

O games 1701

Chapter 1701: Meteoric Divine Stone, Awakening Altar!

"it is good."

The middle-aged man nodded heavily. "I'll arrange a place for you. You can have a good rest. There happens to be an auction tonight. Maybe there will be something you like. If you have any ideas, I can take you there."

"it is good."

Auctions are the best place to see what's available.

The elixir is already so extraordinary, if there are other good things, it probably won't be too bad.

"Here is a Supreme Card with a limit of 100 billion Suspended Coins. If you like something, you can buy it yourself."

Lin Tianhao nodded slightly, and under the guidance of the middle-aged man, he came to a villa to live.

"Please take a rest here, senior. If you need anything, please feel free to ask." said the middle-aged man.

Lin Tianhao smiled and said:

"It's okay. Just wait for the auction. Also, hurry up with the personnel and elixirs."

"Okay, then, senior, take a rest first."

The middle-aged man said goodbye and left, and Lin Tianhao lay on the sofa in the living room with his eyes closed to rest.

The things that happened after his rebirth began to emerge involuntarily in his mind.

Although he encountered many setbacks along the way, he finally got through it.

He had been preparing for so long just to fight against those guys from the Aleta galaxy.

Now, the arrival of the Aleta Galaxy is getting closer and closer.

According to the time trajectory of the previous life, the Alata Galaxy did not invade the Blue Planet in a large-scale manner right after it arrived.

But this time it's a little different. Because of my rebirth, those guys in the Alete galaxy may make changes to their layout.

The most critical issue.

Or was it a betrayal by Heaven? This was something Lin Tianhao had not expected.

now.

It is true that the external threat has not been resolved yet, and internal troubles have arisen.

If he wants to change the current situation, does he need to change his original idea?

At the beginning.

Lin Tianhao felt that as long as he was strong enough, he would be able to change his fate and fight against those guys in the Alate Galaxy.

Especially when he awakened the Hand of Heavenly Punishment, he was full of fighting spirit and felt that the future was promising.

But until now.

His strength has grown to a level far beyond expectations.

But that's it.

Lin Tianhao no longer had the same sense of relaxation as before, because the higher his realm became, the more he realized how insignificant he was.

There are too many people above him who are at a higher level and stronger than him.

While Lin Tianhao was thinking, night fell.

During this time, the middle-aged man brought food and Lin Tianhao ate a little bit just for the experience.

"Senior, the auction is about to begin. You can enter now." The middle-aged man said respectfully.

Lin Tianhao put away those messy thoughts and followed the middle-aged man to a tall building.

At this time, there were already quite a few aircraft parked in the air, and people dressed in gorgeous clothes stepped into the tall building.

"I heard that the Meteorite Divine Stone will be auctioned at this auction. It is a rare treasure, but I wonder who will get it?"

"Forget about the Meteorite Stone. For us, it would be good enough if we can auction off some elixirs to help the younger generation improve their strength a little bit."

"Now that I can't become a god, there's no point in trying to reach a higher realm. After all, we already have brain wave technology that allows us to upload our consciousness. If that doesn't work, uploading our consciousness means eternal life."

.....

Lin Tianhao listened to their discussions. This uploading of consciousness was somewhat similar to the previous Mokosha Kingdom.

The auction was very lively and the venue was packed. With the opening speech of a beautiful auctioneer, the auction officially began.

Lin Tianhao and the middle-aged man were sitting in the private room at the top, and the first item to be auctioned had already appeared below.

"Today's first lot is a Rejuvenating Pill, which was made by the ninth-rank alchemist Ge Hongyang. It can keep a person's appearance unchanged for a hundred years. It is a rare treasure for all the beauties."

"The starting price is 500,000, and each bid cannot be less than 50,000."

Anti-aging pill?

The appearance remains unchanged for a hundred years?

If this thing was on the previous Blue Star, it would probably cost several hundred million and someone would be willing to pay for it.

"one million."

"1.2 million."

"One million and three hundred thousand."

.....

The price kept rising and soon reached five million.

Lin Tianhao was not interested. In Ragnarok, he didn't need to worry about aging.

Having left Ragnarok, with his current state, he doesn't need to worry about this problem.

After taking the Rejuvenating Pill.

Some items were auctioned one after another, including weapons, mecha blueprints, and martial arts secret manuals, but Lin Tianhao didn't like any of these items.

To Lin Tianhao, these things are too ordinary.

at last.

Lin Tianhao saw the so-called meteorite divine stone.

"Isn't this... the god-level talent awakening stone?"

The middle-aged man said respectfully to Lin Tianhao:

"Senior, this thing can awaken the talents of some special people. It is a very good thing."

"Don't you have any other stones with awakening talents here?" Lin Tianhao asked.

"No, but we have the awakening altar."

The middle-aged man said seriously:

"The awakening altar can only awaken the first four levels of talents. We divide them into four levels: A, B, C, and D. Level A is the highest and level D is the lowest."

"There are also some people who are unable to awaken their talents."

"Until one day, this divine meteorite fell from the sky and was obtained by a girl who failed to awaken at the awakening altar. It actually helped her awaken a more advanced talent."

"We defined it as S-level. Later, more and more meteorite stones fell one after another. We just discovered that this meteorite stone can help those who have no talent to awaken a stronger talent."

"To be precise, everyone has talent. The Awakening Altar can only help people with low talent to awaken their talent."

After hearing what the middle-aged man said, Lin Tianhao nodded secretly.

This awakening altar is quite good. Judging from the level classification of middle-aged people, it should correspond to the Ragnarok of the Gods.

If he could also build such an awakening altar...

"Who built an awakening altar like yours?" Lin Tianhao asked.

The middle-aged man shook his head and said, "I don't know."

"These awakening altars have existed in our Xuanxu country before."

"These awakening altars are very special. We have studied them for thousands of years, but we still haven't figured out the principles behind them."

During the conversation between the middle-aged man and Lin Tianhao, the price of this god-level talent awakening stone has exceeded 2 billion Xuanxu coins.

"No one can become a god, but the competition for this thing is still so fierce." Lin Tianhao said with a smile.

The middle-aged man nodded and said seriously:

"It's natural."

"There are strong and weak people even among the gods. We are a country with hundreds of millions of people. There are still many conflicts of interest among families and factions."

"Having one more top fighter will have a huge impact."

Chapter 1702 Contact, 39 Alchemists!

Lin Tianhao nodded slightly but didn't say much.

The final price remained at more than 2.35 billion and was won by a white-haired old man.

After this auction, Lin Tianhao found that there was basically nothing he wanted.

His current level is indeed too high compared to that of Xuanxu Country.

"Let's go."

Auction ends.

The middle-aged man took Lin Tianhao back to the villa.

"Senior, we have already contacted those alchemists."

"Thirty-nine of them are willing to follow you and leave."

Hear this.

Lin Tianhao was slightly surprised.

Thirty-nine. This was beyond his expectations.

"But they each have their own conditions."

Lin Tianhao nodded. Those who could refine those four kinds of pills were not ordinary alchemists. It was normal for them to have requirements.

If they agreed to follow him without any request, Lin Tianhao would worry whether there would be any problems.

"What conditions?" Lin Tianhao asked.

The middle-aged man hesitated for a moment and said:

"They hope that the pills they refine can be exchanged for the swings they need, or exchanged for points to exchange for swings."

"Also, they will only spend half of their time refining these pills. The other half of the time, they can arrange it freely."

That's it.

The middle-aged man immediately said:

"But don't worry, senior. The free arrangements these alchemists are talking about are actually more about developing new elixirs."

Lin Tianhao nodded and said:

"no problem."

The Fan Palace itself has a relatively complete contribution value system.

and.

For an alchemist to grow, he needs to try to refine new pills.

"The second request is to share the recipe. They are willing to share their recipes, and they also hope that the seniors can share their recipes, or... help them collect recipes."

"no problem."

Even if the other party didn't tell them about this request, Lin Tianhao would help them collect the recipes.

After all, the collected recipes can help them improve their proficiency in alchemy.

The proficiency of an alchemist cannot be improved by just refining the same kind of elixir over and over again.

