

O games 1551

Chapter 1551 Physical transformation to level 400!

Lin Tianhao's blood is now losing faster and faster, and because Lin Tianhao is suffering from the erosion of both water and fire at the same time, Lin Tianhao is now suffering double damage every second.

With blood loss of over ten billion per second, Lin Tianhao's health can still withstand it.

But now Lin Tianhao's damage is still increasing at a rate of two million per second.

Take back your thoughts.

Lin Tianhao began to continue to temper his body.

"You suffered the same damage as me!!"

Lin Tianhao looked at Hei Tian Aozhen and others, with a look of surprise on his face.

"The power of the origin law can ignore the damage reduction of physical transformation!!"

Hei Tianao said without hesitation:

"This is normal. Physical transformation overrides conventional laws, but it is almost impossible to override the laws of origin."

"The foundation of this world is constructed by these fundamental laws."

"If the physical transformation exceeds the origin law, then there is a problem, that means."

Burning Heart Nightmare nodded slightly and said:

"good."

"Surpassing the laws of origin is actually equivalent to surpassing the limits of this world."

"If you exceed the limits of this world, you will be excluded from this world, or... suppressed."

Lin Tianhao understood and said, "It's just like the Ancient Dynasty Secret Realm. We will be suppressed after entering it because our strength has exceeded the limit of the Ancient Dynasty Secret Realm."

"No, the speed of your physical transformation seems to be much faster than mine?" Lin Tianhao couldn't help but exclaimed.

Because Hei Tian Ao Zhen and the others completed a physical transformation in just six or seven minutes, but it took him ten minutes.

"Because your physique has transformed too many times, that's why you are slower than us."

"and."

"Our rank is too high. Otherwise, in this environment, we would have completed a physical transformation in less than a minute."

"But here comes the problem. Under normal circumstances, it is very difficult for a low-quality product to have high health value."

The first person Lin Tianhao thought of was the fat man.

The fat man's health is high enough now, can he be considered low-grade, with high health?

We can ask the fat guy to come and try it later.

"What a pity. The two fundamental laws of water and fire have been completely mixed together here. It is almost impossible to gain enlightenment through them."

Lin Tianhao was also very disappointed because he originally thought this was an opportunity.

"Although we cannot comprehend the two fundamental laws of water and fire, it is good that we can use the power here to complete the transformation of our physical body."

Because of the Book of Life and Death, and because Lin Tianhao's Heart of Heavenly Punishment has completed its evolution.

Lin Tianhao's Book of Life and Death can restore 5% of Lin Tianhao's maximum health per second.

It's a pity that Jiuqiong's true body cannot restore Lin Tianhao's health.

Because the damage caused to him by the two original forces of water and fire will not rebound.

but.

Relying on the blood recovery of the Book of Life and Death, Lin Tianhao can now maintain full blood.

Not only that.

Lin Tianhao also has a blood-recovering skill called the Rising Tide of the Blue Sea. When Heitian Aozhen and Fenxin Mengyao can't hold on, he can use the Rising Tide of the Blue Sea to restore their blood.

Next.

Lin Tianhao began the process of crazy transformation of his body.

He did not rashly go deep into the ancient land of Buzhou, but transformed his body at the edge of the ancient land of Buzhou.

This is a piece of cake for Lin Tianhao.

"Ding, physical transformation +1."

"Ding, physical transformation +1."

"Ding, physical transformation +1."

.....

unconsciously.

Lin Tianhao's physical transformation has exceeded three hundred and fifty.

As Lin Tianhao's physical transformations increased in number, the duration of each transformation also became longer.

But Lin Tianhao was not panicked.

The worst outcome is leaving the ancient land of Buzhou.

With the existence of the Buzhou Divine Stone, it is not difficult for Lin Tianhao to enter the Buzhou ancient land again.

-1951.15 million! !

-1951.16 million! !

-1951.17 million! !

.....

The damage Lin Tianhao suffered was getting higher and higher, but it was still within the range that Lin Tianhao could bear.

"Physical transformation, finally breaking through 400!!"

Lin Tianhao was excited. This kind of improvement was so comfortable.

However, now Lin Tianhao wants to continue to complete his physical transformation, and the time required is more than half an hour.

and.

This time is still increasing at an alarming rate.

"grown ups."

At this moment.

The voice of the immortal bird rang in Lin Tianhao's ears.

"Soul, my body has been transformed over the past two days. I found that I seem to be able to peel off a small amount of fire elemental power and absorb it into my body."

The words of the immortal bird gave Lin Tianhao new hope.

"Are you serious?" Lin Tianhao was a little surprised.

"really."

The Immortal Bird answered with certainty, "After I absorb the fire element, the power of the water element's law will be exposed. If you react quickly enough and have a high level of understanding, you may be able to comprehend a trace of the law of the origin of water."

Lin Tianhao raised his eyebrows. It was undeniable that what the Phoenix said was indeed very tempting.

and.

Lin Tianhao doesn't need to be quick.

Because he has the Jade Disc of Creation.

He could first record the essential laws of water on the Jade Disc of Creation, and then comprehend them.

"Try it." Lin Tianhao said.

If the phoenix can really expose some of the original power of the water element in the process of absorbing the original power of the fire element.

That would be a great opportunity for him.

The immortal bird was surrounded by flames, and the flames on his body actually began to slowly absorb the power of the original law of fire in the ocean.

"It's now."

Lin Tianhao held the Jade Disc of Creation in his hand, and at the moment when the power of the origin law of fire was extracted, he recorded some of the power of the water element.

After completing the recording, Lin Tianhao checked the Jade Disc of Creation immediately.

"It's done!!"

Lin Tianhao was surprised. This was something he had not expected.

"The first level of the true meaning of the origin of water!"

Lin Tianhao was not discouraged. Although he was still at the True Meaning level, it was already very good for him! !

Because the Immortal Bird can continue to absorb.

"Go on." Lin Tianhao said.

The immortal bird said awkwardly:

"Sir, this strand just now is enough for me to refine for a week."

Lin Tianhao: "???"

"Hasn't your health been restored to full strength since you were listed on the Conferred God List?"

The Immortal Bird spread his hands helplessly and said:

"My Lord, I have indeed returned to my peak state, but my peak state is only at this level."

"You said before that there were three drops of phoenix blood, and you only fused one drop. What about the other two drops? You fused them together as well." Lin Tianhao said.

The immortal bird hesitated and finally said:

"Those guys from the Alet Galaxy promised me three drops, but I actually only got two. I was going to get the other drop this time, but in the end..."

Chapter 1552 The immortal bird is promoted to a divine level!

"If you are killed by the adults, you will naturally not be able to get it."

Lin Tianhao smiled noncommittally and said:

"So, it was me who harmed you."

The immortal bird waved its hands repeatedly and said:

"You are joking, my lord. I killed so many innocent people in the Shanhai Empire, and you suppressed me. I deserve to die."

Lin Tianhao frowned and waved his hand, saying, "There's still one drop left that can be used."

The immortal bird nodded, "It's mainly because I was just killed by my master, so I came here. I will use that drop of phoenix blood to improve my strength."

Lin Tianhao smiled and said:

"If you can complete one more transformation, I will help you upgrade one grade, then you can be considered a top master even among the divine ones."

"This is even more perfect."

The Phoenix was a little excited.

"I have absorbed the power of the origin of fire, and combined with the blood of the phoenix, the probability of completing the transformation of life level is still very high."

Lin Tianhao didn't say much. The next thing was to see how fast the Immortal Bird could refine the power of the original law of fire after its transformation was completed.

otherwise.

With the speed of the Phoenix, he would probably be stuck at the level of true meaning.

While the immortal bird was fusing with the phoenix's blood essence, Lin Tianhao was still continuing to transform his body.

To be frank, his physical transformation has reached its peak. In the future, as long as he does not face those who have mastered the original laws, it will be difficult for him to be defeated.

Time passed quietly.

Lin Tianhao looked at the damage number appearing above his head which was getting higher and higher, but his expression did not change much.

The main thing is that the 5% recovery of maximum health is somewhat incredible.

The key is.

Lin Tianhao still has the Dead Tree Resurrection which has not been triggered, and the Rising Tide of the Blue Sea has not been used yet.

