

O games 1371

Chapter 1371 Calling names one by one!

"Three thousand level Star Glory Class Formation Master equipment, take a look."

Lin Tianhao directly traded this set of equipment.

"Fuck!!"

After seeing the attributes of the equipment that Lin Tianhao traded, Shura Yize inexplicably felt a little regretful.

Why don't you get yourself a set of equipment? !

This attribute, this set effect, is so lovable.

but.

Shura Yize only had a brief regret.

He is very clear.

The decision you make now is the most correct one.

The one who gives this set of equipment to the formation master in their guild will benefit the most.

even.

With this set of equipment, the formation master can lead the team to brush out a set, or even multiple sets of brand new seven-turn star-level equipment.

After the transaction is completed.

Lin Tianhao then saw that Berserker Blade had sent him a private message.

"Master Xuedi, can you lend us the Nine-Transformation Dragon Soldier's Nest?"

"No, borrow it."

Mad Blade even emphasized this specifically, fearing that Lin Tianhao would worry.

"I just said it casually, and you really believed it. And...it's not the Nine Revolutions, it's a false god."

Berserker Blade was stunned, a pseudo-god-level barracks!!!

"Don't be too surprised. It's not of high rank. Although it's a pseudo-god level, its health is less than 100 million. It has many skills. If you like it, I can give it to you."

"deliver....."

Berserker Blade was stunned again, "Master Xuedi, isn't this too expensive?"

"Give me two more Talent Evolution Flowers. That'll be considered a deal. How about that?"

"no problem!!"

Berserker Blade agreed without hesitation, "But I need to declare it. I don't know if it's on the list yet."

"no problem."

Lin Tianhao sent the information of the Ancient Dragon Barracks to Berserker Blade.

When Berserker Blade saw the information about the Ancient Dragon Barracks, he couldn't help but gasp.

"Boss Xue Di, we are partners and friends. I'm not sure if you know this, but I should still tell you that this kind of barracks shows a health value of more than 90 million, which is the lowest level."

"Those recruited from the barracks have a chance of becoming commanders or even chief commanders. Their attributes are far more than that."

Lin Tianhao has lived two lives, so he naturally knows this.

"I know."

Berserker Blade added: "That is to say, this barracks may be able to recruit ancient dragons with health points of several billion or even hundreds of billions."

"I know."

Lin Tianhao didn't know whether to laugh or cry. It seemed as if the Mad Blade was worried that he couldn't understand.

"Okay, I'll go and apply now."

Including the one flower of talent evolution he got from Shura Yize, Lin Tianhao now has eight flowers of talent evolution.

If Berserker Blade could get himself two more Talent Evolution Flowers, he could evolve the Heart of Heavenly Punishment this time.

"By the way, Blade, give me a list and information about those more powerful territories of the United States and Japan." Lin Tianhao said.

Berserker Blade: "Boss Xuedi, you..."

"Go and name them."

"Okay, right away, the list will be here soon!!"

Berserker Blade immediately went to get the list.

The Territory Competition is about to begin. If the more powerful territories in the West are named... it's exciting to think about it!!

In less than three minutes, Berserker Blade sent a document to Lin Tianhao.

"If there are any omissions, I will send them to the boss as soon as possible."

Lin Tianhao opened the document, and the first territory he saw came into view.

"The Sun Never Sets Territory, Platinum level, with one 2,000-level soldier nest and five soldier nests over 1,000-level..."

"Nine Chrysanthemum Territory, Gold Level, has five territories above level 1,000, and a special summoner who can summon a large number of skeleton soldiers."

"Shizun Territory, Gold Level, the territory is huge, there are only three territories above level 1,000, but the grades are relatively high, and there are a large number of territory buildings, the fortifications are amazing, and it is easy to defend but difficult to attack."

.....

Lin Tianhao just took a glance and lost interest.

Territories like this didn't seem to pose much of a threat to him.

"Then come one by one!" Lin Tianhao smiled slightly.

The sun never sets.

A platinum-level territory is indeed of very high grade.

This Territory where the Sun Never Sets was built on a mountain forest. The mountain forest was very steep on all sides, but it was flat on top, like a huge Optimus Prime standing there.

Lin Tianhao opened his Eye of Insight and locked onto the military nest of the Sun Never Sets Lord.

"Shhhhhh-"

With the help of the Heavenly Punishment Lock, Lin Tianhao's feather arrows flew towards those soldiers' nests.

With Lin Tianhao's current output capacity, there is no soldier's nest in the Sun Never Sets Territory that can withstand Lin Tianhao's feather arrows.

As for stopping his feather arrows, that is just a pipe dream.

"Bang bang bang-"

The territories of the Sun Never Sets exploded on the spot, completely unable to withstand Lin Tianhao's feather arrow attacks.

In the Lord's Territory, the Lord's face was filled with anger.

"who!!"

"Who is it?!"

"If you have the guts, then stand up. You dare not take responsibility for what you did. You know that our Sun Never Sets Territory is extremely powerful, yet you actually shoot us from behind like this!!"

The heart of the Lord, on whom the sun never sets, bleeds as he looks at the destroyed military nests.

These soldiers' nests are his treasures.

But now.

All of his precious treasures were destroyed just like that.

"Lord Allah, that person's attack range was too far, we didn't even know who attacked, and our interception methods were completely incapable of interception."

A robed wizard looked solemn. He continued:

"Moreover, the enemy destroyed our soldiers' nest with just one arrow."

"The attack range is long, the lethality is strong, and it is unstoppable. Lord, the person who attacked us... seems to be Xuedi!!"

Hear this.

The face of the Lord on whom the sun never sets couldn't help but darken.

"Snow Emperor?"

"It looks like he is targeting us. He doesn't want us to achieve any results in the Lords' Contest in a month!!!"

"If that's the case, then he might not be targeting our territory."

The eyes of the Sun Never Sets flashed with cold light, "Send the news to the people in other territories immediately and ask them to come over to discuss countermeasures."

The robed wizard was slightly startled. "Obviously, why did they ask them to come over to discuss countermeasures? Shouldn't we be on guard against the Snow Emperor?"

"Beware of the Snow Emperor?"

The Sun Never Sets sneered, "Whose territory do you think can stop the Snow Emperor?"

"Even if you go and call Jin Delan over, it won't work!!"

The robed wizard wanted to say something but stopped himself, and in the end, he could only sigh.

"alright."

.....

Next.

Lin Tianhao called out the names one by one according to the list given by Berserker Blade.

Having more entries in the territory will be very useful in the future.

The population of the current territories that are well developed is completely different.

Don't think that the bonus value of a territory's entry seems to be low, because this entry applies to all the people in the territory at the same time.

Chapter 1372 The Heart of Heavenly Punishment Evolves!

This also includes the soldiers summoned from the soldiers' nest. The same is true.

A 1% increase in damage to one person is not a lot, but if a million or ten million people all have a 1% increase in damage, that is still very scary.

In less than a day, all the territories on the list were named by Lin Tianhao.

The efficiency is quite good.

After Lin Tianhao finished calling the roll, the Ragnarok forum went wild.

These territories have been able to develop to the point they are today because they have the support of powerful forces behind them.

Especially those territories that are ranked higher, they are already supported by the country.

Lin Tianhao's behavior this time can be said to have offended public anger.

All of a sudden, the entire Ragnarok forum was filled with voices condemning Lin Tianhao.

"Xue Di is too shameless. As he grows up, he starts to exclude those who are different from him. If he continues to do this, should Long Guo be the only one left in this world?!"

"The Snow Emperor can do whatever he wants by relying on his advantage in Ragnarok, and so can we. From today on, all adventurers from Dragon Country will be killed without mercy!! Come on, if you want to fight to the death, then fight to the death!!"

"We countries should also unite. My suggestion is to boycott Dragon Country. All bank accounts of Dragon Country people in our countries should be frozen, and all assets should be confiscated!!"

.....

At this time, many people were talking about it in the Ragnarok forum.

of course.

Most of those who are saying this right now are just "ordinary" adventurers from Western countries.

No major forces have yet taken action.

but.

It doesn't mean that the big forces won't come to an end.

As time went by, more and more people came out to condemn Lin Tianhao, starting with just ordinary adventurers and some internet celebrities and bloggers.

Later, some companies in Western countries also spoke out one after another, and the content was also very simple.

That is to boycott Longguo and no longer give any orders to Longguo.

