

## O games 1871

### Chapter 1871 The Limitation of the Power of Time!

Now that Ragnarok has merged with reality, the five senses of most adventurers have been greatly enhanced, so they can naturally hear these dense explosions on the moon.

"Who is fighting on the moon? If you don't know, please ask the summoners and mechanics in the group to investigate."

Xuan Mingyang sent a message in the group of experts.

At the same time, he also tagged several summoners and mechanics.

Gui Ye Wu Qing (Mechanic): "It's the Snow Emperor and the True God of Physics. The Alite Galaxy is attacking the Blue Planet with a dense rain of missiles. The two of them are currently on the Moon intercepting the falling missiles."

"I sent my robot over to set up the inspection table in advance, and it happened to run into them. This is the real-time image my robot transmitted back. You can take a look."

Gui Ye Wuqing (mechanic) sent a video link in the group.

When you click on the link, you will hear the sound of endless explosions.

Simultaneously.

There were bolts of lightning falling from the sky, striking towards a little girl.

The True God of Physics was fighting with the girl, while Lin Tianhao was preventing the missile from falling.

"It's not just our Dragon Country that has missiles falling. Missiles from other countries have also been dropped."

At this moment.

Someone sent a video in the group.

Missiles fell one after another, blasting deep craters on the ground. Tall buildings collapsed under the bombardment of missiles, raising dust.

"The top adventurers from every country have taken to the skies to stop these missiles from falling."

When Xuan Mingyang saw this news, his expression changed slightly.

"This could be a way to lure the snakes out of their holes. A large number of experts are leaving their territories and emerging, making them easy targets."

After having this thought in mind, Xuan Mingyang immediately sent a message in the Blue Star Alliance group, reminding that it might be a plan of the Alate Galaxy to lure the snake out of its hole.

After seeing what Xuan Mingyang sent, many people withdrew their masters and instead sent some adventurers around the seventh level into the air to block it.

As long as there are more of them, the missiles can still be stopped.

A gorgeous and special fireworks show started in the sky above the blue planet today.

Explosions continue to occur across the entire blue planet.

Blue star, outside the atmosphere.

One after another, adventurers of around the seventh level arrived here and detonated the missiles outside the atmosphere.

Although some missile debris will fall down, the damage caused is obviously much smaller.

at this time.

Allens Roman was beaten back step by step by physical attacks.

"What kind of monster are you?!"

Allens Roman began to doubt his own understanding.

Because the glasses not only have silence and lawlessness, but also several kinds of original power.

Coupled with Lin Tianhao's Mantanghong and Tiandao Divine Thunder, her current condition can be described as very bad.

"I'm not playing anymore. This is really perverted."

Allens Roman used the power of the origin of space to forcibly break through the void and tried to escape.

But the next moment.

She was shocked to find that she seemed unable to leave this world.

at this time.

There were nine dark red nails nailed into her shadow.

These nails are wrapped in the powerful force of rules, which prevents them from leaving this world.

"help me!!"

Allens Roman let out a low roar and mobilized the original power of the space around him, trying to break free from these strange nails.

at the same time.

At least the birdman who attacked Lin Tianhao also flew down and attacked the man with glasses.

"This silence and ruthlessness is truly disgusting!!"

The birdman couldn't help but curse and attack. The two kinds of rule power were like a combination punch, making it difficult for them to exert their true strength.

Deep in the starry sky.

No more missiles fell.

But Lin Tianhao's expression became extremely serious.

Because he could feel that something big was coming.

Just as Lin Tianhao was thinking this, a jade bottle fell from the sky and exploded instantly not far from Lin Tianhao.

Followed by.

Lin Tianhao felt like he was stuck in a quagmire and his movements were slow.

"Xuedi, please be quiet for a while."

Lin Tianhao saw a middle-aged man who also had a Rubik's Cube in his hand.

Lin Tianhao wanted to dodge, but found that his body was extremely slow and it was too late to dodge.

The Rubik's Cube has already enveloped him.

Lin Tianhao had been trapped by this Rubik's Cube once before, and now he was trapped again, but he was not too panicked.

Mainly... the glasses are still here.

I am trapped, can I still escape safely?

"run!!"

"I'll be fine!!"

Lin Tianhao sent a message directly to Glasses.

The glasses are powerful, but these guys from the Alite Galaxy are also well prepared.

Once he breaks the Rubik's Cube, he can go back. But if he is not careful, he will end up here.

Yan Jing saw the message from Lin Tianhao and frowned slightly.

He raised his hand, and the Rubik's Cube that was originally in the middle-aged man's hand fell into his hand.

With another step, it turned into a stream of light and rushed towards the blue star.

at this time.

Lin Tianhao was inside the Rubik's Cube, still affected by that strange force, and his movements were extremely slow.

"Ding, you have absorbed special power, time comprehension +500, time resistance +100, free attribute points +10000."

.....

really.

The thing that made him so slow had to do with time.

"Brother Hao, I brought you out. How do we solve this Rubik's Cube?" Glasses sent a message to Lin Tianhao.

"Just break it." Lin Tianhao didn't expect that Glasses could actually get the Rubik's Cube that trapped him, so he would have less trouble.

"Chase?"

The birdman looked at the middle-aged man and did not act rashly.

The middle-aged man shook his head and said:

"This missile rain is just to test the strength of the Blue Star adventurers. There is no need to be so anxious."

"As for this True God of Physics, there wasn't much information about him before."

After Glasses left, Allens Roman finally got rid of the nails.

"Those guys from the Gulimu family are really useless. They didn't even find such important information."

The middle-aged man waved his hand. "It doesn't matter anymore. You guys are still too anxious. Don't forget our fundamental purpose."

"There are only so many people on Blue Star. Slowly, kill them all and you will naturally win."

Alans Roman frowned slightly, "What does your Excellency mean?"

"Don't get involved yourself all the time. You are all top masters, so you should act like top masters."

"The Huang Chi Tribe's Fifth Legion is about to enter the solar system. Our opponent is a world, not a Snow Emperor or some physical god."

Allens Roman hesitated for a moment, then said:

"But....."

"There's no need to worry about that. If the Snow Queen intervenes and stops the army when it attacks, that will be enough."

"There are indeed masters in the Galaxy World, but they are only a minority after all."

The words fell.

The middle-aged man shook his head and said, "Okay, let's go."

.....

Blue Star 510 Rift, in the super base.

The glasses shattered the Rubik's Cube and Lin Tianhao was able to escape.

But the force of time around him that slowed down his movements did not disappear.

Chapter 1872 Bloodline Talent, Body of the Beast God!

Lin Tianhao didn't think this was a bad thing. After all, he could use the Heaven-Devouring and Earth-Devouring Skills to devour the power of time and thereby strengthen himself.

Just as Lin Tianhao was absorbing the power of time, a surge of blood and energy suddenly surged in his body.

"Ding, it's detected that you have a special bloodline in your body, and the bloodline is awakening..."

Lin Tianhao was slightly stunned. He did have special blood.

Previously in Moyuan, Qinling Mountains, Lin Tianhao had awakened the dragon bloodline.

"Ding, you have awakened an unknown bloodline. The current awakening progress of the bloodline is 5%."

"Ding, you have obtained part of the bloodline talent, the Beast God's Drive."

Beast God's Body: Unknown.

Effect 1: When you take an attack, your ten basic attributes will be permanently enhanced. The enhanced value is related to the actual damage you take. When the damage you take is low, you will not get any attribute enhancement. The closer the damage you take is to the death line, the more attribute bonuses you will get.

Effect 2: Not yet enabled (needs to increase bloodline awakening to 10%)

Effect 3: Not yet enabled (needs to increase bloodline awakening to 15%)

Effect 4: Not yet activated (needs to increase bloodline awakening to 20%)

Cooling: None.

Cost: None.

Proficiency: Cannot be upgraded.

Lin Tianhao narrowed his eyes slightly.

This... this bloodline talent seems a little too heaven-defying.

Lin Tianhao took out the Book of Life and Death and wrote his name on it.

Lin Tianhao wanted to see how much of an increase in all his attributes he could get under this situation.

however.

Even the Book of Life and Death,

-112 trillion.

-112 trillion.

.....

Damage numbers began to appear above Lin Tianhao's head, and the values were very high.

But it has little effect on Lin Tianhao's health bar.

Lin Tianhao discovered that all his attributes were indeed beginning to increase.

However, the increase in the ten basic attributes each time is less than the bonus of 0.1 free attribute points.

"Is this because the damage taken is too low?"

