

O games 1931

Chapter 1931: Hit, negotiate!

Lin Tianhao took a step forward, raised his hand and placed it on the shoulder of Yan Jing, and probed his spiritual sense into the body of Yan Jing.

But no matter how Lin Tianhao investigated, he didn't find anything.

"Do you feel anything?" Lin Tianhao looked at the three of them.

"This rune is constantly devouring our lives, and our maximum health points are continuously decreasing." said the man with glasses.

"Maximum health..."

Lin Tianhao's face was solemn. It would be very troublesome if he couldn't find out.

The maximum health value has been continuously reduced. Even though Fatty, Glasses and Lin Qingqing are very powerful, it is still difficult for them to withstand it.

"Brother, don't worry too much. The current maximum health value is decreasing by 30 points per second, which is completely within our acceptable range."

Lin Tianhao frowned. The maximum health value dropped by 30 points per second. This level of drop was indeed not too high.

But Lin Tianhao knew very well that the blood-red bead was most likely a treasure of the Source God level.

The power released by such a treasure is definitely not so simple.

"There's no point in worrying. I've checked my body and found nothing."

"The level of these blood runes should have exceeded our life level."

"To crack it, I'm afraid the only way is to find that crimson bead."

The voice of the great god Pangu sounded.

Glasses followed suit and said:

"Yes, I have some special abilities, but I can't do anything about these blood runes. I can't even find their existence."

Lin Tianhao took a deep breath. He had experienced such a situation himself, that was the coldness in his body.

The chill was in his body, and he was completely unaware of its existence.

Lin Tianhao had already guessed something about the current situation.

Those guys from the Alet Galaxy wanted to negotiate with him based on this.

They targeted the three people closest to him. Although Monkey survived, it was enough for those guys in the Alete galaxy.

"Do you know who that woman is? And what are the beads in her hand?"

Lin Tianhao looked at Xiumoxu Luwang and Allens Roman.

The two looked at each other before Xiu Moxu Lu Wang slowly spoke.

"That woman is the same as me, her name is Xiumoxu Qin Wang. She is not very powerful among the kings of Xiumoxu."

"However, the methods she displayed this time are not what a mortal should possess. I believe she is the reincarnation of a powerful being."

That's it.

Xiu Moxu Lu Wang paused for a moment before continuing:

"As for the bead in her hand, it's unheard of."

It was similar to what Lin Tianhao guessed. The woman should have some fame in the Alate galaxy.

As for the scarlet-red beads, it was understandable that Xiu Moxu Lu Wang didn't know about them.

After all, he didn't know what kind of treasures the Source of Tao had in his hands.

"It's obvious that this must be the treasure of the person in the Alet Galaxy, including the stone tablet from before."

"That guy from the Alate Galaxy has no moral principles and is too shameless to even use his own treasure to help his subordinates. How can we fight him?"

The voice of Pangu God sounded somewhat dissatisfied.

Lin Tianhao pondered for a moment. In the current situation, he could only negotiate with those guys from the Alate Galaxy.

Just as Lin Tianhao was thinking this, a projection fell from the sky and landed in front of him.

The person who came was none other than the woman in the light red dress.

"Xiu Moxu, Qin King?"

Lin Tianhao said calmly, "You sent a projection over here, do you want to negotiate?"

"good."

The projection of Xiu Moxu Qin Wang nodded slightly.

"I believe you have discovered the function of those blood runes."

"I can tell you that those blood runes reduce your maximum health exponentially every day."

"I know your friends are capable, but how long can they hold on?"

Lin Tianhao pondered for a moment, "She is the reincarnation of the Azure Sky Source Master. If you touch her, aren't you afraid that the Azure Sky Source Master will come after you?"

Hear the words.

Xiu Moxu Qin Wang shook his head and said:

"In the Galaxy World, any mortal who fights against our Arlet Galaxy is our enemy. Her identity is indeed special, but she chose to stay in the Galaxy World and fight against us. She is our enemy."

Lin Tianhao remained noncommittal. "Then tell me what you want to discuss with me."

"You can't take any action in the next battle."

"You know, this is impossible." Lin Tianhao said.

"Don't you care about your friends? Are you just going to watch them die?" Xiu Moxu Qin Wang said coldly.

Hearing what Xiu Moxu Qin Wang said, Lin Tianhao shook his head and said:

"I don't want to, but that doesn't mean I will mindlessly compromise on everything."

"Even before this defense battle even began, I already anticipated that many people would die, including my friends and even... my family."

"You are really cold-blooded and heartless." Xiu Moxu Qin Wang sneered.

That's it.

Xiu Moxu Qin Wang paused for a moment and said:

"Your presence has indeed broken many conventional things. If the fighting continues, there will only be rivers of blood."

"So, we're going to use a compromise approach."

"How do you find a compromise?" Lin Tianhao asked.

During this period, he also realized that if the fighting continued like this, there would not be many adventurers left on Blue Star in less than ten years, or at most three years.

"A small-scale duel will be held to determine the ownership of the galaxy."

Lin Tianhao frowned, and before he could speak, Glasses said:

"That's absolutely impossible. Aside from the Snow Emperor, we are no match for your top-tier combat power."

"Besides, you have a super treasure in your hands. We are at a huge disadvantage in a small-scale battle."

Xiu Moxu Qin Wang shook his head and said:

"We've considered this issue. The candidates on both sides of the battle must be below rank seven and cannot possess domains, to avoid suspicion of level stagnation. They cannot use any props, and can only use normal equipment."

"Special equipment, immortal weapons, divine weapons, and even weapons of higher levels are not allowed to be used."

Lin Tianhao frowned. This situation would indeed be much fairer and more just.

"As for how to fight and how many people are in a match, you decide these things, so that you don't say that we in the Alet Galaxy are bullying you."

"Think it over, just tell me."

Lin Tianhao hesitated for a moment before saying, "We need to discuss this."

"It's okay, I'll wait for you."

Lin Tianhao took a step forward and brought everyone to the command headquarters of the Blue Star Alliance.

Lin Tianhao didn't waste any words and directly told the commanders-in-chief of the countries on Blue Star about the situation.

"There must be some trickery here. They've limited the strength so low, and also restricted the equipment and domains. This means they'll tamper with the skills."

Chapter 1932 Discuss and formulate rules!

"Even... they might allow participants to have some rule-based abilities, which would be even more beyond our ability to contend with."

The commander-in-chief of the Bear Kingdom spoke without hesitation.

Obviously.

He immediately saw the loophole in the method proposed by Xiu Moxu Qin Wang.

"Indeed, although we can train our subordinates in this way, it is difficult to achieve the level of perfection in the Alata Galaxy." The US commander-in-chief also said.

Lord Shi, Luo Qinyun, thought for a moment before saying:

"A small-scale fight to decide the outcome, if used effectively, can save us from many casualties. But the other party must have something to rely on to dare to propose this."

"I think the best option is to refuse directly."

"As for Fat God Wudi, True God of Physics, and Guiye Wuqing, they can hold on for a while. We might consider snatching the bead."

"Or, Xuedi, you can exchange your people from the Alete Galaxy with them."

Lin Tianhao frowned, what Luo Qinyun said made sense.

The other party actually mentioned this, it must be a fraud.

"If we limit our level to less than level 10, and can only use novice equipment, and cannot use skills, rules, or any other means, we can only rely on normal attacks to win."

The commander-in-chief of the Bear Kingdom spoke slowly.

"Since we are going to lower the level, then let's do it more thoroughly."

The US commander shook his head and said:

"Your idea is great, but have you ever considered that everyone's chances of winning might be similar, or even lower."

Luo Qinyun said:

"Actually, I think it's not impossible to cross this way."

"The stone tablet before, and the crimson bead now, if those guys in the Alet Galaxy continue to produce treasures of this level, even the Snow Queen will find it difficult to resist."

"Once the Snow Emperor is restrained by them, what chances do we have of winning against these guys from the Alet Galaxy?"

