

O games 1911

Chapter 1911 Suspension of fire, heavy casualties!

The Lord of Luotian looked back in surprise.

"It's not because of you, but from my perspective, I think the defense will be won."

That's it.

He looked at the waiter in charge of the market at the Wansheng Chamber of Commerce and said:

"I'm thinking about this. If the Galaxy World defeated the main force of the Alet Galaxy in three or five years and then stopped sending troops, would your ten-year victory in the defense be valid?"

The middle-aged man's words made everyone who was betting at the handicap look at each other in bewilderment.

"Your Excellency, do you think that the Galaxy World will only need three to five years to achieve a relatively large victory?"

"That's it."

"Well, let me ask." The waiter began to contact his superiors.

Then he replied:

"Whether it's one year or ten years, as long as the defense is won, it's considered a victory, and the payout is still fifty-to-one."

"Okay, then I'll bet 10 million enlightenment points on victory in the battle to defend the Galaxy World."

Place your bets.

The middle-aged man took the Lord of Luotian away.

After watching the two leave, many people who were preparing to place bets looked at each other in confusion.

"The war between the Galaxy and the Alite Galaxy has been going on for a month. Judging from the information and the battle situation we have learned, the Galaxy has absolutely no chance."

"Is it because of the Snow Emperor?"

.....

Galaxy world, blue planet.

The army of the Alet galaxy did not retreat because of Lin Tianhao's fighting style.

Instead, several people who had fought with Lin Tianhao before appeared one after another.

Gu Limu Changqing and Tutian Emperor followed Tris Tafeng to attack Lin Tianhao.

The three of them joined forces to chase and intercept Lin Tianhao, just because they didn't want Lin Tianhao to participate in the main battlefield.

Lin Tianhao's eyes narrowed slightly. The war had just begun, and these guys from the Alete galaxy were already impatient to defeat them.

It seems that it is because of his existence that those guys in the Alete galaxy feel threatened.

At least.

Those guys in the Alete galaxy in the previous life were more like boiling frogs in warm water for military training, and they were wiped out bit by bit.

But this time.

The attacks of these guys from the Alet Galaxy were indeed extremely fierce.

Lin Tianhao was still trying to delay time as much as possible.

Lin Tianhao frowned because his heartbeat continued to increase under the influence of the power of life sacrifice.

Before, it was because of the mysterious man's action that he broke the Nine-Eyed Golden Toad's sacrificial method.

Now there is no way to break the situation. Lin Tianhao relies on himself to bear this life sacrifice, but it is a bit difficult for him to cope.

If his heartbeat continued to increase like this, he might not be able to withstand it even in the ocean.

unless.

He can kill the Nine-Eyed Golden Toad.

But the problem is.

After the Nine-Eyed Golden Toad releases the sacrifice, its body will collapse, and its remaining soul will return to the base at the border of the Milky Way as soon as possible.

In his current situation, it is impossible for him to go to the galactic border alone.

"Xue Di, you don't have the chance to make a move, why don't you just sit down and have a good chat."

Came the voice of Gu Limu Changqing.

"How about we all stay silent and let the other little guys win?"

Lin Tianhao sneered, "What are you dreaming about? Just relying on a few of you guys, you think you can make me compromise?"

Gu Limu Changqing's face looked a little gloomy.

"I gave you a chance, but you didn't want it. Do you really think that we wouldn't dare to kill you because someone above is protecting you?"

Gu Limu Changqing's aura continued to rise, and when he raised his hand, a doll appeared in his hand.

The doll exuded a strange aura and flew towards Lin Tianhao at a high speed.

Lin Tianhao's eyes narrowed slightly. This doll was a little too strange, and Lin Tianhao didn't intend to resist it.

"Nine souls and nine spirits suppress the nine states!!"

Lin Tianhao attacked without hesitation.

at the same time.

Lin Tianhao's Heaven-Devouring and Earth-Eating Power was also released.

For these unknown means, Lin Tianhao can judge the attributes of the means by swallowing the sky and devouring the earth.

"Ding, you are devouring an unknown doll. Weird attribute comprehension +1000, weird attribute resistance +1000, magic resistance +5000..."

"Ding, you are devouring the unknown doll..."

.....

Lin Tianhao's eyes lit up. His Heaven-Devouring and Earth-Devouring Power was able to devour this strange doll, which meant that the level of this strange doll was not particularly high.

Although the strange doll flies very fast, the gap is still very obvious compared to Lin Tianhao's Starry Sky Step.

Strands of strange power were encroaching on Lin Tianhao from all directions.

Lin Tianhao has a body with all the laws, and all the laws and methods bless his body, which naturally includes the strange way.

therefore.

Lin Tianhao has resistance to the strange original laws. Although these strange forces have an impact on Lin Tianhao, it is not great.

not to mention.

Lin Tianhao's Heaven-Devouring and Earth-Devouring Skills were still continuously devouring the opponent's power and increasing his own resistance.

"Xuedi, you are such a freak!!"

Feeling that the power of the strange doll was weakening, Gu Limu Changqing looked a little solemn.

Lin Tianhao didn't care.

He just had to wait until the Heavenly Thunder ended so that he could kill one more person.

"withdraw!!"

at last.

Under Lin Tianhao's rogue style of play, they could no longer bear it and began to flee.

Lin Tianhao's sixteen major domains covering thousands of miles have too much destructive power against the ordinary army of the Alet galaxy.

However, Gu Limu Changqing, Tris Tafeng and others were unable to completely slow down Lin Tianhao's pace.

Lin Tianhao kept changing locations, which meant that more of Alait's army would be killed continuously.

As for hunting by switching positions, it is also somewhat unrealistic.

The sixteen major realms cover a thousand miles. If no one cares about Lin Tianhao, it will only take about a quarter of an hour to deal with the army of the Alet galaxy.

and.

After Lin Tianhao has dealt with their army, he can still slow down their progress.

The army of the Alata Galaxy came in a mighty force, but left in disarray. In this defensive battle, the Galactic World won a complete victory.

"Is this the Snow Queen? This is simply too incredible!!"

"Our defenses have been breached, but once the Snow Emperor's domain arrives, the armies of the Alet Galaxy are slaughtered like wheat."

"You know nothing. The Snow Emperor is a realm. I heard that above the realm is the God's Realm, and above the God's Realm is the realm."

"No wonder he's so strong, this is completely beyond my imagination."

.....

Many people were cheering for the victory.

only.....

For the adventurers on the front lines, this battle is too cruel for them.

This time.

Too many people died.

The number of troops sent by the Alet Galaxy this time is too large, and they are fighting at all costs.

Although Lin Tianhao took action, he couldn't cover everywhere.

Especially at the beginning when Lin Tianhao had not yet left the field.

"How many people died this time?" Lin Tianhao asked Berserker Blade.

"We're still counting. The number we've counted so far has exceeded 10 million adventurers, and over 10,000 Lord's Hearts have been destroyed."

Chapter 1912 Raid on the Alete Army!

Lin Tianhao was also somewhat helpless. From the intensity of the attack from the Alate Galaxy that he had seen before, Lin Tianhao had already guessed that the situation was not good.

and.

The monsters in the magic cave also contributed a lot this time. So it seems that the master of the ambitious Taoist priest is still putting in some effort.

Besides.

With the end of the war, the influence of the sacrifice on Lin Tianhao began to dissipate.

The reason they retreated was that they knew the effect of the life-sacrifice power was about to end.

but.

They didn't achieve their goal this time, but next time there will definitely be a more reliable way to target him.

Think about this.

Lin Tianhao took a step forward and once again came to the ancient tomb where time and space were in chaos.

This time, things won't end like this.

He needs to wait, just one day is enough!

In the ancient tomb where time and space are in chaos, you only need to stay there for one day.

The army coming from the Alata Galaxy this time is huge in number, and the Blue Planet is still relatively far away from the edge of the Milky Way world.

If they retreat, they will most likely not retreat into the border of the galaxy.

Even if we really head towards the border of the galaxy, it will not take too long.

therefore.

Lin Tianhao planned to intercept them.

The reason for waiting for a day is because Lin Tianhao wants to wait for the Heavenly Thunder to cool down.

Whoever holds the mysterious stone tablet at that time will be struck by his divine thunder.

In the ancient tomb, a day passed in a flash.

