

O games 1831

Chapter 1831 Soul sublimation, destructive attributes!

Lin Tianhao has the resurrection coin in his hand. Normally, he can resurrect Gu Limu Black Heart Moon.

But in the end Lin Tianhao gave up.

because.....

That doesn't seem to be necessary anymore.

Since the opponent was able to kill Gu Limu Black Heart Moon remotely once, he naturally has the ability to kill Gu Limu Black Heart Moon a second time.

not to mention.

He had already gotten what he wanted from Gu Limu Black Heart Moon.

Next.

It is to deal with other people who have taken refuge in the Alete Galaxy.

Except for Luo Xuanren, these other traitors are basically not from the Shanhai Empire.

Lin Tianhao was too lazy to look for them and directly locked the Book of Life and Death.

"Ding, congratulations, you have successfully killed Xiudeli Baikong, and you will be rewarded with +10000 free attribute points."

"Ding, congratulations, you have successfully killed Xiudeli Baikong. An announcement will be made to all servers soon. Do you want to hide your name?"

"no!!"

"Announcement to all servers, congratulations to the player Xue Di for successfully killing Xiu Deli Baikong. We hereby announce this and hope that all adventurers will continue to work hard!!"

"Announcement to all servers, congratulations to player Xue Di..."

.....

The people on the list were killed one by one according to Lin Tianhao's Book of Life and Death, and no one survived.

Now in the galaxy world, there are almost no people who can withstand Lin Tianhao's Book of Life and Death, except for top powerhouses like Ku Yue and Allens Roman.

of course.

The adventurers can handle it.

It's just relying on infinite resurrection to hold on.

suddenly.

Lin Tianhao suddenly opened his eyes and a look of surprise appeared on his face.

"The Law of Origin of Space, finally reached the first level of the Law Realm!!"

This was also the first time that Lin Tianhao cultivated an original law to the law level.

The previous laws of the origin of the soul were only at the level of true meaning.

This is partly because Lin Tianhao's level of spatial laws has reached a very high level.

Another reason is that Lin Tianhao absorbed the law of origin of space from Allens Roman not long ago, so that Lin Tianhao has made a lot of improvements in the law of origin of space.

Besides.

There are also the fragments of the ancient bronze coffin that Lin Tianhao swallowed. These things also allow Lin Tianhao to quickly improve his speed of understanding the laws of space.

According to Lin Tianhao's own experience of enlightenment, this ordinary attribute understanding is still useful for the enlightenment of the original attributes.

It's just that the effect is not that obvious.

But although there were many ancient bronze coffins, and each piece of it could take Lin Tianhao a long time to devour.

Such success also made Lin Tianhao think of two things.

One is the underwater world, the trench where the ancient black dragon is located.

There is extremely rich soul power there.

Before, Lin Tianhao did not have the ability to fight against the ancient black dragon, and because of Hei Tianaozhen, Lin Tianhao did not make it too difficult for the ancient black dragon.

But now.

Lin Tianhao has the power to swallow the sky and the earth.

With Lin Tianhao's current strength, he can go to the place where the ancient black dragon is.

Take one step.

Lin Tianhao arrived at the trench in an instant.

The situation here was exactly the same as before. Lin Tianhao launched the Heaven-Devouring and Earth-Devouring Technique and began to devour the soul power remaining in those claw marks.

"Ding, you have devoured soul power. Your soul comprehension +1000, soul power +1000, soul attack resistance +1000, free attribute points +1000."

"Ding, you devoured the soul power..."

.....

Lin Tianhao didn't know whether the ancient black dragon was still in the depths of the trench.

When his spiritual sense explored further, it would be blocked by an extremely strong soul force, preventing him from continuing to explore.

But Lin Tianhao was not panicked at all. He continued to explore downwards, constantly devouring the soul power in it.

And the further down he goes, the stronger the power Lin Tianhao can get after swallowing.

"Ding, you have devoured soul power. Your soul comprehension +5000, soul power +5000, soul attack resistance +5000, free attribute points +5000."

"Ding, you devoured the soul power..."

.....

The prompt sound continued, and as the value grew, Lin Tianhao's improvement also grew.

According to Lin Tianhao's previous speculation about this ancient black dragon, it should be a saint-level existence.

The Lord of Qingtianyuan has already issued an order that those who have reached the level of saints must leave the galactic world.

but.....

There seems to be something different about this ancient black dragon.

That is.....

It was nailed to death deep in the sea by a spike.

This also means that it is extremely difficult for it to leave on its own.

If no one else takes action, this ancient black dragon will most likely be trapped and die here.

Swallowing all the way.

Lin Tianhao discovered that the trench was deeper than he had imagined.

As he continued to go deeper, each time Lin Tianhao swallowed, the amount increased from 5,000 to 10,000! !

But even so.

Lin Tianhao still hasn't reached the end.

but.

After the devouring value reached 10,000, it did not continue to increase, as if 10,000 was already the limit.

that's it.

Lin Tianhao had been diving for twenty-eight hours and was finally about to hit the bottom.

A deep pit was created deep in the trench.

but.

Lin Tianhao could no longer see the ancient black dragon.

It seems that the ancient black dragon has left here.

only.

The deep pit where the ancient black dragon was originally located was filled with extremely rich soul power.

After entering the deep pit, the values of Lin Tianhao's Devouring Heaven and Devouring Earth finally changed.

"Ding, you have devoured soul power. Your soul comprehension +20000, soul power +2000, soul attack resistance +20000, soul sublimation degree +0.01%, free attribute points +20000."

"Ding, you devoured the soul power..."

The value increased from 10,000 to 20,000.

The key is.

There is also soul sublimation!!

Lin Tianhao's soul sublimation had already exceeded 97%.

now.

His soul actually began to continue to sublimate.

Although this sublimation is not much, a mosquito leg is still meat.

Lin Tianhao looked around. He actually wanted to find the sky-piercing cone.

The fact that it was able to nail a saint-level ancient black dragon to death here proved that the Sky-Piercing Cone was extremely powerful.

at last.

Lin Tianhao saw a black hole in a corner of the deep pit, which seemed to be the trace left by the Sky-piercing Cone.

This black hole is not big, only the size of a fist and less than ten centimeters in diameter.

However, the aura emanating from this black hole is somewhat different from the aura emanating from this deep pit.

Think about this.

Lin Tianhao locked the power that could swallow the sky and the earth onto this fist-sized black hole.

"Ding, you are devouring unknown power, Destruction Perception +100000, Destruction Resistance +100000, Armor +100000, Magic Resistance +100000, Free Attribute Points +100000."

"Ding, you are consuming unknown power..."

Chapter 1832 News that shocked the world!

Hearing this prompt tone, Lin Tianhao was stunned for a moment, and even doubted whether he had heard it wrongly.

Is this so... so outrageous?!

This is not the Sky Piercing Cone!!

This is just the little bit of destructive power left by the Sky Piercing Cone! !

Is it just the little bit of destructive power that remains that is so terrifying?

He could actually get such a high value by swallowing.

This should be the highest attribute that Lin Tianhao has obtained after swallowing the Heaven-Swallowing and Earth-Swallowing.

With Lin Tianhao's continuous reminders, the attributes are also constantly improving.

Unfortunately.

It's just a black hole the size of a fist.

Lin Tianhao swallowed it for a few minutes, and then it was gone.

But even so, Lin Tianhao's understanding of the attribute of destruction has greatly improved.

The main thing is that the value of swallowing once is 100,000, which is much greater than swallowing other things.

Take back your thoughts.

Lin Tianhao began to continue devouring the remaining soul power in the deep pit.

that's it.

It took Lin Tianhao two and a half days to devour almost all the soul power in the deep pit.

Except this place.

There is another place that can also enhance soul power.

That is... the land of Nine Netherworlds.

Think about this.

Lin Tianhao used the Starry Sky Step again and headed towards the Nine Netherworld.

The Land of the Nine Netherworlds, the Bridge of Three Lives and Three Worlds!!

Lin Tianhao did not immediately devour to increase his soul power.

