

O games 1531

Chapter 1531 Ancient Duel Arena: Duel with Long Hong!

Long Hong narrowed his eyes slightly, and a hint of coldness emanated from his body.

"Xuedi, you have resolved the crisis in Zhongzhou Continent. I am grateful to you, but the emperor will not be a slave. You should understand that."

Lin Tianhao took a deep breath and said:

"The people from the Alete Galaxy are pressing on me step by step. I have no choice but to offend them."

Lin Tianhao directly asked Lie Hongyu, Bai Xiaofeng, Qingya Guisha and others to come out together.

Even though Emperor Long Hong is very powerful, he still wants to give it a try.

"It's cruel and decisive enough."

Long Hong said calmly, "With several powerful masters at the God-level joining forces, it seems that I am doomed to die."

Lin Tianhao shook his head and said:

"Lie Hongyu told me that you once fought seven sea beasts at the level of the Great Emperor by yourself and did not lose. In the end, you drove them all back. You should be even more powerful now than before."

"It's all rumors."

Long Hong spoke lightly, and as his voice fell, a mysterious force swept towards Lin Tianhao.

Lin Tianhao narrowed his eyes slightly, and wanted to stop him, but Long Hong's speed was faster than that of Burning Heart Nightmare. He exchanged a palm strike with Burning Heart Nightmare, but his sudden attack still landed on Lin Tianhao.

The next moment.

Lin Tianhao felt the space around him rippling, and he appeared on a huge stage.

"This is the Ancient Duel Arena, which I got by accident. With this Ancient Duel Arena, I can pull my opponent into it."

"In this ancient duel arena, my overall attributes will increase by 20%, while your overall attributes will decrease by 20%."

Lin Tianhao narrowed his eyes slightly. This was somewhat similar to his absolute stance.

"I can be resurrected now. It seems meaningless for you to drag me into this duel."

Long Hong looked at Lin Tianhao seriously and said:

"No, I'm going to give you a chance to fight me. You don't have to beat me. As long as you can satisfy me, I will take the initiative to be on the Conferred God List."

Lin Tianhao frowned and said, "If we don't fight, it will be hard for you to escape."

"Besides, your people are still here. Can you escape?"

Long Hong smiled and said:

"The core members of my tribe left a long time ago. When they knew that you were going to integrate the land of China, those who wanted to leave basically all left."

"Then why did you stay?" Lin Tianhao asked curiously.

"Because I feel that if everyone leaves, then the world will really be over. Although the chances of winning are slim, I still want to give it a try."

"The premise is that you can give me some hope."

Lin Tianhao bowed to Long Hong and said, "Come on."

As soon as he finished speaking, Lin Tianhao's arrow was shot from his heart.

at the same time.

A large number of undead appeared and flew towards Long Hong.

Long Hong chuckled, and with a move of his body, he was close to Lin Tianhao in an instant.

But just as he approached Lin Tianhao, Lin Tianhao's body flashed away through space.

"interesting....."

Obviously.

The attack that Long Hong just made imprisoned Lin Tianhao.

But Lin Tianhao still used space flash to break free from his confinement.

This means that the level of Lin Tianhao's space flashing is higher than the level of his confinement power.

The next moment.

Two Lin Tianhao appeared and attacked Long Hong separately.

This is not Lin Tianhao's second true body, but the condensed water incarnation given to Lin Tianhao by the Yuanshui Spirit.

This water-condensed clone is an clone condensed using the water element. It has 50% of Lin Tianhao's attributes and can exist for a long time.

Lin Tianhao hasn't had a high-intensity battle for a long time. When facing the enemy before, he mostly just stood there and dealt damage.

"Om-"

At this moment, the space around Lin Tianhao ripples, and Long Hong was about to imprison him.

Before, when facing such a restraining force, Lin Tianhao didn't even notice it.

But now that his way of space has reached the eighteenth level of the realm of asking for the way, Lin Tianhao has a stronger ability to perceive this kind of restraining force that is not easy to capture.

Lin Tianhao shot out more and more arrows.

Long Hong always had a smile on his face. He flashed and came to the side of the Ningshui clone.

Lin Tianhao's eyes narrowed slightly, and he released the skill Absolute Weakness without hesitation.

"Boom——"

The head-locking skill of Absolute Weakness was shattered by the long sword that Long Hong sacrificed before it even touched him.

"It can even block absolute weakness."

Lin Tianhao had a look of astonishment on his face.

But he had no time to think about it. Long Hong opened his domain, and blood-red sea water rushed out from the domain, instantly submerging his water condensed clone.

The water condensation clone only possesses 50% of Lin Tianhao's attributes and a part of his skills.

He did not possess all of Lin Tianhao's strength, which meant that in this situation, it would be difficult for him to use some of Lin Tianhao's relatively powerful skills to escape.

"-5982 billion!!"

A huge damage number emerged from Condensate.

This damage value is really terrifying.

The water condensation clone is a clone, and without the bonus of physical transformation, the proportion of damage it endures is naturally not to be underestimated.

"burst!"

Long Hong snapped his fingers, and then...

"-100213 billion!!"

Lin Tianhao couldn't help but gasp. The attack just now was just a preliminary attack. The truly powerful attack was this one.

Lin Tianhao did not dare to delay and continued to use the technique of shooting arrows from his heart while releasing feather arrows from his hands.

But Lin Tianhao did not activate his three heads and six arms.

Because the Three Heads and Six Arms has a cooling time, with Long Hong's strength, there is a high probability that he can interrupt Lin Tianhao's Three Heads and Six Arms.

Even if Lin Tianhao wants to use it, he will use it in conjunction with the invincible field.

The duration of the invincible field is one hour. If used well, it is possible to defeat Long Hong.

but.

Now is not the time to use the invincible field. He wants to see what strengths the Dragon Palace had when it fought against the seven great emperors of the sea beast realm.

Just because of this duel?

Lin Tianhao felt that it shouldn't be that simple.

Also.

Lin Tianhao's physical transformation has now exceeded three hundred.

Coupled with the damage reduction of the Heavenly Punishment equipment, he is not really afraid of Long Hong.

After dealing with Lin Tianhao's water condensed body, Long Hong quickly rushed towards Lin Tianhao.

His speed was extremely fast, and Lin Tianhao immediately used a space barrier to block him.

However, several space barriers were shattered by Long Hong's bloody handprint before they could touch Long Hong.

"not good!!"

Lin Tianhao's face changed drastically and he immediately used the Crazy Sand Substitute.

An avatar that looked exactly like Lin Tianhao appeared, and Lin Tianhao retreated to keep some distance.

The Crazy Sand Substitute could only move out fifty meters. At the moment of moving out, Lin Tianhao used space teleportation to continue to increase the distance.

During this process, Lin Tianhao's feather arrows never stopped, and a large number of feather arrows flew towards Long Hong.

Chapter 1532 The damage increases exponentially!

however.

The blood around Long Hong actually crushed all of Lin Tianhao's feather arrows.

It is not surprising that a strong man who has reached the realm of the Great Emperor can shatter his feather arrows.

Something really surprised Lin Tianhao.

After the blood crushed Lin Tianhao's feather arrows, a large number of feather arrows actually appeared in the blood and flew towards Lin Tianhao.

and.

These feather arrows, like the feather arrows Lin Tianhao just used, have the ability to lock onto Lin Tianhao from a long distance.

"Come and give it a try. I'll give you a taste of your own medicine."

Lin Tianhao's expression changed slightly, and at the moment when the feather arrow was about to approach him, Lin Tianhao directly used the skill Wind Barrier.

This is a skill obtained from the Yuanfeng spirit. It can block all attacks from the front within two seconds.

These blood arrows seemed to be tracking him, but Lin Tianhao could feel that the level of these blood arrows was not as high as that of his Heavenly Punishment Lock.

as predicted.

Under the obstruction of the wind barrier, most of the blood arrow was blocked.

The reason why it is only more than half is because the wind barrier only exists for two seconds.

This skill is used to block skills with high single-target burst, and is not very effective against continuous feather arrows.

"You just run?"

Long Hong frowned slightly. He tried to track down Lin Tianhao many times.

But Lin Tianhao used space travel to avoid his pursuit.

"At your stage, it's not bad to be able to comprehend the Way of Space to this extent."

"but....."

"If this is all you are capable of, then the battle should be over."

