

## O games 1791

Chapter 1791 All 361 Dao scars were repaired!

But that's not right either?

Because the video was recorded in advance, it was too easy to be exposed.

Think of this.

Lin Tianhao walked to the side of the Demon Lord.

He appeared in the video call.

"This....."

I must be hallucinating, how could this happen?

"You...you are really an adventurer?!!"

Being able to add friends and make video calls seems to be a function only available to adventurers.

"Yes." The Demon Lord nodded slightly.

"Wait, even if you are an adventurer, even if you have developed ahead of time and become the demon lord of the demon cave, but what do you mean by talking about the ambitious Taoist priest?" Lin Tianhao asked.

"I told you about the ambitious Taoist priest because I know you. You are suspicious by nature and will not trust us easily."

The Demon Lord looked serious and said calmly:

"I don't know if Taoist Master Mo Xin has ever mentioned me to you. I am his master."

When Lin Tianhao heard this, his eyes widened.

"Master Ye Xin did mention his master, but he told me that his master had passed away."

"You... are you reincarnated?"

"I am not dead. Or rather, my body may be dead, but my soul is not dead." said the Demon Lord.

Lin Tianhao said suspiciously: "You mean, your body died, but your soul entered Ragnarok?"

"That is to say, your soul has not disintegrated in the years since your death, and entered here after Ragnarok was launched."

If this is the case, although it is a bit strange, it is still acceptable.

"Not entirely."

The Demon Lord shook his head and said helplessly:

"I didn't enter Ragnarok in recent years. I've been here for more than 30 years."

"But the forum only appeared after Ragnarok was launched, and I was able to learn some information from the outside world through the Ragnarok forum."

Lin Tianhao was stunned.

"You entered Ragnarok thirty years early!!"

This is somewhat beyond Lin Tianhao's understanding.

"good."

"I came in right into this demon cave. I am different from you. I came in with an identity. I am the thirteenth son of the previous demon lord."

"With this identity, I grew very fast. Coupled with my talent as an adventurer and some special mechanisms, I quickly stood out."

"The previous Demon Lord had high hopes for me and has been cultivating me."

Lin Tianhao's eyes narrowed slightly. He had an identity just by entering the devil's cave?

And for such a respected identity, it is indeed unbelievable.

"Now that many masters in the demon cave have left, it is natural for me to become the new demon lord." Canzhu Bu Nian Shao said seriously.

"Now that I know about the crisis in the galaxy world, I naturally have to do something."

"But I know very well that it will be difficult for us to fight against those guys in the Arlet Galaxy alone."

"Therefore, I need to cooperate with the authorities, but our monsters are too special. I can only find someone to act as a go-between."

"Why don't you look for Taoist Priest Mo Xin?" Lin Tianhao asked.

Hear this.

Canzhu was not young, so he smiled helplessly and said:

"I can't beat him, and it was only with the recent advent of the rules that I became the Demon Lord. Before that, I didn't have the final say in the Demon Cave."

That's it.

Canzhu Bu Nian Shao paused for a moment before continuing:

"And I know you are repairing your Dao scars, so I guessed that you would definitely come to the Demon Cave."

"As long as you come, I will convince you. To be precise, as long as I tell you these, you will take me to see my ambition and then prove my identity."

Lin Tianhao nodded and said:

"Ah."

"I am indeed going to take you to see Taoist Master Mo Xin, but before that, I need to find the Dao Mark in the Demon Cave first."

"it is good."

Canzhu Bu Nian Shao answered very straightforwardly and took Lin Tianhao directly to the place with the last fourteen marks.

In this last area of fourteen scars, there is also a fat old woman with gray hair.

She looked at Lin Tianhao meaningfully, then looked at Canzhu Buniang Shao.

"Master Demon, have you really thought it through?"

"I've thought it over carefully." Canzhu Bu Nian Shao nodded heavily.

"We are demons, but we are also demons of the galaxy world."

The old woman smiled helplessly and said:

"I hope your choice is right."

"It can only be right." Canzhu said seriously.

"The fourteen scars are our foundation..." the old woman continued.

Canzhu Bu Nian Shao waved his hand and said, "Believe it or not, if we stop Xue Di, we don't even need those guys from the Alet Galaxy to do anything, we will all die."

The old woman looked at Lin Tianhao with great fear and said:

"Do not believe."

"But this is your decision, Lord Demon, and I respect it."

The words fell.

The old woman took the initiative to make way.

Lin Tianhao said nothing and walked forward.

Lin Tianhao had already sensed the aura of the fourteen marks.

After passing through layer after layer of barriers, fourteen marks came into view.

It seemed that he should also be grateful that Canzhu was not young, because if Canzhu was not young, he would probably have to fight with the monsters in the magic cave before he could repair these Dao marks.

It's much easier nowadays.

Lin Tianhao approached these Dao marks, activated the Heaven-Swallowing and Earth-Swallowing Power, and directly devoured these Dao marks.

As Lin Tianhao devoured them, these fourteen Dao marks began to recover rapidly.

"Ding, you devoured the unknown trace, magic attribute understanding +8000, magic resistance +8000, armor +8000, free attribute points +8000."

"Ding, you swallowed the unknown trace..."

.....

The reminder sounds are incessant.

Lin Tianhao discovered that the values he obtained by swallowing the Dao Marks here were higher.

The Dao Marks that were previously swallowed from other places were basically all worth two thousand.

However, the value of the Dao Mark swallowed here is as high as eight thousand.

"Ding, congratulations on repairing a world mark. The ten basic attributes increased by 1%, luck +10, free attribute points +100 million."

"Ding, congratulations, you have successfully repaired the world rift. We will announce it to all servers soon. Do you want to hide your name?"

"no."

.....

Although his stats increased after devouring this demonic Dao Mark, the final reward remained the same.

Not long after.

The fourteen Dao marks were completely swallowed up by Lin Tianhao.

That's it.

Lin Tianhao has already repaired all the 361 damaged scars on the Galaxy World!!

now.

Except for those two somewhat troublesome world rifts, everything else has been dealt with.

but.

There seems to be one more thing that needs to be dealt with right now.

"Senior, let me take you to see Taoist Master Mo Xin."

"But senior, I'm still curious. According to what you said, it was you who asked Taoist Master Ye Xin to save my sister in the hospital in Anjiang City?"

to be frank.

Lin Tianhao still finds this difficult to understand.

After all, according to the time calculation, he was not even born when Canzhu entered Ragnarok at a young age! !

Chapter 1792 Master and disciple recognize each other!

Even if Taoists are good at fortune-telling, it is unlikely that they can predict the fate of a dying person.

"I've met your sister."

Canzhu is not young and his words are shocking. When he said this, Lin Tianhao was so shocked that he was burnt on the outside and tender on the inside.

"Senior, have you seen my sister?!!"

"Ah."

Canzhu Bu Nian Shao nodded, "I suspect that my ability to enter Ragnarok early may have something to do with your sister."

Lin Tianhao took a deep breath. He knew that his sister Lin Qingqing was no ordinary person, but he never thought that his sister would be so outrageous.

"Your sister told me that on May 2032, 5, she will face a calamity that only my disciple's ambition can stop."

"She showed me all kinds of magical powers and helped me once, so I agreed to her. After all, it didn't affect me much."

Lin Tianhao frowned.

His sister Lin Qingqing was not born at that time.

and so.

The one who saw Canzhu when she was not young at that time was not her own sister, or rather, that was her true form at that time.

For some reasons, she was reincarnated and reborn.

He also deduced that she would meet with a catastrophe, and then found Canzhu Bunian Shao and asked Canzhu Bunian Shao to instruct Taoist Master Ye Xin to rescue her at the right time.

if so.

Then the real strength of my sister is too terrifying.

Extrapolating what will happen decades later, this... is too unbelievable.

"Senior, what you said is really too unbelievable. I am not sure whether your words are true or not. The only one who can verify your identity now is Taoist Master Mo Xin."

"I will take you to see Taoist Master Ye Xin now."

Canzhu nodded.

Lin Tianhao made a voice call to Taoist Priest Mo Xin.

The ambitious Taoist priest picked up the call quickly. After all, Lin Tianhao rarely contacted them on his own initiative.

This is a direct voice call, most likely it's about something important.

"Xue Di, what's the matter?" asked the ambitious Taoist priest.

