

O games 1641

Chapter 1641: The Stitched Skin Monster!

"You don't need your internal organs, so can you give me your kidney?"

At this moment.

A sinister voice came from Lin Tianhao's side.

As the voice fell, Lin Tianhao saw a guy who was neither human nor ghost appear in his sight.

This man was even thinner than Lin Tianhao, but his skin, flesh, and limbs seemed to have been sewn on later, making him look twisted and weird.

The boy was calmer when he saw this guy than when he saw Lin Tianhao.

He shook the bell in his hand, and the moment the strange man with stitched skin heard the sound, he actually covered his head and screamed in pain.

Lin Tianhao's eyes narrowed slightly. He heard the sound of the bell, but he did not show any uncomfortable reaction.

It seems that this bell is a treasure specially used to deal with things like the seamed skin monster.

however.

After a brief moment of pain, the pain on the seamed-skin monster's face turned into a hideous smile.

"Hahaha, sorry, I just can't pretend anymore."

The boy's face suddenly changed. He shook the bronze bell with more force, and the sound became louder and louder, but the stitched-skin monster remained unaffected.

"Didn't your parents tell you not to run around on Red Leaf Mountain? Are there man-eating monsters here?"

The boy stepped back in fear. He glanced at Lin Tianhao and said, "Father, hold him back. I will go get you some help."

The words fell.

The boy ran away, and his seemingly small body seemed to be equipped with a sixteen-cylinder engine, and he disappeared in the air.

"A son's debt must be paid by his father. Your flesh and blood is much more fragrant than that child's."

Lin Tianhao glanced at the seamed monster and said:

"I heard that a monster escaped from the mine. Are you the monster that escaped from the mine?"

The seamed skin monster was slightly startled and shook his head:

"I'm not. I'm really smart. Of course I'm a human being."

"But in this world, being a human is not as free and easy as being a monster."

Lin Tianhao looked at the seamed monster with interest and said:

"By the way, what is the source of your power for a monster like you?"

The seamed monster grinned and said:

"What? Don't you want to be a human anymore?"

"Hehe, it's not that easy to become a monster. You... are not qualified to be a monster yet."

Lin Tianhao shook his head and said:

"I'm new here. Do you know where the Super God-level Talent Awakening Stone is?"

The leather monster was stunned for a moment, then said with a dark face:

"I am a monster. I plan to eat you. I am not your prisoner. What right do you have to ask me questions?"

Lin Tianhao smiled slightly and said:

"Who told you that you are not my prisoner?"

"I'm telling you solemnly now that you've been surrounded by me. If you know what's best for you, hand over everything you have and answer my questions properly. Otherwise..."

The seamed-skin monster immediately looked around vigilantly. After making sure that there was no one else around, his face couldn't help but darken.

"Boy, you dare to play tricks on me!!"

Lin Tianhao spread his hands and said:

"When did I trick you?"

"I'm telling the truth."

As soon as he finished speaking, Lin Tianhao had already arrived beside the seamed skin monster.

The seam-skinned monster's expression changed slightly, "What a fast speed!!"

Of course it's fast!

Even if Lin Tianhao did not have the blessing of Tao, his basic movement speed was unmatched by ordinary people.

At the peak of the divine level, plus Lin Tianhao has so many free attribute points, he doesn't need to deliberately increase his movement speed, his movement speed is already terrifying.

The carving knife in his hand fell, and one of the arms of the leather-stitching monster was chopped off by Lin Tianhao.

"what--"

A painful roar sounded, and the seamed skin monster looked at Lin Tianhao in disbelief.

The flesh and blood of the arm that was cut by Lin Tianhao squirmed, and a bloody arm actually grew back.

at the same time.

The seamed skin monster raised its hand and slapped Lin Tianhao.

just.

Before he could even swipe his hand, his entire arm was cut off by Lin Tianhao.

"too slow."

Lin Tianhao shook his head secretly. This guy's attack speed was at most ten. In front of Lin Tianhao, it was like slow motion.

Lin Tianhao's Tianfa attack speed is over 150. Without the influence of Dao, in this kind of close combat, Lin Tianhao can stab him 153 times in one second.

The opponent couldn't even stab him with a knife because Lin Tianhao moved very fast.

"Now, can you answer my question properly?"

The seamed-skin monster looked at Lin Tianhao with horror. He originally thought that he was here to bully the rookie, but he didn't expect that he was the rookie.

"Sure, sure." The stitched skin monster said repeatedly.

"Why have you become like this?" Lin Tianhao asked.

The stitched leather monster looked aggrieved.

"Sir, I didn't want to become like this, but I was forced into this state."

Lin Tianhao frowned slightly and said in a deep voice:

"I don't want to hear nonsense." Lin Tianhao said.

The seam-skinned monster said helplessly:

"I was originally a miner in the Tiangong Mine. Later, something unexpected happened deep in the mine, and many gods died. I and a dozen miners were taken away by a body-cultivating god. He said he wanted to take me in as his apprentice, but in fact he just asked us to explore the mine tunnels. Many people died."

"In the end, only three people survived. I also encountered an unknown existence in the mine tunnel, which turned me into a monster that was neither human nor able."

"I must devour flesh and blood to stay alive, otherwise my body will dry up with thirst."

"Where is that body-cultivating deity?" Lin Tianhao asked.

"I don't know. He ate a lot of strange minerals and became crazy. It was because of this that my two companions and I were able to escape."

Lin Tianhao narrowed his eyes, stared at the seamed monster, and said:

"Your two companions must have been eaten by you..."

"No no!"

The seamed monster waved his hands repeatedly, "We used to be best friends..."

Having said that, the seamed monster noticed Lin Tianhao's cold eyes and said weakly:

"I only ate one. That person bullied me when I was a miner. It's his fault that I became what I am now."

Lin Tianhao waved his hand and said:

"Do you know the Super God-level Talent Awakening Stone?"

"know."

The seam-skinned monster immediately replied, "We often dig up awakening stones when we mine in the Heavenly Palace, but most of them are innate awakening stones below the holy level."

"Occasionally, we can dig up god-level talent awakening stones. As for the super god-level ones, they are deep in the mines and are not something that small minions like us can dig up."

"Only gods are qualified to dig deep in the mines."

Lin Tianhao asked directly:

"Then do you know where there is a super god-level talent awakening stone?"

"Ishimura."

The leather-stitching monster's answer was very affirmative, the same as the girl's village chief's answer.

"Across the Red Leaf Mountain, there is an endless mountain range of bone and stone. That's where the Stone Village is."

Chapter 1642 Blood Vine Girl, High Reward!

This stitched-skin monster should not be in the same group with the girl village chief. Since this stitched-skin monster said so, there is a high probability that he wants something in Shi Village.

"Take me there." Lin Tianhao said.

This guy is obviously much easier to control.

At least.

She is much easier to control than the girl village chief.

however.

When the seamed-skin monster heard Lin Tianhao say that he was going to Shi Village, a look of fear appeared on his face.

"There is a great terror in Shi Village, you can't go there."

"My Lord, you are a living person, you can go to the Stone Village, but monsters like us will begin to turn to stone as soon as we get within a thousand miles of the Stone Village."

"A monster much more powerful than me was petrified because it got close to the Stone Village. It hasn't recovered yet."

Lin Tianhao frowned slightly. In the village he passed by before, the girl village chief also had some extraordinary methods.

Shicun's methods seem to be even more powerful and overbearing.

Because the girl's village chief's area seems to be within a hundred miles.

The Shi Village is a thousand miles in radius and is directly petrified.

"Then let's go to a range of a thousand miles." Lin Tianhao said.

After hearing what Lin Tianhao said, the seamed-skin monster finally breathed a sigh of relief.

"Okay, sir, follow me."

The seamed-skin monster was leading the way, but Lin Tianhao grabbed him and rushed forward.

"So fast!"

The stitched-skin monster was horrified. He had seen some monsters that ran very fast, but compared with Lin Tianhao, they were nothing.

It is estimated that only those real evil creatures deep in the mines can compare with Lin Tianhao.

Not long after, Lin Tianhao left Red Leaf Mountain.

