

O games 1341

Chapter 1341: Counterfeit, resurrection coins increased!

"We in Jiulong Cave Heaven treat outsiders like this. If you want more resurrection coins, you can come to Jiulong Cave Heaven again."

Hear this.

Lin Tianhao was slightly surprised and said:

"From what you said, it seems that you are sure that we can't leave here and can't come back here?"

Xiao Bailong shook his head and said:

"Of course not, it's just that I can't get here using the same method."

"It has nothing to do with strength, and I definitely don't mean to look down on you adults."

This little white dragon was obviously very powerful, but he did not have an arrogant attitude and was extremely polite to them.

"Since we are here, let us stay here for a few days."

"Otherwise, it's really not worth it for us to go through so much hardship to get here and leave with ten resurrection coins."

Xiao Bailong thought for a moment and said:

"My Lords, I'm afraid this won't work. Jiulong Cave Heaven has its own rules. I hope you can understand."

Lin Tianhao narrowed his eyes, stared at the little white dragon for a while, and suddenly smiled:

"Strangely enough, there was another person who came down with us. He looks exactly like you. Isn't that a coincidence?"

Since this doesn't make sense, let's try another angle.

really.

When Xiaobailong heard that someone who looked exactly like him came here, his expression became a little unnatural.

"I'm afraid that person doesn't look like me, but is an intruder."

That's it.

Xiao Bailong asked with a serious face:

"He came with you. What do you know about him?"

"I don't understand."

Lin Tianhao spoke calmly.

"We met him when we were about to enter Jiulong Cave Heaven, but he was much more generous than you. He gave each of us fifty resurrection coins and asked us to bring him in."

Hear this.

Xiao Bailong's expression became even uglier. "Giving so much means he has big plans. Where did he go?"

Lin Tianhao looked embarrassed, and Xiaobailong took out thirty resurrection coins without saying a word.

See this.

Lin Tianhao took the resurrection coin and pointed in the direction where the white-robed scholar left with a smile.

Xiaobailong didn't waste any words. He moved and disappeared from everyone's sight.

Lin Tianhao raised his eyebrows slightly, and a strange look appeared on his face.

The remaining two young turtle men looked at each other, and they were still the ghost young man who came up to negotiate before.

He smiled faintly and said:

"My Lords, you can take a rest here."

"We will discuss the matter of the resurrection coins after Lord Bailong returns."

Lin Tianhao waved his hand and said:

"Not in a hurry."

"How many people are there in Jiulongdongtian?"

The young turtle smiled bitterly and said:

"Sir, you are putting us in a difficult position. We cannot tell anyone about the Nine Dragon Cave Heaven."

"Amitabha."

The Dragon Tiger Venerable chanted a Buddhist name and said calmly:

"Donor, you don't have to do this. The less you want to talk, the more curious we are. The more curious we are, the more we want to explore this place."

The young turtle thought for a moment before saying:

"In fact, we in Jiulong Cave Heaven are not as arrogant as you think. We do have resurrection coins here, but not everyone has them."

"Ordinary turtleback people like us may not be able to earn a resurrection coin in our lifetime."

"You just came here, and Lord Bailong promised you a resurrection coin each. This is already a very generous reward."

Lin Tianhao and the others were all looking at the young turtle. From his eyes and expression, they could tell that he was not lying.

"If that's the case, then what can't be said?" Lin Tianhao asked.

The young turtle sighed and smiled bitterly:

"People are greedy. If I tell you everything, you will definitely want more."

"So, you have other things here besides the resurrection coins?"

The young turtle nodded and said:

"Nine Dragon Cave Heaven also has special concentrates that can enhance elements, but don't think too much about it."

"Some people have come to our Jiulong Cave Heaven before, but in the end only one person left alive."

That's it.

The young turtle said quickly: "Don't misunderstand me, sir. I have no intention of threatening you."

"We in Jiulongdongtian give everyone ten resurrection coins to send them away."

"It's ridiculous. We couldn't even get one resurrection coin in our lifetime, but Lord Bailong gave us ten at once. But those adults refused to pay."

Lin Tianhao was not surprised.

Because he knew that anyone who could come here would definitely want more.

"People are greedy and always want more."

The moment Lin Tianhao finished speaking, everyone looked in the direction where Xiaobailong left.

A strong breath of fire surged towards them.

Not long after.

Lin Tianhao saw Xiaobailong coming back carrying someone.

The man in his hand was wearing the same white robe as Xiaobailong. He was already dying and was held in Xiaobailong's hand.

It seems to be sensing something.

The dying man raised his eyes and looked at Lin Tianhao and the others. With a look of resentment in his eyes, he questioned:

"Didn't we agree to go our separate ways? Why did you sell me out?!"

Lin Tianhao spread his hands and said:

"You didn't say you couldn't tell anyone else about your situation."

"This little white dragon looks exactly like you, so it's inevitable that you have something to say about him."

Xiao Bailong snorted coldly, "If you dare to say anything more, I will kill you now."

The words fell.

Xiao Bailong threw him to the ground, looked at Lin Tianhao and the others, and said with a smile:

"Thank you for telling me the clues about this person. If you leave now, I can give each of you fifteen resurrection coins."

"it is good."

Although the resurrection coins are precious, Lin Tianhao is very clear that with his current strength, he may be able to get the resurrection coins after returning to Ragnarok.

And after this trip to Mo Yuan, Lin Tianhao felt a sense of urgency.

Including the time spent in Mo Yuan, there are still three years and two months left before Ragnarok merges with reality.

It seems like there is still a long time, but Lin Tianhao knows that he still has a lot to do next.

His health points are added up, so he is easy to deal with unless you encounter a god.

But what if you encounter a spirit? !

Can he still defeat a true god in full health?

What if he is the God King, or even the God Emperor?

His own rebirth had brought about many changes to Ragnarok.

Lin Tianhao even doubted whether it would take another five years for Ragnarok to merge with reality this time.

What if...it happens early?

After all, this Mo Yuan is obviously not the real world, but a game copy.

Understanding it from another perspective, can we say that this is already a manifestation of the fusion of Ragnarok and reality?

However, according to Lin Tianhao's analysis, Taoist Priest Moxin and his companions had also been to Mo Yuan in their previous lives, and there was a high probability that they died in Mo Yuan.

Chapter 1342 Leaving Mo Yuan, Night King asks about the chapter!

Everyone knew that they had spent long enough time in Mo Yuan this time, and what they had gained in Mo Yuan was considered very good.

Seeing that everyone agreed, Xiaobailong gave everyone the resurrection coins he promised them.

"Let's go."

Xiao Bailong took out a teleportation key and said, "Use this teleportation key and you can leave here directly."

Just like the previous teleportation, the ambitious Taoist used the teleportation key and took everyone away.

When the space fluctuation ends.

Lin Tianhao just looked around.

Here.

It's Aolong Village!

They're back!

just.

Among the old director's group, only the old director came out.

They didn't know whether the mole had come out or not.

Lin Tianhao and his companions had just arrived here when a group of soldiers armed with live ammunition rushed over and surrounded Lin Tianhao and his companions.

"This is a special situation. Please do not act rashly. Everyone needs to verify their identity before leaving."

As the man's voice fell, a figure walked quickly over.

The person who came was none other than Zuo Tianyang, the director of Bureau 749.

"Old Director, Ambition, Xue Di, you are all back!!"

Zuo Tianyang was very excited, but there was still a hint of vigilance in his eyes.

"Verify the identity first and make sure it is not a clone before making a decision."

The people in the War Department did not take it lightly, and gaming helmets were sent over one after another.

"Please log in to Ragnarok and send a message to Berserker Blade to verify your identity."

"it is good."

A clone has escaped from Mo Yuan, so it is only right to be cautious.

Next.

They verified their identities one by one.

At last.

The only ones left are Corpse Ancestor Tianyue and Monkey.

What surprised Lin Tianhao was that the corpse ancestor Tianyue, as a zombie, was actually able to enter Ragnarok.

Zombies can enter Ragnarok, but clones can't. Why is that?

Could it be that those clones are copies of living beings, or are they not living people at all?

"We brought him from Moyuan." The old director pointed at the monkey and said seriously:

"You will explain his problems to the higher-ups."