"Where are you? I want to bring someone to see you." Lin Tianhao said straight to the point.

"Bring someone to see me?" The ambitious Taoist priest was a little surprised and asked subconsciously:

"Who?"

"I'm not sure of his identity, but he said... he is your master!!"

"What?!!"

After hearing what Lin Tianhao said, the ambitious Taoist's tone changed.

"What did you say?!!"

"My master!!"

The ambitious Taoist found it difficult to accept and believe that what Lin Tianhao said was true.

His master had been dead for many years, but now Lin Tianhao told him that a person appeared and told him that this person was his master.

"Xue Di, this matter...cannot be talked about casually." said the ambitious Taoist priest.

Lin Tianhao smiled helplessly and replied:

"I cannot identify him, so I will bring him to see you."

"Okay, I'll send you a location."

The ambitious Taoist priest had a lot of thoughts in his mind. He went from being incredulous at first to gradually calming down.

The existence of Ragnarok is too special.

therefore.

All kinds of bizarre things may happen during Ragnarok.

But nevertheless.

The ambitious Taoist still found it hard to believe that his master was still alive.

but.

There is still a glimmer of expectation deep in the heart of the ambitious Taoist priest.

He hoped that his master was really still alive!!

Lin Tianhao brought Canzhu Bu Nian Shao to the ambitious Taoist priest.

The ambitious Taoist looked at Canzhu, who was not young at all, with a complicated look in his eyes.

There is nervousness, worry, and... anticipation.

The appearance of the characters in Ragnarok will change.

therefore.

It is almost impossible to judge a person by his appearance.

"Little earthworm."

The first sentence that Canzhu Bu Nian Shao said made Lin Tianhao look a little strange.

Tiny...tiny earthworm? ?

Is this the nickname of the ambitious Taoist priest?

"Master...Master? Is it really you?"

The ambitious Taoist priest did not refute. It seemed that his nickname was really Little Earthworm.

"Dragon Claw Hand!!"

But just when Lin Tianhao thought that the two of them would recognize each other and have a touching master-disciple relationship, the ambitious Taoist priest suddenly shouted and attacked Canzhubunian Shao.

This scene happened so quickly that Lin Tianhao subconsciously wondered if this Canzhu was not young and was not the master of the ambitious Taoist priest.

however.

The next scene made Lin Tianhao feel both amused and helpless.

Because the ambitious Taoist priest said the Dragon Claw Hand, but in fact it was a Monkey Stealing Peach.

But Canzhu seemed to have expected this and raised his hand to stop the ambitious Taoist's monkey from stealing peaches.

"Little earthworm, you are still so dishonest. You are trying to make a feint to the east and attack in the west, right?"

The candle was not young and smiled and said:

"Master once said, if we meet again one day, we will recognize each other in our own way."

"do you remember?"

"remember."

Canzhu Bu Nian Shao raised his palm, revealing five somewhat dry fingers.

The ambitious Taoist priest also raised his hand, but he only raised two fingers.

"Master, thank you for letting me."

Lin Tianhao: "???"

Assignment?

The way they recognized each other, couldn't it be rock-paper-scissors? !

Just thinking about it made Lin Tianhao feel incredible.

The name is perfunctory, and even the way of recognizing each other is so perfunctory.

"Secret code." The ambitious Taoist priest said again.

"The earthworm opens the door." Canzhu Bu Nian Shao said.

"You know about the entrance fee. Don't treat me like a child." said the ambitious Taoist priest.

"Two cents of sesame candy, three meat patties, and your favorite ice cubes. If you don't open it now, the ice cubes will melt." Canzhu Bu Nian Shao said.

Hearing them exchanging secret codes like this, Lin Tianhao didn't know whether to laugh or cry.

Their secret code is somewhat abnormal.

However, it seems that only such abnormal codes are easy to distinguish.

After Canzhu Bu Nian Shao's words fell, the ambitious Taoist priest finally couldn't hold it anymore. His eyes turned red and he fell to his knees with a thud.

"Disciple Little Earthworm, I pay my respects to Master. May Master be well!"

A relieved smile appeared on Canzhu Bu Nian Shao's face.

"Okay, okay, okay. Master is not by your side, but you are still alive today. It seems that you have stepped on a lot of dog shit."

The ambitious Taoist bowed and said, "How can you compare with Master? The Japanese invaders didn't kill you, and your injuries didn't kill you. Even if you died, you could still come back to life."

Lin Tianhao: "..."

them.....

Is this how you chat after not seeing each other for many years?

"You are worthy of being my master's good disciple. No normal person can say this." Canzhu Bu Nian Shao said.

"Master is right. Normal people would not take you as their master."

"Cough cough."

Seeing them chatting like this, Lin Tianhao couldn't bear to listen anymore and waved his hand:

"You two, please chat. I have something else to do, so I'll take my leave now."

For now.

This Canzhu is not young and is really the master of the ambitious Taoist priest.

Although the way they chat is a little special.

After bidding farewell to the ambitious Taoist priest and Canzhu Bu Nian Shao, Lin Tianhao came to the boundless ocean.

Below here, there is a world rift, which is exactly the world rift where Lin Tianhao suffered defeat.

Chapter 1793 The legend of the 3 ancestor!

Lin Tianhao dived into the sea.

Ninety thousand meters below the sea.

This deep sea water is only considered medium depth among the sea waters outside the land of China.

And here, there is a world rift.

The powerful force emanating from the world's rifts forced back all the sea water here, forming a vacuum zone.

Think about this.

Lin Tianhao stepped into the crack of this world.

In the crack of this world, there is an ancient bronze coffin.

This ancient bronze coffin is very strange. Lin Tianhao cannot get close to it, nor can he break it. Even the Swallowing Heaven and Devouring Earth cannot cover it.

It was as if there was an invisible wall around the ancient bronze coffin, blocking any force from approaching.

and.

This invisible wall is quite different from many defensive measures that Lin Tianhao had encountered before.

It is more of a diversion of attack than a defense.

It is similar to the damage transfer that Lin Tianhao has now.

Feather arrows broke through the air.

When Lin Tianhao's feather arrow was about a hundred meters away from the ancient bronze coffin, an invisible force appeared and diverted Lin Tianhao's feather arrow away.

The transferred power disappeared directly, which was very strange.

"That's it again."

Lin Tianhao took a deep breath.

Lin Tianhao had no idea what was inside this ancient bronze coffin or what kind of power it was.

Lin Tianhao seemed to try to spy on the power inside the ancient bronze coffin, but failed.

Swallowing the sky and the earth!!

Lin Tianhao used his most effective method.

But the result was that the power that swallowed the sky and the earth was transferred away.

The Heaven-Devouring and Earth-Devouring Power that was transferred away can also devour things.

"Ding, you have swallowed an unknown power, armor +10000, magic resistance +10000, free attribute points +10000."

"Ding, you have swallowed an unknown power..."

.....

If you don't consider anything else, swallowing it here is also a good choice.

But Lin Tianhao was only two world rifts away from obtaining the Heavenly Level Talent Awakening Stone. It was impossible for him to give up.

"What on earth is this ancient bronze coffin?" Lin Tianhao's expression became increasingly sinister.

The words fell.

Lin Tianhao activated his invincible state and rushed towards the ancient bronze coffin.

The invincible virtual state makes him immune to attacks, and most means cannot reach Lin Tianhao in the invincible virtual state.

But the result still disappointed Lin Tianhao.

Even in his invincible state, he still couldn't get close to the ancient bronze coffin.

As soon as he got close, an invisible force would bounce him away.

It's like a trampoline, the more force he uses, the farther he bounces back.

Ending his invincible state, Lin Tianhao summoned the carving knife.

Holding a carving knife, Lin Tianhao walked forward.

Using a carving knife to clear a path, Lin Tianhao tried to destroy the invisible "wall" in front of the ancient bronze coffin.

But the result was the same as last time, the carving knife passed through the invisible "wall".

just.

After the carving knife passed through the invisible "wall", Lin Tianhao's arm was stuck.

No matter how hard Lin Tianhao tried, he couldn't move forward.

then.

A recoil force pushed Lin Tianhao back.

Lin Tianhao's face became increasingly ugly.

He had actually tried these methods before.

But the result was that they all failed.

Now, Lin Tianhao tried again.