The moment Long Hong finished speaking, Lin Tianhao instantly performed space teleportation.

After Lin Tianhao used the space legend, just after he landed, a cold palm fell on Lin Tianhao.

"Ding, you are cursed by the bloody handprint. All your attributes are reduced by 50% and the duration is one month."

Lin Tianhao's pupils suddenly shrank. What the hell?

but.

This blood handprint is indeed powerful, but Lin Tianhao's Heavenly Punishment attack speed is not affected at all.

"Caught!"

A playful smile appeared on Long Hong's face.

Lin Tianhao's face changed drastically because he actually felt his heart being grabbed by an invisible big hand.

"-159 billion!!"

"-318 billion!!"

"-626 billion!!"

"-1252 billion!!"

.....

One after another, damage numbers popped up above Lin Tianhao's head.

The key is.

These damage numbers don't appear in one second, but several in one second!!

Lin Tianhao's physical transformation was at a very high level, but at this time his health was actually decreasing at an alarming rate.

"No matter how high your health is, you can't withstand this kind of multiplied damage."

Lin Tianhao couldn't help but gasp.

This level of injury is truly horrific.

Is this the leader in the realm of the Great Emperor?

No wonder he was able to fight against seven powerful sea clan emperors on his own.

"how come?!!"

At this moment.

A look of horror appeared on Long Hong's face, and he retreated instantly.

The moment Long Hong retreated, Lin Tianhao finally breathed a sigh of relief, because the hand holding his heart was gone.

Followed by.

Lin Tianhao saw that Long Hong's right palm had been frozen into an ice sculpture.

Frozen...

Lin Tianhao himself doesn't have many ice and snow skills, this is...

Lin Tianhao instantly thought of the chill in his body.

There was a chill that he couldn't even detect.

"What's inside you?"

Long Hong stared at Lin Tianhao in horror. A large amount of blood in his domain poured into his palm which was frozen into an ice sculpture.

"how come?"

The frozen palm did not melt due to the influx of blood and remained frozen tightly.

Although Lin Tianhao was a little surprised, he did not slow down his movements at all.

The feather arrows broke through the air and continued the attack.

Long Hong snorted coldly and scolded:

"It seems that we have to fight quickly and decisively."

The words fell.

A huge human figure appeared behind Long Hong.

"Blood Buddha: Quiet!!"

As soon as Long Hong's voice fell, Lin Tianhao instinctively used the space legend to escape.

But the result was not as expected.

The attack still hit him.

The moment he was hit by this attack, Lin Tianhao staggered and almost fell to the ground.

"The blood in my body seems to be standing still."

The blood stopped flowing, and Lin Tianhao seemed unable to control his body. He couldn't even do the most basic thing like raising his hand to shoot an arrow.

"Blood Buddha: Flow!!"

Long Hong's attack did not end.

His new attack landed on Lin Tianhao, and a feeling of extreme pain rushed straight to the top of his head.

Lin Tianhao's blood began to flow out of his mouth, nose, eyes, and ears.

This might be the legendary... bleeding from all seven orifices!

"It's still not enough after all."

Lin Tianhao sighed softly.

He originally didn't want to use the invincible field to see if he could fight with Long Hong, but the result made him very disappointed.

"Your blood recovery is very strong. To be honest, it is the only one I have ever seen in my life. The blood recovery of this sea beast is also very strong, but compared to you, it is still not as good as before."

"If there is no means of multiple attack, or instant kill attack, there is really nothing I can do to you."

"Unfortunately, I have such means, and more than one."

"The mysterious thing in your body has frozen my heart-piercing blood handprint. I will drain your blood now to see what's inside you."

"As you lose blood, the damage you take on will be multiplied. Eventually, the damage will reach a point where you can no longer handle it."

Lin Tianhao raised his head with difficulty and looked at Long Hong.

The face with blood coming out of all seven orifices looked somewhat hideous.

"Long Hong, you are indeed amazing. There should be few people in the same realm who can be your opponent."

"wrong."

Long Hong shook his head and said with a smile:

"Even if they are not at the same realm as me, even if they are strong men at the Divine Level, if I drag them into this ancient duel, I am still confident that I can win."

Lin Tianhao took a deep breath and said:

"really."

"If you had pulled someone else, today might not be a good day. Unfortunately... you met me!"

As Lin Tianhao finished his words, the blood flowing out of Lin Tianhao instantly flowed back into Lin Tianhao's body.

The body that had staggered and fallen down due to blood stasis also stood up at this moment.

"How can it be?!"

An expression of disbelief appeared on Long Hong's face.

"Even if you have absolute defensive skills, you can only block a few attacks."

Lin Tianhao smiled slightly and said:

"Next, it's my turn to take action."

Lin Tianhao unfolded his three heads and six arms, and the hundreds of millions of free attribute points accumulated in his hands were added to the attack speed of the Heavenly Punishment without reservation.

Chapter 1533 Don't ask about the future!

With the support of hundreds of millions of free attribute points, the attack speed of the Heavenly Punishment directly broke through to 102! !

With three heads and six arms and the ability to shoot arrows from his heart, Lin Tianhao can shoot up to four hundred and eight arrows in one second.

Lin Tianhao had asked Fenxin Mengyan and the others before.

Beings who have reached their level are indeed able to withstand his feather arrow attacks.

But the lethality contained in his feather arrows is too strong, and it will cost a lot to resist them.

After reaching the divine realm, they have the ability to block attacks from not only mortals but even gods.

The premise is that the consumption can keep up.

It is easy to block a feather arrow that causes 10,000 damage, but what about blocking a feather arrow that causes 1 trillion damage?

These are completely two concepts.

and so.

Even for high-level warriors like them, it would be no problem for them to block Lin Tianhao's feather arrows for a short period of time.

But if you want to block Lin Tianhao's feather arrows for a long time, that is not possible.

and.

Lin Tianhao is praying now, Long Hong is attacking.

He thought that his current invincible field was only one star, and the range was only ten meters.

To reach this range, Long Hong has to come closer on his own initiative.

however.

The strong ones who have reached the realm of the Great Emperor are still very keenly aware of danger.

He used several methods in succession, but all of them were blocked by Lin Tianhao.

"This is... invincible!!"

A look of surprise appeared on Long Hong's face.

"You have an invincible zone around you. Within this invincible zone, you are invincible, right?"

"You are too smart." Lin Tianhao said, spreading his hands.

Long Hong smiled slightly and said:

"Then there's nothing to fight about. With this skill, you'll be naturally invincible."

"Especially if you combine it with my Ancient Duel Arena, you should be able to kill an extremely powerful person with a targeted attack."

Lin Tianhao nodded and said:

"I guess so. Besides, my skill is currently one star and can be upgraded."

Hear this.

Long Hong was even more surprised and said, "If that's the case, then there's nothing to say."

"You are strong enough and have enough potential. I am willing to join you."

Lin Tianhao showed a satisfied smile on his face.

He had just fought with Long Hong. Long Hong's methods were very strong, extremely strong.

If Long Hong could make it onto the Conferred God List, it would be a hundred benefits for Lin Tianhao and no harm at all! !

"bring it on!!"

Long Hong resisted fiercely, but was soon overwhelmed by Lin Tianhao's arrows.

"Ding, congratulations, you have successfully killed Emperor Long Hong. We will announce it to all servers soon. Do you want to hide your name?"

"no!"

"Announcement to all servers, congratulations to the player Xue Di for successfully killing the Emperor Long Hong. We hereby announce this and hope that all adventurers will continue to work hard!!"

.....

After successfully killing Emperor Long Hong, Lin Tianhao directly sent him to the List of Gods.

The ancient duel arena disappeared, and Lin Tianhao returned to the door of the Long family.

"My Lord is becoming more and more powerful. He is already able to kill a strong man like Emperor Long Hong alone."

Lie Hongyu couldn't help but sigh.

She was also a powerful emperor in Zhongzhou Continent before, so naturally she had some interactions with Emperor Long Hong.

Lin Tianhao shook his head and said:

"Emperor Long Hong let me win. Otherwise, it would not be easy for me to defeat him."

"Oh?"

Lie Hongyu was a little surprised to hear Lin Tianhao say that Emperor Long Hong actually let him go.

Because with an existence like Emperor Long Hong, even if he is not at the divine level, his actual combat power is not much worse than that of a strong man at the divine level.

under these circumstances.