Except for monkeys.

Everyone's identity was confirmed, except for the monkey brought out from Mo Yuan, who was not stopped.

But the captain of the combat department still said very seriously:

"Old Director, you are an important official of our Dragon Country. I believe in your judgment, but this Mo Yuan is too special..."

The monkey bared his teeth at the captain, obviously very dissatisfied with his attitude.

The old director nodded heavily and said:

"I understand that there are some things that are inconvenient to talk about here. I will explain all the details to the cabinet members."

Hear this.

The people from the War Department stopped talking.

"We will escort you back next. Because the situation is special, we may also conduct a brief interrogation with you. I hope you can understand."

Lin Tianhao raised his eyebrows, not knowing what the people from the War Department wanted to ask.

The old director was quite dissatisfied.

"Even if I want to ask questions, it's not your turn!!"

The captain of the combat unit looked gloomy and said:

"Old Director, Mo Yuan belongs to a special copy. I hope that as a senior, you will not embarrass us."

"I didn't say you can't ask, but I think... you are not qualified!"

"Who ordered you to question us?"

The old chief refused to give in at all. It looked like today would not end well if the captain couldn't explain himself.

"Old Director, you are my senior, I respect you!"

"But I also hope you can respect me."

The words fell.

A powerful aura emanated from the captain of the troop.

Chu Landu felt the aura of the captain of the troop and his expression changed slightly.

"Ancient Qi Refiner?!"

The corps captain did not give any extra explanation, but took out a letter of authorization.

After seeing the contents of the letter of commission, I felt the aura of the captain of the troop.

"You are not from the War Department."

"Please forgive me, Director. For some reasons, our identities are not disclosed to the public."

Hear this.

The old director was no longer angry, but nodded, "Okay, since it's someone under that person's command, just ask if you want to."

Lin Tianhao was also a little surprised.

He didn't see anything different about Shu Ming Han.

But looking at the old director's expression, it was obvious that he knew something.

and.

The aura of this captain is still quite powerful.

Judging from the intensity of his aura, his strength should be similar to that of an eighth-level demonized commander.

This is just judging by the breath.

As an ancient Qi cultivator, he has more methods, and his overall combat power should be above that of the demonized commander.

Since the old director had agreed to be questioned, Lin Tianhao naturally had nothing to say.

Next.

Lin Tianhao was taken to a separate room with a table in the middle.

After Lin Tianhao was brought in, a young man with an untidy beard and messy hair walked in.

He was wearing a black windbreaker which was a little dirty, and he looked like a person who didn't care much about his personal image.

Lin Tianhao narrowed his eyes slightly. This man looked like an ordinary person.

"sit."

The young man in windbreaker sat down opposite Lin Tianhao in a carefree manner.

"Snow Emperor, I have long admired your name."

Lin Tianhao smiled and said, "What's your name?"

"Night King." The young man in the windbreaker laughed.

Night King, a very impressive name, but Lin Tianhao had never heard of it in his previous life.

"My identity, including the organization behind me, is not disclosed to the public. You can understand that we are a more mysterious force than Bureau 749."

"The difference is that our group is not considered to be talented people. We are basically ancient Qi cultivators."

Lin Tianhao nodded gently, "I understand."

As a great country, there are ancient Qi-refining forces within its territory. How could the great country itself not have them?

The approach of the old director and his 749th Bureau is obviously different from that of the ancient Qi-refining masters.

They are warriors or talented people, and there are obvious differences between them and the ancient Qi-refining practitioners.

"I won't ask what I shouldn't know. You can ask whatever you want to know."

The Night King nodded and said:

"Who is that monkey?"

"Not sure. The old director's judgment is that it is the Monkey King Sun Wukong."

"Oh?"

The Night King was a little surprised, but his overall performance wasn't too surprising.

Seeing the Night King's reaction, Lin Tianhao's heart skipped a beat and he subconsciously wanted to ask something, but in the end he didn't ask.

"You don't have to be so reserved. You can ask whatever you want."

"Judging from your reaction, I don't seem surprised. Could it be that... you have discovered other gods?!"

On Blue Star, at this stage, other gods appear? ! !

If this is the case, Lin Tianhao really feels that the things he has been exposed to in his previous life are too few! !

Chapter 1343: Iron Skin and Bones 5 Stars!

The Night King nodded slightly, "We have not yet been able to confirm the identity of a god."

"but....."

"We did discover the existence of what appears to be a deity."

Lin Tianhao took a deep breath. This world is too crazy.

It was crazier than he had imagined.

"What do you think? Could that monkey be the Monkey King?" asked the Night King.

Lin Tianhao shook his head: "It's too unbelievable, I don't know."

The Night King nodded and smiled:

"Are there still those people under Mo Yuan?"

"Drilling Rat and the two subordinates of the Dragon Tiger Venerable, have they come out?"

"There are also Luowang assassins, Japanese ninjas, and another force."

"We have encountered Luowang assassins and Japanese ninjas. In addition, the Japanese ninjas have a poison called Corpse Burning and Bone Dissolving Powder. It is colorless and odorless and can spread in the air. It can kill masters and threaten grand masters."

Lin Tianhao directly told everything he knew. For some reason, he felt that the person in front of him was trustworthy.

Moreover, given Mo Yuan's current situation, the person who was able to be arranged here and question this group of people is definitely trustworthy.

After all, their identities are there, and it is impossible for the higher-ups to just arrange some people to come and question them.

"What did you gain in Mo Yuan?" asked the Night King.

"The biggest gain this time is the resurrection coin, which can revive people who have been dead for a short time. Director Zuo and the others should have mentioned this when they came out."

"In addition, there are some special things in the monkey's storage bag."

"As for equipment, there are some, but they are basically all with Taoist Master Motivation. Most of them are standard equipment and are not very useful."

The Night King smiled and said:

"You're quite cooperative."

Lin Tianhao spread his hands and said:

"There's nothing to hide about these."

"What do you think of Mo Yuan?" Ye Wang asked again.

"Mo Yuan? A copy, a special copy."

"Let me put it this way. Since I've grown to my current position in Ragnarok, I can count the number of NPCs who have used resurrection coins on one hand."

The Night King understood, and after a brief pause, he continued to ask:

"What do you know about those guys in the Arlate system?"

Lin Tianhao said without hesitation:

"A group of invaders from the Aleta Galaxy. Their goal is to occupy our entire galaxy."

"As for the purpose, I have heard a very absurd statement, and it was said by a great man."

The Night King seemed to want to say something but stopped himself, as if he had thought of something and ultimately did not ask.

"Then do you think it's possible for us to make peace with those guys in the Alete Galaxy?"

"No."

Lin Tianhao answered with certainty, "Unless we are strong enough to scare them, they will take the initiative to make peace."

"Any peace talks we propose are not acceptable!!"

That's it.

Lin Tianhao looked sharp and said seriously:

"Long Country has also been invaded before. You should know better than me what to do about invaders?!"

The Night King smiled and said seriously:

"I understand."

"Thank you for your cooperation. There will be a special plane to escort you back, although you may not need it now."

Lin Tianhao hesitated for a moment, then said:

"Night King, can I ask you for a favor?"

"What favor?" asked the Night King.

"I want you to attack me. It doesn't have to be too strong, just close to the limit I can bear."

Although the Night King looks ordinary, it is not difficult for Lin Tianhao to guess that the Night King must be very, very powerful.

"Attack you?"

"You have defensive skills. Can you increase your proficiency by taking attacks?"

"Yes." Lin Tianhao said.

The Night King nodded. He did not move, but Lin Tianhao felt a terrible pressure falling on him.

The pressure continued to increase, and as the pressure released by the Night King increased, Lin Tianhao's proficiency in the Iron Skin and Bone Skill also continued to increase.

"what....."

The Night King seemed to have discovered something and was slightly surprised.

"Yin and Yang are reversed, Qi and blood are flowing backwards..."

"It looks like you were badly injured in Mo Yuan. Fortunately, you have a strong body. Otherwise, what I would have seen would probably be your corpse."

Lin Tianhao didn't say anything, because even though the Night King was speaking, the pressure on him didn't decrease at all.