The result was exactly the same as last time, Lin Tianhao still couldn't get close to the ancient bronze coffin.

"It's really troublesome."

Lin Tianhao had a headache. Given the current situation, Lin Tianhao really didn't know what to do.

Everything was going so smoothly before, but this time, I got stuck here.

Lin Tianhao was somewhat unwilling, but he had already wasted two days here last time. Now that he came here again, he still couldn't find a way to crack it.

"I still think that when it comes to devouring and forcing attacks, there is a limit to how much damage can be transferred. Only by breaking this limit can we make further progress."

Ned Levee's voice rang out.

"I have never heard of such an ancient bronze coffin, but this method is indeed incredible."

Lin Tianhao took a deep breath and said:

"Looks like I need help."

Lin Tianhao returned to the Fan Palace and called Shen Gongbao, Jiang Ziya, Jin Wuzui and the Lord of Jiuyou.

They should know a lot of information, and perhaps we can get some useful information from them.

The four people came to this world rift and saw the ancient bronze coffin in the world rift.

The four of them tried their best to attack the ancient bronze coffin, but all ended in failure.

"This situation is indeed rare. A coffin should not have such power."

Shen Gongbao stroked his mustache, frowned and said:

"Unless, there is a very powerful being in this ancient bronze coffin."

As soon as Shen Gongbao finished speaking, Jiang Ziya shook his head and said:

"Probably not."

"A powerful person has issued a decree. If there is a super-powerful person inside this ancient bronze coffin, he will definitely be discovered."

"And we have all attacked this ancient bronze coffin. If there really is a super strong person, he should have taken action already."

Jin Wuzui hesitated for a moment and said:

"I have heard from a super-powerful person in Buddhism before that originally there were no living creatures in this star field, but later a bronze coffin flew in from the depths of the endless starry sky."

"And there are a total of thirteen people who followed the bronze coffin to this star region."

"These thirteen people created the world, life, and order."

"Then, there came into being the Divine Realm and the so-called endless starry sky."

"What we call the endless starry sky is not the endless starry sky in the true sense. It is just a starry sky world within a huge range centered on the Divine Realm."

"Since the Snow Emperor's devouring ability is already at the Heavenly Dao level, then this coffin is very likely the one in the legend."

The Lord of the Nine Netherworld shook his head, "Not likely."

"I've heard some of the rumors you mentioned."

"Indeed, there are thirteen super powers who followed the ancient bronze coffin to this world, but they should know the location of the ancient bronze coffin and should not let it be placed here."

Lin Tianhao was a little surprised as he listened to their conversation.

He also did not expect that the founders of the divine realm and even the endless starry sky were only thirteen people who came here following the ancient bronze coffin.

"By the way, is the one from the Galaxy World one of the thirteen people?" Lin Tianhao asked.

"I'm not sure. It shouldn't be because in the Divine Realm and the endless starry sky, there are at least 80,000 small worlds like the Milky Way World, if not 100,000."

Lin Tianhao's mouth twitched, and his gaze finally fell on the ancient bronze coffin in front of him.

"What I am most concerned about now is... how to deal with this ancient bronze coffin?"

The Lord of the Nine Netherworlds hesitated for a moment before saying:

"Take it away."

"Since the attack will be deflected within a 100-meter range, we can use the bronze ancient coffin as the center and collect all the areas within a 200-meter radius into a space-type magic weapon."

Chapter 1794: Ancient Bronze Coffin, Immortal Tianhuo!

Lin Tianhao's eyes lit up. He had never thought of using this method before.

The spatial laws of the first level of the Heavenly Dao Realm came into play, sealing off the space within a 300-meter radius of the ancient bronze coffin.

"rise!!"

Lin Tianhao mobilized his strength, but it was as if he was grabbing a towering mountain. With his strength, he couldn't even lift it up.

What is really heavy is naturally not the space, but the ancient bronze coffin.

"Law of force, rise!!"

Lin Tianhao activated the law of force and held the power of the law in place on himself. The powerful and majestic force crushed out and swept in all directions.

The ancient bronze coffin trembled slightly, but that was all, and it had no effect on it.

"come together."

Shen Gongbao raised his hand and slapped it, and a tremendous force was added to Lin Tianhao's spatial laws, trying to help Lin Tianhao lift up the ancient bronze coffin.

Jiang Ziya, Jin Wuzui and the Lord of Jiuyou also took action together, trying to help Lin Tianhao lift the ancient bronze coffin in front of him.

"Om--"

With the joint efforts of five people, the ancient bronze coffin was lifted up tremblingly.

Lin Tianhao showed a look of joy as the ancient bronze coffin was lifted up.

This is a good thing for Lin Tianhao because it means the method is feasible.

Next.

We just need to send the ancient bronze coffin into the map of mountains and seas, and the cracks in this world can be repaired.

however.

Just when Lin Tianhao thought he was about to succeed, an extremely terrifying force came from the ancient bronze coffin.

"boom--"

With a loud bang, the ancient bronze coffin fell back to the ground.

Lin Tianhao's eyes narrowed slightly. The current situation was somewhat unacceptable to him.

"Come again!!"

Lin Tianhao was somewhat unwilling.

But this time.

Even when the five of them joined forces, they were unable to lift the ancient bronze coffin.

"The power emanating from this ancient bronze coffin is so terrifying that we are completely unable to resist it."

Jiang Ziya shook his head. "This ancient bronze coffin should not be something of our level. Naturally, I am not someone we can crack."

Lin Tianhao's face looked a little ugly, he couldn't care less.

to him.

This ancient bronze coffin is the roadblock in his pursuit of the Heavenly Dao-level Talent Awakening Stone, and he is determined to crack it.

Thinking like this.

Lin Tianhao's sixteen great saints' visions are fully activated, swallowing the sky and the earth, arrows are shot from the heart, and all the means that Lin Tianhao can use are deployed.

He wanted to open fire at full power. He wanted to try and see what the limit of this ancient bronze coffin was.

"Come on, everyone, give some effort."

Jin Wuzui saw through Lin Tianhao's thoughts, and without further ado, he attacked the ancient bronze coffin with all his strength.

However, the attacks of several people were diverted away before they could actually touch the ancient bronze coffin, and had no effect on it at all.

"The gap is too big."

After more than two hours of crazy attacks, Jin Wuzui couldn't help but shook his head, "Such a gap is simply beyond our ability to contend with."

Lin Tianhao's expression became increasingly ugly.

None of the five of them can do it. Below the saint, who else can deal with this ancient bronze coffin?

This seems to be a dead end.

He had worked so hard for so long, but now he was stuck in a dead end.

This was hard for Lin Tianhao to accept.

"I have no clue here for now. Can you seniors follow me to the next world rift?"

"Now in the galaxy world, I have two world rifts that have not been resolved. This is one of them, and there is another one."

Hearing Lin Tianhao's words.

Jin Wuzui nodded slightly and said:

"We can't help here, so we should definitely go again."

"Thank you, seniors." Lin Tianhao bowed.

Immediately.

Lin Tianhao brought a few people to the foot of a mountain.

This mountain is located in the Zhongzhou Continent and is also the second world rift that caused Lin Tianhao to run into a wall.

Entering the world rift, a heat wave hit them, forcing the people who came in to use some means to block it.

"Human, why are you here again? This time you even brought helpers." A muddy voice came.

Followed by.

A middle-aged man in tattered clothes and slightly crazy appeared in Lin Tianhao's sight.

Just appeared.

The middle-aged man's gaze fell on Jin Wuzui and his companions.

"Hahaha, this is quite interesting. I didn't expect that the Snow Emperor would actually invite you to come."

The middle-aged man threw his head back and laughed. It seemed that he knew Jin Wuzui and the others.

Hear this.

Jin Wuzui frowned slightly, "You... who are you?"

"Hahaha, you don't recognize me so soon?"

"That's right. You were a lackey of Buddhism back then. How could you remember the people who had worked with you to pursue the path to immortality?"

"What a pity! You are gifted, but you chose the wrong side. You have done so much and blessed so many merits, but you have contributed to Buddhism."

Listening to the middle-aged man's words, Jin Wuzui's brows furrowed more and more.

The next moment.

he exclaimed.

"It's you!!!"

"You...are you still alive?"

"You entered Buddhism and were supported by it, but I am just a wandering immortal, floating around."

