control you!!"

The Firecluster Remnant Soul had absolute confidence.

Those with a Domain fighting those without a Domain had too great of a natural advantage.

Especially since his level in the Dao of Fire was very high. How could Lin Tianhao be his opponent?

Most importantly.

During the time he controlled Lin Tianhao, he had restored his health to full through bloodsucking.

"This place isn't a place you can come to. If you could fight a war of attrition with me, you might still have a chance."

"But here, I can use stone statue clones to seal your movement. You can't contend with me at all."

Although the Firecluster Remnant Soul said this.

He also quickly realized that the situation was not right.

Because the duration of Lin Tianhao's Undying True Body was a bit too long!

"What kind of monster are you?!"

The Firecluster Remnant Soul's first stone statue clone dissipated.

After a gap appeared, Lin Tianhao's undead army could enter the field to help Lin Tianhao relieve pressure.

Sure enough.

When a large number of undead experts charged in with their Domains, the Firecluster Remnant Soul couldn't help but frown.

These undead experts couldn't break through his Domain in a short time.

But this short time was within one minute.

If it exceeded one minute, even if his Domain was strong, it couldn't withstand such a frantic attack from these undead experts.

"Domain Suppression!"

The Firecluster Remnant Soul directly used his Domain to suppress Lin Tianhao.

The power of the Domain's rules of suppression would still forcibly control Lin Tianhao even without a Domain.

This was also why Lin Tianhao chose to return when Grey Voron approached him with his Domain activated when attacking the Xitu Empire.

He didn't have a Domain.

He would be infinitely controlled in the Domain, and there was no way to continue fighting.

But Lin Tianhao wasn't afraid at all, because as long as it wasn't the Firecluster Remnant Soul personally controlling him, he still had a chance.

He directly summoned several Rank Nine undead, using their Domain power to create a brief respite for himself.

Immediately afterwards.

He launched a head-locking attack with maximum attack speed.

"Damn it, how many Rank Nine undead do you have!!"

The Firecluster Remnant Soul cursed angrily. There were undead attacking from outside, and there were undead attacking inside his Domain.

The most outrageous thing was.

In less than half a second, Lin Tianhao's health was directly restored to full.

This was the power of the evolved Hand of Heavenly Punishment.

Normal attacks restored 4% of maximum health.

In addition to Lin Tianhao's own bloodsucking ability, fifteen arrows could restore his health to full.

"Your remaining two stone statue clones are about to disappear. Today, you will die!"

A cold glint flashed in Lin Tianhao's eyes.

Without the help of the stone statue clones, his undead experts would be able to contain the Firecluster Remnant Soul.

And the result would be that the Firecluster Remnant Soul would be killed by him. It was only a matter of time.

The result was also without suspense. Fifteen minutes later, the Firecluster Remnant Soul finally fell.

Chapter 682 - The secret realms of the five tribes, the domains are differentiated!

"Ding, you have killed the remnant spirit of the Fire Cluster. A server-wide announcement will be made. Do you want to hide your name?"

"No!"

"Server-wide announcement: Congratulations to player Snow Emperor for successfully killing the remnant spirit of the Fire Cluster. This announcement is to encourage all players to continue their efforts!!"

.....

Lin Tianhao stepped forward to loot the corpse.

The strength of this remnant spirit of the Fire Cluster was stronger than that of an ordinary Ninth Rank Grandmaster. This time, looting the corpse might yield unexpected rewards.

"Ding, you have obtained True Fire Cloak +1."

"Ding, you have obtained Domain的分化 (Domain的分化) +1."

"Ding, you have obtained free attribute points +1000."

"Ding, you have obtained gold coins +100000."

"Ding, you have obtained..."

Even for a Ninth Rank Grandmaster, the good items obtained from looting corpses are very limited.

True Fire Cloak: Star Radiance.

Equipment Requirement: Level 10000 Warrior class.

Seeing this, Lin Tianhao gave up.

Although it was a Star Radiance rank item, the equipment requirement had nothing to do with him.

Level 10,000? What a joke.

Who knows when he would reach level 10,000.

Domain的分化 (Domain的分化): Cannot be upgraded.

Proficiency: Cannot be upgraded.

"Ding, do you want to learn?"

"Learn!"

This should be the skill of the statue domain released by the remnant spirit of the Fire Cluster earlier.

Although Lin Tianhao doesn't have a domain now, it's perfectly fine to learn it as a reserve.

Looting the corpse was over.

Only Fatty was still alive at this time.

Monkey, Glasses, and Lin Qingqing had all been sent back.

"Fatty, let's go."

Lin Tianhao's gaze turned to the stone gate in front of the river again.

There were still some strange statues on the stone gate.

The statues seemed to depict a great battle.

Looking at the clothing of the soldiers in the carvings, there were at least three factions involved in the battle.

"Brother Hao, look at this."

Fatty saw a stone tablet on the left side of the stone gate. The stone tablet was not big, and it was engraved with dense tadpole characters.

Although Lin Tianhao had seen some ancient characters, this was the first time he had seen tadpole characters.

It could only be said that.

Twilight of the Gods was very, very big. In his previous life, he had only come into contact with too few things in ten years!

"I happen to know these characters."

At this moment.

Nidalee Fu appeared beside Lin Tianhao.

Lin Tianhao raised his eyebrows, "Doesn't the Sea Burial Tomb suppress the gods from coming out?"

Nidalee Fu smiled and said:

"This is my projection, not even a remnant soul. How can it be considered a god?"

Lin Tianhao was too lazy to care about so much and asked:

"What is recorded on this inscription?"

"End of Dharma Era, the gate of gods is closed, the road to gods is not visible, the lives of mortals are cheap, and there is no way to ascend to godhood."

"However, above the Nine Heavens, there is a saint who pities all living beings, descends divine radiance, reopens the gate of gods, and we mortals also have a path to become immortals and ascend to godhood!"

"The road to godhood is full of twists and turns, and the number of gods is limited to only ninety-nine and eighty-one."

"In order to compete for the quota to become gods, the various tribes ended their peace, wars continued, blood stained the mountains and rivers, and lives were ruined."

"This act angered the saint, who refined the lands of the five major tribes into secret realms, waiting for those who are destined to open them and determine the quota to become gods!"

"If future generations come here, please do not open this stone gate and restart the battle for godhood, which will surely lead to the destruction of life!"

After listening to Nidalee Fu read the words on it, Lin Tianhao finally understood why the people of the previous era of god-making would choose to frantically attack this place.

According to the inscription, there were ninety-nine and eighty-one god positions in this secret realm.

If one could obtain a god position, they could become a god in one step, saving a lot of time.

"Should we call Glasses and the others?" Fatty asked softly.

Because this secret realm was related to becoming a god, he might want to pursue the path to becoming a god.

"Don't even think about it."

Nidalee Fu shook her head and said:

"Only those above the Seventh Rank can enter this secret realm. You two can't get in."

Lin Tianhao frowned slightly.

He didn't believe Nidalee Fu's words.

He took a step forward and pushed the stone gate with one hand.

Immediately afterwards.

An invisible wave pushed Lin Tianhao's palm away.

"Ding, this place requires adventurers of Seventh Rank and above to enter. Please level up and change your job as soon as possible."

Lin Tianhao supported his forehead. So it was really like this.

Moreover.

What was interesting was that.

This place restricted only adventurers from entering.

Wasn't that to say that NPCs and those guys from the Alat Star System had no right to enter?

Thinking of this.

Lin Tianhao thought of a loophole, that was, should those guys from the Alat Star System be judged as NPCs or adventurers?

Or should they be given a completely new judgment: invaders!

From the current point of view, it was likely that they were invaders.

In addition, they were able to enter the Ancient Dynasty silently, which could also be judged that they might be able to enter here.

Therefore.

To prevent them from entering here, he had to start with the key.

Previously, the Bloodfly Ape Demon had said that there were a total of three keys.

One was in Glasses' hands, and the one from the Bloodfly Ape Demon also ended up in Lin Tianhao's hands after he was killed by Lin Tianhao.

In other words.

That meant there was only one last key to open the Sea Burial Tomb left.

