

## **O games 1421**

Chapter 1421 Meet the Lord of Luotian!

After Lin Tianhao's deduction, fog surged in the Tianji Pavilion, and a scroll unfolded in the fog.

Lin Tianhao looked towards the scroll. In the fog, the scroll did not look that shocking.

In Lin Tianhao's sight, he saw Mo Kenantian.

He shot and killed Mo Kenantian himself! !

Then there is the frozen ancient city of Moko.

A phantom emerged from the front of the Mo Ke Ancient City, emitting endless coldness. He flew towards Lin Tianhao, as if he wanted to rush into Lin Tianhao's sea of consciousness.

Just when this phantom was about to break through his sea of consciousness, the picture collapsed and the smoke dissipated.

In the smoke, only five words were left: Fortune and wealth are achieved through risk.

Lin Tianhao frowned. It seemed as if the comments were given, but also as if they were not given.

However, the previous scene seems to be interesting.

He would kill Mo Ke Nantian, and then a phantom would appear in the frozen ancient city of Mo Ke, and this phantom seemed to want to take over his body.

But the scene ends here.

Lin Tianhao sat down cross-legged.

He had consumed a lot of energy just from this deduction. The best way now was to meditate and rest so that he could recover as soon as possible.

"My Lord, I may be able to help you recover quickly."

The voice of Burning Heart Nightmare came.

Lin Tianhao's eyes lit up. If the Burning Heart Nightmare could help him recover his energy quickly, then it would be much easier for him to use the Tianji Pavilion.

Lin Tianhao summoned out the Burning Heart Nightmare, and just after he summoned it, the Burning Heart Nightmare pointed a finger at Lin Tianhao's forehead.

The energy that Lin Tianhao had just consumed began to recover at a speed visible to the naked eye.

In less than three minutes, Lin Tianhao felt that his energy had recovered about half.

"It's up to you now." said Burning Heart Nightmare.

Lin Tianhao raised his eyebrows slightly and said:

"Let's go, now that we've recovered a little, let's go kill the monsters."

Lin Tianhao summoned the Kunlun Mirror and headed towards the sea.

The Beast God Bottle cannot store the Divine Liquid of Evolution. The Divine Liquid of Evolution previously stored in the Beast God Bottle has been used by the Poison Emperor of Sand Sea.

Next, Lin Tianhao plans to let Lord Luotian take another step forward.

but.....

Lin Tianhao now doubts whether the Lord of Luotian is at the divine level.

Because the Lord of Luotian is much stronger than the average Great Emperor.

After entering the sea, Lin Tianhao started his killing mode.

The journey was smooth, and in less than an hour, there was another drop of evolutionary divine liquid in the Beast God's bottle.

After obtaining the divine liquid of evolution, Lin Tianhao prepared to look for the Lord of Luotian.

Now that Lord Luo Tian has come out of the ancient god mysterious realm, Lin Tianhao doesn't know where Lord Luo Tian is.

However, Lin Tianhao and Lord Luotian also knew something about this before, so Lin Tianhao went to find Lord Luotian's previous residence.

Not surprisingly.

Lin Tianhao found the Lord of Luotian in the place where the Lord of Luotian originally lived.

Seeing Lin Tianhao's arrival, Lord Luotian's expression became extremely solemn.

"what happened?"

"You look like I'm about to die." Lin Tianhao said.

The Lord of Luotian took a deep breath and said:

"After I came out of the Ancient Mystical Realm, I went to the Central Plains."

"Oh?"

In his previous life, Lin Tianhao had never been to Zhongzhou Continent, so he didn't know whether the changes in Zhongzhou Continent happened in this life or in the previous life.

"Is the situation bad?" Lin Tianhao asked.

The Lord of Luotian nodded and said:

"It's very, very bad. Worse than I thought."

Lin Tianhao pondered for a while and asked:

"I am only concerned about one thing: will the crisis in Zhongzhou spread to our side?"

The Lord of Luotian thought for a moment and said:

"There is no such trend at the moment, but we cannot guarantee that it will not spread in the future."

Lin Tianhao frowned slightly and said:

"Do you know why this happened in Zhongzhou?"

Lord Luo Tian hesitated for a moment, then said:

"It should be targeting you adventurers."

"If my guess is correct, the first place you will land should be the Central Continent."

"Because that great being wants to train you and hopes that you can grow quickly. There is no reason for you to come here."

"The only explanation is that the great being knew that something bad would happen in Zhongzhou Continent, so he had no choice but to let you come to Haomiao Continent."

Lin Tianhao took a deep breath. In their previous life, they also landed on the vast continent.

If Lord Luotian's speculation is correct, does it mean that similar changes also occurred in the Zhongzhou continent in the previous life?

if so.

Does that mean that until Ragnarok merges with reality, the situation in Central China will still not be able to spread here?

As long as the situation in the Central Plains does not spread over, Lin Tianhao will still have time to catch his breath.

"You must have something to say to me this time." asked Lord Luotian.

"I have a way to help you advance to the divine realm." Lin Tianhao said.

The Lord of Luotian thought for a moment and said:

"I should be able to advance to the divine realm soon, so I don't need your help."

"I have my own way to get promoted."

Lin Tianhao nodded gently, "Okay, as long as you have your own way."

That's it.

Lin Tianhao asked again:

"How much do you know about the Kingdom of Mokosha?"

Hear this.

The Lord of Luotian raised his eyebrows and said:

"Mekosha is a relatively closed country. They have been developing their own technology. It is also a country that highly values technology."

"Among the ten professionals in Mokesha Country, at least seven are mechanics."

Lin Tianhao understood, "The future president of the Chamber of Commerce of Mokesha has two things that I really need, but he gave me a task that I cannot accept."

The Lord of Luotian smiled slightly and said:

"That's easy. Let him change his mission."

"For you, Xue Di, he shouldn't be able to refuse, and he has no right to refuse. If it really doesn't work, I'll talk to him for you. I believe he will be happy to change the mission."

Lin Tianhao couldn't help laughing, "Hahaha, I thought the same thing. So my people are already causing trouble in the Mokesha Country."

Next.

It depends on how the Chamber of Commerce will react in the future.

This time, Lin Tianhao did not take action himself, but the Poison Emperor of Sand Sea and Kui Wei Changtian took action.

He led the indigenous people in front of the Mekolatin Desert to attack the Mekosha Kingdom.

In this situation.

In the future, the Chamber of Commerce will not be able to point its weapons at the Shanhai Empire.

If he dares to do that, Lin Tianhao will have to take action himself.

Lord Luo Tian does not need this drop of evolutionary divine liquid in the Beast God's Bottle. Lin Tianhao now wants to maximize the benefits, so naturally he will give it to the Burning Heart Nightmare.

In particular, the Burning Heart Nightmare can help him recover his energy quickly.

If the Burning Heart Nightmare could reach the divine level, the energy he consumed in using the Tianji Pavilion should be able to be restored in one go.

Chapter 1422: Green-fanged Ghost Demon is promoted!

This time it was on an isolated island overseas.

Lin Tianhao asked Burning Heart Nightmare to prepare for promotion!!

The thunder tribulation that results in promotion to the Divine Level is so powerful that the reason why Lin Tianhao switched positions was that he didn't want the promotion of his men to be observed.

After experiencing the thunder tribulation for more than an hour, the Burning Heart Nightmare finally survived the tribulation and reached the realm of divinity.

"Thank you for your cultivation, Master. I will devote myself to you until my death!"

Burning Heart Nightmare quickly came to Lin Tianhao and bowed to him.

Lin Tianhao waved his hand and said:

"It doesn't have to be this way."

"You are my subordinate, and it is my duty to cultivate you."

Lin Tianhao can also use the Evolutionary Divine Liquid himself, but he doesn't plan to use it now.

Because he has his own plans.

The first thing is to go to the ancient mysterious realm and help the Green Tooth Ghost Demon to advance.

The Green Tooth Ghost Demon is a powerful being at the level of the Great Emperor of the Rule System. If he can be promoted to the level of the Divine Grade, it will be of real benefit to Lin Tianhao.

but.

After all, the Green Tooth Ghost Demon did not make it to the List of Conferred Gods, but chose to join the Mortal Palace after being persuaded by Lin Tianhao's eloquent speech.

Will adding the entry of absolute loyalty to the Mortal Palace be useful for strong people in the realm of God?

Lin Tianhao didn't know.

Is it necessary to send the other party to the List of Gods first?