Xuan Mingyang also nodded slightly. "That's right. And aren't you overlooking one problem? In every battle, millions, even tens of millions, of our Blue Star adventurers die."

"Under these circumstances, if they continue to consume like this, we will eventually run out of money."

"But what about them? Do you know how many people there are in the Arlate Galaxy?"

"According to our investigation, most of the guys from the Alete galaxy who are currently dispatched are soldiers recruited from the barracks."

Lin Tianhao was also thinking about this. He enslaved these powerful people in the Alate Galaxy, so naturally he could know some of the situation in the Alate Galaxy.

If they fight a war of attrition, their chances of winning are very low.

This is also the reason why Lin Tianhao has made every effort to slaughter the army of the Alet galaxy in recent times.

They can't afford to waste time!

"Xue Di, what do you think?" Luo Qinyun set her eyes on Lin Tianhao.

"The Creator God of the Alite Galaxy has no moral principles. He took out the most precious treasure, which greatly restricts me."

"A small-scale fight can minimize the damage, and we have a chance of winning."

"The key is how to fight. This needs to be discussed in detail." Lin Tianhao said seriously.

"We don't necessarily have to fight. We can just duel or fight with words," Luo Qinyun said.

The commander-in-chief of the Xiong Kingdom frowned and said:

"A literary fight? That doesn't seem to have much chance of winning."

"It would be enough to make the odds of winning even."

"For example, board games or card games, let level one mortals sit at the gambling table and decide the winner."

"Or, create a dungeon and allow adventurers under level 10 to explore it."

"There's also the search category, where you set a range and search for something. Whoever finds more wins."

Luo Qinyun mentioned many ways of fighting.

have to say.

If the fighting methods she proposed can be guaranteed to be fair and just, then the winning rates for both sides will basically be 50-50.

And they can seek opportunities from this 50-50 situation.

At least.

As things stand now, they don't have even 50% chance of winning against those guys from the Alet Galaxy.

The US commander-in-chief hesitated to speak, but finally couldn't help but said:

"Master Shi Zun, aren't these things you proposed a little too... frivolous?!"

"The success or failure of the galaxy depends on these things..."

Luo Qinyun frowned slightly, but she still looked at Lin Tianhao.

In her opinion, the one who has the final say here is Lin Tianhao.

Her eyes looked over, and everyone else's eyes also looked over.

Seeing their gazes, Lin Tianhao couldn't help but hold his forehead.

"Don't look at me for this kind of thing. I'm good at fighting, and I can handle some simple strategies, but for something of this magnitude, where all the details need to be considered, you guys should handle it."

It would be good if the catastrophe in the Alet galaxy could be temporarily resolved through a small-scale battle.

At the beginning, Lin Tianhao had absolute hostility towards the Alate Galaxy, but after going through so many things, his beliefs began to waver.

It's not just because of Lin Xiaoyu's words.

Although Lin Tianhao felt that what Lin Xiaoyu said was most likely false.

But there is one thing Lin Tianhao believes is true.

That is... the Arata Galaxy and the Milky Way World have all become pawns!!

As for the purpose...it might be to help him improve his strength.

Although Lin Tianhao also found this idea very absurd.

But what happened in the past six years and some information Lin Tianhao learned made him believe this more and more.

therefore.

Being able to end this catastrophe through a small-scale battle may not be a bad thing.

Lin Tianhao doesn't want anyone to suffer because of him.

He wants to protect the galactic world; this is his obsession.

But if the Alata Galaxy can retreat on its own initiative, then there is still the possibility of negotiation.

Luo Qinyun, Xuan Mingyang, the commanders-in-chief of each country, and the think tanks of each country began to discuss.

Lin Tianhao did not urge them. The fat man, the glasses and the sister were not in danger in the short term.

This kind of matter is of great importance and indeed requires careful consideration.

finally.

After a heated discussion, they decided on nine battles, both civil and military.

Best of nine games.

As for why it is nine innings, it is because the number nine is of great significance.

There is also a saying in the Dragon Kingdom that there is an emperor who is the supreme ruler.

Also.

Nine innings can also allow for more variables, so you won't be forced into a desperate situation after losing one or two games.

As for the rules, they are also very restrictive.

First, the level can only be 1, the grade can only be ordinary, and the health value, mana and the values of all attributes must be consistent, and the luck attribute cannot exceed 10 points.

Second, no matter whether it is a verbal or physical fight, no equipment, props, skills, magical powers, secret techniques, rules, laws or other means can be used throughout the entire process. Everyone can only fight with bare hands.

Third, no clones or rebuilt bodies of powerful people can participate.

fourth,.....

.....

Lin Tianhao read it carefully and found that there were many restrictions, including the following game rules, which were also based on probability as much as possible.

That is the final victory, it depends on your luck.

Chapter 1933 Kill towards the starry sky!

But they restricted the attributes, including the lucky attribute.

Not more than ten o'clock...

They are planning to pick a group of non-Africans to fight with each other.

In this regard.

Lin Tianhao didn't think it was a big deal.

"You have negotiated a plan, but it's hard to say whether the other party agrees or not," said Lin Tianhao.

"Then I'll have to trouble Xue Di to talk to them. The above rules, and even the fighting events, cannot be modified." Luo Qinyun said.

Her attitude was very tough.

Because she wanted to make sure that the outcome of this game was 50-50.

"it is good."

Lin Tianhao didn't waste any time and went straight to the super base with the rules and game manual they had set.

The projection of Xiu Moxu Qin Wang was still here. When she saw Lin Tianhao coming, a faint smile appeared on her face.

"It seems that you have reached a conclusion through discussion."

Lin Tianhao directly handed the manual to Xiu Moxu Qin Wang and said calmly:

"You can take a look at this. Here are the game contents and some rules we have developed."

Xiu Moxu Qin Wang took the manual, opened it and began to read.

But in less than ten seconds, Xiu Moxu Qin Wang's brows began to frown.

She pondered for a moment, a solemn look on her face.

"The rules you set are just a test of luck. Everyone has a 50-50 chance of winning."

Xiu Moxu Qin Wang naturally saw the meaning of this rule at a glance.

Lin Tianhao nodded gently, "For the sake of fairness, it's natural to split it 50-50. This doesn't count as bullying you."

Hear this.

Xiu Moxu Qin Wang said coldly:

"Xuedi, do you think that your Galaxy World and our Alite Galaxy can be evenly matched now?"

"If this continues, your sister and the two brothers will die. It will only reduce their maximum health points, and even the resurrection coins will be useless."

"Because when they die, there will be no health bar at all."

Lin Tianhao hesitated for a moment and said:

"Then kill them. I said, from the moment I decided to stay and fight you, I thought that the people around me would be sacrificed."

"I've even thought about my own sacrifice."

Xiu Moxu Qin Wang wanted to say something, but Lin Tianhao interrupted her.

"I know what you want to say, but I don't think you have the right to make the decision. If you want to make a decision, you should go back and discuss it."

Hearing Lin Tianhao's words, Xiu Moxu Qin Wang frowned.

After a while, she looked at Lin Tianhao seriously.

"Okay, I'll go back and ask, but I think you should think carefully about how to save your sister and brother."

The words fell.

The projection of Xiumoxu Qinwang disappeared.

Lin Tianhao looked up at the starry sky. In fact, after seeing the game requirements discussed by Luo Qinyun and the others, he knew that it would be almost impossible for those guys in the Alate Galaxy to agree.

"Brother Hao, if there is really no other way, our sacrifice will not be in vain."

"Before I die, I will do my best to make those guys in the Arlet Galaxy pay the price."

The man with glasses had a determined look in his eyes and murderous intent burst out of him.

"That's right, in the Galaxy world, we will not give up an inch of land. If you can't get rid of the blood runes on our bodies, then let's have a good fight." Lin Qingqing also said.

"It's worth it for me to die for the defense of the galaxy world." The voice of Pangu God also sounded.

Followed by.

The voice of Pangu the Great disappeared, and the fat man's voice sounded.

