

O games 1681

Chapter 1681: All the masters come out, including the quasi-saint monk!

Lin Tianhao turned around without any hesitation and performed an absolute block.

"boom--"

The first sound was a tear in Lin Tianhao's territory.

An unremarkable steel fork easily broke through Lin Tianhao's territory.

current stage.

In the mortal realm, who else could break through Lin Tianhao's domain so easily, except for the Lord of Luotian and the Evil Emperor Wudao?

"This material..."

Lin Tianhao's pupils suddenly shrank, because the material of this steel fork was surprisingly similar to that of his carving knife.

"not good!!"

Lin Tianhao's face suddenly changed. If this steel fork was really the same as a carving knife, then even his absolute blocking would not be able to stop this attack.

as predicted.

The absolute block only lasted for a moment before being broken by the steel fork.

Not only that.

Under the lock of the steel fork, Lin Tianhao found that he was unable to use the power of the Tao realm to dodge.

It seemed that he had to take this blow head-on.

See this scene.

Lin Tianhao took out the carving knife with his backhand.

"Dang Dang Dang——"

In just a breath, the carving knife and the steel fork collided dozens of times.

Every collision between the carving knife and the steel fork is so plain and simple, yet it seems as if infinite power is emanating from the carving knife.

Just when Lin Tianhao joined forces with the steel fork, a complex sound was heard.

The barefoot young man in black robe chanted complicated words that were difficult to understand.

These voices turned into black runes, escaped into the void and disappeared.

"No, sir, please leave."

The Lord of Jiuyou sounded anxiously.

"This is the Dark Prisoner Curse. This guy is from the Dark Clan. If this curse is completed, even a saint will find it difficult to break it."

Lin Tianhao's expression changed slightly.

"Is this the Heaven's will?"

The steel fork, which is of the same grade as the carving knife, and the barefoot young man in a black robe, seem to be totally unreasonable if they were not the work of Heaven.

Do you want to seal yourself here?

From the beginning of Ragnarok, when Lin Tianhao went to the Land of Chaos, the guys in the Land of Chaos thought of sealing him.

did not think of.

The way of heaven also uses sealing, and it is so direct.

Lin Tianhao also wanted to escape from the battle, but under the seal of the steel fork, he had no way to leave.

The power of the Dao realm cannot be used, let alone other skills and supernatural powers.

"kill him!!"

Lin Tianhao summoned out the Nine Netherworld, Heitian Aozhen and others and asked them to rush towards the young man in black robe.

"Heavenly Vision: Darkness Fills the Sky!!"

The dark angel just appeared and started fighting desperately.

He has already shattered his own godhood. Now that he is not even a god, his forceful use of the visions of the Heavenly Dao has a huge impact on himself.

But he still used the Heavenly Dao Vision without hesitation, which is very telling.

"Ugh."

Just when the Dark Angel, the Lord of the Nine Netherworlds and others took action, a sigh was heard.

"We are demons, but this is not what we want. Should demons be defined as evil?"

A hoarse voice was heard, followed by a terrifying breath.

"not good!!"

Heitian Aozhen's expression suddenly changed. He formed seals with his hands, expanded his domain, and hid behind the dark angel.

The dark angel also frowned, and a demonic energy rose into the sky. The powerful aura locked onto the dark angel.

Lin Tianhao's expression also changed.

There are experts too! !

as predicted.

A dark-skinned monster with leopard spots on its body turned into a stream of light and charged towards the dark angel.

The dark angel's expression changed slightly, and he vaguely sensed something was wrong.

Just when the leopard-print shadow was about to hit the dark angel, it suddenly jumped and turned to attack the young man in black robe.

This sudden change startled everyone present.

"Is this... a betrayal?"

Lin Tianhao tried his best to block the steel fork, but he still saw what was happening around him.

"Leopard spirit, what are you doing?!"

The black-robed young man shouted angrily.

however.

Before he could say anything else, the Dark Angel's attack arrived.

"You are right. We have to make a choice after all. We were deceived once. Now, do you want to deceive us a second time?!"

The leopard-print black shadow roared angrily, and even burned his life, attacking the black-robed young man like a madman.

With the defection of the leopard-print black shadow, the situation was instantly reversed.

"What are you all doing?!"

"If you don't take action now, you will wait until later!!"

The young man in black robe roared angrily. Obviously, there were other people lying in ambush in this black ocean.

"No one wants to be a pawn, especially someone who has been used before."

An old voice was heard, and then a gray bamboo pole broke through the sea water and smashed down towards the young man in black robe.

"Crazy, you are all crazy!!"

"You dare to disobey that person's order. Aren't you afraid of being held accountable in the future?"

"Do you think we are still worried about being liquidated?"

The leopard-print shadow turned into a giant black panther that blocked out the sky.

The giant black panther roared towards the sky.

It seems to be expressing his dissatisfaction with God.

Then it raised its huge claws and slapped the young man in black robe.

Under siege.

The young man in black robe was furious, but he could do nothing about it.

"After a lifetime of studying sutras, you must finally live for yourself once."

"At first we had no choice but to compromise, but today... we want to be ourselves again!!"

One man took action, and Buddha's light emanated from his whole body.

But after the Buddha's light faded, the demonic energy around him rose even higher into the sky.

"You are crazy, all of you are crazy. Can't you see the current situation clearly? It's all in vain to do this!!"

The young man in black robe roared continuously, but he was already at the end of his strength under the siege of the crowd.

Lin Tianhao felt the aura of these people who took action.

From the leopard-print black shadow at the beginning, to the old man with a bamboo pole, and then to this monk who has been possessed by Buddhism.

They...are all gods.

Moreover, the level of their Tao is very, very high. Even every one of them should have the vision of a saint, but they just don't use it.

they.

It should be that all of these were arranged by Heaven to deal with me, and then use the black-robed young man's dark prisoner spell to seal me.

Very good idea.

Under this steel fork, he had no way to escape. In addition, with these few gods who couldn't see clearly in front of them, the Dark Angels might not be his match.

I just don't know why, these few gods who couldn't see clearly in front of them all turned against him and launched a fierce attack on the young man in black robe.

at last.

The young man in black robe was unable to hold out under the siege of the crowd and was killed on the spot.

The only pity is that the head is not Lin Tianhao's.

Being killed by the demonic monk made Lin Tianhao see the monk's level of cultivation.

Quasi-saint!!

To be precise, he is at least a quasi-saint, and probably hasn't reached the saint level yet, or maybe he is in the pseudo-saint level!!

Chapter 1682 Shen Gongbao, Jiang Ziya, Jin is innocent!

The young man in black robe fell, and the steel fork turned into a stream of light and disappeared.

Lin Tianhao wanted to stop it, but he was completely unable to do so. He could only watch the steel fork fly away.

"Thank you very much for your help, seniors!"

Only then did Lin Tianhao bow to the few people.

"I wonder what the seniors' names are?"

The people present here are all outstanding among the gods.

The demonic monk couldn't help but smile.

"Hahaha, I haven't wanted to mention my name for a long time. If you want, just call me innocent."

"Not guilty?"

It seems that the monk does not want to reveal his identity.

The leopard-printed black shadow transformed into a human form again and said to Lin Tianhao:

"The poor Taoist Shen Gongbao."

Hear this.

Lin Tianhao was really surprised. This was something he had never expected.

Shen Gongbao!!

This person is also quite famous.

After all, according to the rumors on Blue Star, after the fall of the Human King Di Xin, the human race no longer had a human king, only the Son of Heaven.

And Shen Gongbao played an important role in that catastrophe that cut off the destiny of the human race.

The old man smiled and said, "Jiang Shang."

Lin Tianhao was startled again. He could still guess about the leopard-printed black shadow, but this old man...

It turned out to be the famous Jiang Ziya!!

"You two... actually teamed up."

Shen Gongbao stroked his beard and gritted his teeth and said:

"We are both people who have been plotted against. Why not join forces now?"

"You may have heard of the Conferred God Tribulation. Everyone thinks that I, Shen Gongbao, was jealous of Jiang Ziya, so I helped Emperor Xin to fight against the Conferred God."

"But I am just like Jiang Ziya. We were both ordered by Yuanshi Laoer. We just played different roles in the Conferred God Tribulation."

