

O games 1401

Chapter 1401: Too much bullying!

Because no one knew when, eight monsters appeared around him.

Even though it was just a quick glance, he could still tell that those eight monsters were all at the level of the Great Emperor! !

It seems that their previous speculation was true. These monsters were planning and waiting for an opportunity to attack them.

At this moment, Lin Tianhao was looking at the woman in front of him with fascination.

The woman walked up to Lin Tianhao and raised her hand to lift his chin.

"Young Master, we monsters are also made of flesh and blood, and we are living beings. How can you be so cruel and kill without any hesitation?!"

Lin Tianhao's eyes were dazed and he did not refute.

The hot woman continued:

"You killed so many of our monsters, and I threw myself into your arms like this. Don't you feel guilty?"

"Don't you deserve to pay with your life?"

As the hot woman finished her words, a very magnetic voice sounded beside Lin Tianhao.

"You should pay with your life!!"

"Shoot the arrow into your chest and end your sinful life."

"Your hands are already stained with blood. If you don't die, how can our dead people rest in peace?!"

Listening to the sounds around him, Lin Tianhao remained unmoved and just stared at the woman in front of him.

The hot woman smiled charmingly and said:

"Young Master, you really should die. After you die, I will be yours, and everything I have will belong to you!!"

After hearing the words of the hot woman, Lin Tianhao had a carving knife in his hand.

"Come on, stab yourself in the chest, and everything will be over. Then start your new life and be my master."

Lin Tianhao's heart beat faster and faster, especially when he heard the words "be my master", his breathing involuntarily quickened.

The carving knife was in Lin Tianhao's hand, and had been raised to the level of his chest.

It seemed like the next moment.

Lin Tianhao would use this carving knife to pierce his chest.

"Pfft-"

Lin Tianhao held the carving knife and stabbed it into the chest.

but.....

What Lin Tianhao stabbed was not his own chest, but... the chest of the hot woman in front of him.

The hot woman looked down at the carving knife that pierced her chest, her eyes widened and an expression of incredible horror on her face.

"you....."

"Why do you want to kill me!!"

"You are obviously the sinner, the unforgivable sinner!!"

As the hot woman's voice fell, her body began to disintegrate bit by bit.

After a while.

Her body had completely disintegrated, and in the distance, she reappeared.

But at this moment, she was wearing black armor and had a solemn look on her face.

"Why do you do this?"

"Wouldn't it be nice to die in a gentle place?"

Lin Tianhao glanced at the black-armored woman indifferently and said:

"Why do you want me to die? Can't it be you who dies?"

While talking.

Lin Tianhao has summoned Hei Tian Ao Zhen and Pluto Bai Xiao Feng.

"I hope you can survive, so that we can continue what we just did."

"Shameless!" the woman in black armor said angrily.

Lin Tianhao chuckled and said, "Didn't you take the initiative to throw yourself into my arms?"

"Why are you saying I'm shameless now?"

The words fell.

Lin Tianhao's feather arrow has been launched, flying towards the woman in black armor.

The woman in black armor had a long spear as black as ink in her hand.

She drew a circle in front of herself with the spear in her hand.

This circle actually turned into a black hole, pulling Lin Tianhao's feather arrow, trying to pull Lin Tianhao's feather arrow containing the Heavenly Punishment Lock into the black hole.

Lin Tianhao originally thought that this was unlikely, after all, the level of his Heavenly Punishment Lock was too high.

But next...

Lin Tianhao was shocked because all the arrows he shot out were actually swallowed by the black hole.

"It's a very high-level headlocking skill. It's really amazing. I don't have the confidence that I can block it, but I am confident that I can use a black hole to transport your feather arrows to another time and space."

The woman in black armor had a faint smile on her face.

"In this black hole, there is a very strong turbulence of time and space. Even if your feather arrow can withstand it, by the time your feather arrow returns from other time and space, you will already be a corpse."

Lin Tianhao frowned slightly. This strong man who was at the half-step divine level was still very powerful.

With just one move, he dissolved the feather arrow that locked his head with the Heavenly Punishment Lock.

"You two are both powerful warriors at the half-step divine level. There is no reason for you to help a human like this."

The black-armored woman smiled and said:

"As long as you two don't make any move, I will definitely give you a generous reward."

Hei Tian Ao Zhen chuckled and said:

"You may not know our relationship with adults, otherwise you would never have said that."

Pluto Bai Xiaofeng didn't say anything, but looking at his appearance, his attitude was obvious.

The black-armored woman sighed, "You are all so powerful and have such high status, why do you have to make things difficult for us?"

"Wouldn't it be nice to go back to your original world?"

"not good."

Lin Tianhao spoke calmly.

"I promised Zhao Wudi that I would slaughter you here for a month. If you don't come out, I will leave after a month, and I will even take Zhao Wudi with me."

That's it.

Lin Tianhao glanced meaningfully at the woman in black armor and said:

"This place doesn't have that much value to me."

Hear this.

The black-armored woman couldn't help but sneer, "Let you slaughter for a month?!"

"Based on the killing speed you and Zhao Wudi are at, the number of monsters here will be reduced by at least one third in a month!!"

Lin Tianhao spread his hands and said:

"That's one third less. Is that a lot?"

That's it.

Lin Tianhao chuckled again and shook his head.

"And you may have miscalculated. Even if Zhao Wudi and I don't eat, drink or sleep for a month, we can't kill more than one-third of them."

"On average, I can only kill a hundred monsters per second. At most, I can kill 20 to 30 billion of your monsters in a month."

"For the monsters on your Canglang Star, this is at most one-tenth of it."

Hearing Lin Tianhao's words, the black-armored woman and the eight surrounding monsters at the level of Great Emperor all opened their eyes wide with anger.

"Boy, listen to what you say, is it human language?"

"In one month, they want to slaughter two or three hundred million of our people, and they want us to keep our tails between our legs. Do you think... is it possible?!!"

Lin Tianhao glanced at the angry monster emperor and said with a smile:

"Haven't you tried your best?"

"Just because you delayed us for a little while, at least I killed fewer than 100,000 monsters."

"you--"

Another great demon emperor shouted angrily, "You are bullying the demon too much!!"

Chapter 1402 Another half-step divine person!

"In the past, we have always bullied you ant-like humans. When will it be your turn to bully us?!"

Lin Tianhao smiled slightly, "Look at you, you are already at the level of the Great Emperor, but you still like to brag."

"I heard from Zhao Wudi that your clan was nearly exterminated by his master, the Crazy Emperor."

"you!!!"

The great demon emperor was furious. "The Crazy Emperor is the Crazy Emperor. How dare you compete with the Crazy Emperor?!"

"He is just an ant who was born with a better birth and is only qualified to talk to us because of the protection of the guardian!!"

Lin Tianhao spread his hands and said with a smile:

"Hey, congratulations, you are right. Background is also a kind of strength."

What a bullshit about relying on yourself. Looking around the world, how many people can truly succeed by relying on themselves?

There are so many people whose families have become prosperous through the efforts of several generations or even more than ten generations.

"Among you monsters, how many of you who have achieved the status of Great Emperors didn't do so because you were born well?"

"Those of us humans who have suffered misfortunes and those who have humble origins all have a very small chance of rising up."

"But what about you?"

"If your fathers had not left behind enough blood for you to become emperors, how many of you would have been able to achieve what you have today?"

Lin Tianhao's words left the monsters at the emperor level present speechless.

Compared with the human race, the proportion of bloodlines of other races is indeed too large.

The son of a mouse will never be able to grow up to the level of a son of a dragon in his lifetime.

"Let's go!!"

"You are already the masters of this parallel world. There are still twelve days left, and I won't be able to kill many monsters."

"After I leave, you will still be the masters. It won't take too long for you to regain your current status."

That's it.

Lin Tianhao paused for a moment before continuing:

"But if you continue to fight with me, it will only do you a hundred harms and no benefit."

Lin Tianhao wanted the Beast God Bottle in Zhao Wudi's hand, and he knew it very well.

It is not an easy task for him to kill all the monsters on the Canglang Star.

Besides.

There is another very important point.

That is because there are too many monsters here, and he can quickly hunt these monsters and quickly accumulate health points.

Judging from Lin Tianhao's previous speed, he could accumulate hundreds of billions of health points in this month.

If we also take into account the fact that hard work can make up for one's shortcomings and other increases in health points.

Over the past month, Lin Tianhao's health points have conservatively increased by 600 billion!!

