

O games 1581

Chapter 1581 The Lord of Aging!

As if sensing the vague murderous intent from Lin Tianhao, Xiao Buyi's words became a little colder.

"Boy, you want to kill me?"

"I am the hope of saving the galaxy world. If you kill me, you are destroying the hope of the galaxy world."

Lin Tianhao chuckled, "Don't you have a bond that the sea will not destroy you? How can I, a mere mortal, kill you?"

"What are you...afraid of?"

This heart claims to be the Ocean Supreme Xiao Buyi, but Lin Tianhao feels that he may not be the real Ocean Supreme Xiao Buyi.

He portrays himself as the hope for saving the galaxy, so, under normal circumstances, what should he do?

Of course, it is to help the other person get a new life.

"You are not the Ocean Supreme Xiao Buyi, who are you?"

Hear this.

The heart shouted angrily:

"I'm not Xiao Buyi, the Supreme of the Ocean. Could it be that you are?"

Lin Tianhao smiled noncommittally and said:

"It's easy to verify your identity. Just see if I can kill you."

The words fell.

Lin Tianhao was ready to take action.

"Stop. I won't be killed, but if you attack me, it will prolong the time it takes for me to revive. When those guys from the Alete Galaxy attack us, they won't be able to survive without me."

Ned Leef looked at the heart with cold eyes.

"I almost believed you. Xiao Buyi is a human. His second clone was also built based on the human race. How can a human race have such a huge heart?"

"Don't say that the saint's heart is huge. The saint's heart has already been refined by Xiao Buyi."

"You are not Xiao Buyi at all. You are pretending to be Xiao Buyi just to ask us to save you."

A cold light flashed in Lin Tianhao's eyes, and he said in a cold voice:

"Since you are not Xiao Buyi, you can die now."

"No...no...don't."

A terrified voice came from the heart, "Xue Di, I am able to survive in the Nine Netherworld until now. I have something extraordinary. Please don't kill me."

Lin Tianhao chuckled, "I think so too, so, after I kill you, I will send you to the Conferred God List."

When the words fell.

Lin Tianhao's feather arrow has already been shot, flying towards the heart.

"Snow Emperor——"

A voice of extreme anger came from this heart.

That mysterious power rushed towards Lin Tianhao.

In a flash.

Lin Tianhao actually felt that his body had changed.

His body is getting old!!

It seems that the heart is really scared and starts to fight desperately.

Lin Tianhao's eyes narrowed slightly, his body turned into a stream of light, and the weapon in his hand turned into a carving knife.

Because the feather arrow that Lin Tianhao just shot out had not even gotten close to the heart when it rapidly weakened and eventually disintegrated.

"Xue Di, you lunatic, even if you kill me, you will not have a good ending."

"Pfft-"

Lin Tianhao turned a deaf ear and just stabbed the carving knife in his hand into his heart.

"Ahhh-"

"What kind of weapon is that in your hand? Why...why are my aging rules useless?"

"You crazy, crazy man!!"

Lin Tianhao stabbed the heart with holes all over it, but the mysterious aura still did not dissipate. However, Lin Tianhao could feel that the other party had been killed by him.

Think about this.

Lin Tianhao included the other party in the List of Gods without hesitation.

After sending the other party to the List of Gods, Lin Tianhao directly summoned him out.

Following Lin Tianhao's call, a giant one hundred meters tall appeared in front of Lin Tianhao.

He looked around in disbelief and said in a trembling voice:

"I... I'm still alive..."

"Is this what it feels like to be on the Conferred God List? I instantly recovered to my peak state."

Lin Tianhao frowned as he looked at the giant in front of him, who was a hundred meters tall, with two legs and six arms.

On the six arms, there are eyes one after another.

And his huge face had only one eye, a huge eye that took up most of his face.

at this time.

The eye was closed, and only the eyes on his six arms were looking around.

"Tell me, who are you?" Lin Tianhao asked.

Because Ned Leef looked at the six-armed Cyclops with a puzzled look, and it was obvious that he did not know the guy in front of him.

The six-armed Cyclops looked at Lin Tianhao meaningfully, and finally bowed.

"I am your aging master, and I pay my respects to you, sir."

"My master is the Rule of Aging, and he is one of the nine great masters of the Netherworld."

Hear this.

Nidlifu said with some surprise:

"You are serious, are you one of the nine ghost masters?"

"It is said that the nine ghost masters of the Nine Netherworld were all at the semi-saint level. Are you even a god?"

"You can't possibly... destroy your own godhood, right?"

"good."

The aging lord nodded slightly and said:

"For some reason, we chose to stay. Not only us, but the other eight ghost masters also chose to stay."

"why?"

"After so many years, you should have all become saints. Why..."

The Lord of Aging said seriously:

"Yes, we have indeed become saints, but for some reasons, we are also restricted."

"We are staying here now for the heart of the Galaxy World. Although we, the Ghost Lords, cannot solve the troubles of the Alet Galaxy by joining forces, we can take the opportunity to take away the heart of the Galaxy World's strength."

"Get the heart of the world? Then use the heart of the world to impact the realm of creation, seize the fortune of heaven and earth, and embrace the way of heaven, right?"

"Not entirely true. In our Netherworld, there are nine Netherworld Lords in name, but in reality, we are one."

"We encountered a great disaster and our bodies were shattered. Fortunately, a great man came to our rescue and we were able to escape unscathed."

"That great man left us in the Nine Netherworld. This is the reason why the Nine Netherworld was founded."

"That master asked us to help people reincarnate here, accumulate merits, strive for the sainthood, and then find an opportunity to rebuild."

Hear these words.

Nidlifu was dumbfounded. "You were once one? Then how strong were you?!"

"The nine ghost masters of Jiuyou represent nine kinds of rule power. If you were one body at your peak, then you have one body and you can master nine kinds of powerful rule power at the same time?"

The Lord of Aging nodded heavily and said:

"good."

Lin Tianhao asked curiously:

"What kind of rule power are these?"

The old man he met before who was able to make them forget their memories should also be an excellent person.

"Aging, forgetting, rebirth, and the six lords of the six paths, namely the heaven path, the asura path, the human path, the animal path, the evil ghost path, and the hell path."

"The way of heaven?!"

Lin Tianhao was shocked. "Is it the same thing as the Heavenly Dao I was thinking of?"

The Lord of Aging nodded heavily and said:

"Almost. Those who follow the Heavenly Dao and are reincarnated will ascend directly to the throne of God!"

Chapter 1582: Hungry Ghost Lord!

Judging from what the Lord of Aging said, the old man he met before should indeed be the Lord of Oblivion.

"I met an old man before. He was very powerful. He could make my memory weaken when I was close to him."

The Lord of Aging nodded slightly and said, "Then he should be the Lord of Oblivion."

Lin Tianhao continued:

"Does this Lord of Oblivion have a holy weapon in his hand? Or is it an innate holy weapon?"

"good."

The Lord of Aging nodded solemnly, "Did you fight him, sir?"

"good."

Lin Tianhao nodded gently, "I didn't fight him, I just used some methods to hurt him."

"As expected of you, sir. Among us ghost lords, the Lord of Oblivion is the strongest. Of course, it's not because of his individual combat power, but because of the innate holy weapon in his hand, the Three Lives Reincarnation Tower."

Lin Tianhao nodded slightly and asked:

"I want to send you all to the list of gods. Do you have any suggestions?"

The Lord of Aging hesitated for a moment and said:

"The nine of us are all strong. I am trapped here for some reason, but the situation of others is much better than mine."

That's it.

The Lord of Aging hesitated for a moment before saying:

"If you have an idea, you can start with the two ghost masters in the hungry ghost realm and the animal realm, send them to the list of gods, and then target the hell realm and the asura realm."

"Then there are the two of humanity and heaven."

"Finally, there are Newborn and Forgotten."

"This is the method I can think of based on their current combat power. The more ghost masters there are on the Conferred God List, the easier the subsequent battles will naturally be."

"Especially after all six ghost masters of the Six Paths of Reincarnation are taken down, they can work together to perform the Six Paths of Reincarnation. In this way, even the Lord of Oblivion with the innate holy weapon will find it difficult to resist."

Lin Tianhao nodded slightly and continued:

"Do you know about the Heavenly Punishment Equipment and the Super God-level Talent Awakening Stone?" Lin Tianhao asked.