There are still quite a lot of places on the List of Gods, so it seems reasonable to give it to an emperor-level life form.

As for the little general who was subdued in the ancient god's mysterious realm, he is also a strong man at the level of the Great Emperor.

After helping the Green Tooth Ghost Demon advance, I can experiment on the young general.

Let's see if the entry about absolute loyalty upon joining the Mortal Palace is also useful for strong people in the Divine Level.

Think about this.

Lin Tianhao first killed the wild monsters to condense a drop of evolutionary divine liquid, and then went to the ancient mysterious realm.

The mysterious ancient land, Daluo City!!

Lin Tianhao found the Green-fanged Ghost Demon in Daluo City.

"grown ups."

The Green-fanged Ghost Demon bowed to Lin Tianhao.

Lin Tianhao smiled slightly, presented the List of Gods, and said:

"Green Fang Ghost, I want to send you to the Conferred God List and help you ascend to the God Level. How do you think?"

Although Lin Tianhao can enforce the order, the Green Tooth Ghost Demon is a powerful emperor after all, so he has to give him some face.

and.

Lin Tianhao wants to control them, not let them become walking corpses.

"Promoted to a divine rank?!"

The Green Tooth Ghost even suspected that he might have heard it wrong.

He knew very well how difficult it was to advance from the realm of the Great Emperor to the divine level.

But now, Lin Tianhao actually told him that he could help him ascend to the divine level.

"My subordinate is willing."

The Green-fanged Ghost Demon bowed and kowtowed. He had no reason to refuse.

Promotion to divine level, this is no joke.

He was already thinking about how to achieve the second emperor body, but he didn't dare to think about being promoted to a god level.

Because it was promoted to a divine level, this was somewhat unbelievable.

Lin Tianhao nodded gently, "Then don't resist, I will kill you first and send you to the Conferred God List."

Lin Tianhao shot out with his feather arrows. With Lin Tianhao's current damage, even if he attacked with all his strength, the Green Fang Ghost Demon couldn't withstand a few hits.

"Ding, congratulations, you have successfully killed the Green Fang Ghost Demon (Emperor Level), and you will be rewarded with +10000 free attribute points."

"Ding, congratulations, you have completed the first kill of the Green Fang Ghost Demon. An announcement will be made to all servers soon. Do you want to hide your name?"

"no."

"Announcement to all servers, congratulations to the player Xue Di for successfully killing the Green Fang Ghost Demon. We hereby announce this and hope that all adventurers will continue to work hard!!"

After killing the Green Fang Ghost Demon, Lin Tianhao directly sent the Green Fang Ghost Demon to the List of Gods.

After sending the Green Tooth Ghost Demon to the List of Gods, Lin Tianhao summoned him out again.

"When you are promoted to a god-level rank, you will face heavenly calamity. Are you ready?!" Lin Tianhao asked.

The Green Fang Ghost Evil nodded heavily, "If I am in peak condition, and I have been accumulating strength in the Ancient Mystical Realm over the years, it won't be a problem to advance to the Thunder Tribulation Realm."

Seeing that the Green Tooth Ghost Demon was so confident, Lin Tianhao said no more and took out the Divine Liquid of Evolution from the Beast God's Treasure Bottle.

The Green-Tooth Ghost Demon looked at the Evolutionary Divine Liquid in Lin Tianhao's hand with some curiosity. Could just this tiny drop of liquid help him advance from the realm of the Great Emperor to the realm of the Divine Grade?

Although he found it unbelievable, the Green-fanged Ghost Demon still swallowed this drop of evolutionary divine liquid without hesitation.

After taking this drop of evolutionary divine liquid, the aura of the Green Fang Ghost Demon began to grow stronger.

Having seen the Poison Emperor of Sand Sea and the Burning Heart Nightmare promoted to divine levels before, if he saw the Green Fang Ghost Demon promoted to divine level, Lin Tianhao would know the process.

soon.

Thunder falls.

Thunder came one after another, just like rain, falling continuously.

Lin Tianhao was guarding here silently. With the presence of Fenxin Mengyan, a powerful god-level warrior, in charge, Lin Tianhao was not worried about anyone causing trouble.

Perhaps because of the Green Tooth Ghost's rule-based life form, his thunder tribulation lasted for three hours before it ended.

Burning Heart Nightmare was also very surprised.

"This person has unlimited potential. After his promotion, his strength should be higher than mine."

Hearing what Fen Xin Meng Yan said, Lin Tianhao just smiled faintly and said:

"He is a rule-based life form, so it is normal for him to be stronger than ordinary life forms."

"Rule-based life form?"

Burning Heart Nightmare was very surprised. "If that's the case, he should be very difficult to kill."

"But Master..."

"He asked me to kill him on his own initiative, so I can definitely do it." Lin Tianhao said with a smile.

After a while, the Green Fang Ghost Demon was finally promoted to the divine level.

He fell down in a very embarrassed state, gasping for breath.

Although he had already been promoted to the divine realm, the damage caused to him by the thunder was still not low.

"You take a rest first." Lin Tianhao said.

The Green Tooth Ghost nodded slightly, immediately sat cross-legged and began to recuperate.

Lin Tianhao also sat cross-legged and began to gain enlightenment.

Whatever time he has now, he would use it to gain enlightenment.

Because the current conventional means can no longer significantly improve his combat effectiveness.

The ideal situation is to continue to change jobs.

But changing jobs is not that easy.

He has now obtained clues about four pieces of Heavenly Punishment equipment, but has not obtained any of them yet.

Whether it is the two items of the future Chamber of Commerce or the two items outside the territory, they are still a long way off.

However, compared with the overseas areas, this thing of the future Chamber of Commerce still has some signs.

Wait until the Green Fang Ghost Demon recovers and then promote the young general, then he can have a good talk with the Future Chamber of Commerce.

especially.

He Kui Weichangtian in the sea of sand was still continuing to put pressure on Lin Tianhao. The only thing he had to guard against was the phantom that rushed out of the frozen ancient city of Mo Ke.

Although he didn't see what happened later, Lin Tianhao judged that the phantom was most likely coming to take over his body.

Even Lin Tianhao began to wonder whether that phantom was the ancestor who founded the ancient Mo Ke Kingdom as mentioned by Mo Ke Nantian.

Chapter 1423 Mo Kenantian's request!

Regardless of whether this is the case or not, this needs to be treated with caution.

He is very strong now and his subordinates are also very powerful, but if he is not careful, he may still capsize in the ditch.

Seven days passed in a flash!!

During these seven days, the Green Fang Ghost Demon recovered to its full condition, and Lin Tianhao also conducted experiments using the Little General.

turn out.

The young general was unable to break the requirement of absolute loyalty once joining the Fan Palace.

He is still absolutely loyal to Lin Tianhao.

With this solution, Lin Tianhao had a new understanding of the term "absolute loyalty" when joining the Fan Palace.

The country of Mokosha.

The country of Mokesha was in great chaos at this time.

The Poison Emperor of the Sand Sea raised his arms and shouted, and the indigenous people of the Mokoradin Desert responded one after another. With the existence of Kuiwei Changtian, it was completely a case of killing anyone who stood in their way, and even if it was a Buddha, then that Buddha would be killed.

Seven days.

One third of the territory of Mokesha has been lost! !

The speed of the fall made the top leaders of the Future Chamber of Commerce panic.

They had just recovered, but they were caught off guard.

"what happened!!"

Mo Kenantian had a sinister look on his face and was burning with anger.

The missiles they launched did not explode, and many robots even turned against them.

The impact on them is really huge.

even.

For a moment, he even doubted whether their country of Mokosha had been closed for too long and its technology lagged far behind the world.

"calm."

An electronic female voice without any emotion sounded.

"According to analysis, this should be the work of the other party's mysterious mechanic. The mechanic can control mechanical objects within a certain range of him."

"I have conducted multiple tests, but to no avail. If my guess is correct, the other party should have god-level mechanic talent and a god-level mechanic hidden profession."

"With the blessing of the [Two Gods], he has this ability."

"and."

"According to my observation, he has some super-god-level technological items on him, but I'm not sure what they are at the moment."

"what?!"

Mo Kenantian's eyes widened. "Super god-level technological item?"

"Except for the ancestor of the ancient country of Moko, it seems that no one has ever claimed to have such a thing."

The core brain projected a mechanized female shadow.

"Our current strength is not enough to compete with it."

Mo Kenantian pondered for a moment and said:

"Let the Qinan family kill him?"

"The chance of success is less than one in a million."