And if Lin Tianhao fights these high-level monsters, it will take up a lot of his time.

of course.

If he could deal with the black-armored woman in front of him and put her on the List of Gods, then this Canglang Star would become a paradise for Lin Tianhao to increase his health.

The woman in black armor stared at Lin Tianhao coldly and said:

"Put yourself in their shoes."

"If I came to your human territory and wanted to slaughter more than 20 billion of you, would you agree?"

Lin Tianhao shook his head and said, "No."

The black-armored woman snorted coldly, "You also know that we won't, so why do you think that we will let you continue to slaughter people like this?!"

"Are the lives of our people no longer lives?"

Lin Tianhao raised his hand and pointed at Blue Star, saying:

"But you destroyed Blue Star. I am avenging Blue Star and the human race."

Hear this.

The woman in black armor sneered and said:

"hehe!!"

"That's ridiculous!!"

"You want revenge. When the Crazy Emperor slaughtered our Canglang Star, how did you pay back the blood debt?"

Lin Tianhao raised his eyebrows and asked:

"Why are you from Canglangxing here? Why are you fighting with Bluestar to the death?"

The woman in black armor did not answer Lin Tianhao's question, so Lin Tianhao continued speaking.

"It doesn't matter whether you answer or not. The fight between you two, Canglang Star and Blue Star, has lasted until today, and it's no longer possible to tell who's right and who's wrong in a few words."

"We have long been fighting between races!!"

The woman in black armor nodded and said:

"That's right. If it was Zhao Wudi himself, even if the Crazy Emperor came back to slaughter us, we would have nothing to say."

"But what are you?!"

"We are from other worlds. What grudge do we have that you want to slaughter us like this?!"

Lin Tianhao smiled slightly and said:

"We have no grudges against each other, but I was entrusted by someone, so I must be loyal to the person who entrusted me with this task!!"

"Today I slaughtered the monsters from your Canglang Star. I accept this karma. If you want to retaliate in the future, I will take it all!"

Hear this.

The woman in black armor sneered.

"What a big mouth!!"

"I don't need to wait until later to take revenge on you. Do you really think that we can't do anything to you when you have two Half-Step Divine Level experts by your side?"

"This is Canglang Star, our territory!!"

The words fell.

The woman in black armor pointed the spear in her hand.

Heitian Aozhen made a move instantly and faced the woman in black armor.

"Bam—"

They had just started fighting when one of Lin Tianhao's arms exploded instantly.

Followed by.

Lin Tianhao's blood gushed out from his broken arm uncontrollably.

Pluto Bai Xiaofeng instantly spread out a domain, trying to stop Lin Tianhao's blood from flowing out of his body.

But just as Pluto Bai Xiaofeng made his move, a black hole appeared under his feet. This black hole brought with it a terrifying pulling force, trying to send him away.

Lin Tianhao thought to himself that this was not good. Here... there was not only the black-armored woman but also a half-step divine monster.

There is one more!!

This person can also control the blood in his body. This method is very strange and difficult to guard against.

Just now his arm exploded because of the blood control.

Pluto Bai Xiaofeng put his arm on Lin Tianhao's shoulder and flew into the sky with Lin Tianhao.

the other side.

Hei Tian Ao Zhen and the woman in black armor were fighting each other.

The woman in black armor did not intend to kill Hei Tian Ao Zhen. She was just constantly blocking Hei Tian Ao Zhen's attacks and at the same time looking for opportunities to attack Lin Tian Hao.

The second powerful monster who was at the half-step divine level had appeared at this time. He was shrouded in blood mist, making people look down on him.

"You are very strong. Although we haven't fought, I can still feel that you are stronger than me."

A hoarse voice came from the monster in the blood mist.

"But I don't want to defeat you, I just want to kill this human boy. You can't protect him."

below.

The eight monsters at the level of the Great Emperors have mobilized all the strength in their bodies, and iron chains are wrapping around Heitian Aozhen.

With the eight powerful demons at the level of Great Emperors joining forces, plus the black-armored woman at the level of Half-Step God, Hei Tian Ao Zhen was immediately at a disadvantage.

"Boy, we have no grudges against each other. You have killed enough of our people. Leave now. It will be good for everyone!!"

Chapter 1403 95% serious injuries!

Lin Tianhao took several big red pills in succession, and his complexion recovered a little.

But the arm that was blown off cannot be restored by a few big red medicines.

"kill him!!"

Lin Tianhao didn't waste any words. If the monster must be fought, then fight! !

These two powerful monsters at the half-step god level and the eight monsters at the great emperor level should be the strongest fighting force of Canglang Star now.

As long as he can resolve this wave of attacks, or send one of the powerful monsters at the half-step divine level to the list, he can walk freely on this Canglang Star from now on.

All the monsters in the entire Canglang Star must become nutrients for him to increase his health.

After receiving Lin Tianhao's order, Pluto Bai Xiaofeng attacked without hesitation and killed the powerful man who was at the half-step divine level.

"court death!!"

The monster shrouded in blood mist was a little annoyed. He felt that he had given Lin Tianhao a lot of face, but he didn't expect that Lin Tianhao would not give him any face at all.

Just now.

Lin Tianhao clearly felt that his heart had stopped beating.

The next moment.

His heartbeat seemed to be about to explode.

Is this the method used by a strong man who has reached the half-step divine level?

At this moment.

Lin Tianhao's pupils darkened, as if a completely opaque black cloth was blocking his eyes, preventing him from seeing any light.

Looks like!!

After eighteen days of observation, these monsters have discovered some of his methods, which are obviously aimed at his Heavenly Punishment Headlock.

However, Lin Tianhao has the Eye of Insight, so this method of blocking his vision has a similar effect on him.

and.

Lin Tianhao knew that his feather arrows of Heavenly Punishment Lock would not be a good choice against powerful monsters at the half-step divine level.

therefore.

He turned to attack the monsters in the realm of the Great Emperor.

Unfortunately, the results are similar.

His feather arrows still had little effect on these monsters at the level of the Great Emperor.

"not dead!!"

The monster in the blood mist looked at Lin Tianhao with some surprise as he continued to fire feather arrows.

Obviously.

He was somewhat surprised that Lin Tianhao was not dead.

According to his estimation, Lin Tianhao's heart should have been destroyed just like his arm.

His attack based on the laws of the great way directly destroyed the body. Even if it could not kill Lin Tianhao directly, it should have caused huge damage to Lin Tianhao.

Because an attack to the extent of destroying the heart can be considered a fatal attack.

But Lin Tianhao was immune to this attack.

As for the reason, it is of course the lethal defense of the Heavenly Punishment equipment.

This half-step divine monster is much more difficult to deal with than the previous half-step divine monster.

Directly controlling the blood in his body and destroying his body was an attack that Lin Tianhao had never encountered before.

Although Lin Tianhao's health bar is thick enough, he can still withstand such an attack.

Even though he broke an arm, Lin Tianhao's health points only dropped by a few hundred billion, and his life was not in danger.

But it takes a long time for a broken arm to regenerate.

Fortunately, the monster in the blood mist was delayed by Pluto Bai Xiaofeng, which gave Lin Tianhao some time to catch his breath.

But it was only enough to catch my breath.

Because this type of wound has a relatively strong bleeding effect and causes severe injuries, Lin Tianhao's blood recovery rate will be greatly reduced.

And precisely because of the special nature of the monster in the blood mist, Pluto Bai Xiaofeng was only able to restrain it during the fight with him.

This is because Pluto Bai Xiaofeng's own strength is slightly stronger than the monster in the blood mist.

If Hei Tianao really came, he would probably have been injured.

but.....

Now Hei Tianao is indeed injured.

Although he possesses the blood of the ancestral black dragon, he has only recently been promoted to the half-step divine realm. In terms of overall combat power, he is not as good as the black-armored woman.

The key is.

This black-armored woman is assisted by eight powerful emperors, which makes it even more difficult for Heitian Aozhen to deal with her.

What Lin Tianhao can do now is to try his best to restrain these monsters at the level of the Great Emperor.

But the realm of the emperor is still the realm of the emperor after all. Lin Tianhao's Heavenly Punishment Headlock will still be blocked by them, hovering in the air and unable to cause any substantial damage to them.

"I underestimated you."

At this moment.

Among the eight monsters at the level of the Great Emperor, one flew towards Lin Tianhao to kill him.