A line of blood flowed from the corner of Lin Tianhao's mouth.

The Night King just watched quietly without stopping, but he didn't increase his power output either.

Feeling the pressure he was under at the moment, Lin Tianhao was shocked.

He thought that the Night King was very powerful, but before the Night King even made a move, he had completely suppressed him.

What exactly is this ancient Qigong organization that the Night King belongs to?

For now.

They should be the official organization of Dragon Country.

Given the Night King's strength, Lin Tianhao had no doubt that he had the ability to wipe out their entire group.

Taoist Priest Ambitious and Venerable Dragon and Tiger have both broken through to the Celestial Realm and have made considerable progress in Mo Yuan.

Corpse Ancestor Tianyue is also a being comparable to the ambitious Taoist priest.

Chu Lan Du is even more powerful.

At this moment, the feeling that Night King gave Lin Tianhao was similar to the feeling when Chu Landu was possessed by the old monster in his body.

This pressure lasted for three hours.

Lin Tianhao's iron body finally took another step forward and reached five stars! !

The five-star's iron body instantly made Lin Tianhao feel safe.

"The inversion of yin and yang in your body should also help you increase your proficiency in that defensive skill. I won't help you resolve it for now."

Obviously.

The Night King also felt that Lin Tianhao's skills had been upgraded.

"Thank you, Night King."

Lin Tianhao bowed, expressing his gratitude to the Night King from the bottom of his heart.

If the Night King hadn't intervened, it would have been impossible for him, with his iron body and bronze skin, to reach five stars.

"piece of cake."

The Night King didn't care, "My men just passed on all the questions about them to me."

Lin Tianhao was not surprised. Although no one had come in just now, it was not surprising that the ancient Qigong practitioners could transmit secret messages through sound.

"Master Ye Xin said that the monkey revealed that you have the aura of the Six-Eared Macaque."

"Ah."

Lin Tianhao did not hide it, "I was blessed by the Great Sage Equaling Heaven, Sun Wukong, during Ragnarok, and gained a divine skill, the Seventy-Two Transformations."

"I have manifested these seventy-two transformations."

"Is it the Seventy-two Transformations, or the Eight-nine Profound Arts?!"

The eyes of the Night King, who had always been calm, now had a bit more color.

"Seventy-two transformations."

Lin Tianhao responded seriously:

"If it's the Eight-Nine Profound Arts, I'll have to be extremely powerful."

"You are already very powerful." said the Night King.

That's it.

The Night King asked again:

"In that case, why do you still doubt the monkey's identity?"

"After all, even we can't tell what skills you manifested during Ragnarok, let alone this kind of aura."

Chapter 1344 Four people met, drank and talked!

Lin Tianhao still responded calmly:

"Because it is incredible that the Monkey King Sun Wukong appears at this stage, and in the real world. This is something that is difficult for people to accept."

"and."

"Mo Yuan is a copy. I suspect that Mo Yuan itself is connected to Ragnarok. Some special beings in it can see some secrets about me. This is not something that cannot be explained."

The Night King closed his eyes slightly, as if he was thinking.

After a while, he continued:

"Some people say there is an old monster living in Chu Landu's body. What do you think?"

"do not know."

Lin Tianhao shook his head and said:

"In fact, the appearance of Chu Lan Du has already exceeded my original understanding of this world."

"In my opinion, Taoist Priest Ambition should be considered the ceiling of this world."

The Night King smiled and said:

"If we only look at the past 100 years, ambition has really reached its ceiling."

"As for Chu Lan Du, if a fight really breaks out, without the guy inside him, he may not be much stronger than Ambition."

Lin Tianhao was shocked.

Only look at the past hundred years?!

What does it mean? ! !

Could it be that.....

This Night King, who looked only a few years older than himself, might be an old monster who had lived for hundreds of years! !

in history.

There are indeed rumors that some particularly powerful beings live longer.

For example, Peng Zu, Guiguzi, Zhang Sanfeng and so on.

And these people all have a typical characteristic: others practice martial arts, but I practice Taoism!

From a certain perspective, the ancient Qi-refining masters can actually be considered "immortals" among mortals.

Ye Wang didn't care about Lin Tianhao's surprise. He continued:

"Wang Chongfeng can materialize things from Ragnarok."

"I was hoping you could help me find something in Ragnarok."

"What is it?" Lin Tianhao asked.

"The source of life."

Lin Tianhao's pupils suddenly shrank, and he nodded immediately:

"I can give it a try, but I want to remind you not to get your hopes up too much."

"The probability of me finding it is very low, and the probability of Wang Chongfeng manifesting it is also very low."

The Night King nodded, "I know, but I still hope you can help me keep an eye out."

"no problem."

The Night King had just helped him upgrade his body to a bronze and iron form, so he had no reason to refuse.

Although this source of life is very precious.

"In fact, if it wasn't the source of life, such as the water of life, my chances of getting it would be much higher."

The Night King frowned and said, "The water of life may not be useful."

Lin Tianhao hesitated to speak, but couldn't help asking:

"What do you do with the source of life?"

"Healing."

Lin Tianhao was silent. He couldn't continue talking about this topic.

What kind of injury can only be healed by the source of life.

"It's not you who needs it, it's you who comes into contact with it... other [Gods] need it, right?"

The Night King did not hide anything and nodded:

"Yes."

"I'll try my best."

Lin Tianhao did not ask about the specific identity of this [god]. If the Night King wanted to tell, he would naturally tell him.

If he doesn't want to talk, it's pointless to ask.

"Excuse me, there will be a special plane to take you back. After I come out, there will be peace for a long time. You can develop well in Ragnarok. You don't have to worry about other things."

Lin Tianhao had just experienced the power of the Night King, so naturally he didn't think that the Night King was bragging.

Next.

Lin Tianhao and Taoist Priest Mo Xin returned to Longdu on a special plane.

after come back.

Lin Tianhao asked Fatty and the others to go offline and eat hotpot together.

Although there is no lack of nutrition in the nutrition warehouse, it is also good to go offline and have a good meal occasionally.

"Brother Hao, you are finally back. I got some information from Dao Feng indirectly, and it really scared me."

As soon as the fat man met Lin Tianhao, he looked him up and down, fearing that Lin Tianhao was missing some limbs.

"Let's go, let's have a few drinks today. Speaking of which, we haven't had a serious drink in a long time since we left school." said Monkey.

Glasses pushed his glasses frame and said awkwardly:

"I'll have a cocktail to keep you company, or you'll have to carry me back."

The fat man glanced at his glasses and said unhappily:

"How dare you say that? At the graduation party, the three of us drank white wine and you had cocktails. In the end, we had to carry you back home."

"You still need to practice your drinking capacity."

Glasses said seriously:

"From a biological point of view, the amount of alcohol a person can drink is..."

"Stop!"

Monkey immediately stopped Glasses, "Brother Hao is back today, we are here to drink, don't give us science again."

Lin Tianhao looked at the fat man and asked:

"Fatty, what's going on in the Ancient Mystical Realm recently?"

The fat man spread his hands and said:

"What else could it be? With the ace fighter you hired, Brother Hao, we can go all the way."

"And he intends to train Qingqing. From the look of him, it seems that he wants to take Qingqing as his apprentice."

Lin Tianhao knew this before, but as for whether Lord Luotian wanted to accept Lin Qingqing as his disciple, that was hard to say.

"What about you?" Lin Tianhao looked at Monkey and Glasses.

The monkey was very proud and said:

"Brother Hao, I am now the Almighty Monkey King, but to be honest, it will be harder to earn free attribute points as time goes by."

"The high-level players from other countries are always competing with us for the first kill and dungeon. Fatty followed you into the ancient mysterious realm again. I am a little overwhelmed now."

"You are so powerful, but you still can't do it alone?"

Lin Tianhao glanced at the monkey and said:

"You're complaining to me again, aren't you?!"

The monkey was exposed, but he was not embarrassed. He grabbed Lin Tianhao's shoulder and said:

"My dear Palace Master, as the Master of the Mortal Palace, you haven't issued a large-scale mission for a long time."

"Without any large-scale quests, the free attribute points gained from leveling up, killing monsters and completing quests are too few."