The key is.

Lin Tianhao can let Burning Heart Nightmare and Hei Tian Ao Zhen attack him, thereby triggering Jiuqiong True Body and restoring his blood.

Because his blood recovery does not depend on how much damage he rebounds or causes.

Instead, it restores a fixed 5% of the maximum health.

This is a BUG in itself.

Four hundred and twenty floors!!

Four hundred and fifty floors!!

Four hundred and eighty floors!!

Five hundred floors!!

Lin Tianhao's physical transformation reached the 500th level.

The Immortal Bird and his companions could no longer withstand the damage here, and entered the List of Gods to practice and recover their health.

They have more advantages than Lin Tianhao.

That is, they can enter the List of Investiture of the Gods to recover their health, and then come out of the List of Investiture of the Gods when their health is almost restored.

There's just one problem.

That is, even if they come out of the List of Gods, their blood loss will not be counted from the beginning.

This made Lin Tianhao a little worried.

That is.

If he leaves the ancient land of Buzhou and returns to it again, will the blood loss be calculated from the beginning?

Or...

This Buzhou ancient land is able to lock onto living beings themselves. Once you come in, the count will not start from the beginning, but from the time you leave.

If you want to know the answer, just go out and you will find out.

Anyway, the immortal bird should be upgraded to a higher grade, so he also needs to go out for a trip.

Only when the immortal bird is upgraded to a higher grade, will he be able to absorb more power of the original law of fire.

same.

He will be able to refine the power of the original law of fire faster.

in this way.

The Jade Disc of Creation can record more fundamental laws of water.

The inner world.

Lin Tianhao used damage transfer to kill another strong man from the Alete galaxy.

Then he brought Fatty, Monkey, and his younger sister Lin Qingqing over.

Lin Tianhao actually also took Berserker Blade and the others into consideration.

However, it is not possible for the time being, because the ancient land of Buzhou is related to the super god-level hidden career transfer altar.

Although this place can allow them to quickly complete their physical transformation, it will still be very troublesome if the matter of Buzhou Ancient Land is leaked out.

Lin Tianhao called Fatty, Monkey and his sister over and warned them repeatedly not to reveal the news about this place under any circumstances.

Next.

It means that the immortal bird has been upgraded to a higher level and has passed the tribulation.

This is a small problem. The Immortal Bird has recovered to its peak state because of the List of Gods.

In addition, the immortal bird has fused a wisp of the power of the origin of fire and the blood of the phoenix, and its strength has been greatly enhanced.

Lin Tianhao didn't have to wait too long, the Immortal Bird finally completed its tribulation and was promoted to the realm of Godly Grade! !

If it is now.

If those adventurers were to attack the Phoenix again, there would be two possible outcomes.

Even if there are some extremely powerful adventurers among them, it is still impossible to kill the immortal bird now.

"Thank you for your help, sir!!"

The immortal bird bowed towards Lin Tianhao.

He was truly grateful to Lin Tianhao.

Because even with three drops of phoenix blood, he could not reach the realm of divine quality.

Even reaching the half-step divine realm is very difficult.

But now.

He stepped into the realm of divine quality in one fell swoop, and also refined a wisp of the power of the original law of fire.

If it had been in the past, this would have been an opportunity he would never have had.

"Now that everyone is ready, let's go back to the ancient land of Buzhou."

When the Immortal Bird was undergoing the tribulation, Lin Tianhao had already told Fatty and the others about the situation in the ancient land of Buzhou.

Now that we are entering the ancient land of Buzhou, there is nothing much to say.

Return to the ancient land of Buzhou again.

Lin Tianhao breathed a sigh of relief.

Because he found out.

After returning, his blood loss returned to the starting point.

-1000 million! !

-1100 million! !

-1200 million! !

.....

Looking at the blood loss above his head, Lin Tianhao showed a satisfied smile on his face.

He just wanted to say one thing: I feel comfortable.

That being said.

It now takes Lin Tianhao nearly two hours to complete a physical transformation.

This time is too slow.

Lin Tianhao has too many things to do, and the 500th level of physical transformation is actually basically enough.

Next.

It is to record the fundamental laws of water.

Just as Lin Tianhao expected, after the strength and grade of the Phoenix increased, he was able to absorb more power of the origin of fire at one time.

The Jade Disc of Creation seized the opportunity and recorded it instantly.

"The seventh level of the true meaning of the origin of water!!"

Lin Tianhao showed a satisfied smile on his face.

Previously, only the first layer was recorded, but this time, all the way up to the seventh layer was recorded.

Take back your thoughts.

Lin Tianhao looked at the fat man and his companions.

"You guys practice here. If you can't bear it anymore, leave. You can come back later."

"If you have other plans, you can leave first."

"But remember, what happened here must not be told to anyone, no matter who it is."

"Especially you, Fatty. You are not very careful with your mouth and it's easy to do bad things."

The fat man smiled awkwardly and said:

"Brother Hao, don't worry. Although I like to brag, I also know the importance of things."

Chapter 1553 Super Treasure: Giant Divine Iron!

"Since you have given such instructions, this place must be extraordinary and very important to you. How could I tell anyone else?" the fat man said seriously.

Lin Tianhao nodded slightly. Although the fat man was usually noisy, he still knew the importance of serious matters.

But even though Lin Tianhao trusted Fatty and the others enough, he did not tell them that there was a super god-level hidden altar for career transfer in the ancient land of Buzhou.

Because this matter is of such great importance, he doesn't want anything unexpected to happen to the super god-level hidden career transfer altar here.

of course.

If it weren't for the fact that only the Buzhou Divine Stone could open this secret realm, Lin Tianhao wouldn't even let them come here now to transform their physical bodies.

Some interests can be given up, but some things must be protected.

There is no way to get rid of the super god-level hidden career transfer altar in the ancient dynasty secret realm. It is too conspicuous and impossible to withstand.

"Come on, the future of Blue Star, and even the future of the Milky Way world, depends on us." Lin Tianhao said in a deep voice.

Lin Qingqing said seriously:

"Brother, I know the road ahead is difficult, but we will all walk with you."

"No matter success or failure, we will work hard together and fight together!"

The fat man grinned and said:

"That's right, Brother Hao."

"Don't put so much pressure on yourself. You are born to be a human being, and you will die one day."

"Whether it's as heavy as Mount Tai or as light as a feather, we are now fighting to save the world. Regardless of success or failure, we have no regrets and no fear!"

The monkey gritted his teeth and said:

"Fatty, stop being so righteous. When it comes to your death, can you be fearless?"

The monkey chuckled and said:

"and."

"You make it sound light. We fought to save the world, but now it seems like Hao is carrying this burden alone."

Lin Tianhao waved his hand and said:

"So you guys better work hard. Do you really want me to carry such a heavy burden alone?"

The monkey said seriously:

"No matter what the result is, if you don't retreat, we won't retreat either. We believe in you, Brother Hao!"

"Yes, brother, we believe in you. Blue Star will be fine, and the Milky Way world will be fine too."

"We're all going to be fine."

Lin Tianhao nodded with a smile and said:

"Okay, with you guys, no regrets, no fear!!"

"No regrets, no fear!!!"

Lin Tianhao turned and left. He was going to look for the super god-level hidden career transfer altar.

In order to avoid any unexpected incidents that occurred in the ancient dynasty's secret realm.

Lin Tianhao took out the Heavenly Punishment Ring and has been trying to change his job.

If he entered the super god-level hidden career change altar, then he would naturally be able to start changing careers.

But the result was, there was no response.

Lin Tianhao walked forward along the vast ocean formed by a mixture of water and fire.

Here, he couldn't fly and could only walk.

Fortunately, Lin Tianhao's movement speed is fast enough, and with the title of Son of the Sea, Lin Tianhao can move forward underwater without any hindrance.

I don't know if it's because of the power of the dual original laws of water and fire in this vast ocean.

The ground all around was bare, and at this moment he felt as if he was in an endless Gobi Desert.

The Gobi Desert flooded by water and fire.

We walked along the underwater Gobi Desert for a day.

Lin Tianhao gained nothing.