More than one hundred trillion in damage is very, very high.

But compared with Lin Tianhao's health, this damage is indeed not worth mentioning.

Lin Tianhao took out the second book of life and death and wrote his name on it.

This time.

Each time Lin Tianhao increases his attributes, it is roughly equivalent to a bonus of 0.2 free attribute points.

then.

It's the third one.

When the name was written on the third book, there was still not much change.

It only increased by 0.1.

Lin Tianhao wrote his name on eleven books of life and death in succession.

This time.

Lin Tianhao found that the effect was much more obvious.

Before, the increase was only a few tenths of a percent, but after Lin Tianhao wrote eleven books, the increase reached five free attribute points per second, and each of the ten basic attributes received a bonus of five free attribute points.

"It seems so."

"The damage you take needs to pose a certain threat to you in order to get a significant bonus. For ordinary damage, or damage that has little impact on your health bar, the bonus will either be zero or negligible."

With some consideration in mind, Lin Tianhao also began to pay attention to his own bloodline.

The current awakening progress is five percent.

More importantly...his bloodline doesn't seem to be the so-called dragon bloodline!

This was determined to be an unknown bloodline, and his own bloodline talent had little to do with dragons.

what is this?

Lin Tianhao is not quite sure.

just.

The talent of this beast god's body is also outrageous. Among the four effects, only the first one is useful, and the rest require the awakening of bloodline.

Besides.

Lin Tianhao also discovered a problem, that is... even if all the effects of the Beast God's body were awakened, it would only require 20% of the blood awakening degree.

And the previous hint also said that he had only awakened part of his bloodline talent.

Does this mean...his bloodline talent will be the same as his talent and can be awakened multiple times?

When the bloodline awakening degree reaches 25%, will he awaken a second bloodline talent?

The super god-level talent in Ragnarok, and now, his so-called bloodline talent.

They are all so strong that it is unreasonable.

Now he has eleven books of life and death locked on himself, and the improvement he gets in one second is equivalent to fifty free attribute points.

It is equivalent to a bonus of more than four million free attribute points per day.

The key is.

Eleven books of life and death locked his head at the same time, but Lin Tianhao lost less than 1% of his health per second.

The physical transformation and various damage reduction effects make the actual damage Lin Tianhao will suffer much lower than before.

If the damage he takes continues to increase, this value will increase further.

Then.

It is possible for him to get a bonus equivalent to tens of millions of free attribute points in a day.

Both talents, inside and outside the game, are extremely powerful.

There is also the relationship between his sister and the Lord of Qingtian Source.

And that woman at the mine, who was probably from the Eternal Realm, the one who said she saved her husband...

Lin Tianhao's mind began to wander uncontrollably.

On his body.

What secrets are hidden?

Shaking his head, Lin Tianhao forced these thoughts down.

In any case, this bloodline talent can be considered a pleasant surprise.

As for continuing to awaken the bloodline...

in the past.

After Ragnarok merged with reality, he had no reminder of his bloodline awakening.

But in this life there is.

It shouldn't be his growth during Ragnarok.

But...Qinling Moyuan!

Back when they were in Moyuan, Qinling Mountains, Zhang Linglong took him to test the dragon stone to awaken his bloodline.

Although the dragon-testing stone did not shine at that time, it was cracked.

and.

The dragon ball in the dragon-testing stone also flew into his brow.

and so.

It was at that time that he awakened 5% of his bloodline.

Then the problem is coming.

Was this 5% of his awakening due to the Dragon Stone or the Dragon Ball?

Beneath the Mo Yuan, is there a Dragon Stone? Or perhaps... a Dragon Ball?

There should be dragon balls, but the dragon-testing stones are probably gone.

If I have time, I will go to Mo Yuan again. What if there is still a dragon-testing stone?

But these are things that will happen later.

Now we still have to defend against the attack from the Alate galaxy.

In the previous life, the attack from the Alate Galaxy was not fierce, but in this life, due to his own reasons, the Alate Galaxy should send more masters over.

"Shhhhhh-"

Just now.

The ten statues that Lin Tianhao placed in the Heart Demon Ancient City moved at the same time.

Feather arrows cut through the sky and flew into the distance.

"here we go again."

Lin Tianhao didn't move this time.

If those guys from the Alet Galaxy invade the Milky Way world, it will definitely not be enough for him to rely on himself.

He can't do everything himself.

What he has to do is to sit at the center and be ready to support those positions that can't hold on.

The top leaders of Dragon Country, or to be more precise, the Blue Star Alliance, also made the same arrangement.

Arrange the masters in Fan Palace. If any position can't hold on, these masters can provide support at the first time through the teleportation array placed by Lin Tianhao in Fan Palace.

Chapter 1873 Lao Wang lives next door!

The attack of the ten statues lasted for a minute and then stopped. Either those guys from the Alet galaxy were destroyed, or they had already hidden themselves.

Next.

Lin Tianhao started to clear the dungeon.

Because his skill is killing, he is required to kill 100 million lives every month.

Now that the army of the Alet galaxy has not arrived yet, the fastest way for him to kill monsters is to do dungeons.

Brush those super large copies.

In the super-large copy of Ragnarok, the number of wild monsters ranges from tens of thousands to more than one million.

Lin Tianhao was currently clearing a dungeon called Tomb of the Spider King.

The dungeon level is only 2,000. If you choose the hell level difficulty, the number of spider monsters in the dungeon will exceed one million.

Dungeons like this are basically played by groups of hundreds or even thousands of people.

but.

For Lin Tianhao, this was no pressure at all and he could easily crush it.

If you clear this dungeon a hundred times, the goal of killing 100 million lives will be achieved.

Although Lin Tianhao has a boundary and the killing speed will be faster than the feather arrow attack, Lin Tianhao still chose the feather arrow attack.

Because Lin Tianhao still needs to upgrade the star level of the Hand of Heavenly Punishment.

Although methods such as the Hand of Heavenly Punishment and the Heavenly Punishment Headlock are no longer very effective against truly powerful opponents.

But Lin Tianhao still didn't intend to give up on upgrading the Hand of Heavenly Punishment.

Once, twice, three times...

Lin Tianhao continued to clear the Spider King's Tomb, and the number of wild monsters killed by Lin Tianhao increased.

This process is stress-free.

During this process, Lin Tianhao also paid attention to the Ragnarok forum.

Because the current situation of major defense lines around the world can basically be seen on this forum.

The process of killing monsters did not affect Lin Tianhao's understanding of the current global situation at all.

Blue Star currently establishes its territory centered around space rifts, and most other areas have been abandoned.

Almost all the population gathered inside and outside the space rift.

What Lin Tianhao saw on the forum was mostly news about the mutations of birds and beasts on Blue Planet.

Many birds and beasts have undergone mutations and become like wild monsters.

With experience in dealing with wild monsters, it was not difficult for them to deal with these mutated birds and beasts.

There are not many places on the Blue Planet that have been raided by the Alet Galaxy.

It seems that the Alete Galaxy is just a common sense attack.

Lin Tianhao sent a message to Taoist Master Ye Xin, asking him about the matter of testing the dragon stone.

Are there other places on Blue Star with dragon-testing stones?

Originally, Lin Tianhao just asked casually, but the ambitious Taoist gave Lin Tianhao an affirmative answer.

"Xue Di, there are nine dragon-raising families that I know of. You should have known some of them from your time in Mo Yuan."

"As far as I know, the nine major dragon-raising families should all have dragon-testing stones."

After hearing the answer from the ambitious Taoist priest, Lin Tianhao couldn't help but show joy on his face.

"Could you recommend one or two? I need to find a dragon stone and dragon ball to try."

Taoist Master Ambition pondered for a moment, "Xue Di, the Dragon Stone is a treasure to the dragon-raising family. You destroyed the Zhang family's Dragon Stone in Mo Yuan before, which really hurt the Zhang family."

Lin Tianhao smiled bitterly and said slowly:

"It was purely an accident."

Taoist Master Mo Xin hesitated for a moment, then said, "Wang Chongfeng is also from a dragon-raising family, so he should know something."

"it is good."

Lin Tianhao immediately made a voice call with Wang Chongfeng.

In order to help Wang Chongfeng materialize something, Lin Tianhao also added Wang Chongfeng as a friend.

Wang Chongfeng's voice call was quickly connected.

"Boss Xue Di, what can I do for you?" Wang Chongfeng's polite voice sounded.

"Do you know where your Wang family's dragon-testing stone is?" Lin Tianhao asked straight to the point.

