

O games 1311

Chapter 1311 Anna Ziling's revenge!

"He is a mechanical object, not a mechanical life. The resurrection coin is useless."

The Great Sage Qingtian smiled and said:

"If you are willing to stay here, I can consider resurrecting him."

Lin Tianhao narrowed his eyes slightly. This Great Sage Qingtian could resurrect the Black Devil.

The Dark Magic is useful to him, but he is not going to compromise for the Dark Magic.

"Thank you for your kindness. I have no intention of staying here for the time being."

That's it.

Lin Tianhao's eyes fell on Hei Xiaomeng and said:

"Thank you anyway, take care of yourself."

Hei Xiaomeng nodded and said:

"I can feel that Senior Qingtian has no ill will towards me, so you don't have to worry about me."

"it is good."

Lin Tianhao called Taoist Priest Ye Xin and left together.

When passing by the building outside, the old man who had played chess with himself before stood at the window.

He stared at Lin Tianhao and shouted:

"Why did that girl named Anna Ziling say that you killed her entire family."

Lin Tianhao did not deny it and nodded:

"has a problem."

The old man smiled and said, "No problem, but she made an offer that I couldn't refuse. She asked me to give you two chess pieces."

Lin Tianhao frowned slightly. He and Anna Ziling did not have a good relationship. How could Anna Ziling ask this old man to give her such good things?

Just as Lin Tianhao was thinking this, two chess pieces, one black and one white, flew out of the old man's hand.

The chess piece paused noticeably when it touched the window.

Lin Tianhao's body was instantly covered with dragon scales, and his intuition told Lin Tianhao.

These two chess pieces are extremely dangerous. If he cannot avoid them, he will probably suffer serious damage.

But the moment the two chess pieces passed through the window, they disappeared.

Before Lin Tianhao could react, the two chess pieces, one black and one white, hit Lin Tianhao's chest.

"All right."

The old man's voice rang out, "Anna Ziling, remember what you promised me."

Anna Ziling's figure appeared at the window. She stared at Lin Tianhao with resentment in her eyes and a smug smile on her face.

"Hahaha, Xue Di, I don't have the ability to deal with you here, but I have you."

"The pain you inflicted on our Anna family, I will now repay you a hundredfold, a thousandfold!!"

Lin Tianhao's face darkened slightly. He could feel that after the two chess pieces, one black and one white, flew into his body, the Qi and blood in his body began to reverse, and the flow of his internal energy also began to reverse.

All things that were circulating forward began to circulate in reverse at this time.

"puff--"

Lin Tianhao spat out a mouthful of blood, and the intense pain made cold sweat break out on his forehead.

"You won't be killed quickly, but you will be tortured all the time, and eventually your internal organs will turn into minced meat and die."

Anna Ziling had a smug smile on her face.

"Next, enjoy the pain!!"

Anna Ziling was very proud, her face full of mockery.

"puff--"

Lin Tianhao spat out blood again.

The flames covering the body also disappeared.

"Senior Ambition, cover my entire body with the power of thunder!!"

Without the protection of the flames, Lin Tianhao instantly felt his emotions were somewhat out of control.

and.

Lin Tianhao has already thought of a way to break the impasse.

That is... Copper Skin and Iron Bones!!

Thunder covered Lin Tianhao's body. Under the attack of thunder, Lin Tianhao's iron skin and bones began to improve rapidly.

The qi and blood flowed backwards, and the internal strength was reversed, which caused considerable damage to Lin Tianhao's body.

Double damage both inside and outside the body.

This allowed Lin Tianhao's proficiency in the Iron Skin and Bone skill to rapidly improve.

An extraordinary minute!

The Copper Skin and Iron Bones was successfully upgraded to two stars.

With a body of steel and iron, Lin Tianhao, a two-star, could clearly feel that the pain he suffered was alleviated a lot.

at the same time.

Lin Tianhao also discovered a problem. After reaching the second star level of Iron Skin and Bone, the speed at which his proficiency improved significantly decreased.

It took less than a minute to increase my proficiency by 100 points.

But now, three minutes have passed and the proficiency has only increased by 50!

This speed of improvement made Lin Tianhao a little disappointed.

mainly.

The pain lessened, but it was still very painful.

Even such pain made it difficult for Lin Tianhao to move.

"Xuedi, are you okay?"

The ambitious Taoist priest was very worried, as Lin Tianhao's condition was very abnormal at the moment.

"good?"

Anna Ziling sneered, "His whole body is in turmoil, his qi and blood are flowing backwards, and the fact that he is not dead is already a sign of his strong physique."

Hear this.

The ambitious Taoist's face changed drastically, and he clasped his hands together, trying to help Lin Tianhao.

But his methods were of no avail.

"Haha, don't waste your energy. He will definitely die. No one can save him."

"Oh....."

"By the way, let me remind you that in his current state, resurrecting him is useless."

Lin Tianhao snorted coldly and scolded:

"I may disappoint you, but I'm fine now!!"

Anna Ziling sneered and said:

"Xue Di, you really like to brag. You are fine now, so why don't you stand up!!"

Lin Tianhao gritted his teeth, forced himself to stand up slowly.

"Snow Emperor!!"

Taoist Priest Ambitious saw that Lin Tianhao was in a very bad condition and spoke up immediately.

"Don't act on impulse. I'll take you away first."

Lin Tianhao took a deep breath. He was indeed feeling very uncomfortable now, but he could still hold on.

especially.

When he just stood up, the speed at which his proficiency in Copper Skin and Iron Bones improved a little faster.

The ambitious Taoist priest carried Lin Tianhao on his back and walked outside.

When Lin Tianhao, Taoist Master Ye Xin, Corpse Ancestor Tianyue, and Venerable Dragon and Tiger met up, they were both shocked.

"What's going on? Where's Hei Xiaomeng? And what's happening with Xue Di..."

While talking, the Dragon and Tiger Venerables and the others exchanged secret codes.

They still have this caution.

"In the insane asylum, we met a powerful demon who called himself the Great Sage Qingtian. He kept Hei Xiaomeng by his side."

"Xue Di was injured by an old man. Now the yin and yang of his body are reversed, and his qi and blood are flowing backwards. If this problem is not resolved, he will surely die!!"

Taoist Priest Motivation briefly explained the situation, which caused the faces of several people present to change suddenly.

Lin Tianhao waved his hand and said:

"It's okay, I can still handle it."

The ambitious Taoist stared at Lin Tianhao and asked:

"Xue Di, this is not the time to joke. The old man said that even death cannot be resolved. With our abilities, we cannot resolve it either."

"If death really can't be resolved, then I might have to rely on resurrection coins to hold on in the future."

Lin Tianhao's mouth twitched, and he looked at the ambitious Taoist priest and said:

"Senior Ambition, why don't you believe what I say?"

"I can really handle it."

Lin Tianhao's iron body was about to be upgraded to three stars.

According to the current progress, in fifteen minutes at most, Lin Tianhao's iron body will be able to reach three stars.

With the improvement brought by the upgrade to Iron Skin and Bone, Lin Tianhao's physique is fully capable of withstanding the pain brought by the reversal of yin and yang.

Chapter 1312 3-star Iron Skin and Bones!

Time flies.

Lin Tianhao's iron body was finally upgraded to three stars.

When Copper Skin and Iron Bones reached three stars, the pain in Lin Tianhao's body was obviously alleviated.

It was difficult for him to stand up before, but now he can walk normally.

just.

Because of the reversal of yin and yang and the reverse flow of qi and blood, he is now unable to mobilize the internal energy in his body, and is unable to use attacks such as Dragon Flame.

The physical enhancement of the copper skin and iron bones made it completely impossible for Lin Tianhao to fight with his physical body.

and.

When the Copper Skin and Iron Bones reached three stars, the corresponding magical power grade also reached three stars.

This makes Lin Tianhao's physical defense stronger.

If the body is covered with dragon scales, Lin Tianhao's physical defense is so strong that even the ambitious Taoist's thunder would find it difficult to break through the defense.

"How about it?"

Seeing that Lin Tianhao had eased up, the ambitious Taoist asked again.

Lin Tianhao smiled and said, "Don't worry, you won't die."

"I just said, I can handle it!"

That's it.

Lin Tianhao looked at the ambitious Taoist priest and said, "I want you to attack me. I need to improve my own physique by enduring the attack."

The ambitious Taoist was a little surprised, but didn't say much.

Because he had previously covered Lin Tianhao's entire body with the power of thunder.

