

O games 1861

Chapter 1861 Just give me some magical equipment!

but.

Even if we want to do this, we need to find the remaining nine space rifts first.

Thinking like this.

Lin Tianhao came to the Heavenly Palace again.

The space rift is a pillar of light connecting heaven and earth, so it is easy to find.

After walking around the Heavenly Palace, Lin Tianhao still didn't find any light column.

The Evil Emperor Wudao and his companions seemed to have left. In this Heavenly Palace, he was able to use the power of the laws at will.

Lin Tianhao walked quickly in the Heavenly Palace using the Starry Sky Step.

It seems that there are no living beings in this heavenly palace anymore. Everyone has left, or... died.

"If the nine spatial rifts aren't here, then where should they be?"

When Lin Tianhao came out of the Heavenly Palace, he saw the message sent by Mad War Blade.

"Xuedi, it doesn't matter if we really can't find it. When we enter through the light column of the blue star, we will know the corresponding location."

Lin Tianhao nodded slightly. Now it seemed that this was the only way.

The galactic world is still very large. After Ragnarok merges with reality, the army of the Alata galaxy will come from outside the galactic world.

In the previous life, when the army of the Alet Galaxy began its initial attack, it seemed to have been a month after the fusion of the gods and the blue planet.

but.

In the previous life, there was some chaos on Blue Star due to insufficient preparation.

especially.....

All the birds and beasts on Blue Star have undergone mutations and turned into wild beasts.

Even...on Blue Star, there are copies, secret realms, special spaces, etc.

"Well, I plan to build a super base on Blue Star. It will radiate the entire Blue Star. No matter where the enemy is on Blue Star, this super base can provide long-range support."

"And the Heart Demon Ancient City that I arranged earlier, I should also place it in this super base."

What Lin Tianhao didn't say was that his invincible domain was also planned to be placed in the Heart Demon Ancient City.

And... Kui Wei Changtian's mechanical castle.

of course.

Lin Tianhao does not plan to place Kuiwei Changtian's mechanical castle on Blue Star.

Instead, it corresponds to the interior of the space rift where the super base is located.

In this way, this super base will be able to receive continuous technological weapons support from Kuiwei Changtian.

After learning that Lin Tianhao had the means to radiate the entire Blue Planet, Berserker Blade's face showed surprise.

"If that's the case, that would be great."

Lin Tianhao ended the call and created a small group.

Monkey, Lin Qingqing, glasses, and also the fat man possessed by the great god Pangu.

Besides.

Lin Tianhao also pulled Su Li, Little Sword, Survive Eternity, Shoot Through the Sky, Unparalleled Sword, I Am Really a Melee Mage, Break the Sky with One Arrow, Once Upon a Time There Was a Mountain and others into the group chat.

These are the core disciples of Fan Palace. In the past, Lin Tianhao mostly let them go.

Now that they are all added to the group chat, it will be more convenient for them to communicate with each other.

Xiao Xiaojian had just been added to the group chat when he started sending messages like a machine gun.

"Wow, Boss Xuedi, have you finally remembered us? I thought you had forgotten us."

"Ragnarok and reality are about to merge. Are we really not going to take the initiative? I still want to stand at the border of the galaxy and tell those bastards in the Arlet Galaxy: No trespassers, bastards, ever!"

"Hahaha, that would be super cool. Then I'd use the Sword to Open the Sky Gate, or the Great River Sword Formation, control thousands of flying swords, and kill those guys in the Alite Galaxy."

.....

Gui Ye Wuqing (sister): "..."

Gui Ye Wuqing (Mechanic): "..."

Gui Ye Wuqing (Mage): "..."

There are three Gui Ye Wuqings. It's okay if Lin Tianhao made a note, but if he didn't, he would see that Gui Ye Wuqing sent three ellipsis marks in a row.

Fat God: "It would be really cool, but I think I'd die miserably."

The Monkey King said: "Senior, please don't mess around with my brother's body."

Fat God: "Don't worry, it won't happen."

Once upon a time there was a mountain: "How on earth are we going to fight this war? It's about to start, but we have no idea what to do."

"Indeed, the battle line is too long, and the number of participants is too large. Even masters like us feel like we are just one of the thousands of cannon fodder."

Su Li: "No matter how we fight, it's always right to obey the Lord Palace Master. Does the Lord Palace Master have any instructions?"

Xue Di: "No instructions, I just created a group for better communication, and also wanted to ask if there is anything you need."

"As long as it's not too outrageous, I can satisfy you as much as possible."

Xiao Xiaojian: "Isn't the Emperor-level suit too much?"

"Is a Heavenly Dao Saint-level longsword not too much? If not, Saint-level will do."

Once upon a time there was a mountain: "My requirements are low, a peak-level divine sword will do."

Gui Ye Wu Qing (Mage): "Your requests are so high. I only want a set of magic mage gear. This request is reasonable, right?"

Xue Di: "I shouldn't have asked."

What is this?

He is really being treated as a sucker.

Xue Di: "Emperor-level suit, raise your hand if you need it."

Xiao Xiaojian: "Okay, okay, I want it, I want it, look at me, look at me."

Once upon a time there was a mountain: "1."

I'm really a melee mage: "1."

.....

Lin Tianhao was still able to get some emperor-level suits.

but.....

The mechanic's imperial suit doesn't seem to be very good.

Because there are so few mainstream mechanics.

It is not difficult to obtain a set of armor within the king level, but the emperor level... is a bit difficult.

Maybe there is one in Mokosha.

Xue Di: "The mechanic's imperial suit is a bit troublesome. I'm going to ask about it. The rest is not a problem."

Gui Ye Wu Qing (Mage): Cry, cry, cry, cry, cry...

Lin Tianhao took a step forward and arrived at the Kingdom of Mokesha.

I specifically asked for information on the Emperor Mechanic Set.

The answer is... No!!

There are too few orthodox equipment for mechanics, because the equipment for mechanics can only be forged by a blacksmith with the mechanic profession.

The higher the level of the mechanic's equipment, the higher the level of the mechanic and blacksmith required.

Compared with the equipment of other professions, as long as the blacksmith level is high enough, it will be fine.

That being the case.

Lin Tianhao needs to go find Kui Wei Changtian.

however.

Lin Tianhao got the same answer when he found Kui Wei Changtian.

He didn't even have the Emperor Mechanic Suit.

The equipment he had was just a king-level mechanic suit.

There is no way around it, the difficulty of making high-level mechanic equipment is simply too high.

"What about the pyramid civilization you visited before? Is it possible that they have an emperor-level mechanic suit?" Lin Tianhao still had some hope.

"No."

Kui Wei Changtian shook his head. "The Imperial Mechanic Set is too high for both the Mechanic and Forger levels."

Chapter 1862 Kui Wei Changtian is a god-level blacksmith!

Lin Tianhao looked at Kui Weichangtian meaningfully, "Are you hiding something from me?"

Hear this.

Kui Wei Changtian shook his head, "Sir, what can I hide from you?"

"You've been in the Galaxy World for such a long time, and you're stuck at the ninth level and can't advance. Have you ever thought about improving your blacksmith level?" Lin Tianhao asked.

Kui Weichangtian smiled awkwardly and said:

"I did try."

"So, what is your blacksmith level?" Lin Tianhao asked.

"God level." Kui Wei Changtian smiled a little embarrassedly.

"God level?"

"Didn't you say you only had a king-level suit?"

"The suit is indeed only available at the king level..." Kui Wei Changtian said weakly.

"Senior Changtian, we have known each other for such a long time, why are you playing such tricks on me?" Lin Tianhao frowned.

"If I say I'm a god-level blacksmith, you'll have to let me get a god-level mechanic suit."

"Making a mechanic suit also requires mechanical materials."

"The mechanical material in my hand is a little tight."

Lin Tianhao showed a creepy smile on his face.

"Senior Changtian, how much mechanical material did I give you? And how much mechanical material did you obtain from Mokesha Country?"

"Your last trip to the Pyramid Civilization was not bad, wasn't it?"

Kui Wei Changtian nodded gently, "My Lord has been very kind to me and has given me a lot of mechanical materials."

"I have indeed gained something in the Kingdom of Mokesha."