"Have I entered a fantasy world?"

Lin Tianhao spoke in a deep voice.

After walking in this underwater world for a day and a night, Lin Tianhao still hadn't discovered anything, which made him feel a little uneasy.

"Not like."

The voice of Burning Heart Nightmare sounded.

If it is an illusion, we should be able to discover something. If it is an illusion that even we cannot discover, then it would be almost impossible to decipher it.

Lin Tianhao nodded.

He also thought of this.

If he was deeply trapped in the illusion, Burning Heart Nightmare and the others should have warned him.

After walking in this underwater world for another half a day, Lin Tianhao finally saw something different.

Looking from a distance, it is a mountain.

This mountain stands tall in the vast ocean of the two fundamental laws of water and fire, yet it has not been destroyed.

"This should be a part of Buzhou Divine Mountain. Only a part of Buzhou Divine Mountain can remain unharmed under the erosion of the power of the dual origin laws."

Ned Liv's voice sounded, but her projection did not appear. Instead, a voice with some surprise sounded.

"After the two fundamental laws of water and fire were combined, even my projection could not appear."

"It seems that the ancient rumors are true. If the laws can be integrated with each other, they can burst out with power that transcends their essence."

"The power of the two original laws of water and fire has only been mixed together, and it has reached this level. I can't imagine how terrifying the killing power will be if someone can really merge the laws."

"Fusion of laws?" Lin Tianhao raised his eyebrows slightly.

"I have heard before that the Five Elements are the root of the Dao. If you cultivate the Dao of the Five Elements to a certain level, you will naturally be able to derive Daos of other attributes."

"This... should be the result of attribute fusion."

Niederif shook her head and said:

"It's different. There is still a difference between derivation and fusion."

While talking, Lin Tianhao had already approached the mountain.

This mountain stands here, but there is nothing special about it.

The entire body is dark gold in color, and it looks more like a huge piece of divine iron than a mountain.

Lin Tianhao tried to spy on the properties of this magical iron, but found nothing.

At first glance, it is just like looking at things on the Blue Star, with no attribute information revealed.

Lin Tianhao raised his hand and placed it on the magical iron. He wanted to try and see if he could put the magical iron away.

If we can take this huge sacred iron away, it may be of great use in the future.

But at the moment when Lin Tianhao's palm touched the magic iron, runes appeared on the magic iron.

The rune lit up with golden light, and Lin Tianhao's body flew backwards uncontrollably.

"Ancient divine pattern!!"

Ned Lev's somewhat surprised voice sounded.

"The origin of this divine iron must be extraordinary. There are so many ancient divine patterns on it that it is simply not something that ordinary objects can bear."

Lin Tianhao steadied himself and asked in a deep voice:

"Is there any story behind this ancient divine pattern?" Lin Tianhao asked.

Ned Liv took a deep breath and said:

"Generally, divine weapons only have nine divine patterns, and the most powerful ones only have thirty-six. Divine weapons with 108 divine patterns, even in my era, were only owned by the master of a divine force."

"And just now when you touched the divine iron, even though I couldn't see it clearly, the number of divine patterns on it must be more than a thousand!!"

Lin Tianhao narrowed his eyes and said:

"If what you said is true, this divine iron must be a super treasure."

Ned Liv answered with certainty: "That's natural."

Chapter 1554 Pangu Clan!

"Even without these divine patterns on it, this giant piece of divine iron is still an extremely precious treasure."

"Because ordinary things simply cannot bear so many divine patterns."

Nidlifu said solemnly, "Although because it lacks the holy pattern, this giant piece of divine iron cannot reach the level of a holy weapon."

"But the power it contains should be no weaker than that of ordinary holy weapons."

Lin Tianhao narrowed his eyes slightly, "Do you have any way to collect this giant piece of divine iron?"

Just now he tried to touch this giant piece of divine iron, but was shaken away by the divine patterns on it.

Hei Tian Aozhen let out a low roar and revealed his huge black dragon form, which entangled itself around the giant divine iron.

But as soon as his body touched this giant piece of divine iron, the divine patterns on it began to glow with golden light.

A mysterious aura emanated from the divine patterns, and the enormous power made Hei Tianaozhen's body tremble.

"Boom——"

With a loud bang, Heitian Aozhen's huge dragon body was also overturned by this powerful force.

"The divine patterns on it are complex and numerous. In addition, this piece of divine iron itself is also very special. I am afraid that even if an ordinary god comes in person, he will not be able to shake this piece of divine iron."

Nidlifu said with some emotion:

"Look at this divine iron, it should be born with spirituality. If a mortal wants to drive it, I'm afraid it needs to be recognized by it."

Lin Tianhao stared at the divine iron in front of him, feeling slightly disappointed.

If this cannot be shaken, then it will be a bit troublesome.

"Let's go."

Lin Tianhao continued to move forward, feeling somewhat confused.

"The Buzhou Divine Stone said that there are mutated monsters in here, but we haven't encountered any along the way."

Even if the Buzhou Divine Stone is vast, it should not be able to spread such a long distance.

"Perhaps there aren't that many mutated monsters, which is why we haven't encountered them."

"After all, under the cover of the dual origin laws of water and fire, even for us, it would be difficult to stay here for long."

Hei Tian Aozhen gave an explanation that seemed reasonable.

But at this moment, something unexpected happened!

"Om-"

With a loud bang, the giant divine iron in front actually shook slightly.

"There is something under the sacred iron." The voice of the immortal bird sounded.

As soon as he finished speaking, the giant divine iron that even Heitian Aozhen could not shake at all was actually slowly lifted up.

at this time.

Lin Tianhao then saw that under the magic iron, there was a "person" with bronze skin and strange patterns all over his body.

Ok.

The facial features and body shape are similar to those of humans.

"This... is this a member of the Pangu tribe?!"

Ned Liv's extremely shocked voice rang out.

"How could it be? Didn't the Pangu clan disappear long ago? How could someone appear here?!"

The man who was moving the giant sacred iron raised his eyes and looked in the direction of Lin Tianhao and the others. His eyes were cloudy, as if he had lost his mind.

then.

Lin Tianhao saw the Pangu member mentioned by Ned Lifu actually carrying the giant divine iron and walking forward.

"this--"

If Lin Tianhao and Hei Tianao had not just come into contact with this giant divine iron, they probably would not be too surprised.

"Ned Lifu, how much do you know about the Pangu clan?" Lin Tianhao asked.

Lin Tianhao knew a little about Pangu, as he was the leader of the three thousand ancient gods and demons.

"The Pangu clan is the ultimate body cultivator. Their body cultivation techniques are different from those of ordinary people. Moreover, it is difficult for others to replicate their cultivation methods."

"Oh?"

Lin Tianhao was a little surprised, and Ned Liv continued:

"The Pangu clan focuses on strengthening their bodies. It is said that they do not drink milk from childhood, but drink the blood of beasts. They use the blood of fierce beasts to temper their internal organs, tendons, bones, blood and flesh."

"of course."

"Later, we will use natural treasures to perform medicinal baths. It is said that people from the Pangu clan can possess the power of nine tripods, or ninety thousand pounds of strength, at the age of three."

Lin Tianhao's pupils suddenly shrank. Three years old, and a strength of ninety thousand pounds?

Are these two things related?

"After the age of three, they are no longer limited to medicinal baths, but begin to swallow all kinds of natural treasures. Some natural treasures have huge medicinal power, even ordinary gods cannot bear it, but with their cultivation methods, they can be refined and absorbed, integrated into their limbs and bones, and strengthen their bodies and bones."

Lin Tianhao's eyes narrowed slightly. If he used these methods to strengthen his body, the strength of his body would be extremely terrifying.

"Once they have strengthened their physique to a certain level, they will begin to refine weapons with their bodies."

"Do you see the divine patterns on the Pangu tribe member in front of you? Ordinary body cultivators, even those who have achieved the realm of gods, rarely have more than nine divine patterns engraved on their bodies."

"But if you count carefully, there are a total of seventy-two divine patterns on his body."

"This can be considered a master among the Pangu clan."

That's it.

Ned Liv paused for a moment before continuing:

"It is said that the truly powerful Pangu clan is able to engrave divine patterns on their bones. However, even when I was at my peak, I still had to look up to such a strong person."

