

## **O games 1381**

Chapter 1381 Endless ghosts and monsters, exhausting!

Chain whistles, also known as death whistles, to put it bluntly, these two seventh-turn gold-level warriors were there to be killed.

Because far away from these two seventh-level gold-level warriors, there are two more sentries, and far away from them, there are two more sentries.

The function of this chain of sentries is that after the first group of sentries is discovered, the second and third groups of sentries will evacuate separately.

This way the message will definitely be delivered.

This type of chain sentry is a relatively common sentry arrangement.

It is unlikely that a person could sneak in and quietly take out each sentry, as in the Blue Star TV series.

There is a guard post every ten steps and a sentry every hundred steps. This is no joke.

When you kill the first sentry, the following sentries will gradually discover that the first sentry has been killed.

and.

The sentries usually consist of two people in a group to prevent anyone from falling asleep or being distracted.

but.

Such a series of whistles are of no use to Lin Tianhao.

Because he had the Eye of Insight and the Heavenly Punishment Lock, the two groups of sentries who were escaping would not have the chance to run far before being killed by him.

After hearing the server-wide announcement that their companions had been killed, the two sentries looked grim.

"Don't look at me like that. Let me ask you a question. Who asked you to come here?"

One of the sentries said quickly:

"Sir, we are disciples of the Southern Barbarian Saint Sect. The elders arranged for us to come here, saying that someone might come here recently, so they asked us to come and keep an eye on it."

really! !

Lin Tianhao chuckled, "Sir, we have no ill intentions, we just came here to watch."

These two people did not expect that Lin Tianhao was so murderous that he would kill people from the other two groups without hesitation.

"I don't like being watched when I'm doing things."

The words fell.

Lin Tianhao dealt with both of them.

The leader of the Southern Barbarian Holy Sect was certain that he would return, and these outposts were meant for him to die.

If someone is killed, there will be a server-wide announcement, even if the name is hidden.

If he doesn't kill, the message will get out.

It's no use arresting him.

Because the leader of the Southern Barbarian Holy Sect should arrange people to come and check on it regularly.

If they find that the sentry is missing, they will also be able to understand what the problem is.

Solved these outposts.

Lin Tianhao then began to attack these skeletons who had lost their faith.

These skeletons who have lost their faith can only provide some health points for Lin Tianhao.

Feather arrows cut through the sky, continuously reaping the lives of these skeletons.

As these skeletons who had lost their faith were killed one after another by Lin Tianhao, elite and black iron level skeletons began to appear one after another.

But the ending is the same.

Lin Tianhao is really too strong now, to the point of being unreasonably strong.

It took Lin Tianhao almost an hour to kill all the skeletons in this abandoned city.

The main reason is that the mechanism of wild monsters is quite special. For some wild monsters, you have to kill the ones in front of you before they will refresh.

After clearing out the skeleton monsters in this abandoned city, the broken skeletons of these skeleton monsters began to be gathered towards the center of the abandoned city by an invisible suction force.

The skeleton monsters formed a huge portal, inside which were the sounds of ghosts and wolves howling, and countless ghosts and monsters were baring their fangs and claws behind the portal.

At the moment when the skeleton portal was formed, the sky was covered with dark clouds, lightning and thunder, as if the sky did not want the skeleton portal to appear.

Lin Tianhao frowned slightly, raised his hand and attacked those vicious ghosts and evil spirits.

After the feather arrows passed through the light gate and hit the ghosts and evil spirits, they were killed without any suspense.

Feather arrows were continuously shot, and a large number of ghosts blocking the skeleton portal were killed by Lin Tianhao.

Only after most of the ghosts and monsters in the skeleton portal were killed did Lin Tianhao step into the skeleton portal.

As soon as he set foot here, Lin Tianhao couldn't help but gasp.

This is also a vast Gobi Desert, but there are countless ghosts wandering in this Gobi Desert.

As soon as Lin Tianhao set foot here, they rushed towards him like crazy.

A large amount of evil energy invaded Lin Tianhao, trying to corrode his body.

Lin Tianhao gave it his all and a large number of arrows poured out.

Passive skills such as lightning jump and skyfire meteor are continuously triggered. These highly dense monsters are nothing in Lin Tianhao's hands.

In this battle that could be described as intensive fear, Lin Tianhao's mental energy was consumed quickly, but Lin Tianhao's health points also increased quickly.

Sweeping all the way, invincible.

Lin Tianhao unfolded his Sky-Splitting Domain, because the levels of the ghosts and monsters here were not low, basically above level one thousand.

There are also some ghosts at level 2,000 or even level 5,000.

After killing these ghosts, Lin Tianhao discovered that apart from a small amount of coins, nothing seemed to drop.

High-level monster, with such a low drop rate.

As the saying goes, when things go wrong, there must be a monster.

Lin Tianhao felt that there might be a bigger secret hidden in the Nine Netherworlds.

Sweep all the way.

Lin Tianhao's progress was not too slow.

With three heads and six arms, arrows shot from the heart, and the damage caused by Lin Tianhao's various passive skills, the lethality is still quite good.

After killing for more than three hours, Lin Tianhao was a little tired, but he still didn't leave this area.

The number of ghosts and monsters here was beyond Lin Tianhao's imagination.

How did so many high-level ghosts appear in this place?

Next.

Lin Tianhao finally understood why those holy places outside the domain said they couldn't be defeated.

Because there are too many ghosts here!!

He had been killing here for twenty-four hours, and the number of ghosts around him finally decreased.

After twenty-four hours of continuous high-intensity fighting, Lin Tianhao was already exhausted.

But there is still good news.

That is.....

With the help of hard work, Lin Tianhao's health points increased by more than 100 million.

In addition to the increase in the health of Lin Tianhao's equipment, Lin Tianhao's health increased by more than 500 million that day! !

An increase of 500 million a day is still a lot at this stage.

and.

Lin Tianhao found a good place to improve his talent proficiency.

Here, while stacking his health points, he can also quickly increase the proficiency of his talents.

After another six hours, there were finally not many ghosts left around.

Lin Tianhao's breathing became a little rapid.

too tired! !

It takes too much energy!!

Lin Tianhao just wants to lie down now.

"Heitian Aozhen!!"

Lin Tianhao called Hei Tianaozhen out, and he himself lay down directly.

Hei Tian Ao Zhen took action and dealt with the remaining ghosts.

Lin Tianhao was breathing heavily. He really didn't want to experience this kind of high-intensity combat again.

"Sir, a city has appeared ahead. It looks somewhat similar to the abandoned city outside, except that this city is complete." The voice of Heitian Aozhen came.

Chapter 1382 A puzzle city full of rule-based monsters!

Lin Tianhao sat up slowly.

really.

A city appeared in the Gobi Desert.

This city is not particularly majestic, but it should not be underestimated.

You can roughly tell it just by looking at the appearance.

This city is at least large enough to accommodate five million people.

"Let's go and have a look."

Lin Tianhao took a sip of water, feeling a little relieved, and continued walking towards the city.

just.

Not long after they started walking, Lin Tianhao and Hei Tianaozhen both stopped.

There is no need to say much about Hei Tianaozhen. Lin Tianhao is in an unconscious state of unity between man and nature. Both of them have very strong perception of the things around them.

Although they had not walked far, they had already discovered that although they were moving forward, the distance to the city ahead was not getting closer.

"Rules ghosts?"

Lin Tianhao frowned slightly. The owner of Han Tower had said before that after dealing with ordinary ghosts, there are still rule ghosts. After the rule ghosts, there are still rule ghosts that cannot be killed.

Their current behavior of standing still is a bit like being targeted by rule-based monsters.

The rules of rule-based monsters are usually not broken, but nothing in the world is absolute.

This rule-based monster made them stay where they were and unable to get close to the city ahead.

But what if Lin Tianhao uses the Heavenly Punishment Lock to lock the city ahead?

Feather arrows break through the air!

Lin Tianhao flew the feather arrow with the power of Heavenly Punishment Lock towards the city ahead.  
Can the super god-level power break this power of rules?

At first the arrow was flying normally, but after flying five meters, its speed became extremely slow.

After flying another five meters, the arrow almost stopped, as if it was hovering in mid-air.

Lin Tianhao narrowed his eyes slightly. The power of rules that made them stand still was actually at such a high level.

Think about this.

Lin Tianhao continued to shoot arrows, one after another, cutting through the sky and flying towards the city ahead.