"But I really can't build the mechanic suit because I don't have the blueprints."

That's it.

Kui Wei Changtian paused for a moment before continuing:

"If you want mechanic equipment, I can provide you with some."

When the words fell.

Kui Wei Changtian raised his hand and waved, and seven pieces of equipment appeared in front of Lin Tianhao.

"These seven are all mechanics' artifacts, and their rank is around the third-grade artifact level."

Lin Tianhao nodded and checked the properties of the seven mechanic artifacts.

Three Micro Mechanic Arm: A third-grade artifact.

Wearing requirements: Nine-turn mechanic.

Effect 1: Proficiency in making mechanical items +300%.

Effect 2: Increase the speed of mechanical item production by 300%.

Effect 3: Health +30 billion.

Effect 4: Maximum health +30%.

Effect 5: Armor +300 million.

Effect 6: Magic resistance +300 million.

Effect 7: Movement speed +300.

Effect 8: Attack speed +30.

Effect 9: The mechanical items you craft have a % chance of being upgraded to a higher grade.

Abrasion resistance: Indestructible.

This property is okay.

Lin Tianhao looked at several other pieces of equipment, and the added attributes of each were good.

"This is what you gave me. You don't have anything better, do you?"

Kui Wei Changtian said with a bitter face:

"Sir, you can't fleece our own people."

"These things are what I discarded. The reason is naturally because I broke through the ninth level and can wear and forge more advanced equipment."

Lin Tianhao nodded. "Don't get me wrong. I just care about you and want to know your forging level."

"Don't worry, these things are not for free. I will exchange them for mechanical materials for you from the Mortal Palace."

Hear this.

Kui Wei Changtian's eyes lit up.

He didn't lie about one thing.

These pieces of equipment were indeed discarded by him, and were also used to train successors in the future.

just.

If Lin Tianhao wants it, he has no choice but to give it to him.

"wrong."

Kui Wei Changtian seemed to have thought of something and asked:

"Although you are also a mechanic, your suit is of a very high grade. You probably wouldn't be interested in my equipment."

Lin Tianhao smiled and said:

"These equipments are indeed not worn by me, but given to a disciple of our Fan Palace."

Hear the words.

Kui Wei Changtian's eyes lit up. "What's that person's talent like? What's his accomplishments as a mechanic? Did he switch to any special, hidden profession?"

Lin Tianhao looked at Kui Weichangtian with a strange look and said:

"Why are you so concerned about our disciples in the Fan Palace?"

"I am also a member of Fan Palace, and it is my duty to care about Fan Palace." Kui Wei Changtian said seriously.

"I'm not entirely sure about your question. His accomplishments as a mechanic are pretty good, right?"

"Among the adventurers I know, there aren't many who are more powerful than her."

In fact, Lin Tianhao now has no idea about the strength of most adventurers.

Even Lin Tianhao was not very clear about the specific strength of these disciples in his Fan Palace.

After all, the last time I saw them take action was during the Holy Land Prodigy Rookie Competition.

So much time has passed now, and Lin Tianhao really has no idea what their current combat effectiveness is.

"I've always wanted to find a successor. This time the Alite Galaxy is invading, and I'm not sure I can live to see that day."

Kui Wei Changtian looked a little lonely.

"I studied the internal structure of the robot I killed last time. The person who built it was a mechanic who was even better than me."

Lin Tianhao patted Kui Weichangtian on the shoulder and said with a smile:

"What are you afraid of?"

"I changed my job to become a World-Destroying Mechanic. So, I am your successor."

"With such a powerful successor like me, what are you afraid of?"

Hear this.

Kui Wei Changtian hesitated to speak, and finally said:

"That being said, my lord, the path you take is different from that of a mechanic."

"How about this? I'll introduce you to this mechanic from our Fan Palace. As for whether she meets your requirements for taking you in as a disciple, you can decide for yourself after meeting her."

That's it.

Lin Tianhao returned the seven mechanic artifacts given by Kui Wei Changtian to Kui Wei Changtian.

"Since you are willing to accept me as your disciple, I will return these equipment to you first. If you like them, they can be considered as your gift for accepting me as your disciple."

"If you don't like it, then forget what I said. Give her these discarded artifacts. I'll compensate you with the mechanical materials."

"My lord, you're welcome."

Kui Wei Changtian smiled slightly, "Anyway, these are the equipment I discarded and no longer need."

Lin Tianhao immediately sent a message to Gui Ye Wuqing (mechanic), saying that he would bring a more capable senior mechanic to meet her.

Hearing Lin Tianhao's praise for being so impressive, Gui Ye Wuqing (mechanic) naturally agreed readily and sent the coordinates to Lin Tianhao.

Lin Tianhao took Kui Wei Changtian to find Gui Ye Wuqing (mechanic).

"You guys chat, I won't disturb you."

Although Lin Tianhao is also a mechanic, his progress in mechanics is too slow.

Although there are clones of the Three Pure Ones who help to make mechanical items, it still cannot change the substantial problem that Lin Tianhao's job as a mechanic is too low and his research on mechanical drawings is not in-depth.

Lin Tianhao took a step forward and appeared on an island.

between hands.

Then a fishing rod fell into Lin Tianhao's hands.

Chapter 1863 Wine Dream Valley!

The remaining time.

Lin Tianhao had nothing better to do.

Fishing seems to be a good choice as well.

Sitting by the lake, Lin Tianhao fished until nightfall.

"Fishing seems to be quite simple." Lin Tianhao had a fruitful afternoon.

I don't know why people always say that catching a fish is a coincidence and getting nothing is the norm.

Put away the fishing rod.

Lin Tianhao took another step forward and arrived at Fengzhou, Jiumeng Valley.

This place was recommended by Lin Tianhao after asking Berserker Blade.

According to Berserker Blade, this place is very good and is a paradise for men.

of course.

Berserker Blade also said so.

He hasn't been here, he's not that kind of person.

I heard about this place from another friend.

Lin Tianhao didn't know whether it was true or not, but since he was already here, it would be a shame not to go in.

Entering the Jiumeng Valley, he found that it was even bigger than Lin Tianhao had imagined.

It's more like a small town than a valley.

There are all kinds of women here, it's really a feast for the eyes.

This Jiumeng Valley is very lively, with adventurers and many local professionals.

Look.

Some adventurers will choose to come out and indulge themselves in their last moments.

After all...it's unknown whether he can survive in two days.

Walking step by step towards the interior of Jiumeng Valley, the further in we go, the fewer people there are.

Lin Tianhao could see that there were guards along the way.

Just now.

A dissatisfied voice sounded.

"Why can he get in? Why can't we?"

Not far behind Lin Tianhao, a group of three people were stopped by guards.

The guard glared at the professional who spoke, "This is the rule of Jiumeng Valley. To enter, it is linked to strength."

"Even if we don't stop you, you still can't get in."

While talking.

The two guards stepped aside and made a gesture of invitation.

The man who had just spoken didn't believe it, so he took a step forward and bumped into a transparent light curtain.

Lin Tianhao was a little surprised. He had been paying attention to the beauties along the way, but he didn't realize that there was such a restrictive formation in the Jiumeng Valley.

He walked all the way, and every step he took had certain requirements for his realm.

If your realm is not high enough, you cannot move forward.

No wonder there are fewer people the further you go.

"I just don't know how far I can go at this level."

"There is such a restrictive formation. Will there be any surprises deep in the Wine Dream Valley?"

Lin Tianhao did not speed up his pace. He could see many beautiful women along the way. The further he walked, the more beautiful they became.

Even... the realm is higher.

Nowadays, many of the women Lin Tianhao sees are not only good-looking but also have good figures.

The levels are all above the seventh level.

even.....

Occasionally, you can see people who have reached the eighth level.

“No wonder Berserker Blade recommended this place.”

Lin Tianhao nodded secretly, but never stopped.

Although he had come this far, he had already seen several women who could make Lin Tianhao's kidneys move.

But Lin Tianhao was still curious about what the depths of the Jiumeng Valley looked like.

After walking for a while, there were no other men on the street, and even fewer women.

Occasionally, you can see women playing the piano and dancing among the pavilions and towers.

It seems a little deserted in the night.

The following long section is like this.

