

O games 1321

Chapter 1321: Hard fight: huge consumption!

Chu Landu's curse did not receive any response.

There might also be voice transmission, but Lin Tianhao couldn't hear it.

Lin Tianhao rushed to Chu Landu and forced back several demonized guards who were about to attack Chu Landu.

"You heal first."

talking.

Lin Tianhao gave Chu Landu a bottle of big red medicine.

no way.

Chu Landu is no longer able to fight in his current situation.

They even need to allocate manpower to protect Chulan Du, which is very unfavorable for the current situation.

Although Lin Tianhao also needed the big red medicine, he was not in a hurry.

Chu Landu drank a bottle of big red medicine, and the torn flesh and skin on his body recovered quickly.

"What a strong healing effect."

Chu Landu was a little surprised. "This is much better than many of the healing pills in our sect."

Lin Tianhao took a deep breath and said:

"Don't be surprised, there are still three demonized commanders."

Lin Tianhao gave a reminder and continued hunting.

Chu Landu recovered a lot after taking the big red medicine. Plus, with one less demonized leader, the pressure on everyone should be reduced.

But in fact this is not the case.

The pressure they put on you is actually increasing.

mainly.

Their injuries were increasing, their internal strength was decreasing, and their physical strength was being consumed greatly.

After all, they have to face at least ten opponents.

This kind of high-intensity combat consumes too much internal strength and physical energy.

If killing the demonized leader hadn't brought relatively obvious improvements, they would probably have collapsed.

"You can fight to the end. There are resurrection coins." said the ambitious Taoist priest.

He just finished speaking.

The female commander chuckled, "You have resurrection coins, and we have them too."

While talking.

He retreated to the body of the demonized commander whose head was pierced by a bloody sword, and directly threw ten resurrection coins at him.

then.....

As expected, the killed demonized leader was resurrected.

In a flash.

Everyone present wanted to curse.

These demonized leaders are very powerful. They can be resurrected after being killed. How can we defeat them? There is no way to defeat them at all! !

Lin Tianhao's face also darkened. Chu Landu consumed so much energy to kill a demonized commander, and now he was resurrected.

Although his dragon claws were extremely ferocious, he had already killed more than thirty demonized guards and four demonized guard captains in just a short period of time.

But compared with this huge demonized guard, the one he killed was not worth mentioning at all.

"I'll cut off the queen."

Lin Tianhao shouted in a low voice, "You retreat first."

Given the current situation, it would be very disadvantageous to continue fighting.

"Isn't it too late to leave now?"

The female commander had a rather awkward fight with the ambitious Taoist priest, but she still managed to block the entrance to the tunnel.

There are two corridor entrances on the left and right of this stone chamber, both of which are blocked by a large number of demonized guards.

Lin Tianhao was not afraid at all and rushed forward.

His whole body was filled with murderous intent, and his pair of dragon claws forced the demonized guards to retreat step by step.

"presumptuous!!"

The resurrected demon leader growled, "Relying on a pair of dragon claws, do you really think you are invincible?"

When the words fell.

The demonized commander flew up and kicked Lin Tianhao.

Lin Tianhao wanted to resist, but several spears blocked his dragon claws.

By the time he had shaken the spear away, the demonized commander had already kicked Lin Tianhao away.

Lin Tianhao stood up instantly and grabbed with his dragon claws from below. A demonized guard who was knocked down by him was pierced in the abdomen and blood gushed out.

Before Lin Tianhao could make another move, the demonized leader attacked again.

The long sword in his hand danced so tightly that Lin Tianhao retreated again and again.

Relying on his arms that were made of dragon scales, Lin Tianhao was able to barely resist the fierce attack from the demonized leader.

The proficiency of Copper Skin and Iron Bones also increased rapidly at this time.

However, with the demonized leader taking action, it was very difficult for Lin Tianhao to free up his hands to kill the demonized guards.

Lin Tianhao fought and retreated towards the female commander.

Dragging one is dragging, dragging two is also dragging.

If he hit one person, he would be beaten; if he hit two people, he would also be beaten.

After approaching the female commander, Lin Tianhao fought one against two and forcibly pulled the female commander into the battle.

But the female leader did not kill him. She dodged and rushed towards the ambitious Taoist priest, not giving Lin Tianhao any chance to fight.

Since she didn't give him a chance, Lin Tianhao just rushed towards the corridor.

He can ignore the attacks of these demonized guards, but if the demonized guards dare to block him, his dragon claws are no joke.

"Come back!!"

The demonized commander turned over and kicked Lin Tianhao away just like before.

Lin Tianhao sneered. This was exactly the result he wanted.

Kick him away, then he can take the opportunity to kill the two demonized guards.

Move faster and you can kill even more.

See this scene.

The demonized commander shouted angrily, "You are so cunning, you little brat."

"However, you have a strong physique and can withstand our attacks, but your friends may not be able to withstand it."

Lin Tianhao is well aware of the seriousness of the problem and he is already trying to find a solution.

But the front and back corridors had been blocked by the demonized guards.

Up to now in the battle, they have killed no more than a hundred demonized guards.

But looking at the number of demonized guards here, it is probably no less than seven hundred, or even more.

Because there were many demonized guards blocking both sides of the corridor.

In such a big melee, they consumed a lot of physical energy, but did not cause many kills.

Lin Tianhao rushed towards where the demonized guards were concentrated.

After rushing into the crowd, Lin Tianhao took out a large number of bombs without hesitation and detonated them all.

"Boom boom boom——"

The bomb exploded.

A series of roars blew these demonized guards to the ground.

It was the hole created by the explosion that allowed the Taishan Buffalo to seize the opportunity and rush towards the corridor on the left.

His fists were wrapped in the mysterious yellow energy, and he punched out with both fists, knocking down a group of demonized guards who were blocking the corridor.

Lin Tianhao has already started to do it regardless of the cost.

Rush towards where there are many demonized guards.

If you rush over, several bombs will explode at the same time.

He has a strong body and skin, and bombs have very little damage to him.

To be precise.

If these bombs did not explode close to his body, it would be difficult for them to cause effective damage to the demonized guard captain wearing armor.

But in the case of a close-range explosion, ordinary demonized guards would inevitably be injured.

Especially since Lin Tianhao uses several bombs together each time, the shock wave of the explosion cannot be underestimated.

The space in his storage ring is limited, and bombs and bullets are the most numerous items. However, with Lin Tianhao's high frequency of consumption, the bombs may not be able to last.

but.

The benefits of Lin Tianhao's continuous use of bombs also emerged.

That is, Lin Tianhao alone held back a large number of demonized guards, creating an opportunity for Taishan Buffalo and Chu Landu to escape.

"Heaven and Earth Thunder Cage!!"

The ambitious Taoist priest clasped his hands together and let out a low shout.

A large amount of thunder swept wildly in all directions. The ambitious Taoist priest took advantage of the raging thunder and led everyone to rush towards the corridor.

Chapter 1322 Strange Kendo Power!

Lin Tianhao was not to be outdone and once again detonated several bombs in the crowd of demonized guards.

After seeing Taoist Priest Mo Xin and his companions entering the tunnel, Lin Tianhao stood alone at the entrance of the tunnel.

"I can't hold out for long to clear out the demonized guards in the tunnel."

Lin Tianhao roared loudly.

The others consumed a huge amount of internal energy and physical strength.

Although Lin Tianhao is unable to use his internal energy now, his physical strength is also greatly consumed.

After being beaten back and forth, he killed dozens of demonized guards with great intensity.

These demonized guards are not fools. They use their spears to continuously block Lin Tianhao's attacks.

It would take a lot of effort for Lin Tianhao to kill a demonized guard.

Relying on his strong body and iron bones, he can indeed remain invincible.

The four-star's iron skin and bones could not avoid being injured.

However, the relatively ordinary attacks of these demonized commanders are not enough to cause effective damage to Lin Tianhao.

The demonized commander holding a long sword saw this scene, and a fierce light flashed in his eyes.

"You like to be the leader, don't you? You think you are indestructible and no one can break your defense, right?!"

When the words fell.

The demonized commander's aura suddenly rose, and a large amount of sword intent gathered towards him.

Feeling the sword intent surrounding the demonized commander, Lin Tianhao's face became solemn, and he unexpectedly had some insights.