Because there is a river of death here at the Three Lives Three Worlds Bridge!!

This river of death is filled with the power of death. If he devours this river of death, he should be able to reap good rewards.

Thinking like this.

Lin Tianhao began to use the Heaven-Swallowing and Earth-Devouring Technique towards the Death River not far away.

"Ding, you are devouring the Death River, Death Perception +5000, Death Resistance +5000, Magic Resistance +20000, Free Attribute Points +10000."

"Ding, you are swallowing the river of death..."

.....

Lin Tianhao's eyes lit up and a satisfied smile appeared on his face.

Just as he imagined.

By swallowing this river of death, he can also gain very good rewards.

just.

Lin Tianhao still felt that this level of gain was a bit low.

If it were any other more common attributes, Lin Tianhao might have considered giving up.

But the attribute of death is different. Death is more powerful than other attributes. If one can comprehend it to a deep level, it is also extremely terrifying.

It's just because the opponents Lin Tianhao is facing now are either too strong or too weak, so the special features of the death attribute cannot be reflected.

The power that this river of death can devour is obviously extraordinary. If it continues to devour like this, it will be good for Lin Tianhao's subsequent improvement.

Seven days in a row.

Lin Tianhao was devouring the river of death, and his understanding of the attribute of death was greatly improved.

This river of death is almost reaching the bottom after being swallowed by Lin Tianhao.

of course.

Lin Tianhao was not just devouring, he was also refining the soul jade crystal during this period.

Fatty and the others didn't want these soul jade crystals, so Lin Tianhao naturally couldn't give up.

It took another half a day, and Lin Tianhao finally swallowed up the River of Death.

Next.

It is to devour things related to soul power.

Lin Tianhao is now unable to capture the soul seeds in the bodies of Fatty and others. Overall, it is probably because Lin Tianhao's own soul level is too low.

If Lin Tianhao could improve his soul level, would it be possible for him to detect the soul seeds in the bodies of Fatty and the others?

Then... use the Heaven-Devouring and Earth-Devouring Technique to devour the soul seeds in the fat man and the others.

Lin Tianhao began to search for places with soul power in the Lord of Jiuyou and started a crazy devouring mode.

In this Netherworld, there are quite a few things with spiritual power.

"In fact, you can directly devour the Ghost Messenger Order, the Soul-Catching Rope, and those things. After devouring them, the harvest should be very great."

Ned Liv's voice rang in Lin Tianhao's ears.

Lin Tianhao shook his head and said, "Those things can be used by ordinary adventurers."

"It is impossible for me to protect the galaxy world by myself."

After hearing what Lin Tianhao said, Ned Liv hesitated for a moment, then said:

"I think you're thinking too much. A battle between mortals can be turned around by one person alone."

"As long as you are strong enough..."

Lin Tianhao smiled bitterly and said:

"There's nothing wrong with what you said, but I'm just not strong enough."

"At least... I haven't reached the point you mentioned yet."

Lin Tianhao spoke as he walked forward.

"Ding, you are devouring the gate of Hades Palace, Soul Perception +1000, Soul Resistance +1000, Soul Power +10000, Health +100000, Armor +20000, Free Attribute Points +5000."

"Ding, you are devouring the gate of the King of Hell's Palace..."

.....

Lin Tianhao has now demonstrated what it means to leave nothing behind wherever he goes.

Unfortunately.

The gate of the King of Hell's Palace was not as powerful as he had imagined.

At least.

As for soul understanding and soul resistance, both are too low.

Just as Lin Tianhao continued to devour the gate of the King of Hell's Palace, a video call suddenly came in.

Lin Tianhao picked up the call and saw that Mad Blade looked a little excited.

"What's the matter? Why are you so happy?" Lin Tianhao asked with a smile.

"The Japanese Empire is destroyed!!"

Mad Blade danced with excitement, "Wakoku, the country that invaded us before, is now destroyed by us!!"

Lin Tianhao was slightly stunned. As a Dragon citizen, he was somewhat excited when he heard the news.

Lin Tianhao had received news before that Japan's actions against Zhongfen Country and Long Country were directed and acted by itself.

Such a short time nowadays.

The Japanese Empire has already been destroyed, which actually explains a lot of problems.

But this doesn't matter to Lin Tianhao. To the Dragon Country, Japan is no different from those guys in the Alite Galaxy.

"Okay, it should have been done a long time ago."

Lin Tianhao had a smile on his face.

Berserker Blade changed the subject and continued:

"Boss Xuedi, we have already captured half of the people you asked us to capture."

"Some of them voluntarily submitted their review."

Lin Tianhao's eyes narrowed slightly, and he said with a smile:

"If you have anything to say, just tell me."

Mad Fighting Blade put away his excitement, looked at Lin Tianhao seriously, and said:

"Boss Xuedi, the higher-ups have decided to implement the Fire Plan."

"We currently have too few godheads. Whether it's the Endless Starry Sky or the Divine Realm, the risk factor is very high."

"We hope to get more people to leave."

Lin Tianhao hesitated for a moment and said:

"I still have some godhood, which I can give to you, but you have to know that even if you become a god after refining the godhood, you will still be the weakest god."

"And it will be more difficult for them to continue to advance than for those who have attained enlightenment and become gods."

Chapter 1833 The third level of the law of soul origin!

Lin Tianhao's words were not perfunctory, or he was worried that Berserker Blade and the others would use the divine power to send other people away.

after all.

There must be a lot of people who want to leave the galactic world.

"We are aware of this problem, but as long as the number of people increases, more powerful people may emerge."

"We want the fire, and we don't expect those who left to avenge us."

"As long as they still remember that they are from Dragon Country, that their blood is still Dragon Country's, and that their genes are still Dragon Country's, then our Dragon Country will not be considered destroyed!!"

Lin Tianhao hesitated for a moment, and finally said:

"Okay, I support it. Here are 100,000 godheads."

Lin Tianhao did not take out all of his divine powers.

One hundred thousand, in Lin Tianhao's opinion, is enough.

In addition to the godhood given before, and the godhood they might collect by dealing with the traitor this time.

It was more than enough for their Fire Plan.

The battle to defend the Milky Way galaxy from the Aleta galaxy must be fought.

This is the grudge between past and present lives.

Lin Tianhao will not retreat.

"Okay, thank you very much." Mad Blade looked at Lin Tianhao gratefully.

End the call.

Lin Tianhao began to continue devouring.

There are indeed many things that can be swallowed in this Nine Netherworld.

Lin Tianhao's soul power was skyrocketing. At the same time, with Lin Tianhao's deliberate practice, his soul law had reached the first level of the Heavenly Dao Realm! !

This is Lin Tianhao's second law to reach the Heavenly Dao Realm.

just.

Although Lin Tianhao now possesses two laws of the Heavenly Dao realm, he has not yet comprehended the vision of the Heavenly Dao Sage.

This step is more difficult than Lin Tianhao imagined.

suddenly.

Lin Tianhao paused because he seemed to have swallowed something a little different.

"Ding, you are devouring the King of Hell's Prison Pillar, Soul Origin Comprehension +1000, Soul Origin Resistance +1000, Soul Sublimation +0.01%, Soul Power +100 million, Magic Resistance +10, Free Attribute Points +20000."

"Ding, you are devouring the King of Hell's Prison Pillar..."

.....

Soul's Origin Enlightenment!!

This is a rare and good thing, and it is what Lin Tianhao wants to find most now.

just.

Lin Tianhao did not expect that the gray-white pillar in the center of the Hall of Yama could actually provide him with enlightenment of the origin of his soul. This was somewhat beyond Lin Tianhao's expectations.

Besides.

After devouring the King of Hell Prison Pillar, Lin Tianhao's soul power also surged! !

Each swallowing would increase one million soul powers, which was equivalent to refining a soul jade crystal.

Such an increase somewhat surprised Lin Tianhao.

There was only this one pillar, and Lin Tianhao devoured it completely in less than two hours.

As for the other pillars in the Hall of Yama, not to mention increasing the soul's original understanding, even the increase in soul power is not significant.