Lin Tianhao has mastered the art of transformation from one breath to three pure ones, and he has worked on the proficiency of his secondary profession before. So he knows something about the proficiency of his secondary profession.

Seeing that Lin Tianhao agreed so readily, the middle-aged man hesitated slightly.

"Senior, there is... a third request."

Obviously.

The middle-aged man felt that with Lin Tianhao's strength, although those alchemists had respected status, they could make so many demands, and he was still a little worried about angering Lin Tianhao.

"It's okay, just tell me what you think." Lin Tianhao said.

"Third, they can recruit apprentices on their own and assign them to do things. They won't ask you for resources, but you can't interfere with what they do now."

"They just need to hand over a certain amount of pills to you every month."

Lin Tianhao raised his eyebrows. This request seemed a bit redundant, but it also made Lin Tianhao feel that what these alchemists wanted to do after leaving Xuanxu Country was not simple.

Seeing that Lin Tianhao did not agree immediately like before.

The middle-aged man couldn't help but feel a pang in his heart.

He felt bitter in his heart, but he had expected this to happen.

After all, which good person can accept so many conditions?

especially.

Lin Tianhao is also a super strong man.

"This is fine too."

Lin Tianhao still agreed, this was not a big problem.

More importantly, as long as these people join Fan Palace, they will be absolutely loyal to him.

therefore.

For Lin Tianhao, the conditions proposed now are indeed not a problem.

"However, I also need to say that once you join my forces, you cannot do evil things, even if you are the apprentices that these alchemists will accept in the future."

Hear the words.

The middle-aged man nodded slightly and said with a smile:

"It's natural."

"Most of the alchemists in our Xuanxu country are obsessed with alchemy. They are obsessed with making pills and have no mood to do anything else."

Lin Tianhao nodded with satisfaction, "If there is nothing else, you can gather people and I will take them away."

"it is good."

The middle-aged man nodded heavily, "The people have actually been selected, please follow me, senior."

Lin Tianhao followed the middle-aged man into the aircraft. Soon, Lin Tianhao arrived at a place where the army was located.

"You're going to let me leave with a million troops?"

"Yes."

The middle-aged man nodded heavily. "Compared to other people, soldiers' beliefs are purer and more firm."

It is undeniable.

That's really good.

"Because only thirty-nine alchemists are willing to leave with you, we finally decided to let you take six hundred thousand people away."

"Of these, 500,000 are male soldiers and 100,000 are female soldiers."

Lin Tianhao narrowed his eyes slightly. This arrangement was quite interesting.

That's it.

The middle-aged man had a storage bag in his hand.

"One million pills, senior, please take a look."

Lin Tianhao took the storage bag, glanced at it lightly, and nodded with satisfaction:

"good."

"Arrange someone."

The middle-aged man nodded and immediately began to arrange people.

Six hundred thousand people gathered faster than Lin Tianhao had imagined.

In just fifteen minutes, six hundred thousand people had assembled.

Lin Tianhao sacrificed the Map of Mountains and Seas and mobilized the power of the Space Realm. In just a moment, the power of the Space Realm sent the 600,000 people into the Map of Mountains and Seas.

at this time.

The thirty-nine alchemists also stepped forward.

Their eyes fell on Lin Tianhao, looking at him with some interest.

"How confident are you that you can take us out of this world?"

One of the alchemists who looked very young asked.

"100%." Lin Tianhao was very confident.

If he dared to enter the miniature world in the sarcophagus, he would not be afraid of not being able to get out.

But after hearing Lin Tianhao's confident words, the alchemists became a little worried.

"Okay, then it's up to you, Senior."

The middle-aged man saw that these alchemists had some doubts about Lin Tianhao's ability, so he took the initiative to step forward and smooth things over.

Lin Tianhao nodded, and with a wave of his hand, he included all thirty-nine people into the map of mountains and seas.

Finish these.

Lin Tianhao smiled at the middle-aged man and said:

"gone."

The words fell.

Lin Tianhao took a step forward and disappeared.

And at this time.

Next to the middle-aged man, a graceful figure appeared.

"Do you think he can get out?" The beautiful figure raised her eyes and looked up at the sky.

"I don't know." The middle-aged man shook his head.

"Hasn't his combat capability been assessed before? Moreover, he must have some abilities to be able to come in."

That's it.

The middle-aged man smiled bitterly and said:

"Besides, whether God will stop him is another matter."

Chapter 1703 Innate Qi!

The middle-aged man's words had just fallen.

The leaf floating above the Xuanxu Tower also flew into the sky.

"coming!!"

The beautiful eyes of the beautiful figure moved slightly, and a virtual projection appeared in her sight.

And the person in that projection was Lin Tianhao.

The grayish-white leaf was quietly blocking Lin Tianhao.

A cold light flashed in Lin Tianhao's eyes, "I want to leave, you want to stop me?"

He didn't take direct action against the gray-white leaves before because he hadn't found the Devil's Island's Sky Punishment Equipment yet, so he didn't want to create any more trouble.

But he didn't expect that even though he didn't make a move, the gray-white leaves didn't even think of letting him go.

Regarding Lin Tianhao's words.

The grayish-white leaves turned a deaf ear, as if they couldn't hear anything at all.

But Lin Tianhao knew.

A treasure of this level as the gray-white leaf should be intelligent.

"It seems like you are determined to stop me from leaving." Lin Tianhao said indifferently.

Since he had to take action, there was no need for him to be merciful.

Swallowing the sky and the earth!!

Lin Tianhao's first move is to devour. No matter what level of treasure you have, as long as he devours you completely, no matter how powerful you are, it will be useless.

"call out--"

The moment Lin Tianhao used the Heaven-Devouring and Earth-Devouring Power, the gray-white leaves also flew towards Lin Tianhao.

"boom--"

A huge roar resounded through the sky, immediately alarming many people in Xuanxu Country.

"What's going on? The sound seems to be coming from the sky. Could it be that... someone said they are starting to try to ascend to the sky?"

"How is that possible? Ever since that piece of God-Slaying Demon Leaf appeared, no one has tried to ascend to the sky for who knows how long."

"There is God above the sky. Climbing to the sky is like hitting a rock with an egg."

.....

Above the sky.

Lin Tianhao blocked the first attack of the gray-white leaves.

The space instantly separated the gray-white leaves.

At the moment the leaves were frozen, traces of lines appeared on the grayish-white leaves that had always been unremarkable.

"Kaka...kaka..."

The space began to break apart, and this gray-white leaf actually showed signs of breaking through Lin Tianhao's frozen space.

"It's so powerful." Lin Tianhao was secretly shocked.

If so.

How powerful must the owner of this leaf be?

Lin Tianhao used all his strength to activate the Heaven Devouring and Earth Devouring Power. All he could do was use the power of Heaven Devouring and Earth Devouring Power to weaken the power contained in the leaf itself.

"call out--"

At this moment.

The grayish-white leaf broke through Lin Tianhao's frozen space and attacked Lin Tianhao again.

"Burn!!"

Lin Tianhao did not move, he just pointed a finger casually, and endless flames were covered by the leaf.

If this leaf is really some kind of tree leaf, then it will definitely be affected when facing Lin Tianhao's fire attack containing the nineteenth level of the Dao Realm.

however.

What Lin Tianhao never expected was.

The gray-white leaf actually passed through the flames unharmed.

"boom--"

There was another roar, and a huge lotus shadow appeared behind Lin Tianhao.

Saint's Vision: Space Lotus!!

"go!!"

The space lotus fell down, and in an instant the gray-white leaves were entangled in it.

"Om—"

"Buzzing—"

The grayish-white leaves began to tremble wildly, trying to break free from Lin Tianhao's space lotus.

But the space lotus was constantly rotating, and it easily dissipated the power on the gray-white leaves.

Lin Tianhao continued to use the power of swallowing heaven and earth to devour the power contained in the gray-white leaves.

The grayish-white leaves were unable to break free from the space lotus and could only be swallowed by Lin Tianhao bit by bit.

"It seems to have worked."

below.

The woman next to the middle-aged man showed a look of surprise on her face.