That's it.

Monkey's expression became serious. "But to be honest, the adventurers in the United States are like they are on steroids. Although my improvement speed has been a bit slow recently, my accumulation is there after all."

"Recently, there are some adventurers in the United States who are improving like a rocket."

"I heard from Blade that there is a high probability that the people from the Alet Galaxy are making efforts. They seem to want to support the United States and fight against us."

Lin Tianhao's face darkened.

These bastards from the Aleta Galaxy realized they couldn't deal with him, so they started making trouble from other angles.

"When I come out of the Ancient Mystical Realm, I will take lessons from them."

"If my guess is correct, we should have a lot of territories now." Lin Tianhao said.

The monkey nodded and said:

"The major powers in various countries are gradually establishing territories. Our Dragon Country has already established more than a hundred territories. If we include those of other countries, there are still hundreds of territories."

Chapter 1345 Leaving the Ancient Mystical Realm!

Because the situation is special.

The few people did not go out to eat hot pot. After they said something, someone brought hot pot and wine over.

The four of them chatted while drinking.

"There are too many territories being built, and there are too many cases of fighting for resources between territories. Also, there are soldier nests. These things are too abnormal."

"The Berserker Territory established by Blade is already able to recruit 2,000-level golden earth dragons."

Lin Tianhao looked at the glasses and asked:

"What about you? Still robbing graves?"

Glasses nodded and said:

"Well, it's not a bad thing to use your brain often, and the rewards in these ancient tombs are really good."

.....

Two hours later.

After eating and drinking, everyone was a little drunk.

of course.

Lin Tianhao didn't feel anything.

The main reason was that this trip to Mo Yuan had greatly improved his overall strength.

Back to the residence.

Lin Tianhao lay directly into the game cabin.

Re-enter the game.

Lin Tianhao needs to plan for himself what he should do next.

This time he had gained a lot in the ancient mysterious realm.

As for obtaining more inheritance, Lin Tianhao is not that greedy.

In the ancient mysterious realm, the only thing that interested Lin Tianhao was the mysterious vine plants underground.

That thing is very powerful and must be hiding some secrets.

But then I thought about it.

He doesn't have to explore all the secrets.

Just now.

Lin Tianhao noticed that someone sent a message to his forum.

When I opened the forum, I saw that the person who sent the message was none other than Gulimosi.

"I heard you're back. I've done what you said. Shouldn't you tell me the next volume of Zhenhai Fu Ru Gong?"

Gulimosi is really anxious now. If she doesn't have the second volume of Zhenhai Fu Rugong, she will almost certainly die!

"I know you are anxious, but don't worry. The main reason I asked you to come to Dragon Country is for you and Chen Taiyuan to practice dual cultivation together."

"As long as you practice dual cultivation with Chen Taiyuan, I will naturally give you the second volume of Zhenhai Fu Ru Gong."

Lin Tianhao had promised Chen Taiyuan before, so he would naturally do what he said.

"You feel like you're playing a trick on me." Gulimosi said.

Lin Tianhao replied:

"I didn't. Whether you believe it or not is up to you."

"it is good."

.....

After arranging everything, Lin Tianhao sent another message to Chen Taiyuan.

After receiving the message from Lin Tianhao, Chen Taiyuan was stunned.

Although Lin Tianhao had said before that he would help him find a female master to practice dual cultivation with.

But Chen Taiyuan didn't care too much.

After all, even if Lin Tianhao lied to him, he couldn't say anything.

"Thank you so much, Boss Xue Di. I will go through fire and water for you in the future without hesitation!!"

Gulimos! !

The American female master!!

Is he considered an anti-Immi fighter? !

Recently, the United States has caused so many troubles in the territory of Long Country in order to assassinate Lin Tianhao. Many people's hatred towards the Americans has skyrocketed.

After Lin Tianhao arranged everything, he began to plan what he would do next.

The first thing is to revive the Kingdom of Mokosha.

Secondly, the Shanhai Empire should also achieve unification.

Although the Shanhai Empire has now occupied a large area of the vast continent, the Mekolatin Desert has not yet entered the territory of the Shanhai Empire.

There are also extraterritorial areas, the Tutulu Empire, and some overseas forces.

Judging from the situation in the United States this time, if such a large-scale force is allowed to exist near his territory, it will sooner or later threaten his Mountain and Sea Empire.

therefore.

He should take advantage of his current prosperity to take over the surrounding territories, so as to maximize his interests.

Besides.

Since those people in the United States want to cooperate with the bastards in the Alate Galaxy, you can't blame him.

All the territories of the United States must be resolved as necessary. It is necessary to let them know what the consequences will be if they cooperate with the guys from the Alate galaxy.

Also.

The matter of reviving the Kingdom of Mokosha should also be put on the agenda.

Although at present, Lin Tianhao can't be of much help in reviving the Kingdom of Mokosha.

After all, waking up the Poison Emperor of Sand Sea is a bit of a matter of chance.

These are the general goals.

Besides.

Lin Tianhao still needs to continue looking for the flower of talent evolution.

The fundamental source of his strength is still his talent. If he can further enhance his talent, the improvement in his overall strength will be most obvious.

With his current talent, if any one of them is improved further, the improvement in combat power will be more obvious than that of 100,000 free attribute points.

but.

The monkey's reminder should indeed be heeded.

As the Lord of the Mortal Palace, he hasn't issued any large-scale missions for some time.

This would be a waste for him.

But this is not entirely Lin Tianhao's fault. The main reason is that Lin Tianhao does not have any large-scale tasks to issue at the moment.

A long-term mission similar to the one against those guys in the Arlate Galaxy is good, but it is not so easy to accomplish after all.

After so many consecutive battles with Lin Tianhao, these guys from the Alate Galaxy have become very cautious and basically do not show up on their own initiative.

After simply organizing his thoughts, Lin Tianhao roughly classified what he would do next.

First, expand influence, which can be done directly.

Second, look for the talent evolution flower and heavenly punishment equipment. If possible, you can also look for the super god-level talent awakening stone.

Third, revive the Kingdom of Mokosha.

Fourth, release large tasks. If there are none, he needs to create opportunities to release large tasks himself.

Fifth, continue to target those bastards in the Alete Galaxy. If they don't come out, then attack those high-level players in the United States and the territories they have established.

Sixth, enlightenment. This is a relatively long-term process and can be carried out as a daily routine.

Seventh, I promised to help the Night King find the source of life, but this one depends on luck.

For now, these are the main points.

After making these plans, Lin Tianhao left Qingya Guisha and the others in the ancient mysterious realm, and he chose to leave.

otherwise.

After a while, Taishang Laojun appeared and asked Qingya Guisha and others to leave, and then he could only watch.

The ancient mysterious realm will be open to the public soon. There will be a lot of things that Qingya Guisha and the others can do after leaving them here.

In this ancient mysterious land, he obtained all the divine inheritance he could get, and now he can do other things.

Coming out of the ancient mysterious realm, Lin Tianhao summoned the Kunlun Mirror and headed for the Poison City in the Sand Sea.

Although the probability of waking up the Poison Emperor of Sand Sea is a little low, we still have to go and take a look.

What if?

Maybe it will work?

The poisonous city of sand sea.

Lin Tianhao walked in with ease.

As soon as he arrived at the place where the Poison Emperor of the Sand Sea was sleeping, the round body of the Big Dream Hunter appeared in Lin Tianhao's sight.

"Xue Di, long time no see. You have been very impressive recently. You can even kill the God King."

Da Mengshou narrowed his eyes and looked at Lin Tianhao, as if he wanted to see through Lin Tianhao.

Chapter 1346 I am a very gentle and easy-going person!

"Now that the gods can't help, I'm lucky enough to have found a bargain."

That's it.

Lin Tianhao's gaze fell on the Poison Emperor of Sand Sea in front of him.

"how is the situation?"

Da Mengshou shook his head and said:

"I don't know. If you can help me become an emperor-level dream master, I might be able to take a peek at the situation of the Sand Sea Poison Emperor from a God's perspective."

"Now the Poison Emperor Guardian has entered the Sand Sea Poison Emperor's own personality world. From now on, we can only look at him."