The situation escalated, and Lin Tianhao also discovered this war of public opinion.

however.

Just when Lin Tianhao was wondering how Long Guo would respond, Long Guo spoke out.

"Recently, many foreign companies have refused to place orders with us in Longguo. In this case, we will also blockade these foreign companies and refuse to allow their products to enter our market..."

It was a very simple statement and seemed harmless, but after it came out, those companies that had been claiming that they would not place orders with Longguo immediately changed their tune.

They said that it was the personal behavior of the intern and had nothing to do with their company. They have now fired the intern who made remarks that were not conducive to cooperation between the two countries' companies, and will strengthen cooperation with Longguo companies in the future.

This 180-degree change of face left many people dumbfounded.

In fact, many people who know a little about it know the ins and outs of it.

The Dragon Country is the world's largest consumer country.

If the products cannot be sold to Longguo, it will be fatal for these companies.

In this round, it seems that Long Kingdom won, but in fact, the real confrontation has probably just begun.

Just now.

Berserker Blade sent a message to Lin Tianhao.

"Boss Xuedi, I have applied to the higher-ups, and they have agreed to trade two Talent Evolution Flowers for the Ancient Dragon Barracks."

"it is good."

A smile appeared on Lin Tianhao's face. This ancient dragon barracks was of great value to the territory, but it was of little help to Lin Tianhao.

After all, even if Lin Tianhao could just recruit some super masters, they would be stronger than this Ancient Dragon Barracks.

and.

Good things should be kept in the family, so he now trades this thing to Berserker Blade, which will improve the overall combat effectiveness of Dragon Country.

As for him establishing his own territory to strengthen himself, there is no need.

He was after more.

Not long after.

Mad Blade has already sent a trade request to Lin Tianhao.

Lin Tianhao and Berserker Blade completed the transaction and obtained ten talent evolution flowers.

just now.

He can evolve the Heart of Heavenly Punishment.

"Ding, you are about to evolve your talent [Heart of Heavenly Punishment]. Evolution requires ten talent evolution flowers. Are you sure you want to evolve?"

"determine."

"Ding, congratulations, your [Heart of Heavenly Punishment] has evolved successfully."

Lin Tianhao immediately began to check the evolved Heart of Heavenly Punishment.

Heart of Heavenly Punishment: Five stars.

Effect 1: Each time your skill deals damage to a living being, its health will be permanently increased by points.

Effect 2: Your equipment has additional effects, including but not limited to skills, summons, burning, splashing, etc. Each time it causes damage to a living being, it permanently increases its health by five points.

Effect 3: When your skills and equipment cause damage to living things, you can restore 5% of your maximum health.

Proficiency: 21995231/1000 billion!

Lin Tianhao looked at the effect of the Heart of Heavenly Punishment at this time, and his expression became a little strange.

Skills and equipment can restore 5% of maximum health when they cause damage to living things?

This.....

In other words, as long as he uses the Book of Life and Death to keep locking people's heads, he can recover 5% of his maximum health every second.

and.

Lin Tianhao also has a passive skill called heavy armor counter-injury.

Effect 3 is different from Effect 2. Effect 2 is the damage caused by the additional effect of the skill. Counterattack is the rebound of other damage and does not count.

But effect 3 is different. It is the damage directly caused by skills and equipment, and counter-injury can also be regarded as damage.

therefore.

In theory.

Passive anti-injury skills such as Heavy Armor Anti-Injury can also trigger his current effect three.

He has a passive skill that can restore 5% of his damage. What if he has ten?

Although such anti-injury skills will have a certain degree of rejection.

For example, one of the two will be triggered first, and both will not be triggered at the same time. For example, it can only be triggered once per second.

Otherwise, it would be easy for the shield warrior to stack the anti-damage to 100% in the later stage.

however.

Although there is this kind of rejection of similar skills, with Lin Tianhao's ability, there is still a high probability that he can gather ten such anti-injury skills.

When the time comes, if you attack me, I will restore 50% of my health. I just want to ask you if you are afraid.

of course.

We also have to consider the factor of serious injuries, but this level of blood recovery is still terrifying.

With high health, high recovery and high damage, Lin Tianhao is definitely a person with three highs.

Besides.

The third effect of Lin Tianhao's Hand of Heavenly Punishment can also restore blood.

Apart from anything else, unless he is 100% seriously injured, there are not many people who can threaten Lin Tianhao.

Thinking like this.

Lin Tianhao began to look for various anti-injury skills in the Mortal Palace.

He has enough contribution value, so he can exchange for any suitable skill.

just.

Lin Tianhao still has to consider the factor of mutual exclusion of skills.

There is.

Some of these anti-injury items can only reflect normal attacks, some can only reflect skills, and some can only reflect physical damage.

Chapter 1373 Jiuqiong's true form!

There are all kinds of anti-injury skills, but Lin Tianhao also found that most of them are physical anti-injury.

There are relatively few skills that can rebound magic damage, and Lin Tianhao has only found one that can rebound law-based damage, which is Jiuqiong's true body.

This Jiuqiong true body can rebound most of the damage, including physical, magical, skill, law, and even... As introduced above, if Jiuqiong true body grows to seven stars or above, there is a certain probability of rebounding rule-based damage.

The strength of Jiuqiong's true body somewhat subverted Lin Tianhao's imagination.

but.

This Nine Heavens True Body is really expensive.

1.8 billion contribution value!!

In the exchange warehouse of Fan Temple, the exchange price of skill books is several times or even dozens of times higher than the exchange price of equipment.

This Nine Heavens True Body is extremely expensive.

But just because it can rebound even rule-based damage after being upgraded to seven stars, there is no reason for Lin Tianhao not to redeem it.

Jiuqiong's true body: 1 star.

Learning requirements: Warrior profession.

Effect: All normal attacks, skill rules, and damage you take, regardless of type, can be rebound as 1% of the real damage taken.

Proficiency: 0/10000 (Proficiency is the value of the damage rebounded by this skill).

(Note: After this skill reaches seven stars, it can rebound a small amount of rule-based damage.)

"Ding, do you want to study?"

"study."

There was nothing to consider, so Lin Tianhao simply chose to study.

If Lin Tianhao had obtained this skill at the beginning, it would have been a bit troublesome to upgrade it.

But now, if Lin Tianhao wants to upgrade his star, it is as easy as eating and drinking.

The damage that is rebounded by the Nine Heavens True Body is real damage, and at present, the skill level of the Nine Heavens True Body is still very high.

After obtaining Jiuqiong's true body, Lin Tianhao successively exchanged five passive anti-injury skills from the Mortal Palace.

It turns out that it is not that easy to find passive anti-damage skills that are not mutually exclusive.

then.

It's about brushing up the skill level of Jiuqiong's true body.

Lin Tianhao doesn't care about other skills, but it is still necessary to improve Jiuqiong's true body.

It must be upgraded to at least seven stars, so that a small amount of rule-based damage can be rebounded.

It was Heitian Aozhen who took action.

A rebound value of 10,000 is still easy to reach.

"Ding, your Nine Heavens True Body has been upgraded to two stars."

"Ding, your Nine Heavens True Body has been upgraded to three stars."

"Ding....."

.....

As the Jiuqiong True Body upgrades one star, the proficiency increases a hundred times. To upgrade from three stars to four stars, 100 million proficiency points are required.

To upgrade from four stars to five stars requires 10 billion proficiency points.

And upgrading from five stars to six stars, with a proficiency of one trillion, is already a bit difficult at this point.

Although Lin Tianhao's current health is high, he needs to rebound one trillion damage. His five-star Nine Sky True Body needs to withstand twenty trillion damage.

Lin Tianhao's current health points are not 20 trillion, but it's just a matter of recovering a few times, so it's not a big problem.

But to upgrade from six stars to seven stars, the proficiency level needs to reach one hundred trillion, which is still a bit difficult.

Lin Tianhao needs to withstand more than 1.6 trillion damages. Even in the dark, Lin Tianhao needs to recover almost 1.7 hundred times.

The key is.

If Hei Tianao really wanted to inflict so much damage, it would take more than just a few days.

Lin Tianhao and Hei Tianao were standing in the spring. Lin Tianhao called Village Chief Wang and others over, and a group of people surrounded Lin Tianhao in the spring.

No matter what, let's upgrade it to seven stars first.

As for what happens next, we can only study it later.

But except for Heitian Aozhen, it really didn't hurt Lin Tianhao when others hit him.