But just like before, when the arrow flew ten meters, it almost stopped.

But when Lin Tianhao shot out more than ten arrows, the arrows flew for about thirteen meters before they almost hovered there.

From this point, it can be seen that the power that makes the feather arrow almost hover is not as strong as it appears.

Since increasing the number of feather arrows is useful, Lin Tianhao continues to increase the number of feather arrows.

If ten feather arrows are not enough, then use a hundred. If a hundred feather arrows are not enough, then use a thousand.

"Your Excellency, this is really simple and crude." Hei Tianaozhen couldn't help but sigh.

Because under normal circumstances, when you encounter this kind of rule-based monster, you need to look for loopholes in the rule-based monster.

Although rule-based monsters are powerful, while rules can restrict others, they are also a restriction on the rule-based monsters themselves.

For example, the rule-based monsters that Lin Tianhao and his team are encountering now, although difficult to deal with, have almost zero offensive power.

As long as you can find the rule loophole corresponding to the rule-based monster, you can avoid the rule-based monster.

But now Lin Tianhao is purely relying on his own super-god-level Sky Punishment Feather Arrow to fight against the power of rules.

The rules are strong, but they are not absolutely unsolvable.

As long as your power is strong enough, it is possible to destroy the rules of the rule-based monsters.

but.

The rule-based monster that Lin Tianhao encountered now was even more powerful than Lin Tianhao had expected.

Because Lin Tianhao's feather arrows kept moving forward, they did not break free from the restrictions of this rule. It was just that the feather arrows behind him could fly farther and farther.

at the same time.

Lin Tianhao discovered that he could walk smoothly to the place where his arrow reached, and was no longer affected by the rule-based monsters.

In this way, he could advance several meters for every ten arrows, and he used the arrows to shoot out a road that extended to the city ahead.

"Sad Heaven City!!"

Lin Tianhao raised his eyebrows slightly and looked at the tightly closed city gate. He was not sure whether the city gate was also blessed by the power of rules.

therefore!

Lin Tianhao attacked again without hesitation.

The feather arrow hit the gate accurately, but the moment it hit the gate, a circle of ripples appeared on the gate, and his feather arrow disappeared.

See this scene.

Lin Tianhao thought of the similar situation he had encountered when he was in the ancient mysterious realm.

Shenmen Space?

Lin Tianhao was not sure whether there was any danger, so he would find out after shooting a few more arrows.

Thinking like this.

Lin Tianhao's feather arrows poured down crazily.

With the blessing of the three heads and six arms, let's shoot tens of thousands of arrows first.

No matter what monsters and demons are in your sect, just take his 10,000 arrows first, and we can talk about the rest later.

however.

Lin Tianhao had only shot three or four hundred arrows, but the gate of Beitian City actually slowly opened.

It was as if the door was saying: Brother, stop shooting, I can't take it anymore!

A smile appeared on Lin Tianhao's face. Since this guy had given in, he couldn't let him go.

What if the door closes again when he walks past?

Now that we have come this far, there is nothing more to say, just kill! !

The door was open, but Lin Tianhao did not stop shooting arrows at the door.

This door has consciousness, and it is obvious that there are monsters inside.

It is our duty to defeat all evil spirits! !

then.....

Lin Tianhao saw a scene that he had never expected.

That is, the gate of Beitian City actually fell off the stone wall and ran away in a humane way! !

"this?!"

Lin Tianhao and Hei Tianao looked at each other in surprise. The gate of Beitian City was a bit weird.

Lin Tianhao didn't know what to say for a moment. This was a bit too outrageous.

Hei Tian Ao Zhen narrowed his eyes slightly and said in surprise:

"This...could it be a puzzle city?"

"Puzzle City?" Lin Tianhao was a little confused.

He was considered well-informed, but this was the first time he had heard of Puzzle City.

"See? It's the door that's running away. This door is alive, not dead. It can withstand so many of your arrows. It's probably some kind of weird monster."

"I had never seen this city before, but now it has appeared. Add to that this rule-based monster [City Gate], and I think this city might be fake."

Lin Tianhao smiled slightly, "We'll know if it's fake or not once we try it!"

Just when Lin Tianhao was about to take action, an even more dramatic scene occurred.

The entire city quickly fell apart.

The city walls were the city walls, the houses were the houses, and even the streets came alive and ran towards the distance.

Lin Tianhao: "???"

no! !

You have so many rule-based monsters, why are you running away? At least fight them off, just in case!

What if you beat me?

at this time.

Lin Tianhao was also a little surprised that there were so many rule-based monsters here.

They ran away in a flash and disappeared at the end of the vast Gobi Desert, leaving only Lin Tianhao and Hei Tianaozhen disheveled in the wind.

Chapter 1383: Traveling through the void, Zhao Invincible!

Lin Tianhao looked around, looking at his arrows still hovering in the air, and couldn't help but smile and said:

"It looks like there's another rule-based monster here."

The other rule-based monsters have all run away, but this first rule-based monster is still here.

The owner of Han Tower had said before that the first batch of rule-based monsters they encountered could theoretically be killed.

Lin Tianhao actually wanted to know whether he could get something different by killing these rule-based monsters.

however.

Lin Tianhao had just finished saying this when a piece of stone suddenly grew two legs and ran away madly.

Lin Tianhao's feather arrows that were hovering in the air also lost the restraint of power and flew out in an instant.

"run?"

Lin Tianhao's feather arrows instantly locked onto the stone monster, and a large number of feather arrows poured towards him.

But the speed of this stone monster was so fast that it disappeared in a flash, and only Lin Tianhao's feather arrow was still tracking it.

"Not a bit of blood."

Lin Tianhao felt helpless.

He originally thought that he would have to go through a fierce battle when encountering these rule-based monsters.

But now it seems that he still overestimated these rule-based monsters.

"Let's go."

Lin Tianhao spoke calmly. Since all these rule-based monsters had run away, he naturally needed to move forward.

at the same time.

Lin Tianhao's eye of insight also began to spread.

After using the Eye of Insight, Lin Tianhao discovered a horrifying problem.

That is, his Eye of Insight seemed to be stuck in a quagmire. Although it could continue to spread out, the speed of spread was very slow.

Look.

There are restrictions on the power of rules here.

Lin Tianhao is a skilled and courageous man, and is not afraid of any danger ahead. He walks forward with big strides.

The Gobi Desert is boundless. Lin Tianhao and Hei Tianao had been walking for more than an hour and were still in this boundless Gobi Desert.

"Could this also be an ability of a rule-based monster?"

Hei Tian Ao Zhen looked around.

Their current situation seems to be that they are trapped in this Gobi Desert.

Lin Tianhao frowned slightly. These rule-based monsters were very strange. Even in front of him, he couldn't find them.

There are still many stones and shrubs in this vast Gobi Desert.

Among these things, could there be rule-based monsters?

Lin Tianhao didn't know. He couldn't try them one by one, right?

The Gobi Desert is so vast. If he tries bit by bit, it will take him a long time.

"Maybe I can still give it a try!"

Lin Tianhao smiled slightly and performed the Absolute Teleportation.

If he is trapped now, he can definitely travel through time and space, and there is a high probability that he can get rid of the rules here.

After Lin Tianhao performed the Absolute Teleportation, ripples continued to appear in the space. A mysterious force seemed to be blocking Lin Tianhao, slowing down his steps.

"It seems to be true."

Lin Tianhao's face darkened slightly. His current situation was as if he was affected by the rules and couldn't leave.

But Lin Tianhao's absolute shuttle skill level is too high.

Even with this mysterious power of rules, the probability of completely stopping Lin Tianhao is extremely small.

"Break it for me!!"

Lin Tianhao instantly transformed into the form of Evil Sword Immortal, with sword energy running all around him. The power of rules that was blocking him from leaving was instantly weakened a lot.

After Lin Tianhao broke free from the constraints of the power of rules, he finally passed through the space in front of him.

The moment Lin Tianhao passed through the space in front, an extremely strong smell of blood hit him in the face.

The sky was dark, and there was a hint of blood between heaven and earth.

Above the sky, an extremely huge blood-red moon hangs high in the sky. This blood-red moon seems to be very close to the ground. As long as you jump higher, it seems that you can jump onto this blood-red moon.

The soil under my feet was a little damp. Looking closely, it seemed as if it had been soaked in blood.

far away.

