

## **O games 1501**

Chapter 1501 Global shock, threat and hope!

The second message was released shortly after the first one.

Global artificial intelligence has entered a new era. Artificial intelligence can replace humans in 99% of the work. The working hours of all positions will be reduced to less than one hour a day, and they can work three days and rest four days!!

Followed by.

Free food distribution around the world, reducing the cost of living to zero!!

These pieces of news are simply crazy and unbelievable.

What a crazy thing this is.

however.

This news is not the end. Immediately afterwards, gaming helmets will be distributed for free, which is like a bombshell.

Food and gaming helmets are distributed free of charge.

If this had happened in the past, someone would have said it was crazy.

however.

This isn't someone going crazy, it's the beginning.

Next, the house.

All houses around the world have seen price cuts, and rent-free housing has appeared everywhere.

That's right.

It's not public housing, but rent-free housing.

"What the hell, what the hell, what the hell is going on? Is this world crazy, or am I crazy? What the hell is going on?"

"Artificial intelligence robots can carve jade, and their carving skills are better than those of masters with ten years of experience?"

"Free food? Free gaming helmets? Free housing? Then what does it matter if I've worked myself to death for the first half of my life and got up too early and stayed up too late?"

"You are exempt from rent, but you are exempt from mortgage."

.....

It seems that the global response has been heard and new news has been released.

Mortgage repayments are suspended for three years and, if possible, permanently.

But this news is not the end at all, and more news will be announced one after another.

Anyone with a bit of common sense could see that the country wanted them to devote themselves wholeheartedly to Ragnarok.

and.

Various sources also revealed two points: increasing lifespan is more important than gaining powerful strength.

Previously, the number of adventurers in Ragnarok had exceeded three billion.

But among these people, less than one-tenth actually play full-time.

This is because some so-called truth about Ragnarok had been reported before, otherwise, the proportion would be even lower.

And now.

What the country needs to do is let all of their staff play Ragnarok full-time.

and.

Because this is the intention of the leaders of all countries in the world. Even if some people with ulterior motives want to stand up and express their opinions, they have no chance at all.

such as.

There is a group of people who wonder whether robots with artificial intelligence of this level may pose a threat.

but.

Experts had already analyzed this idea before it was even proposed.

First of all, the probability of this happening is extremely small. In addition, according to reliable information, Ragnarok will merge with reality five years after its launch.

Ragnarok has been online for two years and more than one month now.

This means that even if artificial intelligence may get out of control in the future, it will take at least ten years, or even longer, for it to develop to that point.

More than two years later.

By then everyone will be like a dragon, and everyone will have strong fighting power, and this will not be a problem.

At last.

The most critical point has also been announced.

The threat from the Arlate Galaxy!!

After this announcement, the originally excited people became a little depressed.

After all, the people of Ragnarok actually have a deep-rooted idea.

That is an alien civilization whose technological level is far superior to theirs.

Especially after a certain science fiction novel became popular all over the world, many people felt suffocated by the technology of alien civilizations.

just now.

It was suddenly and clearly announced that the Arlate Galaxy might invade the Blue Planet after Ragnarok merged with reality. How could this not put pressure on them?

There are reasons why countries announce the news in this way.

After they announced the news, the list of geniuses of Ragnarok followed.

Especially Lin Tianhao, also known as the Snow Emperor, made headlines in major news outlets!!

to be honest.

It is to let the people of all countries see hope. They have strong people, super strong people who can compete with the masters of the Alate galaxy.

"Yes, we still have a chance. We are all like dragons. We have Xue Di, Shen Pang Wu Di, and the Dragon Group. We have many, many masters in Dragon Country."

"The Snow Queen has already been able to kill gods. If we give her another three years, she will be able to fight even a saint in the future."

"Our Dragon Nation ancestors once faced such a powerful enemy and never gave in. They used their blood to build the continuation of our nation. Today, we should also shoulder the burden."

"I will not let down my ancestors and I will be worthy of my descendants. No matter how strong the enemy ahead is, I am not afraid!!"

.....

The whole nation becomes stronger and the curtain has officially begun.

The inner world.

In a mysterious underground palace.

When Saibolin Lanbo saw the latest message, his eyes were filled with anger.

"These guys are really cunning. We had a backup plan hidden in our godhood, but they discovered it right away."

Hear this.

A tall middle-aged man in front of Sai Bolin Lanbo said in a deep voice:

"Lord Lan Bo, now these adventurers of Blue Star are united as one, and have raised the banner of slaughtering all the invaders even if they have to die a thousand times."

Hear this.

There was unconcealable anger in Saibolin Lanbo's eyes:

"As the advance team, our goal is to snipe the Tianjiao, disrupt the situation, and make them fight among themselves."

"But now, how can they cooperate?!"

"Especially Lord Shi, is she crazy? She once sent experts to kill Xue Di in the real world. She and Xue Di should be enemies to the death. How could they cooperate?!"

.....

The tall middle-aged man hesitated for a moment and said:

"From Lord Shi's perspective, this seems to be a helpless move on her part. The flaws in the God-making Plan have caused her trust in us to drop to the freezing point."

"Moreover, the people of ours who were killed by the Snow Emperor later must have been on the list that Lord Shi and his men revealed to the Snow Emperor."

Sai Bolin Lanbo snorted coldly, "Even if they join forces, we are not afraid of them, but this will bring certain troubles to the strong men in our galaxy."

"and."

"Our mission has been considered a failure. We came here with great confidence, but now we have returned empty-handed. I cannot afford to lose face like this!!"

The tall middle-aged man hesitated for a moment and asked:

"Lord Lan Bo, I think the relationship between Lord Shi and Emperor Xue is not solid. As long as we work a little harder, there is a high probability that we can win over the other party."

Hear this.

Sai Bolin Lanbo nodded slightly.

"I thought so too, but I don't want to do that now."

"Lord Shi has killed so many of our compatriots. If we still try to win her over, that would be degrading to ourselves."

The tall middle-aged man hesitated and said:

"But we tried to start a war between the adventurers from the inner world and the surface world before, and Lord Stone was a very crucial link..."

Chapter 1502 Level, grade, rules, and chat!

Regarding the realm of this book, I see some readers say they don't understand it, so I will explain the level, grade, and realm in detail here. (It's not water, and the three chapters of the main text will still be updated.)

First is the level, 1-100000.

Levels 1-20 are novices and have not changed jobs.

Level 20.

Level 50, second level.

Level 100, third level.

Level 200, fourth level.

Level 500, fifth turn.

Level 1000, sixth turn.

Level 2000 Seventh Shift. (The Seventh Shift has a requirement, that is, you must have a domain to complete the Seventh Shift.)

Level 5000, eighth turn.

Level 10000, ninth transformation.

This is a watershed.

Level 20000, tenth turn. (Tenth turn requires at least Saint-level talent. Those who do not have Saint-level talent can only reach the ninth turn. After the ninth turn, you will become a demigod, a pseudo-god, or a god.)

50000 level eleven turns.

Level 100000, twelve revolutions.

Then there are demigods, false gods, and gods.

The conversion of level to strength:

First: Free attribute points. Five free attribute points can be obtained for each level up.

Second, wear higher-level equipment. After all, not everyone has as many special equipment or even artifacts as the protagonist.

The properties of ordinary level 5 equipment and level 50 equipment are very different.

Third, level suppression. This concept exists but is rather vague and has not been quantified.

For example, a level 100 archer may have a 100% critical strike chance, but when he faces a level 1000 opponent, the actual probability of his 100% critical strike chance being triggered may be less than 50%.

Fourth, it is the number of skills, skill star level and practical experience.

The higher the level, the more skills, the higher the skill star level, and the richer the practical experience.

Although this is not true for 100% of adventurers, at least 1000% of adventurers are like this. A level adventurer has fewer skills and lower skill star levels than a level adventurer.

Secondly, it is the grade.

The grades in this book are mainly divided into ordinary, elite, black iron, bronze, silver, gold, platinum, diamond, star, grandmaster, king, emperor, emperor (the realm of the great emperor), and divine (the realm of divine).

The grade is an all-round improvement.

