Chapter 1361 The formation under Kuntian City!

He did not leave Kuntian City, nor did he deliberately hide his whereabouts. He was currently visiting the City Lord's Mansion in Kuntian City.

Lin Tianhao took out the Kunlun Mirror and returned to Kuntian City.

Kuntian City, City Lord's Mansion.

Just as Lin Tianhao arrived at the door, a general in silver-white armor walked over.

"Respected Lord Xuedi, our city lord invites you."

Lin Tianhao nodded slightly. The mayor of Kuntian City was able to control a city with a population of one billion. His methods must be quite good.

Following the silver-armored general into the city lord's mansion, Lin Tianhao saw the leader of the Southern Barbarian Holy Sect.

However, the person sitting in the main seat was not him, but a thin, sickly-looking middle-aged man.

"Cough cough."

The middle-aged man coughed twice and said, "Xuedi, I have heard of your great name for a long time."

Lord of Kuntian City (King level): Demigod.

life value: ? ? ?

attack: ? ? ?

Skill: ? ? ?

Lin Tianhao smiled slightly and said:

"Lord of Kuntian City."

The words fell.

Lin Tianhao looked at the leader of the Southern Barbarian Saint Sect again, "I came here this time to submit a mission to the leader of the Southern Barbarian Saint Sect."

The leader of the Southern Barbarian Saint Sect nodded and said:

"Normally I should send someone to confirm it, but I still trust Xue Di's reputation."

"Ding, congratulations, you have successfully completed the mission of the leader of the Nanman Saint Sect [The Ruins of the Nanman Castle]."

"Mission Reward: Talent Evolution Flower +1, Free Attribute Points +500."

After completing the task of becoming the leader of the Southern Barbarian Holy Sect, Lin Tianhao obtained another flower of talent evolution, making two in total.

In addition, he has not yet completed the tasks of the three holy land masters. After successfully completing them, he can also obtain three talents and evolution flowers.

"Xue Di is looking for the flower of talent evolution? I also have a task here that can reward the flower of talent evolution." said the Lord of Kuntian City.

Lin Tianhao's eyes lit up. Since such a benefit was delivered to his doorstep, there was no reason for him to refuse it.

"I wonder what Lord Kuntian wants me to do?" Lin Tianhao asked.

The Lord of Kuntian City hesitated for a moment before saying:

"One of the main reasons why Kuntian City can attract so many people is that it has a slight effect on cultivation."

"Although this increase is slight, it can't be underestimated as it accumulates over time. Therefore, Kuntian City has always been very popular."

Lin Tianhao nodded but didn't respond.

Kuntian City Lord continued:

"Many people believe that the reason for this is because there is an ancient spirit gathering formation under our Kuntian City."

"However, this is not the case."

Lin Tianhao frowned slightly. After hearing this, he felt that the Lord of Kuntian City was setting a trap for him.

This task doesn't sound easy.

"There is indeed a large formation below our Kuntian City, but it is an evil formation. On the surface, this formation can help people speed up their cultivation, but in fact, it will consume their lifespan to achieve such an increase."

That's it.

The expression of the Lord of Kuntian City became serious.

"To be precise, as long as you are in Kuntian City, regardless of whether you practice cultivation or not, you will be consumed. However, those who practice cultivation will consume more lifespan."

Lin Tianhao frowned and asked:

"You want me to destroy this evil formation?"

The Lord of Kuntian City nodded heavily and said:

"Yes."

"Your Kuntian City prospered because of this evil formation. Now if you let me destroy it, aren't you afraid that your Kuntian City will be unpopular in the future?"

Kuntian City Lord sighed:

"Wrong is wrong. The population here has exceeded one billion. Even if this formation only takes a few days of life from each person every year, the number is too huge."

"I don't know if this evil formation will change after it continues to suck away their lifespans."

"And I have no idea who left this formation and what its purpose is. This unknown makes me panic."

Lin Tianhao frowned slightly, "Then you yourself have never tried to destroy this evil formation?"

"I have tried, but it was basically useless. I originally wanted to invite the leader of the Southern Barbarian Saint Sect to join me. Now that you are here, I hope you can help me as well."

"Ding, the Lord of Kuntian City has issued you a mission to [destroy the evil formation under Kuntian City]."

"Mission requirements: Destroy the evil formation in Kuntian City within one year."

"Mission rewards: Talent Evolution Flower +1, Free Attribute Points +10000, Equipment Evolution Scroll +10, God-level Talent Awakening Stone +1, Dao Scroll Treasure Strategy +3."

"Mission penalty: None."

"Ding, do you accept it?"

Lin Tianhao was a little surprised. The reward for this task was too good.

He was given 10,000 free attribute points, as well as an equipment evolution scroll, a god-level talent awakening stone, and a Taoist scroll.

Lin Tianhao had heard of the Dao Scroll in his previous life. It was a treasure that could increase the speed of enlightenment.

"accept."

Lin Tianhao smiled slightly, "This kind of evil formation should indeed be dealt with as soon as possible. When are we going?"

The Lord of Kuntian City said solemnly, "There is no time to lose, let's go now."

"It doesn't matter if you can't break it today. The main thing is that you can understand this formation first."

The Lord of Kuntian City led the way in front, while Lin Tianhao and the Leader of the Southern Barbarian Holy Sect walked side by side behind.

There is a barrier inside the City Lord's Mansion of Kuntian City.

Several people stepped into the barrier, opened one secret door after another from within the barrier, and finally led to the underground.

After walking down the dark passage for more than an hour, we finally saw a little light ahead.

That was... the faint glow of the rune.

The Lord of Kuntian City threw out a few luminous pearls, and the space was slightly lit up.

He looked up.

Lin Tianhao discovered that this was a huge underground square, or rather, a huge underground formation.

This underground formation is about fifteen meters high, and the ground is covered with countless dense tadpole runes.

There are densely packed tadpole runes leading above your head.

Metal pillars that require several people to hug connect the upper and lower parts, like huge load-bearing pillars supporting the stone roof above.

"See these metal pillars? When I first discovered this place, these metal pillars were only eight meters high, but now they are fifteen meters high."

The Lord of Kuntian City was worried.

"If these metal pillars continue to rise, I don't know what will happen."

Lin Tianhao looked around and saw many such metal pillars. At a glance, they were so densely packed that there was no end in sight.

It seems that there are such metal pillars under the entire Kuntian City.

"Do you know how to break this formation?" Lin Tianhao asked.

Kuntian City Lord thought for a moment and said:

"Destroying these metal pillars will weaken this formation."

"As for how to crack it, maybe if we destroy all these metal pillars, the formation will naturally break."

The leader of the Southern Barbarian Saint Sect hesitated and said:

"These metal pillars should all have the function of bearing weight. If they are all destroyed, will Kuntian City above still be able to hold up?"

Chapter 1362 The metal pillar that will grow taller!

Without waiting for the Nanman Saint Sect's leader to answer, Lin Tianhao shook his head and said:

"If the speculation is correct, there shouldn't be any impact at all, right?"

"Just now, the Lord of Kuntian City said that the metal pillar here was originally only eight meters high, but now it has risen to fifteen meters. The seven-meter increase is very large, but it still does not affect the Kuntian City above."

The Lord of Kuntian City nodded heavily and said:

"I'm actually not sure, but my thoughts coincide with Xue Di's."

"Since the rise of these metal pillars has no effect on Kuntian City, their descent should also have no effect on Kuntian City."

The leader of the Southern Barbarian Saint Sect hesitated, "That's not necessarily true. These iron pillars rise little by little, and this is deep in the center of the earth. It's possible that the soil is compressed. In this way, the rise of the metal iron pillars will not have much impact on Kuntian City at the top."

"It's like propping up some ten-meter-high pillars one or two thousand meters underground. Maybe one pillar will not have any impact on the surface."

That's it.

The expression of the leader of the Southern Barbarian Holy Sect became serious.

"However, if all these pillars underground disappear, there is a high probability that a collapse will occur."

"especially."

"The area covered by the metal pillars here is so large, the probability of collapse is very high."

Lin Tianhao nodded slightly and said:

"What you said makes sense, but the premise is that only the pillars are rising."

"But look, these metal pillars are supported by this huge rune stone and are rising upwards."