Lin Tianhao nodded secretly. The people of the Pangu clan in front had been carrying the things for half an hour, but they seemed to be unable to carry them anymore. Their bodies slowly sank, and it looked like they were pressed into the ground by the giant divine iron.

"senior."

Lin Tianhao bowed towards the giant iron and said, "I am the Snow Emperor, senior, please show yourself and have a chat."

There was no movement beneath the giant sacred iron.

Lin Tianhao was a little disappointed. He had noticed before that the eyes of the people from the Pangu clan were cloudy and they looked like they had lost their minds.

but.

Lin Tianhao was still somewhat unwilling.

He activated the law of power in the realm of Tao, and a surge of force swept in all directions.

"Senior, please show up and talk."

Still no movement.

Lin Tianhao felt helpless. It seemed that the chances of getting any information from the Pangu clan were slim.

But at this moment, the man from the Pangu clan actually crawled out from the ground.

His eyes were still cloudy as he looked at Lin Tianhao and said:

"Your vitality is so strong, the law of force... What a pity, what a pity..."

"After all, you are not a member of my Pangu clan. You cannot bear my inheritance."

"The law of power, what a pity, I have never pursued the ultimate. Even if I entered the realm of Tao early, it would be in vain, in vain..."

The man from the Pangu clan shook his head, with regret and... a little helplessness in his eyes.

"Senior, I came here not to seek the inheritance of the Pangu clan, but mainly to find the super god-level hidden career transfer altar. I hope you can point out the way."

"destroyed....."

"It's been ruined a long time ago..."

"Put it together...put it together. We just need this last piece."

The people of Pangu clan pointed at the giant divine iron behind them.

"Move it over there, put it together, and the super god-level hidden class transfer altar will be repaired."

Chapter 1555 The thief who stole Pangu's secret technique!

Lin Tianhao's eyes lit up. If he could repair this super god-level hidden career transfer altar, that would be fine.

"I just tried, but I couldn't even touch it. I can't help you move it." Lin Tianhao said.

When saying this.

Lin Tianhao suddenly thought of Su Li's Three Lives Reincarnation Child.

Because under normal circumstances, Sansheng Lunhuizi has already jumped out of the Three Realms and is no longer in the Five Elements, so he may be able to touch this giant divine iron.

The strong man of the Pangu clan shook his head and said:

"Only if you understand the divine patterns above, you won't be repelled by them."

The words had just fallen.

The strong man of Pangu clan sank again.

Lin Tianhao wanted to ask something when he saw a shadow in the distance rushing towards them at a high speed.

Hei Tian Aozhen reacted extremely quickly and blocked the shadow in an instant.

"Bam—"

There was a loud bang.

Hei Tianao's body was actually knocked away by the shadow.

then.

Lin Tianhao saw a bloody humanoid monster.

His face was hideous, with incomplete divine patterns flowing on his flesh and blood.

"He... seems to be a member of the Pangu tribe as well?" Lin Tianhao frowned and spoke.

In human form, with a divine symbol on his body, he has great power and an amazing physique.

These ones.

It seems that they can both prove each other's identity.

The only difference was that his body was covered in blood and his face was hideous.

The strong man from the Pangu clan just now did not attack them, which could even be considered as helping him to resolve his doubts.

In this situation, Lin Tianhao did not take the initiative.

He just watched quietly to see if the strong man from Pangu clan would react.

"He is not from our Pangu clan."

The strong men of the Pangu clan who had just escaped underground reappeared.

"They are nothing but a group of thieves who stole the inheritance of our Pangu clan."

"It's a pity that they don't have the blood of the Pangu clan. If they practice according to the Pangu clan's cultivation method, it will only be counterproductive and it will be difficult for them to achieve great success."

Lin Tianhao narrowed his eyes slightly. It seemed that without the blood of Pangu clan, he could not practice the secret method of Pangu clan.

However, it is not ruled out that this is a means of protecting the secrets of one's own clan.

"Since you are a thief, I will not show mercy." Lin Tianhao released the feather arrow without hesitation.

With the help of the non-lawful silent arrow, Lin Tianhao's feather arrows locked onto the bloody monster from different angles.

"Bang bang bang-"

Next.

Lin Tianhao saw a scene that left him dumbfounded.

This guy.

With just his fist, he smashed Lin Tianhao's feather arrow into pieces.

If only.

Lin Tianhao was not too surprised, because even the feather arrow that Lin Tianhao hit at the monster did not cause any damage.

It seems that what Buzhou Divine Stone said before was true. This kind of monster is immune to most injuries unless its physical body is directly destroyed.

This is a bit outrageous.

He originally thought that with the killing power contained in his arrows, he could completely break through the monster's defense.

result.....

"Can you really bear it?" A look of surprise appeared on Heitian Aozhen's face.

His body turned into a stream of light and arrived in front of the monster in an instant.

But as soon as he appeared in front of the monster, the monster disappeared on the spot.

"Be careful."

When the Burning Heart Nightmare's warning voice came, Lin Tianhao only felt a huge force coming from behind him, and his body was actually knocked away.

This time.

Something happened that surprised Lin Tianhao.

He also didn't lose any blood, and didn't even feel much pain. It seemed that he was just blown away by the impact force.

"It's because of the divine patterns on his body that he can travel through the void."

"This place is filled with the two fundamental laws of water and fire, and he can even travel through the void. Either he has adapted to the laws here, or the spatial divine runes engraved on his body have exceeded the limits of normal divine runes."

"It seems that this Buzhou Ancient Land has exceeded the limit of the health bar, not only for these monsters, but also for these guys."

Lin Tianhao continued to use Arrows from the Heart and Heavenly Punishment Headlock.

"It's because of the two fundamental laws of water and fire. These two fundamental laws have greatly reduced the power contained in your feather arrows, sir."

"That's why the other party was able to withstand your arrows so easily."

The voice of the immortal bird came, and Lin Tianhao also noticed some problems.

Hear this.

Lin Tianhao knew that this kind of long-range attack would hardly be effective.

but.

He still did not give up shooting arrows from his heart, but he now had an extra sword in his hand.

Asura Sword!!

This is a divine weapon. Even if you ignore the powerful power contained in the weapon, just looking at the Shura Sword itself, it has extremely strong lethality.

"Dang Dang Dang——"

Before Lin Tianhao could even make a move, he was beaten back step by step.

He could only use the Shura Sword for defense.

Even though he had just withstood the monster's punch, it was impossible for him to just be like a sandbag and allow the monster to attack him at will.

Lin Tianhao's eyes narrowed slightly, and he began to counterattack.

He used the Shura Sword in his hand quite well, but the problem was that Lin Tianhao found that he had no close combat skills.

If there is one, it is only the fighting technique that Wen Suyao passed on to him: Zhe Hong! !

This Zhehong is not a skill, it is pure combat technique.

In fact, in recent times, Lin Tianhao has not used Zhehong once.

Because Lin Tianhao discovered that Zhe Hong seemed to be of no use anymore.

The heavenly punishment locks the head, the arrows are shot from the heart, and the evil sword fairy form, these seem to be enough.

Zhe Hong is somewhat superficial.

But now.

In such a battle, Lin Tianhao found that Zhe Hong was surprisingly useful.

It's just that Lin Tianhao hasn't used Zhe Hong for a long time, and he is still a little unfamiliar with it now, so he looks a little embarrassed.

After Lin Tianhao stabilized himself a little, the Shura Sword became more handy in his hands.

Think about this.

Lin Tianhao started to attack from the beginning, starting with your defense.

This monster's reaction speed is also astonishingly fast.

In addition, he can travel through the void, making Lin Tianhao somewhat hard to guard against.

"Magic Power: Blasting Sword World!"

The Shura Sword in Lin Tianhao's hand turned into thousands of flying swords, which flew over the moment the monster appeared.

"Boom boom boom——"

The flying swords all exploded the moment they approached the monster, and the power of the explosion blew the monster away.

The monster stabilized its body in the air and used space teleportation to come behind Lin Tianhao, trying to attack again.