There was no need for him to drain the water.

Lin Tianhao summoned Emperor Long Hong.

"grown ups."

Emperor Long Hong bowed to Lin Tianhao.

Lin Tianhao waved his hand and said with a smile:

"No need to be polite."

"Emperor Long Hong was concerned about the Galaxy World. He could choose to leave and go to the Divine Realm, but he chose to stay."

"Let's go and check out the other emperors' residences."

Long Hong hesitated and finally sighed:

"Xue Di, I may disappoint you. The other emperors have all left."

Lin Tianhao's expression changed, "Xiudeli White Fox has also left?"

Lin Tianhao knew that he still had a mission to complete with Xudeli Baihu.

"left."

Long Hong's words were like a bolt from the blue, hitting Lin Tianhao on the forehead.

Shudri White Fox left???

What about his mission?

Even if there was no mission, he would still go and kill those bastards in the Alete galaxy.

But the Heavenly Punishment Equipment, which was something he needed very much, was now... gone!!

wrong! !

Just when Lin Tianhao wanted to curse, he found that his mission was still there.

"They should not have left yet." Lin Tianhao spoke slowly.

"I have accepted the mission from Xiudeli White Fox. If Xiudeli White Fox leaves, then the mission she corresponds to should disappear or change."

As Lin Tianhao finished speaking.

A young man walked over and bowed to Lin Tianhao.

"Your Excellencies are right in your speculation. You will really come to see Emperor Long Hong."

Lin Tianhao looked up and saw that the person who was speaking was not an NPC, but an adventurer.

He also didn't hide his nickname.

Don't ask about the road ahead.

A very ordinary name, but Lin Tianhao saw that his level had reached five thousand.

This level is not the highest at this stage, but it is not bad at all.

"Are they all hiding?"

"Why? After reaching the Great Emperor's Realm, it's not impossible to go to the Divine Realm."

"Unless... there is something they want on this land of China."

Lin Tianhao already had the answer in his mind.

Mo Wenqian nodded and said:

"They know that you, Xue Di, can help the strong men in the Great Emperor Realm to upgrade to a higher level, so they hope to get your help."

"They can do what Dongzhou Continent can do, and they can even give you more information."

"Including the Dragon Cave, the Cloud Peak World, the Special Secret Realm, and the Super Soldier's Nest."

"They said that they don't dare to bet that our Blue Star human race will be able to win in the future, but they are still willing to do their best."

Lin Tianhao frowned.

Mo Wenqian continued:

"Several adults also said that people from the Alete Galaxy had approached them and tried to cooperate with them to snatch the treasure from you."

"But they refused. Not only that, they also took the opportunity to get the names of several people from the Alete Galaxy. You should be able to help Xue Di."

Lin Tianhao thought for a moment and said:

"They don't want to come out and talk in person, but instead let you, an adventurer, come and talk to me. It seems like they're worried that I'll just fight them."

Mo Wenqian nodded slightly and said:

"The name of the Snow Queen is so powerful that it shakes the entire land of China. You adults must be on guard."

That's it.

Mo Wenqian hesitated for a moment and said:

"I am also a human from Blue Star, and even more so from Dragon Country. Let me just tell you their trump cards."

Chapter 1534 The blessing failed, something happened to the gods and demons!

"The most valuable thing they can offer this time is a saint's relic, which is the relic of a saint who became a saint in the future."

Hear this.

Lin Tianhao narrowed his eyes slightly. The saint's relics were still very attractive to him.

But Lin Tianhao thought about it and said:

"I also know of a saint's relic. Knowing about a saint's relic and obtaining the treasures in the saint's relic are two different concepts."

"and....."

"I'm not sure. The saint's relics they know are not the ones I know. If they are the same, then I will lose a lot of money."

As for the Dragon Cave...

Officials from various countries have been searching for and exploring the Dragon Cave, and Lin Tianhao has also explored the Dragon Cave before.

But recently he really has been too busy.

Find the Heaven Punishment Equipment, gain enlightenment, and increase the rank by 1. Also, integrate the forces of the Shenzhou land to maximize the effectiveness of the Human King Order.

As for the Dragon Cave, he could only consider it after Lin Tianhao had dealt with these big issues.

Now, if Lin Tianhao wants to become stronger, there are still many ways he can take.

but.

Lin Tianhao can only choose the method that is most beneficial to him to strengthen himself.

"Their sincerity is still not enough to impress me." Lin Tianhao said bluntly.

"You can talk to them again and see if they can give you something sincere."

Mo Wenqian nodded lightly and said seriously:

"understood."

"Xue Di, if you have any information you want to know or any requests you want, you can just tell me directly."

Lin Tianhao thought for a moment and said:

"For me right now, the most useful things are nothing more than three things. First, the grade +1, second, the Heaven Punishment Equipment, and third, the Super God-level Talent Awakening Stone."

"As for the others, their effects on me are relatively ordinary, and they are not enough to support their advancement to the Divine Level."

"it is good."

Mo Wenqian nodded slightly. He faced Lin Tianhao directly and remained calm regardless of honor or disgrace. This kind of mentality was quite good.

After seeing Mo Wen off, Lin Tianhao took out the Beast God's Treasure Bottle and took out the Divine Liquid of Evolution from it.

"Emperor Long Hong, come on."

Emperor Long Hong was slightly curious when he saw the drop of evolutionary divine liquid in Lin Tianhao's hand.

"Just such a small drop of liquid can make my emperor ascend to the level of a god?!"

Long Hong was very surprised. After all, this was somewhat beyond his understanding.

"it is good."

Long Hong nodded slightly, took the drop of evolutionary divine liquid and drank it directly.

After taking this drop of evolutionary divine liquid, Long Hong's aura began to rise continuously.

Lin Tianhao looked calm, with a faint smile on his face.

He raised his hand and a scroll appeared in his hand.

This is the scroll for the pre-quest of the Gods and Demons Blessing that Lie Hongyu gave to Lin Tianhao before.

When the Lord of Luotian took action, Lin Tianhao luckily killed the unknown creature that caused the fog, causing Lin Tianhao's scroll of the pre-task of the blessing of gods and demons to be stuck.

Because the task here was to contain a monster from a forbidden land, but in the end the Lord of Luotian took action and helped him directly solve the problem of the unknown creature.

Later, there was a reward of 100 million free attribute points, and a mission from Xudeli White Fox regarding the Sky Punishment Equipment.

This scroll of the pre-quest for the blessing of gods and demons has been kept until now.

Now that he has time, Lin Tianhao is also ready to see what blessings this scroll of the pre-task blessing of gods and demons can bring him.

After solving the root cause of the disaster, the pre-quest scroll of the blessing of gods and demons was naturally completed.

"Ding, you are using the blessing of gods and demons, are you sure?"

"confirm."

"Ding, you have used the blessing of gods and demons, and the gods and demons are blessing you..."

Falling with the sound.

Above the sky...

The situation remains unchanged, there is no movement.

Lin Tianhao: ? ? ?

what happened? !

I have clearly used the blessing of gods and demons, so why is there no response?

"Ding, an unknown accident occurred, and the blessing of the gods and demons failed."

Lin Tianhao's breathing tightened. He had subdued so many masters before, but no saint had appeared.

Lin Tianhao guessed that something might have happened to the saint.

But now.

The blessings of gods and demons all failed.

what does this mean? !

Lin Tianhao felt inexplicably panicked.

If something happened to the saints and the gods and demons, it would undoubtedly be a disaster for him.

"Ding, the blessing compensation mechanism is triggered. Since you have not received the blessing of the gods and demons, you will be compensated with +3000 million free attribute points."

Lin Tianhao's pupils suddenly shrank. The blessing of gods and demons failed, and he had to directly make up for 30 million free attribute points.

It is undeniable.

This reward is pretty good.

But Lin Tianhao has no shortage of free attribute points at all now.

These 30 million free attribute points are obviously not as much as the rewards from the missions blessed by gods and demons.

Something has happened to the gods and demons, and something may have happened to the saints as well.

The Source of Tao...

Lin Tianhao only felt a chill rushing straight to the top of his head.

So what happened.

Have the three thousand gods and demons of the galaxy world disappeared?

If.....

The top combat forces in the galactic world are gone, so will those guys in the Alite Galaxy still follow the rules of the Star Administration?