The result was that no substantial harm was caused to Lin Tianhao.

Now Lin Tianhao's Iron Skin and Bones have reached three stars. To upgrade to four stars, he needs to have a proficiency of 10,000.

And now.

Along with the improvement of his iron bones, the reversal of yin and yang and the reversal of qi and blood brought too little increase in Lin Tianhao's proficiency.

At this rate, it would be difficult for his iron body to be upgraded to four stars in a few months.

"Rumble--"

The ambitious Taoist priest controlled the thunder and struck Lin Tianhao.

"Too weak, not enough!!"

Lin Tianhao frowned.

This ambitious Taoist priest obviously controlled the power, and it was only slightly stronger than the thunder that covered Lin Tianhao's whole body before.

"Rumble--"

The thunder released from the hands of the ambitious Taoist became stronger, and thunder exploded on Lin Tianhao's body, but it could not leave any trace on Lin Tianhao.

"not enough!!"

Lin Tianhao could see that his proficiency in the Iron Skin and Bone technique had improved, but it was still too slow.

The ambitious Taoist priest didn't waste any words. He raised his hands and struck Lin Tianhao with thunder.

"Boom boom boom——"

The thunder bombarded Lin Tianhao madly, and finally caused damage to Lin Tianhao's body.

"hiss....."

Venerable Longhu couldn't help but gasp.

"The Snow Emperor's physique is so terrifying!!"

The ambitious Taoist has now used at least 70% of his thunder power! !

But 70% of the thunder power could only barely cause damage to Lin Tianhao's body.

"He hasn't used the dragon scales yet. If he covers his entire body with dragon scales and stands still, even the ambitious Taoist priest won't be able to do anything to him."

Just think about it.

Even the Corpse Ancestor Tianyue felt a chill.

He didn't know what had happened, Lin Tianhao's physique had reached this level.

"Could it be that reversing yin and yang and causing the reverse flow of qi and blood can have such benefits?" Corpse Ancestor Tianyue was a little suspicious.

The Dragon Tiger Venerable shook his head and said:

"Not too possible."

"Could it be that the power of his dragon heritage has not yet been consumed, and as his dragon bloodline continues to awaken, his physique is also constantly strengthening?"

Corpse Ancestor Tianyue and Venerable Longhu didn't know the reason, and the ambitious Taoist was also very frightened at this time.

Before coming to Mo Yuan, Lin Tianhao was just a little Karami in front of him.

But now.

Lin Tianhao was able to withstand this level of attack just by standing still.

To know.

He also made considerable progress in Mo Yuan.

The gap is really too big.

however.

How could he know?

After Lin Tianhao's iron-skinned body was upgraded twice, his physical defense increased by hundreds of times.

This kind of terrifying increase in defense is quite terrifying even if Lin Tianhao is just an ordinary person.

This is the strength of Copper Skin and Iron Bones. With each star upgrade, the grade of the magical power will also increase! !

This increase is too strong!

“Be stronger!!”

Lin Tianhao let out a low roar, but he still did not use the dragon scales.

Because what he needs is to endure the harm.

A gleam of light flashed in the eyes of the ambitious Taoist priest, and the strength in his body surged out again.

A large amount of thunder poured down on Lin Tianhao.

This time.

The ambitious Taoist priest used 90% of his strength.

Lin Tianhao's skin began to turn black, and his flesh and blood began to suffer damage. The thunder paralyzed his entire body, traveling through his internal organs and meridians.

While causing harm to Lin Tianhao, it was also tempering Lin Tianhao's body.

But it lasted for five minutes.

The ambitious Taoist priest had consumed too much internal energy and tiny beads of sweat appeared on his forehead.

But Lin Tianhao still felt it was not enough.

"No, I can't stand it anymore!"

The ambitious Taoist priest stopped practicing immediately, as nearly 70% of his internal energy had been consumed.

If he continues to consume so much energy, he will collapse.

Lin Tianhao took a look at the current condition of his iron skin and bones, and couldn't help but twitch his mouth.

Skin of Copper and Bones of Iron: A third-grade magical power.

Effect: Improve the defensive power of your muscles, bones and skin, and significantly increase your ability to withstand blows.

Consumption: None.

Cooling: None.

Proficiency: 299/10000 (The proficiency is calculated based on the attacks taken. When proficiency is improved, in addition to the star level, the grade of the magical power will also be improved. The grade of the magical power is equivalent to the star level.)

This proficiency improvement is too little! !

His Iron Skin and Bones were upgraded to a higher star, his defense increased, but his damage was not enough, so his proficiency could not be improved.

The ambitious Taoist priest had tried so hard just now, but it only increased his proficiency by more than 200.

Some proficiency is caused by the reversal of yin and yang and the reverse flow of qi and blood.

This.....

The ambitious Taoist priest had to be exhausted thirty or forty times before he could make another step forward.

This.....

It is too difficult.

"Corpse Ancestor Tianyue, how about you give it a try?"

Lin Tianhao wanted to try whether this flesh-and-blood attack would increase his proficiency.

"Use your fist." Lin Tianhao said.

Corpse Ancestor Tianyue was eager to try. She had thin arms and legs, but how strong she was? Only he and those who had been beaten by her knew.

"Bam—"

The corpse ancestor Tianyue didn't do anything fancy and punched Lin Tianhao in the chest.

The powerful impact caused Lin Tianhao's body to retreat uncontrollably.

Lin Tianhao's retrograde blood and energy rolled again. Although the power of the corpse ancestor Tianyue did not break the defense of his body.

But the impact of the force shook his internal organs.

The proficiency level obviously increased by seventeen points.

The power of a punch is so terrifying!!

"Come again!!"

Lin Tianhao stepped forward and faced the Corpse Ancestor Tianyue.

"interesting."

Chapter 1313 Mo Yuan's 8th level!

Corpse Ancestor Tianyue moved his wrist, turned around and kicked Lin Tianhao in the chest.

"Bam—"

There was another muffled sound, and Lin Tianhao was kicked out.

The Copper Skin and Iron Bones enhanced the defensive power of Lin Tianhao's muscles, bones and skin, but did not bring much increase to Lin Tianhao's own strength.

therefore.

This kick from Corpse Ancestor Tianyue was still enough to send Lin Tianhao flying.

After spinning two and a half circles in the air, Lin Tianhao finally fell to the ground and slid for more than thirty meters on the ground before stopping.

"No, this consumption is like a swamp and I can't exert my full strength." said Corpse Ancestor Tianyue.

Lin Tianhao nodded.

The Mad King has been dealt with, and they can go to the eighth floor of Mo Yuan.

Back in the mental hospital, the ambitious Taoist priest would strike Lin Tianhao and his companions with thunder every once in a while.

This can prevent Lin Tianhao and others from becoming possessed by demons.

Back to the building where Anna Ziling was, when Anna Ziling saw Lin Tianhao walking like a normal person, a look of astonishment appeared on her face.

"how is this possible?"

"You have resolved the power of the Yin and Yang chess pieces?"

Lin Tianhao smiled noncommittally and said:

"Is your so-called Yin-Yang chess power very strong?"

"In my opinion, that's all."

The old man also looked at Lin Tianhao in surprise and doubt at this time.

"how come....."

"My Yin-Yang chess power is clearly still in your body, how come you are not affected?"

That's it.

The old man seemed to have discovered something and said:

"No, you are still under the influence of the power of Yin and Yang. You can't use your fire power."

"Although you appear to be fine on the surface, your aura is clearly not right, and your qi and blood are still flowing backwards."

Lin Tianhao raised his eyebrows and smiled:

"You are right, but the power of your Yin and Yang chess pieces is still too weak to threaten me."

"This is impossible!!"

The old man's face was filled with astonishment and disbelief.

"My Yin and Yang chess power can reverse Yin and Yang and reverse the aura. There is no way you can be okay."

Lin Tianhao smiled and said:

"But you also saw that although I can't dissolve your Yin and Yang chess power for the time being, your power can't affect me either."

Hear this.

The old man became more and more surprised.

He looked at Lin Tianhao in disbelief and gritted his teeth:

"What kind of monster are you? The inversion of yin and yang and the reverse flow of qi and blood have not caused any substantial harm to you."

Lin Tianhao waved his hand and said:

"Why do I call you a monster?"

"Okay, I don't want to waste time talking to you. I have something else to do, so I'll leave first."

The words fell.

Lin Tianhao and Taoist Priest Mo Xin walked through the houses.

This time.