"The area of the top of this rune stone is too large. Let alone rising ten meters, even if it rises one meter, in theory it will affect Kuntian City above."

Kuntian City Lord nodded and said:

"I have been studying this place for a while, and Xue Di's judgment is similar to mine."

The leader of the Southern Barbarian Saint Sect asked: "Are these metal pillars difficult to destroy?"

Kuntian City Lord smiled bitterly and said:

"really."

"These iron pillars are too difficult to destroy. The main reason is that these iron pillars are immune to most damage, and most of my attack methods have very little lethality to them."

"call out--"

At this moment.

Lin Tianhao's feather arrows have already been fired. We will know how strong these metal pillars are by testing them with his feather arrows.

Lin Tianhao did not use the Heavenly Punishment Lock when shooting this arrow. He wanted to see if his feather arrow could hit the metal pillar.

"clang--"

The feather arrow accurately hit the metal pillar closest to Lin Tianhao.

The sound of the arrow hitting the metal pillar was sharp and piercing, and as it was continuously transmitted through the underground square and the iron pillars, the sound was actually intensified to an extremely terrifying level.

Lin Tianhao felt as if his eardrums were about to be torn apart, and a huge damage number appeared above his head.

-6021 million! !

Lin Tianhao's damage transfer is not currently targeted at anyone, it is simply relying on the damage reduction and physical transformation of the Heavenly Punishment equipment.

Lin Tianhao's physical transformation has now reached three hundred and eight, plus four pieces of Heavenly Punishment equipment reducing damage by 20%.

If it weren't for these factors, the damage Lin Tianhao suffered this time should be around 24 billion.

Moreover, Lin Tianhao suffered damage not only to his body but also to his soul.

"Xue Di, I haven't finished yet. Attack these metal pillars. They will bounce back with sonic attacks. Sonic attacks are indiscriminate range attacks and almost cause real damage, with an 80% chance of severe injury."

"Moreover, this sonic attack can cause damage to both the body and the soul, and is very difficult to deal with."

The leader of the Southern Barbarian Holy Sect took out a spear, and the spear was pointed out, hitting the metal pillar in an instant.

"clang--"

The sharp and piercing sound came again, and a huge damage number appeared above Lin Tianhao's head again.

-912 million!

See this scene.

The leader of the Southern Barbarian Holy Sect was a little surprised.

Because judging from the damage value fed back by the sound waves, the power of his previous attack was far less than that of Lin Tianhao's arrow.

"Lord Kuntian, how much effort did it take you to destroy an iron pillar?" asked the leader of the Southern Barbarian Holy Sect.

Hear this.

Kuntian City Lord smiled bitterly and said:

"I probably need to go out and recover more than 1,300 times before I can defeat a metal pillar."

The leader of the Southern Barbarian Saint Sect: "???"

He even felt that Lord Kuntian was joking with him.

Need to go out to recover more than a thousand times!

There are countless metal pillars here. If they want to clear them all, how long will it take?

"Because this will hurt your soul, the recovery time will not be less than three days each time."

"I used some special tools before, otherwise it would have taken me more than ten years to break one."

Lin Tianhao frowned, "Then your mission reward is a little insufficient!"

"It takes you more than ten years to destroy a metal pillar. There are so many here, and you only give me such a small reward."

The Lord of Kuntian City hesitated to speak, and finally said helplessly:

"Xue Di, it's not that I don't want to give a better reward, I'm just a city lord, and the rewards I can give out are limited."

"You are also the Lord of the Holy Land. The territory you are in charge of is so large, but how many rewards can you give out?"

Lin Tianhao hesitated for a moment and said:

"But you shouldn't be so little. There is such a large formation under your Kuntian City. There should be corresponding rewards."

"You just don't want to give it to me, right?"

Lin Tianhao's eyes were like swords, making the Lord of Kuntian City feel a little uncomfortable.

"But I can understand that. I'm already so powerful. It's obvious that I came to the outer land with bad intentions this time. It's normal that you don't want to take out the real reward."

"no....."

Kuntian City Lord waved his hands repeatedly and said:

"Xue Di, you really misunderstood. I do have a limited number of rewards that I can give out."

Lin Tianhao didn't say anything more. He took out a carving knife in his hand and walked to a stone pillar.

The next moment.

The carving knife slashed towards the metal pillar in front of him, and the metal pillar was like a piece of tofu, and was torn directly in half by the carving knife in Lin Tianhao's hand.

Lin Tianhao was very calm about this scene.

It was completely expected that the carving knife left by the God of the Source of Tao would have such an effect.

But when the Lord of Kuntian City and the Leader of the Southern Barbarian Holy Sect saw this knife, they were horrified.

Especially the Lord of Kuntian City, he has launched too many attacks on these metal pillars, and he knows too well how terrifying these metal pillars are.

But just now!!

Lin Tianhao's knife directly cut through the metal pillar, and there was no sound wave that bounced back to cause any damage.

This.....

It's incredible!!

Chapter 1363 2 A conversation at the king level!

Lin Tianhao took in all the changes in their expressions.

He nonchalantly put away the carving knife, "You can break this formation. Among all the adventurers, I am the only one who can break it!!"

"If you think that blocking this mission from me will prevent me from doing what I want to do, then I have nothing to say."

"but....."

Lin Tianhao raised his eyes and looked at the Lord of Kuntian City. "Whether you want to establish a good relationship with me or become a stumbling block on my path to growth, it depends on your choice!!"

If Lin Tianhao didn't understand Ragnarok, he might still believe the nonsense that City Lord Kuntian said about his limited authority over mission rewards.

But after experiencing two lifetimes, Lin Tianhao knew very well that people like the Lord of Kuntian City who came with convenient tasks must also have rewards of the same level.

Because normally.

It is impossible for there to be such a serious mismatch between task difficulty and task reward.

If there is no loophole in this formation, it should be very easy to crack it, or... the Lord of Kuntian City has hidden a reward! !

Just as Lin Tianhao said.

He came to the outside world, and to most people from outside the world, Lin Tianhao came with bad intentions.

Especially since Lin Tianhao came here only after annexing the Tutulu Empire, this is even more different.

"Let's go, think about it and give me an answer!"

Lin Tianhao turned and left.

Seeing Lin Tianhao preparing to leave, a moment of confusion flashed across Kuntian City Lord's eyes.

The leader of the Southern Barbarian Holy Sect also frowned, but he did not say anything. Now, it was the turn of the Lord of Kuntian City to respond.

Or...

Let Lin Tianhao leave.

however.

Until Lin Tianhao left, the Lord of Kuntian City did not call Lin Tianhao.

After Lin Tianhao left, the leader of the Southern Barbarian Saint Sect asked:

"Is what Xue Di said true? The reward for this mission is far more than this."

Kuntian City Lord smiled and said:

"you guess."

"I guess you uncle!!"

The leader of the Southern Barbarian Saint Sect couldn't help but curse.

After he said this, his expression became serious again.

"But Lord Kuntian, you still have to think seriously about the issue of Xue Di. His situation is rather special."

The Lord of Kuntian City did not immediately answer the question of the leader of the Southern Barbarian Holy Sect, but walked to the metal pillar that was cut open by Lin Tianhao with a carving knife.

"Tell me, how did he do it?"

"It is indeed difficult to leave marks on these metal pillars, but what if we use a divine weapon?"

"Although I can't fully control the artifact yet, maybe I can give it a try."

While talking.

A golden steel cone floated in the palm of the leader of the Southern Barbarian Holy Sect.

"You called me here because you want me to try this Demon Subduing Cone."

The Lord of Kuntian City made a gesture of invitation.

The leader of the Southern Barbarian Holy Sect gathered his strength on the Demon-Subduing Cone in the palm of his hand.

The Demon-Subduing Cone shone brightly, and in the blink of an eye it had already crashed into the metal pillar.

"clang--"

An even harsher and sharper sound was heard.

They were both silent!

Because of the attack by the leader of the Southern Barbarian Holy Sect, the rebounded sonic damage was only 50% more than that of Lin Tianhao's previous seemingly random arrow.

Not only that.

The attack from the leader of the Southern Barbarian Holy Sect only left a white dot on the metal pillar.

"This....."

The two looked at each other, not knowing what to say for a moment.

"Perhaps what Xue Di said is true. Among the adventurers, he is the only one who can break this formation."