Corpses were piled up like a mountain, broken weapons were scattered all over the place, and there were scattered pieces of armor on the ground.

here.....

There must have been a great war.

The brutality of this battle exceeded many people's imagination.

Lin Tianhao took a step forward, but suddenly, Hei Tian Aozhen raised his hand to stop Lin Tianhao.

"what happened?"

"Yes... it's the sound of heartbeat. There are living things in the pile of bones in front. There are still living things." Hei Tian Ao Zhen said.

Lin Tianhao was a little surprised.

Before he could take any action, a long spear pierced out from the pile of corpses in front of him.

Then there was a bloody hand.

Followed by.

Lin Tianhao saw a spear general with tattered armor crawling out. He was very weak and his body was staggering.

He looked around, seeing the devastation, and felt sad.

"Still... defeated?"

The words fell.

His eyes fell on Lin Tianhao and Hei Tianaozhen.

"Is anyone still alive? Did we win?"

Lin Tianhao frowned. He did not feel any hostility from this man.

The aura on his body was also very weak, although Lin Tianhao could feel how powerful he once was.

But he is indeed very weak now.

"Who are you?" Lin Tianhao asked.

"I....."

"I am the number one beastmaster under the Mad Emperor, Zhao Wudi. Who are you?"

"Mad Sky Emperor? Beastmaster? Zhao Wudi?"

These ones.

They were all somewhat unfamiliar to Lin Tianhao.

"What happened here? Why did so many people die?"

Zhao Wudi raised his eyes to look at the blood moon in the sky and said in a cold tone:

"It was those guys on the Canglang Star. The master had never expected, and none of us had ever expected, that those monsters that were destroyed would be revived one day."

"With the master gone, no one can control them. A war is inevitable."

That's it.

Zhao Wudi laughed, "But seeing that there are still people alive, it means that we have won..."

Lin Tianhao was silent. He forced his way through space. Where did he end up?

Are you still at the entrance to Jiuyou?

In other words, this is Jiuyou.

"I don't know, it's my first time here too."

"Looking at the situation here, your battle should have been over for quite some time."

That's it.

Lin Tianhao said curiously:

"It's miraculous that you're still alive."

Zhao Wudi shook his head and said:

"This is all because of the master. He blessed me with immortal blood. Theoretically, I am immortal. It's just that my body was damaged too badly in the previous war. That's why I can only be resurrected now."

Lin Tianhao hesitated to speak. Did he trigger some hidden plot mission?

"Is there anything I can help you with?" Lin Tianhao asked.

Zhao Wudi shook his head. "I'm resurrected. As long as I rest for a while, I can do a lot of things by myself."

Chapter 1384 Canglang Star: Skill Upgrade Scroll!

Lin Tianhao didn't hesitate, but asked: "Do you know Jiuyou?"

"We came here to look for Jiuyou."

Zhao Wudi looked puzzled and shook his head:

"I don't know. I haven't heard anything about Jiuyou."

Lin Tianhao frowned slightly. He wouldn't really use absolute teleportation to travel to some strange world, right?

He had originally planned to break the rules of the Gobi Desert, but the current situation made Lin Tianhao a little uncertain.

But looking at the appearance here, it seems to be somewhat similar to the Jiuyou he imagined.

"Are you coming from far away?" Zhao Wudi asked.

"Well, it's far, but actually not too far." Lin Tianhao said.

Zhao Wudi asked quickly:

"Other planets?"

"I don't know if it counts. The place I'm in is called the Galaxy World, Blue Planet."

Hear this.

Zhao Wudi's face showed excitement.

"I am also in the Milky Way Galaxy and also a blue planet!!"

Zhao Wudi seemed particularly enthusiastic, as if he knew that Lin Tianhao was from his hometown.

"Are there many people on Blue Star now?"

Lin Tianhao nodded and said:

"I don't know if it's a lot, maybe 7 or 8 billion people."

"so little?"

Zhao Wudi frowned, "These damn monsters, it seems that our Blue Planet was destroyed too badly in this battle, and only one in ten people survived."

Lin Tianhao narrowed his eyes slightly. Is this a blue planet?

Only one out of ten survives?

Doesn't that mean that the Blue Planet once had a population of over 100 billion?

But Lin Tianhao has a little understanding of the history of Blue Planet. When did the population reach hundreds of billions?

parallel world?

Lin Tianhao had a bold guess in his mind. If it was a parallel world, then it might be true.

"Do you know the Heavenly Punishment Equipment?"

Lin Tianhao asked.

The purpose of his coming here was to get the Heavenly Punishment Equipment. Now that he met this guy, he naturally needed to ask him if he had the Heavenly Punishment Equipment.

"do not know."

Zhao Wudi shook his head. "I know about Heaven's Punishment, but I have never heard of Heaven's Punishment Equipment."

Lin Tianhao was a little disappointed, pointing at the blood moon above and asked:

"What's going on with this bloody moon above?" Lin Tianhao asked.

Zhao Wudi shook his head. "I don't know. The master said that this is a planet that suddenly appeared outside the Blue Star. We call it the Canglang Star."

"There are countless monsters on Canglang Star. It is precisely because of the appearance of Canglang Star that Blue Star has evolved from a technological civilization to a spiritual civilization!"

Lin Tianhao nodded secretly. He really came to a parallel world, a devastated parallel world at that.

and many more.....

Lin Tianhao suddenly thought of a possibility.

Is it possible that this parallel world is the legendary Jiuyou?

"Is there anyone else here?" Lin Tianhao asked.

Zhao Wudi shook his head and said:

"How should I know? You just resurrected."

That's it.

Zhao Wudi seemed to have thought of something, and he took out an ancient token.

This ancient token is covered with cracks.

"Is the damage already so severe?"

Zhao Wudi's face looked a little ugly.

"What's wrong?" Lin Tianhao asked.

Hei Tian Ao Zhen said aside:

"The thing in his hand should be a treasure similar to my Ancient Black Tower, which can allow living people to enter."

Zhao Wudi nodded. "The situation was critical at the time. I could only send the genius around me into it in order to preserve the human race's bloodline."

"But now, this thing can't be opened."

"Once a treasure of this level is damaged, it is very difficult to repair it. Moreover, your token is so badly damaged that the space inside may have collapsed."

Zhao Wudi put away the token in his hand and looked solemnly at Lin Tianhao and Hei Tian Aozhen.

"I can feel how powerful you are. I don't know if there are still monsters on Canglang Star. If you are willing to explore Canglang Star with me and kill monsters, I can give you enough rewards."

Lin Tianhao's eyes lit up. Has the mission finally arrived?

"I wonder what benefit you can give us?"

While asking this question, Lin Tianhao silently checked the List of Gods.

because.

If this is a parallel world, is it possible to use the List of Gods?

"I don't have much to take out now. Most of the things I have are destroyed."

That's it.

Zhao Wudi took out three scrolls.

"Just for exploration, I can give you three skill upgrade scrolls and three talent evolution flowers."

"The exploration time is three days. If further exploration or fighting is required, the reward will be calculated separately."

Lin Tianhao raised his eyebrows. It was indeed a parallel world, where there were flowers of natural evolution.

"Can I see the effect of the skill upgrade scroll?"

This benefit is pretty good, and that's all you get just for exploration.

Zhao Wudi showed Lin Tianhao the skill upgrade scroll in his hand.

Skill Upgrade Scroll: Special.

Usage requirements: None.

Effect: Use on skills to improve the skill rank (Note: Only improve the skill rank, cannot change the skill effect, only effective for god-level skills or below).

Lin Tianhao narrowed his eyes slightly, this is a good thing.

Skill grade is a relatively unpopular thing.

but.

In the later stages of the game, the difference in skill levels will become very obvious.

It is similar to Lin Tianhao's Heavenly Punishment Lock. In fact, it is because the skill level is too high that even the rules of rule-based monsters can be suppressed.

If it is an ordinary headlock skill, such as the silent tracking arrow, it can be easily blocked.

Skill upgrade scrolls can upgrade skills with good effects but lower skill grades.

The same skill effect can play completely different roles.

"it is good."

This kind of plot mission usually has more than just the first stage, there is a high probability that there will be more plot lines later.

The things Zhao Wudi gave are already pretty good.

"Give me three hours to recover, and then we'll head to Canglang Star."

Lin Tianhao nodded.

Anyway, the reward is calculated from the time you accept the task.