"According to our investigation, this senior is not a deity, but he has restricted the power of the God-Slaying Demon Leaf."

The middle-aged man nodded and said seriously:

"Great Elder, if you take action, are you sure you can restrain this God-Slaying Demon Ye?" the middle-aged man asked.

The woman did not answer, but just looked at the light screen in front of her.

"Look."

"It's not enough to restrict Tushenmoye just like this."

"If the speculation is correct, God is about to take action."

As if to confirm what the woman said, a hole was torn in the void above the sky.

A finger stretched out from the torn void and pointed towards Lin Tianhao's location.

Lin Tianhao frowned slightly, "Is this what is called God?"

I just don't know if this God is the devil from Devil's Island.

But no matter whether it is true or not, if someone attacks him, Lin Tianhao will fight back.

Saint's Vision: Mysterious Rain of Ice Soul!!

Lin Tianhao used the saint's vision again, and a drizzle began to fall from the sky.

The rain fell on that finger and froze it instantly.

And at this time.

Suspended in the country.

At this moment, the hearts of everyone who was watching the battle in the sky were in their throats.

"God has taken action. As expected, as expected, as long as someone can threaten that piece of God-Slaying Demon Leaf, God will definitely take action."

"Now that Heaven has taken action, can this senior still withstand Heaven's attack?"

"I hope he can stop it. It would be best if he can kill Shangcang. Only then can we possibly escape from here."

Lin Tianhao froze this finger, but the power that swallowed the sky and the earth was still madly devouring the God-Slaying Demon Leaf.

"Kaka...kaka..."

The ice that froze the fingers began to crack, but new rain immediately fell and froze the fingers again.

Is this God?

Lin Tianhao looked at the finger and was slightly surprised.

One finger was not as powerful as he thought.

At least.

Judging from the current situation, the power unleashed by this finger is not that strong.

If only.

Then this God might not be as powerful as he imagined.

This piece of God-Slaying Demon Leaf should not have originally belonged to this God.

It is very likely that it is similar to when one obtains a carving knife, and when one's realm is not high enough, one can control something that is far beyond one's current realm.

As Lin Tianhao was thinking, the gray-white leaf became darker and darker as he devoured it.

Originally, this grayish-white leaf could still fight against Lin Tianhao.

Now, he had no power to resist and was easily swallowed by Lin Tianhao.

"Ding, you swallowed the innate Bodhi leaf, innate energy +100, enlightenment points +1 million, free attribute points +1000 million."

Lin Tianhao was a little surprised. Innate Qi, what is this thing?

One hundred million enlightenment points, this was something Lin Tianhao had not expected.

"boom--"

At this moment.

A powerful force burst out from that finger, breaking free from Lin Tianhao's freezing force.

Chapter 1704 1 A complete set of Heavenly Punishment equipment!

Just when Lin Tianhao was preparing for a peak showdown with this so-called [God], the finger was actually pushed away.

But after breaking free from the freezing force, the finger actually retreated.

In an instant, the sky was clear and everything returned to calm!

"Solved? Heaven didn't even continue the attack!!"

"Are you afraid, or do you feel that you are no match for this senior?"

"The God-Slaying Demon Leaf seems to have been destroyed, and Heaven has not continued to attack. Can we leave this world now?"

.....

Many of the Chinese people who were watching this battle in the sky had a little more anticipation in their eyes.

"Perhaps we were all wrong from the beginning. The God-Slaying Demon Leaf is powerful, but that doesn't mean the God who sent down the God-Slaying Demon Leaf is also powerful."

"The power displayed by Shangcang's finger just now doesn't seem to be particularly strong. In fact... it's not as strong as the God-Slaying Demon Leaf."

.....

In Xuanxu Country, many people were discussing this incident.

The God-Slaying Demon Leaf is gone.

Not only that.

The [God], whom they have always been very afraid of, does not seem to be as powerful as they imagined.

That being the case.

Then can they consider fighting against God and leaving this world?

As more and more masters from Xuanxu Country emerged, they actually became aware of many problems themselves.

They...seem more like birds in a cage, and someone doesn't want them to leave this world.

They didn't see any hope before, but now it's different.

What happened today gave many of them hope.

however.

Lin Tianhao didn't know what they were thinking.

At this time, after the finger left, Lin Tianhao also took a step forward and left the miniature world in the sarcophagus.

After coming out of the sarcophagus, Lin Tianhao looked at the sarcophagi in front of him, and his expression became a little complicated.

There is a miniature world in each sarcophagus.

There are so many sarcophagi, how many people are there here?

There are hundreds of millions of people in a Xuanxu country, and with so many sarcophagi added together, the number must be hundreds of billions, or even trillions.

and.

Lin Tianhao's gains in Xuanxu Country made him realize that the miniature world in these sarcophagi should not be underestimated.

There is a high probability that he can get the good things he needs from these micro worlds.

But so many sarcophagi mean so many miniature worlds. If he were to explore each world one by one, it would take too much time.

Now that the fusion of Ragnarok and reality is getting closer and closer, Lin Tianhao no longer has time to explore so many microcosmic worlds.

unless.

Bring all these micro worlds into the City of Disaster, enter the Space-Time Cultivation Tower, and explore them one by one. Only in this way can it be possible to explore the situations in these micro worlds in a short time.

"Come out."

Lin Tianhao spoke lightly. While he was observing these sarcophagi, he also discovered an uninvited guest nearby.

"You are the one who just attacked me."

Lin Tianhao's voice remained calm, and a figure gradually materialized and appeared in front of Lin Tianhao.

He has an ordinary appearance, and there is nothing special about his aura.

"Ah."

The young man nodded. "No one has been here for a long time. Why did you come here?"

Lin Tianhao raised his eyebrows and said:

"Can't I come here?"

"I guess so. Someone checked where you came down from. It's incredible that you actually dug through the earth."

"That's quite a big project."

Lin Tianhao did not comment, and said with a smile:

"What I'm actually more concerned about now is, where exactly is this place?"

"Didn't someone tell you? This is the place where an adult collects emotional points." The young man said calmly.

Lin Tianhao hesitated for a moment before saying:

"Where is that adult?" Lin Tianhao asked again.

"Asleep." The young man replied.

"Your aura is very special, and your methods are very strange. I don't want to fight with you. Can you leave by yourself?"

Hear the words.

Lin Tianhao shook his head and said:

"I have no problem leaving, but the purpose of my coming here has not been achieved yet."

"What do you want?" the young man asked.

Lin Tianhao smiled slightly and said:

"Heavenly punishment equipment."

The young man was slightly startled and said:

"Will you leave now that you have taken the Heavenly Punishment Equipment?"

"I mean leaving Devil's Island."

When Lin Tianhao saw the young man's reaction, he didn't know what to say for a moment.

"Why? Are you willing to give it to me for free?"

"Of course!"

The young man nodded heavily, "Why not?"

"Since you want it, I'm willing to give it to you."

"The Heavenly Punishment Equipment itself is not something particularly precious."

"My master made nine sets of it at the beginning, so it's okay to give you one set."

Lin Tianhao: ???

How much did you say? ! !

set?!!

What was the point of all the hard work I put into finding so many pieces of Heavenly Punishment equipment?

The other party now said so casually that he could give him a complete set of Heavenly Punishment equipment.

"Don't be so surprised."

The young man remained calm and said, "The existence of the master is beyond your imagination. The things he refines are naturally extremely precious."

Lin Tianhao was silent.

Is this wrong?

to be frank.

"Take the thing out and let me see it." Although Lin Tianhao was shocked, he knew very well that if he just said it, anyone would say it.

Ultimately it all depends on whether the young man will actually come up with a set of equipment for him.

then.

The young man didn't even think about it and directly took out a complete set of equipment.

"My Lord once said that the standard number of Heavenly Punishment Equipment is fifteen pieces. He made them in batches, and they were also fifteen pieces each."

"But the Lord also said that the special nature of the Heavenly Punishment equipment means it can be customized into a set of 19 pieces, but that requires finding those top refiners to help you refine it!"

Lin Tianhao took the set of Heavenly Punishment equipment from the young man and checked the properties of the equipment.