"Thanks to you, you still remember me." said the middle-aged man.

Shen Gongbao and Jiang Ziya looked at each other, and Shen Gongbao said slowly:

"You look very familiar to me, but I still can't remember who you are?"

Hear this.

The middle-aged man smiled helplessly and said:

"Of course you are familiar with me. I am also one of the people who have survived from the beginning of the Conferred God Tribulation to the end. However, my cultivation back then was insignificant, so naturally you would not take me seriously."

The middle-aged man waved his hand and said:

"You are here to help Xue Di."

"Yeah." Jin Wuzui nodded.

"Brother Shu, can you please show some mercy to us, considering our friendship over the years?"

Shen Gongbao and Jiang Ziya were both a little surprised to hear Jin Wuzui address them like that.

But they knew Jin Wuzui's identity. Who on earth could make Jin Wuzui call him like that?

When the middle-aged man heard the name "Shu Ge", he sneered, "Now there is no Bo Yanshu, only Tianhuo Zhenren."

"Whether it's Master Tianhuo or Brother Shu, you have practiced for many years, which is not easy."

"There's no need to ruin your career here."

Bo Yanshu shook his head and said:

"I think I told you the same thing when you joined Buddhism."

"But did you listen? Didn't you resolutely join Buddhism?"

"Now you are a lost dog. You have done so much. Tathagata has become a saint, but what about you? What have you gained?"

Jin Wuzui remained silent, while Tianhuo Zhenren continued:

"You have your choice, and I have mine. You joined Buddhism, but it didn't bring you any good results."

"Now that I have chosen to join the Alet Galaxy, guess what will happen to me?"

When Jin Wuzui heard that True Man Tianhuo had actually joined the camp of the Alate Galaxy, a hint of anger flashed in his eyes.

Chapter 1795 Killing Tianhuo Zhenren!

"Brother Shu!!"

"No matter what, you are from the Galaxy World. How can you..."

"Haven't you already left Buddhism?"

True Man Tianhuo interrupted Jin Wuzui's words forcefully.

"Why can't you change your preachy face now?"

"Do I need you to teach me how to do things?"

"You used to be a lackey of Buddhism, so what? Now you have changed your allegiance and are licking the Snow Emperor?!"

True Man Tianhuo's words did not give Jin Wuzui any face at all.

"Hey, Brother Shu..."

"alright!!"

Tianhuo Zhenren waved his hand and said:

"Different road non-phase plan."

"If you want to put your hands on me, you can try."

"As long as I am here, Xue Di will not be able to repair this world rift."

Lin Tianhao's eyes narrowed slightly. It seemed that those guys in the Alate Galaxy were not standing still.

They did take action, but Lin Tianhao didn't know before that the True Man Tianhuo in front of him had already joined the Alate Galaxy.

"Senior Jin, everyone has their own choices. This is his choice. Even if you say it, he may not appreciate it."

That's it.

Lin Tianhao's gaze fell on True Man Tianhuo.

"Those guys in the Alete galaxy are not easy to get along with."

"I didn't kill you last time because I didn't want to waste time here. This time, I will definitely kill you."

The words fell.

Lin Tianhao wrote down the name of Tianhuo Zhenren in the Book of Life and Death.

Eleven books of life and death, with one person's name written on them at the same time, are undoubtedly destructive.

Followed by.

It's damage transfer.

Lin Tianhao transferred the damage and targeted Zhenren Tianhuo.

After doing all this, Lin Tianhao locked his head with the Heavenly Punishment Feather Arrow and suppressed it with the visions of the sixteen great saints.

"Three seniors, Lord of Jiuyou, you must attack me with all your strength and do not hold back." Lin Tianhao said seriously.

Jin Wuzui looked at Tianhuo Zhenren meaningfully.

"Brother Shu, stop now. There is still room for maneuver."

Look.

Jin Wuzui has certain feelings for this Tianhuo Zhenren.

however.

Tianhuo Zhenren did not seem to appreciate it, he just said coldly:

"You don't need to pretend here."

"If you want to fight, then fight. Do you think I'm afraid of you?"

Lin Tianhao was speechless. Since True Man Tianhuo was determined to die, he had no choice but to satisfy him.

"Heavenly Divine Thunder!!"

Lin Tianhao has damage transfer, plus the blessing of eleven books of life and death and the saint of heaven, no matter how thick Tianhuo Zhenren's health bar is, he will still be killed by Lin Tianhao.

of course.

Thunder rolls from the sky.

Jin Wuzui, Jiang Ziya, Shen Gongbao and the Lord of Jiuyou, four great masters attacked Lin Tianhao at the same time.

With the full force of the four great masters, the damage was transferred away, with the help of the Book of Life and Death and the Heavenly Thunder.

Tianhuo Zhenren's health bar was disappearing at a speed visible to the naked eye.

even.

True Man Tianhuo was killed by Lin Tianhao before he could withstand all nine heavenly thunders.

"Ding, congratulations, you have successfully killed Tianhuo Zhenren, and you will be rewarded with +20000 free attribute points and +49852 billion experience points."

"Ding, congratulations, you have successfully killed Tianhuo Zhenren. An announcement will be made to all servers soon. Do you want to hide your name?"

"no."

"Announcement to all servers, congratulations to the player Xue Di for successfully killing Tian Huo Zhen Ren. We hereby announce this and hope all adventurers will keep up the good work!!"

.....

Lin Tianhao had just killed Master Tianhuo, but what Lin Tianhao never expected was that Master Tianhuo was resurrected in an instant.

This resurrection speed is too fast!!

Before Lin Tianhao could even react, the other party had already been resurrected.

Resurrected with full health and full status!!

"Come on, keep going!!"

Master Tianhuo had a playful smile on his face.

"Xue Di, you are so powerful, and you have called these top-notch helpers. This is not the only trick you have."

Lin Tianhao looked at Master Tianhuo meaningfully.

"I hope you can still have this confidence when I come next time."

Lin Tianhao has a method that can prevent the enemy from resurrecting.

That is the power of saint-level rules: no reincarnation.

The effect of Reincarnation is to be used on a target that is about to die or has already died. After use, this target will not be able to be resurrected.

Moreover, because the level of reincarnation is extremely high, even saints cannot be exempted.

Although this Tianhuo Zhenren is powerful, he is not a saint-level strongman after all.

therefore.

Lin Tianhao was almost certain that as long as he used the Saint's No-Saving Technique, this Heavenly Fire Immortal would definitely die.

As for why you want to leave.

Because the Heavenly Dao Divine Thunder has a cooling time, he needs to wait for the Heavenly Dao Divine Thunder to cool down before finding a way to kill the opponent.

After coming out of this world crack, Lin Tianhao returned to the world crack where the ancient bronze coffin was.

Now that he has found a way to deal with Master Tianhuo, the next step naturally is to find a way to deal with the ancient bronze coffin.

Sit cross-legged.

Lin Tianhao activated the Swallowing Heaven and Devouring Earth and the Arrow Shooting from His Heart at the same time.

"Ding, you have swallowed an unknown power, armor +10000, magic resistance +10000, free attribute points +10000."

"Ding, you have swallowed an unknown power..."

Lin Tianhao now has no way to break out of this ancient bronze coffin. The only thing he can do now is to consume it.

Fight a protracted battle with this ancient bronze coffin.

Anyway, he doesn't suffer any loss by swallowing it this way.

He can continuously improve his dual resistance and obtain a large number of free attribute points.

As long as his health is high enough, the damage of the Book of Life and Death Lock will be very terrifying.

Although some of the opponents Lin Tianhao encounters nowadays are able to reduce or even be exempt from the damage from the Book of Life and Death.

However, there are very, very few people who can be immune to the divine thunder of heaven.

The damage of the Heavenly Thunder is linked to his health.

therefore.

It is very useful to accumulate free attribute points and improve your own attributes.

One day flies by in a blink of an eye.

Lin Tianhao looked at his current attributes and couldn't help but smile.

Lin Tianhao called Jin Wuzui, Shen Gongbao, Jiang Ziya and the Lord of Jiuyou, and once again came to the world rift where Tianhuo Zhenren was.

"What are you doing here again?"

Tianhuo Zhenren showed a teasing smile on his face, "If you want to kill me, then you can do it now."

Looking at the fearless look of Tianhuo Zhenren, Lin Tianhao showed a playful smile on his face.