"This Red Leaf Mountain doesn't seem to have as much trouble as we imagined." Lin Tianhao said.

When he entered the Red Leaf Mountain, he expected that there should be some very powerful monsters in the mountain.

At least.

There shouldn't be just one Seam-Skinned Monster.

"Sir, with your speed and the way you carry a monster like me like a chicken, who would be so blind as to cause trouble to you?"

Lin Tianhao chuckled, "That's even more troublesome. You monsters, I'm not afraid of you being powerful, I'm afraid of you being smart."

Having lived two lives, Lin Tianhao knows very well that the most difficult wild monsters to kill are never the powerful ones, but the smart ones.

"Not entirely."

"Most of us who later became monsters still have the ability to think."

"Many of the monsters deep in the mines have only instincts, and only the top ones have human intelligence."

Lin Tianhao nodded slightly, this was normal.

If every monster was smart, it would be much easier to deal with them.

"Sir, the Stone Village is just ahead, about a thousand miles away. I knew about this Stone Village before. Before the accident at the mine, this Stone Village was unknown. But after the mine was solved, the stones in this Stone Village showed unimaginable power, capable of petrifying monsters within a thousand miles."

Lin Tianhao nodded slightly, and the leather monster continued:

"Since the Stone Village is not afraid of monsters, they have collected a lot of treasures. Among the nearby villages, the Stone Village is relatively wealthy."

"The super god-level talent awakening stone you are looking for can also be found in this Stone Village."

The stitched skin monster was very flattering, as if it was worried that Lin Tianhao would become ungrateful and kill him.

"Okay, I'm going to Shi Village." Lin Tianhao said.

The seamed monster bowed and said, "I will leave now. I hope your wish comes true."

Lin Tianhao grinned and said:

"You seemed to have said that if you don't eat flesh and blood, you will dry up. If I let you go, you will continue to eat people, right?"

Hear this.

The skin-stitching monster's expression changed drastically. Just by hearing these words, he knew that Lin Tianhao wanted to kill him to silence him.

"Sir, the laws of nature are orderly. If humans eat livestock, there will always be some beings that eat humans. If humans are the only greatest of all creatures, then they will become rampant and difficult to manage."

"There has never been an absolute king in the jungle. My eating of humans is not necessarily a bad thing for humans."

Lin Tianhao nodded slightly and said:

"Among all the races, the human race can be considered a very weak one. There are simply too many races that oppress our human race. I have the ability to deal with some of them, so of course I have to deal with some of them. Don't you agree?"

Hear this.

The seamed monster no longer hesitated and turned around and ran away.

But when he turned around, he found a carving knife was pressed against his forehead.

Due to inertia, the leather-sewing monster directly hit Lin Tianhao's carving knife.

The carving knife pierced into the center of the monster's eyebrows, and Lin Tianhao used the carving knife in his hand to cut the monster apart from the top of its head.

Black blood flowed out, and a disgusting stench spread. Lin Tianhao frowned slightly.

He killed the seamed-skin monster just to see if there would be any reward for killing the monster here.

"Ding, congratulations, you have successfully killed the Leather Man, experience points +75 billion, free attribute points +7500."

Lin Tianhao was slightly surprised. The experience points given were quite generous.

And he actually gave me 7,500 free attribute points.

Although this seamed-skin monster is weird, it is still very easy for Lin Tianhao to kill it.

"It seems that leveling up in this Heavenly Palace is not bad."

Judging from his conversation with the Leather-Stitcher, the Leather-Stitcher's strength is very low among monsters.

wrong.

He can't even be considered a true monster.

Or maybe.

In the words of the leather tailor himself, it should be called evil.

Think about this.

Lin Tianhao looked into the distance.

"The Stone Village is ahead. The situation in the Stone Village is quite complicated. I will take one person there next. If you feel unwell, please tell me immediately."

According to the Leather Seam Man, monsters will begin to turn to stone if they come within a thousand miles of the Stone Village.

Humans don't.

The Lords of the Nine Netherworlds are not human beings. It is hard to say what the consequences would be if they set foot there.

"Sir, I will go with you." Hei Tian Aozhen took the initiative to step forward.

Lin Tianhao waved his hand and said:

"Burning Heart Nightmare, come on."

Burning Heart Nightmare was stunned for a moment, but didn't say much. He followed Lin Tianhao and walked forward.

After walking a hundred miles away, Burning Heart Nightmare shook his head and said to Lin Tianhao:

"My lord, there is no discomfort. It seems that the petrification is aimed at those evil beings, or those who have transformed into evil beings."

Lin Tianhao nodded slightly and turned around immediately.

Just as Lin Tianhao turned around and prepared to pick up Lord Jiuyou and the others, a reminder sounded in his mind.

"Ding, congratulations, you have successfully killed the Blood Vine Girl, experience points +4.9 million, free attribute points +490."

Lin Tianhao was a little surprised. This was quite awesome.

It seems that it was the Lord of Jiuyou and his men who killed the monster.

"Ding, congratulations, you have successfully killed the Blood Vine Girl, experience points +6.6 million, free attribute points +660."

"Ding, congratulations, you have successfully killed the Blood Vine Girl, experience points +7.2 million, free attribute points +720."

Chapter 1643: Petrification, old man, an unwelcome request!

Lin Tianhao was very fast and soon arrived at the place where the Lord of Jiuyou and his men were fighting.

At this time, the Lord of Jiuyou and his men were surrounded by countless blood-colored vines. The prompt sound that Lin Tianhao heard was obtained by killing these blood-colored vines.

"Each blood-colored vine has hundreds of millions of experience points. This is too much experience points."

"Run!"

Seeing Lin Tianhao coming, the Lord of Jiuyou's expression changed slightly, and he immediately gathered towards Lin Tianhao.

"Ding, your blood and energy are being drained, your maximum health value -28023."

"Ding, your blood and energy are being drained, your maximum health value -28015."

.....

Lin Tianhao's expression changed slightly. This situation was more difficult than he had imagined.

As long as you get close to these blood-colored vines, your health will continue to decrease.

Lin Tianhao immediately led the Lord of Jiuyou and others to retreat, and after they retreated more than ten miles.

These blood-colored vines seemed to sense something terrible and began to hesitate.

The dense, overwhelming blood-red vines are constantly testing.

A blood-red vine whipped towards Lin Tianhao.

just.

Before the blood-colored vines got close to Lin Tianhao, they began to petrify at a speed visible to the naked eye.

"From the looks of it, this is the edge."

"There really is great terror in Shi Village!"

Lin Tianhao used the arrows shot from his heart and began to attack these blood-colored vines.

Here, his maximum health did not continue to drop, but he could attack these blood-colored vines.

"Ding, congratulations, you have successfully killed the Blood Vine Girl, experience points +6.7 million, free attribute points +670."

"Ding, congratulations, you have successfully killed the Blood Vine Girl, experience points +8.8 million, free attribute points +880."

.....

The prompt sound kept coming, and Lin Tianhao just felt so happy.

I don't know what the true form of these blood-colored vines is.

If you can kill the main body of these blood-colored vines, the reward will probably be very generous.

Just as Lin Tianhao was thinking about this, the blood-colored vines began to retreat.

Almost just a breath.

The blood-colored vines disappeared without a trace.

"Who are you?"

The blood-colored vines had just disappeared when a muffled voice was heard.

Hear the sound and look.

The person who spoke was an old man with white hair and a haggard appearance.

The old man held a pitch-black iron rod in his hand, and his body looked like it would collapse at any time, but his eyes were extremely deep.

"We are outsiders. We heard that Shi Village has collected a lot of awakening stones, so we want to come and ask for the awakening stones."

Hear this.

The old man nodded slightly and said:

"The Heavenly Palace has become like this, and it's not bad to be able to meet people of the same race."

While talking.

The old man's gaze fell on Heitian Aozhen.

"Atavistic Black Dragon, I can sense that your rank is very high, but your bloodline level is still a little bit low after all."

Lin Tianhao was slightly stunned. At first, he thought that the old man was referring to him as the fellow tribesmen.

Unexpectedly, it turned out to be Heitian Aozhen.