To be on the safe side, he had to get the last key to open the Sea Burial Tomb as well.

Now, because of his level, Lin Tianhao was unable to continue exploring the Sea Burial Tomb and could only leave first.

However.

It would take some effort for Fatty to leave.

Immediately.

Lin Tianhao kicked Fatty out of the team.

"Fatty, it looks like we can't continue exploring. Now I'll send you away."

After saying that.

Lin Tianhao directly killed Fatty ten times in a row, sending him back out of the Sea Burial Tomb.

As for Lin Tianhao himself, he didn't need to die.

He directly used Return, and in the next moment, he appeared in the Mortal Palace.

As soon as he came back, Lin Tianhao received a message from Berserker Blade.

"Snow Emperor, big news! The Joy God Society has disappeared. Any clues we were tracking about the Joy God Society have all been cut off."

"Not only that, the Red Flower Sand Palace is also gone. We can't find any information about the Red Flower Sand Palace at all."

"The people who joined the Red Flower Sand Palace before have also been expelled from the Red Flower Sand Palace."

Although the cooperation in the Dragon Cave last time was a bit unpleasant because of Madam Nine Flowers.

This didn't affect the relationship between Lin Tianhao and Berserker Blade.

Berserker Blade had sent this message more than an hour ago. Lin Tianhao was in the Sea Burial Tomb before, so he didn't receive it.

Including the information that Lin Tianhao himself sent to Berserker Blade, asking him to help investigate Ye Kunxu, had just been sent out.

"Snow Emperor, I'll have someone investigate for you."

"In addition, Snow Emperor, I just received news that there's something else you might be interested in."

Chapter 683 - The Secret Realm of the Five Mountains, the Request of the Mad Blade!

"What is it?" Lin Tianhao asked.

Mad War Blade directly sent Lin Tianhao a screenshot.

It was of a mountain cliff, and on the cliff face, a gate of light had appeared.

"Our people discovered this place. It's a secret realm, and according to our analysts, it's a super secret realm."

"The Five Mountains Secret Realm?" Lin Tianhao asked.

In his previous life, Lin Tianhao had come into contact with the Five Mountains Secret Realm, although he hadn't been qualified to enter.

Moreover,

inside the Five Mountains Secret Realm, there was a transcendent-grade hidden class change scroll for the warrior class.

After all, the entry requirement for the Five Mountains Secret Realm was to simultaneously comprehend the five holy attribute laws of space, darkness, light, life, and death.

But even with this condition, only Lin Tianhao, with his Creation Jade Disc, could possibly achieve it.

Well...

Except for Lin Qingqing.

To be precise, except for Gui Ye Wuqing!

Because the three Gui Ye Wuqings were all freaks in terms of law comprehension.

"Snow Emperor, you already know about this secret realm?"

Mad War Blade was slightly surprised, but not too astonished.

"Yes, you guys probably don't have the ability to enter the Five Mountains Secret Realm right now."

Hearing this,

Mad War Blade: "That's right, so we want to ask Snow Emperor for help."

"Help you guys enter?" Lin Tianhao asked.

"You think so highly of me?"

Joking aside, comprehending the five holy attributes to the level of laws was not an easy task.

Even with the Creation Jade Disc, it would take a lot of time.

Mad War Blade: "Normally, entering the Five Mountains Secret Realm requires comprehending the five holy attribute laws, which is too difficult, but we've discovered another way."

"Oh?"

Lin Tianhao became somewhat interested, after all, he didn't know there was another way to enter the Five Mountains Secret Realm.

He didn't question Mad War Blade either, since Mad War Blade dared to say so, he must have already known something.

"A dungeon, after clearing the hell difficulty for the first time, allows temporary entry into the Five Mountains Secret Realm from the final stage."

"Temporary entry?"

Lin Tianhao frowned slightly, "Speaking of which, it's just a dungeon, not the Dragon Cave, why would you need me to take action?"

There were many official experts, and as long as it wasn't a domain-level dungeon, they shouldn't be unable to handle it.

"This is a long story. As a reward, the two Heaven and Earth Unity Pills from before can be returned to Snow Emperor."

"That Lady Jiu Hua, won't she come out and cause trouble again, right?"

Regarding the Dragon Cave incident last time, Lin Tianhao wasn't going to argue about right or wrong, but Lady Jiu Hua's attitude had made him very dissatisfied.

Lady Jiu Hua's position made it impossible for her not to know that a great disaster would befall in the future.

He was also a citizen of the Dragon Country, and even if he hadn't joined the official organization, anyone with a normal mind would know that they should befriend him.

Even if there were really any problems, they should be discussed internally.

Just like Mad War Blade had said before, the higher-ups had different opinions about him, but the general direction was to cooperate as much as possible and not offend him.

But Lady Jiu Hua's actions made Lin Tianhao suspect whether she was a spy from another country.

After all, what Lady Jiu Hua had done last time was too foolish.

"Snow Emperor, you can rest assured about this. Not only regarding the Dragon Cave issue, but in all future cooperation with us, Lady Jiu Hua will have no say."

Lin Tianhao was somewhat surprised.

From the last incident, it could be seen that Lady Jiu Hua's position was not low.

But he hadn't expected that even so, Lady Jiu Hua would be sanctioned.

It seemed that Lady Jiu Hua's actions last time had really offended the people above.

"Alright, how do you want to cooperate?" Lin Tianhao asked.

"Team up with our people to clear the hell difficulty of that dungeon. All the rewards in the dungeon will belong to you, Snow Emperor. We have only one goal: to enter the Five Mountains Secret Realm."

Mad War Blade's words made Lin Tianhao feel somewhat interested.

"Blade, do you guys know something about the opportunities in the Five Mountains Secret Realm?" Lin Tianhao asked.

Mad War Blade: "..."

"Snow Emperor, we do know some things, but this information is currently sealed off."

Hearing this,

Lin Tianhao wasn't surprised.

After all, the higher-ups had always had different views on him.

It was only natural that they wouldn't want to reveal their own opportunities.

But it didn't matter anymore.

Lin Tianhao's purpose in entering the Five Mountains Secret Realm was the transcendent-grade hidden class for warriors. Whether the official's purpose was the same or not, it didn't matter.

"When are you planning to go to the Five Mountains Secret Realm?" Lin Tianhao asked.

Hearing this,

Mad War Blade replied without hesitation:

"It depends on Snow Emperor's arrangements. We can go anytime."

Lin Tianhao could no longer continue exploring the Tomb of the Buried Sea.

As for the Dragon Cave.

Exploring the second layer was also not an easy task.

Furthermore, there were the two troubles of the Thunder Serpent Palace and the Xitu Empire.

The Thunder Serpent Palace could wait.

As for the Xitu Empire.

Judging from Lin Tianhao's previous confrontation with the remnant spirit of the Fire Clan, even with Xiudeli Baiyun's undead helping him, it would still be almost impossible to clear the Xitu Empire.

Originally, Lin Tianhao was wondering how he should complete the following tasks.

Lin Tianhao had even thought about returning to the Godslayer Academy, or the Domain Sword Dao, or the Space Dao, so that he could also possess a domain.

But when the remnant spirit of the Fire Clan used his domain to crush the domains of his undead subordinates.

Lin Tianhao realized that even if he had a domain, it would still be difficult to clear the Xitu Empire.

Although his current overall strength was very strong, it was still too difficult to clear the Xitu Empire without relying on the power of the gods.

The Five Mountains Secret Realm.

This might be a better choice for Lin Tianhao.

The benefits of the Five Mountains Secret Realm were not limited to the transcendent-grade hidden class, there were also many other benefits.

After all, the difficulty of entering the Five Mountains Secret Realm was there, and the rewards that could be obtained were immeasurable.

Especially since.

Now that he didn't need to comprehend the five holy attributes to enter the Five Mountains Secret Realm, Lin Tianhao had no reason to refuse.

"Then tonight, send me the location, and I'll go straight there."

"Okay." Mad War Blade readily agreed.

Lin Tianhao didn't think much about it.

He chose to go at night.

Because the ability obtained from the Night Spirit God's Godslayer Mark was that attributes were doubled in the darkness.