"I hope you can still be so confident later."

The words fell.

Lin Tianhao used the same method as yesterday.

The divine thunder of heaven, as well as the damage transferred and the damage from the Book of Life and Death, exploded to the extreme in an instant.

Just like last time, True Man Tianhuo was killed instantly by Lin Tianhao.

"Ding, congratulations, you have successfully killed Tianhuo Zhenren, free attribute points +10000, experience points +49852 billion!!"

There was no server-wide announcement this time, and the reward for free attribute points was reduced by 10,000, but the reward for experience points was the same as last time.

Chapter 1796 The war breaks out!

After Tianhuo was killed, Jin Wuzui, Jiang Ziya and Shen Gongbao did not relax.

Because when they killed Master Tianhuo yesterday, Master Tianhuo was resurrected in the next instant.

Now that Lin Tianhao has killed Tianhuo Zhenren again, they are also worried about repeating the same mistake.

However, as time went by, Master Tianhuo did not resurrect.

Lin Tianhao knew that this was because of the lack of reincarnation.

This saint-level rule power is still strong.

However, the cooldown time of Samsara is really long.

A cooldown time of up to one month means that Lin Tianhao cannot use this skill frequently.

While Lin Tianhao was thinking this, he had already walked up to the body of Tianhuo Zhenren and began to touch it.

"Ding, you got equipment +4."

"Ding, you got skill book +3."

"Ding, you have obtained the magical power [Skyfire Fury]."

"Ding, you have obtained the pseudo-saint-level formation [Skyfire Billion Soldiers Formation]."

"Ding, you have obtained 222 resurrection coins."

"Ding, you got it..."

.....

When Lin Tianhao touched other things on the corpse, he didn't have any obvious reaction.

But when Lin Tianhao saw the 222 resurrection coins, he couldn't suppress the excitement on his face.

"This... is outrageous!!"

"Could it be that those guys in the Alete Galaxy asked Tianhuo Zhenren to help them, using the resurrection coins?"

If it weren't for the fact that he couldn't be reincarnated, given Tianhuo Zhenren's strength, it would be unlikely for him to kill him.

When Lin Tianhao faced Tianhuo Zhenren alone before, it was difficult to kill Tianhuo Zhenren even if he opened fire at full power.

The two times that Tianhuo Zhenren was able to be killed, not only because Tianhuo Zhenren underestimated his enemy, but also because of Lin Tianhao's damage transfer, which was of great significance.

This time the harvest was not small.

Lin Tianhao began to devour other powers here.

"Ding, you are absorbing unknown power, fire attribute understanding +5000, fire attribute resistance +5000, magic resistance +5000, free attribute points +5000."

"Ding, you are consuming unknown power..."

.....

Not long after.

The power in the rift of this world was almost completely swallowed up by Lin Tianhao.

"Ding, congratulations on repairing a world rift. The ten basic attributes increased by 5%, luck +50, free attribute points +500 million."

"Ding, congratulations, you have successfully repaired the world rift. We will announce it to all servers soon. Do you want to hide your name?"

"no."

"Announcement to all servers, congratulations to player Xue Di for successfully creating a world rift. We hereby announce this and hope all adventurers will keep up the good work!!"

.....

As the server-wide announcement sounded, outside the world's rift, deep in the void, a pair of eyes as black as ink blinked slightly, and then disappeared.

In a mysterious underground palace.

A pair of ink-black eyes opened instantly.

"died!!"

"Master Tianhuo is such a loser. I gave him so many resurrection coins, but he still died!!"

The owner of the dark eyes was very angry. He had thought of all kinds of situations, but he had never thought that Lin Tianhao would be able to deal with Tianhuo Zhenren in such a short time.

"We still have hope."

At this moment.

An extremely charming voice sounded.

"Doesn't Xue Di still have a world rift that has not been repaired?"

Hear this.

The owner of the dark eyes shook his head and said:

"You think too simply. The ancient bronze coffin does have some secrets, but I don't think it can stop the progress of the Snow Queen."

A woman with a curvy figure and beautiful face walked out of the darkness.

"If we only rely on the ancient bronze coffin, it will be difficult to hold back the Snow Queen, but we can take action."

"As for our believers, they have long been dispersed within the Galaxy World."

"With just one order from me, the vast continent can be plunged into dire straits in an instant."

Hear this.

The owner of the dark eyes frowned, "Are we going to start a civil war now?"

"The Snow Queen repaired the world's Dao scars and cracks in order to complete an extremely important mission. We... must stop her."

"and."

"Let them start a civil war now, and then our large army will come and it will be easier to deal with these guys."

The owner of the dark eyes thought for a moment, and finally nodded.

"Then arrange it. In addition, I don't just want chaos in the vast continent. In the final analysis, I want chaos in Blue Star. Let our believers take action. It's time to launch a large-scale operation against Blue Star."

.....

Lin Tianhao had already arrived in front of the ancient bronze coffin.

Now all that remains is this ancient bronze coffin.

As long as he gets rid of this ancient bronze coffin, he can get the Heavenly Level Talent Awakening Stone.

This is a very crucial link!!

Having one more talent would mean a lot to Lin Tianhao.

especially

According to Lin Tianhao's speculation, the talent that he will awaken next will most likely be above the Heavenly Dao level.

Maybe... it's an eternal talent!!

If so.

Then when facing the invasion of the Alete Galaxy, his chances of winning would be a little higher.

This ancient bronze coffin is too strange, so Lin Tianhao decided to swallow it for half a month to test the waters and see if he can gain anything.

Where is the end of this transfer power?

Lin Tianhao was getting a little bored after swallowing like this, so he opened the Ragnarok forum.

Now we are getting closer and closer to the fusion of Ragnarok and reality.

The key is.

Now almost everyone knows that the levels and powers within Ragnarok can be materialized.

and.

Everyone also knew that those guys from the Aleta galaxy were about to attack the Milky Way world.

"The Snow Queen has helped us a lot recently. If it weren't for the Snow Queen, we might not be able to upgrade so quickly."

"Can Xue Di solve the crisis of the Galaxy World alone? If Xue Di falls, what should we do?"

"Breaking news, breaking news!! Fifteen minutes ago, Japan launched a fierce attack on Chubu Country, firing more than three hundred missiles. This is the rhythm of provoking a war! !"

This post seemed to have appeared not long ago, and then it rushed to the top three of the Ragnarok forum list at a speed visible to the naked eye.

No, it's already second.

No, no, it's already number one!!

In the short time that Lin Tianhao was browsing the forum, this post had already reached number one.

what?

Not only the ordinary adventurers, even Lin Tianhao was dumbfounded.

Is Japan crazy?

At this time, an offline attack was launched against the Zhongfen Kingdom.

Click into the post.

Lin Tianhao saw some videos and some photos.

All these things are proving one thing.

That is, the story is true, Japan really attacked Zhongfen Province.

But why?

We have now entered the countdown to the fusion of Ragnarok and reality. By launching a war at this time, what exactly does Japan want to do?

Chapter 1797 Crazy, completely crazy!

Lin Tianhao had a lot of thoughts.

Is it Japan's own idea to take the initiative to cause trouble, or is it the intention of their father, the United States?

Lin Tianhao did not waste time thinking about it, but immediately made a voice call to Berserker Blade.

"Blade, what's going on? Why did Japan suddenly attack the Central Plains?"

Lin Tianhao really found it difficult to accept that at this moment, an offline war was taking place on Blue Star, which would have a great impact on those guys who were going to deal with the Alate Galaxy next.

"I don't know. The attack was too sudden. Our insider in Japan passed on some information, but I haven't been able to get access to it yet."

"If you want to know the specifics, you may need to contact the chief minister."

Lin Tianhao nodded slightly, hung up the phone, and made a voice call to the chief.

But no one answered the call.

This was within Lin Tianhao's expectations.

Zhongfen Country is adjacent to Long Country, and Japan and Long Country do not have a friendly relationship. It is possible that the United States is behind this incident.

But no matter what the reason, the leader will definitely go offline to attend the meeting.

I guess we'll have to wait until the first elder finishes the meeting and goes online before we can know what's going on.

After hanging up the call, Lin Tianhao saw that Berserker Blade had called him again.

After answering the voice call, Lin Tianhao asked, "What's wrong? Is there any news?"