It seemed as if there was something between heaven and earth that was being captured by him.

He also knows the sword intent and even the sword law!!

and! !

Sword intent and the law of sword are not attributes, skills, or magical powers.

That is a person's perception of the great way of heaven and earth, and his understanding of the great way of heaven and earth.

In the dark.

Lin Tianhao caught something.

This is Blue Planet. Like Ragnarok, this planet belongs to the Milky Way...

In one world, even if it belongs to a different space and has some different rules, but the principles of heaven and earth... will they be the same?

Feeling the majestic sword power coming from the demonized leader, Chu Landu in the corridor turned around suddenly and exclaimed:

"run!!!"

Chu Landu himself practices sword.

He could feel how horrific the destructive power would be if the demonized leader's concentrated sword intent exploded.

"Senior Chu, can you lend me your sword?!"

Lin Tianhao spoke loudly.

Before Chu Landu could respond, the sword in his hand began to tremble slightly, then instantly flew out of his hand and into Lin Tianhao's hand.

"this--"

Chu Landu's eyes widened, and he looked as if he had seen a ghost.

The ambitious Taoist priest, Taishan Water Buffalo, and the Taoist nun Ku Sui also felt something at this time.

They all looked at Lin Tianhao at the same time.

At this time, Lin Tianhao was still standing there, blocking the entrance to the corridor.

But the ambitious Taoist priest, the withered Taoist nun, and especially Chu Landu.

They all feel it.

What they saw was not a person, but a sword!!

A sword of unmatched sharpness.

"So...it really works!"

Lin Tianhao suddenly raised his eyes, and in an instant, a mighty sword wind swept across the entire stone chamber, and a large number of demonized guards were blown to the ground by the sword wind.

"How... how is it possible?!"

The demonized commander who had gathered sword power showed a look of horror.

"How can this be?"

"This is simply impossible!!"

Lin Tianhao also found it very mysterious.

Because there were many people who attained enlightenment during Ragnarok in previous lives, but very few of them were able to seize the power of enlightenment in advance.

It was when Lin Tianhao saw the demonized leader gathering the majestic sword intent that he suddenly had an epiphany and gained some insights.

Or in other words... because of this Mo Yuan copy, although the entrance is in the real world, this place does not actually belong completely to the real world, but is at the junction of the real world and Ragnarok.

No matter what.

He now truly mobilized the sword power of the first level of his spiritual realm.

A power that surpasses the great perfection of the sword law.

"call out--"

Lin Tianhao swung his sword and slashed out, and the sword energy covered one-third of the stone chamber in an arc.

Wherever the sword energy passed, whether it was the demonized guard or the captain of the demonized guard, their bodies were cut in half.

Even the demonized commander who was about to attack Lin Tianhao was no exception.

Until his death, this demonized leader had his eyes wide open, filled with shock.

The surviving demonized guards and demonized commanders were all stunned after this sword.

They all looked like they had seen a ghost.

Lin Tianhao took a deep breath. After this sword strike, the situation of the people who were just in crisis was reversed instantly.

"kill!!!"

Lin Tianhao is in extremely good condition now.

Holding Chu Landu's sword, he charged into the crowd and started a one-sided massacre.

With the power of swordsmanship at the first level of the realm of Taoism, even the armor of the demonized commander is not worth mentioning.

Only three minutes.

The battle is over.

The stone chamber was littered with corpses.

Chu Landu took a deep breath and walked quickly to Lin Tianhao.

"You just used the power of swordsmanship."

"How can you be so powerful in swordsmanship at your age?!"

Chu Landu just felt his head was confused.

Lin Tianhao's swordsmanship level is so high that it makes him feel terrified.

"It is the result of enlightenment during Ragnarok. I don't know why, but when I saw the demon leader using the sword, I seemed to understand something."

"It allowed me to use the sword power I learned during Ragnarok."

The ambitious Taoist priest looked solemn, "It shouldn't be."

"I also gained enlightenment during Ragnarok, and I have tried to use the power of enlightenment gained during Ragnarok in the real world."

"There was no surprise in the results. They all failed."

That's it.

Taoist Priest Ambitious looked solemn, "It's not just me. Some friends I know have also made similar attempts, but without exception, they all failed."

Lin Tianhao frowned. In his previous life, he had never heard of anyone who could use the power of enlightenment gained during Ragnarok in the real world in advance.

"Could it be because this is Mo Yuan? Blue Star itself is a space parallel to Ragnarok. There should be a channel of understanding between the two spaces."

"And will this Mo Yuan be the beginning of Ragnarok?!"

Lin Tianhao said very seriously:

"If that's the case, then it can explain why I can use the power of swordsmanship."

"Because the eighth level of Mo Yuan is very close to Ragnarok, the rules between the two have already overlapped to some extent."

In fact, this explanation is a bit far-fetched.

After all, there is some overlap in the rules.

It should be reflected in many aspects, but now, it seems that only his swordsmanship is reflected, which is obviously wrong.

"No no no."

Chu Landu shook his head. "My understanding of the way of the sword during Ragnarok was actually quite high, but here, I can't use the power of the sword that I learned during Ragnarok."

Chapter 1323 Lin Tianhao is the Dragon Bone Sword Master!

"so....."

"I suspect that you are not using the sword power from Ragnarok at all."

Chu Landu's words surprised everyone present.

"This... isn't likely?" said the Dragon Tiger Venerable.

Chu Landu smiled and nodded, and said seriously:

"nothing is impossible."

"I don't know if it's your own secret, Xue Di, or your past secret."

Chu Landu looked at Lin Tianhao meaningfully, "Since your identity was exposed, many people have been paying attention to your identity in the real world, and our Northern Jianshan School is no exception."

Lin Tianhao narrowed his eyes slightly. He knew that many people would pay attention to him, but he didn't expect that even an ancient Qi-refining force like Beipai Jianshan would pay attention to him.

"Your identity in the real world is too ordinary, but what you do in the real world is too extraordinary."

"Let's not talk about anything else. Your dragon bloodline is so strange. So many people don't have dragon bloodline, but you do? And it's so pure and high-level."

Lin Tianhao remained silent. After a while, he said:

"To be honest, I really don't know what you are talking about."

"The bloodline of the dragon race is completely unknown."

Hear this.

Chu Landu nodded seriously and said:

"I believe what you say."

"Some people, in order to truly reach the pinnacle of this world, will choose to cultivate for several lifetimes."

"If my guess is correct, you were once a Qigong practitioner, and a top-notch one at that."

"However, you chose to cultivate for a few more lifetimes."

Lin Tianhao narrowed his eyes slightly. If it was martial arts, he could explain it, after all, there were so many martial arts masters in ancient times.

He could barely accept the ancient Qi-refining masters. After all, as Wong Tai Sin said in modern times, demons have their own way and humans have their own way.

But this idea of cultivating for several lifetimes did make Lin Tianhao feel a little unbelievable.

"Is the cycle of life and death real?" Lin Tianhao asked.

Chu Landu nodded, "Of course. If you ask Taoist Master Ye Xin, he should know that a being of his level should have dealt with ghost messengers before."

Taoist Master Mo Xin chuckled, "Well, the rumors about monsters, demons and ghosts in this world are all true, and there is also a hell."

Lin Tianhao did not refute.

As a native of the Dragon Kingdom, Lin Tianhao had doubted whether the Heaven really existed, but he had never doubted whether the Underworld really existed.

the reason is simple.

Ghost stories have been passed down from ancient times to the present day, and many of them are said to be true.

Since there are ghosts in this world, the existence of the underworld can naturally be explained.

"Ancient Qi Refiners who reach a certain level can practice Yin. I wonder if you have ever heard of this."

"It doesn't matter if you don't have it, because I have already guessed who you might be the reincarnation of."

Chu Landu's words shocked Lin Tianhao.

"Don't be too surprised. You have such a strong and pure dragon bloodline, and you also have such a strong swordsmanship."

"And those who have the ability to reincarnate and cultivate again, even if we start counting from a thousand years ago, there are only a few who can be found."

Lin Tianhao smiled awkwardly. Seeing Chu Landu's serious tone, it seemed that he was really the reincarnation of some powerful ancient Qi-refining master.