In addition, the skill given to Lin Tianhao by the Blood Moon God could increase damage under the moonlight.

With these two buffs stacked together, nighttime was the peak state of Lin Tianhao's combat power.

It was just a pity.

That the Night Spirit God's buff could not be applied to the Heavenly Punishment attack speed.

To be precise.

Almost all of Lin Tianhao's current methods could not be applied to the Heavenly Punishment attack speed.

Of course.

Three Heads Six Arms was an exception.

But Three Heads Six Arms could not be considered a buff, it was just a relatively reasonable application.

Chapter 684 - Arrogant woman!

Only.

But when Lin Tianhao saw the location sent by Berserker Blades, he was stunned.

Jade Island?

Five Mountains Secret Realm?

Are you kidding me!

Jade Island does have a Five Clans Secret Realm, that's true.

But the Five Clans Secret Realm is the Five Clans Secret Realm, and the Five Mountains Secret Realm is the Five Mountains Secret Realm. Although there is only one word difference, the difference is vast.

Or perhaps...

There is more than one way to enter the Five Mountains Secret Realm.

And this Five Clans Secret Realm, is the Five Mountains Secret Realm!!

There is a way to enter the Five Mountains Secret Realm in the Tomb of the Sea, and comprehending the five holy attributes is also a way to enter the Five Mountains Secret Realm.

And what Berserker Blades said about being the first to clear that hell-level dungeon, can also allow you to enter the Five Mountains Secret Realm.

If that's the case, then everything seems to make sense.

After all, in his previous life, more than one person had entered the Five Mountains Secret Realm. If they all entered by comprehending the laws of the five holy attributes, then it would be somewhat unscientific.

Of course.

This is just Lin Tianhao's guess. Whether the Five Clans Secret Realm is the Five Mountains Secret Realm, he will only know after going there.

But regardless of whether it is the Five Clans Secret Realm or the Five Mountains Secret Realm, going there would be a surefire win for Lin Tianhao.

With this in mind.

Lin Tianhao took a step and arrived at Jade Island.

According to the location sent by Berserker Blades, Lin Tianhao searched for it.

But.

Due to the Purification Jade Pendant, this freeze lasted less than 0.2 seconds before it ended.

"The tenacity is a bit high."

An arrogant female voice came, "But, that's all."

Lin Tianhao frowned, his gaze falling on the arrogant woman who spoke.

???: ???

Health Points: ???

Attack: ???

Skills: ???

This arrogant woman was wearing a tight-fitting long dress, showing off her flat figure to the fullest.

But.

The attributes that Lin Tianhao saw with his Fiery Eyes were actually like this, which surprised Lin Tianhao somewhat.

"Have I offended you?" Lin Tianhao asked.

The arrogant woman shook her head and said:

"No, I'm just more interested in you, so I want to get to know you."

"Get to know me?"

"By attacking me?" Lin Tianhao asked back.

The arrogant woman chuckled and said:

"Don't be so concerned, don't you humans have a saying, 'No discord, no concord'?"

"We humans?"

Lin Tianhao grinned, "Then may I ask what kind of beast you are?"

"You are the beast!"

The arrogant woman scolded:

"No wonder the rumors say that you, Snow Emperor, are sharp-tongued and not to be deeply associated with. Now it seems that the rumors are true."

Lin Tianhao still had a smile on his face, "Deep association won't work, but shallow association is fine."

"You——"

The arrogant woman glared, "Filthy!!"

Lin Tianhao spread his hands, "I just mean it literally, whoever thinks too much is filthy!"

The arrogant woman snorted coldly and said:

"Alright, I'm here today for the Tomb of the Sea. I know that both keys to enter the Tomb of the Sea are in your hands now. I wonder if you can give me one."

"I don't seem to have a reason to give it to you," Lin Tianhao said.

"A pre-quest scroll for the Blessing of the Gods, in exchange for one of your keys, you won't lose out."

Lin Tianhao frowned and asked with interest:

"Let's not talk about whether I'll lose out or not, I want to know, what is your purpose for entering the Tomb of the Sea?"

He had already explored the entrance to the Five Clans Secret Realm.

That place can only be entered by adventurers.

He couldn't see through this woman, so she was probably not an adventurer.

In other words.

Even if she gets the key to the Tomb of the Sea, she shouldn't be able to enter the Five Clans Secret Realm.

Unless...

She comes from the Arlett Star System.

"You don't need to know that. Just tell me one thing, a pre-quest scroll for the Blessing of the Gods, in exchange for one of the keys in your hand, will you exchange or not?"

"If you have such an attitude, then my answer is no exchange!"

The arrogant woman smiled contemptuously, "If you don't exchange, then I can only take some extreme measures."

"You want to go against me?" Lin Tianhao asked.

The arrogant woman nodded calmly, "Is that not allowed? Others may be afraid of you, Snow Emperor, but I am not."

"Then you deserve to die."

As soon as he finished speaking.

Lin Tianhao immediately released the Three Heads Six Arms.

But just as Lin Tianhao's Three Heads Six Arms was about to form, a curse mark appeared above his head.

In the next instant.

His already released Three Heads Six Arms was forced back to its original form.

Interrupting an already released divine power, this method was somewhat similar to the curse released by Glasses before.

Back then, Glasses had interrupted the domain of the Fire Crow Remnant Soul.

However, Lin Tianhao was not flustered at all.

He summoned the Underworld Longbow, coupled with the arrow being fired from the heart.

Although the feather arrow was half as powerful as in the Three Heads Six Arms state, it was still not to be underestimated.

After all, Lin Tianhao's high damage was there.

But just as Lin Tianhao raised his hand, he was frozen again.

The uncontrol effect of the Purification Jade Pendant was very powerful, and it still only took less than 0.2 seconds to uncontrol him.

But the moment he was uncontrolled, Lin Tianhao was frozen again.

This arrogant woman's ice spell seemed to not need cooling down, and could be released without limit.

"Overlord Body!"

Lin Tianhao directly released the Overlord Body, forcibly breaking free from the control with the Overlord Body.

But his Overlord Body was released.

Several ice walls blocked his path.

The Overlord Body could not break through such terrain changes.

"Boom——"

Lin Tianhao's feather arrow was incredibly powerful, but when it landed on the ice wall, it only caused cracks to appear on the ice wall.

By the time Lin Tianhao broke through the ice wall in front of him, the arrogant woman from just now had appeared behind him at some unknown time.

"Mind Freeze!"

The arrogant woman raised her hand and pointed it at Lin Tianhao's back.

Lin Tianhao only felt a chill in his chest in an instant, and his whole person was controlled again.

You must know.

Lin Tianhao was still in the Overlord Body state now.

Critical Hit!!

-3.8 billion!!

The damage number was very high, but it was also within Lin Tianhao's expectations.

She knew him.

And dared to fight him, Lin Tianhao didn't believe that she didn't have any strength.

But Lin Tianhao was not one to sit still and wait for death.

The Bloodfly Ape Demon's undead was summoned by Lin Tianhao, and slapped the arrogant woman with a palm.

"Oh?"

"A means of undead enslavement?"

"The Investiture of the Gods doesn't seem to have such an ability attached."

The arrogant woman muttered to herself, "A blessing from the God of the Undead? That doesn't seem right either. You killed the Ice Snow Goddess, and there's no reason for a normal Western god to give you such a strong blessing."

Lin Tianhao frowned slightly, this woman seemed to know a lot of information.

Moreover, her ice-type methods actually ignored the Ice Snow Goddess's blessing on him.

Unless, her ice-type methods were no less than the Ice Snow Goddess's level, or there was some other reason he didn't know.

Taking back his thoughts.

The Bloodfly Ape Demon forced the arrogant woman back, and the moment Lin Tianhao broke free from control, the feather arrow struck again.

Now that night was gradually falling, Lin Tianhao triggered the ability of the Night Spirit God, Moi Lai.

Attributes doubled in the dark!

Originally, Lin Tianhao's health points exceeded 32 billion.

Now that it was doubled, it directly broke through 64 billion!

-23.2 billion!!