Lin Tianhao instantly unfolded the Sky-Splitting Field, but it was of no use.

His Sky-Splitting Domain only lasted for a moment before it shattered into pieces.

"Weak, you are too weak!!"

"Apart from this feather arrow that is sure to hit the target, the only thing you have is a thicker health bar."

The demon from the Great Emperor's realm chanted a spell in his mind that made anyone who heard it feel upset.

"We know you're hard to kill, so this time, we came prepared!!"

The words fell.

This demon at the level of the Great Emperor had an extra purple petal in his hand.

The petals turned into powder in the air and instantly flew to the wound on Lin Tianhao's broken arm.

Lin Tianhao was imprisoned at this time and could not move.

Although the arrows shot from the heart were continuously output, it was still of no avail.

"This is....."

Lin Tianhao's expression changed drastically! !

Because he found that he had an extra severe injury BUFF, which reduced his recovery by 95%!!!

Although it is not an outrageous 100%, the 95% serious injury effect is still extremely terrifying.

Lin Tianhao's Book of Life and Death can restore 5% of Lin Tianhao's maximum health in one second.

And now this 5% has shrunk by one twentieth!!

That's 5/2,000!!

Lin Tianhao's current health value is 2/5,000, which means that the Book of Life and Death can only restore more than 10 billion for Lin Tianhao in one second! !

His Heavenly Punishment Lock cannot directly attack the monster in the Great Emperor Realm, so the blood recovery effect of the Heavenly Punishment Hand cannot be triggered.

unless.....

Lin Tianhao's Sky Punishment Feather Arrow can hit the health value.

There are no other health points here, but it is not unsolvable!

Lin Tianhao also has an army of undead and mysterious equipment that can enslave the essence of souls.

In other words.

As long as Lin Tianhao summons the undead army, he can still gain the blood recovery effect of the Hand of Heavenly Punishment when attacking the undead army.

however.....

Lin Tianhao soon realized that he was worrying too much.

This monster from the Great Emperor realm seems to be a rookie! !

-51 million! !

-75 million! !

-39 million! !

.....

This amount of damage cannot possibly exceed 10 billion!!

There is no need for Lin Tianhao's Book of Life and Death to recover health.

Just the damage recovery of Jiuqiong's true body made Lin Tianhao invincible! !

"How can it be?!"

The monster in the realm of the Great Emperor was dumbfounded.

It would be fine if his attack damage was low, but after inflicting 95% of the serious injury on Lin Tianhao, Lin Tianhao was still able to recover blood so horribly. This was a bit too outrageous.

This is completely resisting his damage without any injury!!

Chapter 1404 Unable to resurrect?

"Master Hei Tao, what should I do if I can't kill him? My attacks are totally incapable of knocking down his health points!!"

The monster from the Great Emperor's realm asked for help from the woman in black armor.

The reason they took action this time was actually because they knew that Heitian Aozhen and Pluto Bai Xiaofeng, who were at the half-step divine level, would be difficult to kill.

This time their main purpose was to kill Lin Tianhao, but now a great emperor was unable to hurt Lin Tianhao at all.

In fact, it's not that the monsters in the Great Emperor's realm have low damage.

in contrast.

His damage is actually already very high.

The main reason is that Lin Tianhao's physical transformation has exceeded three hundred! !

Even if Lin Tianhao didn't use damage transfer now, the actual output of these billions of damage would exceed one trillion! !

Especially, occasionally the monsters at the level of the Great Emperor can inflict 700 to 800 million damages.

The actual output has exceeded 2 trillion!!

But even so, there was still no way to deal with Lin Tianhao.

even.....

Because Lin Tianhao did not continue to suffer too much damage, his broken arm had begun to regenerate.

The black-armored woman was slightly annoyed when she saw this scene. "This kid is simply a freak, Blood Controlling Demon Lord, I'm afraid you are the only one who can kill him now!!"

While speaking.

The black-armored woman and the monster in the blood mist instantly switched positions and switched opponents in an instant.

The woman in black armor began to fight against Pluto Bai Xiaofeng, while the monster in the blood mist began to suppress Heitian Aozhen.

Among these people in the field, the only one who can pose a threat to Lin Tianhao is the blood mist man who can control blood.

After switching opponents, the man in blood mist had the opportunity to free up his hands to deal with Lin Tianhao.

that's the truth.

The monster in the blood mist was able to free up its hands to attack Lin Tianhao while suppressing Lin Tianhao together with the monsters at the level of the eight great emperors.

Lin Tianhao's expression changed slightly, and he continued to use the arrows shot from his heart to attack, allowing more feather arrows to lock onto a monster at the level of the Great Emperor.

"Return to defense!!"

A large amount of blood spurted out of Lin Tianhao's mouth, and the blood in his body began to flow out rapidly.

At this rate, it was only a matter of time before he was killed.

Hei Tian Ao Zhen and Pluto Bai Xiao Feng immediately returned to defend. Both of them only protected Lin Tianhao and no longer took the initiative to attack.

Evil Sword Immortal Form!!

Lin Tianhao activated the Evil Sword Immortal form without hesitation.

Then he activated his three heads and six arms and summoned the Shura Sword.

While arrows were continuously shot from his heart, Lin Tianhao waved his sword, drawing thunder and fire from the sky and earth, sweeping towards the monster at the level of the Great Emperor.

From a certain perspective, the level of the heavenly thunder and earthly fire triggered by the Evil Sword Immortal form is even higher than Lin Tianhao's Heavenly Punishment Lock! !

in this way.

Even the monsters at the level of the Great Emperor would find it difficult to face Lin Tianhao's thunder and fire.

Pluto Bai Xiaofeng was fine, but Hei Tianaozhen was already covered in wounds.

"You only know how to defend? Then I'll send you away!!"

The black-armored woman held the spear in her hand and drew a circle around Lin Tianhao and the other two.

As the circle was drawn, a huge black hole appeared under the feet of Lin Tianhao and the other two, trying to suck them in.

Pluto Bai Xiaofeng took Lin Tianhao and flew into the sky, avoiding the black hole.

But just as the two of them flew up, black holes appeared around Lin Tianhao, and the huge pulling force seemed to be about to tear Lin Tianhao's body apart.

"You can't protect him."

The black-armored woman's gaze fell on Pluto Bai Xiaofeng.

"A strong person like you should have a brighter future. You shouldn't listen to a human like this."

Pluto Bai Xiaofeng did not answer. He clasped his hands together and purple cracks appeared, splitting the black holes of the black-armored woman in the middle.

At this moment.

Lin Tianhao spat out another mouthful of blood.

This kind of attack that controls the blood in his body is too difficult to defend against.

"Hold this black dragon while I kill this human boy!"

The monster in the blood mist flashed and came behind Lin Tianhao.

The woman in black armor no longer held back and attacked Pluto Bai Xiaofeng madly.

Obviously.

She didn't intend to give Pluto Bai Xiaofeng the opportunity to protect Lin Tianhao.

Lin Tianhao's body was imprisoned again, and he could only continue to shoot arrows from his heart.

-1452 million! !

-1455 million! !

.....

The monster in the blood mist controls the blood, causing great damage to Lin Tianhao's body.

"Bam—"

Lin Tianhao's right arm also exploded at this moment, with blood and flesh flying everywhere.

The intense pain made Lin Tianhao's forehead covered with cold sweat.

Today's battle is more difficult than Lin Tianhao imagined.

The blood in Lin Tianhao's body was quickly drawn out, and during this process, Lin Tianhao's health points were also dropping rapidly.

This was also due to the fact that Lin Tianhao's physical transformation was high enough, otherwise the power of the monster in the blood mist would be able to drain all the blood in Lin Tianhao's body in an instant and kill Lin Tianhao completely.

But even so.

Lin Tianhao could only hold on for a few more seconds.

"Boom——"

With a loud bang, Lin Tianhao's body exploded.

"Finally dead!!"

The monsters in the blood mist felt relieved.

Although Lin Tianhao is of low level and grade, he is really difficult to kill.

His lethality among his peers was considered very strong, but it took him five seconds to kill Lin Tianhao!
!

"what--"

After seeing Lin Tianhao being killed, the monster in the blood mist actually turned into an undead state.

“Don’t overestimate your capabilities!!”

The words fell.

Lin Tianhao's undead state was actually dispelled by a palm from the monster in the blood mist.

But even so.

There was no impact on Lin Tianhao either.

Because he can be resurrected on the spot!!

