

O games 1471

Chapter 1471 Please be on the List of Gods!

Lin Tianhao smiled and said:

"Maybe I am just mysteriously confident?"

Lie Hongyu opened her red lips and said:

"You were able to unify the Shanhai Empire. You took the Mokesha Kingdom just after it had recovered, and the Tutulu Empire also bowed down to you. I don't believe that someone who can do all these is a person with mysterious self-confidence."

Lin Tianhao smiled slightly and said:

"You really think too highly of me. If it were you, you would be able to do what I have done."

"After all, any powerful emperor can do these things."

"Is it?"

Lie Hongyu stared at Lin Tianhao meaningfully, as if he wanted to eat him.

"Come on."

Lin Tianhao waved his hand, turned and left.

The changes in the fog monster made Lin Tianhao feel a little uneasy.

If Lin Tianhao didn't have many trump cards and the three great masters, Sand Sea Poison Emperor, Burning Heart Nightmare and Black Sky Aozhen, by his side.

His own combat capability is also extraordinary, and most importantly, he has various means that give him the confidence to deal with all kinds of unknowns.

Not long after leaving Nulong City, these fog monsters began to appear one after another.

One, two, three...

The fog monsters have indeed grown stronger, and bolder.

But so what? In the hands of Burning Nightmare, these fog monsters are still like toys.

A strong person at the Divine Level can easily defeat a fog monster at the Great Emperor Level.

especially.

These fog monsters are also restrained by gold.

When he just came out, Lin Tianhao was still watching a little, but then he went straight to enlightenment.

He also wanted to see what his way of space would become.

Now I have reached the fourteenth level of the realm of asking for the way. What level will I reach next?

Fifteenth floor, or sixteenth floor?

In the blink of an eye, another week has passed.

In just one week, Burning Heart Nightmare brought Lin Tianhao back to Angry Dragon City.

"Why are you back?" Lin Tianhao asked.

According to Lin Tianhao's estimation, they would have to be accommodated for at least ten days to half a month.

As a result, he came back after only seven days.

"Since yesterday, we have basically not encountered any fog monsters. Until today when we came back, we haven't encountered a single fog monster." Burning Heart Nightmare replied.

"So outrageous?" Lin Tianhao was a little surprised.

Then he seemed to understand.

"Could it be that because the fog monsters devoured each other, the number of fog monsters has decreased now?"

"It should be." Burning Nightmare nodded.

"alright."

Lin Tianhao was also a little helpless. If there was no solution, there was no solution. There was nothing he could do.

"How many fog monsters did you contain this time?"

These are all real free attribute points.

"Five hundred and thirty-five." said Burning Heart Nightmare.

"It's getting less every day, which is why we chose to come back."

Lin Tianhao looked a little unhappy and asked, "Have any of these fog monsters that devoured each other reached the realm of the Great Emperor?"

If these fog monsters that devour each other now have the existence of the emperor level, what will happen next?

A fog monster of divine quality will inevitably be born.

even! !

According to their devouring calculations, it is not just an ordinary divine product, and it is not impossible that it can even surpass the divine product.

Or...

A divine product of the twelfth revolution!!

It is even a legendary, thirteen-turn divine product!!

Lie Hongyu submitted the task again and got another 5.35 million free attribute points.

Add to that the previous 3.2 million and the 230,000 free attribute points obtained at the beginning.

Lin Tianhao has obtained 8.78 million free attribute points during his visit to Zhongzhou Continent.

Even for Lin Tianhao, this is an astronomical figure.

"Xue Di, you came back. I believe you found that the fog monster is very difficult to capture." Lie Hongyu said straight to the point.

"Yes." Lin Tianhao nodded.

Lie Hongyu continued:

"They are eating each other and their numbers are declining dramatically, which is very bad news for us."

"Because right now we in Nulong City don't dare to send out messengers. They will die!!"

"Even a half-step emperor-level communicator has died."

Lin Tianhao knows.

These cities in Zhongzhou Continent communicate with each other through human power.

Those who can go to other cities in the fog are generally quite powerful.

"I have also walked around Nulong City and encountered a fog monster that was half a step away from becoming an emperor."

"and."

"It seems to be running for its life, which means that there is a stronger being chasing it. It may be its own kind and wants to devour it."

Lin Tianhao frowned and said:

"Then your common task seems to be useless."

"Snow Emperor."

"I think you can create infinite possibilities, so..."

"I want to give you a new task."

"What mission?" Lin Tianhao asked.

"It's still about containing the fog monsters, but I'll increase your reward to one million."

"Contribution points and free attribute points are both increased by one million."

Lin Tianhao shook his head and said:

"I have many ways to earn free attribute points, but what I want more is... Grade +1."

"Also, I want to do something."

"What's the matter?" Lie Hongyu asked with a frown.

Her intuition told her that what Lin Tianhao wanted to do might not be a good thing.

"I want to help you advance to the divine realm." Lin Tianhao said.

Hear this.

Lie Hongyu widened his eyes, his face full of disbelief.

She stared at Lin Tianhao and said in a trembling voice:

"Xue Di, you are kidding, promoted to the realm of Godly Grade?!!"

This sounded like a joke and he really found it hard to believe.

Lin Tianhao smiled and nodded, saying:

"I'm not kidding, and there's no need for me to joke about something like this."

Lie Hongyu took a deep breath and tried his best to calm himself.

"I don't believe in free lunches, Xue Di, tell me your conditions."

"To be honest, I really don't have a rank +1 mission. If I have one, I will definitely give it to you."

Lin Tianhao said with a smile:

"Since you said you didn't, I'm still willing to believe you."

That's it.

Lin Tianhao changed the subject, looked at Lie Hongyu seriously, and said:

"I want you to be on the Conferred God List, and then I will help you get promoted to a godly rank."

Lie Hongyu's expression changed drastically, "This is impossible!!"

Lin Tianhao frowned and said, "There aren't many opportunities to be promoted to a divine level. Do you really want to give up like this?"

"Besides, for you, being on the Conferred God List is not a bad thing."

"Isn't it a bad thing that I have lost my freedom?"

There was a hint of coldness in Lie Hongyu's tone.

"If I have to use my freedom in exchange for promotion to the Godly Level, then I would rather not have this Godly Level."

"Xue Di, please speak properly. We are still friends. If you have evil intentions towards me, then we can only be enemies!!"

Chapter 1472: Demon-Subduing Sky-Piercing Finger!

Lin Tianhao raised his eyebrows, looked at Lie Hongyu with a smile, and said:

"I'm already talking to you nicely, but from the look of you, you don't want to take the step I'm giving you."

"Stairs?"

Lie Hongyu's expression became extremely serious. If someone else said such words, she would definitely think that the other person was crazy.

But Lin Tianhao is different.

Lin Tianhao has done so many things that make people feel incredible.

Killing a powerful person at the level of a great emperor sounds like a fantasy, but if Lin Tianhao really wants to do it, it may not be impossible.

"Xue Di, I am at least a strong man at the level of the Great Emperor."

Lin Tianhao waved his hand and said:

"All gods can be on my list of gods, so why can't you be on it?"

"God?"

Hear this.

A hint of disdain flashed in Lie Hongyu's eyes.

"Maybe you will think I am a little arrogant, but I still want to say it."

"God, if I want, I can enter the realm of God at any time."

"My limit is much higher than that of too many gods."

"And as long as I enter the realm of gods, I will naturally be stronger than ordinary gods."

Lin Tianhao nodded slightly, this was indeed true.

"Yes, otherwise, there would be no point for you to be on the Conferred God List."

High-level strongmen like Lie Hongyu are not unable to enter the realm of gods, but they have greater ambitions.

To impact the divine realm, one does not need such a high grade.

The reason why many people still want to pursue high quality and high transfer is because it is easier for mortals to accumulate these things.

The difficulty of upgrading a god and upgrading a mortal is incomparable.

The same is true for changing jobs.

To be precise.

After reaching the realm of gods, there is no such thing as job change, only simple realm.

something.

It is a threshold that cannot be reached after reaching the realm of gods.

therefore.

These things must be accomplished while in the mortal realm.

"Xue Di, we have a win-win relationship. There is no need to be aggressive."

