

## O games 1841

Chapter 1841 Countdown, last 7 days!

Lin Tianhao nodded and immediately asked:

"Senior, I have a Heavenly Dao-level Talent Awakening Stone in my hand, but I can't use it during Ragnarok. Do you know what's going on?"

Ancient Heaven Source God glanced at the Blue Sky Source Lord and said:

"Xue Di, you should ask Qing Tian Yuan Zhu about this matter. I can't say more."

"Let's go. Remember to call me if you change your mind."

After saying this, Gu Tianyuan God disappeared in an instant.

"senior."

Lin Tianhao's gaze fell on the Lord of Qingtian Source.

"The will of the Galaxy World cannot sustain your use of the Heavenly Dao-level Talent Awakening Stone."

"So... you'd better give up."

"But...if you're willing to trade it with me, I'd be happy to do so."

Lin Tianhao shook his head and said:

"Senior, you have great abilities. Could you help me use this Heavenly Dao-level Talent Awakening Stone?"

"No."

"If you want to use it, just leave the Galaxy World with Ancient Tianyuan God and you can use it."

"This Heavenly Dao-level Talent Awakening Stone can be used in the Endless Starry Sky or the Divine Realm."

Lin Tianhao sighed, "If that's the case, then I'd better think of other ways."

It is a bit frustrating that I have the Heavenly Level Talent Awakening Stone in my hand but cannot use it.

There are only twenty days left, which is too tight for Lin Tianhao.

no way.

Lin Tianhao could only choose to collect resources as much as possible, and then devour the fragments of the ancient bronze coffin to make himself realize the truth faster.

In the blink of an eye, another thirteen days passed.

During these thirteen days, Lin Tianhao continued to devour, increasing the number of teleportation arrays to three thousand.

This includes the location of the defense line of the 1,688 space rifts.

As for the other more than one thousand, they were hidden in preparation for future guerrilla warfare.

Not only that.

Lin Tianhao also built hundreds of teleportation arrays capable of traveling over extremely long distances.

It can be teleported from the center of the vast continent to the center of the Zhongzhou continent.

and.

This ultra-long-distance teleportation array is interconnected.

In the mortal temple.

Lin Tianhao also built fifteen ultra-long-distance teleportation arrays. These fifteen are one-way teleportation arrays that can only allow people to leave but not come back.

"Server-wide announcement: The countdown to Ragnarok and the fusion of reality is in its final seven days. All gods will automatically ascend to the divine realm. All gods in the galaxy world, please prepare. Countdown to ascension: 11:59:53."

"All-server announcement..."

.....

There are still seven days until Ragnarok merges with reality, and the gods of the galactic world will have to leave early.

The gods left, and the galactic world finally became his home ground in the true sense.

He didn't know where Allens Roman was. If he could find Allens Roman, he could make a lot of money from him.

So is the withered moon.

Disappeared.

If it is possible.

Lin Tianhao still wanted to get rid of the traitor Ku Yue.

If Ku Yue left the Galaxy World, he would have to wait ten years to deal with the traitor Ku Yue.

Lin Tianhao opened the Ragnarok forum. Although he was not so busy recently, Lin Tianhao would still take time to check out the Ragnarok forum from time to time.

Today, the Ragnarok forum is full of fighting spirit.

"My sword has been thirsting for a long time. Those bastards from the Alet Galaxy, prepare to die!!"

"After ten years of defense, I can finally experience the same pleasure my ancestors felt fighting the Japanese invaders. Kill! Kill! Kill!!"

"In life, we are Dragon Nation people. In death, we are Dragon Nation souls. Anyone who offends our Dragon Nation will be punished no matter how far away they are!!"

"The defense line of the spatial rift within Ragnarok has been fully built. With the addition of soldiers, adventurers, and the support of the armies of the Mountain and Sea Empire and other empires, I really don't know how we can lose this battle."

.....

Most people are full of confidence now.

Many people are looking forward to the powerful power that is about to come.

We are about to fight the invaders with real guns and swords.

Most of them are expectant and excited.

This is so similar to the previous life.

But less than a month after Ragnarok merged with reality, they became obedient.

No resurrection mechanism, real death!!

They will all know the cruel methods and ruthless slaughter of those guys in the Alethe galaxy.

War is cruel.

Especially this kind of aggressive war!!

There are also some more rational voices on Ragnarok.

They are describing the potential cruelty of this war.

at the same time.

The officials also took action.

They have more information and know more about the power of the Aleta Galaxy.

"Can't be resurrected, can ...!!"

A post edited by Berserker Blade himself was published.

"After Ragnarok merges with reality, there will be no resurrection!!"

"It's true that priests have resurrection skills, but that has a certain probability of success, and the resurrection skill has a long cooldown period. It's almost useless for those with serious physical damage."

"This is no joke. This is an epic contest, a clash of civilizations from different galaxies!"

"It is... a brutal war of aggression, a war more brutal than any other war of aggression Blue Star has ever seen!!"

"Don't underestimate it, don't take it lightly!!"

"We are not afraid, but we should be in awe!!"

"Don't underestimate our opponents. We've only been developing for five years, but they might have developed for five thousand years, or even fifty thousand years!!"

"We are all mortals. We have a chance of winning, but we must not underestimate the enemy!!"

"Don't underestimate the enemy! Don't underestimate the enemy! Don't underestimate the enemy!!"

Berserker Blade is also a celebrity in Ragnarok, and his initiative to post immediately attracted a lot of people's attention.

After reading Berserker Blade's post, many excited people gradually calmed down.

They all realized a problem.

They might actually die!!

"How many of our ancestors died in the war of aggression? We fear death, but we fear dying in cowardice even more."

"If I die defending my country, I have no fear and no regrets!!"

"The Alet Galaxy is very powerful, and we are no pushovers. Back then, those invaders had weapons and equipment far superior to ours, yet we still managed to win, didn't we?"

"It's the same now!!"

.....

Looking at these speeches at Ragnarok, Lin Tianhao felt somewhat relieved.

When facing a common enemy, most people are actually willing to unite.

Lin Tianhao closed the Ragnarok forum.

because.....

An unexpected guest has arrived.

Lin Tianhao raised his eyes and looked forward. In the void in front of him, there were two women standing.

Lin Tianhao knew both of these people. The one on the left was the traitor Ku Yue, whom Lin Tianhao wanted to kill.

As for the person on the right, it was Allens Roman, from whom Lin Tianhao wanted to devour the original law of space.

"You guys are finally here!!"

Chapter 1842: Fight with Roman again!

That's it.

Lin Tianhao looked around and said with a smile:

"There shouldn't be just the two of you coming. Where are the others? Call them out together. Don't waste time."

Allens Roman sneered, "Xuedi, you speak as if you can beat both of us."

"You don't need to look anymore. This time, there are only two of us here. We are here to test whether your power of merit is really inexhaustible!!"

Lin Tianhao grinned, "Oh?"

"Then do it."

This Allens Roman is a good experience pack. She came up to him on her own initiative to let him gain experience. How could he let her go?

It's this withered moon.

As the ultimate mortal of the Galaxy World, it would be fine if he didn't help the Galaxy World, but he actually turned around and helped the bastards of the Alite Galaxy! !

Just for this reason, Lin Tianhao would never let her go.

Allens Roman raised his hand and the surrounding space began to block, completely imprisoning Lin Tianhao.

This time, Lin Tianhao did not use the power of merit, but directly used the power of swallowing the sky and devouring the earth.

"Ding, you are devouring unknown power. Comprehension of the Origin of Space Law +1000, Resistance to the Origin of Space Law +1000, Armor +50000, Magic Resistance +50000, Free Attribute Points +50000."

"Ding, you are consuming unknown power..."

.....

Lin Tianhao's mouth corners slightly raised, this voice was still beautiful.

"Come on, let me see how much progress you have made this time."

Lin Tianhao did not use the power of the original law of space, but instead used his purest physical strength to fight against the space blockade.

As Lin Tianhao exerted all his strength, the space blockade formed by the original laws of space began to tremble slightly at this moment.

Allens Roman was shocked. "Pure physical strength has actually become so powerful!!!"

This couldn't help but make Allens Roman feel shocked.

After all, the information they had previously known was that Lin Tianhao's health was very high, and his normal attacks caused real damage related to his health.

Based on the information they had previously obtained, Lin Tianhao's own strength was not that strong.

But now.

Relying on his own strength, Lin Tianhao actually shook the blockade of her spatial origin power.

This... is a bit too unbelievable.