As soon as Lin Tianhao's Heavenly Dao Divine Thunder cooled down, he came out of the ancient tomb.

I glanced at the time and saw that only three hours had passed outside.

From this point of view, it is not difficult for him to chase after him.

Lin Tianhao used the power of the origin of space and disappeared on the blue planet in an instant.

The Starry Sky Step can allow one to cross planets one after another, but Lin Tianhao doesn't plan to use it now.

Starry Sky Step is used to escape after completing a surprise attack.

Lin Tianhao hurried on his way at full speed, and his speed was increased to the extreme.

Following the route known to Xiumoxu Luwang, Lin Tianhao pursued with all his might.

The Fiery Eyes and Golden Pupils were pushed to their maximum, allowing him to see farther.

As for divine consciousness...

If you use your spiritual sense to cover the past, they will be discovered by your spiritual sense. The best option is to use your eyes to see.

Lin Tianhao chased all the way, using the power of the origin of space to travel, and his speed was much faster than that of the army of the Alet galaxy.

In the ancient tomb, Lin Tianhao also communicated with Xiu Moxu Luwang and Allens Roman.

If there are not many people, they can use space magic weapons or space jumping technology to transfer quickly.

But this time the number of troops coming from the Alete galaxy was too large, which meant that they could not move quickly.

Facts have proved that only people within themselves can understand each other.

After chasing for a quarter of an hour, Lin Tianhao had already observed the army of the Alet galaxy from afar.

Lin Tianhao hid himself in the void and observed the situation in the distance.

After a brief observation, Lin Tianhao decided to take direct action.

Using the power of the origin of space, he traveled through space and arrived at the army of the Alet galaxy.

The visions of the sixteen saints and the sixteen realms unfolded instantly, covering a thousand miles.

Large-scale phenomena such as Mantanghong and Bingpo Xuanyu instantly enveloped the area where the Alait galaxy army was most densely populated.

Saint visions with high single-target bursts, such as the Space Lotus and the Chaos Hammer, hit the powerful men in the Alait army without hesitation.

Lin Tianhao acted decisively and showed no mercy at all. He went all out in this move.

In a flash.

Lin Tianhao killed more than one million soldiers from the Alate galaxy.

With a wave of his hand, millions of undead rushed out and killed in all directions.

"Xuedi, how dare you do this!!"

Gu Limu Changqing sensed Lin Tianhao's presence the moment Lin Tianhao made his move.

He rushed towards Lin Tianhao without hesitation.

Lin Tianhao ignored it and continued to concentrate his strength to slaughter the army of the Alet galaxy.

"Xuedi, you are seeking death!!"

Tris Tafeng couldn't help but yell out in anger, and the mysterious stone tablet came towards Lin Tianhao to suppress him again.

Lin Tianhao sneered. The Nine-Eyed Golden Toad's sacrifice probably hadn't cooled down yet, and this mysterious stone tablet in Tris Tafeng's hands was not as powerful as he had imagined.

Lin Tianhao is not afraid at all!!

This is also one of the reasons why Lin Tianhao dared to launch a sneak attack.

There is no limit on life sacrifices. Currently, no one in Alet's army can really limit his output.

The mysterious stone tablet could only involve him a little.

But Lin Tianhao's purpose in coming here was not to massacre the entire army of the Alet galaxy. His purpose was only to severely damage this army, kill their senior generals, and prevent them from organizing their forces to attack again in a short period of time.

at the same time.

Lin Tianhao also wanted to find the Nine-Eyed Golden Toad.

After the Nine-Eyed Golden Toad uses the life sacrifice, its body will also collapse.

But the Alata Galaxy is obviously able to reshape the body of the Nine-Eyed Golden Toad.

This is not a good thing for Lin Tianhao. Next time, if the people of the Alet Galaxy are more fully prepared, coupled with the power of the Nine-Eyed Golden Toad's sacrifice, it will still pose a certain threat to him.

therefore.

Lin Tianhao also has another purpose for this trip, which is to completely kill the Nine-Eyed Golden Toad.

"no!"

Lin Tianhao released his power unscrupulously, but he still couldn't find the Nine-Eyed Golden Toad.

"Do you know where the Nine-Eyed Golden Toad is?" Lin Tianhao asked.

Aarons Roman replied:

"Sir, the Nine-Eyed Golden Toad should be in Gu Limu Changqing's space magic weapon."

"If you want to find the Nine-Eyed Golden Toad, you must first kill Gu Limu Changqing."

Lin Tianhao frowned slightly. He had talked about his purpose before he came here.

But Allens Roman did not tell him the exact location of the Nine-Eyed Golden Toad, only saying that it must be in the team.

Obviously.

Although influenced by the List of Gods, which made Alens Roman loyal to herself, she still had some thoughts in her heart.

At least.

Since Lin Tianhao didn't ask for details, she didn't say anything specific.

But if it was Heitian Aozhen, the Lord of Jiuyou and others, even if Lin Tianhao did not ask for details, after knowing Lin Tianhao's specific purpose, they would not take the initiative to tell Lin Tianhao about the problem.

But there is no point in thinking about these things now.

Since he couldn't kill the Nine-Eyed Golden Toad, the only thing Lin Tianhao could think of was to kill Tris Tafeng.

Because the current owner of the mysterious stele is Tris Tower Peak.

If she kills Tris Tafeng, perhaps she will have the opportunity to have more time to kill the army and generals of the Alete galaxy.

All the people gathered towards Tris Tower. At the same time, Lin Tianhao used the golden light of merit to protect his body.

At the same time, he summoned Allens Roman, Xiumoxu Luwang, the Lord of Jiuyou and others to attack in different places to attract the attention of other masters.

Subsequently.

Lin Tianhao used the space lotus to hit the mysterious stone tablet, while he kept a distance from Tris Tafeng and only consumed his energy from a long distance.

Chapter 1913 Lotus Treasure Lamp, Seal the Heaven and Lock the Soul!

Lin Tianhao knew very well that the stronger the murderous intent, the more stable one had to be.

Once your murderous intent is shown too obviously, the opponent will definitely be alert, and it will be more difficult to kill you.

Lin Tianhao kept pulling and moving to hunt down the soldiers and generals of the Alet galaxy.

As the tug-of-war began, Lin Tianhao continued to advance steadily.

There's a chance to kill Tris Towerpeak, which is the best.

Even if they cannot be killed, with the current fighting style, at least tens of millions of soldiers in the Alate galaxy will die.

Tris Tafeng had a gloomy expression. He did not sense any obvious murderous intent from Lin Tianhao.

But they couldn't stop Lin Tianhao from switching positions and slaughtering the soldiers of the Alet galaxy.

Without the influence of the life sacrifice, Lin Tianhao now feels that his condition is extremely good.

The reminder sounds are incessant.

Server-wide announcements resounded over Ragnarok and Blue Star.

"Server-wide announcement: Congratulations to player Xue Di for successfully killing Huang Chi Yan Feng. We are announcing this and hope all adventurers will keep up the good work!"

"Announcement to all servers, congratulations to player Xue Di..."

.....

Server-wide announcements sounded one after another, and many adventurers looked towards the depths of the starry sky.

The imperial capital of the Shanhai Empire, the Dragon Kingdom's general command center!

After hearing these dense server-wide announcements, Xuan Mingyang's expression became extremely solemn.

"What's going on? Did the Snow Emperor enter the depths of the starry sky?!"

Xuan Mingyang knew that Lin Tianhao was very powerful, but it was too dangerous for him to go into the depths of the starry sky alone to hunt down the Alait army.

especially.

Previously, I had only played as a mage and ambushed Huang Chi's army, and everyone already knew the result.

"Snow Queen's move is indeed a bit too risky. Could it be that among the adventurers killed this time, there are people who are very important to Snow Queen?"

"Find a way to contact Xue Di and see if he needs support. The risk is too great for him to do this."

.....

Command centers of various countries were shocked by the news.

Xuan Mingyang tried to contact Lin Tianhao as soon as possible.

After hearing these intensive server-wide announcements, ordinary adventurers couldn't help but show excitement on their faces.

"The Snow Emperor finally took action!"

"That's how it should be. Just playing as a mage isn't enough. This time, the Snow Queen has taken action. Just by listening to the server-wide announcement, I can already imagine how miserable the fate of those guys in the Alete Galaxy will be."

