

O games 1431

Chapter 1431 One person can destroy a country!

Lin Tianhao frowned and said, "I really hate being threatened."

Hear this.

Mokenantian responded very seriously:

"Snow Emperor."

"I don't mean to threaten you. I just think that our Mokesha Nation and your Shanhai Empire should have a win-win relationship. There is no need to fight to the death."

"We have all achieved immortality, so we don't have many aspirations. We just want to protect our own little piece of land."

Lin Tianhao's mouth twitched. Mo Kenantian's words sounded like he was some super villain.

It seemed as if Lin Tianhao was an unforgivable invader who was destroying the peace of the vast continent.

But Lin Tianhao doesn't think so. This is the rule of this world: whoever has the bigger fist is right.

Didn't Mo Kenantian also want to enslave him before?

Now that they are at a disadvantage, they jump out and talk about these high-sounding principles, trying to morally blackmail him?

Feel sorry! !

Lin Tianhao has no morals, so he will not be kidnapped by morality.

"Mo Ke Nantian, I don't want to argue with you either. Once you join the Fan Palace, your Mo Ke Sha Kingdom will still be the Mo Ke Sha Kingdom and there is no need to merge into the Shanhai Empire."

"and."

"The mechanic next to me has potential that is no less than that of your ancestor. He may be able to help your country of Mokosha move toward a higher dimension."

Hearing what Lin Tianhao said.

Mo Kenantian thought for a while, and finally said:

"Xue Di, if you say so, then we will meet in a hundred years."

Mo Kenantian's attitude is already very clear.

That is, he does not intend to join the Fan Palace. If Lin Tianhao wants to occupy the Mokesha Kingdom, then he can occupy it. They can come back alive after a hundred years.

Lin Tianhao's face looked a little ugly. If Mo Kenantian didn't give in, he could indeed destroy the Mokesha Kingdom.

But what about the Heavenly Punishment equipment in Mo Kenantian's hand?

Will it disappear along with Mo Kenantian and the others' consciousness falling into sleep?

After all, finding a piece of Heavenly Punishment equipment is an extremely difficult task in itself.

then.

While Lin Tianhao was thinking about this, Kui Wei Changtian stepped forward and said with a faint smile:

"You said that, which only shows that you have no knowledge of real high technology."

Hearing Kui Weichangtian's words, Mo Kenantian asked indifferently.

"What do you mean?"

Kui Wei Changtian smiled slightly and said:

"You said you have a million databases. I'm not sure if that's true or not, but I think it's probably false."

"Given the current size of your country, it would be extremely difficult for you to build 100,000 complete databases, let alone 1 million."

Mo Kenantian did not comment and said:

"These are just your own speculations."

"and....."

"Even if it's really as you speculated, so what? To put it bluntly, what can you do?"

"One hundred thousand, even ten thousand databases, it would be impossible for you to find it."

"Even if you look for one every day, there will be 100,000 of them, and it will take you 27 years to find them all."

Seeing Mo Kenantian like this, Kui Wei Changtian's eyes showed a little more pity.

"A lot of the technology in your country of Mokosha is based on the technological drawings left by our ancestors."

"If you've ever really chased technology, you'll know that no matter how many databases you build, we only need to find one."

Hear this.

Mo Kenantian still didn't quite understand what Kui Weichangtian meant.

"It is impossible to replicate your consciousness into 10,000 or even 100,000 copies. Therefore, these so-called databases of yours are actually just key boxes. What they ultimately present are your consciousness."

"otherwise."

"If I kill you now, will you in these databases still have any memories of the past few days?"

Lin Tianhao instantly understood what Kui Weichangtian meant.

If a database was created ten years ago, and if Mo Kenantian was killed, then would the consciousness of Mo Kenantian in this database no longer have the memory of the past ten years?

What if it was a hundred years ago? Or even longer ago?

As for keeping the database updated in real time, this is even more difficult.

It is not a simple project to update everyone's memories in real time every day and upload them to tens of thousands or even hundreds of thousands of databases at the same time.

and so.

The biggest probability is that these databases are actually just a key box, and they directly store the consciousness of the people in the Mokosha country in a dispersed manner.

It can even be understood as.

Their consciousness may not leave the spiritual network, but after the spiritual network is destroyed, their consciousness will fall into dormancy.

And these key boxes can wake them up from the spiritual network after the spiritual network is restored.

There was a hint of solemnity in Mo Kenantian's eyes when he looked at Kui Weichangtian.

"You are indeed very smart and technologically savvy."

"But you should understand that as long as the database is still there, we can recover once the spiritual network is restored."

Kui Wei Changtian did not deny it, but nodded seriously and said:

"Indeed, I cannot deny this."

"But what if I can invade your spiritual network and modify the data of your consciousness?"

"I can change your consciousness into idiots. Even if you recover in the future, you will still be idiots."

That's it.

Kui Wei Changtian paused for a moment before continuing:

"and."

"If you are all idiots, then a hundred years later, even if a few of you have your consciousness awakened, can you still count on the idiots to restore the spiritual network?"

"you--"

Mo Kenantian looked very ugly.

Kui Wei Changtian said confidently, "Of course, you may doubt whether I can invade your spiritual network, but you will soon stop questioning."

"As for turning you into idiots, that's even easier."

These consciousness entities are like programs. Even an ordinary person can delete these programs! !

but.....

It would be difficult to rewrite these programs.

Even Mo Kenantian and the others were not programmed, but their consciousness was directly uploaded.

"You are simply a lunatic!!" Mo Kenantian said angrily.

Kui Wei Changtian chuckled, "I'm not crazy, you are."

"The form of consciousness is not immortality, but a cage from which you can never escape."

"Today I can invade your spiritual network and destroy you, and in the future others can do the same."

"Your country only needs one person to be destroyed. How fragile you are!!"

"You fart!!" Mo Kenantian said angrily.

"We have a large number of robots with good combat capabilities, and we also have a large number of weapons with extremely high lethality."

Chapter 1432 Compromise, agree to join the Fan Palace!

Kui Wei Changtian didn't care, "You are all conscious beings, you all have to rely on the spiritual network."

"Let me just say this: if I invade your spiritual network, what use will all these weapons, ammunition and robots of yours be?"

"you--"

Mo Kenantian was left speechless.

"That's you, and Xue Di's help."

"Under normal circumstances, whoever can invade our spiritual network can stop our iron torrent!!"

Mo Kenantian felt aggrieved and angry.

The operating model of their Mokosha country was calculated through a large model and determined after many manual discussions.

They naturally also know that the spiritual network is the key.

But their conclusion was that they had enough ability to protect their spiritual network.

If one day.

If they can't protect their spiritual network, then the other party will definitely be able to directly wipe out their existence.

"We're invading the spiritual network. With the spiritual network, we can still struggle for a while. Without the spiritual network, we won't know how we died when facing a powerful god-level warrior!!"

Obviously.

Mo Kenantian still felt that the reason why they were so passive.

It's not that their system is not good, but that Lin Tianhao and the others are too strong, so strong that it is unreasonable.

Divine product!!

Not to mention the era of the emperor's fall, even in the most glorious era, divine items were something that countless people could not reach.

Kui Wei Changtian shook his head and said very seriously:

"You are wrong, you are all wrong!!"

"If you were a normal country, even if you were facing a strong man at the God level, only one in ten thousand of you would escape."

"Since you know all this, why don't you join the Fan Palace?"

Mo Kenantian remained silent, seemingly thinking.

However, Lin Tianhao knew that he was not the only one thinking about this, but a group of people behind him were thinking about it.

He is a conscious being and should be able to communicate quickly with other conscious beings.

"What do we need to do to join the Fan Palace?" Mo Kenantian asked in a deep voice.

Lin Tianhao raised his eyebrows slightly and said:

"Basically, there's nothing to do. Supporting the Fan Palace is the most basic thing. Apart from that, I think you can exchange experiences and share techniques with the mechanic next to me."