"what....."

Wang Chongfeng was shocked.

"Dragon testing stone? I don't know about that either. After all, our Wang family has been raising dragons for a long time."

"Later, the Wang family moved to Aolong Village as a whole. I don't know if the Dragon Stone was also moved with them."

Lin Tianhao frowned slightly, "Do you know but don't want to say it, or do you really not know?"

Wang Chongfeng hesitated for a moment, "I really don't know, but I know someone who knows."

"Who?"

Wang Chongfeng didn't waste any time and directly recommended a friend to Lin Tianhao.

【Lao Wang lives next door】

When Lin Tianhao saw this name, he looked strange.

This name is really memorable.

After adding a friend, the other party accepted it quickly.

It is estimated that most of the adventurers on Blue Star are now guarding their positions, waiting for the attack from the Alet Galaxy.

Therefore, you can see the message sent by Lin Tianhao at the first time.

"Master Xuedi, I've long heard of your great name."

After getting in touch with friends, the other party took the initiative to say hello.

"Wang Chongfeng recommended you to me. He said you knew about the Wang family's Dragon Stone."

Lin Tianhao still directly expressed his need for the dragon-testing stone.

then.

The other party has not responded.

Lin Tianhao frowned and asked another question.

"Ding, the other party is no longer your friend. Please add them again before chatting."

Lin Tianhao: ???

Lin Tianhao's mouth twitched. Could he... blame himself?

I just asked about the dragon stone, there's no need to delete myself.

Lin Tianhao added the other party again.

The other party agreed.

Then a message was sent immediately.

"Boss Xue Di, it's a misunderstanding, I clicked the wrong button." Lao Wang, who lives next door, immediately sent a message.

Lin Tianhao frowned slightly and said calmly:

"I don't mean any harm, don't panic."

Lao Wang, who lived next door, immediately replied to Lin Tianhao's message.

"Xue Di, even if others don't know that you blew up the Zhang family's Dragon Stone, I still know it."

"The Dragon Verification Stone is our Yanglong family's most precious treasure. You can't say that. The Dragon Verification Stone is our Yanglong family's most precious treasure related to inheritance. If we give the Dragon Verification Stone to you, our Yanglong Wang family will basically be ruined."

Lin Tianhao also knew this guy's concerns and replied:

"Now that Ragnarok has merged with reality, raising dragons is not an option, but doing other things is pretty impressive."

"If I really destroyed the Dragon Stone for you, I will definitely compensate you in other ways."

Lin Tianhao was serious and he was not joking.

"I know, Master Xuedi, please be considerate of us. The Dragon Stone is something that has been passed down from generation to generation. If it is destroyed in the hands of our unfilial descendants, how will we explain it to our ancestors when we die?"

Old Wang, who lived next door, also started complaining to Lin Tianhao.

"Also, due to some reasons, we couldn't continue raising dragons before. But now that Ragnarok has merged with reality, the world of Blue Star seems to have undergone some changes. We can continue raising dragons again, so..."

"I may have to deny your request, Boss Xuedi."

Chapter 1874 Bloodline Awakening Degree: 10%!

"If the dragon stone doesn't work, can the dragon ball be used?" Lin Tianhao asked.

Lao Wang lives next door: "..."

"The dragon ball is inside the dragon stone. If you want the dragon ball, don't you have to break the dragon stone?"

Lin Tianhao was a little surprised and asked:

"You raise dragons. After the dragons are raised, won't dragon balls be born?"

Old Wang lives next door: "That's true, but when a dragon grows into a divine dragon, all the demon cores condense in its body. Only after it has passed the thunder tribulation and been baptized by heaven and earth can it create a dragon ball."

Lin Tianhao suddenly thought of Hei Tian Aozhen.

Talk about it.

Hei Tian Ao Zhen is a black dragon that has reverted to its ancestral form. Although Hei Tian Ao Zhen has not become a god, he may have a dragon ball in his body.

only.....

If I take away Hei Tianaozhen's dragon ball, it will have a huge impact on Hei Tianaozhen.

really.

Before Lin Tianhao could go find Heitian Aozhen, Lao Wang, who lived next door, sent a message to Lin Tianhao.

"Master Xuedi, the Dragon Ball is the foundation of the Dragon Clan. Taking the Dragon Ball is equivalent to ruining his lifelong cultivation."

"At the very least, one's cultivation will be completely lost and one will be reduced to their original form. At the worst, one's life will be in danger."

Lin Tianhao hesitated for a moment and said:

"The time and energy required to raise a dragon is incalculable."

"I heard that you raise dragons for a hundred years at the fastest, a thousand years at the slowest, or even longer. In this case, what's the point of raising dragons?"

"Boss Xue Di, I know everything you said, but it is hard to go against our ancestors' teachings." Old Wang, who lives next door, still refused to give in.

Lin Tianhao's eyes narrowed slightly as he said, "Zhang Linglong of the Zhang family wanted to open the Dragon Testing Stone and obtain the Dragon Pearl inside."

"It means that the dragon ball in the dragon-testing stone is what your family wants."

Lao Wang, who lives next door, replied after a while:

"Boss Xuedi, the matter of the Dragon Stone is of great importance. I can't decide on my own."

"I need to discuss this with some elders in the clan."

"it is good."

Lin Tianhao didn't expect to get the Dragon Stone with just a few words.

it's here.

Lin Tianhao kept scrolling until the next morning.

"Finally enough is enough."

Killing the 100 million creatures can be done by just clearing a few copies, which is quite easy.

The next step is to devour the evil energy in your body, which does not take too long.

During this day and night, the Blue Star's defense line was not attacked by the Alet Galaxy.

Such calm also provided the Blue Star Alliance with ample preparation to improve its defensive positions.

On the next morning, Lao Wang, who lived next door, replied to Lin Tianhao to discuss marriage.

"There's no problem testing the dragon stone, but we need three living dragon eggs."

Lao Wang's request to live next door was not too much, but it would take them thousands of years to raise a dragon, and now asking for three dragon eggs would save them a lot of time in raising the dragon.

and.

Although dragon eggs are a whole in Ragnarok, they are not completely absent.

The vast and boundless palace originally had a small number of dragon eggs and dragon caves.

Lin Tianhao explored the dragon cave and also obtained a small number of dragon eggs.

Now I can give it.

But the problem is.

If I give the other party three dragon eggs, what about the dragon-testing stones of other dragon-raising families?

If three dragon eggs are also needed, then he won't have enough dragon eggs.

unless.

Continue exploring the Dragon Cave.

Previously, Lin Tianhao felt that the gains from exploring the Dragon Cave were not that great, so he gave up on continuing to explore the Dragon Cave.

If you want to test the dragon stone, you can also explore the dragon cave.

The premise is.

This dragon-testing stone can really help him awaken his bloodline talent.

So want to write.

Lin Tianhao still agreed.

"Okay, let's trade as soon as possible." Lin Tianhao said.

Lao Wang, who lives next door, directly sent a coordinate to Lin Tianhao.

"The Dragon Stone is quite special. After Ragnarok merged with reality, we placed it in the Mountain and Sea Empire."

Lin Tianhao took a step forward and arrived in front of a small building in the imperial capital of the Shanhai Empire.

"Boss Snow Emperor."

Lao Wang who lives next door is a shield warrior, the same profession as the fat man.

"The dragon stone is inside."

Old Wang, who lived next door, was not worried at all that Lin Tianhao would snatch his Dragon Test Stone. He took Lin Tianhao directly into the small building. In the basement, Lin Tianhao saw the Dragon Test Stone.

The appearance of this dragon-testing stone is exactly the same as the one Zhang Linglong took him to test, and there is nothing special about it.

"Where did you get this dragon-testing stone?" Lin Tianhao asked.

"A long time ago, our family's records say that a divine dragon fell, and its flesh and blood fused with the dragon ball, eventually forming this dragon-testing stone."

Lin Tianhao stepped in front of the Dragon Testing Stone and, imitating what he did last time in front of Mo Yuan, raised his hand and placed it on the Dragon Testing Stone.

Just like last time, the dragon stone still did not respond.

then.....

"Kaka...kaka..."

Still the same as last time.

Cracks began to appear on the dragon-testing stone, and then the dragon-testing stone shattered.

Lin Tianhao observed his changes carefully.

The result is... no change.

The Dragon Stone is not the key to awakening the bloodline, but the Dragon Ball is?

Just now.

The dragon ball in the dragon-testing stone flew up into the sky and then rushed into Lin Tianhao's brow at an astonishing speed.