Such a result was also within Lin Tianhao's expectations.

"It seems that we can only leave it to fate." Lin Tianhao said.

The fat body of the Great Dream Hunter trembled, "That may not be the case. I actually know that there is an emperor-level dream master in the Zhongzhou Continent."

"Let's not talk about whether you can invite that royal dream master. Even if you can, it will be difficult for you to meet him given the current situation in Zhongzhou."

Lin Tianhao had heard about everything about the Zhongzhou continent before.

He had enough gold coins, so it was not impossible for him to go to Zhongzhou Avenue.

But you definitely can't go to Zhongzhou Continent for the time being.

"How much do you know about the problems in Zhongzhou?" Lin Tianhao asked.

The Great Dream Hunter has a special identity and may know some secrets.

"I don't know. I only know that something has happened in the Central Plains that overrides the rules of this world."

"You are a smart person, you should understand what I mean."

Lin Tianhao's expression instantly turned extremely ugly.

An incident that overrides the rules of this world?

Doesn't that mean he is an existence above the God of the Source of Tao?

The galaxy world belongs to the world of God, the source of Tao.

Now that such a change has occurred in the Central Plains, does it mean that Yuanshen's situation may have become very bad?

"There's no point in thinking so much now. You can't change anything right now." Da Mengshou said.

Lin Tianhao smiled bitterly and nodded, while Da Mengshou continued:

"You and I are quite compatible. Just a few minor opinions. Don't let worldly things drag you down."

"If you are strong enough, go to the Divine Realm. Don't try to change the status quo of the galactic world. It's meaningless."

The fat face of Da Mengshou became serious for once:

"The Galaxy World is not your own world. If it's gone, it's gone."

Lin Tianhao took a deep breath and said, "But this is my home?"

"Then move."

The Great Dream Hunter smiled and said:

"If it weren't for the incident with the Poison Emperor of the Sand Sea, I would have already reached the Divine Realm."

"I am a king-level dreamer and an emperor-level pseudo-god. When I reach the divine realm, I will sell my five hundred years of work, and a large number of forces will rush to help me become a god."

That's it.

Da Mengshou looked at Lin Tianhao seriously, "With your background, it is the same."

"As long as you go to the Divine Realm, a lot of people will be willing to train you. Not to mention the Holy Land geniuses, in the Divine Realm, you are definitely good enough to be a genius from a second-rate force."

"If you have someone you care about, you can take them with you. If they have poor talent, you can get a godhood in the God's Domain to help them gain a long lifespan."

"If someone has good talent, you can cultivate him and he will become your right-hand man."

Lin Tianhao nodded and said with a smile:

"What you said seems to make sense. This is the safest choice."

The Great Dream Hunter glanced at the Sand Sea Poison Emperor and said, "What reward can you get for helping him wake up? Perhaps that little reward is not as good as the resources you have gained by joining the forces in the Divine Realm for half a year."

"Over there, you can get it just by lying down, but here, even if you work hard, you may not get it in the end."

What Da Mengshou said was indeed something that Lin Tianhao had considered.

The God of the Source of Tao treated him well, and he himself had feelings for this world.

Of course, he can take his close ones to the divine realm, but as for what is happening in this galactic world, it has nothing to do with him.

really.

If a person is heartless, he can live a very free and easy life.

"If one day, I am really powerless to change the situation, I will choose to leave." Lin Tianhao said.

Da Mengshu shook his head and said, "When you are powerless to change the situation, you may have lost your choice."

Lin Tianhao did not refute, what Da Mengshou said actually made sense.

"Thank you for your advice." Lin Tianhao smiled slightly, "I will consider it, but now is not the time."

Come out from the poisonous city of Shahai.

Lin Tianhao looked at the vast Mekolatin Desert.

The area of the Mekolatin Desert is really too large.

If we were to mobilize troops against the Mekoradin Desert, the battle line would be very long.

therefore.

The wisest choice is to start with the Tutulu Empire.

He and Tutulu Hongqiong are old acquaintances.

First talk to Tutulu Hongqiong and see what his attitude is.

If Tutulu Hongqiong was more obedient, everything would be easy and the Tutulu Empire could be incorporated directly.

But if Tutulu Hongqiong doesn't obey, then I'm sorry, I'll beat him up! !

Take out the Kunlun Mirror.

Lin Tianhao went to the Holy Mountain of Tutulu.

This was Lin Tianhao's first time climbing the Sacred Mountain of Tutulu.

As soon as they arrived at the Tutulu Holy Mountain, two disciples guarding the mountain appeared in front of Lin Tianhao.

"No outsiders are allowed to enter the Holy Mountain of Tutulu."

Lin Tianhao directly revealed his game nickname.

"Please inform Tutulu Hongqiong. I have something to discuss with him."

"Snow...Snow Emperor!!!"

When the two mountain-guarding disciples saw the nickname above Lin Tianhao's head, their pupils dilated and their faces were filled with shock.

"Master Xuedi, please wait a moment. I will report to the mountain master right away."

The words fell.

This disciple who guards the mountain entered a berserk state, gave himself various acceleration buffs, and rushed towards the Holy Mountain of Tutulu like a madman.

Snow Emperor! !

The influence of these two words is too great.

The two disciples guarding the mountain knew very well that if they were not careful, their Tutulu Holy Mountain would be destroyed in the blink of an eye.

"thump--"

The remaining person fell to his knees in front of Lin Tianhao with a thud.

"Why are you kneeling to me?" Lin Tianhao asked.

The disciple who guarded the mountain bowed respectfully and said:

"I am a disciple of humble status, and I am not qualified to stand and talk to Master Xuedi."

Lin Tianhao: "..."

Is my deterrent power already so strong?

Are all the disciples of the Holy Mountain Tutulu so humble and courteous?

"That's not necessary. I'm a very gentle and easy-going person." Lin Tianhao said.

Elegant...easy-going? ! !

The disciple guarding the mountain even suspected that he had heard it wrong.

The Snow Emperor, a man-killer, elegant and easy-going? !

Elegant and easy-going to destroy the entire chaotic place?

He was elegant and easy-going, stepping on countless corpses to unify the vast continent?

"That's right. Lord Xuedi is handsome and extraordinary, and his strength is unrivaled in ancient and modern times. He can be said to be the number one person in the vast continent, no, in the land of Shenzhou!"

Lin Tianhao: "..."

Am I really that good?

"Ahem, don't you know that the more powerful a person is, the more moody he is? I'm very unhappy that you compliment me in such an exaggerated way!"

Chapter 1347 Conquer the Holy Mountain of Tutulu!

"what--"

The disciple guarding the mountain was stunned for a moment, and he kowtowed to Lin Tianhao repeatedly.

"Master Xuedi, I know everything I said is true. I never lied."

"In my eyes, you are the number one person in China!!"

Lin Tianhao waved his hand, "Okay, stop praising me."

As Lin Tianhao's voice fell, a figure came at high speed. The person was none other than Tutulu Hongqiong.

After Tutulu Hongqiong landed, he bowed to Lin Tianhao and said, "Greetings, Lord Snow Emperor!"

Lin Tianhao waved his hand and said:

"Let's talk alone?"

"it is good."

Tutulu Hongqiong showed a faint smile on his face. He could see that Lin Tianhao's coming here this time was not a good thing.

Sacred Mountain of Tutulu, above the main temple.

Tutulu Hongqiong bowed to Lin Tianhao again and said:

"Lord Xue Di, there is no need for us to beat around the bush. You can talk about anything."

Lin Tianhao really didn't think of beating around the bush on this trip, and said bluntly:

"I want your Tutulu Empire!"

Tutulu Hongqiong was stunned for a moment, but did not act too surprised.

"As expected, you have already mastered the vast continent. As long as you have a little ambition, you will definitely target our Tutulu Empire."

Lin Tianhao smiled and said:

"Since you have anticipated this, I want to know what choice you will make."

Tutulu Hongqiong waved his hand and said:

"I have no choice. Although people from other forces have approached me, I feel that it is meaningless to go against you."

Lin Tianhao nodded and said:

"So you agree?"

Tutulu Hongqiong nodded, "I agree, but such a big thing needs to be discussed again."