The core brain's cold reply made Mo Kenan feel like he was falling into an ice cellar.

"Why?!"

"Just because of that Sand Sea Poison Emperor?!"

"But if we cooperate properly, we have a certain chance of delaying the Sand Sea Poison Emperor and beheading the mechanic."

The core mastermind shook his head and said:

"According to observation, the Sand Sea Poison Emperor is not a life form at the level of a Great Emperor. He should be above the Great Emperor."

"God... Godly item?!"

Mo Kenantian was shocked again.

"But according to the information we have, the Sand Sea Poison Emperor is at the level of the Great Emperor. How could he inexplicably reach the level of the Divine Grade?!"

The core mastermind shook his head and said:

"I don't know, but we no longer have the ability to fight them. The real solution is to negotiate with them and preserve our own strength."

"If possible, you can seek refuge from Xue Di and agree to his request to join the Fan Palace."

Hear this.

Mo Kenantian frowned, and before he could say anything else, the core brain continued:

"If the [Double God]-level mechanic beside the Sand Sea Poison Emperor finds me, I'm not sure if I will also be controlled by him."

"Now, immediately, negotiate with the Sand Sea Poison Emperor, or negotiate with the Snow Emperor. We don't have much time."

"According to the current situation, we may not be able to hold out for half a month."

Mo Kenantian shook his head, "I'm going to negotiate with the Poison Emperor of the Sand Sea!!"

"They want territory, if that's not possible, just accept them and we can all live in peace."

"The Mekoradin Desert is so large, if they have more, it will just be a matter of taking less resources."

The words fell.

Mo Kenan went out.

"stop!"

At this moment.

The voice of the core mastermind sounded again.

"Do you still want the Qinan family to take action? I have already told you the result."

Mo Kenantian shook his head, "You guessed wrong, I do want to deal with the Sand Sea Poison Emperor, but I think we don't need to join the Mortal Palace, nor do we need to retreat."

"Helm of Heavenly Punishment?"

The core mastermind was thoughtful, "The Snow Emperor is not as simple as she seems on the surface. Moreover, according to my analysis, there is a 45.395% probability that the Sand Sea Poison Emperor attacked us and was pushed by the Snow Emperor behind the scenes."

"Isn't there still a probability of more than fifty?"

"In that case, let them fight!!"

The core brain said nothing more and watched Mo Kenantian leave.

at this time.

Lin Tianhao was in the Kingdom of Mokesha, and he did not deliberately hide his location.

Because he already knew the battle situation.

He wanted to see how the Future Chamber of Commerce would react under such a war situation.

and.

Lin Tianhao was a little bit looking forward to it.

What choice will Mo Kenantian make in the current situation?

You can resist with a backup plan, or you can come out to negotiate and try to settle the matter peacefully!

Or... find help.

If they need help, who can they turn to?

The answer seems to be ready.

As if to confirm Lin Tianhao's idea, Mo Kenantian came in front of Lin Tianhao.

"Mo Kenantian, what a rare guest you are. How come you have time to come to see me?" Lin Tianhao said.

Mo Kenantian smiled bitterly and said:

"Xue Di, don't pretend you don't know. We in Mo Ke Sha are fighting fiercely right now. You should know about it."

Lin Tianhao nodded and said:

"Aren't they just a few natives from the former Mokolatin Desert? For your future Chamber of Commerce, it's nothing more than a simple sprinkle of water."

Mo Kenan waved his hand and said:

"If it could be solved by just sprinkling some water, I wouldn't have come here."

That's it.

Mo Kenantian's eyes fell on Lin Tianhao and he asked very seriously:

"Snow Emperor, tell me the truth, did you invite the Sand Sea Poison Emperor?"

Lin Tianhao smiled slightly and said:

"If I take action, there will be an easier way to destroy you."

This was not a denial by Lin Tianhao. After all, he had not really taken action yet.

Mo Kenan waved his hand and said:

"The Sand Sea Poison Emperor is at the divine level, did you know that?"

Lin Tianhao raised his eyebrows slightly, "Is the Sand Sea Poison Emperor so powerful?"

That's it.

Lin Tianhao changed his subject and said:

"Mo Kenantian, you came to me for more than just asking these questions, right? If you have anything to ask, just tell me. I don't like wasting time."

Mo Kenantian said with a firm expression:

"I would like you to help kill the Poison Emperor of the Sand Sea and the mechanic beside him."

Chapter 1424 Gu Limu Lan Ling!

Lin Tianhao raised his eyelids slightly and said:

"Mo Kenantian, you are asking too much. There are so many experts in the Godly Realm and in the Mo Ke Ladin Desert. You want me to kill them. You think too highly of me."

Mo Kenantian frowned slightly and said in a deep voice:

"Snow Emperor, looking at the entire vast continent, I really can't think of anyone other than you who can deal with the Sand Sea Poison Emperor."

Lin Tianhao shook his head and said:

"I am indeed not afraid of the Sand Sea Poison Emperor, but I am still unable to kill a powerful person at the Godly Level."

Lin Tianhao was not joking. Even if he asked his God-level subordinates to attack together, it would be unrealistic to kill another God-level subordinate.

After all, once he reached the divine level, if someone insisted on running away, Lin Tianhao would not be able to stop him at all.

"Then I want you to expel them, how about that?" Mo Kenantian said.

"When I say expulsion, I mean the kind that won't come back for at least a hundred years."

Lin Tianhao frowned slightly and said: "I may need to negotiate with them, but what reward can you give me?"

"Ding, Mokenantian has issued you the mission [Protect the Mokesha Kingdom]."

【Protect the Kingdom of Mokosha】

"Mission requirements: Expel the Poison Emperor of the Sand Sea and the mysterious mechanic, and prevent them from setting foot in the Mokosha Kingdom for a hundred years."

"Mission penalty: None."

"Mission Reward: Free Attribute Points +10000, Sky Punishment Helmet +1."

"Ding, do you want to accept it?"

Lin Tianhao chuckled, "Mo Kenantian, you are not honest, are you setting a trap for me?"

"You are not allowed to set foot in the country of Mokesha within a hundred years. Does that mean that I will complete your mission only after a hundred years?"

"and."

"For strong men like the Sand Sea Poison Emperor, I can only ask them to retreat. I will not attack you again unless it is absolutely necessary."

Mo Kenantian frowned and did not answer immediately.

After a while, he said:

"Okay, that's it."

Mo Ke Nantian is very clear about the current situation of the Mo Ke Sha Kingdom.

half a month.

To be precise, they wouldn't even last half a month before their country was destroyed.

"Okay, I'll try my best to talk to you." Lin Tianhao said.

"After all, it was me who awakened the Poison Emperor of the Sand Sea. Besides, I can also accept the natives of the Mokolatin Desert. There shouldn't be much of a problem."

The words fell.

Lin Tianhao said goodbye and left.

really.

There are many ways to achieve your goals.

All roads lead to Rome, this saying is absolutely true.

The next things were much simpler. Lin Tianhao only gave an order and persuaded the Poison Emperor of the Sand Sea and the indigenous people of the Mekolatin Desert to retreat.

In the Mountain and Sea Empire, Lin Tianhao separated out a large piece of open space near the ocean, allowing the indigenous people of the Mekolatin Desert to build a city here.

The living environment here is much better than that of the Mokoradin Desert. In addition, because of the Poison Emperor of the Sand Sea, they all accepted it with pleasure.

However, there were still too many original indigenous inhabitants of the Mekolatin Desert, and this piece of land was not large enough to accommodate them.

therefore.

Lin Tianhao selected a dozen or so plots of land with relatively large areas and few towns around them and gave them to them so that they could establish a city-state and live and work in peace and contentment.

These dozen pieces of land are quite large. The Shanhai Empire is vast, and there are many places that have not been built.

The dozen or so places that Lin Tianhao selected for them are equivalent in size to some small countries.

This is more than enough to accommodate the indigenous people of the Mekolatin Desert.

When all these are arranged.

Lin Tianhao discovered that his health points began to increase at a speed visible to the naked eye.

This is the effect of the Human King's Order!!

The arrival of these indigenous people of the Mekolatin Desert increased the total population of the Shanhai Empire.

The population of the entire Mekoradin Desert should not be underestimated, it is still at least tens of billions.

The land that Lin Tianhao divided out accommodated some of the indigenous people of the Mekolatin Desert.

There are also many indigenous people of the Mekoradin Desert who choose to live directly in the native cities of the Shanhai Empire.