"But what was the result? Yuanshi himself did not want to be involved in the cause and effect, so he stuffed me into the eye of the sea in the demon world. And what about Jiang Ziya? In the end, he was named the Lantern God by the South Pole Immortal."

"Hahahaha... this is so ridiculous!!"

When Jiang Ziya heard Shen Gongbao's words, his face looked extremely ugly.

Obviously.

He was also very dissatisfied with the result that he was only named Lantern God.

"Maybe this is retribution."

Jiang Ziya sighed with melancholy, "I am also a human, but I personally helped the immortals and gods cut off the destiny of the human race and ended the inheritance of the human king."

Shen Gongbao snorted coldly, "They used us like this in the past, and now they want us to help them deal with you. It's simply a foolish dream!!"

Jiang Ziya also nodded gently and said:

"The human race has finally shown signs of rising. I owed them what they deserved. Today, I will use this little bit of power to repay them for what I owed them."

The devilish monk chuckled, "Isn't this the karma that old Yuanshi himself created?"

"If they had treated you well in the beginning, how could you have turned against them today?"

Hear this.

Shen Gongbao shook his head and said:

"Hahaha, Lao Jin, you are wrong. If he would treat us well, he would not have let us fight in this round today."

"The Snow Queen is burdened with the responsibility of saving the world, and has great merits. Even if we succeed today, we will certainly be backfired by the power of merits and suffer the consequences of our sins!"

"To put it bluntly, we do the dirty work, and they take all the benefits."

Lin Tianhao raised his eyes to glance at the sky and asked:

"The current heavenly way is..."

The information Lin Tianhao learned was that Taoist Ancestor Hongjun was in harmony with the Way of Heaven and had achieved the status of a Heavenly Saint.

If nothing unexpected happens, the Heavenly Dao of this galactic world should be the Taoist Hongjun.

"Whoever I'm talking about is the one. The current way of heaven is Yuanshi!" Shen Gongbao said.

Lin Tianhao narrowed his eyes slightly.

As if seeing the doubt in Lin Tianhao's heart, Jiang Ziya explained:

"In order to pursue a higher realm, Daoist Ancestor Hongjun left the Heavenly Dao and entered the endless starry sky."

"And Yuanshi took the opportunity to ascend to power."

Lin Tianhao frowned. This situation was indeed somewhat beyond Lin Tianhao's expectations.

"You are so direct. You know that Tiandao is Yuanshi Tianzun, yet you still talk about him like this."

Jiang Ziya shook his head. "Since we turned against each other, we no longer care about the outcome."

"and."

"If old Yuanshi attacks you, what chances does he have of winning?"

"He is in harmony with the Way of Heaven, and has gained great power, but he is also subject to the Way of Heaven, so he cannot do things recklessly."

"What's more, given Yuanshi's character, he won't personally get involved in this great cause and effect."

Lin Tianhao didn't know whether to laugh or cry. When did Jiang Ziya dare to say such things?

"No matter what, I am very grateful for your support. If it weren't for your help, I'm afraid it would be difficult to end the situation peacefully today."

That being said.

But Lin Tianhao still felt a great pressure.

The gods and immortals have already left, today it is Shen Gongbao, Jiang Ziya and others.

What about tomorrow?

Could it be other immortal gods?

Especially the Twelve Golden Immortals of Zen Buddhism, whose current realm is so terrifying that no one knows how deep it is.

Don't think that Lin Tianhao has slaughtered some gods before.

But those gods are either not in their peak form or not.

otherwise.

Or they are just unknown people.

At least.

In the entire mythology and legends of Blue Star, they are all unknown figures.

and so.

The gods that Lin Tianhao had killed before actually did not have much reference value.

If it were the Twelve Golden Immortals of Zen Buddhism, or those famous immortals and gods in the mythology of Blue Star, would he still be able to deal with them so easily?

To put it bluntly.

Lin Tianhao even felt that some of the gods he had killed, except for the god of the sea Poseidon, the god of darkness Moirai, the god of the dead, etc., were somewhat well-known.

The others are probably the kind of people like heavenly soldiers and generals.

The Monkey King Sun Wukong can defeat a large group of people by himself.

"Yuanshi Tianzun is fine, why does he want to deal with me?" Lin Tianhao asked.

Shen Gongbao's face darkened, "I really don't know about this."

"I heard before that the higher-ups were interested in training you, Xue Di, but now that Elder Yuanshi has arranged for us to take action against you, I'm afraid some major changes have occurred."

Jiang Ziya nodded slightly and said seriously:

"Xue Di, if nothing unexpected happens, something may have happened to the people who support you, otherwise this incident would not have happened."

Lin Tianhao nodded slightly, this was consistent with what Wen Suyao said.

The god of the source of the Tao is missing, and the Heavenly Dao is about to deal with itself.

"So what do you think, if Yuanshi Tianzun wants to continue to attack me, who will they send next?" Lin Tianhao asked.

"Xue Di, you possess tremendous power of incense and merit. The righteous gods will not easily attack you." Monk Wuzui said in a deep voice.

"Especially those righteous gods who have already gone to the divine realm. It is not easy for Yuanshi to command them."

"According to my estimation, he may cooperate with some evil gods, or directly allow the gods of the Alite galaxy to enter in advance."

Chapter 1683 Yuanshi's end, rules and restrictions!

Lin Tianhao's expression changed slightly. If the gods from the Alate galaxy attacked in large numbers, it would probably be very troublesome.

Jiang Ziya thought for a moment and said slowly:

"I guess that old Yuanshi must have his own plans, otherwise he wouldn't let us take action."

"Perhaps, he wanted the power of merit in you, so he didn't let the gods of the Alite Galaxy intervene."

Lin Tianhao waved his hand.

As the saying goes, when enemies come, we fight them; when floods come, we block them with earth.

Now that he is surrounded by dangerous beasts, all he can do is to improve his strength as much as possible.

It really doesn't work.

Then let's rely on the power of merit and the power of incense.

Even gods would not be able to withstand an attack triggered by the power of merit.

"Do you know where Devil's Island is?" Lin Tianhao asked.

Shen Gongbao nodded slightly and said seriously:

"I am here in the Devil's Sea to fill the Devil's Sea Eye. I am very familiar with the surroundings. This Devil's Island is near the Devil's Sea Eye. I will take you there."

The innocent monk smiled and said:

"Xue Di, we have already offended old Yuan Shi. If you don't mind, we can advance and retreat together from now on."

Lin Tianhao's eyes lit up.

This monk Wuzui is a powerful person at the quasi-saint level.

Although Lin Tianhao was not sure which great master in Buddhism he was, if this quasi-saint could help him, the pressure on him would be greatly reduced.

"That's what we think too."

Jiang Ziya spoke slowly, "Now that things have come to this, we can only try our best."

"On our own, we have no chance of winning."

Lin Tianhao nodded slightly and said seriously:

"It is an honor for the younger generation to receive help from the three seniors."

Just as Lin Tianhao was thinking this, the wind and clouds in the sky suddenly changed.

Lin Tianhao, Jiang Ziya, Shen Gongbao and others all looked up at the sky at the same time.

"Old Yuanshi wants to do it himself?"

Shen Gongbao felt like he was facing a formidable enemy. If Yuanshi Tianzun did not abide by martial ethics and disregarded the consequences and took action himself, they would not be able to stop Yuanshi Tianzun, who was at the level of a Heavenly Saint.

"probably not."

Jiang Ziya shook his head. "I think he will do something, but he won't personally deal with us."

At this moment.

A beam of light descended from the sky, covering the black sea ahead.

After the beam of light passed, a server-wide announcement resounded through the sky.

"Announcement to all servers: The Devil Island Trial has begun. This trial is a special trial site, and only adventurers are allowed to enter. We hereby announce this, and hope that adventurers will actively participate!!"

.....

Lin Tianhao's eyes narrowed slightly, "He didn't attack us personally, but it was obvious that he was targeting us."

Only adventurers are allowed to enter. Does this mean that Lin Tianhao can't even bring Heitian Aozhen, the Dark Angel and others in?

He also restricted Shen Gongbao, Jiang Ziya and the monk Wuzui, preventing them from following him in.

"It looks like there will be a fierce battle."