"I don't know what the attitude of those people behind me will be."

Lin Tianhao narrowed his eyes slightly. Why did these words sound so much like an excuse?

"You said that other forces have approached you. Who are they?"

Lin Tianhao also wanted to hear which forces would go looking for Tutulu Hongqiong.

"The first ones must be those guys from the Alete Galaxy. They are looking for the most people. The second ones are the people from Zhongzhou Continent."

"You should have known about the problems in Zhongzhou Continent. Some forces want to come to Haomiao Continent."

"But now that you are at the peak of your career, they don't want to confront you right away, so my Tutulu Empire is the best place for them to settle down."

Lin Tianhao had never thought about this question.

"There aren't many people left in Zhongzhou Continent, and even fewer can make it safely. They can just stay hidden. There's no need to do this."

Tutulu Hongqiong shook his head and said very seriously:

"Xuedi, you are extremely rare to be so strong at such a low level. Most of the equipment on you should be artifacts or special equipment without level restrictions. Not everyone can replicate a legend like you."

"For most professionals, there is a huge difference between a set of 2,000-level equipment and a set of 3,000-level equipment."

"You should know very well that just adding a thousand levels to your level is not as big of an improvement as you might think."

"The real improvement is a higher level and better equipment. This is the key to strength."

That's it.

Tutulu Hongqiong chuckled, "But the higher the level of the professionals, the more resources they need to upgrade."

"Unless they don't want to upgrade after they come here, as long as they still want to upgrade, they need to cooperate with us."

Lin Tianhao nodded slightly. The same is true for professionals. The higher the level, the simpler the way to improve will be.

After all, there are usually only a few high-level wild monsters that can be spawned in batches, and the higher the level, the more difficult it is to upgrade.

Not everyone can crush everyone like Lin Tianhao did.

"The Zhongzhou Continent is more powerful than ours, and there may even be a powerful emperor in charge. Can you refuse this?"

Tutulu Hongqiong nodded and said:

"That's true, but they are outsiders and won't have a sense of belonging."

"Moreover, the emperor has not yet gone to the Divine Realm, and it is highly likely that he will not go there in the future. The Tutulu Empire will really be transformed in the future."

Lin Tianhao smiled and said:

"Wouldn't it be the same if you surrender to me? You will definitely change your ways."

Tutulu Hongqiong shook his head and said:

"This is different. You are unifying the vast continent, but they are not."

"Please wait a moment. I will give you an answer in half an hour at most."

Lin Tianhao was a little surprised. It seemed that Tutulu Hongqiong was not just trying to get him to accept his words.

Sitting in the main hall of the Tutulu Holy Mountain, Lin Tianhao began to gain enlightenment.

Half an hour, you can wait a little longer.

I just hope that Tutulu Hongqiong doesn't want to cause trouble and call a group of experts to come and attack me.

of course.

That's not a bad idea, Lin Tianhao doesn't mind killing some people.

Lin Tianhao didn't have to wait too long, Tutulu Hongqiong came over with a dozen people.

The leader was not Tutulu Hongqiong, but a middle-aged man in a red robe.

Lin Tianhao looked over.

Tutulu Zhencluster (King Level): Tenth turn.

.....

Lin Tianhao narrowed his eyes slightly, King level, tenth turn! !

It seems that the Tutulu Holy Mountain still has some heritage.

Most of the people behind Tutulu Hongqiong and Tutulu Zhenchu are of Star Glory level, and there are two of Diamond level.

"These are the people who are still in charge of our Tutulu Holy Mountain. From now on, the Tutulu Empire will be incorporated into the Mountain and Sea Empire."

"The Holy Mountain of Tutulu has become a subsidiary force of the Mortal Palace."

Lin Tianhao did not expect that Tutulu Hongqiong's efficiency was so fast.

But it seems normal.

When other forces came to them, they should have already discussed it beforehand.

Now it's just a matter of reconfirming.

"Okay." Lin Tianhao showed a satisfied smile on his face.

Tutulu Hongqiong stepped forward and took out a jade seal. "From today on, there will no longer be a Tutulu Empire. There will only be the Shanhai Empire and the Tutulu Province."

The words fell.

Tutulu Hongqiong directly shattered the jade seal in his hand.

"Ding, congratulations, you have successfully conquered the Tutulu Holy Mountain and the Tutulu Empire, and I will reward you with a contribution value of 1000 billion for the Fan Palace!!"

Lin Tianhao's eyes lit up. This was a good reward.

"Ding, congratulations, you have successfully conquered the Tutulu Empire and Tutulu Holy Mountain. An announcement will be made to all servers soon. Do you want to hide your name?"

"no."

"Announcement to all servers, congratulations to the player Xue Di for successfully conquering the Holy Mountain of Tutulu and bringing it into the Mortal Palace. We hereby announce this and hope that all adventurers will continue to work hard!!"

"Announcement to all servers, congratulations to the player Xue Di for successfully conquering the Tutulu Empire and incorporating it into the Shanhai Empire. We hereby announce this and hope that all adventurers will continue to work hard!!"

Chapter 1348 Heading to the outside world!

This trip to the Tutulu Holy Mountain went so smoothly that it was beyond Lin Tianhao's expectations.

Lin Tianhao's eyes swept over Tutulu Hongqiong and others.

"Since you have already submitted to my Fan Temple, from now on, you are the elders of our Fan Temple."

Lin Tianhao took out the elder token of the Fan Palace and said, "Usually you manage yourselves. I usually won't give you instructions."

Although the Holy Mountain of Tutulu has agreed to surrender, verbal promises are not so secure after all.

The high-level leaders of the Tutulu Holy Mountain must join the Mortal Palace, this is the guarantee.

Seeing the elder token that Lin Tianhao took out, Tutulu Hongqiong, Tutulu Zhenchu and others hesitated slightly, and then took the elder token of Fan Temple.

"Now that you have joined my Mortal Palace, there are three main things I hope you will pay attention to."

Tutulu Hongqiong and the others all bowed respectfully, "Palace Master, please give your instructions."

"First, the Heavenly Punishment Equipment. I need this. If you have any clues, please inform me as soon as possible."

"Second, the flower of talent evolution, this thing is also."

"Third, news about those guys in the Alete Galaxy."

Tutulu Zhenchu thought for a moment and said:

"Regarding this talent evolution flower, I do have it, but it is a mission-bound item and cannot be given directly to you, Lord Palace Master. Please forgive me, Lord Palace Master."

Lin Tianhao's eyes lit up. He also knew that it was impossible to get the flower of talent evolution just by saying a word.

It's okay to do tasks. After all, with his current strength, it's more than enough to complete some tasks.

"What task is it bound to?" Lin Tianhao asked.

"Ding, Tutulu Zhenchu has issued you the quest [Adventurer's Paradise]."

[Adventurer's Paradise]

Mission requirements: Establish a territory within the Tutulu Province, with a territory level of four stars or above, within a year.

Mission rewards: Talent evolution flower +1, free attribute points +2000, level 2000 gold-level soldier nest +1, gold-level territory entry +1.

Mission penalty: None.

"Ding, do you accept it?"

Lin Tianhao raised his eyebrows slightly. This task was neither difficult nor easy.

mainly.

It's a bit time-consuming.

A four-star territory can also be called a bronze-level territory, and you can get it in one step if you have the heart of a bronze-level lord.

Even if you don't have it, you can still improve your buildings and population.

"Can anyone take this task?" Lin Tianhao asked.

"Whoever the Palace Master wants to take the job, I will release it to him." Tutulu Zhenchu said respectfully.

Lin Tianhao smiled slightly and directly posted the screenshot of the task to the small group he created.

"Does anyone of you want to take this mission? I want a talent evolution flower, and nothing else."

Not long after Lin Tianhao sent out the message, people started replying.

Shura Yize: Oh my god, this group of people are alive.

Jinghong Mengshuang: Boss Xuedi, the Tutulu Province is going to cross the ocean.

Berserker Blade: We can take this one. We are planning to build a base there.

Jinghong Mengshuang: Brother Daofeng is really fierce. He should definitely take care of his sister more often if he has the chance.

Berserker Blade: Sure, sure.