These tens of billions of people were quickly accepted by the Shanhai Empire.

Lin Tianhao's health points increased by more than 500 billion in one go! !

As for why the increase was so great, one reason was that Lin Tianhao had equipment such as Heavenly Punishment and Tears of the Goddess of Life, which increased health points.

Another reason.

It is the arrival of these tens of billions of people that has increased Wang Ling's proportion from 83% to 84%.

The one percent increase has significantly improved Lin Tianhao's health.

After all, Lin Tianhao's health points are already very high. Even if it increases by one percent, the overall increase to Lin Tianhao cannot be underestimated.

and.

According to Lin Tianhao's speculation, the reason why the increase was only one percent this time was because only the population increased, not the territory.

The increase given by the Human King Order is a comprehensive calculation based on the current situation.

The increase in the Human King Order places more emphasis on territory.

The country of Mokosha.

Extraterritorial place.

Lin Tianhao has to find a way to get these territories.

But before that, he still needs to get the two pieces of Sky Punishment equipment from the Future Chamber of Commerce.

Now that the trouble with the Poison Emperor of Sand Sea has been resolved, Lin Tianhao can now go to Mo Kenantian to submit the task.

but.

Before Lin Tianhao found the Poison Emperor of Sand Sea, a figure blocked his way.

Lin Tianhao narrowed his eyes and said coldly:

"You still dare to appear in front of me now, you are so brave!!"

Lin Tianhao did not recognize the person who appeared in front of him, but his nickname, Lin Tianhao, could reveal his identity.

Gu Limu Lanling!!

Alet Galaxy, the Gulimu family!!

"I had to come."

Gu Limu Lan Ling said helplessly:

"I really don't understand what deep hatred we have."

"Even if you are really an exile from the planet, it doesn't mean we can't talk."

Lin Tianhao chuckled, "Talk? How? All of you retreat and talk later!!"

"But...are you willing?"

Gu Limu Lan Ling smiled bitterly and shook his head, saying:

"Xuedi, everyone calm down, okay?"

"The previous poisoning incident at the border of your Shanhai Empire really has nothing to do with us."

"We have also investigated. They are people from Zhongzhou Continent and the people behind the holy places in Haomiao Continent that you destroyed."

Lin Tianhao waved his hand and said:

"It doesn't matter whether you are the one who poisoned me or not. Your purpose in coming to the Galaxy World means that we cannot live in peace."

Gu Limu Lanling shook his head and said seriously:

"Why can't we just live in peace?"

"You will go to the God's Realm sooner or later. Once you get there, this place will be nothing to you."

Chapter 1425: Heavenly Punishment Helmet!

Hearing what Gu Limu Lan Ling said, Lin Tianhao couldn't help but find it a little funny.

"In that case."

"You are the same. Don't you people from the Arlate Galaxy have a good life in your own Arlate Galaxy? Why do you come here?"

Gu Limu Lanling shook his head and said helplessly:

"There are some things we don't have a choice about."

"I don't even know why. We had many options, but the higher-ups chose to let us come here."

That's it.

Gu Limu Lan Ling spread his hands, sighed, and then said:

"Xue Di, we have no choice, but you are different. You still have room for choice."

Lin Tianhao raised his eyebrows and said:

"That's because you think I still have room for choice, not me."

"okay."

"You didn't come to me just to talk nonsense, did you? If you have anything to say, just say it."

Gu Limu Lanling nodded and said straight to the point:

"I hope you stop killing top U.S. officials."

When Lin Tianhao heard this, he almost laughed out of anger.

"No."

"Gu Limu Lan Ling, are you a funny guy hired by Monkey? What qualifications do you have to influence my decision?"

Hearing Lin Tianhao's words, Gu Limu Lanling was not angry, but went straight to the point and said:

"If you still want Blue Planet and living humans, then you'd better think about it carefully."

Hear this.

Lin Tianhao shook his head and said:

"If you say so, then there is no need for us to continue chatting. Even though you are a clone, I still don't intend to let you go!!"

Gu Limu Lan Ling took a deep breath and said:

"Xuedi, why don't you believe me? The trend cannot be violated. Not now, but later when that great being in your Galaxy World can no longer hold on, we only need a saint to take action, and you won't be able to stop us."

"What's more, we have far more than just one Saint!!"

Lin Tianhao chuckled and said:

"You are right. I cannot refute it. However, the saint-level strongmen in your Alete galaxy should not act rashly."

Gu Limu Lan Ling said helplessly:

"To be honest, I don't want to invade your galaxy world, but due to some force majeure factors, we have to come."

"I still admire you very much, Xue Di. When you go to the Divine Realm, your future achievements will be immeasurable. There is no need to be stupid here."

Lin Tianhao smiled noncommittally, "If it's foolish for me to want to protect my home, then I have nothing to say."

Gu Limu Lan Ling opened his mouth, but in the end, nothing came out.

Lin Tianhao attacked without hesitation and killed Gu Limu Lan Ling.

Even though Gu Limu Lan Ling was just a clone, Lin Tianhao still couldn't let him go.

After killing Gu Limu Lan Ling, Lin Tianhao finally showed a smile on his face.

just.

Behind the smile.

The pressure in Lin Tianhao's heart was growing.

This doesn't allow him to be stress-free.

In fact, he was also very clear that after the catastrophe was over, it would be easier for those guys in the Alate galaxy to target him.

Take back your thoughts.

Lin Tianhao summoned the Kunlun Mirror and headed towards the Future Chamber of Commerce.

Future Chamber of Commerce.

Lin Tianhao met Mo Kenantian smoothly.

There was no smile on Mo Kenantian's face when he saw Lin Tianhao.

He said somewhat perfunctorily:

"Congratulations, you completed the task so easily."

Lin Tianhao raised his eyebrows and said:

"You say congratulations so reluctantly."

Mo Kenantian pointed at himself and said:

"Do you know that the top executives of the Future Chamber of Commerce are now pointing at me and scolding me, saying that I am a fool."

"You said that the Sand Sea Poison Emperor was instigated by you. I will also give you the Heavenly Punishment Equipment."

Lin Tianhao raised his eyebrows slightly, a faint smile appeared on his face, and said:

"You think so too?"

Mo Kenantian shook his head, "I don't know, but you handled this matter so smoothly."

Lin Tianhao couldn't help but sneer, "Is it not good enough that I handled it smoothly? Does it have to be full of twists and turns?"

"how?"

"Just because I didn't fight with the Sand Sea Poison Emperor and the others?"

That's it.

Lin Tianhao changed the subject and said in a very solemn tone:

"Mo Kenantian, you have just revived, you may not know that this world is not about fighting and killing, but about human relationships and worldly wisdom!!"

"It was me who revived the Sand Sea Poison Emperor. The Sand Sea Poison Emperor owes me a huge favor."

"and."

"I was able to resettle the indigenous people of the Mekolatin Desert, which was a reasonable solution to their demands."

Mokenantian nodded and said:

"Anyway, you did complete the task I assigned to you, and now the reward is yours."

"Ding, congratulations, you have successfully completed Mokenantian's mission [Protecting the Mokesha Kingdom]."

"Mission Reward: Free Attribute Points +10000, Sky Punishment Helmet +1."

Lin Tianhao showed a faint smile on his face and said:

"Thank you, goodbye."

Lin Tianhao summoned the Kunlun Mirror and went straight back to the Fan Palace.

Next.

I'm just preparing to change jobs.

He had been stuck at the fifth level for a while, and now he could finally move forward and complete the sixth level.

After returning to the Fan Palace, Lin Tianhao immediately took out the Sky Punishment Helmet and began to check the properties of the Sky Punishment Helmet.

Sky Punishment Helmet: Unknown.

Wearing requirements: Heavenly Punishment Archer.

Effect 1: God's punishment attack speed +1, not affected by the phased reduction of attack speed.

Effect 2: Percent damage reduction by 5%, still effective against god-level attacks.

Effect 3: Can block a fatal attack, cooldown for one hour.

Effect 4: Luck +10.

Effect 5: Mental clarity, enlightenment speed +10 times.

Effect 6: Maximum health increased by 50%.

Effect 7: Maximum armor increased by 50%.

Effect 8: Maximum magic resistance increased by 50%.

Effect 9: Enlightenment Brain (If you release it actively, you can increase your enlightenment speed by times, lasting for one day, and the cooldown time is one month.)

Wear resistance: cannot be destroyed, cannot be stolen after wearing, cannot be dropped.