Three hours, fleeting.

Zhao Wudi looked at Lin Tianhao and Heitian Aozhen and said:

"Sorry for the long wait, let's get going now."

When the words fell.

A pair of blood-red wings spread out behind Zhao Wudi.

The moment the wings spread out, a seal appeared behind Zhao Wudi.

Zhao Wudi's aura suddenly became extremely fierce.

but.

This unusually fierce aura only appeared for a moment and then disappeared instantly.

If it weren't for the fact that Zhao Wudi was standing right in front of him, Lin Tianhao would even wonder if Zhao Wudi had already left.

"What a powerful way to restrain your aura!"

Hei Tian Ao Zhen couldn't help but sigh.

Zhao Wudi flapped his wings, and Lin Tianhao discovered that the same seal as the one behind Zhao Wudi's wings appeared under their feet.

The seal dragged them up and flew away into the distance.

Chapter 1385 Qing Tian Emperor from the parallel world!

"The attacks of the monsters on Canglang Star have extremely strong demonic power. Once you are eroded by the demonic energy, it is difficult to get rid of it. You two must be extra careful."

Zhao Wudi reminded from the front.

Lin Tianhao and Hei Tianaozhen followed Zhao Wudi, and both of them were feeling Zhao Wudi's breath.

Obviously.

Just now, Zhao Wudi's breath suddenly disappeared. Even though Zhao Wudi was right in front of them at this moment, Lin Tianhao and Hei Tianaozhen could not sense his breath.

Lin Tianhao also tried to use the Eye of Insight and the Fiery Eyes to observe Zhao Wudi.

But what Lin Tianhao never expected was that his eyes of insight were unable to detect Zhao Wudi.

right! !

From the perspective of the Eye of Insight, they and Zhao Wudi do not exist.

Oh shit! !

What kind of monster is this Zhao Wudi? How can he be so outrageous?!

Lin Tianhao's Eye of Insight skill level is so high, but he still cannot observe Zhao Wudi.

"My master once led the people of Blue Star to clear out most of the monsters, but he never expected that these monsters would be revived one day."

Hei Tianao couldn't help but ask: "Your master is so powerful, where did he go?"

"Holy area."

Zhao Wudi said very seriously:

"His strength is too strong, and he can't get much improvement on this Blue Star, so he ascended to the God Realm."

"But in order to ensure the safety of Blue Star, he left me on Blue Star, but I disappointed my master."

"I have endured too many demonic attacks, and my body has been severely demonized, so that I can no longer fight."

Seeing Zhao Wudi's guilty look, Lin Tianhao was speechless.

It can be seen that he has tried his best to protect Blue Star.

This Canglang star looks very close, but in fact it is not close at all.

Even with Zhao Wudi's high-speed flight, it took the three of them almost half an hour to reach Canglang Star.

Just arrived here.

Lin Tianhao saw a series of deep pits.

It was as if an extremely brutal battle had once taken place here.

"These should be left by our legendary mechanic Qing Tiandi."

"At the beginning, she knew that even if she helped us, we couldn't defend the city, so she brought her own mechanical weapons and attacked Huanglong directly."

Looking at the huge deep pits and some mechanical wreckage, Zhao Wudi sighed heavily.

"She killed countless monsters by herself and used up all her mechanical weapons, but she still failed to win."

Lin Tianhao's eyes lit up when he looked at the mechanical wreckage.

He himself possesses a super god-level hidden profession, the World-Destroying Mechanic profession. Although he is not very far on the road to becoming a World-Destroying Mechanic, he can still see some clues when he sees these mechanical wreckages.

The quality of these mechanical wreckages is very, very high. Although they are wreckages, they still have great research value.

Thinking like this.

Lin Tianhao collected all these mechanical items.

Zhao Wudi did not stop him. These mechanical wreckages could only prove that Emperor Qingtian had fought here before.

suddenly.

Lin Tianhao sensed something, and when he raised his hand, a micro robot flew out from the mechanical wreckage in front of him.

This is the ability of Lin Tianhao, the Mechanical Master, who can control nearby ownerless mechanical objects or mechanical objects of mechanics whose mental power is inferior to his.

This micro robot can also be controlled.

"What's your name?" Lin Tianhao asked.

"I don't have a name. I'm just a miniature robot made casually by my master. If you want, you can call me H9527."

"9527?"

"Who is your master?"

"Emperor Qingtian, Ye Qinglan, codenamed Ye Wuqing!"

Lin Tianhao was stunned, and Hei Tianaozhen also looked a little strange.

Return to Ye Wuqing? ! !

That name again!!

The Gui Ye Wuqing here has become the Qingtian Emperor, so does that mean... the Qingtian Emperor here might be related to his sister.

Could it be that.....

This is because the Qingtian Emperor fell and then was reborn in the parallel world they were in.

It is only because of the achievements of this Qingtian Emperor in this parallel world that he appears so special in his own parallel world.

"Where is your master?" Lin Tianhao asked.

The micro-robot shook his head, "I don't know. After the last battle, I was knocked unconscious and some malfunctions occurred."

Zhao Wudi asked from the side:

"Are there still monsters here?"

"I don't know. I just woke up."

Lin Tianhao looked at Zhao Wudi and said, "Let's go and have a look somewhere else."

If it weren't for Lin Tianhao's Mechanical Overlord, this micro robot might not have recovered yet.

Next.

Lin Tianhao collected a lot of mechanical wreckage one after another.

There are all kinds of mechanical wreckage, and from these mechanical wreckages one can tell the horrific battle that has taken place here.

Didn't go long.

Lin Tianhao saw a scene that left him stunned.

A huge pit appeared in front of him, and Lin Tianhao couldn't even see the end of it with his naked eyes.

"This is a trace left by the master. The master originally intended to keep this weapon for the divine realm, but he could use it here."

Zhao Wudi sighed heavily, "How tragic."

Lin Tianhao glanced at Zhao Wudi and said:

"You don't have much here now. Does it matter whether there are monsters here or not?"

Zhao Wudi's eyes were firm and he said forcefully:

"Even if I am the only one left in this world, I will still deal with these damn monsters."

"We humans have died one after another at the hands of these monsters. The hatred between us and these monsters will never be resolved."

Hear this.

Lin Tianhao didn't say much.

It might be a bit like what they are doing with the Arlate Galaxy.

The difference is that they also suffered a tragic fate at the beginning, but they had not yet reached the point of being exterminated.

At least.

When he was stabbed in the back by that bastard Wu Xiaodao, it hadn't come to that point yet.

"alright."

Lin Tianhao was also happy to see this happen. By exploring with Zhao Wudi, he could get rewards and search for treasures on this Canglang Star.

All the mechanical items obtained so far are of great use to Lin Tianhao.

"How much do you know about this Qingtian Emperor?" Lin Tianhao calmly inquired about the news of Gui Ye Wuqing in the parallel world.

"I don't know much about her."

Zhao Wudi frowned slightly, "After all, I am just the master's beast, I don't know much about the things between them."

"But this Qing Tian Emperor is also very amazing. She possesses four major professions: warrior, mage, mechanic and priest!!"

Moreover, each of her professions is extremely powerful. Looking across the entire Blue Star, the only person who can surpass her is my master.

"Can a beastmaster be so strong?"

Hei Tianao was somewhat surprised and asked:

"Could it be that all the beasts under his command are great emperors?"

Chapter 1386 The strength of Zhao Wudi!

At this moment, Lin Tianhao felt that he seemed to have vaguely grasped some useful information.

Four professions: Mechanic, Mage, Priest, and Warrior!!

The Gui Ye Wuqing that I met seemed to also include these professions.

Could it be that.

The source of all these things that belong to Ye Wuqing is from this Qingtian Emperor?

It is not difficult to judge from Zhao Wudi's words that the Emperor Qingtian had achieved very high achievements.

at this time.

When Zhao Wudi talked about his master, his face was full of pride.

"My master is a beastmaster, but he has developed this profession to the extreme. In addition to his own talent, and later on, like the Qingtian Emperor, he changed his profession to priest, mage, and warrior at the same time. His strength is unparalleled in ancient and modern times."

"You can understand it this way. If my master hadn't saved the day, Blue Star would have fallen long ago."

"My master once defeated billions of monsters with his own strength, making them unable to raise their heads."