Although Lie Hongyu felt that with his strength at the level of the Great Emperor and many trump cards in his hand, even if he could not deal with Lin Tianhao, he should be able to escape from Lin Tianhao unscathed.

The value of a great emperor is extremely high in the entire Zhongzhou continent.

"I didn't want to do it, but seeing the situation now, I have no choice but to do it."

Lin Tianhao sighed helplessly.

Lie Hongyu is on the list of gods, this is something that must be done.

After all, after she was on the list, Lin Tianhao could help her achieve the divine level, which would be of great help to Lin Tianhao.

Lie Hongyu flashed and tried to escape.

But as soon as her body flashed, she realized that she had only flashed five meters away and did not leave here.

"how come?!"

Lie Hongyu was shocked that her displacement skills were restricted.

Lin Tianhao took direct action.

Lie Hongyu tried to run away again, but Lin Tianhao saw that Lie Hongyu was just spinning in circles and didn't run away at all.

"I affected her consciousness. In her mind, she was running away, but in fact she was spinning in circles."

The voice of Burning Heart Nightmare sounded, with a smug look on his face.

"really."

"Not everyone is as immune to my confusion as you, my Lord."

Burning Heart Nightmare had used similar methods when dealing with Lin Tianhao before.

But the result was that the Burning Heart Nightmare had no effect on Lin Tianhao at all.

After all, Lie Hongyu was a powerful man at the level of the Great Emperor, and he quickly realized that something was wrong.

But after she realized something was wrong, she expanded her domain, but did not attack Lin Tianhao. She only blocked Lin Tianhao's arrows.

"Xue Di, we can discuss this."

Lie Hongyu spoke vigilantly to the air.

Lin Tianhao was standing not far from her, but she seemed not to see Lin Tianhao and looked around vigilantly.

Lin Tianhao did not stop and continued to shoot arrows.

Lie Hongyu snorted coldly and scolded:

"Xue Di, you are going too far. Do you really think I can't do anything to you?"

As Lie Hongyu finished his words, Lin Tianhao saw the feather arrow he shot begin to break.

"It's quite strong." Lin Tianhao couldn't help but sigh.

"End the fight."

Burning Heart Nightmare moved and instantly appeared in front of Lie Hongyu.

Lie Hongyu was not surprised. He had a stone tablet in his hand and slapped it towards Fenxin Nightmare.

"The great and powerful emperors all have some hidden cards."

The body of the Burning Heart Nightmare was smashed into pieces, but Lin Tianhao knew that it was not the real body of the Burning Heart Nightmare, but just a clone.

Under normal circumstances.

Lie Hongyu should be able to discover that Burning Heart Nightmare was using a clone.

But her consciousness at this time was affected by the Burning Heart Nightmare, so it was naturally difficult for her to tell whether the Burning Heart Nightmare clone was real or fake.

One hit missed.

A protective shield instantly rose up around Lie Hongyu, and his body was divided into seven parts, chasing in seven different directions.

Lin Tianhao's Heavenly Punishment Lock actually began to move around.

To be precise.

It is constantly switching the target of pursuit.

"This clone method is quite interesting. There is no clear clone. She can switch back and forth freely among these seven clones."

"No matter which one you chase, she will be able to escape."

Heitian Aozhen's voice sounded.

"If I take action, I may not be able to catch her."

Although Hei Tianao's strength is indeed higher than Lie Hongyu's, being able to defeat him and being able to kill him are two different concepts.

however.

The Burning Heart Nightmare is of divine quality, one major grade higher than Lie Hongyu. Such a gap has determined Lie Hongyu's fate.

"come out!!"

"You are such a coward!!"

Lie Hongyu roared angrily. She was sinking little by little into the conscious dream woven for her by the Burning Heart Nightmare.

The Burning Heart Nightmare method is really brilliant.

Lie Hongyu, a powerful man at the level of a great emperor, didn't even touch the corner of Fenxin Mengyao's clothes.

No wonder Lie Hongyu was so angry.

She raised her hand and pointed at the sky, "You're not coming out, right? Then I'll force you to come out!!"

Following Lie Hongyu's finger, dark clouds gathered above the sky, and a vortex of dark clouds began to gather rapidly.

As if to echo Lie Hongyu's finger, a finger actually stretched out from the dark clouds.

However, the finger that stretched out from the dark clouds was like Optimus Prime, or like the golden cudgel that pierced through the sky, pressing down towards the earth.

An extremely strong pressure fell on Lin Tianhao, and he was unable to move.

"What's going on? Are we going to be attacked like this in this secret realm?"

When someone saw this finger falling from the sky, their faces changed drastically in an instant.

"This... this looks like the Demon Subduing Sky-Piercing Finger, which is the magical power of our city lord, Emperor Hongyu."

"Only when Emperor Hongyu uses this magical power can such a terrifying effect be achieved."

Chapter 1473 Lie Hongyu is on the list!

"Who is it? Who actually forced Emperor Hongyu to use the Demon Subduing Sky-Piercing Finger!!"

"If this Demon Subduing Sky-piercing Finger, which contains the Way of Fire, falls, I'm afraid this secret realm will not be able to withstand it. Emperor Hongyu is going to destroy this secret realm."

"Hurry up and leave this secret realm, otherwise we will be severely injured or even die by the power of the secret realm being shattered!"

.....

Figures began to flee.

"Snow Emperor."

At this moment.

An urgent voice came.

"If there is anything, we can discuss it. If my sister has done anything wrong, I apologize to you on her behalf. Please be merciful."

The person coming is not someone else.

It was Lie Hongyu's younger brother Lie Fusheng.

Lie Fusheng was very anxious. The reason why their Lie family was able to gain a foothold in the Central Plains was largely due to his sister, Emperor Hongyu.

After all, in the entire Zhongzhou Continent, Emperor Hongyu is already a ceiling-level existence.

"Fosheng, go away!!"

Hearing his brother's voice, Lie Hongyu became a little anxious.

She was well aware of how strong the opponent she was facing at this moment was.

This is even more powerful than the Ten-turn Emperor she had faced before.

She didn't know why there was such a strong man around Lin Tianhao, but she knew very well that she couldn't escape today.

The members of their Lie family cannot all die here.

"Escape to the divine realm!!"

"Go to the Divine Realm!!"

Lie Hongyu roared at the top of his lungs and used all kinds of mysterious methods.

The secret realm they were in was indeed unable to withstand the fierce bombardment of the great and powerful emperor Lie Hongyu.

But in just a moment, the secret realm became unstable and began to shake. The sky and the earth shook, and the space was torn apart. It seemed that this world would fall apart at any time.

"Snow Emperor!!"

Lie Fusheng glared at Lin Tianhao. He wanted to leave, but a small tower appeared above his head.

This small tower is none other than the ancient black tower.

"If you hadn't come, I might have hesitated, but now that you're here, then stay."

Lie Fusheng is at the half-step emperor level, and Lin Tianhao can use the Beast God Bottle to help him reach the half-step emperor level.

Although it was still a little short, it seemed a pity to just kill him directly.

Or maybe.

Is to let him join the Fan Palace.

If he joined the Mortal Palace, he wouldn't have to waste his place on the List of Gods.

Lin Tianhao has not yet considered how to deal with the other party.

therefore.

The simplest approach is to let Hei Tian Ao Zhen suppress it directly with the ancient black tower.

"How... how is it possible?!"

Lie Fusheng's expression changed drastically, "Half a step to the realm of Godly Quality!!"

"No, even if he is at the half-step divine level, it is impossible for him to hold my sister back and suppress me at the same time!!"

Lie Fusheng was horrified.

A half-step divine level being strong is indeed powerful, but it shouldn't be this ridiculously strong.

After being shocked, Lie Fusheng suddenly realized something and said in disbelief:

"No, there is someone else who fought with my sister. How could there be so many peerless masters around Xue Di?!"

That's right.

In Lie Fusheng's eyes, a being like Heitian Aozhen can indeed be regarded as an unrivaled powerful being.

After all, in the entire Zhongzhou continent, the strong people at the level of the Great Emperor are already the ceiling level.

A person who is half a step away from becoming a god-level being is naturally considered an unrivaled powerhouse.

These two peerless masters are so terrifying.

Even someone like him had no idea when these two peerless powerful men were born in this Chinese land.

After Lie Fusheng was suppressed, the battle came to an end.