Most of the attributes of this Brain of Heavenly Punishment are similar to Lin Tianhao's previous attributes.

The only thing that Lin Tianhao was more concerned about was the skills attached to the Sky Punishment Helmet.

This skill is a little bit against the sky!!

Although the skills attached to the previous Sky Punishment equipment were equally amazing.

But this time, the skill that comes with the Sky Punishment Helmet is simply amazing.

Although there is no obvious improvement in Lin Tianhao's combat power, this is a skill that can help him improve his level of enlightenment in the long term.

Increase ten thousand times!!

What is this concept.

That is equivalent to one day of enlightenment, which is equivalent to 27.3 years of enlightenment! !

The key is that the cooling-off period is only one month!!

Yes, only!!!

Chapter 1426. 6th turn, heaven and earth are united!

If it were any other skill, Lin Tianhao would definitely not use only two words.

A month of cooling off is actually quite a long time.

But if you look at the corresponding skill effects.

How long?

To be honest, not long at all!!

Lin Tianhao didn't want to waste any time, even though he should change his job first, he still decided to use the Enlightenment Brain first.

After all, the sooner this skill is used, the sooner it cools down.

"Use the Enlightenment Brain."

Lin Tianhao began to attain enlightenment after using the Enlightenment Brain.

This time I realized the truth.

Lin Tianhao only felt that the way of wandering between heaven and earth was so simple.

and.

In order to achieve quick success, Lin Tianhao plans to continue to comprehend the way of space.

Because of Silver-Eyed Nicholas, Lin Tianhao's affinity for space increased a thousand times, which in itself gave Lin Tianhao a very deep understanding of space.

and.

Lin Tianhao's way of space has reached the seventh level of the realm of asking for the way. Among all the ways, this level can be considered very high.

After reaching the realm of Tao, that is the real realm of Tao.

If he could step into the true realm of Tao, Lin Tianhao's Sky-Splitting Domain might undergo some changes.

The time of enlightenment passed quickly and night fell quickly.

At this moment.

In the ordinary palace.

All eyes converged on the place where Lin Tianhao was meditating and attaining enlightenment.

"This breath..."

"This is... breaking the shackles, breaking through the limits!!"

"That's where the Palace Master is. Has the Palace Master reached the tenth level of the Dao Realm?!"

The tenth level of the Asking Dao Realm!!

This is considered very good not only among adventurers, but even among NPCs like them.

Stepping into the tenth level of the realm of seeking the Tao would mean breaking the limits of ordinary enlightened people.

Because ordinary people who have attained enlightenment, after reaching the ninth level of the realm of Taoism, will take one step further and reach the first level of the realm of Taoism.

But Lin Tianhao did not reach the first level of Dao Realm, but the tenth level of Dao Realm!!

Not only that.

Lin Tianhao was still making rapid progress at this time.

The moon sets and the sun rises!!

Ripples appeared in the space around Lin Tianhao again.

The eleventh level of the Dao realm, accomplished! !

After reaching the ninth level of the Dao Realm, progress becomes extremely difficult.

Lin Tianhao broke through the shackles one after another during this day and reached the eleventh level of the Asking Dao Realm! !

At this moment.

Lin Tianhao could clearly feel his control over the space.

He took a step forward, traveled directly through space, and arrived a hundred meters away.

This is not a skill.

It is the ability that Lin Tianhao acquires after his spatial way reaches the eleventh level of the realm of asking for the Way.

but.

After Lin Tianhao reached the eleventh level of the Dao Realm, he could clearly feel that if he continued to gain enlightenment and improve himself, the difficulty would increase exponentially.

"Your talent is too strong."

Niederif's voice came.

"I have seen many geniuses, but there are very few who can reach the eleventh level in the realm of asking for the truth."

"and."

"I can feel that this is far from your limit. You should be able to go further, right?"

Lin Tianhao smiled slightly and said:

"It's a bit tricky."

Lin Tianhao is not joking.

It was indeed a bit of a trick for him to reach the eleventh level of the Asking Dao Realm.

Jade disc of good fortune, spatial affinity, divine brain of enlightenment!!

Lin Tianhao's blessing is a bit too much.

If it weren't for the support from so many aspects, it would be difficult for Lin Tianhao to reach this point.

But no matter what, Lin Tianhao has reached this step now.

just.

With the support of so many factors, he only reached the eleventh level of the Asking Dao Realm.

It seems that it is not easy for him to achieve the pinnacle of enlightenment.

However, it was almost as he expected. After reaching the eleventh level in the Dao Realm, his Sky-Splitting Domain had been significantly improved.

Not only that.

Lin Tianhao can now understand why many people only comprehend one kind of great truth.

The main reason is that enlightenment takes too much time.

If he had not had so many factors supporting him, it would have taken him at least thirty years to reach his current level of success.

Thirty years.

To the gods, it may not mean much, but to mortals, it is too long.

"No wonder it's so difficult to attain enlightenment and become a god."

Lin Tianhao murmured to himself.

The threshold to enlightenment and becoming a god is the first level of the Tao realm, but now, he has not yet reached the first level of the Tao realm.

This difference is too obvious.

of course.

If he had not reached the eleventh level of the Dao Realm this time, if he had started to reach the Dao Realm from the ninth level, he would most likely have reached the first level of the Dao Realm by now.

But nevertheless.

Lin Tianhao still did not regret his attempt to reach the eleventh level of the Asking Dao Realm.

He was even ready to attack the twelfth level of the realm of asking for the way.

Because the more solid the foundation laid in the early stage, the higher the achievements in the later stage will be.

and.

After meeting Gu Limu Lan Ling this time, Lin Tianhao felt even more that he should first improve his core avenue, so that he would be able to cope with the future fusion of Ragnarok and reality.

If you are too greedy, you may not get good results.

Thinking like this.

Lin Tianhao went to the secret realm of the ancient dynasty.

Still the same.

Using absolute teleportation to reach the secret realm of the ancient dynasty, Lin Tianhao began to change his job.

This time the job change went smoothly and there were no unexpected events.

After completing the job change, Lin Tianhao poked his hands and became slightly expectant.

After completing the job change, he will not only get the level cap lifted, but most importantly, he will get a skill for his profession.

The professional skills he had obtained from his previous job change were very powerful, which inevitably made Lin Tianhao look forward to the skills he would obtain this time.

Heaven and earth are united: super god level.

Effect: If you release it actively, you will be in harmony with the heaven and earth. The great Dao of heaven and earth will gather around you. If you use this to gain enlightenment, your enlightenment speed will increase ten thousand times. If you use this to fight, you can cut off your opponent's understanding of the Dao. The duration is five minutes.

Consumption: None.

Cooling: One hour.

Proficiency: Cannot be upgraded.

Lin Tianhao narrowed his eyes slightly. This skill...

It is said to be used to assist enlightenment, but it only lasts for five minutes.

These five minutes are too short and not enough.

Even a ten thousand times blessing is not enough. After all, there is the Enlightenment Brain in front. The difference between ten thousand times in five minutes and ten thousand times in twenty-four hours is not a little bit.

and so.

this skill.

The real power lies in the ability to cut off the opponent's control over the Tao.

"Black Sky Ao Zhen, Burning Heart Nightmare."

Lin Tianhao directly summoned Hei Tian Ao Zhen and Fen Xin Meng Yan and said, "Take a look, can you still use the power of Tao?"

While saying this, Lin Tianhao had already used the skill Heaven and Earth United.

"this--"

Hei Tian Ao Zhen's pupils suddenly shrank, "I... I can't sense the existence of Tao at all, as if there is no Tao between heaven and earth anymore!!"

Chapter 1427 The weapons of the ancestors of the Mokesha Kingdom!

Burning Nightmare frowned and said slowly:

"I can still feel the Dao between heaven and earth, but I can no longer mobilize it."

"Because these paths were separated from me by an invisible force."

That's it.

Burning Heart Nightmare looked at Lin Tianhao in disbelief and said:

"Sir, is this what you are doing after your job change?"

Lin Tianhao nodded slightly and said:

"good."

After completing the sixth transformation, I gained a new skill, which is the ability to cut off the opponent's understanding of Tao.

What Lin Tianhao didn't say was that this skill was also a range skill. After he used it, he would cut off all the roads within a radius of ten thousand meters.

In other words.

If it is in a battle, Lin Tianhao can have five minutes to prevent the opponent from using any unnatural means.

When Lin Tianhao met those top masters, he could easily be immobilized and unable to move.

