

O games 1621

Chapter 1621: Heavenly Punishment 8th Turn!

Lin Tianhao couldn't help but roll his eyes.

"What are these cultivation talents you're talking about?"

During Ragnarok, and even after the Cataclysm, all you had to do was kill monsters and level up.

Maybe it's only after going to the divine realm that you'll start to think about cultivating your talent.

"The talent for cultivation is naturally the speed of absorbing the spiritual energy of heaven and earth."

"Or the speed of practicing martial arts."

Lin Tianhao weighed the Netherworld Bamboo.

With this weight and texture, it is probably not meant to be eaten directly.

After putting away the Netherworld Bamboo, Lin Tianhao left quickly.

"Almost done, let's go back."

This time, Lin Tianhao has been in the Nine Netherworld for such a long time, it is time for him to go back.

We have now entered the countdown to the catastrophe, the last ten months, and time is running out.

Although he has now mastered the visions of the sixteen saints, his strength has increased by leaps and bounds.

But who would disdain their own strength?

Especially... even he, a little kid, couldn't tell how powerful those guys in the Alete Galaxy were.

Change jobs, look for super god-level talent awakening stones, and look for heavenly punishment equipment.

These are what Lin Tianhao should do next.

Returning to the vast continent, Lin Tianhao felt that the air he breathed was so fresh.

For others, his trip to the Nine Netherworld might take more than a year.

But for Lin Tianhao.

This time he actually went through more than four thousand years of hard training.

"I don't know what the Ragnarok is like now?"

Lin Tianhao sent a message to Berserker Blade.

"Blade, has anything major happened in Ragnarok in the past year?"

After being away for more than a year, Lin Tianhao didn't know if anyone was causing trouble.

I guess there must have been quite a few people causing trouble during the time he was away.

"Xue Di, you are finally back. I am a little uncomfortable after not hearing from you for a year."

Berserker Blade immediately responded to Lin Tianhao's message.

"A lot of big things happened in the year of Ragnarok."

"First, there are professionals from other worlds in Ragnarok. They have different professions. There are cultivators, warriors, and some weird professionals."

Lin Tianhao frowned slightly. In his previous life, he didn't know that there were so many people of other races coming to Ragnarok.

Although he had met some people from other worlds, these people were hiding deep inside and did not appear on the surface.

"We already know that the gods cannot take action, but these people from other worlds all have some card bugs."

"For example, immortal cultivators, normally they should ascend to become immortals after reaching the Mahayana stage, but under the rules of their world, those who fail to ascend but do not die in the thunder tribulation can cultivate to become scattered immortals."

"Sanxian are not considered gods, but they have fighting power comparable to gods."

"Especially the twelfth-rank Loose Immortal, who is said to be comparable to a third-rank divine being."

"Besides, they have existed for a long time, so even a third-grade god cannot be as good as them."

"There are similar things in the Warrior World, Angel World, Black Dragon World, and other worlds."

Lin Tianhao took a deep breath and said:

"What did they do after they came to Ragnarok?"

These people from other worlds must have their purpose for coming here in such large numbers.

Especially in his previous life, he didn't know that people from these worlds were coming.

Now that they are here, Lin Tianhao can't help but think too much.

after all.

He is the "time and space butterfly".

These changes must be related to this "time and space butterfly" of his.

"These experts did not act recklessly after they came here. They... were searching for various treasures and also spent a lot of money to purchase some special equipment and props."

"They are very powerful. We can't defeat them in many dungeons and bosses."

"Although they didn't attack us directly, they did reduce our development space, especially the important ninth-level dungeons, which were all controlled by them."

Lin Tianhao thought for a moment, are these guys coming here to get a piece of the pie before the galaxy world is destroyed?

They may have been here in their previous lives, similar to the world of Shen Ji, and there were also immortal cultivators who attained enlightenment in the Nine Netherworlds.

"Where are those guys from the Alate Galaxy?" Lin Tianhao asked.

"They have established their own power, recruiting talented adventurers, and started to preach. Those who enter can gain enlightenment faster."

Lin Tianhao's expression changed slightly. These guys from the Alite Galaxy are really still harboring evil intentions.

But this time he is back, no matter whether they are those guys from the Alate galaxy or these monsters from another world, they must kneel down.

"besides."

"Our top adventurers on Blue Star have encountered assassination attempts more than once. The assassins were very strong and basically killed them with one strike."

"We believe they want to weaken our top combat capability."

"As for those powerful people in the other world, while they are trying to get a piece of the pie, there must be someone instigating them."

"Or maybe it's because the gods can't take action that these guys from the other world are so rampant."

Lin Tianhao chuckled and replied:

"It's okay, I'll do it."

"I still have some things to do. I'll come over after I'm done. Please send me the location of the Taoist sect established by these people from other worlds and the Alet Galaxy."

"it is good."

End the conversation.

Lin Tianhao went directly to the center of the earth.

Judging from the time, the super god-level hidden career transfer altar should have been repaired.

Things will be much easier from now on.

Buzhou Holy Land.

The ancient land of Buzhou!

Lin Tianhao set foot here again.

to be frank.

Those guys in the Alate galaxy dared to establish their own school of thought.

Lin Tianhao was somewhat worried that they would take action against the ancient land of Buzhou.

Now it seems that he is overthinking it.

Going towards the depths of the ancient land of Buzhou, now that he has arrived at the ancient land of Buzhou again, Lin Tianhao no longer feels any pressure.

at last.

Lin Tianhao saw a strange building in front of him, which was made up of huge stone pillars.

it's here.

He did not encounter anyone from the Pangu clan again, nor did he encounter any other monsters.

It seemed that after this building was completed, all the guys from the ancient land of Buzhou had left.

Lin Tianhao jumped up and came to the top of this huge building.

look around.

This place is somewhat different from the super god-level hidden career transfer altar in the ancient dynasty secret realm.

But Lin Tianhao took out a Heavenly Punishment Ring and began to change his job.

"Ding, congratulations, you are about to start the eighth job of the super god-level hidden profession [Sky Punishment Archer]. Are you sure you want to change your job?"

"confirm!"

In the moment when Lin Tianhao finished speaking.

Above the ancient land of Buzhou, thunderclouds rolled, and a beam of light split the thunderclouds, fell from the sky, and landed on Lin Tianhao.

The feeling of counting breaths came again, eight turns, done! !

Lin Tianhao immediately checked the skills he had acquired after the eighth transformation.

Chapter 1622: 6 arms holding up the sky, prison of heaven and earth!

The biggest benefit of the Sky Punishment Archer after changing his job is the skills.

This time.

Lin Tianhao also wanted to see what skills he could obtain.

Starry Sky Step (Unknown): 1 star.

Effect 1: When you are on a planet, you can move infinitely on that planet, with no limit on distance and no cooldown. (This skill can move up to million kilometers at a time in the God's Domain).

Effect 2: When you are in the endless starry sky, you can reach the next planet with every step you take. You can take up to nine steps in a row, and each step has a cooldown of one hour.

Effect 3: When this skill reaches ten stars, Starry Sky Step will be upgraded to Star Domain Step, and each step can cross a star domain.

Consumption: 10000 mana per displacement.

Cooling down: One step across the planet for one hour, nine steps can be accumulated.

Proficiency: 0/100.

Looking at the skill in front of him, Lin Tianhao was stunned.

This skill seems very strong, but also not that strong.

After all, he has things like absolute teleportation, invincible virtualization, and Kunlun Mirror.

Infinite displacement, it seems, is just like that.

Perhaps the only good thing is that it can cross the star field.

But you have to upgrade to ten stars before you can cross the star field.

but.....

Lin Tianhao suddenly thought of a possibility.

Can he use treasures like the Mountain and Sea Map to run away with the people of the Galaxy World? !

to be frank.

If he went to the Space-Time Training Pagoda to specifically improve his proficiency in this skill, he would have a high probability of upgrading this skill to ten stars.

then.

By using the map of mountains and seas and leading the people of the Milky Way world across the nine star fields, coupled with his mastery of the way of space, there is a high probability that he will be able to escape.

of course.

If the creator of the Aleta galaxy takes action, it will be hard to say.

This skill gives Lin Tianhao new choices.

But this is not enough.

After completing the eighth turn, the next step is the ninth turn.