Lie Hongyu used all his tricks, but only created some trouble for Fenxin Nightmare, which could not change the outcome.

"Ding, congratulations, you have successfully killed the Red Rain Emperor. We will announce it to all servers soon. Do you want to hide your name?"

"hide."

Lin Tianhao also wanted to send other great emperors and powerful men from the Zhongzhou Continent to the List of Gods, so he had to be careful and cautious in doing things.

If they become alert and hide, we will be in trouble.

"Announcement to all servers, congratulations to the player who hid his nickname and successfully killed the Red Rain Emperor. We hereby announce this and hope that all adventurers will keep up the good work!!"

.....

After dealing with Lie Hongyu, Lin Tianhao directly sent her to the List of Gods.

"Come out."

Lin Tianhao summoned Lie Hongyu.

"Where is my brother?" Lie Hongyu had just been listed on the List of Gods and had not yet been completely enslaved. The moment he came out, he asked about Lie Fusheng's situation.

Lin Tianhao signaled Heitian Aozhen to release Lie Fusheng.

Seeing his sister, Lie Fusheng felt a little relieved.

"What the hell is going on? Why are you fighting?"

Lie Fusheng also didn't expect that Lin Tianhao would fight with his sister.

After all, the information he had received before was that they should make friends with Lin Tianhao as much as possible. They had already taken the initiative to make friends with Lin Tianhao, so how could they still fight?

"I promise to help your sister advance to the divine realm." Lin Tianhao said.

"What?!!"

Lie Fusheng couldn't believe his ears.

This is the realm of divine quality, the realm that only appears in legends.

"The price was too high, and my sister disagreed, so you had a disagreement and started fighting?"

After a brief shock, Lie Fusheng immediately understood the reason.

To break through from the realm of the Great Emperor to the realm of the Divine, without a great opportunity, one would have to pay a huge price.

"I think the price is nothing, but your sister doesn't want to." Lin Tianhao said.

Lie Hongyu hesitated to speak. If it were before, she would definitely glare at Lin Tianhao and yell at him.

But now she was already affected by the power of the contract in the List of Gods, and she couldn't feel angry towards Lin Tianhao at all.

"After all, not everyone can accept being on the Conferred God List." Lie Hongyu said bitterly.

The words fell.

She bowed to Lin Tianhao and said, "I am Lie Hongyu, your Excellency."

Lin Tianhao waved his hand and said:

"Since you've been included in the Conferred God List, we're all one family from now on."

"My promise to you will not change. I can help you advance to the Divine Level."

That's it.

Lin Tianhao looked at Lie Fusheng again and said:

"The same goes for you. I can help you upgrade to a higher level, provided you join my Mortal Palace."

Lie Fusheng touched his nose awkwardly and said:

"Xue Di, am I not even qualified to be on the Conferred God List?"

"Do you want to hear the truth?"

"To be honest, I don't have any. I think it's a bit of a waste to send you to the Conferred God List."

Lin Tianhao spoke frankly, but his words made Lie Fusheng even more embarrassed.

"What you said was so hurtful." Lie Fusheng said.

"My sister has been included in the Conferred God List. I am in your hands and have no chance of escaping. It seems that the only way is to join the Mortal Palace."

"bring it on."

Lin Tianhao took out the Beast God's Treasure Bottle and poured out the divine liquid of evolution.

This divine liquid of evolution must be placed in the Beast God's bottle, otherwise it will dissipate in a short period of time.

After Lin Tianhao took out the magical liquid of evolution, the other party had to take it quickly.

Chapter 1474 Conquer the Angry Dragon City!

Lie Hongyu and Lie Fusheng looked at the Evolutionary Divine Liquid in Lin Tianhao's hand with some curiosity.

Lie Fusheng hesitated for just a moment, then took the Evolutionary Divine Liquid handed over by Lin Tianhao and swallowed it directly.

After taking the Evolutionary Divine Liquid, Lie Fusheng's entire aura began to rise continuously, and in an instant he became several times stronger than before.

"How can a drop of liquid be so powerful?"

"Could it be the essence of the Goddess of Life? The most direct transformation of living things?"

Lie Hongyu was also surprised.

Although Lin Tianhao said he would help them upgrade their grade, she still felt that even if Lin Tianhao could really help them upgrade their grade, it would be quite complicated.

Or it may take longer.

After all, their grades are not low, and it is not an easy task to help them improve their grades.

But what is the result!!

Lin Tianhao helped them evolve with just a drop of liquid.

As for why Lin Tianhao helped Lie Fusheng evolve before he joined the Mortal Palace, the reason was very simple.

That is, if Lie Fusheng was allowed to join the Mortal Palace directly, he would definitely be sent to the Divine Realm due to his rank.

therefore.

Lin Tianhao first helped Lie Fusheng to improve his rank.

and.

Lin Tianhao also wanted to see if he could get some useful information from a saint if a saint appeared.

Thunderclouds rolled in the sky.

Compared with the thunder tribulation that Lin Tianhao had seen before when the emperor was promoted to a divine level, this thunder tribulation seemed unremarkable.

Lie Fusheng is quite powerful, after all, he has a sister who is at the level of a great emperor to guide and help him behind the scenes.

Lie Hongyu felt complicated as he watched his brother going through the tribulation.

I don't know if it's the effect of the List of Gods or if Lie Hongyu figured it out himself.

At this moment, she actually felt that being included in the Conferred God List was not a disadvantage at all.

after all.

Her brother's rank has been upgraded, and she can also upgrade her rank to the divine level.

Look at the entire Ragnarok.

I don't know how many people have lost their lives in pursuit of higher rank.

And she.

Just by being on the List of Gods, one can be promoted from the realm of the Great Emperor to the realm of a god.

Although...but...at least I'm still alive, right?

After Lie Fusheng passed the tribulation, his rank had reached the level of a half-step emperor.

Feeling the powerful force filling his body, he actually felt for a moment that he might be able to compete with Lin Tianhao.

This is the mysterious confidence that comes with suddenly gaining powerful strength.

but.

This mysterious confidence only existed for a moment.

Because Lie Fusheng knew very well that Lin Tianhao's strength was beyond his imagination.

Even his sister, who was at the level of the Great Emperor, was captured, let alone him.

"Now, you can join my mortal temple."

Lin Tianhao smiled slightly.

Lie Fusheng nodded slightly. Although he had reached the realm of half-step emperor, Lie Fusheng was still very clear.

With his strength, it is almost impossible for him to escape from Lin Tianhao.

"From today on, you are my Fan Palace Elder."

Lin Tianhao threw an elder token to Lie Fusheng.

Lie Fusheng took over the elder token of the Fan Palace, and his eyes changed subtly.

Lin Tianhao knows.

This is the effect of the power of the rules of the Fan Palace.

"Ding, congratulations, you have successfully recruited a Half-Step Great Emperor, and the contribution value of the Fan Palace has increased by 120 billion."

Lin Tianhao didn't care too much. He was looking forward to the coming of the saint.

however.

What surprised Lin Tianhao was that the saint he was expecting did not appear.

"Sir, you seem to be waiting for something?" Lie Hongyu asked.

Lin Tianhao looked serious and said:

"Before, when I recruited someone who was too powerful, a saint would appear and force the person I recruited to go to the divine realm."

"But this time... he didn't show up."

Lin Tianhao looked extremely solemn.

Why didn't the saint appear?

Is it because Lie Fusheng does not meet the requirements?

It shouldn't be!!

Lie Fusheng, who is at the level of a half-step emperor, definitely meets the requirements. According to common sense, a saint should appear.

But the result was that the saint did not appear.

"You control a holy land?" Lin Tianhao stared at Lie Fusheng.

This is the biggest possibility Lin Tianhao could think of.

"No."

Lie Fusheng shook his head. "I am most afraid of trouble. Apart from some things my sister asked me to do, I seldom do anything."

"Not to mention managing a holy land."

Lin Tianhao frowned. If that was the case, it would be even more difficult to explain.

What on earth was the reason that the saint did not appear?

Or.....

Something happened to the Saint? ! !

to be frank.

This is the point that Lin Tianhao is most unwilling to believe.

The God of the Source of Tao was playing a game with the God of Creation of the Alate Galaxy. Lin Tianhao could understand why he didn't show up.

