

O games 1491

Chapter 1491 The Buzhou Divine Stone!

Si Tianfu took Lin Tianhao through the pavilions and towers.

"This is the birthplace of our Buzhou Holy Land. Our Si family's ancestors once came here and discovered our ancestor. Seeing that our ancestor was gifted, the ancestor passed down the immortal method and established the Taoist tradition, which gave rise to the prototype of our Buzhou Holy Land."

"With years of development, our Buzhou Holy Land has grown to its current size. We have survived countless demon attacks, and only with the blessing of our ancestors have we been able to escape unscathed."

"That's why when I heard you say that I could help the Emperor Realm to improve its rank, I agreed without hesitation."

"Because our ancestor's life span is almost over. If he doesn't advance, I'm afraid that in a thousand years at most, he will..."

Si Tianfu didn't continue speaking, but his meaning was already very clear.

Lin Tianhao couldn't help but twitch his lips. At most... a thousand years?!

What an unpopular statement.

Because Lin Tianhao had heard before that there was not much time left, and it was probably only a few months at most.

If it takes a little longer, it will probably be just a year or two at most.

After walking among the pavilions and towers for more than half an hour, Lin Tianhao saw a huge rock.

The boulder was red and black, as if it were half-dried blood, but its texture was completely different from blood and more like some kind of jade.

Si Tianfu came to the boulder and bowed to it.

"Disciple Si Tianfu pays homage to the ancestor."

Lin Tianhao was a little surprised because he didn't feel any breath of life from the boulder.

however.

After Si Tianfu finished speaking, the boulder did not react at all.

But Si Tianfu did react.

"Ancestor, this is Xue Di, the master of the Fan Palace. I believe you have heard of it. He asked us to join the Fan Palace, and I agreed."

The moment Si Tianfu finished speaking, Lin Tianhao felt some ripples appearing in the space around him.

Followed by.

Si Tianfu knelt down directly.

"Grandfather, please calm down. I only agreed to this because the Snow Queen promised to help you ascend to the Divine Rank."

at this time.

Si Tianfu seemed to be talking to himself in front of the boulder. He looked a little funny, more like a psychopath.

however.

Lin Tianhao knew it very well.

A strong man like Si Tianfu could never be a lunatic, and it seemed that the thing that caused the ripples in space just now was indeed the boulder in front of him.

"Snow Emperor."

At this moment.

A turbid voice suddenly sounded in Lin Tianhao's mind.

"Since Si Tianfu has made his decision, from now on, we are all members of the Mortal Palace. But is it true that you will help me advance to the Divine Rank?"

Only then did Lin Tianhao realize that the sound of the huge rock was actually ringing directly in his mind.

"It's true, but..."

Lin Tianhao looked at the huge rock and fell into hesitation.

"What's wrong?" asked the boulder.

Lin Tianhao said bluntly:

"What I have here that can help the Great Emperor evolve into a divine product is a drop of Evolution Divine Liquid, and this drop of Evolution Divine Liquid needs to be taken before it works."

That's it.

Lin Tianhao paused again, "And this evolutionary divine fluid is very special, it is only effective for living things."

"In your situation, I don't know whether you are considered a living being."

The boulder answered with certainty, "As for taking the Evolutionary Divine Fluid, that's not a problem either."

Lin Tianhao took a deep breath and asked the question he wanted to ask most.

"Your true form is just a piece of stone? But you are already a powerful person at the level of the Great Emperor, so why can't you transform into a human?"

It is not uncommon for mountains, rocks, and soil to absorb the essence of the sun and the moon and become monsters.

But generally speaking.

After the mountains, rocks, and earth become monsters, they will gradually "take shape".

For example, some rocks may look like humans, tigers, dragons, etc.

This is the dullness of the "form" of mountains, rocks, earth and wood after they become spirits.

If you get its form and then its spirit, you can transform into a human being.

This process may be very long.

But according to Si Tianfu, the huge rock in front of him has already reached the level of the Great Emperor. Logically speaking, he should have transformed long ago.

"Xue Di, you don't know this. My true form is a sacred stone from the ancient sacred mountain Buzhou. It has divine power flowing through it. This divinity shaped me and also increased the difficulty of my transformation."

"I want to transform, but I am afraid that I can only succeed if I achieve the realm of Godly Quality."

Lin Tianhao was secretly shocked, "If that's the case, then you can't move before you transform?"

"No."

The answer from the boulder left Lin Tianhao speechless. A powerful man at the level of the Great Emperor couldn't even defeat the evil spirit.

"What about the battle?" Lin Tianhao asked again.

There was a hint of pride in Jushi's words.

"Because my body is the Buzhou Divine Stone, I am naturally indestructible, and the domain I have formed is also extremely powerful. I can exert extremely strong suppression force within a radius of 100 miles."

"Even if we are both at the Great Emperor level, I can easily deal with them within a hundred miles."

Lin Tianhao was secretly shocked, "In that case, you are quite amazing."

"I broke into the Buzhou Holy Land before, why didn't you take action?"

"How dare I act rashly under the pressure of a powerful god-level warrior?"

Lin Tianhao smiled. It seemed that when he used Lie Hongyu's pressure to suppress Si Huafeng, the Buzhou Divine Stone also sensed it.

"Okay, you are a great emperor and will join my Fan Palace. From now on, you are the supreme elder of my Fan Palace."

to be frank.

In fact, Lin Tianhao was not sure whether inviting Buzhou Divine Stone to join the Fan Palace would be successful.

Because the existence of the Buzhou Divine Stone is so special.

An invisible force took over the Supreme Elder's token from Lin Tianhao's hand.

"Ding, congratulations, you have successfully recruited Buzhou Divine Stone to join the Fan Palace, and the contribution value of the Fan Palace +3000 billion!!"

Lin Tianhao was shocked. He didn't expect that by inviting Buzhou Divine Stone to join the Fan Palace, he could get such a huge benefit.

"I wonder when the Palace Master will be able to help me advance to the Divine Level."

"That's it today."

Lin Tianhao had killed Belit Buluo before, and the Beast God Aquarius had absorbed some energy.

If he kills some more wild monsters, the Beast God Aquarius will be able to absorb enough energy to form the Divine Liquid of Evolution.

and.

Lin Tianhao doesn't need to leave here either. He just needs to release the Eye of Insight and the Sky Punishment Lock to kill the wild monsters remotely.

I saw feather arrows flying out from Lin Tianhao.

Less than half an hour later, Lin Tianhao stopped attacking and took out the Beast God Bottle.

"bring it on."

"Did it drip on you?" Lin Tianhao asked.

"Ah."

Lin Tianhao dropped this drop of evolutionary divine liquid onto the Buzhou divine stone.

The next moment.

A misty halo appeared above the Buzhou Divine Stone, and a mysterious aura emanated from it.

Chapter 1492 Akabane Holy Land: Akabane Nine Suns!

then.....

That's all!!

"Failed?" Lin Tianhao asked in surprise.

Because according to what Lin Tianhao had learned before, stepping from the realm of the Great Emperor to the realm of the Divine Level would inevitably trigger heavenly thunder.

"No failure!!"

A somewhat excited voice came from Buzhou Divine Stone.

"Success!!"

"This is the realm of divine quality!!"

"Too powerful. Before, I could influence an area of 100 miles, but now, this area of 800 miles is under my control."

"and."

"This is because I haven't fully mastered my current power yet. If I could fully master it, I would be able to control everything within a thousand miles."

Listening to Buzhou Shenshi's excited words, Lin Tianhao asked:

"You are indeed very special. You didn't even trigger a heavenly tribulation because of your upgrade."

"Hahaha, my original body is very powerful. Now it is just a natural process for me to reach my own realm." Buzhou Divine Stone responded excitedly.

"but."

"Are you able to transform now?"

Even if the Buzhou Divine Stone is extremely powerful, it will be useless if it cannot move here.

and.

If a strong person who has reached the realm of the divine quality cannot move, he will naturally be weaker than other strong people in the realm of the divine quality.

"certainly!!"