"The dragon race has always been proud, and there are very few dragons who are dependent on the human race."

"Let me see if you are qualified to control our dragon race's ancestral black dragon!"

As the old man finished speaking, he turned into a shadow and rushed towards Lin Tianhao.

It's not a skill, it's the purest form of physical movement.

His speed is not much slower than Lin Tianhao's.

For this attack, the old man did not use the iron rod, but instead used his somewhat dry palm to slap Lin Tianhao.

Lin Tianhao's expression remained unchanged. He almost subconsciously turned sideways to avoid the old man's attack.

This was not entirely dependent on speed to dodge the attack, but also Lin Tianhao's unconscious state of unity between man and nature.

The moment the old man made his move, Lin Tianhao had already predicted the trajectory of his attack.

The old man was slightly surprised and swept his palm across, seemingly a frontal attack, but in fact his right leg was hit first by the palm.

however.

Lin Tianhao still moved his body backwards, avoiding the old man's attack while slapping the old man's wrist with his backhand.

The old man used his hands and feet at the same time, and it should be extremely difficult for him to avoid Lin Tianhao's attack at this moment.

But what surprised Lin Tianhao was that the old man's body actually twisted downward, and then bounced back like a spring.

While avoiding Lin Tianhao's attack, he actually attacked Lin Tianhao at an even faster speed.

Lin Tianhao did not dodge this time. He punched out almost the moment the old man approached him.

This time.

It was Lin Tianhao who arrived later but was the first to arrive, and he even used offense instead of defense.

however.

What Lin Tianhao didn't expect was that the old man didn't dodge.

Judging from the way he looks, he wants to trade injuries with Lin Tianhao.

"wrong!"

The moment Lin Tianhao's attack landed on the old man, he realized that he had been fooled.

Because his fist was like hitting cotton, soft and without any harm.

"Force-discharging skill?"

Lin Tianhao could only think that it was a force-dissipating skill.

If this is a technique to release force, how terrifying would this attack be?

Although it was a miscalculation, Lin Tianhao, who was now in a state of unity between man and nature, managed to avoid the old man's fist as much as possible.

"A state of unity between man and nature?"

The old man was a little surprised and said slowly:

"There are no rules here. With the state of unity between man and nature, one is naturally stronger than many people."

Lin Tianhao smiled slightly, but did not explain.

If he could use the Tao, then when his sixteen visions of the saints were revealed, I wonder what kind of expression this old man would have.

"Senior, this world has suffered a great disaster. I came here to ask for the Talent Awakening Stone to save this world. I hope you can help me."

"You are able to tame the Atavistic Black Dragon, which is considered to be the top condition among the human race. How about I give you ten god-level talent awakening stones, one hundred saint-level talent awakening stones, and several talent awakening stones below the saint level?"

Lin Tianhao did not expect that the old man was so easy to talk to and was ready to give him so many things as soon as he opened his mouth.

"Senior, I have a request to make." Lin Tianhao said.

The old man's eyes narrowed slightly, and there was a hint of coldness in his eyes when he looked at Lin Tianhao.

"Since it's an unreasonable request, there's no need to say it."

"Senior, I must say this, I hope you understand." Lin Tianhao said.

The old man stared at Lin Tianhao and said:

"You want talent awakening stones. I've given you a lot, but you still have something to ask for. So, what you want is a super god-level talent awakening stone?"

"Yes." Lin Tianhao gave an affirmative answer.

Hear this.

The old man waved his hand and said:

"I've given you so much, but you still want more. This is really like greed." said the old man.

Lin Tianhao bowed and said, "Please help me, senior."

The old man narrowed his eyes slightly, and a cold light flashed in his eyes, "You are not asking me to do it, but... forcing me to do it!"

Lin Tianhao said seriously:

"Since you said so, it means you have it. I don't know what you need. If possible, I am willing to exchange with you."

Chapter 1644 Awakening Stone, Map!

The old man did not answer, but fell into thought.

After a while, he said:

"Nothing can be exchanged for the Super God-level Talent Awakening Stone. In the current situation of the Heavenly Palace, the Super God-level Talent Awakening Stone is a resource that is kept at the bottom of the box. It is used to cultivate the top backup reserve resources. It is impossible to trade it."

Hear this.

Lin Tianhao couldn't help but frowned, "Senior, the super god-level talent awakening stone is the biggest purpose of my trip, I hope you can help me."

"You stockpile super god-level talent awakening stones so that strong people can be born among the younger generation in the future."

"But it is so difficult to train such a strong man."

"I can help you three times and protect you. If you are willing to leave, I can also give you a piece of pure land so that you can have a better development."

Not as a last resort.

Lin Tianhao still didn't want to snatch it directly.

But if the other party refuses to give it, then he has no choice but to take action.

"My friend, we have all these things you promised in Shi Village now. Within a thousand miles of Shi Village, even the top few evil spirits would have to think twice before buying them."

"A thousand miles in radius?"

Lin Tianhao shook his head and said seriously:

"I can promise you a pure land of 100,000 miles in radius, and I can help you establish trade. There are so many things I can do, many of which you cannot imagine now."

Lin Tianhao now controls the land of China.

Promising a territory of 100,000 miles in radius is too easy.

"Need not."

The old man shook his head and said:

"My dear, why do you have to make things so difficult for me?"

"We in Shi Village cannot give you the Super God-level Talent Awakening Stone, but we in Shi Village know which places have Super God-level Talent Awakening Stones. If you have the ability, you can go and get them."

Lin Tianhao pondered for a while and said:

"tell me the story."

Lin Tianhao felt that one super god-level talent awakening stone was not enough. It would also be good to know the clues of other super god-level talent awakening stones.

"Tiangong, Mine Cave No. 7, deep in the main ore vein, there is an underground palace. In that underground palace, there is a super god-level talent awakening stone."

"We explored it before, but the evil in the underground palace was too powerful. Many of us died, and only a few escaped."

That's it.

The old man's face turned serious and he said:

"This is another reason why I don't give you the Super God-level Talent Awakening Stone."

"We have the super god-level talent awakening stone in our hands, and we don't know how many people died in exchange for it."

Lin Tianhao frowned. The old man's words almost cut off the possibility of negotiation.

"I can still give you what I just said. We can even give you the map of Mine No. 7, including some strange information we encountered during our previous exploration."

"If you want to find the Super God-level Talent Awakening Stone, you have to take risks yourself. Nothing can be achieved without effort."

Lin Tianhao stared at the old man for a while, then finally nodded and said:

"it is good."

The old man did not break up with him and promised him so many things, so there was no need for him to take action.

after all.

He also has the possibility of obtaining a super god-level talent awakening stone.

"Let's go, follow me back to Shi Village, the things are all in the village." said the old man.

Lin Tianhao nodded slightly and followed the old man to Shi Village.

Both of them were very fast, and soon Lin Tianhao and the old man arrived at Shi Village.

The name of this stone village seems to be due to the geographical features here.

There are black stones everywhere here, even the houses of these villagers are built with these black stones.

The big black stone is over a hundred meters high, while the small black stone is not even as big as a finger of Lin Tianhao.

Seeing the old man coming back, many people in Shi Village came out.

But when they saw Lin Tianhao beside the old man, they all showed vigilance on their faces.

"My friend, the current situation in the Heavenly Palace is evil and dangerous, and the people are even more dangerous."

"I hope you understand."

Lin Tianhao nodded. When he was in the first village before, the villagers looked at him with the same vigilance.

"This man came to ask for something. I will give him the thing and he will leave naturally." said the old man.

After hearing the old man's words, everyone present showed shock on their faces, and there was a bit more fear in their eyes when they looked at Lin Tianhao.

"Our Shi Village is considered to be relatively powerful among the nearby villages."

"There have been creatures that came to Shi Village before, but only a few were able to take anything away from our village."

Lin Tianhao smiled slightly. It was essentially the law of the jungle.

If he had not shown enough strength, the old man probably would not have promised so many things.

The old man took out all the awakening stones that he had promised to give to Lin Tianhao, and also took out a booklet.

"Here is a map of Mine No. 7, and there are some issues we marked. You can take a look."

Lin Tianhao took the booklet and started to look through it.

