Chapter 92 - Upgrading and Purifying Jade Pendant

Although Lin Tianhao felt that it would be very, very difficult to obtain the blessings of ten Eastern gods before the second job change, he still felt that he could try.

There are actually two difficult points in this task.

The first is before the second job change.

In Twilight of the Gods, the second job change is at level 50.

Before the second job change, the highest level you can reach is level 50.

Of course, for Lin Tianhao, it was never the level that could limit him.

Just like when he was only level one before, he was still able to stir up trouble in such a difficult dungeon.

The real difficulty lies in the restrictions of the Star Kingdom.

According to what he knew in his previous life, without special circumstances, players cannot leave the Star Kingdom before the second job change.

The difficulty lies here.

It is very, very difficult to obtain the blessings of ten Eastern gods in the Star Kingdom.

Secondly.

The extremely difficult point lies in these ten Eastern gods.

Lin Tianhao has currently obtained the blessings of two Eastern gods.

But they all came from the Earth Goddess.

Obtaining the blessings of ten different Eastern gods is much more difficult than obtaining ten Divine blessings.

Lin Tianhao looked serious.

As a person from the East, he hopes for the revival of the ancient Eastern country.

As an old player with rich game experience from his previous life.

Lin Tianhao is very clear that if he can revive the ancient Eastern country, he will be able to obtain a lot of benefits.

At this time, Lin Tianhao could directly leave the dungeon.

But he didn't do that.

He returned the same way and went back to the village.

When they saw Lin Tianhao coming back, everyone in the village came out.

Village Chief Li took the lead, stepped forward to Lin Tianhao, and bowed deeply to him.

"Brave adventurer, your strength is beyond my imagination. You can take any three things from our village."

As soon as he finished speaking.

Village Chief Li waved his hand, and someone immediately took out one item after another.

Lin Tianhao glanced over and his eyes lit up instantly.

He saw Dr. Liu, whom he had met before, holding a job change scroll in his hand.

Heaven-rank Hidden Profession: Toxic Alchemist.

There are also several other hidden profession rewards, but Lin Tianhao just took a look, after all, he also knew some strategies for obtaining hidden professions.

Suddenly.

Lin Tianhao was attracted by a small booklet.

Fragmented Law Secret Book: Unknown.

Introduction: It contains insights into the Law of Ice. If you can study it, you will inevitably be able to touch the threshold of the Law of Ice in the future.

Lin Tianhao took a deep breath, with an unbelievable expression on his face.

If it weren't for his memories from his previous life, Lin Tianhao wouldn't have thought there was anything great about this thing.

But at this moment.

His hands were trembling slightly with excitement.

This is actually a Law Secret Book, even if it is incomplete, it is an extremely precious thing.

One of the methods to become a god: Enlightenment to become a god.

The reason why Enlightenment to become a god is so difficult is that for most ordinary people, it is unrealistic for them to even get started.

But right now, such a dungeon is in front of him, so he can't help but be pleasantly surprised.

Even though it seems that the power of the Law of Ice attribute doesn't seem to help him much right now.

But just because it's not useful now doesn't mean it won't be useful in the future.

In addition to this.

Lin Tianhao was also attracted by something, which was the weapon evolution scroll in Village Chief Li's hand.

Weapon Evolution Scroll: Special.

Effect: Can evolve one of your weapons.

Usage: One-time item.

Lin Tianhao raised his eyebrows. This thing was also something he really wanted to get.

Now that it was placed in front of him, he was somewhat happy.

After getting it, the first thing Lin Tianhao thought of was evolving the Book of Life and Death.

But the result was that it could not be evolved.

What a pity!

If he could evolve the Book of Life and Death, he would take off on the spot.

Since he couldn't evolve the Book of Life and Death, among the weapons in Lin Tianhao's hand, what he wanted to evolve was naturally the Tears of the Goddess of Life.

This thing can effectively increase his health points, and it is the most compatible with him.

In addition to this, there is the Purification Jade Pendant.

After a brief thought, Lin Tianhao finally decided to evolve the Purification Jade Pendant.

After all, he can infinitely stack health points, but good things like the Purification Jade Pendant are unmatched by ordinary purification skills.

"Ding, are you sure you want to use the weapon evolution scroll on the Purification Jade Pendant."

"Confirm."

"Ding, the Purification Jade Pendant is evolving... Evolution successful!"

Purification Jade Pendant: Special equipment.

Wearing requirements: The active transferor can wear it, it cannot be dropped, it cannot be taken, and it cannot be worn by outsiders who are not actively gifted.

Effect: Immune to 85% of knockback, control, deceleration, curse, poisoning, burning, freezing, paralysis and other negative buffs.

Abrasion resistance: 100.

Lin Tianhao raised his eyebrows. He still had the Eternal Scroll in his hand, and he had been hesitating about which weapon to use it on.

Now he finally made up his mind to use it on the Purification Jade Pendant.

As long as the Purification Jade Pendant is indestructible, he can run amok in the future.

The 85% immunity to control attributes is quite awesome no matter what stage it is placed in.

Lin Tianhao even had a special idea from the bottom of his heart, that is, whether it is possible to increase the immunity to control of the Purification Jade Pendant to 100%.

Weapon evolution scrolls are very rare, but that doesn't mean that weapon evolution scrolls are only available here.

Although according to the urine of Twilight of the Gods, the attribute improvement becomes more and more difficult as it goes to the back.

But this difficulty also has a degree.

Taking back his thoughts, Lin Tianhao began to choose his third item.

There are many good things in the hands of these villagers, and Lin Tianhao saw a Holy Grade Talent Awakening Stone.

This thing is useless to him, but it is of great use to the people around him.

After all, the higher the talent, the more difficult it is to awaken in the early stage.

The Holy Grade Talent Awakening Stone is already very useful.

Looking at other things again.

There is nothing that Lin Tianhao wants.

After only a slight thought, Lin Tianhao still chose this Holy Grade Talent Awakening Stone as his third item.

"Village Chief Li, I have selected all the things I want."

Hearing this, Village Chief Li smiled.

"Thank you, adventurer, because of your arrival, our village is about to return."

"Return?"

Lin Tianhao was a little surprised.

"What do you mean?"
