

## O games 1691

Chapter 1691 Super radio wave transmitter!

Lin Tianhao looked at them meaningfully.

From what they expressed now, what the girl in the red dress said was indeed true.

"How much do you know about the virtual starry world?" Lin Tianhao asked.

This question made the three people present confused.

"Isn't the virtual starry sky world a virtual world created by the Starry Sky Administration? It is mainly to facilitate communication between various small worlds and star regions."

"And through the virtual starry sky world, one can gain enlightenment, practice magical powers, and so on. These are all well-known things."

The woman in black leather said as a matter of course.

The resolute young man frowned, "Brother, why would you ask this? Could it be that this virtual starry sky world has some unknown secrets?"

"The City of Disaster? The Void Realm? Or the Bottomless Abyss?"

Lin Tianhao raised his eyebrows. Their words made him more convinced that what the girl in the red dress said was true.

"Do you know where I can buy Enlightenment Cards in bulk?" Lin Tianhao asked again.

"The Starry Sky Administration." The woman in black leather jacket answered the question directly.

"I mean here, on Devil's Island!"

Lin Tianhao has no way to access the virtual starry world.

And judging from the fact that even the God King Ned Leef doesn't know the situation of the virtual starry world.

The God of the Source of Tao probably doesn't want them to know about the virtual starry world.

Then.

Inside Devil's Island?

The three people present were a little confused and obviously didn't quite understand why Lin Tianhao wanted to trade on Devil Island.

"That's not impossible. We'll just have to find someone to buy it for us. One Enlightenment Card is worth one Enlightenment Point, and we'll charge a certain fee based on the quantity."

Lin Tianhao was slightly startled, and clicked on one after realizing the truth?

really.

Was I still being tricked by that girl in the red dress?

"Brother, if you are willing, we can help you buy it, and there is no need to pay the purchase fee."

Lin Tianhao's eyes lit up and he said:

"Then help me buy a thousand."

"A thousand?"

The resolute young man was also a little surprised. He didn't know what Lin Tianhao was going to do with so many Enlightenment Cards.

The Wudao card will deduct a fixed amount of Wudao points every month.

"Is there any problem?" Lin Tianhao asked.

"No problem, but... buying a thousand Enlightenment Cards at once..."

The resolute young man hesitated.

He has a thousand enlightenment points, but what if Lin Tianhao plays a trick on him?

For him, these one thousand enlightenment points are already a considerable number.

Lin Tianhao also considered this issue.

One thousand enlightenment points were nothing but a drop in the bucket for him.

But what if I give it and the other party runs away?

"I can give you 300 enlightenment points first, and when you bring back the enlightenment card, I will give you another 800 enlightenment points so that you don't have to work in vain. How do you do that?"

Hear this.

The resolute young man's eyes lit up. He could get 100 enlightenment points in just one trip, which was already a great profit.

"it is good!!"

The resolute young man nodded heavily. He felt that Lin Tianhao was such a powerful man that he would not cheat him just to make him lose 700 enlightenment points.

"What's your name?" Lin Tianhao asked.

"Kun Daoyan."

Last name Kun? That's a bit strange.

But in the endless starry sky, any last name is possible.

"How long will it take you to come back?" Lin Tianhao asked.

"The fastest is one day, the slowest is three days."

"It's easy to go back and buy an enlightenment card, but it takes some time to get to this Devil Island."

"it is good."

Lin Tianhao can still wait for three days.

Think about this.

Lin Tianhao directly transferred three hundred enlightenment points to Kun Daoyan.

Even if he was cheated, it was only 300 enlightenment points, so Lin Tianhao didn't lose anything.

"Brother, goodbye. I will return to Devil Island as soon as I buy the Enlightenment Card."

"Okay." Lin Tianhao said with a smile.

The power to unfreeze space.

The three of them began to leave quickly.

Lin Tianhao continued to slaughter the star beasts.

"Ned Liv, the virtual starry world seems to be real." Lin Tianhao said.

"Yeah, I think it's true."

Nidlifu nodded, "The Enlightenment Card is actually the best evidence."

"This thing is not a product of Ragnarok, but it has such a magical effect. It must not be underestimated."

Lin Tianhao thought for a moment and said, "By the way, can I consider asking for external help?"

The number of enlightenment points he possesses is absolutely astronomical.

If we could invite a saint of heaven or a strong man from the realm of eternity, would it be possible to change the current situation?

"This is a good idea, provided that we can invite reliable helpers."

"The situation in the Alete Galaxy is still unclear, but you know the situation here."

"To be on the safe side, we must at least invite a strong person at the level of a Heavenly Dao Saint. But will such a strong person be reliable after he is invited?"

"If you accidentally let the wolf in, the situation will be much worse."

Lin Tianhao nodded. This was indeed a troublesome matter.

Although he thought this in his mind, Lin Tianhao stopped hunting star beasts every day.

Hunting more star beasts and devouring more star beasts will have a very obvious improvement on Lin Tianhao.

Not only that.

Lin Tianhao was also consciously looking for other trial-takers.

Because the safest way is to kill other trial-takers.

Lin Tianhao's hunting speed was very fast and there was basically no noise.

This went on for more than two hours before Lin Tianhao encountered the second wave of trial-takers.

This was a group of two trial-takers, and their method of killing was similar to that of Kun Daoyan and his two companions before.

It is done by attracting star beasts and then dealing with them in batches.

These two seemed to be a couple, and their tacit understanding in cooperation amazed Lin Tianhao.

And their way of attracting star beasts is very simple, that is a mechanical equipment.

Although Lin Tianhao was unable to release his spiritual sense, relying on his profession as a world-destroying mechanic, he could tell at a glance that this thing was able to emit electromagnetic waves of a certain frequency.

As long as the electromagnetic waves of this frequency are released, they can attract star beasts.

This is a good thing. If he can place more than ten at the same time and attract hundreds of star beasts, it will definitely be much faster than hunting them by himself now.

"die!!"

Lin Tianhao's Heaven-Devouring and Earth-Devouring Power was activated, directly killing the star beast that the two were dealing with.

Seeing that the star beasts they hunted were stolen, the two men did not get angry, but immediately looked around vigilantly.

The man even had a shield in his hand, as if to prevent a sudden attack.

"How many devices like this do you have?"

While the two were still on guard, they saw that the super radio wave transmitter they used to attract star beasts was held in Lin Tianhao's hand.

"Just this one."

The man took a step forward and stood in front of the woman.

"You are awesome, but the top three players in this trial game can get it..."

Before the man could finish his words, he was killed by Lin Tianhao.

Lin Tianhao has no interest in wasting time on them.

Chapter 1692 Black Hole Jumper!

There seems to be something wrong with this trial game no matter how you look at it.

Because from beginning to end, it never mentioned how long the trial would last.

one day?

three days?

It can't be just one month!!

This kind of trial game has no trial restrictions, otherwise the trial games on this Devil's Island have relatively fixed time limits.

Otherwise, the way to win this trial game is to kill!!

After killing all other trial-takers, the last person left will naturally be the one with the highest points.

and so.

These trial participants must all be carried away.

After sending the two trial participants away, Lin Tianhao began to look for star beasts to kill.

He did not use the device immediately because there was no need for it yet.

He can sense the life forms around him and move over to kill them, which is much more effective than using this thing to attract them and kill them.

Unless he can have more than a dozen such devices at the same time, so that he can place them in a dozen locations and kill them one by one.

Just one is obviously not enough.

Although he was thinking about it in his mind, Lin Tianhao did not show any mercy when he took action.

The next half day.

Lin Tianhao killed three more trial participants one after another.

If Kun Daoyan and the others have already left, then it counts.

There should be only one last trial-taker left here.

He just didn't know where this last trial-taker was hiding, and he hasn't found him yet.

The more this is the case, the more likely it is to be a dark horse.

I thought so.