"It seems that only this pillar has such an effect."

Lin Tianhao thought secretly that the current situation was somewhat beyond Lin Tianhao's expectations.

The current situation is somewhat unacceptable to Lin Tianhao.

but.

This is already a good harvest.

Plus.

There are such treasures in the King of Hell's Palace. Are there things in other places that can enhance the soul's original understanding?

He still has many places to go, so here, he can continue to practice and naturally gain a lot.

In the blink of an eye.

A month passed.

It was almost the same as Lin Tianhao expected. In this Netherworld, there were several places that could enhance the soul's original understanding.

This month has passed.

Lin Tianhao's soul law has broken through to the second level of the Heavenly Dao Realm, the law of soul origin, and has also surpassed the law of space origin, reaching the third level of the law realm.

now.

In this Nine Netherworld, there is only one place that Lin Tianhao has not visited yet.

That is... the place where Hou Tu Niangniang lives.

And... that hell bodhi tree!!

And the ice coffin filled with various Taos.

I don't know how the Tibetan monk is doing now.

When they first came here, the seal of the Hell Bodhi Tree was destroyed by them, and the monk Zanghai had to stay here to maintain the seal of the Hell Bodhi Tree.

As Lin Tianhao walked along, he found that the original location of the City of Disasters was now empty, as if the City of Disasters had never appeared there.

Keep going.

Lin Tianhao's Heaven Devouring and Earth Devouring Power was not closed.

Because what if there is some insignificant little thing along the way that can give him a great boost.

Thinking like this.

The smile on Lin Tianhao's face became more and more intense.

All the way to the Hell Bodhi Tree.

Under the Bodhi tree of Hell, the monk Zanghai was covered in golden light. Golden runes flew out from the golden light and landed on the Bodhi tree of Hell.

But nevertheless.

Black air is still emanating from the Bodhi tree in hell.

Occasionally, you can see some hideous and evil creatures trying to break the seal.

The Tibetan Sea Monk noticed Lin Tianhao, but he did not stand up and continued to maintain the seal.

Lin Tianhao activated his Heaven-Devouring and Earth-Devouring Power, locking onto the spreading black energy.

"Ding, you have swallowed the immortal black energy, Death Origin Comprehension +1000, Death Origin Resistance +1000, Magic Resistance +20, Free Attribute Points +20000."

"Ding, you swallowed the immortal black energy..."

.....

Lin Tianhao was slightly surprised.

Swallowing these immortal black air actually allowed him to regain his original understanding.

The root of death!!

There are a huge number of evil spirits in this hell bodhi tree. If he can devour them all, it will be of great help to him.

but.....

This actually presents another problem.

That is, how should he choose to attain enlightenment!!

Before, he chose to fight against the laws of space.

Then after his soul comprehension improved, Lin Tianhao began to comprehend the laws of the soul.

The reason for this choice.

This is because Lin Tianhao feels that the law of soul is related to Fatty and Glasses. If he can improve the level of the law of soul, it will be of great help to him in the future.

Now that his understanding of the origin of death is also improving, he should consider comprehending the law of death.

The law of origin is more powerful than ordinary laws.

But the prerequisite is that the gap between the two is not too big.

Just like Lin Tianhao's soul origin law and space origin law, at present, the gap between these two and the two law powers that have reached the realm of heaven is not a little bit.

of course.

The gap is just the difference in power.

but.

The level of the original law is low, but it is not completely useless.

At least.

Lin Tianhao felt.

If the origin law of his soul can be upgraded to the Dao realm, and equipped with the ability to swallow the sky and devour the earth, then the troubles of Fatty and Glasses can be easily solved.

This is also the important reason why Lin Tianhao will temporarily stop practicing the law of origin of space and turn to practicing the law of origin of soul.

Chapter 1834 6 Reincarnation Coins!

"Let some out." Lin Tianhao said lightly.

Although Lin Tianhao was thinking about this question in his mind, he did not stop swallowing.

It is true that one cannot chew too much to understand, but it is okay to swallow it.

First, raise your realm.

As for the rest, we can talk about it later.

Especially since the Defence of the Galaxy War lasted for a full ten years, he was not completely without time.

just.

The last three months of carefree growth are now only around the corner!!

This time.

Somewhat urgent.

But there is nothing that can be done about it.

Under the intentional control of the Canghai monk, more and more undead black gas emerged.

The hideous evil spirit also began to show its head.

For Lin Tianhao, this couldn't be a better thing.

“Ding, you are devouring the Undead Evil, Death Origin Comprehension +5000, Death Origin Resistance +5000, Magic Resistance +100 million, Free Attribute Points +10!!”

"Ding, you are devouring the undead evil..."

.....

These hideous undead evil spirits provide Lin Tianhao with higher values.

Especially the fact that one swallow gives one million magic resistance and one hundred thousand free attribute points, which is simply too cool.

that's it.

Lin Tianhao sat cross-legged in front of the Hell Bodhi Tree and began his crazy devouring mode.

In the blink of an eye.

Another month has passed!!

After devouring for a month, the undead evil spirit in the hell bodhi tree has not been completely devoured by Lin Tianhao.

"How many immortal evil spirits exist in this hell bodhi tree!!"

Lin Tianhao was a little surprised.

According to this progress, even if Lin Tianhao devoured the Hell Bodhi Tree for another month, it would be difficult for him to devour the entire tree.

If you keep swallowing, you will be able to keep improving.

This should have been a happy thing, but...

Lin Tianhao now has limited time.

therefore.

Lin Tianhao still planned to enter the residence of Hou Tu Niangniang first.

He wanted to take a look at the ice coffin.

after all.

The aura emanating from around the ice coffin was extremely overbearing, and its types were also very numerous.

If he could devour those Daos, his strength would be greatly enhanced.

however.

When Lin Tianhao entered the residence of Hou Tu Niangniang, it was... empty!!

Except for the simplest furniture, many of the things he had seen before had disappeared.

"The creature in the ice coffin should be at the level of a saint, or even higher."

"After the Blue Sky Origin Master issued the decree, the ice coffin and its owner had no choice but to leave."

Lin Tianhao had a guess in his mind.

but.....

The residence of Hou Tu Niangniang should not be simple.

"Ding, you are devouring Hou Tu's residence, soul understanding +1000, soul power +5000, magic resistance +20000, free attribute points +5000."

"Ding, you are devouring Hou Tu's residence..."

.....

Just as Lin Tianhao imagined, he could indeed gain some benefits by devouring Hou Tu's residence.

But it's not as big as imagined.

It seems that devouring Hou Tu's residence is not as good as devouring those undead evil spirits.

After all, what you gain from devouring the undead evil is the understanding of the original laws, and the value is even greater.

but.....

Lin Tianhao now continues to improve the laws of the origin of the soul.

This improves the soul's understanding and is also helpful for improving the soul's original laws.

Now his soul origin law has reached the fourth level of the law realm.

Follow this pace.

Not to mention reaching the Dao realm, even if it was to reach the Dao realm, it would be unlikely for Lin Tianhao to reach it before Ragnarok merged with reality.

Should I continue to devour Hou Tu's residence to increase my soul's understanding, or should I go out and devour the immortal evil spirits?

Lin Tianhao hesitated for a moment, then chose to devour Hou Tu's residence.

Because the core thing he needs to comprehend now is the law of the origin of the soul.

The law of the origin of death also needs to be understood, but that is a matter for later.

and.

After all, this is the residence of Hou Tu Niangniang. Although many things have been moved away, there should still be quite a few things left.

In other words.

If he continues to devour, he may also be able to obtain some other good things from the residence of Hou Tu Niangniang.

Just like that, after Lin Tianhao had been devouring for three consecutive days, a different prompt finally appeared on the fourth day.

"Ding, you swallowed the Six Paths of Reincarnation Coin, Soul Origin Comprehension +1000, Death Origin Comprehension +1000, Life Origin Comprehension +1000, Soul Origin Resistance +2000, Death Origin Resistance +2000..."