A person's strength is directly proportional to his physique and attack power.

The stronger the attack power, the stronger the power that can be displayed.

Lin Tianhao's attack power was indeed not that good before.

But after Lin Tianhao enlightened the nine saints, his attack power changed dramatically.

and.

During this period, Lin Tianhao's enlightenment was uninterrupted and was almost ongoing.

Although the enlightened adventurer did not provide Lin Tianhao with much attack power.

He can enlighten top beings like Heitian Aozhen, Canghai Divine Monk, and Lord of Jiuyou, and the feedback values he can give to Lin Tianhao are still very high.

Lin Tianhao's attack power has now exceeded 800,000 trillion! !

With regard to this attack power, perhaps only the fat man who can share Lin Tianhao's attack power can compare with Lin Tianhao.

Others have a huge gap in attack power compared to Lin Tianhao.

This is also the reason why Lin Tianhao can shake the original laws of space with his physical strength.

Break all laws with one force! !

This is no joke.

"Break it for me!!"

Lin Tianhao activated the law of power, and the strength in his body increased again.

In a flash.

A tremendous force swept in all directions.

"Kaka...kaka..."

A crack appeared in the Origin of Space Law. Lin Tianhao's strength increased by another three points, and with a single punch, he broke the seal of the Origin of Space Law!

See this scene.

Ku Yue subconsciously took a step back.

Allens Roman also looked at Lin Tianhao in disbelief.

"you....."

At this moment, Ku Yue no longer knew how to express his feelings.

Although Allens Roman is only a mortal, and although the level of Allens Roman's spatial origin law is not too high.

Although.....

But no matter what!!

These are all the laws of the origin of space!!

"You... have you been possessed by the great god Pangu?!"

Ku Yue now even suspects that Lin Tianhao has been possessed by the great god Pangu.

Because apart from this, Ku Yue really couldn't imagine how Lin Tianhao could break the original laws of space with the power of his physical body.

of course.

If you only rely on pure attack power, 800,000 trillion is not enough.

But Lin Tianhao's physique has transformed more than five hundred times, and he is also blessed by the law of power of the nineteenth level of the Dao realm.

With the blessing of these three, we have the current scene.

"Chaos Sky Hammer!!"

Lin Tianhao grabbed the air, and a huge iron hammer fell into his hand.

This is exactly the vision of a saint in the Way of Power!!

Holding the Chaos Hammer in his hand, Lin Tianhao felt that the strength around him had increased again.

"You guys are always the ones attacking. This time, it's my turn!!"

Lin Tianhao jumped up and the Chaos Hammer fell down suddenly.

Under the absolutely powerful force, the space began to collapse layer by layer and was torn into cracks.

Ku Yue's eyes narrowed slightly, she took a step forward, and in an instant she was behind Lin Tianhao.

Then he slapped Lin Tianhao behind him.

Lin Tianhao's figure blurred, without dodging or evading, he collided head-on with Ku Yue's palm.

"boom--"

With a loud bang, a powerful impact force spread out in all directions.

Lin Tianhao and Ku Yue's bodies retreated uncontrollably.

The pure power of the two collided, and Ku Yue's health bar dropped sharply. Although Lin Tianhao also lost blood, it was not obvious.

See this scene.

Ku Yue summoned the extraterritorial magic fork and attacked Lin Tianhao again.

Lin Tianhao also took out his carving knife, and the two of them collided with each other.

"If you want to watch the show again, stop fighting!!"

Ku Yue let out a low roar, and streams of light carrying thousands of runes flew out, covering Lin Tianhao.

Lin Tianhao's eyes narrowed slightly. Although he could rely on his powerful strength to break free from control.

But this also requires the consumption of his own strength.

especially.

It will make his movements sluggish.

Arrows are fired from the heart! !

Lin Tianhao used his feather arrows to fight against these streams of light that were wrapped in thousands of runes.

All sixteen realms were unfolded to protect himself, and Lin Tianhao avoided using the power of merit as much as possible.

Now the Death Realm, Space Realm, and Soul Realm are all blessed by the original laws, and their power has been greatly enhanced.

"You, are so contemptuous of others."

Ku Yue snorted coldly and swung the extraterritorial magic fork in his hand.

A hole was actually torn open in Lin Tianhao's sixteen realms.

Followed by.

The body of Ku Yue was divided into nine parts, and the nine Ku Yues fell in nine different directions.

The demand rune flew out, covering the world where Lin Tianhao was.

Lin Tianhao shouted in a low voice: "Reincarnation reflects the six paths!!"

This is Lin Tianhao's death vision.

The vision that was endowed with the law of the origin of death suddenly crashed into the myriad runes.

Chapter 1843 Kill Ku Yue's Heart!

The power of the six paths, the power of reincarnation!!

Under the impetus of the law of the origin of death, the two forces were derived to the extreme.

"Boom boom boom——"

The roaring sound was endless, and thousands of runes kept exploding. Samsara Ying Liudao was like a fighting machine that crushed everything, constantly crushing Ku Yue's runes.

"Stop it!!"

There was a scepter in Allens Roman's hand, and a brilliant light burst out from the scepter in her hand.

This brilliant light instantly hit the Six Paths of Reincarnation.

"boom--"

An even louder roar was heard.

The enormous force forced Lin Tianhao back several steps.

"The Great Sun-Eating Eclipse!!"

Lin Tianhao raised his hand and the sky darkened instantly.

The darkness quickly swallowed up the sun, plunging the world into darkness.

Combined with what the Dark Night Spirit God Moirai gave to Lin Tianhao, all his attributes doubled in the darkness.

This huge eclipse of the sun has brought even greater improvement to Lin Tianhao.

The previous 800,000 trillion attack power was already enough for Lin Tianhao to shake the spatial origin power of Allens Roman.

Now the attack power of 1.6 million is even more terrifying! !

Not just attack power.

At this time, attributes such as attack speed, movement speed, health, and dual resistance have all been specifically improved.

"In the name of Alens Roman: Split the Void!!"

Allens Roman waved the scepter in his hand, and the void was instantly torn apart, spreading towards Lin Tianhao from all directions.

Lin Tianhao's eyes narrowed slightly, and his invincible domain expanded instantly, coordinating with the power of the sixteen realms to block these space cracks outside.

"Break it for me!"

Lin Tianhao held the Chaos Hammer in the air, swung it, and smashed it towards Ku Yue.

One after another, the void unravelled, forming void storms that blocked the way to the withered moon.

"boom--"

The moment the Chaos Hammer fell, the void shook, and the void, which was already full of space cracks, spread in all directions with an even more ferocious attitude.

Lin Tianhao refused to give in. When his first strike failed, he swung the Chaos Hammer for the second strike.

Ku Yue clasped his hands together and countless runes condensed into vines.

These vines instantly wrapped around Lin Tianhao's Chaos Hammer, pulling on it and making it difficult for Lin Tianhao to swing it.

“Yin Yang Heaven Burning Furnace!!”

Lin Tianhao's Chaos Sky-Opening Hammer was restricted, but he was still not afraid.

With a wave of his hand, a three-legged cauldron wrapped in flames fell from the sky and smashed into the center of thousands of runes.

Lin Tianhao had already subdued many kinds of heavenly fire, and now with the help of the Yin-Yang Burning Heaven Furnace, he ignited those rune vines almost instantly.

Ku Yue's eyes narrowed slightly, and her rune vines were covered with ice in an instant.

The frost began to fight against Lin Tianhao's flames, and the two were in a stalemate.

At this moment.

Allens Roman waved the scepter in his hand, and countless voids split, tearing open holes in Lin Tianhao's sixteen realms.

Lin Tianhao did not use the power of the origin of space because he was worried that this would alert Allens Roman.

And now this stalemate is also beneficial to Lin Tianhao.

Because he has never stopped devouring the sky and the earth.

"Ding, you are devouring unknown power. Comprehension of the Origin of Space Law +1000, Resistance to the Origin of Space Law +1000, Armor +50000, Magic Resistance +50000, Free Attribute Points +50000."

"Ding, you are consuming unknown power..."

.....

The reminder sounds are incessant.

Lin Tianhao's understanding of the origin of space is still constantly improving.

But Ku Yue Lin Tianhao really wanted to kill him, so he would naturally show no mercy.

He wanted to cripple Ku Yue and then finish him off with the divine thunder from heaven.

Otherwise, with Ku Yue's health bar and her blood recovery speed, the Heavenly Thunder would not be enough to kill her.

"Poison Vision: Full House!!"