"Aren't you worried about what might happen to Boss Xuedi? Don't forget, there are also some top experts in the Alet Galaxy."

"Now that the Snow Queen is fighting alone in the starry sky, the danger level is incalculable."

Just as they were thinking this, a live broadcast room opened on the Ragnarok forum, and the live broadcast was exactly the scene of Lin Tianhao fighting against the army of the Alate Galaxy.

"Fuck, this is awesome! This can even be broadcast live. Go Ye Wuqing, the eternal god."

"The Snow Queen is indeed the Snow Queen. That stone tablet is clearly a truly invaluable treasure. Those guys in the Alet Galaxy are truly unsportsmanlike."

"Yes, I feel that if it weren't for the stone tablet, Boss Xuedi would be able to kill them all by himself."

.....

This live broadcast footage was captured by Gui Ye Wuqing using her micro robot.

In the live broadcast, Lin Tianhao's sixteen realms and sixteen visions were all open, just like the god of death, madly harvesting the lives of the Alait army.

Wherever Lin Tianhao passed, the sky was stained with blood. The Alate army used all kinds of means, but they could not do anything to Lin Tianhao.

Having just experienced a great battle, the adventurers on the front line were all very excited when they saw Lin Tianhao slaughtering the Alet army.

After experiencing blood and fire, their hatred for the Alata Galaxy has reached its limit.

"Good, good kill, that's it, these bastards from the Alet Galaxy all deserve to die!!"

"I understand that I can only play as a mage. It's a pity that I'm not strong enough, otherwise I would also like to rush into the starry sky and kill those bastards in the Alete galaxy."

"I think it's good too, but the Snow Empress' situation doesn't seem to be too good either. The stone tablet seems to be able to suppress the Snow Empress, affecting her performance."

.....

A big battle, a live broadcast.

Attracting the attention of adventurers around the world!

Fandian.

Xiao Xiaojian was also dancing with joy, "Boss Xuedi is so disloyal. He didn't even call me for such an exciting event!"

She Po Cang Qiong, who was standing beside Xiao Xiao Jian, glanced at her and said:

"Just say, is there a possibility that you are too weak? If Boss Xuedi takes you with him, you will probably be killed in one encounter."

"Haha, do you think I'm you? You're just an archer, and your normal attack range is not as good as mine."

.....

Above the stars.

The battle continues.

Lin Tianhao's body transformed into thousands of clones, charging in all directions.

During the ongoing battle, Lin Tianhao's expression gradually became gloomy.

Although he killed many soldiers and generals of the Alete galaxy, he could never find an opportunity to kill Tris Tafeng.

Lin Tianhao's battle here has lasted for ten minutes.

Lin Tianhao had summarized it before the sneak attack.

This battle cannot last more than fifteen minutes.

Because once it exceeds fifteen minutes, the top masters of the Alate Galaxy may arrive.

According to Xiu Moxu Lu Wang, there are not many masters stationed at the border of the Milky Way.

However, masters have gradually arrived at the base on the border of the Milky Way.

If a raid were to begin, the experts stationed at the galactic border could arrive within half an hour.

of course.

It is also possible that some particularly powerful people will arrive early.

therefore.

It would be best if the time Lin Tianhao can use for fighting is shortened to fifteen minutes.

Tris Tafeng's face turned pale when he saw Lin Tianhao's massacre.

They had already suffered heavy losses in this attack, and now Lin Tianhao launched a sneak attack on them, increasing their losses.

The Alate Galaxy attacked the Milky Way World, and before the battle began, they had a huge advantage in every way.

But now.

But they suffered setbacks one after another.

Even Xiumoxu Qingwang was killed by Lin Tianhao, and Xiumoxu Luwang was sent to the List of Gods by Lin Tianhao, which had a huge impact on their morale.

"You only know how to hide, so I will make sure you can't hide."

Tris Tafeng snorted angrily, and he sacrificed a lotus lamp. The lotus lamp bloomed in his hand, and the light instantly enveloped Lin Tianhao.

Lin Tianhao's face darkened and a cold light flashed in his eyes.

He wanted to retreat, but he felt the space around him freeze instantly.

Subsequently.

A huge lotus blossomed in the void beneath his feet.

"The precious lotus seals the sky, the candlelight fixes the soul!!"

Looking at the oil in the Lotus Lamp gradually decreasing due to the lighting, Tris Tafeng felt a little pain in his heart, but the pain in his eyes was soon replaced by anger.

"Snow Emperor, you are courting death today. All the mighty ones in the heavens and myriad realms can see that the Snow Emperor has gone too far. I, Tafeng, don't care who of you is backing the Snow Emperor. Today, I will kill him and live up to the expectations of heaven and earth!"

Chapter 1914 The 7th level of the law of origin of space!

Lin Tianhao frowned slightly, because he could clearly feel that his soul was imprisoned in this lotus space.

If he used the power of the origin of space to break the lotus lamp, only his physical body would escape.

The soul will still be trapped in the space blocked by this lotus lamp.

but.....

Lin Tianhao not only masters the power of the origin of space, he also masters the power of the origin of soul.

This method of imprisoning the soul is useful for others, but useless to him, Xue Di.

and.....

Lin Tianhao can still make a lot of money.

"Ding, you swallowed the unknown lotus treasure lamp, soul origin understanding +500, space origin understanding +500, soul origin resistance +500, space origin resistance +500..."

This wool is so comfortable!!

But Lin Tianhao couldn't get much, because Tris Tafeng had already controlled the mysterious stone tablet to attack Lin Tianhao.

Lin Tianhao's body turned into a stream of light and instantly distanced himself from the opponent.

But in order to continue to make money, he did not leave the space blocked by the lotus lamp.

In Tris Tafeng's view, this scene meant that Lin Tianhao was unable to leave the space blocked by the Lotus Lamp.

"Xuedi, aren't you very capable? Today I want to see if you can still escape from my hands!!"

Lin Tianhao did not respond, and continued to pull Tris Tafeng from a distance with the vision of the sixteen saints as he did before.

As Lin Tianhao devoured the sky and the earth, the oil in the lotus lamp in Tris Tafeng's hand was consumed at an increasing rate.

See this scene.

Tris Tafeng was a little anxious.

He didn't care about anything else and rushed towards Lin Tianhao madly.

See this scene.

Lin Tianhao smiled slightly, and at the same time activated the two original powers of soul and space, breaking away from the range blocked by the lotus lamp.

"what?!"

Tris Tafeng's face changed drastically. After a brief shock, he realized that it was not that Lin Tianhao could not escape at all, but that he did it on purpose in order to devour the power of his Lotus Lamp.

Looking at the Lotus Treasure Lamp, which only had a third of its oil left, and then at Tris Tafeng, who had already left the Snow Emperor with his men, Tris Tafeng gnashed his teeth in anger!

"Ahhh, Xue Di, Xue Di, you deserve to die!!"

Tris Tafeng felt like he was being played like a dog by Lin Tianhao the entire time!

however.

He had just shouted in anger when thunderclouds gathered above the sky.

This is the divine thunder of heaven!

Although Lin Tianhao has left, it is better to use the Heavenly Thunder method as soon as possible.

Anyway, he just needs to go back and enter the ancient tomb where time and space are in chaos, and he will be able to cool down quickly.

"Oh shit!!"

"Xuedi, I'm *****!!"

Tris Tafeng was truly broken by Lin Tianhao. Even after everyone left, he was still trying to mess with his mentality. This was simply too much!

Lin Tianhao had already gone far away at this time.

Above the Blue Star.

Many adventurers saw the frustrated Tris Towerfeng through the live broadcast.

They all clapped and cheered.

"Alright, hahahaha, that's how it should be. This bastard will be pissed off to death!!"

"What a filthy insult! This guy has no sense at all. They are the ones who are invading us, but he acts like he's being bullied."

"Damn it! If it weren't for that stone tablet, this guy would have been dead already!!"

.....

Lin Tianhao rushed back to Blue Star at full speed.

after come back.

Lin Tianhao did not waste any time. He sent a message to Yan Jing and went directly to the ancient tomb where time and space were in chaos.

Notify Glasses so that if anything happens outside, he can come to you as soon as possible.

In the ancient tomb, Lin Tianhao began to frantically devour the evil energy in his body.

He killed more than 50 million creatures on this trip, and the demonic energy in his body was already very strong.

In the blink of an eye.