"Before, because of something, the master was furious. He set foot on Canglang Star with a sword and blasted people for nine thousand miles. Wherever he passed, blood flowed like a river. No one could stop him."

Lin Tianhao couldn't help but feel emotional when he saw Zhao Wudi's beaming face.

He didn't know how long his master had been gone, but he still loved his master so much.

I don't know if anyone will still remember him a thousand years later.

Then I thought about it.

Lin Tianhao felt that he was thinking too much. Did it matter whether anyone remembered him or not?

It doesn't seem that important anymore.

To put it bluntly, after five generations, your descendants may not even remember you, let alone thousands of years later?

Just now.

Lin Tianhao took out the novice longbow.

Because in the distance, he saw a spider monster with eight bone spurs crawling on the ground.

Demonic Bone Spider (Bronze): Level 3159.

HP: 2751 million/2751 million.

Attack:174231.

Skills: Demonic Cocoon, Eight Thorns Crazy Kill, Demonic Venom, Fission Shock...

(Note: This is a special demonized creature. Its attacks are accompanied by a certain amount of magic power. This magic power will reduce your attributes to a certain extent. Please be careful when dealing with it.)

Lin Tianhao narrowed his eyes slightly. Why did this demonized bone spider feel a bit like those monsters in Mo Yuan?

They are all demonized creatures.

and.

It also seems to have some erosion capabilities.

For example, Venerable Dragon and Tiger was corroded by a drop of black liquid at that time. In order to retain his strength, he had to refine himself into a living dead.

Is this parallel world related to Mo Yuan?

Just as Lin Tianhao was thinking this, the body of the demonized bone spider in front of him exploded instantly.

Got killed instantly!

Even Lin Tianhao didn't see who did it.

Hei Tianao really glanced at Zhao Wudi, and it was obvious that Hei Tianao really discovered something.

"It looks like there are still monsters up here, but I don't know if there are any more demon lords out there."

"How powerful is the Demon Lord?" Lin Tianhao asked.

"An existence above the Demon Emperor is no longer powerful enough to be described. It is an existence that can destroy an entire country by itself."

Lin Tianhao was secretly shocked. Above the emperor level?

"coming!"

Hei Tian Aozhen seemed to sense something and a faint smile appeared on his face.

The next moment.

Countless demonized bone spiders began to swarm in from all directions frantically.

If an ordinary person saw these densely packed demonized bone spiders, he would suffer from trypophobia.

"You don't have to do anything, these are just small scenes."

Zhao Wudi continued to move forward with Lin Tianhao and Hei Tianaozhen.

Before those demonized bone spiders could get close, their bodies exploded one after another.

"field?"

The previous demonized bone spider was killed instantly, and Lin Tianhao didn't notice anything unusual.

However, after seeing so many demonized bone spiders being killed, Lin Tianhao still vaguely discovered a problem.

The bodies of these demonized bone spiders exploded after they set foot in a certain area.

Is this... Zhao Wudi's method?

This Zhao Wudi was even more special than he expected. Was it because of the parallel world? He couldn't even see how Zhao Wudi killed these demonized bone spiders.

He could only see that these demonized bone spiders exploded directly after they stepped into a certain range.

therefore.

Lin Tianhao guessed that this might be Zhao Wudi's territory.

But for some unknown reason, he was unable to discover Zhao Wudi's territory.

At this moment.

A huge pool of viscous liquid fell from the sky, covering Lin Tianhao and the other two.

Zhao Wudi moved and rushed forward at high speed with Lin Tianhao.

He stirred the spear in his hand, then slammed it down fiercely.

at the same time.

In the sky, a huge spear fell from the sky and flew towards the distance.

There.

It seems to be the nest of the demonic bone spider.

The moment Zhao Wudi made his move, bone spurs emerged from the ground, trying to pierce Zhao Wudi's body.

Zhao Wudi slammed the spear in his hand into the ground with great force. The bone spurs attacked Zhao Wudi frantically, but could not cause any harm to him.

"This Zhao Wudi's skill level is really high."

When Hei Tian Aozhen saw this, he also vaguely discovered something unusual.

"Boom——"

The shadow of the spear that Zhao Wudi had brought before had already fallen, crashing down onto the ground, creating a deep pit in the ground.

Bone spurs disappeared.

Zhao Wudi jumped up with a spear in his hand and slammed it on the ground.

Starting from the direction of the gun tip, the ground continued to explode and blasted towards the nest of the demonic bone spider.

Followed by.

Zhao Wudi's body disappeared in an instant, and when he appeared again, he had already arrived in front of the demonic bone spider's nest.

As the bodies of countless demonized bone spiders exploded, Lin Tianhao saw a human-shaped demonized bone spider being picked up and flew into the air.

Demonized Bone Spider Commander (Star Glory): Level 8216.

.....

The level of this demonized bone spider leader was higher than Lin Tianhao expected, but after being picked up and flew away, it exploded on the spot in the air.

The next step is to pick up equipment. After killing so many demonized bone spiders, there are still a lot of equipment dropped.

What surprised Lin Tianhao was that Zhao Wudi stood in front of him with a spear in his hand, and these fallen objects began to fly towards Zhao Wudi.

One-click pickup?

After Zhao Wudi finished picking up the items, his expression became extremely serious and he said:

"Our Blue Planet is already devastated, I didn't expect these monsters to still be here."

"I would like to ask for your help in clearing out the monsters on Canglang Star."

Lin Tianhao raised his eyebrows. Before, they were just exploring, but now they had to clear out the monsters. He didn't know what bargaining chips Zhao Wudi could offer?

"This is a very crucial thing for my master's rise. Although none of you are beastmasters, I can now offer you an equivalent reward, and that is this thing."

While talking.

A small jade bottle appeared in Zhao Wudi's hand. "I want to use this beast god bottle to ask you to help me clear out monsters for a month. How many can you clear out?"

Chapter 1387 Beast God Bottle!

A month?

Lin Tianhao frowned slightly.

In fact, if Zhao Wudi didn't show up, he would have explored this place by himself and cleared out these monsters.

But a month is too long.

Lin Tianhao has too many things to do. He still feels it is not worth it to stay here for a month just for a piece of equipment.

"Let me see the effect of this thing." Lin Tianhao said.

Zhao Wudi directly showed Lin Tianhao the effect of the Beast God Bottle.

Beast God Aquarius: Unknown.

Usage requirements: None.

Effect: When you kill a monster, the Beast God Bottle can absorb some of their power and condense a wisp of evolutionary liquid. If used on beasts at the god level or below, it can upgrade their grade by one level.

Wear resistance: Indestructible.

Lin Tianhao's eyes lit up, this is a good thing.

But Zhao Wudi's next words made Lin Tianhao and Hei Tianaozhen breathe faster.

"Also, I need to tell you that humans...are also beasts!!"

Humans...are also beasts!!

This means something completely different!!

what does this mean?

If he used it on Hei Tian Ao Zhen, he would be able to directly make Hei Tian Ao Zhen step into the Great Emperor rank! !

Oh shit.

Not to mention one month, even if we kill here for three months or half a year, we must get the Beast God Vase.

The upper limit of this thing is god level! !

If it is used on the Lord of Luotian, the Lord of Luotian can also take a step forward and upgrade from the Great Emperor rank to the Divine rank! !

Just by thinking about it, Lin Tianhao already understood how terrifying this thing was.

Mass produce top-notch powerhouses.

"it is good!!"

Lin Tianhao didn't need to think any more. If he hesitated for even a second, it would be disrespectful to the Beast God Vase! !

"kill!!"

The rewards are in place, even the gods will be crushed!!

Zhao Wudi couldn't help but smile when he saw Lin Tianhao's high morale.

The reward had just been negotiated when a hoarse voice was heard.

"Zhao Wudi!!"

As the sound fell, black clouds rolled in front, and a birdman with two pairs of wings on his back floated in the void.

"Your immortality is truly amazing. Even after you were beaten like that, you were still able to revive."

Seeing this birdman, Zhao Wudi's face darkened, "You are not dead yet, how can I die?"

Lin Tianhao raised his eyes and looked over. The moment he saw this guy, he couldn't help but be slightly startled.

Purple-winged Dark Thunder Bird (Emperor Level): Level 13591.

.....

Very strong! !

Very strong! !

Lin Tianhao took action the moment he saw him.

Arrows poured out.

Heavenly punishment locks the head.