Heavenly Punishment Longbow: Unknown.

Wearing requirements: Sky Punishment Archer.

Effect 1: Sky Punishment attack speed +10, not affected by the phased reduction in attack speed.

Effect 2: Percentage damage reduction of 5%, still effective against gods.

.....

Ring of Heavenly Punishment: Unknown.

Wearing requirements: Sky Punishment Archer.

Effect 1: Sky Punishment attack speed +1, not affected by the phased reduction in attack speed.

Effect 2: Percentage damage reduction of 5%, still effective against gods.

.....

Lin Tianhao casually checked these Tianfa equipment and found that there was no problem.

And because the Tianfa equipment is now complete, Lin Tianhao discovered that this Tianfa equipment also has a set effect.

The Sky Punishment equipment has twelve-piece set effects and fifteen-piece set effects, which requires more pieces than ordinary sets.

Chapter 1705: Beginning to Become a God!

For most common sets, six pieces are enough to create a set effect; for some special ones, even three pieces are enough to create a set effect.

Only higher-level ones will have more pieces of set effects.

And similarly, the effect of such a set will inevitably be more powerful.

Think about this.

Lin Tianhao immediately checked the set effects of the Tianfa set.

Sky Punishment Set: Unknown.

Wearing requirements: Sky Punishment Archer.

Effect 1: Your body is one with the heaven and earth, the heaven and earth are you, the Tao returns, the Dharma comes, all the laws of the heaven and earth are at your disposal, your speed of enlightenment increases 10000 times, and the effect of your Tao increases 10 times.

Effect 2: Gathering with the Heavenly Dao, breaking through the extreme limit of the mortal Dao, you can enter the realm of the Heavenly Dao, and the speed of enlightenment increases 10000 times.

Lin Tianhao: ???

These two effects...

Is it reasonable?

These are the two effects of the Heavenly Punishment equipment, which are a bit stronger.

Isn't this... just taking off from the spot?

If his way can enter the realm of heavenly way, then the threat posed by Yuanshi Tianzun will be much smaller.

"Okay, thank you very much. I have a deal with someone on Devil's Island. After the deal, I will leave."

"I know, go ahead!"

With a wave of the young man's hand, the world changed.

The next moment.

Lin Tianhao unexpectedly appeared next to Kun Daoyan.

Kun Daoyan was a little surprised to see Lin Tianhao suddenly appear, but he didn't ask much and directly took out the Enlightenment Card.

"Brother, the things have been brought here, take a look."

Lin Tianhao simply checked the items and then paid the remaining enlightenment points.

"I'm leaving first, come on guys."

According to the agreement, he should leave Devil's Island now.

Although Lin Tianhao didn't quite understand why the people from Devil's Island would give him a complete set of Heavenly Punishment equipment.

And the purpose is just to send myself away.

There must be a big secret on Devil's Island.

But Lin Tianhao doesn't care now.

With the complete set of Heavenly Punishment equipment, his speed of enlightenment increased by 20,000 times.

And the most critical part is coming.

Lin Tianhao now has the conditions to break through to the Dao realm.

He can break through to a higher level.

and so.

Lin Tianhao needs to go to the City of Disaster next.

If one wants to improve the power of the Dao realm in the shortest possible time, the City of Disasters is obviously a very good place.

After coming out of Devil's Island, Lin Tianhao took a step and arrived at the entrance to Jiuyou.

Now that he is in Ragnarok, he can reach most places he wants to go in one step.

One more step.

Lin Tianhao entered the Nine Netherworld and headed towards the direction of the City of Disaster.

Before coming here, Lin Tianhao also considered whether to bring Fatty and the others along, but he gave up in the end.

Fatty and the others all have their own opportunities. It might be better to let them play freely.

and.

If Fatty and the others didn't have any greater opportunities.

Then even if he brought Fatty and the others to the City of Disaster, their realm would not improve much.

however.

When Lin Tianhao arrived at the location of the City of Disaster again, he was surprised to find that the City of Disaster had disappeared.

"Has the City of Disaster already left, or will the City of Disaster not stay in this place forever?"

Lin Tianhao frowned. The information he had learned in the City of Disaster was.

The City of Disaster is an independent place.

The City of Disasters that he saw was actually just a gateway to the City of Disasters, not the real City of Disasters.

But now.

The portal to the City of Disaster has disappeared.

This has somewhat slowed down Lin Tianhao's improvement progress.

Without the City of Disasters, his progress in attaining enlightenment would be greatly affected.

"It seems that the next thing to do is to change jobs first."

Without the time and space cultivation pagoda in the City of Disaster, Lin Tianhao would not even be interested in enlightenment.

Now all we have to do is see if we can complete the twelve turns.

As for the Thirteenth Turn, that is not something Lin Tianhao can consider now.

Although Lin Tianhao already has a complete set of Tianfa equipment, in order to change his job, he needs other things in addition to Tianfa equipment.

The news that Lin Tianhao had received before was that the super god-level hidden career transfer altar could only support him to complete the twelve transfers.

As for the Thirteenth Turn, it is not feasible for the time being.

and.

Even if it works, it is almost impossible for Lin Tianhao to complete the thirteen turns.

Because... Level!!

Judging from Lin Tianhao's current upgrade situation, it is almost a pipe dream for him to reach level 200,000.

unless.....

He can upgrade automatically.

After all, judging from the leveling up by killing monsters, even after all his efforts over this period of time, his level is still less than 99,000.

It would be difficult for him to meet the requirements for the twelfth job change.

In addition to changing jobs.

Lin Tianhao still has one step to go.

That is becoming a god!!

If the gods could help, he wanted to improve his strength in a short period of time, and becoming a god seemed to be the best option.

After twelve transformations to become a god, coupled with Lin Tianhao's own control over various ways, his future achievements will be immeasurable.

"Let's upgrade first!"

Now he is still some distance away from level 100,000, and it is not an easy task to complete the job change.

Come out from the Nine Netherworld.

Lin Tianhao went directly to the sea.

The place with the most high-level wild monsters is undoubtedly the sea.

With Lin Tianhao's current level, slaughtering sea beasts is an extremely easy task.

The only thing to worry about is.

If he slaughters the sea beasts like this, would it attract the strong ones among the sea beasts to take action?

after all.

At this stage, the gods can take action again.

therefore.

Lin Tianhao didn't dare to guarantee whether there would be another god appearing among the sea beasts.

However, in the current situation, he has no other choice. If he wants to upgrade quickly, he can only attack the sea beasts.

at the same time.

Lin Tianhao also began to carefully examine the Sky Punishment Set he had obtained this time.

Lin Tianhao had already obtained ten pieces of Heavenly Punishment equipment before.

Sky Punishment Ring, Sky Punishment Cloak, Sky Punishment Boots, Sky Punishment Heart Mirror, Sky Punishment Shoulder Pads, Sky Punishment Helmet, Sky Punishment Ring, Sky Punishment Necklace, Sky Punishment Inner Armor, Sky Punishment Longbow.

These are the ten pieces of Heavenly Punishment equipment that Lin Tianhao had obtained before.

In this time's Sky Punishment set, Lin Tianhao also obtained Sky Punishment Armor, Sky Punishment Shoulder Pads, 2 Sky Punishment Wristbands, and Sky Punishment Bracelet.

Except for the Sky Punishment Shoulder Guard which Lin Tianhao had obtained before, the others were equipment that Lin Tianhao had never obtained before.

With the addition of five new pieces of Sky Punishment equipment, Lin Tianhao's attributes are even higher.

Not only that.

Lin Tianhao can also acquire a few more skills in the field of Heavenly Punishment.

At this stage, many of Lin Tianhao's skills, except for those few expensive percentage skills, are no longer useful when Lin Tianhao faces gods or even stronger opponents.

Just when Lin Tianhao was checking the Tianfa equipment, a server-wide announcement suddenly sounded.

"Announcement to all servers, congratulations to the player Sun Never Sets Yue Mu for successfully achieving enlightenment. We hereby announce this and hope all adventurers will keep up the good work!!"