Even though Lin Tianhao had taken off all kinds of equipment, without the damage reduction of the Heavenly Punishment equipment, they still couldn't handle the damage reduction of Lin Tianhao's physical transformation.

All I can say is, even a mosquito leg is still meat, so the more you hit, the better.

that's it.

With their continuous output, Lin Tianhao's proficiency in the Nine Skies True Body is improving little by little.

This is only the case with Lin Tianhao. If it were anyone else, it would be extremely difficult to improve the proficiency of the Nine Heavens True Body.

after all.

Not everyone has the same health points as Lin Tianhao, and not everyone has a semi-emperor like Heitian Aozhen to help with output.

But even so.

It took Lin Tianhao seven full days to raise the proficiency of Jiuqiong True Body to seven stars.

these seven days.

Lin Tianhao was not idle either, he was continuing to gain enlightenment.

This allowed Lin Tianhao to make some progress on the road of fire attribute.

Although this kind of fragmented enlightenment does not improve much each time, it is still an improvement after all.

Especially since Lin Tianhao has the Jade Disc of Fortune and the Fairy Picture, which help him to attain enlightenment faster, the effect is much better than that of ordinary people.

After the proficiency of Jiuqiong Zhenbu reaches seven stars, Lin Tianhao will need to take it one step further, and the amount of damage that needs to be rebounded will be as high as one trillion! !

This is already a completely new range for Lin Tianhao, and it is not an easy task for him to add to it.

therefore.

After Jiuqiong's true body reaches seven stars, it depends on luck to upgrade the stars further.

After this period of time, the ancient god mysterious realm has been fully opened, and adventurers have entered the ancient god mysterious realm one by one.

Lin Tianhao knows.

The full opening of the ancient mysterious realm also indicates that the Ragnarok adventurers will enter a stage of explosive enlightenment.

This stage will be advanced.

However, after seven days of fermentation, the controversy in which Lin Tianhao "named" the top territories in Western countries has not passed.

On the Ragnarok forum, there were even people from China fanning the flames and criticizing Lin Tianhao's behavior.

Not only that.

Some adventurers from Western countries began to frequently attack adventurers from Dragon Country, and many weak adventurers from Dragon Country were killed.

After learning about this situation, Lin Tianhao was not at all vague. It just so happened that his Brain of Heavenly Punishment had already arrived at Samsung during this period of time.

He can now consider killing the chicken to scare the monkey.

These guys like to make trouble, so he uses the Book of Life and Death to permanently reduce their health points.

Level reset to zero, health permanently reduced.

This is one way, but considering the special circumstances of the adventurers, Lin Tianhao is prepared to use some extraordinary measures.

therefore.

Lin Tianhao directly put on three loudspeakers for the entire server.

"All servers, due to the wanton slaughter of Dragon Country adventurers by adventurers from other countries, we are now starting a cleanup of the ranking list. All adventurers from Western countries in the top 1,000 of the ranking list will be cleared out of the top 1,000 of the ranking list."

"If there is any similar behavior again, the top 5,000 of the ranking list will be removed!!"

Lin Tianhao took out the Book of Life and Death, opened the ranking list, and began to rewrite the names frantically.

On the ranking list, there are more than 300 high-level players from many Western countries.

The Dragon Kingdom alone occupies more than 300 of them, and other countries occupy more than 300 of them.

It's a bit like dividing the world into three parts.

Chapter 1374: Shangzi School: Niu Si Lang Tian!

but.....

Now the tide is turning.

Lin Tianhao's current health value is in the dark state. He changes his name from the beginning to one thousand, and then changes it a second time.

In this way, the effectiveness of the Book of Life and Death will be maximized. By the time he writes back from the thousandth place, the people written by Lin Tianhao on it will basically have been resurrected.

then.

Lin Tianhao kept rewriting the names over and over again, and these top players from Western countries fell one after another.

As the saying goes, I have the book of life and death in my hand, and whoever I write on it will die.

Losing levels has caused them to complain.

Available soon.

Someone discovered it.

The people killed by Lin Tianhao discovered new problems.

That is, after being killed by Lin Tianhao, their health points permanently dropped by three points.

The reason why it is three o'clock is because they died just by being touched by the Book of Life and Death.

Now in Ragnarok, some high-level adventurers have health points exceeding one billion, and a small number of adventurers even have health points exceeding ten billion.

But so what?

Facing Lin Tianhao at this moment, whoever is written in the Book of Life and Death will die! !

and.

The final level of the people dropped dramatically was not just these three hundred people, but more than four hundred people.

Because some people fell out of the level 1,000 on the list, someone would take their place. As a result, a total of more than 400 Western adventurers were locked up by Lin Tianhao.

Lin Tianhao enjoyed doing this the whole night. Except for a few adventurers with relatively high levels such as Jin Delan, most of the others fell off the list.

at this time.

The small group created by Lin Tianhao is already very lively.

Shura Yize: Xue Di, the eternal god, this move is too cruel, it is so terrifying.

Jinghong Mengshuang: Xue Di, your book of life and death really kills whoever is written on it. You can send them to heaven at home.

Fu Tu Shen Lang: In this case, Xue Di's red name value should be very high, right? Can we ask Xue Di to kill those red-named players in Western countries, so that their levels will drop more.

Shura Yize: Vicious, but I hope, hahaha, these guys like to disgust people, now let them taste the feeling of being disgusted.

Berserker Blade: It's so satisfying, but I have a special list here, hehe...

.....

at this time.

In the ordinary palace.

Lin Tianhao wrote furiously, constantly changing the name.

He really attacked indiscriminately, without any mercy at all.

Strange to say.

Jin Delan is a good friend of Lin Tianhao, but she did not send a message to ask Lin Tianhao to show mercy.

But this is normal.

After all, Jin Delan is still a well-known adventurer in the United States. If everyone else dropped in level but he didn't, it would be difficult for him to explain to his superiors.

And for adventurers like Jin Delan, level is not that important.

It is not difficult for him to upgrade.

Just when Lin Tianhao was thinking this, news from Jin Delan came.

Seeing Jin Delan's voice request, Lin Tianhao didn't waste any time and answered the call directly.

"Brother Xue Di, you really don't give us a way to survive."

Lin Tianhao chuckled and said:

"Isn't this a small problem for you?"

"It's not me who's looking for you, it's someone up there who's looking for you."

"who?"

"Wait, I'll unfriend you, you two can chat on your own."

The words fell.

Lin Tianhao saw that Jin Delan had pushed a friend to him.

The dream chasing young king!

This name...

A bit middle-of-the-road.

But this guy is lucky to get this name.

Because a name like this is easily snatched away.

Lin Tianhao added a friend, and the other party directly sent a video request, which Lin Tianhao picked up.

In the picture, a male wizard holding a staff appeared.

He smiled politely at Lin Tianhao and said:

"Hello Xue Di, let me introduce myself. I am Meiguo, Shangzi faction, Niu Si Langtian."

Lin Tianhao was a little surprised. Niusi Langtian was already a very powerful existence in the United States.

This person is a contender for the US presidency and has strong appeal throughout the country.

"A big shot." Lin Tianhao exclaimed.

Niu Si Lang Tian waved his hand, "I'm not a big shot. Your popularity should be higher than mine now."

Lin Tianhao smiled and shook his head, saying: "I am just an internet addict, how can I compare with you."

Niu Si Lang Tian smiled helplessly and said:

"Xue Di, please don't be polite. I came to you because I have something very important to discuss with you."

"What's the matter?" Lin Tianhao asked.

Niu Si Lang Tian said very seriously:

"The current situation in the United States is very dangerous. The Zhan faction wants to cooperate with the Alite Galaxy. To be precise, they are already cooperating with the Alite Galaxy."

"As for the purpose, it is to use some of the power brought by the Alet Galaxy to affect the real world in advance and kill you in the real world."

Lin Tianhao frowned slightly and said:

"Why are you telling me this? My death will be a good thing for you."

"and."

"Before, you even sent out the Dark Demons."

Niu Si Lang Tian gritted his teeth and said:

"I strongly opposed this matter. Their actions are too crazy. But you should also know that the person in power now is a member of the Zhanzi faction, so he still has the final say on some major decisions."

Lin Tianhao frowned slightly, "Then what?"