Lin Tianhao's eyes lit up.

These six reincarnation coins are inside the beams of Hou Tu Niangniang's residence.

This is the first time that Lin Tianhao has swallowed something with so many bonus attributes.

Unfortunately,

The number of these six reincarnation coins does not seem to be large.

There are only those inside the most core beam, and there seem to be ninety-nine in total.

But as the saying goes, even a mosquito leg is meat.

not to mention.

This thing can't be considered a mosquito leg.

Ninety-nine Six Paths of Reincarnation coins were swallowed by Lin Tianhao in less than a day.

In the remaining Hou Tu residences, Lin Tianhao did not get any such gains, only some basic rewards.

It took another three days.

The originally small residence of Hou Tu was swallowed up by Lin Tianhao.

Next.

It continued to devour the immortal evil spirit in the Bodhi tree of hell.

After being devoured by Lin Tianhao, these undead evil spirits did not show up anymore.

"There are still many undead evil spirits in the Bodhi tree of hell, but they won't come out."

The Tibetan sea monk frowned.

"If you want to continue devouring the undead evil spirit, you may have to start with this hell bodhi tree."

Lin Tianhao frowned.

If all these undead evil spirits were released, would he be able to intercept them all?

If not, if these undead evil spirits escape, ordinary adventurers will not be able to deal with them.

unless.....

Lin Tianhao thought of Jiang Ziya, Shen Gongbao and Jin Wuzui.

If they are willing to take action, they can give it a try.

"wait for me."

Lin Tianhao took a step forward and disappeared.

Not long after.

Lin Tianhao came back and brought Shen Gongbao, Jiang Ziya and Jin Wuzui with him.

Jin Wuzui looked at the Hell Bodhi Tree in front of him and a strange smile appeared on his face.

"Small problem, I'll set up a formation and release them, and not a single one will escape."

Jin Wuzui is very confident.

Lin Tianhao didn't doubt it.

After all, Jin Wuzui is a powerful man at the peak of the pseudo-saint realm. If he attacks with all his strength, there will probably not be many people who can compete with him.

These undead evil spirits do have some abilities. These guys may have some abilities, but they are not too strong.

"Release the seal." Lin Tianhao said lightly.

Upon hearing this, the divine monk Zanghai clasped his hands together, and the golden runes on the Bodhi tree of hell began to disintegrate.

In the Bodhi tree of hell, the sounds of ghosts crying and wolves howling are endless.

Chapter 1835 Pangu Resurrects, Trade!

Black gas began to surge out, and Lin Tianhao immediately activated the Heaven-Swallowing and Earth-Devouring Technique.

but.

Only black gas diffused out from the Bodhi tree of hell, but no undead evil spirit appeared.

It seems that Lin Tianhao's previous crazy devouring made these undead evil spirits a little afraid.

But it doesn't matter if it doesn't come out, Lin Tianhao will swallow the black air first.

They are all inside the Bodhi tree of hell and they can't escape.

As the seal of the Hell Bodhi Tree continued to open, some immortals finally rushed out.

"Get down!!!"

Jin Wuzui took a step forward, and a shadow of Buddha appeared behind him.

The Buddha's shadow radiated an infinite dim light, and looked somewhat evil.

But despite this, these undead evil spirits were still easily suppressed.

"It's you--"

A deep and hoarse voice came from the depths of the Bodhi tree in hell.

"Hahaha, I didn't think you would have this day!!"

The deep, hoarse voice began to laugh wildly, "In the beginning, you served as a dog for the Buddhist sect. Now you have betrayed the sect and are serving as a dog for a human being again."

"You should be the ruler of the universe, but you always like to be someone else's dog. How ridiculous, pathetic, and sad!!"

Jin Wuzui frowned slightly and said in a deep voice:

"It's my decision how I do things, and I don't need you to tell me what to do."

Jin Wuzui was once a powerful Buddhist, and this Hell Bodhi Tree is a Buddhist thing.

It doesn't seem strange that these monsters sealed in the Bodhi tree of hell know each other.

"What a pity. We finally managed to get out of this hellish Bodhi tree, but now we have to die here." A hoarse voice sounded.

Jin Wuzui snorted coldly, "You all deserved to die."

"Should die?"

"Why should anyone die? We have killed people, but you have never killed anyone?"

"Who among you here has not killed someone before?"

"Just because we Kuku emits black energy, you think we are evil?"

Lin Tianhao never thought of arguing with them.

To him, these undead evil spirits were neither good nor bad; they were just like the red-eyed rabbits in the Novice Village.

There is no right or wrong, that's just the rule.

In addition to being able to devour them to gain experience points, Lin Tianhao can also gain experience points by killing them.

Although Lin Tianhao is no longer able to change jobs, his level has not yet reached the limit for the next job change.

With Jin Wuzui's support, Lin Tianhao just kept swallowing.

Just as Lin Tianhao expected, there are many undead evil spirits in this hell bodhi tree.

He devoured for more than a month before he finally devoured all of these undead evil spirits.

And his soul origin law has only reached the fifth level.

This progress is actually very fast.

But compared to the time Lin Tianhao has now, it is still a bit too slow.

Lin Tianhao looked at the time and his expression became more serious.

It is now April 2037, 4.

In the previous life, Ragnarok began to merge on May 2037, 5.

To be precise.

The fusion started just after midnight on May 5th.

By this calculation, there are only thirty-eight days left until Ragnarok merges with reality.

After being reborn, it felt like five years was a long time.

But it all seemed like a dream, and in the blink of an eye, five years had passed.

some of.

And there were the thousands of years he spent in the time and space cultivation pagoda to attain enlightenment.

The current Lin Tianhao is completely different from the Lin Tianhao when he was just reborn.

even.

The height that Lin Tianhao has reached now has far exceeded his expectations.

But nevertheless.

Lin Tianhao still feels great pressure.

In the words of Gu Limu Hei Xinyue, the Alite Galaxy had not originally thought of sending any experts here.

Just prepare to send a few families to attack them.

This should be the reason why they were able to survive the catastrophe for five years in their previous life.

But now...

Because of my existence, those guys in the Alete galaxy will obviously change their strategy.

I just don't know how they will deal with me.

"Xue Di, if you need any help, as long as it is within the rules, we can talk about it."

"We may not be able to stay here for long." Jin Wuzui said very seriously.

Lin Tianhao nodded and sent a message to the fat man.

Judging from the time, the Fatty and the Glasses should be about to be possessed by another body.

Fortunately.

The fat man sent himself the coordinates.

This... is also rare good news.

Lin Tianhao came to the location where the fat man had posted.

Today, the five continents of China have been connected into a whole. The current China is the real China.

The fat man was in a crater at this time.

"You came."

The fat man spoke slowly, but as soon as he opened his mouth, Lin Tianhao realized that something was wrong.

"You're not fat!!"

Just by listening to the voice, Lin Tianhao could tell that he was not fat! !

"I am Pangu."

[Fatty] has a deep voice and a weathered look in his eyes.

A cold light flashed in Lin Tianhao's eyes.

Even though Pangu, the great god, created the world.

But he took over the fat man's body, which Lin Tianhao could not accept.

Sensing the change in Lin Tianhao's aura, Fatty smiled and said:

"Don't worry, your good brother is not dead. This is a blessing for both you and him."

"I, Pangu, am not so shameless as to possess the body of a younger person just to be resurrected."

Lin Tianhao narrowed his eyes slightly, and then the aura of the Fatty changed drastically.

"Brother Hao, it's me!"

Lin Tianhao narrowed his eyes slightly. Judging from the voice, this should be a real fat man.

Lin Tianhao activated the laws of the soul's origin to explore.

really.

It is really the fat people who control the body now.

"What's going on?" Lin Tianhao asked.

"The great god Pangu did not possess my body. He made a deal with me. He would control my body to fight in the battle to defend the galaxy. When the battle was over, he would pass on his inheritance to me."

Lin Tianhao took a deep breath. The inheritance of the great god Pangu was at a very high level.

"The great god Pangu has been very good to me. He has been guiding me since he woke up. I have improved a lot during this period."