"Then tell me, whose reincarnation am I?"

"You are the sixth mountain master of our Northern Sword Mountain, Dragon Bone Sword Master. I am too young to address you by your name. I can only respectfully address you by your title from that time."

That's it.

Chu Landu actually knelt down in front of Lin Tianhao.

"The seventeenth generation elder of the Northern Sword Mountain School, paying homage to the ancestor!!"

"Dragon Bone Sword Master?"

Lin Tianhao's mouth twitched, and he didn't know whether to laugh or cry.

That's what I said.

"You are not saying this because you want to trick me into going to your Northern Sword Mountain, are you?"

Lin Tianhao raised his hand and helped Chu Landu up.

He always felt that Chu Landu had bad intentions.

"Grandfather, it is absolutely true. I dare not tell a single lie."

"If you don't believe me, you can come back to Beipai Jianshan with me and check out the information about our Beipai Jianshan."

"Dragon Bone Sword Master, the sixth mountain master of our Northern Sword Mountain, has very detailed records about you, and what you are showing now is completely consistent."

Lin Tianhao waved his hand and said:

"You guys should have some memories after reincarnation, but I have no memories at all."

Chu Landu waved his hand, "It's normal to have no memories. Usually, people who reincarnate and cultivate again have no memories."

That's it.

Chu Landu paused for a moment before continuing:

"True reincarnation and cultivation is the understanding of cultivation. When the time comes, these understandings will emerge like a blessing from the soul, helping the reincarnated person to quickly become an extremely powerful person."

"Grandfather, your growth rate is amazing. It is impossible to achieve this with only the limited time you have spent on cultivation in this life."

"The only explanation is that you are a reincarnated person. Your practice is not practice, but recovery!!"

Lin Tianhao hesitated to speak. If it weren't for the memories of the past ten years, Lin Tianhao would have believed what Chu Landu said.

Ten years in the previous life.

Until his death, his swordsmanship had not reached the first level of the realm of asking for the way.

Then in this life he said that because he was a person who had reincarnated and cultivated again, he was blessed with the power of reincarnation and cultivation.

Lin Tianhao just wanted to say, you are fooling a fool! !

of course.

Maybe Chu Landu really thought so.

But then again, Lin Tianhao really found it a little unbelievable.

According to what Taoist Priest Ye Xin and the others said, the power he used from the sword was indeed too incredible.

Is it that the God of the Source of Tao is giving him special treatment again?

Lin Tianhao felt that the probability was very low.

Even if you want to give him special treatment, it should be done when he needs it.

Although this battle was very difficult, Lin Tianhao was not threatened.

Even if I am physically exhausted.

Lin Tianhao can also remain invincible thanks to his four-star iron body.

and.

Lin Tianhao still has some skills in the jade pendant that he has not used, so even if the God of the Source of Dao wants to help, there is no need for him to take action at this time.

but.

Chu Landu did remind Lin Tianhao that his dragon bloodline was indeed strange.

"Touch the body first, and think about other things later."

This time, seven or eight hundred demonized guards were killed, and the realm of Lin Tianhao and his companions was greatly improved.

Next is touching the corpse.

Is the best part.

"Ding, you obtained the magic spear +1."

"Ding, you obtained the magic spear +1."

.....

The rewards for these demonized guards are very uniform, all of them are demonized spears.

Demonic Spear (Black Iron): Level 100.

Wearing requirements: Warrior profession above level 100.

Effect 1: Attack power +9500.

Effect 2: Armor penetration +10%.

Effect 3: Blood sucking +10%.

Wear resistance: 71.

The attributes of this equipment are just so-so.

The key is.

Without the blessing of entries, even if it is worn, it is just an ordinary spear that is not easy to destroy.

Chapter 1324 Rebels: The military nest changes hands!

Lin Tianhao touched the corpse of the demonized guard captain again.

The result will be much better.

"Ding, you got the Magic Heart Mirror +1, Resurrection Coin +1."

"Ding, you got the Magic Heart Mirror +1, Resurrection Coin +1."

.....

It's very standard stuff. A slightly better reward might be the resurrection coin.

Demonic Heart Mirror (Bronze): Level 120.

Wearing requirements: Level 120 warrior profession.

Effect 1: Health +200000.

Effect 2: Armor +2980.

Effect 3: Magic resistance +1999.

Effect 4: Reduce damage by 10% within the same rank.

Wear resistance: 91.

The properties of this demonized heart mirror are just so-so. Such properties are nothing special among the level 120 bronze equipment.

Especially in the real world, when wearing equipment does not bring any attribute bonuses but only obtains item effects, this magic heart-protecting mirror is not very attractive.

The only thing is the resurrection coin dropped by the demonized guard captain. Although there is only one, it is enough for one month's resurrection coin.

As long as the time of death is no more than one month, you can use this resurrection coin to revive the target.

At last.

They are the four demonized commanders.

Lin Tianhao was aware of his luck, therefore, he did not plan to touch the corpse himself, but asked the ambitious Taoist to do it.

The four demonized commanders quickly finished searching the corpse.

"What Xue Di said before might be true. These guards are all standard monsters recruited from the soldiers' nest."

The ambitious Taoist said helplessly:

"The rewards given by the demonized commander are their respective main weapons, plus ten resurrection coins."

This is indeed a bit disappointing.

"Can't we strip off these guys' armor?" asked Corpse Ancestor Tianyue.

"Amitabha."

The Dragon Tiger Venerable chanted a Buddhist name, shook his head and said:

"No, I've already tried."

"Can't separate."

"Moreover, the bodies of these demonized guards and their equipment began to disintegrate and disappear."

The ambitious Taoist nodded and said:

"This is exactly like in Ragnarok."

"But this is such a pity. If we can equip these armors into an elite team, their combat effectiveness will definitely be strong."

The Taoist nun Kusui smiled and said:

"Okay, you've already gained a lot this time. There are so many pieces of equipment, and the worst ones are all Black Iron grade. It's enough for you to use for a long time."

The ambitious Taoist nodded and said with a smile:

"really."

"Although these equipments don't have any attribute bonuses, they are still much better than the equipments we forged in the real world."

The corpse search was completed, and a total of seventy-six resurrection coins were harvested.

Four demonized commanders provided forty resurrection coins, and there were thirty-six demonized guard captains.

This time everyone gained a lot.

Lin Tianhao and his friends had little use for the equipment, so they all gave it to Taoist Priest Motivation, who took it all back to the authorities so that the equipment could be used more reasonably.

However, the ambitious Taoist priest still gave the long sword of the demonized commander who wielded the long sword to Lin Tianhao.

After all, Lin Tianhao's long sword is the most effective now.

As for the resurrection coin.

Since Lin Tianhao contributed the most, he got the most, forty resurrection coins alone.

The remaining thirty-six resurrection coins were given to Taoist Priest Yexin, Venerable Dragon and Tiger, Corpse Ancestor Tianyue, and Chu Landu, six each.

"Based on the combat power that Snow Emperor has shown now, we can completely sweep the eighth floor, and then attack the Palace of the Lonely King to maximize our benefits." said Corpse Ancestor Tianyue.

Lin Tianhao nodded, "Yes, I think so too, so now... let's start hunting!!"

Chu Landu and his team had explored the eighth level of Mo Yuan before.

Under the leadership of Chu Landu and others, Lin Tianhao and his companions headed towards another space.

Not long after Lin Tianhao left, a figure slowly emerged from the darkness.

She has blonde hair and blue eyes, and has very obvious American features.

At this time, her forehead was covered with cold sweat, and even her clothes were wet with sweat.

She looked in the direction where Lin Tianhao and his companions had left, and seemed to be sure that they had gone far away before she let out a long sigh.

She had already noticed the large-scale battle that broke out here before.

With her ability to become invisible, she hid in the dark and observed.

When she first saw Lin Tianhao's terrifying physical defense, she was very shocked.

But knowing that Lin Tianhao had dragon blood, the shock in her heart was reduced a little.

But finally.

When he saw Lin Tianhao burst out with the first level of sword power in the realm of asking for the way.

She finally panicked and even held her breath, fearing that she would be discovered if she was not careful.

Especially the first sword energy that Lin Tianhao slashed out with Chu Landu's sword, which still made her feel frightened.