Jiang Ziya's expression turned extremely ugly.

"Not only did they target Xue Di, they also put us in a dilemma." Shen Gongbao said in a deep voice.

Monk Wuzui's eyes narrowed slightly. "Although most of the merits I have accumulated over the years have been divided up by the Buddhist sect, my merits should not be underestimated. If we really fight, I will not let them off easily."

Jiang Ziya thought for a moment and said, "Not necessarily. After the Conferred God Tribulation, I have inherited this karma, but isn't this also the karma of Yuanshi Laozi?"

"While I am alive, I can help him bear this karma. If I die, he will have to bear this karma himself!!"

That's it.

Jiang Ziya's eyes fell on Shen Gongbao.

"Shen Gongbao is the same. He is blocking the sea eye in the Demon Realm. Isn't he suffering for Yuanshi the old man?"

When Lin Tianhao heard their words, he instantly understood what they were thinking.

"You mean, after I enter Devil Island, Yuanshi Tianzun will attack you?"

Monk Wuzui nodded slightly and said seriously:

"This is inevitable. He will definitely settle the score later. With you here, he will still be cautious. If you enter Devil's Island, they will definitely take action."

Jiang Ziya waved his hand and said seriously:

"Xue Di, you don't have to worry too much. Yuan Shi can't just act casually now, otherwise he will wipe us out without waiting for you to enter Devil Island."

"If other immortals and gods are sent here, we three will not be afraid at all if we join forces."

"Don't think that the three of us are in a bad situation now, but we have accumulated a lot of merits over the years."

"If we really want to use up all our merits and fight to the death, even the immortals and gods will have to think twice."

Lin Tianhao looked at them like this and couldn't help but smile bitterly:

"Why do I feel like you guys are a little panicked?"

Shen Gongbao immediately said:

"We have lived for such a long time, and we have never seen any storms or waves?"

"afraid?"

"That's impossible!!"

That's it.

Jiang Ziya sighed and said:

"You say you're not afraid, but how can you really not be afraid?"

"That's old Yuanshi. If he really wants to quarrel with us and send some top warriors over, we may not be able to handle it."

Monk Wuzui was very calm and said with a smile: "I don't care. Even if a quasi-saint comes, I can kill him."

"Even if there are more Quasi-Saints, I am not afraid."

Lin Tianhao hesitated for a moment and said:

"I must go to Devil Island, but I have another clone that may be able to help you when Yuanshi Tianzun targets you."

Lin Tianhao's clone alone is definitely not enough.

But what if it is combined with the invincible field?

and.

Lin Tianhao's double true body is the same as Lin Tianhao's original body, and is also blessed with great merits. If a real fight breaks out, it can still help Monk Wuzui and others.

"That couldn't be better." Jiang Ziya said.

He is the weakest among the group, so if anything were to happen, he would definitely be the first to get into trouble.

It would be great to have an extra layer of protection.

"Senior Shen, take me to find Devil Island, and then we'll go back to the Fan Palace. I'll come over after I've arranged everything for you."

Hear this,

Shen Gongbao nodded and led the way.

Not long after.

Under the leadership of Shen Gongbao, Lin Tianhao found the Devil's Island deep under the sea.

In this black sea water, Lin Tianhao's consciousness was severely suppressed. If Shen Gongbao hadn't led the way, it would have been difficult for him to find this place.

"Let's go."

"Let's go back to the Fan Palace."

Lin Tianhao did not even use the Kunlun Mirror, but only saw Monk Wuzui making hand gestures.

The next moment.

He was like a star that had moved, and then he appeared in the mortal palace.

In this regard.

Lin Tianhao was not surprised, but called back his clone and Shangguan Hongxun to arrange things for Monk Wuzui and the other two.

At the same time, send a message to Berserker Blade, telling him about the changes in the enlightened arrangements.

After doing this.

Lin Tianhao then placed the invincible realm in the Fan Palace.

Chapter 1684 The gods come to an offline meeting!

With the invincible domain and the second clone, if Yuanshi Tianzun sends gods to come, they will still be able to deal with them.

"You wait here for my news." Lin Tianhao said.

"You'd better be careful. Old Yuanshi won't let you go easily." said the monk Wuzui.

Lin Tianhao nodded seriously. He knew this of course, but there were Heavenly Punishment Equipment on Devil Island, so he had to go.

but.

anyway.

There are also Heavenly Punishment equipment on the Dragon and Phoenix Fairy Island.

But there is no news from Mad Blade and the others yet.

Just as Lin Tianhao was thinking this, a video call came in.

The person who made the video call was none other than Berserker Blade.

"Xuedi, the alliance has split."

Just the first sentence made Lin Tianhao startled.

The global alliance would actually split up just like that.

"what happened?"

"The gods reappeared, and the representative gods of various countries came out to preach and divide the countries."

"Now, countries, guided by their national gods, have withdrawn from the global alliance."

Lin Tianhao's face looked a little ugly. "Have they ever considered the crisis of the Alet Galaxy?"

"Xuedi, the situation is worse than you think."

"Not only other countries, but even Dragon Country has the famous Twelve Golden Immortals of Zen Buddhism personally come forward and contact the Dragon Country's top leaders, and they are now discussing this matter."

"You are also from the Dragon Country. You should understand how great the impact will be when these legendary immortals and gods really appear."

Lin Tianhao frowned, Yuanshi Tianzun was really good at calculating.

"How many people stand on the side of the Twelve Golden Immortals?" Lin Tianhao asked.

"We haven't decided on which team to take yet. The higher-ups asked me to contact you and prepare for an offline meeting."

"This incident happened too suddenly, and the higher-ups are worried that there might be problems."

Lin Tianhao took a deep breath and could only say that Yuanshi Tianzun's actions were really fast.

Jiang Ziya and Shen Gongbao had just turned against each other, and he had already set up such a game.

If the top leaders of the Dragon Kingdom were instigated by the Twelve Golden Immortals, his current situation would be extremely dangerous.

"Xue Di, you should be thankful that it was the Twelve Golden Immortals. If it was the Three Sovereigns and Five Emperors, the consequences would be disastrous."

"Everyone has gone offline to prepare for the offline meeting. Someone will call you later." said Berserker Blade.

Lin Tianhao nodded slightly.

Under the current circumstances, we can only hold an offline meeting to see what those people above are going to say.

Lin Tianhao had just logged off when he saw the ambitious Taoist priest appear outside his game cabin.

"It seems you already know it." The ambitious Taoist said with a smile.

"What did the Twelve Golden Immortals say?" Lin Tianhao asked.

"Not much to say, the main point is that the Alet Galaxy is not here to invade us, they just want to build a channel between the two worlds, and the one who really wants to destroy the Milky Way world is you."

"Do you believe this?" Lin Tianhao asked back.

The ambitious Taoist shook his head and said seriously:

"I definitely don't believe that."

"But some people above believe you. They think you have slaughtered too many lives and acted too tyrannically and greedily."

Lin Tianhao did not comment, "Let's go, let me also listen to what they say."

The ambitious Taoist priest led the way and took Lin Tianhao into an underground base.

This underground base is full of technology, and the weapons and equipment of the guards are also surprisingly good.

Lin Tianhao followed the ambitious Taoist priest silently without saying a word.

Not long after.

The two came to a meeting room.

In the conference room.

There were seven people sitting there in total. Lin Tianhao had seen the leader before. He was the elder.

When he saw Lin Tianhao coming in, he actually stood up and said:

"sit."

Lin Tianhao and Taoist Master Ye Xin took their seats, and the elder said:

"I believe you all already know about the matter of the Twelve Golden Immortals of Zen Buddhism and the split of the Global Alliance."

"This meeting is mainly to discuss the future direction of our Dragon Nation and how to deal with the issues of the Snow Emperor and the Twelve Golden Immortals of Zen."

That's it.

The elder looked at Lin Tianhao and said:

"Xue Di, I can sense the ill will of the Twelve Golden Immortals of Zen towards you. Do you have anything to say?"

Lin Tianhao took a deep breath, slowly stood up, and said:

"Before, the gods couldn't take action, but now they can take action again. Do you know the reason?"

"You may not even know where Devil's Island is, but they have set rules that prohibit gods from entering. Do you know why?"