"Come back!" Lin Tianhao used the blade of the Shura Sword in his hand to meet the monster's fist.

At the moment when the monster's fist was about to collide with the Shura Sword, it actually dodged upwards.

Not only that.

His fist shot upwards, straight towards Lin Tianhao's nose.

"Absolutely sluggish!!"

Lin Tianhao growled, the absolute slowing effect is also effective on gods, and this guy is unlikely to be immune.

Chapter 1556 The Crazy Soul!

as predicted.

The monster's movements suddenly slowed down, and the Shura Sword in Lin Tianhao's hand slashed directly at his abdomen.

"Thorn—"

The moment the Shura Sword touched his skin, the divine patterns on his body lit up instantly, trying to block Lin Tianhao's Shura Sword.

"Break it for me!!"

Lin Tianhao mobilized all his strength and slashed out with all his might.

"puff--"

The Shura Sword cut through the monster's flesh and blood, leaving a sword scar deep enough to see the bone on his abdomen, with scarlet blood flowing out.

But before Lin Tianhao could launch the second attack, the monster used space teleportation to escape.

"return!!"

Lin Tianhao used the Void's Return without hesitation! !

This skill can forcibly pull back the guy who has left.

After the monster was forcibly pulled back by Lin Tianhao using the Return of the Void, it had no time to react at all before Lin Tianhao's Shura Sword had already chopped it down.

"Pfft--"

The Shura Sword slashed from the side of the shoulder towards the neck, and the powerful force cut to the inner third of the neck before it was locked by the divine pattern on the monster's body and could not move forward an inch.

"what--"

The monster roared in pain and punched Lin Tianhao, sending him flying.

Lin Tianhao immediately pulled the Shura Sword back into his hand.

"Ahhh--"

An angry growl came from the monster's mouth, "Damn it, damn it, damn it!!"

He began to attack Lin Tianhao frantically.

"Overwhelm the mountains and rivers!!"

Lin Tianhao used his tricks again.

The monster's body suddenly sank, the divine patterns around him emitted light, and the wounds on his body began to heal at a speed visible to the naked eye.

Even so.

After recovering from its injuries, the divine patterns on the monster's body obviously dimmed.

"It seems that this divine pattern will dim when it is attacked or healed."

Lin Tianhao thought secretly.

While Lin Tianhao was thinking this, Hei Tian Aozhen had already replaced Lin Tianhao and collided with the monster.

Together with the phoenix, he besieged the monster from the front and back.

Lin Tianhao was not idle either.

Use the power of space to imprison this monster.

But no one knew whether it was because of these two original laws, or because the divine patterns on this monster were too powerful, but Lin Tianhao's spatial confinement was completely unable to confine him.

The arrow is shot from the heart and continues to exert force.

Although the power of the feather arrows will be reduced due to the power of the two original laws of water and fire, it will still be useful if you keep shooting them like this.

The Immortal Bird and Heitian Aozhen can both be considered as divine beasts.

Both of them have extremely strong physiques.

But they didn't gain any advantage at all in the fight against this monster.

To know.

The two swords that Lin Tianhao had just used had made the divine patterns on the monster's body dim.

"This monster is so physically strong, but I wonder how strong his soul is?"

Lin Tianhao has another magical power, which he rarely uses. Now he is ready to give it a try.

"Spiritual Supreme!!"

Lin Tianhao gathered his soul into a stream of light, which instantly crashed into the monster's mind.

After Lin Tianhao's soul entered the monster's mind, Lin Tianhao also saw the monster's soul.

The monster's soul was grayish-white, its face was hideous, and it seemed as if it had completely lost its mind.

Lin Tianhao's eyes narrowed slightly, "It's not that strong, but you can give it a try."

Lin Tianhao rushed towards the soul of the monster.

Because of the supreme soul, Lin Tianhao's soul combat power has increased three times at this time.

The monster's soul was not very strong, and it was beaten back by Lin Tianhao.

"Ahhh~"

"Damn it, damn it, it's the spirit again, it's the spirit again!!"

"Why didn't anyone tell me that I needed a soul, I needed a soul!!"

"I get it, hahahaha, I get it, ordinary people can also practice Pangu's secret technique, hahahaha..."

This monster's spirit is extremely crazy.

"So that's how it is, hahaha, so that's how it is, I should have thought of it a long time ago, to pursue perfection, one must naturally integrate form and spirit, hahaha, hahaha..."

Under Lin Tianhao's attack, the monster's soul seemed to have gone completely crazy. Apart from its wild laughter, it also made people's scalps numb.

Lin Tianhao frowned and asked:

"Since you know how ordinary people practice Pangu's secret technique, why did you become like this, neither human nor ghost?!"

Hearing Lin Tianhao's words.

The monster's spirit seemed to be stimulated, and he said madly:

"Liar, all liars, no, no, still no, they don't have a soul, how can a body with a soul withstand such an improvement."

"Hahaha, I'm not a monster, they are. They are all a bunch of monsters without souls!!"

Lin Tianhao frowned. He didn't know what the monster's soul was trying to express.

But combining the previous and subsequent contents, plus Lin Tianhao's understanding of the Pangu clan, he already had some guesses in his mind.

That is... the Pangu clan's secret body-refining technique requires a prerequisite, which is... the absence of a soul! !

Because the body with soul cannot withstand the training of Pangu's secret technique.

And Lin Tianhao also knew this from the mythology of Blue Star.

After Pangu's death, his descendants turned into the ancestor witches, also known as the witch clan.

Therefore, the Wu clan has a very unique feature, that is, they have no soul.

Combined with what the monster's soul just said, the answer is already very obvious.

That is.....

To practice Pangu's secret technique, one needs the support of the soul.

"No, no... Pangu's secret technique is wrong. They have been deceived. Pangu has a soul. Pangu has a soul..."

This monster's spirit looked like it had gone completely insane.

suddenly.

A look of pain appeared on his face, he stared at Lin Tianhao and said:

"Save me, save me, scrape off the divine pattern on my body, scrape off the divine pattern on my body, please!!"

Hear this.

Lin Tianhao was stunned for a moment.

The monster was covered in blood and flesh, and the divine patterns on its body also looked incomplete.

Could it be...

He probably shaved it himself.

Or maybe he asked someone else to shave it.

perhaps.....

Lin Tianhao thought of a possibility: if the divine pattern on his body was scraped off, would he return to normal?

Think about this.

Lin Tianhao retreated and switched the Shura Sword into a carving knife.

He had just used the Shura Sword, and he also wanted to hone his fighting skills.

Now, if we want to quickly scrape off the divine patterns on this monster, using a carving knife is undoubtedly the best choice.

"Ahhh-"

When the divine pattern was scraped off by the carving knife, the flesh and blood were scraped off together with it.

The pain involved can be imagined.

It seemed that the monster was gradually regaining its sanity because of the dimming of its divine patterns just now.

Chapter 1557 Pangu's secret technique, forced initiation!

Now he was standing there letting Lin Tianhao scrape off the divine patterns on his body.

The more Lin Tianhao scraped, the more penetrating his eyes became.

But there was even less flesh and blood on his body, and his entire body was covered in blood, making him look even more hideous and terrifying.

"He will die."

Just now.

The strong man from the Pangu clan spoke slowly, "I told him that only the Pangu clan can practice the Pangu secret technique, but he didn't believe it after all."

"He thinks that stealing my Pangu secret technique is his own ability, but how could he know that our Pangu clan has never intentionally hidden the method of cultivation."

Lin Tianhao was slightly stunned. Even someone like Ned Lifu, who had never dealt with the Pangu clan, knew the Pangu clan's method of cultivation.

Although it is not detailed, I still know the general idea.

From this point it can be seen that the Pangu clan's method of cultivation is not a secret.

The bloody monster raised its head and roared ferociously:

"No, no, no, no, I'm not wrong. It's just that I think too highly of myself and am too eager for quick success."

"Pangu has a soul. Pangu has a soul. He practiced Pangu's secret technique. How come he didn't become a monster like me?"

The Pangu clan warrior shook his head and said, "The power of the ancestor god is beyond our imagination."

"My ancestor god is unique among the three thousand gods and demons. How can you compare with him?"