"Or, you can invite a strong man at the level of the Great Emperor."

Kuntian City Lord hesitated to speak, and finally waved his hand and said:

"Thank you, Brother Qiongyang, for your help. It seems that we need to find another way to set up this formation."

The leader of the Southern Barbarian Saint Sect waved his hand and said:

"Small things."

"But I'm still curious, do you really have a reward for this task?"

Kuntian City Lord shook his head and said, "No, what I just said is true. It would be great if a formation of this difficulty had a corresponding reward for breaking it."

The leader of the Southern Barbarian Saint Sect looked at the City Lord of Kuntian meaningfully, "Do you know the Land of Chaos?"

"what happened?"

"Back then, the group of people in the Land of Chaos tried their best to hinder Xue Di and prevent her from completing her mission."

"result....."

"The land of chaos is filled with blood and corpses. There are only a few people left alive in the land of chaos."

That's it.

The leader of the Southern Barbarian Saint Sect changed the subject and said very seriously:

"Either you shouldn't have proposed this task to Xue Di, or else, everything you said is true."

"Otherwise, you are playing with fire right now."

"It should be easy for Xuedi to kill you."

After saying this.

The leader of the Southern Barbarian Saint Sect waved his hand and said, "In the outer regions, our relationship is relatively good, so I am telling you this."

Kuntian City Lord sighed quietly, "You should also know that the Snow Queen has come with ill intentions."

"But do you think that you and I can stop the growth of Xuedi?"

"As he said, can you stop him from doing what he wants to do?"

The leader of the Southern Barbarian Saint Sect said with some regret:

"The trend cannot be violated!!"

"Although you and I are both in the outer regions, don't you know what happened in the vast continent?"

"The Snow Queen has done so many things. How many people can stop the Snow Queen?"

"How many of those who tried to go against Xue Di had a good ending?"

The Lord of Kuntian City hesitated and gritted his teeth and said:

"I can not be reconciled."

"What are you unwilling to accept?"

"You are an old monster who has lived for such a long time. Don't you have any idea about your own talent and background?" asked the leader of the Southern Barbarian Holy Sect.

Kuntian City Lord said in a deep voice:

"But he wants to annex our entire outer land!!"

"If they want to annex us, can you stop them?"

"It's better for us to be annexed than for those places in the Vast Empire to be annexed. At least, we didn't originally belong to the Mountain and Sea Empire. If we are annexed, it won't be forgotten. At most, the boss will be replaced!!"

"Like in Kuntian City, how many people would care about changing a city manager?"

These words from the leader of the Southern Barbarian Holy Sect made the Lord of Kuntian City silent.

After a while.

The Lord of Kuntian City could not help but ask:

"Then what do you think we should do?"

"Are you going to bow down and grovel before the Snow Emperor just like that?"

"To be honest, I can't do it. I would rather go to the God's Realm right now. Even if I die in the God's Realm, I don't want to be a slave!!"

The leader of the Southern Barbarian Saint Sect nodded and said, "No one is willing to be a slave, especially people at your level and mine."

"I don't know what other people think, but I can tell you what I think."

"First, you must not be an enemy of the Snow Emperor, and you must not hinder what the Snow Emperor wants to do."

"Secondly, I followed Xue Di and ate some leftovers. I told him the information about Jiuyou and Tiangong. Although he didn't agree on the surface, I was sure that he would go."

Chapter 1364: Unlimited and excessive eating!

"If Tiangong and Jiuyou reappear on earth, it would not be impossible for you and I to take another step forward and become emperors."

"If the Snow Queen insists on making us her slaves, we will go directly to the Divine Realm."

"Don't be an enemy of the Snow Emperor, stabilize the Snow Emperor, drink soup with the Snow Emperor, and finally go to the Divine Realm."

"After we go to the Divine Realm, we can rely on our Emperor rank to become Divine Emperors in the future. Then, we can seek resources and become Semi-Saints or even Pseudo-Saints. It is not impossible."

"If you take it step by step, you can become a saint."

That's it.

The leader of the Southern Barbarian Saint Sect said solemnly:

"If we fight against Xuedi, even if we don't die today, we will die tomorrow!"

"If you take a step back, you may become a saint. If you take a step forward, you will surely die. What do you think?"

Kuntian City Lord took a deep breath and said, "But we are human beings, and we have feelings."

"This is our home. Can you really bear to be ruled by the Snow Emperor?!"

The leader of the Southern Barbarian Saint Sect smiled and waved his hand, saying:

"Don't talk so pompously."

"For the development of Kuntian City, didn't you also hide this evil formation under Kuntian City?"

"What happened to Xuedi?"

"You think that after the Snow Emperor takes over the Outer Domain, she will manage it herself. In the end, she will probably win over a group of people to join the Mortal Palace and share the management tasks."

"If you join the Fan Palace, this Kuntian City will most likely still be under your control. The Snow Emperor might even allow the Shanhai Empire to trade with your Kuntian City, giving you more benefits and making your Kuntian City a super giant city with a population of tens of billions."

"If you resist, you might destroy this place."

"Our land outside the domain is already divided among many warlords, and there are constant disputes. It would be nice if someone could come in and take charge of it."

Kuntian City Lord exhaled heavily, "After listening to you, I seem to have understood what you said."

"That's right."

"If you don't want to be a slave, promote your trusted aides to the top. You can leave and let your trusted aides join the Fan Palace. To save trouble, the Snow Emperor will probably let your trusted aides manage Kuntian City."

"What do you think?" said the leader of the Southern Barbarian Holy Sect.

"Let's go and meet the Snow Emperor."

The Lord of Kuntian City quickened his pace and walked outside.

The leader of the Southern Barbarian Holy Sect quickly followed.

"Lord Kuntian, please tell me about our relationship. What reward will I get for completing this mission?"

Kuntian City Lord hesitated for a moment, then said:

"There are saint-level items."

"Saint... Saint level!!!"

These three simple words brought such a shock that it is unimaginable.

To them, even divine weapons are incredible.

Saint-level things are even more out of reach.

"Then why are you hesitating? Send out the task and complete it, and you will get reward feedback yourself." The leader of the Southern Barbarian Holy Sect asked.

As soon as he said this, he widened his eyes and lowered his voice and said:

"You want to trick Xue Di into doing this mission, so... after you complete the mission, you can get the corresponding mission reward!!"

"Damn, you're so dark, this is a saint-level item!!"

The Lord of Kuntian City glanced at the Lord of the Southern Barbarian Saint Sect and said:

"If it were you, would you not be moved?"

The leader of the Southern Barbarian Saint Sect smiled awkwardly and said:

"Hehe, if it's a saint-level item, it's really worth taking the risk."

"I hope Xue Di won't be angry, but you should be thankful that he saw through you. If he had really been fooled by you, I think you would have died even if you ran to the Divine Realm."

Kuntian City Lord smiled bitterly and nodded, "You have enlightened me. I roughly calculated that with Xue Di's growth rate, he will definitely go to the Divine Realm, and he will definitely do better than me in the Divine Realm."

"If he knew that I had betrayed him and gone to the Divine Realm, I'm afraid even a Half-Saint wouldn't be able to protect me."

The two had already returned to the City Lord's Mansion while they were talking.

"Wait a moment, I'll ask about the location of the Snow Queen." said the Lord of Kuntian City.

Lin Tianhao is too special. As long as Lin Tianhao is in Kuntian City, there will naturally be people watching him.

In case anything happens, the Lord of Kuntian City can get the news first.

"Beast Pavilion."

After a while, the Lord of Kuntian City had found out where Lin Tianhao was.

at this time.

Inside the Beast Pavilion.

Lin Tianhao was eating voraciously. Every time he took a few big bites, he would get a reminder sound.

"Ding, free attribute point +1."

"Ding, free attribute point +1."

.....

This is the skill that Lin Tianhao obtained from the god of excessive eating: unlimited excessive eating.

You can gain free attribute points by eating.

The more energy the food he eats, the more free attribute points he can obtain.

Lin Tianhao had eaten some things before, but the improvements were very limited.

Because after most wild monsters are killed, their bodies will disappear.

Eating ordinary food means eating a lot. This unlimited eating is unlikely to provide Lin Tianhao with free attribute points.

But now in this Beast Pavilion, Lin Tianhao seemed to have discovered a new world.