Lin Tianhao and Taoist Priest Ye Xin never met the Monkey King again, nor did they see Hei Xiaomeng.

Everything seemed to have returned to calm.

The Great Sage Qing Tian had said before that three hours after killing the Mad King, one could pass through these houses and reach the eighth floor of Mo Yuan.

Based on previous experience, there is a possibility of encountering danger every time you go down a level.

After passing all the houses, Lin Tianhao found that the swamp under his feet became thinner.

If he continued walking now, he would probably sink in a short while.

"From the seventh floor to the eighth floor, we don't have to sink into this swamp, do we?" Corpse Ancestor Tianyue frowned and spoke.

These swamps were too dirty for her.

She wasn't a germaphobe, but being stuck in a swamp must not be a pleasant feeling.

"That's it from the looks of it."

Lin Tianhao spoke calmly, he didn't care.

The only thing I am worried about is the passage from the seventh floor to the eighth floor. Will there be any experienced babies there?

Although she did not actually fight with the Mad King, the strength of the Split-Head Snake Woman should not be underestimated.

If you are injured in a muddy swamp, it will be difficult to run.

But Lin Tianhao had reached three stars with his strong body and steel skin, so he was naturally not afraid.

"Down!"

Taoist Priest Mo Xin frowned and said, "Now that we've come this far, we no longer have any choice."

The words fell.

The ambitious Taoist priest took the initiative to walk in front.

Lin Tianhao, Corpse Ancestor Tianyue, and Dragon and Tiger Venerable followed closely behind.

Soon.

The bodies of several people began to sink.

"This swamp is poisonous!!"

The ambitious Taoist frowned and spoke.

Lin Tianhao also felt it.

While enduring the toxins in the swamp, his proficiency in the Iron Skin and Iron Bones improved.

However, the improvement is very slight.

I just don't know if his proficiency can be increased by sinking deeper into the swamp.

The bodies of several people were quickly submerged in the swamp, and the speed of descent did not increase much.

A feeling of suffocation came.

Lin Tianhao didn't have any big problems.

For those at this level, holding their breath for dozens of minutes is no problem.

The ambitious Taoist priest was surrounded by golden light, which increased his diving speed.

Lin Tianhao and his companions did the same, accelerating as they rushed towards the bottom of the swamp.

After diving in the swamp for about five minutes, as expected, a monster appeared.

Because in the swamp, the visibility is basically zero.

It is entirely dependent on the perception that has been compressed to the extreme to sense the possible dangers.

The body of the ambitious Taoist priest shook with thunder, and the monster seemed to be frightened and fled in panic.

This doesn't look like an experience baby among the demonized creatures.

The demonized creatures that Lin Tianhao had encountered before had very low IQs and attacked mindlessly. They basically did not run away when attacked.

The monster in this swamp has already known to flee for its life.

It seems that it is because the ambitious Taoist priest's thunder has been released continuously.

No monster attacked them again.

As for Lin Tianhao's proficiency in the Iron Skin and Bone technique, it did improve after he dived to a certain level.

However, the improvement is still very slight and cannot help Lin Tianhao improve quickly.

After half an hour.

Lin Tianhao and his companions only felt that the swamp was gone under their feet, and their bodies fell down.

"Bang bang bang-"

Several people fell to the ground one after another.

Just like before under the Black Pool, this was a huge circular stone chamber with a swamp above it, blocked by an invisible force that prevented the swamp in front from flowing down.

Even on the bodies of Lin Tianhao and the others, there was no trace of mud.

However, due to the previous double attack of fire and thunder, Lin Tianhao is now left with only a pair of shorts.

The Ambitious Taoist Priest and the Dragon-Tiger Venerable didn't care, and the Corpse Ancestor Tianyue cared even less.

But it's okay.

Before, when he was in the Dragon Kingdom, Lin Tianhao got some clothes from Zhou Xiaofeng.

Now is the perfect time to change it.

When Lin Tianhao puts on these ancient clothes, he actually looks like a chivalrous hero.

However, now no one is in the mood to pay attention to Lin Tianhao's situation, because there are three more people in this stone chamber!

One of them was the one Lin Tianhao had met before.

The mountain people Chulandu.

The other two men, one was tall and muscular, and his whole body exuded a strong sense of oppression.

Chapter 1314: The ambition is a bit low!

As for the third person, she was a nun dressed simply.

She was wearing a grey Taoist robe and looked very ordinary. If this wasn't the eighth floor of Mo Yuan, she would have looked so ordinary.

If placed in a crowd of people, it would be really inconspicuous.

"You finally came down."

Chu Landu slowly stood up, his eyes fell on Lin Tianhao and the others.

"Ambition, the higher-ups should have communicated with you, and we will cooperate from now on."

The ambitious Taoist nodded slightly and said:

"There is absolutely no problem with cooperation, except that these two are."

The ambitious Taoist looked at the burly man.

"Buffalo." The sturdy man said lightly. You could tell from the name that it didn't sound like his real name.

"Tarzan the Buffalo?"

Corpse Ancestor Tianyue looked at the burly man with some surprise.

The burly man nodded slightly and said:

"Corpse Ancestor Tianyue, I know you."

When the ambitious Taoist heard the words "Taishan Water Buffalo", he couldn't help but be slightly surprised.

I can tell.

He had also heard of the name of this Taishan Buffalo.

"Where's that one?"

The ambitious Taoist priest looked at the very ordinary nun.

He knew most of the masters of their Taoist sect.

Those who don't know are basically too weak and not worthy of him knowing their names.

"We are all from the same sect, you can just call me Uncle Ku Sui."

Good guy!

Who on earth is this nun? She actually asked the ambitious Taoist priest to call her uncle-master.

Lin Tianhao had always thought that the ambitious Taoist priest should be of a very high generation.

But now it seems that the ambitious Taoist's seniority is not only not high, but a bit low.

"Withered Years..."

The ambitious Taoist was also stunned for a moment, then his eyes widened and a look of horror appeared on his face.

"Aren't you... ascended?"

"Besides...you don't look like this."

"The ascension failed." Nun Ku Sui smiled bitterly.

"I was so stupid at first. I thought that with my little power, I could ascend successfully."

"As a result, he was completely unable to withstand the thunder tribulation of ascension."

"I am lucky and have a deep foundation, so I have the opportunity to seize another body."

"you....."

The ambitious Taoist priest hesitated to speak. People in the Taoist sect still had some resistance to the idea of possessing another's body.

"There's nothing I can do about it. I've already made peace with all the relatives and friends of this body."

"I didn't want to die. At that time, I had no choice."

The ambitious Taoist bowed and said:

"I'm not in a position to say anything because I would probably have done the same thing if I were in the same situation."

Lin Tianhao couldn't say anything more, it was not even possible for him.

If he encounters such a situation, he will definitely do so.

Everyone has the right to pursue life. He feels that killing for survival in a life-and-death crisis is cruel, but not wrong.

Life is above everything!!

After the three people introduced themselves, Taoist Priest Motivation also introduced Lin Tianhao, Corpse Ancestor Tianyue and Dragon and Tiger Venerable.

This is simply knowing each other's name.

"Now, I will tell you briefly about the situation on the eighth floor."

"We arrived at the eighth floor at different times, and we have all tested each other's identities one after another. You can rest assured about this."

Lin Tianhao asked:

"Excuse me, how do you test your identity?"

"Peek into the power of the soul."

Chu Landu said calmly, "Copycats don't have souls. As long as you can peek into the other person's soul, you can use the soul to determine the other person's identity."

Hear this.

Lin Tianhao smiled bitterly.

really!

The way the big guys test their identities is a little different from theirs.

"The situation on the eighth floor of Moyuan is similar to the ones above. There are no monsters here anymore, but people. Even the small monsters are people."

Chu Landu spoke directly.

"Therefore, the people here are intelligent. In addition, most of them belong to the Palace of the Solitary King, and they have relatively good collaborative combat capabilities."

"And they are more orthodox professionals. They have the skills and equipment that are more common in Ragnarok. You can think of them as human copies in Ragnarok."

The ambitious Taoist nodded slightly, and Chu Landu continued:

"We haven't fought with the lonely king yet. You should know that this Moyuan has multiple spaces. The multiple spaces on the eighth floor should have a common connection, which is the lonely king's palace."

"The lonely palace?"

"Ah."

Chu Landu nodded, "It's an extremely large palace. We haven't been there yet."

The ambitious Taoist said directly:

"When we were on the fifth level of Mo Yuan, we also encountered a lonely king's palace and even got a lonely king's sword."

