

O games 1451

Chapter 1451 Destroy the frozen map and force out the phantom!

This kind of output capability is very, very strong, and it can lock and kill those guys from a long distance.

The only drawback is that the damage transfer cooldown is a bit too long.

If the cooldown of the damage transfer could be faster, then combined with the double real body, Lin Tianhao would be truly invincible.

That Shudri Black Emperor is actually not bad.

Lin Tianhao had 27 trillion health points, but he actually only suffered 2 trillion of the transferred damage.

This means that Xiudri Black Emperor's damage reduction is very high.

But even so, it still doesn't help.

Who made him meet this cheating idiot Lin Tianhao?

and.

There is another very core reason why Lin Tianhao was able to transfer the damage so effectively, and that is because of the four people: Heitian Aozhen, Pluto Bai Xiaofeng, Burning Heart Nightmare and Sand Sea Poison Emperor.

If the four of them had not joined forces, it would have been unlikely to cause such great damage to Lin Tianhao in a short period of time.

after all.

Lin Tianhao's damage reduction is also very high.

There are still some people on the list, and Lin Tianhao continues to name them.

Lin Tianhao showed no mercy to both the Star-level and Grandmaster-level enemies and killed them all with a headlock.

These Star-level and Grandmaster-level professionals simply could not withstand the lock of Lin Tianhao's Book of Life and Death.

Unless they have a very high physical transformation like Lin Tianhao, they will have a chance to survive Lin Tianhao's Book of Life and Death.

soon.

Except for a few people of higher ranks, all the others on the list were killed by Lin Tianhao.

After killing these guys, Lin Tianhao will continue with what he had unfinished before.

Including the Mo Ke family's super god-level chips, Lin Tianhao has now collected nine super god-level chips.

There is only one piece left, and that is a problem.

Besides.

There is also the task given to him by Du Luo Mei Bu, which is to eradicate the remnants of Gao Tong's family.

I took on the task from the old beggar in Once Upon a Time There was a Mountain. Maybe I could find clues through Once Upon a Time There was a Mountain.

but.

Compared to this mission, Lin Tianhao would rather conquer the outside world.

Because according to the information Lin Tianhao currently has, there are at least two pieces of heavenly punishment equipment outside the domain.

At present, for Lin Tianhao, the priority of the Heavenly Punishment equipment is obviously the highest.

"Sir, we are just one step away. How about using some extreme methods?"

Kui Wei Changtian looked at Lin Tianhao with some anticipation.

The opportunity to reach the tenth level is right in front of him. If there is a chance, he will definitely want to reach the tenth level.

Lin Tianhao hesitated for a moment and said, "Okay, let's give it a try."

Lin Tianhao took out the ice map and raised the feather arrow in his hand.

The feather arrow cut through the sky and flew towards the frozen map.

The feather arrow hit the frozen map, and a layer of ripples appeared on the frozen map, as if dissolving and dispersing Lin Tianhao's attack.

Lin Tianhao didn't care and continued attacking.

The frequency of the feather arrows was getting faster and faster, but what Lin Tianhao never expected was that his feather arrows did not leave any trace on the frozen map.

"The Ice Map is absorbing the power from your arrows, sir. It's a bit like the defense system of the Future Chamber of Commerce."

Lin Tianhao frowned. He could also feel that his attack was being absorbed.

and.

The conversion rate of this frozen map should be higher than that of the Future Chamber of Commerce.

But Lin Tianhao is not sure how much higher it is.

The feather arrows were still being output continuously, and something depressing happened to Lin Tianhao. The Ice Map first absorbed his power, and then used his power to defend against the feather arrows behind him.

This closes the loop.

Absorbing his power to defend against his power seems to be an unsolvable problem.

However, Lin Tianhao could feel that this defense system was not mature.

The conversion rate of this ice map is limited to 40%, so it still needs to withstand 60% of the lethality of Lin Tianhao's feather arrows.

The same is true for converted defense.

Forty percent of the power was converted, but it was impossible to use this forty percent of the power to fully defend him.

It would be considered good if we could effectively utilize 36% of the 40% power.

therefore.

This ice map can block 76% of the damage from Lin Tianhao's feather arrows, and this is just an ideal state.

as predicted.

With Lin Tianhao's full power, including his three heads and six arms and arrows shot from his heart, some cracks finally appeared on the frozen map.

With this good start, the rest will be much easier.

With Lin Tianhao's continuous output, more and more cracks appeared on the frozen map.

"Speak."

"I returned to this frozen map. Will the ancient city of Moko in this frozen map change from two-dimensional to three-dimensional?"

Kui Wei Changtian said very confidently:

"will not."

"Two-dimensionalization is itself a means of attack. By turning a person or an area into two dimensions, you can seal the opponent, or you can destroy the opponent after turning it into two dimensions."

"Almost all living things, after being transformed into two dimensions, will become countless times more fragile than in a three-dimensional state."

Lin Tianhao nodded slightly. He actually thought so too.

and.

Even if it was as he guessed, there would be no problem.

With the team around him now, Lin Tianhao is confident that he can deal with it even if the Moko Ancient City appears.

"stop!!"

There were more and more cracks on the frozen map, and a low roar was heard.

"Xue Di, you are really an executioner. Do you know how many people are in the ancient city of Mo Ke? If you destroy the ancient city of Mo Ke like this, how many people will die?"

"Even those in power use Dust Seal to change their power, but what about you? You actually slaughtered directly. These debts will drag you down sooner or later."

That's it.

The phantom looked at the Burning Heart Nightmare and the Poison Emperor of Sand Sea again.

"You too."

"It's not easy for you to reach the level you are today. You have committed so many murderous crimes together with Xue Di. You will have to pay it back sooner or later."

Lin Tianhao looked at the other party with a sullen face and scolded:

"I gave you face, didn't I?"

The shadow looked at Lin Tianhao meaningfully and said:

"You are very strong, that is undeniable, but what I said is also the truth, whether you are willing to admit it or not."

Lin Tianhao waved his hand and said:

"I'll tell you the truth. Being killed by me will only benefit you in every way. That's because you are the ancestor of the Mokosha Nation. Otherwise, you don't deserve my treatment."

The shadow groaned for a moment and said:

"You have the Investiture of the Gods in your hand, right? Indeed. To die in the hands of the Lord of Heaven and Earth is indeed a hundred benefits to me, provided that I can be listed on the Investiture of the Gods."

Lin Tianhao was not surprised that the phantom could guess so many things. He said with a smile:

"I told you that you are the ancestor of the Mokesha Nation, and you are worthy of being on the Conferred God List."

Chapter 1452 Mo Keyuan's divination!

The shadow thought for a moment, then shook his head and said seriously:

"Xue Di, I have things I want to pursue. I don't want to be your slave. I don't want to help you slaughter living beings like them."

Lin Tianhao narrowed his eyes slightly, and there was a hint of coldness in his words.

"Do you think you still have a choice?"

"Have."

The shadow responded very affirmatively:

"Xue Di, you need super god-level mechanical materials. If you don't agree, I will destroy all the super god-level mechanical materials on me before you kill me."

Lin Tian smiled and said:

"Very brave. So, are you ready to exchange super-god-level mechanical materials with me?"

"Correct."

The shadow nodded heavily. "You won't lose anything. You can get some super-god-level mechanical materials without doing anything. It's a sure win."

Hear it here.

Lin Tianhao shook his head and said:

"If it was before, I might have hesitated or argued with you again, but now, there is no need."

"Why....."

As soon as the shadow asked this question, his face changed drastically.

Because he found himself unable to move.

even.

None of the super-god-level mechanical materials on his body could be activated.

The reason why he was able to return to the Frozen Map from the hands of Lin Tianhao and others was because of the super-god-level mechanical materials on his body.

But now.

These super-god-level mechanical materials were actually beyond his control.

"Come."

Lin Tianhao just uttered a word lightly, and all the mechanical items and materials on the phantom came in front of Lin Tianhao.

"How can it be?!!"

The phantom's eyes widened, his face full of disbelief. He totally couldn't understand how Lin Tianhao did it.

These.....

But they are all his mechanical items, but now they are all controlled by Lin Tianhao. This is really incredible.