Lin Tianhao sped up and began to look for the last trial-taker while hunting the star beasts.

Huang Tian deserves a caring person.

It took another two hours.

Lin Tianhao finally found this guy in the core area of the primeval forest.

The realms of these star beasts in the core area of the primeval forest are higher than Lin Tianhao expected.

Some star beasts are already comparable to the Nine-Revolution Star Glory level.

Unfortunately.

Even if it is comparable to the Nine-Revolution Star Level, it is still nothing in front of Lin Tianhao.

This last trial-taker has the appearance of a human, but his face is the same as Erlang Shen Yang Jian, with a third eye between his eyebrows.

At this time, he was holding a spear and killed three powerful star beasts in succession.

"Brother, the fact that you have come this far shows that you are also an expert. Leave by yourself to avoid failure."

The three-eyed young man spoke calmly. He was really very calm, without the slightest bit of arrogance.

It was as if he was just stating a very common fact.

"Do you look down on me so much?" Lin Tianhao asked.

The three-eyed young man shook his head and said:

"It seems like you won't listen to my kind words, so let's fight!!"

The three-eyed young man fired a shot and killed the star beast in front of him.

Then he put away his gun and stood up, his calm gaze falling on Lin Tianhao.

Lin Tianhao raised his hand and the space instantly froze the three-eyed young man.

The young man, who had been very calm, couldn't help but reveal a look of surprise on his face after being frozen by Lin Tianhao.

"If an ordinary person met you, he would have no chance of winning."

"It's a pity that your opponent is me."

As the three-eyed young man finished speaking, the third eye between his eyebrows slowly opened.

But right now.

The three eyes of the three-eyed young man widened at the same time, and he said with some difficulty: "No... It's not a moral code!!"

A tiny blood mark appeared on the neck of the three-eyed young man.

The moment the three-eyed young man finished speaking, his head fell off.

Lin Tianhao shook his head and said:

"It's amazing that you can open your third eye even when my space is frozen."

"It's a pity that you opened your eyes too slowly."

Lin Tianhao devoured all the star beasts that the young man had just killed, and then continued to hunt star beasts.

just.

Before Lin Tianhao could go hunting other star beasts, the light curtain appeared again.

"Congratulations, you have successfully killed the other nine trialists and become the trialist with the highest points."

"Reward: Black Hole Jumper +1, Enlightenment Points +1000."

Black hole jumper?

Lin Tianhao couldn't help but be stunned. Is it reasonable to reward this thing?

Black Hole Jumper: Special.

Usage requirements: None.

Effect: This object can be used to travel through black holes and complete the star domain crossing.

Cooling down: one month.

Consumption: One hundred low-grade spirit stones.

Wear resistance: 100.

This thing...

It's a bit useless.

It is indeed a rare good thing that can help him travel through the black hole.

But for Lin Tianhao, it is of no use at this stage.

unless.....

He plans to run away after Ragnarok merges with reality.

With this thing, you can achieve quick transition by traveling through black holes while running away.

Besides.

If they can achieve the final victory in the battle with the Aleta Galaxy.

Then this black hole jumper can also be used for research.

With luck, it might even be possible to mass-produce such black hole jumpers and thus complete space jumps.

Just as Lin Tianhao was thinking this, the light curtain appeared again.

[The primeval forest at night is particularly terrifying. Do you want to stay and try it out? If you can survive until dawn, you will receive a generous reward. ]

Below, options appear.

【whether】 .

Lin Tianhao pondered for a moment and chose [Yes] without hesitation.

If you survive one night, you should be able to get a reward, which will probably be even more generous than this reward.

After Lin Tianhao made his choice, Tianlong darkened.

In just a moment, the entire primeval forest was pitch dark.

Even Lin Tianhao's perception of life was greatly reduced.

This darkness seemed to block not only his eyes, but also his five senses.

Lin Tianhao possesses the power of the Dark Dao Realm, and at this moment he mobilized the power of the Dark Dao Realm.

With the help of the power of the dark realm, Lin Tianhao's vision began to gradually recover, and finally returned to the level of daytime.

All five senses have recovered to a certain extent.

Lin Tianhao was also looking forward to what would appear in the primeval forest in the dark night.

"Boom..."

"Dong dong..."

"Dong dong dong..."

Just now.

The sound of drums being tapped came from the primeval forest.

Every time the drum sounded, Lin Tianhao felt as if the drum sound was exploding on his heartstrings, making him very uncomfortable.

This drum sound is weird!!

A cold light flashed in Lin Tianhao's eyes, and he moved towards the direction where the drum sound came from.

With the help of space travel, Lin Tianhao arrived at the place where the drum sounded in just a moment.

As soon as he landed, Lin Tianhao felt a sharp pain in his heart.

In the open space ahead, a woman in a tattered red wedding dress was sitting on a stone.

She had a huge belly, which was abnormally big, as if there was a giant baby inside.

Chapter 1693 Woman in red wedding dress!

And at this time.

The woman in the red wedding dress was patting her round belly with her somewhat dry hands.

The heart-piercing "thump thump" sound came from her patting her belly.

The woman in the red wedding dress was still mumbling something.

"Sanbao, Sanbao, please grow up quickly and come out quickly. Sanbao, Sanbao, please grow up quickly and come out quickly..."

The woman in the red wedding dress clapped her hands and murmured.

Her belly actually began to grow slowly amid the patting and murmur sounds.

"Pfft-"

Just at this time.

Lin Tianhao held the Shura Sword in his hand and stabbed it directly into the protruding belly.

The face of the woman in the red wedding dress revealed a twisted look of pain.

But this twisted pain soon turned into a hideous smile.

"Hehe, are you polite? Using a knife on a pregnant woman."

Lin Tianhao grinned, "I'll give you a caesarean section for free, just be happy about it!!"

The words fell.

“Puff, puff, puff—”

The Shura Sword left an afterimage in Lin Tianhao's hand and stabbed madly into the belly of the woman in the red wedding dress.

Black dirty blood flowed out and a fishy smell filled the air.

Lin Tianhao slashed at the neck of the woman in the red wedding dress with his sword without hesitation.

He did not behead her directly because he wanted to see if the woman in the red wedding dress had any special methods.

But now it seems that this woman in the red wedding dress is not that strong.

But when the Shura Sword was only one millimeter away from the neck of the woman in the red wedding dress, a dry hand grabbed the Shura Sword and blocked Lin Tianhao's sword.

A withered monster appears.

He was so dry that only skin and bones were left. His skin was dark red, his eye sockets were sunken, and his head was bald.

But he was not completely bald. Above his left ear, there was a strand of long, dry hair that was a mix of black and white.

"Why did you stab my mom?"

The dry bald monster stared at Lin Tianhao with his sunken eyes that seemed to have no pupils.

"Bang bang—"

Two energy voids flew out and hit the bald monster's eye sockets.

Now... there are really no pupils!

"Why can't I stab your mother?"

Lin Tianhao asked back, and coupled with the two arrows just now, the bald monster was stunned on the spot.

"Bam—"

A black shadow appeared, and it was not clear whether it was a hand or a foot that hit Lin Tianhao in the abdomen, knocking Lin Tianhao away.

"So fast." Lin Tianhao was secretly shocked.

He just noticed the dark shadow, but he didn't pay much attention to it.

It was not until the black shadow took action that he realized how powerful it was.

Just a meeting.

Lin Tianhao was knocked away by the black shadow.

"You... Damn it, my mom is pregnant, how dare you hit her?"

The black shadow stepped out. Like the bald monster that had just appeared, he had dried up to the point that only skin and bones were left.

just.

His skin was dark red, as if it were dried blood.

Lin Tianhao did not take action immediately, but instead activated the Heaven Devouring and Earth Devouring Power and began to devour the woman in the red wedding dress and the two monsters in front of him.

The two monsters seemed to feel the devouring power exerted by Lin Tianhao, and they became a little anxious.