Another three months have passed.

Lin Tianhao opened his eyes and a satisfied smile appeared on his face.

"The Law of Origin of Space has reached the seventh level!!"

At his current rate of improvement, the balance of victory in this battle to defend the galaxy will inevitably tilt towards them.

but.

The restrictions that killing places on Lin Tianhao are also reflected.

Every month he needs to leave the ancient tomb to hunt creatures.

Although it was less than a month outside, it was already a month inside the ancient tomb.

This also made Lin Tianhao think of another thing.

If he enters the Space-Time Training Pagoda again in the future, this restriction will always follow him.

therefore.

He needs to find a way to deal with the side effects of the blessing of killing.

just.

With Lin Tianhao's current abilities, he is not yet able to solve the side effects of killing. It depends on whether he can solve the side effects of killing as he masters more original power in the future.

During these three months, the outside world only had access to information for ten days.

The time ratio of nine to one is higher than before.

For ten days, the Alete galaxy did not launch any large-scale attacks, but there were still many raids by small groups of troops.

Such an attack naturally did not require Lin Tianhao to take action.

This time, Glasses came to see Lin Tianhao not because of the matter of the Alate Galaxy.

"Brother Hao, this is a newly discovered secret realm. According to the investigations that have already taken place, it should contain several complete Dao totems."

"If we can piece together these Dao totems, it will be much easier for everyone to attain enlightenment."

Lin Tianhao raised his eyebrows slightly and asked with a smile:

"You should be able to kill your way through such a secret realm." Lin Tianhao said.

Glasses shook his head and said:

"This secret realm is very special. I tried to enter it, but I couldn't make it to the end."

"This secret realm is constructed based on the Origin Dao. It is very special. The monsters and scenes inside are more like the ultimate evolution of the Origin Dao."

"For example, in the first level's ice and snow world, your speed will be limited to a very low level, and you will be constantly frozen."

"The most important thing is that this continuous freezing can even freeze the Tyrant Body."

"We can't even get past the first level right now. Once we enter, we'll be trapped in endless freezing until we die."

Lin Tianhao was a little surprised by the endless freezing.

Infinite control, no matter how thick the health bar is, it will eventually die.

"But someone still brought out the totem fragments of the Way of Ice and Snow."

"Even if it's just a fragment, it can allow people to quickly learn the law of ice and snow."

Lin Tianhao nodded gently and said with a smile:

"According to what you said, this secret realm is indeed extraordinary. Take me to see it."

No matter how strong he is, he is just one person after all. If he can help other adventurers become stronger together, then for Lin Tianhao, he can solve the problem from the root.

"Send me the coordinates and we'll be there right now."

With Lin Tianhao's Starry Sky Steps, in just a moment, Lin Tianhao came to the copy he mentioned wearing glasses.

This copy is not in Ragnarok, but on Blue Star!

Chapter 1915 The Secret Realm of the Cold Demon!

"This... is Lop Nur?"

Lin Tianhao's spiritual sense covered a huge area, and he determined where this place was in just a moment.

"Ah."

Glasses nodded slightly, "The entrance to that secret realm is in an ancient city beneath Lop Nur."

Lin Tianhao was a little surprised. "Is there an ancient city beneath Lop Nur?"

In the past, Lop Nur was the largest lake in the Western Regions, which supported the 36 kingdoms in the Western Regions. The famous ancient kingdom of Loulan in history was also supported by Lop Nur.

Later, Lop Nur dried up and the ancient kingdom of Loulan disappeared overnight.

Some people say that the ancient kingdom of Loulan offended the gods of the Western Regions, so the gods of the Western Regions took back the water of Lop Nur and destroyed the ancient kingdom of Loulan.

of course.

This mythological statement was not recognized before and was just regarded as a legend.

"Yes, this ancient city is very mysterious. It was discovered by a scientific expedition team after Lop Nur dried up. They were also astonished at the time."

"After all, with the means of that era, it would be impossible to build an ancient city in such a place."

Lin Tianhao didn't care too much and followed Yan Jing forward.

After Lin Tianhao's investigation, he discovered that there was a base underground ahead.

The base is not large, but there is an ancient city extending downward inside.

"This ancient city of Lop Nur has now become a place where wild monsters spawn. There are a lot of high-level wild monsters in it, but it's still easy for us to clear them out."

"It's mainly because of the secret place inside the ancient city of Lop Nur. It's a bit tricky."

Entering the underground base, Lin Tianhao saw some people guarding here.

When they saw Yan Jing and Lin Tianhao coming in, they didn't waste any words and directly took Lin Tianhao and Yan Jing and walked downstairs.

After walking down for about two kilometers, the road ahead began to widen, and even the space became higher and higher.

Lin Tianhao possessed spiritual awareness, so naturally he covered the entire ancient city in an instant.

There are many buildings in this ancient city, with a diameter of more than fifteen kilometers.

"This isn't a city that normal humans can build."

Lin Tianhao frowned and spoke.

To build an ancient city with a diameter of more than 15 kilometers under the lake would require an unimaginable amount of manpower and resources.

especially.

When this ancient city was built, Lop Nur had not dried up, which made its construction even more difficult.

"Yes, that's what the higher-ups speculated. Because there's not a single word about such a large ancient city in history, they initially suspected it might be a place similar to Mo Yuan."

"But after exploration, we found that the ancient city of Lop Nur is not in a secret place, but a real city built independently on the bottom of the lake."

Lin Tianhao shook his head. "It doesn't matter anymore. Let's go to the secret realm first."

Now that we know about Ragnarok and Lin Tianhao himself has come into contact with so many gods, the significance of the existence of this ancient city is no longer so important to Lin Tianhao.

In this ancient city, there are a large number of humanoid monsters from the seventh to the ninth level. Judging from the situation of these humanoid monsters, it seems that the people who originally lived here have all turned into monsters.

Fu Shou Xue Shi (Black Iron): Level 3512.

Lin Tianhao just took a glance, and the arrow was launched from his heart, and a feather arrow killed it instantly.

In a city with a diameter of fifteen kilometers, Lin Tianhao didn't need to make any special moves. He just walked with Yan Jing and almost all the monsters were killed.

As for these wild monsters, there is no difference between level 3,000 and level 10,000 in front of Lin Tianhao.

soon.

Lin Tianhao and Yan Jing arrived at the entrance of the secret realm.

This secret place is above a pond in the back garden of the City Lord's Mansion.

Frost could already be seen above the entrance.

Lin Tianhao didn't waste any time. He took a step forward and entered the secret realm.

As soon as he entered the secret realm, a prompt sound rang in Lin Tianhao's mind.

"Ding, you are affected by the ice..."

"Ding, you are immune to the effects of ice."

Lin Tianhao raised his eyebrows slightly. When he dealt with the Ice and Snow Goddess before, he gained the ability to be immune to ice and snow.

of course.

Lin Tianhao felt that the more important reason for being immune was the blessing of the body of all laws.

The body of all laws has given Lin Tianhao resistance to the original power of ice, so he is naturally immune to the power of freezing.

"Ding, you have absorbed the power of the Ice Attribute. Ice Attribute Comprehension +100, Ice Attribute Resistance +100, Magic Resistance +1000..."

.....

The prompt sound continued to ring, which also confirmed Lin Tianhao's previous judgment, that is, this secret realm has the original power of ice attribute.

Lin Tianhao walked forward, still not affected at all.

in fact.

These ice-attributed original forces have been condensing frost around Lin Tianhao, trying to freeze Lin Tianhao.

But the result was useless. The frost was swallowed up by Lin Tianhao's Heaven-Devouring and Earth-Devouring Skill before it could completely solidify.

Lin Tianhao felt like he was walking on flat ground in this secret realm.

the most important is.

As Lin Tianhao moved forward, the ice attribute power swallowed by the Devouring Heaven and Earth became more concentrated and the value became higher and higher.

at last.

Lin Tianhao saw a wild monster appearing in front of him.

Ice Soul Cold Demon (Gold): Level 3999.

This level, this level, is still too weak for Lin Tianhao.

The problem can be easily solved by just shooting the arrow from the heart.

The journey was very smooth.

at last.

After Lin Tianhao killed a level 10,000 diamond-level BOSS, a special treasure chest fell out.

Enlightenment Treasure Chest: Special.

Requirements for use: Key to Enlightenment.