For example, although both are red-eyed rabbits, the overall attributes of an elite-level red-eyed rabbit are several times that of an ordinary-level red-eyed rabbit, and the number of skills and skill star levels are both greater than ordinary ones.

The same goes for equipment, and the higher the grade of the equipment, the more additional attributes it has.

For example, Iron-level equipment has three additional attributes, while Silver-level equipment has five.

Grade is a reflection of strength.

First, the quality of all attributes is increased exponentially.

Second, there are more skills and the skill star ratings are higher.

Third, grade suppression is similar to level suppression.

Fourth, the grade determines the upper limit after becoming a god. Since the adventurer has not yet reached the realm of gods, it has not been discussed yet.

That is the upper limit of the divine realm!!

Ordinary grades are not worthy of becoming a god. At least one needs to be at an elite grade to have a chance of becoming a god.

From elite to grandmaster, there are nine grades, corresponding to the nine grades of gods. Elite professionals can only become first-grade gods. Without upgrading their grades, it is almost impossible to reach the second grade, and so on.

God King, God Emperor, God Emperor, the corresponding ranks are king level, king level, and god level.

Of course, it doesn't mean that once you reach the king level, you will become a god-king after becoming a god. You still have to start from a first-level god.

But because of his high rank, it means that his overall attributes are also stronger than lower-rank gods of the same level.

This is why in Ragnarok, some beings pursue perfection in the mortal realm.

Because it is relatively easy for mortals to improve their level and grade, these will become more difficult after becoming a god.

Finally, comprehend the realm of the Great Dao.

First, the realm of true meaning, there are nine levels in total, and it is possible to break the limit, ten levels, eleven levels are all possible. (Theoretically, the realm of true meaning can condense into the lowest level of domain, but this will be more difficult.)

Second, the state of mind is mainly divided into three realms, namely, no objects, no self, and no dust.

Third, the realm of laws, which also has nine levels, but can also break the limit and reach the tenth and eleventh levels. (In theory, the realm of laws can impact on becoming a god. Although it is easy for the protagonist to reach the realm of laws, in reality, it is still very difficult for most ordinary professionals to reach this level.)

Fourth, the realm of asking about the Tao.

Fifth, the realm of Tao.

Sixth, the realm of the Great Dao.

.....

The laws have endless uses, the simplest and most common ones are to enhance attacks, gain territory, and form skills.

Enhanced attack: Similar to the mage's fireball spell, if you master the law of fire, the power of the released fireball will be greatly enhanced.

Obtaining a territory: This is even simpler. Having your own territory is equivalent to having a sustainable, range-destroying weapon centered on yourself.

Formation skills: This is similar to Lin Tianhao's space shuttle. Using his understanding of the laws of space, he can quickly shuttle through space, or confine space, thereby achieving the effect of confining the enemy.

Conventional space confinement skills may only last for a few seconds, but when the laws are applied, they may last for several minutes or even several hours.

Duration depends entirely on consumption.

----

These are the three most core aspects that professionals use to demonstrate their strength, but of course, they do not represent all.

Equipment, skills, talents, props, magical powers, secret techniques, etc. are all manifestations of combat power.

therefore.

It is difficult to judge the comprehensive combat effectiveness through conventional factors. Even a powerful talent, secret technique or prop can make it possible to kill enemies across levels and grades.

----

I'd like to take this opportunity to have a brief chat with my fellow readers here.

First of all, thank you readers for your support along the way. You are all the most handsome and beautiful men in the universe!!

This book contains a lot of data, so it is inevitable that there will be mistakes sometimes, and it will be very troublesome to modify it later. For this, Xingxing has to apologize to the readers.

Online game data is a very important thing, but I am a bit busy taking care of my kids. Anyway, I apologize.

And there's the matter of fake wine... ahem, I admit it, I'll be a master of fake wine from now on. But that being said, I'll try my best to pay attention to this issue in the future. I believe everyone has noticed that I'm typing on my cell phone.

There's no other way. I have to take care of the kids and it's hard to sit quietly in front of the computer and type.

As for this book, to be honest, I am also considering how much to write.

The fusion of Ragnarok and reality, and the fight against the Arlate Galaxy, is the core plot that has been laid out for so long. It must be written and it is unavoidable.

I believe that readers can feel the latest chapter. The pace has become faster and we need to prepare for the fight against the Alata galaxy.

Xing Xing also saw that some readers asked when the story would end. Xing Xing himself also thought that if he wanted to finish it faster, he would not go to the Divine Realm and would end the story after the battle with the Alate Galaxy was over.

Readers can also express their opinions. Should we go to the divine realm or not?

Chapter 1503 The attraction comes from the origin of blood!

Sai Bolin Lanbo's face darkened and he said:

"Let's make some noise."

"Someone was able to beat the gods of the land of China and make them retreat. Why can't we do the same?"

"Those guys who have been covered in dust for a long time, it's time to let them come out and get some fresh air."

Hear this.

The tall middle-aged man's expression suddenly changed and he said:

"If those guys come out, the situation will be out of our control."

Sai Bolin Lanbo's eyes narrowed slightly and he said:

"It doesn't matter. What we have to do is to delay them."

The tall middle-aged man hesitated for a moment and said:

"But now there are powerful people at the God level around the Snow Queen. Even if we release those guys, the Snow Queen may not be able to resist."

Sai Bolin Lanbo shook his head and said:

"Snow Emperor is only one person after all. In a truly large-scale battlefield, the strength of one person is not enough."

"Especially since those guys are difficult to eliminate, especially their master."

The tall middle-aged man hesitated to speak. He gritted his teeth and said:

"But this is how..."

"No buts."

"Since they want to unite the entire nation to fight against us, let them know that even if they stand together, they are still so insignificant!!"

.....

Fandian.

After the previous international conference, earth-shaking changes have taken place all over the Blue Planet.

The number of adventurers in Ragnarok has surged again.

With the help of various strategies and obsolete low-level equipment, these latecomers naturally grow faster than the initial adventurers.

Looking at this thriving scene, Lin Tianhao began to think about what he should do next.

At present, the number of masters of the Alete galaxy that he has hunted has reached ninety. He only needs ten more to complete the mission of Shudri White Fox, obtain the Heavenly Punishment Equipment, and complete the eighth transformation.

but.

But it was these last ten people that slowed down Lin Tianhao's progress.

He can use damage transfer to continue killing these high-level strongmen in the Alete galaxy.

However, the damage transfer has a cooling time of half a month, which means that it is somewhat difficult for Lin Tianhao to kill a hundred people in a short period of time.

Five months!!

This is the time it takes to use damage transfer.

Even if he is anxious now, it is useless.

"It looks like we still have to go to a place outside the domain."

Lin Tianhao decided to continue with his previous strategy and integrate his forces.

His Book of Life and Death could not quickly kill the high-level masters of the Alet Galaxy because his health points were not enough.

If his health points exceed one hundred trillion, or even one quadrillion!!

The Book of Life and Death can also be used to kill people indiscriminately.

The fastest way to quickly increase his health is to integrate those major forces.

The vast land of China, five continents.

The Central Plains suffered a severe blow, the situation is not optimistic, and the population has dropped sharply.

But it's different in other continents.

especially.

Those who came to the Shanhai Empire to cause trouble before were not just the Wuji Dengtian Palace, but also the super forces behind the Yuelun Demon Palace and the Xitu Temple.

The super power behind the Moon Wheel Demon Palace, the Holy Moon Demon Cult, seems to have come from Fengzhou in the Zhongzhou Continent.

Whether it is Jiuyou or Tiangong, or the Devil's Sea and Dark Dragon Swamp, these places are full of unknowns for Lin Tianhao.

That being the case.

Then he would first integrate all the forces he could get.

As for the inner world.

The inner world is still quite chaotic now, and Si Tianfu is needed to lead the Buzhou Holy Land to integrate it bit by bit. This cannot be accomplished in a short time.

and so.

Lin Tianhao needs to travel across the ocean to Fengzhou.

Based on some information Lin Tianhao had learned before.

The population of Fengzhou is no less than 500 billion.

If Fengzhou could be swallowed, Lin Tianhao's health points would increase by more than two trillion.

After all, Lin Tianhao has so many things that can increase his health.

Besides.