"The Lonely King's Palace? The Lonely King's Sword?"

This news surprised Chu Landu, Taishan Shuiniu and others.

"In other words, this Mo Yuan has more than one Lonely King's Palace?"

Lin Tianhao frowned, "Maybe, but it is also possible that the two Lonely King Palaces are connected."

Chu Landu nodded, "Before exploration, everything is possible."

"What we have learned so far is that in each space, there are one thousand demonized guards from the Lonely King's Palace."

"There are also a small number of demonized guard captains, commanders, etc."

"The strength of these demonized guards themselves is not very strong, but their equipment has a significant effect on their strength."

Lin Tianhao thought for a moment and asked:

"Are there people on this eighth floor besides the Lonely King's Palace?"

Chu Landu nodded and said:

"Besides us, there is another force on the eighth floor. They call themselves rebels and are resisting the rule of the lonely king."

"It's just that these rebels are few in number and average in strength, so they can't help us much, and they don't have a strong motivation to cooperate with us."

After listening to what Chu Landu said, Lin Tianhao and the others had a certain understanding of the eighth level of Mo Yuan.

"According to our current exploration results, we can bypass the lonely king and go directly to the ninth floor, but we didn't do that."

"Because this is an opportunity. If we can get rid of all the people in the Lonely King's Palace, the enlightenment we will gain will be very great."

"This will be of great help to us as we head to the ninth floor of Mo Yuan."

Lin Tianhao pondered for a while and said:

"With your strength, you should have killed quite a few soldiers."

Chu Landu shook his head and said:

"Not much. We were more exploring before."

"These soldiers of the Lonely King's Palace have strong coordinated combat and unknown communication capabilities."

"If we attack the demonized guards at one point, the demonized guards at other points will come to support us from other places. If we can stop them, the demonized commander will come."

"So, once a large-scale battle develops, we will all be in danger."

Lin Tianhao raised his eyebrows. This already had a bit of the flavor of a territorial war.

Territory wars usually involve soldiers recruited by military nests, so the attacking side usually has fewer people.

Chapter 1315: Taishan Buffalo, Iron Skin and Iron Bones 4 Stars!

"You wait for me here. But what's the strategy?" Lin Tianhao asked.

Chu Landu smiled and said:

"I've thought about some strategies, but I still want to hear what you, the gaming master, have to say."

Lin Tianhao smiled helplessly, "What kind of gaming master? I just have better talent."

The ambitious Taoist waved his hand and said:

"Xue Di, stop joking and tell me about your experience."

Lin Tianhao nodded and said:

"Many people have already established territories in Ragnarok. You should know that every territory has a soldier's nest."

"You can use resources to recruit soldiers from the Soldier's Nest to guard the territory."

"You can think of this Lonely King's Palace as the territory of Ragnarok. There are corresponding commanders in the territory. Our enemies are not these demonized guards, but the commanders behind them."

Taishan Buffalo nodded and said:

"You mean, a decapitation operation?"

"It would be best if we could complete the beheading, and it would be best if two people could complete the beheading."

Hear this.

Taishan Buffalo shook his head and said very seriously: "This is impossible."

"The mad king above is already so strong, this lonely king is even stronger, and he has subordinates."

Lin Tianhao nodded and said seriously:

"so."

"That's the problem."

"Generally, in this situation, it is a seesaw battle. One group will attack first to attract troops, the second group will provide cover, and the third group will be responsible for harvesting demonized soldiers from other places, thereby reducing the number of demonized soldiers."

"To put it simply, it is a tactic of feinting to the east and attacking in the west, using consumption tactics."

That's it.

Lin Tianhao changed his subject and continued:

"Our biggest problem in Mo Yuan is communication."

"If effective communication fails, the third group responsible for the harvesting of this strategy may be handed over."

The nun Kusui thought for a moment and said:

"In fact, I think we don't need to complicate simple things."

"We have more people now, so we can just attack and kill as many as we can. When they come, we will retreat."

Lin Tianhao nodded with a smile and said:

"I agree."

Hear this.

The others were stunned. Did they agree with it? Wasn't it too easy to agree?

"I can take the damage, and you guys are responsible for output. If nothing goes wrong, I should be able to block everyone in one direction."

Tarzan Buffalo was slightly surprised.

"You will be beaten to death. The attacks of these demonized guards contain highly penetrating toxins."

"It doesn't matter."

Lin Tianhao didn't care, "I can strengthen his defense ability by taking the damage."

"If possible, you can attack me first, and then I can improve my defense capabilities to a higher level. That would be safer."

If the Copper Skin and Iron Bones could reach four stars, then Lin Tianhao's defense would basically be able to withstand the thunder of the ambitious Taoist priest without any damage.

Even the attack of Corpse Ancestor Tianyue could not pose a threat to Lin Tianhao.

"I want to give it a try."

Taishan Buffalo clenched his fists, looking eager to try.

"Buffalo, be gentle. Although he has dragon blood, he is still a human." Chu Landu said.

"clear."

The words fell.

Taishan Buffalo raised his hand and punched Lin Tianhao in the chest.

"Bam—"

The powerful force knocked Lin Tianhao away.

"It doesn't seem to work."

Lin Tianhao, who hit the wall, only felt a surge of blood in his body, and his proficiency in the Copper Skin and Iron Bones increased by twenty-three points.

"Not bad, it can be a little stronger, and the attack frequency can be faster."

Taishan Buffalo was slightly surprised to see that Lin Tianhao was not hurt at all.

"Hehe, it seems like you do have some skills."

The words fell.

Taishan Buffalo rushed towards Lin Tianhao, and his fists fell on Lin Tianhao like raindrops.

The stone wall behind Lin Tianhao was shattered by this violent attack.

But in just a moment, Lin Tianhao's body was embedded in the stone wall.

The attack frequency of Taishan Buffalo is very fast, but the power of each punch is also quite strong.

Every punch can increase Lin Tianhao's proficiency by more than twenty points.

At this rate, it would take less than 500 punches for his iron body to reach four stars.

"Bang bang bang-"

Punch after punch, blood was already flowing from the corner of Lin Tianhao's mouth.

Lin Tianhao was already suffering from the retrograde flow of qi and blood, and was under such intensive attacks, so it was already very good that he could hold on.

"almost."

Chu Landu spoke.

"Don't stop, try again." Lin Tianhao's proficiency in the Iron Skin and Bone Skill has exceeded five thousand.

How can we stop at this time?

"You were beaten to the point of vomiting blood." The ambitious Taoist said helplessly.

"It's useless if you don't get hurt. Only when you get hurt can you improve."

"You boy."

Taishan Buffalo nodded and said with a smile:

"I will satisfy you today. You can be beaten as long as you want."

The words fell.

Tarzan Buffalo's fists fell madly again.

This time, Lin Tianhao persisted for another minute, and his proficiency was finally about to break through ten thousand.

After another heavy punch from Taishan Buffalo, Lin Tianhao's iron body successfully broke through to four stars.

The four-star Iron Skin faced the same attack again, just like before, and his increased proficiency dropped significantly.

A punch like the Taishan Buffalo can only increase Lin Tianhao's proficiency by two or three points at a time.

"Not enough, more force!"

Lin Tianhao also wanted to see what the limits of the Taishan Buffalo were.

"Interesting. Your defense seems to have really gotten stronger."

A faint yellow halo enveloped the arms of Taishan Buffalo, and the whole person's aura suddenly rose.

"The Xuanhuang Qi?" The ambitious Taoist priest asked in surprise.

"Bang bang bang-"

With the blessing of Xuanhuang Qi, the Taishan Buffalo's fist power was enhanced again.

But one punch can only increase Lin Tianhao's proficiency by eleven or twelve points.

Now if he wants to take his iron body to the next level, he needs 100,000 proficiency points.

At this speed, he would need about nine thousand punches before he could break through.

"It's still not enough!!"

Taishan Buffalo was also a little surprised.

"Can you bear it like this?"

He knew very well how powerful his fist, which was blessed with the Xuanhuang Qi, was.

But Lin Tianhao could still bear it, and even said it was not enough.

"do not fight."

Taishan Water Buffalo waved his hands and said, "Your body is so strong that even if I collapse from exhaustion, I still cannot satisfy you."

The corner of Lin Tianhao's mouth twitched. The words of Taishan Buffalo sounded strange.

"How about I give it a try?"

Nun Ku Sui smiled slightly and walked towards Lin Tianhao.