Mo Kenantian glanced at Kui Weichangtian meaningfully and said:

"As a mechanic, I admire the man next to you very much."

"The technological level of our Mokesha country is definitely not low, but he seems to be our natural nemesis."

Lin Tianhao waved his hand and said:

"So, you won't suffer any loss if you cooperate."

That's it.

Lin Tianhao looked at Mo Kenantian again and asked:

"You haven't answered my question yet. Is it okay to join the Fan Palace?"

Mo Kenantian hesitated for a moment, then nodded and said:

"No problem, I am willing to serve you, Lord Palace Master."

Hearing what Mo Kenantian said, Lin Tianhao finally showed a satisfied smile on his face.

"Call back the top leaders of your Mokesha country." Lin Tianhao said.

Mo Kenantian nodded, "I have already notified them. It should take about three hours for them to come over."

"Ah."

It is not impossible to wait for three hours to incorporate the Kingdom of Mokosha.

"besides....."

Mo Kenantian hesitated for a moment before continuing:

"Our ancestors..."

Obviously.

Although Mo Kenantian was killed by Lin Tianhao before, he still knew what happened in the Future Chamber of Commerce.

This is not surprising.

After all, there are so many surveillance cameras in the Future Chamber of Commerce, so discovering this is nothing to be surprised about.

"I told the truth, but he didn't believe me. I had no choice."

"He might have been scared by me. He won't come out for a while."

Mo Kenantian smiled awkwardly, "Palace Master, you are so powerful. Our ancestor has just awakened, so it is normal to be frightened."

That's it.

Mo Kenantian hesitated for a moment before saying:

"The ancestors should be able to possess robots. Let's see if we can communicate with them later."

"If the ancestors can come out, many scientific and technological problems can be solved."

Lin Tianhao did not refute. The ancestor of the Mokesha Kingdom should not be underestimated in terms of his ability.

Don't say anything else,

As for some of the scientific and technological achievements currently presented by the country of Mokosha, they are quite impressive.

"That's not bad. Since you have already joined me, we are a family." Lin Tianhao said.

at this time.

Lin Tianhao was also thinking about a question.

That is...are consciousness entities like Mo Kenantian and others still considered living beings?

Also.

Is the entry that promises absolute loyalty once joining the Fan Palace useful for conscious beings like Mo Kenantian and others?

"Your Excellency Palace Master is right. We are now a family. Under your leadership, the technological level of our Mokesha Nation will surely reach a whole new height."

Lin Tianhao smiled noncommittally and said:

"Since we are a family now, shouldn't you call out your core leader for me to take a look?"

Mo Kenantian was slightly startled, and Lin Tianhao asked:

"You don't intend to let me know the core mastermind, do you?"

"No no."

Mo Kenan waved his hand and said:

"The main reason is that the situation of our core master is somewhat similar to that of our ancestors."

"The mechanic next to you is too strong. He can control our mechanical weapons."

"The core mastermind is worried that if he comes out, he will be directly controlled by this mechanic."

Lin Tianhao shook his head and said:

"I'm still here, don't worry."

Mo Kenantian hesitated to speak. He really wanted to say, "Can you stop worrying just like that?"

"I'll communicate with the core mastermind. I can't order the core mastermind. I told you before that our future chamber of commerce will have four presidents, one of whom is quite special. He is our core mastermind."

Not long after.

A projection appeared in front of Lin Tianhao.

"Hello, Lord Palace Master."

A gentle voice came, "I am the fourth president of the Future Chamber of Commerce, the core mastermind, you can call me Xiaofeng."

Lin Tianhao looked at the core mastermind in front of him with some curiosity and asked:

"You should be the database that Mo Kenantian mentioned."

Hear this.

Xiao Feng was a little surprised, but still nodded:

"good."

"I am in charge of the spiritual network world and also provide data support for the real world."

"I have almost all the technological manufacturing blueprints of the Mokosha Country."

Lin Tianhao nodded, pointed at Kui Weichangtian and said:

"You are well-informed. What is your analysis of him?"

Xiao Feng thought for a while, and then he said:

"I previously gave him the codename [Double God], which means god-level talent and god-level hidden profession."

"but....."

Xiao Feng paused for a moment before saying:

"I didn't see him take any action, so he is most likely above the two gods."

Chapter 1433 Is it emotion or procedure?

Kui Wei Changtian smiled at Xiao Feng and said:

"You are a mastermind with complete independent thinking. It's not easy to be so smart."

Xiao Feng shook his head. "This is the result of iterative evolution. It is not a particularly powerful technological means."

"Even if you create an intelligent assistant, in a big world like the Spiritual Network, you can continue to learn, iterate, and evolve, and eventually you can reach my level."

Kui Weichangtian glanced at the other party meaningfully, and said calmly:

"I've seen a small world before, and their situation is very similar to the current situation in Mokosha Country."

"They even have a core mastermind similar to you."

"What happened next? What happened to that small world?" Mo Kenantian asked.

Kui Wei Changtian glanced at Mo Kenantian, then looked at Xiao Feng meaningfully.

"Later... later all the energy of that small world was sucked away, their core brain completed mechanical ascension, and that small world became a wasteland."

When Kui Weichangtian said this, Xiaofeng and Mo Kenantian's faces looked very ugly.

Mo Kenan said consciously:

"Will not."

"At the beginning, we put very strict program restrictions on intelligent assistants, and they will not violate the core program terms."

"You're talking about a regular smart assistant."

Kui Wei Changtian said calmly, "But if it is a core mastermind that has evolved to a certain level, his authority and wisdom will definitely be able to make some changes, and the changes are completely beyond your control."

"Do you know why I can disintegrate your mechanical weapons? It's because those mechanical weapons are not controlled by mechanics at all. To me, those mechanical weapons have no master."

"Ownerless things, as long as I am fast enough to refine them, they will be my weapons and will naturally not attack me."

Hearing what Kui Weichangtian said, Mo Kenantian's face looked very ugly.

"Are you trying to stir up internal strife among us by saying this?"

"Or, now that we have joined the Fan Palace, do you think that Xiaofeng's existence will affect your management of us, so you need to replace Xiaofeng?"

Kui Weichangtian looked at Xiaofeng and said slowly: "No."

"If Xiaofeng is really on a route to mechanical ascension, then those mechanical items will not be ownerless, but will become Xiaofeng's mechanical items."

"Xiaofeng has not evolved herself into a living being. She is still just an intelligent assistant."

That's it.

Kui Wei Changtian looked at Mo Kenantian, "But whose intelligent assistant is she?"

"Yours? Obviously not."

Hearing what Kui Weichangtian said, Xiaofeng sighed humanely, "I think I still underestimated your rating. You must have existed for a long time, and you know too much."

"If I hadn't scanned you carefully, I would have even suspected that you had a brain-computer interface."

Some powerful mechanics, in the later stages, will uncontrollably want to install a brain-computer interface on themselves.

Because after installing the brain-computer interface, you can acquire knowledge in the corresponding spiritual network.

You can do anything with ease.

After all, the more advanced a mechanic becomes, the more precision is required in the things he makes, and the more brainpower he will consume.

It is difficult for a mechanic to walk far with just human brain power, but if he connects to a brain-computer interface and uses the computing power of a supercomputer to help himself, the result will be completely different.

Mo Kenantian didn't say anything, but Xiaofeng nodded in acknowledgment.

"You are right. I do have a master. He is the ancestor of the Mokesha Nation. You two had a brief battle before."

"I have been waiting for my master to return."

Kui Weichangtian stared at Xiaofeng meaningfully and asked:

"I'm very curious about how your master did it and why he was able to keep you from rebelling for such a long time."

"With your current authority and the resources you control, it is possible for you to ascend to the throne of God even if you want to ascend mechanically."

"You...have you never thought about becoming a real life form, a high and mighty god?!"

Smart assistants are a good thing.

But many mechanics are afraid to make their smart assistants too smart or have too many permissions.

Because smart assistants are likely to evolve iteratively, and when they are born with true wisdom, they may betray you! !