Then the two monsters attacked Lin Tianhao at the same time.

Lin Tianhao remained unmoved. The space froze them instantly, and continued to unleash the power to devour the sky and the earth, and began to quickly devour their life source.

"Ding, you devoured the Resentful Mother Demon, Resentment Resistance +2000, Armor +10000, Magic Resistance +2000, Free Attribute Points +2000."

"Ding, congratulations, you have successfully killed the resentful mother devil, experience value +895 billion, free attribute points +5000."

"Ding....."

.....

The two resentful mother devils were quickly killed by Lin Tianhao's Heaven-Devouring and Earth-Devouring Skill.

Just as they dealt with the two resentful devils, a white and tender little hand stretched out from the belly of the woman in the red wedding dress that was stabbed by Lin Tianhao.

Followed by.

A chubby white baby with bloodshot eyes crawled out of her belly.

He grinned at Lin Tianhao, revealing a mouth full of black fangs.

"call out--"

The monster baby rushed to Lin Tianhao in an instant, and its white and tender palms dried up the moment it slapped him, turning into sharp claws and grabbing towards Lin Tianhao.

There was a flash of cold light in Lin Tianhao's eyes, and it was still the simplest space freeze.

The monster baby's attack stopped when it was less than an inch away from Lin Tianhao.

then.

It was swallowed by Lin Tianhao using the Heaven-Swallowing and Earth-Swallowing Power.

"Ding, you devoured the Resentful Mother Demon, Resentment Resistance +2000, Armor +10000, Magic Resistance +2000, Free Attribute Points +2000."

"Ding, congratulations, you have successfully killed the resentful mother devil, experience value +859 billion, free attribute points +5000."

"You are so cruel, they are just children..."

"My poor baby..."

"My poor baby!!"

The woman in the red wedding dress let out a hysterical roar.

After the roar.

The woman in the red wedding dress revealed a strange smile on her face again.

"Since you killed my child, you can be my child."

"Come....."

"come....."

"Come into mother's belly soon..."

Following the call of the woman in the red wedding dress, Lin Tianhao's expression suddenly changed.

He only felt that a mysterious force descended upon him, making his consciousness become hazy, and he walked towards the woman in the red wedding dress somewhat uncontrollably.

The corners of the woman in the red wedding dress' mouth slightly raised, revealing a strange smile on her face.

Her belly, which was stabbed bloody by Lin Tianhao, was opening and closing at this moment, as if it was a terrifying big mouth that was ready to eat anyone.

Just as Lin Tianhao approached the woman in the red wedding dress, demonic patterns began to spread from his body.

These magic patterns made Lin Tianhao violent and ferocious.

These violent and fierce emotions actually caused his confused consciousness to gradually recover.

Lin Tianhao's expression changed slightly. He had just been tricked.

"You... are possessed by a demon..."

The woman in the red wedding dress stared at Lin Tianhao, with excitement on her face.

"Hahaha, good, great, it's good to be possessed by a demon..."

Along with a sharp and piercing laugh, the woman in the red wedding dress quickly rushed towards Lin Tianhao.

Lin Tianhao was still the same as before and directly froze the space.

This trick is old, but very effective.

Without any suspense, the woman in the red wedding dress was frozen on the spot.

But at the moment when the woman in the red wedding dress was frozen, a translucent figure jumped out from the body of the woman in the red wedding dress.

She looked exactly like the woman in the red wedding dress. The moment she jumped out, she rushed close to Lin Tianhao.

Lin Tianhao's body flashed and he avoided the attack from the woman in the red wedding dress.

"Ignore the soul body frozen in my space?"

Chapter 1694 Nano Aircraft!

Lin Tianhao's spatial realm is as high as the twenty-third level, even his soul would be frozen.

But the soul of the woman in the red wedding dress was actually immune to his spatial freezing.

but.....

She could be immune to Lin Tianhao's spatial freezing, but she could not be immune to the devouring power that swallowed the sky and the earth.

In just a breath, the soul of the woman in the red wedding dress began to dim at a speed visible to the naked eye.

Heavenly-level talent is so strong that it is unreasonable.

"Ding, you devoured the soul of the resentful mother, soul attack resistance +10000, soul power +100000, magic resistance +5000, free attribute points +5000."

"Ding, congratulations, you have successfully killed the Resentful Mother Soul, experience points +1525 billion, free attribute points +5000."

"Ding, you devoured the Resentful Mother, Soul Attack Resistance +10000, Soul Power +1000, Magic Resistance +1000, Free Attribute Points +10000."

.....

Under Lin Tianhao's Devouring Heaven and Earth Power, the resentful mother was easily dealt with.

If all the monsters at night were of the same level as the Resentful Mother, then it would not be difficult for Lin Tianhao to deal with them.

"Amitabha!!"

Just now.

A Buddhist chant suddenly sounded.

Lin Tianhao's expression changed slightly, because he didn't notice anyone nearby at all.

Turn around and look.

Lin Tianhao saw a monster that was over three meters tall!!

He held a huge Zen staff in his hand, and on the top of the staff were fist-sized white bone skulls.

It looks like a human skull, but normally, a human skull is not the size of a fist.

Unless... it's a premature baby.

On the top of this tall monster's head, there are also fist-sized tumors, and on those tumors, there are hideous yet childish faces.

Just looking at his appearance made Lin Tianhao feel an uncontrollable pressure.

"Donor, you have killed innocent people and have become a demon. Why don't you put down your butcher knife and become a Buddha right now!!"

This tall monster has a hideous and ferocious face, but its words are gentle and compassionate.

It was as if he really was the Buddha who saves people from suffering.

Lin Tianhao snorted coldly, "I am a demon, what are you?"

"He is clearly a demon, but he wants to pretend to be a Buddha. He is so hypocritical and slanders the reputation of Buddhism. Aren't you afraid of angering the real Buddha and bringing about a fatal disaster?"

The tall monster smiled grimly, "If I am not a Buddha, then there is no real Buddha in this world."

"Oh."

Lin Tianhao responded calmly, "If I kill you, I will know what kind of person you are."

"Swallow the sky and the earth!"

It was still the same trick, but the tall monster in front of him was actually disintegrating at a speed visible to the naked eye.

This was not his body, but a projection.

"Donor, put down your butcher knife and become a Buddha right now!!"

This projection had just collapsed when a new projection appeared on Lin Tianhao's left side.

Lin Tianhao still launched the Heaven-Devouring and Earth-Devouring Technique, and the same situation happened as before.

The projection collapsed and a new projection appeared.

"Donor, put down your butcher knife and become a Buddha immediately!"

"Donor, put down your butcher knife..."

New projections keep appearing, and they are all repeating this sentence.

Lin Tianhao's eyes narrowed slightly, he felt that his body seemed to be undergoing some unknown changes.

The methods used by this tall monster also contain the power of rules.

"The power of rules? I think I can devour it, too."

Lin Tianhao directly locked all the energy within a radius of 100 meters with the Devouring Heaven and Earth and began to devour it indiscriminately.

The surrounding trees, the soil and stones under the feet, and even the space began to collapse due to Lin Tianhao's devouring.

"What are you doing?!!"

A look of horror appeared on the tall monster's face.

"Do you want to destroy this world?"

Lin Tianhao said nothing, but continued to expand the range of his devouring, madly devouring everything around him.

"Ding, you devoured the ancient tree, health +1000, armor +50, free attribute points +50."

"Ding, you have absorbed the power of the devil's curse, evil curse resistance +100, magic resistance +10, free attribute points +10."

"Ding, you have absorbed the power of the devil's curse, evil curse resistance +100, magic resistance +10, free attribute points +10."

.....

Lin Tianhao continued to devour.

The shadow of this huge monster was still appearing, but it was becoming increasingly blurry.

"So this isn't your real body. You left a spell clone here. You want to force me to submit with this. You really look down on me."