Lin Tianhao nodded repeatedly and said:

"Okay, come on, but don't use your killer moves, just use something slightly stronger than Senior Buffalo's."

The Taoist nun Kusui smiled and said:

"It's probably incomparable. My attack method is quite different from his."

Chapter 1316 Take turns to attack and improve your proficiency in magical powers!

When the words fell.

Nun Ku Sui has already slapped out with her hand.

Her palm seemed soft and didn't seem to have much power.

But when the palm of Taoist nun Ku Sui landed on Lin Tianhao's chest, Lin Tianhao only felt a soft force flowing towards his limbs and bones.

In a flash.

Lin Tianhao actually felt as if he had been toiling for seven days and seven nights. His body was exhausted and he could hardly muster any strength.

Not only that.

There was also a severe pain in the muscles and bones.

The proficiency of Copper Skin and Iron Bones began to increase, but the speed was still not too fast.

It started with thirty points of proficiency, then twenty, then ten, and finally only two.

A palm.

It increased Lin Tianhao's proficiency by more than 60 points, which is a pretty good increase.

"Can you use this attack at a high frequency?"

After his Iron Skin and Bones reached four stars, one palm could increase his proficiency by more than sixty points, which was already quite good.

But when Nun Kusui heard what Lin Tianhao said, she shook her head and said:

"I just touched your foundation with this palm. Now I see that your foundation is not bad."

Hear this.

Lin Tianhao's eyes lit up, "So, you have a more powerful method?"

Nun Ku Sui did not answer, but raised her palm again and slapped Lin Tianhao's chest.

"Bam—"

The power of this palm was still not strong, but after the palm landed on Lin Tianhao, a piercing pain spread across Lin Tianhao's chest.

A red palm print appeared on Lin Tianhao's chest.

Lin Tianhao only felt as if his chest was pierced by countless red-hot cow-hair needles. The severe pain made him grit his teeth.

At this moment, Lin Tianhao's iron skin and bones increased by hundreds of points.

This Taoist nun Ku Sui is indeed the uncle of Taoist Motivated. If it weren't for Lin Tianhao's iron body and bronze skin that had reached the four-star level, this palm strike would have been enough to stop Lin Tianhao from reaching the four-star level.

If it were the previous Lin Tianhao, even if he activated his dragon scales and took this palm strike, he would probably be seriously injured if not killed.

and.

The attacks of this Taoist nun Ku Sui seem to have good follow-up killing power.

After the palm strike, Lin Tianhao's proficiency would increase by dozens of points every second. This lasted for a full fifteen seconds before the speed dropped below ten points.

With just this one palm, Lin Tianhao's proficiency in the Copper Skin and Iron Bones increased by almost a thousand.

That's really good.

"This is quite powerful. You can do a few more palms." Lin Tianhao said.

Nun Ku Sui was surprised. She could see that Lin Tianhao was in pain and was really injured.

"I can't use this kind of attack multiple times in a short period of time."

"I have other means of attack, stronger ones too, but I can't attack as continuously as Tarzan the Buffalo."

"It's okay, a little bit, just a little bit."

Nun Ku Sui nodded.

Then she continued to attack.

As she said, she couldn't attack Lin Tianhao as continuously and intensely as Tarzan Buffalo.

But each of her attacks can bring Lin Tianhao more proficiency.

The most powerful palm strike even increased Lin Tianhao's proficiency by nearly 1,500 points.

To know.

Lin Tianhao's iron body has now reached four stars, and it is becoming increasingly difficult to gain proficiency.

"almost."

Nun Ku Sui took a deep breath. Her high frequency of attacks consumed a lot of her internal energy.

Lin Tianhao chuckled, "Thank you, senior."

The series of attacks just now launched by Taoist nun Ku Sui increased his proficiency by 12,000 points.

Next.

Lin Tianhao cast his expectant gaze on Chu Landu.

to be frank.

Among so many people present, Lin Tianhao has the highest expectations for Chu Landu.

After all, Chu Landu is an ancient Qigong practitioner.

If this happened now, he would definitely be a cultivator! !

Chu Landu understood Lin Tianhao's thoughts and said:

"I'll try, but I may not be able to help you improve." Chu Landu said.

Lin Tianhao nodded, "Please help me, senior."

Chu Landu clenched his sword finger and walked closer to Lin Tianhao.

"The closer the distance, the lower my consumption will be."

The words fell.

The aura around Chu Landu changed drastically in an instant.

His entire person became unfathomable. The sword winds blew over him, allowing Lin Tianhao to feel the fierce murderous intent in the sword winds, but he did not suffer the slightest harm.

With his Iron Skin and Bones reaching the fourth star, this level of damage no longer poses any threat to him.

"coming."

however.

This was not Chu Landu's real attack.

As Chu Landu finished his words, countless sword energies swept towards Lin Tianhao.

Ten, a hundred, a thousand!!

The sword energy was like water from the sky, instantly subduing Lin Tianhao.

The sword energy slashed on Lin Tianhao's body, but could not break Lin Tianhao's defense. However, the murderous aura contained in the sword energy penetrated Lin Tianhao's skin and slashed on his flesh, blood, and bones.

The sword energy wantonly destroyed Lin Tianhao's bones, flesh and blood, but because Lin Tianhao's defense was too strong, the damage caused by these sword energies to Lin Tianhao was not great.

therefore.

Lin Tianhao's proficiency in Iron Skin and Bone is also increasing very slowly.

A sword energy can only increase proficiency by two or three points.

Thousands of sword energies could only increase Lin Tianhao's proficiency by two or three thousand points.

The only thing to be thankful for is.

Chu Landu's sword energy is very fast, so Lin Tianhao's proficiency increases at a very fast rate.

The sword energy lasted for about fifteen minutes, and the proficiency that Lin Tianhao gained from Chu Landu had exceeded 20,000.

Adding in the proficiency he gained from the Taoist nun Ku Sui, Lin Tianhao still needs more than 60,000 proficiency points to reach five stars with bronze skin and iron bones.

"call--"

Chu Landu took a long breath, shook his head helplessly and said:

"Xuedi, how much do you need to improve?"

Lin Tianhao thought for a moment and said:

"Another thirty or forty thousand sword energies similar to yours will be enough."

Chu Landu nodded gently, "That's not a big problem. We'll take turns to rest and take turns to attack. I think we can help you make further progress in one day."

"When we attack the lonely king's palace, our chances of success will be better."

Look.

Chu Landu's sword energy consumed a lot when he used it in this way.

Lin Tianhao took a deep breath and said:

"I might need to recover first."

"Although I managed to withstand your successive attacks, I was seriously injured."

Lin Tianhao looked at Taoist Master Ye Xin, "Senior Ye Xin, how many big red medicines are left?"

"Five more bottles."

Lin Tianhao nodded gently, "I may need the assistance of the big red medicine."

In fact, Lin Tianhao has the blood of the dragon clan, and his self-healing ability is very strong.

But now he is infected with the power of Yin and Yang, the yin and yang of his body are reversed, and his qi and blood are flowing backwards. This causes Lin Tianhao's body to suffer damage all the time, and the self-healing ability of the dragon bloodline is also greatly reduced.

"no problem."

The ambitious Taoist priest gave all five bottles of big red medicine to Lin Tianhao without any hesitation.

Chapter 1317 The Hunt Begins: Kill the Demonic Guards!

Lin Tianhao did not expect that the ambitious Taoist priest would be so generous.

Take the big red medicine.

Lin Tianhao drank it all in one gulp.

The injuries on his body began to recover rapidly.

then.....

The effect of the big red medicine had dissipated when the injury had recovered by less than one-third.

Lin Tianhao's mouth twitched. This was a bit outrageous.

His arm had been cut off by the Monkey King before, but a bottle of big red medicine could have replaced it.

But now.

Although he was seriously injured, it shouldn't be the case that a bottle of red medicine can only restore one third of his health! !

Is it because yin and yang are reversed and qi and blood are flowing backwards?

Or maybe it's because his physique has become even stronger after he reached the fourth star level, so the effect of the big red potion has been greatly reduced.

Whatever the reason, the big red medicine only cured one-third of his injuries, that's the fact.

Judging from the current situation, he would need at least three bottles of big red medicine to fully recover from his injuries.

But now that the big red medicine has been used, what should I do next?

He still needs more than 60,000 proficiency points to upgrade his Copper Skin and Iron Bones to five stars.

Judging from the combat effectiveness displayed by Chu Landu, Taoist nun Ku Sui and others, his iron body must be at least five-star to be able to withstand their attacks.