Lin Tianhao frowned slightly. If what the fat man said was true, it didn't seem like a bad thing.

The fat man's voice had just fallen when Pangu's deep voice sounded again.

"My feelings for the Galaxy World are deeper than yours. I will not sit idly by and watch this world being destroyed."

Lin Tianhao took a deep breath, calmed himself down, bowed to the great god Pangu, and said:

"In the battle to defend the galaxy, we must pay tribute to the great god Pangu."

Pangu the Great God grinned and said, "When you say this, do you mean you don't want to contribute?"

"Although I have awakened now, I am borrowing your brother's body. Apart from my higher enlightenment, my attributes, skills, and magical powers are still your brother's body."

Chapter 1836 The opinion of Pangu God!

Lin Tianhao smiled and said:

"The Fatty's attributes should be the highest among all the adventurers on Blue Star. Combined with your methods, Great God Pangu, he should be very powerful."

The great god Pangu nodded and said, "You are still modest. Fatty's attributes are the highest among the mortals in the Ragnarok Realm. I am not exaggerating."

"of course."

"It's limited to health, dual resistance, and attack power."

"There should be more than that." Lin Tianhao said lightly.

"The fat man's talent should have evolved."

Lin Tianhao didn't ask Fatty, but with Fatty's ability, he should be able to get the flower of talent evolution.

If he has the talent evolution flower, he can evolve his talent and thus gain other attributes.

"Fatty didn't tell you because he wanted to give you a surprise."

Pangu God said calmly, "Little Fatty, see, I was right, wasn't I? Xue Di is such a smart person, she will definitely be able to guess it."

The fat man and the great god Pangu should be able to communicate with each other through consciousness, and he said this to the fat man.

"Tell me, how far has Fatty's talent evolved?"

"Attack speed and movement speed can be shared synchronously." said Pangu.

Lin Tianhao's eyes lit up.

Health and dual resistance, plus attack power, attack speed, and movement speed.

Then the Fatty's panel values should be more versatile than the Monkey's.

"I didn't ask about their talent evolution. Monkey's talent should have evolved as well. He should have made significant progress now."

Lin Tianhao has been working hard to improve himself, and he has been letting his good brothers take care of themselves.

However, the occasional benefits that Lin Tianhao gave them still allowed them to stay ahead of most adventurers.

In Ragnarok, as long as you have good talent and are ahead of most adventurers in the early stages, it will be difficult to be surpassed later.

Because under normal circumstances, this snowball will get bigger and bigger.

Especially the fat man and the monkey are in the same boat. When they work together to kill monsters and complete tasks, their efficiency is extremely high.

"Shouldn't you pay more attention to your glasses?" said Pangu.

Lin Tianhao nodded. "If my guess is correct, the person in the glasses shouldn't have revived yet."

"It seems that you rarely ask about your brothers' situations, but you actually know them very well."

"The method used by the glasses is indeed quite powerful. The person inside him has not yet revived and is temporarily suppressed by the glasses."

"It could be a year, or even longer."

Lin Tianhao was also a little surprised. He knew that the glasses had some special skills, but he didn't expect that the glasses were so powerful.

"Great God Pangu, if those guys from the Alata Galaxy are getting closer to a real invasion, do you have any response strategies?" Lin Tianhao asked.

Pangu shook his head and said, "I'm not very good at commanding. I used to just rush in."

"But I think the defense of the Galaxy World War should still be based on defense. That means building a defense line, holding on tightly, and dragging it out for ten years."

"And, it seems that you adventurers actually did that."

"They are building a defense line with the Shanhai Empire, that is, the vast continent, as the core."

"It will be launched in the form of a territory. You can ask the adventurer-level managers for the specific layout."

Lin Tianhao nodded. "Can you solve the problem with the glasses?"

"I can accept him being in the same situation as Fatty, but death, no."

Pangu nodded and said:

"I understand. I've already sent a message to Glasses. If he wakes up, he should show some respect to me."

Hear this.

Lin Tianhao was slightly surprised.

"Who... is that person? Is his status higher than yours?"

According to Lin Tianhao's previous speculation, one of the two soul seeds is the great god Pangu, and the other one may be one of the twelve ancestor witches.

But now, according to what the great god Pangu said, the soul seed in Yanjing's body may be at a higher level than him.

When asking the great god Pangu, Lin Tianhao silently chose the law of death as his automatic enlightenment.

Lin Tianhao planned to first comprehend the law of death to the Heavenly Dao realm, and then comprehend the law of the origin of death.

The law of the origin of space was cultivated after he devoured the law of the origin of space of Allens Roman.

Overall.

The understanding of the law of origin of space is not as good as the understanding of the law of origin of soul, and it is even more incomparable to the law of origin of death.

therefore.

In the current situation, Lin Tianhao chose the fastest way to improve.

at the same time.

Lin Tianhao continued to devour the fragments of the ancient bronze coffin to increase his speed in comprehending space.

"Not as good as me. He is my son, a true son. He was a seed that emerged when I sensed my body was about to disintegrate."

"You can even think of him as my incarnation."

Lin Tianhao nodded. "As long as Glasses and Fatty are fine, everything will be fine."

At this moment.

Berserker Blade made a video call to Lin Tianhao.

"Boss Xuedi, there is a global alliance conference tonight, and representatives from all countries hope you can attend."

"I also want to hear your opinions at this meeting."

Lin Tianhao narrowed his eyes slightly. He knew that this meeting should be to discuss countermeasures.

"it is good."

"This meeting is an online meeting. The meeting will be held in the Baishi Building in the imperial capital of Shanhai Empire. The meeting will start at six o'clock tonight." said Mad War Blade.

Lin Tianhao nodded, "Got it, I'll be there in a minute."

After ending the video call, Lin Tianhao looked at Pangu God and said:

"You know more about the Galaxy World than I do. If we're going to defend it, what's the most appropriate strategy?"

Although Pangu God had said before that he was not good at commanding, Lin Tianhao still wanted to hear what Pangu God thought.

"The five continents of China have been connected, which is actually good news."

"My idea is similar to that of those above you. That is to focus on protection, establish multiple lines of defense, and alternate defenses. Then, using the teleportation array as a foundation, we can conduct a flanking and encirclement operation."

"Anyway, I don't advocate just defending. If conditions permit, we should still consider counterattacking."

Lin Tianhao nodded slightly.

The great god Pangu continued:

"If we launch a defense war centered on the land of China, then the first line of defense should be outside Ragnarok."

"According to the information I have, space rifts appear randomly on some planets, not just Blue Star, but also on other planets."

"These spatial rifts are the key to entering and exiting Ragnarok. Therefore, it would be best to establish a territory outside of the spatial rifts to directly prevent the main force of the Alet Galaxy from entering Ragnarok."

Chapter 1837: Meeting in Shilou!

"There shouldn't be too many spatial rifts like this. I estimate there will be between one thousand and three thousand in total. And because Ragnarok is targeting your Blue Planet, the spatial rifts should all be on your Blue Planet."

Lin Tianhao pondered for a moment, "In this case, the focus of prevention and control will be on Blue Star, and the focus will be on preventing and controlling both ends of the spatial rift."

This was actually how it was controlled in the previous life, but in this life, Lin Tianhao wanted to control more.

"They are all mortals. Is it possible to drag the battlefield to the planets around Blue Star?" Lin Tianhao asked.

Pangu thought for a moment and said slowly:

"What you said is not impossible."

The battlefield in the previous life did not spread to the surrounding areas of Blue Star, and the core battlefield was still on Blue Star.

Especially after the war prolonged, the situation on Blue Star became increasingly difficult, and began to develop into a situation where the defense battles were based on cities one by one.

The main reason is that the Blue Star in the previous life did not have the ability to extend the battle line.

Lin Tianhao himself had not yet figured out what path he should take in this life.

I have some ideas in my mind, but they are not perfect.

To be precise.

These issues were never something he should have considered.

He is not a military strategist, nor is he a top intellectual talent, but his existence represents the Dragon Kingdom's top combat power.

