

## O game 71

Chapter 71 Qi Family of Tiangong Mountain!

Lin Tianhao ignored Shadow Kill and started looting the corpse.

“Ding, you have obtained Skill Book + 3.”

“Ding, you have obtained Equipment + 4.”

“Ding, you have obtained Gold Coins + 598.”

“Ding, you have obtained Free Attribute Points + 50.”

“Ding, you have obtained Dragon Gall + 1.”

“Ding, you have obtained Blackwater Lake Dungeon Key + 1.”

... ..

A series of system prompts came.

Lin Tianhao first checked the skill books.

What brightened Lin Tianhao's eyes was that a Tyrant Body skill book had actually dropped.

Tyrant Body: 1 Star.

Proficiency: 0 / 100.

(Note: This skill is only available to melee classes such as Warriors and Fighters.)

Lin Tianhao raised his eyebrows, which he wasn't surprised about.

Whether it's an archer or a mage, they can only learn skills like Purify.

It is very, very difficult to obtain continuous CC immunity skills like Tyrant Body.

Some priests may have blessing skills with this type of effect.

The remaining two skill books were even more useless to him.

Bloodthirsty Dragon Armor can also only be learned by Warriors, Fighters, and other classes.

Bloodthirsty Dragon Armor: 1 Star.

Effect: 5% of the damage you take will be converted into healing to restore your own health.

Cost: None.

Cooldown: None.

Proficiency: 0 / 1000.

This skill, and Tyrant Body, are very suitable for Zhou Xiaopang.

He was purely working for Zhou Xiaopang.

As for the third skill book, Blackwater Vortex, which can only be learned by mages, it has nothing to do with him either.

Not to mention the equipment, Lin Tianhao couldn't equip level 45 tank equipment right now.

After picking up the equipment, Lin Tianhao glanced at the Divine Wolf of the Floating Tower.

"Divine Wolf of the Floating Tower? You wouldn't be here to kill me like Zhumeng Yanxue, would you?"

The Divine Wolf of the Floating Tower quickly waved his hand, "No, and yes."

"I wanted to discuss with you whether you could pay some money for you to be killed by us once."

"For example, five million?"

Lin Tianhao looked at the Divine Wolf of the Floating Tower with the eyes of an idiot, "Do you think I would be short of your five million if I wanted to make money now?"

The Divine Wolf of the Floating Tower was not surprised by Lin Tianhao's answer. To be precise, he had already guessed that Lin Tianhao would answer like this.

"Okay, sorry to bother you."

The Divine Wolf of the Floating Tower said respectfully: "However, if Snow Emperor has any equipment or skill books to sell, you can consider our Floating Tower Guild, the price is negotiable."

"Okay, I understand."

Lin Tianhao waved his hand and turned his gaze to Shadow Kill not far away.

“Shadow Kill, if you have the same purpose as the Divine Wolf of the Floating Tower, then you can leave too.”

Shadow Kill came out of stealth, "Okay, but I want to tell you that someone is targeting you, they are very strong and not easy to deal with."

Lin Tianhao smiled noncommittally, "Whatever."

Is he afraid of players targeting him now?

Really not afraid!

At this stage, even players with god-level talents, it is almost impossible to compete with him.

“Okay, be careful yourself.”

Shadow Kill left, and the Divine Wolf of the Floating Tower also left together.

After they left, Lin Tianhao took out the dungeon key, ready to open the Blackwater Lake dungeon.

Just that.

Before he could open the dungeon, his body had already sidestepped to pull away.

A feather arrow brushed past his shoulder, almost hitting him.

At this stage, someone actually dared to attack him.

As Lin Tianhao thought this, the feather arrows in front continued to pierce through the air.

That was a level fifteen archer, wearing a complete set of equipment, with a very fast attack speed, at least not slower than Lin Tianhao at all.

Lin Tianhao's eyes narrowed, and he immediately counterattacked.

“Swish swish swish!”

The feather arrow pierced through the air.

What happened in the next moment made Lin Tianhao's pupils shrink suddenly.

Because his feather arrow was intercepted by the mysterious archer's feather arrow.

They were both energy arrows.

The flying speed of the feather arrows in the air was very fast, but the other party accurately used his own energy arrow to collide with his own energy arrow, thereby neutralizing his own feather arrow.

This kind of precise strike sounds simple.

But Lin Tianhao was very clear that even in the Great Cataclysm period, that was a rare existence.

The other party is an expert!!

String Twisting Arrow Technique!

Lin Tianhao did not hesitate to use the String Twisting Arrow Technique.

Only the String Twisting Arrow Technique, which can fly out in an arc, can avoid the opponent's feather arrow and prevent his attack from being neutralized.

However.

Just as Lin Tianhao's feather arrow was about to be fired, the opponent's feather arrow also turned.

Also the String Twisting Arrow Technique.

This method is terrifying!

Five Arrows Fired Simultaneously!

Lin Tianhao changed his attack method again.

The other party did the same.

Five arrows fired simultaneously, and all five feather arrows could neutralize Lin Tianhao.

Lin Tianhao's eyes narrowed slightly, "Are you an ancient martial artist? From the Qi family of Tian Gong Mountain?"

A group of people who suddenly rose in the game in his previous life, ancient martial artists!

During the Great Cataclysm.

Ancient martial artists were also the mainstay against the Alete Star System.

Because ancient martial artists have strong combat skills, it is easy to snowball in the game, as long as the talent and profession are not too weak, they can all deal considerable damage.

The archer looked at Lin Tianhao with some surprise.

“String Twisting Arrow Technique, Five Arrows Fired Simultaneously, Consecutive Arrows, your arrow skills are very high, and you also know about our Qi family of Tian Gong Mountain, can you tell me, who exactly are you?”

“What's the point of asking for real identities when playing a game? Could it be that you can't beat me in the game, and you want to gank me offline?”

The archer player shook his head, "Our Qi family can't do such tasteless things as offline ganking."

“But I want to discuss with you, let the people from our Qi family of Tian Gong Mountain be registered in your Lone Snow Guild.”

“Oh?”

Lin Tianhao was a little surprised. He had actually considered pulling a group of ancient martial artists in when he formed this guild.

He didn't expect someone to take the initiative to join his guild.

Moreover, it was someone from the famous Qi family of Tian Gong Mountain in his previous life.

“The people from your Qi family of Tian Gong Mountain are very powerful, I have no reason to refuse, but I still want to ask, what benefits can I get from pulling you into the guild?”

The archer threw out a skill book.

“I have observed your combat videos, your tenacity is very high, but you can't achieve CC immunity, and you don't have any purification and CC removal skills.”

"This skill book should be like a tiger with wings added for you."

Lin Tianhao took the skill book and couldn't help but light up.

Star Moon Purification: 1 Star.

Effect 1: Removes control, slow, and negative buff effects from the body, this purification is ineffective against knock-ups and curses.

Effect 2: For ten seconds after use, you will gain 5% tenacity bonus.

Cost: 50MP.

Cooldown: Ten minutes.

Proficiency: 0 / 1000.

(Note: This proficiency must be increased when under control, slowed, and negative buff effects, daily use cannot accumulate proficiency)."