"know."

The Lord of Aging answered very directly.

"There are three super god-level items in the Nine Netherworlds, namely the super god-level talent awakening stone, the Heavenly Punishment Longbow, and... the Human Emperor Banner."

Lin Tianhao narrowed his eyes slightly. Of these three things, two were what he needed.

As the Human Emperor Banner is a super god-level item, Lin Tianhao naturally doesn't want to let it go.

"The Super God-level Talent Awakening Stone is in the hands of the Six Paths Ghost Lords. You need their approval before you can get it."

"The Heavenly Punishment Longbow is in the hands of the Lord of Oblivion, but he cannot give it to anyone at will. He needs the approval of the Lord of New Life and me before he can give it to anyone."

"As for the Human Emperor Banner, it is in the hands of the sacred monk Canghai."

Lin Tianhao nodded gently and said with a smile:

"Okay, now that we have a target, let's start with the Hungry Ghost Lord and the Animal Lord."

"You lead the way, and start killing!"

Lin Tianhao didn't want to waste time and wanted to capture the Six Paths Ghost Lord as soon as possible, so that it would be easier for him later.

"Ah."

The Lord of Aging nodded and said:

"My current appearance is too eye-catching. My lord, please include me in the Conferred God List. I will show you the way forward."

"it is good."

Lin Tianhao nodded slightly and put the Lord of Aging back into the List of Gods.

After coming out of the Hall of Rebirth, Lin Tianhao found that Lin Xiaofu and the others were gone. They probably didn't know what they had experienced here and chose to leave.

In this regard.

Lin Tianhao didn't care too much about it. He seized the time to deal with the nine ghost lords in the Nine Netherworlds.

In this way, he finally got the two things he wanted most on this trip.

Under the leadership of the Lord of Aging, Lin Tianhao encountered many ghost officials, and then... then these ghost officials began to age rapidly, and were easily killed by Heitian Aozhen and Fenxin Mengyao.

in this way.

Lin Tianhao gained a lot of equipment.

After half an hour.

Lin Tianhao came to a deep pit.

In the deep pit, resentment was rising to the sky. Countless resentments washed over Lin Tianhao's body, making Lin Tianhao's soul feel a little cold.

Lin Tianhao shivered involuntarily.

"The breath of the Lord of Aging?"

In the deep pit, a soul slowly rose up.

The facial features of the soul were distorted, and there were mouths, noses and eyes on its arms, stomach and legs, which looked very strange.

"Are you the Lord of Hungry Ghosts?" Lin Tianhao asked.

"Yes, you are Xuedi?"

The Hungry Ghost Lord looked at Lin Tianhao indifferently and said:

"My subordinates are all hungry ghosts. There is nothing you want here. Go east from here and head to Yama Palace. There, you may find what you want."

Lin Tianhao was a little surprised:

"The Hungry Ghost Lord is so easy to talk to."

The Hungry Ghost Lord waved his hand and said:

"We have no conflict of interest. Besides, I have heard a lot about you, Xue Di. If we can avoid becoming enemies, then we will naturally not become enemies."

Lin Tianhao took a deep breath and said:

"I heard that to obtain the Super God-level Talent Awakening Stone, you need to get the approval of your Six Paths Lord."

The Hungry Ghost Lord frowned slightly and said:

"You are aiming for something big, but I don't care. As long as the other six ghost masters can win, I can win too."

Lin Tianhao shook his head and said seriously:

"I actually have a better way."

"Oh?"

The Hungry Ghost Lord looked at Lin Tianhao with interest and said:

"Do you have a better idea?"

"You'll find out later."

The words fell.

Lin Tianhao's Sky Punishment Feather Arrow has been launched.

But facing the dense feather arrows from Lin Tianhao, the Hungry Ghost Lord didn't care. He just looked at Lin Tianhao coldly.

"Want to kill me?"

"Want to send me to the Conferred God List?"

"Humph, you are so naive. After all, I was once a saint. You cannot control me."

Lin Tianhao has learned from the Lord of Aging that this Hungry Ghost Lord can transfer the damage he suffers to other hungry ghosts.

And in the Nine Netherworlds, the number of hungry ghosts that can have the Hungry Ghost Lord divert harm has reached an astronomical number.

In this land of the Nine Netherworlds, it is impossible to kill the Hungry Ghost Lord by conventional means.

"You'll attack me, it seems you've already killed the old ghost master."

"What the old Ghost Lord said is right. I am indeed the weakest among the nine Ghost Lords. But didn't he tell you that I am also the hardest to kill?"

Lin Tianhao did not comment. These feather arrows were only used to suppress the Hungry Ghost Lord.

Lin Tianhao's real killer move is yet to come.

"It's now."

Lin Tianhao attacked instantly. Burning Heart Nightmare, Sand Sea Poison Emperor, and Black Sky Aozhen all attacked with all their strength. Lin Tianhao himself also used the power of the law of space.

He teleported in front of the Hungry Ghost Lord and stabbed him with the carving knife in his hand.

The Hungry Ghost Lord's face changed drastically. He wanted to dodge, but the Lord of Aging and others had already taken action. After Lin Tianhao's attack, the Hungry Ghost Lord had no chance to dodge.

"Pfft-"

The hungry ghost lord is clearly a soul, but the carving knife in Lin Tianhao's hand has given Lin Tianhao a feeling of piercing through his flesh and blood body.

Chapter 1583 City God Temple, City God!

One hit.

Lin Tianhao did not stop attacking, but used his extremely fast attack speed to show the Hungry Ghost Lord what it meant to strike a hundred times in one second.

The Hungry Ghost Lord felt numb after being stabbed hundreds of times by Lin Tianhao in just one second.

He stared at Lin Tianhao with his eyes wide open, his eyes full of disbelief.

"You...what kind of weapon is this?"

He was very clear about his situation. Although he had given up his ascension and his godhood had been shattered, his foundation still existed.

Not to mention mere mortals, he doesn't even take powerful gods seriously.

But just in this second, after a hundred cuts, he actually felt that his vitality had completely collapsed.

"No...impossible!"

The Hungry Ghost Lord only had time to say this before he collapsed helplessly.

Lin Tianhao sent the Hungry Ghost Lord into the List of Gods.

"It's done."

The Lord of Aging bowed to Lin Tianhao and said, "The small carving knife in your hand is really extraordinary. The most troublesome thing about the Hungry Ghost Lord is his ability to transfer damage, but it has lost its effect in front of your carving knife."

Lin Tianhao waved his hand and said:

"No need to compliment me, next one."

Time, time, and time!!

What Lin Tianhao lacks most now is time.

"To get through here, we need to pass by the City God Temple. However, with our strength, it is still easy to deal with the City God."

The Lord of Ageing led the way in front, and there were still countless ghost officials.

Now seeing these ghost officials, Lin Tianhao feels particularly friendly.

Not long after.

Lin Tianhao saw the City God Temple in front of him.

Just as he arrived in front of the City God Temple, Lin Tianhao heard the sound of fighting coming from inside.

Lin Tianhao looked up and saw that the people inside were Lin Xiaofu, Zhou Qingfeng and Yang Hai.

At this time, the three of them were besieging a hideous, tall humanoid monster.

"My little City God, alas, the situation is irreversible. I hope that after his death, he can have a good ending in the Divine Realm." said the Lord of Aging.

Lin Tianhao immediately asked:

"Will all the gods killed here go to the divine realm?"

"Yes."

The Lord of Aging nodded slightly. This was the promise he made to us. Although we were not qualified to have a fair conversation with him, he... was actually thinking about our world.

"If it wasn't a last resort, I don't think he would have done this."

at this time.

In this City God Temple.

Zhou Qingfeng and the other two fought against the City God after the mutation, and they fought back and forth with each other.

"This cultivator's methods seem to be similar to ours."

Lin Tianhao saw magic, supernatural powers, talismans, and the art of wielding swords.

"Brother, right now, Junior Sister and I will help you suppress him."

Zhou Qingfeng had a serious expression. A golden chain flew out of his hand and wrapped around and bound the City God.

Lin Xiaofu formed seals with her hands, and an ancient mysterious ice formation appeared under the feet of the City God. Endless cold air rushed out and froze the City God.

The immortal cultivator named Yang Hai had a long banner in his hand, and ghost energy and resentment were rampant in the banner.

"Ten Thousand Souls Banner?"

