

O games 1541

Chapter 1541 Conquer the Far North Continent!

"Third, with my current status and position, if I issue a bounty order to find the dragon cave, I can find ten of them, not to mention five."

"It's the fourth one you mentioned, the Saint's Relics. This one does have a certain appeal to me."

"To be honest, the relics of the saints are relics. Who knows whether we can get good things from them?"

"There might be uncontrollable dangers in there. If I go in, not only will I not get any benefits, but I might even die in there."

Xiudeli Baihu's face darkened slightly, and he said:

"Xue Di, there are some things that we don't give, but we don't have them."

"If you want more, thirteen talent evolution flowers, fifty equipment evolution scrolls, and twenty skill star upgrade scrolls."

"These things may be easier for you, Xue Di, to get over, and less attractive to you."

"Also, all the forces under our command can join the Fan Palace, and we will only take away our trusted aides and direct descendants."

Lin Tianhao shook his head and said:

"I'm sorry, but if that's the case, I can't help you."

"What you have brought out is too little. It's not enough at all."

These guys wanted to be promoted to the Godly Realm before leaving, but what they took out were all these crappy things.

This is of no use to Lin Tianhao at all.

"If that's all you have, I'll leave first." Lin Tianhao said.

Xiudeli White Fox was a little anxious. She said:

"Xue Di, whether you help us advance to the Divine Level or not, we will leave."

"For you, helping us advance to the Divine Level is a piece of cake. You can easily get so many benefits. You have no reason to refuse."

Lin Tianhao smiled noncommittally and said:

"I'm sorry, but you didn't give me enough."

Xiudeli White Fox said with a little annoyance:

"Xuedi, you always say that we don't give you enough, but those great emperors in the East Continent didn't give you much benefit either."

Lin Tianhao shook his head and said:

"There are many people in Dongzhou Continent."

"More people means more room for them to grow in the future. When a large-scale war breaks out with the Alet Galaxy in the future, the number of people will be very important."

"especially....."

"This war is most likely a war between mortals."

"In wars between mortals, the human wave tactic is useful."

"What's more, those people in Dongzhou Continent are not bad at all."

Xiudeli Baihu wanted to say something, but Lin Tianhao had already summoned the Kunlun Mirror and returned to the Far North Continent.

He still had one last thing to do in the Far North.

That is to integrate the forces of the Far North Continent and make the Far North Continent join his ranks.

With the existence of the Lord of Extreme Ice, it is just a matter of words.

Because the people of the Far North Continent are all fanatical believers of the Lord of Extreme Ice.

Lin Tianhao was still the same as before, distributing tokens to the Fan Palace.

"Ding, congratulations, you have successfully conquered the Far North Continent, and I will reward you with +6000 billion contribution points from the Fan Palace!!"

"Ding, congratulations, you have successfully conquered the Far North Continent. We will be announcing this to all servers soon. Do you want to hide your name?"

"no."

"Announcement to all servers, congratulations to player Xue Di for successfully conquering the Far North Continent. We hereby announce this and hope all adventurers will keep up the good work!!"

After conquering the Far North Continent, Lin Tianhao's Human King Rank increased from one hundred and three to one hundred and sixteen.

This increase is even greater than the increase when Lin Tianhao conquered the Dongzhou Continent.

The increase in the power of the Human King Order is coupled with the population of more than 100 billion in the Far North Continent.

Lin Tianhao's health points exceeded 150 trillion, and it was not far from 151 trillion.

This speed of improvement is quite impressive.

Next, the integration of the inner world, Zhongzhou and the extraterritorial areas of the Shanhai Empire has not yet been completed.

But the population in these places is not too large.

but.

For now.

Compared to chewing these rotten bones, Lin Tianhao wanted to find the super god-level hidden career transfer altar.

He should change his job now.

It would be such a waste if I didn't use two pieces of Heavenly Punishment equipment to change my job.

but.

Even if you want to change jobs, there is no need to rush in these few hours.

Lin Tianhao found Berserker Blade and taught him how to set up the teleportation array.

Then trade the Space Teleport Stone to Berserker Blade.

Let Berserker Blade help set up the teleportation array.

and.

It's not free to help, Lin Tianhao is still the master of the Fan Palace.

As time went by, he had more and more rewards to give out.

For each of these teleportation arrays that you set up, you will receive a reward of 10,000 free attribute points, plus some equipment or props.

and.

Lin Tianhao also asked Berserker Blade to find the monkey. After all, how could he forget the monkey when it came to such a good thing?

Lin Tianhao gave all the space teleportation stones he had to Berserker Blade.

Next.

He then came to the sacred land of Buzhou.

The atmosphere in the inner world of the earth today is much better than before.

The main thing is that in the entire inner world, Buzhou Holy Land is the only holy land that has the final say.

Si Tianfu used some tricks, and coupled with the fact that Lin Tianhao had previously asked Si Tianfu to help his subordinates improve their ranks, this made Si Tianfu's appeal in the inner world unprecedentedly high.

When Si Tianfu saw Lin Tianhao coming, he hurried out to greet him.

"Sir, the Underworld has been thriving recently, and I now have a very high voice in the Underworld."

"If we continue to develop at this pace, I will be able to integrate all the forces in the inner world in three months at most."

Lin Tianhao nodded slightly and said:

"Thanks for your hard work."

Although Si Tianfu has joined the Fan Palace and is absolutely loyal to Lin Tianhao, he still needs to give his subordinates the emotional value they deserve.

"It is my duty to help you solve your problems and worries."

"I wonder if you have any instructions for me, sir?" Si Tianfu asked.

Lin Tianhao waved his hand and said:

"It's nothing serious, I just want to talk to Buzhou Divine Stone about something."

Lin Tianhao did not reveal anything about the ancient land of Buzhou.

The fewer people who know about this second super god-level hidden career transfer altar, the better.

after all.

Lin Tianhao didn't want to find the second super god-level hidden career transfer altar and then have it destroyed by those scum in the Alete galaxy.

Just when Lin Tianhao was about to go see the Buzhou Divine Stone, the voice of Berserker Blade called him.

"What's wrong?" Lin Tianhao asked.

Berserker Blade said anxiously:

"Boss Xuedi, the firebird that destroyed the ancient dynasty secret realm is here again. This time it's directly over the Mountain and Sea Empire. Wherever it passes, countless fire rains are falling. A large number of people are engulfed by the fire rain, causing serious casualties."

While speaking, Mad Blade also sent a location to Lin Tianhao.

Chapter 1542: Billion-dollar bounty!

Hearing what Mad Blade said, Lin Tianhao's face darkened.

The immortal bird had hidden before and he couldn't find it.

Now this immortal bird actually dares to appear.

Slaughtering the people of the Shanhai Empire and working for those bastards in the Alate Galaxy.

Just for these two reasons, it would not be too much for this immortal bird to die ten times.

Lin Tianhao was thinking while he was taking out the Kunlun Mirror.

This time, the Immortal Bird attacked directly against the Shanhai Empire.

No matter how you look at it, it seems like she is deliberately trying to attract him over.

Is this another strategy to lure the tiger away from the mountain?

But if this is a strategy to lure the tiger away from the mountain, what do the people of the Alate Galaxy want to do?

Say.

He is now here to find the Buzhou Divine Stone. If these guys from the Alate Galaxy have any purpose, they can do it.

unless.

Whatever actions they take are related to the Buzhou Divine Stone.

Not right either.

After all, I just arrived here, and those guys in the Alata galaxy should not know my whereabouts yet.

Do they want to attack Zhongzhou Continent? Or the Far North Continent?

Because judging from the intelligence information of the Alete Galaxy, the information they received should be that they are in these two places.

Lin Tianhao didn't figure out the reason yet, but his actions were not slow at all. He directly summoned the Kunlun Mirror and appeared at the location where the Berserker Blade was sent.

As soon as he appeared, Lin Tianhao saw countless fire rain falling from the sky.