The trip to Fengzhou also has another purpose, which is to find the Tianfa equipment.

As Fengzhou is a continent, there is a relatively high probability that there will be Heavenly Punishment Equipment.

Even if he doesn't have the Heavenly Punishment equipment, Lin Tianhao can still find a way to get the Flower of Talent Evolution, Grade +1, the Blessing of Gods and Demons and the like.

Not only that.

The Human King Order is also crucial in improving the numerical values of all attributes.

If he could take over Fengzhou, the percentage increase of all attributes of the Human King Order would definitely increase.

Before going to Fengzhou.

Lin Tianhao handed the Beast God Bottle to the Sand Sea Poison Emperor, and asked the Sand Sea Poison Emperor, Buzhou Divine Stone and the Angry Dragon City Lord Lie Hongyu to guard it together. He asked them to use the Beast God Bottle to help their subordinates improve their grades.

The main reason is that the Beast God Bottle is too precious, so Lin Tianhao had to arrange more powerful people.

The growth of adventurers is relatively slow, but the growth of these NPCs is relatively fast.

As for himself, with Heitian Aozhen, Qingya Guisha and Fenxin Mengyan, he can walk sideways in Fengzhou.

South Sky Sea.

This is the only way to go from Zhongzhou mainland to Fengzhou.

It would take about three days to cross the South Sky Sea at Hei Tianao's speed.

The speed of the dragon clan at the semi-god level in the ocean should not be underestimated.

During these three days, Lin Tianhao chose to gain enlightenment as much as possible.

As for whether you will encounter danger while traveling in the ocean, that is basically impossible.

The atavistic black dragon that has reached the half-step divine level is already an absolute dominant existence in the ocean.

however.

After traveling at high speed on the seabed for a day and a night, Hei Tianao's speed actually slowed down.

He looked toward a canyon deep under the sea, with a look of doubt in his eyes.

"what happened?"

The voice of Burning Heart Nightmare sounded.

His soul power was even greater than that of Hei Tian Ao Zhen. After Hei Tian Ao Zhen stopped, he also rushed towards the deep underwater canyon.

"Bloodline induction, there seems to be something in the depths of this canyon that is attracting me, an attraction coming from the depths of my bloodline."

The Green Tooth Ghost said in surprise:

"Your true form is an atavistic black dragon. Could it be that there is blood left by your ancient black dragon deep in this canyon?"

"But your rank has already reached the realm of half-step divine rank. Even the bloodline of the ancient black dragon can hardly add anything to your rank."

Because the ordinary ancient black dragon is at the peak of the realm of the great emperor.

Hei Tianao is of higher rank than ordinary ancient black dragons, so it is naturally not the bloodline brought by the ancient black dragon that attracts him.

"do not know."

Hei Tianaozhen shook his head, "But this feeling is too strong."

"Generally, if there is such a strong blood connection, there is a high probability that it is something that can help you make further progress."

Nidifu's voice also rang out, "You can't be so lucky that you can be promoted to the divine realm by relying on your bloodline in this land of Shenzhou."

Chapter 1504 Different Soul Meanings!

"Wake up the master. He is still trying to understand the truth. The master has to make the final decision on this matter."

The voice of the Green Fang Ghost was heard.

"Opportunities often coexist with dangers. If there is something deep in the canyon that can help you advance to the divine realm, then the risk factor should not be underestimated."

"go."

At this moment, Lin Tianhao's firm voice rang out.

"We have no reason to retreat."

A look of gratitude appeared on Heitian Aozhen's face.

He actually knew very well that Lin Tianhao did not go to Jiuyou, Tiangong, or Dark Dragon Lake, but went to Fengzhou.

to be honest.

Just don't want to take risks.

But now.

Lin Tianhao was ready to take a risk for him.

Just as the Green Fang Ghost said.

There might be something at the bottom of this canyon that could allow him to evolve to the divine level, and the danger it contains should not be underestimated.

"I'll let the undead sea beasts explore the way."

Lin Tianhao immediately summoned some undead sea beasts and asked them to swim towards the depths of the canyon.

Now they are already 1,800 meters deep in the ocean, and the canyon is so deep that they can't see the end.

The undead sea beast swam downstream along the canyon. The moment it entered the canyon, its swimming speed dropped significantly.

"It's really weird."

Lin Tianhao was secretly shocked. The reason why he dared to explore this underwater canyon was actually very simple.

The power he gained from Poseidon, the god of the sea, allows him to instantly restore his health in the ocean as long as he is not killed instantly.

Given Lin Tianhao's current state, it would be impossible for even an ordinary god in full power to kill him instantly.

As the undead sea beasts continued to go deeper, their bodies seemed to be under tremendous pressure, and the bodies constructed by their souls began to show signs of disintegration.

"how so!!"

"I checked with my spiritual sense and didn't find any problems." said Burning Heart Nightmare.

Niederv smiled and said:

"No problem, this is the biggest problem. It means that the barrier below is not a restrictive spiritual consciousness barrier, but... a misleading one."

"If Hei Tianao hadn't had a deep bloodline sense of the things below, it would have been almost impossible to find the abnormality here if he had used his spiritual sense to search."

"It seems that using sea beasts to explore the way is not feasible, so let us go down ourselves."

Lin Tianhao, Heitian Aozhen, Fenxin Mengyan and Qingya Guisha flew towards the underwater canyon.

The moment they entered the underwater canyon, the expressions of Lin Tianhao and his companions suddenly changed.

"It's so cold, my soul seems to be frozen." Hei Tianao's expression became extremely ugly.

Lin Tianhao's overall speed dropped significantly.

Because of his title as Son of the Sea, he can actually travel very fast in the ocean.

But this feeling as if his soul had been frozen made him feel a great sense of crisis.

"Do not move!!"

The Burning Nightmare's somewhat anxious voice came.

Lin Tianhao was also horrified.

Because he found that the leg he took out had completely lost consciousness.

Look down.

Lin Tianhao saw a scene that he couldn't believe.

His legs stepped out, and behind his legs there was an illusory leg with a layer of frost frozen on it.

"this--"

Lin Tianhao realized something instantly and his face became extremely ugly.

His soul was frozen, but he had no perception of it. His brain gave the body the command to move forward, so his legs moved forward.

But because his soul was frozen in place, it stayed in place, so his legs moved forward but his soul lagged behind.

however.

What really shocked Lin Tianhao was that his soul had undergone multiple transformations in Wanglai City. He was immune to 95% of soul attacks, and the strength of his soul was unmatched by ordinary people.

But that's it.

His soul was still frozen. This... was really unbelievable.

The Burning Heart Nightmare walked up to Lin Tianhao, put one hand on Lin Tianhao's shoulder, and a warm current flowed into Lin Tianhao's body. Only then did Lin Tianhao's soul close to his legs.

"very scary."

"Why weren't those undead sea beasts frozen just now?"

"It's for humans."

The face of the Poison Emperor of Sand Sea was also very ugly at this time.

"Look at Hei Tian Ao Zhen, and Fen Xin Meng Ye, the impact they suffered was much smaller than ours."

Lin Tianhao took a deep breath, and the Sand Sea Poison Emperor continued:

"I am also at the Divine Level, but I feel like my soul is about to be frozen."

"Ancient Black Tower!"

Hei Tian Ao Zhen summoned the ancient black tower and took Lin Tianhao and Sha Hai Du Di into the ancient black tower.

"It seems that only I and Burning Heart Nightmare are here together." Heitian Aozhen said.

Such a sudden incident happened just after they set foot in the underwater canyon, which made Hei Tianaozhen's face turn very ugly.

Lin Tianhao said nothing, but sat down cross-legged.

Because just now, he suddenly realized something.

New laws are recorded in the Jade Disc of Creation.

Soul Law!!

This is an extremely mysterious law, and Lin Tianhao's mechanical master consumes a lot of soul power. If he can comprehend the soul law, his soul power will inevitably surge.

"Is this...an epiphany?"

The Sand Sea Poison Emperor was a little surprised. "Just by freezing his soul, he actually entered a state of enlightenment."

This is really too much praise from the Poison Emperor of Sand Sea. Lin Tianhao is not in a state of enlightenment, but he has seized an opportunity. In addition, the power of the law was recorded on the Jade Disc of Creation, which allowed him to achieve his current performance.