"terrible!!"

"No wonder Xuedi is so powerful in Ragnarok. It turns out he is so powerful in the real world."

"We all underestimated him!!"

While talking.

The blonde woman took out a small notebook and wrote a message on it.

"The Snow Queen is suspected to be the sixth generation master of Northern Sword Mountain, Longgu Sword Master. She has the Vajra Indestructible Divine Art to protect her body, making her invulnerable to swords and spears!"

After recording this message, the blonde woman merged into the darkness again.

And at this time.

Lin Tianhao and his companions were not in a hurry to travel and did not walk fast along the way.

In the previous battle, they had consumed a lot of physical strength and internal energy.

It's time to take a break now.

When Lin Tianhao and his companions arrived at the second space, they met a dozen people head-on.

These dozen people were also wearing demonic guard armor, the difference was that they all had a red cloth tied around their arms.

Seeing Lin Tianhao and his companions, a middle-aged woman holding a dagger walked up to them.

"Looking at you guys, you must have suffered a loss on the other side."

At this time, Taoist Priest Yexin, Venerable Dragon and Tiger, including Chu Landu and the others, all had injuries on their bodies, and because of the great physical exertion, everyone looked to be in a bad mental state.

"After dealing with the demonized guards over there, isn't it time to deal with the demonized guards over here?" Chu Landu said.

The middle-aged woman's eyes narrowed slightly and she said:

"You sound quite arrogant, but I advise you to take good care of your injuries first. A few fools have angered the demon leader here, and we are ready to evacuate here."

From this conversation, Lin Tianhao was able to guess that these should be the rebels here.

It seems that they are also demonized guards, but they seem to have defected.

Or...

Lin Tianhao thought of another possibility.

That means the military nest has changed hands, but the territory remains.

This is a relatively rare situation in Ragnarok, that is, the owner of the soldier's nest has changed, but the territory has not changed.

In this way, the soldiers recruited before and after this military nest will serve different masters.

Chapter 1325: 8th Floor, 2 Lords!

The existence of a type of military force is related to the territory. If the territory changes hands or is destroyed, the original type of military force will disappear.

of course.

Except for voluntary alternation of territories.

The voluntary alternation of the lord's position will result in the change of lord of the territory. The original troops of the territory will not disappear, but they will be loyal to the new territory.

The military type is not personal, but belongs to the territory.

therefore.

It is rare for the same type of soldiers to be in opposition in one place.

There are two possibilities that Lin Tianhao can think of for the time being for this situation to occur.

One is what he just said.

The military nest changed hands, but the territory remained unchanged.

The second is that there are two territories on the eighth level of Mo Yuan, and both territories can recruit such demonized guards.

According to Lin Tianhao's analysis, the possibility of this being the latter is relatively low.

It is highly likely that the military nest has changed ownership, but the territory has not changed.

This can also explain why there is a lonely palace above and another lonely palace here.

Because this is not the real Palace of the Solitary King. This is the territory of another person, but it was occupied by the Solitary King and renamed the Palace of the Solitary King.

And these rebels were the soldiers recruited by the previous owner of this place.

They were dealing with the soldiers recruited by the lonely king.

The lonely king came here and occupied the soldiers' nest.

The original owner of this place must have used some special method to preserve himself and the heart of the lord, which is why the owner of this territory has not changed.

The territory is still there, so the soldiers recruited by the lord of the territory are still there.

And the lonely king.

A brand new territory was established on the eighth level of Mo Yuan to take over the demonized guard troops.

of course.

This is only based on the premise that these demonized guards are really recruited by the military nest.

Thinking like this.

Lin Tianhao asked:

"Are you soldiers recruited from the Soldier's Nest?"

The middle-aged woman looked at Lin Tianhao with some surprise.

"good."

She did not deny it. "We are. All the demonized guards, captains, and commanders here were all recruited."

Lin Tianhao narrowed his eyes slightly. If this was the case, he could be basically certain.

This lonely king is here to occupy the magpie's nest.

"Who is your master?" Lin Tianhao asked again.

The middle-aged woman frowned and said:

"I don't think I have any obligation to tell you this?"

"You have."

Lin Tianhao smiled and said:

"Don't you want to save your master?"

"Just because I cannot kill your master now does not mean I will never be able to kill your master."

Chu Landu, Taoist nun Kusui and others were a little surprised by Lin Tianhao's words.

"I don't know what you are talking about." The middle-aged woman said coldly.

Lin Tianhao spread his hands, "Our target is the same as the lonely king, so we should be considered friends."

"If my guess is correct, your master must have hidden in some secret room or barrier, thus preserving himself and the Lord's Heart."

"Otherwise, you guys would have died long ago."

Hear this.

The middle-aged woman's expression darkened again.

"You know so much, but what does it matter even if you know it?"

"In this eighth level of Mo Yuan, no one can solve the problem of me. He is an existence without a solution."

Lin Tianhao raised his eyebrows and said:

"I don't understand the lonely king, but I don't believe that he is an unsolvable existence."

"Everyone has weaknesses, even God has weaknesses."

That's it.

Lin Tianhao changed his subject and said:

"You want to save your own master, and I want to deal with the lonely king. We have the same goals."

"I don't know me, but you know me."

"Tell me everything about the lonely king. This may help me find a way to deal with him."

The middle-aged woman hesitated for a moment before saying:

"Okay, I can tell you."

The words fell.

The middle-aged man began to talk about the existence of the lonely king.

"The Lonely King was originally the king of the third level of Mo Yuan, but because of a strange Lonely King Sword, he began to embark on a path of massacre."

"Originally, he was just killing people in his middle third floor and didn't interfere with the affairs of our lower third floor."

"But one day, the King stopped killing people. He even left his sword in his palace and came to the lower three floors."

The middle-aged woman began to tell the story bit by bit.

Next, I attacked her master by surprise, and finally forced her master into a forbidden area, using the barrier to keep her alive.

The lonely king occupied her master's military nest, established a new territory here, and began to clean out their original guards.

They were also labeled as rebels.

After listening to the story of the middle-aged female guard captain, Lin Tianhao was not too surprised, because all of this was completely within his expectations.

"The solitary king gave up the solitary king sword and embarked on another path. The more his soldiers die, the stronger he will become."

"If you really killed the thousands of demonized guards over there, this is not only not good news, but also extremely bad news."

Lin Tianhao's eyes narrowed slightly. He felt that the words of the middle-aged female guard were half true and half false.

The reason why Lin Tianhao felt so was because the demonized guards had previously dispatched four commanders, thirty-six demonized guard captains, and seven or eight hundred demonized guards.

This number of dumplings was obviously intended to annihilate them completely.

If what the middle-aged female guard captain said was true, they should have come to send him off like the Calabash Brothers.

Only in this way can I maximize my benefits.

This dumpling-making behavior made it obvious that they wanted to kill all of them.

"You killed all the demonized guards over there, so you should have discovered it. They should have come one by one."

Hear this.

The ambitious Taoist shook his head and said:

"You might be wrong. They sent out more than 800 people to surround us. If it weren't for some special reason, we would have died there."

"This is impossible!!"

The middle-aged female guard captain rejected it without even thinking about it.

"The demonized guards under my command will basically not pursue further. They are only responsible for guarding my palace."

"Not to mention sending so many people to make dumplings for you."

Chu Landu spread his hands and said, "Even if you don't believe it, there's nothing I can do. This is the fact."

Lin Tianhao took over and continued:

"You just said that a few young men angered the demon leader here. Do you know their identities?"

The middle-aged female guard captain shook her head and said, "I don't know her exact identity, but she is an outsider just like you."

"They are good at hiding and assassination, and they have achieved extreme restraint in their aura. Even if they are only ten meters away from me, I may not be able to detect their presence."

Upon hearing this.

The ambitious Taoist priest's face darkened.

"Japanese Ninja!!"

Chapter 1326 Luowang, codenamed Shunan Tyrannosaurus!

Japanese ninja!!

This Lin Tianhao is no stranger to me.

Among the Japanese, the Tennin can be considered as a ceiling-level existence.

Every Japanese ninja has the ability to assassinate opponents above their level.

Their hiding methods and assassination methods are extremely sophisticated.