"The great calamity is approaching, and yet the Snow Queen still has the mood to come here and seek pleasure?"

At this moment.

A soft voice came.

Followed by.

Then a tall woman walked towards them.

Her skin is as white as jade, and her whole person has a pure and noble beauty that is untainted by the world.

It seems a bit out of place in this Jiumeng Valley.

It was as if a woman like her shouldn't be here, and more like a saint from a holy land, a princess of an imperial dynasty, or a young lady raised in a secluded family.

"I am a man too." Lin Tianhao said lightly.

The woman walked over, raised her slender hand and placed it on Lin Tianhao's shoulder.

"The night is still long. Why don't you rest here with me for a while, Xue Di? It won't be too late to go forward and check on my sister inside."

The woman's beautiful eyes stared at Lin Tianhao.

She tiptoed lightly and moved closer to Lin Tianhao.

The refreshing body fragrance hits you in the face.

Lin Tianhao raised his arm and put his arm around the woman's waist. "In that case, let's take a break."

Lin Tianhao picked up the woman in a princess hug and walked into the room in front with red lanterns.

after an hour.

Lin Tianhao walked out of the room.

On the bed, the woman with a blushing face bit her red lips lightly.

"Is this really just a short break?"

"Not satisfied?" Lin Tianhao asked back.

The woman's delicate body trembled slightly, "Very... very satisfied."

"It's just... a little bit hard to leave."

Lin Tianhao shook his head. "We just met by chance, why should we be reluctant to part?"

"I forgot to ask you, how much gold?"

"My name is Qiu Yuemeng. I don't ask for gold coins, I just ask that Xue Di remember my name."

Lin Tianhao threw down a million gold coins and said:

"You still have to give me the gold coins. As for the name... I've remembered it. If we meet again in the future, you can take some more time to rest."

Qiu Yuemeng's face lit up with joy, "We'll definitely meet again."

Lin Tianhao paused and asked curiously:

"You're a ninth-level diamond, and you do this kind of thing?"

Although he gave a lot, a being of this level could also earn a lot by killing monsters or doing other things.

"I wasn't born at the ninth level of Diamond. The Valley Master has been very kind to me..."

"But it was worth it for me. I was able to serve the Snow Queen for once. I wonder how many sisters in this Jiumeng Valley envy Meng'er."

Lin Tianhao shook his head and left without saying anything else.

You shouldn't talk about feelings in a place like this.

Maybe this is their usual trick.

Trying to get you into a relationship in the place where it's least appropriate to talk about feelings.

The night is still long.

Lin Tianhao moved forward.

indeed.

The deeper you go into Jiumeng Valley, the higher the quality of the women and the stronger their strength.

Lin Tianhao even saw a woman at the Ninth Revolution Star Glory level.

This made Lin Tianhao even more curious about the owner of Jiumeng Valley.

What kind of person is this valley master?

He could actually get these top-notch women to help him do this kind of thing.

Lin Tianhao came to a lake.

There is a stone tablet on the path in front of the lake, on which is written: The three realms of heaven and earth, all living beings are upside down; the realm of Huangquan, life and death both exist; under the six paths, there are thousands of miles of peach blossoms; when drunk and awake, one knows the six desires; when facing fame and fortune, one sees the seven emotions.

"Those who know the six desires can enter, and those who see the seven emotions can enter."

Lin Tianhao walked forward.

Without any obstacles, Lin Tianhao set foot on this tree-lined path.

After walking a few steps, Lin Tianhao heard the melodious sound of a piano.

This was nothing special in Jiumeng Valley. Lin Tianhao walked all the way to a small courtyard by the lake.

In the small courtyard, a woman in a lavender dress was plucking the strings of a zither.

She seemed not to notice Lin Tianhao's arrival and continued to pluck the strings.

Chapter 1864: The successor: Tan Tai Jing Yan!

Lin Tianhao did not disturb her, but listened quietly to the woman in purple skirt playing the piano outside the yard.

As the song ended, the woman in purple skirt raised her eyes to look at Lin Tianhao and said:

"I've neglected the distinguished guest."

Lin Tianhao did not comment and asked with a smile:

"If I hadn't come here, I might not have known that there was such a great master in Fengzhou."

The woman in the purple dress slowly stood up and said teasingly:

"In a place like this, does Xue Di still care about realm?"

"Shouldn't...shouldn't it be a beauty pageant?"

Lin Tianhao shook his head. "I'm color blind. I don't know what's beautiful or not. To me, they're all just skeletons."

The woman in the purple dress made a gesture of invitation to Lin Tianhao, indicating that Lin Tianhao should sit down beside her.

"Jiumenggu will also leave. If the Snow Queen wants to spend more time with us Pink Skeletons, she should hurry up."

Lin Tianhao walked up to the woman in the purple dress and said with a smile:

"It's very cold at night, why don't you go into the inner room?" Lin Tianhao said.

"Does Xue Di still care about this?" asked the woman in purple skirt.

"I don't care. I was just thinking of inviting you to join the Mortal Palace."

He couldn't tell the depth of this woman in purple skirt, so her realm must be quite high.

"Xue Di, we in Jiumeng Valley are going to leave the Galaxy World. It's really embarrassing for me to try to get me to join the Mortal Palace now."

Lin Tianhao smiled and said:

"Yes, with troubled times approaching, everyone wants to save their lives."

The woman in the purple dress nodded gently, "I'm glad you understand."

That's it.

The woman in purple skirt paused for a moment and then continued:

"Sir, you are very strong, but those guys in the Alete Galaxy are no ordinary people either. Have you ever thought about... leaving a descendant?"

Hear this.

Lin Tianhao couldn't help but be slightly startled, "With you?"

The woman in the purple dress smiled and said, "I couldn't ask for more."

Finished.

She added:

"If you don't like me, you can choose any woman in this Jiumeng Valley."

"If you have any requests, you can ask for them and I will arrange them for you."

Lin Tianhao smiled without comment and said:

"Do you want me to leave you as a descendant, or do you want to borrow the power of my bloodline?"

"Does it matter? We can make a contract. You, as a father, will not be buried."

"This can be considered as... a mother's status depends on her son."

The words fell.

The woman in the purple dress smiled again and said:

"What's more, I am not bad either. I have dual god-level talents, so I am naturally incomparable to you, young master."

"But it won't lower the bloodline of your descendants too much."

Lin Tianhao stared at the woman in purple dress meaningfully, and naturally had something in mind.

"Isn't it a bit too soon to talk about having a baby when we first met?"

"Didn't you say it, sir? We are all skeletons. For you, it's just about picking a skeleton with a higher bloodline and better talent to leave as a successor. It's not about falling in love."

"But I don't understand you." Lin Tianhao said.

The woman in the purple dress smiled and said, "My talent has already said it. There is some true phoenix blood in my blood."

"It's not just a strand, it's some, about 30 percent." The woman in purple dress emphasized again.

"If we're choosing a mother for our child, your conditions are indeed quite good."

Lin Tianhao said calmly, "But you should know that I'm not just talking about bloodline and talent."

The woman in the purple dress nodded gently. "I want the child I carry for ten months to be yours and mine. Even if I were a bad person, I wouldn't do anything bad to my own child."

Lin Tianhao stared at the woman in the purple dress for a while and asked:

"What's your name?"

"Tantai Jingyan."

Lin Tianhao nodded gently, "There are three kinds of unfilial behavior, and the worst is to have no descendants."

"Time is short and the task is heavy, so let's hurry up."

Lin Tianhao picked up Tan Tai Jingyan and walked towards the house in front.

after one day.

Lin Tianhao stayed here for a day. Staying here is no small matter, so he naturally has to take it seriously.

In the small courtyard.

With a flushed face, Tan Tai Jingyan put on her clothes and took out a pipa.

"If you are not in a hurry, please listen to my pipa music before you leave."

Lin Tianhao spoke calmly and said:

"I'm in no hurry."

"As for you, there's only one day left. If you want to leave, you'd better hurry up."

Tan Tai Jing Yan smiled slightly, "This song is not bad."

Lin Tianhao smiled mischievously, "It's not good to listen to music, so let's get an extra insurance."

.....

Two hours later.

Lin Tianhao put on his clothes and his expression became serious.