The extremely mysterious soul laws surrounded Lin Tianhao, making him feel light all over.

Lin Tianhao was sensing these soul laws eagerly, but his progress was extremely slow.

It was so slow that Lin Tianhao began to doubt whether there was something wrong with his talent.

Lin Tianhao's current speed of enlightenment should not be underestimated. According to previous situations, he can quickly pass the stage of true meaning, and then cross the three realms of questioning the heart and directly enter the realm of law.

But now.

Lin Tianhao actually felt that even the first level of the true meaning was a bit difficult.

Hei Tian Ao Zhen and Fen Xin Meng Ye continued to dive, while Lin Tian Hao was concentrating on gaining enlightenment.

at last.

Lin Tianhao seemed to have broken through some kind of shackles, and finally achieved the first level of the Soul's True Meaning! !

"This feeling....."

Lin Tianhao had an indescribable mysterious feeling in his heart. Although his soul's true meaning was only at the first level, Lin Tianhao still felt that his soul's true meaning seemed too strong to be true.

"Sand Sea Poison Emperor, you come and try to defend yourself against my soul attack."

Lin Tianhao activated his only first level of soul essence and attacked the Poison Emperor of Sand Sea.

The Poison Emperor of Sand Sea was a little stunned. His soul power was many times greater than Lin Tianhao's, and his soul strength was also incomparable to Lin Tianhao. Could this soul attack be effective?

Chapter 1505 The hope of Ned Liv's resurrection!

Although he thought so in his heart, the Poison Emperor of Sand Sea still used his soul power to defend against Lin Tianhao's attack.

But next.

A scene happened that made the Poison Emperor of Sand Sea stunned. Lin Tianhao's seemingly not powerful soul attack actually penetrated his soul defense.

"this--"

The Poison Emperor of Sand Sea felt that his three views were about to be overturned.

"How could this be?"

"I can feel that your soul's true meaning is only at the first level. Although I have not deliberately comprehended the soul law, the strength of my soul power is here..."

"It is the true meaning of the original soul!!"

Ned Liv's incredible voice rang out.

"Only the true meaning of the original soul can achieve this. The power that was able to freeze you just now is the power of the original soul law! !"

Lin Tianhao was delighted and said, "Then I am still lucky."

Ned Liv nodded, then shook her head and said:

"That's true, but the soul freezing in this underwater canyon is aimed at you humans, which means that you humans have a grudge against the powerful man who left this treasure land behind."

Lin Tianhao raised his eyebrows and said:

"I don't know how many years this canyon has existed. The other party may no longer be in it."

Ned Liv hesitated and said:

"I really don't know. Those who can comprehend the law of origin are the most ruthless of the ruthless."

"The Lord of Luotian is so powerful. I guess he may have comprehended the law of origin. And there is a high probability that he has comprehended more than one law of origin."

Lin Tianhao had heard from the Green Tooth Ghost Demon before that the reason why the owner of Han Tower was so powerful was because he controlled the original power.

There is also the God of the Undead. His level is not high, but he is so powerful because he controls the original power of the undead.

The power of origin is extremely powerful.

Lin Tianhao never thought that he just wanted to go to Fengzhou, but he would have such a gain halfway through the journey.

"Too perverted."

Just now.

The Burning Heart Nightmare also entered the Ancient Black Tower.

"The further down we go, the stronger the power of soul freezing becomes. My soul power cannot withstand such damage."

Lin Tianhao used his spiritual sense to investigate and found that Hei Tian Aozhen was still diving. He would also be affected by the soul freeze, but for him, the impact of the soul freeze did not seem to be serious.

As he dived deeper, Lin Tianhao felt more and more that something was wrong.

"Ned Liv, do you know the situation here? Or, do you have any guesses?" Lin Tianhao asked.

Ned Liv thought for a moment and said:

"The origin law is not something that ordinary people can touch. Generally speaking, one has to reach the realm of God Emperor before one can begin to explore the origin law."

"There are also a very small number of people who are born with the ability to control a certain source of power. This is generally a blessing from heaven. You know what I mean."

"Those who comprehend the origin law after birth are generally saints or those who are striving to become saints. Only those who can touch it can do so."

Lin Tianhao looked meaningfully into the dark depths of the canyon.

"In other words, there is a God Emperor down here?!"

"No, being able to spy does not mean being able to master. At this level, if we analyze it according to normal circumstances, there must be a saint below."

"Or maybe, this is the place of inheritance left by a saint, a...saint of the dragon clan!!"

Lin Tianhao couldn't help but gasp.

In the myths and legends of the Dragon Kingdom, saints are extremely rare.

In addition to the three thousand gods and demons...

Lin Tianhao couldn't remember who the saint of the dragon clan was.

After the three thousand gods and demons, the saints in the myths and legends of the Dragon Kingdom include the Three Pure Ones, namely Taishang Laojun, Yuanshi Tianzun, Tongtian Jiaozhu, Nuwa, Jieying Taoist, Zhunti Taoist, Houtu Niangniang, and a controversial Taoist Luya.

This is what Lin Tianhao learned, and it does not include the saints of the dragon clan.

Even the Ancestral Dragon is only at the quasi-saint level.

Later, there were rumors that Zulong died and was reincarnated as King Zhou. After King Zhou was conquered, Zulong was reincarnated again as the greatest emperor of all time, Ying Zheng.

However, there are many different opinions and most of them are just speculations.

Could it be that.

Among the myths and legends they are familiar with, there are some that they are unknown.

such as.

Saints have indeed been born.

of course.

Because of the existence of the divine realm, it is possible for saints to exist in every race.

suddenly.

Hei Tian Aozhen paused, his eyes piercing through the darkness and looking towards the direction of the stone wall.

"what is that?"

Lin Tianhao couldn't help but be shocked, "It looks like... scratches!!"

Five huge gullies appeared on the stone wall, each gully was more than ten meters wide! !

If it was really a scratch as Lin Tianhao guessed, then it would take a huge claw to leave such a scratch.

"Ah."

The voice of Burning Heart Nightmare sounded, "There is an extremely strong pressure in these five ravines. At my current level, I still feel like I am being torn apart when I use my spiritual sense to sense these five ravines."

Lin Tianhao staggered back. Just by feeling the aura emanating from the scratches, his mind seemed to be absorbed by it.

"Judging from your reactions, this could really be the remains of a saint."

Ned Levee looked extremely serious.

The relics of the saints were extremely attractive even to a powerful being like her who was at the level of God King.

"Xue Di, help me. This is a saint-level relic, or a saint-level relic of the soul system. There is a high probability that there is a way to reshape my soul!!"

Ned Lev's face showed excitement.

She is just a projection now.

Because her own body has reached the realm of the God King, her body has been preserved intact until now.

If someone could reshape his soul, there would be a high chance that he could revive her.

"Ned Liv."

"If there is a chance to revive you, I will definitely be willing to help you. The key is, I can't get out now."

Hear this.

Ned Lev's excited heart sank again.

She looked outside, still unwilling to give up.

"Heitian Aozhen, the saint-level inheritance here is most likely left behind by a super-powerful person from the ancient black dragon lineage."

"There is a high probability that he will obtain the inheritance here."

Lin Tianhao nodded with a smile and said:

"Okay, calm down first. We are not sure what is down there now."

"It is good."

A glimmer of hope appeared on Ned Lev's face.

The Law of Soul Origin!!

This is the key to rebuilding her soul.

"By the way, if I want to help you reshape your soul, what step do I need to reach?" Lin Tianhao asked.

"Reshaping my soul requires extremely high origin soul laws. With your current realm, you need to at least reach the realm of Dao to have your soul origin laws reshaped."

"Is it just necessary to reach the Dao realm?" Lin Tianhao felt that reaching the Dao realm was difficult, but not impossible.

Chapter 1506: Undersea Dragon Clan VS List of Gods!

"Xue Di, I know you have a lot of things that can help you gain enlightenment, but the origin law is different from other ordinary laws."

"You should have noticed something when you just comprehended the true meaning of the soul. Even the first level of the true meaning of the soul took you a lot of time."