"Surprised?"

A playful smile appeared on Lin Tianhao's face.

"You have no idea of my power."

"It is your honor to be on the Conferred God List, because in the entire Ragnarok, it is an honor for anyone who is qualified to be my subordinate."

Hearing Lin Tianhao's words, the shadow couldn't help but take a breath.

"Can you tell me how you did it?"

Lin Tianhao shook his head and said:

"I'm not a fool. How could I tell others all my methods?"

"Okay, I'm short on time, so... you better go die!!"

Hear this.

The phantom wanted to resist, but he soon found that his resistance was so pale.

Under Lin Tianhao's power, his body began to disintegrate and collapse bit by bit.

"how come....."

"This is not the power you should have now!!!"

The shadow's pupils dilated until he was killed by Lin Tianhao. He had no idea why Lin Tianhao could do this.

As for the reason.

It's also very simple.

Invincible territory!!

This invincible field can only cover an area of ten meters in radius, and just now, the phantom was right within this range.

After killing the phantom, Lin Tianhao directly sent him to the List of Gods and then summoned him out.

At this moment, he was no longer a shadow, but had become a real entity.

He looked at Lin Tianhao with complicated eyes, and finally bowed to Lin Tianhao.

"Your subordinate Mo Keyuanbu greets you, sir."

Lin Tianhao nodded with satisfaction. After Mo Keyuanbu was listed on the List of Gods, his health points instantly increased by hundreds of billions.

This is because the population of the Mokesha Kingdom has become a help to Lin Tianhao.

and.

The increase in life value also proves a problem from the side, that is

Followed by.

Lin Tianhao's health points increased by hundreds of billions.

This is because of the Human King Order. Before the Human King Order, the number had dropped to 75 percent.

This time, the conquest of the Mokesha Kingdom directly increased it to 80%.

A 5 percent increase has a very obvious effect on Lin Tianhao's health.

It was almost as he thought. Only by conquering the ancestor of the Mokesha Kingdom could he truly control the Mokesha Kingdom.

Because most of the consciousness entities of the Mokesha Kingdom are in the spiritual network world, and the main manager of the spiritual network world is the core mastermind Xiaofeng.

The owner of the core brain Xiaofeng is the Mo Keyuanbu in front of him.

"Introduce yourself." Lin Tianhao said.

"Sir, my name is Mo Keyuanbu, an interstellar wanderer, also known as an interstellar mercenary. While on a mission, I offended a powerful force."

"In order to avoid being pursued by this powerful force, I fled all the way and finally came to the Milky Way galaxy."

"Back then, the Shenzhou land of the Milky Way Galaxy had just experienced a catastrophe and was in need of reconstruction. I was considered a master in Shenzhou at the time, so I established the ancient country of Moko, gathered resources, and developed myself."

Lin Tianhao nodded slightly and said:

"What are your abilities?" Lin Tianhao asked.

"I have a god-level talent and a god-level hidden profession. Also, because I traveled all over the country as a mercenary and gained some opportunities, my talent has undergone several transformations. Among god-level talents, it can be considered very powerful."

"Oh?"

Lin Tianhao became more curious and said:

"Tell me about your talent."

"My talent is a mechanical inheritor!"

"The effect is that no matter who makes a mechanical item based on the blueprint I developed, I can gain a free attribute point."

"This is the initial effect, and it cannot be upgraded yet."

Lin Tianhao nodded slightly. One of the characteristics of god-level talent is that one can permanently stack one's own attributes.

This effect of Mo Keyuanbu is also unrelated to killing wild monsters, but the advantage is that it can be refreshed infinitely.

"This talent is still very difficult in the early stages. A new mechanic has no ability to independently produce a brand new mechanical blueprint, let alone produce a mechanical blueprint that is recognized by the public. Therefore, this talent has almost no help to me in the early stages, which also caused me a lot of suffering in the early stages."

Lin Tianhao waved his hand and said:

"No one who grows up from grassroots has a smooth journey. What about now? What have you evolved your talent into?"

Hear this.

Mo Keyuanbu showed a bit of pride on his face, "Now that someone has used my mechanical blueprints to make mechanical items, I can not only gain free attribute points, but also mechanical proficiency and enlightenment speed. In addition, the mechanical items I make will also gain additional dual resistance and health points."

Lin Tianhao raised his eyebrows. Mo Keyuanbu's talent can indeed be considered very strong among the god-level talents.

"Is this the reason why you made the Mokesha country a nation of mechanics?" Lin Tianhao said with a smile.

Mo Keyuanbu nodded, then shook his head, "It is true that I was behind the scenes fanning the flames, but this was more of their own choice."

Chapter 1453 Blood Eyes in the Sky!

Lin Tianhao nodded slightly. He naturally knew why Mo Keyuanbu said that.

Because when Mo Keyuanbu arrived in China, he was already extremely powerful.

With Mo Keyuanbu's talent, he would definitely teach him all the mechanical drawings he knew without reservation.

In other words.

If you choose to become a mechanic in the ancient country of Moko, it is equivalent to possessing the inheritance of the mechanic Moko Yuanbu.

Although it may sound a bit exaggerated, it is undeniable that Mo Keyuanbu's mechanical drawings can help these novice mechanics avoid many detours.

even.

There will be a cliff-like lead.

"My mechanical drawings are all very good. At the beginning, there were still some people who switched to other professions. However, those who switched to other professions would soon be left behind by mechanics."

"With the help of my mechanical blueprints, they can quickly obtain the most powerful mechanical weapons of the same period, and their monster-killing efficiency is higher than that of other professionals of the same period."

"And because I was already strong enough at that time, this crushing could last until the ninth revolution."

"Plus, if you are slow at every step, those who switch to other professions will be left behind by the mechanics of the same period."

Lin Tianhao nodded and said:

"You gave them a smooth path."

This is not a joke.

Although other professions may have some powerful hidden professions.

But hidden professions are few after all. Even if they are Xuan-level or Earth-level hidden professions, they are one in a million, let alone Heaven-level or Saint-level hidden professions.

As for the god level, it is unlikely that even one can be born among tens of millions of people.

Whether to gamble on that one in a million chance or take the smooth road, the choice is actually not difficult at all.

Becoming a mechanic and following the path left by Mo Keyuanbu is at least equivalent to a Xuan-level hidden profession, or even a Di-level hidden profession.

This is stable.

"It's really scary." Lin Tianhao murmured.

Mo Keyuanbu smiled awkwardly and said:

"really."

"Later, the mechanic system became more and more mature, and there were more and more secondary occupations and industries related to mechanics. At the worst time, if you were not a mechanic, you couldn't even find a job."

"A sixth-rank archer is not as popular as a fourth-rank mechanic. It's just outrageous."

Lin Tianhao smiled bitterly, "You are amazing. You have led a country astray with just one person."

"But with so many people in Mokesha helping you, you are growing very fast."

Mo Keyuan nodded and said:

"Indeed, but it is not as good as before."

"These people have discovered the disadvantage of becoming machinists in large numbers, which is that it is difficult for them to make further progress in the later stages."

"Especially because I paved the way for them, they were able to grow up quickly, but once they grow up and need to rely on themselves, it will be useless."

"They are like giant babies who have everything handed to them. It is difficult for them to take a single step on the mechanical road ahead, let alone mechanical ascension."

Kui Wei Changtian nodded and said:

"That would explain why. Their mechanical foundation is very solid, but the top-level stuff is very poor."

That's it.

Kui Weichangtian grinned and said:

"Boss, now that I understand everything, can you take me for the tenth turn?"

Lin Tianhao raised his eyebrows slightly, glanced at Kui Weichangtian, and said:

"You look so impatient, let's go."

If Lin Tianhao had led them to slaughter billions of orcs before, Kui Wei Changtian's level would not be high enough for a job change.

Now that your level is high enough, you can just change your job.

The level requirement for the tenth turn is 20,000.

In Ragnarok, after reaching level 10,000, it becomes very difficult to upgrade.

Because in the entire Ragnarok, there are not many creatures above level 10,000. After reaching level 10,000, if you want to continue to upgrade, you basically have to hunt bosses above the Black Iron level to gain experience points for upgrading.