When the Dragon Kingdom and the Japanese Kingdom were fighting, many masters were assassinated by their ninjas.

The people of Long country hate these rats hiding in the dark.

"How many of them are there?" asked the ambitious Taoist priest.

The Japanese Tennin were too strong. If it weren't for the mysterious force of Dragon Country, Luowang, who intervened, the number of Dragon Country masters who died would have been much greater.

"There aren't many of them. I know of four of them. It's possible that they are the same as you. There are others that I don't know about."

"Not only are they good at hiding, but they are also very strong in direct combat."

"I am no match for any of them, even in a head-on battle."

That's it.

The middle-aged female guard captain looked serious.

"After they arrived here, they assassinated more than five hundred demonized guards in a very short period of time."

Lin Tianhao narrowed his eyes slightly. Are these Japanese ninjas so powerful?

The ambitious Taoist also frowned, "Is their language very different from ours?"

"Not much. One person's voice was very strange and I couldn't understand it."

"I think it might be the place where you can rest assured, idiot, do you know what that means?"

Hear this.

The ambitious Taoist priest's brows finally relaxed.

According to what the middle-aged female guard captain said, these people are not Japanese ninjas, but Luowang killers.

He is good at hiding himself, assassination, and has strong frontal combat ability. No matter how you look at it, he is a Luowang killer.

Because the Japanese Tennin's frontal combat capability was relatively weak, the Luowang killer took advantage of this and severely damaged the Japanese killer.

Coupled with the word "idiot" that the middle-aged female guard captain just said, it is obvious that he is one of theirs.

but.

It is also possible that the Japanese ninja deliberately concealed his methods.

"Can you help us find them?" Chu Landu said.

The middle-aged female guard captain shook her head and said:

"There are only a few of us here, and we're just here to serve the guests."

"If you want to stay here, then stay here. I don't want to."

The words fell.

The middle-aged female guard captain left with her men.

Chu Landu did not force them. After they left, Chu Landu looked at Lin Tianhao and the others.

"Do you think what she said is credible?"

Lin Tianhao pondered for a while and said:

"I can't tell that you're lying, but I still find your description suspicious."

"If the more his men died, the more powerful he would be, there would be no need for him to make his men make dumplings."

The ambitious Taoist nodded, "Indeed."

"and."

"This female captain has a motive to deceive us."

"If nothing else, if these demonized guards are preserved and we help her master return to his position, then my demonized guards will all become her master's."

"The Soldier's Nest can recruit soldiers, but each recruitment requires resources."

"I'm afraid there are only a few resources on the eighth floor of Moyuan."

Lin Tianhao wasn't quite sure either, but if they hadn't met this female captain, what would they do next?

Keep killing!!

Since they couldn't judge whether the female captain's words were true or false, all they could do was stick to their original intentions and not change.

As for me, even if I really become stronger because of the death of my subordinates, their previous decisions and current decisions will face the same outcome.

For that matter, they couldn't have made the ending any worse.

Nun Kusui hesitated for a moment, then said:

"What if what she said is true?"

"We have cleared out a space of demonized guards. Otherwise, let's go back and deal with the lonely king first."

It is obvious that the decision made by Taoist nun Ku Sui is more conservative.

"Test me first to understand my fighting ability. If you can kill me, that would be great."

Taishan Buffalo shook his head, "I don't think it's good. There are so many demonized guards here. If we go and kill the king now, these demonized guards will disappear."

It feels so good to become stronger by killing demonized guards.

This is much easier than practicing asceticism.

The key is.

When they kill the demonized guards, it is considered killing monsters to become stronger, and it is not considered an evil practice.

"Amitabha."

The Dragon Tiger Venerable chanted a Buddhist name and said:

"In fact, we can kill him. The worst result is that we can't defeat the lonely king and are trapped here."

"But even so, we can still enter Ragnarok."

"At worst, we can wait a few more years and still leave here."

With their current state of mind, as long as they can practice, there will be no problem with fasting.

The worst outcome is to endure it for a few years.

"Vote." Chu Landu said.

"I think we should kill the demonized guards first."

"agree."

"agree."

"agree."

.....

Several people present agreed one after another.

Taoist nun Ku Sui hesitated to speak, but finally nodded, "Since everyone agrees, there is nothing more to say. I agree too."

Chu Landu led the way in front, and the few people continued to move forward.

We walked for more than ten minutes.

Unexpected.

Chu Landu's expression changed as his ankle touched a transparent silk thread.

Before he could react, more than a dozen hidden arrows flew from the depths of the tunnel.

These hidden arrows were close to Chu Landu in an instant.

The moment Chu Landu leaned back to avoid the hidden arrow, he couldn't help but cry out in pain.

At this moment, a poisonous arrow flew out from the ground and pierced Chu Landu's buttocks at the moment when Chu Landu leaned back.

"Damn it, who is so insidious."

Chu Landu shook out the hidden arrow on his butt and sealed his acupuncture points one after another.

"The arrow is poisonous!!"

Chu Landu's internal energy circulated throughout his body, and a trickle of black blood was forced out from his butt.

"Oh shit!!"

The poison flowed from the buttocks to the whole body, and then was forced back from the whole body to the buttocks by his internal strength. This feeling was so sour and refreshing.

"This poison is not overbearing, but it will dissipate the internal energy in my body. Now I really can't leave." Chu Landu said.

"It should be the work of those Luowang guys. They are probably afraid of accidentally hurting their own people. This poison is not fatal, but it is difficult for me to fight in a short time."

Lin Tianhao frowned and said:

"Then there's nothing we can do. Rest first and recover from your injuries at the same time."

As soon as Lin Tianhao finished speaking, a woman's voice came from the darkness.

"Who are you?"

The ambitious Taoist priest looked into the depths of darkness and said:

"I'm the ambitious Taoist priest of Bureau 749. I don't know what to call you, my friend."

"Luowang, codenamed Shunan Tyrannosaurus."

Chapter 1327 Attacked, powerful archer!

Falling with the sound.

A woman in nightgown stepped out of the darkness.

She has long black hair tied up behind her head, fair skin, and a pretty face, looking pure and lovely.

"Look at the claws. Have you ever seen a fight with a beautiful woman?"

The Shunan Tyrannosaurus glared at Lin Tianhao. It would have been fine if she didn't speak, but as soon as she opened her mouth, her pure and lovely beauty was trampled on the ground.

With this appearance and this voice, the disparity is quite big.

"It's quite interesting. Taoist priests, monks, zombies and ancient Qi-refining masters. This lineup is quite luxurious."

The Shunan Tyrannosaurus glanced at the few people with some surprise.

"The 749th Bureau accepts anyone now."

The ambitious Taoist smiled awkwardly and said:

"Some of these people here are not from the 749 Bureau. We just have the same goal and are traveling together."

"No wonder."

Shunan Tyrannosaurus waved his hand and said:

"This place is our Luowang's territory now. If you want to kill the demonized guards, go somewhere else."

Chu Landu smiled slightly and said:

"Everyone has similar goals, so we can definitely cooperate with each other."

Shunan Tyrannosaurus shook his head without even thinking:

"No, our fighting style is completely different from yours. If we cooperate with you, we will only be a burden to us."

The ambitious Taoist priest hesitated to speak. It seemed as if they were all rookies who would be a burden if they opened their mouths.

"We won't necessarily drag you down. To be honest, we are still very powerful."

"cut!"

Shunan Tyrannosaurus waved his hand, "Who wouldn't be amazing to be able to get this far?"

"There are nine spaces here. There's no need for you to fight with us for one."

When they first learned that there were Luowang killers here, they actually thought about cooperating with each other.

After all, they are not enemies of each other. The Luowang killers once helped them deal with the Japanese ninjas, so they could be considered to have cooperated.

Lin Tianhao looked at the Shunan Tyrannosaurus and said:

"You should have a good number of people. With your strength, it should be difficult to kill the Lone King. You should not have killed the Mad King above, but took advantage of it, right?"

Hear this.

The Shunan Tyrannosaurus did not refute and said with a smile:

"Where has it happened?"

Lin Tianhao smiled and said:

"No matter how many monsters you kill, the rewards you get from the boss are not as high as they are. The rewards from the Mad King are generous, and the rewards from this Lonely King will be even more generous."