But at the moment when Lin Tianhao was about to be resurrected on the spot, a mysterious force actually prevented him from being resurrected.

This is.....

The power of rules!!

Lin Tianhao was shocked! !

The monster in the blood mist also possesses the power of rules. It should be that the living creature killed by him will not be able to be resurrected.

The monster in the blood mist sensed that Lin Tianhao was being resurrected, and couldn't help but reveal a playful smile on his face.

"Hahaha, you've hit a wall by being killed by me. The rule I have is that you can't be resurrected!!!"

"Any living being killed by my blood explosion technique cannot be resurrected!!"

Lin Tianhao's face looked a little gloomy.

Lin Tianhao himself was not quite sure how high his level of on-the-spot resurrection was.

But if he really cannot be resurrected, then he is really in trouble this time.

but.....

This is still the Galaxy World. Even if it is just a parallel world, it is still the Galaxy World.

That being the case.

At this stage, the resurrection mechanism does exist.

The resurrection mechanism is a super benefit given by the Source of Tao to the adventurers of Blue Star. Now Ragnarok has not yet merged with reality, so the resurrection mechanism still exists.

The monster in the blood mist might be very powerful, but compared with the God of the Source of Tao, the gap is not small.

The resurrection mechanism is blessed by the Source of Tao and should not be broken! !

Chapter 1405 Stalemate, forced to retreat!

After Lin Tianhao thought about this clearly, he was no longer so panicked.

He waited silently.

as predicted.

The countdown for his resurrection was still going on, but the frequency had slowed down a lot.

Originally it only took three seconds to revive, but now almost thirty seconds had passed before Lin Tianhao completed the resurrection! !

When the monster in the blood mist saw that Lin Tianhao had been resurrected, a look of horror appeared on his face.

But Lin Tianhao didn't give him any chance to think at all. He continued to use the technique of shooting arrows from his heart and shot as many times as possible.

"How can it be?!!"

The monster in the blood mist was extremely surprised, but seeing that Lin Tianhao was still attacking, he showed no mercy and attacked Lin Tianhao again.

Five seconds later, Lin Tianhao was killed again.

But Lin Tianhao shot out three hundred more feather arrows from his heart.

The demon at the level of the Great Emperor that was being locked by Lin Tianhao now had more than a thousand feather arrows of the Heavenly Punishment Lock surrounding him.

This puts a lot of pressure on him.

The woman in black armor used the black hole to help the monster at the level of the Great Emperor to dissolve Lin Tianhao's feather arrow of heavenly punishment.

But the black-armored woman's method was more about diverting Lin Tianhao's heavenly punishment feather arrow, not really resolving it.

Lin Tianhao was killed again, resurrected again, and then used the arrow from the heart again! !

Everything is normal except that the resurrection time takes thirty seconds.

As for Heitian Aozhen and Hades Bai Xiaofeng, they are both powerful warriors at the half-step divine level. Even if their opponents have eight more masters at the great emperor level, it is still difficult to threaten their lives.

Not to mention those who have reached the half-step divine realm, even these masters at the great emperor realm are extremely difficult to kill.

Just look at Lin Tianhao's attack and you will know.

The level of his Heavenly Punishment Headlock is actually very high, and even these powerful warriors who are at the half-step divine level do not have many means to reach this level.

But that's it.

It would still be extremely difficult for Lin Tianhao to use his Heavenly Punishment Lock to kill a demon at the level of the Great Emperor.

They just kept wasting time with Lin Tianhao like this.

Soon, Lin Tianhao had died more than ten times.

The biggest impact on Lin Tianhao was that his level dropped by ten levels, that's all! !

As long as Lin Tianhao is resurrected, he will continue to attack using arrows shot from his heart.

This seems to have become some kind of tacit understanding.

But every thirty-five seconds, Lin Tianhao would attack with three hundred more feather arrows containing the Heavenly Punishment Lock.

Even a master at the level of the Great Emperor would not be able to withstand being locked by thousands or even tens of thousands of feather arrows of Heavenly Punishment at the same time.

They could temporarily stop Lin Tianhao's Heavenly Punishment Arrow, but they could not destroy Lin Tianhao's Heavenly Punishment Arrow.

"Master Hei Tao, this is not a solution!!"

The demon at the level of the emperor, who had been locked up by Lin Tianhao, couldn't help but speak.

He could feel that his Lord Heitao no longer had any hope of killing Lin Tianhao.

The most important reason why we have to fight with Lin Tianhao and others like this is to delay time.

If they delay Lin Tianhao here a little longer, fewer monsters on their Canglang Star will be killed.

of course.

The reason why the monster at the level of the Great Emperor said this was because he actually knew that his Lord Heitao should have the means to destroy Lin Tianhao's feather arrow.

However, the consumption might be a bit too much, so Lord Heitao has not tried to destroy Lin Tianhao's feather arrows.

But if this is the case, the monster in the realm of the Great Emperor would feel that he is in great danger.

When the number of arrows targeting him exceeded three thousand, he already felt a sense of crisis.

If this continues, everyone else may live, but he may die!!

Do not! !

There is a high probability that he will die!!

The woman in black armor also understood what this demon at the level of the Great Emperor was thinking.

"We can retreat now, but if we retreat, how many monsters will be killed on our Canglang Star?"

"How many monsters on Canglang Star were saved by our efforts today!!"

When the monster at the level of the Great Emperor heard the black-armored woman's high-sounding words, he wanted to curse in his heart.

It's not you who is in emotional lock-up, so of course you don't care.

Just when the monster at the level of the Great Emperor was thinking this, the object of Lin Tianhao's head lock changed.

He chose to lock the monster in the blood mist.

Because Lin Tianhao also realized one thing, that among all the monsters present, the only one that could threaten his life should be the monster in the blood mist.

The attack of the woman in black armor could hardly threaten his life. This was the difference in their rules.

If he could use enough Sky Punishment Feather Arrows to suppress the monster in the blood mist, then he still had a chance of winning today's battle.

Three hundred feather arrows can be shot out every thirty-five seconds, which is already a considerable number.

When facing this monster in the blood mist, the worst that can happen is that it will be resurrected a hundred times.

Despite such a tough fight, Lin Tianhao was not afraid at all.

What if he gets lucky, triggers the cycle of death, and kills the monster in the blood mist?

With the means of the monster in the blood mist, if Lin Tianhao can kill him and send him to the List of Gods, then there is no one on this Canglang Star that he cannot kill.

however.

After being locked onto by Lin Tianhao several times in a row, the monster in the blood mist looked a little unnatural.

"Boy, do you really think I can't deal with these feather arrows of yours?"

The monster in the blood mist looked a little angry. The blood mist around it wrapped around Lin Tianhao's feather arrow and actually corroded Lin Tianhao's feather arrow that contained the Heavenly Punishment Lock.

really! !

Lin Tianhao was not too surprised.

As a monster at the half-step divine level, Lin Tianhao still didn't quite believe that it was really impossible to destroy his feather arrow.

Not to mention the strong ones at the half-step divine level, even the masters at the great emperor level, Lin Tianhao felt that they should have a way to destroy his feather arrows.

However, the consumption of feather arrows to destroy him would be very great, and a master at the level of the Great Emperor would not be able to destroy Lin Tianhao's feather arrows containing the Heavenly Punishment Lock in large quantities.

Seeing that the monster in the blood mist destroyed his feather arrows, Lin Tianhao remained calm and continued to lock on him.

Because Lin Tianhao was very sure.

Even for a strong man who is at the half-step divine level, the cost of destroying his feather arrow that contains the power of the Heavenly Punishment Lock must be very high.

and! !

Lin Tianhao has to wait for an opportunity.

Waiting for an opportunity to use time pause.

If the number of arrows locking onto the monster in the blood mist exceeds five thousand or even ten thousand, he will use time pause.

If these ten thousand arrows hit the monster in the blood mist at the same time, can he be killed?

"Let's go!!"

At this moment.

The woman in black armor spoke slowly. She obviously understood that they could only delay Lin Tianhao for a while, but it was impossible to really hinder Lin Tianhao.

Chapter 1406 Get the Beast God Bottle!

Hearing the words of the black-armored woman, the monsters at the eight emperor levels felt relieved.

Although they were able to suppress Hei Tian Ao Zhen together with the black-armored woman.

But Heitian Aozhen is, after all, an atavistic black dragon that has reached the half-step divine realm.