Only when they reach five stars, will they have a better chance of winning when facing the lonely king later.

"what happened?"

The ambitious Taoist noticed that something was not right with Lin Tianhao's expression, and couldn't help but ask.

Lin Tianhao smiled bitterly and explained:

"I just took a bottle of big red medicine, but my injury has only recovered about one-third."

Hear this.

The expressions of Taoist Priest Motive and Venerable Dragon and Tiger both changed.

Chu Landu and the others didn't care too much.

"Xue Di, you were attacked by several of us in turn. Although your physique can block most of the damage, you must have suffered serious injuries."

"A bottle of big red medicine can restore one third of your injuries, which should be considered very good."

Taoist Master Mo Xin smiled bitterly and shook his head, "Senior, you may not know how strong the healing effect of this big red medicine is."

"Both Snow Queen and Blind Sword Old Man had their arms cut off before."

"A bottle of big red medicine can perfectly reconnect their arms and heal most of their injuries."

That's it.

The ambitious Taoist priest looked at Lin Tianhao again and asked in surprise:

"Do you know what's going on?"

"Could it be that because your physical strength has improved, the recovery effect of the big red medicine has decreased?"

Lin Tianhao shook his head and said helplessly:

"I'm not sure. It could be because of the reversal of yin and yang, or the reverse flow of qi and blood."

The ambitious Taoist nodded slightly, his expression somewhat solemn.

"Whatever the reason, this situation is a bit troublesome."

"Your physical defense needs to be further improved. You need to continue to withstand attacks. Based on my observation, the attacks will only be effective if they cause damage to you."

"So, this is a dead end."

"You will be injured if you are attacked. When your defense reaches a higher level, your injuries will probably be much more serious than they are now."

Lin Tianhao nodded and said helplessly:

"That's the problem."

"Now this is indeed a bit unsolvable."

"All I can think of is to kill the demonized guards first and make us stronger through enlightenment."

"I increase my defense by taking the attacks from the demonized guards, so I don't have to take the damage again."

Because if he gains proficiency from Chu Landu, Taishan Shuiniu and others, he will need to take action later to deal with those demonized guards.

"it is good."

Chu Landu nodded and said:

"Since there is no better way, this is the only way to go."

"Two hours to recover, then start the action."

Everyone nodded, and Lin Tianhao changed his clothes.

Having just been baptized by the sword energy, his clothes were quite badly damaged.

That's the bad thing about the real world: you have to change clothes all the time.

No wonder in Ragnarok, the novice equipment in the Novice Village is indestructible.

I guess the God of the Source of Tao has also considered this issue.

If even the novice equipment can be destroyed, then some people will be killed with nothing left but their underpants.

Or maybe there's not even any underwear left.

Two hours passed quickly.

What surprised Lin Tianhao was that although the yin and yang in his body were reversed and his qi and blood were flowing backwards, his dragon bloodline could still help him repair his body, but the speed was relatively slow.

If the self-healing ability of the dragon bloodline was used to repair his body, Lin Tianhao estimated that his current injuries would take about a week to heal.

If you use the big red medicine, you will need two bottles.

It works out like this.

That's three and a half days, which is equivalent to a bottle of big red medicine.

Now you can hunt down the demonized guards first, and as for what happens next, you can consider how to deal with it later.

Chu Landu, Taishan Shuiniu and others have explored many places on the eighth floor. Under their leadership, Lin Tianhao and his companions soon encountered a team of demonized guards.

Lin Tianhao threw a bomb at the scale at the corner of the corridor.

Before the bomb flew into the crowd of demonized guards, one of the demonized guards had already reacted.

He hit the bomb with the spear in his hand, trying to knock it away.

Lin Tianhao has the Mechanical Master, and the moment the spear and the bomb collided, Lin Tianhao detonated the bomb in advance.

"Boom——"

The bomb exploded, and several demonized guards nearby were blown to pieces.

Lin Tianhao took out the longbow he got from Dragon Island, raised his hand and shot an arrow.

"clang--"

The feather arrow hit the demonized soldier closest to Lin Tianhao, but Lin Tianhao's feather arrow only left a dent on the demonized soldier's armor.

Without the attribute blessing in Ragnarok, it is impossible to deal real damage, and the feather arrows can't even penetrate armor.

After realizing this, Lin Tianhao switched his weapon to a spear.

Just go straight ahead and kill him.

Although the Iron Body has not reached five stars yet, from the description of Chu Landu and the others, the strength of these demonized guards is not that strong, but the equipment they have is good.

Lin Tianhao rushed into the demonized guards, fighting with a strategy of exchanging injuries for injuries.

After the fight started, Lin Tianhao felt a little disappointed.

These ordinary demonized guards could not break his defense at all.

An attack of this level poses no threat to Lin Tianhao.

them.....

It's really too weak.

However, it is undeniable that the armor on them does have good defensive power. Lin Tianhao had to exert a lot of strength to pierce the gatekeepers' spears through their armor.

Lin Tianhao had some difficulty in killing, and the situation of the other people was not good either.

Apart from.....

Taishan Buffalo and Corpse Ancestor Tianyue.

As for the reason.

Because they don't need to break the armor of these demonized guards at all, they can kill them by simply using their powerful force to shatter their internal organs.

Chapter 1318: Being made into dumplings!

With each successive moment of enlightenment, Lin Tianhao could clearly feel his strength increasing.

But the problem is also obvious.

That is, these demonized guards cannot help him accumulate the proficiency of Iron Skin and Bones at all.

A four-star's iron skin and bones are enough to perfectly withstand the attacks of these demonized guards.

Weak, really too weak!!

If it weren't for the equipment they were wearing, it would be as easy for the people present to kill them as cutting melons and vegetables.

"Backup is coming."

"withdraw!"

Chulandu fought and retreated at the same time.

Lin Tianhao frowned. They had only killed twenty or thirty demonized guards in total and were retreating now. How long would it take to kill a thousand demonized guards?

But Lin Tianhao didn't know enough about the situation on the eighth floor, so it would be safer to listen to Chu Landu first.

A few people retreated, and these demonized guards chased after them.

Chu Landu and his companions seemed to have fully understood the terrain here. They quickly shook off these demonized guards and headed to the other side.

Lin Tianhao saw through Chu Landu's strategy, which was guerrilla warfare.

He will take the damage, and then they will try to kill the demonized guards as quickly as possible.

Then they will flee before the demonized guards form a large group, and they will be relatively safe.

What Chu Landu did next also confirmed Lin Tianhao's guess. They only stayed at each point for about five minutes before withdrawing.

Killing twenty or thirty demonized guards each time is not a large number, but the victory lies in stability.

After distance.

Chu Landu didn't switch constantly, he would take a break occasionally to recover his physical strength and internal energy.

This does not mean that you will only recover when you have consumed a lot of energy, but you should start resting after you have consumed about a quarter of your energy.

to be frank.

Chu Landu was an ancient Qi cultivator, and his strategy was so conservative that even Lin Tianhao felt it was conservative.

This approach is indeed too conservative.

But it is undeniable that this is indeed safe.

Half a day passed quickly.

Lin Tianhao, Chu Landu and his team successfully killed more than two hundred demonized guards.

This conservative guerrilla warfare approach is not very lethal and their losses are not great.

The main thing is that Lin Tianhao always takes the damage, so they are inherently invincible.

Lin Tianhao took the damage without any injury. Without a demonized leader, they would basically not be in any danger.

at this time.

Everyone gathered together, with Chu Landu having a smile on his face.

"Today we killed 232 demonized guards, and none of us were injured. Although the overall strength has not increased much, it is very stable."

The ambitious Taoist thought for a moment and said:

"Today we only encountered a demonized commander once, and we didn't fight. I don't know his strength, but there should be more demonized commanders appearing later."

Chu Landu nodded and said:

"The number of demonized commanders is very limited. Most of them are demonized guard captains. They can even hold us back a little bit with their equipment."

Lin Tianhao also encountered the demonized guard captain several times today, and his attack power was obviously enhanced.

It can help him stack up his proficiency in Iron Skin and Bones.

The stacking speed is very slow, and one attack can only add a little proficiency to Lin Tianhao.

Only by using skills can Lin Tianhao gain five or six points of proficiency.

All I can say is, it's better than nothing.

It provided little help to Lin Tianhao's star upgrade.

"Their deployment will probably change, and they may even set a trap for us."

Chu Landu said in a deep voice, "So, our offensive strategy should also change."