"It's not an offline thing, it's an online thing. Japan launched a fierce attack on fifty-five of the one hundred and thirty-nine territories officially established by the Central Kingdom."

"There aren't many ordinary adventurers taking action this time. Most of them are gods."

"This time, Japan dispatched more than 180 gods, which is more than the total number of Japanese gods we know."

"We suspect that someone is supporting Japan, which is why Japan has so many gods."

Upon hearing this.

Lin Tianhao roughly knew the reason.

"Was Japan instigated by the Alite Galaxy?!"

"Looking at the current situation, this is indeed the case."

"The only ones who have the ability to mass-produce gods are probably the guys in the Alete Galaxy."

"We suspect that there are far more gods in Japan than these. This is just the beginning. They just want to confuse the situation."

"Moreover, we speculate that the people who were instigated by the Alete Galaxy may not only be from Japan, but also from other countries."

Japan's actions this time are very thoughtful.

Zhongfen State is adjacent to Long State, but it is just a small country.

Taking action against Zhongfen Country both online and offline will pose a certain threat to Long Country, but it is not a direct attack on Long Country.

They are testing by doing this.

Test what kind of reaction the Dragon Kingdom will have.

The words had just fallen.

Berserker Blade seemed to have received some new information and said:

"I just received news that the Central Kingdom launched a counterattack and attacked eleven Japanese military bases at the same time."

"This time the fight really started."

Lin Tianhao's eyes narrowed slightly.

Zhongfen Country has always been a relatively tough existence.

If Japan attacks them, they will fight back.

The current situation can be said to have made the situation turbulent.

Are those people in Japan full of shit in their brains?

If you jump out to cause trouble at this time, aren't you afraid of being destroyed?

"Pay attention to this matter. It is impossible for Japan to just make trouble with Zhongfen Kingdom. There may be other arrangements."

Berserker Blade sighed and said:

"This matter is indeed a bit troublesome. According to the current situation, the United Nations must take action to deal with it. We can't let them continue to make trouble like this."

Lin Tianhao hesitated for a moment and said:

"What is the attitude of other countries towards the Arlate Galaxy?"

"The attitude of most countries is the same as ours. After all, the defense of Blue Star must be fought, and they are willing to contribute money and manpower. We have already united with many countries."

"There are still some countries wavering. It is possible that they have been instigated by those guys in the Alete Galaxy."

Lin Tianhao showed a faint smile on his face and said calmly:

"Let's leave it this way for now." Lin Tianhao said lightly.

"Notify me as soon as there is any news."

Lin Tianhao now has to find a way to deal with this ancient bronze coffin.

At present, Lin Tianhao has no idea how to deal with this ancient bronze coffin.

Following this progress, Lin Tianhao was indeed having a headache.

It's just one step away from success, but it's stuck here.

"Ding, you are absorbing unknown power, magic resistance +10000, armor +10000, free attribute points +10000."

"Ding, consuming unknown power..."

.....

As he continued to devour like this, Lin Tianhao's dual resistance continued to rise.

Lin Tianhao is now a monster in terms of attributes.

Even among the strong ones at the saint level, there are few who are stronger than Lin Tianhao in terms of attributes.

While Lin Tianhao was devouring, he was also paying close attention to the forum, wanting to see if there would be any special news.

"Crazy, crazy, Japan is crazy!!"

Sudden.

A post marked in red topped the hot list.

"I am a Japanese soldier. It is the duty of a soldier to obey orders, but I really can't accept it now."

"We are ordered to fill the missiles with nuclear waste water and launch an attack on the core city of Zhongfen Country."

"The point!! The point!! It's not the military base, it's the core city!!"

"If the missile is intercepted, nuclear waste water will spill into the city."

"If the interception fails, missiles carrying nuclear waste water will destroy these core cities."

"This is crazy, this is crazy!!"

"I really can't accept it. What on earth do they want to do? I really can't accept it. What on earth do they want to do!!"

The content of this post can be said to be very shocking.

Many people can actually think of the strategy of tying nuclear waste water to missiles.

But it is generally impossible to do so.

Because once you do that, you will be condemned by the whole world.

This move by Japan.

It can be said that he has pushed himself to the opposite side of the whole world.

Even Japan's own soldiers couldn't stand it and chose to post. This alone can explain a lot.

Lin Tianhao didn't know what to say.

Once Japan really launches a missile carrying nuclear waste water, the situation will escalate instantly.

And at this time.

Berserker Blade made a voice call to Lin Tianhao.

As soon as he picked up the phone, Mad Blade said anxiously:

"We have dispatched an aircraft carrier and it has arrived in the high seas outside Japan. Japan is preparing to use missiles carrying nuclear waste water to attack the core cities of Zhongfen. This is something we will never allow."

"According to the latest statement, we will assist the Central Powers in intercepting these missiles, and if Japan dares to launch them, we will take military action against Japan. The situation is now very tense."

Chapter 1798: Chaos both offline and online!

Lin Tianhao is also a little worried now.

Because those guys in Japan can't be so stupid. Their actions this time are so crazy, it is very likely that they have someone's support.

This person is most likely from a country on Blue Planet.

Because war has broken out on Blue Star, it is difficult for Japan to withstand the wrath of Dragon Country.

Especially as the fusion of Ragnarok and the real world draws closer, the threat from the Arlate Galaxy still exists.

Blue Star cannot be in chaos, and Blue Star will not be allowed to be in chaos.

This move by Japan.

I just want to cause chaos on Blue Star.

As for the purpose.

They probably want to consume Blue Star's combat power in advance.

Especially the second raid by Japan, which was directly intended to attack the core city of Zhongfen Kingdom.

This is obviously aimed at the civilians of Zhongfen Country.

But Japan alone should not be enough to cause complete chaos on Blue Planet.

Could it be that some top adventurer has emerged from Zhongfen Country?

Those guys in the Alete Galaxy knew that they were not easy to deal with, so they started targeting the top adventurers from other small countries.

This possibility does exist, but I don't know how big it is.

Lin Tianhao continued to devour. In this situation, he could only wait and see.

Looking at the ancient bronze coffin in front of him, Lin Tianhao's face became increasingly uglier.

It really happened that the house was leaking and it rained all night.

When Fatty and Glasses got into trouble, he was also obstructed, and Japan jumped out to cause trouble again.

Oh shit! !

The closer it gets to the final moment, the more troubles come.

There should be no one in this bronze coffin, but it was just a bronze coffin, but it could actually cause him such a mess.

"Come on, give this a try."

“Heavenly Divine Thunder!!”

Lin Tianhao didn't know whether his Heavenly Dao Divine Thunder would be useful, but in this situation, he had to use it.

Thunderclouds rolled in the sky.

The level of the Heavenly Dao Divine Thunder is the same as that of Swallowing Heaven and Devouring Earth, but the difference is that.

The divine thunder of heaven is bound to hit.

therefore.

He is now using the Heavenly Thunder, which will definitely hit the target.

Think about this.

Lin Tianhao had a smile on his face.

Since it is bound to hit, it is possible that it will hit this ancient bronze coffin.

after all.

The level of the Heavenly Thunder is much higher than that of the Heavenly Punishment Lock.

"boom--"

Something happened that made Lin Tianhao excited.

The first divine thunder from heaven fell and hit the ancient bronze coffin with great accuracy.

The ancient bronze coffin was wrapped in thunder, and a large number of electric arcs were wrapped around it.

but.

When this divine thunder from heaven fell, there was no obvious change in the ancient bronze coffin.

See this scene.

Lin Tianhao was not discouraged.

After all, this was the first time in recent times that an attack had successfully hit the ancient bronze coffin.

"boom--"

The second Heavenly Dao Divine Thunder fell, followed by the third, the fourth...

Nine divine thunders from heaven fell one after another. As these thunders kept falling, blackened marks appeared on the ancient bronze coffin.

Look.

Under the fierce bombardment of Lin Tianhao's thunder, the ancient bronze coffin also began to be damaged.

in this way.

At least it gave Lin Tianhao some opportunities.

the next day.

Heavenly Thunder!!

Day three.

Heavenly Thunder!!

Fourth day.

Heavenly Thunder!!

.....

For seven consecutive days, as long as Lin Tianhao's Heavenly Divine Thunder cooled down, he would fire at least nine times at the opponent.