When they suppress Hei Tian Ao Zhen, they will not only consume a lot of energy but also get injured.

The monster in the blood mist sighed and said:

"Ah."

"Boy, you win, let's go!!"

The words fell.

The monster in the blood mist left together with the woman in black armor and the eight monsters at the level of the Great Emperor.

Lin Tianhao did not pursue him either.

of course.

The bigger reason was that he didn't have the strength to pursue.

Hei Tian Ao Zhen was already covered in wounds.

Although as an atavistic black dragon at the half-step divine level, the probability of him being killed in a short period of time is extremely small.

But if the consumption is too great, it is not a good thing.

This time Zhao Wudi was not killed, he just fell into a deep sleep.

After the black-armored woman and the others left, Pluto Bai Xiaofeng took action and quickly woke up Zhao Wudi.

After Zhao Wudi woke up, he immediately looked around and said anxiously:

"How's the battle going?"

He felt somewhat aggrieved.

He should have been the main force, but every time he encountered such a high-intensity battle, he was knocked down first.

Lin Tianhao smiled helplessly, "They sent out two Half-Step Divine Level experts and eight Great Emperor Level masters. I used all my strength and only forced them back, but didn't kill any of them!!"

Hear this.

Zhao Wudi smiled helplessly:

"They're leaving for now, but they'll probably come back again."

Lin Tianhao shook his head and said:

"We should have reached some kind of balance. They agreed that I would help you kill monsters for a month."

"There's no one left on your Blue Star. When this month is up, come with me!!"

"It's not that I don't want to help you, but I really have no way to defeat them now."

Zhao Wudi hesitated to speak, and finally said:

"Is there no solution, or is the reward not enough?"

Obviously.

Zhao Wudi also knew that he and Lin Tianhao had no relationship, and that Lin Tianhao agreed to help him slaughter the monsters on Canglang Star for a month entirely because of the Beast God Aquarius.

"Even if you give me more rewards, it will be difficult for me to kill them at this stage."

That's it.

Lin Tianhao paused for a moment before continuing:

"and."

"Even if I help you kill them all, what will you get?"

Zhao Wudi looked determined and asked, "So... as long as I can offer enough rewards, you can solve all the monsters here, right?!"

Lin Tianhao's mouth twitched, feeling that all the things he had said before were in vain.

"There is a certain probability, but the certainty is not high."

"Besides, this Canglang Star is too big. Even if I have the slightest chance of killing them, I won't be able to stop them if they keep running away."

Lin Tianhao actually also wanted to know what other good things Zhao Wudi had.

Zhao Wudi hesitated for a moment and said:

"Well, if you can kill them, please do so."

"Even if I'm the only one left on the Blue Star here, I still want to do something."

Lin Tianhao understood in his heart that this was Zhao Wudi's obsession.

If the Alate Galaxy conquered Blue Star and the Shanhai Empire one day, he, like Zhao Wudi, would find a way to disgust these people.

"You're trying too hard."

"In fact, apart from anything else, if you use the Beast God Bottle well, your future achievements will be limitless."

It is very good to use the Beast God Bottle to develop power.

Zhao Wudi shook his head and said:

"You think it's simple. Without the war between the two tribes, it would not be easy for the Beast God Vase to condense a drop of evolutionary divine fluid."

"Let's go."

Lin Tianhao didn't want to continue to dwell on this issue, so he continued to slaughter with Zhao Wudi.

It was precisely because of the previous battle that high-level monsters did not appear.

soon.

The one month agreed upon by Lin Tianhao and Zhao Wudi has arrived.

Zhao Wudi did not hesitate and directly handed the Beast God Bottle to Lin Tianhao.

"Really not going to give it a try?"

Zhao Wudi looked at Lin Tianhao again, "How about you take a look at the rewards I can offer?"

Lin Tianhao hesitated for a moment and said with a smile:

"Sure. Regardless of whether it can be completed or not, it's always a good idea to take a look at the reward."

Just as Lin Tianhao finished speaking, a cold woman's voice was heard.

"Boy, don't push your luck!!"

As the voice fell, Lin Tianhao saw the woman in black armor walking towards him.

Except for her.

The monsters in the blood mist and the monsters at the level of the eight great emperors have all come.

Look.

They were also afraid that Lin Tianhao would not agree to leave, so they were ready to fight with Lin Tianhao.

Lin Tianhao grinned and said:

"Didn't I tell you? Just take a look at the reward first. I didn't say I would definitely make a move."

The black-armored woman had a gloomy face, and the way she looked at Lin Tianhao seemed as if she wanted to eat him alive.

"Boy, we have already made concessions, but you still treat us like fools. Don't blame us for being rude!!"

Judging from the look of the woman in black armor, she is ready to take action at any time.

Lin Tianhao glanced at the sky which was about to get dark, and did not give in at all.

"If you want to fight, then fight. If you think you can kill me, then you can try!!"

These monsters are not qualified enough to threaten him.

"brazen!!"

One of the monsters at the level of the Great Emperor stepped out, he was very angry.

"You little brat, you keep going back on your words. Aren't you afraid that one day your mind will become unstable and you won't be able to achieve great things?!"

Hear this.

Lin Tianhao smiled indifferently and said:

"This is my nature. If I don't pursue my nature and my heart, my Tao heart will be unstable."

"If you want to do it, then do it."

Hear this.

The monster in the blood mist took a step forward and said in a deep voice:

"Zhao Wudi, your master has left, and Blue Star has been destroyed. There is no need for you to continue to fight us to the death."

"It would be better for you to keep those things of yours to help you grow, and then go to the divine realm to find your master."

Obviously.

The monster in the blood mist knew that Zhao Wudi was the culprit behind all this.

If he wanted to change the current situation, he could only let Zhao Wudi change his mind.

There was a cold light flashing in Zhao Wudi's eyes.

"You have slaughtered so many lives on our Blue Planet and even caused our Blue Planet to be destroyed. How can you let me forget it?!"

The monster in the blood mist thought for a moment before saying:

"Zhao Wudi, the slaughter is mutual. Our Canglang Star was once slaughtered by your master. Your master has slaughtered countless monsters on our Canglang Star. Others may not know, but don't you know?"

That's it.

The monster in the blood mist changed the subject and continued:

"What's more, you brought this kid to slaughter our Canglang Star for a month. How many monsters died on our Canglang Star?"

Chapter 1407 Zhao Wudi goes to the divine realm!

"These...are all blood debts!!"

"You only saw the creatures of your Blue Planet being slaughtered. Then, aren't there fewer of us monsters being slaughtered?"

The monster in the blood mist gradually approached, luring Zhao Wudi.

"If you really fight us to the death, this guy can be resurrected infinitely. We can't kill him, but what about you?"

"It will take a long time for you to be resurrected."

"Don't you really want to see your master again?"

"The situation is set, let go of your obsession!!"

These words of the monster in the blood mist slightly moved Zhao Wudi.

In fact, Zhao Wudi also knew very well that in the current situation, his best choice was to leave here.

But he was not reconciled.

He didn't want to leave like this.

Lin Tianhao frowned slightly, but he didn't care.

If what Zhao Wudi has in hand is good enough, he can also take the risk.

After all, he was confident that he could get away with it.

If that doesn't work, he can choose to leave.

After a month of understanding, Lin Tianhao was almost certain that this was not the Jiuyou he was looking for.

He really came to the parallel world of Blue Star when he used the void travel.

and.

This parallel world of Blue Star is much more miserable than the Blue Star world he lives in.

In the entire Blue Star, except for Zhao Wudi, everyone else is dead! !

After a brief thought, Zhao Wudi finally made a decision.

"Perhaps you are right. I should indeed go look for my master."

Hear this.

Lin Tianhao already understood Zhao Wudi's choice.

Zhao Wudi looked at Lin Tianhao meaningfully and said:

"Xue Di, I'm leaving. I'm not going with you. I'm going to the Divine Realm."

Lin Tianhao was not surprised. After all, Zhao Wudi had a master. Even if he let go of his obsession and wanted to leave, he would most likely go directly to the divine realm.

After all, Zhao Wudi's fighting ability is not inferior to that of an ordinary emperor.

In his situation, there is no need for him to follow him to the vast continent.

Zhao Wudi was seen making hand gestures with his hands, and the aura around him soared into the sky and flew above the sky.

at the same time.

The sky seemed to sense something as well, and a beam of light descended from the sky, enveloping Zhao Wudi.