But why doesn't the saint come out?

Originally, Lin Tianhao wanted to take this opportunity to meet the saint and ask him some questions he wanted to know.

"Snow Emperor."

At this moment.

A weak voice came, "You have put our city lord on the Conferred God List, so what are you going to do with us next?"

Lin Tianhao looked up and found that the person who spoke was a woman at the Ninth Revolution Star Glory level.

Her level is already considered good in the Shanhai Empire.

But if it is placed in the Central Plains, it is only at a medium to low level.

Lin Tianhao raised his hand and pointed at Lie Fusheng, and said loudly:

"Just like him, join the Fan Palace, and we will be a family."

"There are tens of billions of people in this Angry Dragon City. Have they all joined the Mortal Palace?"

A ninth-level king-level woman asked.

"Of course not. Those who are at the seventh level or above will join the Mortal Palace."

"As for the others, you can join the Shanhai Empire. I will protect you all."

These people in Nulong City don't have much desire to resist.

After all, if they stayed in Nulong City, they would definitely not be able to defeat Lin Tianhao.

As for leaving Nulong City.

Given the current situation in Zhongzhou, if they leave Nulong City and enter the fog, it would be tantamount to seeking death.

"Lord Xuedi, I wonder if we also have a chance to advance to a higher rank?"

They all saw Lie Fusheng's promotion in rank, which was extremely tempting to them.

"Prioritize upgrading the rank of masters above the King level, and everyone else will have a chance as well."

If they all joined the Mortal Palace, then they would all be his people, and helping them to improve their ranks would be what he should do.

Hearing Lin Tianhao's words, everyone in the field showed excitement.

"I am willing to join the Fan Palace."

"I would like that too."

"And us!!"

.....

Joining the Mortal Palace can bring them protection and improve their rank, which is too tempting for them.

of course.

The most important thing is that they basically don't know that joining Fandian will mean they will be absolutely loyal to Fandian.

If they knew, many people would probably hesitate.

Chapter 1475 If the saint does not come out, there may be a disaster!

Lin Tianhao took out the tokens of the Fan Temple, including deacons, disciples, elders and all kinds of tokens.

"Ding, congratulations, you have successfully recruited a ninth-level king-level expert, and the contribution value of the Fan Palace has increased by 20 billion."

"Ding, congratulations, you have successfully recruited a ninth-level master, and the contribution value of the Fan Palace has increased by 4.2 million."

"Ding, congratulations, you have successfully recruited a ninth-level king-level expert, and the contribution value of the Fan Palace has increased by 55.5 billion."

.....

A series of prompt sounds rang in Lin Tianhao's mind.

This time it was truly a great harvest, but as both were at the Ninth Revolution King level, the rewards for contribution points given to the Mortal Palace were vastly different.

It seems that the reward for contribution value is not simply based on realm, but also on strength and potential.

Just like him.

Although he is a seventh-turn cultivator, if his grade is counted, his current grade is at most a seventh-turn diamond grade.

But can his strength be calculated according to the seventh-turn diamond level?

Obviously it can't be done.

and.

Lin Tianhao also wanted to see, since he had gathered so many strong men together, would the saint still remain in seclusion?

In fact, Lin Tianhao still hopes that a saint will appear.

If the saint doesn't show up this time.

That means there is something wrong with the saint.

As Lin Tianhao gathered more and more powerful people, he felt colder in his heart.

Because the saint has not appeared yet.

Until the last professional above the seventh level took over Lin Tianhao's deacon token, the saint that Lin Tianhao was expecting still did not appear.

"Those above level eight, follow me in."

Lin Tianhao brought the professionals above level eight to a small secret realm.

These people have joined the Fan Palace and are now absolutely loyal to Lin Tianhao.

Lin Tianhao's eyes swept over them, and there were more than 5,300 people above the eighth level.

The gold content of Zhongzhou Continent is still very high.

After all, as far as Lin Tianhao knew, in the entire Shanhai Empire, there were less than three thousand professionals above the eighth level.

However, this is not difficult to understand, because according to Lin Tianhao's speculation, the reason why there are so many professionals above the eighth level.

It should be related to these mists.

Under the cover of this fog, most of the low-level professionals died, and those who remained were naturally of higher levels.

"Greetings to the Lord of the Palace."

The more than 5,000 people bowed to Lin Tianhao.

More than 5,000 professionals above level 8 bowed like this, and the shock was even greater than if 500,000 people bowed at the same time.

With just over 5,000 people, they can basically be considered a super force.

"I have a few questions for you. First, do you know about the Heavenly Punishment Equipment?"

these people.

They can all be considered as the top group of people in Zhongzhou Continent, and there is a high probability that they know about the Heavenly Punishment Equipment.

Most people were shaking their heads. This was normal. If anyone knew about the Heavenly Punishment Equipment, then it wouldn't be so difficult for him to find it.

"Master Palace Master, I know there is a place that seems to have Heavenly Punishment equipment."

A ninth-level king-level mage stepped out. She seemed to be thinking, "Zhongzhou Continent, Dark Dragon Lake. My grandfather told me this when he left Shenzhou. He said that this news might be able to save my life in the future."

"Your grandfather?" Lin Tianhao was a little surprised.

Lie Fusheng said:

"This person's grandfather was once a veteran great emperor from our Zhongzhou Continent, the Wind and Thunder Emperor."

"He chose to leave after reaching the tenth level of the Great Emperor."

This ninth-level king-level mage smiled at Lin Tianhao and said:

"Please excuse my embarrassment, Lord Palace Master. After my grandfather left, our Feng family began to decline. My father tried his best but only reached the half-step emperor level."

"Our whole family has a relatively high affinity for the wind attribute, and we also have special blood. As long as we grow smoothly, it won't be too difficult to reach the king level."

"But if we want to go further, it will be extremely difficult."

"My grandfather accidentally merged the Great Way of Thunder and evolved his bloodline, which is how he achieved the realm of the Great Emperor."

Lin Tianhao was also a little surprised and said with a smile:

"To be honest, what I hated the most was the blood monster."

He wasn't joking.

In his previous life, he really hated blood monsters.

In his previous life, he did not have awakened talent, so he had a hard time.

I often see that people around me are talented, and with the help of their talents they are ahead of me in every aspect.

If talent only made Lin Tianhao envious, then bloodline really made Lin Tianhao feel hateful.

Because blood can become stronger just by being alive, and then with the support of blood, he can reach a point that he cannot reach even if he works hard for his entire life.

For example, the current ninth-level king-level female mage of the Feng family.

The bloodline of their Feng family is such that as long as it develops normally, it can reach the king level.

Is this a human? This is simply a beast!!

"There's nothing wrong with bloodline. To be precise, bloodline makes us who we are, but also destroys us."

The ninth-level king-level female mage said helplessly:

"It is indeed easier for us to reach the Ninth Revolution King level than most other professionals."

"But similarly, after reaching the Ninth Revolution King level, it will be as difficult as ascending to heaven for us to make further progress in this lifetime."

"Just like my father, he worked hard all his life but only reached the half-step emperor level."

"The true emperor level is like an insurmountable chasm that cannot be crossed no matter what."

Lin Tianhao nodded slightly and said:

"It is undeniable that what you said makes sense, but you also have to know that the Ninth Revolution King level is a level that many people cannot reach even after working hard for their entire lives."

That's it.

Lin Tianhao waved his hand and asked:

"Where is this Dark Dragon Lake? Did your grandfather tell you any other information about the Heavenly Punishment Equipment?"

The ninth-level king-level female mage thought for a moment and said:

"My grandfather only told me that the Heaven Punishment Equipment is related to the Dark Dragon Marsh dungeon. This is a single-player dungeon and is very difficult."

"Also, you need to trigger the hidden level of the dungeon to obtain the Heavenly Punishment equipment."

Hear this.

Lin Tianhao's eyes lit up involuntarily, because for him, as long as it was a copy, with his current strength, he could basically pass it.

"If it was the Dark Dragon Swamp before, there would definitely be no problem. But it is different now. It is a forbidden place. A master who entered there and reached the realm of a half-step emperor has never come out again."

"There are powerful emperors who have explored outside, and the answer they got is that there is a high possibility that there are fog monsters at the level of emperors inside, and there may even be more than one."