The monster shook his head quickly, "I can't compare to the sainthood of the flesh, but I have practiced it myself and have summed up the method of practice."

"Young man, if you help me escape from the sea of suffering, I will pass on this cultivation method to you. Your vitality is so strong, and you have such a powerful avenue to rely on. It would be a pity if you don't practice Pangu's secret technique."

Lin Tianhao raised his eyebrows slightly. Someone was teaching him a technique, and it was Pangu's secret technique. He seemed to have no reason to refuse.

When the monster's voice fell, he raised his hand and pointed at Lin Tianhao's forehead.

A stream of memories flooded into Lin Tianhao's mind, not too many, but a lot.

At least.

Compared with the Pangu secret technique that Lin Tianhao imagined, it was not too much.

The strong man from the Pangu clan beside him shook his head and said:

"It's a big deal. The Pangu secret technique is very tempting. If you teach it to him, it will be hard for him to resist the temptation. He will definitely follow in your footsteps in the future."

The monster glanced at the strong men of the Pangu clan and said to Lin Tianhao:

"Boy, the Pangu secret technique is difficult for those with a soul to achieve perfection because the body is too strong and the soul cannot keep up. The soul and body will break the unbalanced state."

"Then, the soul and will collapse, and the body is out of control, and it will become like me, neither human nor ghost."

The strong man of the Pangu clan shook his head again and said:

"You had already guessed this, but you still failed."

The monster nodded heavily and said:

"I did fail. Although I scraped off most of the divine patterns on my body at the last moment, the imbalance between my body and soul had already appeared, causing me to become like this."

"But it is precisely because I scraped off a large number of divine patterns that my consciousness has become a little clearer. Over the years, I have been thinking about this problem."

"Now, we finally have the answer!"

That's it.

The monster stopped talking and instead transmitted its message to Lin Tianhao.

"The soul and body match each other. This is something that most physical practitioners know."

"But Pangu's secret technique is too powerful, surpassing billions of physical cultivation methods. It is difficult to maintain the balance between the soul and the body by just cultivating the soul."

"To maintain the balance between the two, a new force must be created to maintain the balance. This is..."

"The Way of Strength."

"Use the great way of force to balance the two, and then you will achieve the great way."

That's it.

The monster paused for a moment and said:

"You have achieved great success in the great way of strength, but you lack the foundation."

"My suggestion is to disperse your energy and cultivate your strength again. You need to reach at least the fourteenth level before you can practice this Pangu secret technique."

Lin Tianhao was secretly shocked and replied:

"You're treating me like a guinea pig."

The monster raised his head and laughed crazily: "Hahaha, I guess so. I haven't tried it, so I can't guarantee that it will succeed, but in theory it is like this."

"If you succeed, then I am right, and in the long river of time, I will also be famous throughout the world."

Lin Tianhao's mouth twitched, "If I fail, I will become a monster like you, neither human nor ghost."

The monster shook his head. "Before you engrave the divine pattern, you have a way to turn back. It's up to you whether you try or not."

"but....."

"I will definitely let you embark on this path."

Lin Tianhao's expression changed slightly, and he thought to himself that something was wrong.

What does this monster want to do?

Just as Lin Tianhao was thinking this, a powerful and vast soul force surged into Lin Tianhao's mind.

"Hahaha, if the body is too strong, it will break the balance between the body and the soul, and vice versa!!"

As the monster's voice fell, Lin Tianhao saw his soul power begin to surge.

Six billion!!

Eight billion! !

Ten billion! !

.....

In just a breath, Lin Tianhao's soul power had broken through the 10 billion mark.

This sudden surge in soul power was naturally very refreshing at first, but as the soul power continued to increase, Lin Tianhao actually felt that his soul could no longer stay with his body.

His soul was uncontrollably trying to break through Lin Tianhao's body.

Twelve billion!!

Fourteen billion!!

Sixteen billion!!

.....

Lin Tianhao's soul power is still soaring.

“Hahaha, if you want to keep your spirit and soul from leaving your body, then try to suppress these forces with the power of the Great Way of Strength.”

Lin Tianhao's face darkened slightly, and his soul power surged. This should be something that people could sense.

But now...

The pressure is unprecedented.

"There was no such pressure when improving my physical strength before, why is there such a huge pressure now when improving my soul power?"

Lin Tianhao was shocked. This feeling made him very uncomfortable.

As a last resort.

Lin Tianhao could only follow what the monster said and use the power of the Great Way of Strength to force his soul back into his body.

"It seems feasible..."

Lin Tianhao watched his soul power break through all the way and finally increase to 30 billion before he stopped.

Thirty billion soul forces, this strength is so strong that it is daunting.

"Hahaha, kid, if you don't practice Pangu's secret technique, no matter how strong your vitality is, you will die."

The monster laughed wildly, and after a moment, he seemed to have exhausted all his strength, and stood there, motionless.

"It's your chance."

The Pangu clan warrior spoke slowly, "He infused his soul power into you. Although you were able to absorb less than one tenth of it, it was still a blessing."

Lin Tianhao bowed and said:

"Senior, my vitality is so strong, and I didn't feel any discomfort before. Why do I feel so uncomfortable now that my soul power has increased? If I hadn't suppressed it with the great way of power, my soul would have left my body."

Chapter 1558 The kindness of the strong men of the Pangu clan!

"Different."

The strong man of the Pangu clan shook his head and said, "Your vitality is empty and has not transformed into a strong body."

"A strong physique is not just about vitality, it also includes defense, speed, physical fitness and many other aspects of the body."

"And your vitality, these things, are all gone."

"Your vitality is illusory and has not been transformed into a strong physique, but your soul power has actually strengthened your spirit."

Lin Tianhao understood a little.

To put it bluntly, although he has extremely high health points, he is not a body cultivator, and his health points cannot be equated with a strong body.

"Pangu's secret technique is extremely dangerous. You use the great way of power to suppress your soul. After you become a god, this problem will naturally be solved."

That's it.

The strong man of the Pangu clan said:

"But he didn't lie to you. Before engraving the divine runes, as long as your soul power is strong enough, no accidents will happen and your body will become more powerful."

Lin Tianhao narrowed his eyes and said:

"If that's the case, then I can give this Pangu secret technique a try."

The strong man of the Pangu clan nodded slightly and said:

"You asked for the super god-level hidden job transfer altar, but I need to transport this last piece of Buzhou Divine Iron over there, which will take at least three months."

Lin Tianhao's expression changed. "Three months? Isn't there a faster way?"

The strong man from the Pangu clan sighed and said:

"My ability is limited. If you had come earlier, it might have taken me longer."

"correct....."

"There are many thieves here. If you want to practice Pangu's secret technique, you can directly use their heart blood to practice. The effect will be better than most ferocious beasts."

That's it.

The strong man from the Pangu clan glanced at Heitian Aozhen and the Immortal Bird.

"These two are also good, the ancient black dragon and the immortal bird. Their blood essence is also a good thing to help practice Pangu's secret technique."

Lin Tianhao took a deep breath. The Immortal Bird and Hei Tianaozhen did not hesitate and each of them offered three drops of blood.

"My lord please!"

Lin Tianhao nodded slightly. The monster had just taught him the Pangu secret technique.

The method of refining the body with essence and blood is naturally included in it.

Lin Tianhao used Pangu's secret technique and began to absorb the three drops of blood from Hei Tianaozhen.

As the three drops of Hei Tianaozhen's blood were absorbed, Lin Tianhao felt that some mysterious changes had taken place in his body.

With this change, he felt that his body had become tougher, and the power and speed that his body could unleash had become even greater.

however.

This change in the body was not reflected in the attributes.

If you just look at the attributes, Lin Tianhao's attributes have not changed at all.

But the changes in the body were real, and this feeling made Lin Tianhao feel very wonderful.

Immediately.

Lin Tianhao refined the essence and blood of the immortal bird again, and the result was the same.

Lin Tianhao could clearly feel that his body had become stronger, but it was not reflected in his attributes.

"you....."

The strong man from the Pangu clan stared at Lin Tianhao for a while, finally shook his head, and retreated back into the ground.

Lin Tianhao frowned. He clearly saw what this strong man from the Pangu clan wanted to say.