Following seven days of bombardment from the divine thunder of heaven, tiny cracks actually appeared on the ancient bronze coffin.

This gave Lin Tianhao a glimmer of hope for victory.

If the divine thunder of heaven is effective against the ancient bronze coffin, then it is only a matter of time before it is destroyed.

During these seven days, the international situation has become increasingly tense.

However, due to the approach of the Dragon State aircraft carrier, Japan did not use missiles carrying nuclear waste water.

but! !

Japan has planned more than 150 terrorist attacks in Chubu Province.

In seven days, there were more than 150 terrorist attacks. This frequency can be said to be very, very high.

On average, more than twenty terrorist attacks occur in Zhongxing every day.

Homemade bombs, poisoning of tap water, assassination of important personnel, detonation of gas stations, raids on power stations...

Terrorist attacks have affected many people in China.

If this situation continues, the situation will continue to deteriorate.

and.

The most incredible thing is that there have been no terrorist attacks in Japan.

After all, this is the United States. More than 300 terrorist attacks occurred in seven days, which is more than twice that of China.

Internationally, some people suspect that China was responsible.

After all, how do you see it?

Japan is the adopted son of the United States. There is a high probability that the things Japan is doing now are arranged by the United States behind the scenes.

It is not impossible for China to take retaliatory actions against the United States.

But anyone with a discerning eye knows that even if China retaliates, it is not realistic to plan more than 300 terrorist attacks in seven days.

This is someone trying to fish in troubled waters and confuse the public.

They carry out terrorist attacks behind the scenes and then let China take the blame.

Zhongfen Country is also having a headache now.

They are going to be attacked, and then... they are going to be blamed!!

But the United States doesn't think so.

There are dozens of terrorist attacks in their country every day, and they are in dire straits every day.

The international community generally agrees that who least wants the United States to do well are the Dragon Country and the Bear Country.

And these two countries.

They are all people who were able to plan so many terrorist attacks in a short period of time.

Motivated and capable!!

and so.

Many people began to wonder whether the Dragon Country or the Bear Country was behind the scenes, trying to disgust the United States and then put the blame on the Zhongfen Country.

As more and more remarks like this are heard, the international situation will naturally become more tense.

After all, Dragon Country, the United States, and Bear Country are all superpowers.

If the three of them start fighting, a world war will inevitably follow.

Originally it was just a conflict between Japan and the Central Powers, but when the three superpowers were dragged into it, the situation became completely different.

these seven days.

The offline situation is becoming increasingly tense, and the online situation is equally not optimistic.

Because online, many gods have already taken action against the territories of those small countries.

Or they could snipe at more powerful mortal adventurers.

Those adventurers who were preparing to make a final sprint in the last few months no longer dared to go out easily.

After all, as long as you leave the town and go into the wild, you may be attacked.

And the same.

If they don't go into the wild, it will be very difficult to upgrade.

According to Berserker Blade, many of these gods are adventurers, some of whom were previously unknown.

It was as if they suddenly became enlightened and quickly became gods.

There are many top adventurers on Blue Star, but there are very few who can deal with gods.

Maybe Fatty has the strength to deal with the gods, but many of these gods are adventurers who have refined their godhood! !

Chapter 1799: Smash the ancient bronze coffin, mission accomplished!

what does this mean?

This means that even if top adventurers can kill gods as mortals, as gods transformed by adventurers, they can be resurrected.

Lin Tianhao has a book of life and death, eleven books of life and death.

Lin Tianhao got a list of some gods who were causing trouble from Berserker Blade, and then started to lock them up.

With Lin Tianhao's current health, even a god would not be able to withstand the Book of Life and Death locking his head.

After all, not everyone can withstand tens of trillions of damage in one second.

but.

Recently, more and more gods have been involved in sabotage, according to the list compiled by Berserker Blade and given to Lin Tianhao.

The number of gods who have participated recently has exceeded five hundred, and the number of names he has obtained exceeds two hundred.

Lin Tianhao could only switch the names of these two hundred people back and forth and keep killing them.

But they can be resurrected. Even if two hundred people kill each other back and forth, it is still difficult to solve the current trouble.

Berserker Blade's voice call came again.

"We conducted targeted investigations on some gods. In addition to those from Japan, the other gods involved in the attack came from more than a dozen countries, including our country."

"According to the latest information we have, after these people become gods, they can go to the realm of gods after Ragnarok merges with reality, so that they can escape unscathed."

"Those guys in the Alete Galaxy should be using this as a basis to lure these adventurers to work for them."

Lin Tianhao hesitated for a moment and said, "What are you going to do?"

Mad Battle Blade hesitated for a moment before slowly saying:

"We are also preparing to create gods. The recent actions of these gods have had a great impact on us. They use gods to snipe our high-level players, slowing down their progress in improving. Some of them even find it difficult to improve."

"I came to you this time just to ask if you have reviewed it. We are going to find some soldiers with average talents to become gods, and specifically deal with these gods who were instigated by the Alete Galaxy."

"How much divine power do you need?" Lin Tianhao asked.

Lin Tianhao had obtained one million divine powers before, and these divine powers should be more than enough.

"At least one thousand, and ten thousand would be best." said Mad Blade.

Lin Tianhao didn't waste any time and directly traded 10,000 divine points to Berserker Blade.

When seeing the 10,000 divine powers that Lin Tianhao traded, Mad War Blade was stunned for a moment.

He knew that Lin Tianhao should have some divine power in his hands.

But to be honest.

He had never thought that Lin Tianhao would have so many godheads in his hands! !

"Here are a few more divine powers above the Divine King level. You can use them in a targeted manner."

Lin Tianhao selected out several higher-level divine powers.

After all, a godhood that is too low in level is unlikely to be useful.

"I have something to do recently and can't get away. You guys hold on."

Cracks have appeared in the ancient bronze coffin.

Those guys in the Alate Galaxy had also tried to instigate Tianhuo Zhenren to stop him before.

If he left this world rift, and those guys from the Alete galaxy came to cause trouble again, all his previous efforts would be in vain.

Lin Tianhao continued to devour, and the feather arrows of heavenly punishment did not stop.

But the most crucial thing is the divine thunder of heaven.

In the blink of an eye, another seven days passed.

Lin Tianhao also called the Evil Emperor Wudao to his side.

no way.

He was afraid that something might happen to the Evil Emperor Wudao.

If he finally repaired the rift in the world, but the Evil Emperor became unjust and lawless, he wouldn't even have a place to cry.

After seven days of attacks, more and more cracks appeared on the ancient bronze coffin, and it seemed that victory was just around the corner.

He just needs to persist a little longer to succeed.

The situation became more and more chaotic. Lin Tianhao was following the Ragnarok forum, and Berserker Blade was also passing on messages to Lin Tianhao one after another.

This week is a stalemate.

The terrorist attacks did not stop, nor did the attacks by gods, but the situation did not continue to expand or worsen.

I don't know if it's because those guys in the Aleta galaxy haven't supported enough gods, or if there is some other reason.

one way or another.

It's good that the situation hasn't gotten worse.

The Dragon Kingdom officials have already launched a plan to create a god.

In a week's time, ten thousand divine powers were used to cultivate two gods.

This is a bit inefficient, but not bad.

After all, there are only seven days and the meridians need to be refreshed.

It is estimated that gods will be born one after another in the next few days.

And Lin Tianhao is still the same.

Swallow, swallow, and swallow again.

The Heavenly Dao Divine Thunder has cooled down, and it is time for the Heavenly Dao Divine Thunder to strike.

"Boom boom boom——"

Another nine divine thunders from heaven fell.

As the ninth divine thunder of heaven fell, the ancient bronze coffin began to tremble violently.

"Buzzing—"

The ancient bronze coffin trembled more and more violently, and a series of mysterious laws rushed towards Lin Tianhao.

"boom--"

With a loud bang, a powerful shock wave swept towards Lin Tianhao.

"Absolutely block!!"

Lin Tianhao immediately started absolute blocking.

But the absolute block only lasted for a moment, and Lin Tianhao's body flew backwards uncontrollably.

Lin Tianhao's health bar suddenly dropped by ten percent.

The power of the shock wave alone was enough to reduce Lin Tianhao's health by 10%, which was already very terrifying.

but.

After the explosion, the space between heaven and earth was filled with fragments of the ancient bronze coffin.