Lin Tianhao frowned and said:

"Then do you know Mo Qilin?"

Lin Tianhao originally planned to ask Mo Linshui directly, but he was afraid that Mo Linshui was just a pseudonym.

When they heard Lin Tianhao asking Mo Qilin, many people present knew something.

After all, the Black Qilin is a divine beast with great strength and powerful bloodline. As long as there are traces of its activities in the Zhongzhou continent, it will be difficult not to be discovered.

"There are three recorded black unicorns in our Zhongzhou Continent."

Chapter 1476 New God and Demon Blessing Mission!

The one who answered Lin Tianhao was Fo Hongyu.

"Who are they?" Lin Tianhao asked.

"Mo Lintian, Mo Linfeng, Mo Linhai."

"The three of them seem to be three brothers. They are very powerful, but they act very low-key and rarely show their talents in public."

Lin Tianhao raised his eyebrows. None of the three Black Qilin had Black Qilin Water.

Could it be that.

Mo Linshui is the pseudonym of Mo Linhai, which is possible.

otherwise.....

Is it because Mo Linshui has been around for too long that fewer people know about him?

After all, the Poison Emperor of Sand Sea has been sleeping for such a long time, and during this time, people will forget a lot of things.

especially.

According to Lie Hongyu, Mo Qilin is relatively low-key in doing things, perhaps because not many people know about them.

"Where is Mo Linshui? Do you know him?" Lin Tianhao asked.

"Molin water?"

Lie Hongyu shook his head blankly, and Lin Tianhao looked at the others again.

"do not know."

"Mo Linshui, the name sounds similar to the three brothers of Mo Qilin. Could it be that Mo Qilin has more than three brothers, and there is a fourth one?"

"The Black Qilin is indeed relatively low-key, and their appearance and aura are very similar. There is a fourth one, and even if someone has encountered one, they may think they are the three brothers of the Black Qilin."

.....

These people are talking all over the place.

Lin Tianhao waved his hands, looking at them, he didn't know either.

"Then let me ask you another question. Do you have any quests that reward a rank +1?"

Without the Heavenly Punishment equipment, it would be pretty good if Lin Tianhao could upgrade its grade once.

however.

All the people present actually shook their heads.

"Tasks of this grade +1 are usually random, and there are almost no tasks of fixed grade +1." Lie Hongyu said.

Lin Tianhao smiled bitterly and shook his head. In fact, just Lie Hongyu's words could illustrate the power of the Beast God's Bottle.

The Beast God Bottle is an unrestricted means that can help living beings directly improve their grade.

Looking at the many powerful people in Zhongzhou Continent, they managed to gather together a grade +1, which shows how rare this grade +1 is.

"Where is the blessing from gods and demons?" Lin Tianhao asked again.

Although the blessing of the gods also has a certain effect on Lin Tianhao.

But Lin Tianhao felt that the blessings of the gods should be given to other adventurers, and he only needed to take the blessings of gods and demons.

Because the further it got, the more Lin Tianhao felt that the blessings of the gods were of little help to him.

Because even if there are methods like Bai Tu Shen Ling that can increase damage, and percentage burning methods like Origin Burning, they are ineffective when facing higher-level life forms.

This is the same as the critical hit at the beginning.

At the beginning.

Lin Tianhao's critical hit can be triggered on almost all wild monsters.

But as the opponents he encountered became stronger and higher in rank, his critical hits became useless.

Because it won't work at all.

But the blessings from gods and demons are different, and the levels of their blessings are high enough.

Lin Tianhao felt that even in the future, even in the divine realm, the blessing of gods and demons should still be effective.

"The blessing of gods and demons..."

Everyone looked at each other in bewilderment. What Lin Tianhao said casually was something that none of them could produce.

"The blessing of gods and demons is also a probabilistic task reward. It is not a regular task reward. Only those with special professions may be able to receive such a reward."

"The probability that we have it is very, very low."

Lin Tianhao frowned, this was a bit of a headache.

"Among all of you, is there anyone who has received the blessing of gods and demons as a reward?"

to be frank.

Lin Tianhao really didn't believe it.

The Mo Lin Water has existed for a long time, and it is even questionable whether it is still in the Central Plains. In addition, they act in a low-key manner, so it is understandable that these people don't know Lin Tianhao.

But so many high-level NPCs don't have the blessings of gods and demons. Does that mean that there are few blessings of gods and demons in the entire Zhongzhou continent?

"I do have a scroll for the pre-quest of God and Demon Blessing."

"But the corresponding task..."

The pre-quest scroll for Blessing is better than ordinary quests.

Because most general tasks have fixed requirements and there is not much room for change.

The pre-quest scroll for blessing is relatively flexible.

The most important thing is.

The task on the task scroll must be worthy of the reward.

"Shelter a fog monster from the forbidden land." Lin Tianhao said.

There are now more than thirty forbidden areas in Zhongzhou Continent. The fog monsters inside are very powerful and it is impossible to set foot in them under normal circumstances.

"I'll give it a try."

Lie Hongyu has already been included in the List of Gods, so he is naturally absolutely loyal to Lin Tianhao.

"Okay." Lie Hongyu's eyes lit up.

Available soon.

Her face darkened again.

"This is the scroll for the pre-quest of God and Demon Blessing. I can actually complete this quest. This means that it is very difficult to contain a fog monster in the forbidden land."

Lin Tianhao also realized this problem.

"It's very difficult, but it shouldn't be as outrageous as you think."

"Because normally, even ordinary emperors and powerful people cannot easily set foot in forbidden places."

"Containing the fog monsters is a very difficult task in itself, so it doesn't seem surprising that this mission was accomplished."

Lie Hongyu nodded gently, "Your Excellency is right, I think so too."

Although Lie Hongyu was still a little nervous, she did not show it.

Deep down, she actually hoped that the situation was the same as Lin Tianhao said.

Because the current situation in Zhongzhou Continent is already very bad. If a worse situation occurs, it will be a disaster for the entire Zhongzhou Continent.

"This is the scroll for the pre-mission of the God and Demon Blessing. Please take a look, sir."

Lie Hongyu directly handed the scroll of the pre-quest for the blessing of gods and demons to Lin Tianhao.

Lin Tianhao nodded with satisfaction and said:

"There should be no problem with giving rewards for sheltering fog monsters."

Lin Tianhao is not sure about the current situation outside Nulong City, but if he goes out, it will definitely involve containing the fog monster.

"The rewards remain the same, and we can increase them to 1.2 million free attribute points and 1.2 million contribution points. This is the limit." Lie Hongyu said.

"it is good."

This is an opportunity. Lin Tianhao suddenly asked:

"Can contribution points be exchanged for talent evolution flowers?"

"This... is not so good. Equipment, suits, skill books, most materials, and even some magical skills can be exchanged for contribution points."

Lin Tianhao thought for a moment, "How do I check the exchange?"

Lin Tianhao now has more than 8 million contribution points in his hand, but he still doesn't know how to exchange them.

"Every city has an exchange warehouse. You can go into the exchange warehouse to check. We have marked most of them with the contribution value required for exchange."

Chapter 1477 Refining the Red Dust Tower and the 9th Level Thunder Body Technique!

"Okay, take me to the warehouse."

Lin Tianhao was not in a hurry for the time being, he wanted to let the bullet fly for a while.

To what extent will these fog monsters devour each other?

and.

According to what he learned in his previous life, the events in Zhongzhou Continent did not affect Haomiao Continent.

This indicates that.

No matter what happens in Zhongzhou, it will not affect him.

Under the leadership of Lie Hongyu, Lin Tianhao came to the exchange warehouse.

When Lin Tianhao saw the things in the exchange warehouse, he couldn't help but feel excited.

There are all kinds of things, of course, nothing particularly precious.

Various sets, bulk, skill books, magical powers, secret techniques, alchemy, refining, materials for making talismans...

Just one glance made Lin Tianhao feel a little dazzled.

But having said that, among so many things, there are really only a few that really excite Lin Tianhao.

Most of these things are "ordinary things".

At least.

To Lin Tianhao, most of them are ordinary things.

"The Ten Thousand Souls Banner."

Lin Tianhao raised the corner of his mouth. The Ten Thousand Souls Banner was obviously not enough. With the speed at which Lin Tianhao was slaughtering living beings, the Billion Souls Banner was not enough.