After a while.

Zhao Wudi disappeared.

Lin Tianhao glanced at the black-armored woman and the monster in the blood mist and asked:

"You have already destroyed the blue star here, what are you still doing here?"

No matter why they destroyed the Blue Star, they did it, and there seems to be no need to stay here any longer.

After all, given their situation, there isn't much point in them staying here any longer.

"Because of the thing Zhao Wudi gave you."

The black-armored woman said, "The Beast God Vase is the most precious treasure of our clan. It accidentally fell on Blue Star and was obtained by the Crazy Emperor by chance."

"Since we can't get the Beast God Vase back from the Crazy Emperor, we will naturally consider starting with Zhao Wudi."

Lin Tianhao frowned slightly, "Is there any secret in this Beast God Vase?"

"No." The woman in black armor answered with certainty.

Lin Tianhao narrowed his eyes slightly, "The weakest among you are all at the Great Emperor level. You have spent so much time here just to get this Beast God Aquarius. I still think that this Beast God Aquarius still has secrets."

The woman in black armor shook her head and said very seriously:

"You think too much. It is extremely difficult for people like us to enter the realm of Godly Products. But as long as we can have the Beast God Treasure Bottle, we can ascend to the sky in one step and enter the realm of Godly Products easily."

"It would be best if we could go to the Divine Realm after we have reached the Divine Level."

Lin Tianhao narrowed his eyes slightly, "Are you also heading to the Divine Realm?"

The black-armored woman nodded gently, "What else? In this endless starry sky, all the worlds, if you want to go further, you need to go to the divine realm."

Lin Tianhao thought for a moment and said, "Now the Beast God Vase is in my hands. As long as you are willing to join my Mortal Palace, I can help you complete the upgrade."

The weakest of these guys are monsters at the Great Emperor level. If they could be allowed to join the Mortal Palace, Lin Tianhao would feel a little excited just thinking about it.

"Join your mortal temple?"

The woman in black armor looked at Lin Tianhao in doubt. As long as she joined Lin Tianhao's forces, she would have the opportunity to upgrade. It seemed that there was nothing she could refuse.

"You killed so many of our people, and now you want to win us over."

Lin Tianhao smiled slightly and said:

"I killed the monsters because of Zhao Wudi's mission. We have no substantial grudges. I won you over because I think you can be useful."

"As long as you can join my Mortal Palace, I can get a lot of contribution points!!"

They all don't know about the very special entry of joining the Fan Palace, so as long as the benefits are enough, the probability of them agreeing is still very high.

really.

After hearing Lin Tianhao's words, the black-armored woman and the monster in the blood mist, the two powerful warriors at the half-step divine level, did not react much.

However, the other eight monsters at the level of the Great Emperor were a little confused at this time.

As long as they nodded in agreement, they could enter the realm of divine quality!!

Their current strength is far inferior to that of the black-armored woman and the monster in the blood mist, and they have to obey their orders.

But if they can go one step further, they will be able to reach the divine level in one step and become powerful people.

The temptation is just too great.

"Is it really just to join your mortal temple?"

A demon at the level of the Great Emperor said suspiciously.

After all, just by choosing to join a force, one can evolve into a powerful person at the divine level. There seems to be no reason to refuse.

Lin Tianhao nodded slightly and said:

"Yes, if I can attract a great emperor to join our Mortal Palace, the reward I can get is immeasurable."

"This is a good thing for both you and me."

Hear it here.

The monster from the Great Emperor realm who just spoke hesitated for a moment before saying:

"Okay, I agree."

Seeing this scene, Lin Tianhao showed a satisfied smile on his face and took out an elder token.

"Very good, from today on, you are the elder of my Fan Palace!!"

The monster from the Great Emperor realm took the token.

just.

After he took the token, his expression was slightly stunned.

Obviously.

Even a strong man at the level of the Great Emperor is still unable to contend with the rules and entries added to the Mortal Palace.

however.

Just now.

This monster in the realm of the Great Emperor was surrounded by the power of rules, and he growled.

"It's a scam!!"

The power of rules around him was constantly vibrating, and he was obviously trying to fight against the rule that one must be absolutely loyal to Lin Tianhao once joining the Fan Palace.

"After agreeing to join the Fan Palace, my heart was locked by a force of rules, forcing me to be loyal to this guy!!"

"If we agree, we will all become this guy's slaves!!"

Chapter 1408: Heart-burning nightmare!

Lin Tianhao's face darkened.

It turns out that this master at the level of the Great Emperor is not that easy to deal with.

"Boy, you are so insidious!!"

The woman in black armor snorted coldly and attacked Lin Tianhao without hesitation.

Lin Tianhao immediately summoned Hei Tian Ao Zhen and Pluto Bai Xiao Feng.

at the same time.

Lin Tianhao's damage transfer has also been used.

When fighting with them before, Lin Tianhao didn't use damage transfer at all.

Now Lin Tianhao used damage transfer to lock onto the monster in the blood mist.

Even though Zhao Wudi had already left, they were now at loggerheads, so there was no need for him to be merciful.

Really fight.

Lin Tianhao was not afraid at all.

at the same time.

Lin Tianhao's arrow was shot from his heart and locked onto the monster in the blood mist.

just now.

As long as he could kill a monster at the half-step divine level, the battle would be over.

In fact, it is not necessary.

Because the monster from the realm of the emperor who had just agreed to join the Mortal Palace, although resisting the rule entry of joining the Mortal Palace, did not succeed.

At this moment, he was being controlled by the rule entry of joining the Mortal Palace.

As long as Lin Tianhao can enslave this monster at the level of the Great Emperor, and then let him take the divine liquid of evolution and achieve the level of a divine product, the battle here will be over.

The moment Lin Tianhao made his move, the monster in the blood mist also made his move.

He also knew very well that the only thing that could threaten Lin Tianhao here was the power of controlling his blood.

only.

The monster in the blood mist had just started attacking Lin Tianhao when he was dumbfounded.

Because while he was attacking Lin Tianhao, he would also lose a lot of health points! !

but.

What's interesting is that the monster in the blood mist loses much less blood than Lin Tianhao.

According to the damage transfer, normally, the damage sustained by the monster in the blood mist should be nine times the actual damage sustained by Lin Tianhao! !

However, the actual damage suffered by the monster in the blood mist was not as much as Lin Tianhao, which means that the monster in the blood mist also has a relatively high damage reduction.

At least nine times the damage reduction!!

This level of damage reduction is not uncommon for a monster that is half a step away from becoming a god.

Lin Tianhao endured the attack, and the Heavenly Punishment Headlock just locked his head indiscriminately. As for the rest, he didn't need to worry about it now.

During this process, Black Swan and Pluto Bai Xiaofeng continued to take action.

therefore.

In this battle, Lin Tianhao was not the main force.

If the monsters in the blood mist ignore him, he will use arrows shot from his heart to attack continuously.

If the monster in the blood mist wanted to care about him, the black-armored woman and the other seven monsters in the realm of the Great Emperor would be in a stalemate with Heitian Aozhen and Hades Bai Xiaofeng.

in this way.

Then we are back to the previous dead end.

To be precise.

The current situation is even more annoying than before.

After Lin Tianhao used damage transfer, the monster in the blood mist only needed five seconds to kill Lin Tianhao, but now it takes a full two minutes.

Lin Tianhao can now shoot 3,600 arrows in one minute, which means 7,200 arrows in two minutes.

Even if the monster in the blood mist was a powerful warrior at the half-step divine level, he had no way to deal with so many feather arrows of heavenly punishment locked on his head by Lin Tianhao.

In fact, Lin Tianhao was able to achieve this thanks to the unknown cold energy in his body.

But before, and now, these monsters have tried to put Lin Tianhao to sleep and confuse his mind.

However, because of the unknown coldness in his body, these methods had little effect on Lin Tianhao.

"Walk!!"

The monster in the blood mist had a very ugly expression on its face. He could destroy a small amount of Lin Tianhao's Heavenly Punishment Feather Arrows, but that was only a small amount! !

If the fight continues like this, he will definitely die here.

After all, to kill Lin Tianhao once, he would have to face 7,200 feather arrows of heavenly punishment.

This level of feather arrow headlock is really not something he can handle.

The black-armored woman looked extremely ugly.

"If we leave now, it will be completely over!!"

Obviously.

The woman in black armor also realized it.