The immortal bird flapped its wings, and its body that covered the sky and the sun looked like a giant beast of disaster that could destroy the world.

At this moment, a server-wide announcement sounded.

"Announcement to all servers: The world boss, the Immortal Bird, has appeared. A billion bounty has been issued. Killing the Immortal Bird will earn you a billion free attribute points. Free attribute points will be allocated based on your contribution to the kill. Adventurers are limited in their actions, and summoners can use summoned beasts."

"All server announcement, the world boss, the Immortal Bird..."

.....

This server-wide announcement sounded one after another, instantly making many adventurers excited.

"How much? One billion free attribute points?"

"If the damage contributed by the kill is higher, it can easily give tens of thousands of free attribute points."

"Tens of thousands? You're laughing too easily. If Xue Di takes action, he can get 500 million free attribute points by himself. Do you believe it?!"

.....

While countless people were discussing, some adventurers also started to attack the immortal bird.

below.

A totem stone pillar shot up into the sky and smashed into the flying immortal bird.

Lin Tianhao took a quick glance and found that it was the monkey who made the move.

The monkey is a skilled and bold person. He is the first to attack and can easily be targeted by the immortal bird.

In fact, this is indeed the case.

Before the totem stone pillar touched the immortal bird, the immortal bird opened its mouth and spewed out a ray of fire.

While the flame ray forced back the totem stone pillar, it also swept towards the direction where the monkey was.

But the monkey turned into a shadow and rushed towards the immortal bird.

In the entire Ragnarok, Monkey's movement speed is undoubtedly the fastest among all adventurers.

of course.

But compared with Lin Tianhao after he activated the invincible virtualization, he is not on the same level.

but.

If it is a normal combat state, no one can compare with Monkey King's movement speed.

Unless there is a god-level hidden profession that specifically stacks movement speed.

The monkey took action and interrupted the immortal bird's continued killing.

Lin Tianhao could have taken action, but at this time, he still wanted to wait and see what masters Ragnarok had now.

A bounty of 1 billion free attribute points is too attractive.

As long as you are a capable adventurer, there is no reason not to take action.

and.

The monkey has taken action, what about the fat guy?

The fat man and the monkey have always acted together.

Just as Lin Tianhao was thinking this, a huge shield fell from the sky and smashed into the immortal bird.

The immortal bird was not afraid at all. After all, to it, neither the fat man nor the monkey was enough to threaten it.

"Boom boom boom——"

The monkey then told the immortal bird the consequences of looking down on him.

Three hundred sticks in one second, the totem stone pillar in the monkey's hand seemed to be smoking.

A monkey's attack may not be too strong, but the monkey's strength is in all aspects.

What best reflects Monkey King's strength is probably his attack speed and movement speed.

Besides.

Because Monkey King has been transformed into a Magic God General, his attacks will inflict both physical damage and magical damage.

Coupled with the monkey's natural talents in morality, intelligence, physical fitness and aesthetics, his attack power and magic power are not low.

The lethality of attacks of this frequency cannot be underestimated.

A sharp roar emanated from the mouth of the phoenix, and a field of fire unfolded.

With its strength, combined with the fire field, it is impossible for ordinary adventurers to even get close to it.

"call out--"

The domain of the immortal bird had just begun to unfold when a flying sword cut through the sky and crashed into the domain of the immortal bird in an instant.

"Get down here, Fatty!"

Two pairs of green wings condensed on the fat man's back.

These two pairs of green wings were not too big, but they could carry the fat man soaring into the sky.

"Xuanwu's true form: Aegis is coming!"

A huge shadow of a black tortoise appeared behind the fat man, and a shield that covered the sky and was like a tortoise shell fell from the sky and smashed towards the immortal bird.

A hint of fear flashed in the eyes of the immortal bird, and it flapped its wings, wanting to escape from here immediately.

But as soon as its wings flapped, it was greeted by countless ice shields.

There were so many ice shields that Lin Tianhao's scalp tingled.

"The number of ice shields here is over 500,000. How did that girl release 500,000 ice shields in an instant?"

See you at this moment.

There was a woman in the sky.

She stood on the void, without the help of wings or flying mount, just standing in the air.

The ice shield began to break, but as soon as it broke, a large number of ice shields appeared again to prevent the immortal bird from leaving.

"Boom——"

When the huge tortoise shell shield fell, the domain of the Phoenix Bird shook continuously. The powerful force caused the huge body of the Phoenix Bird to drop a few points from the air.

Lin Tianhao raised the corner of his mouth. It seemed that the fat man and the monkey were both quite powerful.

The totem stone pillar in the monkey's hand also swelled with the wind.

He swung the enlarged totem stone pillar and smashed it down fiercely.

The powerful force caused the body of the immortal bird to sink again.

Both of them wanted to force the immortal bird down from the sky.

If they could fight the Immortal Bird on the ground, their chances of winning would be greatly improved.

Watching them fight, Lin Tianhao was not in a hurry to take action.

He also wanted to see how far Fatty and the others could go.

And right now.

The flying sword just now flew over again.

The flying sword hovered in front of the immortal bird and hit it again.

"clang--"

The flying sword hit the realm of the immortal god, and the entire realm of the immortal bird trembled slightly.

Chapter 1543 I'm Really Not a Scumbag!

"squeak--"

The immortal bird screamed again, and one after another illusory immortal birds flew out of its body and flew towards the monkey, the fat man and others.

"Om--"

At this moment.

A magic circle rose up.

Iron chains as thick as buckets flew out from the magic circle.

These chains were covered with tiny runes, emitting a strange aura, and they were entwined around the immortal bird.

"Amitabha!!"

Followed by.

A huge shadow of Buddha appeared, "Great Compassionate Hands!!"

A huge Dharma-seal palm descended from the sky, like a Five Finger Mountain, pressing down with an earth-shattering sense of oppression.

"Hahaha, since they've already taken action, how can I be left out?"

Another young man came riding on the wind. As he waved his hand, heavy rain began to fall between heaven and earth.

The rain fell on the fire field of the Phoenix, and actually suppressed it a little.

"You guys are still a little bit behind. We've been fighting for so long but we can't even break into the territory. Even scraping is not as good as you guys."

Another tall and thin young man stepped out, holding a dark golden spear.

The moment he finished speaking, he actually broke through the territory of the Immortal Bird and came behind the Immortal Bird. His spear even poked towards the butt of the Immortal Red Girl.

This blow was very harmful and even more insulting.

The phoenix also realized that the spear fired by the young man with the spear was ill-intentioned, and a ring of resistance fire lit up around it, trying to force the young man with the spear back.

But golden runes flashed on the skin of the young man with the spear, resisting the fire ring but failing to repel it.

"Pfft--"

One shot, chilling and exciting! !

"squeak--"

A shrill scream resounded through heaven and earth, and the immortal bird turned over and slapped the young man with the spear with its wings.

This young man with the spear is truly extraordinary.

Facing the attack from the immortal bird, his body actually disappeared on the spot.

"Backtracking?"

Hei Tianaozhen's voice sounded somewhat surprised.

"No, it should be a very advanced teleportation. When he entered the realm of the immortal bird, he left a shadow outside. After dealing full damage, he teleported again and returned to the place where he left the shadow."

The voice of Burning Heart Nightmare slowly sounded.

"The domain of this immortal bird is of a fairly high rank. The fact that this Shadow Shift can break into its domain is enough to show how powerful this skill is."

Nidlifu's voice also rang out, "These adventurers have many tricks, but they are all too fancy. Except for the mage who has grasped a little bit of the true meaning of simplicity, the others are not very good."

Ned Lev's comment is quite sharp.

After all, it is already amazing that these adventurers were able to besiege the Phoenix without being defeated.

Although many of the people he could hit were currently the top professionals in Ragnarok.

"Xuedi, if this is the top combat power of you adventurers, then when facing the Alete Galaxy, you are no different from fighting alone."