"Brother Hao, you absolutely cannot compromise because of us. At worst, I'll just charge in and blow myself up. You're trying to threaten you with us? No way!"

Lin Tianhao waved his hand and said:

"It's not time yet. Let's wait and see. Maybe they will agree."

Although Lin Tianhao felt that the probability of them agreeing was extremely small, it was not completely impossible.

and so.

Lin Tianhao still planned to wait a while, just in case there was a good result.

Lin Tianhao didn't have to wait too long before the projection of Xiu Moxu Qin Wang descended from the sky.

She looked at Lin Tianhao coldly and said:

"Xuedi, I've already said that your request is to force the winning rate to 50-50. I don't agree, and no one above agrees."

A cold light flashed in Lin Tianhao's eyes.

"So, we still have to keep fighting."

"beat!"

Xiu Moxu Qin Wang said coldly, "This is not our fault. If you want to blame someone, you can only blame your greed."

"According to what I mentioned before, your chances of winning are still 20%, but you're trying to increase it to 50%. That's really too much of a compliment."

Lin Tianhao sighed heavily, "I thought there would be a day when I would be separated from my brothers, but I never thought that this day would come so soon."

"In that case."

"Then fight!"

Lin Qingqing, the man with glasses, and the fat man all exuded an extremely strong fighting spirit.

The blood-colored runes on their bodies are now unsolvable.

Since they are doomed to die, their death must be meaningful.

"Hahaha, that's fine. We used to be so hesitant, always worried about losing, but this time, I don't think we're afraid of losing anymore."

"Because... there's no worse outcome."

The fat man laughed with his head raised, and he jumped up. An endless amount of power from the earth gathered towards him.

Seeing their reaction, Lin Tianhao couldn't help but smile and said:

"Come on, I'll go with you and test the depth of these armies in the Alete Galaxy."

"If possible, snatch the crimson orb from the Qin King's hand. That way, there might be room for maneuver."

The words fell.

Lin Tianhao put the fat man, the glasses and Lin Qingqing into the mountain and sea map.

Subsequently.

Lin Tianhao notified Xuan Mingyang and told him that the negotiations had failed and they had to take the initiative to attack.

Xuan Mingyang did not stop him. He naturally knew what Lin Tianhao was going to do with the fat man and the others.

Above the stars.

Lin Tianhao's spiritual sense spread out, searching for the location of the Alete galaxy army.

"What? You want to strike back before you die?"

At this moment.

The projection of Xiu Moxu Qin Wang appeared again.

"Don't worry, we won't give you such an opportunity. Our army from the Arlet Galaxy has already withdrawn from the Milky Way."

"If you want to exchange your life for mine, I'm afraid you won't succeed."

Lin Tianhao frowned and raised his hand, and the projection of Xiu Moxu Qin Wang was destroyed.

Lin Tianhao did not take Xiu Moxu Qin Wang's words to heart. The army of the Alate galaxy should not have withdrawn completely.

The reason for saying this is probably because I want them to give up when they realize the difficulty.

"found it."

A cold light flashed in Lin Tianhao's eyes. "They're hiding really well. Are they planning to launch a surprise attack on Blue Star after we leave?"

As Lin Tianhao waved his hand, the void in front of him was torn apart, and the real body of Xiu Moxu Qin Wang appeared from the void.

"Interesting. Is this the ability of the thirteenth level of the Law of Origin of Space?"

Chapter 1934: Fallen into a trap, the front line was broken!

Lin Tianhao smiled without comment and said:

"It's not just the fundamental law, it's also because you're too stupid."

There is a projection of the God King next to Lin Tianhao.

Lin Tianhao knew a little about things like projection.

therefore.

Lin Tianhao knew very well that Xiu Moxu Qin Wang's real body should not be too far away from the projection.

"Absolute stand!!"

Lin Tianhao's actions are absolute.

Subsequently.

Lin Tianhao summoned out all the powerful men including Xiu Moxu·Lu Wang, Allens·Roman, Heitian Aozhen, Qingya Guisha, Jiuyouzhizhu, Dark Angel, etc. without hesitation.

The scarlet bead is indeed powerful, but now Xiu Moxu Qin Wang is just one person, so they are not completely without chance to deal with him.

While summoning everyone, Lin Tianhao was also surrounded by the power of merit.

Although he said before that he didn't care, he was already prepared for the Fatty and the others to sacrifice themselves.

But if they really died, how could Lin Tianhao really not care?

Now, as long as we can deal with Xiu Moxu Qin Wang, all problems will be solved.

Xiu Moxu Qin Wang sacrificed the scarlet bead. On the bead, there was a shining precious light, which protected her whole body in the precious light.

"Boom boom boom——"

Lin Tianhao attacked with all his strength, with swords flashing and sabers flying, and attacks continued.

The fat man, the glasses, Lin Qingqing, and Lin Tianhao's men were all trying their best to break the precious light of Xiu Moxu Qin Wang.

"Break it for me!!"

The carving knife in Lin Tianhao's hand was enveloped by the golden light of merit, and he struck down fiercely.

The precious light was broken, but new precious light soon filled it up and resisted Lin Tianhao's attack again.

The power of rules of the Lord of the Nine Netherworlds, and even the Green Tooth Ghost Demon used the power of rules.

but.

The power of their rules could only cause ripples in the light emitted by the red beads, but they could never break it.

Lin Tianhao looked solemn. His sixteen realms and sixteen saints' visions gathered together, concentrating all his strength to attack one point.

The power gathered in this way, even if it only attacks one point, can break the precious light.

But the problem is.

As soon as the precious light was broken a little, new precious light gathered.

This situation made Lin Tianhao realize that something was wrong.

This crimson bead is a little too outrageous.

"Xuedi, are you desperate?"

"I'm not afraid to tell you that the precious light emitted by this bead is so great that even a Heavenly Dao Saint would find it extremely difficult to break it."

"You are indeed very powerful for being able to break through the precious light, but this is all you have."

"You don't have enough strength to hurt me now."

Xiu Moxu Qin Wang showed a smug look on his face.

She even provoked Lin Tianhao and others in the precious light.

"Accept your fate. Your sister and these two brothers are doomed to die!"

"Not only them, but also your other brothers and friends. They will die, all of them will die!!"

Lin Tianhao did not stop and continued to attack frantically.

He will definitely be able to break through this precious light.

After his soul power increased, Lin Tianhao's perception became clearer.

Every time he broke through the precious light, it would weaken a little bit.

This tiny amount was very, very small, so small that he could hardly notice it.

But after breaking it several times, Lin Tianhao finally found it.

Baoguang is being weakened!!

Since breaking the precious light can weaken it, if he continues, he will definitely be able to kill Xiu Moxu Qin Wang.

"There's drama!!"

Not only Lin Tianhao, but others also discovered that as the precious light was continuously broken, the precious light emitted by the scarlet bead was also weakening.

If they continue at this pace, they will be able to completely break through the precious light and eliminate Xiu Moxu Qin Wang in one day at most.

that's it.

The battle lasted for an hour.

"Something's not right..."

Lin Tianhao frowned, "There are so many masters in the Alite Galaxy, why is there no support?"

"Trouble is here, it seems we can't get in touch with Blue Star!!"

The glasses seemed to have guessed something.

"Tune the tiger away from the mountain?!"

Lin Tianhao also reacted instantly.

"Do you think it's a lure to lure the tiger away from the mountain? Hahaha, then are you sure it's a lure to lure the tiger away from the mountain?"

"If you leave now and want to kill me later, that would be wishful thinking."

Xiu Moxu Qin Wang looked at Lin Tianhao jokingly.

"If you go back and Blue Star is at peace, and I've already escaped, then your sister and these two brothers will be dead."

Lin Tianhao's face turned pale. This was almost an open conspiracy.

If he goes back now, his state of mind will definitely be affected regardless of whether Blue Star is attacked or not.

If you go back.