These...are all unknowns.

He has worked so hard for so long, and now he has become so strong, but the road ahead... seems to be getting darker and darker, so dark that he can't see any light at all.

This feeling made Lin Tianhao feel very bad.

This strong feeling of oppression weighed on Lin Tianhao's heart, making him very uncomfortable.

"Failed?"

Lie Hongyu appeared beside Lin Tianhao.

She could naturally see that Lin Tianhao had failed in using the blessing of gods and demons.

"Is there really no chance of a comeback?" Ned Liv's voice could not help but ring out.

"How could this be?"

"Is it because there is a powerful faction in the Divine Realm that is targeting our galactic world? Or is it because of the Alet Galaxy?"

Lin Tianhao remained silent and the atmosphere was very depressing.

at this time.

Long Hong is going through the ascension thunder tribulation.

But the rolling thunder seemed to have fallen on the people present.

"Since there is no way out, we can only fight to the death and give it our all!!!"

Lin Tianhao clenched his fists. In his previous life, they had a deep blood feud. Since he had no way out in this life, he would fight! !

Long Hong completed the tribulation and landed next to Lin Tianhao.

"Is this the realm of divine quality?"

Long Hong felt the changes in himself and a look of excitement appeared on his face.

Lin Tianhao glanced at Long Hong meaningfully and said:

"We are going to the Far North Continent, so we need to hurry up."

Lin Tianhao knew very well that they didn't have much time left, and if they delayed any further, it would not be a good thing.

"Ah."

Long Hong already knew what Lin Tianhao was going to do.

To be precise.

In the entire Shenzhou land, all the larger forces basically know what Lin Tianhao is going to do.

Five days later.

The Far North Continent!!

The Far North continent is relatively far away from the other continents, and the population of the Far North continent is not large.

The information Lin Tianhao learned was that there were not even 200 billion people in the Far North Continent.

Chapter 1535: Old Que!

The land area of the Far North Continent is twice that of the Central Plains Continent.

This is because the living environment in the Far North is not very good.

But Lin Tianhao still came to the Far North Continent.

This is because when Lin Tianhao was learning about the Far North Continent, he also learned a very useful piece of information.

That is... there are many ancient body cultivators in the Far North Continent!!

The reason why they can survive in the Far North is that most of them have a strong affinity for ice and snow.

Another important reason is that they are ancient body cultivators.

To put it simply, it is a physical transformation.

Lin Tianhao had met people who had undergone physical transformation in other continents, but the degree of their physical transformation was actually not very high.

But it's different in the Far North Continent. The degree of their physical transformation is far beyond that of ordinary people.

Just arrived at the Far North Continent.

The scene of ice and snow made Lin Tianhao feel like he was in a fantasy.

Especially when he opened his eyes of insight to observe the northernmost continent, he saw endless ice and snow.

"I knew you would come, but I never thought you would come so quickly."

Lin Tianhao had just set foot on the Far North Continent when a white-haired old man walked towards him.

Lin Tianhao looked up.

? ? ? (??):? ? ?

All question marks.

Lin Tianhao has gotten used to it.

Because he has recently come into contact with many powerful people at the level of Great Emperor.

Once they reach the realm of the Great Emperor, if they deliberately hide themselves, Lin Tianhao will still not be able to see their information.

"What is your name, senior?" Lin Tianhao asked.

The white-haired old man waved his hand and said:

"I just lived for a few years in vain. If you don't mind, Xue Di, you can call me Que Lao."

Lin Tianhao bowed and said, "Greetings, Master Que."

"Mr. Que knows that I am coming, so I think he also knows the purpose of my coming here."

Old Que nodded slightly and said seriously:

"The changes between heaven and earth are becoming more and more frequent. Our ancestors have grown up here, and I have lived for quite a long time. It is impossible for me to say that I have no feelings for this place."

"Can....."

Lin Tianhao said helplessly:

"Master Que wants to attack me too?"

Old Que smiled slightly and said:

"It's not a blow, but the risk of staying is too great for us, so we may choose to leave."

Lin Tianhao was not surprised and said bluntly:

"As those of you who are high-quality and high-transfer leave, some of you must stay behind."

"From what I've learned, it won't work if you take too many people to the Divine Realm."

Mr. Que nodded and said:

"Indeed."

"But now that we're gone, what are your chances of winning?"

"If you have a 10% chance of winning at the beginning, once we leave, your chance of winning may be less than 5%."

Lin Tianhao was silent for a while, then he slowly said:

"But I can't change your decision."

"I can force my way in, but that will only scare you away. It's better to trade with you."

"I will help you advance to the Godly Rank, and you will give me something that can strengthen me."

Hearing Lin Tianhao's words, Que Lao nodded and said seriously:

"Xue Di, you may be angry, but there is nothing we can do about it. You have no choice, but we do."

"It's a pity for you. I have also come into contact with some adventurers and know how bad your real world is. It is almost impossible for you to leave the galaxy world now."

"This is a dead end for you."

Lin Tianhao hesitated for a moment and said:

"Yes, since we have no other choice, we can only fight. I am here to integrate your Far North Continent. We can work together to increase our chances of victory."

Mr. Que nodded and said:

"We discussed this before you arrived."

"We have everything you want."

Lin Tianhao was shocked by what Mr. Que said. He had been to many places before, but got nothing in the end.

"Are you sure?" Lin Tianhao still didn't quite believe it.

"Rank +1, Heavenly Punishment Equipment."

"You can get these two as long as you complete the corresponding tasks."

"Especially the rank +1. As long as you help us improve the rank, we can reward it to you."

Lin Tianhao's breathing became a little faster.

If he could reach +1 grade again, the improvement of all his attributes would definitely allow him to grow to an incredible level.

The most important thing is that they also have the Heavenly Punishment equipment.

"In addition to this, we can also teach you the ancient method of body refining to help you temper your body and complete your physical transformation."

"However, the Heavenly Punishment Equipment needs to complete the mission. I hope you can understand this."

"You want to integrate the Far North Continent. This is relatively simple because there is only one master in the Far North Continent, and that is the Lord of Extreme Ice."

"She has already agreed, including these rewards, which are all rewards she is willing to give."

Lin Tianhao felt that his operations in Dongzhou Continent and Fengzhou Continent had been very smooth.

But he never expected that things would go more smoothly in this far northern continent.

This is simply giving him whatever he wants.

"I understand." Lin Tianhao said.

"I will do all the tasks that need to be done."

Mr. Que nodded heavily and said seriously:

"Although the chances of the galaxy world being saved are slim, we are a bunch of cowards and cannot stay to save the world."

"I hope you can succeed."

Lin Tianhao said in a serious tone, "As you know, I have no way out. The human race of our entire Blue Planet has no way out."

"We have to fight. There is no other way."

Que Lao led the way, and as he walked, he said:

"When you meet the Lord of Extreme Ice, she will talk to you about the reward. If you have anything you want to know, you can ask the Lord of Extreme Ice."

"The Lord of Extreme Ice knows a lot of information. You should sort out your questions and don't miss anything, because the Lord of Extreme Ice will leave too."

Lin Tianhao took a deep breath, and Que Lao's voice continued to be heard.

"But don't be in a hurry. At our speed, it will probably take another five days to reach the Holy Mountain of Extreme Ice. You can think about it carefully." said Old Que.

Lin Tianhao fell into deep thought.

What is he asking?

First, the matter of the super god-level hidden career transfer altar.

Second, the matter of the super god-level talent awakening stone.

Third, something happened to the saint and the three thousand gods and demons.

Fourth, can the ancient body-refining technique be practiced by everyone?

Fifth, the High Priest of the Sea Tribe, the Dragon Lord... and the monster sealed under Kuntian City in the Western Region, the Immortal Bird, and the mysterious strong man of the plant system...

sixth.....

Lin Tianhao had too many questions he wanted to ask, too many doubts in his mind, and too many answers he wanted to know.

There are also dragon caves, saint relics, the world of Cloud Peak, and the demons that cannot be sealed in the land of Shenzhou...

Chapter 1536 The Lord of Extreme Ice!

There are so many questions, even about the past of China.

Because only when Lin Tianhao knows more information can he better arrange what he is going to do next.

During these five days, Lin Tianhao was still seeking enlightenment.

Combined with the time spent on the journey to the Far North Continent, Lin Tianhao's understanding of space finally made another step forward...