Lin Tianhao's mouth twitched and he said:

"There are still more than two years left, maybe we still have a chance."

"It's difficult, unless you can get a super treasure that can increase the speed of enlightenment in a wide range."

Nidlifu was still very pessimistic. "But even if we really find it, more than two years is too short."

"Especially since the top mortals in Shenzhou are unwilling to stay."

Lin Tianhao hesitated and said with a smile:

"That's not necessarily true. I think that they have probably only contributed 30% of their efforts."

"For something like a world boss, the person who kills it will definitely get the most rewards."

"If you want to take this great head, you have to use some tricks."

Lin Tianhao's words had just fallen when countless flying swords broke through the air. Tens of thousands of flying swords were densely packed and continuously crashed into the territory of the Immortal Bird.

"If you want to steal the heads, at least break through this area first."

Jin Delan's voice sounded.

Now in Ragnarok, he is probably the only one who can control tens of thousands of flying swords at the same time.

"You're right, stop slacking off." The young man with the spear also took a step forward, with a cold light flashing on the spear in his hand.

"This next shot is going to be really cool."

As the young man with the spear finished speaking, the sky suddenly darkened, as if it was almost getting dark.

In the entire world, it seemed that only the tip of his gun was still flashing with cold light.

"This is....."

Hei Tian Aozhen narrowed his eyes slightly, obviously a little surprised.

"It doesn't look like a skill. What on earth is this? It's as if it has borrowed the power of heaven and earth from this world in an instant."

"Well, it is purely to draw upon the power of heaven and earth."

Ned Lev's voice trembled a little.

"It is difficult to achieve this level even for gods."

"See? The fire field of the immortal bird has become somewhat eclipsed. This is because the power of heaven and earth has converged on the spear of this young man."

Only then did Lin Tianhao take the young man seriously.

His nickname is easy to remember.

I'm really not a scumbag!

No matter how you look at it, this nickname is something only a scumbag would give.

However, his shot, especially when used in this situation, did look very cool.

I guess it will charm a lot of crazy girls again.

"boom--"

With his spear extended out, he seemed to have become the center of this world.

The moment the spear collided with the Phoenix's territory, cracks appeared on the Phoenix's territory.

"Break it!!"

Above the sky, thunderclouds rolled, and several bolts of lightning as thick as buckets fell from the sky and hit the territory of the immortal bird.

The domain of the Immortal Bird, which had already suffered severe damage, could no longer hold on and was shattered in the thunder.

"Lightning-inducing technique?"

"He must have great attainments in the law of thunder to be able to attract such heavenly thunder."
Heitian Aozhen said.

"You tell me, should I take action?"

The domain of the Phoenix has been broken, and we will probably be able to see some more powerful things next.

Lin Tianhao had just finished speaking when something unexpected happened in the sky.

With a "whoosh" sound, a red metal fragment pierced directly through the head of the immortal bird.

The flying speed of the metal fragment was so fast and mixed in with thousands of flying swords that the Immortal Bird did not even notice it.

A fatal blow!!

-1526 million! !

The one who made the move was Jin Delan, and his attack caused over 100 billion damages.

but.

This amount of damage is just a drop in the bucket compared to the immortal bird which has trillions of health points.

In other words, it was a fatal blow, otherwise Jindelan's attack would never have caused such high damage.

"What it is?"

Burning Heart Nightmare's eyes widened, his face full of horror.

Chapter 1544 Adventurers fight against the immortal bird!

"A fragment of the holy vessel?"

Nidlifu said somewhat uncertainly.

"The timing of this attack was very good, but unfortunately, his own output capacity is too low."

"If it was Xue Di who delivered this attack, the Immortal Bird should have been defeated."

Lin Tianhao raised his eyebrows and said:

"Among the current professionals, being able to deal such high damage is considered very powerful."

A single strike could deal over 150 billion damages. Apart from Lin Tianhao, few people could possibly deal this kind of damage.

"Sacrificial Array!!"

A formation rose up, and countless souls grabbed the immortal bird in their hands.

Lin Tianhao was somewhat surprised, and Hei Tianaozhen exclaimed:

"This formation master has an active mind. He actually uses the sacrificial formation."

The sacrificial array is to sacrifice something and then gain power.

The level of power gained depends on what is sacrificed.

And this formation master is now sacrificing the immortal bird.

"squeak--"

The phoenix roared angrily, flames rising from its body, and it wanted to fly into the sky and escape from the battle.

But Gui Ye Wuqing, who was a mage, was constantly releasing ice shields. These ice shields were endless and blocked the way for the immortal bird to leave.

The key is.

Lin Tianhao could feel it clearly.

Gui Ye Wuqing's ice shields all contain the power of the law of ice, which means that it is not easy even for the immortal bird to break these ice shields.

Unexpected.

Buddhist sounds were heard, and these sounds turned into tiny tadpole characters and flew towards the immortal bird.

These golden tadpole characters could not be stopped and fell onto the immortal bird and began to flow around it.

-100 million! !

-200 million! !

-300 million! !

.....

For every tadpole mark on the Phoenix's body, the damage it sustains increases by one million.

and.

This is a continuous injury that has never stopped.

In the blink of an eye, thousands of tadpole characters had fallen on the immortal bird.

"Meow--"

A cat's meow sounded without warning.

Followed by.

Then a cat bigger than the phoenix appeared.

This is not a phantom, but a corpse!!

The cat turned into a shadow and rushed towards the immortal bird in an instant.

The phoenix flapped its wings frantically, trying to distance itself from the giant cat.

But its efforts were doomed to be in vain, as there were too many people besieging it.

Right now, there are at least 8,000 adventurers besieging the Phoenix Bird.

They can be said to be like the Eight Immortals crossing the sea, each showing their magical powers.

Although the Phoenix could occasionally kill some adventurers, new adventurers would soon take their place.

The cat moved and slapped the Phoenix, and a flame shield appeared on the Phoenix.

just.

The flame shield shattered the moment it appeared.

It wasn't just the giant cat's claw that broke it, but the cat used at least thirty claws at that moment.

Because the giant cat waved its claws so fast, it even looked as if it had suddenly grown four claws.

"So fast!!"

Lin Tianhao was secretly shocked. With this attack speed, perhaps only a monkey could compare with it.

"Su Li..."

Lin Tianhao was secretly shocked. When this giant cat just appeared, Lin Tianhao felt that it was somewhat familiar.

It turned out to be an enlarged version of the cat in Su Li's arms.

but.

This was something Lin Tianhao had never expected. The little kitten in Su Li's arms had grown to this point.

It seems that while he is growing, these top adventurers of Ragnarok are also growing, and it seems that they are growing quite well.

The immortal bird tried its best to force the giant cat back.

But just as it forced the giant cat back, a woman with a curvy figure appeared in front of it.

"Are you ready to die, bird?"

The woman's voice sounded provocative.

The immortal bird was in a rage at this moment. This woman was so provocative that she would probably face the wrath of the immortal bird.

"squeak--"

The phoenix bird let out a sharp roar and flew towards the woman regardless of anything.

only.

Before the immortal bird even got close to the woman, its body began to turn to stone.

"It's over, bird."

The woman's confident voice sounded.

Lin Tianhao was a little surprised, "Medusa's petrification?"

Although Medusa's petrification does exist, it is not as powerful as imagined.

The fact that this woman was able to petrify the immortal bird shows how strong her petrification ability is.

"There are indeed many hidden talents among the adventurers, but unfortunately, they have too little time to develop. If they can develop longer, perhaps the Galaxy World will be able to change its destiny."

Lin Tianhao took a deep breath. The adventurers grew much faster than the NPCs in Shenzhou.

Among these original NPCs, those who can grow to the ninth level can be considered very powerful.

It may take dozens, hundreds, or even thousands of years of hard work to reach the realm of the ninth level.

And in just over two years, a group of these adventurers from Blue Star have reached the Ninth Revolution.

If they were given twenty years, these adventurers from Blue Star might really have a chance.