The expression of the Lord of Aging changed slightly, "It seems that these people are not good people."

Yang Hai activated the Ten Thousand Souls Banner, and dozens of chains flew out of it, wrapping up the City God.

Followed by.

Those dozens of chains actually tried to pull the City God and drag him into the Banner of Ten Thousand Souls.

"My Ten Thousand Souls Banner is still short of a main soul, so I'll send you up now. With the City God of the Nine Netherworld as the main soul, when you return to the Immortal Cultivation World, I won't be afraid of even an eighth-level Loose Immortal."

Lin Tianhao's eyes narrowed slightly. This guy is really greedy.

however.

Just now.

A mysterious aura burst out from the iron chain, and then a hand was seen piercing through the chain and reaching out.

The palm continued to grow longer and in an instant it arrived in front of the Ten Thousand Souls Banner.

"Although the City God has been polluted, it is still too naive to think of using the Ten Thousand Souls Banner to deal with him."

"Some things are in our bones and cannot be changed."

"not good."

Yang Hai was shocked. He wanted to stop it, but it was obviously too late.

The City God's hand has already grasped the Ten Thousand Souls Banner.

The next moment.

The restrictions on the Ten Thousand Souls Banner were broken layer by layer.

"Hurry up, this old thing has broken the restriction of my Ten Thousand Souls Banner. Ten Thousand Souls are backfiring, and I don't want to die yet!!"

Yang Hai turned around and ran, with several magical talismans hitting his legs, and he turned into a stream of light and rushed out of the City God Temple.

As soon as he appeared, he saw Lin Tianhao.

"Run!"

Yang Hai screamed in shock.

"Don't be stunned, my friend. Something deadly is coming."

Lin Tianhao found it a little strange that these guys actually asked him to run with them.

Normally, shouldn't they be hoping that he would be here to help them block off all the ghosts?

After all, they had the help of the Ten Thousand Souls Banner in refining it.

"Do it."

Lin Tianhao attacked with all his strength, and the Hungry Ghost Lord was driven out from the List of Gods.

He grabbed the wronged soul that escaped from the Ten Thousand Souls Banner, tore it into pieces, and swallowed it in two bites.

With a wave of hand.

Countless curse seals flew out and locked onto all the ghosts.

These originally ferocious ghosts became docile after being hit by these curses, and crawled on the ground trembling.

Lin Xiaofu, who was running at the end, was stunned when she saw this scene.

"The ten thousand souls in Senior Brother Yang Hai's Ten Thousand Souls Banner are at the lowest level, all of them are in the Spiritual Transformation Stage. Did he just suppress them so casually?"

"You can deal with those ghost messengers, why can't you even deal with these wronged souls?" Lin Tianhao asked.

After all, ghost messengers are all gods.

"The realm of the ghost messenger is indeed higher than these wronged souls, but his fighting methods are limited. In terms of actual fighting power, he is not even as good as a stronger cultivator in the Spiritualization Stage."

As if they realized that the problem had been solved, Zhou Qingfeng and Yang Hai also ran back.

"Junior sister, what you said is an exaggeration, but in terms of methods and schemes, these ghost messengers are indeed not very good."

"That is because he relies on his high realm. Otherwise, it would be much easier to deal with him."

Lin Tianhao did not say anything more. The Hungry Ghost Lord was able to suppress the wronged souls in the Ten Thousand Souls Banner, but he was still a little short of killing the City God by himself.

Now the Hungry Ghost Lord has completely suppressed the City God.

The City God is considered to be a relatively powerful being among the Yin gods, but he was directly suppressed by the Lord of Hungry Ghosts.

"Get started." Lin Tianhao said in a deep voice.

His own feather arrow had already flown out of his hand.

The Lord of Aging stepped out, and the power of aging enveloped the City God, making his movements slow.

With the help of Lin Tianhao's feather arrows, the City God had almost no chance to put up an effective resistance and was killed by Lin Tianhao.

"So strong!!"

Lin Xiaofu couldn't help but sigh:

"With this kind of strength, even a tenth-level Loose Immortal may not be as strong as them."

"I don't know. I haven't seen any other tricks. But in their hands, the City God is just like a toy."

Chapter 1584 Zulong, the beastly ghost master!

After dealing with the City God, Lin Tianhao began to search the corpse.

The City God is also quite famous. Lin Tianhao had once received the blessing of Hou Tu Niangniang in the City God Temple.

The existence of the City God Temple also greatly improves Lin Tianhao's magic resistance.

I don't know whether this City God has any connection with the City God Temple he obtained.

Lin Tianhao only found a storage ring from the City God Temple.

in this way.

Lin Tianhao has obtained three storage rings.

"Xuedi, you are so amazing."

Lin Xiaofu's eyes began to light up when she looked at Lin Tianhao.

"Why don't you come to our Xuantian Continent? With your background, you can have great development in our Xuantian Continent."

Lin Tianhao frowned slightly and said, "I probably can't go."

"Yes."

Zhou Qingfeng gave Lin Tianhao a very affirmative answer.

"I have a general understanding of your current situation. This should be the rule set by the great being here, which allows your consciousness to enter this game called Ragnarok."

"Then I will give you a carrier in this Ragnarok, and let you use this carrier to become stronger."

That's it.

Zhou Qingfeng continued:

"Once your carrier grows to a certain limit, you will merge with your main body."

"Your body cannot leave, but your consciousness can leave, including this carrier, which should also be able to leave."

Lin Tianhao waved his hand and said:

"Whether I can leave or not, I'm not leaving now."

"Dealing with those guys in the Alethe Galaxy has become my obsession."

"If I can't deal with them, this may become an obstacle on my path."

Hear this.

Zhou Qingfeng said nothing more.

"Well, let's just consider it as a good relationship. We are still willing to do our best to help you, Xue Di, deal with these ghost messengers."

Lin Tianhao's eyes narrowed slightly and he said:

"Forget it. I'm in a hurry."

Lin Tianhao left directly and headed in the direction indicated by the Lord of Aging.

Zhou Qingfeng and the other two didn't seem to have any major problems.

But not to mention that bringing them along wouldn't help much, there's no guarantee that they might stab you in the back.

therefore.

The best option is to part ways with them.

After moving forward and killing thousands of ghost officials, Lin Tianhao finally arrived at the territory of the Beast Ghost Lord.

it's here.

There are iron chains as thick as buckets, covered with tadpole-sized runes. The chains extend into a deep well with a diameter of more than 100 meters.

"The beastly ghost master is right below."

Looking at the deep well in front, there is a stone tablet next to it.

In front of the stone tablet, there are three ancient characters: Locking Dragon Well!

Lin Tianhao narrowed his eyes slightly and walked to the Dragon Locking Well.

at this time.

Lin Tianhao discovered that there was a large amount of text behind the Locking Dragon Well.

These words are complicated and do not belong to his era.

Ned Liv's voice rang in Lin Tianhao's ears.

"This seems to be the text from the Second God Creation Era. It roughly tells the story that although the Ancestral Dragon died, his residual soul was immortal and was reborn in the body of the Human King. He was later killed, but still immortal, and was sealed in this Dragon Locking Well by the Beast Ghost Lord!"

Lin Tianhao was slightly surprised.

The one locked in this Dragon Locking Well turned out to be the Ancestral Dragon! !

and.

From the above introduction, it seems to confirm a rumor.

Zulong died and was reincarnated as a human king, the last human king in human history: King Zhou of Shang!

Later, during the Conferred Gods Tribulation, King Zhou of Shang was destroyed. From then on, the human race no longer had a human king, only the one who accepted the will of heaven... the Son of Heaven!!

Although this is just a rumor, Lin Tianhao is a human being and the human race no longer has a human king. How can he not be heartbroken?

not to mention.

He has now obtained the Human King Order and the Human King Sword.

This seems to have already indicated that the King of Men has arrived.

The gods are destroyed, and the human race rises! !

The actions of the Arlate Galaxy against the Galactic World were a disaster for him.

same.

This is an opportunity.

By seizing this opportunity, the human race will surely be able to return to its peak.

"Walk."

Looking at the bottomless Dragon Locking Well, Lin Tianhao hesitated for a moment and then jumped in.

The laws of space were in operation, and Lin Tianhao used the power of space to hold his body, allowing himself to remain suspended in the air for a short period of time without falling down all at once.