"Don't you guys want to have a piece of the pie?"

No team.

This is not a bad thing for Lin Tianhao.

Relying on the sword power of the first level of the realm of inquiry, he has a high probability of killing the lonely king even without these Luowang killers.

"Do not want to."

Shunan Tyrannosaurus answered very confidently, "We won't take what is not ours. If you can deal with me, you don't have to fight us. If you can't, even with us, it won't work."

Lin Tianhao waved his hand and said, "Okay."

Since the other party is unwilling to cooperate, it is not a big loss for Lin Tianhao.

As killers, they all like to be alone.

"correct."

The ambitious Taoist thought of something and asked again:

"Have you met anyone else from our 749th Bureau?"

Their main purpose this time is to find other people from Bureau 749.

"Have."

"He claims to be the old director of your 749th Bureau. I don't know if it's true or not, but he is really strong."

"But his condition is not good. He doesn't know what claws he has made. There is a very strong monkey chasing him."

"According to my estimation, even if he is not dead, his current condition would not be very good."

The ambitious Taoist's expression changed. Monkey?

When I met the fake six-fingered priestess before, she was in a seal.

And the thing originally sealed in that sealed place was a monkey.

Now, from what Shunan Tyrannosaurus said, I wonder if there is any connection between the two.

"The old director is very powerful, he should be fine." Venerable Dragon and Tiger comforted.

The ambitious Taoist priest asked:

"Where did you meet our old director?"

"Up there, on the seventh floor."

"I don't even know whether he came to the eighth floor or not. Don't ask me. I have something else to do."

After saying this.

The Shunan Tyrannosaurus turned and left.

"Your poison is nothing serious. You will recover after twelve hours of weakness."

The Shunan Tyrannosaurus left, and her voice echoed again.

They did not encounter anyone else on the seventh floor of Mo Yuan.

But according to the above situation, they should all end up in a mental hospital.

After all, there should be only one Mad King. It is impossible that there are nine spaces in the seventh floor of Mo Yuan, so there will be nine Mad Kings.

This is obviously impossible.

"We're already here, we'll meet sooner or later." Lin Tianhao said.

We are now at the eighth level of Mo Yuan. Judging from the situation on the eighth level, most people would probably think of killing these demonized guards first.

After all, there are a large number of these demonized guards. As long as you kill more of them, your realm will be improved very quickly.

"Then let's go to the next space." Chu Landu said.

The Luowang killers once helped the authorities, so there is no need to feel bad for them.

and.

The Luowang killer was able to suppress the Japanese ninja in the art of assassination, and this method shocked many people.

If you offend them, you might be assassinated one day.

therefore.

Most forces would not want to provoke them unless they had to go against them.

When Chu Landu brought Lin Tianhao and others to the next stone chamber, they began to rest.

He is not in a good condition to continue fighting.

"The Shunan Tyrannosaurus said that my condition will last for twelve hours, so you can rest and recover from your injuries."

Lin Tianhao frowned slightly. Twelve hours was neither long nor short.

Entering the Ragnarok of the Gods, Lin Tianhao can only seek enlightenment.

"Xue Di, it's the same as before. When you enter Ragnarok, we will call you if there is anything." said the ambitious Taoist priest.

Lin Tianhao nodded slightly and was about to enter Ragnarok.

But right now.

Several feather arrows flew towards Lin Tianhao's location.

No one blocked these arrows for Lin Tianhao because they all knew Lin Tianhao's defensive ability.

"Dang Dang Dang——"

These feather arrows hit Lin Tianhao, and Lin Tianhao felt a piercing pain.

Blood actually flowed from the place where he was hit by the feather arrow.

These feather arrows broke through his defense! !

This scene.

It shocked everyone present.

"Shhhhhh—"

The arrows continued to fly, and this time everyone did not dare to be negligent.

Taishan Buffalo stood in front of him, put his hands together, and a shield formed by the mysterious and yellow energy appeared in front of him.

"Bang bang..."

"Bam—"

The shield formed by the mysterious and yellow energy blocked the first two feather arrows, but was shattered by the third feather arrow.

"So strong!!"

Taoist nun Ku Sui looked at the feather arrows that came one after another. She slapped out with one palm, and an illusory red palm print shattered several feather arrows, which then dispersed.

"I go."

Lin Tianhao rushed out with a sword in hand, and a stream of sword energy slashed towards the corridor.

Chapter 1328 Demonized Assassin Leader!

Lin Tianhao had just stood up when a feather arrow flew out from the corridor behind him and headed towards Chu Landu.

The ambitious Taoist priest's eyes narrowed slightly, and he slapped out a palm thunder.

The palm thunder shattered three feather arrows, and the fourth feather arrow continued to fly towards Chu Landu.

Chu Landu was weak at this moment, and facing this arrow flying at an extremely fast speed, he had no room to dodge.

Lin Tianhao did not slow down at all, he had to deal with an archer first.

The moment he rushed into the tunnel, Lin Tianhao saw a group of demonized guards rushing towards him.

"You must be possessed by evil spirits, making dumplings again!!"

They just encountered the experience of being made dumplings today, and now they are being made dumplings again.

Lin Tianhao's sword energy was so powerful that each arrow could take away several demonic guards.

But the space in the corridor was too narrow, and Lin Tianhao had limited room to maneuver.

These demonized guards seemed to be endless and poured in madly.

at this time.

Lin Tianhao also saw the person who shot the arrow.

The man who shot the arrow was a demonic commander wearing golden armor.

His attack speed was extremely fast, and feather arrows flew towards him one after another.

According to Lin Tianhao's estimation.

The attack speed of this demonized commander should have exceeded ten.

Ten arrows per second, this sense of oppression is a bit too strong.

Although Lin Tianhao has the sword power of the first level of the realm of Taoism, he has shortcomings in other aspects.

Moreover, these feather arrows could break into his house. If he was hit by a few more arrows, he might be injured.

and.

This demonized commander is very sinister.

With every move of his hands and feet, the arrows flew towards Lin Tianhao's chest, whose defense had just been broken.

He wanted to make Lin Tianhao more injured.

This kid is so damn mean.

A cold light flashed in Lin Tianhao's eyes. The sword energy had to block the feather arrows and kill these demonized guards, which made it difficult for Lin Tianhao to kill them.

No matter how many demonized guards he kills, as many demonized guards will emerge behind the demonized commander.

Lin Tianhao retreated and used the bodies of these demonized guards to dodge the feather arrow attacks from the demonized leader.

But Lin Tianhao was dumbfounded as soon as he did this.

Because the demonized commander completely ignored the life and death of the demonized guards, several feather arrows penetrated the demonized guards' backs, flew out from their chests, and hit Lin Tianhao's chest.

“So cruel!!”

Lin Tianhao's eyes narrowed slightly. Fortunately, after the feather arrows pierced through the body of the demonized guard, their power dropped significantly, which allowed Lin Tianhao to barely withstand these feather arrows and not be broken.

such.

Lin Tianhao's proficiency in the Iron Skin and Bone skill can be improved, and he himself will not have to bear too much damage.

This situation is better than Lin Tianhao expected.

You can stack the proficiency of Copper Skin and Iron Bones and kill these demonized guards.

But there was no progress here for Lin Tianhao, and the situation of Taoist Priest Motivation and Venerable Dragon and Tiger was not good.

Not only did he lose Chu Landu, the ancient Qi-refining master, but he also suffered injuries from the previous battle and was exhausted in terms of physical strength and internal energy.

At this time, a large number of demonized guards rushed into the corridor at the rear, and the demonized leader attacked frantically with feather arrows.

It was already very difficult for them to resist the feather arrows of the demonized leader.

"Let's retreat to both sides so that his arrows can't hit us."

The ambitious Taoist dragged Chu Landu to the edge of the stone chamber.

This stone chamber is round, with corridors in the front and back.

If we lean against the stone walls on the left and right sides, it will be difficult to attack the demonized leaders inside the corridor.

"These two demonized commanders are even more powerful than the ones we encountered before. They seem to be targeting us specifically."

That middle-aged female guard captain is talking complete nonsense.

They had only been here for a short time, but they had already been surrounded twice. Moreover, these guys were getting stronger each time.