The purple-winged dark thunder bird sensed Lin Tianhao's attack and couldn't help but snorted coldly. He spread out his domain and waved his hand. Countless demonic energy began to corrode Lin Tianhao's feather arrows.

however.

Lin Tianhao was carrying a feather arrow with a Heavenly Punishment Lock on it, so how could it be corroded by these evil spirits?

Hei Tianaozhen did not take action because he knew that as long as he stayed by Lin Tianhao's side and protected Lin Tianhao, Lin Tianhao would be able to deal with all the enemies around him.

The power of this purple-winged dark thunder demon bird was so extraordinary that it could actually stop dozens of Lin Tianhao's feather arrows from moving forward.

But that's all!!

Lin Tianhao's feather arrows continued to fly out. Zhao Wudi originally planned to take action, but it seemed that he discovered the specialness of Lin Tianhao's feather arrows. He gave up the idea of taking action and just watched Lin Tianhao attack quietly.

"Damn it, how come your energy arrows are so terrifying!!"

The Purple Winged Dark Thunder Bird cursed, "You are still watching the show. What are you going to do when I am defeated?"

With the appearance of the Purple-Winged Dark Thunder Bird, more and more monsters appeared.

Among these monsters, the weakest ones are of the Star Glory level, while the most powerful ones are like the Purple-Winged Dark Thunder Demon Bird, having reached the terrifying Emperor level.

Lin Tianhao unfolded his three heads and six arms, and with the arrows shot from his heart, he was instantly at full firepower.

Lin Tianhao did not intend to hold back at this time, and all free attribute points were converted into Heavenly Punishment Attack Speed.

In an instant, Lin Tianhao's Heavenly Punishment attack speed broke through the 60 mark! !

With the blessing of three heads and six arms and arrows shot from the heart, that means two hundred and forty arrows per second! !

The lethality contained in each arrow is extremely terrifying.

Lin Tianhao suppressed three emperor-level monsters at the same time with his own strength! !

Although these emperor-level monsters can block Lin Tianhao's feather arrows.

but.

They could block it, but they couldn't clear Lin Tianhao's feather arrows.

especially.

After Lin Tianhao continued to fire feather arrows, each of them needed to block hundreds of energy feather arrows containing the Heavenly Punishment Lock at the same time, which was quite difficult for them.

"It seems that I made a wrong bet. You are so powerful that it is beyond imagination!!!"

A look of surprise appeared on Zhao Wudi's face.

The reason why he offered such a high reward was because he saw the rank of Hei Tian Ao Zhen Half-Emperor.

Another reason is that Zhao Wudi discovered that people like Hei Tian Aozhen actually followed Lin Tianhao's lead.

Does this prove that Lin Tianhao is extremely powerful? !

After all, his master is.

It doesn't look that great, and it seems that the only powerful ones are beast tamers.

But in fact, his master's strength is so powerful that it is beyond the imagination of ordinary people.

He can suppress three emperor-level masters by himself, and at the same time he can deal with those king-level and grandmaster-level monsters.

The king level can also withstand Lin Tianhao's feather arrows, but it is obviously much more difficult.

As for the master-level monsters, they are just here to deliver food.

The remaining Star-level monsters were catapulted by the lightning and were either dead or seriously injured, let alone facing Lin Tianhao's feather arrows.

"How can you be so strong?!"

These monsters all looked very ugly. They were very unhappy with the feeling of being completely suppressed by a man who looked unattractive.

But unfortunately, they couldn't do anything to Lin Tianhao.

After all, Hei Tian Ao Zhen and Zhao Wu Di were protecting Lin Tian Hao, so they couldn't hurt Lin Tian Hao at all.

and.

After their heads were locked by Lin Tianhao's feather arrows, they were completely unable to get rid of Lin Tianhao's feather arrows.

"withdraw!!"

The Purple-Winged Dark Thunder Demon Bird knew that their chances of winning today were slim. If they did not retreat now, they would be dragged down by Lin Tianhao sooner or later.

"Humph, they've come to our doorstep, there's no reason to retreat."

A cold snort came.

As the voice fell, Lin Tianhao saw two streams of light rushing towards him at a high speed.

Hei Tianaozhen's expression changed slightly, and he summoned the ancient black tower to block Lin Tianhao.

"Two half-emperors, there are indeed quite a few experts among you monsters!!"

Zhao Wudi snorted coldly and rushed forward with a spear in his hand.

"There are many experts among us monsters. We are enough to deal with you guys!" One of the half-emperor monsters snorted coldly.

"Arrogant!!"

Zhao Wudi let out a low roar and pointed the spear in his hand. Countless shadows appeared on the spear, shaking the space.

Chapter 1388 The Demon Emperor's Life Scroll!

The expression of the Semi-Emperor who had not yet approached suddenly changed. He groaned and was unexpectedly picked up and flew out by Zhao Wudi through the air.

"As expected of Zhao Wudi, he really has some skills."

As soon as the half-emperor finished speaking, hundreds of energy arrows had already locked onto him.

With Heitian Aozhen and Zhao Wudi protecting him, Lin Tianhao was naturally invincible.

Feeling the terrifying power contained in Lin Tianhao's feather arrow, the half-emperor demon's expression changed slightly.

"These feather arrows actually contain such terrifying power of rules, it's really incredible!!"

Lin Tianhao didn't say a word from beginning to end. Talking during a battle is a very brainless behavior.

Now that the battle has begun, what you should be thinking about is how to defeat the opponent in the most efficient way.

In a life-and-death battle, what you should think about is how to kill the opponent in the most efficient way.

With Lin Tianhao's feather arrows containing the Heavenly Punishment Lock locking onto the two semi-emperor monsters, the situation was instantly reversed.

"My Lords, please retreat first. We are really about to collapse."

The Purple-Winged Dark Thunder Demon Bird had a gloomy expression. He was shocked and angry, thinking that if he had run away just now, he would have probably escaped.

But now, he was dragged down by these two half-emperor monsters.

"withdraw!!"

These two semi-emperor monsters obviously did not expect that the power of rules contained in Lin Tianhao's feather arrow would be so powerful that it could force them to this point! !

But when they wanted to evacuate, it was too late.

These arrows will continue to track them.

and.

These two semi-emperor monsters can retreat, but what about the others?

Especially those king-level monsters, who were killed without any ability to resist.

"Chase!!"

Zhao Wudi flapped his wings and chased after him with Lin Tianhao and Hei Tianao.

Zhao Wudi's speed was very fast, not slower than the two semi-emperor monsters at all.

Lin Tianhao chased them and continued to fire arrows.

The two half-emperor monsters were very angry at this time.

There is no other reason.

They had many tricks up their sleeves, but after being suppressed by Lin Tianhao's feather arrows, they were completely unable to use them.

It's not that they haven't tried to withstand Lin Tianhao's feather arrows, but the damage of hundreds of billions of dollars from that arrow made them behave themselves after just one hit.

They couldn't withstand an attack of this magnitude at all.

therefore

They had no choice but to use all means to resist Lin Tianhao's attack.

Seeing Lin Tianhao's continuous output, it was extremely difficult for them to get rid of Lin Tianhao.

Because the feather arrow was tracking them all the time, Lin Tianhao, Zhao Wudi and Hei Tian Aozhen only needed to follow the feather arrow to catch up with these guys.

"Run separately!!"

These two powerful semi-emperor warriors knew that Lin Tianhao was alone, so they ran separately, which made it difficult for Lin Tianhao to chase them separately.

In fact, this is indeed the case.

They ran separately, and Lin Tianhao concentrated his firepower to deal with the Purple-Winged Dark Thunder Demon Bird first.

The Purple-Winged Dark Thunder Bird was the first emperor-level monster to appear, and it had the most feather arrows around it.

therefore.

Lin Tianhao deliberately targeted him and he couldn't bear it anymore.

After dealing with the Purple-Winged Dark Thunder Demon Bird, Lin Tianhao and his three companions chased after one of the half-emperor monsters.

This half-emperor monster was also very cunning. Along the way, he tried to divert trouble. Many low-level monsters appeared to block Lin Tianhao and the other two.

But Zhao Wudi's domain was too powerful that even Lin Tianhao could not perceive it.

As soon as those low-level monsters approached, their bodies would explode instantly.

To be precise.

It's not about getting close, but once you reach a certain range, you will be killed.

"Zhao Wudi, you three dare to go deep into our Canglang Star. Aren't you afraid that you may get in alive but not get out alive?!"