"Where will you go after you leave?"

"Qingyuan World, a small world similar to the Galaxy World. I contacted them and after paying a small price, they allowed us to go there."

"Is it a trick?" Lin Tianhao frowned.

Although going to other small worlds seems to be safer, if there are gods and saints in that world, with Tan Tai Jingyan's strength, it should be risky.

"What are you thinking, my dear?"

Tantai Jingyan touched her belly and said:

"If it works, then there's no problem. If it doesn't, it probably won't be a problem either. Even if something happens, it won't be a problem for you, sir."

Lin Tianhao frowned slightly, "What if I die?"

Hear this.

Tantai Jingyan was silent for a moment before looking up and saying:

"If you can learn to compromise, you won't die."

Lin Tianhao remained silent and said:

"We'll see then. I'm not too keen on compromising."

Tantai Jingyan hesitated to speak, and finally said helplessly:

"I hope we can come back in ten years, and I hope you will still be here by then."

Lin Tianhao hesitated for a moment and said:

"If the Galaxy World is still here ten years from now, then I should still be here too."

Tan Tai Jing Yan nodded and said, "Let's go."

"gone."

Lin Tianhao waved and turned to leave.

As soon as I came out of Jiumeng Valley, the announcement to the entire server resounded through the sky.

"Server-wide announcement: The countdown to the fusion of Ragnarok and reality has begun. 24 hours remaining. The coordinates of the Blue Star space rift have been revealed. Only the coordinates are displayed; traversal of the space rift is currently unavailable. This announcement is being made. Hope everyone will keep up the good work!"

"Countdown: 23:59:49."

.....

Lin Tianhao raised his eyebrows slightly. Has the final countdown begun?

at the same time.

Above the blue planet, beams of light fell from the sky and landed on different countries of the blue planet.

The moment these beams of light fell, all countries began to take action.

"Immediately count the locations of all light pillars in the country, mark their locations, and implement the Blue Star Protection Plan."

At the Dragon Country Command Center, someone immediately began issuing orders.

"Notify all war zones to discuss joint combat strategies and implement all defensive strategies."

Orders were passed down one after another, and this scene was being played out in every country across the entire blue planet.

The entire blue planet began to run at high speed.

Everyone is on high alert, waiting for the fusion of Ragnarok and Blue Star in just one day.

Chapter 1865: Glasses are bubbling, fusion countdown!

The action outside was in full swing, but Lin Tianhao just stood outside Jiumeng Valley, waiting quietly.

After half an hour, Lin Tianhao realized that the creatures in Jiumeng Valley had disappeared.

"I hope it works. I can't die without any descendants."

Lin Tianhao smiled helplessly, "What are you thinking? We are not without a chance."

Return to the Mortal Palace.

Lin Tianhao met Kui Wei Changtian.

"Sir, the equipment has been given to that little girl."

Kui Wei Changtian had a complicated expression, and no one knew what he had experienced.

"What's wrong?" Lin Tianhao asked curiously.

"Nothing, just a little shock."

"Strike?"

When Lin Tianhao heard this, he was stunned.

"Are you kidding? That little girl can really defeat you?"

"Sir, you really don't know?"

"I don't know." Lin Tianhao said.

Kui Wei Changtian sighed and said:

"I'm not as talented as her as a mechanic, and I'm not as good as her as a professional."

Lin Tianhao was startled, but quickly calmed down.

after all.

Several people including his sister who belonged to Gui Ye Wuqing were related to the Lord of the Blue Sky Origin, so it was not surprising that they had some unique characteristics.

"Wait, you're not even as professional as her?"

"You are a super god-level hidden profession!"

Kui Wei Changtian nodded heavily, "Super God-level hidden professions also have different levels of strength."

"Anyway, that little girl is amazing."

"With her here, the chances of success in this defense battle increase by at least one percent."

"Just one percent?" Lin Tianhao said with a smile.

Kui Wei Changtian nodded heavily.

"That's already incredibly high, right? One person increasing the chances of victory in two worlds by even one percent. That's incredible."

Lin Tianhao nodded gently, "What do you think of me?"

"My lord, you..."

"Fifteen percent, yes."

Lin Tianhao was a little surprised. "I only have 15%? Then what do you think the probability of success is for this defense of the Galaxy World?"

"Let's split it 70-30. Let's see if those guys in the Alet Galaxy give us a chance."

"I have 15 percent, and that little girl has 1 percent. You mean the others only have 14 percent?"

"That's about right." Kui Weichangtian nodded.

"Your Excellency, consider this: if you use all your strength, can you kill all the other adventurers on Blue Star?"

Lin Tianhao shook his head, "I don't know, but killing most of them shouldn't be a problem."

"Your Excellency is still too modest."

Kui Wei Changtian took a deep breath and said seriously:

"Anyway, in my opinion, the outcome of this battle to defend the galaxy world depends on you, my lord."

"Others can only add icing on the cake."

Lin Tianhao shook his head and said:

"Now is not the time to say such things."

"I am more concerned about what they will do to me in a day."

According to Lin Tianhao's own speculation, one day later, those bastards in the Alete galaxy will attack with all their strength to kill him.

Just as Lin Tianhao was thinking this, the messages in his small group began to become active.

"Brother Hao, I estimate that once Ragnarok merges, the Alite Galaxy will immediately send experts to besiege you."

"We have discussed and decided to help you deal with powerful enemies. We haven't been wasting our time in the past few years."

The monkey brought up the topic.

Obviously.

Lin Tianhao could think of this, and so could everyone else.

"Fatty is strong enough now, but I'm not sure about your strength now."

The True God of Physics: "You'll know once you've fought."

Lin Tianhao was a little surprised, as glasses hadn't appeared for a long time.

Gui Ye Wu Qing (sister): "The missing people have returned."

Physics God: "It's time to show up. I wasn't needed in the fight before, but now it's different."

"Well, we'll see. Those guys from the Alate Galaxy may not necessarily take action directly."

"I killed a pretty powerful guy before, so it should have a deterrent effect on them."

Although Ku Yue is not from the Alate Galaxy, people in the Alate Galaxy still know her strength.

Lin Tianhao killed Ku Yue and made it impossible for Ku Yue to be resurrected, which was a great shock to Allens Roman.

"Compared to this, I'm more worried that they'll deploy the strong men they originally intended to use against me to attack our defenses."

"If several top experts join forces, our defenses could be quickly penetrated."

The Monkey King's Monkey said: "There are many experts gathered in the Mortal Palace now. If the Alite Galaxy sends experts to attack the defense line, they will be quickly transferred over through the teleportation array."

Xiao Xiaojian: "Can't we take the initiative? Why do we have to let them attack? We can move the scene to the starry sky, step into the Milky Way galaxy, and start the hunting time."

Physics God: "Theoretically, it is possible, but it requires a lot of personal mobility and strength."

"If you don't have enough strength, you'll most likely just be there to deliver food."

.....

The group started discussing it.

Xue Di: "How about this, if you don't have anything particularly important to do, then gather in the Mortal Palace."

"it is good."

"it is good."

.....

Everyone agreed.

Now there is only one day left, and it would be a waste to go out and kill monsters and level up.

Fandian.

Today, the Fan Palace is very lively.

It's rare to see such a lively atmosphere.

Except for the Fan Palace.

The capital of the Shanhai Empire is also very lively.

After all, most of the top masters in Dragon Country gather here now.

One territory after another expanded in a circular shape toward the outside of the imperial capital of the Shanhai Empire.

Some also rely on the towns of the Shanhai Empire to establish defense lines.

After all, according to the later plan, the Shanhai Empire is the final battle site.

The Shanhai Empire is particularly crucial to the success of the defense of the galaxy.

at the same time.

Lin Tianhao found himself pulled into a large group.

Not only him, but everyone in his small group was pulled over.

"This is the core group of Dragon Country experts. You are all the top experts in Dragon Country. The battle to defend the Galaxy World is about to begin. You can communicate with each other here."

"Any high-level decisions will be communicated here for discussion. I hope everyone will work together to protect the galaxy and our home."

.....

More and more people are being added to the group.

Among them were the presidents of various major guilds, some names that Lin Tianhao was familiar with, and some famous warriors from his previous life.