If they leave now, the monster who has joined the Mortal Palace at the level of the Great Emperor will definitely be able to reach the level of the Divine Quality with the help of Lin Tianhao's Evolutionary Divine Liquid.

By then.

Lin Tianhao came with two strong men at the half-step god level and a monster at the god level. What should they do?

It seemed that they had no choice but to die.

The monster in the blood mist gritted its teeth and said, "I don't care about so many things now. Let's run first. If all else fails, we'll leave Canglang Star and head to the Divine Realm!!"

Upon hearing this.

The woman in black armor was even more unhappy.

"We can go to the divine realm, but what about the other monsters on our Canglang Star? Can they go?"

"Maybe this brat will kill all the monsters on our Canglang Star."

Hear this.

The monster in the blood mist said angrily:

"He's not a fool. It will take at least half a year to kill all the monsters on Canglang Star. He won't do such a thankless task."

That's it.

It seemed that the monster in the blood mist could no longer hold on.

"It's up to you whether you want to leave or not, but I'm leaving anyway!!!"

See this scene.

The woman in black armor also knew that the situation was hopeless, so she did not dare to delay and quickly fled with the seven monsters at the level of the Great Emperor.

Lin Tianhao is now unable to chase them.

It's just a pity that the power of rules added to the Mortal Palace was still not strong enough, allowing the monster in the realm of the Great Emperor to reveal it.

Otherwise, today would be a great harvest!!

Everyone else ran away, and the monster from the Great Emperor's realm was ultimately defeated.

"Ding, congratulations, you have successfully recruited the Emperor Realm monster Burning Heart Nightmare to join the Mortal Palace, and the reward is +5000 billion contribution points!!"

Seeing this reward, Lin Tianhao's face showed excitement.

The contribution value of this Burning Nightmare feedback is surprisingly so high.

Although Lin Tianhao had never recruited monsters at the level of the Great Emperor to join the Mortal Palace before, he could guess it.

Ordinary monsters at the level of the Great Emperor should not be able to give such high rewards.

"nightmare....."

Lin Tianhao seemed to have thought of something and asked:

"Are you a dreamer?"

Hear this.

This Burning Nightmare was stunned for a moment before saying:

"I can enter dreams, and I can help others enter dreams, so I am indeed a dream master!!"

Hear this.

Lin Tianhao was even more surprised.

The Dream Enterer of the Great Emperor's Realm!!

If this is the case, then it is a foregone conclusion that he will awaken the Poison Emperor of Sand Sea.

This time, I accidentally entered this parallel world, not only did I get the Beast God's Treasure Bottle, but I also had such an unexpected surprise.

"good very good."

Lin Tianhao nodded with satisfaction, and then said:

"Blue Star has been destroyed by you, why do you still want to stay here?"

Burning Heart Nightmare smiled helplessly, "Master Palace Master, we are staying here because we really want to get the Beast God Vase. It is not as complicated as you think."

Chapter 1409: Massacre of monsters!

"The monsters on our Canglang Star are a whole tribe. If we can obtain the Beast God Vase, we will have more than ten powerful people at the Divine Level."

"besides."

"We can also produce a large number of powerful people above the king level, and all of us monsters at the great emperor level can reach the divine level."

That's it.

There was a hint of expectation in Burning Heart Nightmare's eyes.

"If we can really reach that point, we will go to the Divine Realm together, and we will surely be able to develop into a great force in the Divine Realm."

Lin Tianhao nodded slightly, what Burning Heart Nightmare said was indeed correct.

There are more than ten powerful people at the divine level.

There is also a group of masters above the king level. There should not be many such lineups in the Divine Realm.

"Now? You seem to have lost." Lin Tianhao said.

Burning Nightmare sighed helplessly and said:

"Plans cannot keep up with changes. Who could have thought that you would suddenly come to our world?"

Lin Tianhao smiled and said:

"I came here by accident, but you ruined me. I originally thought I could subdue a few more monsters at the level of the Great Emperor, but you revealed my mistake."

Burning Heart Nightmare smiled awkwardly and said:

"I'm sorry, sir. I spoke subconsciously in that situation."

Lin Tianhao waved his hands. He didn't really mean to blame Burning Heart Nightmare.

After all, the Burning Heart Nightmare at that time had not yet been taken down by the rules of joining the Mortal Palace.

"Now, I will help you advance to the Divine Rank!!"

Lin Tianhao smiled, took out the Beast God's Bottle, and gave the divine liquid of evolution inside to Burning Heart Nightmare.

Seeing the Evolutionary Divine Liquid in Lin Tianhao's hand, the Burning Heart Nightmare showed excitement on his face.

This thing is what he has always dreamed of.

"My lord, no."

At this moment.

The voice of Pluto Bai Xiaofeng sounded.

Lin Tianhao was a little surprised and didn't know why Pluto Bai Xiaofeng wanted to stop him.

Pluto Bai Xiaofeng looked at Lin Tianhao meaningfully and said:

"Burning Heart Nightmare is a great emperor-level dreamer, and he also has an unknown rule power that can compete with the rule that you will be absolutely loyal to once you join the Mortal Palace."

"If he goes one step further and reaches the realm of the Divine Grade, your rule that those who join the Mortal Palace must be absolutely loyal to you may not be useful then."

Lin Tianhao instantly understood what Pluto Bai Xiaofeng meant.

indeed.

When the Burning Heart Nightmare was at the level of the Great Emperor before, he was able to fight against the rule entry of absolute loyalty to the Mortal Palace.

If the Burning Heart Nightmare advances further and reaches the divine level, unknown changes may indeed occur.

"What Lord Pluto said makes sense."

Hei Tian Aozhen's voice also sounded in Lin Tianhao's ears.

"Now that other high-level monsters have chosen to leave Canglang Star and head to the Divine Realm, whether or not the Burning Heart Nightmare is upgraded to a Divine Grade is actually no longer that important."

That's it.

Hei Tian Ao Zhen hesitated for a moment before continuing:

"and."

"Even if you want to help him reach the God level, the safest way is to kill the Burning Heart Nightmare and then send him to the Conferred God List."

"Or there must be at least two powerful God-level warriors around, so that we can be sure that nothing goes wrong."

Hearing what Hei Tianao said, Lin Tianhao nodded secretly.

He wanted so much to improve his overall combat effectiveness that he didn't think too much about it.

Now after listening to what Heitian Aozhen and Pluto Bai Xiaofeng said, Lin Tianhao realized that he had indeed taken it for granted.

"it is good."

Lin Tianhao thought about it carefully. Whether the Burning Heart Nightmare was at the divine level now or not, it would not be of much help to him.

Because he just saw that the black-armored woman, the monster in the blood mist and others had all gone to the divine realm one after another.

Obviously.

They already had the answer in their minds. If they continued to go against Lin Tianhao, they would have no chance of winning.

So it is better to leave than to stay and humiliate yourself.

What can Lin Tianhao do next?

Of course, he would continue to slaughter these monsters. These monsters were experience packs. Even if Lin Tianhao slaughtered them all, no one would be able to come out and seek justice for them.

During this process, Lin Tianhao can maximize the benefits by stacking health points by killing their soul origins.

of course.

The most important thing is to find a way to raise the proficiency of Hand of Heavenly Punishment and Heart of Heavenly Punishment to six stars.

If the Hand of Heavenly Punishment and the Heart of Heavenly Punishment can reach six stars, then the life recovery can also be improved to an extremely terrifying level.

After leaving here, it would not be easy for him to find a place where he could accumulate health points.

especially.

Are there some unknown secrets hidden on this Canglang Star?

With an idea in mind, Lin Tianhao began to act.

Kill the monsters, then kill their soul origins.

If Lin Tianhao kills a monster whose level is not lower than Lin Tianhao's and has a certain grade, he can also get a certain amount of free attribute points as a reward.

therefore.

For Lin Tianhao, this is a win-win situation.

Before, because he did not kill the origin of the soul, it was difficult for Lin Tianhao to maximize the benefits of stacking health points.

It is different now.

Lin Tianhao asked Heitian Aozhen and Pluto Bai Xiaofeng to lead his undead army to capture high-level monsters and bring them here.

After Lin Tianhao killed these high-level monsters, he was able to use their soul essence to increase their health, achieving the best of both worlds.

Is this cruel to these monsters?

These monsters destroyed the blue planet of this parallel world. This is itself a fight between races. There is no right or wrong, and there is no so-called morality to restrain it.