This is because you cannot gain experience points by killing ordinary wild monsters that are lower in level than yourself.

"Ancient Dynasty Secret Realm."

Lin Tianhao brought Kui Wei Changtian here, "Come, let me see how much impact ten revolutions will have."

A super god-level hidden profession, every job change is huge.

These ten transfers have broken the normal progress of job transfer.

Kui Wei Changtian took out ten super-god-level mechanical chips, and a mysterious power emanated from his body.

Followed by.

These super-god-level mechanical chips were suspended in the air and began to rotate rapidly around Kui Wei Changtian.

Just between breaths.

These indestructible super-god-level mechanical materials actually began to disintegrate and turned into countless points of light.

Followed by.

The sky and the earth change color.

Above the sky, thunderclouds rolled and the wind surged.

Lin Tianhao looked up, and an invisible sense of oppression fell on his heart. The strong sense of oppression made Lin Tianhao unable to help but step back.

The next moment.

There was a crack in the void above the sky.

A blood-red eye looked towards where Kui Wei Changtian was.

Followed by.

The defensive mechanical items on Kui Wei Changtian's body began to break down one by one.

Lin Tianhao's expression changed slightly. Is this the strange phenomenon caused by the tenth transformation?

Or... someone doesn't want Kui Weichangtian to complete the ten revolutions.

After all, when Lin Tianhao was changing his job to become a world-destroying mechanic, something unexpected happened and an unknown existence wanted to interrupt Lin Tianhao's job change.

The blood-red eye above the sky was obviously a living being.

Kui Wei Changtian raised his hand and pointed at the sky, angrily saying:

"Why don't you let me turn ten times? I want to do it!!"

When the words fell.

A black and gold missile instantly cut through the sky and flew towards the blood-red eyes.

This missile was very strange. It was right in front of Lin Tianhao, but Lin Tianhao could not sense its existence at all.

They are even less aware of how dangerous it is.

even.

Lin Tianhao even felt that this missile was fake.

However, Lin Tianhao quickly confirmed that the missile was indeed fake, because the missile suddenly disintegrated when it was about to approach the blood-red eyes.

of course.

There is another possibility, that is, the missile is real, but the blood-red eye is too powerful.

So much so that the missile was destroyed before it exploded.

The next moment.

Countless such missiles were launched into the sky.

Lin Tianhao knew.

Kui Wei Changtian's move is a sleight of hand. It is possible that among so many missiles, one is real, or it is possible that all of them are fake.

Those blood-red eyes revealed a look of human surprise.

This time he did not try his best to block these missiles. As it turned out, these missiles were almost all fake.

However, these blood-red eyes still dispersed a lot of power to block these missiles, which made Kui Wei Changtian, who was originally under great pressure, breathe a sigh of relief.

Chapter 1454: Pointing at the void, forcing back the blood eyes!

but.

What surprised Lin Tianhao was that so many missiles were actually all fake.

Kui Wei Changtian, this is really patient.

Kui Wei Changtian is really cunning to use so many fake missiles to deceive the owner of the blood-red eyes.

If it was Lin Tianhao.

There is a high probability that there will be a few real missiles interspersed among these fake missiles.

But Kuiwei Changtian didn't have any, really not even one.

Anger clearly flashed in those blood-red eyes, and a more mysterious power descended.

But Kui Weichangtian's missile rain was still continuing, and the defensive mechanical items around him collapsed one after another, making Lin Tianhao sweat for him.

"He is not my job-transformation thunder tribulation, hit him!!"

Kui Wei Changtian shouted.

Hearing Kui Weichangtian's words, Lin Tianhao attacked without hesitation.

With three heads and six arms and the ability to shoot arrows from the heart, the arrows were fired at full output and flew towards the blood-red eyes in the sky.

The feather arrows of the Heavenly Punishment Lock are no joke.

Even though these blood-red eyes possessed a power that they could not resist, they still could not make Lin Tianhao retreat.

however.

The moment Lin Tianhao's feather arrow approached the blood-red eyes, it turned into nothingness.

This level of power is definitely at the saint level.

even.

Lin Tianhao's strange blood-red eyes have a power level even higher than that of a saint.

Lin Tianhao was not afraid of the trick of the blood-red eyes. He still increased his attack speed to the maximum and output with all his strength.

He also wanted to see how strong this guy was.

Is it just one eye, but can it be so powerful?

Lin Tianhao's attack seemed to make the owner of the blood-red eyes somewhat unhappy, and its gaze was locked on Lin Tianhao.

This moment.

Lin Tianhao finally understood how much pressure Kui Wei Changtian was under when facing those blood-red eyes.

Just looking at him with those blood-red eyes made his hair stand on end and his blood flow slowed down.

A fear from the depths of his heart surged into his heart, as if these blood-red eyes would be able to kill him in the next moment.

Lin Tianhao secretly thought something was wrong.

Because his invincible field has not yet cooled down, if the blood-red eyes really attack him, his chances of winning will be slim.

Just when Lin Tianhao finished writing and thought.

An extremely mysterious force instantly surged towards Lin Tianhao.

"The space is flickering!!!"

Lin Tianhao used his displacement skills to avoid this mysterious attack.

But this attack seemed to have eyes. The moment Lin Tianhao avoided the attack, it chased after Lin Tianhao again.

Lin Tianhao dodged repeatedly, but the attack not only did not dissipate, but it became faster and faster, leaving Lin Tianhao no time to dodge.

"Absolutely block!!!"

Lin Tianhao knows.

He had to block this attack.

It is impossible for these blood-red eyes to appear here for a long time. They should leave after a certain period of time.

What they have to do now is to hold back these blood-red eyes.

but.

However, Lin Tianhao took back Burning Heart Nightmare, Sand Sea Poison Emperor and others from the List of Gods.

Although they are all very strong, they should be able to help a lot.

But Lin Tianhao didn't dare let them take action, because he didn't know whether these blood-red eyes had the power to kill the Burning Heart Nightmare and the Poison Emperor of Sand Sea instantly.

This is a powerful divine master in Lin Tianhao's hands. If he is killed instantly by this blood-red eye, Lin Tianhao will not even have a place to cry.

Lin Tianhao's absolute blocking blocked the attack, but it still caused the blood in Lin Tianhao's body to surge, and his internal organs felt as if they were being stabbed by a knife.

When the blood-red eyes saw that his attack was actually blocked by Lin Tianhao, there was a hint of surprise in his eyes.

And right now.

Above the sky, the void was revealed again.

A huge finger stretched out from the crack in the void and stabbed towards the blood-red eyes.

A hint of anger flashed in his blood-red eyes, then he looked at Lin Tianhao deeply, and then disappeared.

The finger in the crack of the void was slowly retracted, the void recovered, and only the terrifying thundercloud remained above the sky.

Lin Tianhao let out a long breath. As expected, the powerful people in this world would not allow creatures from other worlds to mess around here.

after all.

Even if the God of the Source of Tao is unable to help now, there are still the Three Pure Ones.

even.

If there are the Three Pure Ones, is there also the Patriarch Hongjun?

After all, Patriarch Hongjun is the master of the Three Pure Ones.

The power released by that finger made Lin Tianhao feel suffocated.

This is because the finger was not directed at him. If it was directed at him, it would be even more terrifying.

"It seems that I am still too weak now." Lin Tianhao murmured.

He is not even a god now.

If he encountered a real god, he would have no chance of winning.

Unless he can pull the opponent into the invincible field within ten meters, he will be able to kill the gods with the help of the invincible field.

And it is most likely an ordinary god.

This is because powerful gods are likely to possess some saint-level methods.

Just like powerful mortals, they also possess some god-level methods.

just.

There are very few people like Lin Tianhao who are still in the mortal realm but possess saint-level means.

Next came Kui Wei Changtian's thunder tribulation.

Lin Tianhao couldn't help him.

The thunder tribulation should not be underestimated. Above the sky, thunders fall one after another at a very fast frequency.

Lin Tianhao had seen many thunder tribulations before, but in general, there would be a certain interval of time between each thunder.

and.

This interval of time is not too short. In fact, it can be regarded as a time for those who are undergoing the tribulation to catch their breath.