Even the flesh and blood of wild monsters at the seventh level of platinum are for sale here, and are made into delicious dishes that are not only colorful, fragrant and delicious, but can also increase his free attribute points.

It's just... a little expensive.

Lin Tianhao just ordered some dishes from seventh-level platinum-level wild monsters, and the cost was over one million gold coins.

If it were an ordinary adventurer, he probably couldn't afford it, but for Lin Tianhao, it was just a drop in the bucket.

He now holds the financial power of the Shanhai Empire. With the skills blessed by the God of Wealth, gold coins are just a number to him.

But this consumption level is also terrifying.

If he really ate like Lin Tianhao, he wouldn't be able to spend even one million gold coins for one meal. In a month, his expenses would probably be over 100 million gold coins.

But the effect is also very good, the prompt sound in the ear is so wonderful.

Although this free attribute point is of little help to Lin Tianhao, it is stable.

As long as you eat, you will have it.

According to Lin Tianhao's calculations, these dishes made from the flesh and blood of wild monsters worth more than one million gold coins can at least increase his free attribute points by two hundred.

If you eat like this for every meal, it shouldn't be a big problem to increase nearly 20,000 free attribute points a month.

Just when Lin Tianhao was eating happily, a manager ran in respectfully.

"Sir, the Lord of Kuntian City and the Lord of the Southern Barbarian Saint Sect want to see you."

The manager was trembling with fear at this time. When he saw Lin Tianhao ordering so many dishes by himself, he thought that a rich and willful tycoon had come to their Beast Tasting Pavilion.

But when he saw that the Lord of Kuntian City and the Leader of the Southern Barbarian Holy Sect had both come, and they said they wanted to see the adult in front of them.

The manager just felt confused.

What is the identity of the young man who is eating inside that he could make the Lord of Kuntian City and the Leader of the Southern Barbarian Holy Sect ask to see him at the same time!

Chapter 1365 Brand new rewards!

Lin Tianhao remained calm, continued eating, and responded casually:

"Let them in."

"Yes, my lord!"

The steward left.

Not long after.

The Lord of Kuntian City and the Leader of the Southern Barbarian Holy Sect stepped in.

See both of them.

Lin Tianhao tore off a large piece of meat from the thigh of the unknown wild monster in front of him, swallowed it whole, and then asked:

"My two lords, it's been less than an hour since we separated, and you're here to see me again. Is there something going on?"

The Lord of Kuntian City stepped forward and bowed ninety degrees to Lin Tianhao.

"first."

"I need to apologize to you, sir. Secondly, as a token of my sincerity, I will give you a flower of talent evolution."

While talking.

The Lord of Kuntian City took out a flower of innate evolution and handed it to Lin Tianhao respectfully.

Lin Tianhao opened his hands, which were covered with grease from chewing bones.

He pulled out a few tissues, wiped his hands quickly, and took the flower of talent evolution.

"Just apologize, why are you being so polite?"

"You've already sent it out. If I don't accept it, wouldn't that be giving you face, sir?"

Seeing the change in Lin Tianhao's attitude, the Lord of Kuntian City was secretly happy.

he knows.

There was a high probability that Lin Tianhao was not angry with him anymore.

"I'm taking back the previous mission. I'll give you the same mission as before. This time, I come with sincerity."

"Ding, the Lord of Kuntian City has issued you a mission to [destroy the evil formation under Kuntian City]."

"Mission requirements: Destroy the evil formation in Kuntian City within one year."

"Mission rewards: Talent Evolution Flower +2, Free Attribute Points +50000, Equipment Evolution Scroll +20, God-level Talent Awakening Stone +3, Dao Scroll Treasure Strategy +10, Hongmeng Alchemist Job Change Scroll Fragment +1, Hongmeng Pill Recipe Fragment +1, Life Coin +1."

"Mission penalty: None."

"Ding, do you accept it?"

Lin Tianhao narrowed his eyes slightly. The mission was indeed the same as before, but the reward was completely different.

All previous rewards have not been reduced, and have been multiplied.

but.

The most important things are the three extra things at the end.

The fragment of the Hongmeng Alchemist job transfer scroll!!!

Lin Tianhao had obtained one from the old woman before.

I thought it would take some more effort to get the second copy.

But now.

This was delivered to my door.

Not only that.

This time, there are also fragments of the Hongmeng Pill recipe and the longevity coins.

The remaining fragments of the Hongmeng Pill recipe were easy to understand, but Lin Tianhao had never heard of the Longevity Divine Coin in his previous life, and he didn't know what it was.

However, looking at this reward, Lin Tianhao felt that there was sincerity.

The Hongmeng Pill Recipe is most likely a fragment of a saint-level item.

The fragments of two saint-level items, plus a large number of other rewards, are extremely good no matter how you look at it.

especially.

Generally, the more precious something is, the more it is placed at the back.

This lifespan coin was placed at the end. From a certain perspective, the value of this lifespan coin might even be higher than the fragment of the Hongmeng Alchemist's job transfer scroll! !

But no matter whether it is true or not, this reward is enough.

"It can be seen that you are indeed very sincere."

Lin Tianhao smiled slightly and chose to accept the task.

"Wait a moment, I'll go with you after I finish eating." Lin Tianhao said.

The leader of the Southern Barbarian Saint Sect nodded and said:

"Okay, I'll go pay for Master Xuedi."

talking.

The leader of the Southern Barbarian Holy Sect went out to pay the bill.

Upon seeing this, the Lord of Kuntian City immediately took out a Supreme Black Gold Card.

"Master Xuedi, I have 100 million gold coins in this black gold card, which I will give to you as a gift. This supreme black gold card can enjoy a 40% discount when used in most places in Kuntian City, including this Pinshou Pavilion."

Lin Tianhao smiled slightly and said:

"Okay, thank you very much."

"Master Xuedi is too polite. This is what we should do."

The leader of the Nanman Saint Sect, who had just come back from paying the bill, was stunned when he saw this scene. He thought to himself, you old Deng, weren't you so noble before? How come you are even more servile than me now! !

Such a fucking good licker!!

He didn't even have this Supreme Black Gold Card, yet he just gave it to Xue Di so casually! !

Although he thought so in his heart, the leader of the Southern Barbarian Holy Sect did not show the slightest bit of it on his face.

The two king-level masters waited until Lin Tianhao finished eating before returning to the City Lord's Mansion with Lin Tianhao.

old place.

After Lin Tianhao arrived here, he took out a carving knife and began to destroy things wantonly.

When the carving knife was facing these metal pillars, it cut them into pieces just like cutting tofu.

However, the length of the carving knife is limited, and it still takes some effort to cut through a metal pillar.

However, Lin Tianhao's movement speed and attack speed are fast enough, so it doesn't take much time to actually operate.

"This task was given to Xue Di, and he seemed to have completed it with ease." The Lord of Kuntian City could not help but say.

He thought that someone could complete this task, but he never thought that someone could destroy the metal pillar as easily as Lin Tianhao.

"I'm still a little worried. If these metal pillars are completely destroyed, will Kuntian City above sink?"

The leader of the Southern Barbarian Holy Sect did not believe what Lin Tianhao and Kuntian City Lord said before.

Kuntian City Lord spread his hands and said:

"There's no point in worrying. Can I take back the mission?"

"What's more, if this evil formation is not destroyed, who knows what kind of trouble will arise later."

The leader of the Southern Barbarian Saint Sect nodded heavily, "Indeed."

"I have never heard of a formation that can absorb the lifespan of others indiscriminately over such a large area."

Lin Tianhao destroyed it very quickly, but the metal pillars here were too big.

In this underground square, you cannot see the passage of time.

Lin Tianhao didn't know how long he had been chopping. It was only after Jian Chanjian Chanxin sent a message to Lin Tianhao that he looked at the time.

"Seven hours?"

Looking at the densely packed metal pillars in front of him, Lin Tianhao suddenly wondered if there was something wrong with the way this formation was destroyed.

Or maybe.

There is something wrong with the method he is using now to break the formation.

It was so difficult for him to hold the carving knife. I wonder how difficult it would be if someone else were to do this task.

Open the chat box.

Lin Tianhao discovered that the other party was actually requesting a video call.

Lin Tianhao chose to turn off his camera and then answered the video call.

On the other side of the video, Gulimosi stood next to a soldier.