-23.2 billion!!

Chapter 685 - The ultimate move: ninety-nine gods!

When Lin Tianhao saw this damage value, a surge of surging killing intent instantly rushed to his heart.

Lin Tianhao knew his own damage level.

Even if it was nighttime now and his attributes were doubled, the damage he could deal should only be around 10 billion.

This 23.2 billion... unless this woman's health exceeded 10 trillion!!

But the pressure Lin Tianhao felt from this arrogant woman was only slightly stronger than that of the Fire Cluster Remnant Soul.

In other words,

it was impossible for her to have 10 trillion health.

Therefore!

Lin Tianhao was able to deal this 23.2 billion damage entirely because of the buff from the title of Galaxy Wargod.

This also confirmed Lin Tianhao's previous guess that this arrogant woman wanted to open the key to the Burial Sea Tomb because she was from the Alete Star System!

"You are from the Alete Star System!!"

A cold glint flashed in Lin Tianhao's eyes.

"Discovered it?"

The arrogant woman chuckled and said, "I've always been curious as to why you are so hostile to the creatures of our Alete Star System. Could it be that someone from our Alete Star System stole your woman?"

Lin Tianhao didn't explain and attacked with all his strength.

There was nothing to say to these Alete Star System scraps.

-23.2 billion!!

-23.2 billion!!

.....

At the same time that Lin Tianhao dealt damage, the arrogant woman was also rapidly recovering health.

+11.6 billion!

+11.6 billion!

.....

It was still a similar effect to the Bloodthirsty Dragon Armor, able to greatly recover health after taking damage.

Moreover,

the arrogant woman's health recovery didn't stop there.

+100 million!

+100 million!

.....

Lin Tianhao frowned. Although this arrogant woman wasn't as insane as the Fire Cluster Remnant Soul, she was still not easy to deal with.

In addition,

Lin Tianhao also discovered something.

That was, the Ice Goddess's ability granted him immunity to ice-element damage below the level of God.

But this arrogant woman still dealt high ice-element damage to him.

Why was this?

According to Lin Tianhao's understanding of Twilight of the Gods, there were probably two reasons.

One was because the arrogant woman came from the Alete Star System, and the source of her power was different. His ice-element damage immunity was likely only effective against ice-element damage from the Galaxy World.

As for the second reason,

it was because the arrogant woman possessed ice-element power above the level of God.

Lin Tianhao could obtain absolute skills like ice-element immunity, absolute block, and absolute slowness.

Others could also obtain some absolutely established methods, or even higher God's blessings.

But no matter the reason, he had genuinely suffered the arrogant woman's ice-element damage.

Especially since

the other party hadn't even deployed her domain yet.

In the distance,

two figures were watching this scene.

One of them, a big-headed man with nine bulges on his head, smiled and said:

"See? I told you the Snow Emperor wasn't as powerful as imagined. It's all thanks to the God Conferment Board."

The other, a monkey with green fur all over his face, shook his head, "The damage is still quite high."

"It's just that she doesn't seem to have many relatively powerful skills. Most of her damage comes from basic attacks."

The big-headed man grinned, "If that rumor is true, then the Snow Emperor will soon fade into obscurity."

"It's likely true. After all, this is the Era of God Creation, not the Era of Godfall. If the Snow Emperor keeps acting like this, the Alethe Star System will send even more Gods over."

The green-furred monkey laughed, "But it doesn't matter. Anyway, we never intended to be enemies with the Snow Emperor."

"Let this guy from the Alethe Star System fight it out with the Snow Emperor."

.....

In the center of the battle,

Lin Tianhao used the Bloodfly Ape Demon to catch his breath for a moment.

The Bloodfly Ape Demon was no match for the arrogant woman at all.

In fact,

the arrogant woman didn't even deploy her domain. She directly summoned a staff.

When she waved the staff, the surrounding temperature suddenly dropped.

Even the Bloodfly Ape Demon's domain began to freeze over.

Grandmaster of Nine Revolutions?

Or perhaps a Demigod Grandmaster?

Lin Tianhao speculated on the arrogant woman's realm.

However,

his speculation was only at the Grandmaster level.

Because this arrogant woman didn't have the kind of pressure that Xiudeli Baiyun brought.

Back then, when Xiudeli Baiyun hadn't fused with the demon, she had beaten him without any chance of resistance.

"Fire Cluster Remnant Soul!"

If the Bloodfly Ape Demon's strength wasn't enough, then he would take it a step further.

With the Fire Cluster Remnant Soul's strength, he should be able to force out the arrogant woman's trump cards.

Sure enough,

when the Fire Cluster Remnant Soul appeared and deployed its domain,

the arrogant woman also deployed her domain.

"Glazed Ice Domain, open!"

The surrounding temperature instantly dropped to freezing point. Even though Lin Tianhao wasn't within this Glazed Ice Domain, he still felt his hands and feet turn icy cold.

"Ding, you are affected by the cold, attack speed and movement speed are reduced by 2.5% respectively."

"Ding, you are being attacked by the cold air, and will enter a state of continuous health loss..."

-50000!!

-50000!!

.....

Lin Tianhao had the Purification Jade Pendant, otherwise his attack speed and movement speed wouldn't have dropped by 2.5%.

Instead, they would have dropped by 50% directly.

But...

Lin Tianhao's Heavenly Punishment attack speed was not affected in the slightest.

Even so,

Lin Tianhao also felt the arrogant woman's power.

If it weren't for the Purification Jade Pendant, he would probably be in big trouble.

Although the Fire Cluster Remnant Soul forced out the arrogant woman's domain, it was still being beaten back by the arrogant woman.

No other reason.

The Fire Cluster Remnant Soul in its undead state only had 70% of its combat power from its lifetime.

Lin Tianhao immediately summoned more than a dozen Grandmaster experts of Nine Revolutions, plus the Bloodfly Ape Demon, to assist the Fire Cluster Remnant Soul in fighting the arrogant woman together.

The arrogant woman didn't panic at all when she saw this scene.

But she soon realized the seriousness of the problem.

Lin Tianhao's lock-on attacks were a bit unreasonable.

Especially since

Lin Tianhao had now triggered a Heavenly Fire Meteor!

A large number of fire meteors fell from the sky, and even her domain was bombarded with layers of ripples.

"What a freak!"

The arrogant woman snorted coldly, and a pair of wings appeared behind her, wanting to retreat.

But how could Lin Tianhao give her a chance?

"Boundless Sea Cosmos!"

This was a skill Lin Tianhao obtained from Poseidon, the Sea God.

After release,

teleportation, movement, and flight were impossible within a radius of one kilometer, lasting for five minutes!

This skill was specifically used to prevent others from escaping.

The arrogant woman's expression changed when she discovered that she couldn't fly.

"Snow Emperor, you are really difficult, but I came prepared this time."

The arrogant woman coldly glanced at Lin Tianhao.

Immediately afterwards,

ice cones began to fall from the sky.

"My Lord, the Gods have taken action."

Hearing this,

a cold glint flashed in Lin Tianhao's eyes.

The Gods of the Alete Star System, then they should be killed even more!

"Kill!"

Since the other party had used the Gods, Lin Tianhao had no reason to hide it.

Lin Tianhao immediately summoned five Gods, he wanted to ensure the death of the attacking God from the Alete Star System.

But the next moment,

Lin Tianhao was dumbfounded.

In the air, one God after another appeared.

"This..."

Lin Tianhao's pupils suddenly shrank.

"Nine... Ninety-nine Gods!!"

Even Lin Tianhao couldn't help but swallow at this moment.

This was a bit too terrifying!

"Snow Emperor, I am seeing you today to give you a final chance. If there is still a possibility of winning you over, we will talk to you properly."

"If not, then we will spare no expense to send you out of the Galaxy World and then completely obliterate you!"

"Your growth rate is too much of a threat to us. Since you can't be used by us, then we can only destroy you!!!!!"

Ninety-nine Gods, releasing their divine might at the same time.

"My Lord, there are God Kings, and more than one!!"

The slightly trembling voice of the God of the Undead came.

Chapter 686 - The gods cannot intervene!