The Way of Space, the nineteenth level of the realm of Taoism!!

This way of space is developing in an increasingly abstract direction.

Shortly after Lin Tianhao's spatial path broke through to the nineteenth level of the Asking Dao Realm, Lin Tianhao finally arrived at the Holy Mountain of Extreme Ice.

This is a mountain that towers into the clouds. Even though Lin Tianhao is flying in the air with Old Que, when facing this extremely icy holy mountain, Lin Tianhao still feels as small as dust.

even.....

This made Lin Tianhao involuntarily have an idea in his mind.

If there is a world at the top of the clouds, it is most likely on top of this holy mountain of extreme ice.

When Que Lao saw this holy mountain of extreme ice, he was filled with awe.

"The Lord of Extreme Ice is the ruler of our Far North Continent and also the faith of our Far North Continent."

"All of us in the Far North Continent are fanatical believers of the Lord of Extreme Ice."

Lin Tianhao was a little surprised. Fanatical believers were not ordinary believers.

The power of incense that fanatical believers can provide is much greater than that of ordinary believers.

Someone once estimated that one fanatical believer is equivalent to at least a hundred ordinary believers.

If what Que Lao said is true.

The Lord of Extreme Ice has more than 100 billion fanatical followers! !

What a concept! !

Even becoming a saint through burning incense is possible.

Saint... Saint!!

The High Priest of the Sea Tribe is a saint, so this Lord of Extreme Ice... could he also be a saint? !

After this idea came into Lin Tianhao's mind, it could not be dispelled at all.

Saint!!

Next, I will face a saint directly! !

Although.....

These are all Lin Tianhao's own guesses.

But judging from the current situation, he felt that there was a very high possibility that his guess was correct.

Fly all the way up to the Holy Mountain of Extreme Ice.

Passing through layers of clouds and mist, Lin Tianhao even felt as if he had arrived above the sky.

at last.

After flying for more than an hour, Que Lao finally stopped.

In front of him was a staircase made of ice crystals.

"Snow Queen, to show respect to the Lord of Extreme Ice, we have to walk the rest of the way up."

"Don't worry, it only takes more than three hours to walk up from here."

The corner of Lin Tianhao's mouth twitched. He saw that this Lord of Extreme Ice was more troublesome than he had expected.

But he is a saint after all, so Lin Tianhao can accept it.

at last.

After more than three hours, Lin Tianhao successfully met the Lord of Extreme Ice mentioned by Old Que.

She has no palace, so she sits cross-legged on a huge ice crystal in the snow mountain.

What caught Lin Tianhao's attention most was her body shape.

Although she was sitting cross-legged there, her height was over a hundred meters.

If she stood up, her height would probably be over two hundred meters.

And when Lin Tianhao looked at him, it was the same, full of question marks.

Lin Tianhao bowed to the Lord of Extreme Ice and said, "Junior Snow Emperor, I pay my respects to the Lord of Extreme Ice."

The Lord of Extreme Ice did not move or speak, but an ethereal and pleasant voice rang in Lin Tianhao's mind.

"Here's what you need."

The Lord of Extreme Ice raised his hand and waved. Three items were wrapped in ice crystals, appeared in the void, and slowly floated in front of Lin Tianhao.

"Heavenly Punishment Necklace."

Although separated by ice crystals, Lin Tianhao could still sense what was inside.

"Upgraded Ice Heart."

"Ancient body-refining technique."

"For these three items, you need to complete the corresponding tasks, and then the ice crystals can be melted, and you can also get the rewards."

Lin Tianhao came into contact with the upgraded Bingxin, and the mission popped out immediately.

This task is simple, which is to help the nineteen powerful emperors in the Far North Continent to reach the divine level.

to be frank.

When Lin Tianhao saw the number of powerful people at the level of Emperor in the Far North Continent, he was stunned.

This number is more than he thought.

The Far North Continent, this inconspicuous place where few people have set foot, actually has so many powerful people at the level of Great Emperors.

Among the nineteen people who needed help to improve, Lin Tianhao did not see Old Que and the Lord of Extreme Ice.

Lin Tianhao had long anticipated the absence of the Lord of Extreme Ice.

But there wasn't even any Old Que, which Lin Tianhao hadn't expected.

Is it possible...

Is Mr. Que a powerful person at the divine level?

This is not impossible.

It is understandable that one can reach the divine level by working under a saint.

This task also has a reward, which is that during the period of helping them upgrade their grades, Lin Tianhao can ask any questions he wants.

the second one.

Heavenly punishment necklace!

There is also a task attached.

【Establish a teleportation array】

"Mission requirements: Establish teleportation arrays in key cities in the Far North Continent so that people can teleport to each other. The number of teleportation arrays should be no less than eight."

"Mission Reward: Heavenly Punishment Necklace, Free Attribute Points +200000."

"Mission penalty: None."

Lin Tianhao narrowed his eyes slightly. This task was neither difficult nor easy.

Lin Tianhao could feel that with the continuous improvement of his knowledge of space, he was already able to reach the threshold of space teleportation.

In fact, even if there was no such task, he would consider building a space teleportation array later, so that the exchanges between the five continents would be closer.

When the Alet Galaxy invades the Milky Way world in the future, it will be easy for experts to move to another battle site thanks to the existence of the teleportation array.

The reason why the masters switched battles was because Lin Tianhao could feel that with his current abilities, even if he successfully established a teleportation array, the number of people teleported at one time would hardly exceed five hundred.

Perhaps this situation will improve after his spatial knowledge reaches the Dao realm, but that is a matter for the future and it is hard to say now.

At last.

This is the ancient body-refining technique.

It's also a task.

but.

The task requirement of this ancient body-refining technique is also to improve the grade, that is, to help three hundred and sixty emperor-level masters to reach the level of the great emperor.

The number of masters in this Far North Continent once again overturned Lin Tianhao's imagination.

The so-called Chinese land, the Central Plains continent was the most prosperous one, but now it seems like it's all nonsense.

just.

The requirements for this ancient body-refining technique are even higher than those for upgrading Ice Heart.

There are three hundred and sixty people. Even if we help thirty-six people to be promoted every day, it will take ten full days.

As if seeing the doubts in Lin Tianhao's heart, the ethereal and pleasant voice of the Lord of Extreme Ice rang in Lin Tianhao's mind.

"After you obtain this ancient body-refining technique, you can copy it into a skill book and distribute it to other professionals."

Lin Tianhao's pupils suddenly shrank, and he gave it to other professionals instead of adventurers! !

Chapter 1537 Finally some good news!

If that's the case, it makes perfect sense.

This ancient body-building technique might be able to allow hundreds of millions of people across China to reach a new level of strength.

Even if each of these hundreds of millions of people only completes the physical transformation once, the damage reduction will be very high.

Because one physical transformation is equivalent to a 50% damage reduction, two transformations are equivalent to a 66% damage reduction, and three transformations are equivalent to a 75% damage reduction.

therefore.

During the first physical transformation, the damage reduction ratio is the highest.

This should be the important reason why this ancient body-refining technique is so valuable.

"You may need to stay in my Far North Continent for a while. In addition to the information you want to know, I will give you a temporary blessing."

"Temporary blessing?" Lin Tianhao was a little surprised.

This was the first time he had heard of this thing.

As soon as the Lord of Extreme Ice's voice fell, Lin Tianhao saw an ice-blue beam of light descending from the sky and enveloping him.

"Ding, you have received a temporary blessing from the Lord of Extreme Ice. Your enlightenment speed will increase 100 times and last for one month."

Lin Tianhao's pupils suddenly shrank. This was actually the temporary blessing from the Lord of Extreme Ice.

"You can go and help my subordinates improve their ranks. During this time, as long as you are in the Far North Continent and call my name, I will be able to sense it. If you want to know anything, just ask directly. This way, you won't waste time."

Lin Tianhao was no longer so surprised. It was reasonable for a saint to be able to sense the entire Far North Continent.

"Senior, do you know the location of other heavenly punishment equipment?" Lin Tianhao asked.

"There are at least nine pieces of Heavenly Punishment Equipment in the Vast Continent. As for the others, I don't know. If I knew their exact locations, I would tell you."

"Do you know where the super god-level hidden job transfer altar is?"

"I found one in the ancient secret realm, but it has been destroyed."