But the situation is different now. A bolt of lightning falls above Kui Wei Changtian's head almost every three seconds. This frequency is too fast.

The first thunderbolt had just struck, and the second one was already gathering momentum.

Moreover, each of these thunders was stronger than the last, and coupled with the fact that Kui Wei Changtian had been seriously injured before, this made Kui Wei Changtian look very embarrassed.

Lin Tianhao's expression changed slightly. He could clearly feel that Kui Weichangtian's condition was getting worse and worse.

Lin Tianhao immediately sent a team invitation to Kui Wei Changtian, and then released the skill [Blue Sea Rising] without hesitation.

The blue sea tide rises, and Lin Tianhao releases it actively, which can restore the health of all people in Lin Tianhao's team by 100,000 plus 2% of Lin Tianhao's maximum health.

but.

This is a one-star Rising Azure Sea. Now, because of Lin Tianhao's own proficiency and the skill star upgrade brought by Lin Tianhao's upgrade, the level of Rising Azure Sea has reached five stars.

The five-star Rising Sea Tide can restore 1 billion damage to Lin Tianhao's team plus 10% of Lin Tianhao's maximum health.

One billion, this is actually very high, but it is not too much.

Chapter 1455 Changes after the Super God Level Transformation!

because.

Compared with these ten billion, the healing effect of Lin Tianhao's 10% maximum health value is the most outrageous thing.

When the Blue Sea Tide was activated, Kui Wei Changtian's vitality was recovering at a speed visible to the naked eye.

This recovery speed left many people present stunned.

They never imagined that Lin Tianhao, a guy with such terrifying output, also had such an incredible amount of healing.

It was precisely because of this sip of Lin Tianhao's milk that Kui Wei Changtian, who was almost unable to hold on, recovered a lot in an instant.

"Cool!!"

Kui Wei Changtian was completely stunned and continued to charge towards the thunder.

Countless mechanical weapons also soared into the sky along with Kui Wei Changtian, sweeping towards the sky.

This scene was like a machine flying into the sky, extremely shocking.

In the entire ancient secret realm, everyone was stunned when they saw this scene.

"Is this going to destroy our ancient dynasty? The blood-red eyes before, and the finger that broke through the void, and now such crazy mechanical weapons to fight against the heavenly calamity."

"There is no doubt that someone is going through a tribulation, but it is hard for me to imagine who is going through a tribulation that could cause such a commotion."

"What is certain is that it is definitely not the Snow Emperor. The Snow Emperor is an archer. This person who has passed the tribulation is obviously a mechanic."

.....

Such a huge momentum has attracted more and more people's attention to the situation here.

but.

They mostly watched from afar. Although these people were not of high rank, their IQs were not low. They knew very well that it was a great fortune for them to be able to see this level of tribulation from afar.

past?

That's no different from seeking death.

however.

Although Lin Tianhao gave Kui Wei Changtian a sip of milk, he was still severely injured by the dense thunder.

Kui Wei Changtian glanced at Lin Tianhao to see if he wanted to give him another sip of milk.

Lin Tianhao spread his hands helplessly. The cooling time of this milk is one hour. It's only a short time now. It's simply too late.

Seeing Lin Tianhao's reaction, Kui Wei Changtian already had the answer in his mind.

A ball of white light appeared in his palm.

The next moment.

He slapped the ball of white light into his forehead.

An electromagnetic wave spread out in all directions with Kuiwei Changtian as the center.

Kui Wei Changtian seemed to be resurrected on the spot, and was full of energy and vigor again.

This should be some kind of trump card of Kui Weichangtian. Now that it has come to this critical moment, he is finally willing to use it.

The subsequent thunder did not continue to intensify, which meant that the heavenly tribulation was basically over.

Three more consecutive thunders fell, and the heavenly calamity finally ended.

Light was rising from Kuiwei Changtian's body, and rays of light were converging towards him.

Kui Wei Changtian fell from the air to Lin Tianhao's side, with excitement on his face.

"It's done!!"

Lin Tianhao smiled slightly and asked:

"Isn't the tenth turn of the super god-level hidden profession a little different?"

Kui Wei Changtian nodded gently and said:

"Yes, let me tell you this. After my tenth transformation, all the skills I acquired during my previous nine transformations have been upgraded and their grades have reached a new level."

Lin Tianhao couldn't help but widen his eyes when he heard Kui Weichangtian's words. He knew very well how great the improvement would be.

The upgrade of all the professional skills is almost equivalent to a qualitative leap in strength.

Don't say anything else.

If Lin Tianhao's Sky Punishment Lock can be upgraded, does that mean... anyone who could block his feather arrows before will no longer be able to block them.

Lin Tianhao's other skills will also be greatly improved.

These improvements cannot be explained in a few words.

"besides."

"The skills gained from the tenth turn are also obviously more powerful than those obtained before."

Lin Tianhao nodded gently, "No matter what, a successful job change is good."

That's it.

Lin Tianhao raised his eyes and glanced at the sky.

"Do you know who owns that blood-red eye?"

Kui Wei Changtian thought for a moment and said:

"I don't know, but you may not know that in the endless starry sky, there are many people who try to kill geniuses like this."

"Those who are not of our race must have different hearts. If they see that the geniuses of other races are too evil, even if there is no grudge or enmity, those powerful people will kill them."

"The Tenth Heavenly Tribulation of my World-Destroying Mechanic may have attracted the attention of a powerful being."

Speaking of it.

Kui Wei Changtian paused for a moment before saying:

"I can feel that the other party's eyes are just a skill, not the eyes of his true body."

"and."

"The other party should just do it casually. Maybe he is afraid of something, or maybe he thinks that I am just an ordinary genius."

Lin Tianhao nodded slightly. The same problem occurred when he changed his job to become a world-destroying mechanic.

However, the situation he was in at that time was quite different from Kui Wei Changtian's situation.

"So my lord, if you want to fight with people from other worlds, you still have to be cautious. If you act too demonic, it will easily attract the pursuit of those old monsters."

Lin Tianhao smiled bitterly. This was really for the development of his own race, he would do anything to achieve his goal.

"But this is also normal, because if the geniuses of other races grow up, other races may suffer a catastrophic disaster."

"Just like you, sir. You have seen so many lives fall along the way. A genius is not created by piling up resources, but by fighting one battle after another, stepping on the corpses of your peers, or even the older generation."

Lin Tianhao looked serious and said:

"You reminded me that if I meet a genius from another race in the future, I will kill him too!!"

That's it.

Lin Tianhao waved his hand and said:

"Okay, let's go back first. I still have things to do."

Lin Tianhao brought Kui Wei Changtian back to the Kingdom of Mokesha.

at this time.

All the high-ranking officials of the Mokesha Kingdom were present, as well as Burning Heart Nightmare, Sand Sea Poison Emperor and others.

Lin Tianhao glanced at them and asked:

"Does anyone have any clues about the Heavenly Punishment Equipment? This is very important. Please tell me as soon as you know it."

After Lin Tianhao learned that after completing ten transformations of the super god-level hidden profession, all the professional skills he had previously acquired could be sublimated.

This is too tempting for Lin Tianhao.

If other professional skills can really be sublimated, then his combat effectiveness will be greatly improved.

Several people shook their heads, except the Poison Emperor of Sand Sea, who began to think about it.

"There should be some in Zhongzhou. I once heard an old friend of mine mention it, but the current situation in Zhongzhou..."

Lin Tianhao narrowed his eyes and said:

"As the saying goes, wealth and honor come in danger. I am actually planning to go to Zhongzhou, but not now."

Chapter 1456 Discussion, preparation to go to Zhongzhou!

The words fell.

Lin Tianhao spoke again and said:

"What about the land outside the domain? How much do you know? Especially the Heavenly Palace and the Nine Netherworld in the land outside the domain."

Previously, Lin Tianhao obtained some information about the Heavenly Palace and Jiuyou from Ned Lifu.

But for Lin Tianhao, the information was still too little, and none of it was particularly useful.

Especially Mo Keyuanbu, he is the founder of the ancient Mo Ke Kingdom. In terms of seniority, his seniority should be similar to that of the previous master of the Fan Palace.

as predicted.