The Buzhou Divine Stone was surrounded by black light. The next moment, the stone disappeared, and an old man in black armor appeared in Lin Tianhao's sight.

"How strange, how strange!!"

Lin Tianhao said "how strange" twice.

After the Buzhou Divine Stone took shape, Lin Tianhao was completely unable to sense his existence.

It was as if he didn't exist at all.

Even his piercing eyes were unable to reveal any information, not even a name.

"There's nothing strange about this. Some things in this world are naturally above many rules."

"My original body, the Buzhou Divine Stone, was considered very powerful in ancient times."

Lin Tianhao nodded slightly. He thought of the thing he got from the ancient mysterious realm that could imprison the origin of the soul.

That thing is somewhat similar to the Buzhou Divine Stone, in that there is absolutely nothing wrong with it.

Even after Burning Heart Nightmare and Sand Sea Poison Emperor reached the divine level, they could not see it.

Now the pile of ruins is still in the ancient black tower.

no way.

Lin Tianhao had no way of telling which of the useful things were among the ruins.

"I have a treasure here that is somewhat similar to yours. Even a strong man at the divine level cannot see any trace of it. Can you identify it?" Lin Tianhao asked.

Hear this.

Buzhou Divine Stone shook his head and said:

"You think too highly of me. I am a stone spirit. Although I am also an ancient creature, I am far inferior to those life forms of the ancient times."

Lin Tianhao looked a little helpless, and then asked:

"Do you know the Heavenly Punishment Equipment?"

Hear the words.

The Buzhou Divine Stone nodded, then shook his head.

"Yes, I had a mission about the Heaven Punishment Equipment before, but unfortunately, after I joined the Mortal Palace, this mission disappeared."

Lin Tianhao: "???"

He instantly felt a huge loss.

"You don't have to feel any loss, Lord Palace Master, because the mission of this Heavenly Punishment Equipment is fixed. The mission requirement is to kill the gods and use the blood of the gods to help me transform."

"It's a fixed mission, and I have no right to change it. And at this stage, no one can kill a god."

Lin Tianhao frowned. Killing gods?

It is indeed difficult at this stage because the gods cannot take action and all of them are in hiding.

If a god shows up, it will indeed attract attention.

Can be the same.

If the gods want to hide themselves deliberately, then even if they are powerful beings at the divine level, it would be unrealistic to find them in this huge Ragnarok.

"Now that you have transformed, come with me. I still have other holy places to conquer." Lin Tianhao said.

While speaking.

His feather arrows continued to be fired, continuing to absorb energy to help the Beast God's Aquarius condense the divine liquid of evolution.

"it is good."

Buzhou Divine Stone answered very confidently, "Now that I have reached the Divine Level, I can move. I also want to move."

"Next, let's go to Akabane Holy Land."

Lin Tianhao nodded. Which holy place to go to first was not what Lin Tianhao cared about.

Anyway, he wants to take over all these holy places in the inner world one by one.

This time when he conquered the Buzhou Holy Land, Lin Tianhao's health points did not increase much.

Because the entire Buzhou Holy Land manages only about five billion people.

Compared with those countries in the vast continent, this is far worse.

The key is.

There are not many holy places in the entire inner world.

Akabane Holy Land.

Lin Tianhao, Si Tianfu and Buzhou Divine Stone came here.

"Si Tianfu, you are such a rare guest. Why are you so anxious to come to our Chiyu Holy Land? I wonder what you are doing here?"

The Lord of the Akabane Holy Land stepped out.

Although he was talking to Si Tianfu, his eyes were always fixed on Lin Tianhao.

"I think the person next to you is the Snow Queen. You colluded with the Snow Queen to kill the Lord God's Messenger. Has your conscience been eaten by a dog?"

"The Lord God's Envoys helped us kill so many demons. Is this how you repay the Lord God's Envoys' kindness?"

The Lord of Akabane Holy Land opened his mouth with great pressure.

Si Tianfu frowned and said, "Chiyu Jiuyang, those are not God's messengers at all. They are scum from the Alethe galaxy. They come here just to invade us."

"fart!!"

Chiyu Jiuyang shouted in a low voice,

"Everyone has witnessed how many demons the gods have killed."

"Chiyu Jiuyang, Xue Di has killed many demons as well, and they are more advanced." Si Tianfu argued.

Lin Tianhao waved his hand and said:

"it's useless."

"He has been mind controlled."

Lin Tianhao frowned and spoke.

If it were just Lin Tianhao himself, he could only guess.

But with the Burning Heart Nightmare around, how could a person whose mind was controlled escape the eyes of the Burning Heart Nightmare?

"Xue Di, you are really good at confusing right and wrong. How could I, the Lord of the Holy Land Chiyu Jiuyang, be controlled by someone else?"

Lin Tianhao chuckled, "I was still curious at first, you are not fools. Even if those guys in the Alet Galaxy helped you a little, it would not be easy for them to fully use you."

"It turns out they have a backup plan waiting here."

Si Tianfu immediately came to Lin Tianhao's side, "Master Palace Master, what should we do now?"

Lin Tianhao waved his hand and said:

"What else can we do? Just kill him!!"

"Since the Lord of Akabane Holy Land is unwilling to cooperate with us, let's find someone who is willing to cooperate with us."

"presumptuous!!"

Chiyu Jiuyang shouted angrily, "Xuedi, don't rely on your own strength to do evil here!!"

Chapter 1493 The powerful ones who were controlled?

Lin Tianhao smiled faintly and said:

"Let those guys in the dark come out, Si Tianfu, you are really lucky. It looks like these holy places have been controlled by the guys from the Alet Galaxy."

As Lin Tianhao's voice fell.

Figures appeared one after another.

Among these people, the worst ones are all ninth-level diamond-level masters.

"Xuedi, there are so many of us. No matter how powerful you are, you can't kill us all."

Chiyu Jiuyang looked at Lin Tianhao with some provocation.

"We are all high-ranking officials of various holy places. If you kill us, even if the holy places behind us are destroyed, they will never surrender to you."

Lin Tianhao glanced at Si Tianfu and said:

"It seems you are really lucky. If I had arrived a little later, you would probably have been controlled by my mind as well."

Si Tianfu was not stupid. Seeing the managers of these holy places acting in this way, he was almost certain that they were being controlled.

Because any normal person would not come out to confront Lin Tianhao at this critical juncture.

But they came out, and they came out with an attitude of being ready to die.

"Well, if you were just a little bit stubborn, I would still try to persuade you, but you were directly controlled, then there is nothing I can do."

Lin Tianhao had just sent a message to ask Burning Heart Nightmare about this. Even with Burning Heart Nightmare's strength, he was unable to resolve the power that was controlled by these guys.

They...are also controlled by some kind of rule.

This is troublesome.

There may be only one way to crack it, and that is to let them join the Mortal Palace and use the power of rules to fight against the power of rules.

however.

This is obviously unlikely.

That being the case.

Then there is only one way to do it.

kill! !

It seemed that he sensed the murderous intent emanating from Lin Tianhao.

Akabane Jiuyang said angrily:

"Si Tianfu, did you see that? Xue Di is an absolute lunatic. He actually wants to kill all of us!!"

"Each of our holy places has billions of people in their hands. If we die, chaos will surely occur."

A cold light flashed in Si Tianfu's eyes.

"If that's the case, then why don't you run away? Why do you come here? Or, why don't you go to the Divine Realm?"

"You had many choices, but you chose the stupidest approach. Now you are more like a group of pawns."

"Some people hope that the Lord Palace Master will kill you. In this way, they can spread the news that the Snow Emperor has declared war on the inner world. By then, the people managed by these holy places will hate the Lord Palace Master and then counterattack the surface world."

Hear this.

Akabane Jiuyang sneered:

"In that case, Xue Di can choose not to kill us. He has many choices. Killing us is also a stupid choice."

Lin Tianhao smiled and said:

"If you were controlled by other forces, I might consider the benefits and losses and not kill you."

"But you are controlled by those guys in the Alete Galaxy. I'm sorry."

"You all...must die!!"

As Lin Tianhao finished speaking, he took action immediately.