The map wasn't marked very clearly, but it was enough for Lin Tianhao to find Mine No. 7.

Besides.

It's about the evil situation in Mine No. 7.

This booklet records a total of three kinds of evil, namely the crystal mine demon, the water flower demon and the faceless man.

The crystal mine demons are the largest in number and their methods are relatively simple.

"That is, once you get close, your body will become heavier and heavier. This BUFF can be permanently stacked.

If you don't leave a certain distance, your body will eventually become too heavy to move and you will eventually be crushed to death.

There are quite a few evil flower demons in the water. Their main ability is to transform the human world into a world that belongs only to the flower demons.

After entering the other world, your original self would walk upside down on the water and suffocate to death due to the continuous lack of oxygen.

As for the faceless man, he is the easiest to deal with, but also the most difficult to deal with.

The Faceless Man will put some things in Mine No. 7. If you are greedy and take the things from the Faceless Man, your face will be peeled off by the Faceless Man.

People who lose their face will gradually become weird and will uncontrollably plunder the face of others.

After reading this information, Lin Tianhao's expression did become more solemn.

The easiest to deal with among them is undoubtedly the Crystal Mine Demon.

The other two are not easy to deal with.

Especially the Faceless Man, what if the Super God-level Talent Awakening Stone was also left by this Faceless Man?

Although he thought so in his heart, Lin Tianhao was not afraid. Before coming to the Heavenly Palace, Lin Tianhao had already guessed the various problems he might encounter.

The current problem was also within his expectations.

"Thanks."

Lin Tianhao bowed to the old man, then turned and left.

After Lin Tianhao walked away, a human face emerged on the hundred-meter-high black stone.

"You want to use him to deal with the Faceless Man?"

Chapter 1645: Mine No. 7, Crystal Mine Demon!

The old man did not look back, but turned his back to the black stone, looking deeply in the direction where Lin Tianhao left, and said calmly:

"It's not about exploitation. We just took what we needed. I didn't lie to him and the information was all true."

The black stone hesitated for a moment and said:

"I'm still growing. If time passes long enough, covering Mine No. 7 won't be a problem."

Hear the words.

The old man smiled and shook his head, saying:

"Ancestor, can we wait? Can the Heavenly Palace wait? The Faceless Man cannot leave the No. 7 Mine now, but if we wait until he can leave the No. 7 Mine, then the Heavenly Palace will really be doomed."

The black stone was silent.

He knew what the old man meant.

If the Faceless Man could move freely, he could place anything at any location.

With the Faceless Man's killing methods, few people can withstand it.

By then, many people will die and people will be in panic.

For example, if you see a treasure in the wild, should you take it or not?

If they don't take it, they will die a slow death. Without the blessing of the treasure, it will become increasingly difficult for them to deal with the evil.

If you take it, you may be killed by the Faceless Man.

.....

Mine No. 7.

Lin Tianhao found this place with a map.

When Lin Tianhao saw Mine No. 7, he was stunned.

The size of Mine No. 7 was beyond Lin Tianhao's imagination.

From his current position, the hundred-mile range that his spiritual sense could explore could not reach the edge of the mine at all.

And according to the information Lin Tianhao had discovered, the scope of his exploration should only be the tip of the iceberg of the mine.

Lin Tianhao took a deep breath and tried to calm his thoughts as much as possible.

With such a large area, it would be extremely difficult for him to find the super god-level talent awakening stone here.

Even if you have a map with strategies in your hand, it will still be very difficult.

"After working so hard and finally reaching the Heavenly Palace, it is ironic that I came here to mine."

The Lord of the Nine Netherworlds pondered for a moment and said:

"Sir, according to the current information, these evils have the power of rules, but here, we cannot use the power of rules."

"This situation is as if there is a particularly powerful being who is deliberately restricting the power of the laws here."

Lin Tianhao frowned slightly. Many of the rules and powers in his body were of super god level.

But even so, he couldn't use it.

This means that the existence that the Lord of Jiuyou guessed to be influencing this place is extremely powerful.

At least it's a saint or above.

wrong!

Saints are not allowed to stay in the galactic world, so what realm will those who stay be in?

The realm of eternity?

It seems that only this explanation makes some sense.

Take back your thoughts.

Lin Tianhao stepped into mine No. 7.

Just came in.

Lin Tianhao saw a strange man covered with red crystals in the corner, gnawing on a stone.

"The divine sense cannot detect it."

Lin Tianhao's spiritual sense was open, but just now, at the location where the crystal mine monster was, he clearly did not sense anything.

Lin Tianhao didn't intend to waste time. He shot an arrow from his heart, and the feather arrow cut through the sky and pierced through the body of the crystal mine monster.

"Ding, congratulations, you have successfully killed the Crystal Mine Demon, experience points +35 billion, free attribute points +3500."

This is not bad.

It's a pity that he is not a monkey.

Looking at the crystal mine monsters rushing up in dense groups, Lin Tianhao could clearly feel his body getting heavier.

If the arrow is not shot from the heart, and he draws the bow and draws the arrow himself, his output will definitely be affected by the deformation of his body.

But now, this is not a problem at all.

Lin Tianhao used the arrow shot from his heart, his body became heavier, but his heart did not change.

Feather arrows continued to be fired, and more and more feather arrows cut through the sky and locked onto these crystal mine demons.

"Ding, congratulations, you have successfully killed the Crystal Mine Demon, experience points +39 billion, free attribute points +3900."

"Ding, congratulations, you have successfully killed the Crystal Mine Demon, experience points +42 billion, free attribute points +4200."

.....

These crystal mine demons were nothing more than cannon fodder. Under Lin Tianhao's feather arrows, they had no power to fight back.

But Lin Tianhao knew very well that in the current situation, if anyone else came here, it would be difficult for them to survive.

Unable to use the power of the law, his body became heavier and heavier.

When faced with so many crystal mine demons, there was not even a chance to escape.

Lin Tianhao was not in a hurry. These crystal ore demons were very useful for gaining experience points and free attribute points.

The only bad thing was that Lin Tianhao's body was already very heavy at this time, and it was a bit difficult for him to raise his hands.

Fortunately, Lin Tianhao's attack speed was fast enough, and he could barely block the attacks of these crystal mine demons just by shooting arrows from his heart.

Under this kind of attack, Lin Tianhao's experience value finally increased faster.

After reaching level 50,000, Lin Tianhao now needs more than 100 trillion experience points to advance to the next level! !

Without some special opportunity or something like a super experience capsule, it is almost impossible to level up in a short period of time.

at last.

As if realizing that Lin Tianhao was too powerful, the Crystal Mine Demon stopped attacking Lin Tianhao.

Lin Tianhao shook his head in disappointment. This is... too short.

He originally hoped that these crystal ore demons would last longer, at least allowing him to level up by a few hundred or so.

But obviously, he was thinking too much.

According to the map given by the old man, Lin Tianhao began to walk towards the depths of Mine No. 7.

It is undeniable that these crystal mine demons have some intelligence, but not high.

Along the way, many crystal mine demons attacked Lin Tianhao, but they were all dealt with by Lin Tianhao.

however.

Just when Lin Tianhao thought that this journey would go very smoothly, a god-level talent awakening stone was quietly placed on the open space in front of him.

Lin Tianhao's eyes narrowed slightly.

In such a place, such a conspicuous place, and on the route of the map given by the old man, there is a god-level talent awakening stone placed there.

Is this reasonable?

"Has the faceless man's hand reached here?"

Lin Tianhao had read the booklet given by the old man and knew that the Faceless Men were restricted to Mine No. 7 and basically lived deep in Mine No. 7.

"This faceless man should be using the rules to kill people. If you take it, your face will be peeled off."

"Since the Faceless Man is setting this up, there is no reason for me not to respond."

The existence of the faceless man is very special. Lin Tianhao has confidence in himself, so...

He wanted to try to offend Tai Sui.

He also wanted to try and see what the limit of the carving knife was and whether it could stop the faceless man.

Lin Tianhao does what he thinks and never drags his feet.

Lin Tianhao strode forward and picked up the god-level talent awakening stone on the ground.