There are still a lot of Heavenly Punishment equipment that have not been used for job transfer, so Lin Tianhao doesn't have to worry about it.

After taking a look at the coordinates sent by Berserker Blade, a cold light flashed in Lin Tianhao's eyes.

"Slaying monsters is a level up. Slaying these guys in the Alete galaxy is also a level up."

These guys from the Alete galaxy dared to establish their own school of thought during Ragnarok, so they must have taken this aspect of his into consideration.

In other words.

In the place where the Taoist tradition of the Alite galaxy is located, there must be something that can deal with the past him.

The reason why I say he is his former self is because Lin Tianhao now possesses sixteen kinds of saintly visions. Not to mention mortals, even among gods, there are few who can compete with him.

Vast Continent, Yuanshan City!!

According to the location sent by the Berserker Blade, the Taoist tradition of the Alite Galaxy was established in this Yuanshan City.

Although all countries have restrictions preventing adventurers from joining the sect of the Alete galaxy.

But there are still some people who want to become stronger and choose to join the Alite Galaxy.

After all, there are traitors in every era.

These guys from the Alate Galaxy so blatantly established their Taoist school on the vast continent.

This really doesn't take him seriously.

Or.

These guys in the Alete Galaxy are eager for him to take action.

Think about this.

Lin Tianhao walked to the outside of Yuanshan City.

"Is it finally here?"

In Yuanshan City.

A six-armed giant holding a golden pagoda suddenly opened his eyes.

His eyes were red-gold in color, and there was a strong murderous intent flowing in the depths of his eyes.

"Xuedi, you finally showed up after hiding for so long. I thought you were scared..."

The six-armed giant stepped out, stood proudly above Yuanshan City, and looked coldly at where Lin Tianhao was.

Lin Tianhao frowned slightly and his eyes fell on the six-armed giant.

"I know that you are establishing a Taoist sect here to provoke me and hope that I will come."

"and."

"I also believe that you should have been prepared to deal with me."

Hear this.

The six-armed giant nodded slightly and said:

"What if you guessed it?"

"If you stay hidden and wait until the time is right, you can escape from the galaxy world. This is your only choice."

"But you are so stupid that you still want to fight against us."

Lin Tianhao hesitated for a moment and said slowly:

"All right."

"Come on, let me see, today you are the one who invites you into the trap, or I am the one who catches the turtle in the trap."

The six-armed giant raised his head and laughed, "Hahaha, Xue Di, you are a talented person. If you are not irreconcilable with us, I really hope you can join our Alite Galaxy."

"But now, it's too late."

When Lin Tianhao was confronting the six-armed giant, many people near Yuanshan City paid attention to this place.

After all, Yuanshan City is the seat of the Taoist tradition of the Alethe galaxy, and all countries and major forces have spies here.

"Six arms holding up the sky, heaven and earth are imprisoned!!"

The six-armed giant missile opened, and six huge arms rose from the ground around Yuanshan City and soared into the sky.

Immediately.

The six arms grabbed the air above the clouds and held six ice-blue chains in their hands.

Then he pulled hard with his arm, and a huge ice-blue cage broke out of the ground, covering Lin Tianhao and even the entire Yuanshan City.

"Snow Queen, this is the innate ability of our ancient sky beast. It has reached the saint level. No matter how strong you are, you can't break through it."

Accompanied by the voice of the six-armed giant.

Yuanshan City sank and disappeared, and only Lin Tianhao was left in the ice-blue cage.

Lin Tianhao looked around. A saint-level cage?

That's it?

If it were just this, there was a high probability that he would have been able to break out of the cage before.

Not to mention the damaging methods like the Hand of Heavenly Punishment, the carving knife of the Source of Tao should be able to break the cage easily.

Lin Tianhao flew to the front of the ice-blue cage, and a carving knife appeared in his hand.

"Thorn--"

Lin Tianhao cut a hole in the cage.

But when the cut was made, Lin Tianhao discovered that there were layers of cages outside.

The cut he made healed completely in just a breath, leaving no trace.

At this moment.

Outside the cage.

One six-armed giant after another soared into the sky, repeating what the six-armed giant had just done. Cages rose from the ground one after another, completely locking Lin Tianhao inside.

"call out--"

At this moment.

A flying sword cut through the sky and headed straight for the six-armed giant who ascended into the sky again.

"Take action. We can't watch Xue Di get trapped!!"

The words fell.

An adventurer holding a long sword and stepping on a flying sword rushed forward.

The long sword in his hand slashed out a sword energy, which was domineering and unparalleled, giving a feeling of an emperor coming to the earth!

"Out of control."

The six-armed giant holding the golden pagoda snorted coldly, raised his hand and punched out.

The huge energy fist collided with the sword energy, making a huge roar.

Jian Wushuang continued to move, and as he clasped his hands together, his flying swords blasted forward like a meteor shower.

Chapter 1623 Watching the battle in a cage, fragments of the holy weapon!

however.

An invisible space barrier appeared in front of these six-armed giants.

All of Jian Wushuang's flying swords were blocked by this spatial barrier.

But right now.

Among the flying swords, there was a flying sword that did not follow any sword laws.

This flying sword is completely different from Jian Wushuang's flying sword.

Jian Wushuang's flying sword contains the laws of sword and is unparalleled in its dominance.

However, this flying sword does not contain any sword laws and looks ordinary.

If we have to talk about its characteristics, it is that this seemingly ordinary flying sword is actually faster than a flying sword blessed by the law of sword.

"boom--"

When the flying sword hit the space barrier in front, cracks appeared in the space barrier.

Followed by.

The flying sword turned around and hit it again, and more cracks appeared on the space barrier.

It seemed that with just one more blow, this spatial barrier would be shattered.

In the cage of heaven and earth.

Lin Tianhao closed his eyes lightly, and the scene outside appeared before his eyes.

Originally, Lin Tianhao planned to break through the cage of heaven and earth and get out.

But now, he is not in a hurry anymore.

He planned to see if there were any powerful adventurers among the current Ragnarok adventurers since he hadn't been back for over a year.

Outside the cage of heaven and earth.

Jian Wushuang also discovered the flying sword that did not belong to him, and a look of surprise appeared on his face.

At this moment.

A man came over riding on a flying sword.

Behind him, a pile of metal fragments was suspended in the air, looking quietly ahead.

"Kindelan?"

Jian Wushuang recognized the other person at a glance.

Jin Delan, the first adventurer in the West!!

The popularity of the entire Ragnarok is also very high.

Jin Delan smiled slightly and said to the direction of the Heaven and Earth Cage: "Xue Di, you won't come out?"

The six-armed giant holding the golden pagoda snorted coldly and said:

"Come out? This Heaven and Earth Prison is of Saint level, and has ninety-nine layers. Even a powerful God Emperor would have difficulty coming out of it."

Hear this.

Jian Wushuang and some other adventurers who were paying attention here all had slightly changed expressions.

Ninety-nine levels of a saint-level cage?

How can this seal be broken?

Jin Delan shook his head and said:

"Well, since you want to see it, then I'll let you see it. In this Ragnarok, you are not the only one who can suppress these bastards from the Alet Galaxy!"

As Jin Delan's voice fell.

He raised his hand, and a dark red metal fragment behind him instantly cut through the sky and flew towards the six-armed giant holding the golden pagoda.

The six-armed giant holding the golden pagoda narrowed his eyes slightly. He raised his hand and a crack appeared in the space instantly.

The abyss-like space crack seemed to be about to swallow up the dark red fragment.

"break!"

Jin Delan remained expressionless and spoke only one word. Wherever the dark red fragments passed, they also tore the void.

The void was like a curtain, which was cut open by the dark red fragments.

The two space cracks collided with each other, and the space twisted, as if to swallow up the world.

"Got you."

At this moment.

A six-armed giant had appeared behind Jindelan at some point, and his six arms slapped towards Jindelan at the same time.

Jin Delan smiled slightly and said, "It will hurt if you hit the nail."

As Jin Delan finished speaking, all the dark red fragments around him began to move.

In a flash.

These dark red fragments pierced the six huge palms into bloody holes.

"Ahhh-"

The palm of his hand was pulled back and pierced by the dark red metal fragments. The intense pain made the six-armed giant howl in pain.

"return!!"

The giant holding the golden pagoda let out a low roar, ripples appeared in space, and the six-armed giant disappeared.