"Xue Di, I have completed all your requests. You can confirm with Chen Taiyuan."

The warrior next to her nodded, "Boss Xuedi, long time no see."

Lin Tianhao smiled slightly, and before he could speak, Gulimosi continued:

"Now, shouldn't you tell me about the second volume of Zhenhai Furugong?"

Chapter 1366 The unknown existence under the evil formation!

Lin Tianhao smiled slightly and said:

"In fact, the second volume of Zhenhai Fu Ru Gong is hidden in the first volume."

"The first volume can help you cultivate to the state of Grandmaster Great Perfection, but it cannot break through to the state of Grandmaster. It will also make your Qi and blood unstable and your body continue to suffer damage."

Gulimosi didn't respond, she just listened silently.

"And you."

"When your qi and blood are unstable, you only need to reversely practice the first volume of Zhenhai Furu Gong, and you will naturally be able to stabilize your qi and blood."

"Once you reach the Grandmaster's Great Perfection, you can continue to reverse the True Sea Fu Ru Gong and strive for the Grandmaster's realm."

After listening to what Lin Tianhao said.

Gulimosi looked at Lin Tianhao with suspicion.

"You don't have to doubt me, just try it and you will know."

"In addition, I can also tell you that the Zhenhai Fu Ru Gong itself is a dual cultivation skill. When you practice the Zhenhai Fu Ru Gong in reverse, combined with dual cultivation, you can achieve twice the result with half the effort."

Gulimosi nodded gently, "I hope what you said is true. I will try it now."

to be frank.

Gulimosi felt that Lin Tianhao was playing tricks on her.

Reverse operation technique?

If you do this, you might accidentally break your tendons and veins, or go crazy.

No matter which situation it is, it is basically useless.

But her life was already in danger at this time.

Even if she didn't listen to Lin Tianhao, she would have no chance of survival.

After going offline.

Gulimosi immediately tried the method Lin Tianhao said, and carefully performed the Zhenhai Fu Ru Gong in reverse.

"it works!!!"

Gulimosi was very shocked. Her unstable blood and energy actually became stable! !

But thinking of what Lin Tianhao said, Zhenhai Furugong is also a dual cultivation method...

She was also very curious whether it was true.

Think of this.

She went straight to find Chen Taiyuan.

.....

Kuntian City, below the City Lord's Mansion.

Lin Tianhao was still swinging the carving knife.

After continuing to chop for another five hours, Lin Tianhao felt his arms a little sore.

There are too many metal pillars.

"No, I have to go out and eat something and rest."

Lin Tianhao had never tried to swing his arms with such high intensity before. There were simply too many metal pillars under Kuntian City.

I don't know if there is really something wrong with the way he breaks the formation.

If after chopping down all these metal pillars, the formation below Kuntian City is still not broken, then he will really cry to death here.

Beast Pavilion!

Just like last time, Lin Tianhao turned into a super foodie and ate a lot!

After eating like a whirlwind for more than an hour, Lin Tianhao left with satisfaction.

Back in the City Lord's Mansion, Lin Tianhao continued to sweat profusely!

Start hard work.

The sun sets and the moon rises, the moon sets and the sun rises.

In the blink of an eye, three days passed.

Looking at the dozen or so metal pillars left in front of him, Lin Tianhao let out a breath.

After three days of unremitting efforts, he was finally about to succeed.

"come on."

The Lord of Kuntian City cheered for Lin Tianhao.

Lin Tianhao picked up the carving knife again and strode towards the metal pillar in front.

The carving knife in his hand kept swinging, and the last dozen or so metal pillars collapsed one by one.

however.

When the last metal pillar fell, nothing special seemed to have changed here.

"No way, destroying these metal pillars is not the key to breaking the formation."

Lin Tianhao felt like cursing. Three days of high-intensity destruction had left him with backaches.

This is the result we waited for.

to be frank.

Lin Tianhao was somewhat unwilling.

Just as Lin Tianhao was about to continue destroying the runes on the ground, the runes on the ground and above his head began to flicker.

These runes are collapsing.

"It's done!!"

The Lord of Kuntian City showed excitement on his face.

This formation actually worked.

however.

At this time, Lin Tianhao, Kuntian City Lord and others were underground.

What they can't see is.

Above Kuntian City, dark clouds gathered, lightning snakes rolled, and a huge black thundercloud gathered above Kuntian City.

In Kuntian City.

Many people noticed the sudden appearance of this black thundercloud.

"This... This is a black thundercloud!!"

"The legendary black thundercloud that can destroy everything!!"

"It is said that black thunderclouds can only appear when gods are promoted. How can black thunderclouds appear in this place?!"

"Now that the saint cannot take action, what caused this black thundercloud to move?"

.....

Above Kuntian City.

The thunderclouds gathered larger and larger, and a terrifying feeling of oppression made everyone in Kuntian City feel a little breathless.

"I've read in ancient books that there is a special kind of monster in this world. They are called town monsters!!"

"In our Kuntian City, no one should be able to cause such thunderclouds."

"So... there is only one truth!!"

"That is, the Kuntian City under our feet is a town-type monster!!"

This person's analysis was very logical and was actually recognized by many people.

After all, apart from town-type monsters, there are almost no people who can trigger this level of heavenly thunder.

at this time.

Below Kuntian City.

Lin Tianhao looked at the changes around him and couldn't help but smile.

"It looks like this formation has been broken."

The Lord of Kuntian City nodded, but before he could say anything, an extremely majestic voice suddenly sounded.

"Who is so bold as to disturb my deep sleep?!"

The moment the voice came, a mighty force swept across the world. Lin Tianhao felt as if a towering mountain was pressing down on him, making it difficult for him to move.

Lin Tianhao looked at the City Lord of Kuntian. The City Lord of Kuntian also had a confused look on his face at this time and had no idea what was going on.

At this moment.

Lin Tianhao saw an illusory figure walking out. He was tall, like a giant.

As soon as he appeared, the pressure on Lin Tianhao became even greater.

"Such a weak aura! How could there be ants like you in this ancient and barbaric land?"

Lin Tianhao had a solemn expression. The Lord of Kuntian City was a king-level warrior after all, but he actually said that they were ants.

However, this guy's aura is indeed very strong, countless times stronger than that of Lord Luotian.

"This... isn't this a place outside the domain? I think that we and our predecessors are not creatures from the same era?" Lin Tianhao said.

Hear this.

The tall shadowy figure moved closer to Lin Tianhao.

"You are quite interesting, you actually have so many divine auras on you..."

"Wait... Taishang Laojun... Yuanshi Tianzun... God and Demon Hour!!"

The tall figure's pupils suddenly dilated, as if he had sensed something extremely incredible.

"Hahaha, you are really interesting, young man. I wonder which lineage of the Three Pure Ones you belong to?"

Lin Tianhao shook his head with difficulty, "I am not a disciple of Sanqing for the time being, but the current master of Fan Palace."

Chapter 1367 The veiled woman appears again!

"Fan Dian...?"

The tall shadow seemed to be thinking, "I haven't heard of it, but if you obey, you will be a mortal, if you disobey, you will be an immortal. You, the mortal palace, can't do that!"

The corner of Lin Tianhao's mouth twitched slightly. Just because of this, he concluded that Fan Dian was not capable of anything?

However, judging from the aura exuded by this tall shadow, this existence should be extremely terrifying.

"Do you know about the Savage Divine Dynasty?" asked the tall shadow.

Lin Tianhao shook his head, and the Lord of Kuntian City also shook his head.

"How much time has passed? Does the Savage Divine Dynasty even have no foundation?"

The tall shadow moved closer to Lin Tianhao again and said calmly:

"No, no, this shouldn't be the case!!"

"How can it be!!"

The tall shadow seemed to sense something extremely shameful from Lin Tianhao.

"You kid, you are obviously very, very weak, but why do you have such a treasure?"

Lin Tianhao didn't dare to say anything. The oppressive feeling given by this tall shadow was too strong.

It was as if the person in front of him could kill him at any time if he wanted to.

"Senior, are you a being above a saint?" asked the Lord of Kuntian City cautiously.

Now the gods cannot take action, and even a mortal emperor should not have the power and might of the person in front of him.

That's the case.

It can be basically confirmed that the person in front of us might be a super powerful saint-level person.