"The gods appeared and split the global alliance. What is their fundamental purpose? Do you know?"

Lin Tianhao started by asking three questions.

No one present was speechless.

Regardless of the positions of those present, they are in high positions and understand what should be said and what should not be said.

"Xue Di, just tell me the truth. You should have more information than us." said the elder.

Lin Tianhao nodded slightly and said seriously:

"In the Galaxy World, there is a creator, called the Source God of Tao. I have seen his avatar in the God Killing Academy. I have also seen him and talked to him for a few words. I also know his subordinates."

"We know about the God-killing Academy, and we have also speculated on the special significance of its existence." said the elder.

Lin Tianhao lowered his brow and glanced at everyone present.

"Twilight of the Gods is the descent of the Source of Tao, and it is also the fourth era of god-making in the galaxy world."

"Well, we know that." The elder nodded.

As high-level officials of the Dragon Kingdom, they naturally have a lot of information at their disposal.

"The Source of Tao has been involving the creator of the Alet Galaxy and trying to restrict the gods from taking action, giving us a little chance."

"Because in five years, even if some of us adventurers can become gods, they will only be the lowest level of gods."

The elder did not interrupt Lin Tianhao, but motioned for Lin Tianhao to continue.

"Now, the reason why the Immortal God can take action is because... the Source God of Tao is missing!!"

"The Source of Tao is missing?!" Everyone present was slightly shocked.

Lin Tianhao nodded and said seriously:

"I don't know the specific reason for his disappearance, but what I do know is that after the Origin of Dao God disappeared, the Heavenly Dao Will of the Galaxy World betrayed the Origin of Dao God. He tried to use the World Heart of the Galaxy World and the Supreme Gem of Heavenly Dao to break through the limits of the Heavenly Dao Saint and reach the eternal realm."

"What does this have to do with you?" asked the second old man on the right hand side of the chief elder softly.

"A world that loses its heart will become a dead world and will no longer be suitable for living beings to live in."

"There are so many living beings in the Milky Way world. If the Heavenly Dao will does this, the result will be backfired by this cause and effect. Not to mention breaking through the eternal realm, it will be a miracle if it does not fall below the Heavenly Dao Saint realm."

Chapter 1685 Convince everyone, Tianxi Xingjun!

The elder immediately understood what Lin Tianhao meant.

"You mean, the will of heaven wants to destroy the galaxy world?"

"good."

Lin Tianhao nodded heavily, "So, the will of heaven betrayed the source of Tao and cooperated with the Alite Galaxy."

"The Alite Galaxy will destroy the Galaxy World, and he can just take the Galaxy World's Heart and one of the Heavenly Dao-level Supreme Gems."

"These are just your one-sided words." It was still the second old man on the right side of the chief old man who spoke.

Lin Tianhao smiled and said:

"This is not just my one-sided statement. The will of the Galaxy World has already taken action against me."

"He arranged for Jiang Ziya, Shen Gongbao, a quasi-saint from Buddhism, and a powerful person from outside the domain to attack me."

"He even used an extremely powerful weapon just to seal me away."

"Unfortunately."

"He failed in the end because Shen Gongbao, Jiang Ziya, and the quasi-saint from Buddhism turned against them and did not support the will of heaven."

That's it.

Lin Tianhao paused for a moment before continuing:

"You should all know that Daoist Ancestor Hongjun is in harmony with the Heavenly Dao and has achieved the state of a Heavenly Dao Sage."

"The will of heaven in the Milky Way world is no longer Daozu Hongjun, but Yuanshi Tianzun."

Hear this.

Several people present frowned.

"Yuanshi Tianzun betrayed the Source of Tao and cooperated with the people of the Alate Galaxy. Is this why the gods are facing the fate they are facing today?" said the first person on the left side of the elder.

Lin Tianhao nodded seriously and said:

"Yes."

"However, Yuanshi Tianzun himself does not want to be involved in the cause and effect, so he has not personally intervened yet."

The second elder on the right of the first elder said in a deep voice:

"If what you said is true, how should we respond?"

"If my guess is correct, then the Twelve Golden Immortals of the Zen Sect are all powerful people at the Quasi-Saint level. In today's Ragnarok, who can fight against a Quasi-Saint?"

Hear this.

Lin Tianhao said seriously:

"It's definitely not possible to rely on us adventurers alone. The gods left the scene before, but now the gods can take action again. These gods who left the scene may return to their positions."

"And the Source of Taoism also has confidants in the Milky Way World. They will not sit idly by and watch Yuanshi Tianzun act recklessly. They will definitely take action against him."

The elder hesitated for a moment before saying:

"The global alliance is split, Yuanshi Tianzun is betraying us, and the Alet Galaxy is about to be invaded. Our Dragon Nation is in a precarious situation."

Hear these words.

Lin Tianhao didn't say much. He just needed to say what he knew. As for what the final decision would be made by the elder, that was up to the elder.

"Master, I think we can't listen to the one-sided words of the Snow Queen. What the Twelve Golden Immortals of Zen Buddhism said also makes sense."

It was still the second old man on the right hand side of the first old man who spoke.

The elder's face darkened, "Those who are not of my race must have different hearts. Haven't you figured this out yet?!"

"Many of the issues discussed by the Twelve Golden Immortals of Zen Buddhism are in obvious contradiction with what we know about the actions of the Alata Galaxy."

"Compared to what the Twelve Golden Immortals of Zen Buddhism said, I believe more that the Alite Galaxy is here to attack us."

"Don't forget, the Alete Galaxy was previously offered a bounty by the entire server. That was the will of Ragnarok, which should be the will of Heaven, that is, Yuanshi Tianzun who offered the bounty."

"And now, the Twelve Golden Immortals are saying that there is nothing wrong with the people of the Alete Galaxy. Is this reasonable?"

"Isn't this Yuanshi Tianzun slapping himself in the face?"

The elder looked serious.

"It is the will of Heaven that prohibits the gods from taking action, and it is also the will of Heaven that offers a bounty to those in the Alete galaxy."

"Now, the will of heaven has overturned his previous decision, which is contradictory in itself."

The ambitious Taoist priest also stood up slowly and said seriously:

"Yes."

"I believe Xue Di. The problem here is too obvious."

"And the will of heaven has been betrayed. This is the best explanation."

The chief elder and the ambitious Taoist priest both said so. The old man on the left hand side of the chief elder nodded and said:

"Now that we've come to this, there's nothing more to say. Let's vote."

The words fell.

The old man spoke first:

"I vote for Xue Di."

"Snow Emperor."

"Snow Emperor."

The remaining few people, without exception, all voted for Lin Tianhao.

"It passed unanimously, so our previous strategy remains unchanged and we will continue to support Xue Di."

"In addition, we should try to communicate with senior officials in other countries and let them know this."

"Otherwise, we, the Dragon Nation, will be unable to support the country on our own, and things will get increasingly difficult in the future."

Lin Tianhao said solemnly:

"It will indeed become increasingly difficult to stand alone, but if we can withstand the storm ahead, it will be much easier for us in Longguo, both in terms of management and decision-making."

The people present all nodded gently, "Okay, let's wait and see what happens. The leaders of other countries are not fools. They must have realized the problem. Let's see how they decide."

Lin Tianhao stood up and said goodbye, and went back with Taoist Priest Ye Xin.

The catastrophe is getting closer and closer, and what he is going to do next will not be easy.

Now that Ragnarok's resurrection mechanism is still in place, it's difficult for those who want to target him to do so.

After coming out of the base and returning to the villa, Taoist Master Mo Xin said with a serious face:

"Xue Di, don't just think that everything will be fine just because it is passed unanimously. Some of them may want to vote for the Twelve Golden Immortals of Zen."

"But they know that even if they voted for the Twelve Golden Immortals of the Zen Sect, it would be useless, so in order not to offend anyone, they voted for you."

"But if their hearts are not on your side, problems are bound to arise."

Lin Tianhao frowned. This was a question he had not thought about.

"Since the general direction has been decided, we should unite together. They should all understand this issue."

"To understand is one thing, to do is another."

Lin Tianhao shook his head and said seriously:

"Master Ambition, I don't really know them that well."