Lin Tianhao's speed of stacking health points is maximized, so that no matter his health points increase speed or talent proficiency improvement, it is very, very fast.

With Lin Tianhao's arrows shooting from his heart and his supernatural powers, he can shoot 240 arrows in one second, 14,400 arrows in one minute, and 864,000 arrows in one hour.

If he outputs like this 24 hours a day, Lin Tianhao can output over 20 million feather arrows.

This speed is nothing compared to the 100 billion star-up proficiency of the Hand of Heavenly Punishment.

But if it is used to stack health points, it is actually very good.

Lin Tianhao's arrow can add five health points. Taking into account the fact that hard work can make up for lack of talent, that is ten health points.

If the increase in other health points is taken into account, the actual health points that Lin Tianhao can add with one arrow are more than thirty points.

Then Lin Tianhao's life points that can be increased in one day are more than 600 million! !

This speed is indeed insignificant compared to Lin Tianhao's total health value.

But compared to the speed at which Lin Tianhao usually adds health points, this is already very fast.

Lin Tianhao continued to slaughter here for another month.

Normally, he wouldn't be able to hold on for so long, but who could blame these monsters for giving him a surprise? !

Chapter 1410 Kill the Poison Emperor of Sand Sea!

As for the source of the surprise.

The main thing is the reward that Lin Tianhao can get after killing these monsters.

Lin Tianhao's initial touches of the corpse were relatively normal, but later on, he began to touch equipment evolution scrolls, skill upgrade scrolls, equipment inlay scrolls, equipment inlay gems and other things.

these things.

It is rare in Ragnarok.

Especially things like equipment inlay scrolls and equipment inlay gems, which have become quite common.

The equipment inlay scroll can create inlay holes on the original equipment.

After having inlay holes, you can inlay equipment and gems, and the equipment will undergo tremendous changes.

The main function of this kind of inlaid gem is to increase attributes or entries.

For example, the inlaid gem that Lin Tianhao just got, the attributes on this inlaid gem are very powerful.

After being embedded in a weapon, the weapon's attack power will be increased by 1 for every life point killed with the weapon.

This kind of inlaid gem that permanently increases the weapon's attack power can be considered as the ceiling level among inlaid gems.

Lin Tianhao slaughtered here for a month, but only managed to find three such inlaid gems.

Besides.

This month, Lin Tianhao slaughtered a large number of monsters, and the free attribute points he obtained were also an astronomical number, exceeding one million free attribute points! !

This number is astonishing!!

Look at it this way.

Zhao Wudi asked him to slaughter the Canglang Star for a month, and he searched the corpses and obtained a lot of things.

of course.

Lin Tianhao didn't feel any pain. After all, compared to the Beast God's Vase, this little thing was not enough to make Lin Tianhao feel pain.

During this month, Lin Tianhao gained a lot, but the progress outside also slowed down.

Next.

He needs to get out of here.

Activating the absolute shuttle, Lin Tianhao sensed the direction he came from and went back.

After the absolute shuttle ended, Lin Tianhao returned to the vast Gobi Desert.

After coming back.

Lin Tianhao's absolute shuttle has not yet ended. Each time he uses absolute shuttle, it can last for five minutes.

Lin Tianhao used the remaining time of the absolute shuttle to start his journey back to the vast continent.

This time he stayed here for two months and gained a lot, but he also needed to deal with some things outside.

The first thing is to revive the country of Mokosha.

Previously, due to the slumber of the Poison Emperor of the Sand Sea, the process of reviving the Mokosha Kingdom was stuck here with the Poison Emperor of the Sand Sea.

But today is different from the past.

Lin Tianhao defeated the Burning Heart Nightmare, who was a dream master at the level of a great emperor.

As long as he takes action, the Poison Emperor of Sand Sea will definitely wake up.

and.

To ensure nothing goes wrong.

Lin Tianhao followed the advice of Pluto Bai Xiaofeng, and he killed the Burning Heart Nightmare and put him on the List of Gods.

of course.

The reason why he wanted to kill the Burning Heart Nightmare and send him to the List of Gods was because Lin Tianhao was worried that the Burning Heart Nightmare would also be sent to the Divine Realm, which would be a great loss for him.

As for whether this would waste a spot on the List of Gods, it didn't matter to Lin Tianhao.

This Burning Heart Nightmare is a powerful being at the level of the Great Emperor, and he has not yet used the Divine Fluid of Evolution.

Once used.

This Burning Heart Nightmare is a powerful being at the divine level. Coupled with his identity as a dream master, he is naturally fully qualified to be on the List of Conferred Gods.

After all, with Lin Tianhao's current ability, it is already a rare achievement for him to collect the Burning Heart Nightmare and be included in the List of Gods.

Return to the outer land.

Breathing the free air here, Lin Tianhao felt much better.

After coming back.

Lin Tianhao didn't hesitate at all, he took out the Kunlun Mirror and left.

Sand Sea Poison City!!

Lin Tianhao came here again. He was already familiar with the place.

All the way to the place where the Poison Emperor of Sand Sea is sleeping.

Seeing Lin Tianhao's arrival, the round body of the king-level dream master, Dream Hunter, appeared in Lin Tianhao's sight.

The huge head of the poisonous dragon also leaned over.

"What's the situation?" Lin Tianhao asked.

Da Mengshou frowned and said helplessly:

"The situation is not optimistic. Can't you wait?"

Lin Tianhao waved his hand and said with a smile:

"It's not that we can't wait, it's mainly because we have other ways."

"Oh?"

When Da Mengshou heard Lin Tianhao say that there were other methods, he instantly became interested.

After all, she is a king-level dream master, and she knows very well the methods that can be used to awaken the Poison Emperor of Sand Sea.

"What method?" asked the poisonous dragon.

"Let an emperor-level dream master at the level of a great emperor forcibly awaken the Sand Sea Poison Emperor."

When Da Mengshou heard this, he couldn't help but narrow his eyes and said:

"It's a good method, but the question is, where is the emperor-level dream master in the realm of the great emperor?"

Lin Tianhao waved his hand and summoned out the Burning Heart Nightmare.

"it's here!!"

Seeing the Burning Heart Nightmare, and then feeling its unrestrained aura.

The fat body of the big dream hunter was like a ball, and it retreated quickly with thumps.

The poisonous dragon's already huge eyes widened even wider.

Although he was huge in size, when he saw the Burning Heart Nightmare, he felt that if the Burning Heart Nightmare wanted to, it could kill him with just a slight move.

The pressure from the Burning Heart Nightmare was too terrifying! !

"Constrain your breath." Lin Tianhao said.

Burning Heart Nightmare is a powerful warrior at the level of Great Emperor after all. It is terrifying that he does not restrain his aura.

"bring it on."

Lin Tianhao spoke slowly, "Let's happily...kill the Sand Sea Poison Emperor!!"

Hear this.

The poisonous dragon's expression changed wildly. Even though the Burning Heart Nightmare gave him a very strong sense of oppression, he still gritted his teeth and said:

"Lord Snow Emperor, you said before that you would help our Lord Poison Emperor wake up, why are you....."

The poisonous dragon knew in his heart that even if he was very dissatisfied, he could not change anything.

Lin Tianhao waved his hand and said:

"Don't worry, your Lord Poison Emperor won't really die. I did this for my own reasons."

"After all, my goal is not to really kill your Poison Emperor. I want to revive the Mokesha Kingdom."

Lin Tianhao was going to kill the Poison Emperor of Sand Sea and put him on the List of Gods first.

As for other things, he can study them later.

Although Du Jiao felt that what Lin Tianhao said was credible, when he actually saw Lin Tianhao take action, his heart couldn't help but rise to his throat.

The Great Dream Hunter didn't say anything, but his eyes would occasionally fall on the Burning Heart Nightmare.

As a dream master, she could feel the power of the Burning Heart Nightmare.

This kind of power is not only in terms of realm, but also includes Burning Heart Nightmare's attainments as a dream enterer.

The Poison Emperor of Sand Sea was in a dormant state at this time. With Lin Tianhao's output, it was not difficult to kill the Poison Emperor of Sand Sea.

"Ding, congratulations, you have successfully killed the Sand Sea Poison Emperor. We will announce it to all servers soon. Do you want to hide your name?"

"no!!"

"Announcement to all servers, congratulations to the player Snow Emperor for successfully killing the Sand Sea Poison Emperor. I hope all adventurers will keep up the good work!!"