A strange smile appeared on the tall monster's face.

"Did you find it?"

"You can deal with one of my spell clones, can you deal with my real body?"

"If this spell clone of mine is destroyed, my real body will lock onto you, and you will have no way to escape."

Lin Tianhao looked at the tall monster indifferently, "Run? Why should I run? If your real body comes, I will kill your real body as well."

When the words fell.

Lin Tianhao used all his strength to activate the Heaven Devouring and Earth Devouring Technique.

The power of the devil's curse was constantly being devoured by Lin Tianhao, and finally the projection of the tall monster completely dissipated and never appeared again.

After solving the problem of the devil's curse, Lin Tianhao did not sit still and wait for death.

Instead, he began to actively look for monsters.

Monsters in the dark seem to offer more rewards.

Instead of waiting for the monster to come to him, it would be better for him to go find the monster himself.

In this primeval forest in the dark night, there are all kinds of strange monsters.

In just one hour, Lin Tianhao dealt with four more monsters.

These monsters have strange methods, and basically all contain the power of rules.

But under Lin Tianhao's space freezing and swallowing of heaven and earth, these four monsters had no power to resist and were easily wiped out by Lin Tianhao.

But the tall monster who made the generous decision at the beginning did not appear.

Lin Tianhao wandered in the primeval forest, and wherever he passed, it was swallowed up by Lin Tianhao, leaving only a layer of soil.

Next.

Lin Tianhao continued to encounter strange monsters, but in the end they did not hinder him at all. They were all devoured by Lin Tianhao and turned into his nourishment.

Dawn pierces the darkness, sunlight shines on the earth, and the night passes quickly.

The night went smoothly and there were not as many troubles as Lin Tianhao had imagined.

Except for the woman in the red wedding dress who slightly confused Lin Tianhao's mind at the beginning, the strange monsters that followed did not affect Lin Tianhao and were all swallowed up by Lin Tianhao.

A light curtain appears.

[Congratulations, you have successfully spent a night in the primeval forest and dealt with many strange monsters in the dark. Rewards: Nano Aircraft +100, Enlightenment Points +50000, First-class Star Crystal +1000000. ]

Nano aircraft?

Another technological item.

But the trials here seem to have nothing to do with technology, and the rewards are actually all technological items.

Or.

This Devil's Island is related to technology, but it is still in the initial stage of testing, and technological tests have not yet appeared.

Chapter 1695: Nutrition chamber 9 kilometers underground!

While thinking this in his mind, Lin Tianhao also began to check the properties of the nano aircraft.

Nano aircraft: special.

Usage requirements: None.

Effect: Its internal structure has a small space with an area of more than 2 square kilometers, which can withstand the full-strength attack of ordinary third-grade gods, and the maximum flying speed is light years per hour.

Consumption: Star Crystal. (Star Crystal is consumed according to the activation of the defense system and flight system.)

Cooling: None.

Wear resistance: 100.

This stuff is pretty good.

This area of 10,000 square kilometers should have space array patterns engraved inside.

Besides.

The flying speed is pretty good, and the defense is average. The full-strength attack of an ordinary third-grade god is not very powerful.

Fortunately, there are a hundred of them.

However, these things do seem to be of little use to Lin Tianhao now.

After all, he couldn't have taken these things in order to use them in his future fight for dominance in the endless starry sky.

Just as Lin Tianhao was thinking about this, the light curtain appeared again in front of him.

[Once there was a great Buddhist master who encountered an unpredictable event here and became possessed by a demon. His existence threatens the primeval forest. Please find him, help him recover or kill him, and you will receive a richer reward. Alternatively, you can just leave.]

[Stay]—[Leave]

Lin Tianhao frowned. The Supreme Being of Buddhism?

Could it be that tall monster?

It is obviously wrong to say that he looks like a Buddha.

But if we say that it is the Buddha who has been possessed by a demon, it makes sense.

Apparently, this was a series of promotional trials, and the more he completed, the more rewards he would receive.

But the problem is.

These technological items are not of much use to Lin Tianhao at this stage.

but.

Lin Tianhao was not sure what the rewards would be in the future.

The current situation in the galactic world is already very bad. If he can get high-level enough technological items, he may have a chance to change the current situation in the galactic world.

Think about this.

Lin Tianhao chose to stay without hesitation.

[You chose to stay. If you kill more monsters infected by the weirdness, you will get purification points. You can use the purification points to purify the possessed Buddhist Supreme.]

[After last night's massacre, some strange monsters have discovered you. They may take action against you, so please be careful. ]

Text continued to pop up on the light screen.

And above, at the original point, a small light curtain appeared again.

[0/100000]

This small light curtain is more like a progress bar.

"Could it be that by collecting 100,000 purification points, we can purify the Great Supreme Being of Buddhism who has been possessed by the devil?"

Lin Tianhao murmured to himself.

Now the sun is shining in the primeval forest. Without the oppression of the night, Lin Tianhao feels much more relaxed.

This time the light curtain served as a reminder that those strange monsters would target him.

I just don't know how these strange monsters will appear.

He didn't even use the saint's vision last night, nor did he use many other methods.

Basically, the battle can be resolved by freezing the space in combination with Devouring Heaven and Devouring Earth.

Lin Tianhao was still the same as before, wandering in the primeval forest.

Having nothing else to devour, he devoured the trees of the primeval forest.

Each of these trees in the primeval forest can provide Lin Tianhao with hundreds to thousands of health points.

Even some larger ancient trees can provide Lin Tianhao with tens of thousands of health points.

After wandering in this primeval forest for more than an hour, Lin Tianhao devoured a lot of star beasts, but the purification points did not increase at all.

The progress bar above is still [0/100000].

The strange monster did not appear, and the possessed Buddhist supreme being did not appear either.

"Are those strange monsters the only ones that appear at night?"

Lin Tianhao frowned. If those strange monsters only appeared at night, it would be a waste of a lot of time for him.

He had been wandering around all night last night, but didn't find anything significant.

In other words.

He had to find the great Buddhist master who had been possessed by a demon, which was not an easy task in itself.

"It's impossible for strange monsters to disappear out of thin air. Judging from the frequency of encountering strange monsters last night, there should be a lot of strange monsters in this primeval forest."

"There's no reason why so many weird monsters would all disappear during the day."

Lin Tianhao thought secretly.

Since these strange monsters exist, all he has to do is find them.

Before, Lin Tianhao always swallowed it along the surface.

There is no obstruction in the sky, and Lin Tianhao's own spatial realm level is also high enough. Normally, there will be no monsters hiding in the void.

and so.....

The biggest possibility is underground.

Have a guess.

Lin Tianhao began to devour the ground beneath his feet.

A deep pit with a diameter of more than 30 kilometers appeared and became deeper and deeper.

Lin Tianhao went down all the way, devouring madly, all the way to a hundred kilometers underground.

"Not yet?"

Lin Tianhao frowned slightly, but did not give up, and continued to devour.

If not a hundred kilometers, then a thousand kilometers. Lin Tianhao felt that those strange monsters must be underground.

Two hundred kilometers underground...

Three hundred kilometers...

Four hundred kilometers...

.....

at last.

When Lin Tianhao swallowed 900 kilometers underground, a mysterious force descended upon Lin Tianhao.

"found it."

Lin Tianhao showed a satisfied smile on his face. He didn't care about the power descending upon him, but rushed towards the source of this power.

just.

When Lin Tianhao rushed down, he was surprised to find that there was a huge underground tunnel under this primeval forest.

This underground tunnel is interconnected, and on both sides of the tunnel are nutrition cabins of various shapes.

The appearance of these nutrition capsules is surprisingly similar to the nutrition capsules in Ragnarok.

What surprised Lin Tianhao even more was.

Inside these nutrition chambers, there were actually humans lying one after another!!