After Lin Tianhao landed, he immediately looked around.

The area below was even more empty than he had imagined. Looking from all four sides, there was no end in sight.

Only the eight iron chains as thick as buckets seemed to be pointing the way for Lin Tianhao, extending into the depths of the darkness.

Lin Tianhao walked towards the direction where the iron chains extended. Before he had walked far, the iron chains, as thick as buckets, were actually dragged towards the depths of darkness.

Followed by.

Lin Tianhao saw a pair of blood-red eyes appear in the depths of the darkness.

"coming!!"

The Lord of Aging sounded with a solemn voice.

"The Beast Ghost Lord rarely takes action. Over the years, he has been trying to obtain the power of the Human King from the Ancestral Dragon, but he has not been able to obtain it."

As the voice of the Lord of Aging fell, a huge dragon head as big as a mountain appeared in front of Lin Tianhao in the depths of darkness.

This is not the tap of the physical state, but the tap of the soul state.

But it was so huge, especially those eyes, that Lin Tianhao felt a little scared.

"Are you Zulong?" Lin Tianhao quickly calmed down and asked.

The huge dragon head stared at Lin Tianhao for a while and said:

"It seems that the old man has found a successor, but why is it you, a human possessed by a demon, can you really take on such a great responsibility?"

There was some confusion and doubt in the dragon's eyes.

Just as his voice fell, a slightly dissatisfied voice sounded.

"Zulong, tell me, why are you doing all this? Give me the power of the Human King, I will kill this kid, get the Human King Order and the Human King Sword, and I will protect the human race for you. I will be the new Human King!!"

As the voice fell, a tall and thin old man walked out.

His size seemed insignificant in front of this huge dragon head.

But the aura he exudes is not weaker than that of the dragon head.

"Hahaha, you... you are not even a living being from my world. You are not even a human being. How can you be the king of men?"

Zulong laughed loudly, his eyes fell on Lin Tianhao, and said:

"Young man, I don't know why that old thing chose you, but if you can defeat this little old man, I will pass on the power of the Human King to you. From now on, you are the real Human King!!"

Lin Tianhao raised his eyebrows slightly, a faint smile appeared on his face, and said:

"Hehe, even if you don't tell me, I will kill him."

Hear this.

The tall, thin old man had a playful look on his face and said:

"You... kill me? Who gave you the courage? How dare you say that you want to kill me!!"

Chapter 1585 The power of the human king, the destiny of the human race!

"I."

The Lord of Aging stood in front of Lin Tianhao, and the power of aging surged out.

"You beast, Master You, I heard that your mind is very powerful. I also want to try it out to see if it is really that powerful!"

Seeing the appearance of the Lord of Aging, the Beast Lord was slightly surprised.

"Lord of Aging, why would you help these ant-like humans?"

"Have you forgotten our long-cherished wish?"

The Lord of Aging said with a serious expression:

"I haven't forgotten, but there are many ways to fulfill your long-cherished wish. I chose a more reliable way."

"Humph!!"

The Beastly Ghost Lord snorted coldly, "You are worried about having your consciousness devoured, right? Well, since you want to fight me, I will let you know that my rules are no weaker than your aging rules!!"

When the words fell.

The Lord of Aging and the Lord of Beasts have already started fighting.

The Beast Lord began to age rapidly, while the Lord of Aging was already crawling on the ground, seemingly struggling in some way.

"Snow Emperor, change!!"

When targeting the Lord of Aging, the Beastly Ghost Lord raised his hand and pointed at Lin Tianhao.

The next moment.

A mysterious aura rushed towards Lin Tianhao.

"Absolutely block!!"

Lin Tianhao could feel that the attack from the Beast Lord was no trivial matter, so he directly blocked it with absolute block.

"Hungry Ghost Lord!!"

Lin Tianhao knows.

It would be quite difficult to kill the Beast Lord by relying on the Lord of Aging alone.

therefore.

He summoned out the Hungry Ghost Lord without hesitation.

at the same time.

Lin Tianhao also fired his own feather arrow and killed the beastly ghost master.

With the three of them joining forces, even this beastly Ghost Lord found it difficult to resist.

"Hungry Ghost Lord, why on earth would even you..."

The hungry ghost Lord You did not answer Lord You's question. He opened his bloody mouth and streams of mysterious aura rolled towards Lord You, the beast.

"You beast, Master You, die. This is good for everyone, including you!!"

"fart!!"

The beastly Ghost Lord was furious, "Even if I die, I will make you pay the price."

The power of words.

The beastly ghost master's aura increased greatly.

"Dark Angel!!"

Lin Tianhao asked another person to join the battle.

The Dark Angel's realm was once even higher than that of the Beast Lord and his companions.

Now that everyone has become a mortal, and at the same level, the Dark Angel is only stronger than the Beast Lord.

Being besieged by several people, the situation of the Beast Ghost Lord was getting worse and worse.

At this moment.

When the Beast Ghost Lord was busy taking care of himself, Lin Tianhao used the space consciousness to teleport behind the Beast Ghost Lord and stabbed him fiercely with the carving knife in his hand.

"Got you!!"

Facing Lin Tianhao's sudden attack, the Beast Ghost Lord was not panicked. Instead, he turned around and slapped Lin Tianhao with his palm.

He slapped the carving knife in Lin Tianhao's hand with his palm.

"Humph, my body is no less powerful than that of the Ancestral Dragon. Even divine weapons cannot break my defense. How can you..."

His eyes couldn't help but widen before the beastly ghost master could finish his words.

Because the carving knife had pierced through his palm.

In this moment of distraction, the carving knife in Lin Tianhao's hand had already cut off his palm and stabbed into his heart.

"How... how is it possible?!!"

A brilliant force burst out from the body of the Beast Ghost Lord, and instantly hit Lin Tianhao.

Lin Tianhao's body flew backwards, but at this moment.

The dark angel's attack also fell on the beastly ghost master.

The feathers on his wings cut through the sky and hit the beastly Ghost Lord.

The defense that the Beast Lord was so proud of was once again broken by the feathers of the Dark Angel.

Lin Tianhao rushed forward again, and the carving knife in his hand fiercely stabbed into the back of the beastly ghost master's head.

The main point is to stab wherever it is fatal.

"You beast, you have come to this day."

Zulong saw this scene from the side and a playful smile appeared on his face.

The beastly Ghost Lord glared at Zulong fiercely, but finally fell down unwillingly.

After defeating the Beast Lord, Lin Tianhao sent him to the List of Gods.

Then, his gaze fell on Zulong.

"Zulong, I have completed the task you assigned to me."

Zulong raised his head and smiled, "Hahaha, good, very good."

"I didn't keep the throne of the human race. Boy, I hope you can keep it. The human race will prosper, and all other races will come to pay tribute. Hahahaha..."

As Zulong laughed loudly, his body began to transform into starlight and floated up into the sky.

"I have been guarding for the human race for so long, and finally I am free."

at the same time.

In the starlight, a bead crashed into Lin Tianhao's body.

Followed by.

A mysterious aura was spreading throughout Lin Tianhao's body.

"Ding, congratulations, you have obtained the power of the Human King."

Lin Tianhao sensed it slightly. Except for the time when the bead entered his body, he had some sensation. Now, he couldn't even sense where the bead was.

There didn't seem to be any changes to his own body, and his attributes hadn't been improved.

It's... just like the chill he felt when he was in Wanglai City before.

He could sense the existence of cold air, but he could not use it, and he could not even notice the improvement it brought to him.

The power of the Human King really exists, but he cannot sense it.

And these starlights went towards the vast continent, and then spread to every corner of the land of China.

A vast continent.

Many adventurers looked at the strange phenomenon in the sky in amazement.

"What...what are these?"

"A strange phenomenon appeared in the sky. Could it be that a treasure has descended into the world?"

"These starlights cover the entire Vast Continent and seem to be spreading beyond the Vast Continent. What on earth are they?"

At this moment.

A server-wide announcement was issued across China.

"Announcement to all servers, congratulations to all human professionals, the luck of the human race has returned, all human race, skill star +1, free attribute points +40000, all attributes +40%."

.....

When this server-wide announcement was made, the entire Ragnarok was in an uproar.

This time.

The entire human race!!

In other words, no matter whether it is a professional or an NPC of Ragnarok, as long as they are human, they will get such an improvement.

At this moment.