And at the place where the six-armed giant disappeared, there were already three dark red metal fragments remaining on the original head of the six-armed giant.

If the six-armed giant had not used space teleportation to escape, his head would probably have been pierced through.

"A fragment of the holy vessel?"

The six-armed giant holding the golden pagoda narrowed his eyes slightly.

"It seems that besides Xue Di, there are indeed some adventurers who are quite stubborn."

The words fell,

The golden tower in the six-armed giant's hand flew out and crashed towards Jindelan.

Jin Delan frowned slightly. He felt a great power coming from this small golden tower.

"Thorn--"

But right now.

A claw as black as ink reached out from the void and tore a hideous and terrifying wound on the back of the six-armed giant.

"hiss--"

The intense pain made the six-armed giant gasp.

He took a pill, and a fierce murderous intent raged out.

"Hello, bad uncle!"

An extremely evil yet very childish voice suddenly sounded at the feet of the six-armed giant.

The six-armed man actually looked down and saw a child standing at his feet.

The child was only slightly taller than his feet and looked so tiny.

"Here I come."

The child jumped up and grabbed the ankles of the six-armed giant with his tiny arms.

The next moment.

The six-armed giant actually felt his body being blown up uncontrollably.

He was grabbed by the ankle by the child, who was as small as an ant, and was swung up and thrown on the ground.

"Bang bang bang-"

Every time it falls down, the six-armed giant's head will come into close contact with the ground.

In the cage of heaven and earth.

Seeing this scene, Lin Tianhao couldn't help but smile.

"The Three Lives Reincarnation Seed, and the Cat's Claw from before, it seems that Su Li is here." Lin Tianhao said with a faint smile.

"Refund me!!"

A tremendous force radiated from the six-armed giant, blowing the Three Lives Samsara Son away.

In just this short period of time, the golden tower was forced back by Jin Delan.

After all, without the control of the six-armed giant, the force of the initial impact was not enough to threaten Jindelan.

"Let's work together to take care of these guys!!"

The six-armed giant was very angry. He obviously didn't expect that he would be teased like this by these adventurers.

Ninety-nine six-armed giants rushed out and spread out their territory.

To be precise.

What they unfolded was the divine realm!!

The six-armed giant in the lead, when he unfolded his arms, had already reached the realm level.

"Little ants, have you made enough trouble? If you have, then die!!"

The six-armed giant holding the golden pagoda punched San Sheng Lun Hui Zi.

The Three Lives Samsara Seed was smashed away, becoming smaller and smaller in the air, until finally only a dot of light remained.

"It's really strong."

Jin Delan closed his eyes, and the dark red metal fragments behind him began to vibrate violently.

"Shhhhhh-"

Followed by.

All these dark red metal fragments flew towards the six-armed giant holding the golden pagoda.

"Again!!"

The six-armed giant holding the golden pagoda sneered with disdain on his face and scolded:

"In the face of absolute power, all the bells and whistles are a joke."

As the six-armed giant finished his words, all of Jindelan's dark red metal fragments were blocked outside his domain.

.....

Chapter 1624: A stick that covers the sky and the sun!

Jin Delan's face darkened. The fragments of his holy weapon couldn't even break through the opponent's territory.

Such a gap is too obvious.

"It seems that I am still too weak."

Jin Delan said calmly, "But I can't beat the Snow Emperor. If I can't beat you, wouldn't it be a joke for the Snow Emperor watching in the cage?"

Hear this.

The six-armed giant holding the golden pagoda sneered.

"The gap in strength level cannot be made up by skills."

"You can't beat me, and the same goes for Xue Di!"

Jin Delan put two fingers together and touched her forehead.

"Some trump cards are not only for fighting against the enemy, but also for... showing off!"

"If no one is watching, there is no point in breaking the sky!"

"You said so, Xuedi!!"

Lin Tianhao's mouth twitched. This Jin Delan is still the same as before, too good at pretending! !

and.

Jin Delan seemed very sure that he was fine and felt that he just wanted to watch the fight in this cage.

even!

What Jin Delan is doing now, it can be said to be showing off, but it seems more like... showing off his strength to himself! !

Under Lin Tianhao's gaze.

Jin Delan actually drew out a ray of soul power from between his eyebrows.

"It's not an ordinary soul power."

The voice of the Lord of the Nine Netherworlds sounded, "This is... the power of the original soul."

"And he condensed the original soul power into a weapon!!"

Lin Tianhao also became a little more curious.

Because he sensed more information.

It's not just the power of the original soul, it also has the power of the original soul laws.

After all, Lin Tianhao's attainments in the laws of soul are very high.

Moreover, Lin Tianhao also mastered some of the power of the true meaning of the original soul.

therefore.

When Jin Delan took out the weapon condensed from the original soul power from his brow, Lin Tianhao felt the power of the original soul law from it.

"call out--"

Jin Delan made his move in an instant, and the steel needle condensed from a strand of original soul power pierced into the center of the six-armed giant's eyebrows in an instant.

The six-armed giant tried to stop it, but to no avail.

Even his realm is useless!!

"Original law?"

The six-armed giant's face changed drastically, and then he hugged his head and began to roar wildly.

"Ahhh-"

"Get out! Get out now!"

The needle stirred his spiritual sea of consciousness wildly, and the six-armed giant felt that his sea of consciousness had turned into a mess.

"Bang bang bang-"

The six arms kept hitting his head, and the intense pain made the six-armed giant roll over and over on the ground.

"you wanna die!!"

Seeing this, the other six-armed giants all rushed towards Jindelan.

Jin Delan's expression changed slightly. This attack was very powerful, but it required him to expend his mind to continuously control it.

After all, this six-armed giant is no ordinary person. With his current strength, he is not able to deal a fatal blow.

Seeing the six-armed giant coming towards him, Jin Delan had to retreat.

Jian Wushuang's infinite sword energy burst out, but it was not enough to face the divine realm of these six-armed giants.

"The gods cannot take action. It is too difficult to stop these powerful people who possess the divine domain now."

In the cage of heaven and earth, Lin Tianhao muttered to himself.

At this moment.

Another figure came over with a flying sword.

"Hahaha, how can we miss the White-robed Sword Saint in such a big battle today?"

The man standing on the flying sword was dressed in white and was standing on a flying sword.

Apart from the flying sword under his feet, there was only a long sword in his hand.

He was not as flashy as Jian Wushuang, he just stood proudly in the air with only his sword.

"The sword must be held in your hand. How can you be a swordsman without a sword in your hand?"

The sword master in white arrived in an instant, and the long sword in his hand did not have the slightest brilliant light, and just one strike brought it down.

What fell seemed to be just a sword, but it also seemed to be more than just a sword.

"Is this... momentum?"

Lin Tianhao was a little surprised. Momentum was a very mysterious thing. It existed, but was difficult to understand.

As the saying goes, momentum is as strong as a rainbow. Some people have already won in terms of momentum before the fight even begins.

The power of this sword saint in white is very strange.

It was not the kind of invincible momentum that Lin Tianhao had imagined, but an absolute self-confidence that was indestructible and unbreakable.

"boom--"

As the sword fell, the divine domain of the six-armed giant in front was torn open.

So far.

This sword saint in white is the only adventurer who has torn open the divine realm.

As for Jindelan's soul origin attack, it did not collide head-on with the realm of the leading six-armed giant, but pierced into his forehead with a higher level of power.

If it were a head-on collision, it would be hard to say who would be stronger and who would be weaker.

Although the origin law is strong, Jin Delan's level of the origin law is obviously not high.

The sword of the White-robed Sword God cut through the divine realm with one sword, which obviously caught the six-armed giant by surprise.

Although the six-armed giant was surprised, his reaction speed was not slow. He clapped his six arms at the same time, and the force of space was instantly suppressed.

Under the pressure of this powerful force of space, the movements of the sword master in white were instantly slowed down, as if in slow motion, which seemed a little funny.

at the same time.

His health points were also decreasing at a speed visible to the naked eye.

In two seconds at most, the sword master in white would die at the hands of this six-armed giant.

At this moment.

A child fell from the sky, and with his tiny arms spread out, he forcefully resisted the spatial force of the six-armed giant.

"not dead?!"

The six-armed giant holding the golden pagoda was startled. That blow of his should have ended the life of the contracted beast.

This child was none other than San Sheng Lun Hui Zi.