If the army of the Alet Galaxy did not attack the Blue Star, it would be a waste of resources, forcing the fat man, the glasses and the sister into a desperate situation.

If a war broke out, it would have lasted for more than an hour now. Given the abilities of those lunatics in the Alet Galaxy, they must have achieved considerable results.

"Go back, no regrets!!"

Glasses knew what Lin Tianhao was thinking and made the decision without hesitation.

"Return!!"

Lin Qingqing also made a decision.

Protect the Galaxy World!!

This is faith!!

A belief that transcends life and death!!

Lin Tianhao led everyone back to Blue Star at high speed.

When Lin Tianhao arrived at Blue Star, as expected, the army of the Alate Galaxy was wreaking havoc everywhere.

"Xue Di, your opponent is still me."

Xiu Moxu Qin Wang followed closely behind him like a ghost.

Lin Tianhao saw the messages in the group and the messages on the Ragnarok forum, and his heart began to bleed.

"Ten people from the Alet Galaxy are carrying space artifacts, each containing over 50 billion troops. A total of over 500 billion troops are attacking all major defense lines."

"Line 1241 has been broken, and the Alet Galaxy army has begun to attack the Shanhai Empire."

"Line 71 was broken, and six top adventurers fell."

"The Heart Demon Ancient City is still holding on. Even with ten equal beings, it's still difficult to turn the tide..."

.....

Lin Tianhao's sixteen realms have been fully deployed. He wants to take action, but is blocked by Xiu Moxu Qin Wang.

"Damn it, damn it all!!"

Lin Tianhao entered a demonic state, tearing through the void and supporting battlefields everywhere.

But wherever Lin Tianhao went, he saw devastation.

The previous speculation was correct. After a year of ceasefire, those guys in the Alete galaxy were indeed brewing a big wave.

just.

Instead of a direct frontal attack, they chose to play a conspiracy.

The missiles, the blood rain, the army of tens of billions, were nothing but smokescreens.

even.....

In order to trick him, he pretended to negotiate, hoping to decide the outcome of the defense through a small-scale battle.

Fatty, Glasses, and Lin Qingqing were tricked, and the negotiations failed. They then guessed that they would maximize their value and attack them...

Chapter 1935 Emotions intensified!

It is actually no secret that there is a projection of the God King around him.

Therefore, they knew the approximate distance between themselves and Xiu Moxu Qin Wang.

His mastery of the thirteenth level of the Law of Origin of Space was indeed powerful, but he shouldn't have discovered Xiu Moxu Qin Wang so easily.

and.

If Xiu Moxu Qin Wang really wanted to leave, he should have left already. Why would he wait for them to catch up?

Hahaha.....

How stupid!!

Lin Tianhao's eyes were bloodshot. Sixteen realms, arrows shot from the heart, sixteen great saints' visions...

Lin Tianhao mobilized all the means he could use.

The army of the Alet galaxy was being slaughtered crazily by Lin Tianhao, but it still could not change the fact that all the defense lines had been breached.

however.

Before Lin Tianhao could kill to his heart's content, the armies of the Alate galaxy began to disappear at a speed visible to the naked eye.

Lin Tianhao saw that someone used a space magic weapon to take away the army of the Alate galaxy.

Xiu Moxu Qin Wang was chasing after them relentlessly, and the ten people who were responsible for taking away the army of the Alet Galaxy were also extremely powerful, and ordinary adventurers could not stop them at all.

At this moment.

The crimson bead flew up into the sky, enveloping Lin Tianhao.

See this scene.

The power of Lin Tianhao's merits gathered on the carving knife, and he slashed it out, breaking the precious light.

However, Xiu Moxu Qin Wang's purpose was obviously not to kill Lin Tianhao.

All she had to do was to slow down Lin Tianhao.

"Snow Emperor..."

"I've said it before, if you really fight with our Alite Galaxy, your chances of winning are less than 10%."

Xiu Moxu Qin Wang clasped her hands together, and golden rays of merit shot out from her palms and flew into the scarlet beads.

The crimson bead shone brightly, completely enveloping Lin Tianhao in the light.

"Xuedi, I know you're unwilling to accept this, but you're also quite proud of yourself. This orb is a supreme treasure that that great being borrowed from an unrivaled power."

"It's not a loss for you to fall into the hands of such a treasure."

Lin Tianhao's heart was trembling. He had thought that the Alite Galaxy would have a big wave, but he had never thought that they would be so outrageous. They...

That great being?

The God of the Source of Heaven?

Is the God of Chutianyuan going to borrow the treasure from the peerless powerful man?

"Xuedi, you are very strong, but now you are destined to lose. This is your fate."

The carving knife in Lin Tianhao's hand continuously broke through the precious light, and the precious light quickly gathered together, always confining Lin Tianhao in the precious light.

"Xue Di, think about it carefully. This time, we didn't destroy you and gave you a chance. Next time, there won't be such an opportunity."

The words fell.

The precious light converged, and Xiu Moxu Qin Wang entered the scarlet bead and disappeared in an instant.

However, the army of the Alate Galaxy was completely destroyed, leaving only the devastated blue planet.

Lin Tianhao clenched his fists. He was angry, and also...felt deeply powerless.

"Xuedi, this is not your fault."

The voice of the great god Pangu sounded.

"From the beginning of this catastrophe, our chances of winning were slim to none. If those in power had shown a little respect, perhaps we wouldn't have lost so miserably."

Lin Tianhao took a deep breath and tried to calm himself down as much as possible.

"Everyone has seen it today. Even if we don't go out, the scarlet bead's light can still trap you, Brother Hao."

"As long as we can hold you, Brother Hao, back, they can attack with impunity."

Glasses also appeared not far away.

"The so-called one-year truce was harmless to them. In fact... they even mobilized the entire Arlett galaxy's army during this year."

"Sending out an army of 500 billion people in one go, along with so many experts, is simply not something we can contend with."

Lin Tianhao's spiritual sense spread over a wide area, and he saw corpses everywhere.

"The situation may be worse than you think."

The voice of the Lord of the Nine Netherworlds sounded.

"That guy could have trapped the adults with the precious light, but they still chose to retreat. This would make people think that the Arlet Galaxy army retreated because the adults returned."

"Is there anything wrong with this?" Lin Qingqing asked.

"So, if the adults hadn't left, would this catastrophe have happened on Blue Star?"

"Wouldn't so many people die?"

Glasses frowned, "What Brother Hao has done for Blue Star is obvious to all. Even if a few people think so, it won't affect the overall situation."

"Besides, there's no need for Haoge to care about what they think."

The Lord of the Nine Netherworlds shook his head. "Have you forgotten the bloody rain from before? This calculation began right after the ceasefire."

"The blood rain will cause wild monsters to go berserk, and it will also make adventurers more prone to excessive negative emotions."

Lin Qingqing wondered, "What is their purpose in doing this?"

"The power of luck and the power of faith are two very high-level powers."

The Lord of the Nine Netherworlds spoke solemnly, "I once traveled through the endless starry sky and saw the power of faith in a small world converge together, eventually forming a faith barrier that forcibly protected them from destruction."

"Your Excellency has the potential to gather all the power of faith. If the battle continues normally, those adventurers and the natives will place their hopes on you."

"That would form an extremely terrifying force of faith."

Lin Tianhao opened the Gods Forum.

really.

Some extreme language has appeared above.

"Where is Xue Di? He ate up all the resources for Ragnarok by himself, and then he wasn't there at the crucial moment!!"

"Could it be that Xuedi is collaborating with the Alite Galaxy? I saw the projection of a powerful figure from the Alite Galaxy staying in his super base for several hours!!"

"Haha, eating resources and doing nothing, this beast should just self-destruct and apologize!!"

.....

Such remarks are rare in the forum, but they appear continuously.

Lin Tianhao frowned. He could even feel that the luck of the human race in him was beginning to diminish.

It's not just because a large number of adventurers died this time.

Because of the luck lost due to death, it disappeared when those guys in the Alete galaxy evacuated.