Niu Si Lang Tian said very seriously: "Those guys in the Alet Galaxy are obviously problematic. Their motives are not pure. Only those crazy people in the Zhanzi faction will cooperate with them."

"So, what is your purpose in looking for me?" Lin Tianhao asked.

Niu Si Lang Tian hesitated for a moment before saying:

"I want to cooperate with you, borrow your power, rise to power, and then change the current situation in the United States."

The words fell.

Without waiting for Lin Tianhao to say anything, Niu Si Lang Tian continued:

"As a condition, you will receive a scroll of the pre-mission for the Gods and Demons Blessing, and we in the United States will work with you to deal with the people in the Alete Galaxy."

Lin Tianhao remained calm.

But I was very surprised in my heart.

God and devil blessing!!

So far, Lin Tianhao has only received one blessing from gods and demons.

Unexpectedly, they had the scrolls for the pre-quest of Blessings of Gods and Demons.

"Why should I believe that you will deal with the people of the Arlet Galaxy after you take power?"

"Besides, what do you think I should do to help you get to the top?"

Niu Si Tian Lang had an extra list in his hand and said:

"Send all these people on the list back to level one and keep demoting them."

"Your headlock attack can also permanently reduce their health."

Lin Tianhao narrowed his eyes slightly, while Niu Si Lang Tian continued:

"The significance of Ragnarok is too important. If these people are useless, it will be much easier for me to take the throne."

Lin Tianhao raised his eyebrows and said:

"Your targeting is too obvious."

Chapter 1375 The origin of Lord Shi's identity!

"and."

"If you do this, they can easily tell that you and I are working together."

Lin Tianhao smiled and said:

"I am not a good person in the eyes of those adventurers in the West."

Niu Si Lang Tian chuckled, "The adventurers in our country are wary of you, afraid of you, and hate you, but more than that, they want to get you."

"If they can get your help, they will switch sides immediately."

That's it.

Niu Si Lang Tian said very seriously:

"Besides, cooperating with you is better than cooperating with the Alet Galaxy."

"What's more, I now have the support of Jin Delan and other top adventurers, as well as the strong capital behind our Shangzi faction. My chances of rising to the top are very high."

Lin Tianhao smiled and said:

"In your country, does the president have the final say, or does the group of people behind the scenes have the final say?"

Lin Tianhao knows.

There is a mysterious existence behind the United States, and he is the one who truly controls the United States.

"I'm not lying to you, they still have more say now." Niusi Langtian said very seriously.

Lin Tianhao said:

"If that's the case, then if we cooperate with you, you won't be able to make the decision, right?"

Niu Si Lang Tian shook his head, "That may not be the case. We had no choice before, but now that Ragnarok has arrived, we have a chance to break free from their control."

"Oh?"

Lin Tianhao was a little surprised, "You are quite ambitious."

Niu Si Lang Tian nodded seriously and said:

"I don't want to be a sinner. I have to fight back."

"Give me the list." Lin Tianhao said.

He just needs to lock the Book of Life and Death, which is simple.

As for whether Niusi Langtian would fulfill his words, Lin Tianhao was not worried.

Because he has added Niu Si Lang Tian as his friend, if Niu Si Lang Tian plays a trick on him, he will send Niu Si Lang Tian back to one level.

After getting the list, Lin Tianhao went straight to Berserker Blade.

"Niu Si Lang Tian just came to me and wanted me to help him get promoted. What do you think?"

Lin Tianhao didn't know much about the game between these high-level officials, and he was not sure whether Niusi Langtian had any ulterior motives.

Mad Blade was also a little surprised when he learned that Niu Si Lang Tian was looking for Lin Tianhao.

"Niu Si Lang Tian has great influence in the United States and is a strong contender for the next president. But what conditions did he set?"

"A scroll of the pre-mission blessing from gods and demons, and some people from the United States who will join us in fighting against the Alate galaxy." Lin Tianhao replied.

Berserker Blade thought for a moment and said, "Boss Xuedi, you may not know that the US President's say power is not that high."

"I know, but what I want to know more is whether Niu Si Lang Tian is trustworthy?"

"I'll inform the higher-ups about this, or you can contact the chief directly."

Lin Tianhao nodded, "Okay."

The words fell.

Lin Tianhao sent a message directly to Shou Lao. He still had Shou Lao's game friends in Ragnarok.

However, because the elder was very busy, Lin Tianhao almost never went to find him directly in the game.

It didn't take long before the elder replied.

Lin Tianhao told the elder about the matter of Niu Si Lang Tian.

After hearing what Lin Tianhao said, the elder was not too surprised.

"It seems that Niu Si Lang Tian is ready to fight to the death. Otherwise, with his temper, he will not easily cooperate with you."

"What does the elder know?" Lin Tianhao asked.

The elder nodded slightly and said:

"The actual controller of the United States is a being codenamed Stone Lord. There are more than 20 countries in the world that are controlled or semi-controlled by this Stone Lord."

"According to our speculation, this Lord Stone is very likely from the inner world. He has the support of the inner world, so his financial resources, material resources, and some gray means are stronger than those of ordinary countries."

Lin Tianhao frowned slightly. He knew that this Stone Lord was related to a certain race, but he didn't think too much about it.

After all, when people have money, they will want to pursue power, and the wealth of that race is the highest in the world, so it is reasonable for them to infiltrate and control some countries.

But what the elder said somewhat overturned Lin Tianhao's cognition!

"Have you ever come into contact with people from the inner world?" Lin Tianhao asked.

"been touched."

The elder's answer was very affirmative, "They are not as powerful as imagined, but they are all low-level martial artists. There are very few ordinary people, and they all have some martial arts skills."

That's it.

The elder paused for a moment before saying:

"In fact, some of the information I got also showed that the people of the American Shangzi faction are extremely reluctant to cooperate with the people of the Alet Galaxy."

"But Lord Shi and his men seem to really want to cooperate with them. It seems that they want to lead the people of the underground world to the surface world."

Lin Tianhao raised his eyebrows. He had been to the inner world of the earth before when he was in the Five Mountains Secret Realm, and had come into contact with adventurers from the inner world of the earth.

Especially... Gui Ye Wuqing from the inner world still left a deep impression on Lin Tianhao.

"Did you know that there is a passage to the inner world in the Five Mountains Secret Realm?" Lin Tianhao asked.

The chief nodded gently, "I know. We have even sent a team of explorers down there. The situation in the inner world seems to be much worse than what we have seen."

"Many of them are very grateful to you. It seems that you have broken their mortal dilemma."

Lin Tianhao remained noncommittal.

He did go to the inner earth and kill some "demons".

They are still some very powerful "demons", but he doesn't know what the future of the inner world will be like.

but.

Lin Tianhao still doesn't want the inner world of the earth to be demonized. After all, the large number of monsters that emerged from the Demonic Abyss in his previous life also brought considerable impact to the Blue Star.

"From what the elder said, can I cooperate with Niusi Langtian and help him get to the top?" Lin Tianhao asked.

The elder hesitated for a moment, then nodded heavily, "Yes."

"In fact, it's not a bad thing for you to help Niu Si Lang Tian. Let them fight each other, maybe there will be a turning point."

"Those guys in the Arlate Galaxy have wicked ambitions and should not be underestimated."

Lin Tianhao took a deep breath and said:

"I know what to do now."

Hang up the call.

Lin Tianhao still plans to go to the Five Mountains Secret Realm again.

One is the two-world teleportation array in the Five Mountains Secret Realm. He mastered the teleportation array between the inner world and the surface world of the Five Mountains Secret Realm, and based on this, he collected life gems as tolls.

Also.

Lin Tianhao also wanted to meet Gui Ye Wuqing from the inner world of the earth.

Ye Wuqing, who came from the inner world, seemed to have a lot of say in the inner world. Perhaps Lin Tianhao could get some useful information from her.

Also.

Lin Tianhao spent another 50 billion contribution points to exchange for some mechanical items. He had promised Kui Wei Changtian that he would help Kui Wei Changtian make further progress, so he should not go back on his word.

Chapter 1376 Go to the center of the earth for an interview!

As for Heitian Aozhen.

He is now at the level of a half-step emperor. Although Lin Tianhao has promised him that he will help him reach the level of emperor, he has not yet found the right opportunity.

The atavistic black dragon's bloodline level is already very high. If he wants to make further progress, it will be very difficult.

The secret realm of the Five Mountains, Jiangjue City!

Lin Tianhao came directly to the Nalan Mansion.