Introduction: This is a good treasure chest. Open it and you can get the Enlightenment Totem Fragments. Observing the Enlightenment Totem Fragments can allow you to obtain high rewards.

Abrasion resistance: Indestructible.

Lin Tianhao's eyes lit up. This should be what Glasses was talking about.

But it still needs a key to open it.

Lin Tianhao was not in a hurry because there was a treasure chest here and there was probably a key.

as predicted.

Lin Tianhao continued hunting and obtained some enlightenment treasure chests and some enlightenment keys.

As he walked along, Lin Tianhao seemed to be strolling in the garden, very casual.

Later, the wild monsters had reached the Nine-Turn Star Glory level, but it was still the same. They were killed instantly.

The final BOSS of this secret realm is a nine-turn grandmaster-level Ice Soul Cold Demon. Although he has some abilities, he can't do anything to Lin Tianhao.

Lin Tianhao easily solved the problem.

This secret realm is not bad, but the biggest problem is the freezing effect of the ice attribute power.

Lin Tianhao possesses the ability to resist and devour the heavens and the earth, and is immune to the damage of the ice-attributed original power, making him naturally invincible.

"Ding, congratulations, you've completed your first pass through the Frost Demon Secret Realm. A server-wide announcement will be made soon. Do you want to hide your name?"

"hide."

"Server-wide announcement: Congratulations to the player who hid his nickname and completed the first clear of the Frost Demon Realm. We are announcing this and hope all adventurers will keep up the good work!"

Chapter 1916 The Demon in the Earth's Core!

Lin Tianhao settled the reward for clearing the secret realm and came out of the secret realm.

When Yan Jing saw Lin Tianhao, he immediately guessed that the person who had just passed the secret realm was Lin Tianhao.

"Have you passed the level?" asked Glasses.

Lin Tianhao nodded and said:

"Well, I'll trade it to you."

Lin Tianhao directly handed the enlightenment treasure chests and enlightenment keys to Yan Jing.

"It feels like playing when you pass these places."

"There is an ice-attributed power here, which cannot be resisted by conventional means."

Lin Tianhao pondered for a moment and said, "You should have mastered the power of origin, right? Why can't you compete with the ice-attributed power of the Frost Demon Secret Realm?"

Glasses shook his head and said:

"I have mastered some of the power of origin, but the level is not high enough."

"Moreover, the freezing power of this Frost Demon Secret Realm is continuous, and my source power cannot withstand long-term consumption."

"It's mainly because my original power doesn't belong to me. I'm relying on external forces, but this kind of external force can't be sustained for a long time."

Lin Tianhao understood.

suddenly.

Lin Tianhao sensed something and looked at the ground beneath his feet.

"interesting."

"What's wrong?" Seeing Lin Tianhao's reaction, Glasses asked immediately.

"There seems to be something different deep in the heart of the earth."

Lin Tianhao's spiritual sense has been used to investigate, and overall, there is nothing unusual.

But when Lin Tianhao used his spiritual sense to investigate, he felt as if he had passed through some kind of barrier.

The feeling was very weak. If Lin Tianhao's current soul power was not so high, he probably wouldn't be able to discover anything.

"I'll go down and take a look. You wait here for me."

Lin Tianhao spoke lightly, and disappeared the next moment.

Lin Tianhao has the ability to walk on the earth and can move freely underground.

Diving all the way down, Lin Tianhao felt that he had dived more than a hundred kilometers.

"We're getting closer and closer to that weak barrier."

Lin Tianhao continued to dive.

below.

There was a sound of ghosts crying and wolves howling, which instantly confirmed Lin Tianhao's judgment.

His perception was correct, that layer of barrier did exist.

Lin Tianhao arrived in front of the barrier. In front of him was a layer of khaki barrier.

Lin Tianhao did not rush in, but just observed quietly.

With a wave of hand.

An undead appeared, and Lin Tianhao controlled the undead to perform a routine.

The undead spirit passed through the barrier without any hindrance.

"Oh, yes, there is a world at the center of the Earth on Blue Planet. Could this be... the world at the center of the Earth?"

Lin Tianhao ordered the undead to pass through and then come back.

Through the undead, Lin Tianhao saw what was behind the barrier.

There, there are countless monsters, these monsters are crowded together, and each monster has strange runes on its body.

Every time they struggled, the runes lit up and froze them.

After they stopped struggling, the ice melted quickly.

Then there was another struggle, a roar, and then a freeze.

So again and again.

Lin Tianhao had seen many monsters, but the monsters here still shocked him a little.

The number is huge, like an ocean!!

With a hideous face and full of resentment, it is definitely not an ordinary wild monster.

Is this change caused by the fusion of Ragnarok and reality?

Or are there so many monsters deep underground on Blue Planet?

Lin Tianhao thought of the fact that the Bear Country seemed to have tried to break through the Blue Star before, but the project was forced to be terminated.

As for the reason.

Lin Tianhao had also heard that after they drilled to a certain depth, he heard the sounds of ghosts crying and wolves howling.

At that time, some people said that the sound might be caused by the influx of underground air and the air pressure caused by drilling into the ground.

Now it seems that may not be the case.

After all, if it was just the sound of drilling, such a national-level project would not be easily stopped.

Since this project was stopped in the first place, there must be some special reasons behind it.

Lin Tianhao took a step forward and passed through the ochre-colored barrier.

Except for a slight feeling when passing through the barrier, everything else... is normal.

Entering the barrier, I saw with my own eyes the monsters crowded together below, roaring and struggling.

Lin Tianhao also felt a little strange. There were so many monsters, and judging from the ice-blue runes on their bodies, they must have been sealed inside.

The feather arrow flew out, and Lin Tianhao locked onto a monster below.

The feather arrow hit the monster and killed it instantly.

But Lin Tianhao did not get any experience points bonus.

After the monster died, its body drooped.

But this only lasted for three seconds, and the monster roared and came back to life.

Lin Tianhao attacked again and killed hundreds of monsters.

But just like the monsters that Lin Tianhao had just killed, only three seconds later, these hundreds of monsters were all resurrected.

"Do you know what's going on?" Lin Tianhao asked his men.

"not sure."

The Lord of the Nine Netherworlds shook his head. "Generally speaking, methods like resurrection are quite special."

"These monsters seem to be able to be resurrected, but I don't know if there is a limit to the number of times."

Lin Tianhao was speechless. He wanted to know if there was a limit to the number of times these monsters could be resurrected, so he killed them a few more times.

Anyway, every time you kill them, you only need to wait three seconds for them to revive, which is a small problem in itself.

Once, twice, three times...

Lin Tianhao continued to kill them.

Originally, Lin Tianhao only killed one hundred of them, and then the scale expanded to one thousand.

Then, Lin Tianhao continued to slaughter.

Ten times, twenty times, thirty times...

Lin Tianhao kept killing, and these monsters kept resurrecting.

"It seems that they really can't be killed." Lin Tianhao was still trying hard to kill these monsters, but the result did not change at all.

They all resurrect three seconds after being killed.

"Sir, your normal attack can permanently add health points. Take a look and see if your health points have increased." The Lord of Jiuyou suddenly said.

Lin Tianhao nodded. He really didn't pay attention to this problem.

Because his current health value is too high, the health value added by normal attacks is negligible compared to Lin Tianhao's current health value.

Lin Tianhao deliberately paid attention to whether his normal attacks would add health points.

The result is... superposition!

There were no surprises.

"No problem, the health points are added up."

"These monsters can indeed be resurrected infinitely."

Ragnarok is also a real world. Because of the God of Tao, the adventurers in it can be resurrected infinitely.

But for some reason, these monsters can be resurrected infinitely.

Lin Tianhao changed his method and directly used the Heaven-Devouring and Earth-Devouring Technique to devour these monsters.

He wanted to see whether the monsters he had devoured could be resurrected.

Chapter 1917: A sealed place with different flow of time!

"Ding, you are devouring an unknown creature, HP +200 million, Life Source +1."

Lin Tianhao was slightly stunned. The origin of life?

What is this?

It seems that it is not the understanding of the original attributes of life, but... the pure origin of life.

Not only that.

The types of attributes gained by devouring these monsters are too few.

Most of the things that he had swallowed before basically brought some insights to Lin Tianhao.

These monsters were obviously not simple, but they only increased Lin Tianhao's health and life source.

Besides.