Nidlifu's expression was stern. "This is just the true meaning level. Normally, the difficulty of enlightenment will increase exponentially as you progress further."

Lin Tianhao nodded slightly. This was undeniable.

"I just want to ask. After all, if my relatives and friends are killed one day, I would like to find a way to revive them."

Niederif shook her head and said:

"It's not very useful to you."

"Why do you say that?" Lin Tianhao asked.

"In the galaxy world, if the saints don't come out, there are few who can threaten you. Let's talk about what's happening now."

"That means that in the Galaxy World, the probability of your soul's origin law reaching the Dao realm is very small."

"Can't we go to the divine realm?" Lin Tianhao said.

"No."

Niederif shook her head and said:

"The difficulty of reshaping the soul is related to the world, and the level of the laws is also related to the world."

Lin Tianhao frowned and said:

"Could it be that... the laws of God's Realm are different from the laws here?"

"Same, and different."

Ned Lev gave an inaccurate answer.

"For example, here, you can jump a hundred meters high with one leap, but in the God's Domain, you can only jump ten meters high with one leap."

"This is the difference in gravity. It's the same law of gravity, but the level is different."

"So the rules are basically the same, but the levels are different."

Lin Tianhao understood in his heart that this seemed to be similar to the gravity of their Milky Way galaxy.

On some planets, ordinary people on the blue planet can jump six or seven meters high.

That's the gravitational gap.

"It's the same if you want to reshape your soul. In a low-level world like the Galaxy World, the difficulty of reshaping the soul is completely different from that of reshaping the soul in the Divine Realm."

"The reason why all of you can be resurrected now is not only because you are not fighting with your original bodies, but also because the gap between the level of rules you are exposed to and that of that great being is too huge."

"You are in the Dao Realm of the Galaxy World. After reaching the Divine Realm, you may fall directly to the Law Realm."

Lin Tianhao could understand what Ned Leef meant.

In the mythology of the Dragon Kingdom, a phrase that is often mentioned is: one day in heaven is one year on earth, or one day in heaven is one month on earth.

There are some differences in the statements.

But the meaning is similar.

"I heard that in addition to the inner world and the surface world, there is also a cloud top world." Lin Tianhao asked.

As the King of Gods, Nidlifu should know about this world at the top of the clouds.

"Yes, but it may not be what you think. It is actually the island in the sky."

"To put it bluntly, it is actually the surface world, but in the Age of Gods, the gods used their great power to build islands in the sky as their base camp."

"Combined with some barriers and formations, plus the secret realm, it will be impossible for people to observe it on the surface."

Lin Tianhao understood it in his mind. He probably understood that he only needed to build a small platform of several square meters in the air as a foundation to place an entrance to the secret realm.

Similar to Lin Tianhao's map of mountains and seas.

Hei Tianaozhen did not continue to dive, but walked towards the claw marks step by step.

Before reaching the claw marks, Hei Tian Aozhen bit his finger and a drop of blood flowed out.

The drop of blood flew towards the direction of the claw marks, and the moment it approached the claw marks, the drop of blood instantly dissipated.

A ray of inky black light flew out from the claw marks and in the blink of an eye it had already poured into Hei Tian Ao Zhen's brow.

The next moment.

Hei Tian Ao Zhen's soul actually began to transform. Between heaven and earth, the power that wanted to freeze the soul also began to rush towards Hei Tian Ao Zhen frantically.

Hei Tian Ao Zhen was completely stunned. He was not immersed in the excitement of the surge in soul power. Instead, he felt a little... solemn.

even.....

He also revealed a hint of sadness.

Look.

What Hei Tian Aozhen obtained in that black light was not only a transformation of the soul, but also perhaps some other memories.

Followed by.

Hei Tian Ao Zhen actually revealed his true form.

An ancient black dragon appeared in this underwater canyon, and the dragon's might swept in all directions.

"Om—"

Lin Tianhao's expression suddenly changed, because his List of Gods began to tremble slightly.

This is... Hei Tianao is really fighting against the power of the contract in the List of Gods.

No, it's not Heitian Aozhen!!

"How can the dragon race be slaves?!"

A deep and loud voice suddenly exploded in the canyon, and a drop of ink-black liquid flew at a high speed from the depths of the canyon and instantly hit the center of Hei Tian Aozhen's eyebrows.

"Buzzing—"

The List of Conferred Gods in Lin Tianhao's hand kept humming, and the power of rules instantly manifested and surrounded the List of Conferred Gods.

"Stubborn!!"

There was a hint of anger in that deep and loud voice.

The next moment.

Deep in the canyon, the water formed a huge whirlpool, and a pair of huge scarlet eyes opened from the depths of the sea.

Even in the ancient black tower, Lin Tianhao still felt an extreme pressure falling on him.

"Get out of here!!"

Lin Tianhao's face changed drastically because his soul was about to leave his body uncontrollably.

Upon seeing this, Burning Heart Nightmare instantly mobilized all of his soul power and held down Lin Tianhao's soul.

Although the soul power of the Sand Sea Poison Emperor was not as strong as that of the Burning Heart Nightmare, he also fought with all his strength to fight against this force.

"Bai Xiaofeng!!"

Lin Tianhao's eyes narrowed slightly, and Pluto Bai Xiaofeng instantly appeared behind Lin Tianhao.

As the King of Hell, Bai Xiaofeng's soul power is not inferior to that of the Burning Heart Nightmare.

Soul chains wrapped around Lin Tianhao, preventing his soul from being pulled away.

"Om-"

The Investiture of the Gods buzzed again.

This List of Gods actually opened on its own.

The mysterious power of rules rushed out in an instant.

"Boom boom boom——"

The sea water in the entire canyon began to tremble slightly.

Everything around seemed to be still, only the sea water was still shaking slightly.

"How can it be?!"

An unbelievable voice came from the depths of the canyon.

"The Dragon Clan, is there really no way out?"

The sound from deep in the canyon became low, and there was a sense of desolation in the sound.

"Don't worry, senior. Hei Tianao and I are real partners. We will advance and retreat together in the future!!"

"Hahaha!!"

"partner?"

"With a slave contract, we can never be partners!!"

The trembling sea water gradually returned to silence. "After waiting for thousands of years, I finally waited for someone with some talent... Sigh..."

Chapter 1507 Fengzhou, the remains of the technological god!

Another heavy sigh.

"When will the Dragon Clan be able to return to its peak..."

Lin Tianhao hesitated to speak.

A vast force surged out from the depths of the canyon, and the powerful force knocked Heitian Aozhen away.

Back to the top of the canyon, Hei Tian Aozhen had a complicated expression.

Lin Tianhao stepped out of the ancient black tower and looked meaningfully in the direction of the canyon.

Hei Tian Ao Zhen bowed towards the canyon and said, "Old Ancestor, although I cannot inherit your complete legacy, I am still half of your disciple. If there is a day, I will definitely help you escape from trouble."

"My lord and I have a very good relationship. I had no choice but to publish the List of the Gods. I hope you will understand."

Lin Tianhao patted Hei Tianaozhen on the shoulder and said:

"Let's go."

He knew very well that no matter how much he explained now, it would be meaningless.

"Ah."

Hei Tian Aozhen nodded, bowed to the canyon again, and then left.

"What did you get in the canyon?" Lin Tianhao asked.

Hei Tian Ao Zhen said bluntly:

"My soul power is now twice as strong as before, and my soul has also undergone a great transformation."

"In addition to this, I also obtained some inheritance from the ancient black dragon lineage, as well as a secret technique of soul attack."

Lin Tianhao nodded. Hei Tianaozhen's harvest this time was still very good.

"Did you see anything else? Your previous emotions seemed a little sad." Lin Tianhao said.

Hei Tianao nodded and said:

"I got the inherited memory and saw some things that happened in the past."

"I saw some gods slaughtering our dragon clan, using dragon blood to refine their bodies, eating our dragon flesh, and using dragon balls to gain enlightenment..."

When Hei Tian Aozhen said this, the murderous intent in him became stronger.

"The ancestor in the depths of the canyon was also hit by a sky-piercing spike during a confrontation with a powerful god, and was nailed to death in this underwater canyon."