The Lord of Extreme Ice said without thinking:

"There are three super god-level hidden job transfer altars in Ragnarok. One is in the ancient land of Buzhou in the center of the earth, one is what you know, and the other is in the Jidao Cave Heaven in the top of the cloud world."

Lin Tianhao's eyes lit up. It was similar to what he guessed. There were three super god-level hidden profession transfer altars. After all, the previous information was that there were super god-level hidden professions in the inner world, the surface world, and the cloud top world.

Since there are super god-level hidden professions in these three places, there is a high probability that there are super god-level hidden profession transfer altars.

"How to get to these two places?" Lin Tianhao asked again.

"The ancient land of Buzhou is a special secret realm that requires the Buzhou divine stone to open."

Lin Tianhao's eyes lit up, he naturally knew about the Buzhou Divine Stone.

"Jidao Cave Heaven is a blessed place in the Cloud Peak World, similar to the secret place on the surface of the world. You need to enter the Heavenly Palace first, ascend to the Third Heaven, and then find the Jidao Holy Land."

Lin Tianhao raised his eyebrows and said:

"How do we get to the Heavenly Palace?"

"The vast continent is a land outside the domain. If you go there, you will naturally know how to get to the Heavenly Palace."

"But the road to the Heavenly Palace is blocked. It may take some time, but with your ability, you can naturally solve it."

Lin Tianhao was secretly shocked, it turned out that the Heavenly Palace was the only way to reach the Cloud Top World.

if so.

Then his previous speculation about the Yundian world was not quite right.

Before, he thought that the world on top of the clouds was just a series of small islands in the sky hidden above the clouds.

There are entrances to dungeons, secret realms, etc. on these aerial islands. This is the world at the top of the cloud.

But now after listening to your words, Lord of Extreme Ice, Lin Tianhao finally understood that the world at the top of the cloud is not that simple, and there is even a place like the third heaven.

"In Ragnarok, are there any super god-level talent awakening stones?" Lin Tianhao asked again.

"Have."

The ethereal and pleasant voice of the Lord of Extreme Ice instantly stimulated Lin Tianhao's nerves.

"Where?" Lin Tianhao asked.

The Lord of Extreme Ice said without any hesitation:

"One is in the Nine Netherworld, deep in the eighteenth level of the underworld, and one is in the Clouddrop World, above the Ninth Heaven."

"There is one more..."

"In Moyuan."

"Mo Yuan?!!"

Lin Tianhao's heart was greatly shocked.

Mo Yuan???

Is the Mo Yuan that the Lord of Extreme Ice mentioned the same Mo Yuan that he had visited? ! !

Ragnarok has a super god-level talent awakening stone!!

Still three pieces!!

It would be awesome if he could get all three super god-level talent awakening stones.

However, Lin Tianhao only dared to think about these three places.

"Where is Mo Yuan?"

"The sea area, the land of the five dead ends, is the place farthest from the five continents."

Lin Tianhao's mouth twitched. He didn't have a map of the sea area.

Say.

The sea is boundless, so it is not easy to find it.

"High Priest of the Sea Clan, Dragon Lord, these..."

Before Lin Tianhao finished speaking, the Lord of Extreme Ice shook his head.

"It is indescribable. It is indescribable."

Lin Tianhao's eyes narrowed slightly. It seemed that they were all saints.

"What about the Three Pure Ones and the gods and demons? I feel like they seem..."

The Lord of Extreme Ice shook his head again and sighed, "This is the fate that cannot be described..."

Lin Tianhao smiled bitterly and said:

"Okay, thank you for telling me, Lord of Extreme Ice."

"I'll go out and help them improve their rank. If you have any questions, I'll continue to ask."

The information Lin Tianhao obtained from meeting the Lord of Extreme Ice this time was still very exciting.

The previous news was basically bad news.

But today, the news he received from the Lord of Extreme Ice was basically good news.

The Sky Punishment Necklace, the upgraded Ice Heart, the ancient body refining technique, and the news about the super god-level hidden career change altar and the super god-level talent awakening stone, all of these are extremely rare.

In particular, the Buzhou Divine Stone can open the Buzhou Ancient Land, so that he can quickly find the super god-level hidden career transfer altar.

For the next day, while Lin Tianhao was helping the 19 emperor-level warriors to improve their grades, he was also constantly asking various questions.

No matter how small!!

Lin Tianhao asked basically all the questions he wanted to ask, including those about the Starry Sky Administration and the Temple of Thunder Punishment.

There were also some other miscellaneous things. As long as Lin Tianhao felt that he wanted to know or that it would be helpful in the future, he would ask.

Although a lot of this information may not be useful to him in the short term.

but.

Knowing and not being able to use them are two different things.

In addition to his talent, a big part of the reason why he can achieve what he has today is because of his understanding of Ragnarok.

The two complement each other, which has led to his current achievements.

otherwise.

Even if they had the same talent, it would be difficult for them to reach Lin Tianhao's current achievements in twenty years, let alone more than two years.

Chapter 1538: Health value 130 trillion!

Time on the first day.

Lin Tianhao helped nineteen powerful men at the level of great emperors to complete their promotion.

The upgraded Ice Heart in Lin Tianhao's hand was also unsealed.

Upgraded Ice Heart (Special): A one-time item.

Usage requirements: None.

Effect: After use, any item below the divine grade can be upgraded by one grade.

Wear resistance: Indestructible.

(Note: This item is a one-time item and disappears after use.)

"use."

Lin Tianhao chose to use it without hesitation.

The hazy light fell on Lin Tianhao, and Lin Tianhao felt warm all over.

The whole person's aura also continues to rise in the process.

After a while.

Lin Tianhao only felt refreshed, and all his attributes, even his soul power, were improved.

Just as Lin Tianhao expected, his health points successfully broke through 10 billion and reached 115 trillion! !

Other attributes have also been significantly improved.

And the soul power also exceeded 4 billion.

Lin Tianhao's overall combat effectiveness has been significantly improved.

Grade +1.

The improvement this brought to Lin Tianhao was obvious.

What if it's night?

With 230 trillion health points and the Book of Life and Death, he can kill even the king-level masters in the Alet Galaxy! !

Night falls.

Lin Tianhao began to try.

as predicted.

Those guys who could not be killed directly with the Book of Life and Death before were now quickly eliminated by Lin Tianhao.

"Ding, congratulations, you have successfully killed Belit Nuclear Soldier. We will announce it to all servers soon. Do you want to hide your name?"

"no."

"Announcement to all servers, congratulations to player Xue Di for successfully killing Belit Nuclear Soldier. We hereby announce this, and hope that all adventurers will take this into consideration!!"

.....

"Ding, congratulations, you have successfully killed Belit Wrath Dragon. We will announce it to all servers soon. Do you want to hide your name?"

"no."

"Announcement to all servers, congratulations to player Xue Di for successfully killing Belit-Yuan Long. We hereby announce this, and hope all adventurers will take this into consideration!!"

.....

Server-wide announcements came one after another.

By killing these high-quality and high-turnover people from the Alete galaxy, Lin Tianhao can also obtain the attribute reward of Ragnarok.

Although he was unable to touch the corpse, Lin Tianhao still gained a lot.

Not long after.

The task of killing one hundred Alete star systems required by the Shudri White Fox mission was finally completed.

Lin Tianhao summoned the Kunlun Mirror and returned to the Zhongzhou Continent.

He needs to go to Zhongzhou Continent to see if he can find Xiudeli White Fox.

Wuji ascends to the heavenly palace.

Lin Tianhao came to visit and explained his purpose.

"Snow Emperor, the recent situation is rather special. I don't know where the White Fox Emperor is now."

The people from Wuji Dengtian Palace did not tell Lin Tianhao the location of Xiudeli White Fox, which made it difficult for Lin Tianhao to submit the task.

"I have completed the mission for Shudri White Fox. How can I submit my mission if she doesn't show up?"

The words fell.

Lin Tianhao directly exchanged the loudspeaker for the entire server and asked Xiudeli Baihu to come over, and he waited for her in Wuji Dengtian Palace.

The effect of this server-wide loudspeaker is immediate.

After waiting for two hours in Wuji Dengtian Palace, Lin Tianhao successfully met Xiudeli Baihu.

Xiudeli White Fox smiled at Lin Tianhao and said:

"Xue Di, your efficiency is faster than I thought."