A chill ran from Lin Tianhao's feet to the top of his head.

Ninety-nine gods, and a God-King overseeing them!

"Snow Emperor, choose one: submit or die!"

"Don't even think about resurrection. We have brought three God-Kings and one God-Emperor today to ensure we can drag you out of the Milky Way Galaxy without fail!!"

"As long as you are not in the Milky Way Galaxy, we can completely obliterate you!"

Lin Tianhao's expression turned grave. So the so-called Tomb of the Buried Sea key was just a test from the beginning.

Or rather...

To ensure absolute success, if he submits today, he will have to sign a contract with that God-Emperor powerhouse from the Aleit Star System!

This scheme is truly ruthless!

"Don't even think about running. Since we've decided to act, we didn't plan on giving you even the slightest chance!" the arrogant woman said.

Lin Tianhao's fingertips were trembling slightly.

He had considered that the powerhouses from the Aleit Star System might attack him.

But he never dreamed that the Aleit Star System would act so decisively, so... recklessly!

This is just too TM unconventional.

Normally, they would send a few gods to test the waters, or at worst, a ninth-grade god, right?

But no.

They immediately send ninety-nine gods, including three God-Kings and one God-Emperor!!

"Snow Emperor, stop stalling. I'll give you only ten breaths. If you still haven't decided within ten breaths, then you can die!"

The arrogant woman's eyes were filled with smugness.

From the information she had gathered, Lin Tianhao was someone who valued pros and cons very much.

Before Lin Tianhao could finish speaking, he directly used the Return skill.

He could forcibly return to the Mortal Palace.

In this way.

He could then immediately use the Kunlun Mirror to go to the Godslayer Academy, perhaps there would still be a glimmer of hope!

The Return skill was extremely powerful, and Lin Tianhao used it unexpectedly, actually making him succeed.

But Lin Tianhao had just returned to the Mortal Palace when he found that his body could not move.

"Did you think you could escape?"

A androgynous voice that was impossible to discern echoed.

Immediately afterward.

Lin Tianhao saw a person appear in front of him.

Lin Tianhao looked up, but found that his appearance was hazy and incomprehensible.

"God-Emperor?"

Lin Tianhao asked. The only one who could make it so that he couldn't even see his appearance clearly was probably a God-Emperor.

"It doesn't matter anymore."

"Since you have made such a choice, I assume you are ready to be completely obliterated!"

As soon as these words fell.

This hazy person raised his hand and grabbed towards Lin Tianhao.

Lin Tianhao thought about the methods he could still use now.

But in front of this hazy person, they all seemed so insignificant.

His hand seemed to possess the power of the supreme Dao, and Lin Tianhao had no power to resist.

Even.

Lin Tianhao couldn't even use the God Conferring List now.

"Is it over?"

"They really aren't giving me even a single chance!"

Lin Tianhao was already desperate.

The methods used by the Aleit Star System were truly shocking to him.

They weren't giving him even the slightest chance!

But just as the hazy person's palm was about to touch Lin Tianhao, an invisible force actually pushed his palm away.

The hazy person sensed something and looked up at the sky.

"Are you going to interfere? Have you forgotten the agreement with our Ancestral God?"

No one responded to the hazy person.

Lin Tianhao had already guessed the identity of the person who had intervened.

In the next instant.

A mysterious force instantly spread out in the Twilight of the Gods, extremely fast, even the hazy person didn't react.

Immediately afterward.

A server-wide announcement echoed throughout the Twilight of the Gods.

"Server-wide Announcement: Due to the large-scale invasion of gods from the Aleit Star System into the Twilight of the Gods, the intervention of gods is hereby restricted. From this day forward, all gods in the

Twilight of the Gods are unable to intervene. Special announcement, we hope that all players will be highly vigilant against the creatures of the Aleit Star System."

... ..

As soon as this server-wide announcement came out.

Lin Tianhao's expression was complicated, because this server-wide announcement had saved him, but it had also ruined his God Conferring List!

At least!

He couldn't send gods onto the list in the short term anymore.

But this result seemed acceptable.

Because.

He was still alive.

The hazy person also heard this server-wide announcement, and he cursed:

"Damn it!!"

Just those simple two words caused the space of the entire Mortal Palace to become chaotic!

But he only said those two words before his body was dragged away by a mysterious force.

At the same time.

The Sea God Poseidon, who was helping with the wasteland reclamation outside, and the gods on Qionghuang Island, such as Sha Hong and Sha Nong, all turned into streams of light and flew back to the God Conferring List.

Qionghuang Island.

The big-headed man's face revealed a smug smile.

"See, the rumors are true. That person should have been prepared long ago, but only used this opportunity of the Aleit Star System's gods acting to implement the restrictions."

The green-haired monkey smiled and said:

"It was expected. If Snow Emperor continued to do that, it would be terrible."

The big-headed man smiled meaningfully and said:

"It's really hard to say. Maybe that person wanted to protect Snow Emperor? After all, how could the God Conferring List be right? I always feel that if it weren't for that person's approval, Snow Emperor would have no reason to obtain the God Conferring List."

The green-haired monkey pondered for a while and said softly:

"If that person wanted to protect Snow Emperor, wouldn't it be better to directly help Snow Emperor kill these gods from the Aleit Star System?"

"Then Snow Emperor's God Conferring List could be instantly filled."

"Who knows?"

The big-headed man shook his head, "That person's thoughts are not something we can fathom."

"However."

"Now that the gods can't act, Snow Emperor is just a slightly more powerful adventurer."

The green-haired monkey Shen Yan was serious, "Sea Dragon Yaksha, if you think like this, then I think you will stumble in Snow Emperor's hands sooner or later, or even lose your life."

... ..

Mortal Palace.

Lin Tianhao, who had survived the disaster, looked in the direction of the Godslayer Academy.

This time that person acted, I'm afraid it was also a game with that person from the Aleit Star System.

This time, the Aleit Star System suddenly descended with ninety-nine gods, including three God-Kings and one God-Emperor.

This looks like a fatal blow to him, Snow Emperor, but in fact, this is probably that person from the Aleit Star System putting pressure on the Origin of the Dao God!!

That person from the Aleit Star System obviously doesn't want Lin Tianhao to continue to develop so recklessly.

Controlling gods and acquiring their power.

In addition to the super-god-level talent that Lin Tianhao now possesses, if it is not stopped, it will inevitably grow to the point where the guys in the Aleit Star System tremble in the future.

Now that the gods can't act, some of Lin Tianhao's plans will be disrupted.

Just as Lin Tianhao was thinking about what he needed to do next, a familiar person appeared in front of Lin Tianhao.

"Wen Chou Niu?" Lin Tianhao asked in surprise.

Chapter 687 - Goodbye Wenchouniu!

Wen Chou Niu!

The guide of the Land of Faith for Wen Suyao, a terrifying existence of SSS level.

Lin Tianhao once suspected that Wen Chou Niu was a god!

But now it seems.

His guess was wrong.

Wen Chou Niu is not a god, because the rules of the Twilight of the Gods have already restricted the gods from taking action.

To be precise.

They can't show their faces.

Because Lin Tianhao himself has gods on the Fengshen List, and they don't even have the qualification to come out of the Fengshen List.

Wen Chou Niu appeared here, then he is most likely not a god.

"Snow Emperor, you have already attracted the key attention of the Alete star system, forcing that great existence to take action."

Lin Tianhao nodded and said:

"You came here, it shouldn't be just to say this, right!"

Wen Chou Niu nodded and said:

"I came for two things in total."

"First, although that great existence saved you, the adults of the Alete star system also made a request."

"What request? Take back the Fengshen List?" Lin Tianhao asked with a frown.

"No."

Wen Chou Niu shook his head and said:

"Just one request, you cannot enter the Godslayer Academy in the next five years."

"Oh?"

Lin Tianhao guessed something. If he entered the Godslayer Academy, it is estimated that people from the Alete star system would also find it difficult to control his life and death.

To put it bluntly, it is to cut off his last path.

In the future growth path, he really needs to rely on himself.

"That great existence hopes that this matter will not be a setback for you, but a growth."