At least one hundred billion soul flags would be needed, which would be barely enough for Lin Tianhao.

"Hundred Refinements Red Dust Tower?"

Lin Tianhao's eyes lit up. This was a good thing.

This thing is a very powerful furnace-type magic weapon.

This Hundred Refinements Red Dust Tower can imprison a hundred women in the tower, and then practice dual cultivation with them. The Hundred Refinements Red Dust Tower will help you absorb a small part of the women's power and permanently enhance your power.

and.

This Bailian Hongchen Tower is bidirectional. It can imprison women, and naturally it can also imprison men, and the effect is similar.

Not only that.

The more powerful the opposite sex imprisoned in the Hundred Refinements Red Dust Tower is, the more power one can gain through dual cultivation.

These powers are permanent boosts, not temporary ones.

Seeing Lin Tianhao staring at the Bailian Hongchen Tower, Lie Hongyu couldn't help but feel a tightness in his heart.

If Lin Tianhao wants to exchange for this Hundred Refinements Red Dust Tower, who is the best choice? It must be to send her into the Hundred Refinements Red Dust Tower to practice with him, so that he can get the greatest improvement.

"Just such a small tower requires one million contribution points." Lin Tianhao felt a little painful.

He did not exchange it directly, but instead considered the Hundred Refinements Red Dust Tower as an alternative.

If there were no other good things, he would definitely exchange it for this Hundred Refinements Red Dust Tower.

Although his heart is sealed with cement, he is still a man, a man with completely normal sexual orientation.

He may not feel his heart moved when he sees a beautiful woman, but his kidneys will definitely move.

This is a reaction from deep in the genes and has nothing to do with Lin Tianhao's personal will.

"Sir, there is a magical power in this, a body movement-related magical power, which can be considered very rare among all the magical powers."

Lie Hongyu hurriedly recommended it to Lin Tianhao.

Lin Tianhao glanced at Lie Hongyu, which instantly made Lie Hongyu feel a little uncomfortable.

Although she has lived longer, her figure and appearance are definitely first-rate.

"Are you worried that I will send you to the Hundred Refinements Red Dust Tower?" Lin Tianhao asked.

Lie Hongyu smiled awkwardly and said:

"Sir, I am indeed a little worried."

"I am loyal to you, sir. If you insist on doing that, I will never refuse."

Lin Tianhao waved his hand and said:

"Don't worry, I won't do this kind of thing that relies on plundering the power of my subordinates to strengthen myself."

"If I were to use the Hundred Refinements Red Dust Tower in the future, it would definitely be against my enemies."

"enemy?"

Lie Hongyu was stunned for a moment, "Shouldn't the enemy be killed directly?"

Lin Tianhao shook his head and said:

"Not all enemies should be killed directly. For some enemies, keeping them alive would be more painful than letting them die."

Lie Hongyu hesitated and said:

"It's terrible to be your enemy."

Lin Tianhao nodded with a smile and said:

"I'm not a good person. I can use any method to deal with my enemies."

Lie Hongyu took a deep breath and said:

"No wonder you have come this far. Your mentality really surpasses many people."

"Even I sometimes feel that I am a strong man at the level of the Great Emperor. I cannot do things that are too bad, and I cannot do things that will make people criticize and laugh at me."

Lin Tianhao smiled noncommittally and said:

"Do you think that if I use the Hundred Refinements Red Dust Tower to deal with my enemies, I will be criticized and ridiculed?"

"That's for sure. After all... it's not very glorious."

"In Zhongzhou, some powerful men have 3,000 beauties in their harems, but their impact is not as great as your use of the Hundred Refinements Red Dust Tower to deal with the enemy."

Lin Tianhao raised his head and smiled, "Then one day, when I can't do it anymore, this is the reason why they besieged me together."

"I am an out-and-out demon cultivator who relies on such despicable means to improve my strength."

"Yes."

Lie Hongyu didn't say anything nice to please Lin Tianhao.

"You should know that when you are capable, everything you do is right. When you are not capable, even the slightest flaw you have will be magnified countless times."

"Not to mention something like the Hundred Refinements Red Dust Tower."

Lin Tianhao waved his hand and said, "Let's go and see the body movement skills you mentioned."

Under Lie Hongyu's guidance, Lin Tianhao saw this magical power of body movement.

"Nine-fold Thunder Body Technique!!"

A faint smile appeared on Lin Tianhao's face. The name of this Nine-Layer Thunder Body Technique sounded... just so-so.

Lin Tianhao picked up the Nine-Layer Thunder Body Technique and looked at it.

Nine-Layer Thunder Body Technique: Ninth-grade supernatural power.

Effect: Your body can turn into thunder, becoming immune to most physical damage, and your speed is greatly increased, allowing you to move through most narrow places.

In the presence of conductive objects, your movement speed will be multiplied.

Lin Tianhao raised his eyebrows. Based on the current introduction, he could only get a general idea of this magical power.

However, this magical power is an extremely rare nine-star magical power, which is still very powerful.

So far, this is the first time that Lin Tianhao has encountered the Nine Star Divine Power.

just.

Lin Tianhao took a look at the price of the Nine-Layer Thunder Body Technique, which was two million contribution points.

To be honest, this price is a bit expensive.

but.

These things cannot be bought with gold coins, so the price is naturally not cheap.

This Nine-Layer Thunder Body Technique can save your life if used properly.

Although he has the Invincible Void Transformation, under normal circumstances he does not need this Nine-Layer Thunder Body Technique.

But, that's not the normal situation.

In Ragnarok, displacement skills and control skills will never go out of style.

"Is there anything else more precious?"

Lin Tianhao looked around. There were so many things here, too numerous to count.

It is still a bit troublesome to really choose the one that suits you from these things.

and so.

Lin Tianhao changed his strategy and directly looked for an exchange with a higher price.

Chapter 1478 Saint-level life form!

however.

The ninth-grade magical power is already the ceiling thing here. There are also some other strange things. They seem to be of some use to Lin Tianhao, but Lin Tianhao is not very satisfied.

suddenly.

Lin Tianhao saw a prop that he had wanted to find before but later gave up.

The Book of Light and Darkness!!

Book of Light and Darkness: Special.

Wearing requirements: None.

Effect: You can freely choose to turn on or off your own passive skills.

Consumption: None.

Cooling: None.

Wear resistance: 100.

This item does not take up any equipment slot, and it only has this one effect which doesn't look that great.

Lin Tianhao wanted to turn off his passive skill before because he didn't have the heart of heavenly punishment at that time.

His skills attack the target unit, but cannot add health to him.

But later, after he awakened his innate talent, the Heart of Heavenly Punishment, his skills could also stack health points, which meant that Lin Tianhao no longer needed to turn off his passive skills.

in contrast.

These passive skills can also help him stack health.

Now when he sees the Book of Light and Darkness again, Lin Tianhao no longer has much interest in it.

Because he still needs it at the beginning.

However, after taking a look at the exchange price, Lin Tianhao still felt that he could exchange it as a reserve.

Because this thing only requires 50,000 contribution points.

to be frank.

It's not cheap either.

But Lin Tianhao is rich enough, so he naturally doesn't care about this contribution value.

finally.

Lin Tianhao exchanged for the Hundred Refinements Red Dust Tower, the Nine-Layer Thunder Body Technique, and the Book of Light and Darkness.

Besides.

Lin Tianhao spent another three million contribution points to exchange for five items with lucky attributes.

The reason why it is a prop is that the prop does not occupy the equipment grid.

These five items that increase luck attributes have increased Lin Tianhao's luck attributes by a total of sixty-eight.

Lucky attribute, never out of date.

"Let's leave it this way for now." Lin Tianhao said lightly.

Everything else here was of little help to him.

Coming out of the exchange warehouse, Lin Tianhao's expression changed involuntarily.

Because a terrifying wave swept towards them.

Followed by.

A figure flew backwards and landed heavily on Lin Tianhao's side.

The one flying backwards was none other than the female sorceress from the Feng family.

Lin Tianhao looked up and saw that a huge hole was torn in the golden roof above Nulong City.

A humanoid monster hundreds of meters tall holding a long sword stood outside the city. Its scarlet eyes looked down at the entire Nulong City, and an extremely strong pressure pressed down towards Lin Tianhao's location.