At this moment, the Lord of Kuntian City just wanted to pay homage.

Because for someone like him, in order to become a God-Emperor in the future, he needs a bit of luck.

If one wants to pursue the realm of God Emperor, or even a higher realm, then one really needs a great opportunity to achieve it.

"saint?"

The tall shadow did not comment. He said calmly:

"You guys, why did you destroy my formation and disturb my sleep?"

Lin Tianhao pointed at the Lord of Kuntian City and said:

"I came here because I accepted the mission from the Lord of Kuntian City."

"Oh?"

The tall shadow's gaze fell on the City Lord of Kuntian.

The Lord of Kuntian City just felt a chill in his heart.

Being stared at by the tall shadow, he felt that he was going to die in the next moment.

"thump--"

The Lord of Kuntian City knelt down in front of the tall shadow without any hesitation. He said respectfully:

"Senior, please understand. I am the mayor of Kuntian City. I discovered that this formation can quietly absorb the life span of the people of Kuntian City. That is why I invited Master Xuedi to break this formation."

"If I knew that this formation was where the Lord was sleeping, I would never dare to ask anyone to destroy it."

"Please, senior, forgive me this time for the sake of the people of Kuntian City."

The tall shadow looked at the City Lord of Kuntian indifferently and said calmly:

"If you want to be a good person, you should destroy my formation?"

"It's not easy to be a good person!"

"Boom——"

As the tall shadow finished speaking, the body of Kuntian City Lord actually sank slightly, and he was actually pressed directly to the ground.

"You destroyed my formation for the sake of the people of Kuntian City, so it's only natural!"

"It is also reasonable for me to kill you for my formation, so we are both not wrong."

Hear this.

Kuntian City Lord said quickly:

"Please spare my life, Senior. I am willing to devote my entire life to helping you restore the formation and attract more people to live in Kuntian City so that you can absorb more lifespan."

The tall shadow nodded with satisfaction and said:

"Ruzi can be taught!"

"In that case, hand over your soul essence and let me use it."

The Lord of Kuntian City hesitated. Before this, he and the leader of the Southern Barbarian Holy Sect had sworn that they would never be slaves.

But now.

The choice of slavery was upon him.

Oh shit! !

The leader of the Southern Barbarian Holy Sect left yesterday, otherwise he would be facing the same life-threatening decision as him.

"You hesitated!!"

A cold light flashed in the eyes of the tall shadow, and then...

"Bam—"

The body of Kuntian City Lord exploded beside Lin Tianhao.

Lin Tianhao: ? ? ?

A nameless rage surged out from Lin Tianhao's heart.

It took him more than three days to finally complete the task assigned by the Lord of Kuntian City, and he was about to receive the reward.

The Lord of Kuntian City was directly beaten to death by the tall shadow in front of him.

"What about you?"

The tall shadow looked at Lin Tianhao indifferently.

Under his gaze, Lin Tianhao only felt that the space was distorted, and the flow of time seemed to have slowed down at this moment.

"Senior, even if you die, at least let me know who killed me!!" Lin Tianhao said.

The tall shadow chuckled and said:

"You have so many blessings from the gods, and even blessings above the gods."

"Why? Do you want to use your background to kill me after knowing my name?"

Lin Tianhao shook his head. "That's not the case. If I don't die today, I will kill you myself."

"Oh?"

The tall shadow was a little surprised. "Are you so confident? Can you grow to my level?"

Lin Tianhao shook his head and said:

"If you don't believe in yourself, how can you expect others to believe in you?"

The tall shadow nodded. "What you said does make sense, but I don't think I have any reason to let you leave alive."

As the tall shadow finished speaking, Lin Tianhao felt as if his body was about to be crushed in an instant.

Just when Lin Tianhao was about to use the return function to leave.

But right now.

The pressure on Lin Tianhao suddenly disappeared, and the veiled woman suddenly appeared in front of Lin Tianhao.

The person who came was none other than the veiled woman that Lin Tianhao met in Huaxiang Tower.

Hei Tianao had once guessed her identity, and that was the plant-type star species in the ancient mysterious realm.

"what....."

The tall shadow was slightly surprised, "Who are you? Why are you protecting this little guy?"

"You don't need to know. If I want to protect you, I will. Why should I explain to you?" The veiled woman's voice was cold, and she didn't give the tall shadow any face at all.

"Hahaha....."

The tall shadow raised his head and laughed, "What kind of person are you? How dare you speak so arrogantly in front of me!"

The words fell.

The tall shadow raised his hand and pointed, and a red-gold finger pressed down towards the woman, killing her instantly.

The veiled woman had an indifferent expression as inky black vines sprang out, wrapped around the fingers, and finally tore them into pieces.

"I finally recovered some strength, but I'm wasting it here. Is it worth it?"

The tall shadow looked at the veiled woman with a more serious look in his eyes. "Logically, you shouldn't protect him."

"Didn't you say that? That's reasonable."

"What do you want from him?"

The tall shadow's gaze fell on Lin Tianhao.

"Although this kid is quite capable, he shouldn't be someone you should protect. He must have some secrets that I haven't discovered yet."

"Boy, women are all vicious and cruel. You have to be more careful when dealing with women."

Chapter 1368 Get the reward, the life span coin!

After saying this, the tall shadow disappeared.

The veiled woman's face darkened, but when she turned around and looked at Lin Tianhao, her expression returned to normal.

"Are you okay?" asked the veiled woman.

"Something's going on!!"

Lin Tianhao felt bitter.

"You know what? I worked so hard to complete this mission, and it's almost time to claim the reward, but that guy came out and killed the Lord of Kuntian City. Who should I turn to to submit the mission?"

The veiled woman waved her hand and said:

"Whatever you lose today, you will get back double tomorrow."

Lin Tianhao's mouth twitched and he said:

"There were several things in the prize that were very, very important to me, and now they are gone."

The veiled woman thought for a moment and said:

"In that case, let him live."

The words fell.

The veiled woman walked up to the Lord of Kuntian City.

A silver-white scepter appeared in her hand.

She just pointed the scepter and chanted complicated spells.

The flesh and blood of the dead Kuntian City Lord actually began to reorganize, and after a while, Kuntian City Lord was resurrected! !

After being resurrected, the Lord of Kuntian City looked around in a daze, obviously still a little dazed.

"I...I'm resurrected!!"

"Yes."

The veiled woman said calmly, "Let's leave here first."

The Lord of Kuntian City didn't dare to say much and nodded repeatedly. He didn't want to be beaten to death again.

Even after returning to the City Lord's Mansion, City Lord Kuntian was still feeling a little uneasy.

"The one underground..."

The Lord of Kuntian City spoke cautiously. He had no idea that there was such a terrifying existence beneath his Kuntian City.

"With your strength, you'd better not consider the man in the underground. He is the kind of person who won't attack easily."

The veiled woman said.

The Lord of Kuntian City pointed at himself and said:

"But this is too dangerous. He might jump out and kill me one day."

"If he's really bored, he might do that."

Lin Tianhao said:

"Lord Kuntian, the person below is not something we can control for the time being, but I have completed your task. You should return the reward to me."

The Lord of Kuntian City nodded and directly gave the reward to Lin Tianhao.

"Ding, congratulations, you have successfully completed the mission of the Lord of Kuntian City [Destroy the evil formation under Kuntian City]."

"Ding, congratulations, you have obtained Talent Evolution Flower +2, Free Attribute Points +50000, Equipment Evolution Scroll is +20, God-level Talent Awakening Stone +3, Dao Scroll Treasure Strategy +10, Hongmeng Alchemist Transfer Scroll Fragment +1, Hongmeng Pill Recipe Fragment +1, Life Coin +1."

Lin Tianhao showed excitement on his face. Needless to say, Lin Tianhao had obtained a copy of the Hongmeng Alchemist's job transfer fragments before.

Daojuan Baoce: Special.

Wearing requirements: None.

Effect 1: Enlightenment speed +200%.

Effect 2: Health +1 billion.

Wear resistance: 100.

Lin Tianhao narrowed his eyes slightly. He knew that this thing could increase his enlightenment speed, but he never thought that it could actually increase his health by 100 million! !

These 100 million health points are not worth mentioning to Lin Tianhao, but for ordinary adventurers, they are very, very high.