There are also some... adventurers that Lin Tianhao has no impression of.

Among this group of people, except Gui Ye Wuqing (Mage) who is at level one, the levels of everyone else are almost all above level 10,000.

There are currently 1,378 people in this group, and most of the top masters of Dragon Country should be here.

Xuan Mingyang: "Everyone can see the fusion countdown. We estimate that as soon as the fusion is completed, masters from the Alet Galaxy will raid the defense line. At that time, we will need your help to defend."

Chapter 1866 Gathered together!

"receive."

"receive."

.....

A series of messages were received and sent, although it was a bit like a work group, but everyone's mood at this time was quite different.

Defend our country and protect the world!!

This is righteousness!!

Lin Tianhao stayed in Fandian. All countries had established command headquarters in the imperial capital of the Shanhai Empire, and the distance between their headquarters was not too far.

In particular, the command headquarters between several major countries are no more than one thousand meters apart.

After five years of hard work, I can finally take some time off.

"haven't seen you for a long time."

Lin Tianhao's gaze fell on a mage not far away.

Among the five of them, only the one with glasses is a mage.

He, his sister, Fatty, and Monkey all work in the physics department.

Glasses walked over, sat next to Lin Tianhao, and said with a smile:

"It's really rare. We play games together, but we rarely see each other."

"You are busy, and so am I."

"I'm actually curious about your current strength."

Among these people, Lin Qingqing and Lin Tianhao now know something.

She has a deep connection with the Lord of Qingtian Source and is extremely powerful.

The fat man was possessed by the great god Pangu. Last time, Lin Tianhao also watched him fight with Lulindu Fumo.

As for the monkeys.

Although Lin Tianhao had not seen him take action yet, he could roughly guess his situation based on his talent.

But as for the glasses, Lin Tianhao really didn't know what his strength was.

"Not bad." Glasses said with a smile.

"I heard that you have already created a realm." Lin Tianhao said.

"That was in the past." said Glasses.

Lin Tianhao was a little surprised, "It seems that you have many opportunities to go to the tomb."

"good."

"Otherwise, I wouldn't be staying in those ancient tombs all the time."

"Have you all been into those people's ancient tombs?" Lin Tianhao asked.

"Some are well-known, some are not, and some... I don't want to mention them."

"There are gods and Buddhas, there are immortals and demons, there are humans, there are monsters, and even...there are those who are above saints."

"Above the Saint?" Lin Tianhao was a little surprised.

"The Demon Ancestor Rahu."

Glasses took a deep breath and said, "There are also... some bizarre things."

When he said this, the look and expression of Glasses became much more mature.

"Including me now."

The words fell.

The pupils of the glasses turned grayish-white, and the pupils split into two, and then into four.

"Is it scary?"

Speaking of which.

Blood-red lines began to appear on Yan Jing's skin, which were somewhat similar to his magic lines, but also different from his magic lines.

When these changes occurred in the glasses, the sky was covered with dark clouds and was extremely gloomy.

It even alarmed many people in the Shanhai Imperial Capital.

The main reason is that Ragnarok and reality are about to merge, and many people's nerves are more sensitive.

The pupils of the glasses recovered and the blood-colored lines on the body disappeared.

The strange phenomenon in the sky dissipated, and he said calmly:

"I'm not sure if I'm even human anymore."

Lin Tianhao smiled slightly, and magic patterns also appeared on his body.

"You have it, and so do I."

Seeing the magic pattern on Lin Tianhao's body, Glasses also laughed.

"The fat man's body is controlled by the great god Pangu. I heard that you also have a soul seed in your body..."

Before Lin Tianhao finished speaking, Glasses spoke lightly.

"piece of cake."

"The soul seed that the Pangu clan injected into my body cannot be ranked in my body."

Lin Tianhao was stunned for a moment, "Do you have other soul seeds in your body?"

"Yes, yes. The soul seed of the Demon Ancestor Rāhu that I mentioned before is in my body."

Lin Tianhao's eyes became extremely solemn, "Are you okay?"

"piece of cake."

"The soul seeds of Demon Ancestor Luo Hou and the soul seeds of Pangu clan are about the same."

"Is there anything more powerful?"

Lin Tianhao was indeed a little surprised.

"Well, but I can't tell you that. Calling him by his real name might cause bad luck."

"Is it so scary?"

Lin Tianhao fell into deep thought.

Even more powerful than the Demon Ancestor Rāhu, this seems a little unreasonable.

After all, in the four known eras of god creation, the three thousand gods and demons should be the top existences.

Among the three thousand gods and demons, the Demon Ancestor Rāhu can be considered to be ranked high.

Who?

Can he be more powerful than the Demon Ancestor Rāhu and others?

Could it be a rising star like the previous Lord of the Mortal Palace, Bai Linfeng?

Bai Linfeng should be a person who lives between the second and third eras of god-making.

Compared with the three thousand gods and demons, it seems to be completely not on the same level.

But that's it.

Bai Linfeng reached the realm of eternity.

Look at it this way.

It doesn't mean that the earlier the era of god creation, the more powerful people are.

It is not necessarily the case that those famous figures in the era of god creation are necessarily powerful.

Similar to...Kim Innocent.

In fact, Lin Tianhao can prove from many places that Jin Wuzui should be of a very high generation and is also an ancient existence.

But it is precisely such an existence that is not even a saint.

"If there are any problems that cannot be solved, we can face them together." Lin Tianhao said.

"Don't worry, if there's any trouble, I'll definitely bring you along, Brother Hao."

As soon as Yan Jing finished speaking, Lin Qingqing walked over.

"You guys arrived early."

Lin Qingqing came to Lin Tianhao.

"Brother, don't stress too much. You are never alone."

"Yes, and us too." The monkey also walked over.

The fat man followed closely behind, his eyes were deep and his face was resolute.

But when he saw the glasses, a hint of complexity appeared on his face.

"We are all here, not just you adventurers." The fat man said seriously.

The monkey frowned slightly, "But many of you natives have left."

"If they all stay, the chances of winning should be 50-50."

Obviously.

The monkeys were not happy about the large number of indigenous professionals leaving.

"Different people have different choices." Pangu God said lightly.

"They see no hope because they feel this place has been abandoned by the gods, so they choose to leave."

Lin Tianhao slowly stood up and said calmly: "Okay, I have someone prepare some delicious food, let's eat together."

Although you don't need to eat in Ragnarok, as long as there is nutrient solution in the game cabin, you can maintain the nutrition needed by the body.

"That's fine. These past few years have been tiring, especially after knowing those bastards from the Arlet Galaxy were going to invade us. It's really exhausting."

Monkey spoke lightly and followed Lin Tianhao inside.

Everyone was eating and chatting.

At the dinner table, everyone tacitly agreed not to talk about the Alata Galaxy anymore.

It seems... no one wants those guys from the Alata Galaxy to affect their current mood.

After having enough wine and food.

Lin Tianhao saw the news in the group that the game cabins of these top masters and important personnel had been moved near the light column.

Chapter 1867: The former great power!

Once Ragnarok merges with reality, they will be able to pass through the pillar of light and enter Ragnarok again.

Fandian.

After meal.

Everyone sat together, chatting and talking, and someone suggested singing.

Everyone had a smile on their face, and there was no sense of tension at all about the impending war.

Maybe they were all nervous, but they all knew it.

tension.

There is no use.

At this moment.

A figure walked out of the mortal temple.

He was just a shadow, and Lin Tianhao discovered him when he approached the Fan Palace.

With Lin Tianhao's current spiritual awareness, he can detect any movement near the temple in the first place.

The great god Pangu also looked up.

"It's the guy from last time. He's just a projection."

Lin Tianhao waved his hand, and the projection outside the mortal hall appeared in front of him.

"Lulindu Mansion Demon?"

"A projection coming over at this time, is it a challenge?"

The projection of Lulindu Fumo shook his head and said, "This is my last attempt to persuade you."

"I don't know whether you do this because of your faith or for the sake of saving the world."

"But I still want to persuade you to give up. We can let you take 100 million people with you."

"By taking them with you, you can continue the flame of civilization. At least, people are still here."

Lin Tianhao smiled and said:

"Tell you a story."