"you--"

Chiyu Jiuyang was horrified. Obviously, he had not expected that Lin Tianhao would actually start a fight over a disagreement.

Just for a moment.

He wanted to fight back.

But he was only at the ninth-level Grandmaster level. Facing Lin Tianhao's feather arrows with the Heavenly Punishment Lock, he could only parry one or two.

"Ding, congratulations, you have successfully killed Chiyu Jiuyang. An announcement will be made to all servers soon. Do you want to hide your name?"

"no."

"Announcement to all servers, congratulations to the player Xue Di for successfully killing Chi Yu Jiu Yang. We hereby announce this and hope all adventurers will keep up the good work!!"

.....

"Ding, congratulations, you have successfully killed Akabane Mizuiro. We will announce it to all servers soon. Do you want to hide your name?"

"no."

"Announcement to all servers, congratulations to the player Xue Di for successfully killing Akabane Mizuiro. We hereby announce this and hope all adventurers will keep up the good work!!"

.....

Server-wide announcements came one after another.

Lin Tianhao had an indifferent expression, without the slightest mercy.

Regardless of whether they are right or wrong, Lin Tianhao will never let them go since they were controlled by those guys from the Alate Galaxy.

This is not a matter of right or wrong, it is a matter of faction.

A confrontation between two mortal camps.

"Ding, you got equipment +4."

"Ding, you have obtained the magical power [Red Feather Nine Transformations]."

"Ding, you got skill book +2."

"Ding, you got +1000 free attribute points."

"Ding, you got it..."

.....

By killing so many high-level ninth-turn warriors in one breath, Lin Tianhao can gain a lot of benefits.

Lin Tianhao cannot use these advanced and high-quality equipment, but they can be used as strategic reserve resources, or traded to Fatty, Monkey and others.

If worst comes to worst, you can give it to Berserker Blade and the others.

"Plunder the Holy Land."

Lin Tianhao summoned the Burning Heart Nightmare and the Poison Emperor of Sand Sea.

Now that we have started.

The resources in the holy land cannot be missed either.

however.

When Burning Heart Nightmare opened the treasure house of Akabane Holy Land, they found that the treasure house of Akabane Holy Land had been emptied! !

"They were controlled by those guys from the Alet Galaxy. Their treasure house must have been emptied by those guys from the Alet Galaxy."

Lin Tianhao's face looked a little ugly, because he knew very well.

If the strong men in the Alete galaxy take these resources and concentrate on training a few adventurers, they can train them to a very high level.

especially.

There must be something in the holy land's treasure house that can increase the speed of enlightenment.

"Go and have a look at other holy places."

Lin Tianhao asked Si Tianfu to lead the way to check out other holy places.

But the result was the same, the treasure houses of several other holy places were all emptied.

"Collecting so many treasures from the holy land is a huge sum."

Si Tianfu couldn't help but think about it with great fear, "These guys in the Alete Galaxy are really terrifying. How did they manage to control these holy places so quietly?!"

"It should be some kind of rule-based method. They used some kind of hypnosis and brainwashing in my Shanhai Empire before, confusing some of our Shanhai Empire's managers and causing trouble for me."

"Later, in order to improve my own strength, I ignored them for a while. I didn't expect that they had developed to this point in the inner world."

however.

As soon as Lin Tianhao finished speaking, a large number of professionals rushed in from outside, most of them were soldiers.

"Xuedi, you are too shameless. Our Underworld has been oppressed by demons to this extent, and you actually came to attack our Underworld and killed the strong men from several major holy places in our Underworld."

"Although we are weak, we will fight you to the death!!"

Chapter 1494 Killing 29 people from the Alite Galaxy in a row!

Lin Tianhao looked up and saw that there were at least five million troops.

Although Lin Tianhao traveled to several holy places and wasted some time, it was still outrageous to mobilize five million troops in such a short time.

He is very strong, but facing an army of five million at the same time still makes Lin Tianhao feel a little pressure.

"Everything is going in the direction pushed by these guys in the Aleta Galaxy." Lin Tianhao said in a deep voice.

Because Burning Heart Nightmare has already told Lin Tianhao that among these five million troops, more than eighty generals were controlled by those guys from the Alate Galaxy.

This is not a small number!!

In the army, generals have a very high say. These eighty generals have made "indispensable contributions" in gathering five million troops in a short period of time.

Lin Tianhao took a deep breath, a cold light flashing in his eyes.

"Instead of coming out to fight me head-on, you resort to such despicable means. You so-called strong men of the Alete Galaxy are really a bunch of dirty rats!!"

Lin Tianhao attacked without hesitation, and the Heavenly Punishment Lock accurately killed the eighty generals.

Then Lin Tianhao took out the Kunlun Mirror and left.

After returning to the Buzhou Holy Land, Lin Tianhao discovered that the Buzhou Holy Land was also surrounded by a large army.

"You bastards from Buzhou Holy Land, come out and die! You actually sided with that devil Xue Di!!"

"He killed the Lord of our Holy Land, killed the elders of our Holy Land, blood debt must be paid with blood, let the Snow Emperor come out, we are going to kill him!!"

The situation is similar.

Among these armies, most of the generals have been controlled.

Lin Tianhao was still the same as before, directly locking the heads of these controlled generals remotely and killing them.

"Master Palace Master, this is just a delaying tactic. They have already provoked the anger of the major holy places. Even if we kill these controlled generals, they can continue to fan the flames."

Lin Tianhao sneered and said:

"They want to make things chaotic, so let's make things more chaotic."

The words fell.

Lin Tianhao turned on the invincible blur and started running the map.

If those guys from the Alate Galaxy want to muddy the waters, they will definitely do it.

Since you are going to take action, you will give Lin Tianhao a chance.

Run around the map, then use the Kunlun Mirror to switch maps, and then attack from a distance.

This time.

Lin Tianhao has to use some unconventional means.

Since these guys from the Alate Galaxy are plotting something, Lin Tianhao will use his absolute power to break their conspiracy.

after one day.

Lin Tianhao completed the run according to the planned route.

then.

The next step is to switch maps frantically, then open the Eye of Insight to explore these guys in the Alete galaxy as much as possible.

Lin Tianhao's switching positions all over the map, coupled with the exploration of the Burning Heart Nightmare and the Poison Emperor of the Sand Sea, allowed Lin Tianhao to quickly find the three masters of the Alet Galaxy.

but.

This time Lin Tianhao did not kill them directly, but adopted a soul-searching strategy.

He wants a list!!

As long as we have the list, the following things will be much easier to deal with.

Then the fourth, and the fifth.

There are only five of them!!

It seems that these guys from the Alete Galaxy discovered that Lin Tianhao was targeting them, which made them alert.

"The hunt has just begun!!"

There is an unconcealable murderous intent in Lin Tianhao's eyes

Book of Life and Death!!

Lin Tianhao started writing his name.

One, two, three!!

Through the Burning Heart Nightmare soul search, Lin Tianhao obtained more than thirty names.

"Ding, congratulations, you have successfully killed Belit Shalo. We will announce it to all servers soon. Do you want to hide your name?"

"no."

"Announcement to all servers, congratulations to the player Xue Di for successfully killing Belit Shalo. We hereby announce this and hope all adventurers will keep up the good work!!"

.....

"Ding, congratulations, you have successfully killed Belit Fenglie. We will announce it to all servers soon. Do you want to hide your name?"

"no."

"Announcement to all servers, congratulations to the player Xue Di for successfully killing Belit Feng Lie. We hereby announce this and hope that all adventurers will continue to work hard!!"

.....

Announcements were issued across the server one after another, and not many people could withstand the damage caused by Lin Tianhao's Book of Life and Death.

Anyone below the Ninth Revolution King level could be killed almost at will under the lock of Lin Tianhao's Book of Life and Death.

Even after reaching the ninth level of King, he could only barely hold on, but was basically useless.

There were thirty-eight names, and Lin Tianhao killed twenty-nine in one breath.

There are also nine that cannot be killed in a short time.

This indicates that.

