

## O game 70

Chapter 70 First kill of the blood-eyed dragon turtle!

Dealing with bosses that are large and relatively slow, kiting them is the most effective strategy.

Due to their large size, even if their movement speed isn't fast, the distance they cover with each step is considerable.

Therefore,

using the boss's own large body to block its movement becomes crucial.

In the distance,

Floating Slaughter Wolf came here under orders.

To be precise,

he had already arrived when Lin Tianhao started attacking the Blood-Eyed Dragon Turtle.

However, he didn't approach.

Because that would easily be mistaken for trying to steal the boss.

Besides the Blood-Eyed Dragon Turtle,

there was another person in the distance.

However, he was currently in stealth.

This person was none other than Shadow Assassin.

His purpose was somewhat similar to Floating Slaughter Wolf's.

Lin Tianhao had already noticed them, but he didn't care.

Arrows continuously struck the Blood-Eyed Dragon Turtle.

The Blood-Eyed Dragon Turtle's health began to decrease steadily.

It turned around several times, but it couldn't see Lin Tianhao.

Lin Tianhao maximized his positioning, precisely staying in the Blood-Eyed Dragon Turtle's blind spot every time.

"Shadow Concealment Step!"

Shadow Assassin raised his eyebrows.

Because he also knew the technique Lin Tianhao was using, and he could confidently say that he was only stronger than Lin Tianhao in Shadow Concealment Step.

However, his Shadow Concealment Step was honed through countless battles and assassination missions.

Lin Tianhao's Shadow Concealment Step might not be as strong as his, but it wasn't far off.

In that instant,

Shadow Assassin thought a lot.

He didn't believe that Lin Tianhao had only learned Shadow Concealment Step after entering the game.

He must have known this technique before.

Floating Slaughter Wolf felt a chill run down his spine when he saw Lin Tianhao's terrifying positioning and damage.

He now understood why Dreamy Mist Snow's elite team was so easily wiped out by Lin Tianhao.

High damage, absurd positioning.

That's right.

In Floating Slaughter Wolf's eyes,

Lin Tianhao's positioning could no longer be described as strong.

Only the word 'absurd' could describe Lin Tianhao's current positioning.

If it were another game, he might even say that Lin Tianhao was cheating.

Lin Tianhao didn't care how the two of them saw it, movement speed, attack speed, reaction speed,

all maxed out!!

Some ordinary archers, even in the later stages of the game, would still make noobish mistakes like moving and interrupting their auto-attacks.

In other words,

there was also the issue of accuracy.

Many archers would experience a decrease in arrow hit rate when moving.

Of course,

against a large monster like the Blood-Eyed Dragon Turtle, these problems weren't immediately apparent.

But even just this positioning made Floating Slaughter Wolf realize that Lin Tianhao was someone he absolutely couldn't provoke.

"Roar!!"

The Blood-Eyed Dragon Turtle roared, and poisonous mist continuously emanated from its shell.

-648.

-648.

...

Damage numbers appeared above Lin Tianhao's head.

The Purifying Jade Pendant was still powerful.

It reduced a significant amount of poison damage for Lin Tianhao.

This poison mist skill had negligible impact on him.

At that moment,

the Blood-Eyed Dragon Turtle roared.

A blood-red light flashed around it, indicating that it had activated Berserk.

Lin Tianhao's eyes narrowed.

At that moment,

he realized that he had been outmaneuvered.

Because the Blood-Eyed Dragon Turtle had predicted his movements.

Activating Berserk this time was aimed at instantly killing him.

Because a black water vortex appeared beneath his feet.

His body was immediately pulled into the vortex.

This vortex had a diameter of over twenty meters and would continuously pull Lin Tianhao towards the center.

Therefore, even if Lin Tianhao wanted to move, it was too late.

At the same time,

a magic array appeared above Lin Tianhao's head.

Water arrows flew out of the array.

-6785.

-6789.

-6782.

...

Damage numbers appeared on Lin Tianhao's body.

Lin Tianhao unhesitatingly equipped the Tears of the Life Goddess, and then began to output damage like crazy.

While his health increased by twenty percent, Lin Tianhao could also recover ten thousand health per second.

At the same time,

the benefit was that Lin Tianhao's damage was increased, and his recovery was increased.

Floating Slaughter Wolf was very sensitive to attributes.

In just an instant, he noticed the changes in Lin Tianhao's attributes.

He couldn't observe his health, but he could judge his attack power and recovery based on his own knowledge.

"Skill?"

"Talent?"

Floating Slaughter Wolf wasn't too sure.

But it should be some kind of damage amplification skill.

Because Lin Tianhao's damage was even higher, with an amplification of about twenty percent.

He also gained a blessing that restored ten thousand health per second.

This amplification was quite impressive at this stage.

Floating Slaughter Wolf himself had also obtained such amplification skills, and some of his subordinates had as well.

However, the maximum amplification was only ten percent, and he had never seen one like Lin Tianhao's that amplified by twenty percent and also added ten thousand automatic recovery.

At this time,

the battle continued.

Lin Tianhao endured the water arrow attacks and continuously output damage.

On average, ten arrows would hit him every second, dealing over eighty thousand damage.

Lin Tianhao wanted to break free from the black water vortex, but how could the Blood-Eyed Dragon Turtle give him this chance?

It opened its bloody mouth wide.

It released a barrage of water balls.

-10890.

-10893.

-10888.

...

Another series of damage numbers appeared above Lin Tianhao's head.

And each water ball would cause a knockback effect on Lin Tianhao.

Lin Tianhao wasn't very panicked.

No other reason.

The Blood-Eyed Dragon Turtle's damage wasn't considered high to him.

The main thing was that it had many area-of-effect skills, but its burst damage was insufficient.

As long as the burst damage wasn't enough to instantly kill Lin Tianhao, and the control chain was insufficient, then with the Tears of the Life Goddess, the Bloodthirsty Necklace, the Ninefold Longbow, and the Resurrection skill's four major recovery effects,

the Blood-Eyed Dragon Turtle's damage wouldn't be enough to defeat Lin Tianhao.

"Swoosh swoosh swoosh!!"

Arrows pierced through the air, and the Blood-Eyed Dragon Turtle's health began to drop rapidly.

It also tried to attack Lin Tianhao, but its output was insignificant in the face of Lin Tianhao's high recovery.

Now, it was only a matter of time before the Blood-Eyed Dragon Turtle was killed.

"The Blood-Eyed Dragon Turtle is done for."

Floating Slaughter Wolf's analysis of the battle situation was very sharp.

The battle hadn't ended yet, but he already had the answer in his mind.

The result was no surprise.

"Ding, you have completed the first kill of the Blood-Eyed Dragon Turtle, a server-wide announcement will be made, do you want to hide your name?"

"No."

"Server-wide announcement, congratulations to player Snow Emperor for completing the first kill of the Blood-Eyed Dragon Turtle, hereby announced, hoping that all players will continue to work hard."

"Server-wide announcement, congratulations to player Snow Emperor for completing the first kill of the Blood-Eyed Dragon Turtle, hereby announced, hoping that all players will continue to work hard."

...

The sound of the server-wide announcement rang out, and Floating Slaughter Wolf and Shadow Assassin walked over at the same time.

Shadow Assassin moved faster and arrived in front of Lin Tianhao first.

"Snow Emperor, our captain wants me to discuss something with you."