Chapter 1706: Entering the City of Disaster Again, the Mysterious Old Man!

Look.

Recently because of the gods' departure.

These guys can no longer sit still and begin to attack the realm of gods.

At this moment.

Mad Blade made a video call to Lin Tianhao.

Lin Tianhao answered the video call, and the serious face of Mad Blade appeared in the video.

"What's the matter?" Lin Tianhao asked.

"Now, adventurers from all over the world have begun to become gods one after another. According to our statistics, there are already 151 gods who have been announced by the whole server."

"Moreover, at least ten new gods are born every day. Most of them become gods through divine nature, a few become gods through enlightenment, and some become gods through incense offerings."

Listening to what Mad Blade said, Lin Tianhao was not too surprised.

His existence has benefited most adventurers.

These benefits allow them to waste much less time in the early stages, so that they have more time to attain enlightenment or reach a higher level.

"What do you want me to do?" Lin Tianhao asked.

Mad Blade hesitated for a moment before saying:

"Now that I have become a god, are there any hidden dangers?"

"If not, can we start a plan to mass-produce gods?"

Hear these words.

Lin Tianhao shook his head and said:

"do not know."

"I can't see through the current situation now, because I don't know what tomorrow will be like."

Berserker Blade was silent for a while before he asked:

"I wonder if you, Boss Xuedi, would consider becoming a god?"

"Becoming a god is a path that must be taken, but to be honest, I don't want to become a god right now."

"But for some reason, I seem to have reached the limit of what I can achieve now."

If Lin Tianhao completes the twelve revolutions, then the only ways for him to improve his strength are enlightenment and becoming a god.

And he has already reached the peak of the Tao realm. If he goes one step further, it will take a very long time to attain enlightenment.

Although it has the effect of the Sky Punishment Set, Lin Tianhao still feels that it is a bit slow.

"Do you know the City of Disaster?" Lin Tianhao asked.

The City of Disasters is a portal. If it is not in the Nine Netherworlds, then there is a high probability that it is somewhere else.

"Of course I know. Nowadays, many countries have sent experts to the City of Disaster. The time and space training pagoda in the City of Disaster is a rare place."

Lin Tianhao was stunned. He just asked casually, but he didn't expect that the City of Disasters actually appeared in other places in China.

"Where is the City of Disaster now?"

If the City of Disaster is still there, then he will have to consider what to do next.

He can choose to continue to gain enlightenment.

After all, enlightenment is the foundation of growth.

of course.

The prerequisite is that Lin Tianhao needs to complete the twelve turns first.

"The City of Disaster suddenly appeared near Sunset Town. We suspect that it may disappear after a period of time."

"So now most of the top adventurers are using the City of Disaster to improve their Tao levels."

Lin Tianhao nodded secretly, this was indeed a trouble.

Upgrade at any time.

But the City of Disaster may not always exist.

Think about this.

Lin Tianhao took a step forward and arrived outside Sunset Town.

really.

Sunset Town is very lively at this time.

As his spiritual sense spread out, Lin Tianhao saw the City of Disaster outside Sunset Town at a glance.

Lin Tianhao stepped into the City of Disaster and found the location of the Space-Time Cultivation Pagoda with ease.

There are obviously fewer people here. After all, not everyone has so many points of enlightenment to use for enlightenment.

"You're here!" Yue Hu appeared beside Lin Tianhao.

Lin Tianhao nodded gently, "I have three things to do on this trip, I hope Senior Yuehu can help me."

"Improve grade? Upgrade? Enlightenment?" Yue Hu asked.

Lin Tianhao nodded slightly and said seriously:

"Yes, that's exactly what I want."

"You are already at the eleventh level, and not far from the twelfth level. With your enlightenment points, there will be no problem in upgrading your level."

"Improving the grade is not a problem either."

"Can you help me reach level 13, or even level 14?"

Lin Tianhao has enough Heavenly Punishment equipment. If the other party can help him continue to upgrade, then this City of Disaster will be able to allow his strength to reach an unprecedented level.

Behind.

Even if he really faced Yuanshi Tianzun, who was at the level of a Heavenly Saint, he might not be without a chance of winning.

"We can give the thirteenth level a try, but our City of Disaster branch does not have the resources for the fourteenth level for now."

"Level 13 is fine too, so upgrade the quality first, then the level."

Being able to complete the job change directly here would be the best thing for Lin Tianhao.

"it is good."

Yue Hu personally took Lin Tianhao to the place where the quality was upgraded.

"Your profession seems to be somewhat special. It may require some external conditions to upgrade."
Yue Hu continued while leading the way.

Lin Tianhao nodded gently, "It requires Heaven Punishment Equipment and a Super God-level Hidden Class Transfer Altar."

"I have the Heavenly Punishment equipment, and I can also find the Super God-level hidden class transfer altar."

"If we only help you improve your realm without upgrading your rank, it will be easier for us."

"But according to my observation, your profession, the thirteenth transformation, the ordinary super god-level hidden profession transformation altar should not be enough."

"Do you have it here?" Lin Tianhao asked.

Yuehu nodded gently, "No, but we have other things that can replace it."

"it is good."

Lin Tianhao showed a look of satisfaction on his face. If he could complete the thirteen turns, his combat effectiveness would increase significantly.

The key is.

If he becomes a god after thirteen transformations, he will be able to crush the gods of the same level with his strength.

In conversation.

Lin Tianhao and Yue Hu have arrived at the place for upgrading.

"Given your current situation, you need 8,000 enlightenment points to upgrade your level. For you, it's just a drizzle." Yue Hu said.

Lin Tianhao nodded slightly and immediately prepared to pay the enlightenment points.

But right now.

A mysterious force instantly descended upon Lin Tianhao.

The next moment.

Lin Tianhao saw an old man with a sage-like appearance appear beside him.

Lin Tianhao raised his eyes and saw that there were mysterious laws flowing around this person.

Even with Lin Tianhao's current realm, he felt that his own Tao was as small as dust in front of the other party.

"Who is the senior?"

When Yue Hu saw the person coming, her eyes narrowed slightly, with a hint of displeasure in her eyes.

After all, she was doing a deal with Lin Tianhao at that moment, and the old man suddenly appeared in front of her and interrupted the transaction.

Although she could see that the old man in front of her was at a high level and not easy to provoke.

But she also has the City of Disaster behind her, so she doesn't really need to be afraid of ordinary strong men.

"I came here to make some good connections with the City of Disasters."

Chapter 1707: Grade +1, Holy Product!

Yuehu looked at the white-haired old man meaningfully and said:

"I don't know what the good karma that the senior is talking about is?"

The white-haired old man pointed at Lin Tianhao and said:

"Now that the Galaxy World and the Alite Galaxy are about to go to war, and the person from the Galaxy World has disappeared ahead of time, there may be a bigger black hand behind the scenes."

"Under the current circumstances, if the City of Disaster helps the Snow Emperor to improve his strength, it may provoke some unknown existence."

"As long as you drive the Snow Queen away, you will be able to avoid this cause and effect."

Hear this.

Lin Tianhao's face darkened. Just by hearing these words, Lin Tianhao understood that this so-called cause and effect was nothing more than an excuse.

The person in front of me was probably sent by Yuanshi Tianzun.

"We in the City of Disaster are just doing some business. I don't care about cause and effect, and I don't want to think about it."

"But you, are you trying to ruin our business?"

The white-haired old man shook his head and said seriously:

"Girl, you have misunderstood me. Everything I said is for your own good."

"For our own good?"

Yuehu smiled without comment and said:

"If you really want to do us a favor, why not give us a few billion of your enlightenment points?"

"A long time ago, one of my teachers told me that if someone tells you that it's all for your own good, then let him give you money."

"If the other party is willing to give you more than half of their wealth, then it is truly for your own good. Otherwise, they are just trying to take advantage of you, blackmail you morally, and are just being rude to you."

That's it.

Yuehu looked straight at the white-haired old man and said with a smile:

"I wonder if you are willing to give half of your wealth to me?"

Hearing Yue Hu's words, the white-haired old man remained calm, but there was a hint of anger in the depths of his eyes.