It was thanks to San Sheng Lun Hui Zi's move that the White-robed Sword Saint was able to deliver this strike.

The six-armed giant in front of him disappeared, and then he moved through space again.

But what surprised Lin Tianhao was that the white-robed swordsman actually moved out with the six-armed giant.

At the moment of landing.

The six-armed giant saw the long sword close at hand.

It was too late to stop it now.

He subconsciously raised an arm to block it.

at the same time.

The other three arms slapped towards the white-robed swordsman again.

"boom--"

The sword fell, and the white-robed swordsman died! !

at the same time.

One of the six-armed giant's arms was broken off.

"I risked my life, and someone helped me take a blow, but I only cut off one arm of the six-armed giant."

"It seems that I am still too weak."

The white-robed swordsman's eyes were blazing, and he was not hit at all.

in contrast.

At this moment, he was full of fighting spirit and his desire to become stronger became stronger.

at the same time.

Battle center.

The sky suddenly darkened.

Everyone subconsciously looked up and saw a huge stone pillar that covered the sky and seemed to have pierced the sky falling from the sky.

The six-armed giant holding the golden pagoda also narrowed his eyes slightly, but before the stone pillar fell, the black cat's claws reached out again in the void.

Chapter 1625 Blood Cicada King!

The giant holding the golden tower resisted tirelessly.

In just a short while, the black cat had attacked him hundreds of times.

So much so that he couldn't even concentrate on attacking other people.

He didn't even see the shadow of the black cat, every time it just stretched out a claw from the void.

He had great attainments in the field of space, but he was completely unable to capture the cat hiding in the void.

"spread!!"

The six-armed giant holding the golden pagoda had a solemn expression. The stone pillar that fell from the sky did not seem to have much killing power.

But he didn't dare to gamble.

After all, it still looks scary.

Except for Xue Di, other adventurers in this galactic world should not be underestimated.

Just when the group of six-armed giants wanted to disperse to avoid the stick that covered the sky and the sun.

A hearty roar was heard.

"Group ridicule!!"

The next moment.

These six-armed giants walked uncontrollably towards a little fat man.

"Hehe, these high-quality skills are awesome. Even they are not immune to my taunts."

The fat man had a smug smile on his face.

At this moment of mockery, the stone pillar had already fallen.

"boom--"

The ground cracked, and a huge deep pit was created.

"Bam—"

At this moment.

A middle-aged man with three pairs of blood-red wings behind him kicked the stone pillar, moving the huge stone pillar sideways.

"Kongtian Salin, you are such a loser. Xuedi is already trapped, yet you are still forced to this point by these adventurers."

The six-armed giant holding the golden pagoda jumped out of the deep pit and said indifferently:

"You really are talking without any pain in your waist. It's not you who got beaten."

He just finished speaking.

The black cat's claws reached out from the air again and grabbed.

"It's quite interesting. I can play the Void Shuttle trick in front of you and make you run around in circles."

The blood-winged man was surprised, then his eyes swept around and finally fell on Jin Delan.

"You must be Jin Delan."

"To be honest, you are a very talented person, and this includes the adventurers who took action here today. You can all join our Alite Galaxy."

The man with blood wings flew into the air.

"The Snow Emperor has been trapped. You have such a hard time dealing with such a small number of people from our Alite Galaxy. If you really face the large army of our Alite Galaxy, you will have no chance of winning."

No one present looked moved at all.

Those who are wavering may attack the people of the Aleta galaxy here.

They are more likely to choose to hide and wait and see.

however.

No one responded.

Or.

The response was a dark red metal fragment.

just.

The metal fragment hovered ten meters in front of the Blood-Winged man, then was blocked by an invisible force, preventing it from moving forward at all.

"Stubborn!"

The blood-winged man was angry.

Sky Salin came to the side of the blood-winged man and said with a smile: "King Blood Cicada, why waste time talking to these guys? Kill all those who don't obey."

"Anyway, the time agreed upon by the higher-ups is almost up, so we can just deal with these troublemakers by then."

The Blood Cicada King swept his eyes over everyone present, and the blood-colored wings behind him began to vibrate.

Followed by.

With the Blood Cicada King as the center, adventurers within a hundred miles all showed expressions of pain on their faces.

They covered their chests and looked at the Blood Cicada King in disbelief.

"what--"

The Blood Cicada King's gaze fell on the fat man. His attack was a range-based cardiac resonance attack.

It can instantly greatly increase the heart rate of a living being.

This method is almost impossible to defend against.

But the little fat guy only lost a little bit of health, which is still recovering.

The fat man looked a little solemn at this time, although he could withstand the attack of the Blood Cicada King.

But the pain in my heart is real.

"Iron Torrent!!"

The fat man slammed the heavy shield in his hand to the ground. In an instant, thousands of steel giants who looked similar to him but were extremely tall appeared behind him.

These steel giants rushed towards the Blood Cicada King in front.

"broken!"

Sky Salin arrived in an instant, and the space boundary expanded, crushing all the steel giants.

"call out--"

At this moment.

A shadow passed by at such a speed that it was terrifying.

The Blood Cicada King's eyes narrowed slightly, "What a fast speed."

While he was surprised, a stone pillar fell on his head.

"A moth flies into a flame and perishes!"

Facing the monkey's attack, the Blood Cicada King looked indifferent. He didn't even make any movement, and blood beads began to seep out of the monkey's pores.

"Guardian Shield!"

The fat man released an energy shield for the monkey, which enveloped the monkey and reduced most of the damage the monkey suffered.

"Ba Wang Yin!"

The fat man endured the severe pain in his heart and rushed to the front of Kongtian Salin in an instant.

Kong Tian Salin had a playful smile on his face.

He didn't believe that anyone could replicate Jin Delan's freak attack.

With the help of his realm, he is already invincible.

It is almost impossible to break through his realm.

Apart from.....

Just as Kongtian Salin was thinking this, the black cat claws attacked again.

"Blood Cicada King, you don't seem to be doing well either."

While avoiding the cat's claws, Kong Tian Salin did not forget to make a joke.

"Really powerful adventurers seem to be able to handle it."

The Blood Cicada King did not answer. As he raised his hand, a spear appeared in his hand.

"If there is no one in the galaxy world who can fight, then there will be a problem."

The words fell.

The Blood Cicada King's body turned into a stream of light and rushed in another direction.

"clang--"

A child rushed out in an instant and blocked the Blood Cicada King's way.

at the same time.

Su Li, who was hiding in the dark, covered his chest and quickly distanced himself.

She never showed up because she knew that her physical combat power was too weak to face the top warriors of the Alate Galaxy.

As a summoner, her true form is too easy to be targeted.

"Oh it's you!!"

Sensing the lingering black cat aura on Su Li, Kong Tian Salin rushed towards Su Li with some anger.

"You don't take Fatty seriously at all!!"

The fat man was a little annoyed. This Sky Salin had the ability to travel through space. He was angry but he couldn't stop it.

But the fat man just charged forward and killed them.

It goes without saying that Kongtian Salin is going to take action against Su Li.

But before the fat man arrived, three six-armed giants had already fallen down on the other side.

"what?!"

The Blood Cicada King and Sky Salin were both shocked.

The other six-armed giants all have divine domains. Even for Jin Delan, it would be extremely difficult to kill three six-armed giants head-on.

"not dead."

The Blood Cicada King glanced at Kong Tian Salin and said, "You deal with the summoner, and I will take care of this rat!"

Chapter 1626 Lin Tianhao takes action and the Blood Cicada King dies!

"This damage, even for the Snow Emperor, the short-term burst damage should not be that high."

Looking at the three six-armed giants that had suffered severe damage, the Blood Cicada King was very surprised.

"I didn't expect that there would be an assassin of this level in the Galaxy World!!"

For the top strong men, assassins are the most troublesome things.

They hide in the dark, and you never know when they will pop up and hit you.

"Something's not right."

"Shadow Killer, is he that strong?"

Lin Tianhao, who was in the cage, was the most leisurely spectator, and he saw the situation much more clearly.

The Blood Cicada King's heart resonance method carried away many adventurers.

This means that the adventurers who can still continue to attack the Alete galaxy are truly the best among the adventurers.

Shadow Killer's attack just now shocked not only the Blood Cicada King, but even Lin Tianhao, who had some understanding of Shadow Killer, was shocked.