Man Tang Hong can not only cause damage, but more importantly, it can add a relatively high serious injury effect.

For beings who have reached the level of Ku Yue, their blood recovery ability is already terrifying.

therefore.

The serious injury effect must be applied, otherwise it is basically impossible to determine the winner.

Just like Lin Tianhao, if he hadn't been seriously injured, few mortals at this stage would have been able to kill him.

The red sound spread out, covering the sky and the earth.

Ku Yue clasped his hands together and a bright moon appeared behind him.

The bright moonlight sprinkled down, covering the withered moon and continuously dispelling the poisonous fog around it.

The void around Allens Roman was torn apart, and the poisonous fog approaching her was sucked into the space cracks and could not hurt her at all.

But if we continue this kind of battle, everyone will suffer losses.

Next, it depends on who consumes more.

"Thunder Vision: Nine Heavens Immortal Thunder Lord!!"

A huge human figure surrounded by purple lightning appeared behind Lin Tianhao.

The human figure raised his hand and grasped the Chaos Hammer, and countless thunder forces poured out, covering the Chaos Hammer.

The rune vines on top of the Chaos Hammer began to be forced back.

Coupled with the burning of the Yin-Yang Burning Furnace, these rune vines began to shatter rapidly.

"rise!!"

Lin Tianhao shouted loudly, and the Nine-Sky Immortal Thunder Lord behind him grasped the Chaos Sky-Splitting Hammer with both hands and raised it high.

"die!!"

The Chaos Sky-Splitting Hammer suddenly fell in the hands of the Nine-Heaven Immortal Thunder Lord.

In an instant, the sky collapsed and the earth split apart.

The terrifying force pressed down towards the withered moon.

The extraterritorial magic fork in Ku Yue's hand drew a circle in front of him, and a black hole appeared in front of him.

She took a step forward, ready to escape.

"Come back!!"

Lin Tianhao wrapped a chain of merit around Ku Yue's ankle, exerting force with his hands while activating his skill: Return to the Void!

Ku Yue must die!!

"Om-"

A buzzing sound came from the chain of merit, and it was obvious that Ku Yue was fighting against the chain of merit.

But Ku Yue seemed reluctant to use the power of merit, and was pulled back by Lin Tianhao with the merit chain.

Reappear.

Before Ku Yue could react, the Nine-Sky Immortal Thunder Lord swung the Chaos Sky-Opening Hammer and it fell.

"boom--"

There was a loud bang.

Ku Yue was smashed away.

See this scene.

Lin Tianhao pursued the victory.

"Absolute stand!!"

This is a skill that comes with Lin Tianhao's Heavenly Punishment Cloak, and it is a skill with a very high restriction level.

In the absolute position, all attributes of the enemy unit will be reduced by 20%.

and.

Saints and beings below saints cannot leave the scope of absolute stance.

but.....

Ku Yue is different, she has an extraterritorial magic fork in her hand.

With the level of the extraterritorial magic fork, she can still break the absolute position.

therefore!!

We cannot allow Ku Yue to use the extraterritorial magic fork to attack Absolute Standpoint.

The moment he used his absolute stance, Lin Tianhao had already reached Ku Yue's front.

The carving knife in his hand attacked Ku Yue like crazy, restricting Ku Yue's position and also limiting the possibility of Ku Yue using the extraterritorial magic fork to escape.

Chapter 1844 Death threat, Ku Yue fights for his life!

Ku Yue felt a strong murderous intent from Lin Tianhao, and there was a hint of coldness in her eyes.

"You're not qualified enough to kill me!!"

Ku Yue snorted coldly. Lin Tianhao's strength was above hers, but his fighting skills were far different from hers.

That is, he relied on his fast attack speed and movement speed to balance her.

But she soon realized that Lin Tianhao was not joking with her this time.

Because at the moment of close combat, Lin Tianhao used Absolute Weakness!!

The level of absolute weakness is not too high, but it will still have a 20% effect on gods.

This Ku Yue's level is not low either, perhaps she has reached the saint level, but her realm is still that of a mortal after all.

really.

Under absolute weakness, Ku Yue's attack speed and movement speed were slightly reduced.

Lin Tianhao's attack became more and more fierce.

“Life Vision: The River of Life!!”

Lin Tianhao washed towards the withered moon with the long river of life.

Under the impact of the long river of life, Ku Yue's health value decreased at a speed visible to the naked eye.

The high level of severe injury effect that came with Mantanghong finally made it impossible for Ku Yue's health to recover.

“Absolutely sluggish!!”

“Heavenly Divine Thunder!!”

.....

Lin Tianhao began to attack like crazy. This was an opportunity, and he would naturally not let Ku Yue go easily.

"Death Vision, Reincarnation Reflects the Six Paths!!"

"Space Vision: Space Lotus!!"

Lin Tianhao this time.

No longer hiding his own power of spatial origin.

We can deal with Alens Roman later, but Ku Yue must die immediately!!

"Vision of Light: The Divine Heart of the Sun and Moon!!"

"Vision of the Wind: Destroy the Eye of the Wind!!"

"Ice Vision: Mysterious Rain of Ice Soul!!"

"Golden Vision: The setting sun and golden armor supporting the sky!!"

.....

One strange vision after another unfolded, and demonic patterns appeared on Lin Tianhao's body, and he entered a demonic state.

"Evil Sword Form, Open!!"

Lin Tianhao discovered that if the Evil Sword Immortal form was activated alone and combined with the demonized state, the combat effectiveness could be maximized.

Ku Yue's expression suddenly changed.

Her whole body was covered with golden light of merit, and endless power gathered from her.

She could feel the threat of death at this moment.

Waves of terrifying and sad forces spread out in all directions.

"help me!!"

Ku Yue let out a low roar. Even with the golden light of merit on her body, she still felt a little threatened.

The scepter in Allens Roman's hand fell suddenly and hit the barrier of absolute position heavily.

"boom--"

Accompanied by a loud bang.

The absolute stance trembled violently, but was not damaged.

See this scene.

Allens Roman was shocked.

Her attack just now was quite powerful, but she never expected that it was blocked by Lin Tianhao.

"Lord of the Nine Netherworlds!!"

Lin Tianhao is not without help, and the Lord of Jiuyou is no ordinary person.

He let the Lord of Jiuyou temporarily hold back Allens Roman, while he concentrated his firepower to kill Ku Yue.

"Break it for me!!"

Ku Yue couldn't do anything about it at this time, and the power of merit poured out as if it was free.

But Lin Tianhao didn't give in at all.

With the support of heaven and earth, Lin Tianhao would not feel sorry for this little bit of merit.

The key is.

Lin Tianhao's determination to kill Ku Yue cannot be shaken, even if it costs him more merit and power, he will not hesitate.

"Give me some more!!"

Lin Tianhao added all his free attribute points to attack speed and movement speed, instantly raising his attack speed and movement speed to a higher level.

With the blessing of the power of merit, coupled with the endless earth fire stimulated by the evil sword form, and the blessing of Lin Tianhao's sixteen great saints' visions.

Space, death, soul, the three fundamental forces of blessing! !

With all kinds of power added to the extreme, Lin Tianhao can be said to have pushed all the power he can mobilize to the extreme.

The divine thunder of heaven also fell at this time.

"Divine Monk Canghai, go!!"

Lin Tianhao frowned slightly. The Lord of Jiuyou was having a hard time facing Allens Roman alone.

After the Nine Nether Lords became nine-in-one, their strength was greatly enhanced.

But Lin Tianhao never expected that the Lord of Nine Netherworlds in the Nine-in-One state would suffer a loss when facing Allens Roman.

at this time.

We must never let Allens Roman interfere in the affairs here.

therefore.

Lin Tianhao asked the Canghai Divine Monk to take action together.

at the same time.

Lin Tianhao transferred the damage to lock onto Ku Yue, and then the feather arrows of the Heavenly Punishment Lock attacked himself.

He wants to attack Ku Yue by hurting himself.

Ku Yue's expression suddenly changed, and the bright moon behind him covered the sky and earth, blocking the transfer of Lin Tianhao's damage.

however.

He was able to block Lin Tianhao's damage transfer, but he couldn't block the attack of the Heavenly Thunder.

Above the sky, amidst the rolling thunderclouds, the first divine thunder had already fallen.

Ku Yue kept retreating, but Lin Tianhao kept chasing her, not giving her any chance to resist.

The sixteen realms plus the sixteen original powers, plus the three original powers, the Book of Life and Death, and the lock for damage transfer.