"But I still believe that they will have differences on such major issues, but they will not do anything behind the scenes."

The ambitious Taoist priest hesitated and said:

"I hope you're right."

Lin Tianhao didn't say much and entered the game cabin.

Back to Ragnarok, Lin Tianhao took a step and arrived outside Devil's Island.

Just as Lin Tianhao appeared, a figure blocked his way.

"coming?"

Lin Tianhao's eyes narrowed slightly. At this moment, someone intercepted him in front of Devil's Island. This must be an enemy, not a friend.

"What's your name?" Lin Tianhao asked.

"Tianxi Xingjun." The middle-aged man spoke lightly, his words full of vicissitudes.

Chapter 1686 The mysterious person who took action!

Just one name made Lin Tianhao silent.

"Human King Di Xin!!"

Lin Tianhao looked at the person in front of him meaningfully.

"Then there is no human king Di Xin, only the human sinner Yin Shou."

Lin Tianhao looked at Emperor Xin meaningfully and said:

"What happened back then was not your fault alone. Under the general trend and the sage's calculations, your defeat was inevitable."

Emperor Xin shook his head and said:

"Defeat means defeat."

That's it.

Emperor Xin looked at Lin Tianhao very seriously, "You can be considered to have obtained three points of the luck of the human race, but you don't seem to know how to use the luck of the human race."

Lin Tianhao raised his eyebrows slightly. He had the Human King Order and the Human King Sword, but he had never thought about how to use the human race's luck.

"Since I was defeated, the method of using the luck of the human race has been lost. Now that you want to restore the luck of the human race, I will naturally teach you the method of using the luck of the human race."

Lin Tianhao's eyes lit up.

The method of luck and fortune is the best.

At first, the human king Di Xin had no cultivation at all, but because he had the luck of the human race, even the immortals and gods could not touch him.

Although he is not yet a true human king, he does have three points of human luck.

If he could obtain the method of utilizing the luck of the human race, he would have a greater chance of winning when facing the immortals and gods.

"Tianxi Xingjun."

At this moment, an extremely low voice sounded.

"You are still full of rebelliousness. I allowed you to be included in the Conferred God List because I thought you were the Human King. Otherwise, you would not have the chance to live to this day."

Lin Tianhao's expression changed slightly. It seemed that Emperor Xin wanted to teach others how to use the luck of their race, but some people seemed reluctant.

I don't know who will come this time.

Now the gods in the Dragon Kingdom mythology and legends began to appear one after another, as if he had just entered Ragnarok and received the blessings of the gods.

just.

Perhaps it was because of the existence of the God of Tao at that time, these famous gods were all kind to him and blessed him without reservation.

But now.

The situation seems to have changed dramatically.

Emperor Xin looked at the person who spoke, with murderous intent flashing in his eyes.

"You are not qualified to point fingers at me when I do things!!"

When the words fell.

Emperor Xin raised his hand and pointed at Lin Tianhao's brow.

"presumptuous!!"

The person who spoke was very angry about Emperor Xin's behavior. A powerful force descended from the sky, as if to crush Emperor Xin to death.

A cold light flashed in Lin Tianhao's eyes, and he swung the carving knife in his hand, adding tremendous power of merit to the carving knife.

In a flash.

The sword energy tore through the void, and the golden light of merit illuminated the heaven and earth, instantly tearing apart the magnificent power of heaven and slashing towards the figure hidden in the void.

When that person saw the sword energy that contained terrifying golden light of merit, his face changed drastically and an endless rage rose from the bottom of his heart.

But facing Lin Tianhao's knife, he had no way to avoid it.

There was an extra red-gold copper coin in the figure's hand, which turned into flowing light and hit the sword energy.

"The Merit Copper Coin can only hold out for a moment!!"

The figure was terrified and felt like the sky was falling.

Not daring to delay, he offered out seven merit copper coins in succession, trying to block Lin Tianhao's knife.

But it's still not enough.

The merit copper coins can reduce Lin Tianhao's sword energy, but cannot stop Lin Tianhao's sword.

"The mortal realm is already so terrifying, if I grow up in the future, what will happen! !"

The figure was a little annoyed, and a red lotus appeared in his hand. The red lotus flew out at a high speed and shattered Lin Tianhao's sword light.

Even so.

The red lotus was actually cracked by Lin Tianhao's sword.

"How can it be?!"

The figure was filled with shock and anger. He obviously did not expect that Lin Tianhao's attack would be so terrifying.

Not to mention the figure, even Emperor Xin showed a look of surprise on his face at this moment.

"Just...just cracked like that?"

There was a cold light flashing in Lin Tianhao's eyes, and he had just swung the knife with a bit of anger.

As soon as the Source of Tao disappeared, Yuanshi Tianzun targeted him everywhere, really treating him as a soft persimmon.

If he didn't show some of his skills, those evildoers might really think he was easy to bully.

As Emperor Xin pointed his finger, a secret technique flooded into Lin Tianhao's mind.

Through this secret technique, Lin Tianhao can clearly understand how the human race's luck is used.

To be precise.

It's the destiny of humanity!!

At the same time, I also learned some other information about destiny.

The destiny of the world is divided into three categories.

One is the innate luck, which is the luck that we are born with.

In the age of immortals and gods, when someone was born, strange phenomena occurred in heaven and earth, and purple air came from the east for 30,000 miles!

This is a person with great luck.

The second type is the ethnic destiny!

Lin Tianhao's current humanitarian fortune belongs to the fortune of the clan.

This fortune is related to the ethnic group and the corresponding identity.

Lin Tianhao now has the Human King Order and the Human King Sword.

Although he has not officially become the Human King, he can already enjoy a third of the luck of humanity.

The third is the destiny of the world.

The fortune of this world is an upgraded version of the fortune of one race, and can also be regarded as the fortune of all races.

Build a world to accommodate all living beings, and naturally you will be able to enjoy the fortune of all races.

The method of luck is extremely mysterious. It is not like the power of merit or the power of incense that can be used directly to consume energy in battle.

The power of luck is used in battle, but it is not consumed directly. Instead, it is similar to mana, which will be temporarily reduced but will be restored later.

The power of merit and incense is permanently consumed and cannot be restored.

However, the power of incense, the power of merit, and the power of luck are different from divine power and spiritual power.

These three can have causal backlash.

Similar to the Battle of the Gods, it was obvious that saints from all sides were planning and scheming behind the scenes, but no saint took action personally.

This is because if you kill someone with great fortune, great merit, or even a person with great support, they will be backfired by the corresponding force.

When the catastrophe of the Conferred Gods came, the luck of the human race was so strong that it was extremely terrifying.

Jiang Ziya invited various immortals and gods and persuaded eight hundred princes, all in an attempt to prevent the gods from returning to their positions.

"he's gone."

Emperor Xin's voice sounded.

He came to Lin Tianhao in surprise and said, "The knife you just used was a bit reckless."

"The stronger the power of merit in you, the safer you are."

"The backlash of good deeds is no joke."

Lin Tianhao hesitated for a moment and said:

"Speaking of which, among the immortals and gods, there should be quite a few who have great merits. If they are all afraid of the backlash of merits, then the relationship between the immortals and gods will be very delicate."

"Great merit?"

Hearing Lin Tianhao's words, Emperor Xin couldn't help but shook his head, "You think too much. Ninety-nine percent of the immortals and gods have very little merit power."

"Those who have a little bit of merit power are all used to assist in cultivation. After all, if the merit power is not much, the backlash is not strong, so it is not very meaningful."

"And without special circumstances, it is very difficult to accumulate the power of merit."

Chapter 1687 Entering Devil's Island, Girl in Red Dress!

Lin Tianhao felt relieved.

"Why don't you go to the Fan Palace to avoid the limelight? Jiang Ziya and Shen Gongbao are all there."

Emperor Xin shook his head and said:

"They don't dare to kill me yet. Why do you think they want to deify me? Because if I die, the destiny of the human race will be re-condensed through another person, and a new human king will be born."

Lin Tianhao was a little surprised. If that was the case, then there was really nothing to say.

"The incense should have a lot of power. Since the incense can backfire, there will be a lot of trouble between the immortals and gods!"

"Not really."

"The power of incense and the backlash are already very weak."