This time, it was obvious that these two archers were coming for them.

however.

The ambitious Taoist's approach does not relieve the pressure.

because.

The demonized commander only needs to get close to the entrance of the corridor to attack any position in the stone chamber.

"Damn it, let's fight!"

The Tarzan Buffalo roared angrily, and his muscles stretched out, his body becoming a little bigger.

The mysterious yellow energy around his body surged out and rushed towards the direction of the corridor.

He then rushed forward, and several demonized guard captains emerged from the corridor and fought with the Taishan Buffalo.

"There were four demonized commanders before, but only two have appeared now."

Taoist nun Ku Sui looked solemn.

Just two demonized commanders are enough to put them under tremendous pressure. If two more demonized commanders appear, their situation will be even worse.

The moment Taoist Nun Ku Sui finished speaking, her eyes widened, blood gushed out of her throat, her face changed drastically, and she held her neck with both hands, but was unable to stop the blood from gushing out.

"Taoist nun."

Chu Landu shouted loudly.

As Nun Ku Sui fell down, a demonized leader holding a golden dagger and wearing golden armor appeared behind her.

This is... an assassin!!

Thunder rippled out from the body of the ambitious Taoist priest, but it was too late.

A golden dagger pierced his spine and severed his central nervous system.

His central nervous system was severed, and the ambitious Taoist priest instantly felt that he had lost control of his limbs, and the thunder on his body quickly dissipated.

Before he could react, a dagger slashed his throat.

The other two demonized commanders who did not appear are both assassins.

Use two archers to demonize the commanders and put pressure on them, and two assassins to carry out beheadings.

After killing Taoist Priest Yexin and Taoist Nun Ku Sui, they did not leave the bodies behind but dragged them away directly.

It is clear.

They also know about the resurrection coins.

If the bodies were left behind, Lin Tianhao and his men could still resurrect Taoist Priest Motivator and the others.

“Ambition!!”

Lin Tianhao's eyes were red with anger, he and the ambitious Taoist priest had been through thick and thin together.

Maybe God is helping him.

At this time, the skill that comes out of the skill jade pendant is Swift Shadow Body Movement.

He rushed to the demonized assassin almost in an instant.

The demonized assassin was startled, and his body flashed and disappeared.

Lin Tianhao snatched the body of the ambitious Taoist priest and used four resurrection coins in succession to resurrect the ambitious Taoist priest.

Lin Tianhao had just resurrected Taoist Priest Motivation, but the body of Taoist Nun Ku Sui had already been dragged into the corridor.

Although he had the ability to move swiftly, he was already surrounded by a large number of demonic guards in just this short period of time.

"Die to me!!"

Lin Tianhao swung his sword, and the seven or eight demonized guards around him were cut in half.

But just when they could catch their breath, Chu Landu was stabbed in the left shoulder by a demonized guard captain.

He now has no fighting ability at all and mainly relies on the protection of Corpse Ancestor Tianyue, Venerable Dragon and Tiger, and Taoist Nun Ku Sui.

Just now, Nun Ku Sui and Taoist Priest Ye Xin were killed at the same time, and as a result, the demonized guard captain found an opportunity and stabbed his left shoulder.

The Dragon and Tiger Venerable immediately stepped forward and prevented Chu Landu from dying here.

Chapter 1329 Cansheng, the Taoist nun Ku Sui was taken away!

Otherwise, Chu Landu would have been a dead man.

Chu Landu looked at his bleeding left shoulder, his eyes flashing with murderous intent.

"Damn it, this is too much!!"

"Old man, kill them all!!"

"Even if I die here today and my body collapses, I will kill them all for you!!"

Chu Landu was really angry. He didn't want to be a useless person.

"Okay."

The aura on Chu Landu suddenly changed, and that kind of crazy and evil aura that was both good and evil was revealed from him again.

Chu Landu, who had been indifferent at first, stood up directly after his aura changed.

He glanced at Lin Tianhao with a playful look and said:

"You only have the understanding of the way of the sword, but you can't bring out the true power of the way of the sword. You are useless!!"

The corner of Lin Tianhao's mouth twitched, and before he could say anything, Chu Landu's body moved.

His body turned into a stream of light and in an instant he had arrived in front of the corridor.

Facing the large number of demonized guards pouring in.

[Chu Landu] did not use his ultimate skill to clear a path as he did before. Instead, he moved among the crowd like a ghost.

The attacks of these demonized guards were always just a hair's breadth away from hitting him.

Wherever he passed, the demonized guards fell one after another.

They were basically killed by slitting their throats.

There were still a steady stream of demonized guards behind the demonized archer, but Chu Landu's pace was very steady, approaching the demonized archer little by little.

At this time, Lin Tianhao gave up killing the demonized archers on the other side, and instead joined the team to slaughter the demonized guards.

As long as these demonized guards are killed, the remaining demonized archers will be much easier to deal with.

Lin Tianhao's sword moves were indeed not very sophisticated, but with the help of his Swift Shadow Body Technique, his speed in killing the demonized guards was much faster than that of Chu Landu.

Lin Tianhao was also a little curious.

Who is this old guy in Chu Landu's body?

This kind of force is too strong to be true.

Chu Landu's own body was not strong enough to support the release of the old man's power in his body.

Chu Landu's body was close to collapse before because the old guy in his body attacked too fiercely.

At this time, Chu Landu's attack was much gentler, and it seemed that he was also afraid of damaging Chu Landu's body.

After dealing with a large number of demonized guards, Lin Tianhao once again attacked the demonized archers in the corridor.

"Be careful of the sneak attacks from the demonized assassin."

Lin Tianhao gave a reminder and rushed into the corridor in an instant.

suddenly.

Lin Tianhao paused.

because.....

Xunying's identity skills are gone!!

Damn, that's fucked up!!

But after seeing his new random skill, Lin Tianhao couldn't help but smile again.

"God wants to kill you!!"

This time, Lin Tianhao's random skill was the two-handed shadow puppet. He directly used the two-handed shadow puppet to control the demonized archer.

Let the demonized archers help you kill the demonized guards.

However, in order to avoid any further complications, Lin Tianhao still rushed forward and chopped off the head of the demonized archer.

Lin Tianhao cut the demonized archer's body into a quarter and chopped it into pieces.

And threw his head into the storage ring.

such.

Even if someone wanted to resurrect him, it would be impossible.

Stay on the other side after Lin Tianhao kills the demonized archer.

[Chulan Du] was ambushed.

His body movements were good, but the two demonized assassins hid in the corner, and the moment Chu Landu drew his sword, they slashed at Chu Landu's legs at the same time.

[Chu Landu]'s reaction speed was very fast, and he avoided the attack of a leg in the first moment.

The other leg used internal strength to try to block the demonized assassin's dagger.

But the attack power of this demonized assassin obviously exceeded Chu Landu's expectations.

The demonized assassin's dagger cut through Chu Landu's ankle, cutting off one of Chu Landu's feet.

Having lost the sole of his left foot, Chu Landu lost his balance, and arrows were flying in front of him. After another demonized assassin's attack missed, he rushed towards Chu Landu again.

[Chu Landu] was no longer able to dodge at this time, and the sword in his hand suddenly stabbed into the ground.

"The sword suppresses the eight wastelands!!"

As the long sword in Chu Landu's hand was inserted into the ground, countless sword qi spread out from the long sword in all directions, beheading two demonized assassins while killing almost all the demonized guards in the corridor.

But it was this one blow.

Chu Landu's skin and flesh began to crack again.

Looking at him like this, his body may collapse at any time.

"You really need to temper your physique."

[Chu Landu] A somewhat annoyed voice sounded.

If Chu Landu's body wasn't too weak, he would be able to kill all the demonized guards here.

The armor of the demonized archer was covered with sword marks, but he still managed to withstand the [Sword to Suppress the Eight Desolations] that [Chu Landu] had just unleashed.

Seeing that [Chu Landu] was so weak, she raised her hand and wanted to attack again, killing [Chu Landu].

But the next moment.

His movements froze, the arrow in his hand fell, and he subconsciously grabbed his neck, only to see that his neck had been cut.

The one who made the move was the demonized assassin controlled by Lin Tianhao using the shadow puppet in his hands.