"In the past, there was a great country that, like us, faced a powerful enemy. At that time, in order to preserve its civilization, it chose to cede territory and pay compensation."

"After the first country tasted the sweetness of this, it came to the second country and also pointed a gun at this big country. Then, this big country chose to compromise and ceded territory and paid compensation to the second country."

"Then, the third, the fourth..."

"The more territory is ceded and indemnities are paid, the weaker this great country becomes. The more indemnities are paid, the more oppression is exerted on the people at the bottom of society."

"Those countries are increasingly dissatisfied with simply ceding territory and paying indemnities. They are eyeing all of this country's territory and are joining forces to try to divide it up."

"Then everyone felt that this seemingly huge country was actually just a bunch of cowards."

"A tiny country made up of a few islands, with a land area and population less than one-twenty-fifth of this larger country. Yet, they claim they can occupy all of this country within three months."

Lulindu Fumo chuckled and said:

"Do you think our current actions mean you're going to cede territory and pay compensation?"

Lin Tianhao shook his head and angrily said:

"No, no, no, you are not ceding land as compensation. Even that tiny country only said they would take us over within three months."

"Instead of asking us to take some people out of our homeland, abandon everyone else here, and give all the resources and land here to you!!"

Lulindu Fumo smiled noncommittally and asked:

"and then?"

"Your story isn't over yet. Did that tiny country do it?"

"They were finally surrendered by a big country." Lin Tianhao said coldly.

"Not long ago, they were destroyed by this big country."

Hear this.

Lulindu Fumo nodded, "That's very good."

"but....."

"Our Arlet Galaxy is not a small country on a tiny island."

"Do you think you can beat us into surrender?"

"Do you think that one day in the future you will destroy us just like you destroyed that tiny country?"

Lin Tianhao stared at Lulindu Fumo and said with a smile:

"If you don't try, who knows if it won't work?"

"You are still young and frivolous." Lu Lindu Fumo said.

Lin Tianhao didn't comment, "That's right."

"I forgot to tell you, back then, many people thought we would really lose to that tiny country."

"Then, see you on the battlefield."

The projection of Lulindu Fumo slowly dissipated.

"Boss Xue Di, what you said is so true. It's simply wishful thinking to want us to compromise without even fighting." Xiao Xiaojian said indignantly.

Once upon a time, a mountain also stepped out and shouted:

"We will not agree to a treaty that is humiliating and detrimental to our country, let alone one that would simply hand over the world to us. This shows that they don't take us seriously."

Gui Ye Wuqing (mechanic) said weakly:

"Is it possible that they are willing to give us this opportunity because of the Snow Empress? If it weren't for the Snow Empress, we wouldn't even have this opportunity."

"We have to fight eventually. I'd rather not have this opportunity."

"Long Country alone has 1.5 billion people. Not to mention other countries, just Long Country alone is going to give up 1.4 billion people. How is this possible?!"

.....

A group of masters expressed their dissatisfaction.

There is absolutely no room for compromise on this kind of thing!!

Lin Tianhao smiled and said:

"Now that I've made my choice, I'll fight to the death!!"

"Fight to the death and never retreat!!"

"Fight to the death and never retreat!!"

.....

Lin Tianhao's eyes swept over everyone present and he said seriously:

"But what Lulindu Fumo said just now is true."

"The Alite Galaxy is not that tiny country. We must not underestimate the enemy."

"That's natural." Glasses nodded heavily.

"To despise one's enemies is to treat one's own name as a joke."

.....

Next.

Everyone began to discuss how to deal with these guys from the Alate Galaxy.

period.

I also communicated with the Longguo Command Headquarters and got a general understanding of the current situation.

Also.

Berserker Blade also sent three locations to Lin Tianhao.

Lin Tianhao had said before that he wanted to build a base on Blue Star to house his ten statues.

now.

Three alternative sites have been selected for this base.

Berserker Blade gave Lin Tianhao a general overview of the three alternative locations, but the details had not yet been finalized.

Because the most ideal choice is to enter the space rift on the edge of the Shanhai Empire.

Now pillars of light have appeared in Blue Star and Ragnarok, but they are still unable to pass through the pillars of light to travel between Ragnarok and Blue Star.

therefore.

It is still unknown where the light column on Blue Star corresponds to the light column in Ragnarok.

Lin Tianhao was not in a hurry to choose a position, but was waiting.

Waiting for the final moment to arrive.

Countdown: 1:59:37.

With less than two hours left, Ragnarok and reality begin to merge.

Although he had experienced it once, at this moment, Lin Tianhao's mood still fluctuated uncontrollably.

Not only Lin Tianhao, but adventurers from all over Blue Star are waiting.

Five years.

After five years of preparation, this day has finally arrived.

Time passed bit by bit.

There were only two hours left, but Lin Tianhao felt it was extremely long.

at last.

Amidst complex emotions such as tension, anticipation, and uneasiness, the countdown finally reached the last minute!

Chapter 1868 Fusion completed, requesting support!

"59!!"

"58!!"

"57!!"

.....

Lin Tianhao looked up.

He heard uniform voices coming from the Shanhai Imperial Capital outside the Mortal Palace.

Many people spontaneously started counting down.

"10!!"

"9!!"

"8!!"

.....

"3!!"

"2!!"

"1!!"

When the word [1] fell, many people held their breath.

"Server-wide announcement: Ragnarok and reality have officially merged. All adventurers are now forced to log off. Your real-life bodies will perfectly inherit everything you had in Ragnarok. This announcement is informing everyone, and we hope adventurers will keep up the good work!"

.....

For an instant.

Everyone in Ragnarok is forced to log off.

As for the adventurers on Blue Star, their bodies were separated from the game cabin or game helmet, and were suspended in mid-air.

Followed by.

Rays of light fell from the sky and penetrated into the bodies of the adventurers one by one.

"Fusion has finally begun!!"

A powerful spiritual energy began to spread in all directions.

Wherever it passed, snakes, insects, rats and ants began to undergo subtle changes.

This process is not too fast.

At least.

If no adventurers come to merge.

Lin Tianhao opened his eyes and did not move, but just quietly felt everything that happened between heaven and earth.

During this process, Lin Tianhao could clearly feel that his physical strength was constantly increasing, and all the magical powers and skills were gathered in his mind.

Then... is the understanding of Tao.

All kinds of power of laws gathered together, orange, red, yellow, green, blue, purple...all kinds of light flashed around Lin Tianhao.

Not far from Lin Tianhao was the ambitious Taoist priest.

His situation is the same as Lin Tianhao's.

The slightly different thing is that the light on his body is somewhat different from Lin Tianhao's, and there are only two colors, gray and white.

This seems to foreshadow the path of the ambitious Taoist priest.

But what do these gray and white represent?

Evil and snow?

It seems to be, and it also seems not to be.

Lin Tianhao's body has not yet fully integrated, and his sensitivity to the world is still very weak.

This fusion lasted for a quarter of an hour before Lin Tianhao fell from mid-air.

"haven't seen you for a long time."

The ambitious Taoist priest also landed safely.

"Is this what fusion feels like? It's as if a peerless immortal has forcibly infused me with hundreds of years of skills, yet I don't feel any discomfort at all."

"Everyone, start moving, return to the Mortal Palace, and be ready to support the defense line at any time."

The moment the fusion was completed, Xuan Mingyang tagged everyone in the group.

To be precise.

Before the fusion, he had said in the group that after the fusion was completed, they would enter Ragnarok from the nearby pillar of light and head to the Mortal Palace.

Because the moment the fusion is completed is the most chaotic time, all adventurers will be forced to leave the galactic world, and there is no guarantee that those bastards in the Alet galaxy will do something.

As for Lin Tianhao and his friends' game cabin, they moved to the location of the nearby light column after the light column appeared on the blue planet.

Lin Tianhao's mind moved, and he could feel that his Starry Sky Steps could move freely on this blue planet.

Take one step.

Lin Tianhao came in front of the light column.

This pillar of light connects heaven and earth, and its diameter is over a hundred meters.

As long as you step into the pillar of light, you can re-enter Ragnarok.

When Lin Tianhao was standing in front of the light column, adventurers kept appearing and establishing territories around the light column.

Lin Tianhao knows.

These were all arranged in advance.