The immortal bird began to petrify, giving people hope.

"Life Sacrifice: Fearless Charge!"

The fat man's body turned into a stream of light and crashed straight into the huge body of the immortal bird.

Jin Delan also used the fragments of the holy weapon to continuously pierce the body of the immortal bird.

It can be said.

The moment the Phoenix was petrified, these adventurers began to attack frantically.

Various attacks fell madly, and the health bar of the Phoenix began to drop at a speed visible to the naked eye.

Lin Tianhao still had no intention of taking action. If they could get rid of the Immortal Bird and get the 1 billion reward, it would not be a bad thing for Lin Tianhao.

The battle between the Galaxy World and the Aleta Galaxy is not just his business.

He needs help from others.

The people who took action this time basically represent the top batch of Blue Star adventurers.

If we give them resources and time, with more than two years left, it is still worth looking forward to the heights they can reach.

and.

Because Lin Tianhao's health points are too high, it is very difficult for him to get a reward like grade +1.

But it's different for other adventurers. If they have enough opportunities, they still have a good chance of getting rank +1.

The health bar of the petrified phoenix was quickly emptied.

Although it has high health points, it cannot withstand the repeated attacks from so many top adventurers.

"Is it over?" Many adventurers breathed a sigh of relief.

Chapter 1545 The immortal bird returns from Nirvana!

Even though the health bar of the Phoenix had been emptied, no one present let their guard down.

Because the announcement of the killing of the Phoenix Bird to the entire server has not yet been issued.

"Be careful!!"

I'm really not a scumbag, he reminded himself, and then he held the spear across his body and looked at the corpse of the phoenix vigilantly.

"Burning blood to be reborn, returning from Nirvana!"

Ned Liv's solemn voice sounded.

"It seems that this billion-dollar bounty is not so easy to get."

Just as Nidlifu finished her words, another server-wide announcement sounded.

"Announcement to all servers: Since the Immortal Bird has returned from Nirvana, the bounty reward will be multiplied five times after the kill. We hereby announce this and hope that all adventurers will keep up the good work!!"

.....

Hear this.

Lin Tianhao was a little moved.

The bounty reward is multiplied by five times?

Wouldn't this 1 billion bounty become a 5 billion bounty?

5 billion free attribute points, even if Lin Tianhao only took one-fifth of them, that would still be 1 billion free attribute points.

"I'm a little excited."

There was an extra scroll in the monkey's hand. "It seems that I have to fight hard today. If I can get more free attribute points, I will take off right away."

Monkey's talent requires a lot of free attribute points.

Lin Tianhao hesitated for a moment, but still took out the longbow.

Five billion free attribute points, this attraction is too great.

Even if it's Lin Tianhao, I'm unwilling to give up.

The red light inside the immortal bird became stronger and stronger. After a while, a human hand stretched out from the petrified immortal bird.

Followed by.

A tall, handsome middle-aged man in a fiery red robe appeared in front of everyone.

There was still anger in his eyes as he glanced at the adventurers around him.

"I should thank you. If that's the case, I'll sentence you to a hundred deaths."

As the middle-aged man finished speaking, fiery red curse marks appeared between the brows of the people who were besieging him.

Area-locking skill!!

Lin Tianhao was slightly surprised.

"After this immortal bird completed its transformation, it seems to have become even better."

Ned Liv nodded and said:

"This is natural. The transformation of the Immortal Bird is equivalent to a level upgrade. This span of strength is normal."

Under this curse, half of the adventurers who besieged the Phoenix died instantly.

The remaining professionals were also dying at an alarming rate.

"Archangel Advent: Holy Light!"

A soft voice was heard, and a gentle light spread to the world, and the fiery red mark began to dissipate.

The person who took action was a priest.

The priest did not stop and continued to wave her staff.

"Light of Silence, Seal of Curse, Listen to the Demonic Voice of Sin!"

Several rays of light enveloped the immortal bird.

Flames vibrated out from the body of the immortal bird, shattering all of the light.

"Reverse: Fire Dance and Blue Lotus Rain!"

Green flaming lotuses flew in all directions.

"Eternal Frost, Freeze!"

A stream of cold air spread rapidly in the direction of the blue flame lotus, instantly freezing a large number of blue flame lotuses.

But it was only frozen for a moment, and then the ice shattered into pieces.

"All over the sky, infinite sticks!"

The monkey also attacked again at this time. His body turned into thousands of clones. Each clone held a totem stone pillar and attacked the immortal bird from different angles.

Flames spread out from the body of the Phoenix, and the monkey seemed to have anticipated it. He retreated and avoided the Phoenix's fire attack.

Lin Tianhao narrowed his eyes slightly.

The monkey's tens of thousands of clones were actually a little hard for him to understand.

"This should be related to the scroll he just used. At this stage, he personally should not have the opportunity to learn skills of this level."

"and."

"Even if he can get access to it, he probably doesn't meet the requirements to learn this skill."

After the monkey took action, the fat man also launched a charge at the immortal bird.

The 1 billion bounty has been raised to 5 billion. It's impossible not to be excited.

"Compassion!!"

A Buddha's hand seal seemed to travel through the void and slammed towards the immortal bird.

The immortal bird did not sit still and wait for death. He raised his hand and fire from the sky descended upon the earth.

The heavenly fire turned into a flaming sword and fell into the hands of the immortal bird.

The immortal bird held the flaming sword in his hand, and his aura instantly rose. With every move he made, blazing flames spread out in all directions.

This time.

Gui Ye Wuqing, who was a mage, could no longer stop the pace of the immortal bird.

Even the immortal bird has set its sights on her.

The immortal bird took a step forward, and a huge flaming lotus rose from its feet, spreading in all directions.

The fire force that was so powerful that it seemed to destroy the heaven and earth instantly crushed all the professionals who approached him.

"Ultimate Protection: Damage Transfer!"

The fat man growled, and a shield of light fell on the monkey.

The fat man's health instantly dropped by 5%!!

He endured the damage that the monkey should have endured, and the price was huge.

Lose 5% of your health in an instant!!

This is already very scary.

To know.

The fat man perfectly inherited Lin Tianhao's health.

With a health value of over 15 billion, a 5% drop would amount to 700 to 800 billion in damage.

This alone is terrifying.

Lin Tianhao narrowed his eyes slightly, "Fatty's damage transfer should be doubled."

Although both are damage transfers, the fat man's damage transfer is very different from his.

The fat man's damage transfer can transfer the damage suffered by teammates.

Although the fire lotus that the Phoenix Bird just released had explosive damage, it shouldn't have been so terrifying.

After all, this is a large-scale skill, not a fixed-point burst method.

The only explanation is that when the fat man transfers the damage borne by his teammates, he will suffer more damage.

For example, the monkey should bear 100 billion damage, but the fat man transfers it to himself, and this 100 billion damage may become 500 billion or even 1 trillion to him.

Lin Tianhao was not sure exactly how many times it was.

But what he could be sure of was that it must have doubled.

but.

What surprised Lin Tianhao was.

Gui Ye Wuqing, who was a mage, was not killed either.

She was in very bad condition at this time, with less than one tenth of her health remaining.

But she actually managed to withstand the attack from the phoenix.

then.

Lin Tianhao saw a scene that even he found incredible.

The mage Gui Ye Wuqing was seen waving her staff, and in an instant countless beams of healing light fell on her.

then.....

Gui Ye Wu Qing, who was already at low health, instantly regained full health!!

"How on earth did she do that? She released tens of thousands of healing spells in a single instant!!"

Chapter 1546: Tens of thousands of treatments per second!

Don't say it's Lin Tianhao.

Even Nidlifu was surprised when she saw the mage Gui Ye Wuqing take action.

"Skills usually have a cooldown. When she used the ice shield before, I thought it wasn't a skill ice shield."

"They are ice shields condensed by the Law of Ice. As long as her attainments in the Law of Ice are high enough, and with the assistance of some high-level props or equipment, it is possible to cast so many ice shields at once."