"bring it on!"

Lin Tianhao held the carving knife in his hand, ready to deal with the crisis that might come at any time.

Chapter 1646 The Angry Faceless Man!

suddenly.

Lin Tianhao felt pain on his face, as if a mysterious force was trying to tear the skin off his face.

"It is indeed the power of rules!!" A cold light flashed in Lin Tianhao's eyes.

Lin Tianhao retreated quickly, but the pain on his face did not disappear.

Obviously.

Leaving Mine No. 7 did not relieve the pain.

Since leaving is not possible, Lin Tianhao can only try to find the faceless man.

Think about this.

The carving knife in Lin Tianhao's hand fiercely stabbed into the god-level talent awakening stone he had just picked up.

This faceless man uses the power of rules based on the god-level talent awakening stone. In theory, if the god-level talent awakening stone is destroyed, the power of rules will collapse.

This is what Lin Tianhao thought of when he was thinking about the rules of joining the Fan Palace.

The power of the rules added to the Fan Palace is very strong. To break this power of rules, one must either use absolute power or destroy the Fan Palace.

If Fan Dian no longer exists, then the rule that joining Fan Dian requires absolute loyalty can be broken.

as predicted.

When Lin Tianhao used a carving knife to destroy the god-level talent awakening stone, the pain on his face disappeared.

And at this time.

Deep in the No. 7 mine, a howl was heard, and then a person with a normal body shape but no facial features appeared there.

I don't know how he could let out such a scream since he had no mouth.

but.

At this time, a wound appeared on the face of the faceless man.

Dark green blood flowed out of the wound.

The faceless man's fingers trembled in pain. He wondered how long it had been since he was injured.

None of those God Kings, or even God Emperors, could hurt him.

But now.

He was actually injured.

"Broken my power of rules..."

There was a tremor in the faceless man's voice. If you look closely, you will find that when he speaks, there is a mouth moving under his skin.

It seemed that he was not really faceless, but there was a lot of thin skin on his face, covering his original facial features.

After Lin Tianhao destroyed the Faceless Man's god-level talent awakening stone, a prompt sounded in his mind.

"Ding, congratulations, you have successfully killed the Ink Blood Face Monster, experience points +102 billion, free attribute points +10200."

Lin Tianhao was slightly stunned. He just destroyed a god-level talent awakening stone, but he was judged to have completed the kill.

"This... can also be considered a kill!!!"

Lin Tianhao was quite surprised. "Could it be that there was a black blood-faced monster attached to this God-level Talent Awakening Stone just now, and when I destroyed the God-level Talent Awakening Stone, I killed the black blood-faced monster?"

It seems that this explanation is the most perfect.

Lin Tianhao continued to move forward. Now that he knew how to deal with the faceless man, the pressure would be much less.

The crystal mine demons pose no threat to Lin Tianhao at all, and Lin Tianhao is confident enough to deal with these crystal mine demons.

As for the flower demon in the water, I haven't encountered it yet, but according to the records in the old man's booklet.

The flower demon in the water is easier to deal with than the faceless man.

There are many monsters here, the experience points are high, and the rewards for free attribute points are high.

The only downside is that it doesn't drop anything.

At least.

Lin Tianhao has killed so many crystal mine demons along the way, but nothing has been dropped.

but.

Killing an enemy will reward you with thousands of free attribute points and billions of experience points. What else do you want?

Lin Tianhao kept moving forward, the Crystal Mine Demon, and still the Crystal Mine Demon.

As for the water flower monsters recorded in the old man's booklet, Lin Tianhao had not encountered any of them.

and.

As Lin Tianhao goes deeper, the strength of the Crystal Mine Demon continues to increase.

"Ding, congratulations, you have successfully killed the Crystal Mine Demon, experience points +88 billion, free attribute points +8800."

"Ding, congratulations, you have successfully killed the Crystal Mine Demon, experience points +89 billion, free attribute points +8900."

.....

This feeling is still very refreshing.

The only pity is that Lin Tianhao cannot use the power of Tao.

Otherwise, he could have simply cleared out Mine No. 7 in a short period of time.

Ok.

Lin Tianhao is still in the mine and has not actually entered the cave yet.

The most dangerous places in Mine No. 7 are the dark mine caves.

"I guess those water flower demons are all in the mine."

Lin Tianhao secretly thought that the current situation was somewhat boring.

After advancing a few hundred miles, Lin Tianhao was a little exhausted from killing these crystal mine demons.

The environments of the main mines are similar, the monsters are similar, and you have to kill them over a distance of hundreds of miles, and you have to face a large group of monsters, which is very tiring.

Just as Lin Tianhao was thinking this, a blood-red crystal emitting a faint light appeared in front of him.

This blood-colored crystal looked very extraordinary. When Lin Tianhao picked up the blood-colored crystal, his face began to hurt again.

then.

The carving knife in Lin Tianhao's hand fell, destroying the blood-colored crystal.

"Ding, congratulations, you have successfully killed the Ink Blood Face Monster, experience points +102 billion, free attribute points +10200."

Next.

Every few hundred miles Lin Tianhao walked, he would encounter something left behind by a faceless man.

Although he couldn't get the treasure, he could steadily obtain 10.2 billion experience points and 10,200 free attribute points.

As long as you have free attribute points, everything else is a small problem.

The premise is.

You can't do the same to him with the super god-level talent awakening stone.

But then again.

If he directly used the super god-level talent awakening stone, then the ink-blood-faced monster inside would be revealed.

Take back these thoughts.

Lin Tianhao swept across.

It was another distance of several thousand miles, during which time Lin Tianhao killed eight more black-blood-faced monsters.

At this moment.

Deep inside Mine No. 7.

The faceless man's face was covered with wounds, and upon careful counting, there were at least ten of them.

"Ahhh-"

"Who is it?!"

The faceless man roared and growled.

In the past, he used the power of his rules to kill other people indiscriminately.

When has he ever been targeted like this?

"I'm really fed up with this broken rule!!"

The Faceless Man was angry and a little desperate.

Because he really couldn't think of how to deal with Lin Tianhao.

He is strong because he is strong in the power of his rules, and he is weak because he is weak in the power of his rules.

Don't think that it is easy for Lin Tianhao to destroy those items. In fact, those items are attached with the power of rules, and it is impossible to destroy them by ordinary means.

Even if he encountered something more powerful that had the ability to destroy the power of rules attached to him, it would be difficult to accomplish it in a short period of time.

And if the object that has the power of rules attached to it cannot be destroyed in a short period of time, then the opponent's face will be torn off.

The power of rules completes the loop. Even if the person whose face has been torn off is not dead, he cannot be harmed by objects.

Chapter 1647 This is... a round-robin game!

However, this rule of his has a fatal weakness.

That is the power of rules that he released, or it can be said that those objects attached with the power of rules, he cannot take them back.

Otherwise, someone will get the item, trigger the rules, and then be skinned alive by him.

.....

Lin Tianhao had no idea that the Faceless Man had been completely disfigured by him.

Until now.

Lin Tianhao still believed that there was a black-blood-faced monster hidden in those items that he could not detect.

When he destroyed the items, he also dealt with the ink-blood-faced monster hidden inside.

"We've finally reached the mine."

Lin Tianhao exhaled a breath. He was now a little curious about how those guys from Shi Village got to the mine.

Lin Tianhao swept across thousands of miles. Do the people in Shi Village have such strength?

It's hard to say.

After all, Shicun's evil method of petrifying people within a thousand miles is outrageous.

Entering the mine, we found that it was very large, over 10,000 meters high and over 50,000 meters wide. Lin Tianhao seemed so small when walking in the mine.

In the mine, Lin Tianhao encountered the same unchanging crystal mine demon.

Not long after walking in the mine, a fork appeared in front of us. Two mines extended in different directions.

Just when Lin Tianhao was about to choose one to go in, a soft voice suddenly sounded.

"It's rare. There hasn't been a living person here for a long time."

Lin Tianhao narrowed his eyes slightly. He was able to speak, so he must be a human being who had been transformed by evil.

A graceful figure walked towards them.

She was different from the seamed-skin monster that Lin Tianhao had encountered before. She did not have any monster characteristics.