With him around, he can surpass everyone else and suppress the opponent's high-end combat power.

Besides.

He also has ten statues that can attack automatically. If used properly, these ten statues can also be a powerful weapon.

After talking with the great god Pangu for a while, Lin Tianhao said goodbye and left.

The fat man is safe for the time being, that's enough.

As for the great god Pangu...

Perhaps because of those myths and legends, or perhaps because the fat man was still alive, Lin Tianhao chose to believe in the great god Pangu.

Or.

This is already the best result.

It is not a bad thing for the great god Pangu to control the fat man's body.

after all.

The fat man's attribute panel is indeed very, very high, but his level of enlightenment is still not good enough after all.

Can't say the same.

But the time it took for the fat man to gain enlightenment was too short.

This is true for all adventurers on the entire Blue Star.

There is too little time for them to realize the truth.

Most of them kill monsters during the day and seek enlightenment at night.

For most ordinary adventurers, being able to comprehend the domain is something they should be thankful for.

As for reaching a higher level, that itself is unrealistic.

Don't talk about someone like Lin Tianhao.

For ordinary adventurers, being able to reach the level of enlightenment and the realm of law during the five years of Ragnarok can be considered a genius.

Or it is possible to raise the level of enlightenment to the realm of law only by relying on chance, enlightenment speed bonus and other reasons.

The fat man might have some luck, and he probably has some enlightenment points, and he should also have some things that increase the speed of enlightenment.

After all, Fatty's strength can definitely be ranked among the top ten among adventurers.

The more powerful the adventurer, the easier it is for him to get some rare good things.

but.

Even so.

The fat man's level of enlightenment cannot be compared with that of Pangu.

Shanghai Empire, Imperial Capital, Baishi Tower!

Lin Tianhao arrived as promised.

After coming out of the Nine Netherworld, Lin Tianhao had contact with these people and learned about their arrangements and deployments for the defense of the Galaxy.

This time they called me here, probably because they needed me to participate in the decision-making for this deployment, and some parts even concerned me.

Baishi Building.

This should have been purchased by the top leaders of Longguo.

Lin Tianhao saw a few familiar faces at the entrance of Baishi Building.

Berserker Blade, the elder, Dragon Team, Luo Qinyun, Jin Delan...

Look.

This meeting was bigger than he had imagined.

The basement of the Baishi Building has been converted into a huge conference room.

After Lin Tianhao came in, he found that the seats were already named.

His name appeared on the core rostrum, where there were eleven seats.

In other words.

There are twelve seats on the rostrum.

As for the surrounding area, Lin Tianhao took a quick look and found that there were more than 1,100 seats.

From this we can see that there will be quite a lot of people attending this meeting.

Most people arrived at this meeting early, so everyone was there before the meeting time.

Berserker Blade was in charge of statistics. After everyone was in place, he nodded to the chief elder in the center.

When holding a meeting in Ragnarok, there will be no language barrier and what is said will be automatically translated.

It is also easier to communicate and there is no need to worry about being attacked by the Alata galaxy.

"Now, we only have the last thirty-eight days left before Ragnarok and the fusion of reality. We don't have much time to prepare."

"The Milky Way is vast, but the Blue Planet is small. The survival of the Blue Planet is closely related to all of you present here."

The elder stood up and said seriously:

"The battle to defend the galaxy is difficult, but we cannot retreat, and there is no way to retreat!!"

"This meeting is mainly about strategic deployment. Everyone is welcome to raise any opinions. Next, Xuan Mingyang, the commander-in-chief of the Second Legion of the Dragon Kingdom War Department, will explain the strategic deployment and the specific tactics for the Galaxy World Defense War."

As the elder's voice fell, a tall soldier in the first row below the rostrum stood up and slowly walked onto the rostrum.

"According to our integrated intelligence from multiple countries, as well as information obtained from immortals and gods from many countries, the fusion of Ragnarok and Blue Star is not a fusion of space."

"Instead, thousands of spatial rifts of varying sizes will appear between Blue Star and Ragnarok, connecting them."

"Our idea is to use the Shanhai Empire's capital as the core, defeat multiple lines of defense, and try to delay the war for ten years!"

The words fell.

A projection screen appeared in the sky, showing the Shanhai Empire and the connected land of China.

"The first defensive position is on Blue Star. Centered around the spatial rift, we will establish three or more lines of defense to prevent the Alet Galaxy army from entering the spatial rift. At that time, all of Blue Star's current weapons, including nuclear weapons, can be deployed."

"The second defensive position is within Ragnarok, which connects to the spatial rift. It also uses more than three layers of defense to block the Arlett system's troops from entering Ragnarok."

"The third defensive position is in the Shanhai Empire. With the Shanhai Empire's capital as the core, we will establish at least nine layers of defense."

"Also, the cities outside the Shanhai Empire's defense line will use the main city's defensive formation as their foundation and adopt a desperate defense strategy, delaying the attack as long as possible."

That's it.

Xuan Mingyang's eyes fell on Lin Tianhao and he said very seriously:

"Boss Xuedi, I'm afraid we still need your help to set up a teleportation array here. It would be best if it were a one-way teleportation array, meaning it can teleport there but not back."

Chapter 1838 Pre-war deployment!

After hearing Xuan Mingyang's words, Lin Tianhao instantly understood what Xuan Mingyang wanted to do.

Or.

The purpose of their arrangement.

That is, the people on the front line of defense can get support, but it is almost difficult for them to evacuate.

"No problem." Lin Tianhao said lightly.

Xuan Mingyang took a deep breath and continued:

"It's still unknown how many troops the Alet Galaxy will send over. With Blue Star and the Inner Earth, we can mobilize quite a few adventurers."

"But compared to the indigenous people of China, there aren't that many adventurers like us."

Speaking of it.

Xuan Mingyang's gaze fell on Lin Tianhao again.

"Boss Xuedi, I wonder how many troops you can mobilize?"

Most of the forces in China are affiliated with the Shanhai Empire.

If Lin Tianhao mobilized all of them, the number of troops that could be mobilized would be very large.

"There's no specific statistics, because before Ragnarok merges with reality, many NPCs will likely leave the Galaxy World."

"However, I should be able to mobilize an army of 5 billion to 10 billion, but the quality will not be very high."

There are many people in the Shanhai Empire, very, very many.

But the level of the military is not as high as imagined.

Most armies are actually at the level of second to sixth transformation.

There are armies above the seventh level, but their numbers are much smaller.

"Is it possible to concentrate the troops on the Shanhai Empire and place the final battlefield of this defensive war in the Shanhai Empire?"

Lin Tianhao nodded gently, "I can arrange it, but..."

"I think we can consider establishing a battlefield outside of Blue Star."

Hearing Lin Tianhao's words.

People in the front row and even on the podium began to communicate.

Xuan Mingyang pondered for a moment before saying:

"Boss Xuedi, we considered this at the beginning."

"But I eventually gave up."

"Because the longer the battle line is, the more manpower and material resources we need to invest."

"Without knowing the number and quality of the Arlet Galaxy's military, it would be very dangerous to rashly extend the battle line."

Lin Tianhao thought for a moment, "What I mean is to establish a secret stronghold, not a direct line of defense."

"Scatter them out and engage in guerrilla warfare against them in the starry sky, focusing on harassment."

this time.

Before Xuan Mingyang could speak, the US President shook his head.

"Master Xuedi, if everyone was as powerful as you, of course we could do this, but... a small group of troops harassing us would be easily destroyed."

"Longguo has achieved great success with guerrilla tactics in the past, so they've naturally considered this tactic as well."

Xuan Mingyang nodded slightly and said:

"Boss Xuedi, the final part of this tactic is actually a guerrilla tactic."

"We will fight a defensive battle with the Shanhai Empire as the core. If the Shanhai Empire can't hold on, we can use the teleportation array to teleport out, or you, Boss Xuedi, can lead your men to break out."

"Scatter the survivors and start the survival challenge mode. While trying to stay alive as much as possible, harass the army of the Alete system."