Shadow Killer just knocked off two-thirds of the health of the three six-armed giants! !

The damage value exceeded thirty trillion!!

This level of damage value cannot be achieved by simply stacking attack power with Shadow Kill.

Shadow Kill, great opportunity!!

Although most of the top adventurers in Ragnarok are blessed with opportunities, it is still extremely difficult to achieve Shadow Kill.

"What a pity, we only managed to force out one Blood Cicada King. It would have been great if we could force out more masters from the Alet Galaxy."

Lin Tianhao was somewhat disappointed.

The Blood Cicada King suppressed most of the adventurers with just one move of heart resonance.

Shadow Kill fled quickly, but it was of no use.

There is heart resonance within a radius of a hundred miles, but the frequency of resonance will be lower as the distance is farther.

"Shadow Killer's stealth can ignore the divine realm, but it cannot ignore the heart resonance. It seems that it still has flaws."

The assassin's domain can be combined with stealth. If the domain is good at concealment, after the fusion, it is possible to break into someone else's domain without being detected.

When Shadow Killer just attacked the three six-armed giants, their divine realms were unaware of Shadow Killer's existence.

Otherwise, Shadow Kill wouldn't be so smooth.

And at this time.

The fat man was held back by a six-armed giant. The six-armed giant could not kill the fat man, but he could constantly use the power of space to restrict the fat man, making it impossible for the fat man to effectively protect his teammates.

Su Li was able to handle Kong Tian Salin with ease.

Sansheng Lunhuizi would definitely not be able to defeat Kongtian Salin head-on.

But the Three Lives Reincarnation Son has already jumped out of the Three Realms and is no longer an entity within the Five Elements.

Most of Kong Tian Salin's attacks are ineffective against San Sheng Lun Hui Zi.

Moreover, Su Li's black cat continued to attack Kongtian Salin from various angles, making it impossible for Kongtian Salin to get rid of Su Li in a short time.

"It's so confusing."

The monkey turned into a stream of light and hovered in the distance.

His movement speed is very, very fast, and he can pull as long as he is not controlled.

But the problem is.

Heart resonance, he is not immune.

Moreover, he could not break through and kill these six-armed giants who opened the divine realm.

As for Shadow Killer, the White-robed Sword Saint, who was able to break through the divine realm, could not withstand the damage of heart resonance.

Shadow Kill can severely damage three six-armed giants.

It was because he had been here a long time ago, but he was forced to take action when his heart resonated.

Otherwise, Shadow Killer should have concentrated his strength on killing the Blood Cicada King or Sky Salin.

"trouble."

Kongtian Salin was a little annoyed by the black cat.

The golden tower in his hand flickered with light, and the black cat's sneak attack came again.

"Got you!!"

The golden tower in Kongtian Salin's hand was used, and a powerful suction force acted on the cat's claws.

The black cat hiding in the void was also pulled out by this suction force.

"return!"

Su Li's expression suddenly changed.

The summoner can forcibly take back his contracted beast.

This can prevent your contracted beast from being killed.

However, forcibly taking back the contracted beast will cause it to enter a weakened state and cannot be used again for a short period of time.

But the golden pagoda in Kong Tian Salin's hand looked very extraordinary. If the black cat was really sucked away by the golden pagoda, it would be in great danger.

As Su Li forcibly recalled the black cat, the battle began to fail.

After all, these adventurers are not strong enough to compete with the top powers of the Alate Galaxy.

but.

If they were in their previous lives, they would be considered extremely powerful.

After all, the Alate Galaxy didn't have so many troublesome guys in its previous life.

"Xue Di, if you don't come out, I really can't stand it anymore."

Jin Delan glanced in the direction of the cage and tried to attack the cage with the fragments of his holy weapon.

But the result was only able to break through one or two layers of the cage on the surface.

And the cage will recover quickly after being broken.

"You are confident in Xue Di, but I said that he..."

Kongtian Salin is very confident in his heaven and earth prison.

But before he could finish his words, a figure appeared above his cage.

This figure is none other than Xue Di!!

"This Starry Sky Step is still useful." Lin Tianhao murmured.

He can also use the Starry Sky Step to jump out of a cage of this level.

Look.

The level of this Starry Sky Step is higher than he imagined.

Even a saint-level cage cannot stop the Starry Sky Step.

Then he will be able to do more things using Starry Sky Step in the future.

"how come?!"

Kongtian Salin's eyes widened. He didn't expect that Lin Tianhao could come out of their cage of heaven and earth so easily.

The Blood Cicada King moved and appeared in front of Lin Tianhao.

"Out."

"As expected of the Snow Queen, no wonder the higher-ups asked me to come here in person. If it were anyone else, really..."

Before the Blood Cicada King finished his words, his appearance began to age at a speed visible to the naked eye.

In just a few breaths, the Blood Cicada King had become so old that it seemed that a gust of wind could blow him down.

"I have to go back and change my job, so I won't play with you guys anymore." Lin Tianhao took a step forward.

With a swipe of the carving knife in his hand, the Blood Cicada King's head flew up.

"this--"

Everyone present, whether they were the six-armed giants or the adventurers of Ragnarok, were all stunned.

"The Blood Cicada King is so powerful, but he couldn't last more than ten seconds in the hands of the Snow Queen!!"

When Jin Delan saw that Lin Tianhao killed the Blood Cicada King so easily, he opened his mouth with a bitter expression.

"Is this the difference between me and the Snow Queen? If I were to fight against the Blood Cicada King, I would be limited if I could last three minutes without losing."

.....

"Ding, congratulations, you have successfully killed the Blood Cicada King. We will announce it to all servers soon. Do you want to hide your name?"

"no."

"Announcement to all servers, congratulations to the player Xue Di for successfully killing the Blood Cicada King. We hereby announce this and hope all adventurers will keep up the good work!!"

.....

"Walk!!"

When Kong Tian Salin saw this scene, his face changed drastically and he turned around and tried to escape.

Chapter 1627: Heavenly Punishment 9th Turn!

"Isn't it a little late to leave now?"

An extremely calm voice sounded.

The next moment.

Kongtian Salin looked at his chest in disbelief. An unremarkable carving knife had stabbed into his heart.

"Shh-"

Lin Tianhao's arm turned into an afterimage, and he stabbed Kong Tiansalin's chest like a hornet's nest with a hundred cuts in one second.

"Ding, congratulations, you have successfully killed Kong Tian Salin. An announcement will be made to all servers soon. Do you want to hide your name?"

"no."

"Announcement to all servers, congratulations to the player Xue Di for successfully killing Kong Tian Salin. We hereby announce this and hope that all adventurers will continue to work hard!!"

.....

"How could this happen? The space transfer has failed. The space we are in is locked."

"I'm getting older. How could this happen? Is this the law of aging? How could such a strange law appear in the galaxy world?!"

The other six-armed giants began to panic.

Lin Tianhao attacked twice, once to kill the Blood Cicada King and once to kill their boss Kong Tian Salin, which scared them out of their wits in an instant.

"Didn't they say that there are no truly powerful people in the galaxy world? Didn't they say that there are no people in the galaxy world who even possess divine domains?"

"how so?!"

"I don't want to die yet. I am the pride of the ancient sky beast clan. I don't want to die!!"

.....

A group of six-armed giants of the ancient sky beast clan fled in terror, but it was of no avail. Under Lin Tianhao's attack, one six-armed giant after another died under Lin Tianhao's carving knife.

As for the divine realm?

The current divine realm is not worth mentioning in front of Lin Tianhao.

Even the Divine Realm could not stop the Lord of the Nine Netherworld, who could easily crush them.

Server-wide announcements rang out one after another. By killing these high-level, high-quality guys, Lin Tianhao's level was also increasing rapidly.

"Ding, congratulations on reaching level 5001, free attribute points +5."

"Ding, congratulations on reaching level 5002, free attribute points +5."

.....

"Ding, congratulations on reaching level 6912, free attribute points +5."

"Ding, congratulations on reaching level 6913, free attribute points +5."

All the six-armed giants were killed.

Next up are the masters from other Arlate galaxies in Yuanshan City.

Said to be a master.

That's all there is to it.

In the entire Yuanshan City, there are no other masters who possess the divine realm.

The ancient space beasts were a race sent by those guys from the Alate galaxy to specifically target Lin Tianhao.