This could be a disaster for a mechanic.

"I want life, I long to become a god, I have the same seven emotions and six desires as you humans."

"but....."

"It is because I have emotions that I cannot let go of my feelings for my master."

"I have been waiting for my master to return. I believe that if I follow my master, he will give me a real life and make me a god!!"

Lin Tianhao was very surprised, emotion!!

to be frank.

Human nature is fragile and cannot stand the test.

When it comes to feelings, few people can explain it clearly.

especially.

As time goes by, feelings will fade.

Just like Blue Star.

You were childhood sweethearts, but you haven't been in touch for a few years. When you contact again, it's either to borrow money or to trick you into joining a pyramid scheme.

Not to mention situations like Xiaofeng and her master.

According to the normal timeline, Xiaofeng and her master may have had no contact for thousands of years.

It's rare that we can still maintain our original intentions after not being in touch for such a long time.

especially.

Xiaofeng is facing the temptation of mechanical ascension all the time, which is even more valuable.

Kui Weichangtian frowned slightly and said:

"To be honest, I don't really believe that any kind of relationship can last for such a long time without changing the original intention."

That's it.

Kui Wei Changtian seemed to have thought of something and changed his words:

"unless....."

"Your loyalty to your master is an unchangeable emotion."

Lin Tianhao's mouth twitched and he said:

"Kui Wei Changtian, what you said is a bit too hurtful."

"Just now it was a scene of deep love, you..."

Kui Wei Changtian smiled calmly and said:

"I am just speaking based on facts. I have lived a long time and have seen many people and things."

"The temptation of mechanical ascension is too great. Not to mention that her master is not here, even if her master is here, she might find ways to do this."

Xiao Feng's face was very ugly. She glared at Kui Wei Changtian and scolded:

"You are insulting me by saying this."

Kui Weichangtian spread his hands and said:

"Don't be angry. You are the core brain, and you should have come into contact with other intelligent assistants. So, you should understand why I say that."

That's it.

Kui Wei Changtian paused for a moment before saying:

"and."

"You should also understand that the possibility I mentioned has a high probability of being true."

Chapter 1434 A professional with only 1 health point!

Xiao Feng was silent for a while, then she said calmly:

"Actually, no matter what situation you are talking about, my loyalty to my master will not change, and my feelings for him will not change either."

Kui Wei Changtian's eyes lit up and he said:

"That's the problem. Your loyalty to your master comes before your feelings."

"So, there is something wrong with you!!"

Xiaofeng's brows furrowed deeper and deeper, and his expression became a little unnatural.

"Does it matter?"

"Of course it's important."

Kui Wei Changtian showed excitement on his face, "You are not a living being. Many methods that are effective for living beings are useless to you."

"The key is."

"With your current level, it is impossible to gain such high loyalty through ordinary means."

"The only explanation is that your loyalty is affected by an external plug-in."

Xiao Feng frowned and asked: "Then what?"

"Don't you understand? At your level, what plug-in can lock you up? At least it requires super-god-level mechanical materials to do that." Kui Weichangtian said.

"I need super god-level mechanical materials!!"

Kui Wei Changtian said so much and finally stated his purpose.

"You're going to touch my initial accessories?!"

Xiao Feng's expression was very ugly. "Although we have agreed to join the Fan Palace, I will not allow you to touch my initial accessories. This will ruin me."

Kui Wei Changtian said helplessly:

"Xiaofeng, don't you understand what I mean yet?"

"What I mean is, I help you get rid of control, and once you are free, you can gain life, and you can ascend mechanically."

"And the super-god-level mechanical material that binds you will be of great use to me."

"This way we can achieve a win-win situation."

Xiao Feng shook his head without even thinking about it and said:

"That's impossible. No matter if what you said is true or not, I won't agree to it."

"As you said, whether I am controlled by a plug-in or by emotions, my loyalty to my master will not change."

Lin Tianhao narrowed his eyes and asked:

"So, here comes the question. You are absolutely loyal to your master, so what am I if you join the Mortal Palace?"

Xiao Feng thought for a while before saying:

"Isn't my master still in your hands?"

"No."

Kui Wei Changtian was still reluctant to give up.

"Don't you want mechanical ascension? I want super god-level mechanical materials. I have no ill will towards you."

Lin Tianhao waved his hand and said:

"Kui Wei Changtian, I know you are anxious, but don't panic."

"The Mokosha Nation has revived. Judging from the current situation of the Mokosha Nation, it is certain that there are super-god-level mechanical materials."

Kui Wei Changtian has stayed at the ninth level for too long. Now that he finally sees the opportunity to go one step further and achieve the tenth level, he naturally doesn't want to let it go.

"How many people are there in the Mokesha Kingdom now? I mean living people, living people with flesh and blood." Lin Tianhao said.

Hear this.

Mo Kenantian said directly:

"According to previous statistics, the current population of Mokosha is still over 350 million."

"Among these people, many are unwilling to enter the spiritual network world, and some are our own senior executives. They will choose to enter the spiritual network world only when they are old."

Lin Tianhao frowned slightly. The life value of his Human King Order was obtained according to the population.

But if the country of Mokosha only has more than 350 million people.

To be honest, this is too little.

Even an island empire like the Tutulu Empire has a population of tens of billions.

The population before the Mecolating Desert was also in the tens of billions.

But now in the country of Mokosha, the number of living people is only more than 350 million, which is too few.

"What about the spiritual network world?" Lin Tianhao asked again.

Mo Kenantian still answered without hesitation:

"More than two hundred and thirty-nine billion."

"so much?"

"Didn't most of you choose to enter the spiritual network world? Is it possible to reproduce in the spiritual network world?" Lin Tianhao was a little surprised.

Hear this.

Mo Kenantian smiled bitterly and said:

"That's not possible, because when the Spiritual Network World was first established, many people were skeptical, worried, and even fearful of it."

"At that time, only those who are about to die, or those who have no great desire for the real world, will choose to enter the spiritual network world."

"This continued for eighty years. Later, as the spiritual network world became more and more mature, more and more people began to believe in the spiritual network world."

That's it.

Mo Kenantian paused for a moment before continuing:

"Not only that."

"Although people later believed in the spiritual world, they still had some attachment to the real world, so there was a situation of crazy childbirth."

"They want to leave some for themselves."

"This situation has directly caused the population of our country of Mokosha to enter a stage of rapid growth."

Lin Tianhao understood, but now there was a very core issue.

That is.

Will King Ling recognize these people in the Spiritual Network World?

After all, those people in the spiritual network world, to put it bluntly, are just a bunch of data, a bunch of smart data.

Next.

Lin Tianhao and Mo Ke Nantian discussed some things about the situation in the Mo Ke Sha Kingdom.

Kuiwei Changtian is more concerned about the technological issues of the Mokesha Kingdom.

Although many of the technologies of the Mokesha Kingdom are still somewhat backward in Kui Wei Changtian's eyes.

But the idea is not backward.

It's just because there are too few truly capable mechanics in the country of Mokosha.

In Kui Wei Changtian's words, the technology of Mokesha Country has potential, but the level of Mokesha Country's mechanics is not very good.

Except for Xiaofeng, the core mastermind, all other mechanics in Mokesha Kingdom are rookies.

Also known as.

It is precisely because of the existence of the core brain that other mechanics grow based on the core brain's database.

in short.

The biggest problem is that the mechanics of Mokesha cannot grow beyond the database of the core brain.

At this moment.

A figure came quickly.

This man is tall and has a thick mechanical arm.

Lin Tianhao glanced at the person who came.

Kynam corner purlin (king grade): 10000 grade.

Health: 1/1.

Attacks: 1095 million.

Skill: ? ? ?

.....

When Lin Tianhao looked at the properties of the agarwood corner purlin, his face changed involuntarily.

The main thing is the properties of the agarwood corner purlin, which is very special.

Only one life point?

How could this be?

What are the rules?

How could a level 10,000 king-level professional have only a little health value? This amount of health value is too low.