Lin Tianhao also discovered a problem.

That is when devouring these monsters, the prompt is unknown creatures.

Based on Lin Tianhao's experience of using the Heaven-Devouring and Earth-Devouring Technique in recent times, those who give warnings to unknown creatures are most likely not creatures from the Milky Way world.

In other words.

These densely packed monsters, as vast as the ocean, all come from outside the galaxy world.

These monsters are ferocious, violent, and seem to have no rationality.

Lin Tianhao can devour them, and attack them to gain health points.

If this is the case, this should be a perfect place to stack the Hand of Heavenly Punishment.

Monsters are endless and can all be resurrected.

Lin Tianhao increased his attack speed to the maximum and started attacking frantically.

Three thousand arrows per second, quickly slaughtering these monsters.

The health points that can be added by the feather arrow attack are very small, but the health points that can be increased by Swallowing the Sky and Devouring the Earth are an astronomical number.

especially.

And Lin Tianhao didn't know how to use the source of life specifically.

Just by listening to the name, it is not difficult to tell that these sources of life should not be ordinary things.

In this way, Lin Tianhao slaughtered here for a day and a night.

Devouring and slaughtering here are good, but Lin Tianhao still feels that he should go to the ancient tomb to practice.

There, his heavenly and earthly nourishment, his body of all things, and the efficiency of his enlightenment can be greatly improved.

however.

When Lin Tianhao passed through the ochre-colored barrier and returned to the top, he realized a very bad problem.

That is.....

The time he spent down there seemed to be a little different from the time he spent up there.

He had just spent a whole day down there, but outside, it seemed like only two hours had passed! !

This... a tenfold time difference!!

Lin Tianhao's eyes widened with uncontrollable surprise.

There is a time difference in the ancient tomb, which is already amazing.

But there is actually such a place in the place where the demon in the center of the earth is sealed.
This... is really unbelievable.

Lin Tianhao was shocked, but after a brief moment of shock, this shock turned into surprise.

"I seem to have found a perfect place for cultivation."

Although Glasses said that the time flow rate difference in the ancient tomb was 2-100 times, in fact, the time flow rate difference that Lin Tianhao experienced every time was within ten times.

In this place where the devil is sealed in the center of the earth, time seems to flow about ten times faster.

If that's the case, then it's not bad for him to practice in the center of the earth.

The key is.

In the place where demons are sealed in the center of the earth, he can continuously hunt and devour these demons to strengthen himself.

Do it when you think of it.

Lin Tianhao returned to the place where the demon was sealed in the center of the earth.

After coming in, the first thing Lin Tianhao did was to check the Ragnarok forum.

Because he wanted to confirm one thing, that is, whether the place where the demon was sealed in the center of the earth could still contact the outside world.

But the result is...it can't.

The difference in the speed of time flow is obvious, so it is normal for such a place to be isolated from the outside world.

After a brief attempt here, Lin Tianhao did not stay for long, but left and headed for the ancient tomb.

It's not that Lin Tianhao changed his mind, but because Lin Tianhao was ready to devour the original power of time in the ancient tomb.

Before, Lin Tianhao still needed the help of the ancient tomb to practice, so after testing the properties of the ancient tomb, he stopped devouring it.

Because Lin Tianhao was worried that if he swallowed the original power of the ancient tomb, it would cause problems with the time difference between the ancient tomb and the outside world.

Enter the ancient tomb.

This time.

Lin Tianhao had no worries and began to absorb the original power of time here with all his strength.

"Ding, you have absorbed the power of the origin of space. Your understanding of the origin of space is +100, and your resistance to the origin of space is +100..."

"Ding, you have absorbed the power of the origin of time. Your understanding of the origin of time +100, your resistance to the origin of time +100..."

.....

Lin Tianhao began to devour frantically, and his understanding of the origin of space and the origin of time continued to improve.

At this rate, if Lin Tianhao can devour this ancient tomb completely, his subsequent progress in enlightenment will be terrifying.

not to mention.

Lin Tianhao also has the abnormal skill of Heavenly Enlightenment. Constantly enlightening others can also increase Lin Tianhao's understanding.

Now Lin Tianhao's own comprehension is already very high, coupled with the continuous improvement of his comprehension of the origin of space.

After reaching the seventh level, Lin Tianhao's spatial origin law not only did not slow down, but instead improved slightly.

For ordinary laws, if one has a good understanding, one can reach the law level in a relatively short period of time.

However, the time required for subsequent improvements will become increasingly longer.

As for the original law that Lin Tianhao has comprehended now, it is even more difficult.

After continuously devouring for three days and three nights in the ancient tomb, the power Lin Tianhao gained from devouring has become increasingly weak.

The previous value of the devouring bonus was one hundred, then eighty, and fifty.

Now that Lin Tianhao has swallowed, the bonus value is already less than thirty.

This indicates that.

As Lin Tianhao devoured, the power of the origin of time and the power of the origin of space here were rapidly diminishing.

Lin Tianhao wanted to move forward and go deeper into the ancient tomb.

But Lin Tianhao was still somewhat worried. What if he was temporarily trapped here and the Alate Galaxy attacked again? With Blue Star's current strength, it might not be able to withstand it.

especially.

It has been more than half a month, and those guys from the Alate galaxy haven't attacked us yet.

This can only mean one thing, that those guys in the Alate Galaxy are brewing a big wave.

Lin Tianhao was also a little worried. He was unable to resist the life-sacrificing power of the Nine-Eyed Golden Toad.

And there is that mysterious stone tablet, which he has not yet found a way to crack.

If we have to say how to crack it, it is the power of luck.

But given the current situation of the human race, it would be good enough if they could maintain the current power of luck, let alone improve the power of luck.

but.....

Lin Tianhao thought of the Cold Demon Secret Realm.

And this ancient tomb...

If he could find more secret realms of the Cold Demon and piece together more totems of the Tao, adventurers could observe and gain enlightenment.

In this way, the overall control of the human race over the Tao will be enhanced.

such.

Will it improve the fortune of the human race?

Besides.

There are also treasure places like ancient tombs where time flows rapidly.

If he could improve the law of the origin of time, he could build a place like this for adventurers to practice.

Even if the time flow rate is only about five times faster, it will be a huge improvement for adventurers.

Chapter 1918 Swallowing the dual original power!

Including when Lin Tianhao is practicing in the sealed place of the underground demon, he can also bring more adventurers into it.

He has a map of mountains and seas, which can accommodate hundreds of billions of lives, so he can take it with him to practice in the sealed place of the demon in the center of the earth.

but.

The place where the demons in the center of the earth are sealed is a bit special after all, especially what the demons below are like. Lin Tianhao is not quite sure.

The fact that there are so many demons sealed beneath the Blue Star cannot be let know by those guys in the Alite Galaxy.

Otherwise, the consequences would be disastrous.

If those guys in the Alet Galaxy can't deal with me, there's no guarantee that they won't become desperate and break the seal of the demon in the center of the earth.

It would be a disaster for the entire Blue Planet then.

Unkillable, short resurrection time.

Even if its combat power is not high, it is almost unsolvable.

This is also the reason why they are sealed in the center of the earth instead of being destroyed directly.

There was a moment.

Lin Tianhao even wanted to use the Reincarnation Technique on these monsters.

Let's see if Samsara can completely wipe out such a monster.

But this idea was still rejected by Lin Tianhao.

Let's not talk about whether Lunhuibudu can kill these monsters. Even if it can, there is no practical significance in doing so.

Because judging from the number of monsters here, let alone the one-month cooldown period of the Wheel of Reincarnation, even if it was only one day, it would be unrealistic for Lin Tianhao to use the Wheel of Reincarnation to deal with the monsters here.

Lin Tianhao walked towards the front of the ancient tomb. The power of the origin of space and the power of the origin of time here had been almost devoured by him. Even if there was a disorder of time and space, theoretically it would not have much impact on him.

Lin Tianhao walked out fifty meters and came back without any effect. Then he walked one hundred meters, two hundred meters, and five hundred meters.

When Lin Tianhao walked out 500 meters

When I walked back, I clearly felt something was wrong.

"Is this the confusion of time and space?"

Lin Tianhao looked at the road he came from, but it was no longer the road he came from. It had changed.

It became wider, but Lin Tianhao didn't realize at a glance that it was no longer the road he had walked before.