These nine were at least ninth-level king-level masters, or even emperor-level masters, or...emperor-level masters!!

After all, these guys from the Alate Galaxy had sent out so many powerful men in one go in order to kill him.

Even if you say so.

In the current galaxy, there are powerful and divine beings from the Alete galaxy, so Lin Tianhao also thinks it is possible.

but.

Lin Tianhao was not worried either. With his double clones, he could resurrect on the spot and transfer damage. As long as the physical transformation of the enemy was not particularly outrageous, he could basically kill him.

The only troublesome thing is that the damage transfer only cools down once every half a month, so Lin Tianhao needs to use it according to the cooling time.

As for the mission of Shudri White Fox, Lin Tianhao killed twenty-nine people in one breath using the Book of Life and Death. Together with the five people whose souls he had searched before, and Belit Buluo at the beginning, there were a total of thirty-five masters from the Alete Galaxy.

There is still some gap between us and the 100th place that has completed the task.

But the problem still arises.

Even if we use damage transfer to kill the remaining nine, there will only be forty-four.

"It seems we can only take one step at a time."

Lin Tianhao felt a little helpless.

but.

This remote killing of these masters from the Alate Galaxy made Lin Tianhao think of a problem.

That is.....

Has it been a long time since I went hunting for gods? !

Under normal circumstances, the gods cannot take action now, so now should be the best time to hunt the gods.

Before, he always thought that the gods were hiding and he might not be able to find them.

But he overlooked a very important issue, which is...

Holy places are basically supported by gods.

I have already subdued Lie Hongyu and Si Tianfu, so can I ask the powerful gods behind them?

Do it when you think of it.

Lin Tianhao went straight back to the Buzhou Holy Land.

In the main hall of Buzhou Holy Land.

"Sir, the inner world is still in chaos, and the demons took advantage of the situation to attack, killing many people."

"Fortunately, our ancestor has been promoted to the realm of Godly Grade, which can influence a radius of a thousand miles. We let the people within our radius move closer to the Buzhou Holy Land. With the power of our ancestor, we can protect them."

Before Lin Tianhao could speak, Si Tianfu took the initiative to bring up what had happened recently.

"However, I feel that this may be an opportunity for the Palace Master."

Chapter 1495: The Saibolin Family!

As soon as Si Tianfu said this, Lin Tianhao already understood what Si Tianfu meant.

"You mean, I can take action against these demons?"

Si Tianfu nodded and said:

"With your ability, Lord Palace Master, you are fully capable of killing a large number of demons in a short period of time. This will improve the reputation of the master among the army and ordinary people."

"Plus, the Palace Master has killed some high-level demons before. When the time comes, I will come out to explain for the Palace Master, and the wind direction will definitely change."

"it is good."

Lin Tianhao thought it was feasible.

He wanted to conquer the inner world, not to slaughter all the people in the inner world. Therefore, hunting demons was still necessary.

Not only that.

Hunting demons can also provide Lin Tianhao with attributes.

Every time you kill a demon, you will get a bonus to its attributes.

In addition, with the presence of powerful divine beings like Burning Heart Nightmare and Sand Sea Poison Emperor by Lin Tianhao's side, the hiding abilities that these demons are proud of are nothing in front of Lin Tianhao.

"Okay, then kill the demon first."

Lin Tianhao is not in a hurry about the matter of gods at this moment, he can deal with it slowly later, but now he can still get a lot of rewards by killing monsters.

"Ding, congratulations, you have successfully killed the bloodthirsty earth demon. You will be rewarded with +5 free attribute points, +1000 health points, +50 armor, and +50 magic resistance. An announcement will be made to all servers soon. Do you want to hide your name?"

"no."

"Announcement to all servers, congratulations to player Xue Di for successfully killing the bloodthirsty earth demon. We hereby announce this and hope all adventurers will keep up the good work!!"

.....

"Ding, congratulations, you have successfully killed the Demon Wind Blood Demon, and you will be rewarded with +40 free attribute points, +10000 health points, +0.05 movement speed, and +0.05 attack speed. A server-wide announcement will be made soon. Do you want to hide your name?"

"no."

"Announcement to all servers, congratulations to player Xue Di for successfully killing the Demon Wind Blood Demon. We hereby announce this and hope all adventurers will keep up the good work!!"

.....

"Ding, you got equipment +3."

"Ding, you got skill book +2."

"Ding, you got +200 free attribute points."

"Ding, you got gold coins +50000."

"Ding, you got it..."

.....

System notification sounds came one after another, and server-wide announcements also sounded one after another.

He got rewards for killing monsters and rewards for touching corpses. This was a pretty good harvest for Lin Tianhao.

With the support of Lin Tianhao's Heavenly Punishment Lock and the current output of Burning Heart Nightmare, killing these monsters is as easy as pie.

These demons soon realized that Lin Tianhao was slaughtering them wantonly, and those demons who had originally wanted to take advantage of the chaos became alert and began to hide.

But before, Lin Tianhao's usefulness of running maps was reflected in his efforts to deal with the Alate Galaxy. He could quickly switch maps in a short period of time and carry out crazy battles on the field.

These demons had no idea of Lin Tianhao's attack pattern.

In just three days, more than a thousand demons were killed by Lin Tianhao.

Although this number is insignificant compared to the huge number of monsters in the inner world.

"Demons are also connected to each other. We may be able to use the Book of Life and Death to kill these monsters remotely."

"Although I can't touch the corpses, I was able to kill so many demons in a short period of time. This should be very helpful for me to rule the inner world."

Next.

Lin Tianhao began to let Burning Heart Nightmare search souls and then compile a list.

There are indeed many demons that know each other.

Another three days passed, and the number of demons killed by Lin Tianhao in these three days was only half of the number in the previous three days, 500! !

However, Burning Heart Nightmare searched the souls of these five hundred demons and found out the names of more than six thousand demons.

After getting the list, Lin Tianhao was not in a hurry to take action, because if he took action now, it might alert the enemy.

and so.

Lin Tianhao plans to collect more lists of monsters.

and.

In these six days, in addition to the demons, Lin Tianhao also killed five masters from the Alate galaxy.

And obtained the list of eleven people from the memories of these five masters of the Alate Galaxy.

of course.

This time, Lin Tianhao did not directly attack these eleven people.

He is waiting.

Wait for an opportunity, then make a big splash.

Next.

Lin Tianhao started his crazy path of killing.

In the blink of an eye, half a month passed.

In the past half month, Lin Tianhao killed more than a thousand demons and obtained more than ten thousand demon lists. Although there were many duplicates, when combined with the previous ones, the number of demon lists in Lin Tianhao's hands still had more than eleven thousand non-duplicate names.

As for the Alite Galaxy, in the past half month, Lin Tianhao only killed three masters of the Alite Galaxy who were secretly instigating discord, and obtained five non-repetitive lists from their memories.

Now that the list is in hand.

Lin Tianhao started to lock the head directly using the Book of Life and Death.

"Ding, congratulations, you have successfully killed Sai Bolin A Ke. We will announce it to all servers soon. Do you want to hide your name?"

"no."

"Announcement to all servers, congratulations to the player Xue Di for successfully killing Sai Bo Lin A Ke. We hereby announce this and hope that all adventurers will continue to work hard!!"

This Sepolin Ako is the third person from the Arlet Galaxy family who came to the Milky Way World that Lin Tianhao came into contact with.

From the memories searched out from the Burning Nightmare, we can know that

The previous Belit family and Gulimu family were just pathfinders of the advance team of the Alite Galaxy. In the Alite Galaxy, the one who truly dominated this time was the Seborin family.

The Sepolin family is different from most of the regular professions in Ragnarok. In addition to their own profession, they basically have another profession: Psychic Master!!

The mental power of the Sepolin family far exceeds that of ordinary people. They can use their mental power to control objects, mentally impact, and even enslave people or animals with poor spiritual awareness.

Judging from the information obtained from searching the memory of Burning Heart Nightmare, the people of the Sepolin family seem to be somewhat similar to Jin Delan.