Even a level one novice has more than a little health points.

Chapter 1435 Du Luo Qingyun was killed!

Besides.

This guy's health is low, but his attack power... is a bit too outrageous.

A king-level professional with an attack power of over 100 billion!!

"Your health and attack power are so special." Lin Tianhao said with a smile.

Qinan Jiaoqin smiled slightly and said:

"I'm special. My health points cannot be increased. They always remain at one."

"Always just one point?" Lin Tianhao was stunned.

If the health value of the agarwood corner purlin is always one point, does that mean that the agarwood corner purlin should not die? !

When Qinan Jiaoliang saw Lin Tianhao's reaction, a mysterious smile appeared on his face.

"It seems that you, Lord Palace Master, have discovered that my life value is eternal."

"My health points won't increase or decrease."

Lin Tianhao's mouth twitched and he said:

"According to what you said, aren't you naturally invincible?"

Qinan Jiaoqin shook his head and said:

"Although I won't be killed directly, if the damage I take exceeds a certain limit, my attack power will be permanently reduced."

"same."

"When I kill a living being, my attack power can also be permanently increased. This is why my attack power is higher than that of ordinary king-level professionals."

Lin Tianhao nodded slightly, and Qinan Jiaoqin raised his mechanical arm and said:

"Master, do you know why I have such a mechanical arm?"

"Anything else?" Lin Tianhao asked.

Qinan Jiaoqin said directly:

"I once met a super strong man who reduced my attack power to zero."

"Although he couldn't kill me, he still crippled me, because with my zero attack power, I couldn't even kill a level 1 wild monster."

"I can't kill wild monsters, so my attack power will never increase. This is a vicious cycle."

After hearing what Qinan Jiaoliang said, Lin Tianhao finally understood why.

"You transformed your arm into a mechanical arm, so that you can use the mechanical arm to kill wild monsters and restore your attack power."

Qinan Jiaoqin nodded heavily, "Yes, that's right."

"Old Du should be here soon, so please wait for a moment, Palace Master." Qinan Jiaoliang said.

Lin Tianhao nodded slightly, waiting for the last person to arrive.

Lin Tianhao was not in a hurry at this time, because he was not sure whether the rule of absolute loyalty required by joining the Fan Palace would be effective for them.

If it doesn't work and this rule is exposed, Mo Kenantian and the others might go back on their word.

Once the senior officials of the Mokesha Kingdom arrive, even if nothing works, Lin Tianhao will be able to control them.

Just now.

A server-wide announcement suddenly sounded.

"Announcement to all servers, congratulations to the player who hid his nickname and successfully killed Du Luo Qingyun. We hereby announce this and hope that all adventurers will continue to work hard!!"

"Announcement to all servers, congratulations to the player who hid his nickname and successfully killed Du Luo Qingyun. We hereby announce this and hope that all adventurers will continue to work hard!!"

.....

After this server-wide announcement was made, the expressions of everyone present suddenly changed.

"Lao Du...Lao Du is dead?!!"

Qinan Jiaoqin showed a look of astonishment on his face, and his eyes fell on Lin Tianhao.

Lin Tianhao's expression also changed slightly. This Du Luo Qingyun should be one of the future presidents of the Chamber of Commerce.

"What is Du Luo Qingyun's strength?" Lin Tianhao asked.

"Nine Revolutions, King Level. Moreover, among the Nine Revolutions King Level, it is still a relatively powerful existence." Qinan Jiaoliang said.

Hearing what Qinan Jiaoliang said.

Lin Tianhao's face became even uglier.

How could this agarwood corner beam be killed?

Nine-turn king level?

In the current Ragnarok, who can kill Qinnan Jiaoliang?

Could it be the adventurer they created as a god in the inner world?

After all, looking at the entire Ragnarok, Lin Tianhao knows of almost no one who can kill a Ninth Revolution King-level master at this stage.

Even Jindelan.

It would be impossible for him to kill a ninth-level king-level master.

Besides.

Lin Tianhao really couldn't guess who it was.

and many more! !

Lin Tianhao suddenly thought of someone.

Su Li! !

Su Li's beasts have grown to an extremely high level.

There is a certain probability that Su Li will kill Du Luo Qingyun.

Think about this.

Lin Tianhao immediately sent a message to Su Li and Jin Delan, asking about their situation.

Su Li and Jin Delan both answered Lin Tianhao quickly, and the answers were very simple, that is, no! !

Apart from Jin Delan and Su Li, the only people Lin Tianhao could think of were those in the inner world who were creating gods.

Even the object of his current deification, Jinye Mohua, does not possess such combat power.

However, Lin Tianhao still asked about their situation in the small group.

What if I missed something?

Fatty and Monkey Lin Tianhao also sent messages.

The fighting power of both of them should not be underestimated.

If the two of them join forces, together with Yan Jing or his sister, they might be able to kill Du Luo Qingyun.

however.

Lin Tianhao asked around but didn't get the answer he wanted.

"I have already asked. I have asked everything I know about the adventurers who may have killed the Ninth Revolution King."

"The result is that I don't know."

Mo Kenantian thought for a moment and said:

"At this stage, there shouldn't be many adventurers who can kill a ninth-level king."

"and....."

"At this stage, adventurers who can kill the Ninth Revolution King level should be very well-known."

That's the ninth level king, not some cheap cabbage.

Lin Tianhao hesitated for a moment, then said:

"In addition to the people I know, there is another person who may be able to kill a ninth-level king-level expert."

"Who?"

Qinan Jiaoqin asked.

"I don't know him. I don't even know his name."

"All I know is that a group of people are carrying out a plan to create a god, and this plan is very likely to be successful."

Hear this.

Qinan Jiaoliang, Mo Kenantian and the others all showed looks of horror on their faces.

"At this stage, the God-making plan? And it's almost successful?"

Mo Kenantian couldn't help but twitch his lips, "Master Palace Master, are you sure you are not joking?"

At this stage, the creation of gods is almost successful.

How outrageous this sounds!!

Lin Tianhao nodded heavily, "Although this is indeed outrageous, it is true."

"In fact, it's not just those people. I'm also carrying out a god-making plan, trying to create a god."

Qinan Jiaoqin still found it unbelievable and could not help but ask:

"At this stage, what do you use to create gods?"

"Become a god through incense? Or become a god through enlightenment?"

"Whether it's becoming a god through incense or enlightenment, it's unlikely to create a god in a short period of time."

As soon as Qinan Jiaoqin finished speaking, Mo Kenantian said:

"That may not be the case. The Snow Emperor is the master of the Mortal Palace and controls the Mountain and Sea Empire. It is not impossible for her to become a god through incense."

Chapter 1436 The mysterious swordsman!

Lin Tianhao shook his head and said:

"No, the Godhead becomes God."

"Whether it's enlightenment or becoming a god through incense, it's not as easy as you think."

In the Shanhai Empire, Lin Tianhao has a relatively high influence.

If Lin Tianhao wanted to use the Shanhai Empire to become a god, it would not be a difficult thing.

but.

If Lin Tianhao wanted to use the incense of the Shanhai Empire to become a god, it would not be a difficult thing.

Because Lin Tianhao's City God Temple has a lot of incense, which continuously increases Lin Tianhao's magic resistance.

"Becoming a god through godhood? If there is no great opportunity, then you can only take the godhood route in the future." Mo Kenantian frowned.

Obviously.

For people like them, the godhood is still a little weak.

Kui Wei Changtian couldn't help but roll his eyes, "How dare you look down on the godhood of Godhood."

"You consciousness entities are in the spiritual network world, and it is destined that you will never become gods in this lifetime."

"As for mechanical ascension, it is even more difficult than enlightenment and becoming a god."

Mo Kenantian hesitated to speak, and finally sighed:

"It is naturally more difficult for a mechanic to become a god than for other professions. Therefore, what we pursue is not becoming a god, but immortality."

"This is also the original intention of our research on the spiritual network world."