Lin Tianhao in the Nine Netherworld also heard this server-wide announcement.

His expression couldn't help but change slightly.

This... seems a bit perverted.

These three rewards are all very good.

The key is.

All human races have it!!

This is a bit too outrageous.

Lin Tianhao's health points directly increased from over 150 trillion to over 160 trillion.

This 40% is the 40% before the increase, not the 40% after the increase.

But nevertheless.

Lin Tianhao's health points also increased by more than 10 trillion!!

Chapter 1586 God-level talent: eternity!

"Ding, congratulations, you have successfully opened the destiny of the human race and obtained +1 equipment for this profession."

Lin Tianhao was stunned for a moment, and then he couldn't suppress his ecstasy.

Is it so smooth? !

"Ding, congratulations, you have obtained the Heavenly Punishment Inner Armor."

This is really an unexpected surprise.

at the same time.

outside world.

The entire Ragnarok began to boil.

"What the hell, what is this? Human luck? A 40% increase in all attributes? But the problem is that I'm only over level ."

"That's a pity. At level 200, what are your basic attributes? Is your HP over 10,000?"

"It's only level 200. Ask yourself if you have worked hard in the past two years. I used to just play after get off work every day, but now I'm already level 1,350."

.....

There were endless discussions.

For most ordinary professionals, this 40% increase in all attributes is not as big as imagined.

Because this improves the basic attributes.

Ragnarok Relativity!

An ordinary adventurer, before level 10, can gain an average of 15- free attribute points for each level he reaches.

There are five free attribute points given for leveling up, and there are also free attribute points rewarded in various situations such as completing tasks or killing monsters.

From level 500 to level 1000, you can get an average of 15-25 free attribute points per level.

This 40% improvement in all attributes is a boost in attribute points by increasing free attribute points.

The bonuses from equipment and props are not counted.

Without god-level talent, it is almost impossible to stack attributes. The source of basic attributes naturally mainly relies on free attribute points.

The land of Nine Netherworlds.

Before Lin Tianhao checked the properties of the Heavenly Punishment Inner Armor, a new server-wide announcement sounded.

"Announcement to all servers: Human race's luck has been unlocked. We call on all human race members to work hard to improve their luck. Currently, the human race's luck is 40%. For every 0.01% increase, you will be rewarded with +100000 free attribute points. If you increase your luck by more than 1% at a time, you will also receive other generous rewards. We hereby announce this and hope that the human race will continue to work hard!!"

.....

This server-wide announcement sounded six times in a row, and lasted longer than a normal server-wide announcement.

This once again made many adventurers excited.

"How can the luck of the human race be improved? Can going to Baihua Tower to redeem the fallen girl and then starting the quest for having many children and more blessings improve the luck of the human race?"

"In theory, increasing the number of humans can also improve the luck of the human race, but the problem is, even if you have many children, how many can you have in a short period of time? Even if you have a thousand, I'm afraid it won't affect the luck of the human race."

"That's not the case. Giving birth to a thousand ordinary people will definitely not have much impact on the fortune of the human race, but what if you can give birth to a thousand Snow Emperors?"

"Don't get me wrong, I meant giving birth to a thousand people like Xue Di, not really giving birth to Xue Di..."

.....

After the release of this national mission, many professionals were discussing how to improve the fortune of the human race.

After all, this reward is still very generous.

0.01% can increase the free attribute points by 1, and a one-time increase of % can also get more rewards.

but.

Some people also think that the reward is still too little.

After all, improving the luck of the human race is not an easy thing.

and.

Most people have no idea how to improve the fortune of the human race.

Don't talk about them.

Even Lin Tianhao himself didn't know how much this Ancestral Dragon had improved the luck of the human race.

It's only 40% now, so what was the original luck of the human race?

Ten percent? Or twenty percent?

"Ding, congratulations, you have increased the luck of the human race by 1%, and you will be rewarded with + million free attribute points."

"Ding, congratulations, because you have increased the luck of the human race by more than 10% at one time, you will be rewarded with +1 god-level talent."

Lin Tianhao: ? ? ?

What is the reward?

What reward do you mean?

God-level talent?

Although Lin Tianhao already has super god-level talent, he doesn't mind having another god-level talent.

It would be beneficial to him in every way if his attributes were raised a little higher.

then.

Lin Tianhao saw a turntable appear in front of him.

There are hundreds of talents on this turntable, and it seems that these are all god-level talents.

There is a word "draw" in the middle of the turntable.

Lin Tianhao clicked the draw button without hesitation.

The turntable began to spin rapidly, and Lin Tianhao became somewhat excited.

I don't know how I can draw a god-level talent.

Second talent!!

Although dual talents do exist in Ragnarok, and the number is not particularly rare, this is a god-level talent! !

If it is a double yellow-level talent, it may not be as good as a black-level talent.

But this is a god-level talent, so the meaning is completely different.

As the speed of the turntable slowed down, Lin Tianhao also looked at the pointer.

It is difficult to discern how these talents stack attributes just by looking at their names.

I just don't know... whether the big shots above will give him a break.

No matter what, he is the hope of the "whole village".

at last.

The pointer finally stopped.

Lin Tianhao looked at the name of this talent.

A very simple name: Eternity.

Although this name is simple, it looks like a high-sounding name no matter how you look at it.

Eternity (God Level): 1 star.

Effect: All treatments and amplification effects you receive (including health, armor, magic resistance, attack power and all other treatment effects) will permanently increase this attribute by one point.

Proficiency: 7/100.

Have you gained proficiency?

This eternal talent sounds very impressive, but the actual effect doesn't seem to be that impressive.

but.....

This proficiency is...

Lin Tianhao's eyes lit up, and he instantly understood what this proficiency meant.

Book of Life and Death!!

Because after Lin Tianhao's Heart of Heavenly Punishment evolved with the Talent Evolution Flower, it can restore his health by a percentage in the process of stacking health points.

This restored his health, which could be considered as treatment!!

He has the blood-sucking attribute, and his normal attacks can also trigger this effect.

If I think like this, then his Nine Heavens True Body can bear the damage and I can recover blood, which is another BUG-like existence.

and many more.

If his health is not full, his passive skill, Revive, can also restore his health. Is this feasible?

and so.....

The Book of Life and Death locked him up, and then he took the damage and healed himself, then he revived and healed himself, and then the Nine Heavens True Body healed himself. Does this mean that he can enjoy the legendary triple happiness? !

One-star eternity can add three health points in one second.

Two stars for six points, three stars for nine points!!

The key is.

The difficulty of upgrading this eternal talent is obviously not as high as the proficiency required by his heavenly punishment talent.

Not only that.

This talent can also stack other attributes, but Lin Tianhao has not yet thought of any perpetual motion machine-like stacking method.

Chapter 1587: Heavenly Punishment Inner Armor, Palace of Hell!

As for finding a nurse to amplify his attributes, so as to achieve the effect of permanently improving these attributes.

This method is too slow.

He couldn't just find hundreds of priests to sit around him and cast amplification skills without doing anything.

and many more! !

It seems to work!!

He can form a team with hundreds of priests, and then use the Eye of Insight and Sky Punishment Lock to lock the high-level wild monsters from a long distance and then kill them.

With his current output capacity and monster-killing speed, it is not a problem for him to lead hundreds of people to upgrade.

even.

They can stand directly inside the resurrection altar, so the problem of the priest's lack of mana can be solved.

of course.

It was just something he was thinking about for now. The most important thing for him now was to change his job and obtain the super god-level talent awakening stone.

Think about this.

Lin Tianhao took out the Book of Life and Death, changed the name on it to his own, and then saw if he could achieve the effect he wanted.

however.

Lin Tianhao was going to be disappointed.

The effect of the Nine Heavens True Body was not triggered. Only the Book of Life and Death and Resurrection could step on the right foot with the left foot to trigger the double effect.

But this is okay, after all, he doesn't have to do anything to permanently increase his health.

And because of Resurrection and the Book of Life and Death, his cumulative proficiency is also doubled.

In this way, in less than a minute, he can upgrade the talent to two stars.

Take back your thoughts.

Lin Tianhao began to check the properties of the Heavenly Punishment Inner Armor.

Heavenly Punishment Inner Armor: Unknown.

Wearing requirements: Heavenly Punishment Archer.

Effect 1: God's punishment attack speed +1, not affected by the phased reduction of attack speed.