I've just lived long enough to be able to hide my emotions very well.

"Little girl, what you said is wrong. Being good to you does not necessarily mean giving you money. Does saving your life count as being good to you? Does helping you out of trouble count as being good to you?"

Yuehu nodded and said with a smile:

"Of course I do, but there's also a saying that goes, 'To cut off someone's financial resources is like killing their parents.'"

"The senior is going to kill my parents, but he still says it's for my own good. How can I accept this?"

The white-haired old man waved his hand and said:

"Little girl, what you see now may not be good. Red-hot gold may burn your hands if you touch it."

Yuehu shook her head and laughed:

"Senior, I am not very knowledgeable, so I will not argue with you."

"If you are interested, you can go to the Debate Tower in our City of Disaster and give it a try. If you are successful in the debate, you will be rewarded handsomely."

The white-haired old man's expression finally couldn't hold back anymore and turned gloomy.

"After all, this is the land of China. If I am willing, I can prevent adventurers from China from entering here." said the white-haired old man.

"Are you angry?"

"If you were the real deity, perhaps we would give you some face, but this incarnation is not enough."

That's it.

Yue Hu's voice was a little colder as she scolded:

"Also, we in the City of Disasters don't care about your Galaxy World's calculations. You can do your own things. But if you want to break the rules of our City of Disasters, even if you come in person, it won't work."

Hear this.

The white-haired old man's expression became increasingly ugly.

"Good, very good. You are trying to make money in my land of Shenzhou, and you are so presumptuous. It seems that you don't know how powerful I am unless you use some tricks."

"You are so awesome!!"

Yue Hu's aura suddenly increased, and a cold light flashed in his eyes.

"You are my senior, but you insist on being disrespectful and causing trouble in our territory of the City of Disaster. I don't mind beating you into a cripple!!"

Yue Hu was domineering and ruthless at this moment. Facing this white-haired old man whose strength was unknown, she had no intention of backing down.

The white-haired old man narrowed his eyes, snorted coldly, and turned away.

"These guys always like to seek benefits for themselves under the banner of doing good for you, and then get angry and embarrassed when their goals fail. It's really ridiculous." Yue Hu said.

The white-haired old man had not walked far yet, but when he heard Yue Hu's words, his face became gloomy again.

After watching the other party leave, Lin Tianhao asked:

"Do you know who he is?"

"I don't know. What came was just an incarnation, and it intentionally changed its original aura."

"But judging from his realm, he should be the incarnation of a saint from your Milky Way world, or perhaps above a saint."

Lin Tianhao hesitated for a moment before asking:

"Senior, do you know the current situation of our galaxy world?"

Yuehu frowned and said:

"I know the basic situation, but if you want to ask me about the deeper situation, I don't know."

"Besides, even if I know something, I can't just say it's not true. The white-haired old man came here to provoke the City of Disasters, not me, so I'm not afraid of him."

"But if I gossip and provoke the wrong people, even if they don't take action, the City of Disaster will punish me."

Lin Tianhao nodded slightly. Yuehu's confidence came from the City of Disasters.

"Then let's upgrade the quality first." Lin Tianhao said.

Judging from the current situation, the white-haired old man just now is very likely Yuanshi Tianzun.

If there is one person in the galaxy world who least wants him to become stronger, it should be Yuanshi Tianzun.

He cooperated with those guys in the Aleta Galaxy, so naturally he was extremely reluctant to become stronger.

I just don't know how much my strength will be improved after upgrading.

As a beam of light fell, Lin Tianhao could clearly feel that his body began to strengthen and his various attributes began to rise.

As the light beam faded, Lin Tianhao completed his grade upgrade.

"What grade should I be considered now? A holy grade?" Lin Tianhao said.

Yuehu nodded slightly and said:

"Indeed, you are now an upgraded product."

"Let's go, I'll take you to upgrade." Yue Hu said again.

Lin Tianhao nodded slightly and glanced at his current health value. Before, his health value was over 800 trillion after wearing a full set of Tianfa equipment.

And now.

Lin Tianhao's health value directly broke through to 300 trillion. (One trillion is equal to one trillion, and Lin Tianhao's previous value was 8 trillion.)

In addition to health points, Lin Tianhao's other attributes have also been greatly improved.

With just a grade +1, Lin Tianhao's combat effectiveness has been greatly improved.

Following Yuehu, Lin Tianhao came to a brand new building.

Yue Hu took Lin Tianhao in.

"Xue Di, you are not far from the twelfth level, and if you only improve your realm without upgrading your level, it will be much cheaper."

"I have reached the twelfth level and received 15,000 enlightenment points. How do you think?"

Lin Tianhao nodded. Although he was almost level 90,000, the higher he upgraded, the more experience points he would need.

The experience points required to go from level 90,000 to level 100,000 may be more than those required to go from level 50,000 to level 90,000.

Chapter 1708: The Heavenly Saint takes action and is trapped!

"no problem."

Being able to exchange enlightenment points for levels may not be a good thing for others, but for Lin Tianhao, it is a good thing.

He has no shortage of enlightenment points now, and because of the support from heaven and earth, Lin Tianhao will most likely have no shortage of enlightenment points in the future.

therefore.

Lin Tianhao doesn't have to worry about the consumption of enlightenment points.

not to mention.

Such a small consumption is nothing but a drop in the bucket for Lin Tianhao.

It's the same this time.

A beam of light hit Lin Tianhao, and then Lin Tianhao saw his level begin to increase rapidly.

"Ding, you have reached level 98952, free attribute points +5."

"Ding, you have reached level 98953, free attribute points +5."

.....

"Ding, you have reached level 100000, free attribute points +5."

"Ding, congratulations, you have reached level 100000. Please complete the job transfer as soon as possible, otherwise the experience points you have gained will be invalid."

Lin Tianhao took a deep breath, this is already level 100,000!!

This city of disasters is truly terrifying.

"Okay, I'll go and change my job now." Lin Tianhao said lightly.

Since he can use the enlightenment points to improve his strength so quickly in the City of Disaster, he might consider helping Fatty and the others.

Or maybe...Lin Qingqing.

just.

Lin Tianhao sent messages to them, but no one replied.

This made Lin Tianhao somewhat worried. Could it be that Yuanshi Tianzun was so shameless as to attack Fatty and the others?

Thinking like this.

Lin Tianhao still sent a message to Berserker Blade, intending to ask Berserker Blade to see if he knew the situation.

"Master Xuedi, they seem to have entered a special ancient tomb together to practice. They said that there is not much room for improvement in their realm, so they just need to practice there."

Lin Tianhao frowned slightly.

Special ancient tomb?

It seems that Glasses has discovered a place that is very suitable for practicing.

"Okay." Lin Tianhao nodded slightly.

"Blade, find ten absolutely trustworthy and extremely talented adventurers. I will help them improve their realm."

Lin Tianhao had an alchemist he brought from Xuanxu Country and one million pills.

With the addition of the City of Disaster, Lin Tianhao himself has the ability to mass-produce twelfth-level professionals.

of course.

Whether one is able to complete the job change is another question.

The inner world.

Buzhou Holy Land.

Lin Tianhao is preparing to go to the super god-level hidden career change altar to complete his career change.

But as soon as he arrived here, Lin Tianhao realized something was wrong.

With his support, Buzhou Holy Land has become a well-known super holy land in the inner world. But now, Buzhou Holy Land is so quiet that it is a little eerie.

"Snow Emperor."

Lin Tianhao was about to explore when he heard an old voice.

"It's you!!"

Lin Tianhao's eyes narrowed, with a fierce light flashing in them.

"Senior is a being above saints, why do you bother to embarrass a junior like me?"

Hear this.

The white-haired old man smiled noncommittally and said:

"I just feel a little unwilling and want to give it a try."

Lin Tianhao raised his eyebrows slightly and said:

"Give it a try? Bullying a junior like me is giving it a try?"

"The Alete Galaxy is about to be invaded. Are you trying to stop me from becoming stronger? Just to take a chance?"

"Do you think that if you prevent me from becoming stronger, those guys in the Alete Galaxy will stop killing me?"

