

O game 94

Chapter 94 - The red line of bond!

“Of course.”

King Abel laughed.

Lin Tianhao waved goodbye.

Now that he no longer had a red name value, he had to consider doing something else.

At the same time.

Lin Tianhao's task of the Qi Condensation Potion was also completed.

“Ding, you have completed the task of the Qi Condensation Potion, task reward: Free attribute points +500, Blessing of the Gods +1, Resurrection in Place +1.”

Lin Tianhao's eyes lit up, this reward was so generous.

Resurrection in Place (Passive): Cannot be upgraded.

Effect: After being killed, you can choose to resurrect in place with full health. If you do not choose to resurrect in place, you can still resurrect at the resurrection altar.

Consumption: None.

Cooldown: None.

Proficiency: None.

After the game merged with reality, would this skill still be effective?

Because after the game merged with reality, fountain resurrection had become a thing of the past, and everyone only had one life.

Of course.

The priest's resurrection skill can still resurrect players after the game and reality merge.

It's just.

The probability will be very low.

And the effect of this skill is to resurrect in place, and resurrect in place without restrictions.

This can definitely be described as outrageous.

Even if you don't consider the fusion of game and reality, resurrection in place is extremely perverted even in the game.

“Ding, because you cleared the Footprints of the Snow Corpse with Hell difficulty, you triggered a follow-up task: Revive the Ancient Eastern Kingdom.”

“Task Requirements: Revive the Ancient Eastern Kingdom.”

“Task Penalty: Unknown.”

“Task Reward: Unknown.”

Lin Tianhao took a deep breath. Even if this follow-up task was not triggered, he would still do it, after all, he had already chosen this path.

“Use the Blessing of the Gods.”

A beam of light descended from the sky.

Lin Tianhao was a little expectant. This time, whose blessing would he receive?

According to his judgment, it was likely to be the blessing of a certain Eastern god.

“Ding, you have received the Blessing of the Gods...”

“Ding, the Old Man of the Moon is blessing you...”

Lin Tianhao was stunned, the Old Man of the Moon?

Did he need the blessing of the Old Man of the Moon?

No way.

If he got a weird blessing, then he would be depressed.

“Ding, you have obtained the Red String of Fate.”

Red String of Fate: Special item.

Effect: Bind a woman (not limited to adventurers, NPCs, monsters, gods, etc., only limited to gender), you can gain her attack speed and movement speed bonus.

Current binding target: None.

Durability: 100.

Lin Tianhao raised his eyebrows. When he first saw this Red String of Fate, he was a little flustered.

He was just afraid that it was a skill related to marriage.

But this...

Wasn't this just him taking off in place?

What did he lack the most?

Undoubtedly, attack speed and movement speed!

These two attributes were completely the more the better for Lin Tianhao.

And this Red String of Fate was too good for him.

It was a bit similar to Zhou Xiaopang's talent, but the attributes gained were different.

Besides.

This Red String of Fate can only bind one person, and it is limited to women.

Relatively speaking, it cannot be compared with Zhou Xiaopang's talent.

But just for Lin Tianhao alone, this Red String of Fate was very good, very, very good.

Moreover.

Lin Tianhao had already thought about the first target to bind.

Leona!

Although Leona was not very strong in the later stages of the game, she was definitely a very perverted existence at this stage.

Of course, this was only temporary.

After all, Leona was not an archer, perhaps because she was strong enough, she had relatively good attack speed and movement speed.

However, it was definitely not as good as an archer of the same level.

Besides.

Leona was also the strongest person Lin Tianhao could currently contact and bind with the Red String of Fate.

Taking back his thoughts, Lin Tianhao opened his attribute panel.

Nickname: Snow Emperor.

Level: 20 (Pending Job Change).

Class: Archer.

HP: 351w / 351w.

MP: 450 / 450.

Attack: 2129. Magic Power: 5.

Armor: 3. Magic Resistance: 1.

Attack Speed: 12.15. Movement Speed: 14.3.

Armor Penetration: 0%. Magic Penetration: 0%.

Special Attributes: Lifesteal +5%, Critical Hit +55%.

Free Attributes: 1000.

Luck: Hidden.

Guild: Lone Snow Guild (6 stars).

Talent: Hand of Divine Punishment (Transcendent).

Mark: Godslayer.

Title: Novice Village Friendship Home.

Skills: Rapid Shot (5 stars), Basic Attack Amplification (5 stars), Leaping Lightning (5 stars), Withered Wood Spring (4 stars), Resurrection (5 stars), Invincible Golden Body (1 star), Death Reincarnation (2 stars), Spatial Blink (1 star), Bloodthirsty Dragon Armor (4 stars), Xuanbing Wings (1 star), Eyes of Ice (1 star), Dual True Damage (Cannot be upgraded), Resurrection in Place (Cannot be upgraded).

Equipment: Nine Union Longbow (Gold), Bloodthirsty Necklace (Special), Purification Jade Pendant (Special), Immaculate Eye (Special), Book of Life and Death (God-given), Cold Ice Order (Special), Tears of the Goddess of Life (Special).

Because of his performance in the Snow Corpse Ruins this time.

Lin Tianhao's major skills have been improved.

Besides.

Lin Tianhao's guild has been upgraded from five stars to six stars.

Don't think it's a pitfall that it only increased by one star after clearing such a difficult dungeon.

On the contrary.

Guild star upgrades are extremely difficult.

The contribution value of a guild does not lie in the guild leader alone, all guild members can obtain contribution value.

In the later stages of the game, it is very difficult for those guilds with hundreds of thousands or even millions of players to upgrade stars.

Because the guild star upgrade is too great.

It is similar to Lin Tianhao's guild upgrading from five stars to six stars, this time the gain is omnipotent lifesteal +5%.

Omnipotent lifesteal +5%.

If it is placed on a single player, this attribute bonus is a bit ordinary.

But what if a guild, hundreds of thousands, or even millions of players get such a boost?

This is a quantitative change that produces a qualitative change.

Moreover.

This omnipotent lifesteal +5% is very useful for Lin Tianhao.

His current health is high enough, but his double resistance is too low.

When encountering those more fierce opponents, it is still possible to lose blood crazily.

But as long as the lifesteal is fast enough, no one can threaten him.

Walking out of the palace.

Lin Tianhao now has no red name value.

Next.

He should think of a way to get that archer's god-level hidden class.

Actually, before that.

Lin Tianhao also considered that if there is a Transcendent talent, then there may also be a Transcendent hidden class.

Is it possible for him to drag it on and see if he can get a Transcendent hidden class later.

But in the end, he gave up.

Without a guide, it would be more difficult than ascending to the sky to trigger such a Transcendent hidden class by himself.

Bet on luck?

Lin Tianhao didn't think it would work.

After all, judging from the number of times his Death Reincarnation has been triggered, his luck is not very good.