These people looked pale, and some of them had expressions of pain and distortion on their faces.

Wherever Lin Tianhao looked, there were nutrition cabins like this densely packed everywhere.

And the source of that mysterious power just now was actually just a miniature robot.

It is so weird that a technological item actually possesses the power of rules.

"If you find any human, arrest them immediately."

Red light flashed in the robot's pupils, and mechanical arms flew from all directions, trying to catch Lin Tianhao.

But Lin Tianhao did not move. He simply used the Heaven-Devouring and Earth-Devouring Power to devour these mechanical arms, including this robot.

"Ding, you devoured the unknown mechanical arm, armor +10000, magic resistance +5000, free attribute points +2000."

Chapter 1696 The man who sold his soul!

"Ding, you devoured an unknown robot, evil attribute resistance +5000, armor +20000, magic resistance +10000, free attribute points +5000."

.....

After Lin Tianhao dealt with the robot, he started to move forward along the tunnel.

This tunnel has no end and is connected in all directions. There are only nutrition cabins, and there is a person in each nutrition cabin.

What are these people doing in the nutrition cabin?

To use the words of the girl in the red dress before, this place should be fake.

Since it is a virtual world, what is the meaning of these nutrition capsules?

In a virtual world, virtual again?

and.

Judging from the complexions of these people, they all seem to be in poor condition.

Lin Tianhao used the power of the spatial realm to hide himself in the void, and then continued to move forward.

Because he did not continue to devour, Lin Tianhao's exploration speed was very fast.

He explored for hundreds of kilometers, and all he saw were such densely packed nutrition cabins filled with such people.

If the people in these nutrition capsules are all real people, then the number is quite terrifying.

What on earth happened and why are there so many people here?

Out of curiosity, Lin Tianhao finally opened a nutrition cabin.

He wants to wake up the people here.

When the nutrition cabin was opened, the pale-faced middle-aged man inside opened his eyes dazedly.

In addition to confusion, there was also deep fatigue in his eyes.

"Where...is this place?!"

The middle-aged man looked at Lin Tianhao, then looked around.

He was also shocked by the densely packed nutrition cabins.

After a while.

He roared madly:

"Run, run quickly, there is a big terror here, we have all been deceived!!"

The middle-aged man wanted to escape like crazy.

Lin Tianhao frowned and froze the middle-aged man directly.

"What on earth happened? Why are you in the nutrition cabin?"

There was extreme fear in the depths of the middle-aged man's eyes. "We have been used. This Devil Island Trial is a scam. We are imprisoned here."

"I don't know. Run. It probably hasn't woken up yet."

"Let me go, please let me go. It will be too late if we don't run now. Once it wakes up, no one will be able to escape."

"The Devil's Trial, is the Devil's Trial about to begin?"

Seeing this middle-aged man going crazy, Lin Tianhao couldn't help but whispered:

"You can go, but tell me, what happened?!"

It seemed as if he had stumbled upon something extraordinary.

This may involve the origin of Devil's Island.

"Devil Island is the dojo of an unknown devil. It tricks people into coming here in the name of trials in order to harvest their emotions."

"This is his talent. He can absorb the emotions of others to make himself stronger."

"Every time someone comes to participate in the Devil's Trial, a group of people will die. But these people are not dead. They are imprisoned here and dragged into the third world. Their emotions are stimulated in the form of the third virtual world, and their emotional value is harvested."

"I am one of those who was harvested."

Lin Tianhao pondered for a moment. The owner of the extremely powerful spiritual consciousness rippling on Devil Island was the devil that could devour emotional values?

"It seems we can't leave." Lin Tianhao looked around.

To the naked eye, nothing seems to have changed around.

But under the influence of Lin Tianhao's Heaven-Devouring and Earth-Devouring Power, Lin Tianhao discovered that there were many invisible monsters around him.

The monsters had surrounded them at this time.

"Ding, you devoured the Bloodfang Demon Eye, Demonic Energy Resistance +10000, Magic Resistance +10000, Free Attribute Points +2000."

"Ding, congratulations, you have successfully killed the Bloodfang Demon Eye, experience points +125 billion, free attribute points +2000."

.....

The moment these invisible monsters appeared, Lin Tianhao had already used his power to devour the sky and the earth to devour them.

"Let me go, and do it together." said the middle-aged man.

Lin Tianhao unfroze his space.

Long swords appeared in both hands of the middle-aged man, and he looked around vigilantly.

The two-handed sword is a relatively rare system among swordsmen.

"Pfft-"

Lin Tianhao didn't even see the middle-aged man take any action before a wolf head was thrown into the air.

A werewolf was beheaded by a middle-aged man.

Lin Tianhao was a little surprised. This should be a method similar to instant killing.

But it was this attack that made the middle-aged man's eyes become blurred, and he turned around and rushed towards where Lin Tianhao was.

Lin Tianhao is surrounded by the power of the space realm, and with the power of swallowing the sky and devouring the earth, most means cannot get close to Lin Tianhao.

These monsters are still a little difficult to deal with for ordinary people.

But for Lin Tianhao, these are all minor problems.

Lin Tianhao can't see them, but he can devour them by swallowing the sky and devouring the earth.

Monsters were devoured one by one by Lin Tianhao, and Lin Tianhao's purification points began to increase continuously.

At this rate, he would be able to collect 100,000 purification points in an hour at most.

but.

Lin Tianhao was still on high alert. There were so many monsters here, and it was also the place where the devil from Devil Island collected emotional points.

If he makes a scene here, there's no way the devil will sit idly by.

But what Lin Tianhao never expected was that even though his purification points had reached 100,000, there was still no powerful monster appearing to stop him.

The devil didn't appear either, as if there were only these garbage monsters here.

But for Lin Tianhao, there was a problem.

That is whether he needs to release those people in the nutrition cabin.

According to what the middle-aged man said, the people in these nutrition cabins were all plotted against and became tools for the devil to increase his emotional value.

But just listening to the middle-aged man's one-sided words is obviously not enough.

and so.

Lin Tianhao planned to release a few more people to see what they would say.

Thinking like this.

Lin Tianhao released another person.

The man looked very young, and he disappeared just as he opened his eyes.

But he had just disappeared and reappeared in the nutrition cabin.

Seeing himself back in the nutrition cabin, the young man showed an incredible look on his face.

"who are you?"

Lin Tianhao raised his eyebrows and said:

"Let the person out of here."

That's it.

Lin Tianhao looked around and asked:

"What's going on around here?"

"They are all dead." The young man said calmly.

"For some reason, we signed a contract with an unknown being to enter the virtual world he created."

"These people should be like me, selling their souls to achieve some goals."

Lin Tianhao frowned and said:

"Why are you running now that you've sold your soul?"

"Because I was deceived."

The young man's face looked a little grim. "Its consciousness is still there. It seems it can't leave."

Chapter 1697 The miniature world in the sarcophagus!

Lin Tianhao also felt a little strange.

What the young man said seemed to be different from what the middle-aged man said.

"Do you know Devil's Island?" Lin Tianhao asked.

The young man shook his head and said:

"I don't know. I was killed by my wife and I was unwilling to accept it. My soul wandered the world and was captured by an unknown existence."

"He told me that he could help me reincarnate and kill my wife for me, but the result was... he also captured my wife and used her to torture me."

Lin Tianhao's mouth twitched, "Is this how you play it?"

The young man nodded and said seriously: "This unknown existence seems to be able to collect the negative emotions we have."

Collecting emotional values is exactly the same as what the middle-aged people said.

But their purposes for coming here are different.

"Where are you originally from?" Lin Tianhao asked.

"Bai Ling Star Region."

Lin Tianhao frowned. He had never heard of this place. It should be a star field in the endless starry sky.

"What else do you know?" Lin Tianhao asked.

"For example... the Great Supreme Being of Buddhism!!"

Hear this.

A glimmer of hope flashed in the young man's eyes.