The human luck he has lost now comes from the change in attitude of other adventurers towards him.

Other countries also noticed this change and began to speak up for Lin Tianhao.

However, the fate of these countries was like a spark that ignited a powder keg, and the posts they wrote to help were quickly deleted.

"Still coming out to speak for Xue Di? Didn't you see how many people died this time?"

"Well said! I know it with my ass. When Xue Di leaves, she will take you lickers with her. We are destined to be abandoned, become abandoned pawns, and then be destroyed by those guys in the Alite Galaxy!"

Chapter 1936 Charm Slave!

"It's always been like this. They fight each other, and who gets hurt in the end? Isn't it us ordinary people?!"

"The vampire Xuedi is so full that he doesn't care about anything else. If he doesn't want to defend, he should just hand over all his resources and then charge towards the Alete Galaxy army to self-destruct and apologize!!"

"Self-destruction to apologize!!"

"Self-destruction to apologize!!"

.....

As comments appeared one after another, their rhetoric grew increasingly heated.

If anyone comes out to speak for Lin Tianhao, he will immediately become their target of attack.

"They...are going too far!!"

When Lin Qingqing saw the situation in the Ragnarok forum, she gnashed her teeth in anger.

Glasses also frowned, "Is the impact of the blood rain so great? Is there someone deliberately stirring up trouble?"

"definitely."

The great god Pangu gave a very definite answer, "Ragnarok is a special forum, there is no forum on Blue Planet" that can delete comments. They seized on this point, so they are so fearless.

"The most important thing is that nicknames can be hidden on the Ragnarok forum, so it's difficult to find people."

Public opinion war!!

Use this method to cut off his luck.

can only say.

Those guys in the Alet Galaxy should be more difficult to deal with than he imagined.

"If there is a traitor, and this traitor is hiding in the dark, it will be very troublesome to deal with him," said Glasses.

Because the Ragnarok forum is not under their control, it is difficult to identify people once they hide their nicknames.

"If it's a betrayal of the soul, it's really hard to find out."

"But so many people died in Blue Star's fight against Ragnarok. It's not easy to get the adventurers to betray."

"Especially a year ago, although our battles were fierce, we basically won."

Lin Qingqing looked serious:

"Therefore, they are likely using some means of controlling people's minds to control some of the adventurers."

Lin Tianhao nodded, he thought the same thing.

"I thought about threatening them with relatives, but the probability of that happening is still quite low, because it's possible to force a few, or even dozens of adventurers into submission."

"But the scale of this incident is clearly more than a few dozen people. The number should be over a thousand, or even more."

The words fell.

Lin Tianhao brought everyone directly to the Blue Star Alliance's headquarters.

Seeing Lin Tianhao coming, Xuan Mingyang immediately stood up.

"Xuedi, someone must be maliciously instigating the Ragnarok forum."

Lin Tianhao nodded slightly and said seriously:

"I think so too. I guess someone is controlling them."

The words fell.

Lin Tianhao summoned Xiumoxu Furnace King with a wave of his hand.

"Furnace King, you speak."

Xiumoxu Luwang nodded slightly and said:

"In the Alete galaxy, there is a top-tier expert named Xiumoxu Meiwang. She is particularly skilled at enchanting people. You don't even need to see her; just her presence near you will be enough to charm you."

"If her inner defenses are completely broken, one will become her slave. We also call such people charm slaves."

Luo Qinyun immediately asked, "How do we find the charm slave?"

"Charm slaves are basically all men. Although women can be charmed, it is extremely difficult for them to be transformed into charm slaves."

"From the outside, there's nothing unusual about a Mei Nu. His biggest characteristic is... misogyny."

"They will hate all women except the Charming Queen, and will subconsciously distance themselves from and reject other women."

Everyone present frowned, "If that's the case, then it will be quite troublesome to find it."

"We have currently counted 1,789 accounts with particularly aggressive rhetoric, and this number is still increasing."

"But compared to the number of adventurers, it's still too few."

Lin Tianhao hesitated for a moment, then asked:

"How many adventurers died this time?"

Lin Tianhao already had some guesses in his mind, but he also wanted to hear a more accurate number.

"We're still counting, but the number we've counted so far has exceeded 500 million."

"Not only that, the death toll from the demon army and the armies dispatched by various factions of the Mountain and Sea Empire exceeded 10 billion."

Lin Tianhao's heart trembled.

In just over an hour, the death toll was so huge.

and.

This is still an incomplete statistics.

"And across the front lines, over three thousand Lords' Hearts have been destroyed and looted. It will be very troublesome for us to rebuild our defenses later."

Lin Tianhao took a deep breath, looked at Xiumoxu Furnace King, and asked:

"Besides misogyny, do you know any other way to find them quickly?"

Hear the words.

Xiumoxu Luwang thought for a moment before saying:

"Spiritual awareness detection, in more conventional terms, is mental testing."

"The spirit of the charmer is in a highly excited state."

Lin Tianhao sighed. His spiritual sense was very strong, so it was not easy to search on a large scale.

but.

Maybe there are other ways.

"Roman."

Lin Tianhao called out Allens Roman.

"Use Xuanwu to calculate the Heavenly Armor!!"

The corners of Allens Roman's mouth twitched, but he didn't dare to refuse. He could only use the Xuanwu Suantian Armor according to Lin Tianhao's instructions.

"I figured it out. Your guess is correct. It is indeed Xiu Moxu Mei Wang's slave who is causing trouble on the forum."

"She controls a total of three thousand succubi."

"Those are their game nicknames." Lin Tianhao said.

This Xuanwu Tianjia seems to be very useful.

Allens Roman nodded and activated the Xuanwu Suantian Armor again.

After Allens Roman finished her calculations, her entire aura weakened.

Followed by.

Allens Roman waved his hand, and densely packed names appeared on the papers in front of him.

"Arrests!"

After getting the list, Xuan Mingyang and others ordered the arrest without any hesitation.

With the names, it would not be difficult for all countries to work together to catch these people.

after all.

They probably couldn't imagine that there would be such a thing as the Xuanwu Heavenly Armor.

"Someone is coming from the Alata Galaxy again." At this moment.

A message came from the super base.

A cold light flashed in Lin Tianhao's eyes. He took a step forward and appeared in the super base.

This time, it was still the projection of Xiu Moxu Qin Wang. She looked at Lin Tianhao with a smile and said:

"Xue Di, the small-scale duel we mentioned earlier is still valid. Here are the rules and methods of the duel we proposed. You can take a look."

That's it.

Without waiting for Lin Tianhao to speak, Xiu Moxu Qin Wang continued:

"I know you're angry now, but so what? You can't change anything."

"If you agree to our request, you still have a chance. If you refuse, you won't have any chance at all."

The words fell.

Xiu Moxu Qin Wang didn't care whether Lin Tianhao listened or not. He left the booklet and left.

Chapter 1937 Faith Shaken!

Lin Tianhao glanced at the booklet, and the contents of the booklet were imprinted in his mind.

After seeing the contents of the booklet, Lin Tianhao realized their greed.

First, the level cannot exceed level ten, but there are no attribute requirements or job transfer requirements, only level requirements. You can fight in a group or individually.

Second, you can participate in chess and card games, but you must use the Alone cards from the Alite Galaxy to play the game.

third.....

.....

According to the contents of this booklet, whether it is a verbal or physical fight, their chances of winning are slim.

Not to mention 20% or 30%, their chance of winning is not even 10%.

Lin Tianhao did not destroy the booklet, but took it back and gave it to Xuan Mingyang.

"I wanted to destroy it, but I thought you guys were still worthy enough to take a look."

"No matter what you think, I will not agree to the above content."

Hear this.

Xuan Mingyang opened the booklet.

Everyone else also focused their attention on the booklet.

"Their request is too much!!"

Luo Qinyun spoke with a hint of anger, "According to the rules of the game they set, our chances of winning are zero."

"There's nothing much to say. This is no different from handing over the galaxy world to others."