Lin Tianhao thought for a moment and said:

"Change space. Since there are other spaces on the eighth floor of Mo Yuan, we can just change places and do the same thing again."

"But if we continue to play like we did today, we will spend a lot of time."

Chu Landu nodded gently, "Today is our first time to work together, so we will be relatively conservative."

"Everyone take a rest first. We will continue in six hours."

Everyone's realm is not low, so they don't need to rest for too long.

just.

Before Lin Tianhao and his companions had rested for long, several feather arrows cut through the sky and flew towards them.

"Dang Dang Dang——"

Chu Landu waved his hand and slashed out several sword energies, chopping all the feather arrows into pieces.

"That's pretty impressive."

"Who are you anyway? I don't know of anyone as powerful as you among the rebels."

As the voice fell, demonic guards appeared at both ends of the stone chamber where Chu Landu and the others were.

Not only are there demonized guards, but there are also more than a dozen guard captains and two demonized commanders!!

The person who just spoke was a tall middle-aged woman.

It can be seen from her golden armor that she is also a demonized commander.

"It looks like we're being trapped." The Taishan buffalo stretched its muscles.

"I, Old Cow, don't like lengthy battles. Since you guys have come to me, let's have a good fight."

Lin Tianhao stepped out and said:

"Leave these demonized commanders to me, and you guys take care of the rest!!"

Hear this.

The tall female commander shouted angrily, "How arrogant! You want to deal with us too!!"

The words fell.

The tall female commander swung her sword and slashed towards Lin Tianhao.

Lin Tianhao didn't have a particularly good understanding of the female commander's strength, so he didn't dare to use his body to take the female commander's attack head-on.

Lin Tianhao used the gatekeeper's spear, and the spear collided with the female commander's sword. A huge force came from the sword, and Lin Tianhao's body was chopped back by the sword.

In the first round, Lin Tianhao was at a disadvantage in the contest of strength.

"I thought he was an expert, but he turned out to be just a rookie."

The tall female commander rushed over again, chopping him on the head with the big knife in her hand.

Obviously.

She discovered that Lin Tianhao was not as strong as her, so she was preparing to suppress Lin Tianhao with her strength.

Lin Tianhao's face darkened slightly, and the fighting skills he had learned in the Devanagari Academy emerged in his mind.

Facing such a powerful attack, it is not wise to resist head-on.

Lin Tianhao blocked the attack with the spear in his hand at an angle, and while removing the force from the sword, the tip of the spear was smashed into the ground.

Lin Tianhao used the recoil force of the spear falling to the ground, grabbed the spear, turned over and kicked it.

This kick seemed to be aimed at the female commander's forehead, but in fact it was not.

At the moment of jumping up, Lin Tianhao swung the spear in his hand from behind him, swung the spear in a circle and smashed it down from his head with great force.

The female commander had just prepared to block Lin Tianhao's kick, but she didn't expect Lin Tianhao to change his tactics in an instant.

At this moment, she could only raise her long sword to block.

"clang--"

Lin Tianhao's spear swung back and forth, its power reaching its maximum.

The female commander's hastily used sword to block was completely unable to stop Lin Tianhao's shot.

Chapter 1319: Being besieged, many people were injured!

"clang--"

The spear chopped the broadsword down and hit the female commander's left shoulder heavily.

Because she was protected by armor, the female commander's body only sank slightly and she did not suffer much damage.

But Lin Tianhao instantly retracted the gun an inch, moved the tip of the gun slightly to the side, and stabbed towards the female commander's throat like a snake.

The female commander's expression changed, her head tilted back and her body fell backwards.

Lin Tianhao's shot was unexpectedly avoided by the female commander.

The female commander raised her hand and grabbed the spear in Lin Tianhao's hand.

Lin Tianhao's eyes narrowed slightly and he immediately retracted his spear.

At the same time, the other hand had already thrown out a bomb.

"boom--"

The bomb exploded, but Lin Tianhao did not retreat but advanced instead.

He needs to attract firepower, which would be much easier with Dragon Flame.

really.

The damage caused by Lin Tianhao's bomb is not as low as it seems.

Although bombs cannot destroy the armor of these demonized guards.

However, the impact of the explosion was enough to injure their internal organs.

"Kill this guy first!!"

At the order given by the female commander, she led several demonized guard captains to besiege Lin Tianhao.

Lin Tianhao was not afraid at all. The attacks of these devil guard captains could add proficiency to him and the damage to him was not great.

Under siege, Lin Tianhao could only try his best to block the attacks from the female commander.

As for the attacks from those demonized guard captains, Lin Tianhao completely ignored them.

"What a strong physical defense!!"

The female commander was shocked. She withstood the attack of the demonized guard captain without suffering much damage. She could only rely on her golden armor to achieve such defense.

But Lin Tianhao was using his entire body to block the attack! !

Seeing Tongpi Tiegu's steadily improving proficiency, Lin Tianhao was not panicked at all.

Now he just needs to hold these people back.

however.

The female commander quickly realized the problem.

"You guys surround him, I'll deal with the others!"

Lin Tianhao's attacking skills aren't that great, but his defense is indeed scary high.

The female commander knew very well that continuing to attack Lin Tianhao would only be a waste of time.

The best solution is to deal with the others first.

Lin Tianhao looked a little ugly. At this moment, the yin and yang of his body were reversed, his Qi and blood were flowing backwards, and he was unable to use his internal strength.

In this situation, the power Lin Tianhao can mobilize is very limited.

He had absolutely no way of dealing with these guys.

Under the current circumstances, he would really be held back by these demonized guard captains.

at this time.

In this stone chamber.

The fighting was fierce.

These demonized commanders are wearing golden armor, and even Chu Landu's sword energy can hardly break through the defense of these golden armors.

Coupled with the fact that these demonized commanders themselves have quite impressive combat capabilities, it becomes even more difficult to deal with them.

The ambitious Taoist priest was surrounded by thunder, and he used the power of thunder to assist Chu Landu and several others in beheading.

The Tarzan Buffalo uses its large size and powerful strength to act as a city wall, pushing down the demonic guards of one side.

These demonized guards have strong defensive capabilities, but in terms of strength, they are completely not on the same level as the Taishan Buffalo.

therefore.

These demonized guards were knocked to the ground by the powerful punches of Taishan Buffalo. Some of them even had punch marks on their armor and were spitting blood from their mouths. It was obvious that they would not live long.

Corpse Ancestor Tianyue, Taoist Nun Kusui and Chu Landu each dealt with a demonized commander. The three of them were able to unilaterally suppress the demonized commander.

The Dragon Tiger Venerable assisted from the side.

But as the female commander broke away from the fight with Lin Tianhao, the situation of Chu Landu and the others became a little bad.

Tarzan Buffalo had to join the battlefield and fight with the female commander.

Lin Tianhao danced with the spear in his hand with great power.

Without the female commander, Lin Tianhao's power is no less than those demonized guard captains.

But the problem is.

It would still be quite difficult for him to break the armor of these demonized guard captains.

Dragon scales began to cover Lin Tianhao's body, but as soon as they started to cover him, Lin Tianhao felt the strain.

Due to the reversal of yin and yang and the reverse flow of qi and blood, he couldn't even turn his entire body into dragon scales.

Since dragon scales cannot cover the entire body, then cover the arms.

His arms were covered in dragon scales, and his palms turned into dragon claws.

Because Lin Tianhao himself has five fingers.

therefore.

After the palm turned into a dragon claw, it directly became five claws.

"Pfft-"

Lin Tianhao stretched out his palm, and the dragon claw actually pierced through the armor of the demonized guard captain in front of him, penetrated the flesh and bones, and grabbed the yin and yang of the demonized guard captain.

Using the force of his dragon claws, Lin Tianhao crushed the heart of the demonized guard captain.

Seeing that his dragon claws had such lethality, Lin Tianhao waved the dragon claws and began to kill everyone in the area.

He was not afraid of the attacks from these demonized guards and the demonized guard captains. He just took their attacks head-on.

I can ignore your attacks, can you? !

Obviously not!

Lin Tianhao's dragon claws can break their armor, so killing them is as easy as cutting melons and vegetables.

However, within just a few breaths, more than three demonized guard captains were killed by Lin Tianhao.

"Commander Dashan, we can't hold on any longer. This kid has become more powerful."

A demonized guard captain yelled for help.

Seeing the other captains around him being killed by Lin Tianhao, his heart was filled with fear.