The half-emperor monster roared, somewhat annoyed and angry! !

He was a powerful man at the level of Half Emperor. When had he ever been crushed like this?

Even when he was beaten, he had never felt so aggrieved as facing Lin Tianhao.

"You're going too far, you little brat!"

This half-emperor monster knew that it could not escape today, so Hei Tian Ao Zhen, Zhao Wu Di and Lin Tian Hao gave chase to it.

Coupled with these feather arrows locking his head, there was no chance for him to escape.

Knowing that he couldn't escape, the half-emperor monster's eyes flashed with ferocity, and a fierce murderous intent burst out from his body.

"Whirlpool Magic Wheel!"

The half-emperor monster growled at Lin Tianhao, and a vortex of demonic energy crushed towards Lin Tianhao and the other two.

This vortex of demonic energy covered the sky and blocked Lin Tianhao's vision.

Zhao Wudi snorted coldly, "What a petty trick!"

When the words fell.

Zhao Wudi swung the spear in his hand and chopped it down. The powerful force tore a hole in the vortex of demonic energy.

just.

As soon as he tore a hole, Zhao Wudi's face changed drastically.

"not good!!"

Lin Tianhao flashed in front of Zhao Wudi and said, "I'm here!!"

The reason for saying this is because this half-emperor monster has begun to self-destruct.

He had no intention of causing any harm to Lin Tianhao and the others with this vortex of demonic energy.

The main purpose is to block the sight of Lin Tianhao and others, then plan for self-destruction, and then choose to self-destruct at the most extreme moment.

"Boy, you're so brave!!"

Seeing that Lin Tianhao did not retreat but advanced, the half-emperor monster let out a low roar, his body blurred for a moment, and the next moment, he appeared in front of Lin Tianhao.

"Boom——"

This half-emperor monster self-destructed without any hesitation.

The terrifying explosion wave swept towards Lin Tianhao, but Lin Tianhao's body did not move at all.

Because... Absolute Block!!

The effect of Lin Tianhao's absolute block is still strong enough. Even the self-detonation of the half-emperor monster cannot break the absolute block.

Zhao Wudi, who was standing behind Lin Tianhao, couldn't help but show a look of surprise on his face.

"So strong!!"

The self-destruction of a semi-emperor monster can only be avoided even by a strong man at the level of a great emperor.

But Lin Tianhao actually blocked it head-on.

Hei Tian Ao Zhen was very calm, "My master's strength is still very strong."

Lin Tianhao blocked the self-destruction of this half-emperor monster, and the next step was to search the corpse.

Next.

It's just touching the corpse.

"Ding, you obtained the Demon Emperor's Life Scroll +1."

"Ding, you obtained the Ten Thousand Demons Pestle +1."

"Ding, you got skill book +3."

"Ding, you got +2000 free attribute points."

"Ding, you got gold coins +100 million."

"Ding, you got it..."

.....

The reward for killing a semi-emperor monster is quite generous.

Especially the Demon Emperor's Life Scroll, judging from the name, it should be some kind of shameful prop.

The Demon Emperor's Life Scroll: Special.

Requirements for use: Magic creature.

Effect: You can share the Blood-Burning Demon Emperor's one trillion health points.

Wear resistance: Indestructible.

Lin Tianhao's mouth twitched slightly. The effect of this Demon Emperor's Life Scroll was quite good, but the restrictions on its use were still a bit lame.

Only demon creatures can use it? That wouldn't be of much help to Lin Tianhao.

Chapter 1389 A half-step divine item appears!

and!

The Demon Emperor's Life Scroll was made by the Blood-Burning Demon Emperor. If the Demon Emperor's Life Scroll fell into the hands of other people, the Blood-Burning Demon Emperor should be able to unilaterally cancel the scroll.

as predicted.

The scroll of life in Lin Tianhao's hand instantly burned.

The black smoke from the burning condensed into a tall middle-aged man in a black robe.

His eyes widened with anger, and he roared at Lin Tianhao:

"You ant of the human race, if you dare to kill my brother, I will tear you into pieces."

Lin Tianhao chuckled, raised his middle finger and greeted the shadow of the Blood-Burning Demon Emperor cordially.

"Okay, great!!"

The shadow of the Blood-burning Demon Emperor saw Lin Tianhao's cordial greeting and laughed in anger, scolding:

"I hope that when I come in person, you can still be as arrogant as you are now!!"

Zhao Wudi pointed the spear in his hand and defeated the phantom of the Blood-Burning Demon Emperor.

After defeating the Blood-burning Demon Emperor's phantom, Zhao Wudi frowned and said:

"This Blood Burning Demon Emperor is extremely powerful. Among the Demon Emperors of Canglang Star, he is considered to be quite powerful."

"My master attacked him and sucked him dry, and then he was killed."

"Later, he revived. I fought him before. In a one-on-one fight, we were 30-70. I won 70-30. But after so much time, I don't know what state he has reached."

Lin Tianhao frowned slightly, and before he could say anything, Zhao Wudi's gaze fell on Hei Tian Ao Zhen.

"You are now a strong man at the level of a half emperor. If you take one more step, you will reach the level of a great emperor."

"Then use the liquid in the Beast God's Treasure Bottle, and you will be able to enter the Divine Item for the first time."

"But with just the three of us, we might be able to handle a monster at the level of a Great Emperor."

"But if we face three or five strong men at the level of Great Emperor, it will be very difficult for us to retreat unscathed."

Zhao Wudi's words were very clear. He hoped that Hei Tianao could use the liquid in the Beast God Treasure Bottle right now, so that Hei Tianao could break through from the Half-Step Emperor Level to the Half-Step Divine Level! !

Then the strength will definitely be greatly improved.

Hei Tian Ao really wanted to say something but stopped himself. If it was any other time, let alone helping him to reach the half-step divine level, even if it was just to help him become a new emperor, he would have agreed without hesitation.

But now that he knew the effect of the Beast God Bottle, if Hei Tianao really used the Beast God Bottle at this critical juncture, it would be extremely difficult for him to upgrade from a half-step divine level to a divine level in the future.

"You shouldn't ask yourself, you should ask my family." Hei Tian Ao Zhen said.

Lin Tianhao was also thinking about this problem. His Heavenly Punishment Headlock was not so effective when facing a strong man at the level of the Great Emperor.

Heitian Aozhen and Zhao Wudi can still resist the monster at the half-step emperor level, but what about the monster at the emperor level?

After a brief thought, Lin Tianhao asked:

"Are there any divine items on this Canglang Star?"

"I don't know, but there used to be divine items on Canglang Star."

Hear this.

Lin Tianhao couldn't help but frown and speak.

"According to what you said, even if Hei Tian Aozhen takes another step forward and reaches the half-step god level, he still won't be able to sweep across Canglang Star!"

Zhao Wudi nodded and said very seriously: "But if Hei Tianao really goes one step further, we can kill the emperor!"

"The rules of your feather arrows are at a very high level, but if you are facing a monster at the level of the Great Emperor, the effect of your feather arrows will be much weaker."

"At least."

"Before your arrows kill those monsters in the Great Emperor Realm, we will not be able to hold on."

Lin Tianhao pondered for a moment. Under the current circumstances, it seemed to be true.

"In that case, let's upgrade first!!"

Lin Tianhao created the god Zhuozhuo. The reason why he said this was because he had a certain degree of confidence in himself.

If he can get through it and complete this task successfully, he will definitely be able to help Hei Tian Ao Zhen go one step further and achieve the realm of god-level quality in the future.

This is Lin Tianhao's absolute confidence in himself. He has a relatively clear understanding of his own strength.

Anyone who underestimates any powerful person at the level of the Great Emperor will surely pay a heavy price for their actions.

Hei Tianaozhen did not complain at all after hearing Lin Tianhao's decision.

"Since my master has decided, then upgrade it!!"

"I just don't know how long it will take me to upgrade, and whether it will affect the upcoming battle."

Zhao Wudi smiled slightly and said very confidently:

"You don't need to worry about this. The evolutionary liquid condensed in the Beast God Bottle is very special. After the upgrade is completed, the body will not undergo any changes."

"But the strength is actually improved, and the upgrade process usually takes no more than three minutes."

Hear this.

Lin Tianhao and Hei Tianao were both very surprised.

There is no other reason.