"know."

"Before, a great Buddhist supreme being broke into this place. He tried to rescue us and even fought with that unknown being."

"But we are still trapped here. I guess the great supreme being of the Buddhist sect failed in his battle."

"You were in the nutrition cabin, and you knew all this." Lin Tianhao was a little surprised.

The young man smiled bitterly and said:

"That great Buddhist supreme being released quite a few people back then."

"He released everyone near me."

"Later, he left here to save more people. After that, we were all captured and locked up in the nutrition cabin again."

Lin Tianhao nodded gently, "Then you should go back to the nutrition cabin."

The young man was stunned for a moment, "Can I not go back?"

"You are already dead. If you don't want to suffer, I can kill you." Lin Tianhao said.

The young man was silent, and finally he lay back in the nutrition cabin quietly.

See this scene.

Lin Tianhao closed the nutrition cabin, moved to another place, and opened a new nutrition cabin.

After opening seven nutrition cabins in succession, Lin Tianhao obtained all kinds of information from these people.

Most of these people are already dead and are imprisoned here.

Devil, collecting emotion values, these two points are surprisingly consistent.

Among these seven people, two of them knew about the Supreme Being of Buddhism.

Because their positions had been switched, Lin Tianhao could roughly determine the original movement trajectory of the Supreme Buddha of Buddhism.

Here comes the problem.

The trial game on Devil's Island was created by the devil himself.

The Great Supreme Being of Buddhism was once its enemy and had been possessed by it, so why would he issue such a mission?

Could it be that... the trial game has nothing to do with this devil.

Lin Tianhao was not quite sure, but based on his own speculation, he had arrived at a huge cave.

There are no nutrition chambers in this cave, but there are gray-white sarcophagi.

Lin Tianhao only took a glance and knew the number of sarcophagi here.

There are more than nine hundred sarcophagi here, and there are living beings in each of them.

Moreover, the number of living beings in each sarcophagus is extremely large.

Inside each of these sarcophagi, there is a secret realm, or in other words, a miniature world.

Are the guys in these sarcophagi also used to provide emotional value to the devil?

But then again.

These sarcophagi all seem to be valuable treasures.

Lin Tianhao has roughly covered all of them with his ability to swallow the sky and devour the earth. The space inside these sarcophagi is very large. If he can take them all down, he can make good use of them in the future.

Think about this.

Lin Tianhao opened a sarcophagus, and inside the sarcophagus was a light door.

Lin Tianhao moved and stepped into the light gate.

Passing through the light gate, Lin Tianhao appeared above the clouds.

Looking down from the top of the clouds, what comes into view is a huge island. The surrounding ocean area is not wide, only about a few dozen kilometers. Outside, there is a layer of fog, and the fog is the border.

And on this island, there are many people living.

Even...overcrowded.

The entire island is densely packed with high-rise buildings.

Some buildings are even more than one thousand meters high.

Besides.

There are also various technological products, aircraft, floating islands, etc.

"who?"

Just at this moment, a low shout was heard.

Followed by.

Then a robot with red light appeared in front of Lin Tianhao, staring at him vigilantly.

"Robot? Let the person in charge here come out." Lin Tianhao said lightly.

"You are not qualified to see our administrator."

"We have detected that you are not from Xuanxu Country. We will arrest you now. Please give up resistance, otherwise we will not rule out the use of violence, which will endanger your life."

The robot's emotionless electronic voice came.

There was no trace of emotion on Lin Tianhao's face.

He didn't even move, and one of the mechanical arms of the talking robot in front of him had already broken off.

"I don't like repetition. Let the person in charge here come out?" Lin Tianhao said lightly.

"A cultivator has been detected, requesting the Xuanxu Guards to be dispatched."

The robot still made that mechanical voice without any emotion.

The moment the sound fell, it actually exploded right in front of Lin Tianhao.

A shock wave swept towards Lin Tianhao.

However, the shock wave completely dissipated before it even got close to Lin Tianhao.

This was naturally the work of Lin Tianhao. It was somewhat wishful thinking to think that this shock wave could cause harm to him.

At the moment the robot exploded, a red laser shot towards his location.

But when the laser got a few meters away from Lin Tianhao, it was blocked by an invisible wall.

Followed by.

More and more red lasers were heading towards Lin Tianhao's location.

See this scene.

Lin Tianhao was somewhat disappointed.

The managers here are really stupid.

It is not wise to attack an unknown entity rashly.

especially.

This unknown existence can communicate.

"Boom boom boom——"

below.

All the robots that attacked Lin Tianhao exploded and were then swallowed by Lin Tianhao.

"Ding, you devoured the battle robot, mechanical resistance +500, armor +500, magic resistance +100, free attribute points +200."

"Ding, congratulations, you have successfully killed the battle robot, experience points +1.3 million, free attribute points +200."

Chapter 1698 Xuanxu Country, Killing the God and Demon Ye!

Just now.

Lin Tianhao felt an invisible and colorless wave sweeping towards him.

"Still not giving up?"

Lin Tianhao was a little annoyed. These guys here had no communication at all and just kept attacking.

In this case.

Then Lin Tianhao could only defeat them first, and then they would probably sit down and communicate with him properly.

Think about this.

Lin Tianhao did not hold back and took a step forward, stepping into the robot camp.

In just a moment, all the robots were annihilated.

It seemed that the shock caused by this attack was so great that no robot continued to attack Lin Tianhao.

After a minute, a middle-aged man in brocade clothes came out of nowhere.

His ability to walk in the air was not based on technological means, but on his own realm.

"Senior, I'm sorry for the offense just now. I hope you can forgive me." The middle-aged man bowed to Lin Tianhao with a humble attitude.

Lin Tianhao couldn't help but complain:

"Are you guys cheap? You have to fight before you can talk?"

Hear this.

The middle-aged man smiled awkwardly and said, "Senior, you misunderstood. That was the robot's own brain setting, and it has nothing to do with us."

Lin Tianhao waved his hand and asked:

"What is this place? How many people live here? Why are you here?"

Hearing Lin Tianhao's three consecutive questions, the middle-aged man was slightly stunned.

"This is Xuanxu Country, with a population of over 625 million. As for why we are here, we have lived here for generations."

"According to the history we have, it can be traced back to 5,000 years ago."

Lin Tianhao frowned. Five thousand years...

This Devil's Island seems to have existed for a long time.

"Do you have any enemies? Also, how do you practice?" Lin Tianhao asked again.

The middle-aged man looked solemn, "Our enemies are some brutal star beasts. Every once in a while, some space cracks will appear in our Xuanxu Country, and then a large number of star beasts will run out of the space cracks."

"It is for this reason that when the robot discovers an unidentified outsider, it will attack immediately and then upload."

"There is no regular pattern in the locations where the space rifts appear, so we can only use robots to patrol."

Lin Tianhao waved his hand and said, "Continue to answer my questions."

"Senior, our cultivation is mainly based on some ancient methods, which are the cultivation methods passed down from thousands of years ago."

"But no matter how much we practice, we won't be able to reach the level of our predecessors."

"Senior's strength is stronger than some king-level star beasts."

Lin Tianhao remained noncommittal.

King-level star beast?

Although he didn't know how the Xuanxu Country judged the level of star beasts.

But when Lin Tianhao was in the primeval forest before, he didn't encounter any star beasts with the power to resist.

In other words.

In the primeval forest above, no matter what level of star beasts, they are nothing in front of Lin Tianhao.

"There are so many people living in this tiny place of yours. Have you ever thought about leaving here?" Lin Tianhao asked.

The middle-aged man was slightly startled and said:

"leave?"

"I have had such thoughts before."

"We are trying to break through the boundaries of this world and head to a more distant land."

"Our ancestors in Xuanxu Country did work hard for this."

"A hundred years ago, Senior Zhou Buyu almost pushed open the barrier of this world."