"Ding, you've gained Dragon Ball bonuses: Wind Insight +100 million, Water Insight +100 million, Health +100 billion, Armor +5 million, Magic Resist +5 million, Attack Damage +10 billion, Spell Power +10 billion, Attack Speed +10, Movement Speed +30, Critical Hit Chance +50%, Magic Penetration +30%, Armor Penetration +30%."

Lin Tianhao: ???

That's not right! !

Didn't I already get a dragon ball before?

Why is there no such prompt?

Could it be that it was because he had merged with the Dragon Ball at that time and obtained the so-called dragon inheritance, which greatly enhanced his physical strength? That was the power of the Dragon Ball.

He has gained the power of the Dragon Balls to the point where he now has no Dragon Ball power.

"Ding, you have obtained the power of a true dragon, activating the bloodline in your body, and your bloodline is awakening..."

"Ding, you have awakened part of your bloodline. Current bloodline awakening degree: 10%."

it works! !

Lin Tianhao looked delighted.

The dragon balls were useful, which meant he could follow the same method and go to other dragon-raising families to look for dragon balls.

and.

This time, Lin Tianhao's guess was verified, that is, it was not the dragon stone but the dragon ball that awakened his bloodline.

This means that as long as he has the Dragon Balls, he can continue to awaken his bloodline.

"Let me see what the second effect of the Beast God Body is."

Beast God's Body: Unknown.

Effect 1: When you take an attack, your ten basic attributes will be permanently enhanced. The enhanced value is related to the actual damage you take. When the damage you take is low, you will not get any attribute enhancement. The closer the damage you take is to the death line, the more attribute bonuses you will get.

Effect 2: The lower your health is, the more your other nine attributes except health will be temporarily increased. When your health is reduced by %, the other nine basic attributes will be temporarily increased by %.

When the health value is less than or equal to 30%, the effect is doubled. For example, when the health value is 25%, the other nine basic attributes will receive a double increase, that is, a temporary increase of 150%.

Effect 3: Not yet enabled (needs to increase bloodline awakening to 15%)

Effect 4: Not yet activated (needs to increase bloodline awakening to 20%)

Cooling: None.

Cost: None.

Proficiency: Cannot be upgraded.

Chapter 1875 More advanced dragon balls!

This effect 2 is obviously not as strong as effect 1.

Effect one permanently increases the ten basic attributes when taking damage, while effect two only temporarily increases them.

This kind of amplification BUFF can be achieved by some priests, sorcerers, and formation masters.

can only say.

This effect is better than nothing. It's not strong, but it's still useful.

"Thank you very much."

Lin Tianhao bowed to Lao Wang who lived next door, and then took out three dragon eggs.

These are the dragon eggs he obtained from the dragon cave. They are not of much use to Lin Tianhao, so it's okay to give them to them.

When Old Wang, who lived next door, saw the dragon egg that Lin Tianhao took out, he showed excitement on his face.

Dragon Egg!!

Real dragon eggs!!

For their dragon-raising family, it is of extraordinary significance.

So.....

It's time to find the next person.

Lin Tianhao found Taoist Master Ye Xin and asked him to recommend the contact information of the remaining few people from the dragon-raising families.

In addition to the Zhang family and the Wang family, there are seven other families.

The ambitious Taoist priest still had connections and quickly recommended seven people to Lin Tianhao.

Lin Tianhao added them one by one, and then stated his purpose directly.

When these seven people from dragon-raising families knew Lin Tianhao's purpose, they were quite resistant to him.

after all.

No one would be happy if something that has been passed down in the family for thousands or even tens of thousands of years was targeted by someone else.

Lin Tianhao was not in a hurry. He took a step-by-step approach and soon convinced the other family.

The dragon-raising family, the Zhou family.

The attraction of the three dragon eggs cannot be underestimated.

Lin Tianhao had just arrived at the Zhou family, and the Li family and the Ye family also agreed.

Zhou family.

The person in charge of receiving Lin Tianhao was a female summoner named Youwei Ailon.

Lin Tianhao didn't exchange too many pleasantries with her, but went straight to the point.

In front of the Zhou family's dragon stone.

Lin Tianhao put his hand on it.

Familiar formula, familiar process, and no surprises. Lin Tianhao heard the prompt sound.

"Ding, you've gained Dragon Ball bonuses: Wind Insight +100 million, Fire Insight +100 million, Health +100 billion, Armor +5 million, Magic Resist +5 million, Attack Damage +10 billion, Spell Power +10 billion, Attack Speed +10, Movement Speed +30, Critical Hit Chance +50%, Magic Penetration +30%, Armor Penetration +30%."

The only change in the bonus is that the water attribute enlightenment is changed to fire attribute enlightenment.

The values for other bonus categories are exactly the same.

There is no suspense about the subsequent bloodline awakening.

Lin Tianhao's blood awakening degree increased from 10% to 15%.

The whole process was easier than Lin Tianhao had imagined.

"Here are three dragon eggs. Thank you very much." Lin Tianhao bowed to Youwei Ailong, then said goodbye and left.

Li family.

It's still the familiar recipe, still the familiar process.

Get the Dragon Ball.

The Li family's dragon ball bonus does not include wind-attribute enlightenment, but water-attribute enlightenment and fire-attribute enlightenment.

From this perspective, apart from some changes in the perception attribute, everything else should be similar.

After leaving the Li family, Lin Tianhao's blood awakening degree had reached 20%.

The four effects of the Beast God's body were finally all activated.

Everything went very smoothly.

Lin Tianhao didn't waste any time and went directly to the Ye family's base in the Shanhai Empire.

Same as before, familiar recipe, familiar process.

This time it is the thunder attribute enlightenment and the fire attribute enlightenment.

wrong.....

After receiving the hint about Dragon Ball, Lin Tianhao was a little dumbfounded.

Because the prompt for bloodline awakening did not appear.

No way.....

Lin Tianhao waited for a long time, but still no prompts came.

His bloodline awakening degree is still 20%.

This is a bit of a headache.

"Could it be that, like my talent, after awakening to a certain level, I need a higher-level talent awakening stone? It's the same here. I need a higher-level dragon ball to continue awakening my bloodline?"

Lin Tianhao thought secretly.

This probability should be there and it will not be low.

and.

The awakening degree of his bloodline has reached 20%, and the effect of the beast god's body has been fully awakened.

Does that mean that if he continues to awaken his bloodline, new bloodline talents will emerge?

Then the problem is coming.

Is it necessary for him to continue exchanging dragon balls and dragon-testing stones from other dragon-raising families?

Although the dragon balls have brought significant improvement to Lin Tianhao, Lin Tianhao still feels that it takes three dragon eggs to exchange for one, and the gap is a bit too big.

Lin Tianhao felt that it was worthwhile to be able to awaken his bloodline, but what if it only increased his comprehension and basic attributes?

Lin Tianhao's Swallowing Heaven and Devouring Earth can do all of this.

But Lin Tianhao only hesitated for a second before deciding to continue the exchange.

Because the nine dragon-raising families should not have the same level of dragon balls, maybe... he could encounter a higher level dragon ball.

but.

Now he may have to go explore the dragon cave again. The current dragon eggs are not enough to support Lin Tianhao to exchange for their dragon balls.

Thinking like this.

Lin Tianhao began to explore the dragon cave according to the list given by Berserker Blade.

For three consecutive days, Lin Tianhao explored the dragon cave and did not encounter any major trouble.

These three days went very smoothly.

Lin Tianhao gathered all the remaining dragon eggs that could be exchanged for dragon-testing stones.

Next.

It's time to verify his idea.

There are four left.

Lin Tianhao tried one company after another.

at last.

When it came to the eighth house, the increase in Dragon Balls had obviously increased significantly.

"Ding, you've gained Dragon Ball bonuses: Wind Insight +500 million, Thunder Insight +500 million, Health +500 billion, Armor +25 billion, Magic Resist +25 billion, Attack Damage +50 billion, Spell Power +50 billion, Attack Speed +30, Movement Speed +90, Critical Hit Chance +80%, Magic Penetration +60%, Armor Penetration +60%."

All values have been improved, which means that the dragon balls of the Gu family are of higher level than those of other families.

But the result is...no change at all.

Lin Tianhao's bloodline did not awaken further.

"Is the direction wrong?" Lin Tianhao frowned.

"Or is it that the Gu family's dragon ball is still not of sufficient quality?"

It's more troublesome now.

The dragon egg is small, and the bloodline cannot continue to awaken, which is a big problem.