According to Lin Tianhao's current hunting speed, it will be his turn soon.

The female commander couldn't help but frowned when she heard the call.

But when she discovered Lin Tianhao's fighting ability at this time, she was shocked and had to rush back with a big knife.

The female commander came back, and the pressure on Taoist Priest Motivated and Chu Landu was instantly reduced.

After Lin Tianhao's hands turned into dragon scales, he was not afraid at all when facing the female commander.

His hands are the most powerful weapons, the only drawback is that his strength is not as good as that of the female commander.

With the female commander taking action, it became very difficult for Lin Tianhao to kill these demonized guard captains again.

"I'll do it. Xue Di, you go hunt down the demonized guards."

The ambitious Taoist rushed over and blocked the female leader who was attacking Lin Tianhao.

When the ambitious Taoist priest tried to stop the female leader, Lin Tianhao was like a wolf among a flock of sheep, and began to quickly slaughter these demonized guards and demonized guard captains.

One after another, enlightenment came to him, and Lin Tianhao's strength was improving.

The strength of Chu Landu and Taoist Priest Ye Xin is also increasing.

but.

Compared to Lin Tianhao's ease, the Dragon and Tiger Venerables, Taishan Water Buffalo, Ku Sui Taoist Nun and others were already covered with scars.

There are too many demonized guards, and more and more of them rush out from the corridor.

In the case of a huge disparity in numbers, the first one to collapse was not the Dragon and Tiger Venerable, but the Taoist Nun Ku Sui.

After Venerable Longhu changed his cultivation body, he gained something in the last island copy. Now he has a strong physique and considerable strength.

When being besieged, even if he was attacked a few times, the injuries were not serious.

Chapter 1320 [Chu Lan Du]

The situation of the Taoist nun Ku Sui is the worst right now.

The body she has now is the one she took over from someone else, although it has been tempered by her.

Plus the improvement in Mo Yuan.

But it cannot be denied that the strength of this body is still too weak.

At least.

Compared with the likes of Venerable Dragon and Tiger, and Corpse Ancestor Tianyue, he is too weak.

Moreover, her tactics are somewhat different from those of the ambitious Taoist priest.

The Ambitious Taoist's Golden Light Spell and Five Thunders Law are both offensive and defensive methods.

And they have all been cultivated to an extremely high level by the ambitious Taoist priest.

Otherwise, the physical strength of Taoist Master Yixin is probably not much better than that of Taoist Nun Ku Sui.

of course.

The most fundamental reason is that after Taoist nun Ku Sui took over someone else's body, her strength was far less than that of her peak period.

Otherwise, she might be able to grab more three-pointers than Chu Landu.

At this time, Nun Ku Sui was the most seriously injured, and could only rely on some secret methods to hold back the demonized leader in front of her.

"Humph, you are already at the end of your strength, so just accept your death!"

The demonized leader in front of Taoist nun Ku Sui laughed grimly and rushed towards her.

The eyes of the Taoist nun Ku Sui narrowed slightly, with a fierce light flashing in them.

"Let me do it!!"

Seeing this situation, Taishan Buffalo took the initiative to step forward.

Nun Ku Sui does not have to deal with the demonized leader, so it will be much easier for her to deal with the demonized guards.

As for the demonized guard captain, he was being chased and killed by Lin Tianhao at this time, and could no longer form a group to threaten others.

Lin Tianhao was not afraid of the attack at this time. Looking at the overall situation, he knew that the situation was very bad.

Don't look at the fact that Taishan Buffalo has reached the top, but his body is also covered with scars, only slightly better than that of the Taoist nun Ku Sui.

Being hurt is one thing.

In such a high-intensity battle, the consumption of their internal energy and physical strength is the most troublesome thing now.

They were able to hold on before because they were in good shape.

But now.

Injured, lacking in internal energy and physical strength.

The subsequent battles will be very troublesome.

Don't talk about others.

Even the defense of Corpse Ancestor Tianyue had been damaged at this time.

Even if it is a demonized guard, the power of the attack should not be underestimated.

Even if they cannot break through Corpse Ancestor Tianyue's defense, the powerful force will still injure Corpse Ancestor Tianyue's body.

of course.

One or two attacks are still not enough to hurt Corpse Ancestor Tianyue.

But what about dozens or even hundreds of attacks?

Lin Tianhao relied on his four-star iron body and the armor-piercing ability of his dragon claws to be able to move like a dragon among these demonized guards.

Lin Tianhao knew it very well.

The outcome of today's battle depends on him.

With his current strength, it is difficult for him to kill these demonized commanders.

and so.

He needed to get rid of these demonized guards and demonized guard captains as quickly as possible.

Let the ambitious Taoist priest, Chu Landu and others continue to gain enlightenment, increase their strength, and allow them to persist longer.

"puff--"

Chu Landu spat out a mouthful of blood, and the sword light around him became noticeably weaker.

"Damn, these guys are so annoying. If it weren't for the armor on them, I would have chopped them into pieces long ago!!" Chu Landu couldn't help but curse.

Hear this.

The demonized commander in front of him snorted coldly.

"We don't have armor, but you don't have a sword?"

"Equipment is also a part of strength. If you don't have good equipment, it's a sign that you are trash."

The words fell.

The demonized leader's attacks became more and more ferocious.

Chu Landu was beaten back step by step, and there were demonized guards around him attacking him, making it impossible for him to concentrate on dealing with the demonized leader.

"You forced me to do this!!"

Chu Landu's face was as gloomy as water, and the aura around him suddenly merged.

The aura of the sword cultivator that was righteous and awe-inspiring before suddenly turned into a violent and bloodthirsty aura! !

Chu Landu's eyes also turned blood red, and the sword in his hand was wrapped with strands of blood light.

at this time.

[Chu Lan Du] had a playful arc at the corner of his mouth.

"Idiot, do you have to be forced to this extent before you are willing to call me out?"

It was not obvious that this voice was not Chu Landu's own.

Because Lin Tianhao was not afraid of attacks, he had been observing the overall situation. He was also constantly rescuing Taoist Priest Ye Xin, Taoist Nun Ku Sui and others to relieve their pressure.

He saw clearly the changes in Chu Landu.

"Well, watch out, I won't have many chances to use my sword."

The words fell.

This [Chu Landu] waved the long sword in his hand, and the blood light on the long sword actually turned into a blood-red dragon. As Chuan Laifu waved the long sword, the blood-red dragon also moved along with the long sword in [Chu Landu]'s hand.

"The blood dragon is out to sea!"

[Chu Landu] slashed with his sword, and a blood-red dragon rushed out, and in an instant it had arrived in front of the demonized leader.

Seeing this attack, the demonized commander did not dare to be negligent and immediately raised the sword in his hand.

The moment he raised the sword in his hand, the blood-colored dragon had already hit the sword.

"Boom——"

The demonized commander was knocked away by the blood-colored dragon and hit the wall heavily. Even the dozen or so demonized guards behind him were knocked to the ground.

"puff--"

The demonized commander spat out a mouthful of blood and stared at Chu Landu in disbelief.

"Has it suddenly become stronger?"

"You are the old monster hidden in that boy!!"

"If we use this kid's body to launch an attack of this magnitude, his tendons and veins will be burst."

Chu Lan Du smiled jokingly and said:

"Don't worry about it. Just think about how to live your life."

When the words fell.

[Chu Landu] has already rushed out with a sword in hand.

The demonized leader's face changed drastically, and the threat of death surged.

Without hesitation, he dodged and hid behind several demonized guards.

"Pfft-"

The sword energy cut these demonized guards in half.

Under Chu Landu's sword, the armor on their bodies was as fragile as paper and could withstand no blow.

"Are you going to play hide and seek?"

[Chu Landu] smiled evilly, and the demonized commander felt inexplicably creepy.

By the time he reacted, a blood-red sword filled with demonic energy had appeared above his head!

"Pfft-"

The blood-red sword fell instantly, piercing through the demonic leader's golden helmet and piercing into his head.

The demonized commander's eyes widened, his body paused for a few seconds, and then he fell straight down.

at the same time.

Tiny cracks actually appeared on Chu Landu's flesh and skin.

"It's so boring. I can't hold on any longer."

[Chu Landu] shook his head in disappointment.

The next moment.

Chu Landu fell to the ground, spitting out a mouthful of blood.

"Old man, can you please stop showing off with my body as soon as you come out? This body of mine will be ruined by you sooner or later!!"

Chu Landu couldn't help but curse. He took back his own body and almost fainted from the pain.