The white-haired old man shook his head and said:

"Those people in the Arlate Galaxy never raised their butcher knives."

"They just hope that people from the Galaxy World can fill their world. Their world might be better than the Galaxy World."

Lin Tianhao sneered, "If the Alet Galaxy is better, they wouldn't need to invade like this. There are many people in the Milky Way who worship foreign things. With a little enticement, many people will naturally be willing to go. There is no need to pick up the butcher knife, which will only backfire."

The white-haired old man shook his head and said:

"It's their decision and I don't want to interfere."

Lin Tianhao stared at the white-haired old man and said coldly:

"So, what are you doing here today? To stop me from changing my job?"

"Aren't saints afraid of being contaminated by karma? Aren't you afraid of being entangled by karma by stopping me like this?"

The white-haired old man smiled meaningfully and said:

"When I need to rely on you to become stronger, I naturally don't want to be involved in the cause and effect."

"But if what I'm going to do next can be successful, it won't matter to me whether you are there or not, so I won't be afraid of being involved in these causes and effects."

The white-haired old man's words made Lin Tianhao look extremely ugly.

He took a step forward, trying to force his way into the ancient land of Buzhou.

But after the space ripples passed, he was still there.

"Don't try. Even if you have Heavenly Dao-level methods, you are only a mortal after all. In front of a true Heavenly Dao Saint, your Heavenly Dao-level methods will not work."

Lin Tianhao took a deep breath and said, "You are a little shameless."

"I've thought of many possibilities, but I never thought you would take action yourself so soon."

The white-haired old man smiled and said:

"If I don't do it myself, do I have to send a few minions out for you to gain experience?"

Lin Tianhao stopped talking, and instantly became invincible, his body turning into a stream of light and rushing out.

Since displacement doesn't work, run! !

however.

Lin Tianhao felt that he had run very far, but when he looked down, he was still in the Buzhou Holy Land.

Is this... a Buddhist kingdom in the palm of your hand?

wrong.

It should be a method similar to the Buddha Kingdom in the palm of your hand.

"Snow Emperor."

"Sit down and have a couple of drinks with me, and we'll see how the situation develops next, how about that?"

"No way."

Lin Tianhao didn't want to give up, he rushed out again. At the same time, Lin Tianhao also used Starry Sky Step and Return.

result.

It's useless!!

He seemed to be trapped in a certain space in front of the white-haired old man, and no matter how he ran, it was of no use.

The white-haired old man sat down leisurely, placed a chessboard in front of him, and made himself a pot of tea.

Then, with a wave of his hand, an avatar that was 80% similar to himself appeared, and the two of them began to play chess as if no one was around.

But Lin Tianhao was not reconciled.

He was like a clown, trying madly to rush out of this place, but to no avail.

"It won't work?"

There was a cold light flashing in Lin Tianhao's eyes.

"Swallow the sky and the earth, open!!"

Since I can't leave, I'll just take off the world around me.

No matter whether this is the Buddha's kingdom in the palm of his hand or some other means of trapping people, as long as he swallows up this world, he will naturally be able to get out.

"Ding, you have devoured the power of the Heavenly Saint, Innate Qi +1, Free Attribute Points +100 million."

"Ding, you have devoured the power of the Heavenly Saint, Innate Qi +1, Free Attribute Points +100 million."

Chapter 1709: The cold backfires and freezes the Saint of Heaven!

The white-haired old man who was playing chess sensed something and looked up, with a hint of surprise in his eyes.

"town!!"

He uttered just one word, and in the next instant, it seemed as if his words came into being, and he pressed Lin Tianhao so hard that he could not move.

This is not just suppression on the physical level, but also on the soul and consciousness.

Lin Tianhao only felt that his consciousness was being compressed by an extremely powerful force, which reduced his perception of the surroundings to freezing point.

"Keep swallowing it!"

Lin Tianhao shouted angrily. In this situation, his consciousness was suppressed and he could not release it to devour the white-haired old man.

But Lin Tianhao still did not sit there and wait for death. It also required strength to compress his consciousness.

He just needs to devour the power that compresses his consciousness.

as predicted.

it works! !

"Ding, you have devoured the power of the Heavenly Saint, Innate Qi +1, Free Attribute Points +100 million."

"Ding, you have devoured the power of the Heavenly Saint, Innate Qi +1, Free Attribute Points +100 million."

.....

Feeling that Lin Tianhao was still constantly devouring his power, the white-haired old man's expression finally became a little ugly.

"You are so stubborn. If that's the case, then have a good sleep. When you wake up, everything will be over."

That's it.

Lin Tianhao felt extremely sleepy.

"No...I can't sleep!!"

Lin Tianhao knew very well that if he really fell into a deep sleep, he would lose control of many things in the future.

Although he is trapped now, he can still resist with his power to swallow the sky and the earth.

But if he fell into a deep sleep, he would really lose the power to resist.

But in the face of absolute power, how could he possibly resist?

He felt more and more sleepy, and it seemed that in just a moment, Lin Tianhao would fall into a deep sleep.

"No, I can't sleep like this, I have to hold on."

however.

However, his consciousness was completely out of control and he began to fall into a deep sleep.

But right now.

A chill rushed straight to the top of his head, and Lin Tianhao couldn't help but shudder, and he woke up instantly.

It's... that mysterious chill in my body!!

Lin Tianhao never imagined that this mysterious coldness in his body could even counteract the power of the Heavenly Saint.

"what....."

The white-haired old man was slightly surprised. "What is that?"

When the words fell.

The white-haired old man had already raised his hand to grab Lin Tianhao's body.

The mysterious law seemed to have penetrated Lin Tianhao's body and swept towards the cold air in Lin Tianhao's body.

Lin Tianhao's expression suddenly changed, and he used all his strength to activate the power that could swallow the sky and devour the earth.

At this moment, the greatest resistance he could offer was probably to devour the power of the white-haired old man in front of him.

Lin Tianhao was devouring, but it was somewhat a pipe dream to want to rely on the power of swallowing the sky and the earth to block the attack of the Heavenly Saint in front of him.

But what happened next was beyond Lin Tianhao's expectations.

The moment the white-haired old man touched the cold air in Lin Tianhao's body, his power began to freeze.

and.

This freezing force actually spread towards the white-haired old man at an extremely fast speed.

The white-haired old man tried to stop it, but it was of no avail. In just a breath, one of the white-haired old man's arms was completely frozen.

After the white-haired old man's arm was completely frozen, Lin Tianhao finally smiled.

At least.

The old man finally got defeated.

and.

In just such a short period of time, Lin Tianhao swallowed a lot again.

Lin Tianhao doesn't know how to use the innate energy yet.

But Lin Tianhao was very clear about the free attribute points.

One million free attribute points were gained by swallowing it all at once. Lin Tianhao had never experienced such a huge improvement before.

Not only that.

Lin Tianhao will not fall asleep now. As long as he is conscious, he will be able to continue devouring.

If the white-haired old man in front of him is determined to trap him, then he will keep devouring him. It depends on how long the white-haired old man can hold on.

"Ding, you have devoured the power of the Heavenly Saint, Innate Qi +1, Free Attribute Points +100 million."

"Ding, you have devoured the power of the Heavenly Saint, Innate Qi +1, Free Attribute Points +100 million."

.....

Now Lin Tianhao is not in a hurry anymore.

Anyway, this old guy is a Heavenly Saint. It is unlikely that he can escape from the hands of a true Heavenly Saint with his current means.

Then swallow it!!

The white-haired old man felt that Lin Tianhao was still continuously devouring his power, and his expression turned a little ugly.

Lin Tianhao's swallowing speed is not slow.

Although he is a saint of the Heavenly Dao, this level of devouring will not have much impact on him in the short term.

But if it goes on for too long, even if he is a saint of heaven, he will find it too much to bear.

"You can come this far, you really can't be underestimated."

"That person was really good to you. He gave you the carving knife and left this level of power in your body."

The more the white-haired old man spoke, the uglier his expression became.

"I've been with him for so long, and I've never seen him treat me so well. It's really sad!!"