Anyway, the dragon eggs have been obtained.

Lin Tianhao still exchanged the last dragon-testing stone and dragon ball from the dragon-raising family.

The result was the same, the bloodline did not awaken further.

He seemed to be stuck here.

"It still doesn't work after all."

Lin Tianhao was a little disappointed.

At this moment.

The dragon-raising family in front of him, the solitary dragon Wentian of the Long family, seemed to have seen Lin Tianhao's mood and spoke calmly:

"Boss Xuedi, you're looking for the Dragon Stone because of the Dragon Ball inside it, right?!"

Chapter 1876 Wrong direction, change strategy!

Upon hearing this, Lin Tianhao nodded slightly to Gulong Wentian.

"good."

"Snow Emperor Boss has a special bloodline. He can shatter the Dragon Stone just by touching it. I boldly guess that Snow Emperor Boss must possess some very, very high-level dragon bloodline."

"This dragon bloodline requires the awakening of dragon balls, or it needs to be refined to be strengthened."

"That's why Boss Xuedi started exchanging large sums of money for Dragon Stones. To be more precise... Dragon Balls."

Lin Tianhao nodded slightly and said with a smile: "Basically correct."

these things.

As long as the people from the nine dragon-raising families are not fools, they can guess something.

Gulong Wentian glanced at Lin Tianhao meaningfully and said:

"The dragon ball within the Dragon Test Stone has consumed a great deal of its power over the years by helping people awaken their bloodlines."

"Compared to the real Shenlong Dragon Ball, it is somewhat inferior."

"Looking at the reaction of Snow Emperor Boss, I guess the dragon balls he got were not as good as he imagined."

Lin Tianhao smiled and said:

"Don't worry, I won't regret it."

"As long as you don't betray Blue Star, giving you the dragon egg is also helping Blue Star."

"We are a family that raises dragons. The dragon is the totem of our Dragon Nation. I still have a very high faith in the Dragon Nation."

Lin Tianhao did not comment. After all, when he was in Aolong Village, most of the dragon-raising families had their own little thoughts.

"The reason I say this is because... our Long family still has a dragon ball, a dragon ball of a very high level."

Hearing what Gulong Wentian said, Lin Tianhao's face showed surprise.

"Is this true?"

"really."

Gulong Wentian nodded gently, "There's no need for me to deceive Boss Xuedi about this matter."

"So what do you want?"

Lin Tianhao always believed that there is no free lunch in the world.

He took out three dragon eggs for the ordinary dragon balls himself. For the more advanced dragon balls, this lone dragon Wentian should have higher requirements.

"I don't intend to ask for any benefits from this dragon ball. Just consider it as a chance to make friends with the Snow Emperor."

"Our Long family is defending the Shenzhou 501 base, which is not far from the Blue Star 510 super base built by the Snow Emperor."

Lin Tianhao was slightly startled and said, "You don't actually have to make such a request. I will still help you if you are in trouble."

"Blue Star is now in the same boat, not to mention that we are all from Dragon Country."

Gulong Wentian shook his head and said:

"There are so many positions around the world. The Alet Galaxy hasn't attacked recently, probably because they're afraid of you, Boss Snow Emperor. They're probably waiting for the army to gather. By then, the army will attack hundreds or even thousands of spatial rifts at the same time. Even if Boss Snow Emperor wants to rescue you, you probably won't be able to do it."

Lin Tianhao hesitated for a moment and said:

"You want me to give you priority?"

"But you have to understand that I want to put the overall situation first."

Gulong Wentian was not surprised. "I can understand that. I just want to say that if possible, Super Base 510 can also become Super Base 501."

After hearing what Gulong Wentian said, Lin Tianhao fell into deep thought.

In this case, the distance between space rift 510 and space rift 501 is not too far.

Changing the location of the super base doesn't seem to have much impact.

"If you really have a particularly high-level dragon ball, I can agree." Lin Tianhao did not say anything definite.

Because he was not sure whether the dragon ball in Gulong Wentian's hand was really that high in level.

more importantly.

Lin Tianhao was not sure whether the dragon ball in Gulong Wentian's hand could help him awaken his bloodline.

"Don't worry, Boss Xuedi. It's great that the super territory can be relocated, but even if it can't be relocated, it doesn't matter."

"I only hope that Big Boss Xuedi can take better care of our Long family in the future."

That's it.

Gulong Wentian took out a fist-sized bead.

Lin Tianhao took the bead. Like other dragon balls, he seemed to have some connection with this dragon ball.

He just thought about it, and the dragon ball turned into a stream of light and rushed into his forehead.

"Ding, you've gained Dragon Ball bonuses: Wind Attribute Perception +1000 million, Fire Attribute Perception +1000 million, Health +1000 billion, Armor +50 billion, Magic Resistance +50 billion, Attack Power +100 billion..."

Gulong Wentian did not lie to him. The level of this dragon ball was indeed high, and the bonus was ten times that of an ordinary dragon ball.

Even compared to the Gu family's dragon balls, the bonus is twice as much.

Here comes the problem.

Even with such a high bonus, his bloodline still showed no movement.

If the Gu family's dragon ball only made Lin Tianhao guess in the wrong direction.

Now, this dragon ball of Gulong Wentian made Lin Tianhao almost certain that he was going in the wrong direction.

Lin Tianhao had this guess when he first awakened his bloodline talent [Beast God Body].

If his bloodline is that of the dragon clan, why isn't he the body of a dragon god?

A more advanced name could be something like "Ancestral Dragon's Body".

But the body of the beast god is more subtle.

In addition, even after using so many dragon balls, Lin Tianhao still failed to further awaken his bloodline, which further confirmed Lin Tianhao's guess.

"It seems that we still haven't achieved the goal of Boss Xuedi."

Gulong Wentian sighed helplessly.

Lin Tianhao bowed and said:

"Anyway, thank you very much."

Gulong Wentian shook his head and said:

"I'm sorry I couldn't help you."

Lin Tianhao smiled slightly, "Not bad."

The dragon ball could not help him awaken his bloodline, which made Lin Tianhao think of several other possibilities.

"You are a family that raises dragons. I wonder if you know of any families that raise other mythical beasts?"

"For example... White Tiger, Black Tortoise, Vermillion Bird, Qilin, Phoenix, etc."

Gulong Wentian was slightly stunned. He thought for a moment before saying:

"There are indeed some families that raise some strange beasts, but the Black Tortoise, the Vermillion Bird, the White Tiger..."

That's it.

Gulong Wentian seemed to have thought about it and said:

"Although there are no orthodox people who raise divine beasts, I know that there are a few guys who really have such old immortals."

"Old Immortal?"

Lin Tianhao frowned slightly, because such a name usually refers to the immortals worshipped by the Northeastern shamans.

"A horse-riding immortal?"

Lin Tianhao asked curiously.

"No, but it's almost the same. I'm not really sure whether it will work or not. I just know about them, but I'm not familiar with them."

"But... Director Zuo of the 749th Bureau should know them. You can go ask him."

Lin Tianhao nodded slightly. He did not go to find Director Zuo, but continued to look for Taoist Priest Motivated.

I told the ambitious Taoist priest about my thoughts.

After hearing what Lin Tianhao said, the ambitious Taoist priest was a little dumbfounded:

"Xuedi, you have dragon eggs. Can you share some with me? You're going to raise all nine dragon-raising families."

Chapter 1877 White Tiger Mountain Seal: Immortal Beast Soul!

"Senior Ambitious, I also have something to ask for, and you have to understand that I am not." Lin Tianhao said.

"just kidding."

"I'm not a summoner either, so there's not much use for me taking a dragon egg."

"I do know a little about what you said. There are some families similar to dragon-raising families on Blue Star."

"The more representative ones are the Northeastern Immortals, the Southern Beastmasters and the mountain dwellers."

"The situation of the Chu Ma Xian is not quite the same as what you said. There are people in the Beastmaster family who are close to this statement, but they are only close."

The words fell.

The ambitious Taoist priest recommended several people to Lin Tianhao.

"Xue Di, you can add these people to chat. The first two are from the Beastmaster family, and the last two are from the mountains."

"Before in Moyuan, you should know the basic information of the mountain people."

Lin Tianhao knew, but not much.

After adding these four people, Lin Tianhao began to wait.

The two people from the Beastmaster family quickly approved Lin Tianhao's request.

"Boss Xuedi, you are here for our Bai family's White Tiger Mountain Seal, right?"

The man from the Bai family, the beast-leading family, was straightforward and stated his purpose bluntly.