Lin Tianhao's eyes lit up, because after the ancient bronze coffin exploded into pieces, Lin Tianhao found that he could already touch the fragments of the ancient bronze coffin.

Lin Tianhao tried to swallow the fragments of the ancient bronze coffin.

"Ding, you are devouring unknown metal, comprehension +10000, magic resistance +20000, armor +20000, free attribute points +20000."

"Ding, you are devouring unknown metal..."

.....

Lin Tianhao's eyes lit up. This thing is pretty good.

Devouring actually gives you understanding directly.

Lin Tianhao can automatically gain enlightenment. If his understanding is improved, it will be of great help to him.

but.

In order to repair this last world rift as quickly as possible, Lin Tianhao first put the fragments of the ancient bronze coffin into the map of mountains and seas.

Then Lin Tianhao devoured the other remaining power in the rift of this world.

Not long after.

This last rift in the world was finally repaired.

"Ding, congratulations on repairing a world rift. The ten basic attributes increased by 5%, luck +50, free attribute points +500 million."

"Ding, congratulations, you have successfully repaired the world rift. We will announce it to all servers soon. Do you want to hide your name?"

"no."

"Announcement to all servers, congratulations to player Xue Di for successfully repairing the world rift. All adventurers in Ragnarok will be rewarded with +5% experience points for monster hunting, quests, etc. We hereby announce this, and hope that all adventurers will keep up the good work!!"

"Announcement to all servers, congratulations to player Xue Di for successfully repairing..."

Chapter 1800 The Heavenly Level Talent Awakening Stone is obtained!

A server-wide announcement sounded, and Lin Tianhao and the Evil Emperor Wudao withdrew from the world rift together.

"Finally done."

Just as Lin Tianhao was about to submit the task, another server-wide announcement resounded over Ragnarok.

"Announcement to all servers: During the Ragnarok season, the rifts and Dao marks are completely repaired, the comprehension of all races is increased by 50%, the comprehension of the human race is increased by an additional 100%, the rank of all races is increased by 1, and the human race gains an additional free attribute point of +200 million. The Ragnarok continent begins to merge..."

"Countdown to fusion... seven days!"

Lin Tianhao was a little dazed when he heard this server-wide announcement.

As comprehension improves, the human race also receives additional improvements.

Grade +1, the human race also gives an additional million free attribute points.

This is somewhat against the will of heaven.

It's not just one person, but two people who can achieve such an improvement.

But... all human beings have it!!

This level of improvement made Lin Tianhao feel somewhat unbelievable.

The entire Ragnarok was in an uproar over this server-wide announcement.

"Fuck, fuck, fuck, I didn't ask any questions, but my words will do the trick!!!"

"I suddenly feel that we can fight against the Alite Galaxy."

"The human race is the chosen one, and can obtain additional attribute bonuses."

"This time, the human race is taking off. The rewards are so generous that I can hardly believe my ears."

"Is it possible that we humans can get extra rewards because it was the Snow Queen who repaired the world rifts and Dao scars? The Snow Queen is a human, so... we have extra rewards."

.....

The Ragnarok forum also completely exploded.

The Ragnarok forums have been somewhat gloomy during this period.

After all, there are so many bad things happening both offline and online that even the top players can't handle it, let alone ordinary adventurers.

Now, this server-wide announcement can be said to have instantly boosted morale.

Just now.

Lin Tianhao also heard the system prompt sound.

"Ding, congratulations, your comprehension +150%, free attribute points +200 million, grade +1..."

"Ding, it is detected that your rank is too high and cannot be upgraded. A compensatory reward will be given..."

"Ding, compensatory rewards are being calculated..."

"Ding, your attributes are detected to be too high, and the compensatory rewards are being recalculated..."

Lin Tianhao: "???"

Am I making the system smoke?

No.

Is he that scary?

to be frank.

Lin Tianhao felt that there was still a lot of room for improvement in his attributes.

After all, the counting unit has only reached trillion, and there are so many counting units after trillion.

How...can it make the system smoke?

"Ding, the compensatory reward calculation is successful. You get the eternal-level equipment: Evil Tomb Dividing Ruler."

Evil Tomb Dividing Ruler: Eternal Level.

Requirements for use: Xue Di only.

Effect: unknown.

Abrasion resistance: Unknown.

Lin Tianhao: ???

What kind of compensation is this?

Eternal level, but the effect is unknown.

This... is somewhat outrageous.

Look at it this way.

Still not as good as grade +1.

Because of the grade +1, Lin Tianhao's health can be greatly improved, so the damage of normal attacks, the Book of Life and Death, or the Heavenly Thunder can be improved.

Lin Tianhao's mind moved, and a gray-white ruler as long as his arm appeared in Lin Tianhao's hand.

This... this gray-white ruler actually has scales on it.

If it weren't for the special color and material, I really can't tell what's special about this ruler.

This thing...

Is the level higher than that of the engraving knife?

The probability is that it is not as high as that of a carving knife.

The key is.

How to use this thing?

Could it be used as a cold weapon like a carving knife?

Lin Tianhao is also a little autistic.

Because after he put on the Evil Tomb Dividing Ruler, its properties did not change.

This also means that Lin Tianhao's level is too low and he cannot enjoy the attribute blessing of the Evil Tomb Dividing Ruler.

This is a bit troublesome.

This thing is awesome, but it's not very useful.

At least.

It is of little use to Lin Tianhao at this stage.

Putting away the Evil Tomb Dividing Ruler, Lin Tianhao's gaze fell on the Evil Emperor Wudao.

"Senior, the mission has been accomplished."

The Evil Emperor Wudao nodded slightly and took out an unremarkable gray stone.

Lin Tianhao was somewhat expectant.

After getting the gray stone, Lin Tianhao used it without hesitation.

"Ding, you are using a Heavenly Dao-level Talent Awakening Stone. Friendly reminder, the grade of this Talent Awakening Stone is too high. It is recommended to use a God-level or lower Talent Awakening Stone for Talent Awakening."

Lin Tianhao: "???"

You're messing with my mentality, right?

"use!!"

"Ding, you are using a Heavenly Dao-level Talent Awakening Stone. Friendly reminder, the grade of this Talent Awakening Stone is too high. It is recommended to use a God-level or lower Talent Awakening Stone for Talent Awakening."

Lin Tianhao: “???”

This is really a bit of a mentality issue.

It means you don't want to confirm its use, right?

If you don't want him to use this Heavenly Grade Talent Awakening Stone, just say so. What's the point of going around in circles like this?

"Use it!" Lin Tianhao gritted his teeth.

He worked so hard to get the Heavenly Dao Grade Talent Awakening Stone. If he can't use it, even if the Source of Dao God came, he would have to argue with him.

"Ding, you are using the Heavenly Dao Level Talent Awakening Stone, friendly reminder..."

"use!!!"

"Ding, you are using the Heavenly Dao Level Talent Awakening Stone, friendly reminder..."

"use!!!"

.....

Lin Tianhao gritted his teeth. This was really messing with his mentality.

He had seen outrageous things, but nothing this outrageous.

It's really Kata's awakening talent, right?

"It seems that you are unable to use this Heavenly Dao Grade Talent Awakening Stone."

The Evil Emperor Wudao saw Lin Tianhao's embarrassment and spoke calmly.

"Does this... mean that someone above is targeting me?" Lin Tianhao asked.

The Evil Emperor Wudao pondered for a moment, "I don't know, maybe."

"After all, I don't think it's a good thing that the gods can't take action. You seem to have been calculated."

Lin Tianhao frowned slightly. The recent discussion among those above him concluded that after Ragnarok merged with reality, the gods would not be able to take any action.

This is a good thing no matter how you look at it.

But the evil emperor Wudao said it was not a good thing.

"I already know that there are gods causing trouble during Ragnarok, and they are gods that were refined into godhood by adventurers."

Lin Tianhao nodded slightly and said, "Indeed."

The evil emperor Wudao continued:

"The Alete Galaxy uses godhood as a lure. How many adventurers do you think will be turned against them?"

"Before invading, they can create hundreds of thousands or even millions of gods to attack the elite among your adventurers."

"It will be difficult for these elites to compete with the gods unless they become gods."

"Let's take a step back and say that even if they can fight against one god, what if the Alite Galaxy sends out ten or even a hundred gods?"