His target was not Lin Tianhao, but Lie Hongyu who was beside Lin Tianhao.

Because here, the most powerful person is Lie Hongyu.

Because Burning Heart Nightmare and Sand Sea Poison Emperor were both included in the List of Gods, Lie Hongyu was the first to be affected.

It raised the sword in its hand again and chopped it down towards Nulong City.

"Three heads and six arms!!"

Lin Tianhao instantly unfolded his three heads and six arms, firing at full power.

Feather arrows poured out as if they were free.

He would not be so stupid as to watch Lie Hongyu rush up to fight alone, and then wait until Lie Hongyu was injured before he stepped in to act as a hero and save the damsel in distress.

Those who do that are basically fools.

Lie Hongyu is his subordinate, and he is counting on Lie Hongyu to achieve the realm of god-level.

If Lie Hongyu was injured at this moment, he might not be able to withstand the thunder tribulation that would lead to his advancement to the Divine Level.

and so.

When he saw this huge humanoid monster, Lin Tianhao maxed out his output.

This gigantic humanoid monster was able to break through the golden roof of Nulong City that was over one meter thick.

And judging by the aura emanating from him, his fighting ability must be terrifying.

This is a super monster that has devoured a large number of its own kind.

Lin Tianhao wanted to fight it, and it would be best if he could use his powerful attack to severely damage this humanoid monster.

"Dang Dang Dang——"

Lin Tianhao's large number of feather arrows were actually blocked by the long sword of this humanoid monster.

"this--"

Lin Tianhao was shocked because some of the feather arrows of his Heavenly Punishment Lock were blocked and hovered in the air, while others were destroyed by the powerful force.

But there are very few people like this humanoid monster who can block his Heavenly Punishment Feather Arrow with just a long sword! !

"He also has saint-level rules before him." Lin Tianhao instantly had the answer in his mind.

He was immune to his own Heavenly Punishment Lock!!

This fog monster from the endless starry sky once again overturned Lin Tianhao's understanding of them.

and.

Lin Tianhao felt more and more that his previous speculations about Burning Heart Nightmare were correct.

That is, all the fog monsters were once a whole.

This whole encountered an unknown situation and was broken up into individuals.

But there are certain connections between these individuals.

The moment Lin Tianhao made his move, Lie Hongyu also made his move.

She also flew up into the sky, and a huge flaming lotus rose up from under the feet of the humanoid monster. The lotus petals closed, trying to wrap the humanoid monster in it.

however.

The humanoid monster thrust the big knife in his hand into the ground fiercely, causing the ground to tremble and the flaming lotus to shatter into pieces under this blow.

Lie Hongyu was not panicked. She attacked again, and fire rain poured down from the sky.

The rain of fire was dense and covered the humanoid monster.

The rain of fire fell on the humanoid monster, and it seemed to be in pain, causing the monster to roar.

Instead of retreating, he advanced and chopped down Lie Hongyu with the long sword in his hand.

But before his sword fell, Lin Tianhao's feather arrow had already reached him.

And the next scene.

It directly overturned Lin Tianhao's imagination.

Arms actually began to wriggle out of the body of this humanoid monster. The arms were thicker than those of an adult, and were densely packed all over the body.

Lin Tianhao's flying feather arrow was caught by these wriggling arms and thrown back to the ground.

"This is a suppression of the life level."

Ned Liv's voice rang in Lin Tianhao's ears.

"The bloodline, or life level, of this fog monster should have reached the saint level, or even above the saint level."

"Although his strength has not yet reached the saint level, and is even inferior to that of ordinary gods, his life essence is at the saint level."

"This is just like you, Xue Di. Your level and grade are not high, but your attack is essentially at the saint level."

Lin Tianhao took a breath of cold air. He had thought that one day he would meet someone who also possessed saint-level rules.

But I didn't expect it to happen so quickly.

And this one is a saint-level life form.

"The speculation of Burning Heart Nightmare is correct. It is almost impossible for such an individual life essence to reach the saint level."

"It can only be said that he is a part of an extremely powerful whole. This can explain why his strength is also at the saint level."

Lin Tianhao did not give up.

"Then try this."

Lin Tianhao directly unfolded his Evil Sword Immortal form.

Chapter 1479 Dark Angel!

According to Lin Tianhao's previous tests, the attack level of his Evil Sword Immortal form is higher than that of the Hand of Heavenly Punishment.

"Not really."

Ned Lev's voice sounded again.

"Xue Di, the lethality contained in your feather arrows is extremely huge. If such a huge lethality is blocked by the life level, it will be transformed into a huge impact force."

"No matter how strong this humanoid monster is, it can't withstand your continuous attack of feather arrows."

"Those arms that are wriggling on his body will surely not be able to catch your arrows after a few rounds."

Lin Tianhao had already unfolded his Evil Sword Immortal form at this time. Even if what Ned Leef said was right, he was ready to try his Evil Sword Immortal form first.

"Shhhhhh-"

Sword energy was everywhere, thunder was rumbling in the sky, and fire was burning on the ground, sweeping towards this huge humanoid monster.

This underground fire seemed to have a very strong burning effect. When it burned the humanoid monster, the humanoid monster actually jumped up and down because of the burning.

This is somewhat funny.

"My Lord is so strong!!"

Lie Hongyu is also a powerful person who can control fire.

She could clearly feel how terrifying the earth fire ignited by Lin Tianhao's sword energy was.

Even the onlookers in Nulong City could see some clues.

"The strength of the Palace Master is truly terrifying. It is really worthwhile to join the Fan Palace."

"To be honest, I used to think that we might have to linger on in the Golden City, and then be completely wiped out by these monsters one day, but the appearance of the Palace Master has given me hope."

"The Palace Master is very powerful, but he cannot be careless. This humanoid monster seems to no longer be afraid of gold. Even if the Palace Master can defeat him, how can he contain him?"

.....

These fog monsters are immortal. Even though Lin Tianhao has the upper hand briefly now, many people are still worried.

after all.

If these monsters cannot be contained, then no matter how you attack them, it will be useless.

Lin Tianhao also realized this problem at this time.

He did not let Burning Heart Nightmare and Sand Sea Poison Emperor take action, but asked them to observe and see if there was any way to contain the monster in front of them.

The humanoid monster was struck by thunder and fire from the sky and earth, and fled away in panic with its head in its hands.

Lin Tianhao no longer needed to think about how to contain this monster because he had already run away on his own.

"Chase?" Lie Hongyu glanced at Lin Tianhao.

"Bam—"

At the moment Lie Hongyu finished speaking, a huge dragon-shaped shadow appeared in the fog. With a swing of its dragon's tail, it swept the humanoid monster back.

The one who made the move was naturally Heitian Aozhen.

Lin Tianhao certainly couldn't let this humanoid monster get away so easily, he had to contain it and give it a try no matter what.

"Beat him until he is weak first." Lin Tianhao said in a deep voice.

This humanoid monster is still in its peak condition. Lin Tianhao needs to beat him into a weakened state so that it will be easier to contain him.

and.

Lin Tianhao felt.

Gold can still suppress this humanoid monster, but this humanoid monster is much stronger than the previous fog monsters.

So it seems that he is not that afraid of gold.

What would happen if we could beat this humanoid monster into a weakened state, then liquefy the gold and pour it into his mouth and nose, filling his body with gold?

Lie Hongyu and his team had done similar experiments before, and the result was that the fog monster became extremely weak.

Although it still cannot kill, the effect is still very good.

"Roar--"

The humanoid monster roared angrily and rushed towards Lin Tianhao regardless of anything.

"Boom--"

The ancient black tower flew over and directly knocked the humanoid monster back.

Although the life essence of this humanoid monster has reached the saint level, its combat effectiveness is still not high.

Just like Lin Tianhao.

The attack level is very high, but his own level is not high enough. Any stronger professional can control him and make him unable to move.

With Heitian Aozhen and Lie Hongyu restricting him, Lin Tianhao was able to output almost without any damage.

Sword energy crisscrosses heaven and earth, thunder rolls in the sky, fire burns on the ground, and the output is extremely stable.

The humanoid monster's breath became weaker and weaker. It was obvious that he could not withstand Lin Tianhao's continuous high-frequency output.