"It's not good for you to rely too much on gods."

Lin Tianhao looked serious, "I have also realized this problem. I even suspected whether the copy of the Xitu Empire has a deeper meaning in it."

The sudden copy of the Xitu Empire, even though demons intervened, Lin Tianhao still felt a little unbelievable.

After all, even if demons intervened, they really made the Xitu Empire into a copy.

It shouldn't restrict the gods from taking action, right?!

This kind of super copy, restricting the gods from taking action, there is probably another deep meaning behind it.

Moreover.

The first to be affected by the copy of the Xitu Empire is not others, but Lin Tianhao himself.

Wen Chou Niu smiled, "You are very smart, but you have overthought it. Once this kind of super copy is formed, there will inevitably be rules added to it."

Lin Tianhao knew the meaning of these words.

What does the Ancient Dynasty have?

A super god-level hidden class transfer altar.

Not allowing creatures from the Alete star system to enter the Ancient Dynasty is to protect the super god-level hidden class transfer altar of the Ancient Dynasty.

After all, Lin Tianhao's future growth needs to rely on this super god-level hidden class transfer altar.

"Okay, I accept this favor," Lin Tianhao said with a smile.

The fact that this would be the result shows that the person from the Alete star system had a game with the God of the Source of the Dao.

The God of the Source of the Dao chose to help him.

Otherwise, today would not be this ending!

As long as the God of the Source of the Dao does not take action, then he is bound to die.

Returning has already been used.

Wanting to escape from the hands of a god emperor and so many powerful gods, there is no chance at all.

"Come on, there are still many strong people under the gods, such as me," Wen Chou Niu said with a smile.

After saying this, Wen Chou Niu waved his hand.

Lin Tianhao nodded, he naturally knew that there were countless strong people under the gods.

Looking at the entire Divine Province, the vast continent is not worth mentioning.

Among them, there may be some masters, and even geniuses like Xiu Deli Baiyun have appeared.

But to say how strong they are, to be honest, they are not too strong.

At least.

Lin Tianhao's feeling is that, except for a few people, the combat power of other Rank 9 professionals is relatively average.

Of course.

It is not ruled out that it is the illusion brought about by the fact that Lin Tianhao had gods to help before, and he only cared about locking his head, or they are really weak.

Just at this moment.

Mad Blade sent a message.

"Snow Emperor, did something happen on your side?"

"Did your people see it?" Lin Tianhao asked.

Mad Blade has a lot of people, it is possible that his people saw it.

"That's not the case."

"The main reason is that among the current adventurers, you are the one who deals with the gods the most. No matter how you look at it, this announcement is aimed at you."

Lin Tianhao was a little helpless. If he didn't consider the people from the Alete star system, then this server-wide announcement would really be aimed at him.

However.

That server-wide announcement was actually to save him.

"It's not aimed at me, it's just that this announcement is indeed related to me."

Having said that.

Lin Tianhao changed the subject.

"Forget it, I'll come over first."

Lin Tianhao once again sacrificed the Kunlun Mirror, took a step, and in the next moment he appeared on Qionghuang Island.

He had already traveled halfway before, and it didn't take too long to reach the remaining section of the road.

At this time, Mad Blade was already waiting here.

Lin Tianhao also saw the team mission.

The leader is still Team Leader Long, and Lin Tianhao has also seen the people next to him.

Shadow Kill.

There are immortals in the North Sea.

True Sword Heir.

And so on.

A total of eleven people!

Including Lin Tianhao, there are exactly twelve people.

The team size for general copies is six to twelve people.

For such an important copy, Mad Blade will definitely arrange a full team of twelve people.

"It's rare, Mad Blade, you wouldn't want to enter the copy with us, would you?"

Mad Blade has always been a coordinating role. He only directed the Dragon Cave before, and did not personally play.

"No, I won't enter the copy, there is still one person."

"She had a little accident and was delayed for a while, she should be here soon."

As soon as Mad Blade's voice fell.

A heat wave swept over, followed by.

I saw a large bird wrapped in flames flying at high speed in the sky and stopping in front of everyone.

A woman in a mage robe jumped down from the fire bird.

"We're all here, Fallen Rain, a powerful output position in our team."

Fallen Rain glanced at Mad Blade and said helplessly:

"Guild Leader, my output ability is not worthy of carrying shoes compared to Snow Emperor, right?"

Hearing this.

Mad Blade laughed, "You can't compare to Snow Emperor, we are not playing the same game as Snow Emperor, what's the comparison."

When the others heard Mad Blade's words, they all laughed in unison.

"Okay, enough nonsense, after entering the copy, listen to Snow Emperor's command, in addition, all the gains in the copy belong to Snow Emperor."

Team Leader Long took the lead and nodded, saying:

"Understood."

Lin Tianhao didn't talk nonsense either. He directly formed a team and pulled them all into his team.

Team Leader Long traded a scroll to Lin Tianhao.

"Snow Emperor, crush this scroll to enter the Deep Sea Cave copy."

Chapter 688 - The fish monster with a thick tumor is so mean and nasty!

Lin Tianhao directly crushed the dungeon scroll.

In the next instant.

A gate of light unfolded in front of them.

Lin Tianhao took the lead and walked in.

Salt crystals, a type of life crystal, are not worth much.

However.

That's just because they are not worth much at this stage.

After the Great Cataclysm, salt is a scarce commodity and the price is not cheap.

However.

This "not cheap" is only relative to the original price of salt.

Strangely, after Lin Tianhao and the others entered, they hadn't seen even a single monster.

Long Dui's voice came from the side.

"Xue Di, the monsters in this dungeon are mainly sea monsters, with high levels and grades."

"We only managed to block two rounds of sea monster attacks before."

As soon as Long Dui finished speaking, a fishy stench came over.

It felt like falling into a pool full of rotten fish and shrimp, making people sick and uncomfortable.

Immediately after.

Lin Tianhao saw one sea monster after another appear.

These sea monsters were covered in fleshy tumors, and the tumors contained a mixture of green and white liquid, making them look extremely disgusting.

Pustule Fish Demon (Gold): Level 1000.

Health: 850 million / 850 million!

Attack: 1.99 million.

Skills: Pustule Explosion, Corrosion Spread, Fatal Self-Destruction, Berserk, Super Armor...

Level 1000, with a health value as high as 850 million.

This is much higher than a regular level 1000 Gold boss.

However, as a Hell difficulty dungeon, this situation is normal.

"Fan Hua Luo Yu."

Long Dui spoke.

Fan Hua Luo Yu understood Long Dui's meaning.

Waving her staff, layers of icy cold air swept toward the front.

The speed of the few Pustule Fish Demons in the front was slowed down by the cold air.

But at this moment.

The Pustule Fish Demons opened their bloody mouths, and the white-green liquid turned into dozens of arrows, flying rapidly towards Lin Tianhao and the others.

A dozen Pustule Fish Demons used this skill at the same time, resulting in hundreds of venom arrows flying towards the group.

Fan Hua Luo Yu seemed to have expected this, and with a wave of her staff, a huge golden shield appeared in front of everyone.

Fan Hua Luo Yu has not yet fully formed, so she is using all kinds of attribute skills.

In the later stages of the game, especially during the Great Cataclysm.

Many mages will develop towards attribute specialization.

As for the reason.

It is the power of Dao.

No matter what kind of attack, after being blessed by the power of Dao, its power will be greatly improved.

However.

Enlightenment requires a lot of time and energy, and normal people simply cannot withstand long-term enlightenment.

After all, even if you keep enlightening, you may not be able to reach the pinnacle.

However.

Lin Tianhao still knew some very cautious people who chose to specialize in enlightenment.

They were comparable to those who cowered until the end of time.

The things they did were two points: live and enlighten!

As for the others.

In their opinion, enlightenment is the root of everything. If they can enlighten and become a god, then where is the need to do other things.

But having lived two lives.

Lin Tianhao knew.

Enlightenment is not that simple. Blindly cultivating enlightenment is difficult to achieve too much.

Of course.

Except for the beasts with heaven-defying enlightenment talents.

In the field.

The golden shield only blocked dozens of venom arrows before being corroded and pierced by the venom.