"But when I saw her performing the healing spell, I realized that maybe it wasn't because of the law."

As soon as Nidlifu finished speaking, the uncertain voice of Burning Heart Nightmare sounded.

"Is there a possibility that it is because of the law?"

"She has a high level of attainment in the Law of Ice, and the healing is done with the power of the Law of Wood. Her attainment in the Law of Wood is also very high."

The voice of Pluto Bai Xiaofeng also sounded at this time.

"It's not just the wood-based healing technique, but also the tens of thousands of healing beams just now, and the power of the water-based law."

Ned Liv was stunned for a moment, and said almost subconsciously:

"This...is unlikely."

"Ragnarok has only been open to these adventurers for more than two years. It is almost impossible for them to reach a relatively high level of attainment in multiple laws."

Burning Nightmare took a deep breath and said:

"Senior, you are just a projection, your perception is not that strong, but we can sense it clearly."

"She... is indeed a little outrageous."

Ned Lifu frowned and said in a deep voice:

"Shouldn't it be? Is it an epiphany? It shouldn't be. Even if she really has a high level of attainment in several laws, wouldn't it consume energy when she performs it like this?"

Burning Nightmare thought for a moment and said:

"In our parallel world, there once appeared a wizard who had a fatal flaw, which was that she could only cast basic spells."

"And the benefits are also obvious, that is, her skills have no cooldown, no consumption, and all skills can be infinitely upgraded."

That's it.

Burning Nightmare hesitated for a moment before continuing:

"Is this girl also gifted in this way?"

"Whether it's ice shield or healing, they are both basic spells. The number she released and the power of the skills are consistent with the situation of our parallel mage."

Lin Tianhao was also a little surprised.

This should be a restrictive talent type.

He sacrificed the mage's most representative forbidden spells and a large number of high-level spells, but achieved extremely high achievements in basic spells.

For normal skills, ten stars is the full star, but he can release skills with no consumption and no cooldown, and there is no star limit for his skills. What does this mean?

This mage can upgrade his skills to ten stars or even twenty stars in a short period of time.

But is this mage Gui Ye Wuqing the same as the one Burning Heart Nightmare described?

Lin Tianhao was not sure.

At this time, the battle between these adventurers and the Phoenix has not ended. Monkey, Fatty, the mage Gui Ye Wuqing, and Jin Delan who controls the flying sword from a long distance have become the main forces.

The other adventurers who approached the Phoenix were all killed by the flaming lotus.

but.

Lin Tianhao did not see his sister make a move, nor did he see Glasses make a move, and he didn't know what they were doing.

The fat man stepped forward as the core tank, and the mage Gui Ye Wuqing stopped defending and started attacking.

The priest in the distance also waved his staff and cast one buff after another.

The battle has begun to become tense.

Because the immortal bird has a very strong ability to recover blood after its transformation, it is still too difficult for them to kill the immortal bird with their combat power.

"It seems like I still have to take action." Lin Tianhao said with a smile.

Nidlifu nodded gently, "This immortal bird has completed its transformation. If you, Xue Di, can kill it, send it to the Conferred God List, and then upgrade it to a higher level, that would be a great help."

Lin Tianhao did not comment. This immortal bird had killed too many people.

Lin Tianhao was also considering whether to put the Immortal Bird on the List of Gods.

And the reason is also very simple.

If the Immortal Bird is allowed to be included in the list of gods, then those guys in the Alite galaxy may be able to release some other powerful monsters in the future.

These monsters released by the powerful beings of the Alete Galaxy would think, let them make trouble, because the worst result would be being listed on his list of gods, not real death.

such.

He will be busier later.

especially.

There is a high probability that he will explore Jiuyou and Tiangong later.

He himself didn't know what he would encounter in Jiuyou and Tiangong.

and.

After going to Jiuyou and Tiangong, it is hard to say whether he can come back at any time.

After all, his Kunlun Mirror was not so useful in the Dragon Cave before.

Take back your thoughts.

Lin Tianhao has already started drawing his bow and drawing his arrow.

The immortal bird must die, but Lin Tianhao still needs to consider whether to include the immortal bird in the list of gods.

Feeling Lin Tianhao's feather arrow approaching, the immortal bird finally showed a trace of panic in its eyes.

Lin Tianhao's health points now exceed 150 trillion!!

With Lin Tianhao's current output capacity, as long as one arrow hits the target, the immortal bird will be doomed.

"Om-"

Before Lin Tianhao's feather arrow hit the immortal bird, a flaming palm condensed around the immortal bird and grabbed Lin Tianhao's feather arrow tightly.

But Lin Tianhao's attack speed was so fast that feather arrows flew towards the immortal bird at unpredictable angles.

More and more flaming hands appeared around the immortal bird, constantly grabbing Lin Tianhao's feather arrows.

However, the flaming palm could only hold its own against Lin Tianhao's feather arrows, and could not destroy them.

"It seems that this immortal bird has been sealed for too long. It has completed a transformation. It should be able to smash your arrows."

The voice of Pluto Bai Xiaofeng sounded, "But he seems to be able to only restrict your feather arrows, sir."

Lin Tianhao smiled and said:

"Isn't this just perfect? Let's get this over with quickly so we can do other things."

however.

Soon Lin Tianhao discovered that something was wrong.

Because he had already shot thousands of feather arrows.

So many feather arrows were all caught by the flaming palm, with no intention of breaking through.

"He seemed to do it on purpose."

Lin Tianhao quickly saw the problem.

The immortal bird was able to catch thousands of his feather arrows. Lin Tianhao didn't quite believe that it didn't have the ability to destroy its feather arrows.

The only explanation is that this immortal bird has another purpose.

"Could it be..." Ned Lifu thought for a while, as if he had some guesses.

Chapter 1547: What a powerful sword!

"He wants to use the power of your arrows as fuel to propel him forward. As long as he can control the direction and strength, he will be able to escape from the battlefield at an astonishing speed."

As soon as Nidlifu finished speaking, the body of the phoenix turned into a stream of light and was about to leave the battle circle.

"Absolute stand!"

If it weren't for Nedliv's reminder, the immortal bird might have really escaped with the help of the propulsion of his feather arrow.

But fortunately, Lin Tianhao's reaction speed is even faster.

Directly restrict the actions of the Phoenix with an absolute stance.

The expression of the Immortal Bird suddenly changed. He looked at the barrier of absolute position, his expression becoming extremely sinister.

But when he saw Lin Tianhao, he was not afraid.

"The reward of 5 billion free attribute points should be very tempting to you."

"But it's wishful thinking for you to kill me by yourself."

Lin Tianhao smiled slightly and said:

"Whether it's just a foolish dream or not, you'll know after trying it."

Lin Tianhao unfolded his three heads and six arms and increased his attack speed to the maximum.

"Fire Spell: Burning Heart!!"

The phoenix released its attack, but the space around Lin Tianhao seemed to have frozen. Its attack ran around in the space but could not hit Lin Tianhao.

This is a spatial defense technique developed by Lin Tianhao himself.

If you use the space shield to block the attack head-on when encountering such a powerful opponent, it will be easily shattered.

But if the spatial barrier is at an inclined angle, it can reduce a large part of the force of the attack.

If you change the tilt angle to an arc and slightly adjust the direction, you can direct the attack to other places.

This is actually inspired by the shield warrior's 100% blocking ability with the shield.

If a shield warrior wants to block the opponent's attack 100%, the skill of unloading force is the key.

If your opponent strikes with 10% force, you can remove 70% of the force, and there is a high probability that you can completely block the remaining 3%.

After the law of space reached the 23rd level of the realm of asking for the way, just talking about the power of the law, Lin Tianhao was not afraid at all even if he faced an existence like the immortal bird.

As Lin Tianhao targeted the Immortal Bird with more and more arrows, the Immortal Bird also felt obvious pressure.