This kind of long-term immobilization method rarely requires skills, but is basically the power of Tao.

Just like Lin Tianhao.

After reaching the eleventh level of the Space Realm, he can travel freely through the void.

It's a shuttle without cooling!!

However, due to the limitation of his level of Tao, the distance he travels each time will not be too far.

The only thing to be thankful for is that the application of Tao consumes relatively little energy on itself.

Because Tao is a kind of control over the great way of heaven and earth, one only needs to use a small amount of power as a trigger to activate the power of Tao.

If it is a legendary void skill, it may consume one thousand mana points at a time.

Kedao can travel through the void, and only consumes 100 mana points at a time.

Because there are still 900 points of mana coming from between heaven and earth.

It can also be said to be the power of heaven and earth.

When one's understanding of Tao reaches a certain level, one will be able to mobilize the power of heaven and earth.

Lin Tianhao's travel through the void is to mobilize the power of space between heaven and earth.

Take back your thoughts.

After testing the usefulness of the Heaven and Earth Unity, Lin Tianhao began to think about what to do next.

This time you get the Sky Punishment Helmet, which increases your maximum health by 50%.

of course.

This is a 50% increase in the basic health value, not an additional increase in the health value after the increase.

Lin Tianhao's current basic health value is about ten trillion.

therefore.

A 50% increase of 10 trillion would be as high as 5 trillion.

Lin Tianhao's health points exceeded 35 trillion in one breath, and it was not far from 36 trillion.

This growth rate is still very fast.

Next.

Lin Tianhao has to continue to change his job. Either go to the outside world, or continue to look for Mo Kenantian.

The land outside the domain is unknown, so Lin Tianhao still plans to find Mo Ke Nantian.

Future Chamber of Commerce.

Mo Kenantian still came out to meet Lin Tianhao, even though the incident with the Poison Emperor of Sand Sea made Mo Kenantian feel that he had been cheated.

But he had no substantial evidence.

and.

Even if we take a step back and talk about the matter of the Poison Emperor of Sand Sea, even if Lin Tianhao really had tricked him, he had no choice.

After all, they could not deal with the Poison Emperor of Sand Sea and the mechanic codenamed "Double Gods".

"Xue Di, you came here this time to get the second piece of Heavenly Punishment equipment, right?"

Mo Kenantian didn't waste any words and went straight to the point.

Lin Tianhao nodded, "Open, since you know my purpose, just tell me directly."

"I still can't accept two-dimensionalization. Let's change the task." Lin Tianhao said.

Hear this.

Mo Kenantian thought for a moment and said:

"I want the life of the mechanic who came with the Poison Emperor of the Sand Sea to attack our Mokosha Nation."

"Killing him should be easy for you, Xue Di. Kill him, and the remaining Heavenly Punishment Equipment will be yours."

Lin Tianhao narrowed his eyes and said:

"What hatred or grudge do you have? Why are you targeting a mechanic?"

God Mokenan said with a serious expression:

"Xue Di, this is the simplest task I can give you. If you don't agree to it, then there is nothing to say."

Lin Tianhao narrowed his eyes and said:

"another."

"How to change?"

Mo Kenantian's face looked a little unhappy. "Killing a person can get the Heavenly Punishment Equipment. Isn't this simple?"

"The mechanic's own combat power isn't that strong, there's no way you can't do it."

Lin Tianhao spread his hands and said in great embarrassment:

"Mokenantian, do you know that all living beings are equal?"

Hear the words.

Mo Kenantian frowned, "It's just words to deceive ignorant people. The rules of this world are destined to never allow all beings to be equal."

Lin Tianhao smiled bitterly, "You are right."

"But..."

"This mechanic you mentioned...may be able to achieve something as close to equality for all beings as possible."

"Oh?"

Mo Kenantian looked at Lin Tianhao in surprise and said:

"How do you say this?"

Lin Tianhao said with a serious face:

"The mechanic has a weapon in his hand called equality for all."

"Whether you are a first-level professional or a ninth-level professional, all beings are equal and we treat them all equally!!"

"what?!"

Mo Kenantian's eyes narrowed slightly and his expression became very ugly.

"If what you said is true, then he really hasn't used his full strength yet."

"He believes that all living beings are equal. How wide is his killing range?" Mo Kenantian asked.

"One third of the Mokesha Kingdom is not a big problem." Lin Tianhao said.

Hear this.

Mo Kenantian took a deep breath. What happened today was a little hard for him to accept.

"In other words, we only need three Equality of All Beings to finish off our Mokosha Nation."

"Only our ancestor had weapons of this level."

Lin Tianhao was not surprised, because he had also speculated that the mechanic who established the ancient country of Moko was not an ordinary person.

"Does your ancestor have it too?"

Mokenantian nodded and said:

"Yes, and there is more than one."

"One of them, as you know, is a two-dimensional weapon. However, the two-dimensional weapon of our ancestor has a very large coverage area. It can easily cover half of the country of Mokosha at a time."

Lin Tian took a deep breath and felt a chill down his spine.

When these mechanics grow up, each one is more terrifying than the other.

"There are two other types. One is in the form of energy waves. This has a wider killing range, but the destructive power is not great. It is very harmful to living organisms."

"The other type is the kind that can directly destroy the heavens and the earth. It's a pure high-explosive weapon."

Lin Tianhao was secretly shocked. Fortunately, their ancestor was not here now, otherwise, once these weapons were launched, his Shanhai Empire would not be able to withstand it.

"Mo Kenantian, I'm telling you this because I want to tell you that I can't touch that mechanic."

"If he uses the Equality of All Beings against the Shanhai Empire, I won't be able to handle it."

Mo Kenantian frowned slightly and said:

"Can't you stop him from saying that all beings are equal?"

Chapter 1428 Mo Kenantian shows his fangs!

Lin Tianhao smiled bitterly and said:

"Mo Kenantian, how can a weapon of this level be intercepted just by saying so?"

"You should change your mission."

Mokenantian shook his head and said:

"Xue Di, it's not that I don't want to change the mission, but I don't have a suitable mission anymore."

"Why don't you consider my suggestion? There is no danger in two-dimensionalization. You still have two subordinates at the level of the Great Emperor. Unless I am crazy, how could I possibly plot against you?"

Lin Tianhao spread his hands and said:

"I still feel it's inappropriate. Let's talk about it when we have a chance."

The words fell.

Lin Tianhao turned around and prepared to leave.

Stay here.

Mo Kenantian's indifferent voice sounded.

"Xue Di, the drawings in the Mo Ke Ancient City are really very important to us. I hope you can understand."

Lin Tianhao narrowed his eyes and said:

"From what you said, it seems that you are going to use force?"

The moment Lin Tianhao finished speaking, he felt that his body could not move.

"Xue Di, this is the only solution. I don't want to go this far unless it's absolutely necessary."

Lin Tianhao angrily shouted:

"Are you cheating on me?"

Looking at the beams of light falling on him, Lin Tianhao was very surprised.

Because these beams of light not only imprisoned his body, but also his soul.

Especially that gray beam of light, which silenced most of his skills.

"Snow Emperor, the Mokesha Kingdom has just recovered and is facing a crisis of national destruction. We must make plans early."

"Something happened in Zhongzhou Continent. Some people came from Zhongzhou Continent in the past two days. The pressure on us is too great. We must have enough strength to protect ourselves."

Lin Tianhao said with a cold face:

"If you want to protect yourself, why not join my Mortal Palace?"

Mokenantian shook his head and said:

"Xuedi, why don't you understand?"

"We are an independent sovereign country. It is impossible for us to merge with other countries, and naturally it is impossible for us to join the Fan Palace."

Lin Tianhao did not rush to take action, but asked:

"I don't want to. Even if you turn me into two-dimensional, it won't help."

Mokenantian shook his head and said:

"Xue Di, we have a method. Our brain-computer interface technology is already very mature. As long as we implant a chip in your brain, we can control your thoughts and complete control over your body."

A cold light flashed in Lin Tianhao's eyes, "You are so ambitious, you want to enslave me."

"Xue Di, you have a bright future, and you control the Fan Palace and the Shanhai Empire."

"and."

"I have already investigated clearly. That mechanic is your man. It was you who asked them to attack our country of Mokosha."

"If you are unkind first, don't blame me for being unjust."

Mo Kenantian was very indifferent, "If we enslave you, it means we will control the Fan Palace and the Shanhai Empire, and even the [Double God] mechanic. This is a great profit for us."

"I have no reason not to be moved."