Hei Tianao really has the ancient black tower, which can reveal his true form. With the powerful strength of his true form, this humanoid monster doesn't even have a chance to defeat him.

At this moment.

Lin Tianhao sensed something, and a sense of crisis surged in his heart.

Before Lin Tianhao could react, he felt a pain in his chest.

A pitch-black feather arrow pierced his body. The barbs on the arrow rolled up his flesh and bones. Driven by the powerful impact, Lin Tianhao was sent flying and nailed to the golden wall.

"hiss--"

The intense pain made Lin Tianhao gasp.

The arrow came too fast, and Lin Tianhao was hit before he could even react.

Before Lin Tianhao could react, the second arrow arrived.

"Invincible Void."

Lin Tianhao let out a low cry, endured the pain, and used the invincible Void Transformation to break free from the restraint of the feather arrow.

But the second feather arrow still pierced his body.

Even when he was in his most invincible state, he was immune to most damage, but he still lost hundreds of millions of health points.

Even his invincibility was not enough to completely protect him from the arrow's attack.

Saint-level attack!!

This alone could explain why he was not immune to the attack.

The opponent seemed to have discovered that he could not attack Lin Tianhao, and the next two consecutive feather arrows were aimed at Hei Tianaozhen.

A black vortex condensed on Heitian Aozhen's body, and the two feather arrows were pulled into the black vortex.

"Here comes another guy."

"This guy's output ability is a bit outrageous."

Hei Tianaozhen's expression was very serious.

however.

What Lin Tianhao didn't expect was that the archer in the dark had no intention of coming out. It seemed that he was just trying to cover the humanoid monster's escape.

"Now that you're here, don't even think about leaving."

There was a cold light flashing in Lin Tianhao's eyes. Snatching someone from his hands was too disrespectful to him.

"Whoosh-"

With the help of the invincible power, Lin Tianhao rushed towards the direction where the arrow came from in an instant.

In the mist.

Lin Tianhao saw a dark angel with three pairs of wings behind him.

He saw that Lin Tianhao did not run away, but rushed towards him instead.

Lin Tianhao's eyes narrowed slightly, with a cold light flashing in them. The moment he approached the archer, he summoned the Burning Heart Nightmare and the Poison Emperor of Sand Sea.

"The realm of divine quality?!"

When the dark angel saw the two people summoned by Lin Tianhao, a look of astonishment appeared on his face.

"It is really strange that there are still powerful people at the God level in the land of Shenzhou now."

Chapter 1480 The Lord of Luotian appears!

Lin Tianhao narrowed his eyes slightly, staring at the dark angel in front of him, and said in surprise:

"Can you talk?"

Lin Tianhao had taken in many fog monsters before, but without exception, they all couldn't speak.

The Dark Angel chuckled and said:

"It's true that I didn't know your language at first, but I've been here for a while now, so it's not difficult to learn your language."

Lin Tianhao did not ask Burning Heart Nightmare and the others to attack immediately, but asked:

"Who are you? Why did you come to the Galaxy World?"

The Dark Angel glanced at the Burning Heart Nightmare and the Sand Sea Poison Emperor and said with a smile:

"You are not qualified to talk to me, but seeing your two subordinates at the Godly Level, I can answer you."

"I am a star beast wandering in the endless starry sky. I normally plunder resources to make myself stronger."

"But in the eyes of some powerful beings, I am also their resource, so some people took action against me."

"The result was that I lost, my body was beaten to pieces, and crashed into the Zhongzhou continent of the Shenzhou land."

That's it.

This dark angel seemed to have thought of something.

"What surprised me a little was that when we went to other worlds, the Lord of the World would expel us or directly wipe us out, but here, that didn't happen."

"There aren't even any gods or saints. It's as if... there's no one managing this world anymore."

"of course."

"It just feels like the rules of this Shenzhou land were obviously created by someone on purpose, with the purpose of making it easier for you to grow."

"You can level up by killing monsters. How simple and unpretentious."

Lin Tianhao raised his eyebrows and asked:

"What's it like outside?"

"You know what? There are also places outside where you can level up by killing monsters. It's similar to the secret realm here. But the mainstream is still weapons, equipment, and plundering resources to become stronger."

Lin Tianhao nodded. He also knew that the rules of Ragnarok were the place for creating gods created for them by the God of the Source of Tao.

"But it's because you are still too weak that you were forced to grow up like this and reach our level. Here, no matter how many monsters you kill, you can't improve."

Lin Tianhao raised his eyebrows and said with a smile:

"After all, the land of China has protected you. Why are you killing people here?"

"I need to recover."

The Dark Angel's answer was simple. Although I cannot defeat monsters and level up like you, I can restore my own strength by sucking your souls and blood.

"I need to recover to a certain level before I can merge back into my main body."

Lin Tianhao looked back at the humanoid monster that had been suppressed.

"What about him? Why did you attack Nulong City? Haven't you already started to restore the fusion?"

The Dark Angel smiled and said:

"No one would despise their own strength. What's more, I haven't even recovered one millionth of my peak strength yet."

Lin Tianhao hesitated for a moment, then asked:

"Why can't we kill you?"

The Dark Angel smiled contemptuously and said:

"It would be strange if you could kill me."

"The life level is different. Your attacks are just tickling to me. Not even tickling."

"It's like you're using a hair to attack a divine weapon. Even if you use that hair to attack 10,000 or 100,000 times, the divine weapon won't be damaged at all."

Lin Tianhao frowned, "But my output is very high."

The Dark Angel shook his head and said:

"That's relative. Just like the example I just gave, you think your damage is high because you haven't faced a truly high-level life form yet."

"I can see that your physical fitness has transformed very well. At least in this Central Continent, you are the first person I have seen whose physical fitness has transformed to this level."

"Only when the body has transformed to a certain level can the essence of life be transformed."

"And for you, my life essence is at least two levels higher than yours. Now do you understand why you can't kill me?"

Lin Tianhao understood somewhat.

Then he asked again:

"So what are you going to do next? Have you ever thought about leaving?"

The Dark Angel nodded, then shook his head, "I definitely want to leave. No one wants to leave this damn place more than me."

"There are almost no resources here that are suitable for me to cultivate and improve. Only the essence of your life and soul can have a little effect on me."

"But it only has a small effect."

"Then when are you planning to leave?" Lin Tianhao asked.

This is the most important thing.

This guy can't be killed, which makes it difficult to deal with.

"I want to leave, but I can't just leave."

"I have an idea, but I haven't recovered yet."

"What idea?" Lin Tianhao asked.

If possible, he naturally wanted to get rid of this giant Buddha as soon as possible.

"I discovered that you can go directly to the Divine Realm. Maybe I can go to the Divine Realm with you!!"

"Because I'm not sure whether the guy who wants to kill me is still waiting for me outside the galaxy world."

"If he hadn't left, I would have been looking for death if I went out."

That's it.

The Dark Angel seemed to understand something. "It's okay for me to leave, but the premise is that I need to merge all my bodies together."

"My current soul power and the degree of my own recovery are not enough for me to fully integrate and recover."

Lin Tianhao's eyes narrowed slightly and he said:

"From what you said, it seems that you want to continue the massacre."

"Yes."

The dark angel glanced at the Poison Emperor of Sand Sea and the Burning Heart Nightmare.

"to be honest."

"With my current strength, it would be a bit troublesome if I were to fight against your two men."

"Are you interested in cooperating?"

"Compared to cooperation, he might be more willing to send you to the list of gods."

At this moment, a calm voice sounded.

Lin Tianhao was slightly surprised after hearing this voice.

Because he knew who the voice belonged to.

Lord of Luotian!!

really.

Then the Lord of Luotian stepped out.

"Interesting, another divine product."

"This Zhongzhou Continent is really not simple. Such a small continent can actually have three masters at the God-level."

The Lord of Luo Tian did not even look at the Dark Angel, but looked at Lin Tianhao and asked:

"Do you want to send him to the list of gods?"

"I want to...but..."

Before Lin Tianhao could finish his words, the Lord of Luotian took a step forward.

"Just think about it."

"I should be going to the divine realm. Before I go to the divine realm, I will help you one last time."

Hear this.

Lin Tianhao was horrified.

What's the meaning? !

Can the Lord of Luotian help him deal with this dark angel?