Jindelan also has similar abilities, but at the beginning Jindelan was more like Iron Man in controlling metals, and later he was also able to control some materials that did not look like metal.

The psychics of Sepolin are just an additional profession. Like most ordinary professionals, they all have a regular profession.

Or a warrior, or a mage.

But the difference is.

Because of their identities as psychics, whether they are warriors or mages, they have combat skills that are superior to those of their peers.

such as.

Flying, controlling flying knives, utilizing the power of psychics, they can even make spells turn, etc.

This Saibolin Ake was discovered when the Burning Heart Nightmare searched the soul of a ninth-level king-level master of the Gulimu family.

Chapter 1496 Saipo Lin Lan Bo!

The people of the Sepolin family usually disguise themselves very well, and this time they also brought some special weapons.

The Burning Heart Nightmare's soul-searching technique was of great help to Lin Tianhao.

Under normal circumstances, Lin Tianhao would not be able to obtain so much useful information.

In total, he obtained a list of sixteen people from the Alete galaxy. Lin Tianhao knew all of their basic realms and killed them accurately using the Book of Life and Death.

Among the sixteen people, thirteen were killed by Lin Tianhao using the Book of Life and Death, and only three could not be killed by the Book of Life and Death.

The thirty-five before, the eight in the past half month, and the thirteen now, Lin Tianhao has now killed fifty-seven masters of the Alet Galaxy! !

That's right.

Not fifty-six, but fifty-seven!!

Because during this period, Lin Tianhao used a damage transfer and killed a master from the Alite Galaxy who could not be killed by the Book of Life and Death.

One step closer to completing Shudri White Fox's mission.

but.

Lin Tianhao did not stop his actions.

He began to use the Book of Life and Death to remotely lock and name the more than 11,000 demons.

"Ding, congratulations, you have successfully killed the Tiger Demon. You will be rewarded with +25 free attribute points, +15000 health points, +105 armor, and +105 magic resistance. An announcement will be made to all servers soon. Do you want to hide your name?"

"no."

"Announcement to all servers, congratulations to the player Xue Di for successfully killing the Tiger Demon. We hereby announce this and hope that all adventurers will continue to work hard!!"

.....

"Ding, congratulations, you have successfully killed the Swamp Snake Demon, and you will be rewarded with +185 free attribute points, +50000 health points, +210 armor, and +0.18 movement speed. A server-wide announcement will be made soon. Do you want to hide your name?"

"no."

"Announcement to all servers, congratulations to player Xue Di for successfully killing the Swamp Snake Demon. We hereby announce this and hope all adventurers will keep up the good work!!"

.....

The sound of announcements from the entire server was endless, and Lin Tianhao started a crazy slaughtering mode. The high-level demons in the inner world of the earth had been swept away by Lin Tianhao once before.

Now, it is nothing but a pipe dream for these low-level demons to withstand the lock attack of Lin Tianhao's Book of Life and Death.

and so.

Lin Tianhao's attack was a precise lock to kill, and few demons could withstand Lin Tianhao's Book of Life and Death lock.

"Oh my god, what on earth is Xue Di doing? For half an hour, the server-wide notifications have not stopped. How many demons has he killed?!"

"These demons are very good at hiding themselves. Even ordinary king-level warriors find it difficult to spot the camouflaged demons in the crowd. But why..."

"Too scary, is this the Snow Emperor? The Snow Emperor has killed so many powerful people from the Holy Land, and now she has started to slaughter demons... Could it be... Could it be... I don't dare to say it."

"Those holy places have been destroyed. There is nothing to be afraid of. The Snow Emperor first destroyed several holy places, and then slaughtered the demons crazily. It seems that there is only one answer."

"That is....."

"Those holy places are very likely to be cooperating with the demons. This seems to explain why we are always hunted mercilessly by the demons, just like their captive prey."

.....

This time, Lin Tianhao was slaughtering demons crazily, and Si Tianfu was not idle either. He also began to arrange people to guide the people and make them change their views on Lin Tianhao.

With Lin Tianhao slaughtering demons so crazily, the effect was immediate.

The people in the inner world began to change their attitude towards Lin Tianhao.

In the inner world of the earth, in an underground palace.

A middle-aged man suddenly opened his eyes, his eyes filled with murderous intent.

The moment he opened his eyes, all the equipment around him, including people, were suspended in the air uncontrollably.

The only thing that remained motionless was the corpse of a young man lying on top of the middle-aged man.

"Snow Emperor!!"

"Good, good, it's really good!!"

The middle-aged man's momentum was rising steadily, and his murderous intent was almost tangible, oppressing everyone present.

"Lord Lan Bo, the Snow Emperor has always been arrogant, and now he is protected by powerful people at the God level. It will be extremely difficult for us to touch him."

"Bam—"

Before the man could open his mouth, he was blasted away by a look from Sepolin Lanbo, and crashed into the stone wall of the underground palace, creating a deep hole in the wall.

"My son's death will not be in vain. Xuedi, including his knee-high relatives, all must die!!"

The man who hit the stone wall said quickly:

"Under the current circumstances, the only way to kill the Snow Emperor is to lure him out of the Galaxy World, but this is simply impossible."

"And when the time for the agreement between the Lord of Heaven and the one in the Galaxy World is over, it is explained that the Snow Emperor may have gone to the Divine Realm."

Sepolin Lanbo's eyes were cold, and his powerful telekinesis dragged the man from the stone wall, leaving a deep groove on the ground.

"There are two ways. The first is to let those guys in the United States start from the real world and solve the problem from the root."

Sai Bolin Lanbo snorted coldly, "That's easy to say. With the identity of the Snow Emperor, if you want to kill him in reality, you have to be a demigod or above to take action."

The man groaned:

"It would be difficult to kill the Snow Emperor under the protection of the Dragon Nation, but what if we lure the Snow Emperor out to attack?"

"Before that, Xue Di participated in Operation Mo Yuan..."

Sai Bolin Lanbo waved his hand and shouted angrily:

"Idiot, it would be unwise for us to attack Xue Di before the agreement period ends."

"This is the Galaxy World. Right now, there is no way we can really compete with the Snow Emperor."

The man was silent, and then he said slowly:

"But if we don't take action now, when Snow Queen grows further, our chances of killing her will be even lower."

Sai Bolin Lanbo waved his hand and scolded:

"Don't worry, the incident with Xue Di will eventually be resolved."

"The man from the Galaxy World was unfair to the Snow Queen."

"He placed his hopes on Xue Di, but Xue Di alone cannot turn the tide."

Hear this.

The man seemed to have thought of something and said in a deep voice:

"Lord Lan Bo, are you ready to carry out that plan?"

Sai Bolin Lanbo nodded slightly and said:

"Under the current circumstances, we have no better choice."

"Isn't Xuedi very capable? Then let's make this world completely chaotic."

That's it.

Sai Bolin Lanbo seemed to have thought of something and continued:

"But don't be in a hurry. The best thing to do is to wait until Xue Di enters some special secret realm before taking action."

.....

Buzhou Holy Land.

Lin Tianhao's reputation has undergone tremendous changes.

However, even so, it is not so easy to swallow the inner world.

Now in the inner world, the only one that is relatively capable of fighting is Buzhou Holy Land. Next, we have to wait for Buzhou Holy Land to control the inner world.

Chapter 1497 Return to Ye Wuqing to seek cooperation!

Lin Tianhao killed all the demons that could be killed, and everything was developing in the direction he expected.

If Lin Tianhao could eat the inner world, it would be of great help.

And right now.

Someone sent a message to Lin Tianhao.

The person who sent the message was none other than Gui Ye Wuqing from the inner world of the earth.

"Xue Di, I'm at the gate of Buzhou Holy Land. Can we meet?"

Lin Tianhao frowned. Although because of Gui Ye Wuqing's nickname, Lin Tianhao was very tolerant of it.

But they are cooperating with people from the Alate galaxy. This is Lin Tianhao's bottom line, even if she really has a relationship with his sister.

Then Lin Tianhao would not indulge her too much.

Buzhou Holy Land.

In a small courtyard.

Gui Ye Wuqing met Lin Tianhao as he wished.