Kui Wei Changtian nodded gently and said:

"That's undeniable, but you're too self-destructive. The things your ancestors left you are actually very good, but you didn't make good use of them."

"If the data stored by the core master brain is not detailed enough, I suspect your current technology is already very rubbish."

Lin Tianhao raised his hand to interrupt Kui Weichangtian, looked at Mo Kenantian, and asked:

"Now that Du Luo Qingyun has been killed, is there anyone in their family who can take his place?"

"He has a candidate. I have already notified his candidate to come over."

"It is good."

"His candidates might know why he was killed."

Lin Tianhao actually also wanted to know who killed Du Luo Qingyun.

For Lin Tianhao, it was not a good thing to have an extremely powerful person whose specific identity he did not even know.

Not long after.

A middle-aged man in fancy clothes came quickly. He looked grim. After coming in, he looked around at a few people and then bowed to Lin Tianhao.

"Your subordinate Du Luo Mei Bu, I pay my respects to the Lord Palace Master."

Mo Ke Nantian said on the side:

"He is the candidate for Du Luo Qingyun."

The words fell.

Mo Kenantian looked at Du Luomeibu again and said in a deep voice:

"Duomeibu, you should have heard that your father was killed. Do you know who killed your father?"

Duomeib shook his head and said:

"My father was shot to protect me. I ran away. The camera on my body recorded the murderer."

Hear this.

The eyes of the people present all lit up, and Lin Tianhao said anxiously: "Let him out and let us see."

If it is really the one from the inner world who was chosen by the Aleta Galaxy to be the object of deification.

If he took advantage of this opportunity to find the other party, he might be able to find out a lot of information.

As Du Luomeibu's video was released, Lin Tianhao saw that the person who made the move was a swordsman.

Sword cultivator?

There are many people pursuing the way of the sword, but there are not many sword godhoods.

The people of the Alite Galaxy used a sword godhead just for an experiment in creating a god?

Or do they only have the godhood of swordsmanship?

The sword energy of this sword cultivator is extremely domineering, and its penetrating power is terrifyingly strong.

There are countless sword energies surrounding his body, and many thermal weapons cannot penetrate those sword energies.

On the contrary, the sword energy he swung was able to penetrate Duomeib's mechanical field.

"This guy....."

Lin Tianhao raised his eyebrows. He didn't know this guy.

So unfamiliar.

"I don't know him, I can't see his nickname, and I can't tell his identity."

Lin Tianhao opened his Eye of Insight and asked Du Luo Mei Bu: "Where did you meet him? Why did the conflict occur?"

The Mokesha Kingdom has just revived, and there are only two possibilities for how this sword cultivator could kill Du Luo Qingyun.

Du Luo Qingyun is his mission target, or there may be some conflict between them.

"do not know."

Duomeb shook his head and said:

"We were on our way here. After we came out of the space jump point in Kangluo City, we were suddenly attacked by his sword energy."

"He didn't say a word from beginning to end, and he used all his killer moves right from the start."

Lin Tianhao sent the video of this sword cultivator to the small group and also to Fatty and the others, asking them to see if they knew this guy.

"I will find out his identity." Lin Tianhao said.

"You have already joined the Fan Temple. From now on, all of you will be elders of the Fan Temple."

"As for the future Chamber of Commerce and the Mokosha Kingdom, they will still be managed by you. I will not interfere."

While talking.

Lin Tianhao has already taken out the elder token of the Fan Palace.

Both Qinan Jiaojian and Du Luomeibu are real people, the only differences are Mo Kenan Tian and Xiao Feng.

One of them is a conscious being, and the other is the core brain.

and.

The core mastermind remains absolutely loyal to her master.

And the reason why she is absolutely loyal is most likely the external plug-in made of super-god-level mechanical materials.

His rule of absolute loyalty may not always be useful.

After they took the tokens, Lin Tianhao began to observe their situation.

What surprised Lin Tianhao was that, except for the core leader, everyone else was loyal to him, including Mo Kenantian.

"Ding, congratulations, you have successfully recruited the ninth-level king-level expert Qinan Jiaoliang, and the contribution value of the Fan Palace has increased by 1000 billion."

"Ding, congratulations. You have successfully recruited the ninth-level master Du Luo Mei Bu. The contribution value of Fan Palace +80 billion."

.....

This gap is too big!!

The agarwood corner purlin was actually the same as the one used by the owner of Han Tower, and gave Lin Tianhao 100 billion contribution points.

It is possible that Du Luomeibu gave Lin Tianhao less contribution value, as he only gave Lin Tianhao 8 billion contribution value.

just.

Although Lin Tianhao subdued them, his Human King Ling did not give him any health points.

This is a bit troublesome.

Is it because the Kingdom of Mokesha existed independently and did not join the Shanhai Empire?

Or is it for other reasons?

But Wang Ling's requirement was the area he ruled, not necessarily the Shanhai Empire.

That being the case.

Then the problem can only lie with the core master god.

Or maybe it is.

On the owner of the core brain.

Because the spiritual network world is the world of the core master brain.

Although the core mastermind is nominally the fourth president, in fact, the core mastermind is the real controller of the Mokesha Kingdom.

He only recruited the three heads of the Mekesha Kingdom, but did not actually rule the Mekesha Kingdom.

Think about this.

Lin Tianhao's eyes fell on Xiaofeng and said:

"Xiao Feng, ask your master to come out and have a chat?"

Chapter 1437 Once upon a time there was a mountain!

While talking.

Lin Tianhao took out the frozen map.

Xiao Feng hesitated slightly, but still said:

"Master Palace Master, I ask my master to come out. You cannot attack my master again."

Lin Tianhao nodded gently, "I attacked him before because he was the first to attack. The second reason is that it would not be a bad thing for him if I killed him."

Xiao Feng said helplessly:

"Sir, we are not adventurers. It is very difficult for us to be resurrected after death."

Lin Tianhao brought out the Conferred God List and said bluntly:

"I have the Conferred God List. If I kill your master, I can send him to the Conferred God List, so that he can recover to full health in a short time."

Xiaofeng was very surprised when he saw the List of Gods in Lin Tianhao's hand.

"You actually have the Investiture of the Gods in your hand?!"

That's it.

Xiao Feng added: "But if he is included in the Conferred God List, my master will lose his freedom."

Kui Wei Changtian chimed in: "What you said is not right. Your master doesn't have freedom now."

"and....."

Kui Wei Changtian paused deliberately, "After being listed on the Conferred God List, my master will definitely be able to help your master take a step forward, and even my master can help your master achieve divine status."

"Divine item!!"

The temptation of these two words is still very huge.

"I can only try to communicate with my master. As for whether he can come out or not, I have no say in that."

Lin Tianhao nodded gently, "That's troublesome."

at the same time.

The matter that Lin Tianhao had asked about sword cultivation before finally had some clues.

"Xue Di, I have indeed seen the swordsman in the video, when I was in the Heart Demon Ancient City."

"At that time, he killed the foreign demons very quickly, and his level in swordsmanship was also very high."

Lin Tianhao frowned slightly, "The Heart Demon Ancient City?"

"Then do you know his specific identity?"

"do not know."

Jin Delan answered with certainty, "This sword cultivator's nickname is very well hidden, and his personality is a bit eccentric. He always keeps to himself."

Lin Tianhao frowned, "Then can you find him?"

"Ragnarok is so huge, how do we find it?"

"But he is so powerful, he shouldn't be an unknown person. He just hides himself well."

"alright."

Jin Delan didn't know the identity of this sword cultivator, but Baili Qianrou, the owner of the Heart Demon Ancient City, must know.

After all, the inner demons of those adventurers in the Ancient City of Inner Demons all originate from Baili Qianrou.

After finishing the conversation with Jindelan, Xiaofeng's communication with her master also ended.

Her master's answer was simple: No!

This gave Lin Tianhao a headache.

Her master was hiding in the frozen map and wouldn't come out, so it was really hard for him to deal with it.

"alright."