The first one to speak was Mo Keyuanbu.

"Tiangong and Jiuyou, these are both divine-level forces, but when I came here, Tiangong and Jiuyou no longer existed."

"However, the Heavenly Palace and the Nine Netherworld still had relatively high prestige at that time, and many people tried to enter them."

"Did anyone succeed?" Lin Tianhao asked.

Mo Keyuanbu spread his hands and said with a smile:

"If you want to tell the public, then there is no one. As for the reason, even if someone went into a place like this, they wouldn't dare to admit it."

"But everyone who has been there said that the road leading inside has been cut off, and no one can set foot in Jiuyou and Tiangong."

Lin Tianhao raised his eyebrows slightly. This information was still useless.

"It seems that I can only explore on my own."

Originally, Lin Tianhao wanted to try to get some clues about Jiuyou and Tiangong from them, but now it seems that he was overthinking.

"My Lord, I have also heard of one thing, that is, the road between the Heavenly Palace and the Nine Netherworld was indeed cut off by a powerful person using supreme means."

"But there is a secret passage between Tiangong and Jiuyou, which can be reached from other places."

"It's just that I don't know."

Lin Tianhao smiled helplessly, "This is useful information, but it's not very useful."

"The news I got is that Jiuyou and Tiangong both have Tianfa equipment, so I have to go."

Mo Keyuanbu hesitated for a moment and said:

"Could this be fake news?"

"Nine Netherworld and Heavenly Palace were difficult to reach in our time."

"Not to mention our time. My Lord, you are too eye-catching now, but there are too few people who can directly confront you."

"It is possible that they might release such false information to you, thus wasting your time."

Lin Tianhao frowned slightly. It seemed that there was nothing wrong with what Mo Keyuan said.

However, considering his previous experience in the outer land, the person who was under Kuntian City at that time should be able to control him.

"What do you think?" Lin Tianhao looked at the others.

As the saying goes, age makes the wise. The social experience of these people present is richer than Lin Tianhao. Lin Tianhao can learn from them and increase his own experience.

"Sir, please tell me the source of the information first." Kui Weichangtian said.

Lin Tianhao told everyone the news he had received.

Several people began to think and analyze the truth of the news.

After a while.

Burning Nightmare frowned and said:

"I know, I know. The veiled woman is suspected to be a space alien, and what she told you was ambiguous. This is problematic no matter how you look at it."

The Sand Sea Poison Emperor nodded and said:

"If it's in the Heavenly Palace, it's in the Heavenly Palace. If it's in the Nine Netherworld, it's in the Nine Netherworld. But what she said is that there is one thing outside the domain, which includes both the Heavenly Palace and the Nine Netherworld."

"so."

"Is this one in the Heavenly Palace? Or in the Netherworld?"

"I've also heard of the Devil's Sea. It's very easy to get lost in there, and there are a lot of disordered rules and forces."

"Even now, I am not willing to set foot in such a place easily."

What Burning Heart Nightmare and Sand Sea Poison Emperor had said had been very clear.

That's the feeling.

The mysterious veiled woman deceived Lin Tianhao.

As for the purpose.

I just want to waste Lin Tianhao's time.

After all, Jiuyou and Tiangong are difficult to reach, and it is very difficult to get out of the Devil's Sea once you enter it.

If they want to gain something in these two places, they will need to spend a lot of time.

The Sand Sea Poison Emperor thought for a moment and said slowly:

"I think, sir, you should listen to me and go to Zhongzhou Continent."

"Currently, the Zhongzhou Continent has been severely damaged, and the powerful people at the Great Emperor level have been forced to come out."

"It would be great if we could get the Heavenly Punishment equipment, but if we can't, with our current lineup, it wouldn't be bad to send a few great emperors to the Conferred God List."

"If we send a few more great emperors to the Conferred God List, and use the Beast God Vase together, we will be more confident when we go to the Heavenly Palace or the Netherworld next time."

What the Poison Emperor of Sand Sea said makes a lot of sense.

Don't say anything else.

If he could get a few more powerful people at the divine level, Lin Tianhao would be more confident.

"According to the information we received earlier, the fog in Zhongzhou is afraid of gold coins, or in other words, gold coins are useful."

The Sand Sea Poison Emperor hesitated for a moment and said:

"Sir, please give me a few days. I will first understand the situation in Zhongzhou Continent."

"It is good."

Lin Tianhao still had no doubt about the ability of the Poison Emperor of Sand Sea.

The situation in Zhongzhou Continent has caused headaches for even those powerful people at the level of Great Emperor. The situation is very likely not as simple as it seems.

"Mo Keyuanbu, I will give you enough gold coins to build a few mobile castles."

"It is good."

Lin Tianhao looked at Burning Heart Nightmare again and said:

"And you, check the situation of those guys in the Alete Galaxy recently."

It was obvious that this attack was led by those guys from the Alete Galaxy, but Lin Tianhao knew very little about the Alete Galaxy.

After being defeated in the previous battle with him, these guys from the Alete Galaxy are now too cautious in doing things and didn't even leave any useful clues for Lin Tianhao.

"Okay." Burning Nightmare nodded.

After arranging things, Lin Tianhao began to gain enlightenment.

Three days passed in a blink of an eye.

In just three days, the Poison Emperor of Sand Sea had almost completely investigated the situation in the Central Plains.

"Sir, I have investigated from many aspects and the news I got is that the situation in Zhongzhou has been temporarily stabilized. Now the hard currency in Zhongzhou is gold."

"Gold can block the erosion of the fog and can also seal the fog monsters."

"Golden cities have been built one after another in Zhongzhou. What I have been able to investigate is that 19 golden cities have been built in Zhongzhou, gathering a lot of people."

While talking.

The Poison Emperor of the Sand Sea also took out a map. "This is a general map of Zhongzhou Continent. Since Zhongzhou Continent is too large, this map is just a rough outline."

"The approximate locations of these nineteen cities have been marked on the map, along with a brief introduction."

That's it.

The Poison Emperor of the Sand Sea paused for a moment and said, "In addition to these nineteen cities, there are thirty-five forbidden areas. These are places that you absolutely cannot set foot in."

Chapter 1457 Xiaoyao Wudimen: Li Hanli!

"These thirty-five forbidden places are all lessons learned through blood and tears, and the answers we finally got."

"My sources all told me that if a Great Emperor sets foot in these forbidden places, he will be in danger of death, but it is not clear for a Divine Master."

"Because there seems to be no more strong men in the God Level realm in the entire Zhongzhou Continent. Almost all the known strong men in the God Level realm have gone to the God Realm."

Lin Tianhao nodded slightly. This was not surprising.

Because after reaching the realm of divine quality, it is no longer meaningful in Ragnarok, and there is almost no room for improvement.

In fact, even after reaching the ninth level, it is already difficult to continue to increase the level during Ragnarok.

However, many people are somewhat afraid of the divine realm.

The Divine Realm is a place where gods fly all over the sky. If they are not strong enough, they will die without knowing how they went to the Divine Realm.

"The current situation in Zhongzhou is quite complicated. Because of the fog, the major forces have to coexist in the same city."

"Some cities may have three or four holy land-level forces living in them at the same time."

Lin Tianhao nodded slightly and asked:

"Are there many powerful people at the level of Great Emperor in Zhongzhou now?"

"Seven."

The Poison Emperor of Sand Sea gave Lin Tianhao an accurate answer directly.

"Of course, this is already known."

"There are seven super powers in Zhongzhou Continent, and among them there are more than ten powerful people at the level of Great Emperors."

"There are seven left now. One chose to leave and went to the divine realm. Three others have already died, and two are missing."

Lin Tianhao frowned slightly. This situation was worse than he had imagined.

The strong men at the level of the Great Emperor would die, which means that the monsters and fog in the Central Plains are more terrifying than he imagined.

Because a strong person at the level of the Great Emperor can be almost 100% certain to have saint-level means.

After all, it is somewhat unreasonable for a strong man who has reached the level of the Great Emperor to say that he has no tricks up his sleeve.

But even three of these powerful men have fallen.

"From this perspective, the situation in Zhongzhou is indeed very bad."