Lin Tianhao couldn't help but gasp.

"That person should be at the level of a saint, or even higher, but he actually..."

From Lin Tianhao's current perspective, saints are already unattainable.

But a saint would actually be nailed to the bottom of the sea.

"Ah."

"The old ancestor's body is no longer alive, but because his soul is special, part of it still remains in his body."

Hei Tian Ao Zhen said with a serious expression:

"Sir, if there is a chance, can you help me get this old ancestor out of trouble?"

"No problem." Lin Tianhao answered directly.

The human race is also a vulnerable group. If he can win over the dragon race, it will be a hundred benefits to him and no harm.

"Thank you, sir."

Lin Tianhao glanced at Ned Liv and said:

"Ned Lifu also wants to reshape his soul, which I think only your ancestors can do."

That's it.

Lin Tianhao seemed to have thought of something.

If he could obtain the Sky-piercing Cone that could severely injure a saint, it would definitely greatly enhance his strength.

"Let's go and continue to Fengzhou."

Lin Tianhao entered the ancient black tower and continued to gain enlightenment.

The real thing is to improve your realm as quickly as possible.

Two days later.

The outline of Fengzhou Continent finally appeared.

Lin Tianhao's eyes of insight are already able to spy on Fengzhou Continent from a long distance.

Lin Tianhao didn't know much about Fengzhou Continent. He had looked up some records about the five continents of Shenzhou when he was in Zhongzhou Continent.

The records about Fengzhou Continent are that it is vast and rich in resources, with mountains dominating.

There is a very important reason why Lin Tianhao came to Fengzhou Continent first.

That is, there are relatively few high-ranking officials in Fengzhou Continent, and there are only two dynasties ruling here.

And here, it is also relatively rare that a dynasty is superior to a holy land.

Both dynasties have several holy places, but these holy places are ostensibly affiliated forces of these two dynasties.

Another hour later, Hei Tian Ao Zhen finally arrived at Fengzhou Continent.

Lin Tianhao had just arrived, so the easiest thing to do was to go directly into the dynasty.

However, according to Lin Tianhao's estimation, it is still very difficult.

As soon as he came, he ran into other people's dynasties and said, "Submit to me, otherwise I will destroy you."

It seems that the probability of conquering them is almost zero.

and.

That would alert the enemy.

but.....

If he fought his way up step by step, it would be too slow for Lin Tianhao.

Because if possible, Lin Tianhao plans to take over all of China.

However, since he had just arrived, Lin Tianhao still planned to get to know the situation here first.

According to the Eye of Insight, Lin Tianhao has already locked onto the nearest town.

This town is only three or four kilometers away from the coastline. Its population is much larger than that of the towns in the Shanhai Empire and it is very lively.

and.

What surprised Lin Tianhao was that in such a small town, there were actually several seventh-level masters.

Lin Tianhao quickened his pace and walked towards the town.

In order not to attract attention, he went there alone.

"These sea beasts have become more and more rampant recently. I heard that a king-level sea beast appeared some time ago. Fortunately, Lord Mead rushed there in time, otherwise the consequences would be disastrous."

"What can we do about this? I heard that the sea monsters seem to want to change the current situation, but I don't know if it's true or not."

"No way. If the sea monsters really want to attack us, the chances of us being able to hold out are very low."

"Who knows? Anyway, things have been a bit turbulent for the past half month, so it's best not to go out to sea."

.....

Lin Tianhao was on his way, but he was also listening carefully and keeping an eye on all directions.

From the conversations of these people, Lin Tianhao was still able to get some useful information for himself.

"I heard that treasures brought back from the underwater ruins will appear at the auction in Helun Town this time. Don't you want to go and take a look?"

"Which technological relic are you talking about? I've heard that too. Some say that it's a warship of a god that sank deep in the ocean. Does anyone really dare to explore it?"

"You'll know if you really go and see it."

.....

Amidst these conversations, Lin Tianhao arrived at the town of Helun.

What surprised Lin Tianhao was that there would be an auction of things belonging to the god of technology in the small town of Helun.

Lin Tianhao grabbed one of the people he had just talked to.

"Hello, brother. Things belonging to the gods of technology should be very valuable. Why are they being auctioned in this small town of Helun?"

This guy took a look at Lin Tianhao and immediately bowed, "So you are a senior of the seventh rank. I am so sorry for your disrespect."

"Senior, you may not know that only some scraps of the relics of the technological gods are auctioned here. The real good things have all been sent to Manlodo City."

Lin Tianhao raised his eyebrows. It seemed that he needed to get a map of this place first.

Think about this.

Lin Tianhao found a grocery store, bought several maps, and quickly confirmed the location of Manlodo City.

The city of Manlodo is not too far from the town of Helun, only about 500 kilometers away.

It wouldn't take Lin Tianhao much time to get there.

Chapter 1508 I understand you very well, Miss Yanxia!

It's not dark yet.

Lin Tianhao arrived at Manlodo City.

This should be a main city, but Lin Tianhao did not use the Eye of Insight to spy on it.

Because if his eyes of insight were to sweep over real masters, these masters would still be able to notice something to some extent.

After arriving in Manlodo City, Lin Tianhao found a larger restaurant.

"Please come in, waiter." Immediately a waiter came to take care of Lin Tianhao.

Lin Tianhao nodded slightly and threw out a bag of gold coins. "Find a quieter place."

When the waiter saw the bag of gold coins thrown out by Lin Tianhao, a look of excitement appeared on his face.

He only weighed it briefly and knew that there were at least three hundred gold coins in the bag.

"Hello, sir. I am the one in charge here. I will take you upstairs."

A middle-aged man walked over quickly, took the gold coins from the shop assistant, and greeted Lin Tianhao warmly.

"The private room on the top floor is still in the air. It's quiet there, and you can see the scenery outside, which is very nice."

Lin Tianhao nodded slightly, thinking that this shopkeeper was quite tactful.

"Sir, what would you like to eat? Is there anything you cannot eat?"

"We are close to the sea, so our sea beast banquet is a must-try. Of course, in addition to the sea beast banquet, many of our other dishes are also very good."

"Then let's serve a sea beast feast." Lin Tianhao said.

"By the way, prepare some good wine."

"Understood." The shopkeeper was very respectful.

Entering the private room on the top floor, there are floor-to-ceiling windows on six sides, through which you can see what is happening outside.

There is a relatively large lake in the city of Manlodo, which can be seen here.

Lin Tianhao threw out another bag of gold coins and said:

"I heard that not long ago someone got the remains of a technological god and sent it to this city of Manlodo."

The shopkeeper took the gold coin and said with a smile:

"Yes, it has been sent to the Sale Auction House and will be auctioned tomorrow night."

Lin Tianhao nodded slightly and said:

"Go down."

"Yes."

The shopkeeper went down respectfully.

Not long after.

The sea beast banquet was served one after another.

Lin Tianhao was drinking and eating a sea beast feast at the same time, which felt pretty good.

If only there weren't so many crises, he wouldn't have to put so much pressure on himself. He could just upgrade and enjoy himself.

Over the past two years.

He grew very fast, but he gave himself almost no time to rest.

Every time he sat down like this, Lin Tianhao felt very tired.

But Lin Tianhao knew that he couldn't stop.

unless.....

He was ready to give up the galactic world, and after Ragnarok merged with the real world, he would go directly to the divine realm.

Relying on his own strength and the List of Gods, he can live a free and easy life after reaching the realm of gods.

Just now.

Lin Tianhao received the message from Berserker Blade.

"Boss Xuedi, your deputy hall master Shangguan Hongxun asked me to tell you that sea beasts have been attacking coastal cities frequently in the waters of the Shanhai Empire recently."

"Several small towns suffered heavy casualties as a result."

Lin Tianhao narrowed his eyes slightly, and instantly felt that a storm was about to come.

Sea monster!!

They were living well in the ocean, so why would they suddenly attack towns on land?

If we talk about the entire Ragnarok, which force is the most powerful?

There is no doubt about that.

It's a sea monster!!

The land of Shenzhou is somewhat similar to Blue Planet. During the entire Ragnarok, the land area of Shenzhou is less than one-tenth of the ocean area.