Nalan Ruoheng came to meet Lin Tianhao as soon as possible.

"Nalan Ruoheng, I pay my respects to the Palace Master!"

Nalan Ruoheng is extremely respectful to Lin Tianhao. In addition to his absolute loyalty to the Fan Palace, Nalan Ruoheng also has his own respect for Lin Tianhao.

"No need to be polite, sit down!"

Lin Tianhao waved his hand and observed Nalan Ruoheng at the same time.

Nalan Ruoheng's current level has reached over 7,500.

This upgrade speed is still very fast.

With his king rank and the resources he has now, he still has a lot of say here.

Especially now that the Five Mountains Secret Realm is fully open, the influence of the Fan Palace has also radiated here.

Lin Tianhao came here with another idea.

That is, he cannot take over the land outside the domain for the time being, so should he consider taking over the secret realm of the Five Mountains?

After all, the population of the Five Mountains Secret Realm is quite large.

Besides.

There is also the Ancient Dynasty Secret Realm. Although the Ancient Dynasty Secret Realm is limited to two hundred levels, Lin Tianhao has the absolute shuttle, so it is not difficult to force his way in.

"Master Palace Master, the business situation is average. There are quite a few adventurers from the inner world coming up, but not many adventurers from our surface world are going down."

"Some merchants go there occasionally, but their number is not large."

Lin Tianhao understood.

There may be opportunities in the inner world, but it is undeniable that there are also many dangers in the inner world.

"During this period, the two-world teleportation array has collected a total of 135.95 million life gems. Your Excellency, please review this."

Nalan Ruoheng handed a storage bag to Lin Tianhao.

Lin Tianhao nodded slightly. This amount of over 100 million was still a lot.

But compared with Lin Tianhao's current health value, this more than 100 million is just a drop in the bucket.

"Okay, I'll go to the inner world first."

Lin Tianhao took the teleportation array between the two worlds and headed to the inner world.

Just came down.

Lin Tianhao saw more than a dozen robots guarding here, registering people who wanted to take the teleportation array between the two worlds.

Lin Tianhao opened his Eye of Insight and walked towards the giant mechanical beast where Kui Wei Changtian was.

Kui Wei Changtian also sensed Lin Tianhao's arrival. He came to Lin Tianhao's front and bowed to him.

"Greetings, my lord."

Lin Tianhao smiled slightly, raised his hand and took out the mechanical item that he had exchanged from the Fan Palace for a full 50 billion contribution points.

"I exchanged some mechanical items, you can take a look."

When Kui Wei Changtian saw what Lin Tianhao took out, there was not much surprise in his eyes.

These things just barely met his passing line, and with a few other things, he was slightly satisfied.

But that's all.

In this regard.

Lin Tianhao was not surprised. The Fan Palace did have some foundation, but it was still not enough in front of this super god-level hidden profession.

Just like Lin Tianhao has a lot of contribution points, but he cannot exchange them for Heavenly Punishment equipment from the Fan Palace, because the Fan Palace does not have these things at all.

Take back your thoughts.

After all, these things in Fan Palace are all resources that Fan Palace has collected itself, as well as some resources that people from Fan Palace had exchanged with Fan Palace in the past.

Disciples, deacons, elders, etc. of the Fan Palace can exchange unused items for contribution points, and then exchange them for the items they need from the Fan Palace warehouse.

In this process, there is a price difference.

Take back your thoughts.

Lin Tianhao looked at Kui Weichangtian and said:

"Kui Wei Changtian, what are the results of the teleportation array between the two worlds?"

Kui Wei Changtian smiled slightly and said:

"This is a good harvest. I have already obtained 1.3847 billion life gems."

Lin Tianhao raised his eyebrows slightly. The benefits received by Kui Wei Changtian and Nalan Ruoheng from riding the teleportation array between the two worlds were very different.

As for whether they were greedy, Lin Tianhao had never thought about that.

Nalan Ruoheng joined the Mortal Palace, and Kuiwei Changtian was included in the List of Gods. They are both absolutely loyal to him, so this issue does not need to be considered.

The huge difference in the amount of life gems can only prove one thing: many adventurers from the inner world went to the surface world, and relatively few of them came back.

"I still have something to do, so I'll leave first."

Lin Tianhao took the life gem and left directly.

He opened his eyes of insight and began to look for Gui Ye Wuqing.

In addition, because he had been to the inner world before, he used the Kunlun Mirror to constantly switch positions, so it was relatively easy for him to find a specific person.

however.

What surprised Lin Tianhao was that his Eye of Insight did not find Gui Ye Wuqing.

Lin Tianhao chose to send a message directly to Gui Ye Wuqing.

Looking at the four Gui Ye Wuqing in the friend list, Lin Tianhao couldn't help but twitch his mouth.

My sister's situation is really puzzling.

After sending the message, Gui Ye Wuqing sent the location to Lin Tianhao, and Lin Tianhao rushed over immediately.

After arrival.

Gui Ye Wuqing looked at Lin Tianhao and bowed. There was a burly fighter next to him.

"Is it convenient to talk?" Lin Tianhao asked.

Gui Ye Wuqing nodded, "He is one of us, you can tell him anything you want to say."

Lin Tianhao glanced at the fighter and said calmly:

"Do you know Lord Shi?"

Hear this.

Gui Ye Wuqing was slightly surprised, but that was all.

"Yes, he is the person in charge of our inner world in your surface world. He is mainly responsible for infiltrating you."

Lin Tianhao frowned slightly, and Gui Ye Wuqing continued:

"But we are different from him. Lord Shi is an aggressor, and we are not a pacifist."

The United States has the business faction and the war faction, and here come the invasion faction and the peace faction. Could they have been brought over from the inner world?

"If I want to deal with Lord Shi, what will you do?" Lin Tianhao asked.

Gui Ye Wuqing's expression changed slightly, "Xue Di, to be honest, although we are not from the same faction as Lord Shi, we are actually the same ruler, we just have different opinions."

A cold light flashed in Lin Tianhao's eyes, and he said:

"So, you want to stand on Lord Shi's side?"

Gui Ye Wuqing smiled bitterly, "This is not a question of standing in line. I heard that you Dragon Country also have radicals and conservatives. But no matter whether they are radicals or conservatives, they are all people of your Dragon Country."

"No matter who we fight, aren't we fighting the Dragon Nation?"

Lin Tianhao frowned slightly and said:

"I understand."

Gui Ye Wuqing felt an invisible sense of oppression from Lin Tianhao, and she immediately said:

"Xue Di, we can discuss anything."

Chapter 1377 The God-making Plan in the Earth's Core World!

"Lord Stone has infiltrated the countries of the surface world and invaded your territory. I completely understand that you would want to deal with him."

Gui Ye Wuqing said very seriously:

"But this matter requires methods and means. We can do our best to persuade them to stop their aggressive behavior and make concessions."

Hear this.

Lin Tianhao shook his head and said:

"I want to deal with him not just because he is infiltrating us, but the more crucial reason is that he advocates cooperation with the Arlate Galaxy."

"To me, the people in the Alet Galaxy are ten or even a hundred times more evil than the demons in your inner world!!"

Gui Ye Wuqing instantly understood Lin Tianhao's thoughts.

"I know."

"The news that Lord Shi brought back is that there is a method to become a god in the Alet Galaxy, and they are willing to help us become gods first."

"They are currently trying to create a god."

The fighter frowned slightly, "Xue Di, these are all top secrets, but we still told you everything. I hope you can understand us."

Lin Tianhao's face darkened. "The method to become a god? Can it make you become a god right now?"

There are only two possible ways to succeed: burning talent to become a god and becoming a god with godhood!!

But at this stage, if one wants to burn one's talent to become a god, one must at least reach the ninth level and burn one's god-level talent to become a god ahead of time.

As for becoming a god through godhood, the minimum is nine turns. If you want to refine the godhood and become a god, you can only become a god through godhood if you want to upgrade further in the future. Moreover, the combat power of gods who have become gods through godhood is very weak. Among all gods, they can be regarded as the bottom, three points weaker than the so-called incense gods.

"The news passed back by Lord Shi said it would take half a year, but I don't know for now whether it is the exact time or not."

"Half a year? Become a god?"

Lin Tianhao opened the ranking list, and there was no one at level nine on the list yet.

unless.....

Lin Tianhao suddenly thought of a possibility. If there was something special, would it be possible to conceal the secret and prevent himself from being on the ranking list?