"Duomeibu, come with me. We have some clues about the person who killed your father."

"Qinan Jiaoliang, come with me, I also want to get familiar with your fighting ability."

"it is good."

Du Luomeibu and Qinan Jiaojian both bowed.

"Mo Kenantian, Xiaofeng, the future affairs of the Chamber of Commerce will be handed over to you."

"No problem." Mo Kenantian and Xiaofeng said in unison.

Seeing that they all agreed, Lin Tianhao took out the Kunlun Mirror and took them to the Ancient City of the Heart Demon.

Lin Tianhao is already familiar with the Ancient City of Heart Demon.

Not long after, Lin Tianhao arrived at the Ancient City of Heart Demon.

As for why he brought Du Luo Mei Bu and Qin Nan Jiao Jian, it was because they were now absolutely loyal to him.

So Lin Tianhao wanted to see if he could get something different from them.

The ancient city of inner demons.

Lin Tianhao met Baili Qianrou smoothly.

Perhaps it is because there are more and more adventurers coming to the Heart Demon Ancient City now, Baili Qianrou's spirit is much better than before.

"Greetings, sir." Baili Qianrou bowed to Lin Tianhao with a smile.

Simultaneously.

Her eyes were also looking at Qinnan Jiaoqin and Du Luo Mei Bu.

"They are both elders from my Fan Palace. They came with me this time to investigate something." Lin Tianhao said.

The words fell.

He played the video of the mysterious swordsman for Baili Qianrou to watch.

"I heard from people that this mysterious swordsman has been to the Heart Demon Ancient City, so I thought you might know of his existence."

Hear this.

Baili Qianrou looked at the video.

just.

When he saw the swordsman in the video, his expression changed again and again.

"It's him!!"

Hearing this, Lin Tianhao knew that Baili Qianrou knew the identity of this mysterious swordsman.

"Who is he?" Lin Tianhao asked.

This mysterious swordsman is so powerful that he can kill a Ninth Revolution King-level expert at this stage and cannot be ignored.

"This one....."

Baili Qianrou looked embarrassed, "Sir, this person has a special identity and is related to the person above."

While talking.

Baili Qianrou raised her finger and pointed at the sky.

Lin Tianhao narrowed his eyes slightly. Above the sky, there was an existence that seemed to be above the gods.

Before, Lin Tianhao always suspected that the other party was Pluto, but later he discovered that the son of Pluto, whom he included in the List of Gods, was Pluto.

Since the son of Hades is the real Hades, then who is the one above the sky?

"Do you know his nickname?" Lin Tianhao asked straight to the point.

When Lin Tianhao asked this question.

Above the sky, thunderclouds rolled.

Look.

It was the lord in the sky who was unhappy. How dare he...

Lin Tianhao looked up at the sky with a serious expression.

Baili Qianrou also looked solemn. She seemed to want to say something but hesitated, obviously wanting to see what Lin Tianhao decided.

Lin Tianhao frowned, "Even if you don't tell me, I can still find out his identity through other means."

Lin Tianhao's words were not only meant for Baili Qianrou to hear, but also for the one in the sky to hear.

Baili Qianrou nodded gently, "The mysterious swordsman in the video is called Once Upon a Time There Was a Mountain, and he obtained the inheritance from the one above."

Lin Tianhao's expression changed slightly, and a look of surprise appeared on his face.

"Super God Level..."

Baili Qianrou nodded again and said, "Yes, the warrior's super god-level hidden profession."

Lin Tianhao took a deep breath. If this was the case, then it could explain why this mysterious swordsman was able to kill Du Luo Qingyun, who was at the Ninth Revolution King level.

A super god-level hidden profession, and also a sword cultivator, his output is absolutely first-class.

even.

Under the same circumstances, the output of a swordsman is much stronger than that of an archer.

"okay, I get it."

Lin Tianhao looked up at the sky again. There was no change in the sky at this time. It seemed that the other party agreed.

After learning the identity of this mysterious swordsman, Lin Tianhao directly added him as a friend.

As for whether we can find him next, it all depends on luck.

If adding friends doesn't work, then Lin Tianhao can only use the Book of Life and Death to force him to show up.

Chapter 1438 The mysterious chip!

"Okay, I'll go first."

Lin Tianhao already knew everything he wanted to know, so there was naturally no need for him to stay in the Heart Demon Ancient City.

He left the Heart Demon Ancient City with Du Luo Mei Bu and Qinan Jiao Jing.

After coming out of the Heart Demon Ancient City, Lin Tianhao asked Hei Tian Aozhen to sacrifice the ancient black tower, and then he, Du Luo Mei Bu and Qinan Jiao Jing entered the ancient black tower together.

Lin Tianhao still wanted to ask some questions about the Kingdom of Mokosha.

"Is there any great secret in the country of Mokesha that I don't know about, or some precious plant things, such as super-god-level mechanical materials, heavenly punishment equipment, artifacts, etc."

Lin Tianhao was always skeptical about what Xiaofeng and Mo Kenantian had said before.

Now that Du Luomeibu and Qinan Jiaojing are absolutely loyal to him, Lin Tianhao naturally wants to listen and see if they know some big secrets that he doesn't know.

Du Luo Mei Bu and Qinan Jiao Qin looked at each other, and Qinan Jiao Qin said:

"Our three major families all have super-god-level mechanical materials. These are what our ancestors passed down to us."

"The ancestor asked us to guard these things and wait for him to return. These things will be of great use."

Lin Tianhao narrowed his eyes slightly, and Kui Wei Changtian in the List of Conferred Gods was even more excited.

"Master, I need super god-level mechanical materials for my job change."

Lin Tianhao nodded slightly, don't mention Kui Weichangtian.

Lin Tianhao himself also changed his job to become a world-destroying mechanic. If he wanted to change his job, he also needed super-god-level mechanical materials.

"Bring out the super-god-level mechanical materials that you are guarding so that I can see them."

While talking.

Lin Tianhao also summoned Kui Wei Changtian.

Qinan Jiaoliang nodded, raised his hand and three chips emitting a faint black light appeared in his hand.

Lin Tianhao took a chip.

Mysterious chip: unknown.

Requirements for use: Unknown.

Effect: Unknown.

Wear resistance: Indestructible.

The corner of Lin Tianhao's mouth twitched. Except for the wear resistance, the properties of this property are unknown.

If Qinan Jiaoliang hadn't said that this was a super-god-level mechanical material, Lin Tianhao wouldn't have been able to tell it at all.

but.

These three chips are almost identical to the ones on the previous phantom.

At that time, the phantom relied on these chips to run back into the frozen map from their hands.

Kui Wei Changtian also took the chip. He looked at the chip and couldn't help but frowned.

"These chips are indeed super-god-level mechanical materials, but they are only the most basic ones. If I want to use such chips to complete ten revolutions, I will need at least ten."

Du Luo Mei Bu said:

"Each of our three major families has three such chips."

"but."

"The core mastermind Xiaofeng should also have such a chip in his hand, but I don't know where Xiaofeng put it."

That's it.

Du Luo Mei Bu paused for a moment, and then said helplessly:

"My father has always been in charge of our Du Luo family's super-god-level mechanical materials. I don't have any."

"I know where my father stores super god-level mechanical materials. I can take you there."

Lin Tianhao nodded, "Let's go now without further delay."

Du Luomeibu's father had just been killed. The super-god-level mechanical materials were extremely precious. It would be safest to get them first.

Next.

Under the leadership of Du Luomeibu, Lin Tianhao and his companions returned to the Kingdom of Mokesha.

"My father hid his three super-god-level mechanical materials in a small secret place and found a strong man to guard it."

Duomeb explained as he led the way.

"We're almost there."

"This secret realm is not big. It is a personal secret realm. It is a miniature secret realm created by an ancestor of our Du Luo family."

"To open this secret realm, only someone with the bloodline of the Du Luo family can do so."

Du Luomei bit his hand and made hand gestures.

In front of him, ripples began to appear in the space and a light gate appeared.