She has a graceful body, a pretty face, long hair, and is wearing a red dress. She looks... quite beautiful.

"who are you?"

Lin Tianhao did not act rashly, but asked out loud.

Hear the words.

The woman in the red dress smiled and said:

"I should be the one asking you this. You are so young, but you have come to such a dangerous place. Aren't you afraid of becoming food for the evil?"

Lin Tianhao bent his bow and drew his arrow. "I'm sorry, I don't know if you are a human or an evil being, and I don't want to waste time verifying your identity, so... just go and die!"

In such a place, he suddenly met a woman in a red dress, who took the initiative to greet him.

This is either a female ghost or a female demon. In any case, no normal person would come out to say hello.

"Don't be so eager to kill. I am an adventurer just like you."

"An adventurer from the vast continent."

"impossible!!"

Lin Tianhao didn't waste any time and shot the arrow.

What a joke.

The other party is an adventurer?

Looking at the entire Ragnarok, apart from him, the Snow Emperor, which adventurer has the ability to come here?

not to mention.

When most adventurers make such introductions, they rarely say that they are adventurers from the vast continent.

Because in the subjective consciousness of most people, Ragnarok is just a game.

When making introductions, they are basically all Ragnarok adventurers or Ragnarok players.

At worst, you are an adventurer or a player of Dragon Country!

As for the adventurers in the vast continent, there are very few of them.

Seeing that Lin Tianhao acted so decisively, the woman in the red dress couldn't help but look slightly depressed.

She opened her mouth and breathed out a stream of fire.

The flame actually burned and melted Lin Tianhao's feather arrow.

"There are some tricks, but if that's all, it's still not enough."

Lin Tianhao attacked with all his strength, and feather arrows poured out like a tide.

Even if the feather arrow was not blessed by the rules of the Hand of Heavenly Punishment, the lethality of Lin Tianhao's own strength attached to the feather arrow should not be underestimated.

"Damn!!"

"In that case, then come down to me!!"

The woman in the red dress snorted coldly, and then Lin Tianhao felt dizzy.

The next moment.

Feeling suffocated, Lin Tianhao was not careful and even choked on some water.

Lin Tianhao has the title of Son of the Sea. Under normal circumstances, he is fine underwater.

But the power of rules is no longer there, so Lin Tianhao will still be affected underwater.

But Lin Tianhao didn't care. He found that he was pulled into the water and stood upside down on the water surface, and the woman in the red dress was still there.

just.

The original woman in the red dress has now become three.

"You didn't listen to my gentle words, and you insisted on using force."

Lin Tianhao said nothing, but the arrows continued to pour out.

The three women in red dresses fled in three different directions.

It seems that he wants to influence Lin Tianhao's judgment.

This idea is good, but unfortunately, Lin Tianhao's feather arrows are fully capable of chasing three people at the same time.

and.

Even without the Heavenly Punishment Headlock, Lin Tianhao's archery skills should not be underestimated.

At the same time as the arrows were shot from his heart, Lin Tianhao took out the longbow, bent the bow and put arrows on it, and fired five arrows at once. This was very powerful.

No matter what the enemy is, just cover it with firepower.

All crises come from insufficient firepower.

When the firepower is strong enough, these crises will be easily resolved.

It turns out.

And it does.

Under the coverage of Lin Tianhao's feather arrows, the three clones of the woman in red were almost destroyed at the same time.

After the three clones of the woman in red dress were destroyed, Lin Tianhao returned to the ground again.

"Ding, congratulations, you have successfully killed the water flower demon, experience points +3562 billion, free attribute points +356200!!"

Lin Tianhao's pupils suddenly shrank. The reward for killing the flower demon in the water was so generous! !

More than 300,000 free attribute points. Even if the quests in the later stages of Ragnarok reward more free attribute points, it's not as many as this.

"The Heavenly Palace is truly my treasured place!!"

The smile on Lin Tianhao's face became more and more intense. If this goes well, he will be able to reach the 100,000th level in the Heavenly Palace! !

One hundred thousand levels, this is still somewhat unbelievable.

He also didn't know how the guy he met in the City of Disaster reached the twelfth level.

Or.

Is it easier to upgrade in other worlds than here?

Lin Tianhao is not quite sure, but at present, it is still quite difficult for him to upgrade from level 50,000 to level 100,000.

Just as Lin Tianhao was thinking this, his body was turned upside down again.

Lin Tianhao reacted quickly this time. He immediately held his breath and started to output frantically.

The identical woman in the red dress was still divided into three and ran in three different directions.

The result was no surprise, the three clones were destroyed at the same time.

"Ding, congratulations, you have successfully killed the water flower demon, experience points +3562 billion, free attribute points +356200!!"

The experience value is exactly the same as that of killing the woman in the red dress just now.

Before Lin Tianhao could think, he was turned over again.

"Is this... a round-robin game?!"

Chapter 1648 The trapped middle-aged man!

"Ding, congratulations, you have successfully killed the water flower demon, experience points +3562 billion, free attribute points +356200!!"

"Ding, congratulations, you have successfully killed the water flower demon, experience points +3562 billion, free attribute points +356200!!"

.....

Lin Tianhao killed seventeen water flower monsters in a row, and his breathing became rapid.

Because every time he hadn't even had a chance to catch his breath, he was knocked down again.

Judging from the way they act, it seems like they want to wear him out with a war of attrition.

But the result was that the round-robin battle did not kill Lin Tianhao, but instead allowed Lin Tianhao to make a big profit.

"The experience points are exactly the same, and the appearance is exactly the same. This seems to be a little strange."

Lin Tianhao frowned.

He killed it easily, and he didn't think the water flower demon was weak.

The main reason is that the rules of the water flower fairies are such that archers themselves have a certain suppressive effect on them.

What's more, Lin Tianhao is so powerful that these water flower monsters naturally can't handle it.

"When I killed the Ink Blood Face Monster before, the experience points and free attribute points were exactly the same!!"

Lin Tianhao felt that something was not right.

Because under normal circumstances, the experience value reward for killing wild monsters should be similar to that of the Crystal Mine Demon, with a difference.

Especially in the middle and late stages of Ragnarok, even if they are monsters of the same type and in the same area, the experience points after killing them are unlikely to be exactly the same.

Lin Tianhao had encountered this situation before in this heavenly palace.

That was when killing the Blood Ivy Girl.

But when killing the Blood Ivy Girl, there is another characteristic.

That is the name of the Blood Ivy Girl, but in fact, the essence of the Blood Ivy Girl is a bunch of blood-colored vines, and there is a high probability that they are blood-colored vines on the same plant.

At that time, Lin Tianhao was also a little puzzled as to why the vines on the same plant would be counted as separate kills.

This situation does not exist in the vast continent.

Just like the Hydra cypress that Lin Tianhao encountered in the Novice Village, to complete the kill, you have to kill the Hydra cypress's body.

After sorting out these ideas, Lin Tianhao had a bold guess in his mind.

Those ink-blood-faced monsters and water flower monsters are similar to the evil blood-colored vines of the plant family.

They all evolved from more powerful evil beings.

This is why there is a great terror deep in the mines as the legend goes! !

For most people, without the power of Tao, it would be very difficult to deal with the Crystal Mine Demon, let alone the Ink Blood Face Demon, or the mother of the Water Flower Demon?

For now.

The mother of this black-blooded face monster should be the faceless man.

But where is the mother of this water flower demon?

The first water flower demon had previously used the power of fire, so from the current perspective, the mother of the water flower demon is most likely an evil being with both water and fire attributes.

It is even possible that it is an evil being with two rules!!

Take back your thoughts.

Lin Tianhao's expression became more solemn.

Judging from the current situation, there is a high possibility that there are evil things deep in the mine that are not recorded in the old man's booklet.

Far more evil than the Faceless Man!

But now that Lin Tianhao has come here, there is no reason for him to retreat.

not to mention.

If his speculation is correct, there will be such a generous reward for killing the offspring of the water flower demon. Then if he kills the mother of the water flower demon, how generous should the reward be?

Not only that.

Lin Tianhao even felt that the crystal mine demon also had a mother body.