Lin Tianhao hesitated for a moment, he still did not intend to change his mind about going to Zhongzhou Continent.

Without him.

Because of the blessing of the God of Wealth [high interest], Lin Tianhao has an endless supply of gold coins. In the past year or so, the number of gold coins in Lin Tianhao's hands has reached an appalling level.

Gold can restrain the fog and monsters, which is a natural advantage for Lin Tianhao.

Besides.

Lin Tianhao is accompanied by powerful men of the divine level like the Poison Emperor of Sand Sea and the Burning Heart Nightmare. Even if he cannot say how much he will gain by going to the Zhongzhou Continent, at least he will not return empty-handed.

and.

Lin Tianhao still felt that this major change in the Central Plains continent was very likely to be hiding a great opportunity.

After all, according to Lin Tianhao's understanding of Ragnarok, wealth and honor are always sought through risk.

We have enough strength and the confidence to retreat safely.

Lin Tianhao felt that he had no reason to retreat.

However, Lin Tianhao was not too anxious to go to Zhongzhou Continent. He briefly explained the situation of Haomiao Continent.

After all, once he arrives at Zhongzhou Continent, it is still unknown whether he will be able to receive news from Haomiao Continent.

and so.

Lin Tianhao needs to prepare in advance.

If there is something really important, Lin Tianhao can also choose to come back.

and.

To ensure nothing goes wrong.

Lin Tianhao left his second true body in the ancient mysterious realm, beside the Green Tooth Ghost Demon.

The Green-fanged Ghost Demon is also a powerful being at the divine level, and also a rule-based monster. It is undoubtedly the safest to be around him.

As for why it was not the Mortal Palace, or the invincible area left behind by Lin Tianhao before.

This is because the area where Lin Tianhao left his invincible domain has reached the edge of Ragnarok, and it is actually not safe there.

Because Lin Tianhao's second true body needs to separate its soul power to control it in order to fight.

Even if he was in the invincible realm, Lin Tianhao did not allocate soul power to control it. Even if he possessed invincible power, he was just an immovable living target.

therefore.

Lin Tianhao still chose to place his second real body in the magic talisman building of the Green Tooth Ghost Demon, and let the Green Tooth Ghost Demon protect his second real body.

This is also Lin Tianhao's worst-case plan.

That is, if his original body really encounters some irreversible crisis, he can still return to his second true body.

After arranging all the matters in the Haomiao Continent, Lin Tianhao headed to the Zhongzhou Continent.

The Mekradin Desert goes all the way to the end, where there is a strait.

By crossing that strait, you can reach the Zhongzhou continent.

at this time.

Lin Tianhao stood on the beach, his eyes of insight probing across the strait.

however.

When Lin Tianhao's Eye of Insight came into contact with the fog, it seemed as if it was stuck in a quagmire, completely unable to continue exploring the front.

This was also within Lin Tianhao's expectations.

If the Eye of Insight could penetrate the fog and allow Lin Tianhao to see everything clearly, then the fog would not have caused such a mess for the entire Zhongzhou continent.

Just as Lin Tianhao was about to go over, a golden box rushed out from the fog and was close to Lin Tianhao in the blink of an eye.

Lin Tianhao raised his eyebrows. Someone came out from Zhongzhou Continent.

Although Lin Tianhao did not deliberately investigate, he also knew that there should be some people who escaped from Zhongzhou Continent recently.

According to Lin Tianhao's estimation, as long as there is enough gold, a master-level expert would be able to walk out of the Zhongzhou continent.

"Heitian Aozhen." Lin Tianhao ordered.

Hei Tianao attacked without hesitation.

He just raised his hand and intercepted the golden box.

The golden box was suspended in the air, and a deep voice came from the golden box:

"Who is so bold as to intercept me?"

As the voice fell, the golden box slowly opened, and a middle-aged man with thick eyebrows and big ears stepped out.

"Who are you? What are you doing in the vast continent?" Lin Tianhao asked.

The middle-aged man with thick eyebrows and big ears glanced at Lin Tianhao and said:

"Xiaoyao Wudi Sect, Li Hanli, who are you? Why are you stopping me?"

Lin Tianhao said calmly: "Fan Palace, Snow Emperor!"

Hear this.

Li Hanli's eyes lit up and excitement appeared on his face.

"You are the Snow Emperor?!"

Lin Tianhao nodded and said:

"Yes, you haven't answered me why you came to the Vast Continent."

Li Hanli said bluntly:

"I came to the Haomiao Continent precisely to visit you, Xue Di, and trade some gold coins with you."

"I think you, Xue Di, already know about the current situation in Zhongzhou Continent, and you should also understand the purpose of my exchanging gold coins."

Chapter 1458 Trading Set: Bargain Price!

Lin Tianhao nodded slightly. Li Hanli was at the level of a half-step emperor. In the Zhongzhou Continent, he could definitely be considered a top-notch master.

"You've come just in time. I'm going to Zhongzhou and I'm in need of a guide."

Hear this.

Li Hanli was shocked and said:

"Xue Di, the current Zhongzhou Continent is not a good place. If it were back then, I would still very much hope that you would come to Zhongzhou Continent as a guest."

"But it's not possible now. In just half a year, three great emperors have fallen from our Zhongzhou Continent. The number of other creatures who have died is incalculable. The number of deaths of the human race alone exceeds 100 billion."

Lin Tianhao narrowed his eyes and said:

"I know. Since I am planning to go to Zhongzhou Continent, I naturally know something about it."

Li Hanli nodded and said:

"Since you have made your decision, Xue Di, I can't say anything more. There is absolutely no problem with this guide, but..."

"I want to trade gold coins..."

Lin Tianhao raised his eyebrows slightly and said:

"That's not a problem. How many gold coins do you need? Or, how much stuff can you exchange for gold coins?"

Don't be fooled by the fact that many of the NPCs Lin Tianhao encounters can offer relatively valuable rewards.

But in fact, these rewards do not belong to them.

Just like Lin Tianhao.

As the master of the Mortal Palace, he can give out a lot of rewards.

But these rewards do not belong to Lin Tianhao himself. He must issue reasonable tasks before he can distribute these rewards.

"This time I definitely come with full sincerity."

"One hundred thousand sets of seventh-turn platinum suits, ten thousand sets of eighth-turn diamond suits, three hundred sets of ninth-turn star-level suits, fifty sets of ninth-turn grandmaster-level suits, and twenty sets of ninth-turn king-level suits."

"Nine Revolutions Royal Grade Suit, five sets, Nine Revolutions Emperor Grade Suit, one set!!"

Lin Tianhao's pupils suddenly shrank. This set of equipment was too outrageous.

Because looking at the entire Ragnarok, Star-level wild monsters are extremely rare, and as for higher-level wild monsters, they can be described as hard to come by.

of course.

Whether it is Star level or Grandmaster level, there are regularly refreshed copies or secret realms.

The really difficult ones are the wild monsters at the king level and above.

Because it is almost impossible to refresh king-level wild monsters on a regular basis.

At least according to the information Lin Tianhao had learned, wild monsters above the king level, even in the late stage of Ragnarok, were like world bosses, requiring a large amount of manpower and material resources to besiege them before any achievements could be made.

"I used to think I was quite rich, but now it seems that I am still too poor."

"However, it is not appropriate for a strong man like you who is at the level of a half-emperor to bring such a huge fortune."

Lin Tianhao felt that so much equipment was an incredible fortune even for him.

"Because of the rules of Ragnarok, even if you kill me, you still won't get much benefit."

"I can only exchange a few good pieces of equipment with you, which is already the limit."

"and."

"Even if I gave it to you directly, you wouldn't be able to receive it. This goes against the basic rules of Ragnarok."

Lin Tianhao nodded slightly and said:

"There is no problem with what you said, but I need to inspect the goods first. There are so many things. You know, I need to raise money, a large sum of money."

"no problem."

Li Hanli directly opened a storage bag, which contained neatly arranged pieces of equipment.

"What's the price?" Lin Tianhao took a quick look and asked about the price.

Adventurers are now beginning to enter the seventh level one after another, and at this time, seventh level platinum equipment is hard currency.