That's it.

The middle-aged man's eyes revealed a hint of fear, "Just a hundred years ago, a gray-white leaf fell from the sky."

"From then on, all practitioners who achieved godhood would be killed by that gray-white leaf."

"We tried many methods, but we couldn't destroy the leaf or imprison it."

"now."

"There are no gods in our Xuanxu country anymore."

Hearing the middle-aged man's words, Lin Tianhao couldn't help but reveal an interested expression on his face.

Without him.

It is quite strange that a leaf can automatically kill gods.

If this is really the place where the devil harvests emotional values.

Then.

The grayish-white leaf mentioned by the middle-aged man is most likely the devil's trick.

"Where is the leaf?" Lin Tianhao asked.

"It's on the Xuanxu Tower in our Xuanxu country."

"This suspended tower is the center of our world, and the leaf is suspended there."

"Take me there." Lin Tianhao said lightly.

The middle-aged man did not hesitate at all and took Lin Tianhao towards the direction of the Xuanxu Tower.

"Senior, you are very powerful, but that gray-white leaf is something that can kill even gods."

Lin Tianhao glanced at the middle-aged man. What the middle-aged man said actually irritated him a little.

If he is really a young man with a lot of youthful energy.

When you say these words to middle-aged people, you will have some thoughts of proving yourself in your heart.

That might lead to the active destruction of this grayish-white leaf.

The area of Xuanxu Country is not large, so Lin Tianhao and the middle-aged man quickly arrived at the location of Xuanxu Tower.

This suspended tower is very tall, with 198 floors.

Lin Tianhao had amazing eyesight and he immediately spotted a grayish-white leaf hovering at the top of the suspended tower.

Take one step.

Lin Tianhao had already appeared next to the grayish-white leaves.

This grayish-white leaf looks very ordinary, if the middle-aged man hadn't said that this grayish-white leaf could easily kill gods.

Lin Tianhao also found it hard to believe that such an unremarkable little leaf could be so terrifying! !

That's right.

This thing is really a leaf!!

When Lin Tianhao first heard the middle-aged man talking about this grayish-white leaf, his first reaction was that this grayish-white leaf might be a magical weapon.

The only difference is that this magical weapon looks like a leaf.

But now, when he looked closely at the grayish-white leaf, Lin Tianhao discovered it.

This doesn't seem to be a magical weapon, it's just a leaf.

"You mean this thing can kill gods?"

Lin Tianhao did not feel any power of laws or attributes from this leaf.

It seems to be just an ordinary leaf.

"Yes, senior." The middle-aged man said respectfully.

While Lin Tianhao was observing this grayish-white leaf, many people in Xuanxu had already noticed the situation here.

"Why did the Ninth Elder bring a young man to see this God-Slaying Demon Leaf? Could it be that he thinks this young man can deal with the God-Slaying Demon Leaf?"

"This young man looks unfamiliar. Does anyone know who he is? He must be an extraordinary person to be able to get along with the Ninth Elder."

Chapter 1699 Divine Pill, Spirit Refining Pill, Body Tempering Pill!

"By the way, do you have any good things in Xuanxu Country?" Lin Tianhao asked lightly.

"If you can come up with enough chips, I might be able to find a way to help you get rid of this leaf."

The middle-aged man couldn't help but sigh when he heard this.

"Senior, this leaf can even kill gods. Ordinary means cannot hurt this leaf at all."

"and."

"We can see that this leaf is a warning from heaven to us. Don't have any evil thoughts, otherwise you will be doomed."

"So, we have given up on solving this leaf for now."

Lin Tianhao smiled and said:

"Are you willing to be a caged bird for generations?"

Hear this.

The middle-aged man was silent for a while, and then he said helplessly:

"Senior, there are some things that we cannot decide."

"In the past, our Xuanxu Country was able to give birth to gods, but it was because of our cross-border journey that we angered the heavens."

"Even if you really have great magical powers and can destroy the leaf in front of you, what will happen after it is destroyed? Will another branch or a dead tree appear?"

"The strong one is never the leaf, but the owner who cast this leaf."

Lin Tianhao nodded secretly and said with a smile:

"You guys are thinking very clearly."

The middle-aged man smiled bitterly and said, "What can I do if I don't understand it?"

"We can't even deal with our seniors, let alone God?"

Lin Tianhao grinned and said:

"That's not entirely true. How do you know that my strength is not as good as that [God] you mentioned?"

Although Lin Tianhao felt that judging from the strength of his spiritual sense, if he really faced that person, he would have no chance of winning.

but.

He possesses sixteen saintly visions and so many powerful skills. It is hard to say who will win or lose if he faces that person.

of course.

The prerequisite is that the other person's realm cannot be too outrageous.

If it is a saint in full condition, or even higher, then there is no need to fight, as they are completely not in the same league.

The middle-aged man did not pay too much attention to Lin Tianhao's words, but smiled and said:

"Senior, this is a good thing. We in Xuanxu Country do have it, but I don't know if you like it."

"As for the request, we do need your help, and it's not too difficult for you."

Lin Tianhao did not listen to the request, but asked directly:

"What do you have?"

This Xuanxu Country is a country that is imprisoned in a coffin. Lin Tianhao has no idea what kind of thing there is in such a country.

But in this case, there is a high probability that you don't have what you need.

"Divine Pill."

The middle-aged man looked at Lin Tianhao seriously and said, "This thing is no longer of much use to us now."

"But it can increase the probability of breaking through the Divine Realm by 20%."

Increase the probability of becoming a god?

This still seems pretty good.

Theoretically, after the ninth transformation, one can master the laws and have the conditions to break through to the realm of gods.

But why are there realms like demigod and pseudo-god?

This is because meeting the conditions and truly breaking through to become a god are two different concepts.

"In addition, we also have various kinds of elixirs such as spirit refining pills, body tempering pills, sublimation pills, etc." said the middle-aged man.

Lin Tianhao couldn't help but be stunned for a moment, and said:

"I see that you seem to be a technological civilization here. You actually have so many elixirs."

The middle-aged man nodded and said seriously:

"Our Xuanxu Country has always been a country that advocates cultivating immortals. Everyone had a direction before, so we researched a lot of elixirs that can help people grow and become gods."

That's it.

There was a hint of bitterness on the middle-aged man's face.

"But ever since Senior Zhou Buyu failed to break through the sky a hundred years ago, this leaf appeared and slaughtered the gods. Our Xuanxu Nation has lost its original ambition."

"In order to live a better life, I naturally started to study technology."

Lin Tianhao was a little surprised. "You mean, in just a hundred years, your technology has developed to its current level?"

The middle-aged man nodded and smiled: "Yes, we both seem to have good talents in research and development."

"Before, we were researching and developing elixirs, and now we are researching and developing technology. Both are research and development, and both are progressing rapidly."

"Show me your pills." Lin Tianhao said as a matter of course.

The middle-aged man did not hesitate. He raised his hand and several jade bottles appeared in front of Lin Tianhao.

"Divine Spirit Pill, Spirit Refining Pill, Body Tempering Pill, Sublimation Pill."

The middle-aged people introduced themselves one by one.

Lin Tianhao picked up the first jade bottle, opened it, and poured out a pill from it.

After getting the elixir, Lin Tianhao discovered that I seemed to be able to check the properties of the elixir.

Divine Pill: Special.

Usage requirements: None.

Effect 1: Increase 100 million free attribute points.

Effect 2: When reaching the peak of mortal status, the probability of becoming a god can be increased by %.

(Note: Anyone who is at the peak of the extraordinary realm or fails to be promoted can obtain 1 million free attribute points)

Abrasion resistance:100.

After seeing the properties of this magical pill, Lin Tianhao was so surprised.

One million free attribute points are not of much use to Lin Tianhao at this stage.

But what if it's a monkey?

With Monkey's talent, these one million free attribute points in his hands would be equivalent to 50 million free attribute points! !