Lin Tianhao thought about it for a moment and decided that this strategy would definitely give priority to satisfying his own people.

Glasses, monkey, fat man, Lin Qingqing.

As for the rest.

It can also give life to Su Li and others like him.

but.

Lin Tianhao still planned to take out two copies for Berserker Blade and the others.

After all, Berserker Blade and the others did help him a lot.

Thinking like this.

Lin Tianhao kept one for himself and gave the remaining nine away.

Fragments of Hongmeng Dan Fang: Unknown.

Requirements for use: Hongmeng Alchemist.

Effect: It contains many recipes for precious elixirs.

Wear resistance: Indestructible.

The effect of the remaining fragments of the Hongmeng Pill recipe was still within Lin Tianhao's expectations.

At last.

It is the finale of the Longevity Divine Coin!!

Lin Tianhao had previously speculated that this lifespan coin might be more valuable than the remaining scroll of the Hongmeng Alchemist's job transfer scroll.

Longevity Coin: Unknown.

Usage requirements: None.

Effect 1: Every year you wear it, you can increase your lifespan by one month.

Effect 2: If you eat it directly, you can gain a lifespan of years.

Wear resistance: Indestructible.

Lin Tianhao raised his eyebrows. This lifespan coin seemed to be of no use to him.

Because it is said that after becoming a god, one will basically have endless life.

of course.

Lin Tianhao didn't know whether it was true or not.

"Thank you for your help today." Lin Tianhao bowed.

one way or another.

This time it was all because of the veiled woman, otherwise, he might have been able to escape, but he would most likely not get the reward.

"piece of cake."

The veiled woman waved her hand. "You are someone worthy of my good relationship."

That's it.

The veiled woman seemed to have thought of something, and continued:

"Snow Emperor, you are very strong, but you must know that there is always someone stronger than you. You have never been to the God's Domain, so you don't know that gods can also be pawns, and the God Emperor must bow down to you."

"In your eyes, Ragnarok is a huge world that cannot be seen, but in the eyes of some people, it is just a slightly larger copy."

Lin Tianhao hesitated for a moment before saying:

"There may be resources here that the gods need, but beings above the gods probably wouldn't look down on the mere trifles here."

This is also the reason why Lin Tianhao has always been unscrupulous in doing things.

In this Ragnarok of the Gods, there should be few saint-level strongmen.

If the gods do not take action, there are not many who can compete with Lin Tianhao, except for those who have gone far into the realm of the Great Emperor like the Lord of Luotian, or some hidden great powers who have reached the tenth or even eleventh turn.

"you are wrong."

The veiled woman shook her head. "This place is different from other small worlds."

"Why?" Lin Tianhao asked.

The land of Shenzhou originally belonged to the divine realm. Once upon a time, an unprecedented war broke out in the divine realm. A large number of beings above the gods took action, causing the sky to darken and the sun and moon to lose their light.

"That battle was so tragic."

"The divine domain was also broken apart, but it still largely belongs to the divine domain itself."

"Some small world fragments were collected by some peerless powers and refined into their own small worlds."

"There are things in the fragments that have been broken apart from the divine realm that would make beings above the gods envious."

That's it.

There was a hint of solemnity in the veiled woman's voice.

"Once that great being existed, these guys didn't dare to act too recklessly, no matter if they were in the land of China or not. They only dared to spy in secret."

"But what these guys will do in the future is unknown. The guy you met today is a being above gods."

Chapter 1369 The lifespan and promotion of gods!

Lin Tianhao nodded heavily. In fact, even if the other party didn't say it, he could guess the approximate strength of the tall shadow.

"Thank you for telling me this, senior."

Lin Tianhao responded politely that when they were in the Ancient City of Heart Demon, the one above the sky was most likely a being above the gods.

Now, below Kuntian City, Lin Tianhao once again encountered a being above the gods.

"Okay, just be careful."

The veiled woman waved her hand and turned away.

After sending the veiled woman away, Lin Tianhao looked at the Lord of Kuntian City and said:

"I also need to go on a mission, so you should be careful too."

The corner of Kuntian City Lord's mouth twitched. What should he do?

Should I give up Kuntian City? Go somewhere else? Or should I stay in Kuntian City?

.....

After coming out of Kuntian City, Lin Tianhao called Ned Liv out.

"Ned Lifu, how long is the lifespan of your gods?" Lin Tianhao asked.

Lin Tianhao died too early in his previous life. He had no idea how long an ordinary adventurer, let alone a god, could exist.

"There are many factors. The life span of us gods is affected by our skills, Tao, and our own realm. The life span varies greatly."

"But a first-grade deity who has just become a god should have a lifespan of more than 20,000 years."

"Twenty thousand years?!"

This lifespan is indeed very long.

"This lifespan is only slightly longer than some of your king-level masters in Ragnarok."

"The lifespan of a king-level mortal can exceed ten thousand years, and that of an emperor-level mortal can be even longer. As for an emperor-level mortal, even if he is just a mortal, it is possible for him to live a hundred thousand years."

"After becoming a god, he is still not immortal?"

Lin Tianhao was a little surprised.

Because of the information he learned from mythological stories, when a mortal becomes a god, his lifespan will be as long as the heaven, with an infinite lifespan, and he will achieve eternal life.

But from what Ned Leef said, the gods did not gain eternal life and their lifespans were still limited.

"Is it immortality? A first-class deity can live for 20,000 years, isn't that long?"

"long."

Lin Tianhao said helplessly: "I mean... eternal life."

Niederif shook her head and said:

"I have seen and heard a little bit, but from what I have seen and heard, immortality only exists in legends. No one can achieve true immortality."

Lin Tianhao: "???"

"Even a saint can't do it?" Lin Tianhao asked.

Niederif shook her head and said:

"Neither can a saint. However, a saint's life span is no longer measured in years, but in epochs."

"era?"

Ned Lifu nodded slightly. "Yes, one epoch is equal to 129,600 years. A normal saint's life span is between 60 and 80 epochs. There are also some saints whose life span can exceed 100 epochs, or even 120 epochs."

The corner of Lin Tianhao's mouth twitched. Even if calculated based on sixty epochs, the lifespan of a saint would be more than seven million years.

But there is still some gap between this and the eternal life that Lin Tianhao imagined.

However, it is estimated that the origins of myths and legends are not complete, because the people who recorded these legends did not know how long these immortals and gods could live.

"With your growth rate, there is no need to worry about your lifespan. If I give you 10,000 years, you will definitely become a saint."

Lin Tianhao was stunned for a moment. With his growth rate, it would take him another 10,000 years to become a saint? !

Is it so difficult to become a saint?

As if she could see that Lin Tianhao was thinking about his identity, Nidlifu couldn't help but say:

"Xue Di, I know what you are thinking. With your speed, even if you want to achieve the twelfth transformation and become a god, it may only take a hundred years."

"But becoming a saint is different from becoming a god. Many gods spend at least a thousand years in seclusion, otherwise they won't be able to improve much."

That's it.

Ned Liv paused for a moment before continuing:

"Xuedi, I personally suggest that you pursue the twelfth level of Emperor level to become a god."

"You have the ability to achieve this step, and pursuing this step in the mortal realm will make your future journey on the path of the gods much easier."

"How to say?"

Lin Tianhao was a little curious.

To be honest, he still didn't quite understand the realm of the gods.

"If you follow the will of nature, you will be a mortal. If you go against the will of nature, you will be an immortal. After becoming a god, there will be bottlenecks and limits."

"For example, if one becomes a god at the ninth level of Star Glory, it is almost impossible for him to become a Divine King in the future. A ninth-level Divine Spirit is his greatest destiny."

"Because the level of the mortal realm determines the potential of the divine realm."

Lin Tianhao understood something and asked:

"Does that mean that if one becomes a god at the ninth level of the King level, his potential is that of a God King. If nothing unexpected happens, he can successfully reach the realm of a God King?"

"No."

Niederif shook her head and said:

"Only when you become a god at the tenth level can you successfully reach the realm of the God King. However, if you make an effort at the ninth level, you can also reach the realm of the God King. This requires breaking your own shackles and breaking through your own limits."

"By analogy, the eleventh level emperor level and the twelfth level emperor level correspond to the potential god emperor and god emperor."

Lin Tianhao couldn't help but gasp, "Is it so difficult?"