"Seventh-turn platinum equipment, five million gold coins per set."

Lin Tianhao's eyes lit up. Is this price expensive?

Not expensive!!

It can even be said to be a price that breaks one's bones.

"At this price, it's already half-sale and half-gift." Lin Tianhao said.

"Yes."

Li Hanli nodded slightly and said, "There is nothing we can do about this. We also have to consider how much gold coins you can come up with."

"The inheritance of Zhongzhou Continent cannot be destroyed in our hands, so we need to be generous and generous."

"Not only that."

"We also want to make friends with you, Xuedi."

Lin Tianhao nodded slightly, don't think that the seventh-turn platinum suit will become transitional equipment.

When it reaches the seventh level, it is a platinum-level suit. Equipment of this level can definitely be used as a reserve resource for a holy land-level force.

Five million gold coins, at this stage, it would be good enough to sell three or two pieces of seventh-level platinum equipment.

What's more, this is a suit, a complete suit!!

"One hundred thousand sets, that's 500 billion gold coins."

Lin Tianhao raised his eyebrows. This was indeed a very large number.

If the previous Shanhai Empire's finances had to come up with 500 billion gold coins, it would also be a bit stressful.

But now, this is just a small problem for Lin Tianhao.

but.

He could handle so much equipment by himself, but there was no need.

"Hold on."

Lin Tianhao opened his own small group and sent a message directly.

"A seventh-turn platinum suit costs five million gold coins. There are a lot of them. Is there anyone who needs one?"

Not long after Lin Tianhao sent out the message, Shura Yize immediately replied.

Shura Yize: Holy shit, five million per set? That's a really good deal.

Because of Lin Tianhao's high interest rates, these big guilds also benefited from it.

therefore.

Their gold coin reserves should not be underestimated.

"Our Shura Guild wants one hundred sets, no, two hundred sets."

Now the top players in these big guilds have gradually reached the seventh level, and there is still a great demand for the seventh-level platinum suits.

"Xuluo Yize, you asked for 200 sets right away. You don't want to leave any for us."

Jinghong Mengshuang also replied to the message:

"Boss Xue Di, our Jing Hong Guild also wants 200 sets."

Xue Di: "Is this all you want? It seems that the big deal has to be done by Blade, @狂战刀锋, how about it, can you eat tens of thousands of sets?"

Shura Yize: "Tens of thousands of sets? Damn, I'm sorry Xue Di, I shouldn't have underestimated you. I thought you might only have a few hundred sets. If that's the case, our Shura Guild wants 5,000 sets. How about that?"

Jinghong Mengshuang: "Your Shura Guild's elite group only has a few thousand people in total. Are you planning to arm everyone in the elite group to the teeth?"

Shura Yize: "That's not the case. Our Shura Guild currently has sufficient gold reserves. We must turn these gold coins into combat power. This is the most real thing."

Berserker Blade: "Boss Xuedi, we'll take as many sets as you have, up to 500,000."

Jinghong Mengshuang: "Brother Daofeng, this is too outrageous. Five hundred thousand sets, how many gold coins does that cost?"

Chapter 1459 Spend all your money to buy a set!

Berserker Blade: "Gold coins are negotiable. Does Snow Emperor have a more advanced set? I need both the eighth and ninth rank."

Xue Di: "You know me. I have both 8th rank diamond and 9th rank star suits."

Berserker Blade: "Yes, both."

Seeing Berserker Blade's eager look, Lin Tianhao knew there was hope.

Because he himself does not need so much equipment, these equipment are mostly for the official.

For this number of sets, I guess only the official side has the demand and the ability to buy them all.

Xue Di: "Okay, the goods are not mine. I need to discuss with the owner. There are 100,000 sets of the seventh-level platinum suits. You can discuss and see how to distribute them."

The reply is complete.

Lin Tianhao looked at Li Hanli again, "What are you going to do with the next set of suits?"

Li Hanli had obviously already thought of the price.

"Eighth turn diamond level suit, 500 million gold coins per suit."

"Nine-turn Star-level suit, 50 billion gold coins per set."

"Nine Revolutions Grandmaster-level suit, 15 trillion gold coins per suit."

Lin Tianhao took a deep breath and said with a wry smile: "You really think highly of us. We can't even take this amount of gold coins."

Although he knew that the price was actually reasonable.

But the most important thing is.

How many people can come up with so many gold coins at this stage?

Even with Lin Tianhao's current gold coin reserves, he felt a little pressure.

It's not that Lin Tianhao can't take out so many gold coins. The most crucial problem is that if Lin Tianhao takes out so many gold coins, the high interest compounding rate will drop a lot.

Li Hanli heard Lin Tianhao's words and smiled helplessly:

"Xue Di, our price is already very low. Normally, suits of this level would cost more than this. Moreover, these suits are all sold out."

Lin Tianhao nodded, he naturally knew this.

The eighth-turn diamond-level suit may still be available for purchase.

However, the Nine Revolutions Star-level suit is something that is almost impossible to buy no matter how many gold coins you have.

Lin Tianhao sent the price to the small group.

There was a brief silence in the small group, followed by exclamations.

Shura Yize: "Oh my god, oh my god, do you have the Nine Revolutions Grandmaster level suit? How big can the attribute bonus be?"

Jinghong Mengshuang: "At this stage, if I had a set of Nine Revolutions Grandmaster-level suit, then I could walk sideways in terms of equipment."

Shura Yize: "Xue Di: Walking sideways? Have you asked me?"

.....

Lin Tianhao got the attributes of several sets of suits from Li Hanli and sent them to the group.

The attribute bonuses of these sets are very high, and the set effects are even more terrifying.

"Among all the adventurers in Ragnarok, there should be no one who has this seventh-turn platinum suit except for you, Boss Xuedi, right?"

Although the level is rising fast now, it has already reached the eighth level.

It doesn't mean that you will definitely have better equipment when your level goes up.

"This batch of equipment is an opportunity for everyone. Consider it for yourselves."

Lin Tianhao sent the quantity of these sets to the group.

Although this price is already very cheap, Lin Tianhao knows very well that it would be extremely difficult even for the official to take it all.

Berserker Blade: "Boss Xuedi, give me some time. I will go and raise the money."

Lin Tianhao knew that Berserker Blade had been depositing gold coins with him over the past year or so, and the amount of gold coins that he had earned, compounded by the interest, had exceeded eighty trillion.

but.

These 80 trillion cannot buy more advanced equipment.

The Nine Revolutions Grandmaster level set costs 150,000 yuan per set.

Even if he spent all his money, he could only buy five sets of Grandmaster-level suits.

As for how many gold coins Berserker Blade had, Lin Tianhao didn't know either.

Lin Tianhao had no idea how much gold coins could be raised from the people behind Berserker Blade.

If he wanted to raise gold coins, the easiest way would definitely be to start from the military.

There are quite a few people in the Dragon Kingdom's military, and they are strictly disciplined. If there is an order from above to help them raise gold coins, they will definitely be able to raise a large amount of gold coins.

but.

Lin Tianhao didn't know exactly how many there were.

As the level increases, the probability of spawning gold coins will greatly increase.

According to Lin Tianhao's experience in his previous life, it is not difficult for an ordinary professional to earn more than 100 gold coins by completing tasks and killing monsters normally in a day after reaching level 200.

As the level increases, the efficiency of earning gold coins becomes higher and higher.

"Xuedi, buy it first. We will try our best to eat all the sets."

Lin Tianhao raised his eyebrows. It seemed that Berserker Blade really wanted to take over such a batch of equipment.

In fact, this is not difficult to understand. Having reached the current situation, it is actually relatively easy for them to upgrade.

But it is too difficult to produce high-quality equipment of the same level.

Not to mention this set of high-level, high-grade equipment.

"How about we take over 100,000 sets of seventh-level platinum equipment first?" Lin Tianhao sent a message in the group.

They had no objection. As for gold coins, they had saved a lot of gold coins in Lin Tianhao's hands, which was enough to pay for the 100,000 sets of platinum-level equipment.

Pay in one hand and deliver in one hand.

With two powerful men at the divine level nearby, no accidents occurred.

When Lin Tianhao traded the equipment to Berserker Blade, Shura Yize and Jinghong Mengshuang.