Xuan Mingyang also spoke in a cold voice, "We in the Dragon Nation cannot accept the terms above."

The commander-in-chief of the Xiong Kingdom also shook his head and said:

"This condition is totally unacceptable, and I reject it."

Just now.

The US commander-in-chief slowly spoke and said:

"We shouldn't have much of a chance if we fight till the end."

"I think we can negotiate. If we lose, how about our Galaxy World becoming their colony?"

Everyone's eyes were focused on the US commander-in-chief.

"The essence of colonization is resource deprivation, but overall, we were able to survive."

"Commander Xuan, your Dragon Nation has the right to speak on this matter. I shouldn't have said anything nonsense."

"It's true that colonized people will be exploited, but there won't be many casualties. How many people have died today in just over an hour?"

"If we continue fighting now, there will be another eight years and eight months left. How many more people will die?"

"Also, ask yourselves, if we continue to fight like this, what are our chances of winning?"

That's it.

The US commander-in-chief paused for a moment before continuing:

"I know it's not nice to say this, but as long as we're alive, there's hope."

Xuan Mingyang shook his head firmly, "I don't accept compromise."

"This is our only chance. If we compromise this time, we won't have any chance at all later."

The commander-in-chief of the Xiong Kingdom nodded slightly and said:

"Right now, the restrictions only allow mortals to take action, so we can still put up a fight. If we compromise, those gods and saints will enter the fray, and it will be even harder for us to turn things around in the future."

The US commander-in-chief immediately said:

"We still have the Snow Emperor. As long as the Snow Emperor is still here, we still have a chance."

Xuan Mingyang's eyes remained firm. He shook his head without hesitation and said,

"I cannot accept compromise."

"The Dragon Nation will not accept compromise!!!"

"Not everything can be weighed in terms of pros and cons. Once you kneel down, it's hard to stand up again."

"Some shackles, once put on, can never be removed."

The commander-in-chief of the Xiong Nation took a deep breath, looked at the commander-in-chief of the United States, and asked:

"You want to compromise because you feel that even if you win in the end, the United States will inevitably be annexed by the Dragon Nation, right?"

"So, in your opinion, compromising with others and being swallowed up by the Dragon Kingdom are the same, right?"

The commander-in-chief of the Xiong country spoke very bluntly, without giving the commander-in-chief of the United States any face.

"Don't talk nonsense!!"

The US commander-in-chief spoke with some irritation.

"The opinions I have put forward are decisions made based on our current situation. I hope you can understand this."

"Xue Di, tell me yourself, if you fight that woman again, how confident are you that you can defeat her?"

"not sure."

Lin Tianhao didn't lie. "The scarlet bead in her hand has a very, very strong restriction on me. Even if I try my best, I can't break it in a short time."

There is one thing Lin Tianhao didn't say. If he uses the power of luck, he may be able to break the precious light emitted by the crimson bead in a short time.

"Everyone has heard it. I'm not saying it's bad, but we can still hold on. It's mainly because the Snow Emperor's domain is large and has strong lethality."

"But if Xue Di is restrained, do we still have a chance of winning?"

Luo Qinyun frowned, "We've been too dependent on the Snow Queen. We've suffered heavy losses in this war, but the Alate Galaxy army hasn't escaped unscathed either!"

"The number of troops they sent this time exceeded 500 billion, and the number of troops from the Alate Galaxy we killed was no less than 10 billion."

"If the battle continues, regardless of who wins or loses, the price the Alet Galaxy will have to pay will be incalculable."

Xuan Mingyang raised his hand and said:

"Convene a meeting of alliance members. This matter is of great importance. The final decision will still depend on the meeting."

Lin Tianhao took a deep breath. If this kind of thing got out of hand, it would definitely be moved to the conference room.

Here comes the problem.

What kind of result will be achieved by discussing this kind of thing?

soon.

Top leaders from every country have come, and some top adventurers from various countries have also arrived in the huge conference room.

Lin Tianhao sat on the side of the Dragon Kingdom and watched everything happen silently.

What happened recently made him feel more and more irresistible.

Not only that.

He also had some of his own speculations about the cause of the battle between the Milky Way World and the Aleta Galaxy.

As for the answer that the incarnation of the Source of Tao gave to Lin Tianhao when he was in the God-killing Academy, Lin Tianhao didn't quite believe it.

In addition, the news he heard from Lin Xiaoyu recently also shook Lin Tianhao's beliefs.

"It can't be that Lin Xiaoyu is also part of their plan."

Lin Tianhao suddenly had an absurd thought: Lin Xiaoyu was from the Alite Galaxy. What Lin Xiaoyu said actually had only one purpose, which was to shatter his belief!

such.

He would feel that the Milky Way World and the Alata Galaxy were the same, both being mere pawns in the eyes of those bigwigs.

then.....

He is the one who benefits, and the Milky Way World and the Aleta Galaxy are both victims.

Lin Tianhao took a deep breath and tried his best to calm his emotions.

He had thousands of thoughts in his mind, but in the end he suppressed those random thoughts.

In fact, no matter whether Lin Xiaoyu is a pawn or not, if these people in front of him want to give up resistance, no matter how much he says, it will be useless.

Chapter 1938 The underground seal is loosened!

The meeting began, and they began to discuss the pros and cons of compromising and becoming a colony of the Arlet system.

Lin Tianhao just listened and didn't interrupt.

As time goes by, voices of support and opposition continue to emerge.

Lin Tianhao never said a word, he was like a transparent person.

Because the debate now is still going to be resolved by voting.

In the end, Luo Qinyun, who was in charge of presiding over the meeting, set her sights on Lin Tianhao.

"Our discussion is almost over. Now, I want to hear the opinions of top players like Ragnarok."

"Xuedi, you come first."

Lin Tianhao frowned slightly, took the microphone, and said lightly:

"My personal subjective will is uncompromising. I always feel that we are not completely without a chance of winning. Our losses this time are heavy, but troops have been dispatched from across China, and even from the Demon Cave. The ones who have suffered the greatest losses are not us."

"To put it bluntly, we Blue Star adventurers are far too few compared to the number of creatures within Ragnarok."

"It was just my initial thought. You only treated them as NPCs, not as members of the Galaxy World, as our own people!"

As soon as Lin Tianhao's voice fell, the voice of Pangu God rang out.

"What Xue Di said is very true. You can do whatever you want, but... have you ever considered the thoughts of the creatures in Shenzhou?"

"We not only have adventurers participating in the battle, but also the assistance of the army from the Divine Land and the soldiers recruited from the barracks."

"Many of you should know me. I have now taken over the body of the Fat God Invincible. My true identity is Pangu, the Demon God of Strength!!"

After hearing what Pangu said, those who knew his identity were not surprised.

But those who didn't know his identity showed surprise on their faces.

Pangu, the God of Power!!

This is not only very well-known in Longguo, but also in other countries.

Just like the God in Western countries, there are few people in Long Country who don't know God, and there are also few people in other countries who don't know the great god Pangu.

"I just want to say that your decision cannot affect the Galaxy World. Your decision cannot even represent Blue Planet."

"There are nearly 10 billion people on Blue Star, but how many people came to this meeting? Over 10,000."

"Can these few people represent Blue Star? No!!"

Jin Delan took over the words from Pangu and said seriously:

"I agree with Great God Pangu on this point. From the beginning of this war, there is no turning back."

"If we all retreat, the Galaxy World will be finished."

"As for what you said before, asking Xue Di to save the Galaxy World, do you really think it's possible?"

"The Snow Queen has great talent and strength, so it's not difficult for her to become a god or a saint. But above the saints are the Heavenly Saints and the Eternal Realm."

"Above the realm of eternity is the realm of the ruler of the Alete Galaxy. How long do you think it will take for the Snow Emperor to reach that realm?"

Glasses also stood up and said, "I refuse to compromise either. If we compromise, all of us will die, especially Xue Di."

"It's no longer a question of whether he can grow to that level, it's a question of whether he can survive."