In other words.

It is possible that there is something in the Alete Galaxy that can block the secrets and prevent their people from being included in the ranking list.

If that's the case, it would be really troublesome.

As if he had seen through Lin Tianhao's thoughts, Gui Ye Wuqing sighed.

"It seems that you, Boss Xue Di, have already guessed that our first god-becoming practitioner has reached the ninth level and is now striving for the realm of the gods."

really! !

The Alet Galaxy has a way of keeping people from being on the rank list.

Gui Ye Wuqing continued calmly:

"This practitioner is trying to see if adventurers who become gods will be rejected or suppressed because we need gods to be born."

"After all, right now, gods are not allowed to take action. What if the adventurer becomes a god?"

Lin Tianhao chuckled, "To forge the first god for adventurers in Ragnarok, this is indeed very tempting."

That's it.

Lin Tianhao smiled and said:

"The people who can reach the ninth level at this stage are those who are upgraded by people from the Alete galaxy? Or are they people with relatively high talents?"

"A person with god-level talent." Gui Ye Wuqing said.

Lin Tianhao sighed, "It's useless!"

"Whether you succeed or not, you will lose a lot of money. It's not worth it for just one chance to become a god first."

Hear this.

Gui Ye Wuqing frowned, "Becoming a god, isn't that enough?"

Lin Tianhao shook his head. "To become a god means to have a certain status in Ragnarok. To be more precise, to have a certain status in the Ragnarok that has been abandoned by the gods."

"A person with god-level talent has a high chance of achieving the realm of a god king in the future, but now he is useless."

Gui Ye Wuqing waved his hand and said:

"I will try my best to dissuade Lord Shi and ask them to stop their actions, but the God-making Project carries too much of our inner world. Everyone is looking forward to the success of the God-making Project. Under this circumstance, it is unstoppable."

Lin Tianhao nodded gently, "I can feel it, but I still have to tell you that this kind of behavior of forcing things to grow will only harm him."

"God-level talent is the hope for the future."

Gui Ye Wuqing nodded gently, "Xue Di, I believe you, but this plan can no longer be stopped."

"In addition, I still say the same thing. The most I can do is to ask Lord Shi to temporarily stop all intrusions. I can even make him make concessions on some things."

Lin Tianhao's eyes narrowed slightly and he said:

"alright."

"By the way, if you want to create a god, I also have the ability to do so. It all depends on what you think."

Lin Tianhao had obtained a Confucian and Taoist godhood in the Dragon Cave before. With his current ability, it is easy for him to lead someone into the Nine Revolutions realm.

Using the Confucian and Taoist divinity to help that person become a god seems to be a pretty good thing.

Gui Ye Wuqing was slightly startled. She hesitated for a moment before saying:

"Some things, once you start, are hard to go back on."

Lin Tianhao waved his hand and said:

"This is your decision. However, many adventurers from your inner world have recently gone to the surface world and have no intention of returning."

Gui Ye Wuqing frowned slightly and said, "We have also discovered it, but ordinary adventurers are free to go wherever they want."

"We have also sent people up there, but they are mostly for exploration, so the number is not large."

Lin Tianhao waved his hand. He knew that Gui Ye Wuqing, or rather, these guys in the inner world, would not change their decision.

The most important reason why he said so much to Gui Ye Wu Qing was because her name was Gui Ye Wu Qing!!

Lin Tianhao is still unclear about what is so unique about these Gui Ye Wuqings, but he is almost certain that the four Gui Ye Wuqings he has come into contact with so far must be related.

"correct."

Lin Tianhao seemed to have thought of something and asked:

"In your inner world, are there other people named Gui Ye Wu Qing?"

Gui Ye Wuqing was slightly startled. She nodded to Lin Tianhao and said:

"Yes, and he is a very, very powerful adventurer."

Lin Tianhao wanted to say something, but in the end he couldn't say it.

These... five of them belong to Ye Wuqing!!

What's wrong with my sister?

Each of the five Gui Ye Wuqing is a top adventurer and possesses special abilities.

Is this a coincidence?

Ragnarok does not allow for duplicate names.

and.

Even if the name Gui Ye Wuqing has a loophole and there may be duplicates, why are people named Gui Ye Wuqing so powerful?

Although he cannot be compared with Lin Tianhao, if compared with those adventurers, he can definitely be considered one of the top ones.

Could this... be a coincidence?

"Please introduce another Gui Ye Wuqing to me when you have the chance." Lin Tianhao said with a smile.

Chapter 1378: Meet Su Li and test the Tianji Umbrella!

"No problem." Gui Ye Wuqing replied.

After separating from Gui Ye Wuqing, Lin Tianhao contacted Mad Battle Blade immediately.

"Blade, I just contacted the people from the inner world. Lord Shi is from their inner world. They are cooperating with the people from the Alet Galaxy. Their main purpose is the God-making Project."

After hearing the news, Berserker Blade couldn't help but be surprised.

"God-making plan? But there is no adventurer who has reached level 10,000 on the current level list."

Now, as adventurers gradually step into the seventh transformation and open up their realms, they will come into contact with more and more high-level NPCs, and naturally they will also come into contact with the method of becoming a god.

To become a god, the most basic requirement is to reach level 10,000.

Only after reaching level 10,000 can you start to advance to the realm of gods.

"Ah."

Lin Tianhao answered confidently, "As for the ranking list, the Alet Galaxy has the means to prevent some people from being on the ranking list."

Mad Battle Blade's expression became extremely solemn, and he said:

"They are creating gods now. Should we make countermeasures?"

Lin Tianhao nodded gently, "Didn't I come to discuss this with you?"

"An adventurer becoming a god is quite special. There are rules now that do not allow gods to take action, but if an adventurer becomes a god, it may become a loophole in the rules."

Lin Tianhao had a vague premonition that as time went by, the things that the Source of Tao would influence would become fewer and fewer.

especially.

The Source of Tao seems to have left the galaxy world.

"You mean, the people in the inner world want to create gods and then come to deal with us and you?!"

At this stage of creating a god, the person most likely to be dealt with is Lin Tianhao.

Now the gods cannot take action. At this time, a god supported by the Alite galaxy is born. Can Lin Tianhao defeat him?

after all.

This is a god in full condition, and it is not easy to deal with him.

"do not know."

Lin Tianhao shook his head. "So I want to hear your ideas. If that doesn't work, I can also implement the God-making Plan."

"Oh?"

Mad Blade instantly understood Lin Tianhao's thoughts.

"Boss Xuedi, do you mean that we should cooperate with you in carrying out the God-making plan?"

Lin Tianhao nodded and said:

"good."

"That's definitely no problem. I'll arrange whatever you need us to do."

Lin Tianhao hesitated for a moment and said:

"Assign someone you absolutely trust, and an adventurer whose talent is no higher than the Heavenly Level. I will help him level up and become a God!!"

"It's better to have a hidden profession without job transfer, so that there will be no obstacles to job transfer, and it will be much easier to upgrade and transfer."

"clear."

"Boss Xuedi, I will report it right away. I believe there will be a reply soon."

Lin Tianhao didn't have to wait too long before Mad Blade gave him a reply.

"No problem, but we are still discussing the candidate. Can I give you an answer before today?"

"it is good."

After dealing with these.

Lin Tianhao opened the friend list and sent a message to Su Li.

"Are you free? Let's meet and send me a location."

Before carrying out the plan to create a god, Lin Tianhao still needs to do an experiment.

Su Li is a summoner and usually does not fight in person, so she sent a location to Lin Tianhao shortly after Lin Tianhao sent the message.

"The secret realm of the Five Mountains, the Northern Mountains gather in the Iron City."

Lin Tianhao didn't expect that Su Li was actually in the Five Mountains Secret Realm.

After all, given Su Li's current level, under normal circumstances, there is actually not much need for her to complete missions in the Five Mountains Secret Realm.

However, Lin Tianhao did not care too much about this issue and headed towards Beiyue Jutie City.

The secret realm of the Five Mountains is ruled by five tribes.

Lin Tianhao had considered conquering these five tribes before. This time when he goes to Jutie City, he can also make contact with the Beiyue tribe first.

The land of the Five Mountains.

There are endless deep mountains and old forests everywhere.

Hidden in these deep mountains and old forests are some extremely powerful ghosts and monsters.

Lin Tianhao was a man of great skill and courage. He locked onto the coordinates sent by Su Li and flew over.