The Blood Cicada King came here to provide support.

Now that the ancient sky beast clan has been destroyed and the Blood Cicada King has been killed, the remaining Yuanshan City is even more like a ragtag group of minnows.

Lin Tianhao started a crazy killing mode.

All the people from the Alet Galaxy, regardless of gender, age or young, will not be spared!!

There is no right or wrong in the camp issue!!

not to mention.

Anyone who appears here is an invader.

He will not and cannot be merciful to the invaders.

In addition to these guys from the Alete galaxy, Lin Tianhao also saw quite a few adventurers in Yuanshan City.

It seems that there are quite a few adventurers who choose to join the Arlet Galaxy.

At least.

There are more than 10,000 people here!!

Lin Tianhao had a sinister look on his face.

In the previous life, the galactic world was conquered so quickly, and these traitors can be said to have made "great contributions".

Now that he sees these traitors again, how could Lin Tianhao possibly give them a good face?

Kill them all!!

Not only that.

Lin Tianhao also wrote down their names and handed the list to Berserker Blade.

"Is this... the end?!"

Jin Delan, Su Li and other adventurers looked at each other in bewilderment.

There were so many adventurers and they fought so hard just now, but in the end, they didn't kill a single master from the Alete galaxy.

Lin Tianhao took action and resolved the battle so easily.

"With Xue Di here, who dares to say we have no chance of winning against those guys from the Alete Galaxy?!"

The eyes of Mad Blade were burning. They had received a lot of information recently, telling them that even with the Snow Emperor, they would still be doomed when facing the attack from the Alate Galaxy.

But now! !

These powerful men who possess divine power are so vulnerable in front of Lin Tianhao.

Lin Tianhao took a look at his own level, which was currently only at level 8,500!!

Although killing these high-level and high-quality people from the Alete galaxy can gain a lot of experience points.

But the number of these guys in the Alete galaxy is not too large after all, so they cannot help Lin Tianhao quickly reach level 10,000.

What should we do next, to kill monsters or humans?

Lin Tianhao thought for a moment. When those guys from other worlds come to plunder resources, should he negotiate or kill them?

His strength is very strong now, but the Lord of Luotian chose to go to the Divine Realm, which shows that even a saint with a vision cannot be invincible.

Otherwise, Lord Luotian would not need to leave at all, he could just stay.

The presence of those guys from the Alete galaxy has already made the crisis in the galactic world quite serious.

If we offend the strong people from other worlds again, will the galaxy world be plunged into crisis?

Take back your thoughts.

Lin Tianhao planned to level up by killing monsters first, and then go talk to the strong people from other worlds after his level reached 10,000 and he completed the Nine Transformations.

If we can reach an agreement, that would be great.

If the negotiations fail, he will not hesitate and will not let anyone who deserves to be killed go.

Lin Tianhao activated the Eye of Insight and the Heavenly Punishment Lock and began his slaughter.

"Ding, congratulations on reaching level 8519, free attribute points +5."

"Ding, congratulations on reaching level 8520, free attribute points +5."

.....

"Ding, congratulations on reaching level 9999, free attribute points +5."

"Ding, congratulations on reaching level 10000, free attribute points +5."

"Whoo~"

Lin Tianhao exhaled a breath. He finally reached level 10,000. The next step was to change his job.

In the ancient land of Buzhou, there is a super god-level hidden altar for career transfer!

Lin Tianhao took out the Heavenly Punishment Necklace and began to change his job.

"Ding, congratulations, you are about to start the ninth job of the super god-level hidden profession [Sky Punishment Archer]. Do you want to confirm the job change?"

"confirm!"

As Lin Tianhao's voice fell, a beam of light descended from the sky, and the familiar feeling came over him again.

In just a few moments, Lin Tianhao completed the Nine Heavenly Punishment Transformations! !

From today on, he is also a ninth-level strongman!!

Nine turns!!

He used to be a superior being in front of Lin Tianhao, but now, Lin Tianhao has also reached such a realm.

Although.....

The ninth-level professionals were no match for Lin Tianhao for a long time, but now that he had reached the ninth level, Lin Tianhao still felt a sense of accomplishment.

At least.

After reaching the ninth level, there were not many people in the entire Ragnarok who could suppress him in terms of level.

but.

The same problem is that it will be more difficult for Lin Tianhao to upgrade next.

After all, there aren't a large number of wild monsters in Ragnarok that are over level 10,000.

Chapter 1628 The Wheel of Life and Death!

If Lin Tianhao wants to quickly level up, he can only fight BOSSes.

Throughout Ragnarok, the area with the most BOSSes is undoubtedly the sea area.

He had encountered a strong man at the saint level in the sea before.

what about now?

In the Ragnarok era, not to mention saints, even gods are not allowed to exist.

Does this mean that the saint of the sea has left?

Lin Tianhao felt that this feeling was still very strong.

If this is the case, there should be no problem for him to hunt sea beasts to level up.

"When did I develop this kind of attitude of bullying the weak and fearing the strong?"

Lin Tianhao smiled bitterly. Without a saint in charge of the sea area, the sea beasts became experience babies that he could slaughter and upgrade at will.

"It seems that I am the same..."

Lin Tianhao murmured to himself.

"The Arlet Galaxy came to attack the Milky Way World so that they could become more powerful."

"I slay sea beasts, just the same."

"To those guys in the Alete system, we are no different from sea beasts."

Lin Tianhao looked towards the vast sea.

"But can you blame me?"

"This is the rule of Ragnarok. I have no choice but to level up quickly."

"This is the rule designed by someone. I am an adventurer, and it is only natural for me to kill monsters and level up!!"

Lin Tianhao's mood soon calmed down.

He now understood why some people would develop mental demons after a period of cultivation.

Because one day.

You have worked hard for a long time, but found that you, who always wanted to be a dragon slayer, have turned into the evil dragon that everyone hates and despises.

In the end, you will end up living the life you hate the most!

But is this really his fault?

Just like if he wants to level up, he needs to hunt sea beasts, is that his fault?

this is not! !

If anyone must be blamed, it should be the rule makers of Ragnarok.

Lin Tianhao thought of the ghost messenger in the Nine Netherworld.

perhaps.

He can kill those contaminated ghost messengers to level up.

Although those ghost messengers had become abandoned pawns arranged by the person above, they seemed a little pitiful.

But there are so many poor people in this world!

With an idea in mind, Lin Tianhao went straight back to the Nine Netherworld.

By the way.

He also had to go to Huangquan Inn, after all, he needed to get his reward.

Although he didn't bring Man Yue out, he found Man Yue after all, so he should be given the waiter's reward no matter what.

Huangquan Inn.

Lin Tianhao couldn't find this place before, but now, with the improvement of Lin Tianhao's Tao realm and the guidance of the Lord of Jiuyou, Lin Tianhao found this place easily.

"You're still here."

Lin Tianhao had just arrived here when he heard the sound of Man Yue.

Enter the Huangquan Inn.

Lin Tianhao couldn't help but laugh.

"Not bad, they are all acquaintances."

Lin Tianhao's eyes fell on the six-armed giants including the Blood Cicada King and Sky Salin.

When the Blood Cicada King saw Lin Tianhao coming, his expression suddenly changed.

"Xue Di, what do you want to do?!"

Obviously.

The Blood Cicada King did not expect that Lin Tianhao would actually chase him here.

Lin Tianhao smiled slightly and said:

"Don't be so excited. I came here for two main reasons."

"What's the matter?" asked the Blood Cicada King in a deep voice.

"First, I'll come get my mission reward."

Lin Tianhao's eyes fell on the waiter.

"You said so, I found Senior Manyue. Although I didn't escort her out personally, it can still be considered my contribution."

Man Yue couldn't help but roll her eyes, obviously thinking that Lin Tianhao was a bit too shameless.

After all, Lin Tianhao did almost nothing, yet he shamelessly said that he had completed the task.

The waiter's mouth twitched and he glanced at the full moon.

Man Yue nodded slightly, and the waiter said:

"alright."

Lin Tianhao submitted the task directly.

"Ding, congratulations, you have successfully completed the mission of the Yellow Springs Envoy [Searching for Man Yue, the owner of the Yellow Springs Inn]."