She looked at Lin Tianhao with a complicated look in her eyes.

"Xue Di, you've been making too much noise lately."

Lin Tianhao said indifferently:

"What action did I take?"

"To put it bluntly, compared to what happened in our Shanhai Empire, this incident is not worth mentioning."

"Besides, shouldn't you thank me for helping me deal with the demon?"

"But you are also slaughtering those people in the Alete galaxy." Gui Ye Wuqing said.

Lin Tianhao snorted coldly, "So, you think that it's okay for them to slaughter the people of my Shanhai Empire, but it's not okay for me to kill a few of them?"

"We in the Shanhai Empire lost tens of billions of people, but what about them? How many of them died? A hundred?"

Gui Ye Wuqing took a deep breath and finally sighed:

"But Xue Di, you are still too irrational to do this."

"reason?"

"What is sanity?"

Gui Ye Wuqing looked at Lin Tianhao meaningfully and said:

"Those guys in the Arlet Galaxy have great ambitions. I can sense that they come to our galaxy with ill intentions."

Lin Tianhao glared at Gui Ye Wuqing, "Since you know that they came to our Galaxy World with bad intentions, why are you still cooperating with them?!!"

"To seek the skin of a tiger is to bring about one's own destruction!!"

Hear this.

Gui Ye Wuqing took a deep breath, and finally shook his head and said:

"But we have no choice. There are too many strong people in the Alete Galaxy, and what do we have? How can we fight against the people of the Alete Galaxy?"

"They can just send out a saint to wipe you out."

Lin Tianhao chuckled and said:

"And then? Should I become their dog to earn a living?"

"But have you ever thought that even if you become his dogs, they really won't kill you in the future?"

"Snow Emperor!!"

Gui Ye Wuqing was a little annoyed, "Your words are too harsh."

Lin Tianhao smiled contemptuously, "Because your name is Gui Ye Wuqing, I have been very indulgent towards you."

"Today, judging from your attitude, you are here to act as a lobbyist."

Gui Ye Wuqing was silent for a while, then she said:

"We are not even on the same level as those guys in the Arlate Galaxy. When facing those guys in the Arlate Galaxy, we should prepare for the worst."

"Your plan is to surrender to him? Then beg for mercy and try to get him to let you go?"

"Do not!!"

Gui Ye Wuqing gritted his teeth and said, "Xue Di, not everyone is you. Not everyone has such a strong power like you."

"We are troubled by demons and are weaker in our own right."

"We must implement the Fire Plan if we want to protect our people."

"Spark Project?" Lin Tianhao frowned.

Gui Ye Wuqing nodded heavily, "Yes, it is the Fire Plan. We will train several top-notch warriors, and then use the secret realm treasures to let these top-notch warriors lead us to the Divine Realm."

Lin Tianhao's face looked a little ugly, "You think it's a bit naive."

"Ordinary ninth-level masters would just be serving food when they go to the Divine Realm."

Gui Ye Wuqing said very seriously:

"Yes, we definitely can't do it by ourselves, so we need someone stronger to protect us."

Lin Tianhao smiled, looked at Gui Ye Wuqing as if he were a fool, and said:

"You are helping the people of the Alite Galaxy, and you still want me to protect you? Do you think I'm a fool?"

Gui Ye Wuqing shook his head and said:

"So, I'm here today to discuss this matter again."

"We can change our relationship with those guys in the Alethe galaxy, provided that you take us to the divine realm when the disaster strikes."

"That is when Ragnarok merges with reality. Take us away."

Lin Tianhao smiled.

"What can you give me? I have no reason to help you."

Gui Ye Wuqing pondered for a moment, "This is a piece of cake for you, Xue Di. You can refuse. Then we can only pray as you said that those guys in the Alete Galaxy will show mercy to us and not kill us because we are cooperating with them now."

"Also, Xue Di, I represent not only the inner world, but also some countries on the surface of the world, including the United States and Japan."

A cold light flashed in Lin Tianhao's eyes and he asked:

"Are you threatening me?"

"I do not have."

Gui Ye Wuqing rejected it immediately, "I am just analyzing the situation normally. If you agree, then you will be the top decision-maker on Blue Star, and all the major powers will follow your lead."

"And those small countries will certainly feel honored to be on board your ship."

"At that time, all the people will migrate to the Divine Realm and develop our own power in the Divine Realm."

That's it.

Gui Ye Wuqing paused for a moment and continued:

"We have the equipment to accommodate tens of billions of people. Migration is definitely not a problem."

"After reaching the Divine Realm, it will be easier for mortals in the Divine Realm to increase their power."

"I heard that children in the God's Domain can reach the seventh level of enlightenment."

"Some powerful bloodline families have members who are almost all able to become gods after the age of eighteen."

Lin Tianhao couldn't help but find it a little funny.

"To be honest, your suggestion is very good. What about Blue Star? What about the Milky Way World? Are we just going to give up on them all?"

Gui Ye Wuqing nodded heavily, "There's nothing we can do about it. The Alate Galaxy has been developing for many years, and we have only been growing in the Ragnarok period. Even if we are forced to grow, our level and realm are not too low."

"But it's obviously not enough to compete with those guys in the Alete Galaxy."

"Even if you are the Snow Emperor, it's the same. What if after Ragnarok merges with reality, the Alet Galaxy directly sends out a saint to attack you?"

"and."

"What I said can't be considered an if, because the truth itself is something that has a very, very high probability of happening."

"After all, among the billions of adventurers in the entire galaxy, there is a possibility that they could be threatened."

Chapter 1498 Change your mind and cooperate!

Just now.

Before Lin Tianhao could answer, the shadow of Ned Leef appeared.

"You think it's too simple."

"As the saying goes, a man is innocent until he is found guilty of possessing a treasure. You know, bringing billions of weak mortals to the Divine Realm is a huge fortune that would tempt even a saint."

Hear this.

Gui Ye Wuqing frowned and said:

"What do you mean?"

Ned Liv chuckled and said:

"Don't you understand what I mean? If billions of people were captured and enslaved, how much wealth would that be?"

"Brainwashing them and making them believe in me, how much power does this have?"

"The Heavenly Dao Saints can already create a world without highly intelligent life forms. If they want to perfect their own world, highly intelligent life forms are indispensable."

"Humans who reproduce quickly and cultivate quickly are undoubtedly the best choice."

"The human population can grow from 100 million to 1 billion in less than 10 years if it is fast."

"And for a Heavenly Dao Saint, a single retreat could last a thousand years, ten thousand years, or even longer."

"If you use these billions of people well, you will have endless numbers of people and endless incense."

Gui Ye Wuqing hesitated to speak, and finally could only say with rather far-fetched words:

"If that's the case, at least we won't die."

Niederif shook her head and said:

"If one person is enslaved, that's fine, but if a group of people is enslaved, that's different."

Lin Tianhao stared at Gui Ye Wuqing and said in a deep voice:

"Now that we have realized our mistake, we still have a chance to turn back. Together we can eliminate the advance troops of the Alete galaxy and then increase our strength as much as possible."

"Use your best condition to deal with the crisis that comes later."

Gui Ye Wuqing smiled bitterly and said:

"If it's really as this senior said, we are already doomed."

"Ragnarok merges with reality, and the saint takes action. What will you, Snow Emperor, choose then?"

"Stay and die at the hands of the saint, or leave the galaxy world and go to the divine realm?"

"If you leave the Milky Way world, who can lead us to fight against those guys in the Alite Galaxy?"

Lin Tianhao shook his head and said:

"You think too simply. If they wanted to send out saints, they would have sent out saints by now."

Gui Ye Wuqing frowned and said:

"This is just your guess. No one knows whether they will send out the saints."

Lin Tianhao waved his hand and said:

"No matter what the outcome is, we have no choice."

"Should I sit and wait for death, or should I try my best to seek a glimmer of hope? What do you think?"

Gui Ye Wuqing took a deep breath and did not answer Lin Tianhao's question immediately.

"I know that you must have relayed our conversation to other people. They must have been watching our conversation as well."