Three lines of defense will be set up inside and outside the light column.

Lin Tianhao did not stop and stepped into the beam of light.

In a flash.

Lin Tianhao walked out of a beam of light at the edge of the Shanhai Empire.

Taking another step, Lin Tianhao returned to the mortal palace.

Currently, there is only one adventurer, Lin Tianhao, in the Fan Palace.

As for the other adventurers, it will probably take some time for them to arrive.

After all... not everyone can move such a long distance in one step like Lin Tianhao.

Less than a minute after Lin Tianhao arrived, a crack appeared in the void in front of him.

Followed by.

Lin Tianhao saw a woman wearing a conical hat appear there.

Gui Ye Wuqing (Mage).

"You are quite fast." Lin Tianhao said with a smile.

The voice just fell.

A stream of light descended from the sky and landed on the square in front of the Fan Temple.

Gui Ye Wu Qing (Mechanic).

This... is really worthy of being someone related to Qingtian. This speed is a bit too fast.

The efficiency is not much slower than Lin Tianhao.

"I thought I would be the second one to arrive, but I was the fourth one."

Once upon a time, a mountain stepped out of the void. He shook his head helplessly.

"You guys are so unreasonably fast."

"I should be the fastest one, but I still can't outrun you monsters."

The Monkey King's monkey also appeared on the Fan Temple Square.

People arrived one after another.

Only... Lin Qingqing is missing!!

Lin Tianhao frowned slightly. Lin Qingqing was also related to the Lord of Qingtian Source, so she shouldn't be too slow.

Just as Lin Tianhao was thinking this, a huge hole appeared in the sky in the distance.

A dark, violent, and evil aura permeated the air.

Followed by.

Lin Tianhao saw the sky full of colorful rays of light, so beautiful.

"not good."

Lin Tianhao's expression changed slightly. It was obvious that a fight had broken out.

To be able to create this kind of power, the person must be extremely powerful.

Lin Tianhao took a step forward and just as he reached the edge of the battlefield, he saw nineteen flying swords of different colors floating around Lin Qingqing.

The colorful rays of light emanated from these flying swords, illuminating the sky and the earth.

And from the black hole in front, a steady stream of huge rocks flew out, and these rocks were constantly crushed by the flying swords.

Lin Tianhao shouted, "Get out of here!"

When the words fell.

Lin Tianhao slapped the black hole in front of him through the air.

The power of the origin of space was fully activated, and in just a breath, the black hole in front was shattered into pieces.

The black hole began to close rapidly, and the sky returned to normal, but no trace of the enemy was seen.

He's hiding his head and showing his tail like this, probably just to test the waters.

"What's going on?" Lin Tianhao came to Lin Qingqing's side.

Lin Qingqing put away the flying sword and said seriously:

"When I was on my way to the Mortal Palace, a black hole suddenly appeared, and rocks flew out of it."

"Originally, the black hole was only half a meter in diameter, and the rocks weren't big either. But later on, the black hole grew bigger and bigger, until it became what it was when you arrived."

Lin Tianhao frowned slightly.

He had never seen such a method in his previous life.

However, Allens Roman possesses the power of the origin of space, and it should not be difficult for him to open a black hole and achieve this.

And right now.

Information began to be transmitted within the large group.

"Shenzhou Rift No. 452 was attacked, requesting support."

"Shenzhou Rift No. 491 was attacked, requesting support."

"Shenzhou Rift No. 411 was attacked, requesting support."

Chapter 1869 A young man appeared on the moon!

Lin Tianhao couldn't help but frown when he saw this information.

Someone has just started to raid the space rift. It seems that the above speculation is correct.

but.

At this time, the main force from the Alete galaxy should not have arrived yet.

The ones who were able to carry out the raid should be some small forces that arrived in advance.

"Right now, Ragnarok and reality have just merged. No specific personnel are required. Any expert nearby can provide support."

"Those guys in the Arlet Galaxy are all inside Ragnarok and haven't appeared on Blue Planet yet."

"We speculate that their attack this time is to open up a passage and raid Blue Star."

Xuan Mingyang's messages kept coming out.

Most of the adventurers on Blue Star have just completed integration, and there are no defensive measures such as main cities or territories.

If a strong man from the Alete galaxy took action at this time, it would be a devastating blow to these adventurers who had just completed the fusion.

Lin Tianhao brought Lin Qingqing back to Fan Palace. He did not go to support them because there were other people there to support them.

At this point in time, Lin Tianhao still plans to build his own Blue Star super base first.

finally.

On the recommendation of Berserker Blade, Lin Tianhao chose to build this super base in Shu.

Shu is the strategic hinterland of the Dragon Kingdom and is located in the central area of the Dragon Kingdom.

Moreover, there are as many as ninety-six spatial rifts around Shu.

Choosing to establish a super base in Shu can better radiate to Longguo and other countries around the world.

Do it when you think of it.

At the space rift of Blue Star No. 510.

Lin Tianhao asked Baili Qianrou to move his Heart Demon Ancient City here.

Next to the corresponding Shenzhou space rift is Kuiwei Changtian's steel castle.

After the Heart Demon Ancient City was built, Lin Tianhao placed all ten of his statues here.

After the statue was placed, Lin Tianhao chose to focus on attacking the creatures and mechanical objects in the Alet galaxy.

Lin Tianhao is now personally in charge of the Blue Star 510 Super Base, as for Fan Palace.

With his clone and invincible field, there won't be any big problems.

The problems with the space rifts that had been requested for support before have also been resolved.

Lulindu Fumo and Allens Roman are both very powerful.

Before Tomato, the great god Pangu had fought with Lulindu Fumo, and the two were equally matched, with not much difference between them.

and.

According to what Pangu said before, he can quickly improve his strength in a short period of time.

therefore.

It is not impossible that the current God Pangu is more powerful than Lulindu Fumo.

As for Allens Roman, she is also very powerful, but if Yan Jing or those Gui Ye Wuqing take action, even if they are not defeated, they should have no problem defending against them.

Lin Tianhao stood on the top of the city wall of the Heart Demon Ancient City. Outside, three layers of territory defense positions had been established.

Barracks also sprang up.

The battle is finally about to begin.

Lin Tianhao raised his eyes and looked into the depths of the starry sky.

Before Ragnarok merged with reality, those guys in the Arlet Galaxy could not reach the reality of the galactic world and could only enter the Ragnarok range.

After Ragnarok merged with reality, the opposite was true.

Those guys from the Alate Galaxy can only enter the Milky Way world through the endless starry sky, and then cross the Milky Way to come to the Blue Planet.

They will not be able to enter Ragnarok directly.

but.....

There are no absolutes in this world.

Beings like Allens Roman who control the original power of space may be able to cross the space barrier and come here.

however.

Just as Lin Tianhao was thinking this, he saw that his ten statues changed direction at the same time!

then.....

There's no after that.

A guy is coming.

On the back of the moon, the expressions of the three people in the group changed slightly. They were protected by a light shield at this time.

"What's going on? We seem to have been targeted by something just now."

The leading man, with a wrinkled face and a translucent tentacle on his head, frowned and spoke.

"We've just started integrating. Those guys probably haven't put the detection system in this position yet."

A burly man with eight arms on the right side of the tentacle man spoke in a deep voice.

"It could be the mechanic who killed Master Cailin's robot. He might be able to set up a reconnaissance system in a short period of time."

While the few of them were discussing, some ripples appeared in the void ahead.

Followed by.

Then a young man appeared here.

"Now that we're here, why don't you go down and sit for a while?"

When they saw this young man, the expressions of the three of them suddenly changed.

They have hidden their breath.

But it was still discovered.

"Who are you?" A spear appeared in the hand of the tentacle man.

"Ninth-grade divine weapon? Not bad."

The moment the young man spoke, the spear that was originally in the tentacle man's hand suddenly appeared in the young man's hand.

The tentacle man's face changed drastically. He didn't even have time to react before the spear in his hand had already passed into the hands of the young man in front of him.

"For a mortal to use a ninth-grade divine weapon is quite extravagant. I'm not the type to take it by force, so I'll return it to you."

The words fell.

The young man raised his hand and threw the spear.

The spear cut through the sky and flew towards the tentacle man.