But in the end he didn't say what he wanted to say.

"If you want to use the super god-level hidden job transfer altar, then come back three months later."

The voice of the strong man from the Pangu clan came from underground.

Lin Tianhao thought for a moment, wondering whether the words of this strong man from the Pangu clan were credible.

"If you don't believe me, you can stay here, kill these thieves, and use their blood to cultivate. That's not bad either."

"This also includes the one in front of you. Taking his heart blood will be of great benefit to your practice of Pangu Secret Technique."

Hearing these words from the powerful man of the Pangu clan, Lin Tianhao frowned.

The monster in front of him taught him the secret technique of Pangu, which gave him a sudden enlightenment.

Although this monster gave him an epiphany and his motives were not pure, it still helped him.

but.....

Lin Tianhao still took out the heart blood of the monster in front of him.

In order to practice, he would always have to try his best.

He has already borne a lot of infamy along the way, and it doesn't matter if he bears more.

Throughout the dynasties, no matter who you are, if you want to achieve great things, you must eventually achieve enlightenment by stepping on a pile of bones.

"A general's success is built on the sacrifices of thousands of men. People like you will either live a lonely life or be devoured by your inner demons. It will be hard to have a good ending in the end."

The voice of the strong man from the Pangu clan was heard again.

While talking.

He once again carried the Buzhou divine iron and walked forward.

"Maybe. I don't think I will have a good ending, but I have to do this."

The Pangu clan warrior did not respond immediately, but walked a distance away, put down the Buzhou Divine Iron, and then sighed:

"Yes, no matter how righteous a person is, there will always be someone who is not worthy of respect. No matter how evil a person is, there will always be a soft side."

That's it.

The Pangu clan warrior suddenly turned around and said, "Others think that we Pangu clan don't have souls, but they don't know that it is precisely because we don't have souls that what we see with our eyes is more real and pure."

"Is it?"

Lin Tianhao did not comment, "Without the soul, do the things you see still have color?"

The soul is the foundation of life.

The strong man of the Pangu clan took a deep breath and said:

"You don't believe it? But if there is no big mover involved, your ending will be miserable."

"Your obsession is too deep, your sins of killing are too severe, your heart is too evil, and your feelings are too false. All of these will crush you."

"Just because you can hold your ground now doesn't mean you will be able to hold your ground in the future."

Lin Tianhao shook his head, "Who told you that my feelings are too fake?"

"I never doubt my eyes."

The strong man from the Pangu clan spoke lightly.

Lin Tianhao frowned and said:

"Then why are you still telling me this?"

The strong man from the Pangu clan smiled and said:

"Because you do have the potential to master the Pangu Secret Technique, and I don't really want anything to happen to you."

"Think about it carefully. Let go of your obsession. You can kill billions of lives for your obsession. Why can't you let go of your obsession and let go of these billions of lives?"

Lin Tianhao narrowed his eyes and said:

"Do you think I can successfully practice the Pangu secret technique and restore the glory of your Pangu clan?"

"That's it."

"You can think about it carefully. When the disaster comes, I will wait for you here for three hours. If you come, I will take you across the starry sky."

Lin Tianhao took a deep breath, and before he could say anything else, the strong man from the Pangu clan continued:

"You don't have to rush to answer me. You still have time. Your obsession won't change because of a few words from me. Just wait and see."

Chapter 1559 36 Divine Patterns!

"Then will you help me?" Lin Tianhao asked.

"meeting."

The Pangu clan warrior answered with certainty, "But I can't leave here now. Even if I repair the super god-level hidden job transfer altar, I still can't leave. I can only wait, wait for the disaster to come."

Lin Tianhao pondered for a while and said:

"Then do you know about the Heaven Punishment Equipment? Do you know about the Super God-level Talent Awakening Stone? Do you know how to help me improve the grade? Do you know how to increase the speed of enlightenment?"

"If you don't leave here, there are still many things you can do to help me."

The strong man of the Pangu clan took a deep breath and said:

"I know, but I don't know either. I can't help you find these things directly. It will be difficult for your vitality to complete the upgrade."

Lin Tianhao waved his hand and said:

"You're right. Saving this world is my obsession, even if it means bearing endless criticism."

The strong man from the Pangu clan waved his hand and said:

"It doesn't matter. I can advise you, but I can't change your decision. In the end, it's up to you to decide."

That's it.

The Pangu clan warrior paused for a moment before continuing:

"Go west from here, you should encounter a lot of these monsters. It will be much easier to practice by taking their heart blood."

"especially....."

"If you want to pursue the ultimate power, you must go to Jiuyou and Tiangong, and go to the Yundian world. A strong body is still very useful."

"It's a pity that you can't comprehend the power of the origin law here. If you can comprehend it, it will be unexpectedly helpful when you explore other places."

Lin Tianhao bowed to the strong man of the Pangu clan and headed west.

This strong man from the Pangu clan gave Lin Tianhao a different choice.

Or.

These may be the only two paths Lin Tianhao can take.

just.

Lin Tianhao couldn't give up the galactic world and venture into the starry sky.

No matter the success or failure, no matter what the outcome, he has to explore something.

Heading west, not too far away, Lin Tianhao encountered the bloody monster again.

It was somewhat similar to the monster he encountered before.

looks.

It seemed that they all chose to scratch off their skin and flesh in order to destroy the divine patterns on their bodies.

But he still couldn't change his fate of going crazy.

This time.

Lin Tianhao did not hold back and rushed forward with a carving knife in hand.

I don't know if it's because of practicing Pangu's secret technique.

Lin Tianhao found that his reaction speed had become faster. The monster moved very fast, but Lin Tianhao was able to avoid it and launch a counterattack at the critical moment every time.

The existence of the carving knife is like a cheat, which can easily break the monster's defense.

After just a few rounds, the monster was killed by the carving knife.

"Ding, congratulations, you have successfully killed the mysterious monster. We will announce it to all servers soon. Do you want to hide your name?"

"no."

"Announcement to all servers, congratulations to player Xue Di for successfully killing the mysterious monster. We hereby announce this and hope all adventurers will keep up the good work!!"

.....

The monster was killed before, but there was no notification to the whole server, so it must have committed suicide.

But this time, it is still a good thing for Lin Tianhao.

He can touch the corpse.

"Ding, you obtained the Divine Mark of Strength +1."

"Ding, you get +100 million free attribute points."

"Ding, you got gold coins +1 million."

.....

Lin Tianhao's eyes lit up. The divine pattern of strength?

What is this? !

Could it be that I have obtained the divine pattern now?

Divine Mark of Strength (Divine Product): Divine Mark Blueprint.

Requirements for use: Divine Engraver.

Effect: You observe the divine rune of power and can learn the divine rune of power.

Wear resistance: Indestructible.

Lin Tianhao: ? ? ?

It turns out that this is not a divine pattern, but something for learning divine patterns.

This thing seems to be of no use to him now.

Divine Pattern Master!!

This should be a title above that of a talisman master, and should correspond to the realm of the gods.

With Lin Tianhao's current level, it is almost impossible to succeed even if he tries to study.

Even so.

Lin Tianhao was not discouraged.

Take his heart blood and practice Pangu's secret technique.

The next half month.

Lin Tianhao began to hunt monsters and then practice Pangu's secret technique.

Lin Tianhao's intuition told him that this Pangu secret technique would be of great help to him. Although the enhancement of his body was not reflected in his attributes, Lin Tianhao did not think that this improvement was in vain.

These improvements will definitely be reflected in other aspects.

At least.

This half month.

Lin Tianhao could feel that his reaction ability had been greatly improved.

Not only that.

Lin Tianhao discovered.

The impact force he endured when he was attacked by these monsters was constantly decreasing as he continued to practice Pangu's secret technique.

"almost."

Now it is somewhat difficult for him to find these monsters.

In the past half month, he has killed more than eighty monsters. Now the number of monsters has dropped sharply, and it has become difficult for him to find these monsters again.

And this half month.

In addition to 60 million free attribute points, Lin Tianhao obtained a total of 82 divine rune blueprints, but some of them were repeated. Even so, there were still a total of 36 divine rune blueprints.

Unfortunately.