Lin Tianhao was not in a hurry to take action. He also wanted to see how far these official elites had grown now.

Before, when exploring the Dragon Cave.

Long Dui and the others were suppressed, so Lin Tianhao couldn't see their true combat level.

This time.

It was an opportunity.

To Lin Tianhao's surprise, the venom arrows had already broken through the golden shield, but Long Dui and the others didn't seem to have any intention of taking action.

They had unusual faith in Fan Hua Luo Yu.

Fan Hua Luo Yu did not disappoint them. One earth shield after another appeared, blocking all of these venom arrows.

At the same time.

One earth spike after another rushed out of the ground, hitting these Pustule Fish Demons.

The earth spikes pierced the fleshy balls of the Pustule Fish Demons, and a large amount of green and white venom splattered out, and the earth was corroded by the venom, sizzling and soon corroded into one large pit after another.

-5.98 million!

-6.01 million!

...

After the earth spikes hit the Pustule Fish Demons, they dealt high damage numbers.

An output ability of around six million, this Fan Hua Luo Yu can already be considered very strong among the current players.

Especially.

The damage was dealt by earth spikes, and it was still in this Hell difficulty dungeon with considerable resistance.

If it were a normal situation, this damage value would probably be even higher.

The Pustule Fish Demon roared and rushed up quickly.

Seeing this.

The somewhat thin archer in the team took action.

Lin Tianhao also noticed his game nickname.

Jian Li Jian Qi.

A very memorable name.

"Shoo shoo shoo—"

This Jian Li Jian Qi's attack speed was also frighteningly fast, exceeding eighteen arrows per second.

Moreover.

The accuracy of his arrows was also unquestionable.

Every arrow flew towards the vitals of the Pustule Fish Demon.

Critical hit!

-4.51 million!

-2.25 million!

-2.26 million!

...

One damage number after another appeared. This Jian Li Jian Qi's output ability can only be said to be not bad, but not as amazing as Lin Tianhao imagined.

But next.

Jian Li Jian Qi used a technique that Lin Tianhao had used before.

Five-arrow volley!

The maximum that an archer can do is a five-arrow volley.

However, Lin Tianhao hadn't used the five-arrow volley method for some time.

The reason is nothing else.

Lin Tianhao's previous opponents were too strong, basically all domain powerhouses.

Without using Heavenly Punishment Lockhead, he couldn't even break through the domain.

But if that's all.

Five-arrow volley, ninety arrows per second!

However, this five-arrow volley cannot be applied to one target unit at the same time.

However.

Even if the attacks are scattered.

There are still eighteen arrows per second, and the damage value is as high as 40 million+.

Just.

This level of damage would still take more than ten seconds to kill a Pustule Fish Demon.

What's more, the Pustule Fish Demon also has health recovery methods, so the time would be even longer.

And.

The Pustule Fish Demon couldn't just sit and wait to be killed, letting them attack.

At this moment.

A platinum Gatling gun was brought out by a slender woman.

The slender figure holding the thick platinum Gatling gun seemed a bit incongruous.

Especially.

The barrel of this platinum Gatling gun was almost as thick as her waist.

"Da da da—"

The platinum Gatling gun spewed out fire snakes, and a large number of bullets flew towards the Pustule Fish Demon as if they were free.

Chapter 689 - The poisoning intensifies, the difficulty of deep sea caves!

- 290,000!

- 300,000!

- 290,000!

... ..

A series of damage numbers emerged from these guys.

In less than fifteen seconds, the barrel of this platinum Gatling gun was already red. Continuing to fire would inevitably affect its wear resistance.

However, in this short period, the few Pustule Fish Demons in front had already been crippled.

It can only be said that they are all top players of Twilight of the Gods.

But compared to Lin Tianhao, the gap is still too large.

"Let me do it."

Lin Tianhao was going to see their level. Now that he had seen enough, there was naturally no need to waste time.

"Shoo, shoo, shoo—"

Lin Tianhao casually made a move.

These Pustule Fish Demons couldn't withstand even one arrow from Lin Tianhao and were easily killed.

Flowery Rain opened her mouth, not knowing what to say for a moment.

They fought so hard and needed cooperation to kill a few Pustule Fish Demons.

But when Emperor Snow made a move, it was a direct instant kill.

"The Pustule Fish Demon has as much as 850 million health points. Does this mean that Emperor Snow's arrow damage has exceeded 850 million!"

"Is this Emperor Snow? Terrifying!"

"How much damage did Sister Rain's forbidden spell do last time? More than 60 million, but it's not even a fraction of Emperor Snow's basic attack."

... ..

They were all dumbfounded.

Before, in the Dragon Cave, Lin Tianhao's arrows didn't produce such intuitive damage numbers, so they didn't feel it so much.

Thinking of this.

Dragon Team slowly opened the chat box and sent a message to Mad Blade:

"Guild Leader Blade, perhaps you are right. Emperor Snow's terror is really beyond our imagination."

"According to my judgment, the damage of one of his arrows has exceeded one billion, and it should all be true damage."

After sending the message.

Lin Tianhao raised his hand, and the souls of the Pustule Fish Demons he had just killed were summoned by him.

These not-so-powerful undead are naturally used on the spot after being enslaved.

There is no problem using them to explore the way.

Seeing this scene.

Dragon Team and the others were relatively calm.

After all, it was no longer a secret that Lin Tianhao could enslave the undead of the creatures he killed.

After walking a few steps.

More Pustule Fish Demons rushed out.

But under Lin Tianhao's arrows, they were so insignificant.

Dozens of Pustule Fish Demons were killed by Lin Tianhao in less than a second.

"Emperor Snow, terrifying!"

After solving the Pustule Fish Demons in the first level, Lin Tianhao led them into the second level.

Just as they arrived at the second level, a system prompt came.

"Ding, you are poisoned and will continue to lose health..."

- 1500.

- 1500.

... ..

Damage numbers appeared above Lin Tianhao's head.

It's just that losing 1500 health per second has no impact on Lin Tianhao.

Lin Tianhao's basic health recovery has already exceeded one million.

Plus the health recovery from recovery, this bit of health loss is completely painless.

However.

The situation of Dragon Team and the others is not so good.

- 30000!

- 30000!

... ..

Lin Tianhao has a purification jade pendant, so he only loses 1,500 health per second.

They lose 30,000 health per second. Even if their basic health recovery is good, they still have to start taking medicine.

Of course.

Not everyone is taking medicine.

At least.

The two shield warriors didn't take medicine.

"Emperor Snow is really unsolvable. This kind of poison can actually be weakened to this extent," North Sea Immortal couldn't help but sigh.

Lin Tianhao didn't pay too much attention to their reaction. His eyes fell on the sea monster with two long whiskers on its head in front.

Deep Sea Tiger Shrimp (Gold): Level 1000.

Health: 890 million / 890 million!

Attack: 8.18 million!

Skills: Quick Shadow Ejection, Meteor Fall, Copper Skin and Iron Bones, Super Body, Berserk...

Lin Tianhao raised his eyebrows. The health of this Deep Sea Tiger Shrimp has increased slightly.

But the attack power is very prominent.

It's not to say that the attributes of the Deep Sea Tiger Shrimp are really much higher than the Pustule Fish Demon.

The main reason is that the Pustule Fish Demon is a magic monster, and the Deep Sea Tiger Shrimp is a physical monster, so the difference in attack power is more obvious.

But what really surprised Lin Tianhao was Copper Skin and Iron Bones.

This is a supernatural power!

It's not to say that wild monsters can't have supernatural powers. On the contrary.

Not to mention supernatural powers, there are wild monsters who comprehend the laws.

It's just.

This is only gold quality, why does it even have supernatural powers?

"The Deep Sea Tiger Shrimp is very fast, especially its Quick Shadow Ejection, which can instantly eject to us. We must..." Dragon Team seriously reminded.

Dragon Team was stunned before he could finish speaking.

Because more than fifty Deep Sea Tiger Shrimp were solved by Lin Tianhao in less than 0.5 seconds.

All instant kills, with no resistance at all.