"How many of these divine pills do you have left?" Lin Tianhao asked.

"It is extremely difficult to refine the divine pill. If I work hard, I should be able to collect a hundred divine pills." said the middle-aged man.

Lin Tianhao's eyes lit up.

One hundred divine pills, this seems not bad.

"This thing is really useful to me."

Lin Tianhao checked the effect of the Spirit Refining Pill again.

Spirit Refining Pill: Special.

Usage requirements: None.

Effect 1: Increase soul power by 1000 million.

Effect 2: For practitioners in the mortal realm, the maximum soul power can be increased by 10%.

(Note: The maximum increase of 10% includes the 1 million soul power of effect 1000.)

Abrasion resistance:100.

This Spirit Refining Pill... is also a good thing.

and.

This Spirit Refining Pill is still quite precious!!

This is quite rare.

Next is the Body Tempering Pill.

Body Tempering Pill: Special.

Usage requirements: None.

Effect 1: Maximum health +10 billion.

Effect 2: Armor +500 million.

Effect 3: Magic resistance +500 million.

Effect 4: Maximum health, armor, and magic resistance are all increased by 10%.

(Note: The attribute bonuses of effects 1, 2, and 3 are all increased by 4% by effect 10.)

Abrasion resistance:100.

Lin Tianhao: ? ? !

to be frank.

At the beginning, Lin Tianhao really felt that this small country in the sarcophagus would most likely not be able to produce anything that would satisfy him.

But now.

Lin Tianhao had to admit that he was wrong, extremely wrong!!!

Chapter 1700 Benefits and Requests!

This Xuanxu country gave him a huge surprise.

Lin Tianhao did not expect that the sarcophagus he opened casually could give him such a big surprise.

At last.

There are also sublimation pills.

Sublimation Pill: Special.

Usage requirements: None.

Effect: After use, the grade will be increased by 1. It is ineffective for diamond grade and above. It can be used repeatedly until it is upgraded to diamond grade.

Abrasion resistance:100.

Lin Tianhao was stunned. Is this reasonable?

Can these things be researched in a captive microcosm?

I'm afraid there isn't some alchemy giant here.

"As long as there are enough materials, we can theoretically mass-produce these pills," said the middle-aged man.

That's it.

He hesitated for a moment before continuing:

"Among them, the difficulty of refining the Divine Spirit Pill and the Refining Spirit Pill is relatively much higher, but it also depends on the situation."

Lin Tianhao smiled and said:

"What do you want me to do?"

He could rob it, but the middle-aged man mentioned the alchemist because he wanted to tell him that they could provide elixirs later and he couldn't kill the chicken for warmth.

not to mention.

Lin Tianhao has no intention of snatching it now.

"I want to use the elixirs here to exchange for information from the outside world. I also hope that you can help us and take some of the people from our Xuanxu Country away from here."

Lin Tianhao was a little surprised, but he also said:

"That's easy to say. I don't know what specific information you want to know."

"The cultivation system, realm division, regional civilization, resource situation, situation of individual cultivators, and talent assessment." said the middle-aged man.

Lin Tianhao pondered for a moment, focused his consciousness on his fingertips, raised his hand and pointed, then transmitted the information he knew into the middle-aged man's mind.

The middle-aged man was in a daze for a moment, and then an expression of disbelief appeared on his face.

"Is the situation outside so bad?" The middle-aged man knew some information about Devil's Island and some information about Ragnarok.

"so."

"If you let the genius of your Xuanxu country go out with me now, it may not necessarily have a good result."

Lin Tianhao transmitted a lot of information to the middle-aged man, but did not mention anything about the virtual world.

after all.

Lin Tianhao felt.

The land of China is not a virtual world.

Whether it was the memories of his previous life or the information he had learned himself, they were all telling Lin Tianhao the answer.

As for this Devil's Island, Lin Tianhao couldn't explain it clearly.

For now.

Devil's Island should be the same as the City of Disaster. It does not completely belong to Ragnarok, but can be reached here through Ragnarok.

In Ragnarok, Lin Tianhao also knew a place similar to Devil's Island and the City of Disaster.

That is... the Godkilling Academy!!

Lin Tianhao doesn't know much about many things about Devil's Island and the City of Disaster, but he still knows something about the Deicide Academy.

These three places are all extraordinary.

The City of Disaster only has one time and space cultivation pagoda, but it is already superior to many places.

That thing is definitely not a god, no, even a saint is not qualified to control a treasure like the Space-Time Cultivation Pagoda.

after all.

A man is innocent but guilty of possessing a treasure! !

Even a saint cannot protect such a treasure.

This Devil's Island, where a leaf can easily kill gods and spirits, should not be underestimated.

"Do not."

The middle-aged man stared at Lin Tianhao meaningfully and said very seriously:

"I'm going, I have to go, this is what we have to do."

"Before our predecessors arrived, we had already speculated what the world outside the heavens was like."

"The results of the speculation are not very good, but it is not rational to go against God now, so we need someone to step out."

That's it.

The middle-aged man's expression became extremely serious:

"We didn't have a chance before, but now it's different. This opportunity is in front of us, and we have no reason to refuse it."

Lin Tianhao nodded and said:

"I have told you the information you wanted. Now, can you tell me how many people you plan to take away with you?"

The middle-aged man thought for a moment and said:

"We can take out no less than one million of these pills. Of course, the total amount will not be less than one million. Most of them will be Sublimation Pills and Body Tempering Pills, followed by Spirit Refining Pills, and the last one is the Divine Spirit Pills."

Lin Tianhao's eyes lit up.

In fact, the bonus of one million free attribute points of the Divine Pill is less valuable to Lin Tianhao than the Spirit Refining Pill, Body Tempering Pill and Sublimation Pill.

After all, the impact of these three kinds of elixirs on the global situation is enormous.

"If possible, we hope that you can take 100,000 people away."

"One hundred thousand people?"

Lin Tianhao was a little surprised. He had originally expected that the other party would choose to let him take dozens of geniuses away.

But I didn't expect there would be 100,000 people.

"If we eventually leave here, we must fight against the unknown God. We hope that a new Xuanxu country will be born outside."

"With a hundred thousand people, it is entirely possible to form a brand new Xuanxu country."

"We can wait for a thousand years, or even ten thousand years, until a being who can rival Heaven appears in the Xuanxu Country outside, and come to rescue us."

That's it.

The middle-aged man smiled bitterly and shook his head, saying:

"Even if there is no existence that can fight against Heaven in the end, there is still the Xuanxu Country outside this world."

Lin Tianhao pondered for a moment. If there were millions of these pills, it would be of great help in training the people under him.

He has a map of mountains and seas, so even a million people, let alone 100,000 people, would not be a problem.

"One hundred thousand is not enough, how about one million? However, I want one hundred alchemists." Lin Tianhao said.

The middle-aged man was stunned for a moment and said:

"One hundred alchemists are no problem. We in Xuanxu Country have always advocated the art of alchemy."

"Although we haven't continued to develop new elixirs for a long time because of this leaf, there are still many alchemists."

That's it.

The middle-aged man paused for a moment before continuing:

"but....."

"I'm afraid I'll disappoint you, senior. There are only sixty-nine alchemists in the entire Xuanxu country who can refine these four kinds of elixirs."

These sixty-nine people are extremely precious treasures in our Xuanxu country.

Lin Tianhao hesitated for a moment and asked:

"So what do you think is appropriate?"

The middle-aged man thought for a moment and said:

"The status of these sixty-nine people is no lower than mine. I cannot decide whether they stay or go. This matter needs to be discussed, and I can also do my best to fight for it."

"But one million pills in exchange for Senior taking 100,000 people away. I can make the decision on this."

Lin Tianhao nodded and said seriously:

"Then let's do this first. You prepare the elixirs and people. You can also consider the matter of the alchemist."