"Moreover... the power of incense is ineffective against humans." Emperor Xin said.

Lin Tianhao was a little surprised, but this seemed normal.

"and....."

"Whether it's the power of luck, the power of virtue, or the power of incense, none of them will backfire on mortals."

"This is also the reason why Jiang Ziya and his men persuaded eight hundred lords to besiege me."

Lin Tianhao nodded gently and said: "Mortals will not suffer backlash when they kill people with great merit and great luck, and mortals can also use these three powers, so they are naturally stronger than ordinary gods."

"Yes and no."

Emperor Xin shook his head and said seriously:

"Among humans, there are many who can possess these three powers in the mortal realm, but most of their values are not high."

"And most of these people don't actually know how to use these three powers to fight."

"After all... not everyone is like you, Xue Di, and not everyone can replicate a legend like you, Xue Di."

Lin Tianhao smiled awkwardly, "Since the human race has been passed down to this day, there should be many super strong people who have hidden themselves from the world, or inherited families, sects, etc."

"Of course there are, but those guys who have the conditions have gone to the God's Domain, and those who don't have the conditions will not easily take action."

Lin Tianhao nodded gently, "It's still too unreliable to rely on others."

The moment Lin Tianhao finished speaking, a server-wide announcement caught his attention.

"Announcement to all servers, congratulations to the player who hid his nickname and successfully killed General Fu Xuetian. We hereby announce this and hope all adventurers will keep up the good work!!"

.....

"Announcement to all servers, congratulations to the player who hid his nickname and successfully killed the Heavenly Soldier King Meng. We hereby announce this and hope that all adventurers will continue to work hard!!"

.....

As server-wide announcements came one after another, Lin Tianhao was a little stunned.

How is this going?

These... seem to be gods!!

who is it?

It is incredible that so many gods could be harvested in such a short time.

Emperor Xin showed a faint smile on his face and said: "It seems that the human race still has many strong people, you are not alone."

Lin Tianhao nodded slightly and said seriously:

"There are already experts among the adventurers, but I don't know if this person is a friend or an enemy."

At this stage, Lin Tianhao is not surprised that there are adventurers who can kill gods.

I don't know who it was, but as soon as this god showed up, he was pressed to the ground and rubbed.

"Okay, see you later. I'm going to Devil's Island first."

Lin Tianhao waved to Emperor Xin and stepped into Devil's Island.

The moment he entered Devil's Island, Lin Tianhao appeared in a huge square.

Surrounding this square are pavilions and towers.

just.

These pavilions and towers are in ruins.

There are still many dry vines on it.

It seems that this place was once prosperous, but later it became deserted and fell into disrepair.

Lin Tianhao released his spiritual consciousness, but just as his spiritual consciousness spread out, it was suppressed back by a terrifyingly powerful spiritual consciousness.

"Such a strong spiritual sense!!"

Lin Tianhao was very surprised. How powerful should the owner of such a powerful spiritual consciousness be?

But after this powerful spiritual consciousness pushed his consciousness back into his body, there was no other movement.

It seems... this is an unconscious behavior!!

If the owner of this spiritual consciousness was just acting unconsciously, how terrifying would his strength be?

"Are you also a practitioner here?"

At this moment, a clear female voice was heard.

Lin Tianhao looked up and saw a girl in a red dress standing quietly in a pavilion outside.

The girl had clear eyes and a tall figure. When she saw Lin Tianhao, she actually jumped down.

"I came here to find something." Lin Tianhao said.

Judging from the situation of the girl in the red dress, she should not be a resident of this Devil's Island.

"From the looks of you, it seems like you know this place very well?" Lin Tianhao asked.

The girl in the red skirt rolled her eyes and said with a smile:

"Of course I know. Do you want to buy the guide from me? How about I give you ten enlightenment points?"

Lin Tianhao frowned. Enlightenment points as trading currency... How come this is somewhat similar to the situation in the City of Disaster?

"I have some enlightenment points, but I can't take them out." Lin Tianhao said.

The girl in the red skirt pouted and said, "You really are the newest person who can't be any newer."

"Under normal circumstances, enlightenment points cannot be taken out, but enlightenment points can be stored in enlightenment cards, so they can be traded."

"I have a Enlightenment Card here that has not yet been recognized by its owner. Do you want to buy it? I'm honest and fair to everyone. How about I charge you 300 Enlightenment Points?"

Lin Tianhao looked at the girl in the red dress and felt that she was trying to blackmail him.

"How about adding this enlightenment card to the strategy and 20 enlightenment points?"

"Twenty?"

The girl in the red skirt widened her eyes and said:

"Do you want to listen to what you are saying? Twenty enlightenment points are not even enough to cover the cost!!"

"What is the cost?" Lin Tianhao asked.

"Trade secrets."

"But I can give you a discount. For the strategy guide and the Enlightenment Card, I'll only charge you 290 Enlightenment Points."

"This is already a very low price."

"Thirty." Lin Tianhao replied.

"You can also see that I'm a newcomer. Let alone two hundred and ninety, I don't even have ninety enlightenment points."

"Thirty, this is the limit of what I can do."

The girl in the red dress's face fell.

"The last time a newcomer came here, his enlightenment point was already stagnant. How come you are only this low?"

"Well, don't say I'm bullying you. Fifty is the lowest price. If you don't agree to this, then forget it."

"Deal." Lin Tianhao said.

The girl in the red dress stared at Lin Tianhao. She always felt that Lin Tianhao should have more than a hundred enlightenment points.

But thinking about her own costs, the girl in the red dress didn't care.

can only say.

With tears in my eyes, I earned forty-eight enlightenment points.

No, it should be forty-nine.

Because of the cost of the strategy, she had already earned it back from those previous suckers.

"This is the Enlightenment Card. You drip blood to acknowledge the master, and then through your thoughts, you can control the Enlightenment Points to transfer into the Enlightenment Card."

"Then you can make transactions through the Enlightenment Card."

Lin Tianhao got the Enlightenment Card, dripped blood to acknowledge the master and asked:

"Where can I buy this enlightenment card? I want to buy some for my friends."

Chapter 1688 Virtual Starry World!

Because Lin Tianhao is supported by heaven and earth, the points of enlightenment in him are extremely huge.

If we could trade some of the enlightenment points to Fatty, Monkey, and my sister, their enlightenment speed would be greatly improved.

"Yes, we do have them. They are sold on Devil Island. But with your limited enlightenment points, how many enlightenment cards can you buy?"

Lin Tianhao smiled and said:

"I don't have any, but I can earn it, just like you."

"Once I get the strategy guide, I can sell it to newcomers here, right?"

While talking.

Lin Tianhao has injected fifty enlightenment points into the enlightenment card.

"Look, I'm teaching you for free. Just look at the Enlightenment Card in my hand and transfer it with your mind."

"I understand." Lin Tianhao transferred all the fifty enlightenment points to the girl in the red skirt.

The girl in the red dress then revealed a satisfied smile and said to Lin Tianhao:

"Oh, I forgot to tell you that this card is issued by the Starry Sky Administration. It will automatically deduct one enlightenment point every month."

"If there are no enlightenment points for three consecutive months, this card will be automatically scrapped."

"So, don't let your Enlightenment Card have no balance, understand?"

Lin Tianhao was slightly startled, but then he felt relieved.

It seems reasonable to charge some Enlightenment Points as usage fee for this kind of thing.

Don't underestimate these one point per month. If enough people use it, the number of enlightenment points will be very terrifying.

"Where is the strategy?" Lin Tianhao asked.

The girl in the red skirt waved her hand and threw out a jade slip, "Put your consciousness into it, and return it to me after reading it. This jade slip is also for enlightenment."

Lin Tianhao's mouth twitched. He took the jade slip, and his spiritual consciousness had just spread out of his body when it was suppressed back by that powerful spiritual consciousness.

"Don't let your consciousness leave your body. Place the jade slip between your eyebrows." The girl in the red dress reminded.

Lin Tianhao nodded, and according to what the girl in the red dress said, he placed the jade slip between his eyebrows and contacted it with his spiritual sense.

The next moment.

A piece of content flooded into Lin Tianhao's mind.

"Looking at you, you really are a newbie. You seem to have no idea about your own power and the things in the endless starry sky."