"That's about right. What I want is something similar to the dragon balls of the Dragon Breeding Family, something that can help people awaken their bloodline."

Bai Xiaodangjia said:

"Almost. Our Bai family relies on the White Tiger Mountain Seal to awaken the spirit, which is similar to awakening the bloodline."

"Speaking of which, our Bai family is somewhat similar to dragon-raising families. Our ancestors combined with divine beasts to give birth to us."

"It's simply because the spiritual energy of Blue Star has been depleted, and we have inherited many generations, so it is difficult to awaken the bloodline on our own. This is why the White Tiger Mountain Seal needs to be awakened."

"The same is true for the nine dragon-raising families. After the fusion of Ragnarok and Blue Star, spiritual energy has been restored."

"We no longer need the White Tiger Mountain Seal to awaken our bloodline."

"I think the same is true for dragon-raising families."

Lin Tianhao smiled and said:

"So, what you're saying is that after Ragnarok merged with reality, dragon-raising families no longer needed the Dragon Stone, and they... are just raising the price?"

"It may sound a bit divisive to say this, but it is indeed true." said Bai Xiaodangjia.

Lin Tianhao remained silent and said:

"According to what you said, can your Bai family's White Tiger Mountain Seal be given to me for free?"

"The Snow Queen is the key to saving the Galaxy World. It is our honor to be able to help the Snow Queen."

The words fell.

Bai Xiaodangjia initiated a deal with Lin Tianhao.

The item being traded was the White Tiger Mountain Seal.

So simple?

What Mr. Bai just said could easily create a rift between him and the nine dragon-raising families.

but.....

The words that Mr. Bai Xiao just used to sow discord were really too bad.

Lin Tianhao didn't care too much.

Instead, he took out the White Tiger Mountain Seal.

Next, it depends on whether this White Tiger Mountain Seal can also awaken one's own bloodline.

Holding the White Tiger Mountain Seal in his hand, Lin Tianhao immediately had the same mysterious feeling as the Dragon Ball.

He just thought about it, and the White Tiger Mountain Seal turned into a stream of light and flowed into his brow.

"Ding, you have obtained the White Tiger Mountain Seal, Gold Attribute Perception +200 million, Divine Attribute Perception +200 million, Health +500 billion..."

Lin Tianhao was not too excited, because at the moment, this reward was far from enough.

What he wants is blood awakening.

"Ding, congratulations, you have obtained the power of the White Tiger, and your bloodline is awakening..."

"Ding, you have awakened part of your bloodline. Your bloodline awakening degree is 25%."

"Ding, congratulations, you have obtained the bloodline talent: Immortal Beast Soul."

Immortal Beast Soul: cannot be upgraded.

Effect 1: Your soul power increases by 2.5 points per second, and the increase value increases with the increase of your bloodline awakening.

Effect 2: Not yet activated (activates when bloodline awakening reaches 30%)

Effect 3: Not yet activated (activates when bloodline awakening reaches 35%)

Effect 4: Not yet activated (activated when bloodline awakening reaches 40%).

Cost: None.

Cooling: None.

Proficiency: Cannot be upgraded.

This immortal beast soul, like the beast god's body, also needs the bloodline to continue to awaken before it can activate the subsequent effects.

The first effect of the immortal beast soul is somewhat similar to the provision from heaven and earth.

but.

This is not the most important thing.

The most important thing is that Lin Tianhao found a way to crack it.

The Dragon Ball awakened 20%, gaining a bloodline talent, and the White Tiger also began to awaken.

Does that mean that his bloodline awakening is related to the Azure Dragon, White Tiger, Vermillion Bird, Black Tortoise, and the mythical beast Qilin in the center?

The four divine beasts plus the Qilin make up his bloodline.

Judging from the current situation, he should be able to awaken five bloodline talents.

Lin Tianhao had not had time to check the awakening of the last two effects of the Beast God's Body before, but now he can take a look.

Beast God's Body: Unknown.

Effect 1: When you take an attack, your ten basic attributes will be permanently increased...

Effect 2: The lower your health, the lower the other nine basic attributes besides your health...

Effect 3: Your ten basic attributes will be permanently and automatically enhanced, equivalent to one free attribute point bonus per second.

Effect 4: When your health is below %, you will gain % damage reduction. When your health is below %, you will not be affected by control and serious injuries.

Cooling: None.

Cost: None.

Proficiency: Cannot be upgraded.

"This....."

Lin Tianhao was a little dumbfounded.

The last two effects seem to be a bit too strong.

The ten basic attributes are automatically increased.

Coupled with the nourishment from heaven and earth and the immortal beast soul, as long as he lives, he will eventually become invincible.

To be precise.

He went to the Stone Dragon Pagoda to practice and lay there for millions of years. When he came out, he might have become invincible in the world.

This effect is a bit too perverted.

Lin Tianhao once again thought of his possible parents.

His bloodline should be inherited from his father.

From a certain perspective.

His bloodline is strong, but it is unlikely to be stronger than that of his father.

It is similar to the dragon-raising family and the so-called Bai family.

As the generations of inheritance increase, their bloodline will become thinner.

In other words.

If it was his ancestor, then the effect of increasing the ten basic attributes might not be a free attribute point.

Maybe ten, or even a hundred!!

Plus this immortal beast soul!

With his soul and body growing together, his parents must have been incredibly powerful beings.

Some mysterious speculations once again flooded Lin Tianhao's mind.

But Lin Tianhao didn't dare to think about it.

His existence is so special.

His rebirth is so weird.

Lin Tianhao already had some guesses in his mind, but he didn't dare to think too deeply about it. He was afraid... afraid of knowing a fact that he was unwilling to accept.

Chapter 1878: Bai Xiaodang died and the army approached!

Lin Tianhao's thoughts were complicated and he couldn't calm down for a long time.

He didn't want to face it, but he still had to face it.

All signs indicate that his parents were not simple people.

Perhaps it is a powerful clan high above the gods, or it could be an ancient family in the endless starry sky.

Or maybe... he, like his sister Lin Qingqing, is the reincarnation of some super powerful being.

"No matter what happened in the past, I give it to Xue Di now."

Lin Tianhao's eyes became firm.

Past and present lives, everything in the past is not important to him.

Just like Lin Qingqing has a special relationship with Qingtianyuanzhu, it doesn't matter to Lin Tianhao.

Lin Qingqing is her sister, and this will not change because of her relationship with Qingtian Yuanzhu.

"Do you know if anyone else has something like the White Tiger Mountain Seal?" Lin Tianhao asked.

"There are eight Beastmaster families. But to be a bit arrogant, among these seven Beastmaster families, there probably isn't a single one that can produce a treasure as precious as the White Tiger Mountain Seal."

That's it.

Bai Xiaodangjia seemed to have thought of something and continued:

"But then again, they didn't originally have anything in the Eight Beastmasters' family, but after entering Ragnarok, maybe they will gain something."

"Among the eight great beast families, most people chose the summoner profession, and..."

"Master Xuedi, you should have discovered, like us, some ancient legends in reality that are related to Ragnarok."

"Therefore, some of our family's ancient summoning methods are also useful during Ragnarok, which makes us more powerful than most summoners of the same level."

Lin Tianhao pondered for a moment, "You mean, there will be something I want in Ragnarok."

"Correct."

Bai Xiaodang answered with certainty, "We, the eight great beast-raising families, have it, and the nine great dragon-raising families also have it."

Hearing that Master Bai Xiao mentioned the dragon-raising family again, Lin Tianhao couldn't help but ask:

"You seem to have a prejudice against dragon-raising families."

"Is there...a conflict between you?"

"Have."

Bai Xiaodang answered confidently, "We are all from the same circle. They raise dragons and have always looked down on us, the Beastmaster Family, thinking that the dragons we raise are inferior to theirs."

Lin Tianhao smiled and said, "Dragon breeders are somewhat arrogant, but this shouldn't be too much of a contradiction."

Bai Xiaodang nodded slightly and said:

"That's right. If it's just a verbal dispute, then it's nothing."

"But we all have to raise beasts. You may not be familiar with this, Snow Emperor, but you should know it, Summoner."

"Whether it's a summoner's summoning skills or training their own beasts, the more advanced they are, the rarer they are."

"Since we're all summoners, conflicts over these resources are inevitable."

"Before Ragnarok came, many of us died fighting for resources."

"After Ragnarok arrived, the number of deaths between us decreased, but the conflicts between us remained very serious. We often fought to the death over summoner skills and materials."