.....

Most of the top adventurers in Ragnarok don't want to compromise.

There are also a small number of people who want to compromise.

Because they feel that if they continue to fight, they will all die, and the only hope is compromise.

They have strength and talent. Following the Alet Galaxy, their lives may not be very good, but at least they will not be too bad.

"Beyond the Milky Way world, there is the endless starry sky, the divine realm, and many, many wonderful places."

"If we compromise now, even if those guys in the Alite Galaxy don't kill us, we will be trapped here forever."

"The world is so big, I want to go and see it." Gui Ye Wuqing (mechanic) said.

Luo Qinyun nodded seriously, "I think I know what you're thinking, but let's vote anyway."

"I choose... not to compromise, to fight to the death."

Voting began and many people started voting.

The final result was that the number of votes for non-compromise was relatively large.

But the number of people who voted for compromise exceeded 4,000!!

There are 12,565 people attending the meeting today, and 4,000 of them, or one-third, want to compromise.

This is also because of the speeches of Lin Tianhao, Pangu God, Jin Delan and others.

If this were not the case, more people would choose to compromise.

"Now that the meeting has come to a conclusion, I hope everyone can continue to unite and fight against the Alate Galaxy." Luo Qinyun said seriously.

The question of re-establishing the line of defence was then discussed.

But Lin Tianhao didn't want to get involved.

He took a step forward and arrived at the sealed place underground.

As soon as he stepped into the sealed area, Lin Tianhao immediately realized that something was wrong.

Because the sealed monsters in this sealed place seem to become more excited.

Not only that.

Lin Tianhao also discovered that the seals on them seemed to have loosened a little.

"how so....."

Lin Tianhao's expression was solemn. "Lord of the Nine Netherworlds, Angel of Darkness, and Divine Monk of Tibet, please come out and take a look. Is the seal here loosened?"

Although Lin Tianhao felt it, he still wanted to confirm it.

"It's indeed loose."

The Dark Angel gave an affirmative answer.

"This sealed area is so vast, and the number of sealed monsters is so great. Under normal circumstances, for the seal to loosen to the point where we can easily discover it, the energy required is incalculable."

Lin Tianhao naturally knew this problem, so he felt even heavier in his heart.

Just like the sea area of Blue Star, the seal loosened a little, as if the sea level in the sea area dropped by one centimeter.

Just looking at one centimeter, it doesn't seem like much.

But considering the area covered by the ocean, the amount of sea water is difficult to estimate.

"Amitabha, could this also be the work of someone from the Alite Galaxy?"

The Tibetan Sea Divine Monk pondered for a moment and continued:

"The Alite Galaxy wants to enslave the Milky Way, and these sealed monsters are not easy to deal with, even for those guys in the Alite Galaxy."

"If they release these monsters, the entire galaxy will become a monster paradise, and their enslavement of the galaxy will be meaningless."

"Could it be that someone in the Galaxy World wants to die together with those guys in the Alata Galaxy, so they are preparing to open the seal here?" The Lord of Jiuyou guessed.

Lin Tianhao thought for a moment before saying:

"That's possible, but even glasses can't enter this sealed place. Who can break the seal?"

"and....."

"In the Galaxy World, among the mortals, who has the ability to break the seal here?"

Chapter 1939: Ocean of Blood!

The first person Lin Tianhao thought of was Lin Xiaoyu!

Although Lin Tianhao didn't quite believe what Lin Xiaoyu said, there was one thing he couldn't deny.

That is Lin Xiaoyu and his mysterious father. They should be strong enough.

Besides.

Lin Tianhao had no better guess in his mind.

Those guys in the Alet Galaxy don't seem to have any motive, and no one in their own galactic world should have this ability at the moment.

Unless the Source God of Tao or the Source Master of Blue Sky takes action personally.

and many more! !

Could it be that the Source God of Tao or the Source Lord of the Blue Sky does not want the Milky Way World to be plundered by the Alate Galaxy, so he wants to destroy the seal below.

"Luo Man, try to deduce it."

When Allens Roman heard what Lin Tianhao said, his face became extremely ugly.

"Sir, this place is obviously very serious. If I force the deduction, I'm afraid my life will be in danger."

Lin Tianhao glanced at Allens Roman and asked, "Are you going to disobey my orders?"

"Don't dare."

Allens Roman gritted his teeth, took out the Xuanwu Suantian Armor, and began to calculate.

But just as she began to calculate, she spat out a mouthful of blood.

The extremely dense power of doom emanated from the Xuanwu Suantian Armor, and Allens Roman was enveloped by the power of doom. Her aura began to wane at a speed visible to the naked eye.

Lin Tianhao was well prepared and had already activated the Heaven-Devouring and Earth-Devouring Power with all his strength. The moment the power of doom appeared, Lin Tianhao began to devour it.

"Ding, you have swallowed the power of doom. Doom comprehension +200, doom resistance +200, magic resistance +20000, soul power +20000, free attribute points +20000."

"Ding, you have swallowed the power of doom..."

.....

With just this one breath, Xuanwu Suantianjia was completely enveloped by the power of misfortune.

Lin Tianhao looked solemn. This situation was indeed beyond his imagination.

"How about it?"

While Lin Tianhao was absorbing the power of misfortune, he also asked Allens Roman about the results of his deduction.

"All I saw was a vast ocean of blood. Just one glance and I suffered a massive backlash."

Allens Roman was weak and looked like he was going to die in the next moment.

Lin Tianhao frowned, a sea of blood?

This amount of information is a bit too little.

Before, Allens Roman was able to calculate the three great saints with the help of Xuanwu Tianjia.

But this time, the information she deduced was a little hard for Lin Tianhao to accept.

but.

Lin Tianhao thought of another problem.

That is.....

When Allens Roman used the Xuanwu Tianjia to calculate the age of the ambitious Taoist master Canzhu, his reaction was to trigger heavenly thunder.

"grown ups....."

"Master Mo Xin, the young boss of the Demon Cave, Canzhu, might really have a problem."

Before Lin Tianhao could speak, Hei Tianaozhen's voice rang out.

"I thought about it too."

Lin Tianhao had a serious expression. He had successfully calculated the number of these immortal monsters, but he had calculated that Canzhu was not young, which was why he had attracted the thunder from the sky.

Does that mean that Canzhu is no longer young and is even more terrifying than these monsters?

Or.....

Canzhu is not young at the same level, it is much higher than these immortal monsters!

"The demon cave, the monsters, it's a bit unrealistic for them to come down and help us fight against the army of the Alete system."

"But something like this actually happened. This... is too unreal."

Hei Tian Ao Zhen continued:

"Perhaps, these monsters are related to the monsters in the Demon Cave."

The Lord of the Nine Netherworld shook his head and said:

"I've observed the demon army in the Demon Cave. Their life force isn't very high. Compared to these unkillable monsters before us, they're nothing."

The Dark Angel took over and said:

"Indeed, these monsters have extremely high life levels. Even with your abilities, they can't be killed. This only means that their life levels have reached the eternal realm."

"It's just that their strength is not at the eternal level, it's just that their life level has reached the eternal level."

Lin Tianhao had considered this problem before, but he himself was not willing to accept it.

"These monsters cover the ground of Blue Star, and the density is so great that their number may exceed ten trillion!!"

"Such a huge number of living beings, looking at the endless starry sky, may not be too many."

"But their life levels have reached the eternal realm, which is very terrifying."

Lin Tianhao was not unable to accept encountering a monster at the eternal level.

What he really couldn't accept was the number.

"Changing the subject, how do you think we can deal with Xiu Moxu Qin Wang?"

"Request the Lord of the World to recuse himself." The Dark Angel said seriously.

"During this period of time, I have been thinking about what the biggest problem is in the war between the Galaxy World and the Arlet Galaxy."

"The final conclusion I came to is that it's unfair!!"

"Although the higher-ups have decided to keep both sides of the battle within the divine realm."

"But I still think this is unfair!!"