.....

Subsequently.

Berserker Blade chatted privately with Lin Tianhao, and the two of them briefly discussed the mission.

The mission was taken by Berserker Blade, and Lin Tianhao only took the Flower of Talent Evolution.

In this way, Lin Tianhao doesn't need to spend any energy and can get the flower of talent evolution.

This task is not difficult and can be completed in one step if you have a bronze-level lord's heart.

The difficult part is crossing the ocean and establishing the territory in Tutulu Province.

After all, the adventurers' bases are basically in the Mountain and Sea Empire.

Although there are some adventurers who like to go out and explore and can explore other places.

but.

Exploration is exploration, and settling down is another issue.

After dealing with this matter.

Next.

It's a place outside the domain.

Lin Tianhao has never been to the outside world.

But Lin Tianhao has already come into contact with several holy places outside the domain.

Baili Academy, Yin Yang He Huan Sect, Han Tower.

The three holy places from outside the territory that came to participate in the Holy Land Competition before, their foundation should not be underestimated.

However, the dean of Baili Academy had previously intended to invite Lin Tianhao to conquer the outside world.

The dean of Baili Academy wants his Baili Academy to preach in the Shanhai Empire.

This is a double-edged sword.

The teaching of Confucianism and Taoism is a kind of inheritance of thought and culture.

It can also be said to be a relatively simple means of education and thought control!

The premise is.

The senior members of Baili Academy must join Fandian and become elders of Fandian. They must be loyal to Fandian.

Lin Tianhao had never been to the outside world before, so he could not use the Kunlun Mirror to directly reach the outside world.

Using the Kunlun Mirror, Lin Tianhao arrived at the town he had been to before, which was the closest to the outside world: Moshi Town!

During the previous Holy Land Lord Competition, those guys from the Alete Galaxy pretended to be the Lord of Luotian and poisoned people everywhere. Lin Tianhao came to Moshi Town.

Continue westward from Moshi Town for about three or four hundred kilometers and you will reach the edge of the extraterritorial area.

In order to speed up, Lin Tianhao directly entered the state of invincibility.

In the invincible state, Lin Tianhao is immune to all attacks from Saints and below.

of course.

This is not the key to Lin Tianhao's use of invincibility.

The real reason why he used the Invincible Void was because in the Invincible Void state, his movement speed could be increased by a million times!!

Lin Tianhao's current movement speed is already very fast. After activating the invincible virtualization, three or four hundred kilometers can be reached in a short moment for Lin Tianhao.

but.

Three or four hundred kilometers is just the beginning of the journey outside the territory.

The area outside the domain is still very large.

Lin Tianhao opened his Eye of Insight and searched for the location of Baili Academy.

Through the exploration of the Eye of Insight, Lin Tianhao saw the vast Gobi Desert.

One thing is true.

The Shanhai Empire occupies the most fertile land in the entire vast continent.

The only place that can be compared with the Mountain and Sea Empire is the giant island where the Tutulu Holy Mountain is located.

But an island is an island after all, and there is still a gap compared to real land.

Although this foreign land is not entirely desert like the Mekoradin Desert, it has a large area of Gobi desert, and living here would certainly not be very comfortable.

This land outside the region has one thing in common with the Mekoradin Desert, that is, its edge touches the ocean, and there are many lakes of various sizes inland.

The biggest difference is that there is a big river in this place outside the domain.

Lin Tianhao's Eye of Insight can cover a large area. In addition, Lin Tianhao is moving quickly with the help of Invincibility, so the area he can cover is even larger.

Chapter 1349 Arrival at Li Academy!

This river is winding and Lin Tianhao discovered that there are many large cities and some small towns on both sides of the river.

Based on what Lin Tianhao's Eye of Insight has currently observed, the number of people living on both sides of the river alone may exceed 10 billion.

and.

Lin Tianhao's eyes of insight are still unable to fully perceive the entire picture of this river.

Besides.

Those lakes of all sizes suddenly changed, and there were also large towns.

Especially a super city surrounded by nine lakes. Judging from its size, the population should be over 100 million.

"found it."

A smile appeared on Lin Tianhao's face. This Baili Academy was located in a large city surrounded by nine lakes.

Lin Tianhao moved, and his body turned into a shadow, rushing towards the city.

"Bai Li City?"

In less than two quarters of an hour, Lin Tianhao had arrived in front of this large city.

Here, readers can be seen everywhere.

The NPCs here are all polite, and some of them look like knowledgeable people based on their attire.

Before even stepping into Baili City, Lin Tianhao already felt the overwhelming talent.

Among these talents, there is also a bit of righteousness.

"It seems that Baili Academy has assimilated this city very well."

Lin Tianhao frowned slightly.

This was also the reason why he was previously resistant to the dean of Baili Academy wanting to settle in the Shanhai Empire.

Cultural invasion is the most terrifying thing.

If a place is invaded by force, it only means that the person in charge of that place has been replaced by someone else.

But if this place is invaded by culture and brainwashed, then even if the country is still there, it is already dead in name only.

Others may not have this ability.

However, if the dean of Baili Academy does this without any resistance, there is a high probability that he can accomplish it.

Lin Tianhao stepped into Baili City. This Baili City was very large and there were people of all kinds.

There are not only humans, but also monsters and elves.

therefore.

Lin Tianhao drove in with the invincible virtual vehicle but he didn't attract too much attention. Some people would just take a second look at him, but that was all.

Lin Tianhao has discovered the location of Baili Academy through the Eye of Insight.

Before he arrived at Baili Academy, he saw a long queue outside the academy.

"I have already begun to show talent. This time I will definitely be able to enroll in Baili Academy and make further progress in Confucianism."

"Brother Chen is really amazing. I think I'm in trouble this time. There are too many people here and the competition is fierce."

"As a scholar, if you don't make progress, you will regress. Brother Xu, you got married too early. If not, your current achievements may be higher than mine."

.....

Look.

Today seems to be the day when Baili Academy recruits disciples.

Lin Tianhao walked towards Baili Academy.

Not long after he walked, a man blocked Lin Tianhao's way.

"Brother, please don't be rash. If you want to join Baili Academy, please line up at the back."

Lin Tianhao smiled slightly, "I am not here to join your Baili Academy. I am here to discuss something with your dean."

The words fell.

Lin Tianhao walked inside with a swagger.

See this scene.

The young man frowned slightly and raised his hand to stop Lin Tianhao, but his attack did not stop Lin Tianhao at all.

Under the invincible state, even the righteous energy could not hurt Lin Tianhao at all, let alone this trick.

"This....."

The young man's expression changed slightly and he wanted to chase after him, but Lin Tianhao had disappeared.

As for Lin Tianhao's speed, it was very difficult for him to catch up with him.

"Snow Emperor."

At this moment.

The voice of the dean of Baili Academy rang out, "I apologize for not welcoming you from afar."

Lin Tianhao waved his hand and said:

"President of Baili Academy, there is no need to be so polite to me. Seeing your rosy face, you must have gained a lot in the ancient mysterious realm!"

The dean of Baili Academy smiled helplessly and said:

"I can't say I gained much, I just gained some knowledge, which is really not worth mentioning."

That's it.

The dean of Baili Academy paused for a moment before saying:

"This time, Snow Emperor, you are here for our land outside the domain, right?"

"Since you have taken over the Tutulu Empire, I guessed that your ambitions should be far greater than the Tutulu Empire."

Lin Tianhao did not deny it, and nodded with a chuckle, "Didn't you also hope that I could take action before?"

The dean of Baili Academy nodded and said:

"I do hope you can take action. Tell me, what do you want to do?"

Before Lin Tianhao could speak, the dean of Baili Academy said:

"The premise is that we cannot join the Mortal Palace directly."

Obviously.

Dean Baili Academy knew something about Pan Tian Temple, and thus deduced that joining the Fan Palace would trigger more special entries.

"Then there's nothing to talk about." Lin Tianhao said.

"What I want is to conquer the land outside the territory, not to win over a group of traitors to share my cake."

Join the Fan Temple.

This is Lin Tianhao's bottom line.

If even the Fan Palace is unwilling to join, and just nominally says that it is willing to submit to the Fan Palace, this is too unconvincing.