Lin Tianhao said in a deep voice:

"You are born with a rebellious nature. The Source of Dao just disappeared and you betrayed him. Even so, you still want to be treated favorably by the Source of Dao?"

"Moreover, if there was no God of the Source of Dao, would you have achieved what you have today? With your character, it is impossible for you to become a Heavenly Dao Saint, let alone a God."

Hearing what Lin Tianhao said, the white-haired old man in front of him became extremely gloomy.

"Sharp teeth and sharp mouths."

"No matter what happened in the past, he has played with fire and burned himself. Now in this galaxy world, I have the final say. If I want you to live, you live. If I want you to die, you die!!"

When the words fell.

The white-haired old man took direct action and killed Lin Tianhao on the spot.

Lin Tianhao has the Heavenly Punishment equipment, which can provide fatal defense.

But such defense is of little use in front of the Saint of Heaven.

It's just a matter of moving your hands a few more times.

and.

This lethal defense also has a cooldown.

Lin Tianhao devoured madly, and after his death, he could enter the undead state and continue devouring.

then.

The undead state was also crushed by the white-haired old man.

"How dare you mock me? I will kill you back to level one today."

"No matter how powerful you are, I will guard you here until the people from the Alete Galaxy come and execute you."

I can tell.

The white-haired old man was really annoyed.

He had been able to keep his composure before, but now he didn't care about anything else and just attacked unreasonably and brutally.

Lin Tianhao's face looked very ugly. He was in the resurrected state, but he couldn't continue to devour.

This would make it more difficult for him to strengthen himself by devouring the opponent.

"You are a Heavenly Saint after all, and you are also the Heavenly Saint of our Galaxy World. Bullying a junior like this is somewhat damaging to the reputation of the Saints of our Galaxy World."

Just at this moment, a cold voice was heard.

Chapter 1710: Yuanshi's demise, a battle outside the sky!

Hearing this voice, the white-haired old man's expression changed slightly, and he raised his eyes and looked forward.

At the entrance of Buzhou Holy Land, a tall, solemn and dignified woman walked towards them.

Her eyes were very unique, they were actually blooming like lotus flowers, and there seemed to be a deep yellow lotus spinning in her pupils.

Just one glance and Lin Tianhao felt as if his mind was being pulled into it.

The white-haired old man stared at the person in front of him and said in a deep voice:

"What happened today has nothing to do with you. You have already left the Galaxy World. Why are you coming back?"

The solemn and dignified woman said indifferently:

"I went out to verify some things, so now I'm back."

"Daozu, stop it. You came from the chaos and have dominated this world for many years. With your realm, even if you really go to the God Realm, you are not a weakling."

Daozu?

Lin Tianhao was a little surprised.

Isn't this person in front of me Yuanshi Tianzun?

From beginning to end.

Lin Tianhao thought that the person in front of him was Yuanshi Tianzun.

But look at how this female saint addresses him.

Daozu?

Daozu Hongjun! !

"I have come this far and achieved what I have today, all thanks to my own efforts."

"If I hadn't worked so hard every time, how could I have achieved what I have today?"

The female saint hesitated for a moment and said:

"The battle between the Galaxy World and the Arlate Galaxy is inevitable. We should support the younger generation instead of targeting them for our own selfish desires."

Hear this.

Daozu Hongjun angrily rebuked:

"What should I do? I don't need you to tell me what to do."

"They are all old monsters who have lived for endless years, and you come to tell me this?"

"If you hadn't been so clever, you should have died with your brothers!!"

"You have survived until now, don't you have any other thoughts in your mind?"

The female saint remained silent and solemn.

"Daozu, look at yourself, do you still look like a Daozu?"

"This world was created by that person. You want the heart of this world, but have you obtained that person's consent?"

"That person has only left temporarily. You are so impatient to take action now. Aren't you afraid of being liquidated?"

Daozu Hongjun took a deep breath and calmed his inner emotions.

"Except for that person, I was once the strongest person in this world, but what happened?"

"Each of you has become a saint of the Heavenly Dao. Some of you who have risen from obscurity have even entered the eternal realm."

"and I?"

"To put it nicely, I am in control of the Way of Heaven. To put it bluntly, am I not trapped by the Way of Heaven?"

"Since that person doesn't want me to advance, then I will advance anyway. I will reach the top step by step and surpass that person!!"

"I want to tell him that his previous decision was wrong, and I am the one who is... most qualified to inherit his position!!"

Listening to what Daozu Hongjun said, Lin Tianhao felt that he was somewhat crazy.

Because normally.

Daozu Hongjun should not say so many crazy words.

even.

This is in stark contrast to his impression of Taoist Patriarch Hongjun.

"Alas, Daozu, I don't want to fight with you. If you insist on doing so, then I can only ask Daozu to fight in the outer world!!"

The female saint sighed.

Daozu Hongjun's face turned pale. If it were still the ancient times, he would naturally not be afraid of these people.

But now, after so many years, these guys have broken through the saint realm and reached the realm of Heavenly Saint.

"Daozu, you are in the middle of a conspiracy, have you ever thought about whether that person will come back?" said the female saint.

"I've thought about it, but I have to give it a try."

"If I can't reach the realm of Zongheng this time, I will have no chance in the future. Rather than that, I'd rather die!!"

"Endless years have passed, and I have been unable to break through. My will has long been worn out."

The female saint was silent for a while, then she slowly said:

"Alas, you, the Taoist ancestor, once laid out the world and controlled the world with the benefit of all living beings, but now you will also suffer from your own benefit and become a pawn in the game of others."

Daoist Patriarch Hongjun pointed to the sky and rebuked:

"Where is Yuanshi?!"

As the voice of Taoist Hongjun fell, another person with an immortal look and temperament fell down.

"Hou Tu, you want a battle outside the sky. I will accept this battle. I will let my disciple Yuan Shi fight with you."

Hou Tu and Yuan Shi, two powerful saints, took action.

wrong.

They should be two powerful beings at the level of Heavenly Saints!!

Daoist Patriarch Hongjun had said before that after these long years, other saints have basically reached the realm of Heavenly Dao Saints.

This Queen Hou Tu has already reached the realm of a Heavenly Saint. The Taoist Hongjun has ordered Yuanshi Tianzun to fight with Queen Hou Tu in the sky.

He is probably also a saint of heaven.

"it is good!"

Hou Tu Niangniang flew into the sky, followed closely by Yuan Shi Tian Zun.

Lin Tianhao watched the two leave with a complicated expression.

"Daozu, why are you here?"

Daozu Hongjun smiled without comment and said:

"You haven't experienced enough, so you can't understand me."

"I used to be countless times more brilliant than you. I think I can take over his mantle. After all, with the existence of the Jade Disc of Creation, I can master multiple paths at the same time like him."

"Plus, my body is in harmony with the Way of Heaven, and my control over the Way is even stronger, so my future achievements are limitless."

"But later I realized that whether it was limited or unlimited was just a matter of that person's decision."

That's it.

Daozu Hongjun looked at Lin Tianhao with a chuckle and said:

"In the Milky Way, there are nine parallel worlds in total. These nine parallel worlds are constantly ushering in the era of god-making."

"Every time a god-making era begins, a man of destiny will appear. He is like the darling of heaven and earth. He can turn all crises into safety and gain a lot of opportunities."

Lin Tianhao remained silent and just listened to the words of Taoist Ancestor Hongjun.

"In this era, you are the man of destiny, and that person is also planning to give you the merit of saving the world, which is an incredible merit."

"Most of the other people with destiny have gone to the endless starry sky or the divine realm. Only I am trapped here, trapped in this damn heavenly way."

Lin Tianhao frowned and said:

"Isn't it your own choice to be in harmony with the Way of Heaven?"

Daozu Hongjun smiled without comment and said:

"You've made a lot of choices along the way, but if you think about it, how many of those choices were made by you?"

"Instead of... the road is there, you just follow it."

"But have you ever thought about who left that road? Is there someone who wants you to take that road?"

Lin Tianhao listened to the words of Taoist Ancestor Hongjun in silence.

He could indeed feel an invisible giant hand behind him, pushing him forward.