With multiple means, Ku Yue was restricted to the extreme.

Ku Yue frowned.

"Snow Queen, everything can be discussed, why do you have to kill everyone?!"

Ku Yue was a little panicked.

When facing Lin Tianhao's many methods, especially... Lin Tianhao didn't care about the consumption of merit at all, he just wanted to kill her.

"Die!!"

Lin Tianhao had a cold expression on his face and acted without mercy.

The second, the third, the fourth...

The divine thunder from heaven kept falling, leaving no chance at all.

Lin Tianhao looked indifferent. Everything that happened today was all Ku Yue's own fault.

Ku Yue, must die!!

"Xue Di, you forced me to do this!!"

Ku Yue's face was ferocious, and she knew that Lin Tianhao would never let her go.

She was seen holding the alien magic fork and suddenly stabbing it into her chest.

In a flash.

Bright red blood flowed out, dyeing the extraterritorial magic fork red.

The blood-red extraterritorial magic fork emanated an aura that made Lin Tianhao feel palpitating.

"That eternal being that sleeps in the long river of time, I, the junior Ku Yue, will use my blood and essence to awaken your will and aid me in this battle!!"

The dim light grew wildly. Lin Tianhao tried to continue attacking Ku Yue, but was forced back by the dim light surrounding Ku Yue.

See this scene.

A cold light flashed in Lin Tianhao's eyes, and he swung the carving knife in his hand to release a sharp sword energy.

The Six Paths of Reincarnation fell down even more violently, trying to break the dim light around the withered moon.

however.

Lin Tianhao's sword energy only caused a few ripples.

The Six Paths of Reincarnation was much more powerful, but it still couldn't break through the dim light surrounding the withered moon.

"boom--"

At this moment.

Above the sky, thunder fell from the sky.

It's the Heavenly Divine Thunder!!

Lin Tianhao's eyes narrowed slightly.

The level of the Heavenly Dao Divine Thunder is much higher than the Heavenly Punishment Lock, and it is sure to hit the target. No matter how strong Ku Yue is, he should not be able to withstand this attack of the Heavenly Dao Divine Thunder.

however.

What happened next made Lin Tianhao's eyes widen! !

Chapter 1845 A sudden blessing: killing!

Ku Yue did not avoid the divine thunder of heaven.

She...she raised her left hand, which was covered with a faint light, and directly grabbed the divine thunder that fell from the sky.

Lin Tianhao was a little surprised. Can the divine thunder of heaven be caught with the palm of the hand?

"In my name: Fatian!!"

A domineering and unparalleled tone came out of Ku Yue's mouth.

The voice was still Ku Yue's, but the change in tone made Lin Tianhao realize instantly that the person who was speaking was definitely not Ku Yue.

Ku Yue had just stabbed his chest with the alien magic fork. What kind of monster had he attracted?

Just as Lin Tianhao was thinking this, she grabbed the Heavenly Thunder in one hand and the Extraterritorial Demon Fork in the other.

The dim light around his body even covered the divine thunder of heaven.

"Come down!!"

[Ku Yue] roared.

Followed by.

She actually grabbed the Heavenly Thunder and pulled it down violently.

then.....

An incredible scene appeared for Lin Tianhao.

The thunderclouds above the sky were pulled down by [Ku Yue].

The thunderclouds seemed to be angry at [Ku Yue]'s behavior, and another divine thunder from heaven fell from the sky and struck [Ku Yue].

[Ku Yue] snorted coldly, swung the extraterritorial magic fork in his hand, and cut out a faint sword energy.

This faint sword energy instantly collided with the divine thunder of heaven.

"boom--"

With a deafening bang, a terrifying shock wave swept in all directions.

Lin Tianhao's eyes narrowed slightly, he knew that the current [Withered Moon] was very scary.

But the arrow is already on the string, he must kill Ku Yue.

Think about this.

Lin Tianhao, holding a carving knife, rushed to [Ku Yue] again.

[Ku Yue] glanced at the carving knife in Lin Tianhao's hand in doubt and there was a hint of fear in the depths of his eyes.

"His aura!!"

Hear this.

Lin Tianhao was shocked. Could it be that Ku Yue had summoned the extraterritorial demon who had killed the Source of Tao?

It stands to reason that this is unlikely.

That extraterritorial demon was killed by the God of the Source of Tao himself!

"Dang Dang Dang——"

The two collided and fought a thousand times in the blink of an eye.

"Not bad, but you are not him after all."

The fear in [Ku Yue]'s eyes disappeared, revealing a hint of coldness.

"die!!"

[Withered Moon] disappeared in an instant. Lin Tianhao tried to stop it, but found that the extraterritorial magic fork had pierced his heart.

The dim light was like a maggot attached to the bones, madly devouring Lin Tianhao's flesh and blood.

Lin Tianhao's health bar began to drop rapidly.

He wanted to break free, but the dim light locked his body tightly, preventing him from moving.

"boom--"

Another divine thunder from heaven fell.

See this scene.

[Ku Yue] couldn't help but frown.

Obviously.

It is not as easy as it seems for her to block the divine thunder from heaven.

"Die!!"

A faint light exploded on Lin Tianhao's body.

The fatal defense of Lin Tianhao's Heavenly Punishment equipment was triggered, blocking the damage this time.

But even so.

Lin Tianhao's health bar is almost gone.

But just when Lin Tianhao thought he was going to be killed.

[Ku Yue] actually pulled back the extraterritorial magic fork and fiercely stabbed it at the divine thunder that fell from the sky.

"boom--"

Following a loud roar, the aura of [Ku Yue] was obviously weakened.

"Your body is ultimately too weak to bear the weight of my eternal power."

[Ku Yue] shook her head, but there was a hint of coldness in her eyes when she looked at Lin Tianhao.

"but....."

"Since you have his weapon, I will never let you off easily even though I finally woke up."

That's it.

[Ku Yue] held the extraterritorial magic fork in his hand, which hovered in front of him.

A complicated and mysterious spell came out of his mouth.

Lin Tianhao secretly thought that this was not good, but his determination to kill Ku Yue never changed.

"Pfft-"

Lin Tianhao flashed to the side of [Ku Yue], this time.

The carving knife in his hand actually pierced directly into the body of [Ku Yue].

She was...defenseless.

"Puff, puff, puff..."

Lin Tianhao didn't care what [Ku Yue] wanted to do.

Since she had no defense, Lin Tianhao would not be polite and started a crazy attack mode.

[Withered Moon]'s health bar was instantly emptied!!

She...she's dead?!

wrong! !

Although [Ku Yue]'s health bar was clearly empty, she did not die. She continued to chant the complicated spell in her empty health state.

Lin Tianhao retreated subconsciously.

What's going on with this guy?!

The health bar is gone, why is he not dead yet? !

"Boy, this is a blessing from me, so you must accept it."

The words fell.

The extraterritorial magic fork turned into a stream of light and penetrated into Lin Tianhao's body in an instant.

Lin Tianhao's expression suddenly changed. He wanted to dodge, but found that he was completely unable to dodge.

The extraterritorial demon fork penetrated...

wrong! !

The extraterritorial demon fork emerged from his chest and then... disappeared into his heart.

"Ding, congratulations, you have received the blessing of an unknown existence..."

"Ding, congratulations, you have obtained the blessing: Killing!!"

The extraterritorial demon fork disappeared into his body, and he... actually received a blessing.

Killing?

Lin Tianhao didn't have time to check the killing skill.

The prompt sounded.

"Ding, congratulations, you successfully killed Ku Yue, and you're rewarded with +100000 free attribute points."

"Ding, congratulations, you've successfully killed Ku Yue. A server-wide announcement will be made soon. Do you want to hide your name?"

After hearing this notice, Lin Tianhao immediately wanted to use the skill of reincarnation.

But before Lin Tianhao could use this skill, Ku Yue had already resurrected! !

Oh shit.

Miscalculation! !

Just now, Ku Yue Kong Xue was not dead, so Lin Tianhao did not dare to use the reincarnation technique rashly.

The main reason is that the cooldown period of Samsara is one month, which is too long and cannot be used casually.

then.

Then a strange scene occurred.

Ku Yue stood in front of Lin Tianhao, but the system sounded a server-wide announcement that she had been killed.

"Server-wide announcement: Congratulations to player Xue Di for successfully killing Ku Yue. We are announcing this and hope all adventurers will keep up the good work!"

"All-server announcement..."

.....