The reason why the experience values of the crystal mine demons he killed outside were different was because they were not real crystal mine demons.

There is a high probability that they were once miners here, and were affected by evil forces and turned into monsters that are neither human nor ghost.

And what kind of evil could turn so many people into crystal demons?

Lin Tianhao didn't know. If he wanted to know, he had to go deep into the mine.

The mine was pitch black, and even with Lin Tianhao's vision, it was difficult to see the situation in the mine.

This allows these crystal mine demons to continue to influence Lin Tianhao from a long distance.

Lin Tianhao hadn't walked far when he felt his body becoming extremely heavy.

In this mine tunnel, his visibility is less than 50 meters, and he can only attack the crystal mine demons within 50 meters.

The power of the Crystal Mine Demon's rules that can make a person's body heavier is obviously more than fifty meters.

"Sir, let's work together to quickly eliminate the nearby crystal mine demons."

The Lord of Jiuyou also realized that the situation here was somewhat bad.

If Lin Tianhao's body couldn't move, then it would be a real death situation.

Lin Tianhao looked around and said in a deep voice:

"Do it."

Lin Tianhao released all the masters around him.

This will speed up the killing of these crystal mine demons and also relieve the pressure on him in the mine.

It works!

When the Lord of Jiuyou, Heitian Aozhen and others took action together, the crystal mine demon in the mine was quickly eliminated, and Lin Tianhao's physical condition also improved a lot.

But if that were all, it would be totally not enough for Lin Tianhao.

Lin Tianhao continued forward along the mine tunnel. There were more and more forks in the mine tunnel, and these mine tunnels all poured downwards, and no one knew where they led to.

"There's someone ahead!"

At this moment.

Came the Dark Angel's voice.

The range that Lin Tianhao could see was not as far as the Dark Angel, so he walked quickly in the direction the Dark Angel said.

really.

A middle-aged man sitting cross-legged appeared in front.

His eyes were closed and his body was wrapped in iron chains; only his neck and head could be seen.

As if sensing Lin Tianhao's arrival, the middle-aged man opened his eyes instantly with a look of surprise in his eyes.

"How did you get here?!"

Lin Tianhao did not let down his guard, as this middle-aged man might also be a monster infected by evil.

"Is there any problem with me walking here?" Lin Tianhao said in a deep voice.

The middle-aged man was silent for a while, and then he said: "Here, no matter how powerful a person is, his body will become heavier and heavier, and eventually he will lose his ability to move like me."

Lin Tianhao nodded slightly, "I was almost trapped here just now, but I have some powerful friends who can clear out the crystal mine demons around me."

"But you, should have been infected by the evil!"

Hear this.

The middle-aged man sneered, "Infect me? These evil creatures don't have that ability!!"

"I'm just stuck here and I can't get out."

Lin Tianhao frowned and did not rush to talk to the middle-aged man. Instead, he began to clear out the crystal mine demons around him.

These crystal mine demons were cleared out, the chains on the middle-aged man loosened, and he slowly stood up.

"Thank you for helping me out of this predicament," said the middle-aged man.

"Who are you? How did you get trapped here?" Lin Tianhao asked.

Chapter 1649: The face is peeled off!

"I am Beishan Tianqin, a physical cultivator. As for why I came here, it is because I was originally in charge of Mine No. 7."

"Something bad happened in Mine No. 7. I came in to check the situation and got trapped here."

Lin Tianhao frowned and said:

"Then you've been trapped for quite some time, yet you're still alive."

Beishan Tianqin smiled slightly and said:

"I have a special physique. I have not had a Dantian since I was born. Everyone thinks I am a loser, but I find that my physique is getting stronger every day. If I practice and strengthen my body, the speed of my physical strengthening will increase."

"I am here, under the influence of the power of rules, my body is as heavy as a star, but for me, this is also a kind of training, and it can also make my physique continue to improve."

Lin Tianhao was secretly shocked. Since he was born, his physique began to automatically become stronger.

This is somewhat similar to his natural talent provided by heaven and earth.

The offerings from heaven and earth can also make one stronger, but the direction of the strengthening is different.

wrong.....

Beishan Tianqin's situation is somewhat similar to that of his sister Lin Qingqing.

Lin Qingqing's health points increase by one million every day.

But judging from Beishan Tianzhen's intention, he wanted to directly increase his physical strength.

In other words.

Beishan Tianqin not only increases his health, but also his defense, speed, strength and other attributes related to his physique.

"Now that the Heavenly Palace has encountered a disaster, the saints have left, and the gods have fallen, I wonder if you are willing to join us in the Mortal Palace to deal with the next crisis together."

Beishan Tianzhen seems to be a tough guy no matter how you look at him, so let's recruit him into the Fan Palace first.

however.

Beishan Tianqin shook his head and said:

"I don't know you, nor do I know the Fan Palace behind you. It's a little too early to talk about joining the Fan Palace now."

Lin Tianhao was not surprised. If it was so easy to recruit Beishan Tianzhen, Lin Tianhao would suspect that he had ulterior motives.

"I don't know you either. Here, I still find it hard to believe you when you say you are not infected." Lin Tianhao said.

"I don't have to lie to you. This is the base camp of the evil. If I were the evil, I could stay out of sight and wait for you to go deeper. I could also attack you directly. There's no need to lie to you in this way."

"Right."

Lin Tianhao nodded slightly. Some of the monsters he encountered before tried to get close to him, but they would basically start fighting after just a few words.

"But now that you are out of trouble, where are you planning to go?" Lin Tianhao asked.

"I am the manager of this No. 7 mine. I am familiar with this place and can explore it with you."

Lin Tianhao hesitated for a moment and said:

"You followed me, don't you want to stab me in the back?"

"Or maybe you have a power similar to that of the Crystal Mine Demon. As long as you get close to me, you can influence me."

Beishan Tianqin spread his hands and said:

"Since you don't trust me, there's nothing to say."

"I'll take my leave now, but I won't go far. I'll go to other places in Mine No. 7."

"If you need help, I'm still willing to help you."

The words fell.

Beishan Tianzhen turned around and prepared to leave.

Lin Tianhao stopped him and asked:

"Have you ever met anyone from Shicun while you were here?"

"Ishimura?"

Beishan Tianqin thought for a moment and said:

"An old man from Shi Village did come here before, but that was a long time ago."

"That old guy was also very powerful. At least, I was no match for him at that time."

"You ask this, but are you here to look for someone from Shicun?"

Lin Tianhao shook his head and did not explain, "You met someone from Shi Village here, but he didn't help you escape?"

"It's because I don't want to escape. Being trapped here, my physical strength is improving at an astonishing speed every day."

"If it weren't for the fact that the power attached to me was also constantly accumulating, I would be able to leave by myself."

"Okay, since that's the case, you can leave." Lin Tianhao said.

He couldn't completely trust Beishan Tianqin.

Here, it would be safer for him to go alone than to take Beishan Tianzhen with him.

After Beishan Tianzhen left, Lin Tianhao began to go deeper into the mine.

The mine extends downward for hundreds of miles.

Lin Tianhao killed a large number of crystal mine demons, and his experience points and free attribute points were greatly improved.

But all these were not enough to satisfy Lin Tianhao.

The super god-level talent awakening stone has not appeared yet, and he is somewhat delayed here.

In the blink of an eye.

A month has passed!

Lin Tianhao's expression turned serious.

Now the time for the Arlate Galaxy to invade and form a world is getting shorter and shorter.

It's not a good thing for him to still be wasting time here at this critical juncture.

"Is the Super God-level Talent Awakening Stone really here?!"

Lin Tianhao has begun to doubt himself.

The contents of the pamphlet given by the old man were too general.

There are too many forks in the road in the mine.

Lin Tianhao seemed to be trapped deep in Mine No. 7.

suddenly.

A figure appeared in front of Lin Tianhao.

Because the mine was dark, Lin Tianhao could not see the person in front of him clearly.

But Lin Tianhao could feel the strong murderous intent from him!

The moment this figure appeared, Lin Tianhao felt his face hurt.

"Is it finally here?"