A cold light flashed in Lin Tianhao's eyes, and he said:

"No one who tries to scheme against me will have a good ending."

Mokenantian smiled and said:

"Wealth and honor are sought through risk. If you don't try, who knows the outcome?"

"and."

"You probably haven't fought against a technological civilization like us before. You don't know a lot of our methods."

"Just like these immobilization beams and silencing beams, they can immobilize your body and soul and silence all your skills, even god-level skills!!"

"Even if you have the means, you can't use them now."

Hear it here.

Lin Tianhao couldn't help but reveal a playful smile on his face.

"You are so confident, don't you know that there are some skills that are at the saint level?"

Mo Kenantian nodded, "Of course I know this, and I also believe that with your status as Xue Di, you should have saint-level skills."

"But at this stage, the saint-level skills you can access are not too strong, so I don't need to be afraid."

Lin Tianhao narrowed his eyes and said:

Under the guidance of Mo Ke Nantian, Lin Tianhao returned to the frozen map of the ancient city of Mo Ke.

The content deduced by Tianji Pavilion immediately emerged in Lin Tianhao's mind.

He will kill Mo Ke Nantian here, and then a phantom will rush out from the map of Mo Ke Ancient City and try to take over his body.

of course.

It is not certain whether it is a case of possession, but the scene here seems to have begun to overlap with the situation deduced by the Tianji Pavilion.

Is it today?

Lin Tianhao was mentally prepared for the battle.

He still has invincibility yet to use it.

and.

Lin Tianhao wanted to see if something unexpected would happen if he didn't kill Mo Kenantian first.

Seeing that Lin Tianhao seemed to have no power to resist, the smile on Mo Kenantian's face became more intense.

"Snow Emperor."

"Next, I will personally connect the brain-computer chip to you. From now on, you will do things according to the program I set for you."

A cold light flashed in Lin Tianhao's eyes. Seeing Mo Kenantian preparing to take action, he sighed:

"Mokenantian."

"I really didn't intend to kill you right now, but you insisted on seeking death. It would be unreasonable for me not to kill you."

Hear this.

Mo Kenantian's expression changed slightly, and before he could react, several feather arrows flew towards him.

Light shields appeared one after another, trying to block Lin Tianhao's feather arrows.

Lin Tianhao didn't care at all.

Without saint-level means, there is no way to resist his feather arrows.

and.

Lin Tianhao's feather arrows are still flying out continuously. Mo Kenantian is not weak, but it depends on who he is compared with.

Seeing that the shield condensed around his body was unable to block Lin Tianhao's feather arrows, Mo Kenantian's expression changed slightly. His body blurred and it seemed that he was still there, but Lin Tianhao could sense that his real body had left.

just now.

Still standing there was just a shadow.

But how could such a deceptive method possibly confuse the Heavenly Punishment Lock?

The feather arrows continued to chase towards Mo Kenantian.

The space around Mo Kenantian was rippling. That was the space jumping device. He ran away.

But Yu Jian still chased out.

After running for about five minutes, Mo Kenantian came back.

"Xuedi, we have something to discuss."

Mo Kenantian was a little panicked at this time because Lin Tianhao's feather arrows were chasing him relentlessly.

Even if he used space to jump away, Lin Tianhao's feather arrows still chased him.

Lin Tianhao said coldly, "Do you know how to discuss it now?"

"From the moment you prepared to enslave me, your fate was already determined."

"Do not!!"

Mo Kenantian was very angry, but judging from the short period of time he had fought with Lin Tianhao's Sky Punishment Feather Arrow.

He knew very well in his heart that he could not resist these arrows.

If he continues to chase like this, he will definitely die! !

Chapter 1429 Kill Mo Kenantian!

"Snow Emperor, don't go too far. We in the Mokesha Kingdom have many powerful weapons. If we send them all to your Shanhai Empire, you may not be able to handle it!!"

Mo Kenantian knew very well that it was impossible to beg Lin Tianhao to let him go.

All he can do is threaten!!

There are so many people in the Shanhai Empire. Even if Lin Tianhao is cold-blooded and ruthless, he dare not gamble with the lives of so many people.

"Are you threatening me?" Lin Tianhao said.

"Do you think I'm really afraid of your country of Mokosha?"

Mo Kenantian snorted angrily, "Xue Di, you forced me to do this. I will give the order now to launch a full-scale attack on the Shanhai Empire!!"

"You may not have a chance." Lin Tianhao said coldly.

Mo Kenantian immediately prepared to continue using space jump to leave.

But the next moment.

He was stunned.

Because he found that he couldn't move.

As for the reason.

Of course it was Burning Heart Nightmare who took action.

Mo Kenantian was imprisoned, and he could no longer resist Lin Tianhao's feather arrows. He could only watch as Lin Tianhao's feather arrows locked him and killed him.

"Ding, congratulations, you have successfully killed Mo Kenan Tian. We will announce it to all servers soon. Do you want to hide your name?"

"hide."

Mo Kenantian has a special identity and Lin Tianhao has not made any arrangements yet. If he really kills Mo Kenantian because of him and the Mo Kesha Kingdom launches an all-out attack on the Shanhai Empire, he will still suffer considerable losses.

"Announcement to all servers, congratulations to the player who hid his nickname and successfully killed Mo Ke Nan Tian. We hereby announce this and hope all adventurers will keep up the good work!!"

.....

The server-wide announcement had just sounded when a shadow flew out from the frozen map in front of Lin Tianhao and was already in front of Lin Tianhao in an instant.

Invincible blur! !

Lin Tianhao released the Invincible Void without any hesitation.

at the same time.

Burning Heart Nightmare also took action. He appeared from behind Lin Tianhao and slapped the phantom with one palm.

This scene.

Lin Tianhao had already calculated this when he used the Tianji Pavilion to deduce it before, so when he was killing Mo Kenantian, he was always on guard against the ice map.

The phantom was slightly surprised to see that Lin Tianhao had actually broken free from the beam of light.

But his surprise turned into panic in the next moment.

"A powerful god-level warrior!!"

The phantom shrank back into the frozen map at a faster speed than when it came.

"Want to go?"

Burning Heart Nightmare snorted coldly, and the power of the Great Dao gathered in his palm, instantly grabbing the body of the phantom.

The shadow was startled and spit out a black chip.

The moment the chip was spit out, Burning Heart Nightmare's expression suddenly changed.

Because he actually felt a hint of threat from this chip.

He retreated his body, but the power of the Dao did not let go of the phantom.

The phantom's hair spread wildly, and it actually disintegrated the power of the Great Dao that imprisoned him at a speed visible to the naked eye.

Lin Tianhao's expression changed slightly, and he immediately summoned Hei Tian Ao Zhen and Pluto Bai Xiao Feng.

Now that the phantom has appeared, there is no reason to let it go back.

Not only that.

Lin Tianhao also released his invincible and virtual state, and used his three heads and six arms, plus the ability to shoot arrows from his heart, and opened fire at full power.

No matter what this phantom is, let's kill him first.

If it is the ancestor of the Mokesha Kingdom, then he will be put on the list of gods. If not, then it will be right to kill him.

After all, judging from the appearance of this shadow, it has no good intentions.

“Half a step to divine quality!!”

The phantom looked very ugly, and he didn't know how long he had been sleeping.

But why...

Why in the past, when even great emperors were rare, would I encounter a divine item and two half-step divine items here!!!

And this little guy's feather arrow actually contains the power of a saint.

What happened to this world?

Has the era of the emperor's fall ended, and has it now arrived an era where the emperor is worse than a dog and divine items are everywhere?

After a brief moment of shock, the shadow quickly spoke:

"Please show mercy. I am the first ruler of the ancient Mo Ke country. I can give you a great fortune."

Lin Tianhao grinned and said:

"If you give up resistance, I can also give you a great fortune!!"

Lin Tianhao is not joking.

If he kills this phantom, he will send it to the List of Gods, and it will be able to be resurrected in full condition. Isn't this a great fortune?

and.

What an honor it is to be able to lean on his super thick legs which are the most invincible in the universe.

Looking at the entire Ragnarok, there are countless people who want to get close to Lin Tianhao but don't have the chance.

The phantom's face looked a little ugly. What did it mean to give up resistance? Would it be a great fortune to be killed by him?

Isn't this pure nonsense? !

The phantom stopped talking, and chips appeared around him. These chips actually disintegrated the attacks of several people at a speed visible to the naked eye.

At this moment, the phantom also retreated back into the frozen map.