"Please also ask the people behind you to think carefully, do you believe that the Alite Galaxy will give you a way out, or do you go and look for that ray of hope on your own!!"

Gui Ye Wuqing was silent for a while, and finally said:

"Will you stay and face it with us?"

Lin Tianhao shook his head and said:

"I can't guarantee that. If there are truly force majeure factors, I will leave and go to the Divine Realm. However, I will never give up the fight just because of an imaginary enemy that I have speculated on."

Hearing Lin Tianhao's words, Gui Ye Wuqing's eyes became firm.

"I want to fight, but the interests behind this involve too many people, especially many people who want to use the power of the people of the Alete Galaxy to strengthen themselves."

Lin Tianhao smiled, "Do you think those guys in the Alet Galaxy can really train you wholeheartedly?"

Gui Ye Wuqing remained silent. After a while, she said:

"We did a lot of assessments, and we even contacted more than thirty spirits."

"The information we received is extremely pessimistic. The final conclusion is that either you become a saint, or the high-level decision-making of the Galaxy World or the Alet Galaxy changes, otherwise... otherwise our chances of winning are infinitely close to zero."

Lin Tianhao chuckled and said:

"Even now, according to analysis, our chances of survival by relying on the Alete Galaxy are higher than our chances of survival by cooperating with you!!"

Lin Tianhao took a deep breath. If Lord Shi's lineage had this idea, then there would definitely be problems for him.

"Just like what this senior said, the worst outcome is that we might be enslaved by the people of the Alet Galaxy. The best outcome is that we become their vassal."

Ned Liv couldn't bear to watch it anymore and said:

"Although from the perspective of the law of the jungle, your decision is not wrong, but whether you become a vassal or a slave, the Alet Galaxy will continue to drain you like a vampire."

"But we just want to live."

Gui Ye Wuqing's voice was a little low.

"If you die, you will have nothing. Only if you live, you will have a chance."

Lin Tianhao raised his eyebrows slightly and said calmly:

"I respect your decision." Gui Ye Wuqing said.

Everyone has their own ideas, and in the face of the threat of death, they want to find a way to survive.

Gui Ye Wuqing nodded.

But the next moment, she seemed to have seen some shocking news, and a look of surprise appeared on her face.

"and many more."

"Xue Di, it seems that the higher-ups have changed their minds. They are ready to give it a try."

"Oh?"

Lin Tianhao was also a little surprised and asked softly: "Why?"

"Because the God-making Project just succeeded, but it was different from what we expected."

"What's wrong?" Lin Tianhao asked.

"We are implementing the God-building plan. This is the prerequisite for our cooperation with those guys in the Alite Galaxy."

"Create a god, and then go to the divine realm."

"With a god leading the team, we will have an easier time in the divine realm."

"But now we know that the people of the Alet Galaxy have tricked us. After we become gods with the godhood they gave us, our people will be enslaved."

"You're right. Those guys in the Alete galaxy are so insidious."

Lin Tianhao raised his eyebrows and said with some doubt:

"How did you determine that there was something wrong with the Godhead?"

"We are also cautious and have set up several verification points because we are worried about this happening."

"One of the things is that he went offline immediately after becoming a god. Then, he didn't go offline immediately, and his reaction was a bit strange."

Lin Tianhao frowned and said:

"Speaking of which, after your people become gods, will they be restricted from taking action?"

"meeting."

Gui Ye Wuqing answered very affirmatively.

Lin Tianhao raised his eyebrows. It seemed that adventurers would be restricted like they would be when they became gods.

However, it is still possible to make reserves for the gods in this way.

In this way, after Ragnarok merges with reality, they on Blue Star will also have a group of gods of their own.

Chapter 1499 International Conference, Lord Shi!

Gui Ye Wuqing looked at Lin Tianhao meaningfully and said:

"Since we are cooperating, we are willing to show our utmost sincerity. We know that you, Xue Di, have the ability to lock heads and kill with long-range sniping."

"Here, we will provide a list of all the names of people in the Arlet Galaxy that we know of. And if you want other information, we will cooperate as much as possible."

"Before the world-destroying crisis, we are willing to do everything we can to eliminate these invaders from the Alete Galaxy together!!"

Lin Tianhao was a little surprised. It seemed that because of him, the situation in various countries began to change.

In the past life, there were so many countries on Blue Star, and many of them fell apart. Especially after they came into contact with some of the truths about Ragnarok, the disintegration became even more serious.

Because the land of China now is a place abandoned by the gods, and it is also the period when the emperor has fallen.

The land abandoned by gods means that it is very difficult to become a god. The period of the emperor's fall means that it is also extremely difficult to reach the level of the great emperor.

This is also the reason why, in such a developed continent like Zhongzhou, there are only a handful of powerful people at the level of Great Emperor.

As for the Shanhai Empire, the only local emperor-level figure Lin Tianhao had come into contact with was the Lord of Luotian.

The existence of Lord Luotian is quite special, and he has now left the land of China.

"Well, if we unite as one, we may be able to deal with those guys in the Alite Galaxy."

"and."

"The saint you mentioned is not going to take action. According to my estimation, it is not that easy."

"Saints should not act casually. We in the Milky Way world also have our own saints, but they seem to be in the divine realm."

"According to my estimation, the same is true for the Alet Galaxy. Their saints have probably gone to the divine realm as well."

Gui Ye Wuqing took a deep breath and said:

"Well, we don't really have much choice."

Lin Tianhao smiled helplessly, it was indeed true.

Isn't it that Gui Ye Wuqing and the others chose to cooperate with him because they had no choice?

They only have two choices.

The first one is the guy who defected to the Aleta galaxy and tried to escape unscathed.

The second is to cooperate with Lin Tianhao to seek that slim chance.

Originally they chose the first one.

It's because they feel that Lin Tianhao cannot compete with those guys from the Alate Galaxy.

of course.

That's just the first reason.

The second and most critical one is.

They feel.

From now on, Lin Tianhao will definitely leave the Galaxy World and go to the Divine Realm as soon as possible.

After all, with Lin Tianhao's talent, there is no need for him to join them in fighting against those guys in Alite's galaxy.

I got the list of people from the Alate Galaxy from Gui Ye Wu Qing. There are quite a few on this list, there are actually forty-nine people! !

Seeing these forty-nine names, Lin Tianhao couldn't help but smile.

He had already killed fifty-seven masters of the Alele galaxy. If he could kill forty-three of these forty-nine, then Shudri White Fox's mission would be completed.

"Ding, congratulations, you have successfully killed Sai Bolin Aning. We will announce it to all servers soon. Do you want to hide your name?"

"no."

"Announcement to all servers, congratulations to the player Xue Di for successfully killing Sai Bo Lin An Ning. We hereby announce this and hope that all adventurers will continue to work hard!!"

.....

"Ding, congratulations, you successfully killed..."

.....

Server-wide announcements rang out one after another, and these guys in the Alate galaxy were greeted with a new round of slaughter by Lin Tianhao.

In the list of forty-nine people provided by Ye Wuqing, thirty-three of them were killed by Lin Tianhao.

in this way.

During this period of time, Lin Tianhao has killed ninety masters of the Alate galaxy.

Only ten people are left before Lin Tianhao completes the mission of Xiudeli White Fox.

"This time, I see hope."

"If I can unite all forces and fight against the people of the Alite Galaxy together, then these guys in the Alite Galaxy will have nowhere to hide."

Lin Tianhao thought secretly, after killing these guys from the Alate galaxy, Lin Tianhao looked at Gui Ye Wuqing seriously.

"I hope you can hold an international conference and unite more countries to join in targeting the guys in the Arlate Galaxy."

"In addition, we share strategies, distribute equipment in a centralized manner, and give obsolete equipment such as mid- and low-level equipment to newcomers to help them grow quickly. At the same time, we distribute game helmets for free, so that everyone can make progress."

Lin Tianhao knew very well how far they could go. It would be difficult for him alone to do so. He needed to lead the entire nation to progress together.