Ku Yue looked at Lin Tianhao coldly. The extraterritorial magic fork in her hand was gone, which made her look a little embarrassed.

At this moment.

Ku Yue actually summoned another magic fork from outside the domain.

Lin Tianhao's eyes narrowed slightly, "I see Daozu's guess is correct, both of the extraterritorial magic forks are on you."

"You were among those who attacked me."

"I don't quite understand. We have no grudges against each other, so why are you targeting me like this?"

Ku Yue smiled noncommittally and said:

"There isn't so much hatred in this world. It's just a dispute caused by huge interests."

Lin Tianhao shook his head and said:

"Come on, fight again."

Lin Tianhao turned into a stream of light and collided with Ku Yue again.

It's such a pity this time.

It was almost, just a little bit, that Ku Yue would not be able to be resurrected.

Or maybe the guy who possessed Ku Yue before was too weird, and coupled with this sudden blessing, he was a little unable to react.

Chapter 1846: Randy Robots Attack!

During the intense battle with Ku Yue, Lin Tianhao also began to check his new blessing [Killing].

Judging from the previous attitude of [Ku Yue], although [Killing] is a blessing, it is definitely not a good thing.

Killing: Unknown.

Effect 1: Every time you kill a creature, you will gain a bonus to all attributes, magic energy and understanding. The bonus will vary depending on the level and grade of the creature you kill.

Side Effect: If the number of creatures you kill within a month is less than 10 million, your overall attributes, comprehension, and magic energy will be reduced by %.

Cost: None.

Cooling: None.

Proficiency: Cannot be upgraded.

Seeing the introduction of this killing skill, Lin Tianhao's expression became a little strange.

One month.

Kill 100 million lives, and after killing them, improve all attributes and enlightenment speed, as well as... demonic energy!

This seems a bit similar to Swallowing Heaven and Devouring Earth, but it is obviously not as good as Swallowing Heaven and Devouring Earth, which can devour everything.

and.

The skill of killing has a relatively large limitation, which is that more than 100 million lives must be killed in a month.

This is a hard condition. If he does not kill so many creatures, his overall attributes will be reduced.

As for the demonic energy...

Lin Tianhao is already in a demonic state, so if there is more demonic energy, there shouldn't be any big problems.

But Lin Tianhao wasn't quite sure either.

After all, no one knows.

"Ding, you killed the Nine-Bone Killer Whale. All attributes +1000 (free attribute point bonus), comprehension +500, magic energy +500."

"Ding, you killed the Arrow Wolf Sea Dragon. All attributes +1500 (omitted), Comprehension +750, Demonic Energy +750."

.....

Lin Tianhao placed ten statues on the seabed, and these statues are still automatically attacking sea beasts.

Lin Tianhao didn't feel anything about the improvement in all his attributes and comprehension.

But as the demonic energy increased, Lin Tianhao felt... that he seemed to be even more bloodthirsty and violent.

Especially since he himself is still in a state of being possessed by a demon.

Lin Tianhao's Heaven-Devouring and Earth-Devouring Power continued to lock onto Allens Roman's spatial origin power.

Given the current situation, it would probably be difficult to kill Ku Yue today.

Without the divine thunder of heaven, the confrontation between Ku Yue and Lin Tianhao seemed to be easy.

The main thing is... she is not afraid of being killed by Lin Tianhao.

Although Allens Roman is powerful, he is affected by Lin Tianhao's Devouring Heaven and Devouring Earth. Facing the joint attack of the Lord of Nine Netherworlds and the Monk Canghai, he can hardly gain the upper hand.

Just when Lin Tianhao and Ku Yue were fighting hard.

Shenzhou Land, outside of spatial rift No. 1025

A big-headed robot suddenly appeared here. His eyes fell on the territories built below, and a mobile phone appeared in his hand.

"If we want to establish a defense line, it depends on whether you can stop it."

The words fell.

A torrent of data was transmitted from the mobile phone, and the torrent of data turned into a robot.

This robot was none other than the Randy robot that had fought with Ku Yue before.

"Go and destroy these positions."

Without any hesitation, the Randy robot turned into a stream of light and rushed towards the position closest to him.

On the battlefield, the moment the big-headed robot appeared, the lord below had already entered a state of combat readiness.

To be precise.

As soon as they established the defense line, they entered a state of combat readiness.

They expected that people from the Alet Galaxy would come early to cause trouble.

"Da da da--"

Machine guns spewed flames and fired at the Randy robot.

But the speed of the Randy robot was so fast that these machine guns couldn't even touch the shadow of the Randy robot.

When Fushan Mang, the lord of Shenzhou's No. 291521 territory, saw this speed, a look of horror appeared on his face.

"Calling headquarters, calling headquarters, this is Shenzhou Territory No. 291521. We are under attack by unknown robots. They are powerful and we are no match for them. Requesting support!!"

"boom--"

At the same time that Fushan Mang called the headquarters, a large number of Ice Flame Werewolves recruited by the Fushan Mang Barracks had already set out to try to stop the Randy robot.

But the result is.

At the first encounter, thousands of ice flame werewolves exploded and died on the spot.

More Ice Flame Werewolves began to pour out, and adventurers in the territory also began to attack the Randy robot.

Feather arrows and magic are flying all over the sky.

"Zero degree stand, freeze!"

An eighth-rank wizard waved his staff, and the area within a hundred meters in front of him was instantly frozen.

Her predictive range freezing successfully froze the high-speed moving Landy robot.

"Laser cannon locked, fire!"

Fushan Mang let out a low roar, but the moment the laser cannon was fired, the Landy robot had already broken through the ice.

"Mysterious Ice Field: Infinite Freeze!!"

The eighth-turn mage attacked again. She expanded her own domain and tried to cooperate with the Ice Flame Werewolf to block the guy in front of her.

But her black ice field only reduced the movement speed of the Landy robot, and not by much.

The Landy robot turned into a stream of light, and rushed to the front of the eighth-level mage against the mysterious ice field.

"I'm waiting for you!!"

Seeing this, the Eighth Transmigration Mage was not afraid at all. Instead, he showed a cruel smile.

"Ice Explosion!!"

"Boom boom boom——"

The entire black ice field exploded instantly.

Every ice crystal exploded horribly at this moment.

however.

The next moment.

However, Randy Robot's fist, bearing countless explosions, hit him.

"Mysterious Ice Heavy Shield!!"

A black ice shield instantly condensed in front of the Eighth Turn Mage, but the shield only delayed the Randy robot's fist for a moment before it fell again and hit the Eighth Turn Mage fiercely.

The eighth-turn mage tried to dodge, but the Landi robot was too fast.

After releasing the Mysterious Ice Heavy Shield, she no longer had the chance to use displacement skills to dodge.

With one blow, the eighth-level mage died on the spot.

Fushan Mang's expression suddenly changed. While commanding a large number of Ice Flame Werewolves to attack, he also took the initiative to attack.

A thick ochre-colored field unfolded. Fushan Mang himself was a ninth-level adventurer, which was considered quite good among adventurers.

"Gravity suppression!!"

Fushan Mang tried to use gravity to suppress and restrain the Randy robot.

But his idea was ultimately doomed to fail.

The Randy robot was indeed affected, but it was not obvious.

It was still slaughtering the Ice Flame Werewolves at an extremely fast speed.

These Ice Flame Werewolves were soldiers at the peak of the sixth level, but in front of the Randy robots, they were like paper and were easily killed.

"Xuanhuang Soaring Pillar!!"

Stone pillars broke out of the ground and crashed into the Randy robot.

But at this moment, the Randy robot made Fushan Mang understand what it meant that the only martial arts in the world that cannot be broken is speed!

His attack frequency was not low, but he still couldn't touch the Randy robot.

Chapter 1847: Dismantled the big-headed robot!

"kill him!!"

The big-headed robot also saw that the commander was Fushan Mang. He commanded the Randy robot to kill Fushan Mang.

Fushan Wang was shocked. He could still vividly remember the scene of his eighth-level mage being killed instantly.

"Heavy Shield Unparalleled!!"

At this moment.

An eighth-level warrior rushed out from the side.

An illusory shield fell from the sky and landed beside Fushan Wang.

at the same time.

A group of elven archers rushed out from the side of Shenzhou Territory No. 291520.

Their arrows broke through the air, forming an arrow net that covered the Randy robot.

"Damn it! A robot dares to charge our defenses! It really doesn't take us seriously."

The lord of Shenzhou Territory No. 291520 is a tall warrior.

He held a heavy sword in his hand and rode a flaming tiger, galloping towards this side.