Lin Tianhao waved his hand and said:

"Even if there is no mission, I will go and kill these bastards in the Alete galaxy."

The words fell.

Lin Tianhao submitted the task directly.

"Ding, congratulations, you have successfully completed the mission of Xiudeli White Fox. Mission rewards: Sky Punishment Ring +1, Free Attribute Points +10000."

After getting the Heavenly Punishment Ring, Lin Tianhao showed a satisfied smile on his face.

Ring of Punishment: Unknown.

Wearing requirements: Heavenly Punishment Archer.

Effect 1: God's punishment attack speed +1, not affected by the phased reduction of attack speed.

Effect 2: Percent damage reduction by 5%, still effective against god-level attacks.

Effect 3: Can block a fatal attack, cooling time is one hour.

Effect 4: Luck +10.

Effect 5: The mind becomes clear and the speed of enlightenment increases by 10.

Effect 6: Increase maximum health by +50%.

Effect 7: Maximum armor increased by 50%.

Effect 8: Maximum magic resistance increased by 50%.

Effect 9: Absolute Slowdown (You can release it actively to reduce the target's movement speed by 90% and attack speed by 90% for the next three seconds. The absolute slowdown effect is absolutely established, and gods will also be slowed down. The cooldown time is one hour.)

Wear resistance: Indestructible. Once worn, it cannot be stolen or dropped.

Lin Tianhao had also obtained a Heavenly Punishment Ring before.

The properties of these two Heavenly Punishment Rings are exactly the same.

The two were absolutely slow, and it seemed that they were not of much help to Lin Tianhao.

Lin Tianhao directly put on the Heavenly Punishment Ring. After putting on the Heavenly Punishment Ring, Lin Tianhao's health points directly increased from 115 trillion to 129 trillion, and even... it was close to 130 trillion.

This piece of equipment increased Lin Tianhao's health by nearly 15 trillion.

This increase is still very good.

"Xue Di, I came to you this time not only because you completed the mission, but also because I wanted to talk to you again."

Lin Tianhao shook his head. "I have something else to do right now. How about this? Wait for a while and you can think about it carefully. I'm not in a hurry."

The words fell.

Lin Tianhao directly took out the Kunlun Mirror and left.

The reason why he chose to leave was because there were too few people in Zhongzhou now.

to him.

These people will not significantly increase his health.

As for Xiudeli Baihu and the others, they should leave them alone for a while and see how they react.

And next.

Normally, Lin Tianhao should change his job.

However, Lin Tianhao has no plans to change his job for the time being.

The main reason is that the super god-level hidden career transfer altar has been destroyed, and he needs to find a new super god-level hidden career transfer altar.

During this time, Lin Tianhao prepared to complete the mission of the Lord of Extreme Ice first.

He also needs to continue to gain enlightenment and improve himself.

For the next half month, Lin Tianhao continued to gain enlightenment.

The 360 emperor-level masters of the Far North Continent were all elevated to the level of the Great Emperor by Lin Tianhao using the Evolutionary Divine Liquid.

If so many powerful emperors were willing to stay, it would definitely be a great help to Lin Tianhao.

But Lin Tianhao knew very well that the probability of them staying was very slim.

The Lord of Extreme Ice offered so many good things to trade with him. To put it bluntly, she hoped that she and the people of the Far North Continent would have some room for development after leaving.

"The Way of Space, the twentieth level of the Way of Inquiry!!"

Lin Tianhao looked a little bitter.

When will this end?

If you wait another day, the enlightenment brain will cool down.

Lin Tianhao could only pray that this time by using the Enlightenment Brain, his way of space would be able to enter the realm of Tao.

Chapter 1539: Arrange the space teleportation array!

At the twentieth level of the realm of asking for the way, Lin Tianhao discovered that his control over space had become even more profound.

He can even engrave his understanding of the way of space onto props, allowing ordinary props to possess some of the characteristics of space.

such as.

Lin Tianhao tried to engrave a space inscription on the standard feather arrow.

Most archers use unlimited energy arrows, but energy arrows generally cannot add effects other than their own skills.

If you want your feather arrows to become more powerful, you have to use standard feather arrows + inscriptions! !

For example, Lin Tianhao has now engraved a space inscription on the feather arrow. After his feather arrow flies one meter, it will shuttle into the void and will not appear again until it is one meter in front of the target unit.

This is called space travel, but from a certain perspective, it can also be considered space teleportation.

of course.

There is still a certain gap between it and real space teleportation.

But Lin Tianhao could feel that his way of space should have reached the critical point.

He should have the ability to set up a small teleportation array, but the problem is that he doesn't have the array diagram.

If he relied on himself alone, given enough time, he would be able to find the teleportation array.

But what Lin Tianhao lacks most now is time.

therefore.

Lin Tianhao asked the Lord of Extreme Ice directly.

The Lord of Extreme Ice gave Lin Tianhao a secret book of the teleportation array, which recorded the requirements of the relic teleportation array.

First of all.

The first requirement, and the simplest, is to make a teleportation stone.

Teleportation stones are generally based on jade. The more advanced the teleportation array, the higher the requirements for jade.

Engrave a specific spatial inscription on the jade, and it becomes the teleportation stone.

By arranging the teleportation stones in specific positions, a teleportation array can be formed.

The whole process is relatively simple.

Teleportation arrays are divided into fixed-point teleportation arrays and random teleportation arrays.

The simplest one is naturally the random teleportation array. Just make a teleportation array and you can use it.

The location of the transmission is random.

For a fixed-point teleportation array, it is necessary to carve a fixed-point teleportation mark on the jade stone at the core of the array.

This marking is actually not difficult. For example, Lin Tianhao built a teleportation array in City A and another teleportation array in City B.

"The position between the two can be reflected on the core jade of the teleportation array."

The next day.

Lin Tianhao began to try to make a teleportation array.

With Lin Tianhao's current ability, jade is a small problem.

Especially since Lin Tianhao is currently helping the Far North Continent to build a teleportation array, materials such as jade are all provided by people from the Far North Continent.

Lin Tianhao began to make the space teleportation stone. This is the simplest one. With Lin Tianhao's current ability, he can engrave one in one minute.

A small teleportation array only requires thirty-six pieces.

After making the space teleportation stone, the next step is to set up the formation.

This is all mentioned in the secret book of the teleportation array given by the Lord of Extreme Ice. The Lord of Extreme Ice can even provide remote guidance, which makes it even simpler.

Then, a second teleportation array will be built more than 200 kilometers away from this teleportation array.

It only took three hours to complete the two teleportation arrays.

And next.

It's time to witness a miracle.

Enter the teleportation array and use the energy crystal ball to activate the teleportation array.

Three seconds later, Lin Tianhao came out of another teleportation array.

Done! !

"It doesn't seem to be that difficult." Lin Tianhao murmured to himself.

The Lord of Extreme Ice also told Lin Tianhao that he actually only needed to make a space teleportation stone. With the space teleportation stone, others could also complete the arrangement of the space teleportation array.

and.

According to the Lord of Extreme Ice, the space teleportation arrays that Lin Tianhao is currently making, each with thirty-six pieces, can teleport a distance of approximately fifteen thousand kilometers.

This is still a conservative estimate.

With every thirty-six teleportation arrays added, the teleportation distance can be doubled.

As for the specific distance, it depends on the level of the space teleportation stone.

therefore.

The transmission distance of space teleportation stones is usually measured in units of thirty-six pieces.

This distance is actually very good.

The formation is arranged with 360 space teleportation stones as the foundation, so it can teleport 150,000 kilometers.

This can be considered a medium-sized teleportation array.

Although it is not possible to cross the continent, there is no problem traveling between cities on the continent.

but.

Because the Enlightenment Brain was about to be fully comprehended, Lin Tianhao was not in a hurry.

He plans to wait and see after tomorrow.

Enlightenment, and enlightenment.

The next day.

The enlightened divine brain has finally cooled down.

Lin Tianhao used it without hesitation and began to gain enlightenment.

The Way of Space, the twenty-first level of the realm of inquiry.

The twenty-second level of the Asking Dao Realm!!

Asking the Way... the twenty-third level!!

After reaching the twenty-third level of the Way of Space, Lin Tianhao finally felt the end.

same.

The duration of his enlightenment in the divine brain also came to an end.

I haven't reached the Dao realm yet, what a pity!!