Especially in the absolute position, the overall attributes of this immortal bird dropped by 20%.

"Boom boom boom——"

The flaming palms exploded one after another, and Lin Tianhao's feather arrows also exploded.

as predicted.

This immortal bird has the ability to destroy his feather arrows.

He was able to destroy so many arrows at once.

"Xuedi, you are not that good. You actually want to eat all the food by yourself. With such a high reward, can you eat it all by yourself?"

The immortal bird looked at Lin Tianhao with a playful expression.

Just this one night, Lin Tianhao felt himself burning with desire, with countless desires surging from his heart.

Greed, anger, ignorance, love, hate and sorrow!!

All kinds of desires and emotions surged into Lin Tianhao's heart like a flood breaking through a dam.

"Supreme Law: Holy Purification!!"

A beam of light fell on Lin Tianhao, and the emotions in Lin Tianhao's heart began to dissipate.

And during this period of time, the immortal bird had already come close to Lin Tianhao.

"ended."

The flaming sword condensed from heavenly fire in the hands of the immortal bird has reached Lin Tianhao's forehead.

A mysterious force imprisoned Lin Tianhao. Countless complex runes were flowing on the flaming sword. He wanted to gather the laws of space, but it seemed too late.

The laws of space had just gathered together a little bit, and actually began to melt in the flames.

The three heads and six arms were broken in an instant.

It happened so quickly, in less than 0.01 second, the Phoenix's Skyfire Sword had already chopped Lin Tianhao's forehead.

“A fatal blow!!”

"-3105 billion!!"

It was a critical hit, and because of it, the Phoenix Bird's all-out attack inflicted a terrifying amount of damage.

Lin Tianhao's health suddenly dropped by 500%!!!

If there had not been a scarlet damage number appearing above Lin Tianhao's head, the Phoenix would even have suspected whether Lin Tianhao had just used some invincible skill.

"How...how is it possible!!"

The Phoenix couldn't believe his eyes, because the sword he just swung was a move that mobilized all the strength in his body.

It can be said.

Thousands of years of accumulation have all been concentrated in this one knife.

result.....

That's the only damage?

That's right.

The damage value of 500 billion is already very high, but the Immortal Bird still finds it incredible.

"What kind of pervert are you?!"

Only the exponentially increased damage from Long Hong posed a threat to Lin Tianhao.

High-burst attacks like the Phoenix Bird are actually useless to Lin Tianhao.

"The damage of your attack is indeed very high." Lin Tianhao said with a smile.

"Unfortunately, it's not enough, far from enough!!"

The immortal bird was terrified. He retreated at a high speed, but his mind was frantically thinking of a countermeasure.

The main reason is that this is too unbelievable.

Under normal circumstances, Lin Tianhao's physical transformation would have exceeded three hundred times, plus the damage reduction from Lin Tianhao's many Heavenly Punishment equipment.

In other words.

The damage caused by the fatal attack of the Immortal Bird just now was actually at least one hundred trillion damage! !

Although there is the factor of increased damage due to a critical hit, the damage caused by the Phoenix's attack just now should not be underestimated.

Damage stacking on a critical hit is undefined.

The minimum is five times, and the maximum is said to be twenty times.

If it is the minimum five times, the damage contained in the attack just now by the Phoenix Bird would exceed twenty trillion.

Even if calculated based on the maximum multiple that Lin Tianhao knew, which was twenty times, the Phoenix Bird still caused five trillion damages with this attack.

This burst damage is still very strong.

It is estimated that in the entire Ragnarok, only Lin Tianhao and Fatty can withstand this attack. If it were anyone else, they would definitely die from this attack.

This is also why the Immortal Bird just said so confidently that it was over.

Because he was very clear about the power of the previous knife, he didn't think that there was any adventurer who could withstand his knife at this stage.

Can bear fruit.

Leave him stunned.

Not only did Lin Tianhao catch it, but his health bar didn't even change.

"Haven't you faced the reality yet?" Lin Tianhao said calmly.

"I can withstand your attack, but can you catch my arrow?"

The immortal bird had a sinister look on its face.

An arrow?

Feeling the powerful force contained in Lin Tianhao's feather arrow, the immortal bird did not respond after all.

"As expected of you, the world-famous Snow Emperor. It's a pity that you can't kill me. I am immortal and I will never die!!"

Chapter 1548 The final counterattack of the immortal bird!

Lin Tianhao spoke calmly and said:

"Since you are immortal, what's the harm in taking my arrow?"

While Lin Tianhao was speaking, he continued to shoot arrows from his heart.

The arrow was still some distance away from the immortal bird when it was blocked by the flaming palm.

"We can't tell the winner if we keep on being in this stalemate." The Phoenix said in a cold voice.

Lin Tianhao raised his eyebrows and a playful smile appeared on his face.

"But I'm not alone."

"You helped those guys in the Alete galaxy. Now that you are in danger, have they helped you?"

The Immortal Bird looked gloomy and said:

"That's none of your business. Didn't I tell you? I'm immortal and you can't kill me."

"The worst outcome is that I will be defeated by you and continue to fall into a deep sleep."

Lin Tianhao smiled noncommittally and said:

"Don't fool yourself. There is no such thing as absolute immortality. It's just a matter of power level."

"if....."

"What if I have a power that is greater than your immortality?"

Hearing Lin Tianhao's words, the Immortal Bird smiled disdainfully and said:

"You are too naive. If some high-level means could kill me, I would have died many times."

"Whether he's dead or alive, we'll know after we fight him." Lin Tianhao said calmly.

"All adventurers can attack at will and share the rewards."

He never thought of taking the reward for himself. It was not enough for him to be strong alone.

"Hahaha, Xue Di is still generous. In that case, I also want to give it a try."

A hearty laugh was heard, followed by the rolling of corpse qi, and a large number of corpse puppets attacked the immortal bird.

Controlling corpse puppets to fight should be a method used by the corpse refining lineage.

This is quite rare in the entire Ragnarok, but I never thought that there are still people who can master it.

"With Xue Di as the finale, I am willing to give it a try."

A large number of flying insects attacked, covering the sky and the earth like a black fog, making people's scalps numb.

"Hehe, it turns out there are so many magic cultivators around here. I thought I was the only magic cultivator among the adventurers."

A tall warrior stepped out, his body covered with blood-red runes, and he exuded an eerie and unpredictable aura.

Lin Tianhao knows.

Among the adventurers, there are also a large number of magic cultivators and evil cultivators.

After all, there are still some demonic forces similar to the Moon Wheel Demon Palace in the vast continent.

"Three Lives Reincarnation Son!"

At this moment.

Su Li also took action again.

Fatty, Monkey and the others also took action one after another.

The phoenix fought back desperately, but with Lin Tianhao backing him up, his resistance was not obvious under the siege of the crowd.

But the immortal bird did not give up. It continued to fight back frantically, and adventurers were killed from time to time.

However, due to the existence of the resurrection mechanism, even if you are killed by the immortal bird, there will still be a large number of adventurers who will continue to kill you.

of course.

Those adventurers with less strength did not join in the fun.

They still have this bit of self-knowledge.

The power of the Phoenix, even if it only emits some of the power of the fire element, is not something that ordinary adventurers can withstand.

Jin Delan once again controlled countless flying swords and attacked the immortal bird at high speed.

Monkey and Fatty also cooperated with each other and kept attacking.

The combat effect that Su Li unleashed with the help of the Three Lives Reincarnation Child and the black cat should not be underestimated.

Looking at the fighting power of these people, Lin Tianhao was quite pleased.

Anyway.

Their combat capabilities have surpassed many top masters in their previous lives.

Even.

In their previous lives, during the five years of Ragnarok, not many people had reached their current level of strength.

“Not enough, not enough!!”

The immortal bird roared crazily, "Hahaha, with the power you have, it's not enough to kill me. You are too naive!!"

Raging flames burned all over the body of the Phoenix, and its flaming feathers flew towards the adventurers.