"Because you are always under the surveillance of the God of the Source of Heaven, he can monitor your every move."

"If he feels the situation is not favorable to them, he can find a way to deal with it."

"The most critical thing is monitoring."

Lin Tianhao frowned, "How do I apply?"

"Will the Star Administration intervene?"

"Call the Blue Sky Source Master. She might be able to ask the Starry Sky Administration or the Thunder Punishment Temple to intervene."

"Only the intervention of these superpowers can change the current situation."

Lin Tianhao reacted instantly, "You mean, if we don't have the surveillance of Chu Tianyuan Shen and the others, our strategy will not just be defensive?"

"good."

The Dark Angel nodded heavily. "From the border of the Milky Way to Blue Star, the distance is not short. The crimson bead is indeed powerful and of high level, but it doesn't seem to be a treasure that can be used on a large scale."

"Compared to the ability to cause large-scale damage, Xiu Moxu Qin Wang cannot compare to you, my lord."

Lin Tianhao also understood the Dark Angel's thoughts.

Avoid Xiu Moxu Qin Wang and break through from other aspects.

But there is a prerequisite, that is, the battlefield cannot be on Blue Star.

Blue Star is still too small for a strong man like Xiu Moxu Qin Wang.

As long as he is on Blue Star, it will not be difficult for Xiu Moxu Qin Wang to catch up with him.

"Okay, let's give it a try."

Lin Tianhao took a step forward and arrived at the super base.

"Lord Qingtian Source Master!!"

Lin Tianhao began to call out. As long as the Lord of Qingtianyuan was there, he should be able to hear his call.

as predicted.

Lin Tianhao had just called out the third time when a figure appeared beside him.

"You called me here to negotiate peace and surrender?"

Chapter 1940: The chess game was decided years ago!

Lin Tianhao was a little surprised, "Don't you know what we just talked about?"

"Blue Star is a little special. We can't peek into every corner." said the Lord of Qingtian Source.

Lin Tianhao was a little surprised, "Do you know where the letter is?"

"The sealed place?"

"There seem to be quite a few sealed areas within Ragnarok."

Lin Tianhao looked solemn. It seemed unnecessary for the Lord of Qingtianyuan to deceive him about such a matter.

and so.....

The Azure Sky Origin Master truly didn't know about the sealed place beneath the Blue Star! !

Because the sealed place under the Blue Star is too special.

"Alright, this time I came here mainly to talk about two things. First, I want to ask the Lord of the World to recuse himself."

"I feel that this battle is not truly fair."

"Because Chu Tianyuan and his men are monitoring us from outside the Milky Way, isn't his divine sense monitoring equivalent to that of a super scout?"

After hearing what Lin Tianhao said, Lord Qingtianyuan couldn't help but laugh.

"You're not that stupid. I can agree to this. However, if I make this request, I guess even masters above the level of gods won't be allowed to enter a certain area outside the Milky Way."

"That's the best." Lin Tianhao said.

The Azure Sky Origin Master nodded slightly and said:

"What else do you want to do?"

"I want to ask someone, what's the situation with the current boss of the Demon Cave, that Canzhu who is not young?"

The Azure Sky Origin Master shook his head, "This seems to be beyond my scope of discussion."

"I just asked casually." Lin Tianhao said.

The Azure Sky Origin Master hesitated for a moment, then said:

"The situation in the Galaxy World is much more complicated than it appears on the surface. Some people exist simply to get a piece of the pie in the Galaxy World. This also applies to me. I placed so many rebuilt bodies in the Galaxy World for a reason. I don't necessarily mean that Canzhu is not young. Just listen to me."

"I understand." Lin Tianhao nodded.

According to the source master Qingtian, Canzhu is not young and may not be from the Galaxy World.

As for when he started planning this, Lin Tianhao was not quite sure.

"I will go to the Starry Sky Administration, but I don't know when I can get the application approved."

That's it.

The Blue Sky Origin Master paused for a moment before continuing:

"But you don't have to worry too much, because there are quite a few people who want to get a piece of the pie in the Galaxy World. They actually don't want the Galaxy World to lose so quickly."

"Therefore, the probability of success of this meeting is still very high."

"Sorry for the trouble." Lin Tianhao said respectfully.

After listening to what Master Qingtianyuan said, Lin Tianhao also knew the situation of Lin Xiaoyu and his father.

After seeing off the Source Master of Qingtian, Lin Tianhao went straight to find Canzhu Buniang Shao.

Canzhu was not surprised to see Lin Tianhao coming, but asked:

"Xuedi, I also know what happened in the previous meeting."

"No."

Lin Tianhao shook his head and said:

"I want to hear the truth from you, Senior. Are you not from the Galaxy World?"

Hearing Lin Tianhao's words, Canzhubunian's eyes narrowed slightly and his expression became serious.

"Why do you say that?"

Seeing Canzhu Buniang's reaction, Lin Tianhao couldn't help but say:

"It seems you really aren't!"

Canzhu was not young and hesitated to speak, and finally said slowly:

"I'm indeed not from the Galaxy World, but I can't tell you more information."

"You don't need to worry. I can tell you responsibly that I came to the Galaxy World just to get a piece of the pie in this chaotic world."

"In terms of fighting against the Arlet Galaxy army, I am the same as you. My faith will not waver."

"It's also a way for me to gain resources."

Lin Tianhao hesitated for a moment, then asked:

"What about your identity? Is it fake too?"

"It's not fake, it's all premeditated. Let me put it this way, in the grand scheme of the Galaxy world, I'm just an insignificant person."

"I was lucky. I heard some rumors before the game of Galaxy World officially started, so I joined the game early."

"I am the only old Taoist priest on Blue Star."

Lin Tianhao's eyes narrowed slightly. "You mean... a hundred years ago, this plan of the Galaxy World began?"

"What are you planning?" Lin Tianhao asked.

Canzhu Bu Nian Shao shook his head and said, "I don't know much, and what I know cannot be said."

"But you should be able to feel that you are not a native of the Galaxy World. According to the information I have learned, there is no one as awesome as you in the Galaxy World."

"Then what do you think my identity is?" Lin Tianhao asked.

Canzhu Bu Nian Shao shook his head and said, "I don't know about that, but I feel like you don't know much. Therefore, I suspect that you might be a genius from a certain family, sent here to gild yourself."

"After all, in the endless starry sky, it is almost impossible to grow to your level in just a few years."

"You are able to grow so fast because you are consuming the potential and resources of the galaxy world."

Lin Tianhao took a deep breath and asked, "Are there many people like you in the Galaxy World?"

"Not like me, but like us."

Canzhu Bu Nian Shao said very seriously:

"I don't know what's so special about the Galaxy World, but I guess there are quite a few people like us."

"At least... the Starry Sky Administration, the Thunder Punishment Temple, and some other superpowers should all have their own layout in the Milky Way world."

"Otherwise, do you think they will come out to balance the fighting power of both sides?"

"The longer this battle lasts, the more they will gain."

Lin Tianhao's expression became more and more serious. What Canzhu Buniang told him today subverted his imagination.

original.....

Lin Tianhao felt that he and his sister were the unique existences in the galaxy world.

Later, Lin Tianhao thought that glasses might be the same.

But...that's all.

But now... Lin Tianhao realized that the chess game in the galaxy world was even bigger than he had imagined.

Before, he naively believed that the confrontation between the Milky Way and the Aleta Galaxy was to train him.

But now...

Lin Tianhao then realized how naive his thoughts were.

He... is at most one of the many blood-sucking insects in the galaxy world.

At most, it's the bigger one.

suddenly.

Lin Tianhao thought of the monsters sealed underground on Blue Star.

Could those sealed monsters be related to the super powers' plan for the galactic world?

This possibility exists and is very high.

After all, according to the information Lin Tianhao has learned now, the Source God Realm is a relatively powerful existence in the Divine Realm.

The tens of trillions of eternal life forms here are both a disaster and an inestimable treasure!