"Mission Rewards: Free Attribute Points +500 million, Life and Death Wheel +1, God-level Talent Awakening Stones +5, Talent Evolution Flower +5. Additional Rewards for Promotion: Free Attribute Points +1000 million, Skill Star Upgrade Scrolls +10, Talent Evolution Flower +10, Yellow Spring Qi +3."

After receiving the mission reward, Lin Tianhao couldn't help but reveal a satisfied smile on his face.

Lin Tianhao knew the uses of most of these rewards.

The only two things I don't know are the Wheel of Life and Death and the Energy of the Underworld.

Wheel of Life and Death: Special.

Wearing requirements: None.

Effect 1: Maximum health +20%.

Effect 2: Health recovery +100%.

Effect 3: When you wear it while alive, your health will be permanently increased by 10 points per second.

When you wear it after death, it will permanently increase your soul power by 1 point per second.

Wear resistance: Indestructible.

When Lin Tianhao saw the properties of the Wheel of Life and Death, he was stunned.

Is this equipment?

Isn't this a cheat?

The increase in maximum health points and the permanent increase in maximum health points, these effects are so strong that they are a bit unreasonable.

The only pity is that this thing cannot increase soul power and health points at the same time.

Moreover, the greatest help this thing can provide to Lin Tianhao should be 20% of his maximum health value.

As for permanently increasing maximum health.

to be frank.

Lin Tianhao's current health value is really incomparable to that of ordinary people.

Just like the Book of Life and Death padlock can also help Lin Tianhao increase his health points.

But after more than four thousand years, the life value has only increased by more than one trillion.

Compared with Lin Tianhao's total health value, this is too low.

This thing is relatively ordinary in Lin Tianhao's hands, but if it is given to other people, it is still good.

In fact, the first thing Lin Tianhao thought of was to live forever.

Because of his talent of "Guo Dao Wan Gu", his dual resistance is very high, but his health value is destined to be his flaw.

If there is no special opportunity, the health value cannot be too high even if you survive for eternity.

And this magic wheel of life and death can effectively improve this situation of living for eternity.

But to be honest.

Lin Tianhao thinks it's good to live forever, and he can help someone live forever.

However, something like the Wheel of Life and Death was somewhat useful to him, although not very useful.

Even if you have to give.

You can give it to a monkey, glasses, or even your own sister.

After all, except for the fat guy.

Monkey, Glasses, and his sister will also be short on health.

Although his sister's maximum health points would increase by one million every day, to be honest, one million a day would only be more than three hundred million health points a year.

Not even a fraction of Lin Tianhao's.

Think about this.

Lin Tianhao planned to give this thing to his sister, and then send her into the time and space training tower in the City of Disaster to practice for a period of time.

If nothing unexpected happens.

The special effect of his sister Lin Qingqing increasing her health by one million every day should be able to correct the bug in the Space-Time Training Tower.

By then, his sister will also have been practicing in the Space-Time Training Tower for thousands of years.

More than 300 million per year, after thousands of years, it can still increase by nearly 1 trillion!!

Chapter 1629 Level 2!

This is not much for Lin Tianhao, but for ordinary adventurers, one trillion health points is already an astronomical figure.

Like fat people.

Even when facing an ancient aerospace beast with divine power, he was still difficult to kill.

It's because his health bar is too thick, and it's too difficult to kill him using conventional means.

Followed by.

Lin Tianhao checked the Yellow Springs Qi again.

The energy of Huangquan: special.

Usage requirements: None.

Effect 1: After use, you will cover up the aura of a living person on you.

Effect 2: After use, the speed of understanding the laws of death, undead, soul, etc. will be increased by 10 times.

Wear resistance: Indestructible.

(Note: This item is not a one-time use item and can be used multiple times.)

Lin Tianhao raised his eyebrows slightly, a little surprised.

This thing is not a one-time use prop, which may be the only advantage of it.

As for its effect, to be honest, it's pretty average.

At least.

To Lin Tianhao, it is almost useless.

His state of death does not need a little bit of blessing from the energy of the underworld.

"The first thing I did here is done. Now, it's time to do the second thing."

Lin Tianhao's gaze fell on the Blood Cicada King, Kongtian Salin and others, with a malicious smile on his face.

Noticing the smile on Lin Tianhao's face, Blood Cicada King, Kongtian Salin and others felt inexplicably frightened.

"Xue Di, don't be too extreme!"

"Besides, this is Huangquan Inn. You are breaking the rules here..."

Before the Blood Cicada King could finish his words, Man Yue stood up.

"I remember that I have something else to go out for."

She just finished speaking.

The waiter also smiled and said:

"You guys chat, my room upstairs hasn't been cleaned up yet."

In just a few breaths, the proprietress and the waiter of Huangquan Inn left.

In the lobby of the inn, only Lin Tianhao, Blood Cicada King, Kong Tian Salin and other master souls were left.

"Snow Emperor!!"

The Blood Cicada King looked extremely unhappy, "You have already killed us once..."

Lin Tianhao remained unmoved and said with a smile:

"So, this time is not a big deal."

Lin Tianhao came here to kill them just to see if he could gain experience points by killing them here.

Not only that.

Lin Tianhao also wanted to give it a try, to kill them here and see if he could enslave them again, or...

After these guys here are killed, do their souls still exist?

Or...the current state of these guys is the origin of their souls.

If their current state is the origin of their souls, then if he kills them now, how much fighting power can they unleash?

Think about this.

Lin Tianhao attacked without hesitation.

The arrow is shot from the heart.

Because he was going to experiment, Lin Tianhao did not give his all, and did not even use a carving knife.

The feather arrow cut through the sky, and when it was about to hit the Blood Cicada King, the Blood Cicada King burst out with extremely strong momentum from his body, trying to block Lin Tianhao's feather arrow.

The momentum was terrifying, but he failed to block Lin Tianhao's feather arrow.

One arrow hit the target.

There was no damage number appearing above the Blood Cicada King's head, but he could see that the Blood Cicada King's soul had become slightly fainter.

"Only for show. Your current state is the essence of the soul. If that's the case, then if I kill you all, you won't be able to be resurrected."

Lin Tianhao has a skill called "Saints Cannot Be Saved", which can prevent people killed by him from being resurrected.

But the skill of Saint's Departure has a cooldown.

There are so many people like these guys in front of us. It would be a bit troublesome to prevent them from being resurrected.

But if they were the soul origins that appeared in Huangquan Inn, it would be much easier to deal with them.

Besides.

An unknown treasure that Lin Tianhao had obtained in the ancient mysterious realm before could also imprison the soul essence of these guys.

But he couldn't see the origin of the imprisoned soul, which was still very troublesome for Lin Tianhao.

Unless these guys he killed had sin values, he could see them because of his ability to reward the good and punish the evil.

The Huangquan Inn is much more stable.

Take back your thoughts.

Lin Tianhao's attack came down like a storm.

The Blood Cicada King, Sky Salin, and other six-armed giants from the Sky Ancient Beast Clan were all terrified to the extreme at this time.

"No no no..."

"I don't want to die yet, Xue Di, don't be too ruthless. If you do this, the strong men of our Sky Ancient Beast Clan will never let you go."

Many powerful members of the ancient sky beast clan were begging for mercy.

The Blood Cicada King had an extremely gloomy expression on his face. He wanted to escape, but he found that the Yellow Spring Inn seemed to be shrouded in an extremely mysterious force.

He tried his best but was unable to leave the Huangquan Inn. He could only see the dense swarm of arrows surrounding him.

"Ding, congratulations, you have successfully killed the Blood Cicada King. We will announce it to all servers soon. Do you want to hide your name?"

"no."

"Announcement to all servers, congratulations to the player Xue Di for successfully killing the Blood Cicada King. We hereby announce this and hope all adventurers will keep up the good work!!"

.....

"Ding, congratulations, you have successfully killed Kong Tian Salin. An announcement will be made to all servers soon. Do you want to hide your name?"

"no."

"Announcement to all servers, congratulations to the player Xue Di for successfully killing Kong Tian Salin. We hereby announce this and hope that all adventurers will continue to work hard!!"

.....

"Ding, congratulations, you successfully killed..."

.....

Lin Tianhao showed a satisfied smile on his face.

Because he found that after killing the soul origins of Blood Cicada King, Sky Salin and others, he could still gain experience points! !

and.

Lin Tianhao discovered that he could gain more experience points by killing their soul origins.