"Must what?" Lin Tianhao asked, turning his head.

Dragon Team opened his mouth, "It's nothing, Emperor Snow, just treat me like I'm farting."

This reminder is too redundant!

Entering the next level again.

"Ding, you are moderately poisoned, and the continuous health loss is increasing..."

- 5000.

- 5000.

... ..

Lin Tianhao loses 5,000 health per second, and Dragon Team and the others lose 100,000 health per second!

The power of this dungeon does not seem to be the wild monsters, but this continuously increasing health loss.

The sea beasts in this level are still level 1000, gold quality.

The health has increased by tens of millions again.

But it still can't escape the fate of being instantly killed by Lin Tianhao.

As it stands.

The difficulty coefficient of this dungeon is average.

At least.

For Lin Tianhao, the difficulty coefficient is average.

However.

For Dragon Team and the others, the difficulty coefficient should not be low.

Because from the third level to the fourth level, the health loss increases again.

- 15000.

- 15000.

... ..

Lin Tianhao now loses 15,000 health per second, and Dragon Team and the others lose as much as 300,000 health per second!

Because Mad Blade traded peaches with Lin Tianhao.

The starting health of Dragon Team and the others is 10 million.

Similar to Flowery Rain, whose talent has a bonus to health, his improvement is even greater.

But 300,000 per second.

If no countermeasures are taken, they will hang up in less than a minute.

The two priests in the team have to take action at this time.

One of the priests released a group healing spell with a wave of his hand, allowing them to continuously recover the health they had just lost.

The other priest released a group shield with a wave of his hand, relieving the pressure on everyone.

"This is the fourth level, and we haven't seen a powerful boss yet. If we drag it to the back, won't we lose millions of health per second!"

True Sword Successor said in a deep voice.

"Take anti-toxin potions."

Dragon Team and the others are obviously prepared. They have passed two levels before, indicating that they know they will be poisoned.

"Emperor Snow, do you want to use this anti-toxin potion?" Dragon Team asked knowingly.

Chapter 690 - The last level, the ultimate Boss!

"Not needed for now."

He knew the Dragon Team was just asking as a formality.

As for needing two bottles of antidote as a reserve, forget about it!

After taking the antidote, the Dragon Team's health loss finally slowed down a bit.

From losing 300,000 health per second, it decreased to 200,000 health per second.

The antidote reduced the damage by one-third.

This antidote is just average!

For potions targeting negative effects, if the effect is less than fifty percent, they are considered average.

However, it's still early in the game, and finding an antidote that reduces damage by one-third is already good.

But...

This is only the fourth level, and there are still several levels ahead, no one knows.

What if there are three or four more levels? Even if they have antidotes by then, it's questionable whether they can withstand it.

The fourth level's monsters were still easy, and they smoothly arrived at the fifth level.

-50000.

-50000.

.....

Lin Tianhao was losing 50,000 health per second, so the Dragon Team was losing as much as one million health per second.

-660,000!

-670,000!

.....

One damage number after another popped up above the Dragon Team's heads.

“This is troublesome.”

The Dragon Team looked serious, “Use Rejuvenation Pills.”

Everyone took out Rejuvenation Pills, which surprised Lin Tianhao.

Usually, at this stage, people use potions, but the Dragon Team was already using pills.

+1,000,000!

+1,000,000!

.....

These Rejuvenation Pills are indeed extraordinary, restoring one million health per second, and it's continuous.

One Rejuvenation Pill only lasted for ten seconds before the effect ended.

Lin Tianhao was already very fast, and in just ten seconds, he led them to the sixth level!

As soon as they entered the sixth level, the health loss increased again, from one million per second to three million per second.

This time...

Even with Rejuvenation Pills, it would be difficult to withstand such a high rate of health loss.

“Use Advanced Antidote.”

The Dragon Team looked increasingly serious, but they were still relatively calm.

After they took the Advanced Antidote, the health loss improved slightly.

The health loss of three million per second was reduced to one and a half million per second.

Plus the recovery from the Rejuvenation Pills, they were losing 500,000 health per second.

There were also two priests.

However...

The group healing spells of these two priests couldn't support them at all.

The Dragon Team also noticed this problem, and he immediately said.

“You two focus on healing me and the two shield warriors, Prosperous Rain, use your spells to protect yourself as much as possible, the others stop taking Rejuvenation Pills, and trade all the Rejuvenation Pills and Antidotes to me.”

The Dragon Team was decisive.

He knew.

If they wanted to survive here, they had to make sacrifices.

Especially assassins like Shadow Kill and archers like Cheap and Cheeky.

Their health was only over ten million, and they couldn't withstand the continuous and significant health loss.

The monsters in the sixth level were still easy to deal with, but after dealing with these monsters, the seventh level didn't open.

In front of them, a countdown appeared!

299...

298...

297...

.....

Seeing this countdown, Lin Tianhao already understood the purpose here.

They had to endure the high-intensity health loss for five minutes!

Shadow Kill and Cheap and Cheeky obviously couldn't hold on, and they soon fell.

The priests mainly healed the Dragon Team and made their health slightly healthier, but the priests themselves couldn't withstand such health loss.

The two priests died one after another.

The Dragon Team and the two shield warriors, as well as Prosperous Rain, had relatively healthy health bars.

But it was only relatively healthy.

With the death of the priests, their health was decreasing at a rate visible to the naked eye.

Although Prosperous Rain was a mage, her dual saint-level talents could amplify her health.

In addition, as a mage, she had some skills such as light shields and white shields.

And because of her talent, her skills cooled down very quickly, and she could even use these types of skills multiple times in a short period of time.

However...

Prosperous Rain could only guarantee her own health bar.

Under this continuous health loss, the Dragon Team only lasted for two hundred seconds before their health bars were depleted.

“Can't hold on.”

The Dragon Team said in a deep voice.

This level of health loss was still too difficult for them to withstand.

“Don't panic.”

Lin Tianhao said calmly.

The Dragon Team smiled wryly, “Snow Emperor, of course you're not panicking, we're the ones who are going to die.”

“It's okay, I can help you heal.”

Lin Tianhao said with a smile.

Then...

Lin Tianhao released the skill Azure Sea Tide without hesitation.

Azure Sea Tide had already been upgraded to three stars at this time.

The effect was to restore 10 million health + 6% of Lin Tianhao's maximum health.

It was 100,000 + 2% at one star, but it didn't matter.

Whether it was 2% or 6%, it could heal the Dragon Team to the point where they didn't want it.

The Dragon Team was slightly stunned, he was still wondering how Lin Tianhao, an archer, could help them heal.

He found that his health was instantly restored to full.

Not only him.

The two surviving shield warriors and Prosperous Rain, their health was instantly restored to full.

“Holy... Holy crap!!”

One of the shield warriors almost blurted out.

His health was as high as ninety million.

This level of health could actually be instantly restored to full.

Is this an archer?

This is a god-level healer!!

“Okay, you guys stabilize for the last hundred seconds, and you can pass this level.”

“Looking at the current situation, there's a high probability that there won't be a seventh level, as long as you survive, you can enter the secret realm.”

The Dragon Team nodded.

The countdown passed little by little, and the last hundred seconds were successfully survived.

Just when everyone thought that after surviving these three hundred seconds, they would be able to survive.

A huge damage number popped up above everyone's heads.

-7,500,000!!

They still lost 7.5 million health with the antidote.

That is to say.

The normal damage value should be fifteen million.

Fortunately, Lin Tianhao had just helped them restore their health, otherwise this would have been very fatal.

After this health loss, everyone finally stopped losing health.

The Dragon Team also breathed a sigh of relief.

The difficulty of this dungeon was poisoning, and now that the most difficult part had been overcome, the rest should be much easier.

“Who is so bold as to disturb my slumber.”

At this moment, a deep voice came.

The faces of the few people who thought they had cleared the dungeon changed slightly, this dungeon still had a final boss.

As the voice fell.

The earth began to tremble, and the ground in front of them cracked layer by layer.

“Bang—”

A dark green tentacle protruded from the earth.

“Disturbing my slumber comes at a very serious price!”

“Are you... ready to accept my punishment?”