Lin Tianhao hesitated and said:

"But we now have a common enemy."

Bai Xiaodangjia said seriously:

"We have a common enemy. We, the eight great families of the Beastmaster, have stopped caring about it. We are just annoyed that they are using the Dragon Stone, which is no longer of much use to them, to blackmail you, Boss Xuedi."

"It's a normal transaction, there's no question of extortion." Lin Tianhao said lightly.

"If it were a normal time, of course it wouldn't matter. No matter how useless it is, it's still theirs."

"But now is an extraordinary time. Boss Xuedi, you are the key to fighting against the Alite Galaxy. I am furious that they are blackmailing you like this."

Lin Tianhao shook his head and said:

"Don't worry about it. What I'm more concerned about now is whether your Bai family has gained anything similar to the White Tiger Mountain Seal during Ragnarok."

"Have."

Bai Xiaodangjia nodded heavily, "But that thing is not in my hands. It was obtained by a cousin of mine. I have already asked for his opinion."

"It's troublesome." Lin Tianhao said.

As soon as Lin Tianhao finished speaking, the portrait of Bai Xiaodangjia dimmed.

See this scene.

Lin Tianhao's expression suddenly changed.

Now is the time when Ragnarok and reality merge, and there is no such thing as going offline.

If there is one, it is death!!

Bai Xiaodang is dead!!

Lin Tianhao took a step forward and arrived at the location of the super base.

The ten statues did not take any action and everything remained calm.

"Did anyone in the Alate galaxy just raid the defense line?" Lin Tianhao asked in the group.

"No feedback."

Someone in the group answered, it was Berserker Blade.

Lin Tianhao immediately found Taoist Master Zhixin and said, "I was just chatting with Master Bai Xiao, but he suddenly died. It's not certain whether it was someone from the Alet Galaxy who did it."

Uncertainty is what Lin Tianhao is most worried about.

Because just now, Bai Xiaodangjia gave him the White Tiger Mountain Seal and also told him that his cousin had a treasure similar to the White Tiger Mountain Seal.

This approach could lead to the killing of Bai Xiaodang from within the Bai family.

and.

Bai Xiaodangjia mentioned the conflict between them and the nine dragon-raising families, and the nine dragon-raising families might also be the ones who killed Bai Xiaodangjia.

"I just asked someone to ask, and Master Bai Xiao is indeed dead. He is not in the Bai family territory, but is hunting monsters in the wild."

"We're not sure who killed him yet, but in the past few days, many adventurers have been hunted down while farming monsters in Ragnarok. We suspect it's the masters of the Alet Galaxy who are specifically hunting us."

"We have currently asked adventurers to refrain from going out to hunt monsters."

Lin Tianhao frowned slightly. According to what Taoist Master Zhixin said, there was indeed a high probability that it was done by a master from the Alate Galaxy.

Thinking about it this way, maybe he was thinking too much.

"coming."

Just when Lin Tianhao was trying to find other members of the Bai family, a message suddenly came in the group.

Subsequently.

The video footage was sent out, and the picture showed outer space.

One after another, the warships rose from the void and appeared in outer space.

Xuan Mingyang: "This time it should be a large-scale attack. All defense lines must be prepared."

Subsequently.

Here the message is delivered.

All defense lines were placed on high alert.

Without waiting too long, these warships jumped again and arrived above the blue planet.

Inside the super base, ten statues fired arrows at the same time, sweeping towards the Alet army above the sky.

Lin Tianhao also saw the situation above and recognized the information of these troops.

Huang Chi Clan!!

The Huangchi tribe is huge in number, and in the previous life they were the main force of the Alite Galaxy's attack on the Blue Planet.

then.

A jaw-dropping scene appeared.

On top of the battleship, groups of small black dots surged out like a tide, rushing towards the various defense lines of Blue Star.

Chapter 1879 The first battle, heavy casualties!

Each of these little black dots is a member of the Huangchi tribe.

Before they got close to the defense line, laser cannons were fired at them from within the line.

There are also various powerful missiles and flame bombs.

These ordinary Huangchi people are not too powerful. Most of them are only around level 1,000 and their rank is not high.

"Boom boom boom——"

The roar was endless, and some Huangchi soldiers were injured and fell towards the blue star.

But there are still more soldiers rushing towards Blue Star.

Their first round of attack perfectly avoided the Dragon Kingdom and instead hit the defense lines of other countries.

Look.

They knew that Lin Tianhao was in charge of the Dragon Kingdom.

Lin Tianhao was looking at the live broadcast screen at this time. He chose the live broadcast content of the No. 691 space rift in Xiong Country.

Those Huangchi soldiers were just black dots at first, and then they grew bigger and bigger.

Followed by.

It's the "da da da" sound of breaking through the air.

Countless bullets fell from the sky, and missiles followed the missiles and bombarded the Blue Star's No. 691 defense line.

A large number of soldiers were recruited in each territory and began to take off to fight against the Huangchi tribe's army.

The battle started in the sky and soon returned to the ground.

The soldiers recruited in the territory were quickly killed, and the casualty rate of the Huangchi tribe's soldiers was also not low.

This is also thanks to Lin Tianhao. After all, if it weren't for Lin Tianhao, most of the adventurers in Ragnarok would not be as strong as they are now.

of course.

Now the adventurers have not left the territory to fight, and most of them stay in the territory to output.

But as the barracks recruited more and more soldiers, the adventurers from Blue Star had to take action.

This kind of life-and-death fight is too much of a shock for the adventurers of Blue Star.

After all, there is a clear gap between being unable to resurrect and being able to resurrect.

There are also experts in the Huangchi tribe's army.

When the adventurers began to act, the masters of the Huangchi tribe's army also began to act.

Adventurers were killed one after another. It was almost a battle of life for life.

The Huangchi tribe's army was fearless and undaunted, or... as the vanguard, they already knew their fate.

But they had no way to retreat. Either they broke through the defense line or they were killed.

Lin Tianhao watched quietly.

In just such a short period of time, the number of adventurers who died in the position of Blue Star No. 693 Space Rift that he saw exceeded three hundred.

And this number continues to rise with the fighting.

There are two hundred and eight space rifts on Blue Star.

Even if the 208 space rifts on Blue Star were not attacked by the Huangchi army, the number of defense lines attacked in other countries was no less than 1,000.

If an average of 300 people died on each line of defense, then... in just this short period of time, 300,000 adventurers had already perished on Blue Star.

This... is truly a meat grinder.

Because the Huangchi army and the adventurers had been fighting for less than twenty minutes.

This battle did not last too long.

About an hour later, the Huangchi army began to retreat.

The battle is over.

Many positions began to rest and recuperate, and at the same time, they began to count casualties.

As the casualty figures were tallied and published on the Ragnarok forum, there was an immediate uproar.

There are 79596 death risk takers in the United States.

85213 adventurers died in the Bear Country.

Australian Death Adventurer 37512.

.....

The death tolls were counted one by one, and finally, a final number was calculated.

The battle lasted only one hour and twenty-three minutes, but the death toll from Blue Star adventurers reached 615,559!

This is so sad!

They blocked the first attack.

But this loss is a bit too great.

Although some adventurers have not yet adapted to the reason why they cannot be resurrected.

But such casualty figures are still somewhat shocking.

If so many people died in one attack, how many times could they withstand it?

Outer space!

On a huge starship, Huang Chi Longfu, commander of the Huang Chi tribe's Fifth Legion, had a gloomy expression on his face.

"Those ten statues are a bit too much of a hindrance. We didn't attack the Dragon Nation, but those ten statues are still attacking our army from a distance."

Alans Roman frowned and said:

"Those ten statues are indeed a bit troublesome. We don't have many masters in the Galaxy World right now."

"If we go there, we may not end up with anything good."

Allens Roman had fought with Lin Tianhao several times and was well aware of how powerful Lin Tianhao was.

therefore.

She doesn't want to fight with Lin Tianhao easily now.

Lulindu Fumo chuckled and said:

"When did you become so cautious? Destroying the statue doesn't mean you're going to have a head-on collision with the Snow Emperor."

"All we have to do is enter their so-called Ancient City of the Heart Demon and destroy the statue."

"According to my estimation, those statues have a certain cooling time. Once they are destroyed, we will have some time to attack."

Allens Roman sneered, "That's easy to say. You said you were so powerful before, but what's the result?"

Hear the words.

Lulindu Fumo snorted coldly, "You know shit. The guy who fought me last time was definitely not an adventurer. There's an old monster living in his body."