Effect 2: Percent damage reduction by 10%, still effective against god-level attacks.

Effect 3: Can block a fatal attack, cooling time is one hour.

Effect 4: Magic resistance +10 million.

Effect 5: Armor +10 million.

Effect 6: Increase maximum health by +50%.

Effect 7: Maximum armor increased by 100%.

Effect 8: Maximum magic resistance increased by 100%.

Effect 9: Heavenly Punishment Guardian (You can select ten people as the guard target. When they suffer fatal damage, Heavenly Punishment Guardian will automatically start. They will be protected by Heavenly Punishment Guardian and can block any attack below the Saint level for one hour, but cannot move. During this period, you can sense the opponent's position.)

Wear resistance: Indestructible. Once worn, it cannot be stolen or dropped.

The attribute effect of this Heavenly Punishment Inner Armor is still as powerful as ever.

In particular, the damage reduction and enhancement of dual resistance are twice that of ordinary Sky Punishment equipment.

but.

The most noteworthy skill is this one, Heaven Punishment Guardian!!

This works so-so at this stage, but what about after Ragnarok merges with reality?

This skill is simply a god-like existence.

He can use this skill to bind the ten people he thinks are most important to protect their safety.

Monkey, Fatty, Qingqing, Glasses, and the Elder, these are the five people Lin Tianhao can think of first.

But let's be honest.

Fatty Lin Tianhao felt that it was unnecessary, mainly because the fat guy's health bar and double resistance were already at that level.

Throughout the entire Ragnarok, how many mortals could kill the fat man?

Even if he lets the Dark Angel pass, it will take some effort for him to kill the fat man.

of course.

Lin Tianhao thought the same way.

Fatty and the others are the ones he trusts the most, and they must be tied together.

But these ten places are still too few.

Speaking of important people, there are quite a lot of them.

Take back your thoughts.

Lin Tianhao felt.

He should solve the current problem first.

The beast ghost lord has been taken down, so the next ones to be dealt with are the two ghost lords of the hell and the asura realm.

"Sir, to get to the Lord of Hell, we have to go through the territory of the Ten Kings of Hell. Now that we are at a lower level than ordinary people, it will still be a bit troublesome for us to face the Ten Kings of Hell."

The Lord of Aging looked somewhat solemn.

They are extremely powerful, so ordinary Yin Spirits can be easily controlled by them.

But the Ten Kings of Hell are still quite powerful.

Especially, there are some powerful ghost messengers over there, and it will take some effort to deal with them.

"It doesn't matter."

Up to now, Lin Tianhao has basically not used the gods. When facing the Ten Kings of Hell, if it is difficult to deal with them, he can only let the gods take care of it.

Under the guidance of the Lord of Aging, Lin Tianhao began to walk towards the Hall of Yama.

On the way to the Yama Palace, the number of ghost messengers was obviously greater.

and.

Occasionally, a few powerful ghost messengers would appear, and Lin Tianhao would need to rely on the aging power of the Aging Ghost Lord to be able to deal with these more powerful ghost messengers.

They killed all the way to the gate of Yama Palace.

In front of Yama Palace, there is a meatball!!

This meat ball is a hundred meters tall, and there are red lines flowing on it.

The meat ball spun around, and ten hideous faces appeared in front of Lin Tianhao.

"Come... who is coming..."

Chaotic sounds came out from these ten mouths at the same time.

"They...they are the Ten Kings of Hell..."

The voice of the Lord of Aging sounded somewhat sad.

"I never thought that they would have this day."

"What kind of pollution is this? It actually allows these Yin Gods to merge together." Lin Tianhao looked a little solemn.

He could feel how strong the aura emanating from this ball of flesh was.

"I'm Xue Di. What happened here? Why did you become like this?"

None of the Yin Spirits that Lin Tianhao had met before could speak.

The fact that these Ten Kings of Hell can speak shows that there is still a possibility of communication.

maybe.

He was also able to get some useful clues from the Ten Kings of Hell.

"Snow Emperor...Snow Emperor..."

"You are the Snow Queen... Unfortunately... Unfortunately, the Queen Mother Hou Tu is no longer with us..."

"You came here... to look for the Queen Mother Hou Tu?"

"It's useless... No one can save you. Come on, kill me..."

"kill me....."

Lin Tianhao frowned slightly, "Has anyone else been here before?"

"There are... more than one person who came to see the Queen Mother Hou Tu..."

"The Queen Mother Hou Tu is gone, and the reincarnation cycle is incomplete. Relying on that monster from outside the domain... hehe, it's not enough..."

The voices of the Ten Kings of Hell were confusing and intermittent.

"Kill me...quickly...kill me!!"

"It's so painful..."

"Even if we combine the ten of us, we still can't stop this... source of pollution..."

"quick....."

"Kill us before our consciousness disappears!!"

Lin Tianhao sighed and attacked without hesitation.

The feather arrow pierced the sky and hit the meat ball.

At the moment when Lin Tianhao's feather arrow hit the meat ball, the flesh and blood of the meat ball exploded, and a pool of blurry flesh and blood splashed towards Lin Tianhao.

Lin Tianhao dodged immediately, but the attack did not stop.

however.

After Lin Tianhao dodged, new feather arrows hit him, and new rotten flesh and blood splattered towards him.

Chapter 1588 The Lord of Hell!

Lin Tianhao dodged again, and the attacks continued. After Lin Tianhao dodged, the rotten flesh and blood spilled on the ground began to flow and expand.

In just a few seconds, Lin Tianhao was surrounded by rotten flesh and blood.

Lin Tianhao's eyes narrowed slightly. This rotten flesh and blood had left him with no place to stay.

The moment he touched the rotten flesh and blood, Lin Tianhao felt a chill rushing into his heart.

then.

Lin Tianhao saw his health bar begin to drop at a speed visible to the naked eye.

-10121 million! !

-10359 million! !

-10598 million! !

.....

One after another, damage numbers popped up above Lin Tianhao's head, and the damage numbers increased more and more terrifyingly.

and.

Along with the attack.

As the amount of rotten flesh and blood increases, Lin Tianhao will have to endure more and more attacks.

-10000! !

-20000! !

-40000! !

-80000! !

.....

In addition, Lin Tianhao's maximum health is also decreasing.

This is the most difficult thing for Lin Tianhao to accept.

especially.

This method of increasing the health will not last long, no matter how high his health is.

At this moment.

Lin Tianhao's body turned into a stream of light and rushed forward. With a swing of the carving knife in his hand, he chopped off the heads of all the Ten Kings of Hell.

The headless ball of flesh began to roll unconsciously.

"At worst, retreat!!"

Lin Tianhao discovered.

After chopping off the heads of the Ten Kings of Hell, this huge ball of flesh still exuded a strong vitality.

With his maximum health decreasing exponentially, it won't take long before his health points run out.

"no no....."

"do not go....."

"Come...come and kill me..."

"Please... please..."

The heads of the Ten Kings of Hell that were chopped off by Lin Tianhao suddenly turned in unison, and their eyes were staring at Lin Tianhao.

"found it!!"

Lin Tianhao chuckled. He ignored the words of the Ten Kings of Hell and was looking for something very useful.

That is... the storage ring of the Ten Kings of Hell!!

Lin Tianhao swung the carving knife in his hand and cut off fingers one by one.

"It's time to go!!"

Lin Tianhao left at high speed.

He had just found only five storage rings, and some of the arms were not exposed, which meant that there were still some storage rings in the Ten Kings of Hell, which were inside the meat balls.

If he had targeted the storage ring from the beginning, he might have been able to try to find the storage ring inside the meatball.

But now it's not possible, he can't bear it anymore.

"Come back...come back!!"

"Please... please... please come back soon..."

"I want to die...it hurts...it hurts so much..."

.....

The chaotic and noisy voices of the Ten Kings of Hell rang out.

Lin Tianhao still turned a blind eye and just ran away.

After passing through the Yama Palace, Lin Tianhao saw a cliff behind it.

There is no bottom under the cliff.

behind,

The meat ball was still rolling towards Lin Tianhao.

"Hurry... hurry and kill me..."

"Help... help me... it hurts... it hurts so much..."

.....

Lin Tianhao jumped down the cliff in front of him.

Looking down from the cliff, Lin Tianhao saw mountains of bones piled up on both sides of the cliff.