In fact, there are not many people who are capable of hunting sea beasts.

After all, the combat effectiveness of most professionals in the ocean will be greatly weakened.

The combat effectiveness of sea beasts is enhanced in the ocean.

but.

Sea beasts are accustomed to living in the ocean. Even those that can transform will not easily set foot on land.

"Do you know what the reason is?" Lin Tianhao asked.

What can he do if he knows that sea beasts are attacking coastal cities? No matter how powerful he is, it is impossible for him to kill all the sea beasts.

and many more! !

He seemed to have heard someone say before that a king-level sea beast appeared here and attacked the town.

Could it be that the sea beasts are going to attack indiscriminately?

but.....

At this point in time in the previous life, there seemed to be no sea beast disasters.

Or rather.

This matter was very small. After all, if only a few small towns were destroyed, it would be normal that he didn't know about it in his previous life.

Think about this.

Lin Tianhao continued to eat.

After having enough wine and food.

Lin Tianhao is going to rescue the fallen girl.

As a young man full of vigor and vitality, sometimes you still need to release yourself appropriately.

Lin Tianhao doesn't like Miss Zuo very much, so saving the fallen girl is the best choice.

"Is there any place for entertainment nearby?" Lin Tianhao asked the shopkeeper.

The shopkeeper smiled mysteriously at Lin Tianhao and said, "Of course there is. There is a Zuidunni Flower House behind this street. It has the same owner as our restaurant. I can introduce you there. It has an internal price and there is a discount."

"it is good."

Lin Tianhao didn't care. As for discounts, there were most likely none. After all, the shopkeeper must have received a kickback for introducing him.

I understand you very much!

This name is very strange.

It doesn't look like a brothel at all.

"Are there any clean girls here?" Lin Tianhao asked.

The shopkeeper nodded, "Of course we have it. Sir, you want a virgin girl. The price is..."

"Easy to say."

The shopkeeper's eyes lit up and he said in surprise:

"That's no problem."

Entering Zuidonni, although the name of this brothel is not very impressive, the decoration and the girls inside still make Lin Tianhao's eyes light up.

"Girls who have grown up have great looks. I heard that a new girl has come recently. She looks so stunning that she can charm everyone. This is her number one pick. It's too expensive."

"One million gold coins!!"

"You can buy a lot of young girls at the slave market with this much money."

Lin Tianhao raised his eyebrows. "Whether the price is expensive or not depends on the person. If the person is right, it is worth it no matter how expensive it is."

"Sir, that's right, then who is this?"

"Let's meet first." Lin Tianhao said.

"it is good."

"Generally speaking, Miss Yanxia will come out to play a song in a while, and she will take off her veil at that time. However, I am an insider, so I can take you to meet her first."

"That's all thanks to you." Lin Tianhao said.

The shopkeeper was flattered, "Excuse me, sir. Please come this way."

The shopkeeper took Lin Tianhao to find a brothel owner. He whispered a few words to the brothel owner, and then the brothel owner looked Lin Tianhao up and down and said with a smile:

"Master, come this way."

Lin Tianhao nodded slightly and followed the madam to meet the Miss Yanxia smoothly.

A pair of turquoise eyes and long wavy golden hair instantly caught Lin Tianhao's attention.

Her skin is as white as jade, and there is a hint of pity in her eyes, which can touch people's hearts.

Chapter 1509 Midvers!

Her figure is even more amazing, as if it was... molded according to certain proportions, and it is impossible to find the slightest flaw.

She was wearing a veil, so her full appearance could not be seen, but that was enough.

"Yanxia, take off your veil and show it to this gentleman."

When Miss Yanxia takes off her veil, her slender, white fingers are also so attractive.

"No wonder so many men become bad when they have money. How many men can resist a woman like this?"

"Sure enough, that sentence is right. It's not that I'm not lustful, but poverty is like a powerful Buddha that suppresses my lustful heart."

Miss Yanxia opened her red lips and said, "Sir."

Lin Tianhao raised his eyebrows slightly, "It's her."

The madam's eyes lit up. Although Miss Yanxia was very beautiful, the first prize was too expensive.

One million, to buy a few more beautiful slave maids, all of them permanent.

Lin Tianhao waved his hand, and the gold coins piled up like a small mountain.

The madam waved her hand, collected the gold coins, and said with a smile:

"Young Master, please chat with Miss Yanxia first. I will go and prepare the wine and food."

Miss Yanxia glanced at Lin Tianhao and a blush appeared on her face.

She knew this day would come ever since she came to this brothel.

At the beginning.

She was nervous, uneasy, and a little afraid.

Because the people who would spend one million gold coins are most likely adults with high quality and high turnover.

And among those adults, there are few young ones.

Now seeing Lin Tianhao, Yanxia felt a little secretly happy.

After all, compared to others, Lin Tianhao is much better.

"Sir, please take a seat." Miss Yanxia said respectfully.

Lin Tianhao smiled slightly and sat next to Yanxia.

Yanxia's pretty face turned even redder.

"Sir, if you have any ideas, you can tell Yanxia. The madam has taught Yanxia some experience. Yanxia... Yanxia can serve you well."

Seeing Yanxia's pitiful look, Lin Tianhao picked her up directly.

He didn't come here to talk about love.

however.

Lin Tianhao had just picked up Yanxia when the anxious voice of the madam was heard outside.

"Lord Fusi, Yanxia is really already receiving guests, so please don't embarrass me."

"He is a rank seven young master, generous and must be from a prominent family. There are many beautiful girls in my building..."

"Hmph, you have a powerful background? No matter how powerful your background is, can it be as powerful as mine? I, Midfors, have set my eyes on your woman, and there is no way I can't get her."

When Lin Tianhao heard these voices, he couldn't help but frowned slightly and said:

"Heitian Aozhen."

"Sir." Hei Tian Ao Zhen immediately appeared beside Lin Tianhao.

"Go guard the door. No one is allowed to enter, no matter who it is. Anyone who dares to attack will be killed!"

"Yes, my lord."

Hei Tianao really went out.

Lin Tianhao smiled at Miss Yanxia and walked towards the bed with her in his arms.

Doorway.

After Heitian Aozhen came out, he closed the door.

Midvers came rushing over, and the madam tried to stop him, but to no avail.

It was not until he arrived at Miss Yanxia's door that Midfors noticed Heitian Aozhen who was blocking the door.

Midfors glanced at Heitian Aozhen and scolded:

"Who are you? Get out of here!!"

Hei Tianao said indifferently:

"My Lord is doing something serious. No one is allowed to disturb him."

Hear this.

Midfors looked at Heitian Aozhen with great disdain.

"You're just a rubbish guard. Do you know who I am? How dare you block my way!!"

"Bam—"

Hei Tianao really didn't waste any time, he just raised his leg and kicked out.

Midfors' body flew backwards.

Hei Tianao didn't use much strength in this kick, but Midfors was still seriously injured.

As a ninth-level platinum-level expert, he had not expected that he would be seriously injured by this kick.

"You are looking for death!!"

Midvers glared at Heitian Aozhen, "The Mide family will not let you go."

Just as Midversus finished his words, a beautiful woman's voice came from the room behind Heitian Aozhen.

Hear this sound.

Midfors's face looked extremely ugly.

"I'm so angry!!"

"I am so angry. No matter who your son is, he must die!!"

Hear this.

A cold light flashed in Hei Tian Ao Zhen's eyes, "Young Master will not die, but... you will definitely die!!"

As soon as Hei Tian Aozhen finished speaking, an invisible force was released.

Midfors' body instantly floated in the air.

"You...you actually want to kill me!!"

Feeling the murderous intent emanating from Hei Tian Ao Zhen, Midfors's face showed horror.

"My grandfather is a king-level warrior, my father is a half-step king-level warrior, and my Meade family..."

Before Midfors could finish his words, his aura began to dissipate and he died here completely.

"You...you killed Midfors!!"

The madam's eyes widened, a look of disbelief on her face.

"The Meade family is so powerful that even the boss behind me has to give them some respect."

Heitian Aozhen smiled slightly and made a gesture to the madam to keep quiet.

"My master is doing something, please be quiet."

When the madam saw the smile on Heitian Aozhen's face, she felt that it was the smile of a devil.