"boom--"

The so-called unparalleled heavy shield was shattered before even the Landy robot could withstand a single punch.

Lord Fengdao Zhenshan, who came from Shenzhou 291520 to support, jumped up, and a pair of illusory wings appeared behind him, carrying him towards the Randy robot.

“Heaven-shattering Slash!!”

Fengdao Zhenshan jumped up, and when he landed, the sword energy had already cut through the sky and headed straight for the Landy robot.

The Randy robot didn't even look back at me and continued to kill the Fushan Monster.

"boom--"

This time, the sword energy hit the Landy robot.

But this time.

However, it left everyone present stunned, and some even wondered if they had seen it wrong.

Because of this blow, there was almost no change in the health bar of the Randy robot, and the damage value was only over a thousand.

"Oh my goodness, what kind of monster is this!!"

Feng Dao Zhenshan couldn't believe his eyes.

If the Randy robot had used its speed to dodge his attack, he might have been able to accept it.

Rather...

His sword energy hit.

And at the moment when Fengdao Zhenshan's sword fell, Fushan Wang was killed on the spot.

"Seize the Lord's Heart!!!"

The big-headed robot was still giving orders, and at this moment, a huge fireball fell from the sky and hit the big-headed robot.

at the same time.

A flying sword cut through the sky, blocking the way of the Randy robot.

The Randy robot wanted to take a detour to snatch the Lord's Heart, but was quickly blocked by the long sword.

The long sword flew at an extremely fast speed and hit the Randy robot in an instant.

This blow.

Randy Robot's health bar dropped even more.

A total of more than 19,000 yuan was lost.

In terms of damage, the damage of this flying sword is much higher than that of the Fengdao Zhenshan.

This is the power of the teleportation array.

The two people who just took action are not from this nearby territory.

They were all teleported from the teleportation array of the Fan Palace to provide support.

"Myriad Thoughts Sword Formation, activate!!"

A swordsman in white came riding on a flying sword. Countless flying swords formed a sword net, covering the Randy robot.

"Flame Lord!!"

at the same time.

A huge fire lord rose from the ground, its height over three hundred meters. The moment it appeared, it swooped towards the big-headed robot.

"It seems their defense system is already quite complete."

The big-headed robot glanced in the direction of the Randy robot.

Those flying swords couldn't do anything to the Randy robot, but they could easily hold it back temporarily.

And the mage he was facing at this time was no ordinary person.

at the same time.

The battle scenes here were also transmitted to the underground command center of Baishi Building in real time.

"It's as expected, but I don't know. The combat power of these two robots is far beyond our expectations. I just don't know if the White Swordsman and the Flaming Red Lips can stop them."

Xuan Mingyang, the deputy commander-in-chief of the Dragon Kingdom, spoke in a deep voice.

"Record the data, edit the code, and transmit the records to the Analysis Department so they can analyze the combat strength and weaknesses."

"This is a robot. Is it possible for the Arlate Galaxy to mass-produce robots like this?"

in the picture.

A look of pain appeared on the white-robed swordsman's face.

Because the Randy robot's stats were too high, many of his flying swords were destroyed by the Randy robot.

"Swords transform into thousands!!"

"Sword Energy Lotus!!"

The white-robed swordsman had learned his lesson and no longer used flying swords to collide, but chose to use sword energy to collide.

"The mechanical materials on them are very good. Let me do it."

At this moment.

A voice with some excitement sounded.

"Those guys from the Arlet Galaxy are incredible! Using such precious materials to build robots is truly extraordinary!"

on the screen.

Xuan Mingyang's eyes lit up when he saw the person coming.

As a super mechanic who once guarded the portal between the two worlds, Xuan Mingyang naturally knew it.

"This is...Kui Wei Changtian, the super mechanic under Xue Di."

The assistant beside Xuan Mingyang said with some surprise.

Xuan Mingyang nodded gently, "This mechanic is very powerful. His appearance may be able to change the situation."

Although the Flaming Red Lips and the White Swordsman temporarily held back the two robots, Xuan Mingyang and others could see it.

Neither the Flaming Red Lips nor the White Swordsman are a match for them. If the battle drags on, it will be difficult for them to be the opponent.

Just when they thought so.

The big-headed robot that was fighting suddenly had a mechanical arm fall off his body.

"What?!!"

An expression of disbelief appeared on the big-headed robot's face.

Before he could even react, one of his arms was detached from his body.

But at the moment he was shocked, his other arm, two legs, and head were all disassembled.

The big-headed robot that was able to suppress the Flaming Red Lips just now was dismantled into parts in just a few seconds.

"presumptuous!!"

At this moment.

A light curtain was projected from the big head of the big-headed robot, and above the light curtain was a short old man with disheveled hair and white hair.

"Where did this little brat come from? He's so inspired to dismantle my robot!!"

When Kui Wei Changtian saw the short old man, a playful smile appeared on his face.

"Your robot isn't very good. I'll take it apart and reassemble it for you."

"What did you say?!"

The short old man was furious. "You can't compare to my achievements as a mechanic, and yet you dare to speak so arrogantly."

Kui Wei Changtian waved his hand impatiently, the light curtain disappeared, and the mobile phone that controlled the Randy robot fell into his hands.

"It's a good thing."

Kui Wei Changtian looked at the mobile phone in his hand that controlled the Randy robot, and a look of surprise appeared on his face.

"Not to mention the strength of this robot, its imagination alone surpasses that of most mechanics."

Kui Wei Changtian admired him from the bottom of his heart.

"It's a pity that this thing is based on the rules of the game of Ragnarok. Once Ragnarok merges with reality and the rules change, I'm afraid this thing will be of no use."

"At least... the value will be greatly reduced."

Chapter 1848: Swallow the evil spirit and break the deadlock [killing]!

The words fell.

Kui Wei Changtian looked at the flaming red lips and the swordsman in white.

"Young people are formidable. To have grown to where you are now in just five years is truly remarkable."

The flaming red lips and the white-robed swordsman both saluted respectfully to Kui Wei Changtian.

"Thank you for your help just now, Senior. If it weren't for you, I'm afraid the two of us would have had a hard time dealing with these two robots today."

Kui Wei Changtian smiled and said:

"As long as you deal with the guys from the Arlet Galaxy, we are on the same side."

"No more talking, I need to hurry up and upgrade."

Kui Wei Changtian took a step forward, and a black hole appeared in front of him. He stepped into the black hole and disappeared.

See this scene.

The man with flaming red lips and the swordsman in white exchanged a glance.

"Let's go back and return to life."

.....

the other side.

Xue Di and Ku Yue were fighting fiercely.

The Heavenly Dao Divine Thunder entered a cooling state, and it became extremely difficult for Lin Tianhao to kill Ku Yue.

but.....

It seems that Ku Yue's resurrection before was not a bad thing for Lin Tianhao.

Because if Ku Yue had been killed by him before, he would not be able to continuously devour the spatial origin power of Alens Roman now.

"Ding, congratulations, you are devouring unknown power, Space Origin Law Comprehension +1000, Space Origin Law Resistance +1000, Armor +50000, Magic Resistance +50000, Free Attribute Points +50000."

"Ding, you are consuming unknown power..."

.....

The prompt sound continued to ring in Lin Tianhao's ears, and it sounded so wonderful.

at the same time.

The demonic energy on Lin Tianhao's body became more and more intense. Every time he raised his hands or feet, the strong demonic energy followed him and attacked.

Lin Tianhao at this time.

He looks like a peerless devil who has walked out of Shura Purgatory.

Coupled with the magic patterns all over his body and his somewhat crazy attack method at this time, Ku Yue felt a little frightened.

"withdraw!!"

Allens Roman seemed to have received some news and his face looked very ugly.

She did not want to fight and fled with Ku Yue.

Both of them were very fast, and it was difficult for Lin Tianhao to stop them.

The biggest gain this time was the improvement of his understanding of the laws of the origin of space, which would be of great help to Lin Tianhao's subsequent comprehension of the laws of the origin of space.

Unfortunately.

Allens Roman and the others ran away again, which was indeed a little sweet, but not much.

However, Allens Roman and the others came here not to kill me.

They...seem more like they are here to delay me.

Now that they are leaving in such a hurry, what they were going to do may have been completed, or... may have failed.

Lin Tianhao sent a message to Mad Blade to inquire about the situation.

The message came back quickly, just as Lin Tianhao expected.

Allens Roman and Ku Yue held her back for other purposes.