He did not try to attack Lin Tianhao again. Apparently, the attack he had used on Lin Tianhao before had made him realize that it was a complete pipe dream for him to kill Lin Tianhao.

He simply gave up attacking Lin Tianhao and focused on killing these adventurers.

"Come on, come on. If I can't kill the Snow Emperor, can't I kill you?" The Immortal Bird roared continuously.

Lin Tianhao frowned slightly, and directly transformed into the Evil Sword Immortal form, with rolling sword energy crisscrossing heaven and earth.

There was a look of horror in the eyes of the immortal bird.

"You actually have an attack method that surpasses that of a saint. This heavenly thunder and earthly fire is indeed very mysterious, but it is still not enough to kill me."

The immortal bird's body was already covered with wounds. His condition was very bad and he could be killed at any time.

But as his blood volume increased, his aura became stronger.

The injuries on his body seemed to stimulate his fighting power.

This momentum is not a rare method.

Some adventurers of the warrior profession can also acquire such skills.

As health decreases, attributes such as attack speed, movement speed, bloodsucking, etc. may be improved.

"The fire in you can keep you immortal, but what if the fire in you goes out?"

The mage Gui Ye Wuqing flew into the sky, and a scroll appeared in her hand.

She crushed the scroll without hesitation.

After the scroll was crushed, the aura of the mage Gui Ye Wuqing suddenly rose.

As she swung her staff, frost began to spread from the soles of the phoenix's feet, freezing the bird.

"court death!!"

The immortal bird roared angrily.

Obviously.

He also didn't expect that someone could freeze him.

The flames around him rose again, but soon wilted due to enduring too many attacks.

"Why bother?"

The mage Gui Ye Wuqing said calmly, "With the Snow Emperor here, you are doomed to die today."

The immortal bird roared angrily, "Even ants try to survive, let alone me, the immortal bird!!"

"Since you all want me dead, then try this trick of mine!!"

The immortal bird transformed into its true form, and flew into the sky while withstanding all attacks. The flaming feathers on its body turned into countless fire rains, sweeping in all directions.

All the flaming feathers on the immortal bird flew out, and in an instant it turned into a bald bird.

Wherever these flaming feathers passed, they destroyed everything in their path, and even the void was burned by the flames, leaving cracks in space.

"I'll burn all my flame feathers just for this one strike."

Lin Tianhao shook his head and said:

"You are also considered an ancient divine bird. If you hadn't helped those guys in the Alite Galaxy, you wouldn't have ended up like this today."

The immortal bird sneered and said:

"It is not your turn to tell the youngsters what to do with my Immortal Bird!!"

Chapter 1549 Kill the Immortal Bird!

Lin Tianhao frowned slightly, the sword energy in his hand continued, thunder and fire from the sky and earth rolled endlessly, and the arrow shot from his heart was also pushed to the extreme.

The immortal bird, which had lost its flaming feathers, was already at the end of its strength. Facing the siege of Lin Tianhao and other adventurers, it could not withstand it after all, and the starry sky was stained with blood.

A phantom soul rushed out from the body of the immortal bird.

But as soon as this virtual soul appeared, it couldn't help but roar in fear.

"Ahhh, how is this possible? How could you imprison my soul!!"

The immortal bird knew that he could not escape death today, so he prepared to give up his physical body and escape as his soul.

But his soul had just left his body when it was imprisoned.

"It's you!!"

The immortal bird looked at Lin Tianhao with a ferocious face.

He could feel that it was the mysterious aura emanating from Lin Tianhao that imprisoned his soul.

"No, it's impossible. My original soul can't even be extracted. What on earth did you do to me?!"

Lin Tianhao smiled slightly, "So your immortality is because you can leave your body and then rebuild your body to survive."

"It's a pity that you met me."

Lin Tianhao naturally knew the reason why the soul of the immortal bird could not escape.

This is an unknown treasure he obtained from the ancient mysterious realm.

Not to mention this tiny immortal bird, even the super powerful person at the level of God King would have his soul imprisoned by this unknown treasure.

"Those who have soul attacks continue to attack, and those who don't have soul attacks retreat." Lin Tianhao said lightly.

In fact, what Lin Tianhao said was a bit redundant.

Because just now the Immortal Bird activated the flaming feathers all over its body and killed more than 80% of the adventurers around it.

There are not many adventurers left now.

Lin Tianhao still maintained the same attacking posture.

Thunder and fire from the sky and earth were rolling endlessly, and coupled with Lin Tianhao's feather arrows containing heavenly punishment, the soul of the immortal bird was already at the end of its strength.

"No, no, I am willing to sign a contract with you and become the guardian beast of your mortal temple. Please let me go."

The immortal bird was really panicked at this moment. The feeling of impending death made him very frightened.

Under normal circumstances, even if his soul was imprisoned, he could still leave with a trace of his soul.

This will just take longer to resurrect.

After all, since ancient times, there are very few people who can imprison his soul.

But Lin Tianhao not only imprisoned his soul, but also imprisoned the origin of his soul.

Lin Tianhao smiled noncommittally and said:

"Now, can you tell me why you listened to those guys from the Alete Galaxy and came to my Shanhai Empire to cause trouble?"

The Immortal Bird gritted its teeth and said:

"Because of a promise, they promised to give me three drops of phoenix blood to help me transform."

"It's not a coincidence that I was able to complete my transformation amidst the siege of these adventurers this time, but because I had already fused with a drop of Phoenix blood before."

Lin Tianhao narrowed his eyes and said:

"In order to improve your strength, you really do whatever it takes."

The Immortal Bird stared at Lin Tianhao and said in a deep voice:

"Snow Emperor, since ancient times, it has always been the law of the jungle. In order to become stronger, the means used are no longer important."

"Isn't it the same for you, Snow Emperor, to integrate the forces of Shenzhou? Either surrender or die. This is cruel."

Lin Tianhao frowned slightly but did not refute anything.

"You are right. If you are strong enough, no one can stop you even if you destroy the Shanhai Empire."

"It's a pity that you're not strong enough."

The immortal bird said with some fear:

"Master Xuedi, I sincerely want to join the Fan Palace. I only ask Master Xuedi to show mercy."

Lin Tianhao waved his hand and said:

"How did those guys in the Alete Galaxy break your seal and let you out?"

"It shouldn't be easy to release an ancient mythical bird like you."

The immortal bird hesitated and finally said:

"Because it's just a steel needle, a very ordinary-looking steel needle. It looks like an ordinary object from the outside. Even if I use my mental power to sense it, I can't sense anything special."

Lin Tianhao frowned slightly, took out the carving knife of the Source of Dao God, and asked:

"Similar to this thing?"

The pupils of the immortal bird dilated and said:

"Yes, it is indeed similar, but from the appearance, there is nothing abnormal at all."

Lin Tianhao frowned slightly and said slowly:

"Got it, you can die now."

The immortal bird looked at Lin Tianhao in fear and roared:

"I have already answered your question, why do you still want to kill me?"

Lin Tianhao smiled slightly and said:

"I didn't agree. If you answer my questions, I'll let you go."

"Five billion bounty, I am willing to let you go, but there will always be some people who are unwilling to let you go."

At this moment.

A layer of dim light enveloped the monkey's body, and in an instant it arrived in front of the immortal bird and began to attack frantically.

"Special props."

Burning Nightmare could tell the monkey's peculiarity at a glance.

"He used a special item that allowed his normal attacks to also hit souls."

Lin Tianhao nodded slightly. Even if this thing was not the monkey, it was probably something that the monkey had just traded from someone else.

Monkey naturally would not let go of this excellent opportunity to obtain free attribute points.

The immortal bird's soul was destroyed bit by bit in its unwillingness and resentment.

Knowing that the soul of the immortal bird was annihilated, a reminder sounded at this time.

"Ding, congratulations, you have successfully killed the Immortal Bird. We will announce it to all servers soon. Do you want to hide your name?"