"I have never left my world." Lin Tianhao said.

"Haven't I left either? For mortals like us, leaving our own world, isn't that seeking death?" said the girl in the red dress.

"Then how do you understand the endless starry sky? Do you have to rely on others to tell you?" Lin Tianhao frowned.

The girl in the red skirt looked at Lin Tianhao with a strange expression and said:

"Don't you know there is a virtual starry sky world?"

"Virtual starry sky world?"

Lin Tianhao shook his head. He had never heard of this before.

No one else told him.

"Which world are you from? You're a newbie. It seems that it's not entirely your problem, but the problem of the world you are in."

"No, are you kidding me? This Devil's Island is in the virtual world. You told me you don't know about the virtual world, so how did you get here?"

The girl in the red dress looked like she had discovered a loophole and stared at Lin Tianhao with an unfriendly expression.

"This is a virtual world, but it's not the virtual starry sky world you mentioned. The place I'm in is called Ragnarok, a game where you can kill monsters and level up."

"game?"

"That seems normal."

"According to what you said, your Ragnarok should be a small world in the virtual starry sky world, and it's the same for us."

"Didn't the Lord of your world connect you to the Endless Starry Sky Server? That's not right. If it wasn't connected, you wouldn't be here."

"It seems that the Lord of your world has restricted you and prevented you from easily contacting the endless starry sky."

Lin Tianhao felt that the words of the girl in the red dress overturned his three views.

"If you become stronger in the virtual starry world, will reality also become stronger?" Lin Tianhao asked.

"Those of enlightenment are fine, but those of realm are not."

The girl in the red skirt said seriously:

"Practicing magical skills and enlightenment in the virtual starry sky world can be mapped to the real world."

"It's not possible to improve the realm. Whatever realm your original body is in, that's what realm you will be in after returning to the real world."

Lin Tianhao didn't know what to say.

Could they tell the girl in the red dress that they could?

Moreover, they can level up by killing monsters, and in just a few months they will be able to materialize all the power accumulated during Ragnarok?

"This virtual starry sky world is considered a core resource of the Starry Sky Administration, especially their space-time cultivation pagoda. As long as one has enough enlightenment points, it will be easy to advance to a higher level of the Tao."

"You know so much that I seem like a frog in a well." Lin Tianhao said.

The girl in the red dress smiled and said:

"It's not your fault. It's probably because your world master realm is too low and you still need to rely on the power of incense to improve your combat power. That's why you are not allowed to come into contact with other small worlds in the endless starry sky."

"Do you understand the Lord of the World?" Lin Tianhao asked again.

It would be a good thing to get more information about the endless starry sky from this girl in red dress.

"of course I know."

"After a cultivator reaches the Saint Realm, further advancement in realm involves creating the world."

"Just like when ordinary people cultivate to a certain level, they need a domain."

The girl in the red dress talked eloquently, without any intention of hiding her incompetence.

"After reaching the Heavenly Dao Sage Realm, if you want to go one step further, you need to create your own world."

"therefore."

"Most world masters are in the half-step eternal realm, or the eternal realm."

Lin Tianhao raised his eyebrows. The Source of Tao was obviously an existence above the realm of eternity.

In other words.

The God of the Source of Tao should be more powerful than most world masters.

What are those guys in the Alete galaxy thinking? Even if they want to plunder resources, population, etc.

Can't we take action against those who are half a step away from the eternal realm, or the small worlds created by the eternal realm?

"What about above the Eternal Realm?" Lin Tianhao asked again.

The girl in the red dress couldn't help but roll her eyes. "Do you really think I'm an encyclopedia?"

"Also, you're pushing it too far. You asked me so many questions. If I put it anywhere else, I'd have to pay for it."

"These should all be common sense to you," said Lin Tianhao.

The girl in the red dress nodded. "Isn't common sense knowledge?"

"It's common sense to me, but not to you."

"Trading. Isn't trading just about exchanging something you have for something you want?"

"This thing can be a thing or knowledge."

Lin Tianhao opened his mouth and said, "Okay, thank you for telling me so much."

The girl in the red skirt curled her lips and said:

"Thank you is the least valuable thing. If you really want to thank me, give me a few more enlightenment points."

Chapter 1689 Trial Game, Hunting Star Beasts!

Lin Tianhao nodded, "Okay."

While talking.

Lin Tianhao directly transferred ten enlightenment points over.

See this scene.

The red-dressed girl's face fell, "Your enlightenment points are definitely not as few as you said. You are so unscrupulous in order to bargain."

Lin Tianhao shook his head and said:

"You think too much. I am thirsty for knowledge, so I am willing to give you more enlightenment."

"You just said that our Ragnarok is a small virtual world that is not connected to the virtual starry sky world, but why are there still many people from the virtual starry sky world coming to Ragnarok?"

"Some of us from Ragnarok have also left for the divine realm."

"Also, there are many living beings in our Ragnarok, and I actually don't know where their real bodies are."

Lin Tianhao threw out all the doubts in his mind.

The girl in the red dress was not too surprised when she heard what Lin Tianhao said.

"First, the fact that you can come here proves that your so-called Ragnarok world is not completely isolated."

"It is connected to the outside world. Since there is a connection, it is normal for other people to come."

"Secondly, there are already many virtual creatures in the virtual world. It is not uncommon for some lunatics to slaughter billions of creatures in the virtual battle tower in order to hone their character."

What the girl in the red dress said sounds right.

But Lin Tianhao knew in his heart that the situation of Ragnarok was by no means as simple as she said.

The fact that Ragnarok can manifest the strength of adventurers is completely different from what the girl in the red dress said.

Lin Tianhao actually wanted to ask something, but he was afraid that this matter was too special and would cause unnecessary trouble.

"If what you said is true, life and death in the virtual world are all false, and ultimately it all depends on the real body?" Lin Tianhao asked.

"It's natural."

The girl in the red dress nodded. "In the virtual world, you can be resurrected infinitely, so death is naturally meaningless."

"By the way, do you have a way for me to enter the virtual starry world?" Lin Tianhao asked.

"This is a problem with the login program. I probably can't let you enter the virtual starry sky world."

Lin Tianhao felt helpless.

"Then what's the point of you coming to this Devil's Island? If what you said is true, most of the things on this Devil's Island should be fake."

Lin Tianhao had just obtained the strategy for Devil's Island and had a certain understanding of it.

Devil's Island is a special trial place. You can get various rewards by taking part in the trial here.

"Most of the stuff is useless, but enlightenment points are useful."

"There was a big brother who made more than 50,000 enlightenment points here before."

Lin Tianhao glanced at the girl in the red skirt meaningfully and waved his hand:

"Okay, I'll leave first."

"Okay, I'll wait and see, maybe there will be new people coming." said the girl in the red dress.

Lin Tianhao walked towards the depths of Devil's Island.

Lin Tianhao could see it from the strategy of the girl in red dress.

This Devil's Island is a place of trial with multiple special copies.

You will get rewards every time you clear a copy.

This reward includes physical rewards and enlightenment points.

"Ned Liv, is what she said about the virtual starry world true?" Lin Tianhao asked softly.

Although you can't bring anyone else into Devil's Island.

But Nidleef's current state cannot be considered a living being.

She is just a projection.

"do not know."

Niederif shook her head and said seriously:

"I don't know. I have also set foot in the endless starry sky, but I didn't go deep into it. The people from other worlds that I came into contact with were basically met during Ragnarok."

"Therefore, I have no idea about the information she said."

"Ragnarok is what you call it. For us, this is the real world."

"Then do you know Blue Star?" Lin Tianhao asked.

"There are many broken continental fragments in the Milky Way, which are also called planets. But we cannot contact those planets because of some kind of rules. It seems that the one who is there does not want us to contact other planets in the Milky Way."

Ned Leef's words sounded more real to Lin Tianhao.

Because after the twilight of the gods in the previous life merged with reality, the land of China and the blue planet were connected through some light gates.

Through those light gates, one can travel back and forth between the land of China and the Blue Planet.

Besides.

It seems that due to the emergence of some force, the area of Blue Star is also increasing rapidly.

and so.

The land of China really exists, and it is hidden in the void near the Blue Star.

"I think the girl in the red dress did not lie. A lot of the information she said seems to be correct."