Upgrading to a higher grade is extremely difficult. Upgrading to a lower grade may be okay, but after reaching the king level, upgrading to a higher grade becomes extremely difficult.

and.

At the end of the day, the impact of each upgrade is huge.

"Boom-"

Just when Zhao Wudi was about to help Hei Tian Ao Zhen upgrade his rank, the sound of war drums was heard.

Lin Tianhao felt that his heartbeat slowed down by half a beat, and his head seemed to be filled with lead, causing unbearable pain.

"not good!!"

The spear in Zhao Wudi's hand suddenly pierced into the ground in front of him. His whole body instantly turned into red-gold, and dense "ding ding" sounds came from his body.

It was as if countless iron hammers were hitting Zhao Wudi's body.

"Beast God Vase, Zhao Wudi, you have hidden something for so long, and finally you took it out."

"The Crazy Emperor is really a lunatic. He actually left such a treasure to you!!"

Hearing this voice, Zhao Wudi's expression changed drastically and a look of horror appeared on his face.

"How can it be?!!"

"Hasn't my master already burned all your blood and energy? How is it possible..."

There was a hint of joking in his voice as he said:

"Zhao Wudi, a reptile like you can be immortal, so why do you think that you can kill me by burning all my blood and essence?!"

"But it's really thanks to your crazy master that I have only recovered to the half-step divine level now."

"But even so, it's more than enough to kill you!!"

"Half....."

"Half-step Divine Product!!!"

Hei Tian Aozhen's face changed drastically. The later the grade, the more difficult it is to upgrade.

Half-step divine product!!

He is a whole grade higher than him. If they really fight, they will not have the slightest chance of winning.

especially.

The sound of the drum just now seemed to have caused Lin Tianhao to lose consciousness briefly.

At this moment.

Lin Tianhao felt as if his head was about to explode and the pain was unbearable.

He could still vaguely hear some of Xi Zhou's conversations. Just by catching these conversations, Lin Tianhao was able to realize how bad the situation was at the moment! !

Chapter 1390 Use time stop again!

Half-step divine product!!!

The most important thing is that this half-step god-level person was most likely once a true god-level strongman!!!

Those who have reached the divine level, even if they are now at the half-step divine level, are definitely stronger in combat power than ordinary half-step divine level strongmen.

Lin Tianhao is already prepared. If he is defeated, he will use the return strategy to leave.

at the same time.

Lin Tianhao also sent a message to Hei Tian Ao Zhen, asking him to prepare to put Zhao Wudi into the ancient black tower, and then he would include Hei Tian Ao Zhen in the List of Conferred Gods.

This way he can take Zhao Wudi away with him later.

He had just come into contact with Zhao Wudi and didn't know much about him, but he had seen the effects of the Beast God Bottle.

As for the effect of the Beast God Bottle, it is something that can be said to be invincible.

The Beast God Vase is the most practical equipment for Lin Tianhao, except for the List of Gods.

Even the carving knife of the God of the Source of Tao, this super weapon that carved out three thousand gods and demons, is not as practical as the List of Gods and the Beast God Vase.

of course.

It is also possible that Lin Tianhao has not developed the carving knife of the God of the Source of Tao enough.

Just as Lin Tianhao was thinking about this, a chill flowed through his chest.

The cold air first rushed to the top of his head, and Lin Tianhao only felt a cool feeling in his head, and his body began to recover quickly.

"what--"

The unknown strong man who was half a step away from being a god was a little surprised.

"You are at this level, but you can actually block the sound of my Soul-Scattering Drum."

As soon as the voice of this unknown strong man who was half a step away from being a god fell, a mysterious force vibrated in all directions towards the west.

"Boom--"

"Boom--"

The drum beats continued to vibrate, but Lin Tianhao was not affected at all. The cool air in his head always kept Lin Tianhao awake.

"Interesting, really interesting. What is there in your body that can actually help someone of your level to fight against me? It's really incredible."

Lin Tianhao looked in the direction of the voice and saw that the person speaking was an indescribable monster.

This guy's entire body is liquid and colorful, just like a monster condensed from liquid in a big dye vat.

"There are still many interesting things about me!!"

Lin Tianhao chuckled, but the arrow had already flown out of his hand.

A large number of feather arrows flew forward and locked onto this colorful unknown strong man.

"Interesting, really interesting, the power of rules above the god level, you little guy, you are so interesting."

As the colorful voice of the unknown strong man fell, Lin Tianhao instantly felt a chill in his body and his consciousness began to sink.

But it only took a moment for Lin Tianhao's consciousness to recover.

The unknown coldness in Lin Tianhao's body is too special. Lin Tianhao cannot sense it or control it, but it can always help Lin Tianhao at the most critical moment.

But this time.

Lin Tianhao had just recovered when a mysterious attack had already landed on him.

-921 million! ! !

When this damage number appeared, Zhao Wudi and the colorful unknown strong men were stunned.

There is no other reason.

Everyone present knew the damage that a Half-Step Divine Level expert could do.

The attack just now by this half-step god-level warrior was not intended to test Lin Tianhao, but to kill Lin Tianhao.

But the result was... Lin Tianhao's health points were less than 100 billion!!

Lin Tianhao continued to attack, and his feather arrows of Heavenly Punishment Locking Head were still able to lock onto this powerful half-step divine master.

and.

At present, this strong man who is half a step away from being a god has not shown the fighting power to break his feather arrows.

"You can withstand my attack, but what about them?"

The words fell.

This powerful half-step god-level warrior fixed his eyes on Hei Tian Ao Zhen.

As soon as his eyes were locked on Heitian Aozhen, Lin Tianhao summoned an undead spirit with a wave of his hand.

This was the undead spirit of the half-emperor monster he had just killed.

What Lin Tianhao can do now is to delay this half-step divine master as much as possible, create opportunities for himself, and release as many feather arrows as possible.

This half-step god-level warrior can imprison his body but cannot imprison his mind. He can use arrows shot from his heart to continuously lock onto this half-step god-level master.

"Boom——"

However! !

Next, Lin Tianhao also witnessed how terrifying this strong man at the half-step divine level was.

Just one blow.

The monster at the half-step emperor level that he summoned was killed by him.

This powerful man who was at the half-step divine level seemed to have seen what Lin Tianhao wanted to do, and he attacked Hei Tianaozhen without hesitation.

Hei Tian Ao Zhen's expression changed drastically. In front of this half-step god-level expert, he already felt the danger of death! !

Absolutely slow!!!

Lin Tianhao took action immediately. His absolute slowing effect was absolutely effective. Even this half-step god-level strong man would not be immune to it.

Feeling his speed drop suddenly, this strong man at the half-step to divine level was even more surprised.

"Kid, who the hell are you?!"

He really couldn't imagine who Lin Tianhao was and how he could be so powerful.

To be precise.

Lin Tianhao is not exactly strong.

Because his realm is not high, the skills that Lin Tianhao possesses are simply too powerful.

"Absolutely weak!!"

Lin Tianhao attacked again, trying to limit the enemy as much as possible. When he couldn't, he would have to fight with all his might.

Lin Tianhao still has time to pause.

But unless it was absolutely necessary, Lin Tianhao really didn't want to use time pause.

After all, he didn't know how much it would cost him to use time suspension to imprison a strong man who was half a step away from becoming a god.

But it seems that he has no better choice.

and.

If he could kill this strong man who was at the half-step divine level, then there would be a lot less trouble in the future.

There is no need to let Hei Tian Ao Zhen down for upgrading his rank early.

It is not impossible to send this powerful warrior, who is at the half-step divine level, to the List of Gods and sacrifice some of his health points.

Think about this.

Lin Tianhao no longer hesitated. He didn't have to wait until the people around him were killed before he could use his ultimate move.

Reasonable use of skills can maximize the benefits! !

Time is paused!!!

Lin Tianhao was the first to attack, and in an instant, the body of the strong man who was at the half-step divine level who was about to attack suddenly froze.

Lin Tianhao attacked without hesitation, with three heads and six arms and arrows shot from his heart, in one second! !

Lin Tianhao only has this one second!!

In addition, Lin Tianhao had previously locked onto the feather arrows around this powerful man who was at the Half-Step God-Level.

In a flash.

All the arrows poured towards this powerful man who was at the half-step divine level.

-982 million! !

-995 million! !

.....

One after another, scarlet damage numbers popped up above the head of this powerful warrior who was at the half-step divine level.