Although Midfors, who is at the ninth level of platinum, is not particularly powerful.

But it was just brushed off so casually.

The guard in front of her whom she couldn't see through was probably at least at the ninth-level diamond level, or a top-notch one among the ninth-level diamond level.

The madam nodded, dared not say anything, and ran out in a hurry.

Midfors died among them, and that was a great event.

If she didn't handle the situation properly, she would not be able to bear the wrath of a powerful king.

Even if her boss has some background, there is a possibility that he will push her out to take the blame.

after all.

No one would be willing to go against a king-level powerful being.

not to mention.

The Meade family has more than just one king-level master.

As a family with a history of thousands of years, the Mead family's heritage cannot be underestimated.

And at this time.

Lin Tianhao, who was doing his work, also received the system prompt.

"Ding, congratulations, you have successfully killed Midversus. An announcement will be made to all servers soon. Do you want to hide your name?"

"no."

Lin Tianhao smiled slightly and kept moving.

He also wanted to see what the reaction would be when the people of Fengzhou Continent knew he was coming.

What would be the reaction of the Mead family if they knew he was coming?

"Announcement to all servers, congratulations to the player Xue Di for successfully killing Midfors. We hereby announce this and hope all adventurers will keep up the good work!!"

.....

As the server-wide announcement sounded over Fengzhou Continent, many people's faces changed drastically.

"Xuedi...he's coming to Fengzhou!!"

Lin Tianhao's reputation is really too great, especially what Lin Tianhao did in Zhongzhou Continent before, which has spread to Fengzhou Continent.

This server-wide announcement made them all alert.

Chapter 1510 The attitude of the Mead family!

Holy Moon Demon Cult!

In the forbidden area of the back mountain.

A young man in a robe with moon pattern and gold edges suddenly opened his eyes.

The mysterious laws that circulated around him instantly returned to calm.

A cold light flashed in his eyes, "Send the order, let the three great elders hold a meeting in the main hall!!"

Holy Moon Demon Cult, main hall.

Three people stood at the bottom of the main hall, one wore a ghost mask, one was as short as a child, and the other was a charming woman with a curvy figure.

Above the main seat, demonic flames rose, and the Holy Moon Demon Cult leader Yuelun Longyan glanced at the three people below.

"You should have heard that Xue Di has come to Fengzhou."

The charming woman smiled charmingly and said:

"The spies reported back to the Central Continent that nothing happened at Wuji Dengtian Palace, and the Snow Queen chose to reconcile with them."

The short boy shook his head. "Xuedi is a man with unpredictable moods. Negotiating peace with him is like seeking the skin of a tiger."

"No peace talks? Are we going to fight? Don't you know the strength of the Snow Emperor now? Those guys in the Alate Galaxy are hiding. How can we compete with the Snow Emperor?"

The hoarse voice of the man with the ghost face sounded.

Yuelun Longyan glanced at them and said:

"The Snow Emperor is moody and difficult to deal with. Those guys in the Alete Galaxy also have no sense of contract."

"But we attacked the Shanhai Empire before. No matter what, we can't let this go."

"Whether it's peace talks or a fight, we have to make plans early."

.....

Meade family.

When Midvers was killed, the first people to pay attention were naturally the Mid family.

"Snow Emperor!!"

Midfeiyan's pupils suddenly shrank, "Is Midfus crazy? Why would he provoke Xuedi!!"

"He probably doesn't know the identity of Xue Di, otherwise he wouldn't dare to confront Xue Di head-on."

A dark and sturdy man strode over.

"Now it's not about Midvers being killed, but we still don't know how this guy Midvers provoked Xuedi."

"As for the news about the Snow Emperor transmitted from the Vast Continent, you should all be very clear. If the Snow Emperor wants to retaliate against us, we will definitely not be able to withstand it."

Hear this.

The dark-skinned middle-aged man's eyes condensed, and he said in a deep voice:

"I think the rumors exaggerate Xuedi too much."

"Xue Di is powerful, but he is just an adventurer."

"We have put so much effort into getting to where we are today. How did Xue Di become so powerful in such a short time?"

That's it.

The dark middle-aged man said with a cold face:

"not to mention."

"The Haomiao Continent is so far away from our Fengzhou Continent, it is impossible for him, the Snow Emperor, to lead so many strong men from the Fan Palace here."

"Based on this point alone, I have reason to believe that the current Snow Emperor is no match for us."

When Midfeiyang heard this, she said with some concern:

"Second brother, although the rumors may be exaggerated, it is a fact that the Snow Emperor unified the Mountain and Sea Empire."

"We shouldn't easily provoke such a strong man."

The dark middle-aged man was slightly displeased.

"We in the Meade family have a king-level expert in charge, and my eldest brother has even reached the half-step king level."

"We can choose not to provoke the Snow Emperor, but that doesn't mean we are afraid of him."

As soon as the dark-skinned middle-aged man finished speaking, a sturdy middle-aged man with a dignified face strode over.

"Big brother."

"Big brother."

The dark-skinned middle-aged man and Midfeiyan bowed to the visitor.

The person who came was none other than the current head of the Mid family, Mid Feilong, Midvers's father.

"I already know the truth. Midfors was drunk when you were killed."

"I asked your boss Zuidong, and he said that Xue Di did not make any move. Midfors was killed by Xue Di's guards with a casual blow."

"According to your assessment, the guard is at least at the ninth level of Grandmaster."

The dark-skinned middle-aged man's face changed, but he still gritted his teeth and said:

"Even if he is at the ninth level of Grandmaster, he did kill my eldest brother's son after all..."

When Midfeiyang heard that it was a guard who made the move, her eyes lit up.

"If it wasn't Xue Di who did it, then there would be something to talk about."

"We can ask Xue Di to hand over the guard and let us deal with him as we please."

"We can also give Xue Di a way out. If Midfong has offended Xue Di in any way, we can compensate him. Isn't this the best of both worlds?"

Hearing what Mid Feiyang said, Mid Feilong looked at Mid Feiyang as if he was an idiot.

"What do you think could make the Snow Queen give up a ninth-level Grandmaster-level guard?"

The dark-skinned middle-aged man snorted coldly, "The step was given to Xue Di. As for whether he gets down or not, that's his business."

"This is Fengzhou Continent, not Haomiao Continent. If you want to bully others here, you will have to pay a price."

That's it.

The dark-skinned middle-aged man looked at Midflying Dragon.

"Brother, you make the decision on this matter."

Midfeilong hesitated for a moment and said:

"I have already sent a message to my father. Feiyang, go to Zuidun and talk to Xuedi."

"Am I alone?" Midfeiyang pointed at herself in disbelief.

Midfeilong nodded and said:

"Well, my second brother is a bit reckless in doing things, so you should be more cautious."

"Brother, aren't you going?" Midfeiyang asked.

Midfeilong shook his head. "I definitely can't go. I'm at the half-step king level. If I go, I'll be suspected of using my power to bully others."

"and."

"I am Midfeng's father. If I go to handle this matter, it will easily make Xue Di think too much."

Midfeilong's lame excuse was probably only believed by Midfeiyang.

"Okay, brother, I'll go." Midfeiyang agreed.

After Midfeiyang left, the dark-skinned middle-aged man frowned and spoke.

"Brother, isn't it inappropriate to let Mideya Feiyang go alone? If Xuedi sees Feiyang alone, she might think we are easy to bully."

Midfeilong glanced at the dark-skinned middle-aged man and said, "Wait for news. Also, don't run around."

The dark-skinned middle-aged man still felt something was strange, but he didn't say anything more and turned away.

After the dark-skinned middle-aged man left, Midfeilong took out a sound transmission talisman and said:

"Father, everything has been arranged."

A deep voice came from the other end of the sound transmission note, "I've asked someone to keep an eye on them. If that guard can easily kill Feiyan, we will evacuate immediately."

"Understood, father." Midfeilong said.

This time he let Midfeiyang go alone. The most crucial reason was to let Midfeiyang test Lin Tianhao's attitude.

If Lin Tianhao takes a tough stance, they can split up and hide.

As for Midas, in this matter, someone must sacrifice, a woman will always become someone else's woman! !