The tentacle man tried to dodge, but found that all his magical powers, secret techniques, and skills had turned gray! !

Even the power of rules cannot be mobilized at all.

The body even lost the ability to fly and began to fall downwards.

But before he could begin to fall, the spear had already pierced his heart and pinned him to the surface of the moon.

"Look at you, you didn't catch the spear with your hands, you actually caught it with your heart."

"Pfft-"

The tentacle man pulled out the spear from his chest, and the translucent tentacles on his head dimmed at this moment.

"The power of rules."

"The art of seizing soldiers, silence, and Wudao. What is your relationship with the Evil Emperor Wudao?"

The tentacle man's face was extremely gloomy.

Silence and lawlessness are the more representative methods of the Evil Emperor. Naturally, their forerunners who came to Ragnarok before them had searched for some information.

"The Evil Emperor is unrighteous?"

"Have not heard."

The young man shook his head. As soon as he finished speaking, an evil aura emanated from his whole body.

"Oh, I see. That guy you mentioned is a talented young man from the Demon Clan."

"Junior?"

Hearing the young man's tone, the man with tentacles looked even uglier.

"You are not an adventurer from Blue Star!!"

"I wonder which powerful being of the evil race you are?"

"You are wrong. I am indeed an adventurer from Blue Star."

The words fell.

The young man took a step forward and came to the side of the tentacle man again.

"Your Alite Galaxy is sending trash like you to lead the charge?"

The tentacle man had an ugly look on his face, but before he could speak, a spear pierced his temple and came out from the ear on the other side, piercing through the tentacle man's head.

Chapter 1870 A great war broke out on the moon!

"After all, he's not a soldier. He actually got it wrong."

The spear that had originally returned to the tentacle man's hand appeared in the young man's hand again at some point.

Seeing this, the other two people's faces turned extremely ugly.

They wanted to run, but found it impossible to escape.

Because they are surrounded by lawless rules.

Without the blessing of Tao, it would be extremely difficult to escape from here.

"You are a powerful being of the Demonic Tribe. If you act like this, aren't you afraid that the Demonic Tribe will become enemies with our Alite Galaxy?!"

One of the remaining two spoke in a panic.

They originally came just to explore the situation and had no intention of fighting.

But as soon as I arrived, I encountered this monster.

"I said, I'm an adventurer, an adventurer from Blue Star."

The young man took another step forward, and the spear pierced through the left waist of the first person, penetrated his body, and then pierced the waist of the second person.

The remaining two people were skewered together like barbecued vegetables.

"You...who are you?"

Feeling his life slipping away quickly, the first person asked with some difficulty.

"You... don't deserve to know."

"If you want to know my identity, send someone powerful."

The young man drew back his spear, then swung it outwards, sending two heads flying.

"too weak."

The young man shook his head, his eyes fixed not far away.

There was already a new figure there.

"You are better than I thought." Lin Tianhao smiled.

From the moment this young man used Wudao, Lin Tianhao discovered the situation here.

then.

He witnessed the young man killing three people from the Alate Galaxy.

These three people are indeed not very powerful, but the opponent is indeed powerful to be able to kill them so easily.

"We can't really let you, Hao, carry the burden alone. We have to help you share some of it."

Glasses smiled and said:

"Let's go."

"I have mastered some pretty good rule powers. If we join forces, we should be able to hunt down some of the top masters in the Alet Galaxy."

As soon as Yan Jing finished speaking, Lin Tianhao stepped in front of him.

"Absolutely block!!"

The moment Lin Tianhao released the absolute block, a laser hit him.

"Get out of the way!!"

Lin Tianhao moved out instantly, but the laser did not stop. In just a breath, the moon was pierced by the laser.

"Something!"

Glasses raised his eyes and looked in the direction where the laser came from.

"There's really no death from this kind of sneak attack!!"

The words fell.

Yan Jing bit his finger and a drop of bright red blood floated in front of him.

He chanted a complicated spell, then pointed with two fingers, and the drop of blood in front of him instantly flew out and flew towards the depths of the starry sky.

"Boom boom boom..."

Missiles tried to block this drop of blood and kept bombarding it.

"They let these guys go ahead, probably to prepare for the mechanics unit in the rear."

Glasses said seriously, "If a large number of missiles were to rain down from the sky, it would cause great damage to the defense lines across Blue Planet."

Lin Tianhao frowned and said:

"Then destroy their mechanic unit."

Lin Tianhao stood on the moon, ready to take action at any time.

"It's also possible that they are trying to lure us in." said Yan Jing.

Lin Tianhao smiled slightly, "Then we will wait for them on the moon. If they come, we will fight them."

Just now.

A flying vehicle was parked not far away.

A robot walked out of the aircraft.

"Hello, both of you. I have been ordered to set up the testing station. I have no ill intentions."

Lin Tianhao frowned slightly. He didn't recognize this robot. "Who is your master?"

"Gui Ye Wuqing." The robot replied.

Lin Tianhao nodded slightly without saying anything.

At this moment.

Lin Tianhao slapped out with his palm in the air, and a figure was forced out from the void in front of him.

"This place seems nice too."

A cold voice sounded, and then a bird-like woman appeared not far away.

She flipped her palm and a Rubik's Cube appeared in her hand.

Lin Tianhao frowned slightly because he had seen the Rubik's Cube before.

He had been trapped by this Rubik's Cube before.

"Xuedi, do you recognize what I have in my hand?"

The words fell.

The magic cube in the bird-man woman's hand flew out, and a mysterious law fell, trying to trap Lin Tianhao in the magic cube.

Lin Tianhao used the power of the origin of space without hesitation and retreated at a high speed.

at the same time.

The arrows were shot from the heart and the heavenly punishment lock was launched together, and a large number of feather arrows locked the magic cube.

And right now.

Deep in the starry sky, a meteor shower fell.

Looking closely, it turned out that all the meteor showers were missiles.

Countless missiles fell from the sky.

They... they want to rain missiles down on the planet and raze it to the ground.

Lin Tianhao took another step forward and tried to leave.

But the surrounding space has been blocked.

"No morality is useless."

Glasses' expression changed slightly.

Lin Tianhao naturally knew this because it was Allens Roman who made the move.

The blockade of the original power of space is naturally useless.

Lin Tianhao took out a carving knife and cut open the blocked power of space origin.

at the same time.

Lin Tianhao's Heaven-Devouring and Earth-Devouring Power and his own spatial origin power were activated together.

He couldn't continue to get entangled with Aaron's Roman.

"Kill her!!"

While Lin Tianhao was taking action, he also communicated with Yan Jing.

Aaron's Roman is trouble.

The existence of the original power of space makes Aaron's Roman's limiting ability too high.

therefore.

Aaron's Roman is Lin Tianhao's first target now.

at the same time.

Lin Tianhao's Sky Punishment Lock had also locked onto those missiles and was continuously flying towards them.

"Boom boom boom——"

The arrow collided with the missile, causing the missile to explode prematurely.

The sky was filled with the sound of explosions.

The Rubik's Cube was still chasing Lin Tianhao.

But before the Rubik's Cube could catch up with Lin Tianhao, a light array fell, enveloped the Rubik's Cube, and then quickly crushed it.

After Lin Tianhao activated the Heavenly Thunder, he immediately activated Mantanghong.

When dealing with an expert, the severe injury effect is a must.

"I'll do it, and you stop these missiles."

There was a staff in the man with glasses' hand. As he swung the staff, rays of light fell, blocking all of Alans Roman's escape routes.

at the same time.

Above the sky, thunderclouds are rolling, and the divine thunder of heaven is ready to be unleashed.

"Fire Realm, open!!"

Lin Tianhao unfolded the realm of fire, and then used the Heart is One with Heaven and Earth.

The scope of the Fire Realm expanded hundreds of times in an instant.

Within the area covered by the Fire Realm, the missiles were detonated prematurely.

The violent roar could be heard by adventurers all over Blue Star.

Above the Blue Star.

After hearing the explosions, many adventurers looked up at the sky.

"It looks like a fight has already started. Judging from the sounds, it seems to be on the moon."

"The sound can be transmitted from the moon. The battle should have broken out for a while. We must hurry and enter Ragnarok."