He didn't hold anything at the moment, but he still felt pain on his face, which could only mean that the person who came was the Faceless Man.

Think about this.

At the same time that Lin Tianhao shot the arrow from his heart, he also rushed forward with a carving knife in his hand.

But before Lin Tianhao could get close to the figure, a slender hand was placed on his shoulder.

"Young man, don't be so anxious!"

The moment this hand was placed on Lin Tianhao's shoulder, Lin Tianhao felt dizzy.

The next moment.

He was dragged into the water again.

Water flower demon!

Although he was dragged into the water, the pain on Lin Tianhao's face did not disappear.

It is clear.

The water flower demon and the faceless man have joined forces.

Do I have to peel off my face?

Lin Tianhao attacked with all his strength towards the flower demon in the water.

on the top.

Heitian Aozhen, the Dark Angel, the Lord of the Nine Netherworlds and others have also arrived in front of the Faceless Man.

In a group fight, Lin Tianhao has not lost yet...

however.

Just at this time.

Heitian Aozhen, the Dark Angel, the Lord of the Nine Netherworlds and others were all dragged under the water.

Blood flowed down his cheeks, and the intense pain made Lin Tianhao gasp.

Swish!

A piece of skin fell off Lin Tianhao's face, and blood gushed out.

The feather arrows had already dealt with the three clones of the water flower demon, but Lin Tianhao was unable to save his face! !

Back on the ground, Lin Tianhao reached for his face with trembling hands, but he didn't touch it in the end.

He fears.....

Afraid of touching my bloody face!!

Chapter 1650 Kill the Faceless Man!

"how come?"

When he saw that Lin Tianhao was still alive, the faceless man showed surprise.

But before he could react, the feather arrows were already sweeping towards him.

Lin Tianhao's body also turned into a stream of light and rushed towards the faceless man.

His face has been peeled off, if he still lets the Faceless Man go, he would be a fool.

"help me!!"

When the faceless man saw Lin Tianhao's terrifying speed, he instantly realized that something was wrong.

Lin Tianhao only felt that upside-down feeling coming again.

"Oh shit!!"

Lin Tianhao couldn't help but curse, and he was dragged under the water again.

This water flower demon is so troublesome.

Although it was impossible to hurt him, the force of the rules that dragged him under the water was too overbearing and there was no way to be immune to it.

By the time Lin Tianhao dealt with the flower demon in the water, the faceless man had disappeared without a trace.

Wait until the battle is over.

The Dark Angel, the Lord of the Nine Netherworlds and others all looked at Lin Tianhao with horror.

It was the first time they saw Lin Tianhao suffer such a big loss.

"My Lord, your face..."

Hei Tian Ao Zhen spoke in a trembling voice.

Lin Tianhao waved his hand and said:

"I won't die for now!"

The faceless man peeled off his face, causing his health to drop by 500 trillion!!

If it were anyone else, they would probably be dead.

To be precise.

Even among ordinary gods, it is rare to find one with a life value of 500 trillion.

Lin Tianhao accelerated the pace of exploration, and crushed people wherever he went.

According to what the old man from Shicun said, the Faceless Man cannot leave Mine No. 7 for the time being.

As long as the Faceless Man is still in Mine No. 7, Lin Tianhao will definitely find him.

All the way forward.

Lin Tianhao killed a large number of crystal mine demons.

But the faceless man and the flower demon in the water never appeared.

"My friend, it's almost done."

"They have offended you, but I have not offended you. Why are you killing my men like this?"

A deep voice came.

Followed by.

Lin Tianhao saw a burly man wearing red armor and over three meters tall walking towards him.

When he saw this burly man, Lin Tianhao finally felt inexplicable pressure.

"Are you the evil being behind these crystal mining demons?" Lin Tianhao said in a deep voice.

"Evil?"

The burly man smiled noncommittally and said:

"We are the evil race. You are right to call us evil."

Lin Tianhao frowned and asked:

"Where is the Faceless Man?"

"That guy, of course he's hiding. Mine No. 7 is very big. Even though he can't get out, it's not easy for you to find him."

Lin Tianhao asked:

"So, what is the purpose of your appearance? To stop me from killing these crystal mine demons?"

"That's it!"

The burly man nodded. "I'm not the one who offended you, but I have to bear the consequences. I think it's not worth it."

"and then?"

"You can let the Crystal Mine Demon leave. I am only looking for the Faceless Man now."

The burly man shook his head and said seriously:

"This No. 7 Mine is full of crystal-mining demons. How can we just leave it like that?"

"So, what's the meaning of your appearance?" Lin Tianhao asked.

"Take you to find the Faceless Man."

"it is good."

Lin Tianhao smiled and said: "Then please lead the way."

The burly man closed his eyes. After a few breaths, he opened them and said, "Found it."

"Let's go." Lin Tianhao said.

The burly man was a little surprised, "Aren't you afraid that this is a Hongmen Banquet?"

"Afraid, not afraid either."

"Hahaha, come on."

The burly man led the way, and Lin Tianhao asked curiously:

"Why did you evil people attack the Heavenly Palace?"

The burly man shook his head and said:

"Natural selection, survival of the fittest."

"Besides, it was the people from the Heavenly Palace who started the fight first. What's wrong with us fighting back?"

Lin Tianhao didn't care about these things. The battle between the two races could not be explained in a few words.

Under the guidance of the burly man, Lin Tianhao traveled through the mine for a day and a night.

"It's just ahead."

Lin Tianhao looked around and didn't find anything unusual.

But since the burly man had said it, he had no reason to lie to himself.

"Do it."

At this moment.

A large number of crystal ore demons rushed out and surrounded an inconspicuous, half-human-high stone.

The power of rules enveloped the stone.

The stone cracked and the faceless man rushed out from the stone.

"Old Demon Juekuang, what do you mean by this?!"

"We are both from the evil race, and you actually helped others to deal with me."

The burly man did not respond because Lin Tianhao had already reached the faceless man.

The faceless man's expression suddenly changed, and he felt that his body was as heavy as a mountain.

He was not as fast as Lin Tianhao, and when he saw Lin Tianhao's carving knife stabbing at him, he could only block it with all his strength.

"Pfft-"

however.

How could the Faceless Man's methods be able to withstand the carving knife in Lin Tianhao's hand?

After just one encounter, the carving knife in Lin Tianhao's hand had already stabbed into the opponent's body.

"You...damn it!!"

The faceless man's fate was sealed when Lin Tianhao, who was holding a carving knife, got close to him.

Two hundred knives per second, and it's a carving knife!!

This faceless man didn't even last a second, no!

He couldn't even hold on for 0.5 seconds and was killed by Lin Tianhao.

"Ding, congratulations, you have successfully killed the Faceless Man, and gained +1.9 trillion experience points and +1900000 free attribute points."

Lin Tianhao couldn't help but smile. There were so many free attribute points that it seemed like they were being snatched away.

One million nine hundred thousand free attribute points, dropped by a monster.

After Lin Tianhao killed the Faceless Man, he felt his face beginning to recover. In just a moment, Lin Tianhao was back to normal.

"Where is the flower demon in the water?" Lin Tianhao asked.

Hear this.

The burly man hesitated for a moment and said:

"I don't recommend you go find her."

"She is the strongest among the seven mines."

Lin Tianhao smiled noncommittally and said:

"You brought me here to help me kill the Faceless Man. Didn't you hope that I could eliminate the evil tribe here and let you be the only one in power?"

The burly man raised his head and laughed, "Hahaha, my friend is a smart man. I do have such an idea, but it is really difficult for you to fight against that woman now."

"I'm helping you in the hope that you can go find your clan elders."

Lin Tianhao shook his head and said:

"Okay, but you need to give me some awakening stones."

Although Lin Tianhao himself only needs the super god-level talent awakening stone.

But other people might need it, so he needs to get more awakening stones.

"Awakening Stone?"

The burly man smiled slightly, "These are all small problems. I can give you a lot of awakening stones below the god level, and I can also give you ten god-level awakening stones."

Lin Tianhao frowned slightly and asked:

"What about the super god level?"

Hearing this, the burly man's smile disappeared.

"My friend, this might be a little troublesome."