He is not a divine pattern master now and is unable to comprehend and learn these divine patterns.

Coming out from the ancient land of Buzhou.

Lin Tianhao is ready to go to Jiuyou.

It is still a little difficult to find the Heavenly Palace at present, but Lin Tianhao has been to the Nine Netherworld once before.

Although he accidentally went to a parallel world after encountering the town-type combination monster last time, he still had some experience.

not to mention.

He is stronger this time, and there are more powerful people around him.

It is still the vast Gobi Desert.

Came here again.

Lin Tianhao just said:

"I've actually been thinking about a question, that is, can rule-based monsters be enslaved?"

This time when he came here, Lin Tianhao also brought the Green Tooth Ghost Demon with him.

Because the Green Fang Ghost is a rule-based creature.

He should have a better understanding of other rule-based creatures.

"It depends."

The Green Fang Ghost replied very seriously:

"Some rule-based monsters have very unique life forms, so they are very difficult to enslave."

"And some rule-based monsters are like me, intuitive and observable life forms."

"This kind of situation will result in a higher probability of slavery."

Nidlifu rejected it without even thinking:

"Anyone with enough strength can be enslaved."

"But the problem is, Xue Di, you don't have such strength now."

"Perhaps if you comprehend the laws of the origin of the soul to a certain level, it might be useful."

As soon as Ned Leef's voice fell, Lin Tianhao felt ripples appearing in the space in front of him.

After the ripples passed, he actually appeared directly in the Buzhou Holy Land! !

"what happened?"

Chapter 1560 The Wind of Annihilation!

Lin Tianhao's expression changed slightly. He was just on the Gobi Desert heading to Jiuyou, and he was suddenly teleported back to Buzhou Holy Land? !

"Something interesting."

Lin Tianhao summoned the Kunlun Mirror and once again came to the outside world, outside the Nine Nether Passage.

"It should be the power of the rule of space backtracking. After you set foot on a certain place, you will be backtracked by space to where you were before." said the Green Tooth Ghost.

Lin Tianhao didn't say anything, but in fact he had just reacted.

If he had used absolute blocking or invincibility at that time, he should have been able to block the attack of the power of rules this time.

but.

He didn't use any of them, he just wanted to try and see what the power of rules actually did.

Enter the passage leading to the Nine Netherworld again.

The information previously learned from the owner of Han Tower and the leader of Yin Yang He Huan Sect was that the Nine Netherworld passage was blocked by thousands of ghosts and it was impossible to enter the Nine Netherworld.

Now it seems.

These so-called ten thousand ghosts are most likely these rule-based monsters.

It is indeed very difficult for these masters from outside the domain to deal with these rule-based monsters. Naturally, they will find it extremely difficult to set foot in the Nine Netherworld.

It will take another two and a half months to repair the super god-level hidden career transfer altar in the ancient land of Buzhou. During these two and a half months, he may be able to gain something in this land of the Nine Netherworlds.

It's the endless Gobi Desert again.

Lin Tianhao took a step forward. This time, Lin Tianhao pushed his five senses to the extreme.

Because he discovered that conventional spiritual consciousness, and even the eye of insight, could not detect these invisible and colorless rule forces.

However, after he practiced Pangu's secret technique, his five senses were able to feel some fluctuations of the power of rules.

After walking for half an hour, Lin Tianhao shot the arrow from his heart, and the feather arrow cut through the sky and covered the front.

Because he sensed a faint fluctuation of the power of rules.

"Om-"

"Om-"

.....

Before Lin Tianhao's feather arrow hit the ground, it was blocked by an invisible force.

"I see."

Lin Tianhao raised his eyebrows. "Most of the power of rules is indiscriminate. If that's the case, then can it be like this..."

Lin Tianhao had a plan to deal with it.

The three heads and six arms were opened, the sky lock was opened, and Lin Tianhao began to lock onto the farthest target in front of him.

If there is the power of rules in front, it will definitely counteract the power of rules of the Heavenly Punishment Lock.

The power of Lin Tianhao's Heavenly Punishment Headlock is also very overbearing. Theoretically, ordinary rule power is still difficult to compete with his rule power.

suddenly.

Lin Tianhao felt that the sand under his feet was a little strange. When he wanted to react, his body had already begun to sink.

Lin Tianhao wanted to fly, but he couldn't fly at all.

"No-fly rule?"

Lin Tianhao raised his eyebrows slightly. This place was indeed not so easy to get through.

Lin Tianhao's body spun up, and with his strong physique he lifted himself up from the mud and sand.

"Is this the benefit that cannot be reflected by the attribute?"

Lin Tianhao can walk in the void and has the power of space, but just now, none of these methods could help him escape.

In the end, he was forced to fly out by using his physical strength.

Passing through this restricted air zone, Lin Tianhao continued to move forward as usual.

The feather arrow with the Heavenly Punishment Lock can help Lin Tianhao detect the existence of most of the power of rules.

After these rule-based life forms discover that they cannot fight against Lin Tianhao's Heavenly Punishment Lock, they will choose to leave.

This made Lin Tianhao's subsequent progress smoother.

At this moment.

A sandstorm started to roll up in the distance, and Lin Tianhao's feather arrow was also caught in it.

However, although the feather arrow was caught in the sandstorm, it was not directly torn apart by the sandstorm.

The sandstorm swept towards Lin Tianhao. Lin Tianhao switched his attack and activated the Evil Sword Immortal form. Thunder and fire rolled from the sky and the earth.

"It's only you, sir. No one else can have such a strong power of rules to fight against them." Burning Heart Nightmare couldn't help but sigh.

Lin Tianhao took a deep breath and said:

"The fact that so many rule-based life forms can gather here also shows how powerful the Nine Netherworld was in the past."

As soon as Lin Tianhao finished speaking, the voice of the Green Tooth Ghost rang out.

"Brother, there are so many rule-based life forms gathered here. Maybe it has something to do with this place."

"Here, I feel that my Divine Talisman Building can also be nourished. Other rule-based life forms may also be nourished here. If they stay here long enough, they may even advance."

Lin Tianhao narrowed his eyes and said:

"If what you said is true, then there should be a rare treasure here, a treasure that is of great help to rule-based life forms."

"good."

The Green Fang Ghost Demon answered with certainty, "This treasure may not be here, but in the Nine Netherworld. But if that's the case, the rule-based monsters in the Nine Netherworld will be very powerful."

While talking.

The Green Fanged Ghost Demon summoned out his magic talisman tower.

"But the greatest treasures in the world belong to those who are capable. Looking at the history of the entire galaxy world, I should be one of the very few rule-based life forms at the level of a god."

"With you here, how can I succeed if I don't fight for this treasure?!"

When the words fell.

The magic talisman building of the Green Tooth Ghost Demon has been getting bigger and bigger, and it even sucked the sandstorm in front into the building.

"How can this small-scale sandstorm caused by the power of rules compete with my Divine Talisman Building!!"

A hint of pride appeared on the Green Tooth Ghost's face.

"Cough cough... cough cough..."

At this moment.

There was a slight cough.

"This treasure is destined to be out of your reach. Leave quickly, lest your spirit and soul be scattered and your mind collapse. It will be too late to regret it then."

The sound came from all directions, like the whisper of a devil, making people feel as if ants were crawling in their chest, which was extremely uncomfortable.

The Green Fang Ghost looked around and said coldly:

"You dare to threaten me when you are hiding your head and showing your tail? I think you don't know how to write the word death."

The words fell.

The Divine Talisman Building soared again in the air.

"Since I reached the Divine Level, I have never used my full strength. Now, I will use you as my first choice."

"is it?"

That old and unpleasant voice came again, "The strength of the power of rules is never determined by rank."

"Dust to dust, ashes to ashes, everything is just an illusion, everything should perish!!"

A gust of wind blew, and wherever the wind passed, all the rocks turned into ashes.

Lin Tianhao's feather arrow with the Heavenly Punishment Lock began to tremble violently, and then...

These energy arrows actually began to disintegrate.

"What kind of rule power is this? It's so powerful." Lin Tianhao frowned.

"The power of rules such as annihilation, this kind of power of rules, even in the era I lived in, was very strong."