But he had already reached the end of the realm of space and Lin Tianhao could feel it clearly.

As long as he works harder, Lin Tianhao will be able to go one step further and achieve the realm of Tao.

Next.

Lin Tianhao produced another batch of space teleportation stones, and the Lord of Extreme Ice commented on it.

Every thirty-six pieces can transmit up to 110,000 kilometers! !

The Way of Space only improved the realm of asking for the way by three small realms, but it was unexpected that the improvement for Lin Tianhao was so great.

in this way.

Lin Tianhao only needs to mass-produce space teleportation stones.

The key is.

Lin Tianhao made a space teleportation stone, which is not part of the battle.

The three clones that he created from the Three Purities can help him create it.

Not only that.

Lin Tianhao's second real body can also join in to make the space teleportation stone.

in this way.

Five people worked together to make the space teleportation stone.

One person makes one piece per minute, so five people make five pieces per minute. Even if the rest time is included, there is no problem in making 250 space teleportation stones in an hour.

Thus.

Lin Tianhao can produce thousands of them in a day.

In just two days, the space teleportation stones needed by the Far North Continent were completely produced.

and.

Lin Tianhao only needs to make the space teleportation stone, and he doesn't need to arrange it.

This can save Lin Tianhao a lot of time.

After the space teleportation array was set up, the Sky Punishment Necklace in Lin Tianhao's hand was also thawed.

Holding the Heavenly Punishment Necklace in his hand, Lin Tianhao's face showed uncontrollable excitement.

Including the Sky Punishment Ring he got from Xiudeli Baihu, Lin Tianhao now has two pieces of equipment to support his job change.

If he used both of these pieces of equipment, he would be able to successfully reach the ninth level!!

After reaching the ninth level, as long as Lin Tianhao is willing, he can quickly upgrade his level to 20,000.

Chapter 1540 Heavenly Punishment Necklace!

By then.

Looking at the entire Ragnarok, there are only a few people who can suppress him in terms of level.

Sky Punishment Necklace: Unknown.

Wearing requirements: Heavenly Punishment Archer.

Effect 1: God's punishment attack speed +1, not affected by the phased reduction of attack speed.

Effect 2: Percent damage reduction by 5%, still effective against god-level attacks.

Effect 3: Can block a fatal attack, cooling time is one hour.

Effect 4: Luck +50.

Effect 5: The mind becomes clear and the speed of enlightenment increases by 50.

Effect 6: Increase maximum health by +50%.

Effect 7: Maximum armor increased by 50%.

Effect 8: Maximum magic resistance increased by 50%.

Effect 9: Absolutely immune to control (If you release it actively, you will be absolutely immune to all controls below the Heavenly Dao Saint level in the next five minutes. The cooldown time is one hour.)

Wear resistance: Indestructible. Once worn, it cannot be stolen or dropped.

The properties of this Heavenly Punishment Necklace are similar to those of the Heavenly Punishment Ring.

But what Lin Tianhao didn't expect was.

The luck attribute and enlightenment speed that the Sky Punishment Necklace gives to Lin Tianhao are several times higher than those of the Sky Punishment Ring.

The other properties are similar, nothing special.

This skill is absolutely immune to control, and it can be said that it is a skill that Lin Tianhao really needs at the moment.

As an archer, control is Lin Tianhao's weakness.

Once he is controlled, he will be very weak.

When facing Long Hong before, Lin Tianhao mainly relied on the power of the way of space to run.

If there was a head-on confrontation, he would definitely be charged to death.

This is absolutely control-free and has solved Lin Tianhao's urgent problem.

The key is.

This absolute control immunity is effective for those below the level of Heavenly Saint.

This means that even an ordinary saint-level attack cannot break Lin Tianhao's absolute immunity to control.

The strength of this Heavenly Punishment Necklace far exceeds that of other things.

With the blessing of the Heavenly Punishment Necklace, Lin Tianhao's health value increased by another 15 trillion, reaching a terrifying 145 trillion! !

Besides.

Lin Tianhao also obtained the ancient body refining technique.

This ancient body-refining technique is divided into two types. One is to strike postures according to the specific patterns above. There are a total of three hundred and sixty postures, one per day, each lasting fifteen minutes. After three hundred and sixty days, one can complete a physical transformation.

This is a slow process, so don't be impatient.

And the second one.

This is a quick method.

Use the power of nature to temper yourself.

For example, fire, ice, magma, dark corrosion and the like are all fine.

While enduring these natural forces, by practicing according to a specific training trajectory, one can quickly complete the transformation of the body.

And this.

The more you request for physical transformation, the more difficult it will be to complete it.

The same goes for posing. The first physical transformation takes one year, the second takes two years, the third takes three years, and so on.

It is not easy to rely on this ancient body refining technique to quickly complete physical transformation.

The biggest advantage of this ancient body-refining technique is that it can be replicated into a skill book and distributed directly.

Whether you are an adventurer or a professional, you can practice this ancient body-building technique.

and.

Because Lin Tianhao needed to replicate it into a skill book, there was no need to worry about people in the Alate galaxy getting it.

It will be enough to just stipulate that anyone who obtains the ancient body-refining technique must learn it immediately.

and.

Even if some leaked out, they would definitely be only a minority.

Do it when you think of it.

Lin Tianhao began to copy the skill book of ancient body refining techniques.

This is faster.

It only takes a few seconds to complete the copying of one book, and more than ten books can be copied in one minute.

The place where it was taken was where only the original skill book in Lin Tianhao's hand could be copied, which meant that no one else could help Lin Tianhao.

of course.

Lin Tianhao still handed this task over to his three clones who had transformed into the Three Pure Ones.

Lin Tianhao first gave the first batch of ancient body-refining skill books to Fatty, Monkey, and the people in the Fan Palace.

Lin Tianhao gave the second batch of ancient body-refining techniques to Mad Blade and the others, and let them distribute them among themselves.

While the others were working overtime to make space teleportation stones.

Because according to Lin Tianhao's plan, not only the Far North Continent needs a space teleportation array, but other continents also need a space teleportation array.

Wuji ascends to the heavenly palace.

Lin Tianhao came here again.

Sensing Lin Tianhao's breath, Xiudeli White Fox teleported in front of Lin Tianhao.

"Xue Di, you are finally here. I was worried that you were not going to show up."

Lin Tianhao smiled and said:

"There are benefits to be gained, so I have no reason not to come."

That's it.

Lin Tianhao put away the smile on his face and said very seriously:

"Tell me, what can you give?"

Xiudeli White Fox pondered for a moment and said:

"We know that you, Xue Di, have high demands, so we come with sincerity this time."

Lin Tianhao waved his hand and said:

"Sincerity is never as simple as just saying it."

Xiudeli Baihu didn't waste any words and said directly:

"First, the habitats of the ten gods. We can ensure that you can kill them and send them all to the list of gods."

"Second, 30 million free attribute points. This is the limit. You still need to complete certain tasks. Also, I don't necessarily have to give it to you. I can give it to other professionals."

"Third, we can guarantee that no one has ever been to the locations of the five dragon caves."

"Fourth, the Saint's Relics. Mo Wenqian said that you and I know about the Saint's Relics. I don't know if what you know is the same place as what we know, but we can tell you... two Saint's Relics."

Lin Tianhao narrowed his eyes slightly. To be honest, these four were all good, but none of them were attractive to Lin Tianhao.

The first are the ten gods. Although he can kill the gods and put them on the list of gods, the problem is that the next invasion of the Alate galaxy will most likely not involve the use of gods.

The only benefit might be his God Slayer Mark, which allows him to gain skills from these gods.

But to put it bluntly, at best it is equivalent to ten times the blessing of the gods.

With Lin Tianhao's current strength, it is not difficult for him to obtain the blessing of the gods.

Just because of seeking the blessing of the gods, the time cost seems not worth it to Lin Tianhao now.

and.

He has taken all the blessings from the gods, so what do the other adventurers have to take?

This is also an important reason why Lin Tianhao has not sought the blessing of the gods during this period.

"not enough."

Lin Tianhao answered very affirmatively.

"It is highly unlikely that the gods will participate in the war. Instead of holding on to the gods now, it would be better to send a few more great emperor-level warriors to the Conferred God List to help them reach the divine level. This will have a greater effect."

"30 million free attribute points is a little tempting, but only a little. I have many ways to get free attribute points."