Lin Tianhao pondered for a moment, thinking that guerrilla warfare was unlikely to be effective in such a war.

This is because it is very easy for a strong person to use his spiritual sense to detect and find and kill everyone nearby.

The reason why Longguo's guerrilla warfare was able to succeed was because the exploration technology at that time was not advanced.

But Lin Tianhao felt that...

As long as we can create something that can block the detection of spiritual consciousness, it will be enough.

such as.

The special coating that Kui Wei Changtian used on his weapons could avoid detection by divine sense.

and so.

Guerrilla tactics are feasible to a certain extent.

Xuan Mingyang took a deep breath and continued:

"As I just said, the final step of this tactic is guerrilla warfare."

"If the Shanhai Empire is conquered, all the survivors will engage in guerrilla warfare against those guys in the Alite Galaxy."

"From the information we've learned from various sources, there's a significant gap between our overall strength and that of the Alet Galaxy."

"All we can do is delay it until the end."

At this moment.

Someone below asked:

"This method probably won't work, right? After all, if delaying is enough, then wouldn't it be enough to let Xue Di survive for ten years?"

Xuan Mingyang said seriously:

"No, we've learned that if the number of adventurers on Blue Star—remember, Blue Star, not including the NPCs in Ragnarok—falls below one million, we'll lose this battle."

"I know what you are thinking. Let Boss Xuedi take one million people with him and put them into a space-type magic weapon."

"As long as Xue Di is alive, there is still a chance."

"This method is feasible, and this is another point of this meeting."

"We will arrange for the child to enter the space magic weapon of Boss Xuedi."

Speaking of it.

Xuan Mingyang looked at Lin Tianhao again and bowed solemnly to him.

"Master Xuedi, if...if the guerrilla warfare also fails, the hope of the galaxy world will rest on you alone."

"As long as you can keep those children alive and hold on until the end of the Galaxy World Defense War, then... even if all of us die, it won't matter!!"

"You are the last line of defense of our galaxy."

Xuan Mingyang finished speaking.

Luo Qinyun took over the conversation and said very seriously:

"Boss Xuedi, if... if those guys in the Alite Galaxy are truly too powerful and you can't hold on any longer, please take those children and leave the Milky Way world."

"As long as you are alive, as long as those children are still here, even if the Galaxy World is gone, there will definitely be a day when it will be rebuilt."

Lin Tianhao clenched his fists involuntarily.

He has a heavy burden on his shoulders.

In fact, even if they didn't say it, Lin Tianhao knew it.

In this battle to defend the galaxy, he is the one who shoulders the heavy responsibility.

But his power alone is limited.

Lin Tianhao didn't know how this defensive battle would end.

"It is good!!"

Lin Tianhao nodded heavily.

He is very clear.

It is difficult to say what the outcome of this defensive battle will be.

"However... I might also become a target. My suggestion is to let those children stay in the Mortal Palace."

"If both the first and second fronts are breached, I will consider taking those children with me."

Lin Tianhao definitely needs to take the initiative.

even.

At their level, they need to consider moving the battlefield into the starry sky.

Otherwise, if we really fight with all our strength, the destructive power will be terrifying.

"Well, this one will work too."

Xuan Mingyang nodded gently. "Next, we'll need to plan the specific defense lines. The closer we are to the front, the more likely we'll be confronted by the guys from the Alete Galaxy, and the more casualties we'll suffer."

Chapter 1839: 1 teleportation array!

When Xuan Mingyang said this, everyone present looked at each other in surprise.

Just as Xuan Mingyang said, the closer to the front, the higher the death rate.

"We've already discussed this before. All large rifts will be divided equally between our five major nations and the Earth's core. Small rifts will be allocated based on your national strength. We will form a joint defense position, and everyone will prioritize defending the spatial rifts within their own country's territory."

"All high-level adventurers on the Blue Stars around the world will be dispersed and stationed in various spatial rifts. They will need strong support forces to ensure that they cannot be breached by their concentrated firepower."

Next.

Xuan Mingyang began to explain the specific deployment.

These plans, which were jointly discussed by various countries, are still very feasible.

But the current problem is where exactly these space cracks will appear.

and.

Lin Tianhao still had another concern in his mind.

That is... a traitor!!

If only individual adventurers become traitors, it wouldn't be a big problem.

But if a country or even a major force becomes a traitor, the impact will be very obvious.

such as.....

Someone deliberately let the army from the Alata galaxy in, which is very troublesome.

"at last."

"This is also the most important thing. If a traitor appears, no matter who he is, he will not be forgiven."

"This is the battle to defend our galaxy, and it concerns everyone on Blue Planet!"

Luo Qinyun took over the conversation and said coldly:

"If I find out that anyone is cooperating with the Alite Galaxy or is passively slacking off in the war, I will kill them in the most brutal way possible."

"In this battle, we are at a disadvantage. If we can't unite as one, we will be slaughtered by them."

.....

The meeting lasted more than nine hours, during which many people raised opinions.

With the end of the meeting.

Lin Tianhao also turned around and prepared to leave.

however.

At this moment, the elder called Lin Tianhao.

"Xuedi, let's talk alone later."

Lin Tianhao nodded slightly and walked into a small private room on the side.

Not long after.

The chief elder, Luo Qinyun, Xuan Mingyang, and the chief elders of several other major countries all stepped forward.

After coming in,

The elder then spoke slowly:

"The situation is extremely serious. The previous meeting was about the general policy, and we are not worried about traitors leaking it."

"What we are going to say next is something that only a few people are allowed to know."

"Xuedi, we hope you can choose some hidden locations outside the Shanhai Empire and build a teleportation array."

"If the two positions in the space rift are breached, while we defend the Shanhai Empire, we must also consider launching a surprise attack from behind through the teleportation array."

Lin Tianhao nodded.

"Also, at the top level, most adventurers aren't very good, including people like Master Ambition and Team Dragon. Their overall combat effectiveness is still far behind that of you, Xue Di."

"We hope to fill this gap through equipment."

Lin Tianhao had given them the elixir from Xuanxu Country before, so the strength of the top adventurers from Long Country should have been greatly improved.

"As for equipment, I can provide some high-quality, advanced equipment."

"I can provide sets within the Diamond level, and for seventh and even eighth rank sets, in bulk. The quantity should be no less than three million sets."

Lin Tianhao now has enough gold coins and enough contribution points.

You can get it from the Mortal Palace or buy it.

"If it's a slightly lower grade, I can provide more. Nine-turn ones are not a problem either."

"Well, if that's the case, that would be great."

The elder's face showed excitement.

"We are planning to establish elite corps. These elite corps can be dispersed to fight guerrilla warfare, or they can serve as defenders in positional warfare."

Lin Tianhao nodded slightly and asked:

"How many Lord's Hearts have you prepared?"

The elder smiled and said, "It seems that you, Xue Di, have the same idea as us."

"For the defense, we plan to use the Lord's Heart to build territories and barracks. Conventional warfare involves recruiting soldiers in the barracks."

"If you can't hold on, the adventurer will take over personally."

Lin Tianhao nodded slightly, and the elder continued:

"After sharing information with countries around the world, we integrated all the quests that could yield Lord's Hearts, and specifically farmed quite a few of them."

"The number of Lord's Hearts has now exceeded 3.5 million. This is just the strategic reserve resources and does not include the territories that have already been established."

"In addition, we have also collected a lot of materials for our barracks reserves and recruitment of soldiers."

That's it.

The elder hesitated for a moment, then said:

"Snow Emperor."

"I know it's not right to always ask for things from you, but it seems there's no other way."

Lin Tianhao waved his hand and said with a smile:

"My determination to deal with the Arlet Galaxy is stronger than any of yours. I will support anyone who can deal with the Arlet Galaxy."

"In a long war, resources are of utmost importance. Whether it's refining potions or barracks, the resources needed are enormous."

The elder said solemnly, "We have established a relatively complete logistics system, but we still need to prepare for a rainy day. If there is any need for resources, I hope you, Xue Di, can provide us with your full assistance."