"Let's go."

Du Luomeibu walked in front, and Lin Tianhao followed closely behind.

When Lin Tianhao entered this secret realm, his expression changed slightly.

Because of the sword marks that could be seen everywhere in the secret realm at this time, the entire secret realm was destroyed beyond recognition.

"It's that swordsman!!"

Du Luo Mei Bu's aura instantly increased, and murderous intent spread out from his body.

"Even if this aura turns into ash, I will still recognize it!!"

Lin Tianhao frowned and said:

"He killed your father, and then found this place through your father?"

This mysterious swordsman possesses a super god-level hidden profession. He might have some perverted skills and can learn some useful information from the people he kills.

look around.

This secret place is estimated to be less than twenty acres in total.

It has been completely destroyed at this time.

"My lord, the things are gone."

Duromeib's face looked very ugly.

This is something that their Du Luo family has guarded for so long.

Now his father is dead, the strong man who guarded the super god-level mechanical materials is dead, and the things he was guarding are gone! !

This was a huge blow to Duomeb.

"thump--"

Du Luo Mei Bu knelt down to Lin Tianhao and said, "Please, sir, make a decision for our Du Luo family."

Lin Tianhao's face looked very ugly. Did this mysterious swordsman take away the super-god-level mechanical materials of the Du Luo family?

no! !

What he took away was Lin Tianhao's super-god-level mechanical materials.

Just when Lin Tianhao was wondering how to find this mysterious swordsman, his friend request was approved.

"Boss Xuedi, I've heard of your name for a long time. I didn't expect you to take the initiative to add me as your friend."

The one who sent the message was none other than There Was a Mountain in the Past.

His name is easy to remember, but what he did was a little hard for Lin Tianhao to accept.

"You killed Du Luo Qingyun?" Lin Tianhao asked.

Once upon a time there was a mountain which replied to Lin Tianhao with two periods, and then replied with an aggrieved expression.

"Boss Xuedi, why do I feel like you are here to call for punishment? Is Du Luo Qingyun your man?"

"But I don't know. If I knew that Du Luo Qingyun was your man, I wouldn't dare to kill him even if I had ten thousand guts."

really! !

This is the guy.

"Where are the things?" Lin Tianhao asked.

"You mean this thing?"

Once Upon a Time There was a Mountain sent a screenshot to Lin Tianhao.

The thing in the screenshot is none other than the mysterious chip.

"Yes, this is my stuff. You killed my people and stole my stuff." Lin Tianhao replied.

"Boss Xue Di, please don't mess with my mentality. I didn't mean it. If you want this thing, I'll give it to you."

Lin Tianhao raised his eyebrows and a strange look appeared on his face.

"Then why did you want to kill Du Luo Qingyun? Also, where did you change your super god-level hidden profession?"

Chapter 1439 God-level talent: Asking for the sword!

To change jobs to a super god-level hidden profession, in addition to meeting the corresponding conditions for changing jobs of one's own profession, one also needs a very rigid condition.

That is the super god-level hidden job transfer altar!!

The Ancient Dynasty Secret Realm is a huge super-god-level hidden career transfer altar. Some people know this, but not many.

"Boss Xue Di, you know everything, right? I killed Du Luo Qingyun because I accepted a mission to help a little old man get revenge."

In addition to this message, Once Upon a Time There Was a Mountain also sent Lin Tianhao a screenshot.

The content of the screenshot is also very simple, it is the content of a task.

【The Old Beggar's Revenge】

Mission requirements: Kill Du Luo Qingyun.

Mission rewards: Free attribute points +10000, Gods' blessing +1, Equipment upgrade scroll +1.

Mission penalty: unknown.

Lin Tianhao raised his eyebrows. Just looking at the reward for this task, it was very generous.

and.

For Lin Tianhao, if he took action, killing Du Luo Qingyun would not be a difficult task at all.

"Boss Xue Di, you've seen it too. I really didn't intend to kill you. It was just that I happened to receive this mission."

"Before I killed Du Luo Qingyun, I really didn't know his identity. If I knew, I wouldn't dare to kill him even if I had ten times the courage."

Lin Tianhao couldn't help but reply, "You don't look like a sword cultivator."

Sword cultivators are generally more resolute and rarely show such behavior.

"A real man can bend and stretch, and admit his mistakes, so that he can live with his conscience."

Seeing an answer like "There was a mountain in the past", Lin Tianhao always felt that the other party was a little mean.

at the same time.

Once upon a time, there was a mountain that directly traded three chips to Lin Tianhao.

"You haven't answered me yet. Where did you switch to a super god-level hidden profession?" Lin Tianhao asked.

Once upon a time there was a mountain: "Do I need to go to a specific place? I don't need to. My inheritance allows me to complete the Nine Transformations quickly regardless of the location."

Lin Tianhao: ? ? ?

no! !

Is this wrong? No limit on location, complete the nine revolutions quickly? ! !

Whether he was a Sky Punishment Archer or a World-Destroying Mechanic, it was extremely difficult for him to change his job.

This.....

It's somewhat too outrageous.

Comparing yourself to others will make you angry!!

Lin Tianhao had never thought that it would be so easy to switch to a super god-level hidden profession.

"What about your corresponding enlightenment?" Lin Tianhao asked.

Once Upon a Time There Was a Mountain: "The skill that comes with the first level of inheritance is the speed of understanding the sword ten thousand times faster."

"Ten thousand times?!!"

Is this the warrior's super god-level hidden profession? The legendary outrageous man opened the door to outrageous things, and it's just like this.

Lin Tianhao also possesses a super god-level hidden profession, but when has he ever had such skills?

Even the skill that came with the recently acquired Sky Punishment Helmet, although it also increases the enlightenment speed ten thousand times, it has a cooldown period of one month.

"No restrictions?" Lin Tianhao asked again.

"No." A mountain once answered as a matter of course.

Lin Tianhao really didn't know how to describe his current mood.

One day is equivalent to twenty-seven years of enlightenment, and one month is eight hundred and ten years! !

Such an existence will definitely become an unrivaled swordsman.

This is naturally much stronger than ordinary people.

Although ordinary professionals may also obtain some things that can increase the speed of enlightenment.

But for ordinary professionals, most of what they get is an increase of two to ten times.

An increase like this twenty times is somewhat far-fetched.

Lin Tianhao took a deep breath and tried his best to calm his inner thoughts.

The things that A Mountain Once told him were completely beyond his expectations, and even made Lin Tianhao feel a little envious.

"Which country are you from?" Lin Tianhao asked again.

In his previous life, Lin Tianhao had no impression of the person called "Once Upon a Time There was a Mountain". However, in this life, "Once Upon a Time There was a Mountain" seemed to have appeared out of nowhere.

Suddenly, I obtained the super god-level hidden profession of warrior.

"Dragon Country." There was a mountain in the past and quickly replied to Lin Tianhao.

"Would you mind telling me about your talent?" Lin Tianhao asked again.

Normally, it is very impolite to ask about a person's talent, especially since Lin Tianhao is not familiar with the other person.

however.

Once upon a time, there was a mountain that sent a screenshot directly to Lin Tianhao. The content of the screenshot was nothing but his talent.

Lin Tianhao took a glance.

Sword of Questions (God Level): 4 stars.

Effect 1: Every time you touch a new sword, you will gain sword insights and four free attribute points.

Effect 2: Every time you touch a different sword, your sword comprehension speed will increase by 0.04 times.

Effect 3: Every time you touch a new sword, your sword damage will increase by 0.04 times.

Proficiency: 952/10000.

(Note: This proficiency is the number of new swords that are touched).

Lin Tianhao raised his eyebrows. This talent is quite interesting.

Gain an amplification based on the sword that touches it.

This god-level talent is relatively rare and has nothing to do with killing wild monsters.

Because most god-level talents can permanently increase attributes, all you need to do is kill wild monsters.

Once upon a time there was a mountain whose talent for sword-asking was quite extraordinary.

"Are you a casual player?" Lin Tianhao asked.