Lin Tianhao's face showed shock.

"This guy is outrageous. The four of us joined forces and we couldn't stop him."

Burning Heart Nightmare frowned and said, "It's because of the chips on him. They should be materials from the outer space. The grade may have reached the saint level."

Hear this.

Lin Tianhao's eyes couldn't help but light up.

There is no other reason.

Saint-level material, isn't that super-god-level material?

Lin Tianhao changed his job to become a world-destroying mechanic, and what he needed for the change was super-god-level mechanic materials.

and.

After reaching the ninth turn, if you want to reach the tenth turn, ordinary super god-level mechanic materials may not be enough.

Intuition told Lin Tianhao.

The chip on the phantom's body just now must not be an ordinary super-god-level item. If he can get it, then it will not be a problem for Kui Wei Changtian to advance to the tenth level.

But the question is, how to make this phantom appear.

"Brother, I didn't lie to you. Being killed by me is a great fortune for you."

Lin Tianhao said to the frozen map.

There was no reaction in the frozen map. Lin Tianhao looked around. This was the headquarters of the Future Chamber of Commerce. Mo Kenantian was killed by him here, and no one from the Future Chamber of Commerce came.

"Let's go. Since you don't want to come out, then don't come out again in the future."

Lin Tianhao directly lifted up the frozen map through the air.

He was not sure what the impact of touching the frozen map would be, so it was better to be careful.

After putting the frozen map back into his backpack, Lin Tianhao came to Mo Kenantian's body and began to touch it.

"Ding, mechanical drawings +3."

"Ding, activate the mechanical arm +1."

"Ding, free attribute point +2000."

.....

After searching the corpse, Lin Tianhao felt quite regretful that he did not find any equipment of Heavenly Punishment, so he gave a bad review.

It seems that he is not the biological son of the God of the Source of Tao, otherwise, he should have found the Heavenly Punishment equipment by touching the corpse.

Just as Lin Tianhao was thinking this, there were suddenly several roars above the sky, as if God was expressing his dissatisfaction.

Even though Lin Tianhao was deep underground in the Future Chamber of Commerce at this moment, he could still hear it clearly, as if it was exploding right next to his ears.

Chapter 1430 The Mokosha Kingdom cannot be destroyed!

Lin Tianhao coughed twice and quickly put his thoughts aside.

"Let's go."

"If the people from the Future Chamber of Commerce are unwilling to come out, then let us go find them."

With the Burning Heart Nightmare paving the way ahead, these gates of the Future Chamber of Commerce could not stop Lin Tianhao's steps at all.

just.

What Lin Tianhao never expected was that he had not met anyone since he came out of the Future Chamber of Commerce.

What about the people from the future Chamber of Commerce?

Not to mention living people, there are not even robots.

Lin Tianhao opened the chat list and sent a message to Berserker Blade.

"Blade, how is the situation in the Shanhai Empire now?"

There is no one here in the Future Chamber of Commerce. Could it be that they are really going to attack the Shanhai Empire as Mo Kenantian said?

"What's wrong? I haven't heard anything about what happened in the Shanhai Empire? Are those guys in the Alete Galaxy making any moves?"

"No."

"I just killed a high-ranking official of the Mokesha Kingdom. There is something unusual here. I want to see if they are going to attack our Shanhai Empire."

Mad Blade was stunned for a moment, then replied:

"I'll ask for you in the group. If someone attacks the Shanhai Empire, I should be able to get the news."

Two minutes passed.

Mad Blade sent another message to Lin Tianhao.

The content of the message was very simple, that is, everything was normal in the Shanhai Empire.

"Just hiding?"

Lin Tianhao was not nervous at all. There were still many mechanical items in this Future Chamber of Commerce.

Since they ran away, this future Chamber of Commerce will belong to us.

Lin Tianhao began to plunder the Future Chamber of Commerce, taking nothing that was valuable.

In particular, the future Chamber of Commerce's defense system is still worthy of study.

Although in addition to mechanical castles, there are also formation masters who can defend by setting up large formations.

However, the defense system of the Future Chamber of Commerce can even defend against attacks from masters at the semi-emperor level.

If this thing can be improved in Kui Wei Changtian's hands, then it may not be difficult to defend against attacks from the Great Emperor in the future.

but.

This defense system is somewhat special. Lin Tianhao went to dismantle it himself, and he was somewhat worried about destroying it.

therefore.

Lin Tianhao was about to call Kui Wei Changtian over.

Not long after, Lin Tianhao brought Kui Wei Changtian over.

Just when Lin Tianhao was about to ask Kui Wei Changtian to dismantle the defense system, a voice that sounded familiar to him rang out.

"Snow Emperor."

Lin Tianhao was a little surprised, and then he saw a projection appear in front of the Future Chamber of Commerce.

This projection belongs to no one else but Mo Kenantian.

"You're not dead yet?"

After all, he is the administrator of the Mokesha Kingdom. It is not impossible that Mokenantian has some tricks that can resurrect himself.

"died."

Mo Kenantian spoke lightly.

That's it.

He paused for a moment, then continued:

"But you can also say he's not dead."

"Oh?" Lin Tianhao was a little surprised.

Kui Wei Changtian, who was beside Lin Tianhao, said:

"He is just a projection, completely lifeless."

Mo Kenantian glanced at Kui Weichangtian and said:

"Snow Emperor, it seems you really fooled me. This mechanic is your man. You let him and the Sand Sea Poison Emperor attack our Mokosha country, and you got a piece of Heavenly Punishment equipment for free."

Lin Tianhao smiled and said:

"It doesn't matter anymore."

"Where are the rest of your future Chamber of Commerce? If no one comes, I'm going to tear the house down."

"Snow Emperor."

Mo Kenantian was a little annoyed. "You have already gotten enough, why do you still want to do this?"

"I asked you to join the Fan Palace, but you didn't agree, so I had to do it myself." Lin Tianhao said.

Mo Kenantian took a deep breath and gritted his teeth:

"Xuedi, I think we can talk."

"Our Future Chamber of Commerce has enough technology to help your Shanhai Empire develop rapidly. There is no need to do this."

Lin Tianhao spread his hands and said:

"You join my mortal palace, so our cooperation will be even closer."

"From the look of you, you must be really dead. You are now a conscious being."

Mokenantian nodded and said:

"good."

"The population of our country of Mokesha is not large, that's because most people have uploaded their consciousness to the spiritual network world."

"The body will disintegrate, the flesh will decay, but the consciousness will not. We have achieved immortality."

Lin Tianhao frowned slightly, "Uploading consciousness?"

"Then what is the meaning of your life?"

Mo Kenantian said calmly:

"Of course it makes sense. In the virtual world, we can make the rules."

The words fell.

Mo Kenantian's projection disappeared, and a small robot jumped out in the distance.

"We can synchronize consciousness to any robot, so that it can act and do things like normal humans."

"As long as there is a spiritual network, our consciousness can reach it quickly. For example, I can reach any place in Mokesha Country within one second."

Lin Tianhao raised his eyebrows, "Then you are really amazing."

"But didn't you already tell me? We need the spiritual network as a carrier."

"What if I destroy the spiritual network? Will all of you die completely?"

Mo Kenantian nodded, then shook his head and said:

"Yes and no."

This guy, if you don't know how to speak, don't speak.

"The spiritual network has been destroyed. Our consciousness simply cannot be revealed, but we have not truly disappeared."

"Because in addition to the Spiritual Network, we also have over a million databases. These databases will preserve our consciousness data after the Spiritual Network is destroyed, just like dust."

That's it.

A smug look appeared on Mo Kenantian's face.

"As for destroying all the databases, that is even more unrealistic, because these millions of databases are hidden in different places, and the coordinates of these databases have all been destroyed."

Lin Tianhao was very surprised. He did not expect that the Mokesha Kingdom was so sophisticated.

No wonder he didn't find many people in the country of Mokesha.

"In addition, each database has an independent regional spiritual network and robots. If it suffers a catastrophic disaster, these regional spiritual networks will awaken the consciousness of some top mechanics after a hundred years to restore the complete spiritual network."

Lin Tianhao took a deep breath.

According to Mo Kenantian, after going through this whole process, they would be truly immortal.

Lin Tianhao could only say that these guys really knew how to have fun.

Mo Kenantian took in Lin Tianhao's expression, and then he returned to the projection state and said with a smile:

"so."

"Even if we are destroyed, we can be reborn a hundred years later, but a hundred years later, will you still be here, Snow Emperor?"