Lin Tianhao used all his strength to activate the Heaven Devouring and Earth Devouring Technique.

The amount he can devour is now higher.

At the entrance, Lin Tianhao swallowed a value that was only one hundred. Now this value has risen to two hundred, directly doubling.

Lin Tianhao looked around with deep eyes, but did not act in a hurry.

Now the degree of confusion of time and space around him is twice as high as when he was at the entrance. If he walks around aimlessly again, there is a high probability that he will cause some unnecessary trouble.

This time, just like the last time, as Lin Tianhao devoured, the value he gained each time also decreased from 200 to 150, 100, 80, 50...

After reaching fifty, Lin Tianhao discovered that the road behind him had turned back to the way he had originally come.

"It seems to be consistent with my speculation. By devouring, space and time around it can be disrupted."

The reason why the surrounding space and time are disordered is because the two original forces are mixed together.

and.

After devouring for a few days, Lin Tianhao also understood why the people who built this ancient tomb did this.

The power of the origin of time is an extremely advanced power. Normally, if this power of the origin of time is not restrained, it will spread out.

therefore.

You need a container to hold the power of the origin of time.

And the power that can contain the origin of time must be another kind of power.

The original power of space here was originally supposed to be used to store the original power of time.

Normally.

These forces of the origin of space should form a barrier to imprison the forces of the origin of time.

But I don't know whether the people who created this place were not capable enough, or some kind of accident happened later, causing the power of the origin of time and the power of the origin of space here to mix together.

Take back your thoughts.

Lin Tianhao prepared to go out and take a look.

He has been here for nine days and doesn't know how much time has passed outside.

After coming out of the ancient tomb, Lin Tianhao looked at the time.

This time, nine days were spent inside the ancient tomb, and three days passed outside.

The first thing Lin Tianhao did when he came out was to open the Ragnarok forum.

All the major events that happened during the days he was away can be seen here.

The one at the top of the forum is quite eye-catching.

[The Ice and Snow Enlightenment Totem Tree has been erected in the capital of the Shanhai Empire. All adventurers can go there to gain enlightenment. The Enlightenment Square can accommodate 1.2 million people. Please register in an orderly manner.]

Lin Tianhao raised his eyebrows slightly, thinking about his previous gains in the Cold Demon Secret Realm.

However, this problem is also quite obvious.

There are too few people.

One million and two hundred thousand may sound like a lot, but the number of adventurers on Blue Star is enormous.

and.

In addition to the adventurers from Blue Star, some soldiers and civilians in Ragnarok also have the need to attain enlightenment.

These 1.2 million places seem a bit insufficient.

Lin Tianhao sent a message to Xuan Mingyang.

"Commander-in-Chief, there should be other secret realms like the Frost Demon Secret Realm. You can work with other countries to search for them."

"Just one Ice and Snow Enlightenment Totem is somewhat insufficient."

Seeing the message sent by Lin Tianhao, Xuan Mingyang immediately replied to Lin Tianhao.

"Well, every country is searching for them. We've recently found two, but we're still in the early stages of our raid. We can't burden you, Xue Di, with everything."

Seeing Xuan Mingyang's answer, Lin Tianhao was not too surprised and said directly:

"Small problem, just send me the location and I'll go find the strategy."

Lin Tianhao could feel that the higher the level of enlightenment of the human race, the slightly improved luck of the human race would be.

Before, he was not very sensitive to the luck of the human race, but after Emperor Xin taught him how to use the luck of the human race, Lin Tianhao became more sensitive to the changes in the luck of the human race.

"it is good."

Xuan Mingyang was not polite and sent the location to Lin Tianhao.

Lin Tianhao went there directly.

These two secret realms are of fire and wind attributes respectively.

In the secret realm of fire attribute, there is a 100% chance of causing serious injuries.

In other words.

It is impossible to recover health in this secret realm.

In addition, there is the continuously accumulated burning damage. If an ordinary person enters it, even if he does not encounter monsters, he will not be able to hold on for long and will die.

This secret realm also caused some trouble for Lin Tianhao.

But it's just a minor inconvenience.

Because Lin Tianhao has an original antibody with fire attribute, this 100% serious injury only has about 80% effect on Lin Tianhao.

The wild monsters in the secret realm were like paper in front of Lin Tianhao.

In the entire secret realm, what Lin Tianhao spent the most time on was searching for corpses, traveling, and hunting, and these were all done almost in an instant.

Chapter 1919 A light rain that swallows up a galaxy!

"Ding, congratulations, you've successfully cleared the Fire Demon Secret Realm. A server-wide announcement will be made soon. Do you want to hide your name?"

"no."

"Server-wide announcement: Congratulations to player Xue Di for successfully clearing the Fire Demon Realm. We are announcing this and hope all adventurers will keep up the good work!"

.....

After hearing the server-wide announcement, Xuan Mingyang showed a relieved smile on his face.

"How long? One minute, maybe? We've already cleared the secret realm? Isn't this just a tour?"

Berserker Blade couldn't help but sigh.

"As long as the Snow Emperor opens his realm, wouldn't it be a simple matter of going in and taking a stroll?"

.....

Lin Tianhao traded the things to Xuan Mingyang, and then headed towards another secret realm.

This other secret realm has wind attributes and there is also some mystery in it.

But for Lin Tianhao, it was still a familiar journey and he was not affected at all.

He still passed through the secret realm quickly and brought out the things inside.

but.

Adding two Enlightenment Squares is still a drop in the bucket considering the huge number of adventurers.

After Lin Tianhao handed the things to Xuan Mingyang, he returned to the ancient tomb.

Lin Tianhao's intuition told him that there must be some secrets in the ancient tomb that he didn't know about, and perhaps he could get something unexpected from the ancient tomb.

Normally.

The power of the origin of time and the power of the origin of space, possessing either of these two powers would be extremely extraordinary.

The owner of the ancient tomb possessed both the original power of time and space, which in itself was a shocking thing.

Now Lin Tianhao has walked five hundred meters.

however.

At this distance, Lin Tianhao still couldn't see any useful information, and there was still a corridor in front of him that seemed to have no end.

Lin Tianhao's spiritual consciousness was also unable to penetrate the chaotic two original forces of time and space.

Under the influence of this power, Lin Tianhao could only swallow it bit by bit.

and.

Lin Tianhao can't be too radical yet.

As for the killing mission, Lin Tianhao found that he could complete it with his own undead army and ten statues.

He himself doesn't need to go out every month.

But those guys from the Alate galaxy are always like a sword hovering over Lin Tianhao's head.

Lin Tianhao still has to be careful, he can't be trapped here.

In the blink of an eye.

Lin Tianhao stayed in this ancient tomb for another two months.

After two months of devouring, Lin Tianhao's gains cannot be underestimated.

His understanding of the origins of space and time was increasing rapidly.

In just two months, Lin Tianhao's law of the origin of space was upgraded from the seventh level to the eighth level.

This speed is terrifying.

In two months, Lin Tianhao also walked about five kilometers.

at this time.

In front of the corridor where Lin Tianhao was, there were steps that extended downwards.

It was dark below the stairs, and due to the confusion of time and space, Lin Tianhao could not see any useful information.

Lin Tianhao continued to devour, moving forward steadily as before.

Just as Lin Tianhao stepped onto the first step, the originally dark corridor suddenly lit up.

He appeared above the galaxy, and in front of him stood a tall and majestic figure.

He was so huge that the planets in front of him looked like marbles, tiny and insignificant.

He has the same body as humans, but such a huge body still makes Lin Tianhao feel incredible.

Could this... be those unknowable and undetectable super beings deep in the starry sky?

Lin Tianhao looked around, but he was not too frightened.

Because he could feel that this was not the real world, he was being pulled into an illusion.

"Light rain."

The tall figure spoke, his body was sturdy and looked a little vicissitudes of life.

"You're about to come of age. This K18 galaxy is a gift from your father. From today on, you are the master here."

Lin Tianhao could feel that his perspective at this moment should be the Xiaoyu mentioned by the tall figure.

"Yes, father."

really.

Lin Tianhao did not respond, but his gaze was moving downwards.

This change in perspective is not difficult to analyze. The person in his perspective is bowing.

"You're just too sentimental. See this planet? It's not even the size of our thumb, but there are over ten billion living beings on it."

"Once you become the master of a galaxy, you must learn to utilize the lives within it."