"No problem." Lin Tianhao said.

"Next is the matter of the teleportation array. Xue Di should be quite familiar with the land of Shenzhou, so she should have her own ideas about the location of the teleportation array."

"We originally planned to design the blueprints ourselves, but ultimately gave up because the location of the teleportation array is top secret, and the fewer people who know about it, the better."

"I understand." Lin Tianhao nodded slightly.

"I'll set it up."

Lin Tianhao showed a faint smile on his face and said calmly:

"The closer we get to the final moment, the more likely those guys from the Alite Galaxy will jump out and cause trouble."

"Please pay more attention next time. If there is any problem, notify me immediately."

"Also, I need a list of dragon caves."

The elder said without hesitation:

"no problem."

soon.

A set of coordinates was transmitted to Lin Tianhao's message board.

"Okay, I'll leave first."

Next.

Lin Tianhao needs to build a teleportation array, and the location of these teleportation arrays still needs to be considered.

But there is no need to worry too much. As long as the place is not easy to find, a teleportation array can be built.

Think for a moment.

Lin Tianhao began to arrange the teleportation array in a targeted manner.

These teleportation arrays are basically one-way.

That is to say, you can only teleport from the Mortal Palace to the outside, but cannot teleport from the outside back to the Mortal Palace.

With Lin Tianhao's current abilities, it is much easier to build a teleportation array.

In just two days, Lin Tianhao built more than a thousand teleportation arrays.

After those guys from the Alate galaxy break in.

These teleportation arrays can be used to teleport people out to launch a surprise attack on the Alate galaxy.

Chapter 1840 Ancient Tianyuan God!

but.

This is not the end.

Next, Lin Tianhao visited many major forces in China. His purpose was very simple, which was to get them to join forces to fight against those guys in the Alate galaxy.

Faced with Lin Tianhao's instructions, these major forces agreed very readily.

As for how much effort they will put in by then, it is hard to say.

now.

The countdown has reached thirty-five days.

Lin Tianhao opened the coordinates sent by the elder.

Start exploring the Dragon Cave.

to be frank.

With Lin Tianhao's current strength, there are not many treasures in the Dragon Cave that can be useful to him.

The reason why we still need to explore the dragon cave.

It's because Lin Tianhao wants to use the Heaven-Devouring and Earth-Devouring Technique to absorb more power.

Now Lin Tianhao put his focus back on understanding the laws of space.

The first dragon cave...

Lin Tianhao also gained a lot from it.

Now, the obstacles in the dragon cave are no longer worth mentioning to Lin Tianhao.

Resurrection coins, gems that can upgrade the grade, and things that can increase the speed of enlightenment.

If this were in the past, it would definitely be a treasure.

It can be put in the present.

For Lin Tianhao, it is better than nothing.

Lin Tianhao has a large reserve of resurrection coins, and the upgraded gems are of no use to him.

Because Lin Tianhao's grade has reached the limit that Ragnarok can reach.

As for the equipment that improves the speed of enlightenment, it only increases the basic enlightenment speed tenfold. For Lin Tianhao now, the improvement is too small.

These things are not of much help to Lin Tianhao.

But for other adventurers, it is a rare good thing.

Time passes bit by bit.

In the blink of an eye.

Another half month has passed.

In the past half month, Lin Tianhao has killed his way through six dragon caves.

Lin Tianhao mostly selectively devoured the things in the dragon cave.

Most of the time he was still devouring the fragments of the ancient bronze coffin.

"Server-wide announcement: Ragnarok is about to be announced to Blue Star, opening 1,688 world rifts. Pillars of light will fall from the world rifts now. In twenty days, the rifts will officially open. All adventurers will be able to manifest all the attributes, abilities, and equipment within Ragnarok. Adventurers, be prepared."

"All-server announcement..."

.....

Last twenty days!!

and.

This is also good news.

Know the location of the space rift in advance.

"It looks like the same spatial rift as in my previous life." Lin Tianhao muttered to himself, "The location seems to be the same."

There were so many spatial rifts that it was impossible for Lin Tianhao to remember them all in his previous life. He only knew a general idea.

at this time.

Now that they had the coordinates of the space rift, the Blue Star Alliance immediately took action.

Territories began to be established around the space rifts.

The two worlds have not yet fully merged, therefore.

For the time being, these territories can only be established around Ragnarok.

There are only more than a thousand world rifts, which can be considered a good thing for the entire Ragnarok.

After all, the more rifts there are in the world, the more defensive positions need to be built.

Small territories are connected together to form one line after another.

Lin Tianhao raised his eyes and looked up at the sky.

"This day is finally here!!"

Lin Tianhao clenched his fists. He had been looking forward to this day since his rebirth.

He will definitely repay those guys in the Alete Galaxy a hundredfold or a thousandfold for the pain they have inflicted on him.

Just as Lin Tianhao was thinking this, some ripples appeared in the space in front of him.

"I've met senior."

The ripples ended, and a person appeared in front of Lin Tianhao.

This person is none other than the Master of Qingtian Source.

The Azure Sky Origin Master said calmly, "It's not me who wants to see you this time."

As the Lord of Qingtianyuan finished speaking, ripples appeared in the space again.

Followed by.

A middle-aged man with bronze skin appeared in front of Lin Tianhao.

"Who is this senior..." Lin Tianhao asked softly.

"Ancient God Tianyuan." The middle-aged man spoke lightly, and there was a bit of admiration in his eyes when he looked at Lin Tianhao.

"Source God..."

This Ancient God of Heaven's Origin should be of the same level as the God of the Origin of Tao.

"Senior, you are here to see me, but do you have any instructions?" Lin Tianhao asked.

Ancient Tianyuan God smiled slightly and said:

"It's not really an order, but I think you have great talent and would like to take you in as my disciple. What do you think?"

Lin Tianhao bowed and said, "Senior, you are a powerful being in the realm of Source God. It is my honor to accept you as your disciple."

"In that case, then follow me to the divine realm." said the ancient Tianyuan God.

Lin Tianhao frowned slightly and shook his head:

"Senior, the Galaxy World is in great trouble. I am leaving now..."

Before Lin Tianhao could finish his words, the God Gu Tianyuan raised his hand to interrupt him.

"This is the end of the Galaxy World. Even if you stay, it will be difficult to avert this catastrophe. But if you are willing to leave, I can let you take the 100 million lives of the Galaxy World with you."

"Once you reach the Eternal Realm and own your own world, you can use these 100 million lives to build a second galactic world."

Lin Tianhao took a deep breath and said, "Senior, I want to give it a try."

"Try it, and you might die!!"

"In the billions of small worlds surrounding the Divine Realm, there are still very few people with talents like yours."

"But the trend is irreversible..."

Lin Tianhao sighed, "This may be my fate."

"Aren't you afraid of death?" asked the ancient god Tianyuan.

"Afraid!" Lin Tianhao replied.

"But even if you are afraid of death, there are some things that you must do."

"I hope you understand."

Hearing Lin Tianhao's words, Ancient Tianyuan God smiled and said:

"I don't understand why, but you seem to be a bit young."

"At least, from my perspective, your decision is too risky."

"Taking away 100 million people and establishing a second galactic world should be the safest approach."

Lin Tianhao thought for a moment and said seriously:

"If I really see no hope, I might choose this."

"But... I don't think I have no chance of winning against the Arlet Galaxy."

Ancient Tianyuan God nodded, "Because of some agreement, if you don't leave with me now, after Ragnarok merges with reality, I won't be able to interfere."

"I know." Lin Tianhao said.

Ancient Tianyuan God said helplessly:

"Well, this is your decision, I will respect it."

"If you can survive the Battle of the Galaxy, I still hope to accept you as my apprentice."

"Ten years should pass quickly for a super strong person like the senior." Lin Tianhao said with a smile.

Ancient Tianyuan God shook his head. "Ten years? I can wait, but I'm afraid you can't."

"Little one, you still have time to think about it. Before Ragnarok and Blue Star merge, if you change your mind, you can call my name and I will appear."