It was a sunny day today, and with the help of the skills of two great gods, the Black Heart Dragon and the Sky God, Lin Tianhao was flying very fast in the air.

In fact, he can also turn on the invincibility and virtuality, so that he can travel more efficiently.

But the tall shadow that Lin Tianhao encountered outside the domain before, under Kuntian City, made him alert.

Besides.

Lin Tianhao also wanted to kill some monsters along the way, just to add up his health points.

His arrows were shot from his heart and combined with the Eye of Insight and the Heavenly Punishment Lock, Lin Tianhao could lock or kill these ghosts and evil spirits from a very long distance.

Lin Tianhao swept all the way, just as if he was adding some health points.

Two and a half hours later.

Lin Tianhao finally arrived at Beiyue Jutie City.

At the gate of Jutie City, Lin Tianhao saw Su Li who was meditating under a big tree not far away.

At this time, there was a big black cat lying in Su Li's arms.

Su Li is really hardworking and uses this time to gain enlightenment.

"Meow~"

Seeing Lin Tianhao approaching, the big black cat let out a soft meow. This big black cat had been with Su Li for quite a long time.

This big black cat had followed Su Li during the Holy Land's Rookie Competition.

therefore.

This big black cat still knows Lin Tianhao.

Su Li opened her beautiful eyes and stood up immediately.

"Lord Palace Master."

Lin Tianhao nodded gently, "Come with me, there are too many people at the city gate."

Su Li didn't waste any words and followed Lin Tianhao to a corner in the distance.

Lin Tianhao took out the Tianji Umbrella and said:

"Try this on and see."

If Lin Tianhao wants to carry out the plan of creating a god, he has to try whether the Tianji Umbrella can cover the ranking list.

His own level was too low, so it would be more intuitive to try it with Su Li.

After Su Li put on the Tianji Umbrella, Lin Tianhao opened the level list.

Su Li's name disappeared from the ranking list.

"Take down the Tianji Umbrella." Lin Tianhao said.

Su Li took off the Tianji Umbrella and asked curiously:

"You want to test whether this thing can cover the ranking list?"

Lin Tianhao nodded and said with a smile:

"Yes, next I will try to do something that requires covering up the ranking list."

Su Li gently held her forehead and did not ask any more questions.

"Okay, thank you for your help. The main reason is that my level is not high enough for me to try." Lin Tianhao said with a smile.

Su Li also smiled slightly, "It's just a small matter."

That's it.

Su Li seemed to have thought of something and said:

"Palace Master, I..."

Seeing Su Li like this, Lin Tianhao seemed to have something to hide, so he couldn't help but ask:

"Just tell me what you have to say."

Su Li took a deep breath and said:

"Master Palace Master, I have a mysterious egg here, and I have already made a contract with the beast in the egg."

"But the problem is that neither I nor the beast inside the eggshell can break the eggshell. It seems to be sealed inside the eggshell."

Chapter 1379: Golden Leaf and Ink Flower, Genius Mage!

"I would like to ask the Lord Palace Master for help to see if I can open this egg."

While talking.

There was a fist-sized black egg in Su Li's hand.

This egg is too small.

It is about the same size as a goose egg in the real world, which is very, very small among the summoner's beast eggs.

Lin Tianhao subconsciously wanted to shoot an arrow, but the arrow had not yet been released.

He stopped again.

His feather arrows were so powerful that if he wasn't careful, he might kill both the egg and the animal inside the eggshell.

Lin Tianhao flipped his palm, and a carving knife appeared in his palm.

Su Li said nothing, just watched the scene calmly.

Lin Tianhao raised the carving knife and cut the black eggshell.

An extremely strong resistance came over him, and Lin Tianhao couldn't help but be shocked.

Although he couldn't exert much power from the carving knife, this black egg shouldn't have caused him so much resistance.

Lin Tianhao increased his strength output, and the carving knife slowly cut a hole in the black egg.

As more and more cuts were made, the animal inside the eggshell seemed very excited.

"Hahahaha, I'm finally coming out!!"

In the underworld, black fog was lingering, and a ball of black fog rushed out through the hole cut by Lin Tianhao.

After the black smoke rushed out of the eggshell, it surrounded Su Li.

"Are you my master? You look a little silly?!"

The black smoke condensed into a palm-sized little devil, staring at Su Li with a pair of blood-red eyes.

"But don't worry, I'll protect you from now on, hahaha."

The words fell.

The black smoke devil turned around and looked at Lin Tianhao again, "The carving knife in your hand is so strong that it can actually cut my eggshell."

Lin Tianhao also looked at the little black smoke devil curiously.

Because his piercing eyes could not see the attributes of this little black smoke devil.

"What are you?" Lin Tianhao asked.

The black smoke devil made a face at Lin Tianhao and said:

"Want to know? I won't tell you, hahaha!"

Su Li tapped the black smoke devil from behind and said:

"Don't be rude to the Palace Master."

The words fell.

Su Lica said to Lin Tianhao:

"In the ancient times, Pangu created the sky and angrily killed three thousand gods and demons. The dark gods and demons knew they were no match for him, so when they fought with Pangu, they separated a ray of their original power and condensed it into an egg. To ensure that they could live a second life in the future, this is it."

Lin Tianhao was a little surprised.

"With such a powerful background, are you willing to be contracted?"

Lin Tianhao was indeed somewhat surprised.

A dignified god or demon, even if it is only a trace of the original power of a god or demon, should have inherited some characteristics of the god or demon.

It is too difficult to make gods and demons enslaved.

The black smoke devil bared his teeth and waited for Lin Tianhao, "It is not your turn to make decisions for me."

Lin Tianhao picked up the carving knife in his hand and said:

"You are the condensed power of the dark gods and demons. Don't you recognize the carving knife in my hand?"

The little black smoke devil laughed jokingly, "Why should I know..."

I haven't finished yet.

The little black smoke devil seemed to have thought of something. The playful smile froze on his face, his pupils suddenly dilated, and an incredible light flashed in his eyes.

"This...this is impossible!!"

"It seems that you still have some memories." Lin Tianhao said.

The little black smoke devil subconsciously floated behind Su Li and looked at Lin Tianhao with some fear.

"Where did you get this carving knife?"

Lin Tianhao spread his hands, "You recognized this carving knife, didn't you? Don't you have any idea where I got it from?"

The black smoke devil widened his eyes and said in shock:

"How could it be, how could it be?!!"

Look.

The carving knife in Lin Tianhao's hand had a very strong impact on him.

In fact, this is normal.

The God of the Source of Tao used this chisel to carve out three thousand gods and demons, and the Dark God and Demon was one of them.

How could he not be shocked when he now saw the chisel that had carved them.

"Okay, I have something else to do, so I'll leave first."

Lin Tianhao still has a lot of things to do, so he naturally can't waste too much time here.

After coming out of the Five Mountains Secret Realm, Lin Tianhao received news from the Mad Fighting Blade.

He said that the candidate for the god-making had been determined, and sent a location nearby to Lin Tianhao.

Berserker Blade also understood Lin Tianhao. The location he sent was a place Lin Tianhao had been to before, so Lin Tianhao could use the Kunlun Mirror to go directly there.

He took out the Kunlun Mirror and came to the location of the Berserker Blade.

When Berserker Blade was seen, he was accompanied by a mage.

"Gold leaf ink flower."

Lin Tianhao didn't know the other party, but the fact that he was chosen to participate in the God-making Project showed that he had some abilities.

"This Jinye Mohua is the descendant of a hero. Her grandfather, father, second uncle, and third uncle all died on the battlefield. She likes reading and is now the deputy head of the War Department's Art Troupe."

Lin Tianhao nodded gently and looked at Jinye Mohua, "Did Daofeng tell you?"

Jinye Mohua nodded gently, "I understand that we should carry out the God-making plan."

Lin Tianhao looked serious and chose to add Jinye Mohua as a friend.

"Send me your talent." Lin Tianhao said.

Jinye Mohua added Lin Tianhao as a friend and sent him a screenshot of her talent.

Genius Mage: 5 stars.

Effect 1: Your casting speed, skill proficiency, skill power, and skill flight speed are all increased by 25%.

Effect 2: Your skill cooldown and skill consumption are all reduced by 25%.

Effect 3: Your magic power and mana will receive an additional ten times attribute bonus. (Not affected by skill star upgrade)

Proficiency: 21592/100000 (this proficiency is the number of times a skill is released, passive skills are not included).