Hearing the words of the tall figure, the owner of the perspective spoke again:

"We are already very strong..."

"This is your biggest problem. We are strong, but in this endless starry sky, is there no creature more powerful than us?"

"Xiaoyu, you must know that this endless starry sky is a huge Shura field, just like this blue planet. On this planet, big fish eat small fish, small fish eat shrimp, humans eat birds and beasts, and birds and beasts feed on other life forms."

"That's the rule. If you're not strong enough, you'll be like the creatures on these planets, destined to be slaughtered."

.....

The picture ends here and disappears.

Lin Tianhao's gaze returned to the stairs.

Although he was watching from a God's perspective, Lin Tianhao still felt very shocked.

The planet was huge to them, but it seemed so small in front of that majestic figure.

light rain...

Is this galaxy the Milky Way world?

Looking at the outline of the galaxy, it doesn't look much like a galactic world.

It is also possible that it was a very early galactic world.

If that galaxy is the Milky Way world, then... who is Xiaoyu?

The source god of Tao?

If that's the case.

The father of the God of the Source of Tao, how powerful must he be?

Source owner?

Or above the source master?

Lin Tianhao frantically devoured the power of the origin of space and time around him.

Because Lin Tianhao's intuition told him that there would be greater gains ahead.

as predicted.

When Lin Tianhao stepped onto the second step, he saw a chaotic world.

"Xiaoyu, you...hahaha, you satisfy me so much."

"Among my nineteen sons, you are the first one to devour all living beings after obtaining the world I gave you."

It's still that tall figure, and it's still that familiar voice.

But this time.

His voice was filled with joy.

But his words made Lin Tianhao shudder.

Xiaoyu took over that galaxy. Instead of developing it, he... devoured all the living beings in that world? Perhaps, it was more than that.

"Father, you're right. I'm an emotional person. The creatures of this galaxy don't have much to do with me. If I develop feelings for them, I'm afraid I'll stop exploiting them."

"So, I chose to slaughter and devour them all before I developed any feelings for them, in order to increase my strength."

Chapter 1920 Xiaoyu is the source god of Tao!

Lin Tianhao felt mixed emotions and didn't know how to comment.

There are so many living beings in a galaxy, they can be swallowed up at will.

and.....

Devour!

Lin Tianhao thought of his own swallowing of heaven and earth.

His ability to devour the heavens and the earth seemed to be quite powerful as well. Deep down in Lin Tianhao's heart, he had the idea of devouring everything in the Alate Galaxy.

And this light rain also has the ability to devour.

Could it be that.....

What is my relationship with Xiaoyu?

This is not Lin Tianhao's blind guess.

The main reason is that Lin Tianhao's own talent and bloodline level are too high.

Lin Tianhao himself didn't believe that he had no special background.

"Xiaoyu, your idea is very good, but in your world, if there are no living things, what's the difference between it and a dead place?" The tall figure asked back.

【Xiaoyu】 said:

"Father, I have already thought about this problem."

"I created life myself. In my eyes, the life I created is just a tool. It's hard to have any feelings for other living beings. It's like a refined weapon or equipment. If it's damaged, it's damaged. I don't feel anything."

"That's a good idea. You're very good at facing your own shortcomings and finding ways to solve them."

.....

The screen ends.

Lin Tianhao was still on the stairs.

Just by going down a step, there is such a change.

Lin Tianhao wanted to see if there would be more changes if he continued walking.

Thinking like this.

After absorbing the dual original power of space and time in front of him, Lin Tianhao stepped onto the third step.

There is no suspense.

Lin Tianhao was once again pulled into a perspective.

But this time, Lin Tianhao no longer saw that tall figure.

In Lin Tianhao's sight, black sculptures appeared.

These sculptures were not big in his sight, about the size of a palm.

"Is this the life you created?"

A familiar voice sounded, and Lin Tianhao knew it was the voice of that tall figure.

"good."

"I decided not only to create living beings, but also to create the world."

"I have a bold idea... that is... to let my world constantly experience destruction and rebirth, so that even after a long time, I still won't have any feelings for them."

"very good."

The tall figure did not hesitate to express his admiration.

"You are indeed stronger than your brothers. No wonder you have reached the Half-Step Source God Realm at such a young age."

"Perhaps, it won't be long before you can surpass your brothers."

Lin Tianhao was a little surprised.

At this time, [Xiao Yu] was already a half-step source god.

And this tall figure also said that it wouldn't be long before he surpassed his brother.

This means that Xiaoyu's brothers should be at a higher level than Xiaoyu.

"These are the first batch of living beings I plan to create. I intend to fuse my three thousand great ways into them, so that they will be saints from birth."

The sound of [Light Rain] was heard.

When Lin Tianhao saw those black statues, he already had a guess in his mind.

Now that he heard Xiaoyu's words, Lin Tianhao's guess became certain.

【Xiaoyu】 is the source god of Tao.

Carving knife, statue, three thousand avenues, three thousand saints!!

This.....

Aren't they the three thousand gods and demons at the beginning of chaos?

Lin Tianhao knew before that the three thousand gods and demons were actually carved by the God of the Source of Tao.

now.

It all fits together.

just.

Lin Tianhao didn't know before that this place was already a star field before the birth of the three thousand gods and demons.

And that star field was swallowed up by the Source of Tao! !

I... Could it be that I am the reincarnated body of the Source of Tao?

A somewhat absurd idea was born in Lin Tianhao's mind.

mainly.

His sister Lin Qingqing is the reincarnation of the Lord of Qingtian Source.

and.

From the situation of the Lord of Qingtian Source, it can be seen that the rebuilt bodies of super powerful people like them do not conflict with their original bodies.

even.....

A person can have multiple rebuilt bodies.

He has strong bloodline and great talent.

The key is.

He possesses a devouring ability similar to that of the Source God of Tao.

While Lin Tianhao was thinking about this, the picture had disappeared.

If he wanted to know what happened next, he had to keep going.

But the further he went down, the more of the two original forces of time and space he needed to absorb.

"Brother Hao, are you there?"

Just as Lin Tianhao was about to devour the two original forces in front of him and continue moving forward, the loud voice of Glasses came from behind.

Lin Tianhao knew that since Glasses came to find him, it was very likely that the Alata Galaxy had arrived.

Lin Tianhao moved and came in front of Yan Jing.

"Let's go."

Lin Tianhao left the ancient tomb wearing glasses. Without further ado, he said:

"The Alite Galaxy sent a group of people. They didn't come with a large army, but instead destroyed the hearts of the lords of tens of thousands of our territories with a thunderous force."

Lin Tianhao's eyes narrowed slightly. After the Alate Galaxy suffered a setback last time, it actually started to play dirty this time.

"Not only that."

"Among the top adventurers we supported, more than thirty were captured in that strange cube."

"Moreover, instead of killing those people, they wanted to use them to negotiate with us."

Lin Tianhao frowned slightly and captured thirty top adventurers to negotiate with them.

"Top adventurers from various countries have been captured. This matter is a bit troublesome."

Lin Tianhao, wearing glasses, instantly arrived at the capital of the Shanhai Empire.

Blue Star Alliance Conference Hall.

When Lin Tianhao arrived here, commanders from various countries were there. When they saw Lin Tianhao coming, their eyes all fell on Lin Tianhao.

"What do they want?" Lin Tianhao said straight to the point without any nonsense.

"Ten thousand lords' hearts in exchange for one person." Xuan Mingyang said in a deep voice.

The number of adventurers is negligible compared to the army of the Alete galaxy.

The most crucial thing in being able to fight against them is the territory's defense system and the recruitment of soldiers in the barracks.

A lord can build dozens of barracks, and it is not difficult for one barracks to recruit tens of thousands of soldiers every month.

Some special barracks can even recruit millions of soldiers in a month.

All of these have a prerequisite, that is, to have the heart of a lord

Without the Lord's Heart, the barracks will be useless, and it will be very difficult for the subsequent major positions to fight against the army of the Alet Galaxy.

The key is.

If those guys in the Alet galaxy get the Lord's Heart, they may establish territories and barracks on nearby planets, and then recruit soldiers to engage in a tug-of-war with them.

"What do you think?" Lin Tianhao asked.

Xuan Mingyang thought for a moment before saying:

"It's a difficult decision. These people have made great contributions in previous battles..."