"It's just that the Lord of the Nine Netherworld is not around right now, otherwise they would know about the virtual starry sky world."

Although I can't confirm my guess immediately, it doesn't matter.

The purpose of his coming was to look for the Heavenly Punishment equipment.

at last.

Lin Tianhao saw an altar made of gray stones in front of him.

There is a stone pillar in the center of the altar, and on the pillar there is a black crystal ball.

According to the guide given by the girl in the red dress, as long as you put your hand on the crystal ball, you can enter the game copy.

In the game dungeon, the opponents are often not regular monsters, but more often other trial participants who come here, or virtual people.

Lin Tianhao put his hand down.

The next moment.

A countdown appeared in the void in front of Lin Tianhao.

"ten."

"Nine."

"Eight."

.....

"two."

"one."

When the countdown reached one, the altar beneath his feet flashed with an eerie light.

Followed by.

Lin Tianhao disappeared in it.

When Lin Tianhao landed again, he found that he was already in a primeval forest.

"Please kill enough star beasts in the shortest possible time. You have nine competitors. You can get points by killing star beasts. The top three in points will receive rewards."

"Friendly reminder: Other competitors are often more dangerous than star beasts. You can kill the other nine competitors and enjoy the reward alone."

The prompt ends.

Lin Tianhao could see a small light curtain with the number "zero" on it.

Lin Tianhao raised his eyebrows slightly. Kill monsters?

This should be very good for him.

Think about this.

Lin Tianhao began to act.

At the same time, Lin Tianhao tried his spiritual sense again, but it still didn't work.

Where is the earth connected to Tianmu?

Lin Tianhao had a headache. The lack of spiritual awareness had a huge impact on him.

"No way!!"

Lin Tianhao looked a little serious. Under the current circumstances, he was unable to explore the star beasts from a long distance, which would have a relatively obvious impact on his battle.

Just as Lin Tianhao was thinking this, a sound of breaking air came from behind, followed by a huge rock flying towards Lin Tianhao.

Lin Tianhao moved and disappeared.

Chapter 1690 Obtain points and meet 3 people by chance!

When Lin Tianhao appeared again, a tall ape beast had already been beheaded by him.

"Ding, you killed the Starry Sky Demon Ape, experience points +50 billion, free attribute points +500."

"Ding, you devoured the Starry Sky Demon Ape, magic resistance +1000, armor +500, magic resistance +500, free attribute points +500."

After Lin Tianhao killed the Starry Sky Demon Ape, he directly devoured the Starry Sky Demon Ape's corpse.

And above it, the integral on the light curtain also changed from zero to two.

Think about this.

Lin Tianhao began to speed up.

Although his spiritual consciousness could no longer be used, Lin Tianhao had mastered the power of the realm of life and had a relatively strong sensitivity to life forms within a certain range.

Although the range of Devouring Heaven and Devouring Earth is also restricted, it can still cover an area of one thousand kilometers.

Coupled with Lin Tianhao's power of the Wind Realm and the Space Realm, as long as he senses the location of the star beast, he can kill it instantly.

For Lin Tianhao, this kind of competition for points by killing monsters is extremely easy.

In just a quarter of an hour, six star beasts had been killed by Lin Tianhao.

These star beasts are very fast and extremely powerful.

But in front of Lin Tianhao, he seemed a little too weak after all.

Lin Tianhao felt that when hunting these star beasts, he was completely attacking them from a dimensionality reduction perspective.

These star beasts, based on the strength they have shown so far.

Most of them only have the strength of the seventh or eighth level, and their ranks are not high among the seventh or eighth levels.

the most important is.

They don't even seem to have a territory.

of course.

It is also possible that they have a domain, but Lin Tianhao killed them so quickly that they didn't even have the chance to use the domain before they were killed by Lin Tianhao.

Lin Tianhao was hunting star beasts while looking for other trial participants.

This is not because Lin Tianhao wants to kill them.

Given Lin Tianhao's current speed in killing star beasts, it is almost impossible for others to surpass him.

The reason why Lin Tianhao wanted to find other trial-takers.

Because he needed to check and verify what the girl in the red dress said.

Because if only the girl in the red dress said that, then it is very likely a lie. But if it can be verified again from other people's mouths, it will be easier to tell the truth.

Lin Tianhao swept all the way, this level of difficulty was indeed not that great.

As Lin Tianhao went deeper into the primeval forest, the star beasts that appeared became more and more powerful.

"Ding, congratulations, you have successfully killed the Starry Sky Demon Fox, experience points +350 billion, free attribute points +3500."

"Ding, you have successfully devoured the Starry Sky Demon Fox, Magic Attribute Resistance +2000, Charm Resistance +1000, Magic Resistance +1000, Free Attribute Points +2000."

After killing the Star Demon Fox, Lin Tianhao's points increased by fifteen points.

When I killed the Star Demon Ape before, the points only increased by two points, which is a very fast improvement speed.

Lin Tianhao killed, devoured, and disappeared all the way. Two hours passed, and Lin Tianhao had not encountered even one trial-taker.

"Where have all these trial participants gone?"

Lin Tianhao frowned slightly. Judging from the previous light screen prompts, this hunting game actually wants the trial participants to fight each other.

Since we want them to fight each other, how can they not meet?

"Am I moving too fast?" Lin Tianhao frowned and thought.

He was just crushing his way forward, and his speed was indeed too fast.

If the other trial participants had charged in step by step, their speed would not have been as fast as his.

Think about this.

Lin Tianhao no longer continued hunting forward, but began to hunt star beasts in other directions.

More than half an hour passed before Lin Tianhao finally heard the sound of fighting ahead.

Lin Tianhao did not show up rashly, but moved closer.

When Lin Tianhao got closer, he found that there were three people hunting star beasts together.

"Have you formed a team?" Lin Tianhao frowned.

"I don't know if they knew each other before or if they formed a team after they came in."

Lin Tianhao restrained his breath and did not show his head rashly.

There were seven star beasts in front of them, and the corpses of six star beasts on the ground.

Look.

They must have used some method to attract these star beasts and then killed them all.

The three of them were extremely fast, and each move was clean and neat, without any unnecessary movements.

These star beasts were like toys in their hands. They dodged most of the attacks and inflicted heavy damage on the star beasts.

"Done. This is still a fast efficiency. At this rate, the top three in this trial game should be the three of us."

The woman in black leather jacket among the three said with some pride.

The resolute-looking young man in the lead shook his head and said:

"Although our efficiency in hunting star beasts is quite good, after all, there are only three of us sharing the points. If we encounter a powerful lone wolf, it will be difficult for us to win."

"How about we make friends?" Lin Tianhao stepped out.

When the three of them saw Lin Tianhao suddenly appear, they exchanged glances for a moment.

The next moment.

The three of them actually attacked Lin Tianhao at the same time.

Lin Tianhao activated the power of the spatial realm and directly froze the space around several people.

The bodies of the three people were frozen in mid-air, unable to move at all.

"The power of law?"

The three of them looked changed.

Lin Tianhao had just sensed that these three people actually mastered the power of the laws.

When they were fighting just now, the power of the laws that erupted was not strong.

The man with a resolute face possessed both the first level of the Law of Wind and the sixth level of the Law of Thunder.

If this were placed among the adventurers in Ragnarok, he could actually be considered quite powerful.

But in front of Lin Tianhao, he seemed too weak.

"Who are you, Your Excellency?"

"This method of freezing space, I'm afraid the way of space has reached the level of asking for the truth."

Lin Tianhao smiled and said:

"Does it matter who I am? Why did you attack me just because of a disagreement? You really don't take me seriously."

"Brother, this is just a trial game. There is no need to take it seriously. Now that you have suppressed us, just kill us and eliminate us."

"We are not as skilled as others, but we have no complaints!"

The one who spoke was still the resolute young man in the lead. He had just tried to use the power of the law of thunder to counter Lin Tianhao's method of freezing the space.

But the result was of no avail.

"Where are you from?" Lin Tianhao asked.

"Brother, it's just a small conflict, but you're still digging into it. Are you trying to get revenge offline?" said the woman in black leather jacket angrily.

"We were wrong this time, but that's the rule. If it were you, you would have taken action as well."