Lin Tianhao raised his eyebrows slightly. This talent is relatively average.

Three effects, all look good.

But according to Lin Tianhao's judgment, it is just an average heavenly level talent.

But that's fine.

The talent is too good, and it is somewhat troublesome to become a god with the divine nature.

Her level is not low, it is already level 2,000, but judging from her appearance, she has not yet changed her job.

"Are you stuck in the seventh level?" Lin Tianhao asked.

Jinye Mohua shook her head and said, "No, I have already comprehended the domain, but I have not yet completed the job transfer task."

Lin Tianhao understood, "Okay, then you team up with me, and I will help you change your job and level up. I will help you reach level 10,000 in the shortest possible time."

"Okay, thank you, Mr. Xuedi."

This Jinye Mohua spoke in a gentle and refined manner, which was consistent with the Confucian and Taoist godhead in his hand.

Next.

It is to help Jinye Mohua complete the job transfer task.

The job transfer task from the sixth to the seventh level is relatively difficult, but that is for professionals who have just mastered the field.

For Lin Tianhao, a job transfer task of this level only requires hands.

Chapter 1380 The Road to Becoming a God: Luo Xuan's Soul Swallowing Technique!

wrong!

Because the arrow is shot from the heart, Lin Tianhao does not need to have hands.

Two hours later.

With the help of Lin Tianhao, Jinye Mohua successfully completed the seventh turn.

After the job transfer is completed, the next step is to upgrade Jinye Mohua.

This is a piece of cake for Lin Tianhao.

Form a team, experience points are distributed 9:1, gold leaf and ink flower 9.

Lin Tianhao also gave Jin Ye Mo Hua the Tian Ji Umbrella.

With the Eye of Insight unfolded, and with the Three Heads and Six Arms and the Heavenly Punishment Lock, Lin Tianhao can attack any wild monster within a radius of one million kilometers centered on Lin Tianhao.

Coupled with the blessing of three heads and six arms, the arrows shot from the heart, and Lin Tianhao's high damage, it was basically a killing spree.

Lin Tianhao indiscriminately killed all wild monsters above level 2,000 within a radius of one million kilometers.

After killing these wild monsters, Jinye Mohua's level increased from level 2,000 to level 5,000, reaching the threshold of the eighth level.

Jinye Mohua looked at her level rising like a rocket, and she didn't know what to say for a moment.

Then change jobs, then reach level 10,000, and then change jobs again!!

Lin Tianhao swept all the way, and his level was rising like a rocket.

Less than three days.

The golden leaf and ink flower have completed the ninth transformation.

"This....."

Jinye Mohua didn't know what to say for a moment. The speed of the level increase was too fast.

"The next step is enlightenment and becoming a god."

After the ninth transformation, there are still demigods and pseudo-gods.

The improvement of demigods and pseudo-gods is no longer a simple level, but an impact of pure realm.

In conventional terms, it means opening the orifices and flushing the acupoints!

Before the ninth transformation, it was just a level increase, and the overall improvement was relatively ordinary.

After the ninth turn, you can choose to continue upgrading, or you can choose to gather strength to flush the acupoints.

The source of this acupuncture point's power is no longer from killing monsters, but from cultivation!!

Use the power gained from cultivation to impact the acupoints.

Every time an acupoint is opened, the strength can be improved to a certain extent.

The most intuitive improvement is a 10% increase in all attributes.

And to reach the ninth level of demigodhood, one needs to open nine acupoints.

As long as you complete the impact of one acupoint, you will not be able to continue upgrading, and the future path will no longer be to fight monsters and level up, but to practice and become a god.

To cultivate and become a god, one needs to practice the techniques.

This is also a small problem for Lin Tianhao.

Of course they have some in their mortal palaces.

He can also consume contribution points and redeem them directly from the Fan Palace warehouse.

Lin Tianhao took a quick look at the cultivation method and found that there were not many cultivation methods included in the Fan Palace.

There are only eight parts in one.

Lin Tianhao chose one of the eight parts that was relatively easy to practice.

To create a god, we must put efficiency first and complete this plan.

"Jinye Mohua, take this Luoxuan Swallowing Soul Art and practice it. Also, these are the natural materials and treasures needed for practice. They can help you grow quickly. You must open the thirty-six acupoints as soon as possible and reach the realm of pseudo-god."

A demigod needs to open nine acupoints, while a pseudo-god needs to open thirty-six acupoints.

"it is good."

Jinye Mohua nodded heavily and began to practice hard.

The next step is to impact the acupoints. This mainly depends on Jinye Mohua's own efforts. Lin Tianhao can't help much.

But let's be honest.

Lin Tianhao was feeling a little excited at this moment.

Create a god!!

Think about his previous life, he didn't even have any talent and was struggling to survive at the bottom of society.

But now.

He has already started to create a god!!

To open up the thirty-six acupoints, even with the cultivation resources he exchanged, it would not be accomplished in a short time.

"You should practice well. I'm going to take care of my own things now."

Lin Tianhao summoned the Kunlun Mirror and headed to the outside world!

Outside the Territory, Hanlou!!

Lin Tianhao came to the outside of the cold building.

Not surprisingly.

The owner of Hanlou has returned.

The owner of Han Tower sensed Lin Tianhao's arrival and came out immediately.

"Greetings, Lord Palace Master." The Lord of Han Tower bowed to Lin Tianhao. He had already joined the Fan Palace, so naturally he was absolutely loyal to Lin Tianhao.

Lin Tianhao waved his hand, "Do you know Jiuyou and Tiangong?"

According to Lin Tianhao's speculation.

The two pieces of heavenly punishment equipment mentioned by the veiled woman are most likely one in Jiuyou and the other in Tiangong.

therefore.

Whether it is Jiuyou or Tiangong, he must go.

"I know."

The owner of Hanlou nodded and said softly:

"It is rumored that Jiuyou and Tiangong were once the residences of immortals and gods."

"The road to the Heavenly Palace is now cut off, and it is impossible to reach the Heavenly Palace. The Nine Netherworlds Road is blocked by countless wronged souls and evil spirits, and no one can set foot on it."

Lin Tianhao frowned slightly and said bluntly: "I want to go to Jiuyou and Tiangong."

"The road to the Heavenly Palace has been cut off, and we don't know where to go. Jiuyou does have a way. With the strength of the Palace Master, we may be able to get through."

That's it.

The owner of Hanlou seemed to have thought of something and continued:

"but."

"We in Hanlou have records that in the depths of the Nine Netherworld, there are rule monsters. They have some rules that cannot be easily broken."

"Deeper still, there are monsters with rules that cannot be killed."

Lin Tianhao's expression changed slightly.

Rule-based monsters are already difficult to deal with, but as long as they can be killed, they can still be solved.

But if it is a rule-based monster that cannot be killed, the situation is completely different.

"Take me to Jiuyou first." Lin Tianhao said.

Just hearing from others, Lin Tianhao still doesn't quite understand.

"Forget it. Just give me a position and I'll go there by myself. You can't let anyone else know that you and the leader of the Yin Yang He Huan Sect have joined me. Do you understand?"

"If there is anything important happening outside this territory, please inform me immediately."

"it is good."

The owner of Han Tower nodded slightly and marked the way to Jiuyou for Lin Tianhao.

Lin Tianhao just took a look and then took out the Kunlun Mirror.

Three hours later.

Deep in the vast Gobi Desert, Lin Tianhao saw a dilapidated city with only ruins left.

There are some very high-level skeleton monsters around this ruined city.

Skeleton who lost his faith (common): level 8125.

Health: 1591651/1591651.

Attack:19325.

Skills: Chain Slash, Instant Slash, Three Shadow Clone Slash, Sudden Impact, Light as a Swallow...

Lin Tianhao took a quick look and saw a garbage skeleton man of over level 8,000.

but.

Lin Tianhao did not rush to take action, but instead opened his Eye of Insight and began to observe the situation around him.

"really."

Lin Tianhao chuckled, Hei Tianaozhen appeared instantly, and Lin Tianhao rushed towards the east.

Lin Tianhao followed closely behind and soon caught the two people on the east side.

Both of them are seventh-level gold-level warriors, and their strength is not very good.

"Who asked you to come here?"

While speaking, Lin Tianhao's feather arrow had already been released, because this was actually a chain whistle.