They seemed to be trying desperately to get out from under the cliff, but ultimately they were unable to escape the cliff and were covered and imprisoned by countless black runes.

The further Lin Tianhao went down, the more frightened he became.

Because the further down the cliff you go, the larger the space is, and the more bones are accumulated.

At this moment.

Lin Tianhao actually saw the skeleton of a dragon! !

The dragon coiled and meandered like a small mountain range.

And this huge dragon-shaped skeleton was actually heading towards the top of the cliff, as if it wanted to escape from the coverage of the cliff.

Lin Tianhao continued to fall. This was the territory of the Lord of Hell.

The Lord of Aging seemed to see Lin Tianhao's doubts, and he said:

"The so-called Eighteen Layers of Hell are right here. Many people think that the Eighteen Layers of Hell are really eighteen layers, but in fact, they are just eighteen kinds of torture set by the Lord of Hell."

"The idea of being tortured based on the sins you committed in your lifetime is just bullshit. Being tortured is just a matter of the Lord of Hell's mood."

"When the Lord of Hell gets angry, he can burn millions of wronged souls in one night."

That's it.

The Lord of Aging said helplessly:

"So, these guys all want to escape, but the Lord of Hell was a saint back then. How could these guys possibly escape?"

Lin Tianhao raised his eyebrows and said:

"Weren't you two of one mind at the beginning?"

The Lord of Aging shook his head, "It was true at first, but after their bodies were broken apart, their consciousnesses changed."

Lin Tianhao didn't know how long he had been falling, maybe half an hour, or maybe an hour.

There were more and more bones around, and finally, Lin Tianhao landed on a mountain of bones.

look around.

Lin Tianhao discovered that the area below the canyon was much larger than he had imagined.

Here, bones piled up into endless mountains, the magnificence of which is beyond words.

As if sensing the arrival of living people, clusters of soul fire flew out from the pile of bones.

They all flew towards Lin Tianhao at high speed, bringing with them greed, resentment, anger, and all kinds of emotions.

"Let's go!!"

The hungry ghost lord let out a low roar, and these soul fires fled like crazy, just like mice seeing a cat.

At this moment.

The soul fires in front unexpectedly gathered together and formed a huge skull face in the air.

"Hungry Ghost Lord, what do you mean? You brought a human to my territory, are you here to give me food?"

The Lord of Aging immediately sent a message to Lin Tianhao, saying:

"My Lord, this is the soul fire voice transmission condensed by the Hell Lord, not the real body."

The Hungry Ghost Lord knew that if he took action, the Hell Lord would definitely discover his existence.

"Lord of Hell, I came here naturally to discuss the great plan with you."

"The galaxy is in danger now. After all, we are of the same origin. We should help each other and work together for a better future."

Deep in the canyon, an old man in tattered clothes and looking a little crazy walked towards them.

He took a step and was already several miles away. In just a few breaths, he was close to Lin Tianhao.

"Conspiring together? But you brought a human with you. Your sincerity is not enough."

The Lord of Aging sent a message to Lin Tianhao, saying:

"The main body is here, shall we take action?"

"kill!!!"

Since the real body of the Hell Lord appeared directly, there was naturally no need for him to hold back. If there was anything, he could wait until the Hell Lord was killed before dealing with it.

Chapter 1589 Kill the Lord of Hell!

The Lord of Ageing took the first step, and the power of ageing acted on the Lord of Hell.

The Hungry Ghost Lord did not hesitate and attacked directly. The attack came in an instant.

The Dark Angel, the Burning Heart Nightmare, the Poison Emperor of the Sand Sea, and the Beastly Lord also besieged the Lord of Hell.

"you--"

A grayish-white aura flowed around the Lord of Hell, barely blocking the attacks of everyone.

"Are you crazy?!"

The Lord of Hell could not help but angrily shouted:

"Aging Ghost Lord, Beast Ghost Lord, Hungry Ghost Lord, what on earth do you three want to do?!!"

"The troubled times are coming, and our chance has also come. Why are you besieging me?"

The Lord of Hell was beaten back step by step, and soon he noticed Lin Tianhao who had not made any move.

"It's you?"

"No, at your level, it is impossible for you to ask three ghost masters and two powerful masters of the divine level to help you."

"What are you guys going to do?"

The Hell Lord was retreating step by step, but the Hungry Ghost Lord and the Old Ghost Lord did not respond to the Hell Lord's intentions, and their attacks became more and more fierce.

"Damn it, you guys are really crazy, crazy!!"

The Lord of Hell slapped the ground with his palm, and endless soul fire flew out from the endless mountain range of bones.

These soul fires transformed into a humanoid monster, holding a huge bone knife, and slashed towards Lin Tianhao.

Although the Lord of Hell felt that Lin Tianhao's realm was not high.

But the Hungry Ghost Lord and the others brought Lin Tianhao and a human here, there must be a reason.

In his current situation, no matter whether he targets the Hungry Ghost Lord, the Aged Ghost Lord, the Burning Heart Nightmare or the Dark Angel, it will be difficult to have a significant effect.

therefore.

He chose to attack Lin Tianhao without hesitation.

When Lin Tianhao saw the bone knife coming towards him, a strange look appeared on his face.

What is this doing?

Does the Lord of Hell think that he is a soft persimmon and can be bullied at will?

have to say.....

If he were a human, he might really be treated as a soft persimmon.

but now.....

Won't! !

When Lin Tianhao knew that the Soul Fire Giant was targeting him, he had already taken action.

Space travel!!

Teleported to the side of the Lord of Hell.

The Lord of Hell snorted coldly, "You don't know your own limitations!!"

Obviously.

He was able to capture the trajectory of Lin Tianhao's space travel.

even.....

He actually has the ability to interrupt Lin Tianhao's space travel.

But he didn't do that.

Because he just wanted Lin Tianhao to get close to him.

Being besieged by six masters, it would be unlikely for him to kill Lin Tianhao with the Soul Fire Giant.

The reason why I still do that is to test it.

Test Lin Tianhao's status among these people. If his status is high, someone will definitely be distracted to protect Lin Tianhao.

But what he didn't expect was.

When facing his attack, Lin Tianhao not only did not think of running away, but instead used space teleportation towards him.

“Too naive!!”

There was a hint of coldness in the eyes of the Lord of Hell.

If Lin Tianhao was a top-notch expert, he would have suddenly attacked him from close range when he was surrounded.

Then he might really find it difficult to cope.

But Lin Tianhao is only at the peak of the seventh level. Such strength is not enough, far from enough.

The moment Lin Tianhao appeared, the Lord of Hell didn't even have time to deal with Lin Tianhao. A green flame flew out from his body and flew towards Lin Tianhao's face.

Lin Tianhao held a carving knife in his hand and cut the dark green flame head-on.

See this scene.

The Lord of Hell's expression changed slightly, but he was not panicked at all. A shock force rushed towards Lin Tianhao.

Lin Tianhao directly activated the absolute block! !

While blocking the shock force of the Lord of Hell, Lin Tianhao used it very slowly.

Then the carving knife stabbed straight forward.

There is nothing fancy about it; the methods used by Lin Tianhao are very simple and unpretentious.

But when he saw Lin Tianhao's carving knife coming straight at him, the Lord of Hell actually felt a great sense of crisis.

"Holy weapon?"

The body of the Lord of Hell turned into soul fire and flew in all directions.

Lin Tianhao's carving knife attack missed, but this attack also made the Lord of Hell realize Lin Tianhao's peculiarity.

"Humph, you actually want to hurt me using a holy weapon."

The scattered soul fire of the Hell Lord gathered again to form his true form, and with a somewhat ferocious look on his face he stared at the old Hell Lord and the others, and scolded:

"What the hell are you guys thinking about? You actually want to kill me!!"

He also knew that since Lin Tianhao could come here, Lin Tianhao must have some extraordinary qualities.

But he didn't think that Lin Tianhao could really be that strong.

What he feared the most were the Old Ghost Lord, the Hungry Ghost Lord and a few others.

As ghost masters, although there are differences in their frontal combat capabilities, the gap is actually not that big.

Apart from the Forgotten Ghost Lord who has the innate holy weapon in his hand and is ahead of them, among the other Ghost Lords, the only ones who can crush them in a one-on-one situation are the two perverts, the Humane Ghost Lord and the Heavenly Ghost Lord.