"It's natural."

Nidlifu nodded heavily, "But you should also know that rank is greater than grade. A ninth-level emperor still has a chance to become a god emperor, because breaking the limit of level is much easier than breaking the limit of rank."

Lin Tianhao understood.

"I seem to understand."

Lin Tianhao had come across it before. In this world, there is also the legendary Thirteen Revolutions!!

If possible, he would pursue the legendary Thirteenth Transformation to maximize his potential.

"so."

"Xue Di, you must seize every opportunity you can get now and improve yourself as much as possible."

Lin Tianhao nodded and said helplessly:

"I understand, but I don't know what rank I am now."

"It doesn't matter. You'll know later. Anyway, it's always right to pile it up first."

"understood."

Lin Tianhao nodded heavily.

His profession is special, and changing jobs is relatively more difficult than for other professions.

The main thing is that the daily punishment equipment is really difficult to find.

However, in this foreign land, there are two pieces of Heavenly Punishment equipment, which is a rare opportunity for Lin Tianhao.

Think about this.

Lin Tianhao began to complete the tasks assigned by the other three masters of the holy land.

A week passes in the blink of an eye!

During this half month, Lin Tianhao completed all the tasks of the other three holy land masters.

Now, he has accumulated seven flowers of talent evolution.

Now he is only three flowers of talent evolution away from evolving the Heart of Heavenly Punishment.

Lin Tianhao opened his own small group and sent a message out.

"Who has the gift of evolving flowers? I want three of them. I'll pay a huge sum of money for them!"

Shura Yize: Boss Xue Di, the flowers of talent evolution are too scarce and impossible to collect. Even my subordinates, I have repeatedly ordered them to collect and hand them in, but they all used them for themselves.

Chapter 1370 Exchange equipment!

Seeing the news about Shura Yize, Lin Tianhao was not surprised. After all, the flower of talent evolution can evolve one's own talent.

In Ragnarok, talent is superior to most other skills and supernatural powers.

Few people can resist the temptation of being able to improve their talents first.

After all, with the improvement of talent, the growth rate will be significantly improved in the future.

therefore.

Few people are willing to take out the flower of talent evolution.

and.

This time, Shura Yize was the only one in the group who replied to Lin Tianhao's message, and no one else replied to Lin Tianhao.

I don't know if it's because he's killing monsters or doing something else.

All I can say is, busy! Everyone is busy!

It's good to be busy!

"If you have one, you can consider contacting me. I will trade a Star-level suit above the seventh level for a Talent Evolution Flower."

Shura Yize:!!!!!!

Shura Yize: Xue Di, you are my eternal God. I will go to my guild to post it now.

then.....

Shura Yize opened his own guild management group.

"A seventh-level diamond suit is traded for a talent evolution flower. Come quickly if you have one. This is the only time."

Although the talent evolution flower is good, if you have a new set of high-grade equipment, you will most likely be able to make a profit.

Especially this kind of high-level, high-grade equipment is so precious.

For those adventurers who have just reached the seventh level, it is already very impressive to be able to kill golden monsters of the same level.

As for the platinum monster, I can only think about it.

therefore.

Among the adventurers at the seventh level now, those who can possess a complete set of gold suits of the same level are extremely rare.

While waiting for their reply, Lin Tianhao was also thinking about what he should do next.

Finding the flower of talent evolution requires a step-by-step approach.

It would be best if he could get it from these guild leaders. If not, he would have to do other things first.

such as.....

Heavenly punishment equipment.

The clues that Lin Tianhao has obtained now seem to point in one direction, that is, the Heavenly Punishment Equipment, which is most likely in Jiuyou and Tiangong.

So the question is, if he wants to go to Jiuyou or Tiangong, how should he get there?

The leader of the Southern Barbarian Holy Sect, the dean of Baili Academy and others should all know about it, but Lin Tianhao has no intention of looking for them.

The Lord of Han Tower and the Sect Master of Yin Yang He Huan Sect are both his people. Given the identities of the Lord of Han Tower and the Sect Master of Yin Yang He Huan Sect, it is highly likely that they know about Jiuyou and Tiangong.

Calculating the time, they should have come out of the ancient mysterious realm by now.

"Announcement to all servers, congratulations to all adventurers, the number of Ragnarok territories has exceeded one thousand, the Territory Competition will begin in a month, please be prepared, territory lords."

Lin Tianhao was a little surprised.

This territory competition was brought forward by almost half a year.

In the previous life, when Ragnarok had been going on for more than two years, the number of territories exceeded one thousand.

Now, in less than two years, the number of territories has exceeded one thousand.

The rules of this territory competition are also very simple. All territories will be pulled into the territory space.

In the territory space, there are only two territories left.

The two territories can only send troops to fight for three days with the purpose of capturing each other's territory.

Finally, the victory or defeat is determined based on the capture situation. During this process, the lord can only command, and adventurers cannot participate in the battle, which is limited to the battle between different types of troops.

Such battles have a natural advantage for territories with powerful military forces, and the winning territory can obtain a lot of rewards.

If you capture the opponent's territory, the reward for your own territory will be very large.

The most crucial point is that the territory of the losing party will be plundered with a bonus item.

For example, normal territory entries can increase attack power and health points.

In his previous life, Lin Tianhao knew that there was a territory that defeated more than twenty territories in the territory competition and occupied the opponent's territory in the territory competition space.

then.....

Just over twenty entries were plundered.

Among these twenty-odd entries, nine of them are percentage bonus entries!!

This made the territory leap into a super territory.

After all, among the territory entries, the percentage entries are the most valuable.

Just now.

Messages started popping up frantically in Lin Tianhao's small group.

Shura Yize: Xue Di Xue Di, it is true that there will always be brave men when there is a big reward. Someone under my command has a flower of natural evolution, and I have already got it. Maybe I can't exchange it with the soldier's nest.

Jinghong Mengshuang: Boss Xue Di, help me, if we lose this territory competition, our guild will be plundered. Our guild doesn't have any powerful troops, so you have to save me, your little sister.

Berserker Blade: You are still a little girl, but I am just getting scared now. I have established more than a dozen territories under my command. Because there are too many territories, the soldier nests are not very powerful.

Berserker Blade: I never thought about having any territory competition before.

Xue Di: I do have a soldier's nest, but it is not suitable for you. It is a soldier's nest that can recruit Nine-turn dragons.

Shura Yize Nine Transformations... Giant Dragon? ! !

Jinghong Mengshuang: No, can this thing also be recruited in batches? "

Shura Yize: If there are 10,000 nineteen-turn dragons, it won't be a lord competition anymore, we can all go and expand our territory.

Jinghong Mengshuang: Ahem, brother Yize, whose territory do you want to open up, whose land do you want to expand?

Shura Yize: ...Exaggeration is a rhetorical device, it does not mean what I want to do.

Shura Yize: Sister Mengshuang, I really underestimated you. I didn't expect you to be so vicious! !

Looking at them talking to each other, Lin Tianhao couldn't help but frown slightly.

At this time, Shura Yize had already found Lin Tianhao.

"Master Xuedi, you can use the talent evolution flower first. If you don't have any soldiers, just follow what I said before. But can you ask for a level 3,000 one?"

"Three thousand level star-level equipment..."

Lin Tianhao thought that this Shura Yize really wouldn't suffer any loss.

He did say before that above the seventh level, level two thousand was just the threshold for the seventh level. Shura Yize made the deal first and then discussed the terms, obviously because he was afraid that Lin Tianhao would be dissatisfied.

To trade first means to show your sincerity first.

"No problem, what kind of job do you want?"

"what--"

"You can choose a profession. I want a mage, preferably one that is close to a formation master."

Shura Yize felt that he had gone a little too far. Not only did he choose a mage, he even wanted to get close to a formation master.

Lin Tianhao summoned the Kunlun Mirror and returned to the Fan Palace.

He now has a lot of contribution points, which he exchanged for a set of level 3,000 formation master star-level suit from the Fan Palace.

A normal level 3,000 mage star-level suit only requires about 5.8 million contribution points, but because this one was for a formation master, Lin Tianhao spent 6.5 million contribution points, a full 700,000 more.

But Lin Tianhao didn't care. The Shura Guild had been decisive in its fight against the Alate Galaxy in its previous life, so Lin Tianhao exchanged it directly.