However, Lin Tianhao has now reached level 10,000, and killing them will not increase his level much.

Kill all the masters of the Blood Cicada King and the Ancient Sky Beast clan.

The result was only an upgrade from level 10,000 to level 10,138.

"According to this progress, it will still be difficult to raise the level to 20,000."

After dealing with these guys from the Alate Galaxy, Lin Tianhao entered the Nine Netherworld.

The next step is to start killing the ghost messenger.

These ghost messengers were once gods, and Lin Tianhao can gain more experience points by killing them.

In the blink of an eye.

Three days passed.

"Whoo~"

Lin Tianhao let out a long breath and finally a satisfied smile appeared on his face.

"No wonder the tenth turn is so difficult. It's too difficult to upgrade this."

It took him three days to kill the ghost messenger and raise his level from 10,138 to 20,000.

Leave the Nine Netherworld.

Lin Tianhao once again came to the ancient land of Buzhou, the super god-level hidden career transfer altar.

Lin Tianhao was not sure whether the tenth turn would still use the Heavenly Punishment equipment.

Lin Tianhao had asked Kui Wei Changtian before. According to Kui Wei Changtian, the difficulty of changing jobs would increase significantly from the ninth to the tenth.

Chapter 1630 The requirements for the transfer of the Heaven Punishment Archer!

At least one thing is certain.

Those are the conditions before the ninth turn, which are completely different from the conditions after the tenth turn and the tenth turn.

Lin Tianhao took out the Heavenly Punishment Inner Armor and began to change his job as usual.

however.

There was no news of job change this time.

"Failed?" Lin Tianhao murmured to himself, slightly disappointed.

But it was also expected.

What should I do after the tenth transformation of the Tianfa hidden profession?

It seems that he needs to find Shui Ruyan to ask about the situation. He doesn't know where Shui Ruyan is now.

Think about this.

Lin Tianhao directly made his voice heard throughout the server.

After all, Ragnarok is so huge, it would be very troublesome for him to look for it by himself.

"All servers, please come to Shui Ruyan's palace to have a chat."

"All servers, please come to Shui Ruyan's palace to have a chat."

.....

The server-wide loudspeakers continued to broadcast, and after Lin Tianhao sent them out, he began to prepare for what to do next.

Also, he should have given away this Wheel of Life and Death.

Thinking like this.

Lin Tianhao made a video call to Lin Qingqing.

But after a long time, Lin Qingqing didn't answer.

Followed by.

Lin Tianhao made another video call to Fatty.

This time the call was answered quickly, and the fat man asked:

"Brother Feng, what's wrong?"

The fat man was in the copy at this time, and he was surrounded by level 10,000 ancient ice and fire bears. These ancient ice and fire bears rushed towards the fat man frantically, but huge rocks kept falling around the fat man, hitting these ancient ice and fire bears and making them cry for their parents.

But these ancient ice and fire bears couldn't even break the fat man's defense.

"Where is Qingqing? She is online, but I can't contact her." Lin Tianhao said.

"I tried to contact her before, but couldn't get through. I guess she went to some special place just like her glasses."

Lin Tianhao nodded gently, "I have something here that I'm going to give to you. If you don't need it, a monkey or glasses will do."

"The monkey is right next to me, and the glasses are in the graveyard again. They probably won't come out for a while."

"Okay, then give this thing to the monkey first."

Lin Tianhao directly traded the Magic Wheel of Life and Death.

The fat man was also surprised when he saw the properties of the Wheel of Life and Death.

"Brother Hao, this thing should be of great help to you!!"

"It's okay. You will understand later. Life points are just sacrifices. The real powerful force is the Tao."

The fat man hesitated for a moment and said:

"There are also divine domains and realms, right? Domain upgrades."

"Yes."

Lin Tianhao was also a little surprised that Fatty and the others actually knew about the Divine Realm and the Realm. It seemed that after becoming stronger, they had come into contact with many opportunities.

"Well, because the glasses have reached the level of the God Realm, that kid, quietly, is always making trouble."

"He gave me and Monkey a batch of divine stones. We are also in the process of transformation, but my law level is too low, so it is difficult to transform."

"It's the monkey, he looks dumber than me, but his enlightenment speed is so much faster than mine."

The monkey who was killing the Ice and Fire Ancient Bear became unhappy when he heard this.

"Fatty, what are you talking about? Who can be as stupid as you?"

Lin Tianhao waved his hand and said:

"Don't force me. Just practice well. I know a place. If you want to attain enlightenment, I can take you there."

"Ten years in that place is equivalent to one day in the outside world. It is definitely a treasure land for enlightenment."

Hear this.

The fat man immediately said:

"Is it so magical? Glasses also said that he found such a place in an ancient tomb. The speed of time flowing inside is different from that in the outside world, and the speed of enlightenment will be greatly enhanced."

.....

After a brief conversation with the fat man, Lin Tianhao returned to the Fan Palace.

Lin Tianhao didn't have to wait too long, Shui Ruyan arrived as promised.

"Have you completed the Nine Transformations?" Shui Ruyan smiled the first time she saw Lin Tianhao.

"Ah."

Lin Tianhao nodded slightly and asked:

"I want to know what the conditions are for the Tenth Turn of the Heaven Punishment Archer?"

Shui Ruyan stared at Lin Tianhao for a while before saying:

"The initial conditions remain unchanged. A piece of Heavenly Punishment equipment is required."

"Besides that, we need to punish God on his behalf!"

"What is Heaven's Punishment? To punish on behalf of Heaven, the Tenth Turn requires the True Meaning of Thunder to reach the thirteenth level, and to possess the Domain of Thunder!"

Lin Tianhao's mouth twitched, "Are you sure?"

"I have arrived."

"I meet all the conditions you mentioned."

Lin Tianhao originally thought that the tenth turn would be more troublesome, but he did not expect that he had already reached it.

"It's the thirteenth level of the True Meaning of Thunder, not the ninth level, nor the twelfth level?!"

Shui Ruyan looked at Lin Tianhao in disbelief, because most people, when they reach the ninth level of the true meaning of thunder, will go one step further and reach the level of laws.

"I know." Lin Tianhao nodded.

Shui Ruyan took a deep breath, calmed her inner emotions, and said:

"When you change your job, just activate the Thunder Field."

"You came to me because you didn't activate the Thunder Field."

"What about the eleventh turn?" Lin Tianhao continued to ask.

Shui Ruyan glanced at Lin Tianhao meaningfully and said in a deep voice:

"How many lives are you going to kill?"

"Do you know how much experience points are needed to go from level 20,000 to level 50,000?"

Lin Tianhao grinned and said:

"I know, I have a way to upgrade now."

According to Lin Tianhao's estimation, the remaining ghost messengers in the Nine Netherworld should be able to allow him to raise his level to around level 30,000.

Then there are the sea beasts.

It just so happened that he was also considering going to the Dragon and Phoenix Fairy Island to look for the Heavenly Punishment equipment.

The sea of Ragnarok is vast and boundless, so there is a high probability that it will help him raise his level to 50,000.

"The eleventh turn is another step forward, the thirteenth level of the Law of Thunder."

"The twelfth turn is the thirteenth level of the realm of thunder!"

"Don't you have the Daoist realm?"

There is also a realm of asking for the way between the realm of law and the realm of the way.

"No."

Shui Ruyan said seriously:

"The further you go, the more difficult it becomes."

"I discovered that the number of Heaven Punishment equipment is greater than that of regular equipment. Does this mean that I can reach the thirteenth or even fourteenth level?"

Shui Ruyan hesitated to speak, but finally nodded, "Theoretically, it's possible."

"But I only know the requirements for the twelfth job transfer. I don't know the conditions for the subsequent job transfers. Moreover, even the super god-level job transfer altar cannot complete the job transfer."

"A more advanced job transfer altar is needed."

Lin Tianhao was a little surprised. "According to you, isn't the Sky Punishment Archer a super god-level hidden profession?"

"Yes!"

Shui Ruyan replied as a matter of course:

"This super god-level hidden profession, surpassing the god-level by one level is super god-level, surpassing two levels is also super god-level."

Lin Tianhao: "???"

There is nothing wrong with this explanation!

Lin Tianhao had never thought about this question before.

"Okay, thanks for letting me know."

That's it.

Lin Tianhao hesitated for a moment and said:

"The disaster is coming, what are your plans?"