"no."

"Announcement to all servers, congratulations to player Xue Di for successfully killing the immortal bird. We hereby announce this and hope all adventurers will keep up the good work!!"

.....

After killing the immortal bird, Lin Tianhao directly included the immortal bird in the List of Gods.

This immortal bird is indeed unique, and after this transformation, it has reached the level of the Great Emperor.

If it is evolved once using the Evolutionary Divine Fluid, it will become a divine product.

With the characteristics of the immortal bird, it has evolved to the realm of divine quality, which is of great help to Lin Tianhao.

"Ding, congratulations, you have made an outstanding contribution in killing the immortal bird, and you are rewarded with +18.81 billion free attribute points."

Lin Tianhao narrowed his eyes slightly. He didn't even get half of the free attribute points.

It seems that these adventurers are still very powerful.

Not only Lin Tianhao heard the free attribute point reward reminder, many people heard it.

"Fuck, this is too cool, guess how many free attribute points I got as a reward? One million and two hundred thousand, a full one million and two hundred thousand, to be exact, one million and two hundred thousand and five thousand three hundred and sixty-six free attribute points!!"

"Hehe, I can attack with souls. I stole a lot of output from the Immortal Bird's soul state just now. It's more than 8 million free attribute points. It's really comfortable."

Chapter 1550: Buzhou Ancient Land, Physical Transformation!

"There are too many of you. I'm not strong enough, so I can only steal some damage from a distance. I've gained more than 50,000 free attribute points, which is not even a fraction of what you have."

"Guess how many free attribute points Xue Di got this time? Is it one billion?"

"One billion? Be bold, I estimate it is more than two billion. If there weren't so many top adventurers taking action this time, I estimate it could be three billion."

.....

These adventurers were all very excited. After all, for them, the harvest this time was really good.

Even if they are just the ones on the periphery, as long as they deal damage, they will at least gain hundreds of free attribute points.

When the immortal bird was killed, the first thing Lin Tianhao thought of was the steel needle that the immortal bird had mentioned before, which was somewhat similar to a carving knife.

If this steel needle really looks somewhat similar to a carving knife, then we're in trouble.

Those guys in the Alete galaxy may be able to use that steel needle to release more ancient demons.

But now.

He couldn't find these guys in the Aleta Galaxy either, so he could only take one step at a time.

Returned to the holy land of Buzhou.

Lin Tianhao sent a message to the Immortal Bird, wanting to know what information the Immortal Bird knew about those guys in the Alate Galaxy.

The result is that nothing is useful.

The people from the Alate Galaxy who had contact with the Immortal Bird this time were all people Lin Tianhao had already listed on his previous list.

Take back your thoughts.

Lin Tianhao saw the Buzhou Divine Stone.

"Sir, what do you want me to do for you?" Buzhou Divine Stone asked respectfully.

Lin Tianhao said bluntly:

"I want to go to the ancient land of Buzhou. I wonder if you can help me."

"Buzhou Ancient Land?"

Hearing Lin Tianhao's words, Buzhou Shenshi's expression changed drastically, and he said in a deep voice:

"Snow Emperor, the ancient land of Buzhou, cannot be easily set foot there. There are two kinds of origin laws there, which have extremely strong destructive power. And because they are the origin laws, most methods are not immune to the power of these two laws."

Lin Tianhao's eyes lit up and he said:

"Isn't it a good thing that there are two kinds of origin laws? Comprehending the origin laws is much better than comprehending ordinary laws."

Buzhou Divine Stone gave a bitter smile and said:

"My Lord, you think too simply. It is extremely difficult to comprehend the origin law, and the two origin laws in this Buzhou Ancient Land have been mixed together. It is full of chaos and unknowns."

"Moreover, in this special environment, water and fire beasts were born. These water and fire beasts are invulnerable to water and fire, and invulnerable to swords and guns."

"The most important thing is that they don't have health bars and are not affected by the health bar mechanism. Do you understand what I mean?"

Lin Tianhao frowned slightly, "Without a health bar mechanism, it means that its body must be destroyed in order to cause effective damage to it."

Hear this.

Lin Tianhao thought of the carving knife in his hand. If he used the carving knife properly, it would have great killing power on the so-called water and fire monsters.

"Sir, do you want to enter the ancient land of Buzhou for the origin of the law or for other reasons?" asked the Buzhou Divine Stone.

"For the super god-level hidden career transfer altar, I learned from someone that there is a super god-level hidden career transfer altar in there." Lin Tianhao said,

Buzhou Shenshi was slightly surprised and said, "This... there is indeed such a rumor, but even I don't know whether it is true or not."

Lin Tianhao nodded and said:

"What precautions are there in Buzhou Ancient Land?"

Buzhou Divine Stone thought for a moment and said:

"When the Buzhou Divine Mountain collapsed, I separated from it and absorbed the essence of the sun and the moon. Only then did my consciousness come into being and I have achieved what I have today."

"Where the Buzhou Divine Mountain collapsed, an ancient mighty being set up a barrier, seemingly to prevent the power of the two original laws of water and fire from leaking out."

"I have never entered the Buzhou Ancient Land. I have only explored the periphery with my spiritual sense. I have just described the situation in the periphery."

Lin Tianhao nodded slightly and said:

"Okay, open the ancient land of Buzhou and I'll go in and take a look."

Although this ancient land of Buzhou is full of dangers, the benefits of its existence still make Lin Tianhao excited.

The two fundamental laws of water and fire, as well as a super god-level hidden career transfer altar.

These things are things that Lin Tianhao cannot refuse.

The Buzhou Divine Stone hesitated slightly and chanted a complicated spell.

A gate of light appeared above his body.

Standing outside the light gate, Lin Tianhao could feel the pure power sweeping towards him.

Take one step.

Lin Tianhao successfully entered the ancient land of Buzhou.

As soon as he entered, Lin Tianhao's body began to sink.

He was actually in the ocean at this moment.

This ocean is very strange, it contains water and magma.

Whether it is water or magma, it exudes a strange and powerful aura, giving people a strong sense of oppression.

especially.

Here, he couldn't even fly, or even... swim.

The only thing that made Lin Tianhao feel relieved was that he could still breathe underwater.

"Ding, you are being eroded by the power of the origin of water and are losing blood continuously."

-1000 million! !

-1100 million! !

-1200 million! !

.....

"Ding, you are being eroded by the power of the origin of fire and are losing blood continuously."

-1000 million! !

-1100 million! !

-1200 million! !

.....

Lin Tianhao's complexion changed slightly. He had just entered here, but he was already suffering from this continuous blood loss.

Lin Tianhao took out the Jade Disc of Creation, trying to record the original laws here.

But the result surprised Lin Tianhao a little, because the two original laws of water and fire were entangled with each other and could not be separated for a while.

They are mixed together and cannot be recorded directly.

The Jade Disc of Creation cannot record directly. It will be very difficult for Lin Tianhao to gain insights from these two mixed original laws.

Not only that.

The damage Lin Tianhao is suffering now also makes Lin Tianhao a little worried.

He was now in the ocean and he didn't know when he would be able to get out.

"Sir, here... can we use the ancient body-refining techniques from the Far North Continent?" Hei Tian Aozhen's voice sounded somewhat excitedly.

Lin Tianhao's eyes lit up involuntarily. Under such specific conditions, it seemed that the ancient body-refining technique would be easier to refine and improve.

"let me try."

Lin Tianhao started practicing according to the ancient body-building techniques without hesitation.

Only ten minutes had passed.

Lin Tianhao's physique has completed a transformation! !

"feasible!!"

"We're coming too."

Heitian Aozhen, Fenxin Mengyan and others also came out of the Book of Life and Death and began to use ancient body refining techniques to temper their bodies, thus completing their physical transformation.

And here comes the problem.

In just ten minutes, Lin Tianhao's blood loss from his head exceeded 600 million.

-6.11 million! !

-6.12 million! !

-6.13 million! !