The big-headed robot, along with a robot with extraordinary numerical capabilities, raided the third line of defense of the Shenzhou No. 1025 space rift.

Killed two nearby lords in succession.

Mad Blade roughly told Lin Tianhao what happened in Space Rift No. 1025.

at the same time.

Lin Tianhao also roughly knew the specific deployment of the current defense line.

Establish a territory with the space rift as the center.

The first line of defense is ten kilometers away from the space rift. Five territories are established in a circle to surround the space rift.

The second line of defense is thirty kilometers away from the first line of defense. It has about fifty territories and there will be certain fluctuations.

The third line of defense is 30 kilometers away from the second line of defense. It is also built in a circular shape, with about 300 territories.

There will also be certain fluctuations, because the surrounding environment of some space rifts is special, and the number of territories will be reduced.

but.

This is the ideal situation. Now the defense lines of most space rifts are not fully staffed.

The main thing is to give priority to Blue Star's defense line.

After all, if the Alet Galaxy attacks, the first to bear the brunt will be the Blue Star.

Nowadays, most adventurers are seizing the last bit of time to complete quests frantically, and they will have to wait for the full complement.

Just as Lin Tianhao was learning information from Berserker Blade.

A server-wide announcement suddenly sounded.

"Server-wide announcement: The Galaxy Defense War is about to begin. All adventurers who kill creatures in the Alet Galaxy will receive generous rewards. Adventurers, please participate!"

"All-server announcement..."

.....

There have been similar announcements before, and this can be regarded as a supplementary announcement.

This did not have much impact on Lin Tianhao.

If Alens Roman runs away, he can still devour the fragments of the ancient bronze coffin.

and.

Lin Tianhao now wants to devour the evil energy in his body even more.

These evil spirits are constantly affecting his state of mind. If this continues, he might really be dominated by these evil spirits and turn into a monster that is neither human nor ghost.

"Ding, you have swallowed the demonic energy. Demonic Insight +1000, Demonic Resistance +1000, Demonic Resistance +2000, Health +20000, Free Attribute Points +2000."

"Ding, you swallowed the devilish energy..."

.....

Lin Tianhao showed a satisfied smile on his face.

Before, that [Withered Moon] forced upon himself the blessing of [Killing].

It is obvious that he wants to use this blessing to destroy himself.

If he cannot kill hundreds of millions of lives within a month, his attributes will continue to decline.

But if he really killed so many lives within a month, this evil energy would make him completely lose his mind.

But now...

He can devour this evil energy!!

Not only can he gain resistance to magic attributes, but he can also gain magic insight and free attribute points.

The original disadvantages have turned into advantages at this time.

If [Ku Yue] knew that I was planning to plot against Lin Tianhao's blessing and now became Lin Tianhao's helper, I wonder what he would think.

The ten statues were still diligently killing sea beasts. Lin Tianhao planned to devour the demonic energy for a while, and then continue to devour the fragments of the ancient bronze coffin.

at the same time.

Lin Tianhao also has to figure out how to fully exploit Allens Roman.

Also.

There is something else worth devouring.

Ancient mysterious realm, this seems to be a good option.

There are many divine inheritances in the ancient mysterious realm, as well as some powerful blood eaters.

Although... because a large number of adventurers entered the Ancient Mystical Realm, there may not be as many divine inheritances in the Ancient Mystical Realm now.

Among the blood eaters, the mysterious Lord of the Three Emperors has also fallen, and the remaining Green Fang Ghost Demons, young generals and other emperors have also been brought under his command.

It's hard to say how much wool is still to be fleeced in the ancient mysterious realm.

After all, given the number of adventurers in Ragnarok, if they were to sweep through the Ancient Mystical Realm in a mighty force, it would be hard to say what would be left of the Ancient Mystical Realm after it was consumed.

but.....

Lin Tianhao thought of a different place.

Chapter 1849 The new Lord of Kuntian City!

That is... the sealed place under Kuntian City.

Although the man below Kuntian City was killed, his level is unquestionable.

That sealed place should be very extraordinary.

If he goes to devour the stone pillars under Kuntian City, he should also have a good harvest.

Kuntian City! !

Lin Tianhao took a step forward and arrived here.

Nowadays, the population of Kuntian City has dropped sharply. Lin Tianhao knew at a glance that many people in Kuntian City must have left.

Either heading to the divine realm or heading to the endless starry sky.

These guys!!

It's true that everyone runs away when disaster strikes! !

but.

At least they are better than Ku Yue.

After all... they just fled and did not betray the Galaxy World. Ku Yue not only did not help the Galaxy World, but also helped those guys in the Alate Galaxy to deal with himself.

Kuntian City, City Lord's Mansion.

When the Lord of Kuntian City saw Lin Tianhao coming, he immediately came out to greet him.

"Greetings, Lord Xuedi."

Lin Tianhao frowned slightly and said:

"Has the mayor of Kuntian City been replaced?"

The new Lord of Kuntian City bowed to Lin Tianhao and said:

"The old city lord has gained some insights and has ascended to the divine realm ahead of time. I hope that Lady Snow Emperor will understand."

Lin Tianhao waved his hand. He already knew in his previous life that these NPCs in Ragnarok would run away, so this was not too surprising.

"I'm going downstairs." Lin Tianhao said lightly.

The new Lord of Kuntian City said respectfully to Lin Tianhao:

"If Lady Xuedi wants to go, then there is nothing that cannot be done."

That's it.

The new lord of Kuntian City led the way and took Lin Tianhao towards the bottom of Kuntian City.

"Do you know Ku Yue?" Lin Tianhao looked at the new lord of Kuntian City and asked with a smile.

The new Lord of Kuntian City shook his head, "Ku Yue? I don't have much impression of him."

"Oh."

"I remember now. Lord Xuedi seems to have killed this Ku Yue before, and there was a server-wide announcement."

Lin Tianhao smiled without comment and said:

"Ku Yue is a master in our Galaxy World. Her betrayal makes me very sad."

"Traitors are indeed shameful."

"The galaxy is in danger now. We should all find ways to deal with those guys in the Alite Galaxy."

"Betrayal cannot be tolerated."

Hearing the words of the new Lord of Kuntian City, the smile on Lin Tianhao's face became more playful.

"If I hadn't come to Kuntian City, I might not have known that the new Lord of Kuntian City would actually betray our Galaxy World and join the Alet Galaxy camp."

Lin Tianhao's voice was not loud, but it made the new mayor of Kuntian City change his expression drastically.

"Master Xuedi, what do you mean by this?"

"Defect to the Alate Galaxy? Even if you give me ten times the courage, I wouldn't dare to slack off in the Alate Galaxy."

Lin Tianhao looked coldly at the new Lord of Kuntian City and said:

"I've already said this much, are you still pretending?"

When the words fell.

Lin Tianhao's spatial laws are already in operation.

The spatial laws of the Heavenly Dao Realm instantly blocked this space and imprisoned the new Lord of Kuntian City.

The new Lord of Kuntian City saw this scene and angrily shouted:

"Snow Emperor, you can always find excuses to accuse me of something!"

"You just saw our old city lord of Kuntian City leave early, so you planned to kill me to vent your anger."

"The rumors are indeed true. You, Snow Emperor, have long been possessed by the devil. Under the pretext of fighting the Alate Galaxy, you've been frantically amassing wealth for yourself, robbing resources, and indiscriminately killing innocent people!!"

Lin Tianhao looked at the emotional new Lord of Kuntian City, his expression did not change at all.

"If you had only joined the Alete Galaxy, I might not have discovered you."

"But your soul has signed a contract with those guys in the Arlet Galaxy. You can't hide this from me!!"

Lin Tianhao spoke in a calm tone with a faint smile on his face.

He did not wrongly accuse the new Lord of Kuntian City.

He has mastered the power of the soul's origin, so he can see more things.

The new Lord of Kuntian City has a curse planted by the Alate Galaxy in his soul, which is a sign that he has become a slave of the Alate Galaxy.

"found it."

Lin Tianhao put one hand on the shoulder of the new lord of Kuntian City.

The Sky Devourer locked onto the people of the Alet Galaxy and placed a curse on the soul of the new Lord of Kuntian City, and began to devour them.

"Ding, you are consuming an unknown curse seal. Spell comprehension +1000, spell resistance +1000, magic resistance +10000, health +20000, free attribute points +2000."

"Ding, you are consuming an unknown curse..."

.....

The prompt sound continued, but after five prompt sounds, the curse was completely swallowed up by Lin Tianhao.