Among the nine ghost lords, his strength was only average. Facing this level of siege, he didn't even have a chance to escape.

"Lord of Hell, give up resistance. This is not a bad thing for you or for us." The old Lord of Hell said in a deep voice.

"fart!!"

The Lord of Hell could not help but curse, "Do you think I'm a fool?"

"You want me to die, and you say it's for my own good. Even those ignorant souls won't fall for it."

Hear this.

The old ghost master sighed and said:

"Lord of Hell, there is no need for me to lie to you. Since you don't believe me, we can only kill you first!!"

The six great masters attacked again, and beat the Lord of Hell so hard that he had no power to fight back.

Lin Tianhao watched from the side as the feather arrows of the Heavenly Punishment Lock poured out.

His Heavenly Punishment Headlock doesn't have much effect on a strong man like the Lord of Hell.

However, it will take a lot of effort for the Lord of Hell to be able to block it.

At this time, the Lord of Hell, who was being besieged, was unable to cope with the situation.

Facing Lin Tianhao's attack, it was naturally difficult to resist.

The attacks of the six great masters were even more impenetrable. In addition, the Old Ghost Lord, the Hungry Ghost Lord and the Animal Ghost Lord knew the Hell Ghost Lord quite well, and they didn't even give the Hell Ghost Lord a chance to counterattack.

"Damn, you guys are crazy!!"

The Lord of Hell is filled with nothing but impotent rage and rage.

The gap in strength is huge, and Lin Tianhao, holding a carving knife, is watching closely.

The six masters didn't give him any chance at all.

finally.

Without even giving Lin Tianhao a chance to attack, the Hell Lord was killed by the Old Ghost Lord and his men.

Lin Tianhao sent the Lord of Hell to the List of Gods, and a smile appeared on his face.

When it comes to the Lord of Hell, his chances of success in a sneak attack with a carving knife are much lower.

Even with a skill like Absolute Slowness, the Lord of Hell can disperse into soul fire to dodge attacks.

Chapter 1590 Ashura Ghost Lord!

What about the other ghost masters?

Perhaps there would be similar means to defend against his sneak attacks.

The Lord of Hell has been taken down, and the next one is the Lord of Asura.

According to what the Old Ghost Lord said, the strength of the Asura Ghost Lord is on par with that of the Hell Ghost Lord.

Now that he has subdued the Lord of Hell, this will be of great help in subduing the Lord of Asura next.

"Let's go."

Lin Tianhao knows.

You will definitely encounter ghost messengers on the way there.

but.

What disappointed Lin Tianhao was that he didn't encounter the ghost messenger again.

"Ghost messengers are usually responsible for sending living souls to the Lord of Hell. So, after arriving at the Lord of Hell, there are no more ghost messengers."

The voice of the old ghost master sounded in Lin Tianhao's mind.

Lin Tianhao asked the Lord of Hell through voice transmission:

"Lord of Hell, have you met anyone here recently?"

Lin Tianhao had previously learned from the Ten Kings of Hell that someone had been to the Yama Palace.

If you continue forward along the Yama Palace, you will naturally reach the territory of the Lord of Hell.

"Two people came."

The voice of the Lord of Hell sounded.

"One is from the Sea Clan, and the other is the girl from the Yellow Spring Inn."

really!

The proprietress of Huangquan Inn passed by here.

"Do you know where the proprietress of Huangquan Inn went?"

Lin Tianhao has not forgotten to look for the proprietress of Huangquan Inn.

"I don't know. From the looks of her, she's heading towards the residence of the Hidden Sea Divine Monk."

Lin Tianhao frowned slightly.

The news he received was that the proprietress of Huangquan Inn was here to look for Hou Tu Niangniang.

"Okay, let's go find Asura Youzhu first."

In this situation, you must first find what you need and then consider other things.

Especially the super god-level talent awakening stone, which is crucial to Lin Tianhao.

If he could obtain this super god-level talent awakening stone and further awaken his talent, his strength would be able to be maximized.

Without the ghost blocking the way, the journey ahead will be much smoother.

and.

In order not to alert the enemy, Lin Tianhao included the Old Ghost Lord, the Dark Angel and others in the List of Gods.

Communication is also done through voice transmission.

After walking for two hours, and even though Lin Tianhao was speeding up, they finally arrived at the territory of Asura Youzhu.

In front of him was a majestic building.

To be precise.

It is a complex of buildings that looks a bit like a small city.

"This is the territory of Ashura Youzhu, the Ashura Dojo."

"Some particularly difficult wronged souls, or some super monsters captured by Zhong Kui and his men, will be sent here."

Just as the old ghost master's voice fell, a deep voice came from in front of the city gate.

"Humans? I haven't eaten humans for a long time. I didn't expect that humans would come to my door on their own initiative."

Falling with the sound.

Then a huge centipede crawled out from the Ashura Dojo.

Lin Tianhao attacked without hesitation, and a feather arrow cut through the sky and flew towards the centipede.

But the centipede just moved slightly and disappeared from Lin Tianhao's sight.

"So fast!!"

Lin Tianhao was shocked, but his feather arrow had the ability to lock the head with Heavenly Punishment, so it would not be thrown away just because the centipede moved quickly.

"what....."

The giant centipede was a little surprised, "How could it track me?"

"I don't know. If I eat you, will these arrows still be able to track me?"

As the giant centipede fell, it disappeared again.

The moment it appeared, Lin Tianhao saw the pair of sharp mouthparts approaching him.

not good!

Lin Tianhao secretly thought that something was not good, and immediately used the power of the law of space to move his body out.

"Got you."

The giant centipede followed closely behind.

The next moment.

Lin Tianhao actually felt that he could no longer move.

The giant centipede's sharp mouthparts once again reached Lin Tianhao's side.

"boom--"

There was a loud bang.

The giant centipede was knocked away.

The one who took action was not Lin Tianhao, but the Dark Angel.

"So strong?"

The giant centipede looked at Lin Tianhao vigilantly, with a serious look in its eyes.

"How dare you, a little centipede monster, attack my master?"

The Dark Angel took action, so as not to expose the ghost masters around Lin Tianhao and to suppress the centipede monster.

"No matter how weak this centipede monster is, it is still a member of my Ashura Dojo, and not just anyone can bully it."

As the voice fell, a figure walked out of the Ashura Dojo.

He just took one step and landed on top of the giant centipede.

"He is the Asura Ghost Lord. It seems that we Ghost Lords have been dominating in the Nine Netherworlds for too long and have lost our sense of awe." The voice of the Lord of Aging sounded.

The Lord of Hell couldn't help but complain:

"Is it because we have no reverence? When the saints are not prominent, the gods retreat. Looking at the current twilight of the gods, how many people can compete with us?"

"Even if there are, how many people can kill us?"

What the Hell Lord said was not false. After all, if they were in the position of the Hell Lord, they would never have thought that other Hell Lords would actually attack them.

"Are you Asura Lord?" Lin Tianhao looked at the other person with a smile.

"There are quite a few experts in your Ashura Dojo."

Asura Youzhu chuckled and said:

"There's no need to compliment you, Xue Di. Just tell me what your purpose is in coming here."

Hear this.

Lin Tianhao said calmly, "Guess!"

"I guess? I guess you came here to ask for help from the demon. A master from the sea tribe came here before and took a few people away from me."

"but....."

"If you want to take someone away from me, you have to pay a price."

Lin Tianhao shook his head and said, "Sorry, you guessed wrong."

"I... am here to kill you!!"

When the words fell.

The four ghost lords of aging, animals, hell, and hungry ghosts attacked almost at the same time and surrounded the ghost lord Asura.

"It's you... What are you going to do? Abetting the evil, helping a human race to deal with me?"

"Don't forget, we are brothers whose blood is thicker than water. What conditions can allow you to deal with me?"

The old Ghost Lord looked at the Ashura Ghost Lord with complicated eyes and said:

"Lord Ashura, you should understand that if we attack together, you will have no chance of survival."

"I want to know why?!"

Asura Youzhu did not make any move, and the doubt in his eyes became more and more intense.

"When you die, you will know."

"The List of Gods?!" Asura Ghost Lord's eyes fell on Lin Tianhao.

Then he laughed at himself and said:

"It's ridiculous, so ridiculous. He really is making fun of us. He clearly has the ability to solve these problems, but he doesn't do anything and has to let us do it!!"