They were all very excited.

Jinghong Mengshuang: "Is this the seventh-level platinum suit? Most of it actually has an amplification effect on the field."

Shura Yize: "This is the difference between a set and individual pieces. The effects of these sets are equivalent to at least three pieces of equipment of the same level."

Berserker Blade: "Master Xuedi, please give me some of the Nine Revolutions Grandmaster-level suit first."

Shura Yize: "Brother Blade is still rich, we can't compare with him, but we also want the Nine Revolutions Star Glory equipment, so we can still give it a try if we grit our teeth."

These seventh-turn platinum suits cost a lot of gold coins.

But after all, they are the top adventurers of Ragnarok in Dragon Kingdom, and their ability to make gold is unquestionable.

and.

People who have reached their level may have known something about the Central Plains, more or less.

Naturally, I will work harder to earn gold.

just.

A set of Nine Revolutions Star-level suits costs 50 billion gold coins. This price is a big pressure even if they have a lot of gold coins.

finally.

The Shura Guild and the Jinghong Guild each took fifteen sets of Nine-Revolution Star-level equipment.

"Don't you want the eighth-turn diamond level one?" Lin Tianhao asked.

"want."

Shura Yize immediately replied:

"But for the eighth-turn diamond level, I can only take 200 sets."

"I want three hundred sets." Jinghong Mengshuang said.

Lin Tianhao exchanged the equipment they needed with Li Hanli.

Seeing that Lin Tianhao only exchanged for such a small amount of equipment, Li Hanli smiled bitterly and said:

"Xuedi, this amount of gold coins is not enough."

Lin Tianhao's mouth twitched and he said:

"Among adventurers, being able to eat so much is already very good."

Chapter 1460 Heading to Zhongzhou Continent!

Li Hanli thought for a moment and said:

"What about you? Shanhai Empire and Fan Palace should also need strategic reserve resources."

"These suits are all very nice."

Lin Tianhao smiled helplessly and said:

"These suits are great, but it's a bit difficult to come up with so many gold coins to buy your suits at once."

The Grandmaster level set requires 15 trillion gold coins, what about the King level?

That would cost hundreds of trillions of gold coins.

While these sets are not bad value, they are certainly not too expensive either.

But the Haomiao Continent is not the Zhongzhou Continent after all, and its foundation cannot be compared with that of the Zhongzhou Continent.

"How many King-level, Emperor-level, and Imperial-level suits do you want?"

If possible, Lin Tianhao would naturally want to spend the gold coins wisely.

These higher-grade sets are what Lin Tianhao wants.

"The King-level suit costs 500 trillion gold coins. This should be the limit you can afford."

Lin Tianhao's mouth twitched and he said:

"So, these royal and emperor-level suits are just what you took out to fool me?" Lin Tianhao naturally had more than just these gold coins in his hand.

Because of the compound interest and Lin Tianhao's influence, there are still many people who deposit gold coins with him.

Besides.

With the financial reserves of the Shanhai Empire, Lin Tianhao's current high interest income exceeds 15 trillion gold coins every day.

Adventurers don't have many gold coins, that's because there are only a few billion adventurers in the world.

But there are many people in the Shanhai Empire, so naturally there are more gold coins that can be stored.

and.

Lin Tianhao's number is still increasing.

Five hundred trillion gold coins, which is Lin Tianhao's high interest for more than one month.

This is also the part of the high interest that Lin Tianhao is going to use to give to the people who deposit their money with him.

just.

Is it really appropriate to spend so many gold coins to buy a king-level suit?

After all, Lin Tianhao himself doesn't need the king-level suit now.

and.

Given the current situation in Zhongzhou, it would be more useful for him to keep these gold coins.

If he keeps these gold coins, he might get unexpected gains.

"Li Hanli."

"Your equipment is indeed good, but to me, it is just good. I personally don't need it."

Hear this.

Li Hanli pondered and said:

"A king-level suit is hard to come by, Xue Di, if you want to buy it, the price of 500 trillion gold coins can be slightly less."

It is clear.

Li Hanli felt that Lin Tianhao was just bargaining when he said this.

Lin Tianhao is very concerned about how many gold coins he can get from this transaction. It would be good as long as he can get gold coins.

Lin Tianhao shook his head and said:

"Li Hanli, you may have misunderstood. I don't want to bargain, but I plan to go to Zhongzhou Continent first to see the situation there."

"The fog is unknown now, and I don't know much about the situation in Zhongzhou."

"If we take out a large amount of gold coins for trading now, what will we do if the fog spreads to the vast continent in the future?"

"It will be too late to raise gold coins by then."

Li Hanli nodded heavily and said:

"I admire the Snow Queen's ability to plan ahead."

"But does the Shanhai Empire really have no demand?"

"A suit of the Ninth Revolution King level is hard to come by. If you miss this chance, it will be difficult for you to get a suit of this level again."

Lin Tianhao did not deny it either, nodded slightly and said:

"It's really not easy."

"But I still want to go to Zhongzhou to take a look. You are from Zhongzhou, so why don't you tell me about the situation in Zhongzhou? If possible, give me one or two missions in Zhongzhou."

Li Hanli nodded and said:

"I welcome you to the Central Continent. For adventurers like you, I can give you a long-term common mission."

"Common tasks?" This was the first time Lin Tianhao heard of this term.

"Yes, it's a common task. For every fog monster you take in, you can find a professional above the ninth level king in the Zhongzhou Continent to submit it. You can get 10,000 free attribute points and 10,000 contribution points."

After hearing what Li Hanli said, Lin Tianhao instantly understood the special feature of this common task.

"Ten thousand contribution points?"

However, Lin Tianhao was still not quite clear about these 10,000 contribution points.

"Yes, one contribution point is equivalent to the purchasing power of 100 million gold coins. I think you can understand it."

"Because for you professionals, what you need is different, and contribution points are the most convenient."

Lin Tianhao couldn't help but gasp.

He thought of a possibility, whether this could be used to take the monkey off.

However, the Zhongzhou Continent is still quite dangerous right now, and it would be quite risky to bring the monkey there rashly.

"By the way, can the task be submitted here?"

"I'm going to contain the monster, but give the reward to my friend."

Li Hanli was very surprised to hear Lin Tianhao's words.

"Xue Di, you are really willing to spend. Ten thousand free attribute points is not low."

Lin Tianhao smiled bitterly:

"But 10,000 free attribute points will only make a negligible difference to my current improvement."

Li Hanli waved his hand and said:

"Although it is difficult to understand your behavior, Xue Di, there is no problem."

"Just give the captured monsters to your friends and submit them to me."

Lin Tianhao nodded slightly and said:

"Wait and see. Some people are still raising money. Maybe they can get one or two sets of the Nine Revolutions Grandmaster-level suits."

Lin Tianhao didn't have to wait too long before the Berserker Blade race finished collecting the money.

Not surprisingly.

Berserker Blade consumed two more sets of Nine Revolutions Grandmaster-level suits.

With these equipment, Berserker Blade and his men's speed in acquiring resources might be greatly improved.

The reason why these big guilds are so eager to get these suits is that after obtaining them, they can quickly convert them into resources to improve themselves.

"To be honest, the gold coins are a bit scarce."

Li Hanli was somewhat disappointed with the decision, "But Xue Di, you are willing to go to Zhongzhou Continent, which may be an opportunity for us."

Lin Tianhao smiled slightly and said:

"I hope it really is an opportunity."

That's it.

Lin Tianhao waved his hand and said:

"Almost done. I'm going to Zhongzhou Continent now."

Lin Tianhao took out the golden chariot made by Mo Keyuanbu. Hei Tianaozhen controlled the golden chariot with his mind and flew towards the Zhongzhou continent.

Li Hanli watched Lin Tianhao leave with a complicated look in his eyes.

"It's good to go to Zhongzhou Continent. You've had too smooth a journey so far. It's time for you to experience some setbacks."

.....

Zhongzhou Continent!!

Lin Tianhao had just arrived here when he felt that his five senses were compressed to the extreme.

Just as if.

Here he has returned to being an ordinary person, and his five senses are no different from those of ordinary people.