"and then?"

The dean of Baili Academy looked at Lin Tianhao seriously.

Lin Tianhao slowly stood up and said:

"I don't mind following the old path of the Shanhai Empire again."

"I just don't know how much stronger you are than holy places like the Moon Wheel Demon Palace and the Vast Infinite Palace."

The dean of Baili Academy sighed and said:

"Xuedi, this is different."

"Whether it's the Moon Empire or the Vast Empire, the territories they once belonged to all belong to your Fan Palace."

"You have a good teacher, so naturally no one can say anything."

That's it.

The dean of Baili Academy became extremely serious. "But if you attack our land outside the territory, it will be outward expansion."

"Expansion outward is endless. To put it bluntly, if you can attack us today, you can also attack others tomorrow."

"Everyone understands the principle of 'killing the dog after the rabbit dies', so the forces outside the domain and even outside the domain will target you."

Lin Tianhao nodded, "Okay, you mentioned it before, so I thought you would cooperate with me."

"But if that's all you say, forget it."

The dean of Baili Academy was stunned for a moment, "Forget it? This... doesn't seem like what you said, Xue Di."

Lin Tianhao sighed heavily, "I'm old. I'm past the age of shouting for war and killing."

"If you don't join the Fan Palace, can I really beat you to death?"

The dean of Baili Academy looked at Lin Tianhao with some suspicion.

"You have a split personality?"

Lin Tianhao's mouth twitched and he said:

"That's not the case. However, I will prohibit all adventurers from entering the Outer Lands. I will eliminate all those who establish territories in the Outer Lands without distinction. You guys just... have fun on your own!!"

"you--"

The dean of Baili Academy narrowed his eyes slightly, and a hint of anger flashed in his eyes.

"Xue Di, you have a great influence, but it is impossible for you to really do it."

Lin Tianhao chuckled and said:

"You can give it a try and see if I have the ability."

The dean of Baili Academy was silent for a while, then he said:

"It's really not possible for both of us to take a step back and join the Fan Palace."

Chapter 1350 Negotiation, Mission Library!

A cold light flashed in Lin Tianhao's eyes, and he said:

"I've given you a chance. If it doesn't work out, then it doesn't work out."

The words fell.

Lin Tianhao paused for a moment before saying, "I will go to other forces to have a look. I will also tell the other holy land masters outside the domain the attitude of the dean of Baili Academy today."

The dean of Baili Academy's expression changed.

Adventurers are the main way for them to become stronger.

They need to issue tasks to adventurers, and they can only give rewards back when the adventurers obtain them.

Especially now that many adventurers have begun to strive for the seventh level, at this rate, their home ground will soon be reached.

But if Lin Tianhao does not allow adventurers to enter the outside world, then even if they have tasks in their hands, it will not be easy to distribute them.

"Xue Di, I am no match for you, but if you really do this, I will fight you even if it costs me my life."

Lin Tianhao shook his head and said:

"Dean Baili, you are confused!"

"I can fight you, I can die ten times, twenty times, I can lose to you fifty times, a hundred times."

"But if I win just once, I can make you fall into eternal damnation."

"Is it because I have never failed that I have come this far and have achieved what I have today?"

"I, Xue Di, have been abused by the fountain more than once, but it can't really defeat me. It can only make me stronger."

Hearing Lin Tianhao's words.

The dean of Baili Academy remained silent, while Lin Tianhao continued:

"And if you submit to me, what can you get? You can issue missions to more adventurers and obtain more resources. I'll be in the front, even if the sky falls, I'll carry it."

Baili Academy frowned, even though what Lin Tianhao said seemed to make sense.

But he knew very well that what Lin Tianhao said made no sense at all.

When you become someone else's slave and they have the final say in everything for you, then it's all over.

"Snow Emperor."

The dean of Baili Academy shook his head and said, "I have read so many books by sages, how can I be moved by your few words?"

"A scholar has the pride of a scholar. It is impossible for me to be your slave."

Lin Tianhao smiled playfully and said:

"It looks like there's nothing to talk about."

"In that case, there is nothing more to say."

The dean of Baili Academy narrowed his eyes slightly and became alert in an instant.

He had no doubt at all about Lin Tianhao's determination to take action.

however.

However, Lin Tianhao had no intention of taking action.

"I'm leaving now. I hope you won't regret your decision."

Lin Tianhao turned and left. He did not act rashly. He did not know much about the situation in this foreign land. It would not be a wise move to act rashly now.

especially.

Lin Tianhao couldn't say for sure whether the dean of Baili Academy was the strongest person in the academy.

After all, judging from the previous situation in the vast continent, those holy places like to keep a secret, and the most powerful people generally do not serve as the lord of the holy land.

Seeing Lin Tianhao turning around and preparing to leave, the dean of Baili Academy hesitated for a moment before saying:

"Xuedi, there is nothing that cannot be discussed."

"I can't stay in the Haomiao Continent for much longer, and neither can you. There's no need to make everyone unhappy over such a small matter."

Lin Tianhao smiled slightly and said:

"So, what do you think?"

The dean of Baili Academy hesitated for a moment before saying:

"We can give the profits to you, Xue Di, so you can grow faster."

"You conquered us to get more resources, right? I'll give all these resources to you, isn't that enough?"

Lin Tianhao smiled and only provided supplies but did not manage them.

This doesn't seem to be a problem.

"What can you give me?" Lin Tianhao asked.

"Simple, that depends on what you want, Xue Di?"

"The flower of talent evolution." Lin Tianhao said.

"Small question. I can give you a Talent Evolution Flower myself, and I can also give you a task that can reward you with a Talent Evolution Flower. And I can tell you who in this land has a Talent Evolution Flower or a task that rewards a Talent Evolution Flower."

Lin Tianhao hesitated for a moment and asked, "How many are there in total?"

"Ten flowers is no problem."

Lin Tianhao nodded, "Okay, if you can help me get ten flowers, I can refrain from taking any action against the outer regions for half a year."

"Of course, you can't cooperate with people from the Arlet Galaxy. This is the bottom line."

"clear."

The dean of Baili Academy smiled and nodded, "Half a year is too short, right? In a year, I will find a way to get you ten god-level talent awakening stones. This thing should be of great help in training your subordinates."

God-level talent awakening stone!

This is good stuff.

The God-level Talent Awakening Stone can awaken not only God-level talents, but also any talent below God-level talents.

This kind of thing can also be used as a strategic reserve.

"The God-level Talent Awakening Stone doesn't improve me much. I need another 100,000 free attribute points."

"We need to perform simpler tasks." Lin Tianhao said.

The dean of Baili Academy thought about it for a moment and nodded in agreement.

Lin Tianhao is also an adventurer. If Lin Tianhao completes the task, he can also get reward feedback.

It doesn't matter if it's 100,000 free attribute points, even 1 million free attribute points is not a problem.

"From the look of you, it seems that you are happy to issue tasks that reward free attribute points." Lin Tianhao said.

The dean of Baili Academy nodded heavily, "Yes, but Xue Di, you should not be short of these 100,000 free attribute points now."

"I'm not bad. Didn't you say that? I need to train people."

"In fact, you reminded me. I can ask the people I want to train to take over your tasks. They will get rewards, and you will also get reward feedback. It's like killing two birds with one stone."

The dean of Baili Academy smiled helplessly, "Xue Di, you still think too simply. It is a question whether adventurers at this stage can take on a mission that rewards 1,000 free attribute points."

"I can't be too lenient. I can't give your people a hundred tasks."

Lin Tianhao hesitated for a moment and said:

"The person I'm going to introduce here is quite impressive."

"That's fine. Anyway, if you want the reward of free attribute points, that's easy to say." said the dean of Baili Academy.

"And you are the master of the Mortal Palace, so the amount of your free attribute points should be very high now."

Lin Tianhao spread his hands and said:

"The problem is that I don't have a suitable task to give you right now."

"You didn't use the mission library?"

The dean of Baili Academy looked at Lin Tianhao in surprise.

"Or is it because you are an adventurer, even though you have become the lord of the holy land, you are still different from us."

Lin Tianhao raised his eyebrows and said:

"Can you show me your task library?"