The moment the curse seal in his body was completely swallowed up, the new Lord of Kuntian City bowed to Lin Tianhao.

"Thank you, Master Xuedi, for helping me escape from this sea of suffering. I have absolutely no intention of joining the people of the Alet Galaxy."

"It's just that their curse is too overbearing. I really can't resist it."

Lin Tianhao smiled without comment. Too hard to resist?

He is no fool.

As for the curse on the soul of the new Lord of Kuntian City, the new Lord of Kuntian City needs to give up resistance.

"I can't believe what you're saying now, unless you join the Mortal Palace."

Lin Tianhao took out the disciple token of Fan Palace.

The new lord of Kuntian City is quite powerful, and Kuntian City also has its own army.

There is still certain strategic significance in recruiting them.

The key is.

Lin Tianhao also wanted to know who cast the curse on the new Lord of Kuntian City.

Judging from the aura, he is from the Gulimu family.

But before that, Lin Tianhao captured Gu Limu Hei Xinyue, and the people of Gu Limu's family should have been almost dead.

The curse is still there, which means that the person who cast the curse is not dead yet.

Gu Limu Hei Xinyue also joined the Fan Palace and was absolutely loyal to him.

therefore.

There should be no problem with the list given by Gu Limu Heixinyue.

Those people from the Gulimu family should have almost all died.

"Yes."

The new mayor of Kuntian City hesitated for a moment and then agreed without hesitation.

After the new Lord of Kuntian City took the disciple token of the Fan Palace from Lin Tianhao's hand, the look in his eyes when he looked at Lin Tianhao changed slightly.

"Tell me, what's the curse on your body?"

Lin Tianhao must investigate the situation of this curse.

especially.

During Ragnarok, how many people were cursed like this?

Although this master-servant curse is not as powerful as the rule of absolute loyalty upon joining the Mortal Palace, it is still something that must be guarded against.

Especially the next strategic approach that Blue Star will take to deal with the Alet Galaxy is this line of defense.

If a traitor appeared within the defense line, it would be a devastating blow to the entire Blue Star! !

If we are not careful, the lives of hundreds of millions or even millions of people may be lost.

Chapter 1850 Kuntian City collapses!

"Master Palace Master, a mysterious person came to the Alite Galaxy. He found me and told me a lot of bad things about you."

"He said that you were just plundering resources under the guise of saving the galaxy world to strengthen your own strength."

"When Ragnarok merges with reality, you will leave. By then, those of us who are neither high nor low will surely die."

After being influenced by the rule that one must be absolutely loyal to the Fan Palace, the new Lord of Kuntian City became humble towards Lin Tianhao.

"Master Palace Master, I also believed the slander and agreed to join the Alet Galaxy in order to protect myself."

"For someone at my level, it's too dangerous to go to the Divine Realm or the Endless Starry Sky."

"That mysterious person from the Alite Galaxy said that as long as I join the Alite Galaxy, I will definitely be able to survive and may even achieve greater success in the future."

"The old city lord left without a second thought. This subordinate has long been disheartened and has chosen to defect to the Alate Galaxy. I beg the Lord Palace Master to give this subordinate a chance."

Lin Tianhao frowned. "I showed no mercy to those who joined the Alet Galaxy before. I killed them all."

"Now, what makes you think I will spare your life?"

Although the new Lord of Kuntian City is of certain value to Lin Tianhao.

But Lin Tianhao will never tolerate traitors who defect to the Alate galaxy. This is his attitude.

"Master Palace Master, no one else knows that I have defected to the Alet Galaxy. I have now joined the Mortal Palace and will absolutely..."

The new Lord of Kuntian City wanted to say something, but he saw his health bar emptied instantly.

"you--"

The new mayor of Kuntian City widened his eyes, his face full of disbelief.

He didn't expect that Lin Tianhao would actually take action.

He can also mobilize the army of Kuntian City.

If Xue Di could win him over, he would also be able to mobilize the army of Kuntian City.

Now that the galaxy world is in danger, it is obviously more profitable to use him than to kill him.

But even though it was such an obviously unprofitable thing, Lin Tianhao didn't care at all.

"Ding, congratulations, you've successfully killed Kunlongdu. A server-wide announcement will be made soon. Do you want to hide your name?"

"no."

"Server-wide announcement: Congratulations to player Xue Di for successfully killing Kun Longdu. We are announcing this and hope all adventurers will keep up the good work!"

"All-server announcement..."

.....

As server-wide announcements were made, most people actually didn't take them seriously.

After all, isn't it normal for Lin Tianhao to make a server-wide announcement?

But in Kuntian City, especially those officials in Kuntian City.

After hearing the news that Kunlongdu was killed, everyone's face showed horror.

"What's going on? Why did Lord Xuedi suddenly kill Kunlongdu?"

"I don't know. This was too sudden. There was no room for him to accept it. Kun Longdu had done a lot of practical work, so how could he be killed by Che Xuedi just like that?"

"It's only been a short time since the old city lord of Kuntian City left. Now the new city lord of Kuntian City has died, and no one knows who will take over."

.....

There was endless discussion in Kuntian City.

At this time, Lin Tianhao had already arrived under the ground of Kuntian City.

Looking at the stone pillar that was once used to seal the unknown existence, Lin Tianhao did not hesitate at all and directly started the devouring mode.

"Ding, you are devouring the unknown stone pillar, armor +10000, magic resistance +10000, health +100, free attribute points +10000."

"Ding, you are devouring the unknown stone pillar..."

"..."

When Lin Tianhao heard about the reward for devouring these stone pillars, a strange look appeared on his face.

He had originally expected to gain something here.

The result was unexpected... this!

In fact, the reward for devouring these stone pillars is not too low.

Ten thousand dual resistances and free attribute points, as well as one million health points, are indeed very high rewards.

Unfortunately.

Without the blessing of understanding, Lin Tianhao felt that it was somewhat inadequate.

But something is better than nothing.

Lin Tianhao continued to devour the fragments of the ancient bronze coffin, but still moved all the stone pillars under Kuntian City away.

With a chisel, cutting and moving these stone pillars is an easy task.

There are a lot of stone pillars here. If he can devour all of them, it will greatly increase Lin Tianhao's attributes.

suddenly.

Lin Tianhao saw a stone pillar that was a little different.

This stone pillar is dark gold in color. It looks more like a metal pillar than a stone pillar.

Lin Tianhao came to the dark golden pillar and launched the Heaven-Swallowing and Earth-Devouring Technique.

"Ding, you are devouring the unknown stone pillar, Soul Power +10, Armor +10, Magic Resistance +10, Health +1000 million, Free Attribute Points +10."

"Ding, you are devouring the unknown stone pillar..."

"..."

Lin Tianhao's eyes narrowed slightly, and a look of horror appeared on his face.

This was something Lin Tianhao had never expected.

Devouring these stone pillars could actually bring him such a huge improvement.

Although... there is still no improvement in understanding.

But after swallowing it, the soul power and health points increased by so much, it's simply terrifying.

Although Lin Tianhao's health points are very high now, who would complain about having a higher health point?

Judging from the hints of swallowing, this thing should still be a stone pillar, but the color is different from the other stone pillars.

Lin Tianhao did the same as usual and included this stone pillar in the mountain and sea map.

Next.

It continued to harvest the stone pillars and devour the fragments of the ancient bronze coffin.

In the blink of an eye, two days passed.

Even with Lin Tianhao's speed, it took him two full days to collect all the stone pillars.

Just as there are more than ten thousand stone pillars, there are nine dark golden stone pillars.

If all these stone pillars could be swallowed, Lin Tianhao's attributes would be greatly improved.

Above Kuntian City.

After all the stone pillars were put away by Lin Tianhao, the entire Kuntian City began to tremble slightly.

"What happened? Was it an earthquake? Why do I feel like Kuntian City is about to collapse?"

"Will there be an earthquake in our Kuntian City? It shouldn't be. To be able to build such a super city, there must have been exploration before."

"Could it be...could this be related to the Snow Empress? The Snow Empress killed the new Lord of Kuntian City just two days ago, and this incident happened in Kuntian City."

"Is it possible that our new city lord was doing something bad, was discovered by the Snow Queen, and then caused the commotion?"

.....

The entire Kuntian City began to discuss it.

Although the population of Kuntian City has decreased sharply today, there are still quite a few.

After all, the former Kuntian City was a super city with a population of over 100 million.

Many professionals took off into the air or quickly left Kuntian City.

Because the collapse of Kuntian City seems to be unstoppable.