"The Physics God who took action earlier seemed to be doing the same thing. These guys in the Galaxy World are really cheating."

A middle-aged man walked out.

Seeing the newcomer, Lulindu Fumo frowned, "If the higher-ups sent you here, wouldn't that be cheating as well?"

The middle-aged man ignored the question and said calmly:

"You go hold back the Snow Emperor, and I'll destroy the ten statues."

Allens Roman pointed at himself and said, "You mean, I have to hold back Xue Di by myself?"

"I'm really grateful to you for thinking so highly of me."

Hear this.

The middle-aged man smiled and said:

"Don't be so nervous. Xue Di is powerful, but I didn't ask you to fight him to the death."

"Just a little delay, it will be quick."

Allens Roman thought about it for a while and it seemed to be true.

"I'll give it a try. Whether it works or not depends on you."

The words fell.

Allens Roman took a step forward and disappeared.

The middle-aged man chuckled and said, "You guys should take action too. I'll support you."

Lulindu Fumo frowned slightly, "Just me and that birdman."

"That's enough. Xue Di is not here. Hurry up. The Fat God's Invincibility and the Physical True God's support won't be that fast."

"Besides, I will take action, and they won't be able to support me."

After hearing the middle-aged man say that he would take action, Lulindu Fumofang nodded slightly.

"Okay, then it depends on when Luo Man finds Xue Di."

.....

Lin Tianhao was in the Fan Palace at this time, and he had already contacted other members of the Bai family.

Through other people in the Bai family, he also contacted the cousin summoner mentioned by Bai Xiaodang.

White Liuli!

Chapter 1880 White Tiger Heart, awakening degree 30%!

Bai Liuli's level is as high as 10,759, which is considered a relatively high level among adventurers.

The adventurer's rank cannot be seen, but the level can exceed 10,000, and there are more than 700 levels more, which is still of some value.

"I have the stuff, but I still want to exchange it for something."

"What is it?" Lin Tianhao asked.

"One each of the Divine Spirit Pill, the Spirit Refining Pill, the Body Tempering Pill, and the Sublimation Pill."

Lin Tianhao raised his eyebrows slightly. All the pills he brought from Xuanxu Country had been used.

but.

He also brought out a group of alchemists from Xuanxu Country, so Lin Tianhao was still able to get these pills.

"It is good."

Lin Tianhao initiated the contact directly.

The process went extremely smoothly.

Lin Tianhao successfully exchanged four pills for an... eyeball from Bai Liuli.

This is a white tiger eyeball, and it has existed for a very long time.

In Bai Liuli's words, this eyeball was passed down from ancient times, and after a long period of evolution, it has become special and strange.

It can help tiger beasts return to their ancestral state and awaken their bloodline.

Its use is somewhat similar to that of the White Tiger Mountain Seal.

White Tiger Left Eye: Special.

Usage requirements: None.

Effect 1: It can help the tiger beast bloodline return to its ancestral state and stimulate its deep bloodline

Effect 2: Luck +30.

Abrasion resistance: Indestructible.

Lin Tianhao frowned slightly. This thing really looked like the White Tiger Mountain Seal.

But after Lin Tianhao got this thing, he didn't react at all.

He no longer had that mysterious feeling when he faced the Dragon Ball and the White Tiger Mountain Seal.

Lin Tianhao played with the left eye of the white tiger, but there was no reaction.

It was clearly something similar to the White Tiger Mountain Seal, but he couldn't use it.

Could it be that this thing is just similar, but not really useful?

This thing seems to be useless.

"Swallow the sky and the earth."

They have all been exchanged, so Lin Tianhao can't possibly not use them.

Since he couldn't use it actively, Lin Tianhao decided to exchange it and give it a try.

"Ding, you are devouring the White Tiger's left eye, Gold attribute enlightenment +10000, Divine attribute enlightenment +1000..."

Lin Tianhao tried to swallow it and gained something, but compared to the pills Lin Tianhao paid for, this little gain seemed insignificant.

of course.

The understanding of divine attributes is still quite precious.

Lin Tianhao just tried to swallow it, but did not completely devour the white tiger's left eye.

What if he called in the wrong way?

While Lin Tianhao was thinking this, two of his friend requests were finally approved.

Previously, the ambitious Taoist priest recommended to him two people from the Beastmaster family and two people from the mountains.

Now there is only one person left from the Beastmaster family and one of the mountain people who accepted Lin Tianhao's friend request.

"Wow, Boss Xuedi, you've been really generous lately, even offering dragon eggs for sale. I want dragon eggs too."

The man from the Beastmaster family is named Louis Liuliuliu.

He was quite familiar with me.

"Do you have anything similar to the White Tiger Mountain Seal?"

"There are some."

"Our families have already discussed the deal. Three dragon eggs."

Lin Tianhao's mouth twitched. It seemed that there were not many good people like Bai Xiaodangjia.

"I don't have any dragon eggs in my hand now."

"How about other things?"

"for example....."

Lin Tianhao sent the properties of the Body Tempering Pill to obtain it.

The main reason is that among the four kinds of elixirs, only the Body Tempering Pill is relatively simple to refine.

The most abundant item in Lin Tianhao's hands now is the Body Tempering Pill.

"It's a good thing..."

"But compared to a dragon egg..."

Louis 666 hesitated.

"The dragon egg still needs to be cultivated, but this thing can directly improve your overall strength."

"And you should have noticed that dungeons have appeared on Blue Star as well. I can tell you that it's not just Blue Star, the spiritual energy of the entire galaxy is reviving. Dungeons, secret realms, and wild monsters are appearing everywhere."

"If you improve your strength, it can snowball."

It took Louis 666 a long time before he replied to Lin Tianhao's message.

"Sure, fifty Body Tempering Pills, how about that?"

"You have too many here, thirty."

"make a deal."

Louis 666 didn't hesitate and agreed immediately.

then.

Louis Liuliuli traded a petrified heart to Lin Tianhao.

White Tiger Heart: Special.

Usage requirements: None.

Effect 1: It can help the tiger beast bloodline return to its ancestral state and stimulate its deep bloodline

Effect 2: Luck +50.

Abrasion resistance: Indestructible.

Lin Tianhao: ???

Isn't this almost the same effect as the White Tiger's left eye?

If there is one difference, it is that the lucky attribute bonus is greater.

But the problem is... the White Tiger's left eye cannot awaken his bloodline, so will this White Tiger's heart be useful?

Just when Lin Tianhao was thinking this, he had already traded thirty Body Tempering Pills to Louis Liuliuli.

then.....

Lin Tianhao took out the white tiger heart.

This white tiger heart has turned to stone, but after Lin Tianhao got it in his hand, the mysterious sensation came back.

It seemed that he could absorb this thing just by thinking about it.

"This....."

Lin Tianhao did not absorb the white tiger's heart immediately, but took out the white tiger's left eye.

Even with the White Tiger's left eye in his hand, Lin Tianhao still didn't have that special sense.

"what reason?"

Lin Tianhao was a little dumbfounded.

If we say that there is a certain degree of difference between the White Tiger's Left Eye and the White Tiger's Mountain Seal.

But now?

This white tiger's heart is obviously the same thing as the white tiger's left eye.

If we have to say the difference, it is that... the lucky attribute bonus of the White Tiger's left eye is lower.

Lin Tianhao thought about it, but he didn't have a good answer in his mind.

A thought came to my mind.

Lin Tianhao chose to use the White Tiger Heart.

"Ding, you've gained the White Tiger Heart bonus: Gold Attribute Perception +100 million, Holy Attribute Perception +100 million, Health +100 billion, Armor +5 million, Magic Resistance +5 million..."

The bonus is still similar.

"Ding, you have gained special powers, your bloodline is awakening..."

"Ding, because your bloodline is too high, only part of it has been awakened. The current bloodline awakening degree is 30%."

Lin Tianhao raised his eyebrows slightly. This was similar to the previous improvement with dragon balls.

After the blood awakening degree reached 30%, Lin Tianhao's immortal beast soul effect 2 was successfully activated.

Immortal Beast Soul: cannot be upgraded.

Effect 1: Your soul power increases by 3 points per second, and the increase value increases with the increase of your bloodline awakening.

Effect 2: You can create two soul clones, and these two soul clones will enjoy all the effects of your bloodline talent.

Effect 3: Not yet activated (activates when bloodline awakening reaches 35%)

Effect 4: Not yet activated (activated when bloodline awakening reaches 40%).

Cost: None.

Cooling: None.

Proficiency: Cannot be upgraded.