After Lin Tianhao dealt with the demonized archer, he immediately controlled the two demonized assassins to commit suicide.

If the skill changes again, he won't even have a place to cry.

After dealing with the four demonized commanders, the battle came to an end.

This battle was a close call.

wrong.

Where is the Taoist nun Ku Sui? ! !

Lin Tianhao quickly dealt with these demonized guards, but did not find the body of Taoist nun Ku Sui.

He had just used all his strength, but he only saved the ambitious Taoist priest. As for the Taoist nun Ku Sui, she had disappeared.

"Have you seen the Taoist nun Ku Sui?" Lin Tianhao asked in a deep voice.

While talking.

Lin Tianhao threw another bottle of big red medicine to Chu Landu.

There were five bottles of big red medicine in total, and he only used one bottle himself, so now he gave two bottles to Chu Landu.

Chu Landu took the big red medicine and drank it in one gulp.

The effect of this big red medicine is really good. Chu Landu's body is recovering at a speed visible to the naked eye.

"What a great stuff." Chu Landu couldn't help but sigh.

The words fell.

His expression became serious again.

"It seems that the body of Taoist nun Ku Sui was dragged away by a demonized guard captain. If nothing unexpected happens, she should be taken to the palace of the lonely king."

Everyone worked together to take care of the remaining demonized guards, and then they sat together to rest.

This time, the appearance of the demonized archers and demonized assassins was something no one present had expected.

The ambitious Taoist priest was killed once, and the Taoist nun Ku Sui disappeared.

Lin Tianhao's defense was also broken.

Chulandu was even worse off.

His foot was cut off, and although it was reconnected with the help of the Big Red Medicine, his injuries were still too severe and not even half recovered.

Chapter 1330 Clues about the old director!

"Take a good rest."

Taoist Priest Motivation sighed heavily, "What are those assassins from Luowang doing? Aren't they hunting these demonized guards?"

Lin Tianhao frowned and said:

"With such a large scale, it is obvious that they are coming for us. It is very likely that they are not the demonized guards of this space."

"Amitabha."

The Dragon Tiger Venerable chanted a Buddhist name and said very seriously:

"I feel that these demonized guards seem to be deliberately targeting us, perhaps because we have something special."

"Or..."

"We have someone special here!!"

That's it.

The Dragon Tiger Venerable's gaze fell on Lin Tianhao.

"Xue Di, could this lonely king be coming for you?!"

Lin Tianhao did not respond, and the Dragon Tiger Venerable continued:

"The Snow Queen is so special, with the blood of the dragon clan and strange sword power..."

"There is also the protection of the person behind Corpse Ancestor Tianyue. Even if we don't consider the influence of Snow Emperor within Ragnarok, what Snow Emperor has revealed now is too strange."

Obviously.

Venerable Longhu thinks.

The reason they were targeted was because of Lin Tianhao.

In fact, according to Venerable Longhu's speculation, this is entirely possible.

Not only that.

Lin Tianhao also possesses a skill jade pendant, which might be something that I value most.

"It's useless to think about these things now. Let's heal our wounds first and recover well."

"As for Taoist nun Ku Sui, given our current situation, even if we kill her at my palace, we may not be my opponent."

While talking.

The ambitious Taoist priest has already started touching the corpse.

This time, the rewards from searching corpses were also a large amount of equipment and some resurrection coins.

Next.

It's a fifteen-hour break.

Lin Tianhao entered the Ragnarok of the Gods to gain enlightenment, trying his best to enhance his understanding of the Tao within this limited time.

Two lives are human beings.

Lin Tianhao knew very well that in a battle between truly powerful people, there were often very few fancy skills.

It is more of a competition of pure strength and Taoism!!

When Lin Tianhao came out of Ragnarok again, everyone's condition had almost recovered.

of course.

With only fifteen hours of recovery, it is still difficult for them to recover to a perfect state. At best, they can recover 90%.

"Do you want to continue hunting?" asked the Dragon Tiger Venerable.

Nun Ku Sui was taken away. Should they consider rescuing her first?

Everyone's eyes were focused on Lin Tianhao.

Having mastered the power of the first level of the realm of asking for the way, Lin Tianhao has become the strongest person here.

In addition to Lin Tianhao's reputation as the Snow Emperor, they were naturally willing to listen to Lin Tianhao's opinions.

"Kill the lonely king!!"

Lin Tianhao has the sword power of the first level of the realm of Taoism, plus a body of iron and steel.

In reality, there is no need to continue improving your strength.

Don't say anything else.

Even if other countries send masters like Black Demon to hunt him down, he is not afraid.

Now, the most important thing for Lin Tianhao is to leave Mo Yuan, return to Ragnarok, and improve his strength as much as possible in Ragnarok.

Lin Tianhao has gained a lot from this trip to Mo Yuan.

"it is good."

Chu Landu didn't say much and just led the way.

"We have been close to the palace of the lonely king before, but we have never entered it. It is possible that there are more demonized guards in the palace of the lonely king."

Didn't go long.

Lin Tianhao and his companions heard the sound of fighting.

A little closer.

Lin Tianhao then realized that those were several killers in night clothes fighting with the demonized guards.

There are not only demonized guards, but also two demonized commanders.

"It seems that our previous judgment was correct. The ones who attacked us were not the demonized guards of this space."

Lin Tianhao communicated via voice transmission.

"Can you help me?" Taishan Buffalo transmitted the message.

Lin Tianhao raised his eyebrows and said:

"Since they told us not to interfere, there's no need for us to try to get involved. We should just avoid them."

These stone chambers are interconnected, and if you don't go through here, you can go around from other places.

These Luowang killers faced two demonized commanders directly, which means there are still two demonized commanders who have not appeared yet.

Judging from the situation that Lin Tianhao and his team had encountered before, the four demonized commanders all came together.

There are only two demonized commanders here now. If nothing unexpected happens, the other two are probably here too.

And there is a very high probability that the other two are demonized assassins.

Just don't know.

Can these Luowang killers react when faced with the sneak attack of the demonized assassin?

Assassins and killers are the same thing, but I don't know who is better between the Luowang killer and the demonized assassin.

Lin Tianhao and his companions bypassed the battle site of the Luowang killers and walked towards the other side.

After passing through two circular stone chambers, Lin Tianhao and his companions saw obvious signs of fighting in the third circular stone chamber.

On the stone wall.

The huge fist marks are clearly visible, and the footprints on the ground are equally shocking.

Taishan Buffalo looked at the footprints on the ground and couldn't help saying:

"These traces of battle were left not long ago, and the person who left these traces is bigger than me."

"It's not that I'm bigger than you, it's that I'm using different martial arts techniques."

The ambitious Taoist priest looked solemn.

"This is the old director's fourth level golden body technique. It looks like the old director has experienced a fierce battle here."

While talking.

The ambitious Taoist looked at the corridor ahead. When they came over, they did not see any trace of the old director.

In this place, there are only two corridors, one in front and one in the back.

There was no trace of the corridor they came from, so the old director should have run towards the corridor ahead.

Lin Tianhao and his companions followed closely behind. On both sides of the corridor, they could see that the stone walls on both sides were severely damaged.

It looked like there was a guy and the old chief fighting each other.

Let's analyze it based on what Shunan Tyrannosaurus said before.

The most likely scenario is that there is a monkey chasing the old director.

"Hurry, the old director might be in danger."

The ambitious Taoist walked faster.

These traces of battle did not last long, and as long as they were faster, it would be entirely possible for them to catch up with the old director.

After all this time, this is the closest they have been to the old director.

Everyone followed the ambitious Taoist's steps and quickly chased forward.

The traces of battle spread all the way to the next stone chamber.

just.

There were obviously fewer traces of fighting in this stone chamber. It seemed that when the battle reached here, the old director had already given up the resistance and started to run away unilaterally.

"Where on earth did that monkey come from to force the old director to this point?" Venerable Dragon and Tiger was a little surprised.

The ambitious Taoist priest looked solemn, "No wonder the old director has no time to contact the outside world, it turns out that he has been hunted down."

That's it.

The ambitious Taoist continued to chase.

After walking through the corridors, Chu Landu frowned and said:

"This... seems to be the direction leading to the lonely king's palace!"