"On the premise of universal progress, you can also think of some countermeasures, but my idea is that everyone can become a soldier, share the secret book of the law domain, and quickly establish a nine-turn army! "

Lin Tianhao had fought with those guys in the Alet Galaxy in his previous life. He knew very well that the most important thing for mankind to grow up was the army! !

And a nine-turn high-quality army is very necessary.

"And I will not hide my incompetence either. I will share the Beast God Vase with you and help your Tianjiao complete the rank +1."

Lin Tianhao knew very well in his mind that he could just give the Evolutionary Divine Liquid to Hei Tianaozhen.

Hei Tianao can really kill monsters quickly and then use the Evolutionary Divine Fluid.

"As for Ragnarok, I will choose to quickly annex the major holy places and the forces of several continents. At that time, Ragnarok and the real world will unite as one to fight against those guys in the Alet Galaxy. We will definitely have a chance of winning."

Hearing what Lin Tianhao said, Gui Ye Wuqing couldn't help but show excitement on his face.

"As for the specific details, my suggestion is to hold an international conference."

"Also, I want to meet the god you cultivated. Those guys in the Alete galaxy are able to enslave adventurers. This is a serious problem."

"I need to detect their methods. If their methods are very powerful, it is entirely possible that they can enslave some of our senior management in Blue Star, which is very troublesome."

Gui Ye Wuqing nodded heavily, "Okay, you can communicate with the top leaders of Dragon Country, and we will hold an international conference immediately to implement the plan as soon as possible and strive to become stronger in a short period of time."

.....

The next afternoon.

The international conference was held as planned, and senior officials from various countries held the meeting online.

Well, actually it's the Fan Palace.

Lin Tianhao picked them up with the Kunlun Mirror.

There are only twelve countries participating in this meeting, which are the top twelve countries on Blue Star.

Besides.

There are also two representatives from the inner earth world, one of whom is the famous Lord Stone.

to be frank.

This Lord Stone was not the same as Lin Tianhao had imagined. She was actually a cute-looking young girl.

After coming in.

Her eyes were always on Lin Tianhao, and she even took the initiative to walk to Lin Tianhao's side.

"Hello, my name is Luo Qinyun. You may be more familiar with my other identity, Lord Shi. Nice to meet you."

Chapter 1500 Global cooperation to reveal the truth!

Lin Tianhao smiled and said:

"I never thought that the feared Lord Shi is actually such a little girl."

"Small?"

Luo Qinyun smiled without comment and said:

"You have a good relationship with Taoist Master Ye Xin. But do you know that Taoist Master Ye Xin's master once lost to me by half a move?"

Lin Tianhao was shocked. This Luo Qinyun was a bit outrageous.

"I have always thought that Lord Stone is a code name. It may not represent a person, but a title of status similar to Saint Lord or Palace Master."

Luo Qinyun nodded, "You are right to understand it this way."

Lin Tianhao said again:

"So, you sent the Dark Devil to kill me?"

The air became silent for a moment.

Luo Qinyun waved her hand and said, "Weren't our positions different at the beginning?"

"Indeed, your execution ability is stronger than many people in our Dragon Country."

"You are also more rational, like a group of... emotionless machines."

Luo Qinyun sighed and said:

"How could we be a group of emotionless machines?"

"Gui Ye Wuqing has communicated with you. You should understand that our decision is a last resort for our own nation."

"Even now, even if it's you yourself, I can guarantee that you will never abandon us and go to the divine realm alone later?"

"According to your character analysis, our result is that if faced with an irresistible crisis, there is a very, very high probability that you will choose to abandon us."

Lin Tianhao raised his eyebrows and said:

"I'm so sure of it."

"That's human nature."

"I don't rule out the possibility that there are many ancestors in your Dragon Country who are willing to sacrifice their own lives and fight for the development of the nation without hesitation."

"But you, Xue Di, are definitely not among these people."

"Everyone's actions are traceable. Your style of doing things may be more like ours."

Lin Tianhao did not refute and said:

"Perhaps you are right. If one day I really encounter a crisis that I am completely unable to cope with, I will choose to leave the galaxy world and go to the divine realm."

That's it.

Lin Tianhao looked at Luo Qinyun meaningfully and asked:

"In that case, why do you still want to cooperate with me?"

"Asking questions knowingly!"

Luo Qinyun smiled and said:

"Don't we have any choice?"

"You are not telling the truth." Lin Tianhao said.

Luo Qinyun smiled and said:

"The truth? I'm afraid you'll become proud if I tell you the truth."

"Your growth story is too legendary. No matter who you are, no matter how big the gap between you seems on the surface, you win in the end."

"So, I want to take another gamble."

"If you said that you could destroy so many holy places and unify the Shanhai Empire before, I don't believe it. If you said that you could solve the crisis of Zhongzhou Continent before, I don't believe it."

"But you have done all these seemingly impossible things."

Lin Tianhao did not comment, waved his hand and said:

"Everyone is here, let's start the meeting."

.....

"I will mainly talk about a few points in this meeting. This is the information I have learned. As for how you view and act, it is up to you."

That's it.

"First of all, the existence of the Arlate Galaxy is to invade our galaxy. They are our enemy. Although we belong to different countries, I hope that everyone can unite and fight against these guys from the Arlate Galaxy together."

Lin Tianhao glanced at the fourteen people present, wanting to see their attitudes.

The elder of Long State was the first to express his opinion.

"I agree."

"I agree too." Luo Qinyun said.

Then other countries also expressed their agreement one after another.

Only three countries headed by the Great Bear Empire were still hesitating.

Luo Qinyun glanced at the president of the Great Bear Empire and said:

"We have worked with people from the Arlate Galaxy before. I believe you have heard about the God-making Project."

"I can tell you now that the God-making plan has failed. The guy who used the godhood of the Alite Galaxy to become a god has escaped our control and has been enslaved by those guys in the Alite Galaxy."

"You heard it right, it's slavery."

"They deceived us, which is the key reason why we switched sides and cooperated with Xue Di."

Hear this.

The president of the Great Bear Empire narrowed his eyes slightly and said:

"If that's the case, I agree."

With the agreement of the President of the Great Bear Empire, the remaining two countries also agreed.

"Second, we need the growth of all the people. The general plan can be discussed in detail by the chief elder of our Dragon Nation."

.....

This international conference lasted a full seven hours.

Targeted arrangements have been made regarding cooperation matters and some general directions.

Overall, the meeting went very smoothly.

but.

Disagreements arose among countries over the full disclosure of the Aleta galaxy's impending attack on the Milky Way world.

Because if we announce now that the Milky Way world is about to be invaded by the Alata Galaxy, it will inevitably cause a certain panic, and some problems may arise in the real world.

However, after discussion, it was decided to announce this news globally.

Because the opportunity for Ragnarok is here, and with the foundation of becoming stronger, the probability of unrest is low.

Then, with the guidance of the global unity, the probability of unrest will be lower.

Coupled with the free distribution of gaming helmets to everyone and the support of food supply strategies, there won't be any major problems.

As for the labor issue, intelligent robots are now more mature than most people imagine.

After all, every country exposes half and hides half. With the use of intelligent robots, there will not be any major problems in maintaining the basic operations of the city under the control of a small number of people.

This meeting is over.

A piece of news instantly spread across the entire blue planet.

In the future, Ragnarok will merge with reality, and the strength gained in Ragnarok will be manifested in the real world.

With the promotion of major countries, this news quickly swept the world.

Everyone on Blue Star was stunned.

Because this news is so shocking.

"Although there were rumors before and I had my own guesses, this was announced simultaneously around the world, which has a completely different meaning."

"Oh my god, the spiritual energy revival I was looking forward to didn't come, but this game has merged with the real world. This seems to be more exciting than the spiritual energy revival. I can directly gain powerful power in the game."

"My grandfather is eighty-eight years old this year. He asked if it was too late to enter Ragnarok now? He also asked, what state in Ragnarok can increase one's lifespan?"

.....

Hotly discussed around the world!!

I don't know how many people were surprised by the crispy outside and tender inside.

especially.

Such news was spoken by heads of state and broadcast by the most authoritative media and television stations!!