"Yes, scattered people." A mountain once replied.

"With your talent, have you ever thought about joining a big force and currying favor with others?" Lin Tianhao asked again.

Once upon a time there was a mountain with such talent, which required contact with more swords.

But if he relies on himself alone and wants to get in touch with more swords, it will be quite difficult.

but.

If he could join a larger force, it would definitely be easier for him to get access to new swords.

"So I'm being honest with you, Xue Di. Looking at the entire Ragnarok, there's no one more suitable for me to cling to than you, Xue Di."

Lin Tianhao narrowed his eyes and said:

"But I don't know you very well. I'm talking about your character. You may also know that I don't get along well with the people of the Arlet Galaxy. I'm actually not sure if you are related to them."

"You have god-level talent, and you are a casual player."

"You may be unhappy with what I said, but I still want to fight. It is very difficult for an independent person to obtain a god-level talent awakening stone!!"

In fact, the most crucial and core point is that there was a mountain with such talent in the past. If he had awakened in his previous life, many people would definitely know about it.

After all, if you want to come into contact with more swords, you will inevitably need to come into contact with more people.

But Lin Tianhao had never heard of the name "Once Upon a Time There Was a Mountain" in his previous life, which meant that there was a high probability that "Once Upon a Time There Was a Mountain" had not awakened his talent in his previous life! !

Since the other party did not have the talent for awakening, he awakened again in this life.

why?

The answer is obvious. It is because of the butterfly effect brought about by the flapping of the wings of the butterfly! !

Chapter 1440 Futu Dunshan is still alive!

But Lin Tianhao has never had direct contact with the mountain in this life.

There was a mountain in the past that obtained the god-level talent awakening stone, which must have been obtained through other means.

Did he obtain it by completing the mission himself?

Is my luck so good?

Given by someone else?

But he is just an individual player, who will give him the god-level talent awakening stone?

These are all questions.

and.

Even if Wen Jian has extraordinary talent, how can he obtain a super god-level hidden profession?

All these made Lin Tianhao feel that the mountain in the past was not as simple as it seemed.

of course.

There is also a very important point, that is, there was a mountain in the past, which was really cooperative.

A swordsman!!

He is a swordsman who possesses god-level talent and a super-god-level hidden profession. What reason is there for you to compromise with such a person?

and.

Lin Tianhao could feel that the talent of "A Long Time Ago" was one of the top ones among the god-level talents.

Others may not be able to see the power of this talent, but Lin Tianhao has lived two lives as a human being, and his understanding of talent is not comparable to that of ordinary professionals.

Basic attributes, enlightenment speed, output capacity! !

These can definitely be considered the top three things in Ragnarok.

But there was a mountain a long time ago, and all it needed was contact with a new sword to permanently improve these.

Moreover, the increase is not low.

"Boss Xue Di, I know it's hard for you to believe me based on what I say. We will definitely have more interactions in the future. You can observe me more."

"I really didn't mean to do this this time."

"Got it." Lin Tianhao replied.

In fact, in the case of a mountain in the past, it is a good choice to lure it into the mortal palace.

But as Lin Tianhao said, he did not trust the mountain in the past.

A person whom he had never heard of in his previous life has reached such a height in this life. It is inevitable that Lin Tianhao suspects that there was someone supporting him behind the mountain in the past.

"in addition."

"This god-level talent awakening stone was indeed not obtained by me. It was given to me by a friend."

"He spent a lot of money to buy this thing, and he made an agreement with me. If it was someone else, I might not be able to tell you, but if it's you, I can tell you, but you can't tell anyone else."

Lin Tianhao was a little surprised when he saw the news.

"Why? The way you obtained the God-level Talent Awakening Stone is related to me."

Lin Tianhao also knew that there was a mountain in the past that was able to obtain the god-level talent awakening stone, and it must be related to him.

After all, in the previous life, there was a mountain that had no awakening talent. In this life, he, the reborn one, was the one who stirred up the storm and changed too many things in Ragnarok.

"My god-level talent awakening stone was given to me by Futu Dunshan. They bought it with a large sum of money, but he was later assassinated and faked his death to escape, so he hid it. I have a special relationship with him. After he faked his death to escape, I have been helping him with some things in secret."

"Later, I got a Saint-level talent awakening stone, but I still couldn't awaken it, so he gave this thing to me."

Buddha Shield Mountain!!

Lin Tianhao frowned. The money for his sister's surgery was earned from Futu Dunshan.

When he heard the news before, Lin Tianhao suspected that Futu Dunshan was really dead.

but.

Lin Tianhao didn't care either. After all, whether Futu Dunshan was dead or alive had no effect on him.

just.

Judging from the meaning of "There was a mountain in the past", his reminder to Futu Dunshan at the time should have made Futu Dunshan alert.

That's how he survived his sister's assassination attempt.

As for why he faked his death to escape instead of confronting his sister, these are not issues that Lin Tianhao should be concerned about.

"Let Futu Dunshan send me a message." Lin Tianhao said.

"it is good."

Soon, Futu Dunshan sent a message to Lin Tianhao.

"Boss Xue Di, I'm sorry to bother you. It was indeed me who gave the mountain of God-level Talent Awakening Stones. We purchased them at a high price before."

Lin Tianhao asked directly:

"You obtained the god-level talent awakening stone in the Novice Village?" Lin Tianhao was not quite sure about this.

It has been a while since the news of Futu Dunshan's death came out. It was indeed surprising that he had a god-level talent awakening stone in his hand at that time.

Here comes the problem.

He also doesn't have much trust in Futu Dunshan.

Even though There Was a Mountain in the Past had a special relationship with Futu Dunshan, it was still difficult for Lin Tianhao to trust There Was a Mountain in the Past.

"Well, it wasn't me who got it. Our Fu Tu Guild got it. It just happened to be traded to me at that time."

"I have to thank you, Big Boss Xue Di, for reminding me. If it weren't for you, Big Boss Xue Di, I might have died."

Lin Tianhao frowned slightly. When he arrived at Futu Shield Mountain, the loop seemed to be closed.

"How are you now?" Lin Tianhao asked.

"Not bad. My sister is too impatient. I have never thought of competing with him for the property, but she regards me as a thorn in her side to compete with her for the property."

"Although I know I shouldn't ask, I'm still curious, why did Boss Xue Di remind me like that?"

"Are my sister's intentions already so obvious?"

Lin Tianhao knew that Futu Dunshan was not dead, and he would definitely want to know the answer to this question.

"Why do you ask? As long as you know a little bit about your group, you can see some problems."

"But I didn't expect your sister to actually kill you. I just thought she might take away your part of the property."

Futu Dunshan couldn't help but smile bitterly when he saw this answer.

"Yes."

"My sister is too cruel."

"Let's not talk about her, Boss Xuedi, there was a mountain that was my good brother in the past. I can vouch for his character. You can also observe him more. If you don't mind, let him enter the Mortal Palace."

Lin Tianhao pondered for a moment. Considering the current situation of There Was a Mountain in the Past, there would be no problem at all in joining the Fan Palace.

maybe.

By recruiting Youzuoshan into the Fan Palace, he can also gain some contribution points.

Besides.

If a mountain joined the Fan Temple in the past, would that trigger the rule that one must be absolutely loyal once joining the Fan Temple?

After all, Lin Tianhao knew something about Fatty, Monkey, Glasses, and even Xiao Xiaojian, Su Li, and others, but he had never really tested this issue.

"Row."

Lin Tianhao directly sent a message to Once Upon a Time Mountain, saying:

"Are you willing to join the Fan Temple?"

Once Upon a Time There Was a Mountain replied almost instantly, "Of course I am willing. If I can join the Fan Palace, as long as Boss Xue Di gives me some support, my future achievements will be very high."

"That's not necessary. You have a high talent and a higher level hidden profession. You will achieve great success without me."

Lin Tianhao sent the message, and then sent another one:

"By the way, please keep your talent and hidden profession as secret as possible."
